(b) *Substantial change during first year of Interest Credit Agreement.* The County Supervisor will not be responsible for checking to see if a substantial change has occurred. If, however, it comes to his attention that a borrower has had a substantial increase in income but less than that described in paragraph 9. (a)(4) of this Exhibit, the borrower's situation will be reviewed at the next review period and the Interest Credit Agreement canceled or, if the borrower is still eligible for interest credit in accordance with paragraph 4. (a)(1)(ii), a new agreement will be executed. For borrowers who have experienced a reduction in income as defined in paragraph 2. (d) of this Exhibit, a new agreement may be executed during the next review period if the borrower is experiencing difficulty in meeting payments due and requests that a new Interest Credit Agreement be authorized. When a new Interest Credit Agreement is processed because of substantial change as defined in paragraph 2. (d) of this Exhibit, the old agreement will be canceled as of December 31 for annual installment note borrowers and 1 day prior to the anniversary date of the initial loan for monthly installment note borrowers. For annual installment note borrowers, the new agreement will be effective on January 1. For monthly installment note borrowers, the new agreement will be effective on the anniversary date of the initial loan.

(c) *Use of interest credits in servicing loans.* Interest credits may be authorized by the State Director at any time when necessary to avoid liquidation of the loan, provided he determines that:

(1) The borrower is likely to repay the loan and correct any other defaults that may exist if interest credits are granted;

(2) The loan and borrower qualify for interest credits in accordance with the conditions of paragraph 3. of this Exhibit for borrowers receiving an initial or subsequent loan; and

(3) In cases where a borrower's spouse has abandoned the family and no separation or divorce proceedings have been stated but his or her whereabouts has been unknown for at least 1 year, interest credits may be granted on the loan provided the remaining spouse is occupying the dwelling, owns a legal interest in the property and is liable for the unpaid RH debt; has had the RH loan account put in his or her name only, and is otherwise eligible for interest credits.

(d) *Interest credits for borrowers not presently receiving such assistance.* A borrower who is not now receiving interest credits because he was ineligible at the time of receiving his initial loan or because his agreement was canceled may be granted interest credits during the review period described in paragraph 2. (c) of this Exhibit if he is eligible for such assistance.

(e) *Other renewal of existing Interest Credit Agreements.* Renewals of Interest Credit Agreements may be authorized by the State Director when, for some reason beyond the control of the borrower or County Supervisor the processing of the agreement was not completed during the review period.

5. *Processing interest credits.*—(a) *Preparation of Form FmHA 444–6 or 444–A6.* Form FmHA 444–6 or Form FmHA 444–A6 will be completed in accordance with guidelines for preparation of these forms available in all FmHA offices.

(b) *Effective period.* The Interest Credit Agreements for borrowers whose loans are made on the basis of monthly installments will be effective for 2 years from the date of loan closing. The Interest Credit Agreements for borrowers whose loans are made on the basis of annual installments will be effective through the second December 31 after the loan closing.

(c) *Submission of Interest Credit Agreement to the Finance Office.* The executed original of Form FmHA 444–6 should be submitted to the Finance Office immediately after the loan is closed and Form FmHA 444–A6 should be submitted not later than the date the review period for the existing Interest Credit Agreement expires.

(d) *Preparation of transaction record.* For borrowers who have an Interest Credit Agreement in effect, the following changes will be shown on Form FmHA 451–26, "Transaction Record," or Form FmHA 451–31, "Borrowers Transaction Record," when prepared by the Finance Office:

(1) Interest rate field. The interest rate field of the form will continue to show the interest rate on the note. The Finance Office will compute the effective interest rate charged the borrower based on the amount of interest credit granted. The computed rate, rounded to the nearest ⅛ of a percent, will be shown as a footnote on the form as "Interest Rate Reduced to ____%." Subsequent transactions will be applied by the Finance Office to the loan at the reduced interest rate until such time as renewal or cancellation occurs.

(2) Daily interest accrual field. The daily interest accrual will be shown at the reduced interest rate and interest will accrue at the same rate until such time as the agreement is renewed or canceled.

(3) Application of credit field. The initial transaction record form will not have an entry in the "application of credit" field. The Interest Credit Transaction Code for this method of processing interest credits will be 4 Z.

(4) Payment status field. The payment status field will not reflect the dollar amount of the interest credit granted.

(5) Minimum amount due by date shown field. The amount of the installment, reduced by the amount of interest credit granted as indicated on the Forms FmHA 444–5 or FmHA 444–A6 will be shown.

(e) *Advance from insurance fund.* The repayment schedule for advances made from the rural housing insurance fund will be computed at the interest rate shown on the Promissory Note. However, interest will accrue and payments will be applied on the amount advanced at the reduced interest rate in effect at time of payment.

6. *Processing interest credit renewals*—(a) *Finance Office actions.* At the beginning of the review period, the Finance Office will mail to the County Offices a list of borrowers whose Interest Credit Agreements are expiring, together with a package to be mailed by the County Supervisor to the borrowers. The package will contain the following:

(1) A letter of explanation and instructions for completing the Interests Credit Agreement (Exhibit E–2);

(2) Form FmHA 444–A6 (3 parts with carbon interleaved);

(3) Two Forms FmHA 410–5 (The County Office name and address will be preprinted in the space provided.); and

(4) Three window envelopes (to be used by the borrower in mailing Interest Credit Agreements to the County Offices and for the employer to mail the Verification of Employment forms to the County Office).

(b) *Form preparation.* The Interest Credit Agreement will have the following information preprinted by the computer:

(1) Borrower's name and address;

(2) County Office name and address;

(3) Borrower's case number;

(4) Amount of loan(s) and date of loan(s);

(5) Amount of annual or monthly installment at note interest rate;

(6) Amount of installment to show payment if the loan had been amortized at 1 percent interest rate; and

(7) Amount of the difference between installments at note interest rate and 1 percent rate.

(c) *Borrower responsibility.* Upon receipt of the package, the borrower will give one copy of the Verification of Employment form to the employer or employers of each member of the family who has income to be considered. A window envelope will be provided each employer to facilitate the mailing of the Verification of Employment form directly to the County Office. The borrower will also complete part 2 of the Interest Credit Agreement form (leaving carbon intact), sign the original form and mail the original and all copies to the County Office. After receiving the executed Interest Credit Agreement from the borrower and the Verification of Employment form from the employer, the County Supervisor will complete the Interest Credit Agreement and, if the borrower is eligible for interest credits, the County Supervisor will send the original of the Interest Credit Agreement to the Finance Office, retain one copy in the County Office, and return the other copy to the borrower. Borrowers not eligible to continue to receive interest credits will be notified and informed of the amount of their revised payments. A new Supplementary Payment Agreement will be obtained when needed.

(d) *Notice of interest credits not received.* Prior to the end of the review period, the Finance Office will send to the County Office a list of borrowers for whom a renewal Interest Credit Agreement has not been received. The County Office staff will place a checkmark in the appropriate column of the list to indicate those borrowers who are no longer eligible for interest credits or whose agreement will not be renewed. A renewal Interest Credit Agreement for all other borrowers whose names appear on the list should be completed and mailed to the Finance Office by the end of the review period. The original of the completed list will be retained in the County Office and a copy returned to the Finance Office.

(e) *Processing Interest Credit Agreements not received during the review period.* Interest Credit Agreements not received during the appropriate review period will be processed by the Finance Office as follows:

(1) The effective date of the adjusted interest rate will be the date of the latest credit or charge to the account prior to the time the agreement is received or the effective date of the agreement, whichever is later. Loan account transactions processed prior to this effective date will not be reversed and reapplied.

(2) The monthly or annual installment will be increased or decreased by the amount of the interest credit granted.

(3) Transactions processed to the account subsequent to the effective date will be applied at the adjusted rate of interest.

7. *Interest credits on loans made to repair or rehabilitate a dwelling (Incentive Program).*

(a) *Incentive interest credits.* To encourage the repairing or rehabilitation of existing dwellings, an eligible applicant may receive interest credits to reduce the effective interest rate on section 502 RH loans made to repair or rehabilitate a dwelling already owned by the applicant provided the following conditions are met:

(1) The loan is approved after April 29, 1974;

(2) The dwelling is occupied or will be occupied by an eligible borrower after the loan is made;

(3) The amount of the loan may not exceed $7,000 or be amortized for more than 25 years;

(4) The repair will be made to bring a substandard dwelling up to the minimum property standards for a section 502 RH loan; and

(5) The applicant's net worth, excluding the value of the site and dwelling being improved, household goods and the debts against them, does not exceed $5,000 unless prior authorization is received from the State Director. In making such determinations, the State Director will consider the nature of assets such as a farm, business, etc., from which the applicant is dependent for a livelihood.

(b) *Interest rate.* Interest credits granted and the effective interest rate charged on loans made under this paragraph will be based on the applicant's adjusted family income as determined in accordance with § 1822.15(a) of this Subpart. All parts of Form FmHA 444–6, "Interest Credit Agreement," will be completed, except for the two interest credit computation blocks in section 3 of the form. The letters "RR" will be entered in the blank space immediately above the case number block on the form. The amount of interest credits granted and shown in section 4 of the Interest Credit Agreement will be the difference between the Promissory Note installment and the installment for the loan at the reduced interest rate. The reduced interest rate will be as follows:

(1) For applicants whose adjusted family income is not more than $3,000, interest will be charged at the rate of 1 percent.

(2) For applicants whose adjusted family income is more than $3,000 but not more than $5,000, interest will be charged at the rate of 2 percent.

(3) For applicants whose adjusted family income is more than $5,000 but not more than $7,000, interest will be charged at the rate of 3 percent.

(c) *Limitations.* Borrowers qualifying for interest credit assistance under both paragraphs 3. and 7. of this Exhibit will be granted only the one type of interest credit assistance that is most beneficial to them. Interest credits on initial and subsequent loans will always be the same type. There is no provision for switching from one type of interest credit assistance to the other. Presently indebted section 502 RH borrowers who qualify may receive interest credits on subsequent loans for repair or rehabilitation even though the borrower may not now be receiving interest credit assistance.

(d) *Review of Interest Credit Agreements.* Interest Credit Agreements approved under this paragraph 7. will be reviewed during the same scheduled review period as for other Interest Credit Agreements. Renewal agreements will be completed in accordance with paragraph 7. (b) for those families who qualify for additional interest credit assistance.

(e) *Notation of Form FmHA 444–2, "Housing Fund Analysis."* The notation "8–RR" will be entered after line 1 in the "type of assistance" block on Form FmHA 444–2, for applicants who will receive interest credits under this authority.

8. *Improper Interest Credit Agreements.* Servicing actions under this paragraph will be taken when incorrect information provided by a borrower or an error by the County Supervisor or other FmHA employee resulted in the borrower receiving excessive interest credits of more than $60 annually.

(a) *Determining improper interest credits.* Whenever there is a reason to believe that a borrower received more interest credit than he was entitled to because an improper Interest Credit Agreement may have been executed, the information on which the agreement was based will be verified immediately. A report on the case will be sent to the State Director. The State Director is responsible for taking the necessary action to correct improper interest credits subject to the following:

(1) If there is any indication of fraud or fiscal irregularity, he will refer the case to the Director of the Regional Office of Investigation for a determination as to whether it warrants an investigation. If the Regional Director determines that his office should investigate the case, Farmers Home Administration personnel will assist in any way requested.

(2) If the Regional Director determines that his office should not handle the investigation, he will inform the State Director of this decision. The State Director will then have a detailed review made by a member of his staff. He will review the findings and determine whether fraud or fiscal irregularities have occurred. If so, he will take the actions prescribed in § 1871.22 of this Chapter and other appropriate regulations.

(b) *Falsification or error by borrowers.* When an excessive interest credit has been granted because the borrower intentionally or otherwise provided incorrect information, the following actions will be taken:

(1) The State Director will request the Finance Office to cancel the Interest Credit Agreement as of the effective date of the current Form FmHA 444–6, "Interest Credit Agreement (Section 502 RH Loans)," or earlier FmHA 444–6 involved in the review or investigation. The Finance Office will then reapply any payments to the account at the note rate of interest or at the rate of the corrected Interest Credit Agreement and will notify the County Supervisor and borrower of any adjustment made in the account.

V 39 I 251 DEC 30 74 XUM

(2) The State Director will inform the borrower by certified mail (return receipt requested) of his findings and that the interest credit will be canceled. He also will inform him of any other action being taken or planned.

(3) Further handling of the case will be one of the following:

(i) If there is evidence of a criminal violation by the borrower, the case will be handled in accordance with § 1871.22(c) of this Chapter.

(ii) If the borrower's action appears to have been deliberate and a major error occurred, liquidation action may be warranted. Such actions may be taken, for example, if the information obtained indicates that the borrower was not eligible for an RH loan. Such a borrower would be asked to repay promptly the RH loan by refinancing or otherwise satisfy the account. In other cases, the borrower may already be in default and the fact that he had not correctly reported his income may justify liquidation of the loan. If immediate liquidation is likely to be detrimental to the financial interest of the Government, the State Director may arrange to have the borrower repay the loan in not more than 5 or 10 years, as appropriate, in accordance with § 1872.17(g) of this Chapter.

(iii) In all other cases, if the borrower cannot or will not reimburse the FmHA for the improper advance and immediate liquidation action is not warranted, the State Director may decide to continue with the loan. In such a case, he will cancel the amount of improper interest credit that we advanced. The amount of improper interest credit will be charged to the borrower's account and become immediately due and payable. The borrower must be advised by letter that he will be charged interest at the note rate on the amount until it is repaid.

(c) *Error by County Supervisor or other FmHA employee.* Where the borrower presented correct information and an FmHA employee erroneously granted the interest credit, the following actions will be taken:

(1) The State Director will request the Finance Office to cancel the Interest Credit Agreement as of the effective date of the current Form FmHA 444–6 or any earlier Form FmHA 444–6 involved in the review or investigation. The Finance Office will then reapply any payments made on the account during the period covered by the erroneous Interest Credit Agreement or agreements under review at the note rate of interest or at the rate of the corrected Interest Credit Agreement. The County Supervisor and borrower will be notified of adjustments made in the account.

(2) The County Supervisor will make a diligent effort to obtain restitution of the improperly advanced interest credit from the borrower. If this cannot be done, the County Supervisor will so inform the Finance Office by letter as soon as possible and in no case later than the end of the next interest credit review period for the loan. The Finance Office will then prepare Form FmHA 451–26, "Transaction Record," showing a loan schedule status adjustment for the improperly advanced interest credit. The borrower's account will be reported as current as of the last installment date unless the case is delinquent prior to the loan schedule status adjustment. The adjustment will only be for the amount of the improperly granted interest credit and other past due installments will continue to be reported as delinquent. The borrower will then repay the improperly advanced interest credits by increasing his monthly payment within his ability. The State Director will inform the borrower by letter that he will be charged interest at the note rate on this amount until it is repaid. A copy of such letter will be sent to the County Office.

(3) If, for any reason, the FmHA cannot continue with the loan, liquidation action will be promptly taken.

(d) *When the borrower is entitled to a lower amount of interest credit.* A corrected Interest Credit Agreement showing the proper amount of interest credit to which the borrower was entitled will be submitted to the Finance Office to replace the improper Interest Credit Agreement. The notation "corrected in accordance with Exhibit E of Subpart A of Part 1822" will be entered in the blank space next to the title line of the corrected Form FmHA 444–6. The improper Interest Credit Agreement will be canceled as of its effective date. Other cancellations of Interest Credit Agreements will be accomplished in accordance with paragraph 9., of this Exhibit.

9. *Cancellation of existing Interest Credit Agreements.*

(a) *Reasons for cancellation.* An existing Interest Credit Agreement will be canceled whenever:

(1) The borrower has never occupied the dwelling and the FmHA will not continue with the loan;

(2) The borrower ceases to occupy the dwelling;

(3) The borrower sells or conveys title to the property;

(4) The borrower has had a substantial increase in income and is clearly able to repay the loan without interest credits.

(b) *Effective date of cancellation.* The effective date of cancellation for paragraph 9. (a)(1) will be date of loan closing. The effective date of cancellation for paragraph 9. (a) (2), (3), and (4) will be the date on which the earliest action occurs which causes the cancellation. If the date cannot be determined, the date on which the County Supervisor became aware of the situation will be used. In cases where foreclosure action is being taken against a borrower and none of the conditions outlined in paragraph 9. (a) (1), (2), (3), and (4) exist, the Interest Credit Agreement will remain in effect until the final foreclosure action is completed. However, if the existing Interest Credit Agreement expires before foreclosure action is completed, further interest credits will not be granted.

(c) *Notification to the Finance Office.* The County Supervisor will determine the date of cancellation and notify the Finance Office on Form FmHA 444–15, "Interest Credit Agreement Cancellation." The Finance Office will process the cancellation and will accrue interest from the date of cancellation at the rate of interest shown in the Promissory Note. Prompt notification to the Finance Office, using Form FmHA 444–15, is extremely important as any transaction affecting the borrower's account subsequent to cancellation will be incorrect if cancellation action has not been completed by the Finance Office.

EXHIBIT E–2—INTEREST CREDIT AGREEMENT RENEWAL

DEAR (FmHA Borrower): The Interest Credit Agreement you signed, reducing the effective interest rate on your Rural Housing loan, expires soon. In order to determine whether you are eligible to continue to receive a reduction in your housing loan payment, we will need information about:

1. Your income and the incomes of others living in your home.

2. The ages and relationship to you of others in the household.

3. The amount of real estate taxes paid by you on your home each year reduced by any tax exemptions available but not taken.

4. The amount of fire or hazard insurance you pay each year on your home.

This information must be provided promptly to the Farmers Home Administration by completing the enclosed Interest Credit Agreement and, when applicable, the enclosed Request for Verification of Employment should also be completed.

1. Interest Credit Agreement: This form must be completed correctly and fully. If you are self-employed or a farmer, contact the County Supervisor for an appointment so that he may assist you in providing the required information. Otherwise, provide complete information in section 2 of the agreement, sign the form in the space provided and send all copies of the form to the Farmers Home Administration County Office using one of the enclosed envelopes.

2. Request For Verification of Employment: If you are not self-employed or are not a farmer, you should have your employer complete this form. Furthermore, a form should be prepared for each member of your family who has reached the legal age of majority in the state and receives income from salary or wages. You and other employed members of your family should each complete items 1, 2 and 3 of a Request for Verification of Employment form, sign it in block 4 and send or give it, with one of the enclosed envelopes, to each employer with a request that the form be completed within 10 days and sent to the Farmers Home Administration County Office. To ensure that the form is returned to the County Office, you should place a stamp on the envelope before giving it to the employer. If more than two members of your family receive a salary, additional copies of the form should be obtained from the FmHA County Supervisor.

After the County Supervisor has received all of the required information, he will return a copy of the Interest Credit Agreement form to you. The agreement will show the amount of interest credit, if any, that will be credited to your loan account.

Failure to provide complete and accurate information or to return the forms promptly to the Farmers Home Administration may result in your not receiving additional interest credits and the payments on your loan being increased.

If you have any questions, contact the local County Supervisor immediately.

Effective date. This revision is effective December 30, 1974.

Dated: December 19, 1974.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.74–30342 Filed 12–27–74;8:45 am]

Title 14—Aeronautics and Space

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 13883; Amdt. SFAR 27–1]

PART 11—GENERAL RULEMAKING PROCEDURES

EPA FUEL VENTING EMISSION STANDARDS EFFECTIVE JANUARY 1, 1975

Compliance

Special Federal Aviation Regulation (SFAR) No. 27 is to require compliance with Environmental Protection Agency (EPA) fuel venting emission standards that are effective beginning January 1, 1975. These EPA standards, specified in 40 CFR Part 87, apply to new and in-use aircraft turbofan or turbojet engines of less than 8,000 pounds thrust, to new and in-use aircraft turbopropeller engines,

and to airplanes powered by those engines. The primary basis for this amendment is section 232 of the Clean Air Act, as amended. Editorial improvements are also made.

Notice No. 74-23 was published in the FEDERAL REGISTER on June 27, 1974 (39 FR 23271), stating that the Federal Aviation Administration was considering amending SFAR 27 to require compliance with certain EPA fuel venting emission standards made effective by that Agency on January 1, 1975. Interested persons were afforded an opportunity to participate in the proposed rule making. Due consideration was given to all relevant matter presented.

Five comments were received in response to the notice with two commentators objecting. One commentator stated that the proposed regulation would have no marked effect on the environment and was merely "regulation for regulation's sake." According to the commentator, the great majority of aircraft affected by the proposal are already in compliance with the proposed standards. In addition, the commentator objected to one of the means of complying with the regulation, that is, manually draining the fuel from a holding tank into a container. The commentator stated that this means of compliance did not control how the drained fuel is disposed of.

With respect to the environmental benefits of the substantive standards of EPA Part 87 that are added to SFAR 27 by this amendment, this factor was considered by EPA in its promulgation of Part 87. Regarding the ground handling of fuel after it is drained into a container, this issue involves airport fuel storage and ground fuel management practices that may justify future study. The FAA invites comments concerning the contribution of specific ground fuel handling practices to air quality deterioration, including suggestions concerning means of ensuring that drained fuels are not later evaporated into the atmosphere, thus defeating the intent of the fuel venting emissions regulations.

One commentator addressed the applicability of this amendment to foreign registered aircraft operated in the United States. This commentator stated that "unilateral regulations such as those proposed would be contrary to certain obligations assumed by the United States as a party to the Chicago Convention and to a number of bilateral air transport agreements." The commentator referred to § 1 of the SFAR which, pursuant to § 87.3 of EPA Part 87, provides that the SFAR "does not apply where inconsistent with an obligation assumed by the United States to a foreign country in a treaty, convention, or agreement." The commentator suggested that standards, such as those in this amendment, should be developed internationally through the International Civil Aviation Organization. The FAA agrees that it is most desirable that the introduction of standards affecting international civil aviation be accomplished in an orderly fashion through the development of international standards. However, it is the position of the U.S. that no international treaties, conventions, or agreements currently prevent the FAA from exercising its duties under the Clean Air Act Amendments of 1970 and EPA Part 87. Therefore, SFAR 27, including this and subsequent amendments, must be applied to foreign airplanes as prescribed in section 1 of the SFAR.

In response to the fuel venting emissions provisions of EPA Part 87 that become effective on January 1, 1975 (namely Subpart B of EPA Part 87), this amendment adds definitions of "Class T1," and "Class P2" engines that are identical to those in § 87.1 of EPA Part 87, and adds references to those engine classes, and to the compliance date (January 1, 1975) in the appropriate sections of the SFAR.

Finally, editorial changes are made to the regulation. One editorial change restructures the paragraphs containing the references to the incorporated provisions of EPA Part 87 in order to standardize the form of those references where possible.

Another editorial change eliminates possible confusion concerning the effect of section 14(a) on the fuel venting emissions requirements of the SFAR. Section 14(a) states that compliance with the applicable fuel venting provisions "may be shown by any means of compliance, applied to the airframe or engine, that prevents * * *" However, the subsequent sections of the SFAR could be individually read as requiring that fuel venting emissions compliance must be shown for the engine (and may not be shown for the airframe alone). This is not intended. To ensure that there is no question that the required means of showing compliance with the applicable fuel venting emissions requirements may be applied to the airframe or engine, the words "airframe or engine" are added to the fuel venting emissions requirements. Consistent with this intent, the requirement in section 19 of the SFAR that fuel venting emissions requirements be met as a condition to the issuance of an airworthiness approval tag (FAA Form 8130-3) is deleted for two reasons: First, it is meaningless as a general requirement since section 14(a) provides that fuel venting emissions requirements need not be met by engines if airframe modifications show compliance. Second, it is redundant since, under section 25 of the SFAR, if the airframe does not comply with fuel venting emissions requirements, and the engine also does not comply, the airplane may not be operated. There is, thus, no need to apply the fuel venting emissions requirement at the engine airworthiness approval tag stage. Similarly, since, as stated above, the effect of section 14(a) is that an engine need not comply with any of the fuel venting emissions requirements of the SFAR if the airframe complies, and since airplane type certification approves the complete airplane (including its engines), the lead-in paragraphs of sections 15 and 17 (concerning the issuance of type certificates, amended type certificates and supplemental type certificates) have been revised to refer only to certification of the airplane. No substantive change in practice results from these changes to sections 15, 17, and 19 since they merely bring those sections into closer conformity with the intent of section 14(a), which already applies throughout the SFAR. Further notice and public procedure on these changes is, therefore, unnecessary.

As stated above, the requirements of 40 CFR Part 87 that are incorporated in this amendment become effective beginning on January 1, 1975. Section 232 of the Clean Air Act, as amended (42 U.S.C. 1857f-10) requires the Secretary of Transportation to prescribe regulations to insure compliance with all standards prescribed under § 231 of that Act (42 U.S.C. 1857f-9), which include the newly incorporated provisions of Part 87. Accordingly, this amendment must be effective no later than January 1, 1975. Good cause, therefore, exists for making this amendment effective in less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 232, Clean Air Act, as amended December 31, 1970, Pub. L. 91-604 (42 U.S.C. 1857 f-10), as delegated (36 FR 8733); 40 CFR Part 87 (39 FR 19068); secs. 307(c), 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1348(c), 1354(a), 1421, and 1423; sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

In consideration of the foregoing, SFAR 27 is amended, effective January 1, 1975, as follows:

1. Section 13 is amended by adding the following new paragraphs (a)(6) and (a)(7).

Section 13 Engine classes and test conditions. (a) * * *

(6) "Class T1" means all aircraft turbofan or turbojet engines (except engines of Class T5) of rated power less than 8,000 pounds thrust.

(7) "Class P2" means all aircraft turboprop engines.

* * * * * *

2. Section 14(a) is amended by inserting the words "and beginning on January 1, 1975" after the words "February 1, 1974."

3. Section 15 is amended to read as follows:

Section 15 Type certificates. Notwithstanding Part 21 of the Federal Aviation Regulations and irrespective of the date of application, no type certificate is issued, on and after the dates specified in paragraphs (a) through (c) of this section, for the airplanes specified therein, unless—

(a) For airplanes powered by engines of Class T2, Class T3, Class T4, or Class T5, the airframe or engine complies with the fuel venting emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning February 1, 1974;

(b) For airplanes powered by engines of Class T4, each engine complies with the exhaust emission requirements and related test procedures of 40 CFR Part 87 that apply beginning February 1, 1974; and

(c) For airplanes powered by engines of Class T1 or Class P2, the airframe or engine complies with the fuel venting emissions requirements and related test procedures of 40

DEC 30 1974 V 39 N 251 XUM

CFR Part 87 that apply beginning January 1, 1975.

4. Section 17 is amended to read as follows:

Section 17 Supplemental or amended type certificates. Notwithstanding Part 21 of the Federal Aviation Regulations and irrespective of date of application, no supplemental or amended type certificate is issued, on and after the date specified in paragraphs (a) through (c) of this section, for the airplanes specified therein, unless—

(a) For airplanes powered by engines of Class T2, Class T3, Class T4, or Class T5, the airframe or engine complies with the fuel venting emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning February 1, 1974;

(b) For airplanes powered by engines of Class T4, each engine complies with the exhaust emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning February 1, 1974; and

(c) For airplanes powered by engines of Class T1 or Class P2, the airframe or engine complies with the fuel venting emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning January 1, 1975.

5. Section 19 is amended to read as follows:

Section 19 Airworthiness approval tags. Notwithstanding Part 21 of the Federal Aviation Regulations, no airworthiness approval tag (FAA Form 8130–3) is issued on and after February 1, 1974, for an engine of Class T4 unless the engine complies with the exhaust emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning February 1, 1974.

6. Section 21 is amended to read as follows:

Section 21 Standard airworthiness certificates. Notwithstanding Part 21 of the Federal Aviation Regulations and irrespective of the date of application, no standard airworthiness certificate is issued, on and after the dates specified in paragraph (a) through (c) of this section, for the airplanes specified therein, unless—

(a) For airplanes powered by engines of Class T2, Class T3, Class T4, or Class T5, the airframe or engine complies with the fuel venting emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning February 1, 1974;

(b) For airplanes powered by engines of Class T4, each engine complies with the exhaust emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning February 1, 1974; and

(c) For airplanes powered by engines of Class T1 or Class P2, the airframe or engine complies with the fuel venting emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning January 1, 1975.

7. Paragraph (a) of § 25 is amended to read as follows:

Section 25 Operation. On and after the dates specified in paragraphs (a) through (c) of this section, no person may, within the United States, operate an airplane specified in those paragraphs unless—

(a) For airplanes powered by engines of Class T2, Class T3, Class T4, or Class T5, the airframe or the engine complies with the fuel venting emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning February 1, 1974;

(b) For airplanes powered by engines of Class T4, each engine complies with the exhaust emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning February 1, 1974; and

(c) For airplanes powered by engines of Class T1 or Class P2, the airframe or engine complies with the fuel venting emissions requirements and related test procedures of 40 CFR Part 87 that apply beginning January 1, 1975.

Issued in Washington, D.C., on December 23, 1974.

ALEXANDER P. BUTTERFIELD,
Administrator.

[Docket No. 74-EA-81; Amdt. 39-2057]

PART 39—AIRWORTHINESS DIRECTIVE

Fairchild Aircraft

The Federal Aviation Administration is amending section 39.13 of Part 39 of the Federal Aviation Regulations so as to amend, revise and redesignate AD 73–20–1 applicable to Fairchild F–27 and FH–227 type airplanes.

Since the promulgation of AD 73–20–1, it has appeared that some of the affected airplanes are in storage, with the possibility of their reactivation in air commerce. Since the deficiency is one of corrosion which is correlated to time, the AD is being amended to include a calendar time criterion for the inspection. The airworthiness directive is also being revised to present the substance in a clearer manner.

In view of the foregoing and because the deficiency is one which affects air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 [31 FR 13697] section 39.13 of Part 39 of the Federal Aviation Regulations is amended by amending, revising and redesignating AD 73–20–1 as follows:

Fairchild. Applies to all Fairchild F–27 and FH–227 Type Aircraft Certificated in all categories.
Compliance required as indicated:

1. Affects front and rear horizontal stabilizer spar fittings, P/N's 27–213003–11, –12 and 27–213002–11 which have accumulated 3500 hours or more in service.

a. Within the next 30 days unless accomplished within the last 11 months, inspect stabilizer spar fittings in accordance with Section 2 of Fairchild Service Bulletins F–27–55–21 and FH–227–55–12, or inspect in accordance with an approved equivalent procedure.

b. The inspections specified in "a" above, shall be repeated at intervals not to exceed 12 calendar months or 2500 hours in service from the last inspection, whichever occurs first.

2. Corroded or cracked parts shall be replaced prior to further flight.

a. Parts replacement shall be in accordance with Section 2 of Fairchild Service Bulletins F–27–55–21 and FH–227–55–12, and shall be of the same part number or approved equivalent parts.

3. The aircraft may be flown in accordance with FAR 21.197 to a base where the inspections or repairs can be performed.

4. Upon submission of substantiating data by an owner or operator through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, may adjust the inspection interval specified in this AD. Equivalent inspections or parts must be approved by the Chief, Engineering and Manufacturing Branch, FAA Eastern Region.

(Fairchild Service Bulletins F–27–55–21 and FH–227–55–12 pertain to this subject.)

This amendment is effective December 31, 1974.

This amendment is made under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 [49 U.S.C. 1354(a), 1421 and 1423], and section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Jamaica, N.Y., on December 17, 1974.

JAMES BIEPO,
Deputy Director,
Eastern Region.

[Airspace Docket No. 74-SW-33]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Area

On October 15, 1974, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (39 FR 36863) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 73 of the Federal Aviation Administration that would change the time designation of R–3803, Fort Polk, La., to continuous.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective 0901 GMT, February 27, 1975, as hereinafter set forth.

In § 73.38 (40 FR 676) the description of the time of designation for R–3803 Fort Polk, La., is changed from "continuous from June 1 through August 31; other times as activated by NOTAM issued by the using agency at least 24 hours in advance." to "Continuous."

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C. on December 23, 1974.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Regulation ER-893, Amdt. 28]

PART 298—CLASSIFICATION AND EXEMPTION OF AIR TAXI OPERATORS

Amendment To Reduce Reporting Requirements

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. December 17, 1974.

By ER–863, adopted May 20, 1974, the Board amended Part 298 of its Economic Regulations to require, inter alia, all air taxi operators—including commuter air carriers—to report annual data with respect to their overall revenue operations on a new prescribed CAB Form 298–D.

In adopting this rule, the Board indicated that the regulatory basis for the somewhat expanded quarterly reporting of statistical data by commuter air carriers and for the new annual reporting requirements by all air taxis was based partly on the needs of the National Transportation Safety Board (NTSB) and partly on the Board's own needs in fulfilling our respective regulatory responsibilities.

To the extent that the Board at that time rejected comments urging that helicopter operations be excluded from the annual reporting requirements imposed on air taxis, our action reflected deference to the regulatory needs of NTSB, which had made no distinction between fixed-wing and rotary-wing operations in requesting the Board to obtain the data. We believed that, instead of completely excluding data as to rotary-wing operations, we could better accommodate the apparent needs of NTSB by advising concerned air taxis of our readiness to grant individual waivers upon a showing of particular hardship in reporting such operations.

Since the adoption of ER–863, the Board's Bureau of Accounts and Statistics has received numerous letters from air taxi operators requesting such waivers. In support of these requests, the air taxi operators argue that the peculiarities of rotary-wing operations make it extremely difficult and burdensome to compute data pertinent to a Form 298–D report. These operations sometimes consist of many landings and takeoffs each day, including flights of only a few minutes' duration, and frequently involve flights of external load type carrying a variety of cargo and weights. It is also contended that, even if rotary-wing statistics could be readily compiled, they would be of dubious value since they would provide no meaningful comparison with other "demand-type" operations.

In light of these numerous requests, we have consulted with NTSB in considering whether to amend the rule itself, rather than to rely on individual hardship waiver procedures, in order to exclude reports on rotary-wing air taxi operations. NTSB has now advised us that its need for these data is not so great as to justify the demonstrated widespread burden which their reporting entails for air taxi operators. Accordingly, since we continue to perceive no adequate need of our own to require the inclusion of rotary-wing operations we have determined to exclude these operations from those required to be reported in the annual reports of air taxis on CAB Form 298–D.

We have also taken this occasion to reexamine our need for data related to all-cargo flights of air taxis, which are encompassed by the present rule's coverage of "all" revenue operations. Similarly, we have requested NTSB to reexamine its regulatory need for these data. Since we have concluded that the Board has no adequate need for these data and NTSB has advised us that it is primarily concerned with passenger operations so that it has no objection to the elimination of all-cargo reporting by air taxis, we are excluding such operations from those required to be reported annually on CAB Form 298–D.

To reflect the foregoing, appropriate changes are also being made to CAB Form 298–D itself.

In addition to the amendments which we are hereby making to the rule and the reporting form, we also take this opportunity to provide certain clarifications of reporting requirements imposed by ER–863, in response to various inquiries which we have received.

1. *Fuel Stops.* The regulation and the instructions for reporting on CAB Form 298–D are not intended to treat fuel stops as traffic stops. Thus, for example, an air taxi operator carrying three passengers from A to C with a fuel stop at B would report only three passengers carried and one departure performed.

2. *Passenger Travels One Way but Pays for Contracted Round Trip.* It appears to be a common practice for charterers of air taxis requiring only one-way transportation, to pay a round-trip charge which includes payment for the empty aircraft's return flight to the point of origin. In this case, both legs of the flight should be reported, since both are revenue-producing, but the number of passengers carried is only the number carried one way. Thus, for example, a passenger traveling from A to B, but paying for the contracted rate A to B to A, would be reported as follows:

Item 1. Number of Passengers Carried—1.
Item 2. Aircraft Hours Flown—(Hours from A to B and B to A).
Item 3. Aircraft Miles Flown—(Miles from A to B and B to A).
Item 4. Number of Departures Performed—2.

3. *Reporting by Commuter Air Carriers on CAB Form 298–D.* There is an apparent misunderstanding by some commuter air carriers as to whether or not they are to include, as "revenue operations" reported annually on CAB Form 298–D, the scheduled revenue operations which they are required to report quarterly on CAB Form 298–C. As indicated in § 298.67(c), the data to be reported on Form 298–D by commuter air carriers, as well as all other air taxi operators, include both scheduled and nonscheduled revenue operations.

Since the within amendment reduces reporting requirements, and thereby relieves a burden, the Civil Aeronautics Board finds that notice and public procedure hereon are not required and that the rule may be made effective immediately.

Accordingly, the Civil Aeronautics Board hereby amends Part 298 of the Economic Regulations (14 CFR Part 298), effective December 31, 1974, as follows:

1. Amend paragraph (a) of § 298.67, the revised paragraph to read as follows:

§ 298.67 Reporting instructions.

(a) Each air taxi operator (including commuter air carriers) shall file CAB Form 298–D,[1] entitled "Report of All Revenue Operations (Excluding Rotary-Wing and All-Cargo Operations) Performed by Air Taxi Operators, Including Commuter Air Carriers," in accordance with the provisions of this Part and in the manner set forth in said form which is made a part hereof and annexed hereto.

* * * * *

2. To reflect its revised title in § 298.67(a), as amended herein, amend CAB Form 298–D,[1] as attached hereto and made a part hereof.

(Secs. 204(a) and 407, Federal Aviation Act of 1958, as amended, 72 Stat. 743 and 766; (49 U.S.C. 1324 and 1377.))

By the Civil Aeronautics Board.

Effective: December 31, 1974.

Adopted: December 17, 1974.

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[FRL 313-8]

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

BENZENE HEXACHLORIDE; REVOCATION

An order was published in the FEDERAL REGISTER of September 28, 1973 (38 FR 27046), in response to Food Additive Petition No. 4H5042, establishing an interim tolerance of 7 parts per million for residues of the insecticide BHC (benzene hexachloride) in imported paprika. This interim tolerance expires December 31, 1974.

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 FR 15623), transferred (effective December 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, 409 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346, 346a, and 348).

Therefore, pursuant to provisions of the act (sec. 409(h), 72 Stat. 1788; 21 U.S.C. 348(h)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), Part 121 is amended by revoking § 121.1255 BHC.

§ 121.1255 [Revoked]

Since this revocation is merely affirmatory and is noncontroversial in nature, notice and public procedure are not prerequisites to the promulgation of this order.

[1] CAB Form 298–D filed as part of original document.

XUM 1974 DEC 30 V 39 N 251

Effective date. This order shall become effective on December 31, 1974.

(Sec. 409(h), 72 Stat. 1786; (21 U.S.C. 348 (h)))

Dated: December 20, 1974.

LOWELL E. MILLER,
Acting Deputy Assistant Administrator for Pesticide Programs.

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Robenidine Hydrochloride With Roxarsone

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (96-546V) filed by American Cyanamid Co., Princeton, NJ 08540, proposing the safe and effective use of robenidine hydrochloride with additional levels of roxarsone in medicated broiler and fryer feeds. This application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of Title 21 of the Code of Federal Regulations is amended as follows:

1. In Part 121, § 121.262(c) is amended in item 1.24 in table 1 by revising the "Grams per ton" entry in the second column to read as follows:

§ 121.262 3-nitro-4-hydroxyphenylarsonic acid.

* * * * *

(c) * * *

TABLE 1.—*3-Nitro-4-Hydroxyphenylarsonic Acid In Complete Chicken and Turkey Feed*

Title 30—Mineral Resources

CHAPTER I—MINING ENFORCEMENT AND SAFETY ADMINISTRATION, DEPARTMENT OF THE INTERIOR

PART 11—RESPIRATORY PROTECTIVE DEVICES; TESTS FOR PERMISSIBILITY; FEES

Respiratory Protection Against Exposure to Vinyl Chloride

The Secretary of the Interior, through the Mining Enforcement and Safety Administration, and the Secretary of Health, Education, and Welfare, through the National Institute for Occupational Safety and Health, conduct a testing and approval program for respirators used in occupationally hazardous atmospheres pursuant to regulation contained in this part.

On October 4, 1974, the Occupational Safety and Health Administration, following a public hearing on the matter, promulgated a standard for the control of employee exposure to vinyl chloride. The standard provides that respiratory protection shall be provided at the request of employees exposed to 25 ppm or less vinyl chloride and requires that respirators shall be selected from those approved under Part 11. Specifically, the standard requires, among other things, that where the atmospheric concentration of vinyl chloride is not over 25 ppm, any gas mask with front- or back-mounted canister or powered air-purifying respirator with canister which provides a service life of at least four hours may be used, and where the concentration is not over 10 ppm, any chemical cartridge respirator with an organic vapor cartridge which provides a service life of at least one hour may be used. The standard further requires a program to assure timely replacement of canisters or cartridges.

The purpose of the amendments set forth below is to establish special procedures for testing vinyl chloride respirators and to adopt a requirement that any canister or cartridge used to protect employees against exposure to vinyl chloride, have an end-of-service-life indicator. Unlike many other gases, vinyl chloride has no inherent warning properties. Where a gas has an odor and

where a canister or cartridge is nearing or is at the end of its useful life, the worker is aware because he can smell the gas. Vinyl chloride is odorless and colorless. Thus, with due regard for the wearer's health, any cartridge or canister should possess an end-of-service-life indicator. Section 11.205 provides that after June 30, 1975, each canister or cartridge submitted for approval must have an end-of-service-life indicator. The delay in this requirement is to give the Institute an opportunity to test the effectiveness of the indicators. Section 11.205 further provides that after December 31, 1975—when respiratory protection at 25 ppm or less becomes mandatory—respirators without an end-of-service-life indicator will not be considered approved for use by employees exposed to vinyl chloride. There is no delay in the effective date for the special tests adopted for vinyl chloride respirators.

Since it is essential that there are available approved respiratory devices for protection against exposure to vinyl chloride the Departments find that good cause exists for omitting notice of proposed amendments to Part II. Accordingly, these amendments, as set forth below, will be effective on December 30, 1974.

Dated: December 24, 1974.

JACK W. CARLSON,
Secretary of the Interior.

Dated: December 10, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

In Part II a new Subpart N for special use respirators is established and Sections 11.200–11.208 applicable to vinyl chloride respirators are added to read as follows:

Subpart N—Special Use Respirators

Sec.
11.200 Vinyl chloride respirators; description.
11.201 Required components.
11.202 Gas masks; requirements and tests.
11.203 Chemical-cartridge respirators; requirements and tests.
11.204 Powered air-purifying respirators; requirements and tests.
11.205 Requirements for end-of-service-life indicator.
11.206 Quality control requirements.
11.207 Labeling requirements.
11.208 Fees.

AUTHORITY: Secs. 202(h), 204, 508, 83 Stat. 763, 764, 803 (30 U.S.C. 842(h), 844, 957); secs. 2, 3, 5, 36 Stat. 370, as amended 87 Stat. 681 (30 U.S.C. 3, 5, 7); sec. 3(g), 84 Stat. 1600 (29 U.S.C. 657(g)).

§ 11.200 Vinyl chloride respirators; description.

Vinyl chloride respirators, including all completely assembled respirators which are designed for use as respiratory protection during entry into and escape from vinyl chloride atmospheres containing adequate oxygen to support life, are described according to their construction as follows:

(a) Front-mounted or back-mounted gas masks;
(b) Chin-style gas masks;
(c) Chemical-cartridge respirators;
(d) Powered air-purifying respirators; and,
(e) Other devices, including combination respirators.

11.201 Required components.

(a) Each vinyl chloride respirator described in 11.200 shall, where its design requires, contain the following component parts:
(1) Facepiece;
(2) Canister with end-of-service-life indicator;
(3) Cartridge with end-of-service-life indicator;
(4) Harness;
(5) Attached blower; and,
(6) Breathing tube.

(b) The components of each vinyl chloride respirator shall meet the minimum construction requirements set forth in Subpart G of this part.

§ 11.202 Gas masks; requirements and tests.

(a) Except for the tests prescribed in 11.102–5, the minimum requirements and performance tests for gas masks, prescribed in Subpart I of this part, are applicable to vinyl chloride gas masks.

(b) The following bench tests are applicable to canisters designed for use with gas masks for entry into and escape from vinyl chloride atmospheres containing adequate oxygen to support life:
(1) Four canisters will be equilibrated at 25±5° C by passing 85±5 percent relative humidity air through them at 64 liters per minute for six hours.
(2) The equilibrated canisters will be resealed, kept in an upright position at room temperature, and tested according to subparagraph (3) of this paragraph within 18 hours.
(3) The canisters equilibrated and stored as described in subparagraphs (1) and (2) of this paragraph will be tested on an apparatus that allows the test atmosphere at 85±5 percent relative humidity and 25±5° C to enter the canister continuously at a concentration of 25 ppm vinyl chloride monomer at a total flow rate of 64 liters per minute.
(4) The maximum allowable penetration after six hours of testing according to subparagraph (3) of this paragraph shall not exceed 1 ppm vinyl chloride.
(c) Where canisters are submitted for testing and approval with a service life of more than four hours, the period of time for testing for vinyl chloride penetration will be performed at 150% of the service life specified in the manufacturer's application. Example: If a manufacturer requests approval of a respirator for six hours use against exposure to vinyl chloride, the maximum allowable penetration after nine hours of testing shall not exceed 1 ppm vinyl chloride.

11.203 Chemical-cartridge respirators; requirements and tests.

(a) Except for the tests prescribed in 11.162–8, the minimum requirements and performance tests for chemical-cartridge respirators prescribed in Subpart L of this part are applicable to vinyl chloride chemical-cartridge respirators.

(b) The following bench tests are applicable to cartridges designed for use with chemical-cartridge respirators for entry into and escape from vinyl chloride atmospheres containing adequate oxygen to support life:
(1) Where two cartridges are used in parallel on a chemical-cartridge respirator, the bench test requirements will apply to the combination rather than the individual cartridges.
(2) Four cartridges or pairs of cartridges will be equilibrated at 25±5° C by passing 85±5 percent relative humidity air through them at 25 liters per minute for six hours.
(3) The equilibrated cartridges will be resealed, kept in an upright position, at room temperature, and tested according to subparagraph (4) of this paragraph within 18 hours.
(4) The cartridges equilibrated and stored as described in subparagraphs (1), (2), and (3) of this paragraph will be tested on an apparatus that allows the test atmosphere at 85±5 percent relative humidity and 25±5° C, to enter the cartridges or pairs of cartridges continuously at a concentration of 10 ppm vinyl chloride monomer at a total flow rate of 64 liters per minute.
(5) The maximum allowable penetration after two hours of testing according to subparagraph (4) of this paragraph shall not exceed 1 ppm vinyl chloride.

11.204 Powered air-purifying respirators; requirements and tests.

(a) Except for the tests prescribed in 11.162–8, the minimum requirements and performance tests for powered air-purifying respirators prescribed in Subpart L of this part are applicable to vinyl chloride powered air-purifying respirators.

(b) The following bench tests are applicable to cartridges designed for use with powered air-purifying respirators for entry into and escape from vinyl chloride atmospheres containing adequate oxygen to support life.
(1) Four cartridges will be equilibrated at 25±5° C by passing 85±5 percent relative humidity air through them at 115 liters per minute for tight-fitting facepieces and 170 liters per minute for loose-fitting hoods and helmets, for six hours.
(2) The equilibrated cartridges will be resealed, kept in an upright position at room temperature and tested according to subparagraph (3) of this paragraph within 18 hours.
(3) The cartridges equilibrated and stored as described in subparagraphs (1) and (2) of this paragraph will be tested on an apparatus that allows the test atmosphere at 85±5 percent relative humidity and 25±5° C to enter the cartridge continuously at a concentration of 25 ppm vinyl chloride monomer at a total flow rate of 115 liters per minute for tight-fitting facepieces and 170 liters per minute for loose-fitting hoods and helmets.

DEC 30 1974 XUM

(4) The maximum allowable penetration after six hours of testing according to subparagraph (3) of this paragraph shall not exceed 1 ppm vinyl chloride.

§ 11.205 Requirements for end-of-service-life indicator.

(a) After June 30, 1975, each canister or cartridge submitted for testing and approval in accordance with §§ 11.202, and 11.203, and 11.204 shall be equipped with a canister or cartridge end-of-service-life indicator which shows a satisfactory indicator change or other obvious warning before 1 ppm vinyl chloride penetration occurs. The indicator shall show such change or afford such warning at 80±10 percent of the total service life to 1 ppm leakage, as determined by continuing each test described in paragraphs (b) of each of §§ 11.202, 11.203, and 11.204 of this Subpart until a 1 ppm leakage of vinyl chloride occurs. After December 31, 1975, a cartridge or canister without an end-of-service-life indicator will not be considered approved for use by employees exposed to vinyl chloride.

(b) The applicant shall provide sufficient pretest data to verify the performance of the end-of-service-life indicator required in paragraph (a) of this Section.

§ 11.206 Quality control requirements.

(a) In addition to the construction and performance requirements specified in Sections 11.201, 11.202, 11.203, 11.204, and 11.205 of this Subpart, the quality control requirements in paragraphs (b), (c), and (d) of this section apply to approval of gas masks, chemical cartridge respirators, and powered air-purifying respirators for entry into and escape from vinyl chloride atmospheres containing adequate oxygen to support life.

(b) The respirators submitted for approval as described in paragraph (a) of this Section shall be accompanied by a complete quality control plan meeting the requirements of Subpart E of this Part.

(c) The applicant shall specify in the plan that a sufficient number of samples will be drawn from each bulk container of sorbent material and that where activated carbon is used, the following specific tests will be performed:

1. Apparent density,
2. Iodine number,
3. Moisture content,
4. Carbon tetrachloride number, and,
5. Mesh size.

Such tests shall be performed in a quantity necessary to assure continued satisfactory conformance of the canisters and cartridges to the requirements of this Subpart.

(d) Final performance quality control tests on the complete canisters and cartridges shall be accomplished using the bench tests and procedures prescribed in §§ 11.202, 11.203, 11.204, and 11.205 of this Subpart.

11.207 Labeling requirements.

A warning shall be placed on the label of each gas mask, chemical-cartridge respirator, and powered air-purifying respirator, and on the label of each canister and cartridge, alerting the wearer to the need for a fitting test in accordance with the manufacturer's facepiece fitting instructions, providing service life information, providing specific instructions for disposal, and advising that the wearer may communicate to NIOSH any difficulties that may be experienced in the design and performance of any gas mask, chemical-cartridge respirator, or powered air-purifying respirator approved under the requirements of this Subpart. The service lives of respirators meeting the test requirements of this Subpart shall be specified as follows:

(a) Chemical-cartridge respirator.	1 hour
(b) Gas mask	4 hours
(c) Powered air-purifying respirator.	4 hours

(d) Where the service life of a respirator is approved for more than four hours, the service life for which the respirator has been approved will be specified.

11.208 Fees.

The following fees shall be charged for the examination, inspection, and testing of complete assemblies and components of respirators described in §§ 11.200 and 11.201 of this Subpart.

(a) Complete gas mask	$1,100
(b) Complete chemical-cartridge respirator.	1,150
(c) Complete powered air-purifying respirator.	1,500
(d) Canister or cartridge only.	750

CHAPTER II—GEOLOGICAL SURVEY

PART 250—OIL AND GAS AND SULPHUR

Operation in the Outer Continental Shelf Helicopter Refueling Facilities

On April 15, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 13551) which proposed to amend § 259.19(a) of the Outer Continental Shelf Operating Regulations. The proposed amendment provided that the Area Oil and Gas Supervisor of the Geological Survey could require that oil and gas lessees on the Outer Continental Shelf provide the use of helicopter refueling sites maintained on platforms, fixed structures or artificial islands for helicopters employed by the Department of the Interior in connection with OCS lease management activities.

After reviewing all the comments received, it was decided that the intent of the amendment needed clarification on two items. First, it was not intended that offshore helicopter refueling sites would be required to be constructed solely for the use of helicopters employed by the Department of the Interior, but that any established refueling site would be accessible to helicopters used by the Department of the Interior during the inspection of OCS operations. Second, it is not intended that expenses incurred by the lessee as a result of the Government's use of the refueling site not be reimbursed. As a result, § 250.19(a) is revised to reflect these changes.

Effective date: This amendment shall be effective January 1, 1975.

Dated: December 23, 1974.

C. K. MALLORY,
Deputy Assistant Secretary of the Interior.

Paragraph (a) of § 250.19 is revised to read as follows:

§ 250.19 Platforms and pipelines.

(a) The supervisor is authorized to approve the design, other features, and plan of installation of all platforms, fixed structures, and artificial islands as a condition of the granting of a right of use or easement under paragraphs (a) and (b) of § 250.18 or authorized under any lease issued or maintained under the act. The Supervisor is authorized to require that lessees maintaining existing platforms, fixed structures and artificial islands equipped with helicopter landing sites and refueling facilities provide the use of such facilities for helicopters employed by the Department of the Interior in inspection operations on the Outer Continental Shelf. The Supervisor is further authorized, in approving the design of any new platform, fixed structure, or artificial island which includes a helicopter landing site and refueling facilities to require that the lessee provide the use of such facilities for helicopters employed by the Department of the Interior in inspection operations on the Outer Continental Shelf. As determined by the Supervisor, the lessee shall be reimbursed for reasonable costs incurred in connection with the use of such facilities by helicopters employed by the Department.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL-313-7]

SUBCHAPTER C—AIR PROGRAMS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Review of Indirect Sources

On February 25, 1974 (39 FR 7270), the Administrator of the Environmental Protection Agency (EPA) promulgated an indirect source review regulation (40 CFR 52.22(b)) to be incorporated into the Clean Air Act implementation plans for 52 states and territories. The regulation was repromulgated with clarifying amendments on July 9, 1974 (39 FR 25292). As currently promulgated, the regulation requires affected facilities which commence construction after December 31, 1974 to secure a permit from EPA before proceeding with construction. 40 CFR 52.22(b)(3). The regulation has been effective for purposes of processing applications since July 1, 1974.

The Administrator is today suspending implementation of the review procedures under the regulation pending further notice. No facility which commences construction or modification prior to July 1, 1975 will be subject to the Federal indirect source regulation. Certain other questions relating to the regulation are now being reviewed by EPA. EPA expects to formulate its plans and make its intentions known on these matters within the next few weeks.

This suspension will have no effect on the applicability or validity of existing state indirect source laws or regulations, nor will it affect state indirect source laws or regulations which may be adopted hereafter, whether or not submitted to EPA for approval.

(Sections 110(a)(2)(B), 110(c) and 301(a) of the Clean Air Act, as amended (42 U.S.C. 1857c-5(a)(2)(B), 1857c-5(c), and 1857g(a)).

Dated: December 23, 1974.

RUSSELL E. TRAIN,
Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is hereby amended by adding the following new paragraph (b)(16) to § 52.22:

§ 52.22 Maintenance of standards.

* * * * * *

(b) *Regulation for review of new or modified indirect sources.* * * *

(16) Notwithstanding the provisions of any other portion of this paragraph to the contrary, implementation of the review procedures under this paragraph is hereby suspended pending further notice. No owner or operator of an indirect source for which construction or modification commences prior to July 1, 1975 shall be subject to the requirements of this paragraph.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Parts 1780, 4110]

ADVISORY BOARDS

Establishment and Composition Guidelines

The purpose of this amendment is to provide additional regulations to implement the requirements of the Federal Advisory Committee Act (86 Stat. 770; 5 U.S.C. App. I (1970)) through guidelines for the establishment and composition of advisory boards created to advise the Director, State Directors, and District Managers of the Bureau of Land Management on matters pertaining to resources and uses of the public lands under the jurisdiction of the Bureau of Land Management. This proposal supplements rules dealing with advisory boards published in the FEDERAL REGISTER on October 4, 1974. Both proposals would amend Group 1700 of Chapter II, Title 43 of the Code of Federal Regulations.

The proposed amendment would permit creation of a tri-level system of National, State or regional, and district multiple-use advisory boards to replace the present advisory board system which will terminate January 5, 1975, under the terms of section 14(a)(1) of the Federal Advisory Committee Act.

The proposed regulations do not prescribe the specific composition of State and district advisory boards. Subject to the requirements of the Federal Advisory Committee Act and these regulations, the composition of these boards would be determined on an individual basis during the development of the board charters required by Section 9(c) of the Federal Advisory Committee Act. This would permit balancing of the membership of State and district boards, at the time of chartering, to reflect the extent, intensity, and interaction of the various programs in each State or district. Under the Federal Advisory Committee Act, all advisory boards must be reviewed biennially to determine their future. Board charters are also re-examined at this time.

This proposal would also change the manner in which grazing applications are handled. All applications would no longer be routinely considered by the district advisory board. However, under this proposal, District Multiple Use Boards could be called upon by District Managers for advice and recommendations concerning protests to proposed adverse decisions on grazing applications.

The principal changes from the present advisory system are outlined below:

National Advisory Board Council is being carried forward without change from the restructure completed in December 1973, except for a procedural change in the appointment of members other than livestock and wildlife members, and a shortening of the name to "National Advisory Board."

State Multiple Use Boards are currently composed of two livestock members from each grazing district within a State, one wildlife representative, plus others not to exceed seven representing such interests as forestry, minerals, soil conservation, outdoor recreation, urban and suburban development, and county government. The proposed regulations would limit membership to twelve. The exact composition for each State board would be specified in its charter.

Oregon and California Revested Lands Advisory Board, generally called the O. and C. Board, consists of 18 members. In 1973 it had the following interests represented by the indicated number: Forestry and timber management (6); public (3); State government (1); land use (1); labor (1); ecology (1); mining (1); outdoor recreation (1); agriculture (1); resource management (1); and county government (1). The proposed regulations would reduce the overall number to twelve. The exact composition would be specified in its charter.

District Boards under the present system fall into two categories: advisory boards for grazing districts, and district O. and C. Boards for the Oregon and California Revested lands in Western Oregon. The present grazing district advisory boards are composed of five to twelve livestock members plus one wildlife representative. The O. and C. district boards are composed of twelve to fifteen members similar to the listing for the O. and C. Advisory Board in the preceding paragraph. Eleven BLM administrative districts do not have advisory boards under present regulations. Swen BLM administrative districts encompass two grazing districts, and therefore have two district advisory boards. The proposed regulations would authorize one multiple use advisory board of not more than ten members for each BLM administrative district. Exact composition would be specified in each charter.

The National Advisory Board for Wild Free-Roaming Horses and Burros will be the subject of separate rulemaking.

In accordance with the Department's policy on public participation in rulemaking (36 FR 8336), interested parties may submit written comments, suggestions, or objections with respect to the proposed rules to the Director (210), Bureau of Land Management, Washington, D.C. 20240 until February 10, 1975.

Copies of comments, suggestions, or objections made pursuant to this notice will be available for public inspection in the Division of Legislation and Regulatory Management, Bureau of Land Management, Room 5555, Interior Building, Washington, D.C., during regular business hours (7:45 a.m.—4:15 p.m.).

It is hereby determined that the publication of this amendment is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) is required.

Chapter II, Title 43 of the Code of Federal Regulations is amended as follows:

1. Subpart 1784 is amended by adding § 1784.5 through 1784.7 to read as follows:

Subpart 1784—Advisory Boards

Sec.

1784.5 National Advisory Boards.
1784.6 State and Regional Advisory Boards.
1784.7 District Advisory Boards.

• • • • •

§ 1784.5 National Advisory Boards.

(a) *National Advisory Board.* (1) *Functions and duties.* The National Advisory Board shall consider and make recommendations on policies and problems of a national scope related to resources and uses of the public lands under the jurisdiction of the Bureau of Land Management.

(2) *Membership.* The livestock members of each State Multiple Use Advisory Board shall select from its members, at a meeting of each new term, one member to represent livestock on the National Advisory Board. The wildlife member on each State Multiple Use Advisory Board will serve on the National Advisory Board representing wildlife interests as follows: in odd numbered calendar years, members from Arizona, Colorado, Idaho, Montana, California, and Alaska; in even numbered years, members from New Mexico, Utah, Wyoming, Oregon, Nevada, and Alaska. The State Directors for the Bureau of Land Management shall submit to the Director of the Bureau of Land Management a list of nominees selected from nonlivestock and nonwildlife interests in their States. From this list and from other sources as he may determine, the Director, with the concurrence of the Secretary of the Interior, shall appoint 20 members to the National Advisory Board as follows: 1 representative from the State of Washington, 1 representative from the State of Alaska, 2 mining representatives, 2 forestry representatives, 2 leasable mineral representatives, 3 outdoor recreation representatives, 2 urban-suburban representatives (including real estate

development), 1 environmental quality representative, 1 public information representative, 2 county government representatives, 1 State government representative, 1 soil and water conservation representative, and 1 public utilities representative.

(3) *Meetings.* The Board shall meet at the call of the Director, Bureau of Land Management, and shall elect its own officers. The Federal representative at all meetings shall be the Director, Bureau of Land Management, or his authorized representative.

(4) *Administrative Support.* Administrative support of the Board shall be the responsibility of the Director, Bureau of Land Management.

§ 1784.6 State and Regional Advisory Boards.

(a) *State Multiple Use Advisory Boards.* (1) *Functions and duties.* The State Multiple Use Advisory Boards shall consider and make recommendations to the State Director to whom they report on policies and problems of State or regional scope related to resources and uses of lands administered by the Bureau of Land Management in the State or States within their respective areas of jurisdiction.

(2) Areas of jurisdiction:

Board:	*States of jurisdiction*
Alaska	Alaska.
Arizona	Arizona.
California	California.
Colorado	Colorado.
Idaho	Idaho.
Montana	Montana, North Dakota, South Dakota.
Nevada	Nevada.
New Mexico	New Mexico, Oklahoma, Texas.
Oregon	Oregon, Washington.
Utah	Utah.
Wyoming	Wyoming, Kansas, Nebraska.
Eastern States	Arkansas, Iowa, Louisiana, Minnesota, Missouri, and all States east of the Mississippi River.

(3) *Membership.* From recommendations by District Managers, statewide or regional organizations and associations, and from other sources as he may determine, the State Director to whom the Board will report shall nominate no more than 12 individuals to the Director who shall, with concurrence of the Secretary, appoint a board that is balanced in terms of the points of view represented and the functions to be performed by the Board.

(4) *Meetings.* State multiple use advisory boards shall meet at the call of the State Director to whom the board reports and shall elect their own officers. The Federal representative at all meetings shall be that State Director or his authorized representative.

(5) *Administrative Support.* The administrative support of a State multiple use advisory board shall be the responsibility of the State Director to whom it reports.

(b) *O. and C. Multiple Use Advisory Board (Oregon).* (1) *Functions and duties.* The O. and C. Multiple Use Advisory Board shall consider and make recommendations to the Oregon State Director on policies and problems related to resources and uses of the Revested Oregon and California Railroad and Reconveyed Coos Bay Wagon Road Grants Lands administered by the Bureau of Land Management.

(2) *Membership.* From recommendations by District Managers, statewide or regional organizations and associations, and from other sources as he may determine, the Oregon State Director shall nominate no more than 12 individuals to the Director who shall, with concurrence of the Secretary, appoint a board that is balanced in terms of the points of view represented and the functions to be performed by the board.

(3) *Meetings.* The O. and C. Multiple Use Advisory Board shall meet at the call of the Oregon State Director and shall elect its own officers. The Federal representative at all meetings shall be the Oregon State Director or his authorized representative.

(4) *Administrative Support.* The administrative support of the O. and C. Multiple Use Advisory Board shall be the responsibility of Oregon State Director.

§ 1784.7 District Advisory Boards.

(a) *District Multiple Use Advisory Boards.* (1) *Functions and duties.* A District Multiple Use Advisory Board shall consider and make recommendations to the District Manager to whom it reports on policies and problems of District scope related to resources and uses of lands administered by that District Manager.

(2) *Membership.* The District Manager to whom the board reports shall, with the concurrence of the State Director, appoint to the board such members resulting in a total membership that is balanced in terms of the points of view represented and the functions to be performed by the board. The membership of each District Multiple Use Advisory Board shall not exceed ten.

(3) *Meetings.* District Multiple Use Advisory Boards shall meet at the call of the District Manager to whom the board reports and shall elect their own officers. The Federal representative at all meetings shall be that District Manager or his authorized representative.

(4) *Administrative support.* The administrative support of a District Multiple Use Advisory Board shall be the responsibility of the District Manager to whom it reports.

A. In subpart 4114, the heading is revised to read:

Subpart 4114—Local Associations of Stockmen

§§ 4114.3–1—4114.3–4 [Deleted]

§ 4114.4–3 [Amended]

B. Sections 4114.1 through 4114.3–4 and paragraph (c) of § 4114.4–3 are deleted.

§ 4115.2–1 [Amended]

3. Section 4115.2–1 is amended as follows: (a), (b), and (c) are revised to read as follows:

(a) *Filing of applications; consideration of annual changes in grazing use.* Each year a date will be set by the authorized officer prior to which all annual applications for grazing use must be filed; applications filed after such date may be rejected for that year on the basis of late filing. When grazing is approved, a bill will be issued and payment of fees due will be made in accordance with paragraph 4115.2–1(k).

(b) *Proposed decisions; protests.* If the authorized officer's decision on an application for grazing use is to any extent adverse, a proposed decision will be served upon the applicant setting forth the reasons for the action, including reference to the pertinent provisions of the regulations. Such proposed decision shall allow a period of 15 days after receipt for the filing of a protest in person or in writing with the authorized officer. In the absence of a protest, the proposed decision shall become the final decision of the authorized officer without further notice.

(c) *Final decision on protests.* Upon the timely filing of a protest, the authorized officer will reconsider the application for grazing use in the light of such protest. In so doing, he is authorized to seek advice and recommendations from the District Multiple Use Advisory Board. At the conclusion of his review of the protest, the authorized officer will issue a final decision which shall be served on the applicant and all known parties of interest.

* * * * * *

B. In (e)(8)(ii) the words "after recommendation by the advisory board" are deleted.

C. In paragraphs (e)(10) and (e)(11) the words "after reference to the advisory board" are deleted.

§ 4115.2–2 [Amended]

6. Section 4115.2–2 is amended in paragraphs (a)(2) and (b)(3) by deleting the words "after reference to the advisory board".

§ 4115.2–5 [Amended]

7. Section 4115.2–5(a)(3) is amended by deleting the words "after reference to the advisory board".

JACK HORTON,
Assistant Secretary of the Interior.

DECEMBER 24, 1974.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 26]

GRAIN STANDARDS

Proposed Effective Date of Regulations

Statement of considerations. Section 12 of the U.S. Grain Standards Act (7 U.S.C. 87a) prescribes the retention of file samples by official inspection agencies. It further prescribes that file samples shall be required to be retained for such period as the Secretary, after consultation and due consideration, shall prescribe. Section 26.57 of the regulations (7 CFR 26.57) under the Act prescribes applicable retention periods.

On August 28, 1969, there was published in the FEDERAL REGISTER (34 FR 13729) a notice announcing that the effective date of §§ 26.55(b)(2) and 26.57 of the regulations (7 CFR 26.55(b)(2) and 26.57) under the U.S. Grain Standards Act (7 U.S.C. 71 *et seq.*) regarding the retention of official file samples of grain was delayed until further notice to provide additional time for carrying out the provisions of the sections.

Official inspection agencies and the Department have now had time to develop and try various types of maintenance systems for file samples and for the Department to develop and issue needed instructions for the retention and issue needed instructions for the retention and use of file samples on a nationwide basis. Many official inspection agencies are presently retaining file samples on a voluntary basis, and suitable containers are readily available at a nominal cost.

File samples are needed and are being used in increasing numbers for reinspections and appeal inspections at substantial savings to applicants for inspection. They are also of substantial use in performing supervision inspections, resolving intermarket grade complaints, and for handling special requests for applicants.

Accordingly, the Agricultural Marketing Service now proposes to implement section 12 of the U.S. Grain Standards Act (7 U.S.C. 87a) and §§ 26.55(b)(2) and 26.57 of the regulations thereunder (7 CFR 26.55(b)(2) and 26.57) by requiring, effective March 1, 1975, the mandatory retention by official inspection agencies of file samples of gain inspections in accordance with the provisions of section 26.57 of the regulations. Sections 26.55(b)(2) and 26.57 will be implemented as originally published without change as follows:

§ 26.55 Maintenance and availability of records.

* * * * *

(b) *Records on inspection activities.* The complete record shall include (1) detailed work records, (2) official file samples, and (3) official certificates, as prescribed in §§ 26.56, 26.57, and 26.58. The record for each inspection shall be kept in such manner as to permit comparison with the record for other inspections on the same identified grain.

* * * * *

§ 26.57 File samples.

(a) *General.* For each official inspection, an official file sample shall be maintained in accordance with paragraphs (b) through (h) in this section: *Provided,* That no file sample need be maintained for checkweighing and other types of inspections which are not based on an examination of the grain in a sample.

(b) *Who shall maintain samples.* File samples shall be maintained by the official inspection personnel who performed the inspection or by the official inspection agency that conducted the inspection: *Provided,* That no file sample need be maintained by a licensed employee of a grain elevator or warehouse: *And provided further,* That if a file sample maintained by an official inspection agency is used for an appeal or review inspection, the field office which conducted the appeal or review inspection shall thereafter have the responsibility for maintaining the sample.

(c) *Size of sample.* Each file sample shall consist of a worked portion and an unworked portion: *Provided,* That if the inspection does not require the use or examination of the grain in both portions, and if the applicant will not desire a portion of the sample during the prescribed retention period, only one portion is required to be maintained. Each file sample shall be of such size as will permit a reinspection, an appeal inspection, or a review inspection for the kind (scope) of inspection for which the sample was obtained. (In the case of a submitted sample inspection, if an undersized sample is received, the entire sample shall be retained.)

(d) *Containers.* Each sample shall be retained in such container and in such manner as will retain the representativeness of the sample from the time it is obtained or received by the official inspection personnel until it is discarded. High moisture samples, infested samples, and other problem samples shall be retained in accordance with the instructions.

(e) *File system.* To facilitate the full use of file samples, each official inspection agency and each field office shall establish and maintain, in accordance with the instructions, a uniform file sample system which has been approved by the Administrator. The instructions may prescribe the kind and size of the file sample containers, the method of identification, and methods for retaining the representativeness of the samples.

(f) *Retention periods.* (1) Each file sample shall be retained for the following applicable period of time which is necessary for the handling of a reinspection, an appeal inspection, or a trade complaint:

Type of carrier (or container)	*Retention period (calendar days)*
Rail cars:	
In (other than en route) [1]	[2] 5–7
Out	15
Trucks:	
In (other than en route) [1]	[3] 2–4
Out	7
Barges:	
In (other than enroute) [1]	10
Out	30
Bins and tanks	[3] 2–4
Submitted samples	[4] [5] 2–4

	Composite samples	*Sublot samples*
Ships:		
In	[6]	7
Out (domestic)	[6]	15
Out (export)	90	30

[1] The retention period for an "IN" (en route) movement shall be the same as for an "OUT" movement in the identified carrier.

[2] 5 calendar days if applicant, or his agent, receives notice of inspection results on the date of inspection, otherwise 7 calendar days.

[3] 2 calendar days if applicant, or his agent, receives notice of inspection results on the date of inspection, otherwise 4 calendar days.

[4] If the identification of an unofficial sample is the same as the identification of a carrier, the retention period for the sample shall be the same as for an "OUT" movement in the identified carrier.

[5] The retention of composite samples for "IN" and for "OUT (Domestic)" ship lots shall be optional with the official inspection personnel and the official inspection agency.

Samples may be kept for longer periods of time as desired at the option of the persons or agency maintaining the samples.

(2) For good cause shown, and upon request by the official inspection personnel or the official inspection agency, and with the approval of the Administrator, specified samples or classes of samples may be retained for agreed shorter periods of time.

(3) In determining the retention period, the time period shall begin on the date of the inspection involved.

(g) *Furnishing file samples to field offices.* (1) Upon request by a field office, a file sample retained by official inspection personnel or by an official inspection agency shall be furnished to the field office for an appeal inspection or a review inspection.

(2) If a sample is furnished to a field office, no portion of the sample need be retained by the official inspection personnel or the official inspection agency.

(3) Official inspection agencies furnishing file samples to a field office for appeal inspections may, upon request, be reimbursed at the rate prescribed in § 26.72, by the Grain Division for the cost of locating and sending the samples.

(h) After official file samples have been retained the prescribed period of time, they may be disposed of in accordance with the provisions of § 26.19.

Opportunity is hereby afforded all interested persons to submit written views and comments with respect to this matter to the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C.

20250. All material submitted should be in duplicate and mailed to the Hearing Clerk not later than January 27, 1975. All materials submitted pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). Consideration will be given to the views and comments so filed with the Hearing Clerk and to all other information available to the U.S. Department of Agriculture before final determination is made with respect to this matter.

(Sec. 12 and 16, 52 Stat. 766 and 768; 7 U.S.C. 87a and 87e; 37 FR 28464 and 28476.)

Done in Washington, D.C. on: December 23, 1974.

JOHN C. BLUM,
Acting Administrator.

[7 CFR Part 907]

HANDLING OF NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Expenses and Rate of Assessment for the 1974–75 Fiscal Year and Carryover of Unexpended Funds

This notice invites written comment relative to proposed expenses of $433,850 and a rate of assessment of $0.0125 per carton of oranges to support the activities of the Navel Orange Administrative Committee for the 1974–75 fiscal year under Marketing Order No. 907.

Consideration is being given to the following proposals submitted by the Navel Orange Administrative Committee, established under the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

(1) That the expenses that are reasonable and likely to be incurred by the Navel Orange Administrative Committee during the period November 1, 1974, through October 31, 1975, will amount to $433,850.

(2) That there be fixed, at $0.0125 per carton of oranges, the rate of assessment payable by each handler in accordance with § 907.41 of the aforesaid marketing agreement and order.

(3) That unexpended funds in excess of expenses incurred during the fiscal year ended October 31, 1974, in the amount of $50,000, be carried over as a reserve in accordance with § 907.42 of said marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file same in quadruplicate with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than January 13, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: December 23, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Proposed Amendment of Rules and Regulations

This notice invites written comments relative to reapportioning the grower representation on the Pear Commodity Committee under Marketing Order No. 917. The principal function of the committee is to analyze supply and demand conditions and recommend, to the Secretary of Agriculture, seasonal grade, size, quality, maturity, or pack regulation of fresh shipments of California Bartlett pears. The committee also establishes marketing research and development projects and production research on pears.

The production area is geographically divided into six representation areas comprised of one or more Districts, as defined in the marketing order, for purposes of representation on the 12-member committee. The number of members from each representation area is based, insofar as practicable, upon the proportionate quantity of pears shipped from the respective representation areas during the preceding three fiscal years.

During the 1972-through-1974 shipping seasons the proportional increase in total shipments from representation area (b), as hereinafter designated, and the proportional decrease in total shipments from representation area (f) were such that the committee originated a proposal to reapportion membership from the two areas. Specifically, it is proposed that a membership from representation area (f) be transferred to representation area (b). Such a transfer would result in one member from representation area (f) and four members from representation area (b).

Accordingly, notice is hereby given that the Department is considering proposed amendment, as hereinafter set forth, of the rules and regulations *Subpart—Rules and Regulations; 7 CFR 919.100 et seq.* currently in effect pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh pears, plums, and peaches grown in California. This is a regulatory program effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The amendment of said rules and regulations was proposed by the Control Committee, established under said amended marketing agreement and order as the agency to administer the terms and provisions thereof.

The amendment would add a new § 917.121 reading as follows:

§ 917.121 Changes in nomination of Pear Commodity Committee members.

Nominations for membership on the Pear Commodity Committee shall be made by the growers of pears in the respective representation areas as follows:

(a) North Sacramento Valley District and the Central Sacramento Valley District one nominee.

(b) Sacramento River District, Stockton District, Contra Costa District, Santa Clara District, and Solano District four nominees.

(c) Placer-Colfax District one nominee.

(d) Lake District four nominees.

(e) Mendocino District and the North Bay District one nominee.

(f) El Dorado District and all of the area not included in the North Sacramento Valley District, Central Sacramento Valley District, Placer-Colfax District, Sacramento River District, Stockton District, Solano District, Contra Costa District, Santa Clara District, Lake District, Mendocino District, and North Bay District one nominee.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment shall file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than January 17, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: December 23, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Part 118]

FINANCIAL ASSISTANCE FOR SUPPLEMENTARY CENTERS AND SERVICES, GUIDANCE, COUNSELING, AND TESTING PROGRAMS

Notice of Proposed Rule Making

In accordance with section 503 of the Education Amendments of 1972 (Pub. L. 92–318) and pursuant to the authority contained in Title III of the Elementary and Secondary Education Act, is amended (20 U.S.C. 841–8), the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 45, Part 118 of the Code of Federal Regulations to read as set forth below. The

Commissioner also proposes to establish guidelines for this program, which are set forth following the text of the proposed regulation. Separate regulations containing provisions governing grants to local educational agencies for special programs and projects and section 306 of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 844b) are being proposed for inclusion in Part 126 of Title 45 of the Code of Federal Regulations.

1. *Program purpose.* Title III of the Elementary and Secondary Education Act, as amended, provides for assistance to States for planning and establishing supplementary educational centers and services and guidance, counseling, and testing programs.

2. *Section 503 procedures and effect.* Section 503 of the Education Amendments of 1972 requires the Commissioner to study all rules, regulations, guidelines, or other published interpretations or orders issued by him or by the Secretary after June 30, 1965, in connection with, or affecting, the administration of Office of Education programs; to report to the Committee on Labor and Public Welfare of the Senate and the Committee on Education and Labor of the House of Representatives concerning such study; and to publish in the FEDERAL REGISTER such rules, regulations, guidelines, interpretations, and orders, with an opportunity for public hearing on the matters so published. The regulations and guidelines proposed below reflect the results of this study as it pertains to the program under Title III of the Elementary and Secondary Education Act, as amended. Upon publication of revised Part 118 in final form, and after comments and hearing, all preceding rules regulations, guidelines, interpretations, and orders issued in connection with or affecting Part 118 will be superseded effective thirty days after such publication.

3. *Effect of Office of Education general provisions regulations.* The proposed regulations differ from the current regulations in that provisions have been deleted relating to general fiscal and administrative matters which are presently covered in 45 CFR Part 116 and which are covered by the overall Office of Education general provisions regulations, published in the FEDERAL REGISTER at 38 FR 30654 (November 6, 1973), in connection with the same study under section 503 of the Education Amendments of 1972 of which this publication is a part. (Reference is made in particular to the provisions of proposed Part 100b of Title 45 CFR, containing general provisions for State-administered programs which are applicable to the program under Title III of the Elementary and Secondary Education Act, as amended.)

4. *Guidelines.* Guidelines for the program have not previously been published in the FEDERAL REGISTER. The guidelines proposed below essentially contain recommendations and suggestions for program management and operation and are designed to incorporate all materials covered by section 503 of the Education Amendments of 1972 not otherwise reflected in the regulations. When finally published in the FEDERAL REGISTER in accordance with section 503(d), the guidelines will be stated separately in the general notice section of the FEDERAL REGISTER.

5. *Citations of legal authority.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232 (a)) and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations and guidelines has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of the section. In that case the citation is to all that appears in that section above the citation and following the last preceding citation. When the citation appears only at the end of the section, it applies to the entire section.

6. *Opportunity for public hearing.* Pursuant to section 503(c) of the Education Amendments of 1972, the Commissioner will provide interested parties an opportunity for a public hearing on these regulations and guidelines, as follows:

A hearing will take place at the U.S. Office of Education on March 5, 1975, in the auditorium of the Regional Office Building Three (ROB–3) located at 7th and D Streets SW., Washington, D.C. 20202, beginning at 10:00 a.m.

The purpose of the hearing is to receive comments and suggestions on the published materials. Parties interested in attending the hearing should notify the Office of Education, Attention: Chairman, Office of Education Task Force on Section 503, Room 2085, 400 Maryland Avenue SW., Washington, D.C. 20202, and are urged to submit a written copy of their comments at the hearing is urged to limit his presentation to a maximum of fifteen minutes.

Interested parties may also submit written comments and recommendations to the above address. All relevant material received prior to the date of the hearing will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 9:00 a.m. and 4:30 p.m., Monday through Friday of each week.

(Catalog of Federal Domestic Assistance No. 13.519, Supplementary Educational Centers and Services, Guidance, Counseling, and Testing (PACE (Projects to Advance Creativity in Education)))

Dated: August 27, 1974.

T. H. BELL,
U.S. Commissioner of Education.

Approved: December 16, 1974.

AUTHORITY: The provisions of this Part 118 are issued under 20 U.S.C. 841–846a, 846–847a. Interpret or apply 20 U.S.C. 841–847a, 881, 885, and 1232–1232c.

Subpart A—Scope of Regulations; Definitions

§ 118.1 Scope of regulations.

The regulations published in this part are applicable to grants to States for planning and establishing supplementary educational centers and services and guidance, counseling, and testing programs. Regulations applicable to grants for such purposes by the U.S. Commissioner of Education directly to local educational agencies pursuant to section 306 of Title III of the Elementary and Secondary Education Act of 1965, as

amended (20 U.S.C. 844b), will be published in Part 126 of this title. Allotments of Federal funds under Title III of the Act to the Departments of Interior and Defense pursuant to section 302(a)(1) of the Act (20 U.S.C. 842(c)(1)) shall be governed by such terms and conditions consistent with the Act as may be mutually agreed upon by these Departments and the Commissioner. Assistance provided under this part is also subject to applicable provisions contained in subchapter A of this chapter (relating to fiscal, administrative, property management, and other matters).

(20 U.S.C. 842(a)(1))

§ 118.2 Definitions.

As used in this part:

"Act" means the Elementary and Secondary Education Act of 1965, Pub. L. 89-10, as amended.

(20 U.S.C. 841-844a, 845-863)

"Children with specific learning disabilities" means those children who have a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which disorder may manifest itself in imperfect ability to listen, think, speak, read, write, spell, or do mathematical calculations. Such disorders include such conditions as perceptual handicaps, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. Such term does not include children who have learning problems which are primarily the result of visual, hearing, or motor handicaps, of mental retardation, of emotional disturbance, or of environmental disadvantage.

(20 U.S.C. 842(b)(3))

"Construction" means (a) the erection of new or expansion of existing structures, and the acquisition and installation of equipment therefor; (b) the acquisition of existing structures not owned by the agency making application for assistance under Title III of the Act; (c) the remodeling or alteration (including the acquisition installation, modernization, or replacement of equipment) of existing structures; or (d) a combination of any two or more of the foregoing.

(20 U.S.C. 881(b))

"Cultural and educational resources" includes State educational agencies, institutions of higher education, private schools, public and nonprofit private agencies such as libraries, museums, musicial and artistic organizations, educational radio and television, and other cultural and educational resources.

(20 U.S.C. 844(a))

"Dissemination" means communications with people about the operations and outcomes of demonstrations of exemplary practices in education in order to facilitate the adoption and replication of tested educational innovations in the host school system and other school systems in the State.

(20 U.S.C. 843(c)(3))

"Exemplary," as applied to an educational program, project, service, or activity, means one designed to serve as a model for a regular school program.

(20 U.S.C. 843(b)(2))

"Free public education" means education which is provided at public expense, under public supervision and direction, and without tuition charge, and which is provided as elementary or secondary school education in the applicable State. Elementary education may include kindergarten education meeting the above criteria.

(20 U.S.C. 845)

"Guidance and counseling," in relation to activities undertaken pursuant to section 303(b)(4) of the Act (20 U.S.C. 843(b)(4)), refers to (a) services to pupils to assist them in assessing and understanding their particular abilities, educational needs, and career and vocational interests in light of all applicable environmental factors and (b) assistance in personal and social development, including the development of a positive self-concept when related to career and vocational guidance and counseling.

(20 U.S.C. 843(a), (b)(4))

"Handicapped children" means those children who are mentally retarded, hard of hearing, deaf, speech-impaired, visually handicapped, seriously emotionally disturbed, crippled, or other health-impaired, who by reason thereof require special education and related services. The term includes children with specific learning disabilities to the extent that such children are health-impaired children who by reason thereof require special education and related services.

(20 U.S.C. 842(b)(3))

"Innovative," as applied to an educational program, project, service or activity, means new or improved ideas, practices, or techniques.

(20 U.S.C. 843(b)(3))

"Junior college" means an institution of higher education which (a) is organized and administered principally to provide a one-year or two-year program which is acceptable for full credit toward a bachelor's degree; (b) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate; (c) is legally authorized within the State to provide a program of education beyond secondary education; (d) is a public or other nonprofit institution; (e) is accredited by a nationally recognized accrediting agency or association, or, if not so accredited (1) is an institution with respect to which the Commissioner has determined that there is satisfactory assurance—considering the resources available to the institution, the period of time, if any, during which it has operated, the effort it is making to meet accreditation standards, and the purpose for which this determination is being made—that the institution will meet the accreditation standards of such an agency within a reasonable period of time, or (2) is an institution whose credits are accepted on transfer by not less than three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited; (f) if a branch of an institution of higher education offering four or more years of higher education, is located in a community different from, and beyond a reasonable commuting distance from, the community in which the main campus of the parent institution is located.

(20 U.S.C. 844a(b)(1)(B))

"Local educational agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of, or to perform a service function for public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or such combination of school districts or counties as is recognized in a State as an administrative agency for its public elementary or secondary schools. The term also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school such as State-operated schools for deaf, blind, mentally retarded, emotionally disturbed or crippled. "Service function," as used in this paragraph means an educational service which is performed by a legal entity—such as an intermediate agency—whose jurisdiction does not extend to the whole of the State and which is authorized to provide consultative, advisory, or educational program services to public elementary or secondary schools, or which has regulatory functions over agencies having administrative control or direction of public elementary or secondary schools, rather than a service which is performed by a cultural or educational resource.

(20 U.S.C. 881(f))

"Private school" means a nonprofit school which is operated or controlled by other than a public authority, and which complies with State compulsory school attendance laws or is otherwise recognized or accredited by some procedure customarily used in the State, as having curricula similar to that required of comparable public schools.

(20 U.S.C. 843(b)(4), 844(b)(2)(B), 845(f))

"Seriously emotionally disturbed children" means

(a) Those children who exhibit one or more of the following characteristics over a long period of time and to a marked degree:

(1) An inability to learn that which cannot be explained by intellectual, sensory, or health factors;

(2) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;

(3) Inappropriate types of behavior or feelings under normal circumstances;

(4) General pervasive mood of unhappiness or depression; and/or

(5) A tendency to develop physical symptoms, pains, or fears associated with personal or school problems.

(d) This term does not include those children who are socially maladjusted.

(20 U.S.C. 843(b)(3))

"State aid" means any contribution by a State made to or on behalf of a local educational agency within the State for the support of free public elementary and secondary education, for which no repayment is expected.

(20 U.S.C. 845(c))

"State educational agency" means the State board of education or other agency or officer primarily responsible for the supervision of public elementary and secondary schools, or, if there is no such officer or agency, an officer or agency designated by the Governor or by State law.

(20 U.S.C. 881(k))

"Technical institute" means an institution of higher education which (1) meets the requirements of subparagraphs (b) through (f) of the definition of "junior college" set forth in this section, and (2) is organized and administered principally to provide a 2-year program in engineering, mathematics, or the physical or biological sciences which program is designed to prepare the student to work as a technician at a semiprofessional level in engineering, scientific, or other technological fields which require the understanding and application of basic engineering, scientific, or mathematical principles or knowledge.

(20 U.S.C. 843(b)(4))

"Testing," in relation to activities undertaken pursuant to Section 303(b)(4) of the Act, means the use of tests which measure abilities from which aptitudes for an individual's educational or career development may be validly inferred.

(20 U.S.C. 844a(b)(1)(B))

Subpart B—State Advisory Council

§ 118.3 Establishment and certification.

(a) Each State desiring to receive payments under title III of the Act and the regulations in this part for any fiscal year shall establish a State advisory council which is appointed by the State educational agency, and is broadly representative of the cultural and educational resources (as defined in § 118.2 of this part) of the State and of the public, including persons representative of: (1) Elementary and secondary schools; (2) institutions of higher education; (3) areas of professional competence in dealing with children needing special education because of physical or mental handicaps; (4) areas of professional competence in guidance, counseling, and testing; (5) children from low-income families and other low-income individuals; and (6) other cultural and educational resources including State agencies, institutions of higher education, nonprofit private schools, and nonprofit private agencies such as libraries, museums, musical and artistic organizations, and educational radio and television.

(b) The Chief State School Officer or any member of the State educational agency shall be ineligible to serve on the State advisory council either as a chairman or as a voting member.

(c) The State educational agency shall certify the establishment of, and membership of, its State advisory council to the Commissioner at least 90 days prior to the beginning of any fiscal year in which the State desires to receive a grant under Title III of the Act and the regulations in this part. The certification shall include the name, education, experience, and current position of each person serving on the State advisory council and shall specify which interest under paragraph (a) of this section each person represents.

(20 U.S.C. 844a(a))

§ 118.4 Functions.

(a) The functions of the State advisory council shall include: (1) Advising the State educational agency on the preparation of, and policy matters arising in the administration of the State plan and in the development of the policies and procedures required by these regulations, including the criteria for approval of applications under the State plan; (2) reviewing and making recommendations to the State educational agency on the action to be taken with respect to each application for a grant under the State plan; (3) evaluating programs and projects assisted under Title III of the Act; and (4) preparing and submitting through the State educational agency annual reports of its activities, recommendations, and evaluations, together with such additional comments as the State educational agency deems appropriate, to the Commissioner and to the National Advisory Council on Supplementary Centers and Services which was established pursuant to section 309 of the Act. These reports shall be submitted at the time and in the format prescribed by the Commissioner.

(b) The State advisory council shall meet and select a chairman from its membership within 30 days after certification under § 118.3 of this part has been accepted by the Commissioner, and shall meet at such other times throughout the year as may be necessary to fulfill its functions under paragraph (a) of this section. The time, place, and manner of such meetings shall be determined by the council, except that it shall hold not less than one public meeting each year at which the public is given opportunity to express views concerning the administration and operation of the Act.

(c) The State advisory council shall be authorized to obtain (with funds paid to the State under Section 307(b) of the Act) the services of such professional, technical and clerical personnel as may be necessary to enable it to carry out its functions under paragraph (a) of this section, and to contract for such services as may be necessary to enable it to carry out its evaluation functions.

(20 U.S.C. 843(c), 844a(a), 845(b))

§ 118.5 [Reserved]

Subpart C—The State Plan

§ 118.6 Preparation of plan.

(a) *General.* Any State desiring to receive funds under the Act for any fiscal year shall, as a condition to the receipt of such funds, submit a State plan to the Commissioner, using such forms as will be provided by the Commissioner and which will meet the requirements of the Act and these regulations.

(b) *Submission.* The State plan shall be submitted annually. It shall be developed in the light of all relevant information obtained in the prior year from reassessments of educational needs, evaluations of programs and projects funded under the Act, and reports and recommendations of the State advisory council.

(c) *Certifications.*—(1) *By State educational agency.* The State plan and each amendment thereto shall include as an attachment a certificate signed by an officer of the State educational agency authorized to submit the plan to the effect that the State plan or amendment thereto has been adopted by the State educational agency and that the State plan, or plan amended, will constitute the basis for operation and administration of the Title III program.

(2) *By the State Attorney General.* The State plan and each amendment thereto as described in § 118.6(e) of this part shall include as an attachment a certificate signed by the State Attorney General or other appropriate State legal officer to the effect that the State educational agency named in the plan is a "State educational agency" as defined in § 118.2 of this part, that has the legal authority ascribed to it in the State plan pursuant to § 118.7 of this part, and that all the provisions of the State plan may be carried out in the State.

(d) *Review by the State Governor.* In accordance with § 118.22(b)(2) of this part, the State plan and each amendment thereto shall include as an attachment the comments, if any, of the Governor of the State concerning coordination of Title III programs and projects under the State plan with other State and Federal programs and projects, or a statement from the Chief State School Officer that the Governor has reviewed the plan but no comments were made.

(e) *Amendments.* Whenever there is any change in the content or administration of the program set forth in the approved State plan, or whenever there is any change in pertinent State law or in the organization, policies, or operations of the State educational agency which materially affects the program under the plan, the State plan shall be appropriately amended and such amendment shall be submitted to the Commissioner for his approval. Any amendment shall be accompanied by a certificate of the State Attorney General or other State legal officer.

(20 U.S.C. 844a(a)(1), (b))

§ 118.7 State educational agency.

(a) *Designation.* The State plan shall give the official name of the State educational agency which will be, either directly or through arrangements with other State or local public agencies, the sole agency responsible for administering the plan.

(b) *Authority.* The State plan shall set forth the authority of the State educational agency under State law to submit the plan and to administer and supervise the programs set forth therein pursuant to § 118.6(c)(2) of this part.

(c) *Organization.* The State plan shall set forth the administrative organization, the qualifications of all staff members involved, and the procedures of the State educational agency for administration of the State plan. Staffing shall be sufficient to carry out the following Title III functions: (1) program coordination; (2) program development; (3) project proposal review; (4) program operations; (5) program evaluation; (6) dissemination; and (7) grants management and finance.

(20 U.S.C. 844a(a)(1)(C), 1232c(b))

(d) *Fiscal control.* The State plan shall designate the officer or officers of the State educational agency who will have legal authority to receive all funds granted to the State and to authorize their expenditure or transfer to local educational agencies in accordance with § 100b.257 of this chapter. The State plan shall also set forth the fiscal control and fund accounting procedures (consistent with subpart E of the regulations in this part and part 100b of this chapter) under which the designated officer or officers will assure proper disbursement of and accounting for Federal funds paid to the State under Title III of the Act.

(20 U.S.C. 844a(a)(1)(C), (b)(2), and (10))

§ 118.8 General plan provisions.

(a) *Assessment of educational needs.* The State plan shall identify the critical educational needs of the State as a whole and the critical educational needs of the various geographic areas and population groups within the State, and shall describe the process by which such needs were identified. This process shall be based upon the use of objective criteria and measurements and shall include procedures for collecting, analyzing, and validating relevant data and translating such data into determinations of critical educational needs. These determinations and the data upon which they are based shall be periodically reviewed and updated, and the State plan shall indicate the most recent date of such review and updating.

(20 U.S.C. 844a(b)(1)(A), (b)(3), 1232c(b))

(b) *Developing evaluation strategies.* The State plan shall provide for, and describe the objectives of, and the procedures to be used in the evaluation by the State advisory council, at least annually, of the effectiveness of the programs and projects funded under the State plan in meeting the purposes of the Act.

(20 U.S.C. 844a(a)(2)(D))

(c) *Dissemination of information.* The State plan shall provide for, and describe the objectives of, and procedures to be used in, the statewide dissemination of the results of evaluations performed under paragraph (b) of this section and of other information concerning those programs and projects which are determined through such evaluations to be innovative, exemplary, and of high quality.

(d) *Adoption and adaptation of promising practices.* The State plan shall provide for, and describe the objectives of, and the procedures to be used in, the adoption and adaptation within the State of promising educational practices developed through programs or projects funded under the Act.

(20 U.S.C. 844a(b)(6))

(e) *Professional development activities.* The State plan shall set forth procedures which will be utilized for professional staff development of State and local administrative, instructional, and supporting personnel involved in developing, conducting, or monitoring programs or projects under Title III of the Act.

(20 U.S.C. 1232c(b))

(f) *Reviewing local project applications.* The State plan shall (1) list and describe any criteria, required by § 118.24(a) of this part, which the State educational agency will use in reviewing local project applications (including applications for guidance, counseling, and testing projects) submitted under § 118.23 of this part; (2) describe the procedures which the panel of experts, State educational agency, and State advisory council will use in the review process with the results of their separate reviews forming the basis for a recommendation to the Chief State School Officer; and (3) provide that final action regarding the proposed final disposition of any local project application (or amendment thereof) shall not be taken without first affording the local educational agency or agencies submitting such application reasonable notice and opportunity for a hearing before a board or official designated by the State educational agency for such purpose, and specified in the State plan.

(20 U.S.C. 844a(a)(1)(C), (b)(12), 1232c(b))

(g) *Commingling of funds.* The State plan shall set forth policies and procedures which assure that funds made available under the Act for programs and projects for any fiscal year will not be so commingled with State or local funds as to lose their identity as Title III funds.

(20 U.S.C. 844a(b)(9)(A))

(h) *State aid.* The State plan shall contain adequate assurance that, in determining the eligibility of any local educational agency for State aid or the amount of such aid, grants to that agency under the Act will not be taken into consideration.

(20 U.S.C. 844a(b)(13))

§ 118.9 Supplementary educational centers and services.

The State plan shall set forth a program for improving education in the State through grants to local educational agencies to carry out the purposes of the Act as set forth in section 301(a) of the Act. The program shall be based upon an assessment of, and be designed to meet, the critical educational needs of the State as determined under § 118.8(a). Such program shall be related to and coordinated with the program for testing under § 118.10 and the program of guidance and counseling under § 118.11.

(20 U.S.C. 841(a), 844a(b)(1)(A))

§ 118.10 Testing.

(a) If a State wishes to conduct a testing program with Title III funds, the State plan shall set forth a program for testing students in the public and private elementary and secondary schools of the State or in the public and private junior colleges and technical institutes of the State. In so doing, the plan shall (1) describe the primary objectives of the program, (2) identify the grade levels of students to be tested, and (3) describe the types of tests to be utilized for the measurement of aptitudes and abilities.

(b) The testing program set forth in paragraph (a) of this section shall include at least one test for students not beyond grade 12, and shall be utilized to (1) identify students with outstanding aptitudes and abilities; (2) provide such information about the aptitudes and abilities of students as may be needed in connection with the guidance and counseling program required by § 118.11 of this part and (3) provide such information as may be needed to assist other educational or training institutions and prospective employers in assessing the educational and occupational potential of students seeking admission to educational or training institutions or employment.

(c) Consistent with the applicable provisions of part 100b of this chapter, to the extent that the following items of cost are attributable to the programs approved under the State plan, the cost of supervisory and related services in testing programs in which Federal participation may be claimed include such categories of expense as:

(1) The purchase or rental of tests, answer sheets, cumulative record forms, and such other materials needed under the plan; and

(2) The rental of equipment for scoring, processing and reporting the results of tests administered under the plan, or, if such equipment is owned by State or local agencies, the pro-rata share of the cost of maintaining and operating such equipment.

(d) In fulfilling the requirements of this section, the State educational agency may provide services at the State level,

make arrangements with local educational agencies or other appropriate local or State agencies, or contract with public or private nonprofit institutions, agencies, or individuals, for the provision of services consistent with the State's responsibilities under these regulations.

(20 U.S.C. 843(b)(4), 844a(b)(1)(B)(i), 1224, 1232c(b), Section 131(b) of P.L. 91-230)

§ 118.11 Guidance and counseling.

(a) If a State wishes to conduct a guidance and counseling program with Title III funds, the State plan shall set forth a program of guidance and counseling designed to improve such existing services at the appropriate levels in the public elementary and secondary schools or public junior colleges and technical institutes of the State and, to the extent required by § 118.15 of this part, in the private elementary and secondary schools of the State. Such program shall serve to advise students regarding courses of study best suited to their abilities, aptitudes and skills, the type of educational program they should pursue, the vocation they should train for and enter, and the job opportunities in the various fields. Also, it will encourage students with outstanding aptitudes and abilities to complete their secondary school education, take the necessary courses for admission to institutions of higher education, and enter such institutions. Such programs shall include occupational information and counseling and guidance, and instruction in occupational education on an equal footing with traditional academic education, and may include short-term training sessions for persons engaged in guidance and counseling in elementary and secondary schools, junior colleges, and technical institutes in the State.

(b) Guidance and counseling services under the State plan shall be provided by qualified counselors through appropriate individual and group processes. Such processes shall be coordinated with other pupil personnel services and guidance and counseling resources both within and outside the school setting, and shall include referral assistance, working with other staff members in planning curriculum content and changes, and consulting both teachers and parents with regard to the learning and developmental needs of pupils.

(c) The program set forth under paragraph (a) of this section shall make provision for supervision and leadership activities by the State educational agency with regard to the establishment, maintenance, and improvement of guidance and counseling services. Such activities shall include the assessment of other Federal and State programs (such as Titles I and V of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 241 *et. seq.*) and (20 U.S.C. 862-869a), Part B of the Education of the Handicapped Act (20 U.S.C. 1411-14), and the Vocational Education Act of 1963 (20 U.S.C. 1241 *et. seq.*)) where there may be need for State-level supervision and leadership with respect to guidance and counseling, and the development of procedures for determining how these various programs and sources of funds can be coordinated to provide for strong leadership in the area of guidance and counseling.

(d) In addition to the activities set forth in paragraph (c) of this section, the program set forth under paragraph (a) of this section may also include the provision for services at the State level, through arrangements (including project grants under paragraph (e) of this section) with local educational agencies or other appropriate local or State agencies, or through contracts with public or private nonprofit institutions, agencies, or individuals, which are consistent with the State's responsibilities under these regulations.

(e) Project grants under an approved State plan may be made to local educational agencies under this section for the following purposes: (1) Planning programs and projects designed to provide the services and activities described in (c)(2) and (3) of this section, including pilot projects designed to test the effectiveness of such plans; (2) establishing or expanding innovative and exemplary guidance and counseling programs and projects for the purpose of stimulating the adoption of new programs; and (3) establishing, maintaining, and improving guidance and counseling services and activities, especially through new and improved approaches consistent with the purposes of the Act.

(20 U.S.C. 843(b)(4), 844a(b)(1)(B)(ii), 1232c(b))

§ 118.12 Equitable distribution of assistance.

The State plan shall set forth criteria for achieving equitable distribution of assistance made available under the Act and these regulations. Such criteria shall be based on a consideration of (a) the size and population of the State, (b) the geographical distribution and density of the population within the State, (c) the relative need of persons in different geographic areas and in different population groups within the State for the kinds of services and activities to be provided under the plan, and (d) the relative financial abilities of local educational agencies within the State to provide such services and activities. Application of the factors set forth in this section shall not result in the approval by the State educational agency of programs or projects which fail to meet any of the requirements contained in this part.

(20 U.S.C. 844a(b)(3))

§ 118.13 Special consideration for certain local educational agencies.

The State plan shall provide for giving special consideration in those cases in which it is determined that two or more proposals are judged to be of substantially the same high quality, for approving applications, for Title III programs and projects, submitted by local educational agencies (a) that are making a reasonable tax effort but are unable to meet critical educational needs (including preschool and bilingual education) because some or all of their schools are seriously overcrowded, obsolete, or unsafe; or (b) whose proposed programs or projects were planned with funds made available under the Act. Application of the factors set forth in this section shall not result in the approval by the State educational agency of programs or projects which fail to meet any of the requirements contained in this part.

(20 U.S.C. 844a(b)(4) and (5))

§ 118.14 Percentage requirements regarding uses of funds.

The State plan shall provide that, of the funds made available under the Act for any fiscal year to carry out the State plan:

(a) An amount equal to at least 50 percent of such funds shall be expended for planning, establishing, and expanding innovative and exemplary programs and activities in accordance with § 118.25 of this part;

(b) An amount equal to at least 15 percent of such funds shall be expended for special programs or projects for the education of handicapped children in accordance with § 118.26 of this part; and

(c) Pursuant to section 131(b) of Pub. L. 91-230, an amount equal to at least 50 percent of the amount expended by the State under Title V-A of the National Defense Education Act of 1958 (20 U.S.C. 401 *et seq.*) from funds appropriated under such title for fiscal year 1970 shall be expended for guidance, counseling, or testing programs of the types set forth in §§ 118.10 and 118.11 of this part. Only projects which are predominantly or primarily of a guidance, counseling, or testing nature shall be considered in determining the total amount expended by a State from Title III funds for guidance, counseling or testing. Funds expended for the continuation of guidance, counseling, or testing projects initiated under the Act (but not under Title V-A of the National Defense Education Act of 1958) prior to fiscal year 1971 shall not be considered in computing the amount of funds which are required to be expended for such purposes under this paragraph.

(20 U.S.C. 844a(b) (7) and (8); (section 131 (b) of Pub. L. 91-230))

§ 118.15 Participation by private school children.

(a) The State plan shall contain satisfactory assurances that each local educational agency receiving funds under the Act will provide for the effective participation in its Title III program or project, on an equitable basis, of children enrolled in private schools in the areas to be served whose educational needs are of the type which the program or project is designed to meet. The number of such children to be served, in relation to the total number of such children with educational needs of the type the project is designed to meet, shall be consistent with the number of public school children to be served in relation to the total number of public school children

in the area served with educational needs of the type the program or project is designed to meet.

(b) Whenever practicable, educational services shall be provided to private school children on publicly controlled premises. Any project to be carried out in public facilities which involves joint participation by children enrolled in private schools and children enrolled in public schools shall include such provisions as are necessary to avoid the separation of participating children by school enrollment or religious affiliation.

(c) Provisions for serving private school children shall not include: (1) The payment of salaries to teachers or other employees of private schools except for services performed outside regular hours of duty and under public supervision and control; (2) financing of the existing level of instruction in private schools; (3) the placement of equipment on private school premises other than portable or mobile equipment which is capable of being removed from the premises each day and is used solely for Title III purposes; (4) the construction of facilities for private schools; or (5) the use of funds for religious worship or instruction.

(d) The State educational agency shall require that every project application submitted to it by a local educational agency under § 118.23 of this part shall describe how the local educational agency will fulfill the requirements of paragraphs (a), (b), and (c) of this section. This description shall contain information indicating: (1) The number of private schools in the area to be served by the project and the number of children enrolled in such schools in the grades to be served by the project and the number of such children who have the needs to be served by the project; (2) the existence of any factors which limit the appropriateness of the project for private school children; (3) the manner in which and extent to which representatives of private school children participated in the development of the project proposal (including participation in the determinations required under paragraph (2) of the paragraph); (4) the provisions which have been made for effective liaison with representatives of private school children in regard to operation and review of the project; (5) the places at which and methods by which private school children will be served in accordance with the requirements of paragraph (b) and (c) of this section; and (6) the differences, if any, in the kind and extent of services to be provided private school children as compared with those to be provided public school children, and the reasons for such differences. Services provided to children on private school premises must not inure to the benefit or enrichment of the institution.

(20 U.S.C. 844(b)(2)(B), 845 (f)(1), 885)

§ 118.16 Reports and records.

The State plan shall provide that the State educational agency will submit to the Commissioner reports in accordance with § 118.53 of this part and Part 100b of this chapter and keep such records and afford such access thereto as the Commissioner may find necessary to assure the correctness and verification of such reports required by § 100b.477 of this chapter.

(20 U.S.C. 844a(b)(11))

§ 118.17 Supplementary nature of projects.

(a) The State plan shall set forth policies and procedures for assuring that funds made available under the Act for any fiscal year will be used to supplement and, to the extent practical, increase (1) the fiscal effort which each local educational agency receiving Title III funds would have made in the absence of such funds for that fiscal year for educational purposes, as required by Section 305(b)(9) of the Act, and (2) the level of funds which each local educational agency receiving Title III funds would have made available in the absence of such funds for that fiscal year for the purposes described in Section 303(b) of the Act as required by Section 304(a)(3) of the Act.

(b) The State plan shall set forth policies and procedures for assuring that funds will not be used to supplant programs that would have been carried out with State or local funds in the absence of Title III funds.

(c) For the purposes of paragraph (a)(1) of this section, fiscal effort of a local educational agency for educational purposes shall be determined by the State educational agency on the basis of the amount of expenditures per pupil of the local educational agency from State and local funds; or in the event of a decrease of such expenditures, on the basis of the ratio between the total expenditures of the local educational agency from State and local funds and the wealth of the local educational agency as measured by the equalized assessed valuation of taxable property, per capita income, or other such indices as appropriate.

(20 U.S.C. 844(a)(3), 844a(b)(9)(B), 844a(b)(13))

§ 118.18 Approval of State plans.

(a) *Full approval or disapproval.* The Commissioner will review each State plan or amendment thereto submitted under § 118.6 of this part and approve those plans and amendments which he determines to meet the requirements of the Act and the regulations in this part. Except as provided in paragraph (b) of this section, the Commissioner will disapprove a plan which fails to comply with such requirements.

(b) *Partial approval.* If the Commissioner finds that a State plan submitted under § 118.6 of this part, pursuant to section 305(c) of the Act, is in substantial compliance with the Act and the regulations in this part, but fails to adequately provide for one of the programs required by section 305(b) of the Act, or is otherwise unapprovable in any other identifiable part, he may approve that part of the plan which he determines to be in compliance with the Act and the regulations in this part. In such a case, the Commissioner will make available to the State that part of its allotment which he determines to be necessary to carry out the approved part of its State plan. The remainder of the amount the State is eligible to receive may be made available to the State only when the unapproved portion of its State plan is so modified as to bring the plan into compliance with the Act and the regulations in this part. The amount made available to a State pursuant to this subsection may not be less than 50 percent of the maximum amount which the State is eligible to receive under paragraph (c) of this section.

(20 U.S.C. 844a(b), (c))

(c) *Effect of State plan.* The State plan, as approved by the Commissioner under this section, will constitute the basis on which Federal grants are made, and the basis for determining the propriety of expenditures of grant funds. The administration of the Title III program shall be kept in conformity with the approved plan.

(20 U.S.C. 844a, 845(a))

(d) *Notice and opportunity for hearing.* No final action under this section other than one of full approval will be taken by the Commissioner until he first notifies the State educational agency of his proposed action and affords the State educational agency a reasonable opportunity for a hearing.

(20 U.S.C. 844a(c)(1))

(e) *Maximum funding level.* A State whose State plan has been approved under this section for any fiscal year may receive for the purpose of carrying out such plan an amount not in excess of 85 percent of its allotment under Section 302 of the Act.

(20 U.S.C. 844a(d))

§ 118.19 Inability or failure to serve private school children.

(a) If the Commissioner determines under § 118.18(b) that a State plan is approvable, except that no State agency is authorized by law to provide, or there is a substantial failure to provide, for effective participation on an equitable basis by private school children enrolled in any one or more private elementary or secondary schools in the areas served by programs or projects funded under the Act, as required by §§ 118.10(a), 118.11(a), or 118.15 of this part, the Commissioner shall arrange through contracts with institutions of higher education or other competent nonprofit institutions or organizations for the provision of Title III services to such children on an equitable basis.

(b) The costs of services provided in any fiscal year under paragraph (a) of this section will be paid out of the affected State's allotment. In determining the amount to be withheld, the Commissioner will take into account (1) the number of private school children in the affected area or areas who are excluded

XUM

from effective participation in Title III programs or projects and who, except for such exclusion, might reasonably have been expected to participate; (2) the number of teachers that would reasonably have been required to serve such children; and (3) the nature and extent of services being provided to public school children in the affected area or areas by the programs or projects in which private school children are denied effective participation.

(c) In any case where the State alleges that no State agency is authorized by law to provide for the effective participation of private school children as required by §§ 118.10(a), 118.11(a), or 118.15 of this part, the State shall provide the Commissioner with a written statement signed by the State Attorney General or other appropriate State legal officer setting forth the constitutional and statutory provisions, and case law, which in his opinion prevent the State from so serving private school children.

(d) Any organization or individual acting on behalf of an eligible private school child (or children) may file a written complaint with the Commissioner if: (1) There is a Title III program or project being conducted, or one has been approved to be conducted, in the given area or district; (2) there is a child (or children) enrolled in a private school(s) in the area to be served by the program or project whose educational needs are of the type to be met by that program or project; and (3) there is a substantial reason to believe that as a result of specified acts or omissions by the responsible State educational agency or local educational agency(ies), or both, the child (or children) identified in the complaint cannot effectively participate in said program or project on an equitable basis. The Commissioner will determine whether there is a "substantial failure" under paragraph (a) of this section by using the process set forth in paragraph (e) of this section, and inform the complainant of this determination in writing.

(e) In determining whether there has been a "substantial failure" under paragraphs (a) and (d) of this section, the Commissioner will: (1) First consult the affected State educational agency and ask it to provide information concerning the alleged failure, and (2) consider all acts or omissions of the State, or a local educational agency, or other political subdivision thereof, or of any individual acting for or on behalf of such entities, in the process of assessing educational needs and planning, approving, conducting, and monitoring programs and projects under the Act and these regulations which have the effect of (i) preventing, discouraging, or otherwise limiting in any manner the effective participation by any eligible private school child in the operation of the program or project serving the area in which his private school is located, or (ii) not affording private school representatives the opportunity for effective participation in the planning and development of any program or project in which private school children are eligible to participate.

(20 U.S.C. 844(b)(2)(B), 845(f))

§ 118.20 Operational noncompliance.

Whenever the Commissioner, after affording the State educational agency reasonable notice and opportunity for a hearing, finds that in the operation or administration of its State plan there has been a failure to comply substantially with: (a) any provision of the Act and the regulations in this part, (b) any provision set forth in the plan of that State as approved under § 118.18 of this part, or (c) any provision set forth in an application of one of the State's local educational agencies as approved under § 118.23 of this part, he will notify the State educational agency that further payments will not be made to the State under the Act, or that the State educational agency may not make further payments under the Act to specified local educational agencies affected by the failure, until he is satisfied that there is no longer any such failure to comply.

(20 U.S.C. 844a(e)(2))

Subpart D—Program Requirements

§ 118.21 Purpose.

This subpart sets forth various program requirements to which each State educational agency shall adhere in administering the educational programs described in its approved State plan and in implementing the provisions of such plan. The policies, procedures, and criteria developed by the State under this subpart shall be set forth in writing and shall be available for inspection at reasonable times and places by the Commissioner or his delegate and by interested parties in the general public.

(20 U.S.C. 843, 844, 844a(a)(1) and (b), 1232c(b))

§ 118.22 General requirements.

The State plan shall provide assurances that the following are formulated and maintained:

(a) *Long-range strategy for advancing education.* The State shall develop a long-range strategy for advancing education in the State in ensuing years through programs and projects funded under the Act. Such strategy shall be directed toward the critical educational needs of the State as periodically assessed under § 118.8(a) of this part, and shall provide for the coordination of Title III programs and projects with other public and private programs and projects as required by paragraph (b) of this section.

(b) *Coordination with other aid programs.* (1) To the extent not inconsistent with the prohibition against commingling of funds in § 118.8(g) of this part, the State shall establish effective procedures for coordinating the development and operation of programs and projects carried out under the Act and these regulations with other public and private programs having the same or similar purposes in accordance with § 100b.275 of this chapter. (2) The State plan and amendments thereto which the State educational agency submits to the Commissioner under §118.6 of this part, and the periodic reports which it submits to the Commissioner under § 118.53 of this part and Part 100b of this chapter shall first be submitted to the Governor of the State for his review and comments (if any) on the relationship of Title III programs and projects to, and coordination with, State comprehensive plans and State plans in related Federal programs in accordance with § 100b.15 of this chapter.

(c) *State leadership.* The State educational agency shall establish policies and procedures for appropriate professional staff development of State and local administrative, supervisory, instructional, and supporting personnel involved in developing, conducting, or monitoring programs or projects under the Act, including those personnel involved in programs or projects for handicapped children.

(d) *On-site evaluation of projects.* The State educational agency shall develop procedures and criteria for the on-site evaluation, at least annually, of all Title III projects in the State. Such procedures shall indicate the role of the State educational agency staff in the evaluation process and the relationship between its functions under this subsection and the functions of the State advisory council under §§ 118.4(a)(3) and 118.8(b) of this part. Such procedures shall also provide for incorporation of recommendations made as a result of on-site evaluations and for follow-up methods to ensure proper implementation.

(e) *Construction.* The State educational agency shall establish criteria for determining the conditions under which the construction of facilities for use in a Title III program or project is consistent with the educational programs set forth in the State plan and necessary to the efficient operation of the program or project.

(f) *List of projects funded.* The State educational agency shall maintain a list identifying each local project it is funding under the Act, which shall include for each such project: (1) The project number, (2) a title or description by which the project may be easily identified, (3) the amount of the current grant, (4) the proposed level of funding for the portion of the project period remaining after expiration of the current grant, (5) the amount of grant funds to be expended in each project for guidance and counseling under § 118.11 of this part or for testing under § 118.10 of this part, and (6) the amount of grant funds to be expended in each project for the education of handicapped children under § 118.26 of this part, broken down by type of handicap.

(g) *Participation of students in junior colleges and technical institutes.* Participation in Title III programs or projects by students enrolled in junior colleges and technical institutes in a State shall be limited to participation in guidance,

counseling, and testing programs or projects established under §§ 118.10 and 118.11 of this part.

(20 U.S.C. 843(b), 844a(a)(1) and (b)(1)(B)(i) and (ii), (b)(2), (b)(10), 883, 1232c(b), (45 CFR 100b.15))

§ 118.23 Applications for grants.

(a) *Eligible applicants.* A grant may only be made to a legally constituted public local educational agency as defined in § 118.2 of this part and may not be made to an individual, private school, or private nonprofit corporation. Universities and colleges are considered as local educational agencies for this purpose when the following conditions are met: (1) The college or university has administrative control and direction of a public elementary and secondary school as determined under State law; (2) the college or university is a public agency as defined in § 100.1 of this chapter; and (3) the elementary and secondary school draws its students from the general public and not from a restricted group such as children of the faculty or other employees of the college or university.

(20 U.S.C. 881(f))

(b) *Solicitation and submission.* The State educational agency shall establish procedures to stimulate the submission of applications for funds under the Act by all local educational agencies in the State that have educational needs of the type which the State has identified under § 118.8 of this part. Such procedures shall include (1) the statewide dissemination of information concerning the purposes and provisions of the Act and these regulations, and of the educational program which the State proposes to conduct under its State plan; (2) the establishment of cutoff dates for submission of applications and notifications to all local educational agencies of such dates; and (3) the development of solicitation techniques designed to ensure that Title III funds are equitably distributed as required by § 118.12 of this part, and that applications are submitted by local educational agencies entitled to special consideration under the criteria developed pursuant to § 118.13 of this part. The State shall not establish methods or procedures which have the effect of excluding the eligibility of any otherwise eligible local educational agency to apply for and receive grants under this part, other than those specifically required by this paragraph.

(c) *Content of application.* Each project application submitted to the State educational agency shall set forth a proposal for carrying out one or more of the purposes described in Section 303(b) of the Act in accordance with the provisions of the Act and the regulations in this part. Such applications shall:

(1) Provide that the services and activities for which Title III funds are sought will be administered by or under the supervision of the applicant;

(2) Set forth (i) such methods of administration as are necessary for the proper and efficient operation of the project, and (ii) such fiscal control and fund accounting procedures as are necessary to assure proper disbursement of and accounting for Title III funds paid to the applicant;

(3) Set forth policies and procedures which assure that funds made available for the project for any fiscal year will supplement and not supplant State and local funds as required by § 118.17(a) of this part;

(4) Set forth, in the case of an application which includes construction as part of the proposed project, the necessary assurances and such other information as the State educational agency shall require in fulfilling the requirements of § 118.22(e) of this part;

(5) Provide for making such financial reports, annual reports, and other reports, and for keeping and allowing access to such records relating thereto, as the State educational agency may reasonably require to assure compliance with the reports and records requirements in §§ 118.53 of this part and part 100b of this chapter and to otherwise carry out its functions under the Act and these regulations;

(6) Set forth the information regarding participation of private school children which is required by § 118.15(d) of this part;

(7) Contain such other information as the State educational agency may reasonably require to apply the criteria for reviewing project applications set forth in § 118.24 of this part.

(d) *Panel of experts.* The State educational agency shall establish a panel of experts, consisting of persons who are not officers or employees of the State educational agency or the State advisory council, to review all local project applications prior to their approval or other disposition. The State educational agency shall determine the number of experts to be utilized and the qualifications to be required of such experts (including one or more experts in the education of handicapped children and one or more experts in guidance, counseling, and testing) and shall establish procedures for selecting the panel.

(e) *Approval of applications.* The State educational agency shall establish procedures for review and disposition of local project applications in accordance with the requirements of the Act and these regulations. Such procedures shall provide for coordination of the roles of the State advisory council (under § 118.4(a)(2) of this part) and the panel of experts (under paragraph (d) of this section) with the role of the State educational agency. Such procedures shall also assure that no application will be approved or renewed by the State educational agency unless it is specifically found to meet the requirements for participation of private school children under § 118.15 of this part, and each of the requirements of paragraph (c) of this section, and has been evaluated in terms of the criteria set forth in § 118.24 of this part.

(20 U.S.C. 844)

(f) *Hearings.* The State educational agency shall develop procedures for a hearing in accordance with § 118.8(f)(3) of this part, for any applicant whose application (or amendment thereto) the State educational agency proposes not to approve.

(20 U.S.C. 844 (a), (b), 844a(b)(12), 1232c(b))

§ 118.24 Criteria for review of project applications.

(a) *Supplementary educational centers and services.* The State educational agency shall establish the criteria to be used in reviewing project applications from local educational agencies under § 118.9 of this part. Such criteria shall be applied in conjunction with the special criteria developed by the State educational agency under §§ 118.12 and 118.13 of this part and shall include criteria for determining the extent to which the proposal involves or contains:

(1) Evidence that it is designed to demonstrate solutions to identified critical educational needs and will substantially increase the educational opportunities of children in the area of the State to be served;

(2) Provisions for the development of concepts, practices, and techniques which can be adapted or adopted elsewhere;

(3) Promising concepts or practices recognized as unique, original, unusual, innovative, or exemplary;

(4) Concepts or practices which are economically feasible and effective;

(5) Evaluation strategies and procedures based on valid methodology which will provide evidence of the extent to which performance of the participants is improved;

(6) Performance objectives which are measurable, and appropriate activities which facilitate achieving them;

(7) An awareness of information concerning similar programs, relevant research findings, and views of recognized experts;

(8) Provisions for staff members with professional qualifications adequate to achieve the stated objectives of the project;

(9) Provisions for budgeted expenditures for adequate and appropriate facilities, equipment, and materials which make a direct contribution to facilitating the achievement of the stated objectives;

(10) Documentation that in the planning of the project there has been, and in the operation and evaluation of the project there will be (i) utilization of the best available talents and resources and (ii) participation of students, teachers, parents, school administrative personnel, private nonprofit school representatives, and other persons including those with low income, broadly representative of the cultural and educational resources of the area to be served; and

(11) Provisions for dissemination of information about the proposed project which are appropriate and adequate for the area to be served.

(b) *Guidance and counseling.* The State educational agency shall establish the criteria to be used in reviewing applications for guidance and counseling programs and projects under § 118.11 of this

part. A State educational agency may elect to apply all criteria in paragraph (a) of this section to guidance and counseling programs and projects. However, at least those criteria set forth in §§ 118.12 and 118.13 of this part and those required by paragraph (a)(4) through (11) of this section shall be applicable to all such programs or projects.

(c) *Additional criteria.* If the State educational agency establishes criteria for the review of project applications in addition to those specified in paragraphs (a) and (b) of this section, it shall list such additional criteria in its State plan in accordance with § 118.8(f) of this part.

(20 U.S.C. 844, 844a(a)(1), 1232c(b))

§ 118.25 Innovative and exemplary projects.

The State educational agency shall establish policies and procedures under which it will use at least 50 percent of the funds that it receives to carry out its State plan in each fiscal year to plan for and take other steps leading to the development of innovative and exemplary programs and projects such as those described in section 303(b) (1), (2), and (3) of the Act, including pilot projects designed to test the effectiveness of such plans.

(20 U.S.C. 844a(b)(7))

§ 118.26 Projects for handicapped children.

(a) The State educational agency shall establish policies and procedures which are to be set forth in the State plan under which it will use at least 15 percent of the funds that it receives to carry out its State plan in each fiscal year for: (1) Planning programs or projects referred to in paragraphs (b) and (c) of this section; (2) establishing or expanding innovative and exemplary educational programs for the purpose of stimulating the adoption of new educational programs to demonstrate ways to meet the special needs of handicapped children; or (3) establishing, maintaining, operating, or expanding services or activities which utilize new and improved approaches which demonstrate ways to meet the special educational needs of handicapped children.

(b) The State educational agency shall also establish procedures which assure that such activities will be coordinated with other Federal, State, and local programs and projects for the education of handicapped children, such as Title I of the Elementary and Secondary Education Act (20 U.S.C. 241 *et seq.*), the Education of the Handicapped Act (20 U.S.C. 1401 *et seq.*), the Developmental Disabilities Services and Facilities Construction Act (42 U.S.C. 2661 *et seq.*), and

(c) The State shall also establish procedures whereby appropriate State educational agency personnel responsible for the education of handicapped children shall review and make recommendations relating to all parts of the State plan and to all project applications which pertain to handicapped children.

(20 U.S.C. 844a(b)(8), 1232c(b)(1))

§ 118.27 Project period, amendment, continuation costs, and termination of projects.

(a) *Project period.* Subject to § 100b.55 of this chapter, the State educational agency shall establish a project period for projects funded under the Act and shall establish procedures for continuing the funding of promising projects throughout the project period, subject to the availability of Title III funds, on the basis of evaluations under § 118.22 (d) of this part, and other periodic reviews which demonstrate that the project is being operated in compliance with all the requirements of the Act and these regulations. The project period and the procedures shall be set forth in the State plan.

(b) *Amendment of project applications.* The State educational agency shall establish procedures for reviewing requests from grantees to amend project applications and alter projects during the project period and for assuring that such amendments and alterations are fully consistent with the requirements of the Act, the regulations in this part, and § 100b.29 of this chapter. Whenever the proposed amendment or alteration would involve significant changes in the content, design, or funding level of the project, the review procedures utilized shall conform to the requirements of §118.23 (e) of this part.

(c) *Costs of continuation.* If the costs to the State for any fiscal year of continuing projects under this section would exceed the amount of funds available to the State to carry out its State plan for that fiscal year, the State educational agency may request that the Commissioner provide funds to meet such excess costs under Section 306 of the Elementary and Secondary Education Act (20 U.S.C. 844b) and Part 126 of this chapter. The Commissioner will consider such a request only if he specifically determines that the project requiring funds is worthy of continuation and holds promise of making a substantial contribution to the solution of critical education problems common to all or several States.

(d) *Termination of projects.* The State educational agency shall establish procedures for termination, during the project period, of programs and projects which are not operating in substantial compliance with (1) any provision of the Act and regulations of this part, or (2) any requirement set forth in the approved State plan or in the approved project application. In the event of such termination the grantee shall be afforded reasonable notice of the proposed action and opportunity for a hearing.

(20 U.S.C. 844, 844a(b)(12))

§§ 118.28–118.31 [Reserved]

Subpart E—Fiscal Procedures

§ 118.32 Grant awards.

In all cases where the State educational agency makes grants under the Act to local educational agencies, it shall award such grants for specified grant periods on the basis of applications which have been approved in accordance with § 118.23 of this part. All grant awards shall be in writing and shall set forth the amount of funds granted and the period during which such funds are available for obligation and expenditure, and shall specify the anticipated length of the project period.

(20 U.S.C. 844(a), 1232c(d))

§§ 118.33–118.40 [Reserved]

Subpart F—Equipment and Construction

§ 118.41 Recovery of payments.

If within 20 years after the completion of any construction undertaken pursuant to a grant under the Act (a) the owner of the facility shall cease to be a State or local educational agency, or (b) the facility shall cease to be used for the educational and related purposes for which it was constructed, the United States shall be entitled to recover all or a portion of the Federal funds used to pay for such construction in accordance with the provisions of section 308 of the Act.

(20 U.S.C. 847)

§§ 118.42–118.50 [Reserved]

Subpart G—General Provisions

§ 118.51 Payment of funds.

(a) From its allotment under section 302 of the Act for any fiscal year, and in accordance with § 100b.53 of this chapter, the Commissioner will pay to each State, either in advance or by way of reimbursement, amounts equal to the sums necessary for current expenditures by the State under an approved State plan for (1) grants to local educational agencies for supplementary educational centers and services and (2) guidance, counseling, and testing programs.

(20 U.S.C. 845(a), 1232d)

(b) The payment of funds under Title II of the Act will be limited to the maximum funding level established by section 305(d) of the Act as described in § 118.18 of this part and the funding of partially approved State plans is further subject to the limitations set forth in § 118.18(b) of this part.

(20 U.S.C. 844a(c), (d))

(c) The Commissioner will pay additional sums to each State receiving funds under paragraph (a) of this section for administration of the State plan; administration of guidance, counseling and testing programs; activities of the State advisory council, and evaluation and dissemination activities. In no case will the amount paid to a State for such activities for any fiscal year exceed an amount equal to 7.5 percent of its allotment for that fiscal year or $150,000 ($50,000 in the case of the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands), whichever is greater. All allowable expenses for administering guidance, counseling, and testing programs or projects under the State plan can only be reimbursed with funds under this paragraph.

(d) Subject to applicable provisions of law, no payment will be made by the Commissioner to a State under the Act for any fiscal year unless the Commissioner determines that the amount of State aid per pupil with respect to the provision of free public education in that State for the preceding fiscal year was not less than the amount of such State aid per pupil for the second preceding fiscal year.

(20 U.S.C. 845(b), (e), 1232d)

§ 118.52 Reallotment.

(a) *General.* The amount of any State's allotment under Title III of the Act for any fiscal year which the Commissioner determines will not be required by such State for the period for which that amount is available shall be available for grants pursuant to section 306 of the Elementary and Secondary Education Act (20 U.S.C. 844b) and Part 126 of this title (special grants made directly by the Commissioner) in such State. If the Commissioner further determines that the amount is not needed in such State for grants pursuant to section 306, that amount may, at the Commissioner's discretion, either be used for grants pursuant to section 306 in other States or realloted to other States. Funds may be reallotted from time to time, during the period for which they are available, on such dates as the Commissioner may determine, among other States in proportion to the amounts of their respective original allotments for that year, but with the proportionate amount for any of the other States being reduced to the extent it exceeds the sum the Commissioner estimates the respective State needs and will be able to use during the period for which the funds are available. Funds available due to such reductions may be similarly reallotted among the States whose proportionate amounts were not so reduced. Any amount reallotted to a State from funds appropriated pursuant to Section 301 of the Act for any fiscal year will be deemed to be a part of the amount allotted to it under Section 302 of the Act for that year.

(b) *Statements of anticipated need.* In order to provide a basis for reallotment of funds by the Commissioner pursuant to this section, each State agency shall, if requested, submit to the Commissioner, by such date or dates as he may specify, a statement or statements showing the anticipated need for the funds previously allotted during the period for which such funds are available, or any amount needed to be added thereto by reallotment. Such further information as the Commissioner may request for the purpose of making reallotments shall be reflected in such statements.

(20 U.S.C. 842c)

§ 118.53 Annual and other reports.

Pursuant to the provisions required for approval of the State plan under section 305(b)(11) of the Act and § 118.16 of this Part, the State educational agency shall make an annual report and such other reports containing such information as the Commissioner may reasonably require to carry out his functions under the Act and to determine the extent to which funds provided under the Act have been effective in improving the educational opportunities of persons in the areas served by programs or projects supported under the State plan and in the State-as-a-whole. The annual report shall include an evaluation made in accordance with objective measurements to determine the extent to which critical educational needs identified in the State plan have been met and an evaluation of the effectiveness of projects funded for that fiscal year under the Act. The State shall also keep such records and afford access thereto as the Commissioner may find necessary to assure the correctness and verification of such reports.

(20 U.S.C. 844a(b)(11))

§§ 118.54–118.58 [Reserved]

GUIDELINES—ESEA, TITLE III, SECTIONS 301–05, 307–08

FINANCIAL ASSISTANCE FOR SUPPLEMENTARY CENTERS AND SERVICES, GUIDANCE, COUNSELING, AND TESTING PROGRAMS

Contents

CHAPTER I—INTRODUCTION

2.1 Project period.
2.2 Grant terms and conditions.

Part 3—Project Design and Activities

3.1 General project design.
3.2 Project activities.

CHAPTER I—INTRODUCTION

PART 1—GUIDELINES

§ 1.1 *Scope of guidelines.*

(a) The guidelines contained in this document are recommendations and suggestions for meeting the legal requirements which apply to Federal assistance under the Elementary and Secondary Education Act, Title III, sections 301–308 (excluding Section 306). The legal requirements include the Act (20 U.S.C. 841–844a, 845–49) and the regulations (45 CFR 118). The guidelines are not to be construed as requirements. However, where the guidelines set forth a permissible means of meeting a legal requirement, the guidelines may be relied upon. Projects are not subject to termination proceedings or audit exceptions for conduct which is recommended or suggested in the guidelines.

(20 U.S.C. 1441; 113 Cong. Rec. 5036, 5039 (daily ed. May 23, 1967); *United States v. Jefferson County Board of Education*, 372 F. 2nd 836, 857 (1966))

(b) Where a guideline is issued in connection with or affecting a provision in the regulations, the pertinent regulation will be cited after the citation of legal authority for the guideline, in the parentheses following the guideline. For example, if the legal authority for the guideline is Section 305(b)(11) of the Act (20 U.S.C. 844a(b)(11)), and the guideline affects § 118.16 of the regulations (45 CFR 118.16), the following citation

will be placed on the line immediately following the guideline: (20 U.S.C. 844a(b)(11)); (45 CFR 118.16). If no particular section of the regulations is affected, no citation to the Code of Federal Regulations (CFR) will be made.

(20 U.S.C. 1232(a))

PART 2—THE PURPOSE AND PROGRAMS OF TITLE

§ 2.1 *Objectives.*

The role of Title III of the Act in the improvement of American education is that of demonstrating the feasibility of innovations in a local context. These demonstrations should meet the criteria of having been field tested following research and development phases, usually under the auspices of State educational agencies, universities, foundations, or educational laboratories. They should be exemplary in that they will serve as models for other school systems that may wish to visit or replicate them, and they should hold promise of being economically feasible. In this manner, the Title III project bridges the research-to-practice gap by filling the diffusion role in the change continuum of research, development, diffusion, and adoption.

(20 U.S.C. 841(a))

§ 2.2 *Types of programs.*

State educational agencies are authorized to make grants to local educational agencies for innovative and exemplary programs and projects which are designed to demonstrate ways of making a substantial contribution to the solution of critical educational problems. Title III grants should be made only to programs or projects which can be replicated elsewhere if evaluation proves them to be an effective approach to solving educational problems.

(20 U.S.C. 841(a))

§ 2.3 *Program emphases.*

(a) The flexibility of Title III of the Act allows its resources to be focused on virtually any major educational need. Title III can be used as an effective agent to develop strategies for demonstrating exemplary programs to meet assessed needs and for designing innovative approaches that can be replicated by local educational agencies. Title III of the Act furnishes the seed money to produce innovative solutions to critical problems which are of concern to all or several States. In effect, this program offers money to plan and develop new programs, and test their feasibility for innovations as model programs which may be adapted throughout the Nation to meet critical needs of public and private school children.

(b) In making long-range plans for improving education, States have the responsibility for identifying their most critical educational needs with local educational agencies and for encouraging the development of projects which demonstrate highly creative approaches to meeting these needs, with the ultimate aim of promoting widespread adaptation, through other funding sources, of those programs which are judged to be the most promising. Therefore, the aim of Title III is to design and demonstrate creative solutions of major educational problems which affect various States and the entire Nation, rather than to provide direct aid on a massive scale.

(20 U.S.C. 843(b), 844a(b)(1)(A)); (45 CFR 118.9, 118.22, 118.25)

CHAPTER II—STATE PLAN ADMINISTRATION

PART 1—ELIGIBILITY FOR PAYMENTS

§ 1.1 *Submission of State plans.*

The Title III program in recent years has placed less emphasis on the State's preparing, and the Office of Education's approving a detailed description of the manner in which the program is to be conducted. More emphasis has been placed upon the State's developing a contemporary dynamic process for planning, evaluating, and managing federally supported educational programs. The State plan becomes a set of assurances; except when otherwise required by law, certain provisions which a State is legally bound to follow in the administration of a program must be set forth in the plan on an annual basis. It does not reduce the requirement for a State to develop a thorough and complete plan or to present such a plan in writing. The plan serves as a guide in the administration of any federally supported program. This State-developed management plan should be made available and on file for any person to review.

§ 1.2 *Calendar of suggested dates for submitting material to Office of Education.*

Name of report	Number of copies	Suggested date due in USOE
Certification of State Advisory Council (20 U.S.C. 844a(a)) (45 CFR 118.3(c)).	1	April 1 of each year.
State Plan (20 U.S.C. 844a(a)(1)(c)) (45 CFR 118.6).	4	May 1 of each year.
State Plan Amendment (20 U.S.C. 844a(a)(1)(c)) (45 CFR 118.6(e)).	4	Allow 30 days for OE to process.
Annual Report (20 U.S.C. 844a(b)(11)) (45 CFR 118.53).	4	October 1, after the end of each fiscal year.

PART 2—STATE ORGANIZATION AND FUNCTIONS

§ 2.1 *State advisory council support staff.*

Staff members made available to assist the State advisory council may be employed on a full- or part-time basis and may include consultants highly trained in educational areas such as evaluation and statistics. Other support staff may include administrative assistants trained in data collection, editorial assistants, and clerical help. Council members ordinarily will serve on a part-time basis; however, a full-time person may be employed to serve in the capacity of Executive Secretary.

(20 U.S.C. 843(c), 844a(a)); (45 CFR 118.4(c))

§ 2.2 *State agency staffing and functions.*

(a) *Staff needs.* The State educational agency staffing patterns for the administration of the Title III State plan may vary from State to State. The number of additional staff members needed will, of course, depend upon the amount of the allotment, the competencies of the present staff, and the kind of program to be developed within the State. In States where small numbers of projects are to be administered, additional staff members may be recruited on a part-time basis, and regular staff members in the agency may be called upon both for service functions and for administration, depending upon the need for their particular proficiencies.

(b) *Staff functions.* In determining staff patterns for the Title III State plan program required by § 118.7(d) of the regulations, the State educational agency should consider carefully the following:

(1) *Program coordination.* A staff member to oversee the total program and to coordinate the activities of the advisory council and the panel of experts with those of the State educational agency staff will be needed. This person will be responsible for the establishment and management of the staff serving the State advisory council as well as the Title III State educational agency staff, and for coordinating their activities in behalf of the program in the State.

(2) *Program development.* Personnel with expertise in such areas as early childhood education, education of children from minority groups, education of children from rural areas, education in inner cities, treatment of potential and actual dropouts, education of the handicapped, language arts, reading, bilingual education, individualized instruction, curriculum development, and other areas identified by the Statewide assessment of needs will be needed. Such experts may already be on the staff of the State educational agency and, if so, may be called upon as appropriate. Such persons may be employed as full-time staff members to serve the Title III program, or may be employed on a part-time basis as needed. Their assignments might include providing consultation to local educational agencies in the development of projects; planning, developing, and conducting inservice training programs; gathering and disseminating information concerning research and innovation in their field; and serving in an advisory capacity to projects in operation;

(3) *Project proposal review.* Project proposals should be reviewed by persons having recognized expertise in the educational areas proposed for support. Reviewers should be able to judge, in their areas of specialization, whether: (i) a project is an innovation in the field, (ii) the available research has been studied, (iii) the idea is basically sound, (iv) the consultants named are competent in this field, and (v) the project is economically feasible;

(4) *Program operation.* Personnel are important to monitor and supervise the operation of approved projects. Projects may be assigned to personnel on the basis of area of specialization or, in the case of large States, on a regional basis. Such personnel should assist project directors in carrying out the proposed program;

(5) *Evaluation.* The requirements for evaluation both of local project design and of the program at the State level as set forth in § 118.22(d) of the regulations call for staff with expertise in this area. Evaluation specialists may be contracted on a team basis, or they may be a part of the staff. Their functions should be to assist local educational agencies in preparing evaluation designs and in evaluating projects at regular intervals. In addition, they should be called upon to evaluate the effectiveness of the total State Title III program;

(6) *Dissemination.* Personnel with experience in communications are important members of a staff. It should be their responsibility to disseminate information about the preparation and submission of projects, keep the local school districts informed concerning innovations in education, serve as a clearinghouse of educational information, assist local educational agencies in their dissemination efforts, inform school districts and other audiences in the State of successful programs, and maintain an internal communications system in the State educational agency;

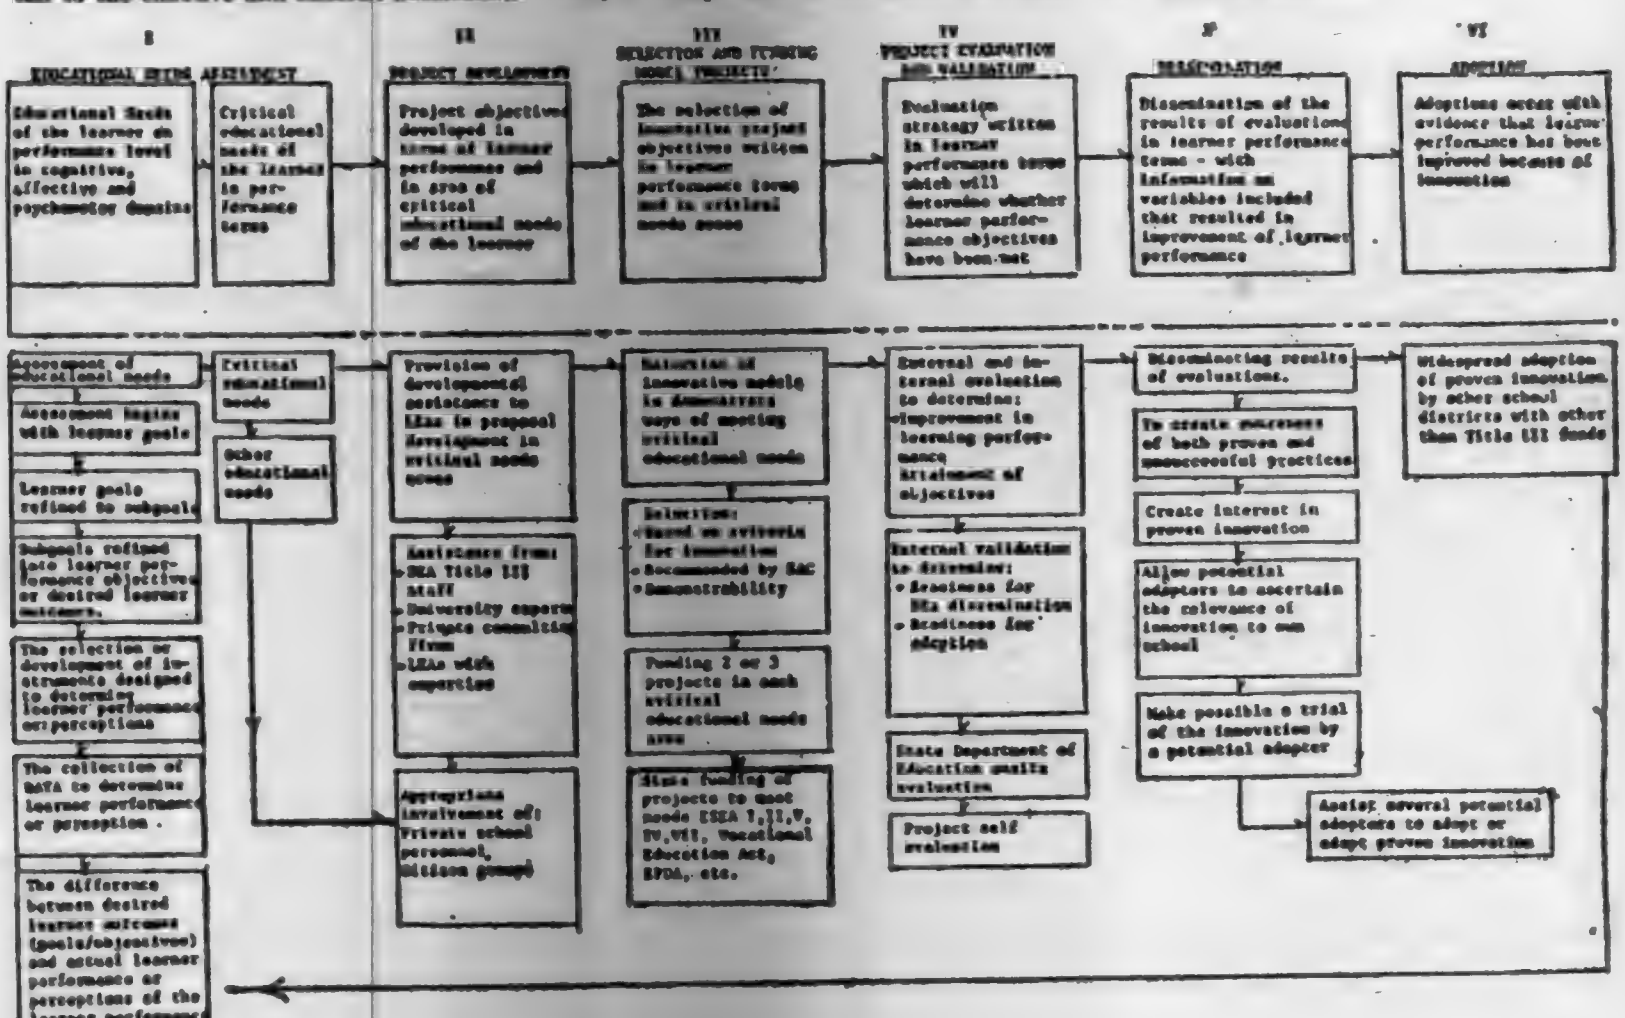
(7) *Grants management and finance.* Grants administration personnel who can

maintain such fiscal control and accounting procedures as may be necessary are important to assure proper disbursement of and accounting for Title III funds paid to the State. Their functions include working with program officers to examine items of the project budget and providing technical advice and assistance to local educational agencies in the areas of budgeting, fiscal control, and accounting. Grants administration personnel should also develop a system to ensure that fiscal data are accessible to appropriate units in the State educational agency; and

(8) *Clerical.* A staff sufficient to file and handle all records concerning each project is important. Other assignments including mailing of projects to reviewers, transmitting routine notifications, and handling correspondence and schedules for various staff members.

(20 U.S.C. 844a(a)(1), (b)(2) and (10)); (45 CFR 118.7(d), 118.23)

§ 2.3 *Professional development activities.*



(a) Staff development programs are essential to the effective and efficient administration of the Title III program as set forth in § 118.8(e) of the regulations. Although the specific activities are dependent on individual State staff training needs, the following are examples of criteria that could be used to determine the adequacy of professional staff development activities at the State level under Title III: (1) The extent to which the State educational agency is already committed to providing the staff with development opportunities; (2) the extent to which development opportunities show clearly stated objectives which are directed toward the needs of the staff; (3) the adequacy of the total staff development program; (4) the extent to which the development program is evaluated to determine its effectiveness; and (5) the extent to which the development program involves appropriate State staff in addition to those working under Title III.

(20 U.S.C. 844a(b)(2)); (45 CFR 118.8(e))

(b) Since substantial consultant costs have been incurred by many Title III projects, it is important in the interest of effective control and better evaluation of consultant services that reports of such consultations be prepared and that results of consultations be documented in the grantee's project records. It is recognized that the selection of consultants by grantees may vary by purpose as well as by the length of time a consultant is hired, and that these matters have a bearing on the extent to which the consultations can be documented. For example, one consultant may be hired for the evaluation of a Title III project and receive fees for several days' work; whereas another consultant may visit a project for one day only to discuss strategy and problems with staff members. In the first example, the grant records should include a formal written report from the consultant (an evaluation). In the second example, the grantee should prepare a memorandum concerning matters discussed with the consultant and should file the memorandum for the record.

(20 U.S.C. 844(a)(5)); (45 CFR 118.23(c)(5))

2.4 *Model of operation.*

(20 U.S.C. 843(b), 844a(b)(1)(A),(6)); (45 CFR 118.8)

PART 3—THE STATE EDUCATIONAL AGENCY AS FACILITATOR OF EDUCATIONAL CHANGE UNDER TITLE III.

§ 3.1 *Change and the role of the State agency.*

(a) One of the primary functions of the State educational agency under Title III of the Act is to effect change in education which is relevant to valid educational and social goals. The Title III program is a vital part of the State educational agency's effort to effect such change in schools throughout the State.

(b) Most educational changes are not simple adoptions of a solution developed elsewhere, but are adaptations of the school to the innovation and of the innovation to the school. This means that it is vital to know both the essential conditions for the innovation to succeed and the unchangeable constraints within the school, so that any adaptation made in the innovation may actually result in educational improvement, rather than in maladaptation.

(c) In examining school districts to see which will be the most responsive to innovations, the State educational agency may wish to use the following criteria:

(1) *Initiating mechanisms*, the continuing flow of new knowledge into the school district from outside sources. This new knowledge may flow through print or other mass media, through training programs, through professional meetings, or through interpersonal communication with persons outside the school district;

(2) *Sustaining mechanisms*, or the capability of the school district to respond to and act upon such new knowledge. These mechanisms are within the school district, itself, and are relatively impervious to manipulation by outsiders. Among the internal conditions which will influence the ability of

XUM
V 39 N 251 DEC 30 1974
XUM
V

the school district to change are (i) the degree of commitment and support for high quality educational programs within the community, (ii) the degree to which the school district demonstrates "openness," or willingness to perceive problems and to make use of information from outside sources, (iii) the degree to which there is open communication between administrators and teachers about task-related matters, and (iv) the degree of flexibility there is in school budget; and

(3) *Performance feedback transmissions*, which are dependent on the clarity and measurability of objectives of the school district and the nature and degree of communication concerning desired goal attainment within the schools. Clearly related to this, of course, are similar communications about the effect of any trial innovation on goal attainment;

(d) Adopters of innovations tend to go through a series of five stages culminating in adoption. Rejection of an innovation may occur at any point in the process. These stages are as follows:

(1) *Awareness*, the point where the potential adopter learns of an innovation, or of some alternative to his current practice;

(2) *Interest*, the stage in which the more innovative of the potential adopters seek out additional, more technical information about the innovation;

(3) *Evaluation*, the stage during which the potential adopter makes an "in-the-head" assessment of the relevance of the innovation to needs, to apparent advantages, and to potential problems for him. Most potential adopters at this stage rely heavily on interpersonal communication with program developers and/or earlier adopters;

(4) *Trial*, the stage in which the potential adopter makes an actual field test of the innovation on a limited basis. The late adopters are likely to omit this stage, since they can see the benefits that adopting the innovation have brought to the majority of their peers who have already adopted the innovation; and

(5) *Adoption*, the final stage, when the adopter decides to make full-scale continuing use of the innovation until it is replaced by a better program. In both trial and adoption stages, the direct, first-hand experience of an adopter and the advice, assistance, and encouragement of expert consultants or even earlier adopters are the most important information sources.

(e) To facilitate change, the adopter should seek more information about the innovation, then turn toward more technical information sources which provide more detailed information, such as government bulletins, integrative reports, or expert advice. The more innovative the adopter, the more likely he is to use technical information sources; the less innovative, the more heavily he will rely on interpersonal communication, particularly with individuals he knows and believes to have more expert knowledge.

(f) Innovators should not rely on attractive color brochures or individual reports of Title III projects which are so popular among most educational dissemination personnel. They are useful for little more than making others aware of the existence of an innovation. Such information is unconvincing for those same potential adopters as they move closer to evaluation, trial, and adoption of the new practice, and may even be misleading.

(g) If a State educational agency is to facilitate the spread of improved educational practices, it is important that it tailor its strategy and activities to the actual conditions and constraints in the local school districts. The following are constraints that the State educational agency may face:

(1) *The pluralistic nature of the decision-making process in American public education.* The pluralistic system of decision-making in American government reflects American values, but it does make the problem of system-wide educational change slower and more difficult; there is no single locus for making and implementing educational decisions. An innovation is likely to be adopted if the adopting unit—be it a person or an organization—perceives greater relative advantage through adoption of the innovation than in continuing current practice. Most changes of any significance involve a number of congruent decisions in different loci: Policy decisions by the school board, management decisions by superintendents and principals, subject matter decisions by supervisors, and implementing decisions by each classroom teacher involved. However, one fact stands out: unless the superintendent, who can allocate resources and influence behavior, is supportive of innovation, it probably will not occur. It is important, therefore, that superintendents of schools continuously encourage activities which will better meet local needs. Every effort should be made to provide them with information and assistance which will help them make informed decisions regarding the allocation of resources. Efforts should also be made, of course, to communicate with and assist the decision-makers and implementers at other levels, who are necessary participants in the adoption process.

(2) *The statement of educational goals.* Educational goals, like many others, are often stated in unmeasurable terms. In determining whether an innovation should be adopted, the relative advantage of the innovation is compared to current practice in terms of the goals of an organization. When the goals are not stated in clear, measurable terms and when there are conflicts among goals, it becomes difficult to identify any clear advantage in any single practice over any other. This condition suggests the need for the formulation of more precise, operational, and attainable educational goals if educational improvement is to be determined. It should be recognized that explicit goal definition is, in itself, an educational innovation.

§ 3.3 *The unique resources of the State educational agency.*

(a) The State educational agency possesses certain capabilities which assist the agency in facilitating educational change. Underlying all other consideration, the statutory position of the State as the responsible agent for education in the United States mandates a leadership role in educational improvement by the State educational agency.

and the job opportunities in the various fields. Also, it will encourage students with outstanding aptitudes and abilities to complete their secondary school education, take the necessary courses for admission to institutions of higher education, and enter such institutions. Such programs shall include occupational information and counseling and guidance, and instruction in occupational education on an equal footing with traditional academic education, and may include short-term training sessions for persons engaged in guidance and counseling in elementary and secondary schools, junior colleges, and technical institutes in the State.

(b) Guidance and counseling services under the State plan shall be provided by qualified counselors through appropriate individual and group processes. Such processes shall be coordinated with other pupil personnel services and guidance and counseling resources both within and outside the school setting, and shall include referral assistance, working with other staff members in planning curriculum content and changes, and consulting both teachers and parents with regard to the learning and developmental needs of pupils.

(c) The program set forth under paragraph (a) of this section shall make provision for supervision and leadership activities by the State educational agency with regard to the establishment, maintenance, and improvement of guidance and counseling services. Such activities shall include the assessment of other Federal and State programs (such as Titles I and V of the Elementary and Secondary Education Act the State educational agency in many cases, as the major source of assistance in formulating educational policy. Through the types of communications it provides to the Governor and the State Legislature, the State educational agency can assure the development of sound, rational State policy on education and provide the intellectual basis for the policy-makers to make fiscal and other decisions which permit implementation of that policy.

(2) The State educational agency may use its regulatory function to facilitate change. Although the regulatory function can be performed in a manner which is deadening and inhibiting, it can also be used as a means of encouraging educational improvement. Assuring the presence of qualified teachers is a regulatory function, but one that should assure better, not worse, education. If certification requirements are used as a means of preventing trial and assessment of staff differentiation in the schools, this can inhibit educational change. However, such inhibition results more from the way the regulation is implemented than from the standard, itself. The regulatory function can also be used to encourage more explicit statements of educational goals at the local level and to assure justification of proposed new courses of action. If exercised in this way, it is possible to develop procedures for regulating educational improvement rather than for blocking it and to have guidelines for further waiving of regulations under appropriate conditions, or even for amendment of regulations in a manner consonant with changing educational needs under Title III of the Act.

(4) The role of the State educational agency in educational finance should be a powerful instrument. The State's financial authority will not foster educational change, however, if all financial transactions between State and local educational agencies are based on formula grants. Most Title III innovations involve some degree of risk taking. It requires the potential for acquiring or reallocating money for trial and installation of changes. The State can facilitate change by providing risk capital and fiscal flexibility, as well as incentives for local schools to seek changes which lead to educational improvement. In such programs, it is highly advisable to require commitment of local funds to the innovative effort from the very beginning, with increasing allocation of local resources as the project progresses. Data in both education and other fields show that an innovative program which involves the use of local monies from the beginning is more likely to be installed than one which receives full funding from outside sources.

(5) Because of the State educational agency's intermediate position between local and national resources, it can have a great impact on local change processes through the information regarding innovation which it transmits to local schools, and its role as a linker agent in matching needs and resources. To

perform this function effectively at intervals and in forms which are timely and useful, the State education agency should continuously keep abreast of proven practices in education. The agency's linker role can be established through a State educational agency information center which links distant resources to local needs. Without such a center, State dissemination efforts are likely to be intermittent, unfocused, and only partially effective. The State agency should set up an information system under Title III of the Act which provides for:

(i) Comprehensive, up-to-date, practical, and accessible information. Often, information seekers make first and most frequent use of the most accessible information source, even when that source may not provide the best information.

(ii) Information tailored in format and content to the requirements of persons who have different educational roles and who are at different stages of the adoption process. Unless the State's information program is based upon continuing assessment of the characteristics and needs of its users, it will be a waste of money and effort. The following table suggests information relevant to each stage of the adoption process:

Stage	Questions	Needed information
Diagnosis	How am I doing?	Current performance data.
Awareness	How can I do better?	Alternative solutions to my problem.
Evaluation (pretrial.)	Will it work for me?	Settings and conditions where the innovation succeeded or failed.
Trial	How can I do it?	Sources of expert assistance. How to adapt to local conditions.
Evaluation (posttrial.)	How did I do?	Comparative effectiveness of old and new practices.
Installation	How must I change?	Needed readiness and actions to make the innovation work operationally.
Maintenance	How do I continue?	Resources and actions needed to continue and modify the innovation.

(iii) Effective two-way communication between the school and the community and in time looks toward regulations which mandate increased efforts toward such communication. Since community concern for and participation in educational dialogue enhances the innovativeness and responsiveness of schools, the State educational agency, in its leadership role and in its provision of staff services to elected State officials, should emphasize this dialog.

(iv) In its leadership its regulatory role, the enhancement of improved performance feedback transmissions within and between school districts. As part of its leadership role, the State educational agency should communicate to local districts means of defining goals operationally and methods of assessing the degree of their attainment. In some cases, it may even be possible to stimulate statewide participation in development of model educational objectives. As a regulator, the State educational agency may require operational specification of objectives in proposals for Federal or discretionary State funds; it may require by regulation that participation in certain State programs be based upon operationally stated objectives, or it may offer incentives for provision of undisputable evidence of satisfactory performance.

(v) Communications to the State legislature in performance-oriented terms whenever possible and offers assistance in formulation of legislative proposals for improved goal definition and performance assessment in education.

(20 U.S.C. 843(b)(4), 844a(a)(1), (b)(1)(B)(i) and (ii), 883); (45 CFR 116.22)

PART 4—ASSESSMENT OF EDUCATIONAL NEEDS

§ 4.1 *Planning for a needs assessment.*

(a) An educational needs assessment under Title III of the Act is a technique for identifying those educational objectives which most need to be accomplished in a given instructional situation. This concept of educational needs assessment provides for (a) the identifying of a desired learner outcome and (b) the ascertaining of the learner's current status with respect to that outcome. The educational needs constitute the difference between the current status and the desired status. The following illustration represents this concept:

DESIRED LEARNER OUTCOMES	minus	CURRENT LEARNER STATUS	equals	AN EDUCATIONAL NEED

(b) The assessing of educational needs should be learner-oriented, focusing on the behavioral needs of children in the cognitive, affective, and psychomotor domains. Such needs assessment is important for making any significant improvement in educational outcomes and should be carefully planned and implemented with both short- and long-range objectives.

(c) Planning for a needs assessment is a departmentwide effort. The Title III monies may be combined with State and local monies to finance a needs assessment representative of all groups of persons who will be users of the needs assessment results and all persons whose specific skills will be useful in conducting the needs assessment studies should participate in the planning. It is suggested that they include:

(1) Appropriate representatives of State educational agencies, including persons responsible for administering State and federally supported programs, and those responsible for administering programs in the education of the handicapped; (2) appropriate representatives of the U.S. Office of Education; (3) appropriate representatives of local educational agencies; (4) representatives of professional organizations; (5) appropriate consultants (e.g., university-based evaluation specialists); (6) representatives of school boards of education; (7) representatives of State advisory councils for Title III; (8) representatives of State boards of education; (9) appropriate legislators and their staff consultants; and (10) representatives from private nonprofit elementary and secondary schools.

(d) Sufficient funds should be allocated to adequately accomplish a comprehensive educational needs assessment, and lines of communication and responsibility should be clearly established. Financial resources necessary for planning and implementing a needs assessment might come from a variety of State and Federal sources in addition to Title III funds. The possibility of a cooperative effort among State educational agencies in planning for needs assessments, including a pooling of financial resources, should be explored.

(e) Other resources contributing to the planning and implementing of a needs assessment should include personnel from various agencies, and representatives of private nonprofit elementary and secondary schools, and special ad hoc groups which in the past had been especially concerned with needs assessments, existing strategies used in needs assessments, literature related to the subject, both technical and popular, and existing sources of data. A needs assessment should refer to a variety of data sources with special attention given to timeliness, accuracy, and manageability (accessibility and usefulness) of data.

(f) Special competencies in system design, survey research design, statistics and measurement theory, sampling, and data processing is important in the planning stages. Special competencies in developing behavioral objectives, survey research, statistics, sampling, and data processing is also important in conducting the assessment.

(g) A commitment to the needs assessment and its potential results should be obtained from the Department, the Chief State School Officer, the Title III State Advisory Council, the State Board of Education, and appropriate representatives of private nonprofit elementary and secondary schools. It might be desirable to have a needs assessment steering committee to monitor, review, and revise strategies on a regular basis. Planning should include the means to facilitate reliability and validity checks of data collected and the means to make these data available to decision makers.

(h) A strategy for a needs assessment should be sufficiently constructed so as to consider all of the important elements and should include development and/or selection of learner goals and objectives, design of instruments for data collection, and determination of a means for precise analysis of data. The entire range of the student's achievement in all areas of learning should be included in the assessment of student needs. This would provide for student success as well as student deficiencies. The overall concept of the assessment of the students' educational needs would then consummate the difference between the current status of the learner and the desired learner outcomes. If particularly successful programs can be identified, the assessment strategy might provide alternatives to meet particular needs in a diffusion adoption process.

(i) The assessment strategy should include both long- and short-range goals and objectives that are behavioral, measurable, and representative of cognitive, affective, and psychomotor domains. A specification of the length of time required to achieve a specific goal or to reach a given objective and a set of objectives for each activity (time-frame) should be stated. Specific activities should be designed for the achievement of each goal and objective which are sufficiently refined to measure student learning.

(j) State educational agencies that have already established learner goals for their educational needs assessment should use these goals as a basis for developing subgoals and then use learning objectives as a basis against which needs can be delivered. Other States that do not have established learner goals should first establish goals before proceeding with the needs assessment effort. An example of the education goals and the related general objectives of one State educational agency include:

(1) *To accumulate knowledge.*

(i) *Subgoals:* (a) Develop a general education background in oral and written English, in the use of numbers, natural sciences, reading, mathematics, and social sciences; (b) develop a fund of information and concepts; (c) develop a knowledge of political principles and their evolution; and (d) develop special interests and abilities.

(ii) *Learning Objectives:* To develop fundamental intellectual skills: (a) By learning to get adequate meaning with reasonable speed from printed materials; (b) by learning to spell correctly the commonly used

XUM

words; (c) by learning to express facts in reasonably correct and clear language, orally and in writing; (d) by developing habits and skills in clear thinking; and (e) by acquiring reasonable speed and accuracy in fundamental arithmetical processes and in the ability to solve quantitative problems.

(2) *To better the interrelationships of peoples.*

(i) *Subgoals:* (a) Developing respect for cultural heritages of other peoples of the world; (b) develop an appreciation for and an understanding of other people and other cultures; (c) develop an understanding of political, economic, and social patterns of the rest of the world; (d) develop awareness of the interpendence of races, creeds, nations, and cultures; and (e) develop an awareness of the processes of group relationships.

(ii) *Learning Objectives:* To lay the basis for intelligent citizenship: (a) By developing ideals and attitudes favorable to political, economic, and social democracy; (b) by developing appreciative cooperative attitudes toward others of different national and racial origins and to other countries; (c) by gaining an understanding of the simpler facts and an appreciation of community, city, State, and national governments; and (d) by acquiring familiarity with and appreciation of the more important facts and lines of development in the history of our nation.

(3) *To develop character.*

(i) *Subgoals:* (a) Developing moral responsibility and a sound ethical and moral structure; (b) develop an understanding of moral behavior; (c) develop the student's capacity to discipline himself to work, study, and play constructively; (d) develop a moral and ethical sense of values, goals and processes of free society; and (e) develop standards of personal character and ideals.

(ii) *Learning Objective:* To assist in the formation of a high degree of social character and responsibility including moral and ethical concepts, attitudes, and habits: (a) by developing ideals, habits, and attitudes of fair dealing, cooperation, responsibility, respect for the rights of others, and self-reliance; and (b) by developing prejudices against such attitudes and habits as lack of cooperativeness, excessive selfishness, dishonesty, unwillingness to assume responsibility, etc.

(k) Learner goals can also be developed along more general lines such as those of another State educational agency which include the following: (1) The inquiring mind exemplified by a continuing desire for knowledge, a continuing interest in current problems, and the habit of weighing alternatives and creatively applying them to the solution of these problems; (2) a knowledge of fundamental concepts about the world environment and man's relationship to it; (3) proficiency in the use of modes of communication; (4) a dedication to the task of improving America, striving for solutions to its continuing domestic and world problems and upgrading the lives of all people; (5) maintenance of health, achievement of a high level of personal fitness, and the acquisition of wholesome leisure skills; (6) an emotionally stable person; (7) a moral standard of behavior; (8) a knowledge of the inter-relationships of nature and the cultural arts and the ability to utilize all of the senses to make aesthetic judgments about the total environment and to enrich his own life; and (9) information and guidance for wise occupational choice.

(l) The needs assessment strategy should include provisions for collecting appropriate information on specific subpopulations about student learning objectives in three categories: (1) Perceptions of the community (including business and industry) educators, and the learner, with regard to the relevance and importance of these objectives; (2) criterion-based test instruments to determine the extent to which student learning objectives have been achieved; and (3) relevant demographic data about the learner.

§ 4.2 *Collecting data.*

(a) The assessment should provide for instruments to collect data of three different types: The statements of objectives themselves; the criterion-referenced tests designed to measure the extent to which the objectives have already been achieved; and instruments designed to measure the perceptions of relevance and importance by different groupings of students and so-called consumers. In addition, the needs assessment strategy should include provisions for collecting appropriate information on specific subpopulations rather than for all respondents, regardless of background. Where it is appropriate to do so, data collection instruments should be field tested thoroughly on a pilot basis prior to actual use. The procedures for analyzing data should be thoroughly tested to determine if all data collected can be appropriately utilized and treated. Both reliability and validity should be built into the strategy design for assessing needs to aid in determining if the State is accurately and consistently measuring what it purports to measure in the needs assessment strategy.

(b) In collecting data, the specifications of actual procedures used must wait upon adoption of an overall strategy. The analyzing of such data is a highly technical function in statistics and data processing which can be spelled out only after comprehensive plans have been adopted for the needs assessment. Provisions should be made to assure that data collected are manageable and current, and that conclusions drawn from the interpretation of data can be supported.

(c) The translation of information into critical educational needs requires a distinction to be made between collecting information to be used in making decisions and between the decision making process itself. Logical and defensible procedures should be established for determining the criticalness of educational needs identified by data for the State as a whole and for each school district of the State. It may be that to the development of a strategy for making a needs assessment should be added a strategy for increasing the likelihood that the information will, in fact, be used. In addition to using the data for planning the Title III program, a State agency may determine that other institutions and agencies are potential users of the assessment results and, therefore, it is desirable to determine which are responsible for meeting various needs. At the State level, the State educational agency should be responsible for providing statewide results to the State Board of Education and, perhaps, for recommending courses of action based on an interpretation of results.

§ 4.3 *Criteria for determining adequacy of needs assessment.*

(a) The following criteria are suggested for use in determining adequacy of State provisions for the educational assessment of learning needs under the Title III program:

(1) *Planning, Management, and Resources*

(i) The personnel involved in the program are knowledgeable about evaluation, systems design, survey research, statistics and measurement theory, sampling and data processing techniques.

(ii) Sufficient funds have been allotted to adequately accomplish a comprehensive educational needs assessment.

(iii) There has been departmentwide involvement in the planning.

(iv) Lines of communication and responsibility are clearly established within the State educational agency and with representatives of private nonprofit elementary and secondary schools of the State.

(v) The Department, the Chief State School Officer, the Title III State Advisory Council, and the State Board of Education are committed to the needs assessment and its potential results.

(2) *Strategy.*

(i) The overall concept of educational needs assessment defines an educational need as the difference between the current status of the learner and the desired learner outcomes.

(ii) The assessment strategy includes both long- and short-range goals.

(iii) The strategy includes specific activities which have been designed to achieve each objective included in the strategy.

(iv) The strategy includes a time frame for accomplishing each activity.

(v) The strategy is sufficiently constructed so as to consider all the required elements.

(vi) Student learning goals are established for the purpose of determining children's needs through the educational needs assessment.

(vii) The student learning goals are behaviorally stated and representative of cognitive, affective, and psychomotor learning.

(viii) The student learning goals are sufficiently definitive to make them measurable objectives for student learning.

(ix) The strategy includes the elementary and secondary grade levels which will be assessed.

(x) The strategy (includes provision afor

(x) The strategy includes provisions for collecting data about student learning objectives into three categories:

(a) *Perceptions* of the community (including business and industry) educators, and the learner, with regard to the relevance and importance of these objectives;

(b) *criterion*-based test instruments to determine the extent to which student learning objectives have been achieved; and

(c) relevant *demographic* data about the learner.

(xi) The strategy includes provisions for a data sample from which validity can be determined; i.e., we are measuring what we purport to measure.

(xii) The strategy includes provisions for a data sample from which reliability can be determined; i.e., we are measuring accurately and consistently.

(xiii) The needs assessment strategy includes provisions for collecting appropriate information on specific subpopulations.

(xiv) The strategy includes provisions to assure that the data collected are manageable and current.

(xv) The instruments which are designed to collect data have been tested thoroughly on a pilot basis.

(xvi) Procedures for analyzing data have been thoroughly tested to determine if all data collected can be appropriately utilized and treated.

(xvii) The conclusions drawn from the interpretation of data can be supported.

(xviii) There are logical and defensible procedures established for determining the criticalness of educational needs identified by data for the State as a whole and for each distinct area of the State.

(xix) A listing of critical educational learner needs which are representative of cognitive, affective, and psychomotor learning is given.

(20 U.S.C. 844a(b)(1)(A)); (45 CFR 116.8)

PART 5—PROJECT DEVELOPMENT

§ 5.1 *State assistance to local project development.*

(a) In the Title III programs, the State educational agency provides leadership in developing school programs within its State. So it is logical that the State educational agency, seeing areas of need and potential areas of development within its State, would encourage local educational agencies to initiate innovative Title III project proposals.

(b) In its role as stimulator, organizer, and coordinator, the State educational agency may provide staff, including specialists in all curriculum and service areas, to help local schools develop sound proposals. Title V of the Elementary and Secondary Education Act can help provide the necessary funds if they are requested as part of a general effort to strengthen the curriculum program of the State.

(c) Since some local school districts have full-time personnel with expertise in educational research who may devote their entire efforts to the study and to the development of proposals, these districts would be likely to submit high quality proposals. To help local educational agencies that do not have staffs with needed capabilities, States might wish to implement procedures such as the following:

(1) Provide a team of consultants either from within the State educational agency or from some other agency to help local educational agencies in particular regions; and

(2) Fund planning grants which would provide local educational agencies with research teams that could offer intensive in-service training in new educational ideas to local staff members.

(d) Conduct local and regional workshops at frequent intervals for school personnel on such topics as translating educational research into practice, solving problems in curriculum change, examining successes and failures in initiating innovations, and studying evaluation designs and methods.

(20 U.S.C. 844a(b)(7)); (45 CFR 116.25)

PART 6—EVALUATION

§ 6.1 *Overview of evaluation.*

The most successful management of a title III project by a director and a team of specialists involves an evaluation which is the process of gaining and interpreting specific information to assess the degree to which the project objectives have been achieved. The task of designing the evaluation plan is both complex and multifaceted. Each component and the total project should include the evaluation of the product, the operational process, and management process goals.

§ 6.2 *Purpose of evaluation.*

The purpose of such evaluation is to determine how well each component and the entire project function within the established framework of time, cost, and objectives. A well-planned and -operated evaluation system should result in information which communicates clearly whether the standards of performance specified in the objectives have been met to a degree greater than, equal to, or less than the predetermined standards and why. This process enables the project staff to make the most effective and relevant decisions, and thus to provide the best possible assurances for project success by obtaining, maintaining, and interpreting accurate, up-to-date bodies of information relevant to project development, project implementation, and project successes and/or failures.

§ 6.3 *Staffing of evaluation.*

One primary management responsibility is that the project director oversee the design and implementation of the evaluation plan. Many local educational agencies will find it necessary to hire consultants or to seek the help of an outside technical assistance group for the planning, installation, or operation of the evaluation system, particularly if the program requires newly developed instruments and/or techniques.

§ 6.4 *The evaluation process.*

Evaluation may include delineating, collecting, and interpreting information for distribution to those involved in the decision-making process. In delineating information, one should clearly outline and specify the kinds of data being sought in terms of content, scope, reliability, validity, and appropriateness and relevancy of source; in collecting information one should gather and compile all available data from established parameters with precision and put in usable form; the interpreting of information gathered involves explaining the statistical and educational significance in a form that is understandable by those to whom the report is directed. Distributing this information entails providing appropriate and necessary written reports to those involved in the decision making process.

§ 6.5 *Elements of evaluation.*

(a) *Stating goals.* Stating major project goals in objective measurable terms is often the most difficult part of an evaluation design. Each major project goal should be broken down into more specific objectives. Specific objectives should be stated for each major project goal and might include: concepts or ideas to be learned; sensitivities and feelings to be developed; ways of thinking to be reinforced, strengthened, or initiated; or habits and skills to be mastered. It is suggested that applicants follow the generally accepted practice of stating specific objectives at the cognitive, affective, and psychomotor levels. Cognitive objectives relate to knowing, comprehending, applying, analyzing, synthesizing and evaluating; affective objectives relate to feeling, valuing, organizing, responding, etc., and psychomotor objectives relate to initiating, manipulating and articulating in a precise manner.

(b) *Standards for evaluation.* An important aspect of an evaluation design is the identification of specific activities, procedures, or techniques which will be used to attain each specific objective. Techniques should, to the extent possible, be varied, innovative, and in keeping with the objectives of the proposal. The specific method and standards for each specific objective to be used in evaluating that objective should also be stated. Examples of evaluative criteria might be: pupil attainment on questionnaires and surveys; teacher attitudes on questionnaires and surveys; pupil scores on paper-and-pencil tests of either the teacher-made variety or the standardized subject matter variety; direct observation of learners; random questioning of students; and pre-post testing.

(c) *Collection of data:*

(1) *Baseline Data:*

(i) The first steps in collecting information are to obtain the data needed to identify a need, define the problem and suggest directions in which solutions might be sought. The evaluator should indicate whether data currently available in the school system, such as school attendance figures for the previous year, will be used or whether data will be provided through the first administration of the measurement instrument. This data can become part of the baseline data needed for comparisons after the new program has been implemented. (ii) An important step in the baseline data collecting process is an analysis of the basic environmental factors involved, such as: (*a*) The environment in which the present problem occurs and that in which the proposed solution will operate; (*b*) the significant elements or variables in the environment or in the program which show promise of producing educational change; and (*c*) the direction in which the anticipated changes will occur. (iii) The process of establishing baseline data is a task of some magnitude and requires skill on the part of project planners. Questions of appropriateness of objectives, recency of collection, sensitivity or responsiveness to short-term change, reliability and objectivity of data, and comparability of data-gathering situations are some of the considerations which program planners must take into account as they formulate their evaluation designs.

(2) *Procedures for collecting data.* (i) The specific activities, procedures, or techniques designed to attain each specific objective should be stated. The formation of the evaluation design is inextricably linked to the development of performance objectives. If performance objectives have been developed properly both for product outcomes and for operational and management processes, a major part of the task has been accomplished. The conditions of measurement and the minimum levels of acceptable performance will have been specified within the objectives. (ii) The plan for the collection of evaluation data should cover the appropriate budget period and should include the complete evaluation schedule, the target populations to be measured, those responsible for arranging and administering the measurements, and any conditions of measurement not specified in the objectives. Procedures for the selection and training of testers, observers, or interviewers should be described. Charts and diagrams may prove to be helpful tools in the planning and organization of data collection procedures and in the coordination of these procedures with the plans for periodic reviews of the data by the independent educational auditor.

(3) *Instruments for data collection and the baseline data needed.*

(i) The evaluation instrument for each objective should be identified and described briefly. Standardized tests, questionnaires, rating scales, interviews, observation schedules, and interest inventories may be among the instruments selected. It is of critical importance that the instruments be matched as closely as possible to the objectives and that the validity and reliability of each instrument have been ascertained prior to its use. If new instruments are to be developed, a plan for their design and pretesting should be included. (ii) The baseline data requirements should be considered as the instruments are selected, since the validity of the evaluation process may be affected if the appropriate prerequisite data on the target population are not secured or available at the beginning of the program. Baseline data on ability and achievement levels, socio-economic status, attitudes, and other characteristics of project participants will be needed in most cases for accurate measurement of the attainment of project performance objectives.

(4) *Time lines for data collection.*

A calendar should be developed for the evaluation schema that would include the following elements: (i) *Evaluator's report date.* The completion date for the evaluation report for each objective should be given; (ii) *Date instrument will be completed.* If the instrument is to be developed locally, the projected date of completion should be provided; (iii) *Scheduled dates.* The dates for the administration of evaluation instruments should be specified; (iv) *Schedule.* Projected dates of dissemination activities, of evaluation findings, and/or frequency of

V 39 N 251 DEC 30 74 XUM

activities should be indicated; and (v) *Recipient/audience.* Projected recipients of the evaluation findings (residents of the target area, school district, professional educational groups, etc.) should be indicated.

§ 6.6 *Stages of the evaluation process.*

The stages of the evaluation process should include: Baseline evaluation, process evaluation, and product evaluation.

(a) *Baseline evaluation* may be defined as the delineation, collection, interpretation, and distribution of all information needed (1) to establish data bases which provide input into needs assessment activities (those activities which result in a clear knowledge of the educational needs of the agency in which a Title III project will be developed); (2) to provide a benchmark against which to measure future successes and/or failures of project activities; and (3) to furnish data for identifying, describing, and defining the context within which change is expected to occur as a result of project activities. In effect, baseline evaluation provides that kind of information without which it would be impossible to measure any progress made toward meeting project objectives. Such information describes conditions as they exist before project treatment; and unless these conditions are accurately described before project implementation, it will be impossible to describe changes effected by project implementation. Baseline evaluation is, therefore, essential to the overall evaluation process; and every care should be taken to ensure that information gained during the baseline evaluation process is valid, appropriate and well-documented.

(b) *Process evaluation* aids management in making day-to-day operational decisions. Essentially, process evaluation may be defined as the delineation, collection, interpretation, and distribution of information needed to make decisions which will keep project resources and activities directed toward fulfilling project objectives. Thus, process evaluation assesses the fulfillment or nonfulfillment of those key steps which, having been carefully planned during project development, are being taken to meet project objectives. The result of such assessment should be information which will permit project management to make decisions regarding subsequent courses of action to be taken, and resources to be used, toward fulfillment of project objectives.

(c) *Product evaluation* may be defined as the delineation, collection, interpretation, and distribution of information needed to determine (1) whether or not a project objective or set of objectives has been met and (2) the extent to which a project objective or set of objectives has been met. Information resulting from product evaluation should permit project management to gain a clear overview of project progress in terms of project objectives. For this reason, due consideration from the very outset of project development should be given to stating project objectives in measurable terms. The less measurable project objectives are, the less probable it will be that effective product evaluation can take place, and, unless effective product evaluation can take place, project management will have no rational foundation on which to base those key decisions which will affect the success or failure of the project as a whole, as well as the continuation of the project, either in part, or as a whole.

§ 6.7 *Criteria for determination of the adequacy of State provisions for evaluation.*

The following criteria should be used to determine the adequacy of State provisions for evaluation of the Title III program and are included here as a guide to States in their development of an effective evaluation program.

(a) *State evaluation objectives:*

(1) The State evaluation strategy begins with clear statements of performance objectives, i.e., what is to be evaluated, why, and to what extent;

(2) The list of performance objectives should include at least the following commitments:

(i) To collect and report annually to the U.S. Office of Education the effectiveness of Title III projects on the persons served;

(ii) to collect and report annually to the U.S. Office of Education the effectiveness of the Title III program on the State-as-a-whole; and

(iii) to identify the kinds of evaluative information needed for State management of Title III programs and to collect, process, and distribute such information in an accurate, timely, and usable manner.

(b) *Organizing for State evaluation:*

(1) The evaluation strategy shows evidence of active participation by State staff, advisory council members, and representatives from local projects in the planning and development of the strategy;

(2) The strategy includes appropriate activities and provision for adequate staff to achieve each of the stated evaluation objectives;

(3) The strategy includes specific plans for training State and local project personnel in evaluation;

(4) The amount of funds budgeted and time allocated for evaluation activities are adequate to implement the State evaluation strategy;

(5) The strategy shows evidence that Title III evaluation strategy is coordinated with the State's comprehensive plan for State evaluation of education;

(6) The strategy shows evidence of utilization of appropriate non-Title III State resources such as State instructional supervisors, State planning and research units and State statistical and data processing units for the evaluation of Title III;

(7) The State strategy for evaluation defines the responsibilities of the State advisory council for evaluation including its line of communication and working relationships with the State Title III staff, local project staff, and National Advisory Council and provides adequate technical, financial, and clerical assistance to the State advisory council to carry out this function; and

(8) The State evaluation strategy has a built-in provision for the evaluation of its own operation including control points to assess the effectiveness and efficiency of State and local evaluation activities.

§ 6.8 *State strategy to evaluate the effectiveness of Title III projects on persons served and on the State-as-a-whole.*

(a) *Evaluating the effectiveness on persons served.*

The State strategy to document the effectiveness of Title III projects on persons served should include at least the following:

(1) A requirement that the local project's annual evaluation report be submitted to the State and include the following:

(i) Performance objectives stated in terms of what the learner is able to do, how he is to demonstrate what he can do, and the minimum acceptable standard of that performance whether it be in the cognitive, effective, or psychomotor domains;

(ii) Identification of the variables that might affect the project outcomes such as: (a) age, sex, socio-economic background of the learner; (b) age, amount of training, amount of experience, enthusiasm, and sex of project staff members; and (c) the learning environment of school, home, and community.

(iii) Identification of process variables such as learner and teacher performance requirements, curriculum, instructional materials and equipment, school facilities, and duration and sequence of learner and teacher activities;

(iv) Identification of the major outcomes and explanation of reasons for such outcomes; and

(v) Identification of other factors that are crucial to the successful replication of the project.

(2) A plan for annual State on-site visits to monitor and audit the project's effectiveness on persons served; and a procedure for the collection and validation of such evaluation data that will include the following:

(i) The strategy includes a comprehensive plan for data collection including a time schedule, identification of sources of information, and a copy of each instrument used, if any.

(ii) The kinds of information to be collected on on-site visits are identified including procedures for data collection and validation, and a copy of each instrument to be used.

(3) A plan for processing, analyzing, interpreting, and distributing such information that will include the following:

(i) A systematic routine for data processing and verification of data;

(ii) A comprehensive analysis plan including statistical treatments, if appropriate; and

(iii) An identification of the users of evaluation information and when and in what form the information is requested.

(b) *Evaluating the effectiveness on the State-as-a-whole.*

Title III makes possible a limited but concentrated attack on the State's selected critical educational problems by funding projects in order to demonstrate possible solution strategies. The effectiveness of Title III on the State-as-a-whole is largely determined by: how effectively and efficiently each project achieved its own objectives; how extensively the demonstration was institutionalized in the school district in which it was demonstrated; and how extensively the demonstration benefited other State school districts in solving similar educational problems.

(20 U.S.C. 844a(b)(6)); (45 CFR 116.8)

PART 7—VALIDATION OF EDUCATIONAL PRACTICES

§ 7.1 *An overview of validation.*

Each State educational agency is encouraged to bring about greater accountability in education through the validation of their Title III projects. Validation of Title III projects is a process of reviewing a practice to verify its credibility as an exemplary program through official and/or expert appraisal. The entire process of educational reform through diffusion can be accelerated through this process and the cost of change substantially reduced. Consequently, each State plan program should be effectively structured so as to increase the adoption and replication rate of projects funded under the Title III State Plan program.

§ 7.2 *The validation process.*

State educational agencies should develop validation procedures and criteria for selecting and training the validation team and conducting the on-site visit, and for preparing the validation report through such procedures as: (a) Developing the format for preparing the validation report; (b) developing the procedures for assessing the effectiveness and efficiency of the validation procedures; (c) developing a listing of successful activties for bringing about the adoption of validated practices; (d) developing criteria and procedures for identifying potential adopters of validated practices; and

(e) developing a listing of alternative ways of organizing and coordinating the identification, validation, and dissemination of validated practices among various units of the State educational agency.

(20 U.S.C. 844a(b)(6)); (45 CFR 118.8)

PART 8—DISSEMINATION

§ 8.1 *The purpose of dissemination activities.*

(a) The purpose of the dissemination process in a State Title III program is to develop an awareness of, stimulate interest in, and provide opportunities for personal evaluations of Title III innovations. Its long-term goal is to facilitate the adoption and replication of tested educational innovations in the host school system and in other school systems throughout the State and Nation. Therefore, the local educational agencies, the State educational agencies, and the U.S. Office of Education should have distinct but complementary roles in dissemination.

(b) In planning State dissemination activities, distinction should be made between the needs of educational practitioners and those of the general public. Information for the public is designed primarily to cause citizen awareness and knowledge of new educational programs, while information for educators provides technical data to make it possible for educators to assess alternative solutions to local educational problems. The latter will rely more heavily upon interactions among professionals and less upon publicity and public relations programs. Though the two information streams may have common data sources and will often intermingle, their form and final destinations must remain distinct in order for each audience to receive the kinds of information needed in forms that are understood.

(c) Section 303 of the Act specifies that the objective of State Title III dissemination activities shall be the adoption of exemplary educational practices demonstrated by the Title III projects. This means that States should assume an active policy of identification of exemplary innovative projects, or components of them, and undertake a comprehensive program of diffusing the evaluation findings from these programs to other school systems. Thus the success of the State's dissemination activities will determine the success of the Title III program as a whole.

(d) Accountability has been built into a dissemination program. Such accountability makes evaluation not only important in terms of its own role in program operation, but changes the emphasis in evaluation from the conventional research-design type studies of project outcomes to inclusion of evaluative data covering the context, process, and management of the project.

§ 8.2 *The role of the State and local educational agencies, and the U.S. Office of Education.*

Section 303(c) of the Act provides funds for dissemination and Section 305(b)(6) of the Act gives the primary responsibility for the evaluation of Title III programs and projects, and the dissemination of the results of such evaluations and other information pertaining to such programs or projects to the State educational agency.

(a) *The role of the local educational agency.*

Local educational agencies should disseminate, locally, information which facilitates the adoption and adaptation of the innovation. They should not develop newsletters, filmstrips, films, and similar materials for audiences outside their project area. These dissemination materials should be mailed to local project constituents only. This is not meant to preclude local educational agencies from having some dissemination contacts with audiences outside the project area. Local educational agencies may address audiences larger than their own constituencies through professional journals and the established public media. They may also, upon request, loan films and other materials to agencies outside the project area and may develop descriptive materials on a project in order to answer inquiries from other agencies.

(b) *The role of the State educational agency.*

(1) It is desirable that State educational agencies develop procedures to assure that local project funds are not used for dissemination of information beyond the local project area which is defined as the geographic region where the persons served by the project reside. In approving project proposals for initial funding and for continuation, State educational agencies should review the local educational agencies' dissemination activities to ensure that they are consistent with State dissemination objectives and do not duplicate statewide dissemination efforts which should be included in the State plan.

(2) If, following an evaluation of a project, the State educational agency determines that an innovation is of such significance that broader adaptation or adoption of it should be encouraged, the State should use State administration funds authorized by Section 303(c) of the Act to disseminate the promising educational practices to other local educational agencies in the State.

(3) The amount of the project budget devoted to dissemination activities should bear a reasonable relationship to the size and progress of the project. For example, it may be desirable that the dissemination budget increase in amount during the second and third years as the project generates evaluation data supporting the project's effectiveness. It is the responsibility of States to establish procedures to improve the quality of dissemination activities and materials.

(4) The State educational agency should advise the U.S. Office of Education annually of those demonstration projects which it determines could have nationwide significance. The U.S. Office of Education's role will be to provide national dissemination of the identified innovations.

(c) *U.S. Office of Education dissemination program.*

(1) *National dissemination activities.*

The U.S. Office of Education in cooperation with the State educational agencies is modifying and expanding its responsibilities for national dissemination of the Title III program. Plans for national dissemination activities include the following:

(i) With the help of the States, the Office of Education will identify, validate, and encourage the adoption, as appropriate, of innovative and exemplary programs which hold promise of demonstrating ways of meeting critical national needs. This may include publications, films, conferences, and a variety of interpersonal activities;

(ii) As part of a continuing effort, the Office ofd Euacjfin-
Office of Education will seek State educational agency cooperation to establish a repository of instructional and curricular materials developed by Title III projects. These include publications, films, and other print and nonprint educational materials. Annotated bibliographies of these materials will be revised annually and distributed to all State educational agencies and other appropriate agencies; and

(iii) Through the joint efforts of the U.S. Office of Education and the National Institute for Education pertinent information will be published regarding exemplary Title III projects.

(2) *Technical assistance to State and local educational agencies.* In addition to these activities, the U.S. Office of Education will, whenever possible, provide technical assistance to State and local educational agencies to aid them in improving their evaluation and dissemination programs. Technical assistance may be provided through the following activities:

(i) Whenever possible, Office of Education personnel will conduct and participate in State and regional conferences held in cooperation with local and State educational agencies, universities, and other educational and cultural organizations to encourage the development and implementation of effective dissemination strategies at State and local levels; and

(ii) Wherever possible, the Office of Education will provide consultative services and conduct workshops to encourage the development of process as well as product evaluation techniques which will provide validated information on project findings for effective dissemination.

(iii) The Office of Education will also continue to assist State educational agencies in their dissemination efforts by working to improve State dissemination plans.

§ 8.3 *Management implications.*

The stress on accountability for the outcomes of the dissemination activities has several important implications for management of the Title III program and the dissemination efforts at the State level.

(a) *Organizational position of Title III program.* The location of the Title III program in the organizational structure of the State educational agency should enhance access by program personnel to central administrative personnel and to the various educational specialists throughout the State educational agency.

(b) *Dissemination personnel.* State educational agency personnel charged with dissemination responsibilities for Title III of the Act should have a broad knowledge of innovations in education, an understanding of the total educative process, and a sensitivity to the intricacies of the change process. They should be educators as well as information specialists.

(c) *Dissemination objectives.* The Title III mandate to disseminate information about and cause the adoption of promising programs requires close attention to the formulation of performance objectives for dissemination activities. Publications, films, meetings, visits, or other activities should be undertaken only when the disseminator has a preconceived idea as to what the behavior of participants should be in relation to causing the adoption of some new practice. Moreover, the disseminator should have in mind an acceptable level of response as a result of such activities. For example, if 100 persons are to be given a demonstration of a successful innovation, an acceptable level of response might be 10 persons requesting further assistance to introduce some aspect of the program in their own schools. Specificity of dissemination objectives also makes evaluation of the dissemination activities easier.

(d) *Relationship of State needs assessment and dissemination.* The Title III dissemination activities should relate directly to the State's critical educational needs including those in special education as identified by the Title III needs assessment. These needs will help dictate the priority ranking of dissemination objectives.

(e) *Dissemination strategies.* When developing educational change strategies, dissemination planners need to be aware of the

several stages of the change process. As stated in § 3.1 of Chapter II of these guidelines, these stages are awareness, interest, evaluation, trial, and adoption. Most superintendents of schools do not attempt to introduce an innovation unless they have some opportunity for person-to-person or on-site evaluation of the new practice. It is, therefore, important that the State disseminator accept the responsibility not only to develop an awareness and interest in innovations, but also to provide personalized opportunities for educators to examine and evaluate innovations on-site and in operation.

(f) *Linkage of evaluation and dissemination.* A linkage between State evaluation and dissemination efforts should be given management consideration. Since the primary dissemination objective is the replication of exemplary practices, the disseminator needs to utilize information collected by evaluators and to understand the level of validity of that information. Since evaluation findings are useful to the educational community only if they contain the kinds of information practitioners need in order to make decisions about their feasibility for their own schools, planning for evaluation should be coordinated with the planning for dissemination.

§ 3.4 *Nature and assignment of dissemination responsibilities.*

Although the organizational structures for administering the Title III program vary among the different States, attention should be given to the following responsibilities when planning Title III dissemination activities:

(a) *Organization.* If the public information component of the State educational agency is committed primarily to handling the necessary press and speech activities of the Chief State School Officer, the Governor, or the State legislative body, consideration should be given to establishing a separate unit for program dissemination activities. Such a unit might have responsibilities for coordinating all technical information activities in the State, including that of Title III.

(b) *Information retrieval.* Rapid retrieval of information about research and practice is important to the process of innovating. Therefore, the State should take the initiative to activate a service for Title III applicants and others in the State agency and in school districts who may need information about promising new ideas. Each State should have, in a central location, the Educational Research Information Center of the U.S. Office of Education and the National Institute for Education (hereinafter referred to as ERIC) collection of microfiche and other documents, with personnel assigned to conduct searches on demand. Provision should be made to have access to other information services in the State, some of which are found in regional centers and on campuses of colleges or universities.

(c) *Dissemination of project materials.* Teaching and curricular materials and films developed through Title III projects should be identified, collected, and evaluated systematically by the State educational agency. Strategies should also be developed to promote usage of such materials by other school districts in the State. Promoting and facilitating usage may include developing limiting copyright arrangements with educational publishers, reprinting by the State educational agency, and other appropriate means such as providing a copy to a nonprofit organization (such as Xerox's University Microfilm Division in Ann Arbor, Michigan) for promotion and reproduction.

(d) *Dissemination of evaluation findings.* Coordination of evaluation and dissemination efforts should be maintained in order to provide the disseminators with validated findings about exemplary programs for further dissemination within the State and for reporting to the U.S. Office of Education.

(e) *Technical assistance to local educational agencies.* The State has the responsibility for monitoring all local project dissemination activities to assure that project funds expended for dissemination are used mainly for dissemination in the project area and not, unless authorized by the State, for statewide or national dissemination. The State also should provide technical assistance to the local educational agencies to assist them in developing dissemination objectives and designing change strategies at the local level so as to influence local adoption of the Title III project at the end of the project period.

§ 3.5 *Criteria for determining adequacy of State plan provisions for dissemination.*

The following criteria should be used to determine the adequacy of State provisions for dissemination of the Title III programs and are included here as a guide to States in their development of an effective dissemination program:

(a) *The adequacy of the underlying principles:*

(1) The dissemination program facilitates desirable educational change through identifying, validating, and promoting the adoption or adaptation of promising and exemplary practices operating in Title III of the Act.

(2) The dissemination program is predicated on the availability and validity of evaluation findings concerning the projects operations and outcomes.

(3) Dissemination activities are related to written performance objectives for selected audiences according to expressed or known needs for information.

(4) Both State and local dissemination programs are based on a knowledge of the kinds of communication channels available and their area of impact (including public media, technical journals or house organs, and other communication channels or decisionmakers).

(b) *The adequacy of administrative considerations.*

(1) Personnel engaged in the State dissemination process have (i) understanding and experience with the educational process, (ii) experience and skills in communication, and (iii) knowledge of the complexities of the change process.

(2) The amount of dissemination budget reflects the high priority given this activity by the legislation.

(3) In organizing the dissemination program, the public information activities and the technical or program information activities are adequately distinct but carefully coordinated.

(c) *The adequacy of objectives and activities.*

(1) Activities are planned which will retrieve, analyze, and make accessible descriptions and evaluations of project operations and outcomes.

(2) Activities are planned which will cause an awareness and interest in projects on the part of appropriate educators in the State.

(3) Activities are planned which will provide opportunities for educators to examine and evaluate the operating qualities of the innovations in projects.

(4) Activities are planned which provide technical assistance to those who show a desire to install the innovation in their school.

(5) Activities are planned which will inform the general public about innovations being demonstrated through Title III in the State.

(6) Activities are planned which will retrieve and evaluate instructional materials produced by projects, forward significant materials to the U.S. Office of Education for ERIC and other systems, and which will disseminate them appropriately within the State.

(d) *The adequacy of evaluating dissemination efforts.*

(1) Dissemination plans include provisions for receiving feedback from communications for purposes of evaluating their impact.

(2) There is evidence that activities are planned to ensure that evaluation designs of local projects will produce information needed for dissemination locally and statewide.

(20 U.S.C. 844a(b)(6)); (45 CFR 116.8)

§ 3.6 *Criteria for an effective dissemination program at the local level.*

The following criteria should serve as a guide for State agency personnel as they work with local projects in developing and monitoring dissemination components in Title III projects.

(a) *Planning and managing the dissemination program.*

(1) Provision is made for substantive involvement of potential information users in the planning of the dissemination program.

(2) Provision is made for continuing internal communication among project staff about the project.

(3) Provision is made to conduct studies to determine mores, economic status, political processes, and social structure of the community.

(4) There is a commitment to dissemination, as evidenced by identifiable items in the project budget.

(5) Provision is made for coordination and cooperation with other information services in the school system and the community, including appropriate public media.

(6) Consideration is given to the means of handling audience responses to communications being planned.

(7) Consideration is given to the possible conflict between the project objectives and the values and objectives of the school and community.

(b) *Dissemination objectives.*

(1) The dissemination objectives relate well to project objectives.

(2) The dissemination objectives should be written and available.

(3) The dissemination objectives specify desired audience reactions to the dissemination activites.

(4) The dissemination objectives include performance criteria and time constraints and are feasible in terms of available funds.

(5) The dissemination objectives reflect knowledge of the adoption stages (awareness, interest, evaluation, trial, and adoption) and of the characteristics of the potential adopters (innovators, early adopters, early majority adopters, late majority adopters, and laggards).

(c) *Dissemination personnel.*

(1) The project dissemination staff should be knowledgeable about the change process and understand the administrative and instructional processes of education.

(2) This staff should possess writing and oral communication skills and be skilled in interpersonal relations.

(d) *The dissemination strategies and approach.*

(1) The approach should be that of tact, "soft sell," and objectivity.

(2) The approach should be flexible, reflecting various strategies, viz, research-centered, and cost-benefit.

(3) The approach should consider all those who are involved in the education decisionmaking process.

(4) The approach should be that of problem-solving and removing blocks to change.

(5) The techniques should be appropriate to the times and conditions, as shown by variability and creativity in the use of committees, conferences, demonstrations, administrative edicts, media and the like.

(e) *The use of communications for dissemination purposes.*

(1) Communications are based on verified needs for information by clients.

(2) The selected medium or media are appropriate for the message and for the intended audiences.

(3) The messages are adapted to the various stages in the change or adoption process.

(4) Wherever possible, the messages are designed to solicit feedback.

(5) The messages are of good technical quality.

(6) The messages relate to decision-making time lines of the project and the school system.

(7) The messages have been pre-tested with appropriate audiences to determine their relevance, clarity, validity, timeliness, and practicality.

(8) The messages are in a considered order according to priorities as to who should receive them first, second, etc.

(f) *Evaluation in the dissemination process.*

(1) Provision is made to determine and record relative effectiveness of various strategies and communications in order to alter strategies as the situation changes.

(2) Dissemination designed to encourage the adoption of innovation is based upon objective evaluation data.

(20 U.S.C. 844a(b)(6)); (45 CFR 118.8(c))

PART 9—ADOPTION

§ 9.1 *The importance of adoption.*

A major objective for Title III of the Act is accomplished when it can be shown that a significant number of adaptations and replications of programs demonstrated by Title III have taken place in the State. In addition, it is hoped that a high proportion of the programs will be continued in substantially the same form by the applicant local educational agency after the period of Federal funding ends. The State therefore, should plan activities to facilitate the adoption of validated projects.

§ 9.2 *Criteria for an effective adoption program.*

The following criteria should serve as a guide for State educational agency personnel as they work with local projects in developing and monitoring adoption components in Title III projects.

(a) Activities are planned which orient project personnel to their demonstration function and to their role as catalysts for change in their community and State.

(b) The data collection plan includes practitioner-oriented information, such as cost effectiveness data and context and process information.

(c) Activities are planned which use project personnel to teach and train potential adopters.

(d) Activities are planned which identify the potential adopters of projects being demonstrated.

(e) Activities are planned which identify and describe the formal and informal communications network which passes on information concerning innovations in the State.

(f) The dissemination activities of projects are reviewed to assure credibility so as to not promise more than the project can deliver.

(20 U.S.C. 844a(b)(6)); (45 CFR 118.8(d))

PART 10—GUIDANCE, COUNSELING AND TESTING PROGRAMS

§ 10.1 *Purposes.*

(a) The purposes of guidance, counseling, and testing programs under the Act are to: (1) Advise students in public and private elementary and secondary schools or public junior colleges and technical institutes regarding courses of study best suited to their ability, aptitudes, and skills; (2) advise students as to the type of educational program they should pursue, the vocation they should train for and enter, and the job opportunities in the various fields; and (3) encourage students with outstanding aptitudes and abilities to complete their secondary school education, take the necessary courses for admission to institutions of higher education and enter such institutions.

(b) All programs or projects under Title III of the Act should, in some justifiable way, be related to one of the purposes as stated above. These purposes are primarily educational-vocational in nature. However, personal-social areas of development are also important to success in educational-vocational planning and achievement. The definition of "guidance and counseling" in § 118.8 of the regulations includes assistance in personal-social development, including the development of a positive self-concept. This is particularly necessary in relation to elementary school guidance programs. Projects in the areas of school health, psychological and social work services might be combined with guidance and counseling programs or projects to provide comprehensive programs of guidance, counseling, and other pupil personnel services.

(20 U.S.C. 843); (45 CFR 118.2, 118.8, 118.11, 118.14)

§ 10.2 *Division of staff.*

It is suggested that staff responsibilities and functions be divided into administrative and supervision and leadership activities:

(a) *Administration activities.*

Activities pertaining to "administration" would include, but would not necessarily be limited to, State plan review, project review, Title III fiscal activities, project approval, the mechanics of project management and policy development. Conversely, activities which would likely not pertain to "administration" would include, but would not necessarily be limited to, supervisory activities, supervisory staff development, leadership activities, and project development.

(b) *Supervision and leadership activities.*

Programs of State supervision and leadership may include the following activities: (1) Organization, general direction, and coordination of the guidance, counseling, and testing programs established under the plan; (2) planning State programs and assisting in the planning of local programs; (3) assisting local guidance personnel in establishing, maintaining, or improving programs; (4) planning and preparing materials and information for State and local programs; (5) planning innovative or exemplary guidance, counseling, and testing programs; (6) demonstrating through pilot programs, or otherwise, guidance, counseling, and testing procedures and techniques; (7) evaluating the results of guidance, counseling, and testing programs; and (8) such other related activities as may be necessary for the organization, maintenance, and improvement of programs or projects established under the plan.

(20 U.S.C. 843(b)(4), 844a(b)(1)(E)(ii), (b)(7) and (8), Section 131(b) of P.L. 91-230); (45 CFR 118.10, 118.11, 118.14)

§ 10.3 *Program content.*

Guidance, counseling, and testing programs may include the following activities to the extent that they are carried out by utilizing procedures and techniques appropriate to the educational levels of the students:

(a) Collecting, organizing, and interpreting such information as may be appropriate to the understanding of the student's abilities, aptitudes, interests, and other personal assets and liabilities related to educational readiness and progress and to career planning and development;

(b) Making available to the student and his parents such educational and career information as may be essential for them to understand the educational process and the various educational and career opportunities and requirements related to the choice of an educational program and a career;

(c) Providing individual counseling (1) to help the student and his parents develop a better understanding of the student's educational and occupational strengths and weaknesses; (2) to help the student and his parents relate his abilities and aptitudes to educational and career opportunities and requirements; (3) to help the student, with the assistance of his parents, make appropriate educational plans, including the choice of courses and the choice of an institution of higher education; (4) to stimulate desires in the student to utilize his abilities in attaining appropriate educational and career goals; and (5) to provide the student, directly or through arrangements with other appropriate resources, with such assistance as may be needed for the development of his aptitudes and the full utilization of his abilities;

(d) Providing services to encourage and assist students in making educational transitions, such as placement in the next educational level, and in securing appropriate employment during and upon completion of the educational program;

(e) Providing such group activities as may be necessary to orient students and their parents to the (1) school program including its offerings, services, and requirements; (2) educational opportunities and requirements at the next level; and (3) career opportunities and requirements;

(f) Providing to teachers and school administrators such assistance and information about individual students or groups of students as may be necessary to enable them to plan and implement curricular and instructional programs and services which will afford students maximum and equal opportunity for educational development and which will be consistent with the manpower needs of the State and the Nation; and

(g) Collecting and analyzing such information as may be needed to evaluate the guidance and counseling program and to provide such guidance information as may be available and needed to evaluate the school's program in terms of the educational needs of the students and of the State and the Nation.

§ 10.4 *Additional criteria for the approval of guidance and counseling projects.*

In addition to the criteria listed in § 118.24 of the regulations, the State may wish to consider the following criteria in approving guidance and counseling projects: (a) the guidance and counseling activities to be provided and the grade levels of students who are to be the participants in such activities; (b) the duties of and qualifications for local guidance and counseling positions; (c) the ratio of students to each full-time local guidance and counseling position or its equivalent; (d) the physical facilities,

XUM
V 3 9 N 2 51 DEC 30 74 V
XUM

equipment, and materials to be available for the conduct of guidance and counseling activities under the plan; (e) supervisory methods and procedures to be employed in local guidance and counseling projects; and (f) coordination methods and procedures to provide assurance of appropriate relationships between the local guidance and counseling program under the plan and other related services available to students.

§ 10.5 *State Advisory committee.*

A State may choose to establish a guidance, counseling, and testing advisory committee either on an ad hoc or continuing basis to deal more fully and explicitly with advisory matters relating to guidance, counseling, and testing program development. A liaison relationship, however, should be maintained with the State's Title III advisory council to coordinate and relate the State's overall program development strategy to the total resources under Title III of the Act.

(20 U.S.C. 843(b)(4), 844a(b)(1)(B)(ii)); (45 CFR 116.10, 116.11, 116.24)

PART 11—OTHER PROGRAM CONSIDERATIONS

§ 11.1 *Handicapped children.*

(a) *Funding decisions.*

Determination of the percentage of program dollars used for the handicapped under each Title III project should be the joint responsibility of the State department of education's unit on education of the handicapped and the State department of education's unit on Title III. Whatever the level, it should be mutually determined and evidence to this effect should be presented in the State plan.

(b) *Types of projects which can be designed.*

Projects providing services for the handicapped under the Title III State plan programs may or may not be a part of the larger Title III project and in either situation may serve one or more types of handicapped children, as explained in the following:

(1) Title III projects should not emphasize "meeting the needs of handicapped children" but rather demonstrate the solution to critical educational problems of the handicapped in the State. Once an acceptable and proven practice has been demonstrated, efforts should be made to encourage its adoption throughout the State and its operation with funding from sources other than Title III.

(2) The total Federal effort in behalf of the handicapped is to provide through mutuality of planning at the local, State, and Federal levels a continuum of services for this segment of our population. Title III programs for the handicapped should be seen as a means to ensure this continuum, but they must be seen as a demonstrative and catalytic part and not as a basic support effort. The mutuality of planning between the Title III coordinators and the State special education personnel should also lead to the development of large, easily identifiable projects and programs which are designed to demonstrate ways to solve one or more critical problems in the field of education of handicapped children. It is more desirable to have one or two well-conceived projects seeking to demonstrate solutions in critical problem areas within a State as defined by the Title III coordinators, the State's needs assessment, or the State Title III advisory council, and/or the State special education units, than to have many projects or programs which will not be exemplary or innovative. With this type of provision of services the concern for percentages of funds set aside for the handicapped will be lessened and the dedication to solving mutually identifiable problems through model education approaches for the handicapped will be increased.

(c) *Bureau of Education for the Handicapped; Assistance to State and local educational agencies.* Staff from the Bureau of Education for the Handicapped of the U.S. Office of Education, when requested, will assist local and State educational agencies in cooperation with the Bureau of School Systems of the U.S. Office of Education in developing projects and State plans by making available staff, when possible, or by locating in the State or region competent personnel for such assistance. In the event staff are not available, States may arrange to send their personnel to Washington for consultation.

(20 U.S.C. 844a(b)(3)); (45 CFR 116.26)

§ 11.2 *Local project administration.*

(a) *Continuation and discontinuation of projects.* To accomplish the objectives of Title III of the Act, provisions should be made to continue the support of promising projects as well as to terminate those projects which prove to be ineffective or unsuccessful as set forth in § 116.27 of the regulations. Only those projects which have been evaluated and can provide objective data which demonstrate that they are successfully meeting their objectives should be continued. These projects should continue to serve as models so that other school districts can adopt or adapt those practices which have been validated as being successful.

(b) *Extension of project or budget period.* When progress under the grant is delayed and circumstances make it necessary to request an extension of either the project period or the budget period, or both, without additional funds, the local educational agency should make a written request to the State educational agency. (Where it appears that the activity to be accomplished within the project period or the budget period, or both, will be completed within three (3) months after the expiration date, it will not be necessary to request an extension. However, if it appears that the time required will exceed three (3) months, the Title III coordinator should be informed and an extension requested).

(20 U.S.C. 844); (45 CFR 116.27)

§ 11.3 *Participation of children from private nonprofit schools.*

(a) *Providing information.* State educational agencies should assure that private school children receive the Title III benefits to which they are entitled under the legislation, by taking action to:

(1) Provide information to local educational agencies through workshops and other means concerning the organizational structure of private schools in the State and providing the names of appropriate persons to contact in the private school structure; and

(2) Provide information to representatives of private school children in the State concerning eligibility of and provisions for voluntary participation by private school children in Title III programs and projects.

(b) *Extent of involvement.* Whenever private school children are eligible, the local educational agency should ask the representatives of the eligible private school children whether they desire to participate in the planning of the project. Where it is appropriate, representatives of private school children should be involved in the local needs assessment and in the planning of projects at the very beginning, so that the needs of private school children are considered in conjunction with the needs of public school children to the development of a proposal. In addition, it is suggested that these representatives be asked to participate in the evaluation process.

(c) *Monitoring projects.* The State educational agencies should monitor each approved Title III project which involves private school children and assure that it benefits eligible private school children in the project area who desire to participate on an equitable basis with public school children benefited by the project. If a local educational agency is serving more than one need through separate components of a coordinated project proposal, each component should be open to all eligible children in both the public and nonpublic schools.

(d) *Approval of projects.* Project proposals that benefit only public school children should not be approved if there are private school children attending school in the area to be served unless the representatives of eligible private school children in the project area have formally indicated that the eligible private school children do not wish to participate or do not have the needs served by the proposed project.

(e) *Types of services.* During the operational phase of the project, many different types of arrangements for providing services might be made. For example, dual enrollment programs, mobile units, visiting personnel, after-school activities, central libraries, or museums could provide educational opportunities to children and teachers in private nonprofit schools.

(f) *Facilities.* In many communities, public facilities will not be equipped to receive a large influx of private school students, nor will sufficient resources be available to construct or lease a facility. Services may be provided on private school premises when it is not feasible or practical to provide such services on public premises.

(g) *Salaries.* Section 116.15(c)(1) of Title 45 CFR prohibits the payment of salaries to private school teachers; however, stipends are of a different nature and may be paid to private school personnel attending Title III inservice training programs. Further, that section of the regulations should be interpreted to prohibit the payment of the salary of a teacher who is teaching in the regular school program of a private school as a substitute for a private school teacher receiving inservice training supported under Title III of the Act. Private school teachers may receive payments with Title III funds for travel allowances, luncheon expenses, and similar costs when attending approved Title III inservice training programs. However, State educational agencies should not pay a fee to a private school teacher where such fee is not a normal training stipend but is for the specific purpose of paying for a substitute for the regular classroom duties of a trainee teacher.

(h) *Equipment.* Equipment purchased with Title III funds may not be permanently assigned to or placed on private school premises; however, project personnel performing services on private school premises may bring on the private school premises those necessary "tools of their trade" which are capable of being removed from the premises each day. Such equipment may be left on private nonprofit school premises for short periods of time as necessary to conduct particular Title III activities.

(20 U.S.C. 844(b)(3)(B), 845(f)(1), 855); (45 CFR 116.15)

§ 11.4 *Suggested project numbering system.*

It is suggested that the following system be used for numbering Title III projects to bring about uniformity among the States:

State No.	Year project submitted	Project No.	Initial grant (0) continuations (1, 2)
25.....	1974	[illegible]	1

The numbers assigned to each of the States are as follows:

10 Alabama	40 New Jersey
11 Alaska	41 New Mexico
12 Arizona	42 New York
13 Arkansas	43 North Carolina
14 California	44 North Dakota
15 Colorado	45 Ohio
16 Connecticut	46 Oklahoma
17 Delaware	47 Oregon
18 District of Columbia	48 Pennsylvania
19 Florida	49 Rhode Island
20 Georgia	50 South Carolina
21 Hawaii	51 South Dakota
22 Idaho	52 Tennessee
23 Illinois	53 Texas
24 Indiana	54 Utah
25 Iowa	55 Vermont
26 Kansas	56 Virginia
27 Kentucky	57 Washington
28 Louisiana	58 West Virginia
29 Maine	59 Wisconsin
30 Maryland	60 Wyoming
31 Massachusetts	61 American Samoa
32 Michigan	62 Canal Zone
33 Minnesota	63 Guam
34 Mississippi	64 Puerto Rico
35 Missouri	65 Virgin Islands
36 Montana	66 Bureau of Indian Affairs
37 Nebraska	67 Trust Territory of the Pacific Islands
38 Nevada	
39 New Hampshire	

(20 U.S.C. 844a(b)(11)); (45 CFR 118.16)

CHAPTER III—LOCAL PROGRAM DEVELOPMENT AND OPERATION

PART 1—PROJECT PROPOSAL SUBMISSION PROCESS

§ 1.1 *Dates of submission.*

(a) The State may wish to establish several submission dates during the year for the submission of project applications by local educational agencies or to limit dates to one or two per year. Before establishing submission dates, the State agency should give consideration to the funding and fiscal policies of the State, the school year calendar, the State's fiscal year, and the anticipated funding level.

(b) States may wish to consider using January or February as periods for submission of project applications from local educational agencies for the following reasons: information regarding appropriations is more likely to be available; considering time necessary for review, approval, and negotiation, the budget periods would then more nearly parallel budget development and staff recruitment in the local school district; funding near the end of a fiscal year would allow program administrators at the State level more latitude in funding from the prior fiscal year or the new fiscal year; and mid-year project termination, with its concomitant staff release problems would be alleviated.

§ 1.2 *Letter of intent.*

A State may wish to use the "letter of intent" system which permits the local educational agency to submit a letter indicating its intent to submit a formal proposal. The letter should include an abstract of the intended proposal.

(20 U.S.C. 844); (45 CFR 118.23(b))

PART 2—FUNDING PROCESS

§ 2.1 *Project period.*

(a) Under § 118.27(a) of the regulations the State educational agency is required to formulate a general policy concerning the total period of time for which a project may be supported with funds under Title III (project period). In order to conserve funds for new projects, the State would want the project period generally not to exceed three (3) years. The State's policy on project periods should emphasize the necessity for phasing out Federal support of local projects and for gradual incorporation of project activities into the regular school program.

(b) It is recommended that the project period exceed three years only in two situations:

(1) For those projects which have been evaluated and validated by the State educational agency as successfully meeting their objectives and actually demonstrating a solution to one of the critical educational needs of the State, and upon recommendation of the State advisory council, a grant for an additional period of time for purposes of serving as a demonstration site for potential adopters may be approved as part of the State educational agency dissemination program; and

(2) In cases where it is determined that a time extension is required to assure adequate completion of the project, and when an extension is requested in writing at least sixty (60) days prior to the end of the project period, the project may be extended for a period not to exceed ninety (90) days utilizing unexpended project funds.

§ 2.2 *Grant terms and conditions.*

Each grant document used by a State educational agency should have specific terms and conditions which are attached to the grant document to assist the State in the development of the grant document.

(20 U.S.C. 844); (45 CFR 118.27)

PART 3—PROJECT DESIGN AND ACTIVITIES

§ 3.1 *Project design.*

(a) *The proposal.* The project proposal should define the entire scope of work that the applicant wishes to accomplish during the project period. A project may consist of one or a combination of the following major activities: planning programs, conducting one or more pilot programs, or conducting operational activities. If groups of students within a school district have demonstrably different but similarly pressing needs, the local educational agency may, through an innovative or exemplary demonstration project, serve more than one need as separate components of a coordinated project proposal.

(b) *Project functions.* Project functions may be categorized in general terms—planning programs, conducting pilot programs, conducting operational programs—and described as follows:

(1) *Planning programs.* In formulating a solution to a problem or in designing a new program, adequate planning is a vitally important function and a proper objective under Title III of the Act. Planning normally involves utilization of persons with expertise in the areas involved, including representatives from public and private nonprofit elementary and secondary schools and the best material resources available to assist in the design of pilot and operational activities. For example, since the primary educational resource is the local educational agency, representative teachers and other school personnel whose professional activities would be affected by a particular project should be directly involved in all stages of its development.

(2) *Pilot programs.* Conducting pilot programs to test the feasibility of innovative designs on a small scale can be a valuable part of development, provided that objectives and procedures are clearly stated and that results of the effort will give definite direction to a later demonstration of the innovation if it proves to have promise.

(3) *Operational programs.* An operational program is a full-scale demonstration of an educational innovation which should include measurable objectives, a comprehensive evaluation system, an effective management system, staff development activities, provisions for community involvement, and an adequate dissemination program. It should emphasize effective use of technology combined with new and better utilization of manpower rather than the acquisition of hardware or the extensive construction of new facilities. For example, feasible alternatives to building new facilities might be the more effective use of existing facilities, the remodeling of existing structures, or the leasing of facilities.

(20 U.S.C. 844a(b)(7)); (45 CFR 118.23, 11625.)

§ 3.2. *Project activities.*

(a) *Professional staff development.*

(1) Professional staff development programs or inservice education activities involving Title III staff members and other appropriate school personnel are important in meeting project objectives. Staff development programs should be directly related to enhancing those staff competencies and attitudes which will contribute to the attainment of project goals.

(2) Title III project funds can be used for the employment of consultants, payment of stipends to participants, employment of substitute teachers, essential travel, and other direct costs necessary for the effective conduct of staff development programs.

(3) The following are examples of criteria that could be used to determine the adequacy of professional staff development activities in a local project: (i) Extent to which the activities are part of an organized, continuing process with definitive objectives; (ii) extent to which the activities are based on the assessed needs of the local educational agency; (iii) extent to which plans for staff development activities involve training of personnel at each level in the local educational agency, i.e., decision-makers, project staff, and teachers cooperating in projects; and (iv) extent to which staff development activities include provisions for determining effectiveness of those activities.

(20 U.S.C. 843(b)(4), 844a(a)(1) and (b)(1)(B)(i) and (ii)); (45 CFR 118.22(c))

(b) *Educational accountability.*

In an effort to assure the quality of the Title III projects, an accountability system should be instituted at the local agency level which will include the following twelve (12) factors:

(1) *Community involvement:* The utilization of members of concerned community groups in appropriate phases of project activity to facilitate: project access to community resources; community understanding of project objectives, procedures, and accomplishments; and the discharge of project responsibilities to relevant community client, service, and support groups;

(2) *Developmental assistance:* The means for providing adequate resources in project planning, implementation, operation, and evaluation by drawing upon community, business, industrial, labor, educational, scientific, artistic, social/welfare, and governmental agencies for expertise and services necessary to effective operations;

(3) *Needs assessment:* The identification of the educational needs of children in the cognitive, effective, and psychomotor domains of learning;

(4) *Change strategies:* The development of effective strategies for systematic change in

V 39 I 251 DEC 30 1974 XUM

the educational enterprise and the incorporation of the strategies in project operations;

(5) *Management systems:* The adaptation of the systems approach, through such techniques as Management by Objectives (MBO), Program Planning and Budget System (PPBS), Program Evaluation and Review Techniques (PERT), and Critical Path Method (CPM), to educational project management at the local, State, and Federal levels;

(6) *Performance objectives:* The specification of project objectives in a comprehensive, precise manner which indicates measures and means for assessing the degree of attainment of predetermined standards;

(7) *Performance budgeting:* The allocation of fiscal resources in accordance with project objectives to be realized, rather than by objects or functions to be supported;

(8) *Performance contracting:* The arrangement for technical assistance in project operations through contracts which condition compensation upon the accomplishment of specified performance objectives;

(9) *Staff development:* The determination of the nature and extent of staff development needed for the successful implementation of the accountability concept at the local, State, and Federal levels, and the design and conduct of indicated development activities;

(10) *Comprehensive evaluation:* The establishment of systems of performance control based on the continuous assessment of project operational and management processes and resultant products;

(11) *Cost effectiveness:* The analysis of unit results obtained in relation to unit resources consumed under alternative approaches to project operation, as a determinant in continued project planning; and

(12) *Program auditing:* A performance control system based upon external reviews conducted by qualified outside technical assistance, designed to verify the results of the evaluation of an educational project and to assess the appropriateness of evaluation procedures for determining the effectiveness of project operation and management.

(20 U.S.C. 844a(b)(1), (2)(6))

Public Health Service

[42 CFR Part 52c]

MINORITY BIOMEDICAL SUPPORT PROGRAM

Notice of Proposed Rule Making

Notice is hereby given that the Assistant Secretary for Health, with the approval of the Secretary of Health, Education, and Welfare, proposes to adopt the regulations set forth in tentative form below. The proposed regulations amend Title 42 of the Code of Federal Regulations by adding a new part 52c prescribing rules applicable to grants under the Minority Biomedical Support Program for the general support of biomedical research, authorized by section 301(c) of the Public Health Service Act, as amended (42 U.S.C. 241(c)).

Written comments concerning the proposed regulations are invited from interested persons. Inquiries may be addressed, and data, views, and arguments relating to the regulations may be presented in writing, in triplicate, to the Office of the Director, Division of Research Resources, Building 31, Room 5B-03, 9000 Rockville Pike, Bethesda, Maryland 20014. All comments received will be available for public inspection at said Office on weekdays (Federal holidays excepted) between the hours of 8:30 a.m. and 5 p.m. All relevant material received not later than January 29, 1975 will be considered.

Notice is also given that it is proposed to make any amendments that are adopted effective on December 30, 1974.

Dated: November 19, 1974.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

Approved: December 20, 1974.

CASPAR W. WEINBERGER,
Secretary.

It is therefore proposed to amend Title 42 of the Code of Federal Regulations by adding the following new Part 52c:

PART 52c—MINORITY BIOMEDICAL SUPPORT PROGRAM

Sec.

52c.1 Applicability.
52c.2 Definitions.
52c.3 Eligibility.
52c.4 Application.
52c.5 Grant awards.
52c.6 Payment.
52c.7 Expenditure of grant funds.
52c.8 Nondiscrimination.
52c.9 Human subjects; animal welfare.
52c.10 Applicability of 45 CFR Part 74.
52c.11 Progress and fiscal records and reports.
52c.12 Grantee accountability.
52c.13 Publications and copyright.
52c.14 Additional conditions.

AUTHORITY: Sec. 215, 58 Stat. 690, as amended (42 U.S.C. 216); sec. 301(c), 74 Stat. 1063 (42 U.S.C. 241(c)).

§ 52c.1 Applicability.

The regulations in this part apply to grants (under the Minority Biomedical Support Program) awarded pursuant to section 301(c) of the Public Health Service Act (42 U.S.C. 241(c)) to increase the numbers of ethnic minority faculty, students, and investigators engaged in biomedical research and to broaden the opportunities for participation in biomedical research of ethnic minority faculty, students, and investigators, by providing general support for biomedical research programs at eligible institutions.

§ 52c.2 Definitions.

(a) "Act" means the Public Health Service Act, as amended.

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(c) "Nonprofit" as applied to any institution means an institution which is a corporation or association no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual.

(d) "Ethnic minorities" includes but is not limited to such groups as blacks, Spanish-speaking Americans, and American Indians.

(e) "Program director" means a single individual, designated in the grant application, who is scientifically trained and has research experience and who is responsible for the overall execution of the program supported under this part at the grantee institution.

§ 52c.3 Eligibility.

To be eligible for a grant under this Program, an applicant must be:

(a) One of the following:

(1) A public or private nonprofit university, four year college, or other institution offering undergraduate, graduate, or health professional degrees, with a student enrollment derived primarily from ethnic minorities;

(2) A public or private nonprofit two year college, with a student enrollment derived primarily from ethnic minorities;

(3) A public or private nonprofit university, four year college, or other institution offering undergraduate, graduate, or health professional degrees, with a student enrollment a significant proportion (but not necessarily a majority) of which is derived from ethnic minorities, provided the Secretary determines that said institution has a demonstrated commitment to the special encouragement of and assistance to ethnic minority faculty, students, and investigators; or

(4) A Native American Indian Tribal Council; and

(b) Located in a State, the District of Columbia, Puerto Rico, the Virgin Islands, the Canal Zone, Guam, American Samoa, or the Trust Territory of the Pacific Islands.

§ 52c.4 Application.

(a) Each institution desiring a grant under this part shall submit an application in such form and manner and on or before such dates as the Secretary may from time to time require.[1] Such application shall be executed by an individual authorized to act for the institution and to assume on behalf of the institution the obligations imposed by the terms and conditions of any award, including the regulations of this part.

(b) In accordance with section 1-00-30 of the Department of Health, Education, and Welfare Grants Administration Manual,[2] each private institution, which does not already have on file with the National Institutes of Health evidence of nonprofit status, must submit with its application acceptable proof of such status.

(c) Each application shall contain a narrative description of the institution's present biomedical research program; the nature and purpose of the proposed

---

[1] Applications and instructions are available from the Minority Biomedical Support Program, General Research Support Branch, Division of Research Resources, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014.

[2] The Department of Health, Education, and Welfare Grants Administration Manual is available for public inspection and copying at the Department's and Regional Offices' information centers listed in 45 CFR § 5.31 and may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

biomedical research program; the manner in which the institution intends to conduct said program in conformity with this part; and the value of the program to the overall mission and objectives of the institution. The application shall also set forth the proposed support period (not to exceed five years), a detailed budget, a justification for the amount of grant funds requested, the names and qualifications of the program director and the directors of individual projects within the program, the total facilities and resources that will be available (including where necessary collaborative arrangements with other institutions), and such other pertinent information as the Secretary may require.

§ 52c.5 Grant awards.

(a) Within the limits of funds available, and upon such recommendation as may be required by law, the Secretary shall award grants to those applications with proposed biomedical research programs which will, in his judgment, best promote the purposes of this part, taking into consideration among other pertinent factors:

(1) the benefits that can be expected to accrue to the national effort in biomedical research;

(2) the institution's capability, from a scientific and technical standpoint, to engage in biomedical research;

(3) the benefits that can be expected to accrue to the institution and its students;

(4) the administrative and managerial capability and competence of the applicant;

(5) the availability of the facilities and resources (including where necessary collaborative arrangements with other institutions) to engage in biomedical research;

(6) the applicant's relative need for funding; and

(7) the overall significance of the proposal in terms of numbers of ethnic minority persons benefited thereby.

(b) The amount of any grant award shall be determined by the Secretary on the basis of his estimate of the sum necessary for the cost of the applicant's approved plan.

(c) All grant awards shall be in writing and shall specify the support period, the total recommended amount of funds for the entire support period, the approved budget for the initial budget period, and the amount awarded for the initial budget period.

(d) Neither the approval of any application nor any grant award shall commit or obligate the United States in any way to make any additional, supplemental, continuation or other award with respect to any approved application or portion thereof. For continuation support, grantees must submit separate applications annually, at such times and in such form and manner as the Secretary may direct.

§ 52c.6 Payment.

The Secretary from time to time may make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement for expenses incurred or to be incurred in accordance with its approved application.

§ 52c.7 Expenditure of grant funds.

(a) Any funds granted pursuant to this part shall be expended solely for the purposes for which the funds were granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, and the applicable cost principles prescribed by subpart Q of 45 CFR Part 74, provided that only direct costs of biomedical research may be charged to a grant under this part.

(b) Any unobligated grant funds remaining in the grant account at the close of a budget period may be carried forward and be available for obligation during the succeeding budget period. The amount of any subsequent award will take into consideration unobligated grant funds remaining in the grant account. At the end of the final budget period any unobligated grant funds remaining in the grant account must be refunded to the Federal Government.

§ 52c.8 Nondiscrimination.

(a) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to grants made under this part, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

(b) Attention is also called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.

(c) Grant funds used for alterations and renovations shall be subject to the condition that the grantee shall comply with the requirements of Executive Order 11246, 30 FR 12319 (Sept. 24, 1965), as amended, and with the applicable rules, regulations, and procedures prescribed pursuant thereto.

§ 52c.9 Human subjects; animal welfare.

No award may be made under this part unless the applicant has complied with:

(a) 45 CFR Part 46 and any other applicable requirements pertaining to the protection of human subjects.

(b) Chapter 1-43 of the Department of Health, Education, and Welfare Grants Administration Manual and any other applicable requirements concerning animal welfare.

§ 52c.10 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to State and local governments as those terms are defined in Subpart A of Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this part:

45 CFR PART 74

Subpart
- A General.
- B Cash Depositories.
- C Bonding and Insurance.
- D Retention and Custodial Requirements for Records.
- F Grant-Related Income.
- G Matching and Cost Sharing.
- K Grant Payment Requirements.
- M Grant Closeout, Suspension, and Termination.
- O Property.
- Q Cost Principles.

§ 52c.11 Progress and fiscal records and reports.

Each grant award shall require that the grantee maintain such progress and fiscal records and file with the Secretary such progress and fiscal reports relating to the conduct and results of the approved grant and the use of grant funds as the Secretary may find necessary to carry out the purposes of this part.

§ 52c.12 Grantee accountability.

(a) All payments made by the Secretary shall be recorded by the grantee in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. With respect to each grant, the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available to the Secretary satisfactory evidence of expenditures for costs meeting the requirements of this part.

(b) *Accounting for royalties.* Royalties received by grantees from copyrights on publications or other works developed under the grant, or from patents or inventions conceived or first actually reduced to practice in the course of or under such grant, shall be accounted for as follows:

(1) *State and local governments.* Where the grantee is a State or local government as those terms are defined in subpart A of 45 CFR Part 74, royalties shall be accounted for as provided in 45 CFR Part 74.

(2) *Grantees other than State and local governments.* Where the grantee is not a State or local government as those terms are defined in subpart A of 45 CFR Part 74, royalties shall be accounted for as follows:

(A) Patent royalties, whether received during or after the grant period, shall be governed by agreements between the Assistant Secretary for Health, Department of Health, Education, and Welfare, and the grantee, pursuant to the Department's patent regulations (45 CFR Parts 6 and 8).

XUM V 39 NO 251 DEC 30 1974 XUM

(B) Copyright royalties, whether received during or after the grant period, shall first be used to reduce the Federal share of the grant to cover the costs of publishing or producing the materials, and any royalties in excess of the costs of publishing or producing the materials shall be distributed in accordance with Chapter 1–420 of the Department of Health, Education, and Welfare Grants Administration Manual.

§ 52c.13 Publications and copyright.

(a) *State and local governments.* Where the grantee is a State or local government as those terms are defined in subpart A of 45 CFR Part 74, the Department of Health, Education, and Welfare copyright requirement set forth in 45 CFR 74.140 shall apply with respect to any book or other copyrightable materials developed or resulting from an activity supported by a grant under this part.

(b) *Grantees other than State and local governments.* Where the grantee is not a State or local government as those terms are defined in subpart A of 45 CFR Part 74, except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from an activity supported by a grant under this part, subject to a royalty-free, non-exclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose of such materials, and to authorize others to do so.

§ 52c.14 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved program, the interests of the public health, or the conservation of grant funds.

[FR Doc.74-28263 Filed 12-27-74;8:45 a.m.]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 25]

[Docket No. 14230; Notice 74-38]

COMPARTMENT INTERIOR MATERIALS TOXIC GAS EMISSION

Proposed Standards

The FAA is considering rule making to establish standards governing the toxic gas emission characteristics of compartment interior materials used in transport category airplanes when subjected to fire conditions. In view of evidence developed during recent accident investigations to the effect that toxic gases emitted from cabin materials during post crash fires may have significant effects on occupant survival, the FAA believes the establishment of such standards is appropriate.

This advance notice of proposed rule making is being issued in accordance with the FAA's policy for the early institution of public proceedings in actions related to rule making. An "advance" notice is issued to invite early public participation in the identification and selection of a course or alternate courses of action with respect to a particular rule making problem.

Interested persons are invited to participate in the rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC–24, 800 Independence Avenue S.W., Washington, D.C. 20591. Communications should be received on or before March 31, 1975, to assure proper consideration. All comments submitted will be available in the Rules Docket, both before and after the closing date for comments, for examination by interested persons. The FAA intends to expedite consideration of all comments received in response to this Notice, and, if it is determined that further research and study is not required to develop the technical aspects of such standards, the FAA will expedite the issuance of a NPRM. However, it should be noted that a final rule establishing such standards is not anticipated for some time.

The FAA has conducted preliminary research on the characteristics of toxic gas emissions from cabin materials, and on the expected effects of such gases on humans. Although this research indicates that the state-of-the-art may have progressed to the point where material toxicity standards can be established, the information presently available to the FAA does not provide an adequate data base and considerably more data are necessary to develop the technical aspects of such standards. For instance, there is a lack of information on time history characteristics of toxic gas emissions from cabin interior materials.

The overall objective of protecting occupants from the effects of crash fires is addressed in the FAA's existing program of updating airworthiness standards. The development and implementation of toxicity standards must be considered within the framework of the total program. Such standards must be feasible for airplane design and at the same time yield improvements in safety commensurate with necessary implementation efforts.

The FAA recognizes that there are presently no materials toxicity standards, test equipment, or test methods in common use in the aviation industry. However, recent FAA research into materials smoke emission characteristics using the National Bureau of Standards (NBS) flaming and nonflaming smoke generation tests has demonstrated that the NBS test apparatus adequately serves as a repeatable means of subjecting material specimens to a controlled fire environment for test purposes. The NBS, at the request of the FAA, has conducted toxicity analyses of materials specimens with the NBS test apparatus by use of commercially available colorimeter tubes.

The FAA desires to review the technical and cost situations before determining the form of a toxicity standard, and believes it important in this regard to have available all relevant information that can be provided by the public. To this end, the FAA welcomes the participation of aircraft manufacturers and operators, materials producers, testing laboratories, medical authorities, government agencies, and other interested persons and, by means of this advance notice, solicits the views of all interested persons on the following questions:

1. What general form should a toxicity standard have in order to most effectively complement existing regulations that deal with crashworthiness? Should the standard, for example, pertain to the chemical makeup of the materials, should it be based on the testing of materials in the presence of fire, or is some other standard appropriate? Data substantiating the reasoning behind any suggested approach should be submitted to aid in evaluation.

2. What specific toxic gases or sources of toxic gases should be taken into consideration in the standard? What limits should be specified?

3. Are there readily available test methods that can be used to accurately and consistently measure the toxic gas emission characteristics of materials in the presence of fire? Are such methods compatible with aircraft manufacturing and maintenance procedures? Would it be feasible to standardize on one of these methods in implementing the suggested standard? Data relating to test costs is solicited.

4. How would the availability of currently used materials that meet the flammability standards of current § 25.853 be affected by the adoption of any suggested toxicity standard? Would this availability provide a sufficient variety and quantity of materials to meet the needs of aircraft manufacturers and operators, especially with regard to seat cushions and insulation materials? Data relating to the cost of developing and producing new materials is solicited.

5. Should all airplanes operating under FAR 121 be required to meet the new standard regardless of when they were certificated? What period of time should be permitted for accomplishing the necessary retrofitting? Data substantiating the reasonableness of suggested time periods is solicited. Data relating to the cost of retrofit is also solicited.

6. Is there an interim measure that could be adopted to provide some measure of protection pending development of toxicity standards?

This advance notice of proposed rule making is issued under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on December 19, 1974.

R. P. SKULLY,
Director,
Flight Standards Service.

[14 CFR Part 39]

[Docket No. 74-NW-36-AD]

BOEING MODEL 747-100 AND -200 SERIES AIRPLANES

Proposed Airworthiness Directives

A proposal (NPRM) to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring the installation of an additional warning system or systems with respect to the position of leading edge flaps on 747 airplanes was published in the FEDERAL REGISTER on December 10, 1974, 39 FR 43, 849.

Subsequent to issuing the NPRM, The Boeing Company has presented a design concept which would provide leading edge flap logic inputs to the takeoff aural warning system and to the pilots' annunciator panel. This concept has been discussed with representatives of the FAA, ATA and ALPA and tentatively appears to be a satisfactory means of compliance with the intent of the FAA proposal. The Boeing design will, in turn, be distributed to all domestic 747 operators for comment to be considered in this docket, and will be available from the manufacturer to all interested persons.

In consideration of the foregoing, it has been determined that the 60 day period allowed in the FAA proposal for comments is no longer needed; instead, a period of 50 days is considered adequate for public participation.

Accordingly, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), the notice of proposed rulemaking in this docket (39 FR 43, 849) is hereby amended by changing the date of February 11, 1975 to February 1, 1975.

This amendment is made under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Seattle, Washington, December 20, 1974.

C. B. WALK, Jr.,
Director,
Northwest Region.

[14 CFR Parts 71, 73]

[Airspace Docket No. 74-SO-91]

TEMPORARY RESTRICTED AREAS

Proposed Designation

The Federal Aviation Administration (FAA) is considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would designate several temporary restricted areas in the vicinity of Fayetteville, Wilmington, Beaufort and Washington, N.C., to contain a joint military training exercise SOLID SHIELD 75. The exercise would extend from May 25, 1975, through June 6, 1975. Those areas encompassing airspace at or above 14,500 feet MSL would also be included in the continental control area for the duration of their time of designation.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P. O. Box 20636, Atlanta, Ga. 30320. All communications received on or before January 29, 1975, will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW, Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendments would designate the following temporary restricted areas:

R-5309D SOLID SHIELD 75, N. C.

BOUNDARIES

Beginning at Lat. 35°22'00" N., Long. 78°31'30" W.; to Lat. 35°20'30" N., Long. 78°10'00" W.; thence counterclockwise along a 10-nautical mile radius arc centered on Seymour Johnson AFB (Lat. 35°20'20" N., Long. 77°57'50" W.) to Lat. 35°10'30" N., Long. 77°59'00" W.; to Lat. 34°57'30" N., Long. 78°02'30" W.; to Lat. 35°02'00" N., Long. 78°40'00" W.; to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Continuous, May 25-June 6, 1975, inclusive.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

R-5309E SOLID SHIELD 75, N. C.

BOUNDARIES

Beginning at Lat. 34°53'45" N., Long. 78°42'00" W.; to Lat. 34°49'20" N., Long. 78°07'20" W.; to Lat. 34°24'00" N., Long. 78°24'00" W.; to Lat. 34°24'00" N., Long. 78°42'30" W; to Lat. 34°50'30" N., Long. 78°46'00" W.; to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Continuous, May 25-June 6, 1975, inclusive.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

Using Agency. United States Atlantic Command, Norfolk, Va.

Temporary Restricted Areas R–5309H, I, J, K, L and M, defined above would also be included in the continental control area for the duration of their time of designation.

The proposed restricted areas would be used to contain a joint military training exercise, "SOLID SHIELD 75", involving coordinated amphibious/airborne assault operations. Several military units would participate; however, no ordnance would be expended (within the areas herein proposed) and also supersonic flight would be prohibited. Similar exercises have been conducted annually in the same general area for several years. As with the previous exercise, "SOLID SHIELD 75" would provide the military services with an opportunity to test and evaluate the coordination procedures used during complex joint military operations. The proposed restricted areas would be required for safety to separate nonparticipating aircraft from the extensive air activity of the participating military forces.

The Corps of Engineers has obtained, covering the period during which this exercise would be held, land use rights for approximately 1,700,000 acres within the total area involved in this proposal. However, it contains numerous towns and privately owned buildings and other property. Although restricted areas R–5309A, B, C, D, E, F, G and J would be designated from the surface upward, the users understand that they are obligated to observe the minimum safe altitudes prescribed in § 91.79 of the Federal Aviation Regulations that are applicable to all nonparticipating persons and property on the surface.

Throughout the exercise the using agency would allow scheduled air carrier flights and other nonparticipating aircraft into or through the temporary restricted areas when exercise operations permit. The using agency would provide all necessary communication lines required by the Federal Aviation Administration and it would also provide a wide area telecommunications service number so that nonparticipating pilots can obtain clearances on an individual basis without charge to themselves. This number would be published in Part 3 of the Airman's Information Manual (AIM) effective during the exercise period. The Federal Aviation Administration would establish temporary routing to reroute air carrier and other nonparticipating aircraft around the restricted areas when clearance through the areas cannot be approved.

These amendments are proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 2348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on December 20, 1974.

HOWARD J. MALO,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74–30080 Filed 12–27–74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74–GL–48]

TERMINAL CONTROL AREA DETROIT, MICH.

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Detroit, Mich., Terminal Control Area (TCA) by redefining certain lateral boundaries and floor altitudes in the vicinity of the Detroit River.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon, Des Plaines, Ill. 60018. All communications received on or before January 29, 1975 will be considered before action is taken on the proposed amendment. The

proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue, SW, Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

Flight beneath the 2,300-foot floor of the TCA along the Detroit River has proven restrictive to VFR flight due to obstructions along the west side of the river.

It is proposed to adjust the floor altitude from 2,300 feet to 3,000 feet in this area. This adjustment will benefit the VFR user by giving him additional space for VFR flight along the river.

This action is a result of continuous monitoring of the TCA program seeking to provide the best possible service for the airspace user.

In consideration of the foregoing, it is proposed to amend the Detroit, Mich., TCA in § 71.401 of Part 71 of the Federal Aviation Regulations to read as follows:

Area B: That airspace extending upward from 2,300 feet MSL to and including 8,000 feet MSL within a ten-mile radius of the Detroit Metropolitan Wayne County Airport excluding Area "A" previously described, that airspace east of the west edge of the Detroit River, and the Detroit, Mich., (Willow Run Airport) Control Zone.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on December 23, 1974.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[14 CFR Part 71]

[Airspace Docket No. 74-SW-53]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Marksville, La.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before January 29, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In Section 71.181 (39 FR 440), the following transition area is added:

MARKSVILLE, LA.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Marksville NDB (latitude 31°05'39" N., longitude 92°04'17" W.); within 3.5 miles each side of a 206° bearing from the Marksville NDB extending from the 5-mile radius area to 11.5 miles southwest of the NDB.

The proposed transition area will provide controlled airspace for aircraft executing the proposed NDB RWY 4 instrument approach procedure.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, TX., on December 19, 1974.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 311-7]

IOWA

Approval of Compliance Schedules

On May 31, 1972 (37 FR § 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved portions of State plans for implementation of the national ambient air quality standards. The State of Iowa submitted to the Environmental Protection Agency compliance schedules to be considered as proposed revisions to the approved plans pursuant to 40 CFR 51.6. 40 CFR 51.8 requires the Administrator to approve or disapprove compliance schedules submitted by the states. Therefore, the Administrator proposes the approval of the compliance schedules listed below.

The approvable schedules were adopted by the State and submitted to the Environmental Protection Agency after notice and public hearings in accordance with the procedural requirements of 40 CFR 51.4 and 51.6 and the substantive requirements of 40 CFR 51.15 pertaining to compliance schedules. The compliance schedules have been reviewed and determined to be consistent with the approved control strategies of Iowa. Each approved revision establishes a new date by which the individual source must comply with the applicable emission limitation in the federally-approved State Implementation Plan. This date is indicated in the table below, under the heading "Final Compliance Date." In all cases, the schedules include incremental steps toward compliance with the applicable emission limitations. While the tables below do not include these interim dates, the actual compliance schedules do.

Under Iowa law, the compliance schedule is not enforceable after the date on which the associated variance expires and variances cannot extend for more than one year. Therefore, to the extent that the schedules extend past the variance expiration date, they are not legally enforceable at this time. For this reason, EPA's approval of each compliance schedule will be unconditional only as to that part of the schedule covered by the initial variance. Approval of the remainder of the schedule will be conditioned upon the State's renewal of the variance in identical form and substance to that included in the schedule submitted to the Environmental Protection Agency and approved herein. If the variance is renewed in this manner, the condition precedent will be satisfied and the approval of the next segment of the schedule would not require further action by the State or this Agency. If the variance is not renewed, or is modified from the version that had been federally-approved, the condition will not be fulfilled, the approval of the remainder of the schedule would not be effective, and the State's immediately-effective regulation would again become federally enforceable.

Provisional approval of final compliance dates and extensions of variances is justifiable only because of the one-year variance limitation in the law of Iowa. Since there will be no substantive changes in the schedules set forth below and public hearings were held on the complete schedule, there is no reason to require compliance with 40 CFR 51.6 procedures at the time Iowa renews each variance. The schedules were immediately effective on the date of adoption. An Effective Date is not indicated on the table. The Variance Expiration Date is included instead.

The following compliance schedules for Clinton Corn Processing Company, Clinton, which appeared in the FEDERAL REGISTER of September 23, 1974 (39 FR 30465), are hereby withdrawn. The new Final Compliance Dates extend beyond the July 31, 1975, attainment date and cannot be approved. The Environmental Protection Agency, Region VII, has issued an Administrative Order for these sources. The sources are: Raymond Dryers Nos. 1 and 2, and Heil Dryers Nos. 1, 2, 3, 4, and 5.

The Variance Expiration Date for Hawkeye Chemical Company, Clinton, shown in the FEDERAL REGISTER of September 24, 1974 (39 FR 34300), was in-

correct. The schedule is reproposed in this FEDERAL REGISTER.

In the indication of proposed approval of individual compliance schedules, the individual schedules are included by reference only. In addition, since the large number of compliance schedules preclude setting forth detailed reasons for approval of individual schedules in the FEDERAL REGISTER, an evaluation report has been prepared for each individual compliance schedule. Copies of these evaluation reports are available for public inspection at the Environmental Protection Agency Regional Office, 1735 Baltimore, Kansas City, Missouri. The compliance schedules and the State Implementation Plans are available for public inspection at the Environmental Protection Agency Regional Office; Environmental Protection Agency, Division of Stationary Source Enforcement, 401 M Street, Washington, D.C.; and the Iowa Department of Environmental Quality, 3920 Delaware, Des Moines, Iowa.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the Region VII office at the above address. All comments submitted on or before January 29, 1975, will be considered. Receipt of comments will be acknowledged but substantive responses will not be provided. All comments received, as well as copies of the applicable implementation plans, will be available for inspection during normal business hours at the Regional Office.

The proposed rulemaking is issued under authority of section 110(a) of the Clean Air Act, as amended, (42 U.S.C. 1857c–5).

Dated: December 6, 1974.

EARL J. STEPHENSON,
Acting Regional Administrator.

It is proposed to amend Part 52 of Chapter I, Title 40 of the Code of Federal Regulations as follows:

Subpart Q—Iowa

1. In § 52.825, the table in paragraph (c) is amended as follows:

§ 52.825 Compliance Schedules.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20315]

CALIBRATION OF REMOTE CONTROL INSTRUMENTS

Order Extending Time for Filing Reply Comments

1. On October 22, 1974, the Commission adopted a notice of proposed rulemaking in the above-entitled proceeding. Publication was given in the FEDERAL REGISTER on November 1, 1974, 39 F.R. 38668. The time for filing comments has expired and the date for filing reply comments is December 16, 1974.

2. On December 16, 1974, A. Earl Cullum, Jr. and Associates (A. Earl Cullum), requested that the time for filing reply comments be extended. A. Earl Cullum states that it has made a request of the Commission's contractor for a list of the parties who may have filed comments in the proceeding and requested expedited action on the order but as of December 13 they have had no response to their request. They are therefore requesting additional time so that they may file reply comments after receiving the requested information.

3. We are of the view that the public interest would be served by extending the time in this proceeding. Accordingly, It is ordered, That the date for filing reply comments is extended to and including January 3, 1975.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and section 0.281 of the Commission's rules.

Adopted: December 19, 1974.

Released: December 20, 1974.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] HAROLD L. KASSENS,
Acting Chief,
Broadcast Bureau.

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 1201, 1202, 1203, 1204, 1205, 1206, 1207, 1208, 1209, 1210]

[No. 36057]

ACCOUNTING FOR TREASURY STOCK AT COST, TRANSACTIONS WITH AFFILIATES AND CHARGES TO BE JUST AND REASONABLE

Notice of Proposed Rulemaking

DECEMBER 23, 1974.

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C. on 5th day of November, 1974.

This proceeding is being instituted on our own motion to consider revisions to each of the uniform systems of accounts in three areas: (1) Accounting for treasury stock, (2) instructions for transactions with affiliates, and (3) instruction for charges to be just and reasonable. If

these proposals are adopted, the substance of all ten uniform systems of accounts prescribed by the Commission will be consistent in these three areas. While the three subject areas differ, we are proposing that they be considered in the same proceeding. This facilitates making accounting changes in a more timely manner which we feel is beneficial to all interested parties.

Under the present regulations most modes use the par value method of accounting for treasury stock. Only the uniform system of accounts for freight forwarders prescribes the cost method. The cost method of accounting for treasury stock is more widely used than the par value method by the accounting profession and other regulatory agencies. It is our intent that if the cost method of accounting for treasury stock is adopted, all treasury stock presently held shall be reaccounted for under the cost method provided that it has not been constructively retired.

The instruction for transactions with affiliated companies is presently in the uniform system of accounts for Railroad Companies and the uniform system of accounts for Motor Carriers of Property.

The instruction for charges to be just and reasonable is in the system of accounts for Motor Carriers of Property.

The intent of these proposals is to add more definitive guidelines to the uniform system of accounts, and to prescribe consistent guidelines in these three areas for all modes of surface transportation. In addition, the adoption of these proposals would bring us closer in aligning the Commission's accounting rules for financial reporting purposes with generally accepted accounting principles.

Our intent is that the proposed revisions to the accounting regulations become effective immediately upon adoption by the Commission and would be reflected in the books of accounts for the year beginning January 1, 1975.

Upon consideration of the above described matters and good cause appearing therefor:

It is ordered, That a proceeding be, and it is hereby, instituted under the authority of sections 20, 204, 313 and 412 of the Interstate Commerce Act and pursuant to sections 553 and 559 of the Administrative Procedure Act with a view to adopting the proposed regulations set forth in Appendices A through J of this Notice, and for the purpose of taking such other and further action as the facts and circumstances may justify and require.

It is further ordered, That all carriers subject to the Interstate Commerce Act be, and they are hereby, made respondents in this proceeding.

It is further ordered, That no oral hearing be scheduled for the receiving of testimony in this proceeding unless a need therefor should later appear, but that respondents or any other interested parties may participate in this proceeding by submitting for consideration written statements of fact, views, and arguments on the subjects mentioned above, or any other subjects pertaining to this proceeding.

It is further ordered, That any interested persons wishing to submit written statements of fact, views, or arguments shall file an original (and, if possible, 15 copies) of such representations with the Secretary, Interstate Commerce Commission, Washington, D.C. 20423, by January 27, 1975, and that all such statements will be considered as evidence and as a part of the record in this proceeding.

It is further ordered, That written material or suggestions submitted shall be made available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue, NW., Washington, D.C., during regular business hours.

And it is further ordered, That service of this notice shall be made on all affected carriers; and to the Governor of every State and to the Public Utilities Commissions or Boards of each State having jurisdiction over transportation; and that notice of this proceeding shall be given to the general public by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and by delivering a copy thereof to the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

NOTE: This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

PART 1201—UNIFORM SYSTEM OF ACCOUNTS FOR RAILROAD COMPANIES

LIST OF INSTRUCTIONS AND ACCOUNTS

In the table of contents under "General Instructions" add the following immediately after line item "1–21 *Submission of questions*":

1–22 Charges to be just and reasonable.

Under "General Balance Sheet Accounts" add the following immediately after line item "798 *Retained income; unappropriated*":

798.5 Treasury stock.

GENERAL INSTRUCTIONS

The text of instruction 1–10, "Transactions with affiliated companies" is revised to read:

1–10 Transactions with affiliated companies. (a) The records and supporting data of all transactions with affiliated companies shall be maintained in a separate file. The types of transactions referred to in this paragraph are for management services or any other type of services rendered, sale or use of facilities or any other type of assets or property. The file shall be maintained so as to enable the carrier, upon a Commission request, to furnish accurate information with supporting documentation about particular transactions within 15 days of the request. We do not intend the file to include data relating to ordinary carrier operations (e.g. lawful tariff charges or interchange of equipment).

(b) Each bill rendered by an affiliated company shall state specifically the basis used for determining charges.

(c) Punched cards, magnetic tapes, discs, or other machine-sensible device used for recording, consolidating, and summarizing accounting transactions and records with a carrier's electronic or automatic data processing system may constitute a file within the meaning of this instruction.

(d) The carrier shall record, as the cost of assets or services received from an affiliated supplier, their invoice price (plus any incidental costs related to those transactions) in those cases where the invoice price can be determined from a prevailing price list of the affiliated supplier available to the general public in the normal course of business. If no such price list exists, the charges shall be recorded at the lower of their cost to the originating affiliated supplier (less all applicable valuation reserves in case of asset sales), or their estimated fair market value determined on the basis of a representative study of similar competitive and arm's-length or bargained transaction.

Any differences between actual transaction price and the above, as well as charges that are not transportation related, shall be considered of a financing nature, and shall be recorded, accordingly, as nonoperating charges or credits. (See Instruction 1–22).

(e) Nothing contained herein shall be construed as restraining the carrier from subdividing accounts (see Instruction 1–3(d)) for the purpose of recording separately transactions with affiliated companies.

After general instruction 1–21 *"Submission of Questions"*, add new instruction 1–22 *"Charges to be just and reasonable"* to read as follows:

1–22 Charges to be just and reasonable. All charges to the accounts prescribed in this system of accounts for carrier property, operating revenues, operating and maintenance expenses, and other carrier expenses, shall be just, reasonable and necessary to the honest and efficient operations and management of the carrier business. Payments should not exceed the fair market value of goods and services acquired in an arm's-length transaction. Any payments in excess of such just and reasonable charges shall be included in account 551, "Miscellaneous income charges".

INSTRUCTIONS FOR INCOME AND BALANCE SHEET ACCOUNTS

The instruction 6–4, "Discount, premium, and assessment on capital stock" is amended by revising paragraphs (e) through (g). As amended the text reads as follows:

Discount, premium, and assessment on capital stock. • • •

• • •

• • • • • •

(e) When capital stock is reacquired, either by purchase or donation, and is retired or cancelled, the par value shall be charged to account 791, "Capital Stock Issued". Any difference between par value and the reacquisition cost, including commission, other expenses incurred in the purchase, and any premium or discount applicable to the original sale, shall be included in account 795, "Paid-In Surplus". However, the excess of a debit over the balance carried in account 795, "Paid-In Surplus", with respect to the particular class of stock, shall be charged to account 616, "Other Debits to Retained Income".

(f) When capital stock is reacquired, either by purchase or donation, and is not retired or cancelled, nor property includible in sinking or other funds, the reacquisition cost shall be charged to account 798.5, "Treasury Stock".

(g) When Treasury Stock is resold, account 798.5, "Treasury Stock", will be credited with the cost paid for it. Any difference between the total amount realized from the sale of treasury stock (less commission and expenses incident thereto), and the amount credited to account 798.5, "Treasury Stock", shall be debited or credited as appropriate to account 795, "Paid-In Surplus". (See paragraph (e) above).

GENERAL BALANCE SHEET ACCOUNTS

The text of account 791 "Capital Stock Issued" paragraph (a) is revised and Note E deleted. As amended the text reads:

791 Capital Stock Issued.

(a) This account shall include the total par value of par value stock, and the total amount paid in or the amount approved by the Commission for stock without par value, for all shares of capital stock or other form of proprietary interest in the accounting company which have been issued to bona fide purchasers and have not been reacquired and canceled, also shares of stock nominally issued.

• • • • •

After the text of account 798, "Retained Income; Unappropriated", the following new account number, title and text are added:

798.5 Treasury Stock.

(a) This account shall include in subdivisions for each class the reacquisition cost of capital stock which has been actually issued or assumed by the carrier then reacquired, and is neither retired or cancelled, nor properly includible in sinking or other funds.

(b) This account shall be maintained to reflect separately securities pledged and unpledged.

(c) This account shall be shown on the Balance Sheet as a deduction in arriving at Stockholders' Equity.

NOTE A: The accounting for the reacquisition of capital stock and resale thereof shall be in accordance with Instruction 6-4, paragraphs (e) through (g).

Account 799, "Form of General Balance Sheet Statement", is revised by adding the following new account number and title:

799 Form of General Balance Sheet Statement.

• • • • •

798 • • •

• • • • •

798.5 Treasury stock

• • • • •

PART 1202—UNIFORM SYSTEM OF ACCOUNTS FOR ELECTRIC RAILWAYS

LIST OF INSTRUCTIONS AND ACCOUNTS

In table of contents under "Operating Expenses" add the following after line item 01-16 *Accounting for income taxes:*

01-17 Transactions with affiliated companies.

01-18 Charges to be just and reasonable.

Under "General Balance Sheet Accounts" add the following immediately after line item "425 Premium on capital stock."

426 Treasury stock.

OPERATING EXPENSES, GENERAL INSTRUCTIONS

After the text of instruction 01-16 "Accounting for Income Taxes", new instructions 01-17 and 01-18 are added to read as follows:

01-17 Transactions with affiliated companies.

(a) The records and supporting data of all transactions with affiliated companies shall be maintained in a separate file. The types of transactions referred to in this paragraph are for management services or any other type of services rendered, sale or use of facilities or any other type of assets or property. The file shall be maintained so as to enable the carrier upon, a Commission request, to furnish accurate information with supporting documentation about particular transactions within 15 day of the request. We do not intend the file to include data relating to ordinary carrier operations (e.g. lawful tariff charges or interchange of equipment).

(b) Each bill rendered by an affiliated company shall state specifically the basis used for determining charges.

(c) Punched cards, magnetic tapes, discs, or other machine-sensible device used for recording, consolidating, and summarizing accounting transactions and records with a carrier's electronic or automatic data processing system may constitute a file within the meaning of this instruction.

(d) The carrier shall record as the cost of assets or services received from an affiliated supplier, their invoice price (plus any incidental costs related to those transactions) in those cases where the invoice price can be determined from a prevailing price list of the affiliated supplier available to the general public in the normal course of business. If no such price list exists, the charges shall be recorded at the lower of their cost to the originating affiliated supplier (less all applicable valuation reserves in case of asset sales), or their estimated fair market value determined on the basis of a representative study of similar competitive and arm's-length or bargained transactions.

Any differences between actual transaction price and the above, as well as charges that are not transportation related, shall be considered of a financing nature and shall be recorded, accordingly, as nonoperating charges or credits. (See Instruction 1-18).

(e) Nothing contained herein shall be construed as restraining the carrier from subdividing accounts for the purpose of recording separately transactions with affiliated companies.

01-18 Charges to be just and reasonable.

All charges to the accounts prescribed in this system of accounts for carrier property, operating revenues, operating and maintenance expenses, and other carrier expenses, shall be just, reasonable and necessary to the honest and efficient operations and management of the carrier business. Payments should not exceed the fair market value of goods and services acquired in an arm's length transaction. Any payments in excess of such just and reasonable charges shall be included in account 225, "Miscellaneous Debits".

GENERAL BALANCE SHEET

The instruction 05-2 "Discount and premium on capital stock" is amended by revising the last three paragraphs and designating the first three paragraphs as (a), (b) and (c), respectively. As amended the text reads:

05-2 Discount and premium on capital stock.

• • • • •

(d) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is retired or cancelled, the par value shall be charged to account 423, "Capital stock". Any difference between par value and the reacquisition cost, including commission, other expenses incurred in the purchase, and any premium or discount applicable to the original sale, shall be included in account 448(a), "Paid-In Surplus". However, the excess of a debit over the balance carried in account 448(a), "Paid-In Surplus", with respect to the particular class of stock, shall be charged to account 420, "Other unadjusted debits".

(e) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is not retired or cancelled, nor properly includible in sinking or other funds, the reacquisition cost shall be charged to account 420, "Treasury Stock".

(f) When Treasury Stock is resold, account 426, "Treasury Stock", will be credited with the cost paid for it. Any

difference between the total amount realized from the sale of treasury stock (less commission and expenses incident thereto), and the amount credited to account 426, "Treasury Stock", shall be debited or credited as appropriate to account 448(a), "Paid-In Surplus". (See paragraph (d) above).

Instruction "05–7 Form of general balance sheet statements" is revised by adding the following line items:

* * * * *

425 * * *
426 Treasury Stock
Total

* * * * *

GENERAL BALANCE SHEET ACCOUNTS

Account 425 "Premium on capital stock" is revised to read:

425 Premium on capital stock.

(a) This account shall include the excess of the actual cash value (at the time of sale of the stock) of the consideration received over the amount recorded in account 423, "Capital stock," for par value stock plus accrued dividends, if any; also subsequent assessments against stockholders for payments required in excess of the par value or other amount recorded in account 423, "Capital stock."

(b) When capital stock is retired and canceled, the amount in this account with respect to the shares of such stock retired and canceled shall be charged hereto.

After the text of account 426, "Premium on capital stock" the following new account number, title and text are added:

426 Treasury Stock.

(a) This account shall include in subdivisions for each class the reacquisition cost of capital stock which has been actually issued or assumed by the carrier then reacquired, and is neither retired or cancelled, nor properly includible in sinking or other funds.

(b) This account shall be maintained to reflect separately securities pledged and unpledged.

(c) This account shall be shown on the Balance Sheet as a deduction in arriving at Total stock.

NOTE A: The accounting for the reacquisition of capital stock and resale thereof shall be in accordance with Instruction 05–2, paragraphs (d) through (f).

1203—UNIFORM SYSTEM OF ACCOUNTS FOR EXPRESS COMPANIES

LIST OF INSTRUCTIONS AND ACCOUNTS

In Table of Contents under "General Instructions" add the following immediately after line item 1–18 "Accounting for Income taxes".

1–19 Transactions with affiliated companies.
1–20 Charges to be just and reasonable.

Under "Balance Sheet Account Classifications" add the following immediately after line item "255 Retained income":

256 Treasury stock.

GENERAL INSTRUCTIONS

Instruction "1–2 Accounting scope", paragraph (d), is amended by adding line item "256 Treasury stock" in proper sequence.

* * * * *

256 Treasury stock.

* * * * *

After general instruction 1–18 "Accounting for income taxes", add the new instructions 1–19 "Transactions with affiliated companies" and 1–20 "Charges to be just and reasonable" to read as follows:

1–19 Transactions with affiliated companies.

(a) The records and supporting data of all transactions with affiliated companies shall be maintained in a separate file. The types of transactions referred to in this paragraph are for management services or any other type of services rendered, sale or use of facilities or any other type of assets or property. The file shall be maintained so as to enable the carrier, upon a Commission request, to furnish accurate information with supporting documentation about particular transactions within 15 days of the request. We do not intend the file to include data relating to ordinary carrier operations (e.g. lawful tariff charges or interchange of equipment).

(b) Each bill rendered by an affiliated company shall state specifically the basis used for determining charges.

(c) Punched cards, magnetic tapes, discs, or other machine-sensible device used for recording, consolidating, and summarizing accounting transactions and records with a carrier's electronic or automatic data processing system may constitute a file within the meaning of this instruction.

(d) The carrier shall record as the cost of assets or services received from an affiliated supplier, their invoice price (plus any incidental costs related to those transactions) in those cases where the invoice price can be determined from a prevailing price list of the affiliated supplier available to the general public in the normal course of business. If no such price list exists, the charges shall be recorded at the lower of their cost to the originating affiliated supplier (less all applicable valuation reserves in case of asset sales), or their estimated fair market value determined on the basis of a representative study of similar competitive and arm's-length or bargained transactions.

Any differences between actual transaction price and the above, as well as charges that are not transportation related, shall be considered of a financing nature and shall be recorded, accordingly, as nonoperating charges or credits. (See Instruction 1–20.)

(e) Nothing contained herein shall be construed as restraining the carrier from subdividing accounts (see Instruction 1–3(a)) for the purpose of recording separately transactions with affiliated companies.

1–20 Charges to be just and reasonable.

All charges to the accounts prescribed in this system of accounts for carrier property, operating revenues, operating and maintenance expenses, and other carrier expenses, shall be just, reasonable and necessary to the honest and efficient operations and management of the carrier business. Payments should not exceed the fair market value of goods and services acquired in arm's length transaction. Any payments in excess of such just and reasonable charges shall be included in account 731 "Miscellaneous expenses."

BALANCE SHEET ACCOUNT CLASSIFICATIONS

The text of account 251 "Preferred stocks" paragraphs (a) and (b) is revised to read:

251 Preferred stock.

(a) This account shall include the par value of par value stock, stated value of no-par value stock and the amount received for no-par value stock without stated value, which have been issued to bona fide purchasers and have not been reacquired and cancelled. When other than cash is received for no-par value stock without stated value, the fair market value of the consideration shall be entered in the account.

(b) This account shall be divided so as to show separately each class of stock issued, subdivided between issued and actually outstanding, nominally issued be entered in this account.

* * * * *

The text of account 252 "Common stock", paragraphs (a) and (b) is revised to read:

252 Common stock.

(a) This account, as subdivided below, shall include the par value of par value stock, stated value of no-par value stock and the amount received for no-par value stock without stated value, which have been issued to bona fide purchasers and have not been reacquired and cancelled. When other than cash is received for no-par value stock without stated value, the fair market value of the consideration shall be entered in this account.

(b) This account shall be divided so as to show separately each class of stock issued, subdivided between issued and actually outstanding, nominally issued and nominally outstanding.

* * * * *

The text of account 254 "Capital surplus", paragraph (c) is revised: As amended the paragraph reads:

254 Capital surplus.

* * * * *

(c) *02 Other capital surplus.* (1) When an issue of capital stock or any part thereof is required, either by purchase

or donation, and is retired or cancelled, the par value shall be charged to account 251 "Preferred stock" or 252 "Common stock". Any difference between par value and the reacquisition cost, including commission, other expenses incurred in the purchase, and any premium or discount applicable to the original sale, shall be included in this account. However, the excess of a debit over the balance carried in this account, with respect to the particular class of stock, shall be charged to account 255–08—other debits.

(2) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is not retired or cancelled, nor properly includible in sinking or other funds, the reacquisition cost shall be charged to account 256-Treasury stock.

(3) When Treasury stock is resold, account 256-Treasury stock, will be credited with the cost paid for it. Any difference between the total amount realized from the sale of treasury stock (less commission and expenses incident thereto), and the amount credited to account 256-Treasury stock, shall be debited or credited as appropriate to this account. (See paragraph (1) above.)

• • • • •

After the text of account 255 "Retained income", the following new account number, title and text are added:

256 Treasury stock.

(a) This account shall include in subdivisions for each class the reacquisition cost of capital stock which has been actually issued or assumed by the carrier then reacquired, and is neither retired or cancelled, nor properly includible in sinking or other funds.

(b) This account shall be maintained to reflect separately securities pledged and unpledged.

(c) This account shall be shown on the Balance Sheet as a deduction in arriving at Stockholders' Equity.

NOTE A: The accounting for the reacquisition of capital stock and resale thereof shall be in accordance with Balance sheet account classification 254–(c)–02, paragraphs (1) through (3).

Account 299 "Form of balance sheet" is revised by adding the following:

299 Form of balance sheet.

• • • • •

256 Treasury stock.....( )
Total Shareholders' Equity.....

PART 1204—UNIFORM SYSTEM OF ACCOUNTS FOR PIPELINE COMPANIES

LIST OF INSTRUCTIONS AND ACCOUNTS

In table of contents under "General Instructions", add the following after line item 1–12 "Accounting for income taxes".

1–13 Transactions with affiliated companies.
1–14 Charges to be just and reasonable.

Under "Balance Sheet Accounts" add the following immediately after line item 75 "Unappropriated retained income".

76 Treasury stock.

GENERAL INSTRUCTIONS

After general instruction 1–12 "Accounting for income taxes", add the new instruction 1–13 "Transactions with affiliated companies" and 1–14 "Charges to be just and reasonable" to read as follows:

1–13 Transactions with affiliated companies.

(a) The records and supporting data of all transactions with affiliated companies shall be maintained in a separate file. The types of transactions referred to in this paragraph are for management services or any other type of services rendered, sale or use of facilities or any other type of assets or property. The file shall be maintained so as to enable the carrier, to furnish accurate information with supporting documentation about particular transactions within 15 days of the request. We do not intend the file to include data relating to ordinary carrier operations (e.g. lawful tariff charges or interchange of equipment).

(b) Each bill rendered by an affiliated company shall state specifically the basis used for determining charges.

(c) Punched cards, magnetic tapes, discs, or other machine-sensible device used for recording, consolidating, and summarizing accounting transactions and records with a carrier's electronic or automatic data processing system may constitute a file within the meaning of this instruction.

(d) The carrier shall record, as the cost of assets or services received from an affiliated supplier, their invoice price (plus any incidental costs related to those transactions) in those cases where the invoice price can be determined from a prevailing price list of the affiliated supplier available to the general public in the normal course of business. If no such price list exists, the charges shall be recorded at the lower of their cost to the originating affiliated supplier (less all applicable valuation reserves in case of asset sales), or their estimated fair market value determined on the basis of a representative study of similar competitive and arm's-length or bargained transactions.

Any differences between actual transaction price and the above, as well as charges that are not transportation related, shall be considered of a financing nature and shall be recorded, accordingly, as nonoperating charges or credits. (See Instruction 1–14.)

(e) Nothing contained herein shall be construed as restraining the carrier from subdividing accounts (see Instruction 1–2(a)) for the purpose of recording separately transactions with affiliated companies.

1–14 Charges to be just and reasonable.

All charges to the accounts prescribed in this system of accounts for carrier property, operating revenues, operating and maintenance expenses, and other carrier expenses, shall be just, reasonable and necessary to the honest and efficient operations and management of the carrier business. Payments should not exceed the fair market value of goods and services acquired in an arm's length transaction. Any payments in excess of such just and reasonable charges shall be included in account 660, Miscellaneous Income Charges.

BALANCE SHEET ACCOUNTS

The text of account 70 "Capital stock" is revised to read:

70 Capital stock.

(a) This account shall include the par value of par value stock, stated value of no-par stock, and the amount received for no-par stock without stated value, which have been issued to bona fide purchasers and have not been reacquired and canceled, also shares of stock nominally issued. When other than cash is received for no-par value stock, the fair market value of the consideration shall be entered in this account.

(b) This account shall be divided so as to show separately each class of stock issued, subdivided between (1) issued and actually outstanding, and (2) nominally issued and nominally outstanding.

(c) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is retired or cancelled, the par value shall be charged to this account. Any difference between par value and the reacquisition cost, including commission, other expenses incurred in the purchase, and any premium or discount applicable to the original sale, shall be included in account 73, Additional Paid-In Capital. However, the excess of a debit over the balance carried in account 73 with respect to the particular class of stock, shall be charged to account 720, Other Debits to Retained Income.

(d) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is not retired or cancelled, nor properly includible in sinking or other funds, the reacquisition cost shall be charged to account 76, Treasury Stock.

(e) When Treasury Stock is resold, account 76, Treasury Stock, will be credited with the cost paid for it. Any difference between the total amount realized from the sale of treasury stock (less commission and expenses incident thereto), and the amount credited to account 76, shall be debited or credited as appropriate to account 73, Additional Paid-In Capital. (See paragraph (c) above.)

After the text of account 75 "Unappropriated retained income" the following new account number, title and text are added:

76 Treasury stock.

(a) This account shall include in subdivisions for each class the reacquisition cost of capital stock which has been actually issued or assumed by the carrier then reacquired, and is neither retired or cancelled, nor properly includible in sinking or other funds.

(b) This account shall be maintained to reflect separately securities pledged or unpledged.

(c) This account shall be shown on the Balance Sheet as a deduction in arriving at Stockholders' Equity.

NOTE A: The accounting for the reacquisition of capital stock and resale thereof shall be in accordance with Balance sheet account 70, paragraphs (c) through (e).

Account 797 "Form of general balance sheet" is revised by adding the following:

797 Form of general balance sheet.

* * * * *

76 Treasury stock.
Total Stockholders' Equity

AMEND PART 1205—UNIFORM SYSTEM OF ACCOUNTS FOR REFRIGERATOR CARLINES

LIST OF INSTRUCTIONS AND ACCOUNTS

In table of contents under "Income and Balance Sheet Accounts Instructions" add the following immediately after line item 42 "Accounting for Income taxes".

43 Transactions with affiliated companies.
44 Charges to be just and reasonable.

Under "General Balance Sheet Accounts Text" add the following immediately after line item 798 "Retained income—Unappropriated".

798.5 Treasury stock.

INCOME AND BALANCE SHEET ACCOUNT INSTRUCTIONS

Instruction 39 "Discount, premium, and assessment in capital stock" is amended by designating the present paragraphs, paragraphs (a) through (g) and by revising the last three paragraphs. As amended the text reads:

39 Discount, premium, and assessment on capital stock.

* * * * *

(e) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is retired or cancelled, the par value shall be charged to account 791, "Capital stock issued". Any difference between par value and the reacquisition cost, including commission, other expenses incurred in the purchase, and any premium or discount applicable to the original sale, shall be included in account 795, "Paid-in surplus". However, the excess of a debit over the balance carried in account 795, "Paid-in surplus", with respect to the particular class of stock, shall be charged to account 616, "Other debits to retained income".

(f) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is not retired or cancelled, nor properly includible in sinking or other funds, the reacquisition cost shall be charged to account 798.5, "Treasury stock".

(g) When Treasury Stock is resold, account 798.5, "Treasury stock", will be credited with the cost paid for it. Any difference between the total amount realized from the sale of treasury stock (less commission and expenses incident thereto), and the amount credited to account 798.5, "Treasury stock", shall be debited or credited as appropriate to account 795, "Paid-in surplus". (See paragraph (e) above).

After instruction 42 "Accounting for Income taxes", add the new instruction 43 "Transactions with affiliated companies" and instruction 44 "Charges to be just and reasonable" to read as follows:

43 Transactions with affiliated companies.

(a) The records and supporting data of all transactions with affiliated companies shall be maintained in a separate file. The types of transactions referred to in this paragraph are for management services or any other type of services rendered, sale or use of facilities or any other type of assets or property. The file shall be maintained so as to enable the carrier, upon a Commission request, to furnish accurate information with supporting documentation about particular transactions within 15 days of the request. We do not intend the file to include data relating to ordinary carrier operations (e.g. lawful tariff charges or interchange of equipment).

(b) Each bill rendered by an affiliated company shall state specifically the basis used for determining charges.

(c) Punched cards, magnetic tapes, discs, or other machine-sensible device used for recording, consolidating, and summarizing accounting transactions and records with a carrier's electronic or automatic data processing system may constitute a file within the meaning of this instruction.

(d) The carrier shall record, as the cost of assets or services received from an affiliated supplier, their invoice price (plus any incidental costs related to those transactions) in those cases where the invoice price can be determined from a prevailing price list of the affiliated supplier available to the general public in the normal course of business. If no such price list exists, the charges shall be recorded at the lower of their cost to the originating affiliated supplier (less all applicable valuation reserves in case of asset sales), or their estimated fair market value determined on the basis of a representative study of similar competitive and arm's-length or bargained transactions.

Any differences between actual transaction price and the above, as well as charges that are not transportation related, shall be considered of a financing nature and shall be recorded, accordingly, as nonoperating charges or credits. (See Instruction 44.)

(e) Nothing contained herein shall be construed as restraining the carrier from subdividing accounts (see Instruction 4(b)) for the purpose of recording separately transactions with affiliated companies.

44 Charges to be just and reasonable.

All charges to the accounts prescribed in this system of accounts for carrier property, operating revenues, operating and maintenance expenses, and other carrier expenses, shall be just, reasonable and necessary to the honest and efficient operations and management of the carrier business. Payments should not exceed the fair market value of goods and services acquired in an arm's length transaction. Any payments in excess of such just and reasonable charges shall be included in account 551, "Miscellaneous income charges".

GENERAL BALANCE SHEET ACCOUNTS

The text of accounts 791 "Capital Stock Issued" is amended by revising the first paragraph and deleting note E. As amended the text reads:

791 Capital stock issued.

This account shall include the total par value of par value stock, and the total amount paid in for stock without par value, for all shares of capital stock or other form of proprietary interest in the accounting company which have been issued to bona fide purchasers and have not been reacquired and cancelled, also shares of stock nominally issued.

* * * * *

After the text of account 798 "Retained income—Unappropriated", the following new account number, title and text are added:

798.5 Treasury Stock.

(a) This account shall include in subdivisions for each class the reacquisition cost of capital stock which has been actually issued or assumed by the carrier then reacquired, and is neither retired or cancelled, nor properly includible in sinking or other funds.

(b) This account shall be maintained to reflect separately securities pledged and unpledged.

(c) This account shall be shown on the Balance Sheet as a deduction in arriving at Stockholders' Equity.

NOTE A: The accounting for the reacquisition of capital stock and resale thereof shall be in accordance with Instruction 39, paragraphs (5) through (7).

Account 799 "Form of general balance sheet statement", is revised by adding the following:

799 Form of general balance sheet statement.

Total retained income ---- --------
798.5 Treasury stock ----------( )
Total shareholders' equity --------

PART 1206—UNIFORM SYSTEM OF ACCOUNTS FOR COMMON AND CONTRACT MOTOR CARRIERS OF PASSENGERS

LIST OF DEFINITIONS, INSTRUCTIONS, AND ACCOUNTS

In Table of Contexts under "Instructions" add the following immediately after line item 2-32 "Accounting for the Income taxes":

2-33 Transactions with affiliated companies.
2-34 Charges to be just and reasonable.

Under "Balance Sheet Accounts" add the following immediately after line 2946 "Other debits to surplus":

2947 Treasury stock.

XUM
V 39 NO 251 DEC 30 1974 V
XUM

INSTRUCTIONS

The text of instruction 2–14 "Company securities owned" is amended by revising paragraph (a) to read:

2–14 Company securities owned.

(a) *Capital stock.* (1) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is retired or cancelled, the par value shall be charged to account 2700, Preferred Capital Stock, or account 2710, Common Capital Stock. Any difference between par value and the reacquisition cost, including commission, other expenses incurred in the purchase, and any premium or discount applicable to the original sale, shall be included in account 2900, Unearned Surplus. However, the excess of a debit over the balance carried in account 2900, with respect to the particular class of stock, shall be charged to account 2946, Other Debits to Surplus.

(2) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is not retired or cancelled, nor properly includible in sinking or other funds, the reacquisition cost shall be charged to account 2947, Treasury Stock.

(3) When Treasury Stock is resold, account 2947, Treasury Stock, will be credited with the cost paid for it. Any difference between the total amount realized from the sale of treasury stock (less commission and expenses incident thereto), and the amount credited to account 2947, shall be debited or credited as appropriate to account 2900, Unearned Surplus. (See paragraph (1) above).

• • • • •

After instruction 2–32 "Accounting for Income taxes", add the new instructions 2–33 "Transactions with affiliated companies" and 2–34 "Charges to be just and reasonable" to read as follows:

2–33 Transactions with affiliated companies.

(a) The records and supporting data of all transactions with affiliated companies shall be maintained in a separate file. The types of transactions referred to in this paragraph are for management services or any other type of services rendered, sale or use of facilities or any other type of assets or property. The file shall be maintained so as to enable the carrier, upon a Commission request, to furnish accurate information with supporting documentation about particular transactions within 15 days of the request. We do not intend the file to include data relating to ordinary carrier operations (e.g. lawful tariff charges or interchange of equipment).

(b) Each bill rendered by an affiliated company shall state specifically the basis used for determining charges.

(c) Punched cards, magnetic tapes, discs, or other machine-sensible device used for recording, consolidating, and summarizing accounting transactions and records with a carrier's electronic or automatic data processing system may constitute a file within the meaning of this instruction.

(d) The carrier shall record, as the cost of assets or services received from an affiliated supplier, their invoice price (plus any incidental costs related to those transactions) in those cases where the invoice price can be determined from a prevailing price list of the affiliated supplier available to the general public in the normal course of business. If no such price list exists, the charges shall be recorded at the lower of their cost to the originating affiliated supplier (less all applicable valuation reserves in case of asset sales), or their estimated fair market value determined on the basis of a representative study of similar competitive and arm's-length or bargained transactions.

Any differences between actual transaction price and the above, as well as charges that are not transportation related, shall be considered of a financing nature and shall be recorded, accordingly, as nonoperating charges or credits. (See Instruction 2–34.)

(e) Nothing contained herein shall be construed as restraining the carrier from subdividing accounts (see Instruction 2–2(d)) for the purpose of recording separately transactions with affiliated companies.

2–34 Charges to be just and reasonable.

All charges to the accounts prescribed in this system of accounts for carrier property, operating revenues, operating and maintenance expenses, and other carrier expenses, shall be just, reasonable and necessary to the honest and efficient operations and management of the carrier business. Payments should not exceed the fair market value of goods and services acquired in an arm's length transaction. Any payments in excess of such just and reasonable charges shall be included in account 7500, Other Deductions.

BALANCE SHEET ACCOUNTS

The text of account 1920 "Reacquired securities" is revised to read:

1920 Reacquired securities.

This account shall include in subdivisions for each class, the face, par, or stated value of bonds, and other forms of securities which have been actually issued or assumed by the carrier, and reacquired and are neither retired nor properly included in sinking or other funds.

• • • • •

After the text of account 2946 "Other debits to surplus," the following new account number, title, and text are added:

2947 Treasury stock.

(a) This account shall include in subdivisions for each class the reacquisition cost of capital stock which has been actually issued or assumed by the carrier then reacquired, and is neither retired or cancelled, nor properly includible in sinking or other funds.

(b) This account shall be maintained to reflect separately securities pledged and unpledged.

(c) This account shall be shown on the Balance Sheet as a deduction in arriving at Stockholders' Equity.

NOTE A: The accounting for the reacquisition of capital stock and resale thereof shall be in accordance with Instruction 2–14, paragraph (a).

Account 2999 "Form for balance sheet statement" is amended to read:

PART 1207—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS I AND CLASS II COMMON AND CONTRACT MOTOR CARRIERS OF PROPERTY

LIST OF INSTRUCTIONS

In table of contents under "Instructions" amend line item 34 "Transaction with affiliates" to read:

34 Transactions with affiliated companies.

CLASS I AND CLASS II MOTOR CARRIER INSTRUCTIONS

The text of instruction 4 "Charges to be just and reasonable" is amended to read as follows:

4 Charges to be just and reasonable.

All charges to the accounts prescribed in this system of accounts for carrier property, operating revenues, operating and maintenance expenses, and other carrier expenses, shall be just, reasonable and necessary to the honest and efficient operations and management of the carrier business. Payments should not exceed the fair market value of goods and services acquired in an arm's length transaction. Any payments in excess of such just and reasonable charges shall be included in Account Series 8400—Other Nonoperating Income (Net) (Class II), and Account 8420—Other Nonoperating Deductions (Class I).

The instruction 16 "Capital Stock" is amended by revising paragraphs (d) and (e). As amended the text reads as follows:

16 Capital Stock.

• • • • •

(d) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is retired or cancelled, the par value shall be charged to account 2610, Capital Stock (Class II), and account 2611—Capital Stock-Preferred; or 2612—Capital Stock-Common (Class I); if cancelled. Any difference between par value and the reacquisition cost, including commission, other expenses incurred in the purchase,

and any premium or discount applicable to the original sale, shall be included in account 2641—Other Capital in Excess of Par or Stated Value (Class I and II). However, the excess of a debit over the balance carried in account 2641 with respect to the particular class of stock, shall be charged to account 2961—Other Debits to Retained (Classes I and II).

(c) (1) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is not retired or cancelled, nor properly includible in sinking or other funds, the reacquisition cost shall be charged to account 2661—Treasury Stock (Classes I and II).

(2) When Treasury Stock is resold, account 2661—Treasury Stock (Classes I and II), will be credited with the cost paid for it. Any difference between the total amount realized from the sale of treasury stock (less commission and expenses incident thereto), and the amount credited to account 2661, shall be debited or credited as appropriate to account 2641—Other Capital in Excess of Par or Stated Value (Classes I and II). See paragraph (d) above.

The title and text of instruction 34 "Transactions with affiliates" are amended to read as follows:

34 Transactions with affiliated companies.

(a) The records and supporting data of all transactions with affiliated companies shall be maintained in a separate file. The types of transactions referred to in this paragraph are for management services or any type of services rendered, sale or use of facilities or any other type of assets or property. The file shall be maintained so as to enable the carrier, upon a Commission request, to furnish accurate information with supporting documentation about particular transactions within 15 days of the request. We do not intend the file to include data relating to ordinary carrier operations (e.g. lawful traiff charges or interchange of equipment).

(b) Each bill rendered by an affiliated company shall state specifically the basis used for determining charges.

(c) Punched cards, magnetic tapes, discs, or other machine-sensible device used for recording, consolidating, and summarizing accounting transactions and records with a carrier's electronic or automatic data processing system may constitute a file within the meaning of this instruction.

(d) The carrier shall record, as the cost of assets or services received from an affiliated supplier, their invoice price (plus any incidental costs related to those transactions) in those cases where the invoice price can be determined from a prevailing price list of the affiliated supplier available to the general public in the normal course of business. If no such price list exists, the charges shall be recorded at the lower of their cost to the originating affiliated supplier (less all applicable valuation reserves in case of asset sales), or their estimated fair market value determined on the basis of a representative study of similar competitive and arm's-length or bargained transactions.

Any differences between actual transaction price and the above, as well as charges that are not transportation related, shall be considered of a financing nature and shall be recorded, accordingly, as nonoperating charges or credits. (See Instruction 4).

(e) Nothing contained herein shall be construed as restraining the carrier from subdividing accounts (see Instruction 2(e)) for the purpose of recording separately transactions with affiliated companies.

CLASS I AND CLASS II MOTOR CARRIERS BALANCE SHEET ACCOUNTS EXPLANATIONS

Account 2612 "Capital Stock—Common (class I)" is amended by revising paragraph (a). As amended the text reads:

2612 Capital Stock—Common (class I).

(a) These accounts 2611 and 2612, shall include the par value of stock with par value; the stated value of nonpar stock having a stated value; and the case value of the consideration received, including assessments, or the amount approved by the Commission, for nonpar stocks without stated value, which have been issued to bona fide purchasers and have not been reacquired and canceled; also shares of stock nominally issued (see definition 29). The cash consideration received from the sale of par value stock and of nonpar stock having a stated value in excess of the amount credited to this account, shall be credited to account 2631—Premiums and Assessments on Capital Stock. (See Instruction 16).

• • • • •

Account 2631 "Premiums and Assessments on Capital Stock (class I and II)", is amended by revising paragraph (d). As amended the text reads:

2631 Premiums and Assessments on Capital Stock (classes I and II).

• • • • •

(d) When capital stock is retired and canceled, the amount in this account with respect to the shares of such stock retired and canceled shall be charged hereto.

• • • • •

Account 2661 "Treasury Stock (classes I and II)", is revised to read as follows:

2661 Treasury Stock (classes I and II).

(a) This account shall include in subdivisions for each class the reacquisition cost of capital stock which has been actually issued or assumed by the carrier then reacquired, and is neither retired or cancelled, nor properly includible in sinking or other funds.

(b) This account shall be maintained to reflect separately securities pledged and unpledged.

(c) This account shall be shown on the Balance Sheet as a deduction in arriving at Stockholders' Equity.

NOTE A: The accounting for the reacquisition of capital stock and resale thereof shall be in accordance with Instruction 16, paragraph (d) through (e)(2).

PART 1209—UNIFORM SYSTEM OF ACCOUNTS FOR INLAND AND COASTAL WATERWAYS CARRIERS

LIST OF INSTRUCTIONS AND ACCOUNTS

In Table of Contents under "General Instructions" the following new line items are added:

• • • • •

14 Transactions with affiliated companies.
15 Charges to be just and reasonable.

Under "Balance Sheet Accounts" the following new line item is added:

• • • • •

200-1 Treasury stock.

GENERAL INSTRUCTION

After the text of instruction 13 "Accounting for Income taxes," the following new account numbers, titles and texts are added:

14 Transactions with affiliated companies.

(a) The records and supporting data of all transactions with affiliated companies shall be maintained in a separate file. The types of transactions referred to in this paragraph are for management services or any other type of services rendered, sale or use of facilities or any other type of assets or property. The file shall be maintained so as to enable the carrier, upon a Commission request, to furnish accurate information with supporting documentation about particular transactions within 15 days of the request. We do not intend the file to include data relating to ordinary carrier operations (e.g. lawful tariff charges or interchange of equipment).

(b) Each bill rendered by an affiliated company shall state specifically the basis used for determining charges.

(c) Punched cards, magnetic tapes, discs, or other machine-sensible device used for recording, consolidating, and summarizing accounting transactions and records with a carrier's electronic or automatic data processing system may constitute a file within the meaning of this instruction.

(d) The carrier shall record, as the cost of assets or services received from an affiliated supplier, their invoice price (plus any incidental cost related to those transactions) in those cases where the invoice price can be determined from a prevailing price list of the affiliated supplier available to the general public in the normal course of business. If no such price list exists, the charges shall be recorded at the lower of their cost to the originating affiliated supplier (less all applicable valuation reserves in case of asset sales), or their estimated fair market value determined on the basis of a representative study of similar competitive and arm's-length or bargained transactions.

Any differences between actual transaction price and the above, as well as

XUM V 39 N 251 DEC 30 1974 0 74 4 XUM V

charges that are not transportation related, shall be considered of a financing nature and shall be recorded, accordingly, as nonoperating charges or credits. (See Instruction 15).

(e) Nothing contained herein shall be construed as restraining the carrier from subdividing accounts (see Instruction 1(e) 1) for the purpose of recording separately transactions with affiliated companies.

15 Charges to be just and reasonable.

All charges to the accounts prescribed in this system of accounts for carrier property, operating revenues, operating and maintenance expenses, and other carrier expenses, shall be just, reasonable and necessary to the honest and efficient operations and management of the carrier business. Payments should not exceed the fair market value of goods and services acquired in an arm's-length transaction. Any payments in excess of such just and reasonable charges shall be included in account 527, "Miscellaneous income charges."

BALANCE SHEET INSTRUCTIONS

Balance sheet instruction 24 "Company securities owned," is revised to read as follows:

24 Company securities owned.

Securities actually issued or assumed by the carrier which have been reacquired shall be either retired or if not retired, carried in accounts 280–1, "Treasury stock" or 190, "Reacquired and nominally issued long-term debt," unless it is required by provisions of a mortgage or by decision of a trustee, not subject to control by the carrier, that funded debt securities be retained alive in sinking or other special funds. Reacquired securities not retired shall be shown at the amount paid for such stock.

Balance sheet instruction 26 "Discount, expense, and premium on capital stock" is amended by revising paragraphs (d) and (e) and adding (f). As amended the text reads:

26 Discount, expense, and premium on capital stock.

• • • • •

(d) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is retired or cancelled, the par value shall be charged to account 240, "Capital Stock". Any difference between par value and the reacquisition cost, including commission, other expenses incurred in the purchase, and any premium or discount applicable to the original sale, shall be included in account 250–2, "Paid-in surplus". However, the excess of a debit over the balance carried in account 250–2, "Paid-in surplus", with respect to the particular class of stock, shall be charged to account 285, "Miscellaneous debits".

(e) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is not retired or cancelled, nor properly includible in sinking or other funds, the reacquisition cost shall be charged to account 280–1, "Treasury stock".

(f) When Treasury stock is resold, account 280–1, "Treasury stock", will be credited with the cost paid for it. Any difference between the total amount realized from the sale of treasury stock (less commission and expenses incident thereto), and the amount credited to account 280–1, "Treasury stock", shall be debited or credited as appropriate to account 250–2, "Paid-in surplus". (See paragraph (d) above).

BALANCE SHEET ACCOUNTS

The title, text, and note of account 191 "Reacquired and nominally issued capital stock", is revised to read as follows:

191 Nominally issued capital stock.

This account shall include the par value of capital stock of the carrier nominally issued. If no par stock, it shall be charged at the pro rata proportion at which it is credited to account 240, "Capital stock". Stock having no par value classifiable as nominally issued shall be recorded by the number of shares.

NOTE: The accounting for the reacquisition and resale of capital stock actually issued or assumed by the company shall be in accordance with instruction 26 (d) through (f).

Account 240, "Capital stock" will be amended by revising paragraph (e). As amended the text reads:

240 Capital stock.

• • • • •

(e) In case capital stock is reacquired and held in the treasury such stock shall be included in the appropriate accounts in accordance with paragraphs (d) through (f) of instruction 26.

Account 243 "Discount and expense on capital stock", is amended by revising paragraph (b). As amended the text reads:

243 Discount and expense on capital stock.

• • • • •

(b) When capital stock is retired and canceled, the amount in this account with respect to the shares of such stock retired and canceled shall be credited hereto.

Account 250–1 "Premiums and assessments on capital stock", is amended by revising paragraph (b). As amended the text reads:

250–1 Premiums and assessments on capital stock.

• • • • •

(b) When capital stock is retired and canceled, the amount in this account with respect to the shares of such stock retired and canceled shall be charged hereto.

After the text of account 280 "Retained income—Unappropriated", the following new account number, title, and text are added:

280–1 Treasury stock.

(a) This account shall include in subdivisions for each class the reacquisition cost of capital stock which has been actually issued or assumed by the carrier then reacquired, and is neither retired or cancelled, nor properly includible in sinking or other funds.

(b) This account shall be maintained to reflect separately securities pledged and unpledged.

(c) This account shall be shown on the Balance Sheet as a deduction in arriving at Stockholders' Equity.

NOTE A: The accounting for the reacquisition of capital stock and resale thereof shall be in accordance with instruction 26, paragraph (d) through (f).

Account 299 "Form of balance sheet statement", is revised as follows:

299 Form of balance sheet statement.

• • • • •

191 Nominally issued capital stock.

• • • • •

280 • • •

Total retained income.....

280–1 Treasury stock.....( )

Total capital and surplus.....

• • • • •

PART 1210—UNIFORM SYSTEM OF ACCOUNTS FOR FREIGHT FORWARDERS

LIST OF INSTRUCTIONS AND ACCOUNTS

In table of contents under "General Instructions" the following new line items are added:

• • • • •

9 Transactions with affiliated companies.
10 Charges to be just and reasonable.

Under "General Balance Sheet Accounts", the line item 280 "Reacquired capital stock" is revised to read:

280 Treasury stock.

GENERAL INSTRUCTIONS

After the text of instruction 8 "Accounting for Income taxes", the following new account numbers, titles and texts are added:

9 Transactions with affiliated companies.

(a) The records and supporting data of all transactions with affiliated companies shall be maintained in a separate file. The types of transactions referred to in this paragraph are for management services or any other type of services rendered, sale or use of facilities or any other type of assets or property. The file shall be maintained so as to enable the carrier, upon a Commission request, to furnish accurate information with supporting documentation about particular transactions within 15 days of the request. We do not intend the file to include data relating to ordinary carrier operations (e.g., lawful tariff charges or interchange of equipment).

(b) Each bill rendered by an affiliated company shall state specifically the basis used for determining charges.

(c) Punched cards, magnetic tapes, discs, or other machine-sensible device used for recording, consolidating, and summarizing accounting transactions and records with a carrier's electronic or automatic data processing system may

constitute a file within the meaning of this instruction.

(d) The carrier shall record as the cost of assets or services received from an affiliated supplier, their invoice price (plus any incidental costs related to those transactions) in those cases where the invoice price can be determined from a prevailing price list of the affiliated supplier available to the general public in the normal course of business. If no such price list exists, the charges shall be recorded at the lower of their cost to the originating affiliated supplier (less all applicable valuation reserves in case of asset sales), or their estimated fair market value determined on the basis of a representative study of similar competitive and arm's-length or bargained transactions.

Any differences between actual transaction price and the above, as well as charges that are not transportation related, shall be considered of a financing nature and shall be recorded, accordingly, as nonoperating charges or credits. (See Instruction 10).

(e) Nothing contained herein shall be construed as restraining the carrier from subdividing accounts (see Instruction 1 (e) 1). for the purposes of recording separately transactions with affiliated companies.

10 Charges to be just and reasonable.

All charges to the accounts prescribed in this system of accounts for carrier property, operating revenues, operating and maintenance expenses, and other carrier expenses, shall be just, reasonable and necessary to the honest and efficient operations and management of the carrier business. Payments should not exceed the fair market value of goods and services acquired in an arm's-length transaction. Any payments in excess of such just and reasonable charges shall be included in account 414, "Miscellaneous income charges".

GENERAL BALANCE SHEET INSTRUCTIONS

The text of instruction 23 "Company securities owned", is revised to read as follows:

23 Company securities owned.

Securities actually issued or assumed by the company which have been reacquired and not retired, shall be carried in account 280, "Treasury stock" or 190, "Reacquired and nominally issued long-term debt", unless it is required by provisions of a mortgage or by decision of a trustee not subject to control by the company, that such securities be retained alive in sinking or other special funds. Reacquired long-term debt not retired shall be shown at par or face value, and reacquired capital stock not retired shall be shown at the amount paid for such stock.

Instruction 24 "Discount, premium, and expense on capital stock" is amended by revising paragraphs (d), (e) and adding (f). As amended the text reads:

24 Discount, premium, and expense on capital stock.

* * * * * * *

(d) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is retired or cancelled, the par value shall be charged to account 240, "Capital stock". Any difference between par value and the reacquisition cost, including commission, other expenses incurred in the purchase, and any premium or discount applicable to the original sale, shall be included in account 250–1, "Paid-in surplus". However, the excess of a debit over the balance carried in account 250–1, "Paid-in surplus", with respect to the particular class of stock, shall be charged to account 310, "Miscellaneous debits".

(e) When an issue of capital stock or any part thereof is reacquired, either by purchase or donation, and is not retired or cancelled, nor properly includible in sinking or other funds, the reacquisition cost shall be charged to account 280, "Treasury stock".

(f) When Treasury Stock is resold, account 280, "Treasury stock", will be credited with the cost paid for it. Any difference between the total amount realized from the sale of treasury stock (less commission and expenses incident thereto), and the amount credited to account 280, "Treasury stock", shall be debited or credited as appropriate to account 250–1, "Paid-in surplus". (See paragraph (d) (above).

Instruction 28, "Form of general balance sheet statement", is amended as follows:

28 Form of general balance sheet statement.

* * * * * * *

270 * * *
Surplus prior to January 1, 1943:
---- balance
280 Treasury stock
Pledged
Unpledged

* * * * * * *

The text of account 191 "Nominally issued capital stock", is amended to read:

191 Nominally issued capital stock.

This account shall include the par value, or with respect to no par stock, the amounts recorded in account 240, "Capital stock", relating thereto, of nominally issued capital stock.

NOTE: The amount paid for capital stock actually issued or assumed by the company and reacquired by it and held uncanceled shall be included in account 280, "Treasury stock".

Account 280, "Reacquired capital stock", is amended by revising the title and text to read:

280 Treasury stock.

(a) This account shall include in subdivisions for each class the reacquisition cost of capital stock which has been actually issued or assumed by the carrier then reacquired, and is neither retired or cancelled, nor properly includible in sinking or other funds.

(b) This account shall be maintained to reflect separately securities pledged and unpledged.

(c) This account shall be shown on the Balance Sheet as a deduction in arriving at Stockholders' Equity.

NOTE A: The accounting for the reacquisition of capital stock and resale thereof shall be in accordance with Instruction 24, paragraphs (d) through (f).

Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Office of the Secretary

[Legal Division Order No. 1]

LEGAL DIVISION

Organization and Functions

DECEMBER 19, 1974.

Under the authority granted to me as General Counsel of the Department of the Treasury by 31 U.S.C. 1009 and 26 U.S.C. 7801, by Department Circulars 519 of June 30, 1934, and 595 of September 13, 1938, and by Treasury Department Orders No. 120, No. 173–2, No. 175, No. 175–2, No. 190 (Revised), and No. 221, I hereby define and prescribe the organization and functions of the Legal Division of the Treasury Department.

1. The Legal Division consists of a consolidated legal staff headed by the General Counsel, who is by statute the chief law officer of the Department of the Treasury, and is composed of all attorneys providing legal service in all offices and bureaus of the Treasury Department. The legal staff provides legal advice to the Secretary of the Treasury and to the officers, offices and bureaus of the Department in accordance with the designations made by this Order. The General Counsel operates principally through a Deputy General Counsel, the Assistant General Counsels, the Chief Counsels, and the Legal Counsels listed herein, to whom delegations of specific authority are made by Legal Division Orders.

2. The General Counsel provides legal advice to the Secretary of the Treasury, the Deputy Secretary, the Under Secretaries, and the Assistant Secretaries on any legal matter which may arise within the Department. He supervises the Legal Division and establishes the policies, procedures, and standards governing its functioning.

3. The Deputy General Counsel is an Assistant General Counsel designated to serve as deputy and act as General Counsel in the absence of the General Counsel. The Deputy General Counsel reviews work prepared for the General Counsel and supervises the day-to-day operation of the Legal Division. He receives on behalf of the General Counsel reports from the Assistant General Counsels and Chief Counsels, excepting the Assistant General Counsel who is the Chief Counsel of the Internal Revenue Service, the Assistant General Counsel—Tax Legislative Counsel, and the Chief Counsel of the Office of the Comptroller of the Currency, who report directly to the General Counsel.

4. The Assistant General Counsel—Chief Counsel, Internal Revenue Service, is the legal adviser to the Commissioner of the Internal Revenue Service and supervises and directs the legal staff advising the Internal Revenue Service. He reports directly to the General Counsel.

5. The Assistant General Counsel—Tax Legislative Counsel is the legal adviser to the Assistant Secretary (Tax Policy) and provides advice concerning tax legislation, tax policy, and tax treaties. He reports directly to the General Counsel.

6. The Assistant General Counsel (International Affairs) provides legal advice to the Under Secretary (Monetary Affairs), the Assistant Secretary (International Affairs), the Assistant Secretary (Trade, Energy, and Financial Resources Policy Coordination), the Assistant Secretary (Economic Policy), and the Special Assistant to the Secretary (National Security). He reports to the General Counsel through the Deputy General Counsel.

7. The Assistant General Counsel (Administration, Legislation, and Fiscal Operations) provides legal advice to the Assistant Secretary (Administration), the Fiscal Assistant Secretary, the Assistant Secretary (Legislative Affairs), and to the Office of the Secretary generally with respect to administrative procedure and Department administration. He also serves as legal adviser to the Treasurer of the United States, the Special Assistants to the Secretary (Debt Management) and (Public Affairs), and to the U.S. Savings Bonds Division. He is in charge of the nontax legislative activities of the Department. He supervises the Chief Counsel, Bureau of the Public Debt, the Chief Counsel, Office of Revenue Sharing, and the legal functions of the Director, Office of the Director of Practice. He reports to the General Counsel through the Deputy General Counsel.

8. The Assistant General Counsel (Enforcement, Operations, and Tariff Affairs) provides legal advice to the Assistant Secretary (Enforcement, Operations, and Tariff Affairs). He acts for the General Counsel in the supervision of all nontax litigation matters and tax litigation matters which arise out of the activities of the Bureau of Alcohol, Tobacco and Firearms requiring General Counsel action. He supervises the Chief Counsel, U.S. Customs Service, the Chief Counsel of the Bureau of Alcohol, Tobacco and Firearms, the Chief Counsel of the Office of Foreign Assets Control, the Legal Counsel, Bureau of the Mint, and the Legal Counsel, U.S. Secret Service. He reports to the General Counsel through the Deputy General Counsel.

9. The Senior Counselor to the General Counsel assists the General Counsel and the Deputy General Counsel by undertaking special assignments pertaining to any area of responsibility in the Office of the General Counsel. He supervises the Chief, Legal Opinion Section, and reports directly to the General Counsel.

10. The Chief, Legal Opinion Section, prepares formal General Counsel Opinions and, as requested by the General Counsel, Deputy General Counsel or Senior Counselor, provides research on questions concerning any aspect of the Department's activities, and serves as a coordinating repository for significant decisions made in the General Counsel's office. He reports to the Senior Counselor.

11. The Chief Counsel, Bureau of Alcohol, Tobacco and Firearms, is the chief law officer for that Bureau and reports to the General Counsel through the Assistant General Counsel (Enforcement, Operations, and Tariff Affairs) and the Deputy General Counsel.

12. The Chief Counsel, Office of the Comptroller of the Currency, is the chief law officer for that office and reports directly to the General Counsel.

13. The Chief Counsel, United States Customs Service, is the chief law officer for that Service and reports to the General Counsel through the Assistant General Counsel (Enforcement, Operations, and Tariff Affairs) and the Deputy General Counsel.

14. The Chief Counsel, Foreign Assets Control, is the chief law officer for that office and reports to the General Counsel through the Assistant General Counsel (Enforcement, Operations, and Tariff Affairs) and the Deputy General Counsel.

15. The Chief Counsel, Bureau of the Public Debt, is the chief law officer for that Bureau, and reports to the General Counsel through the Assistant General Counsel (Administration, Legislation, and Fiscal Operations) and the Deputy General Counsel.

16. The Chief Counsel, Office of Revenue Sharing, is the chief law officer for that Office, and reports to the General Counsel through the Assistant General Counsel (Administration, Legislation, and Fiscal Operations) and the Deputy General Counsel.

17. The Legal Counsel, Bureau of the Mint, provides legal advice to that Bureau and reports to the General Counsel

through the Assistant General Counsel (Enforcement, Operations, and Tariff Affairs) and the Deputy General Counsel.

18. The Legal Counsel, United States Secret Service, provides legal advice to that Service and reports to the General Counsel through the Assistant General Counsel (Enforcement, Operations, and Tariff Affairs) and the Deputy General Counsel.

19. The Director of Practice (1) directs the legal functions performed in his office and reports with respect to those functions to the General Counsel through the Assistant General Counsel (Administration, Legislation, and Fiscal Operations) and the Deputy General Counsel; and (2) makes operating decisions in carrying out the responsibilities placed on him under 31 U.S.C. 1026 and by 31 CFR Part 10 under the administrative supervision of the General Counsel exercised by the General Counsel or the Deputy General Counsel.

A change in title of any official in the Office of the Secretary shall not affect the foregoing assignments unless the change includes a change of function. The General Counsel may, without formal Order, reassign on a temporary basis a function of an Assistant General Counsel or the Senior Counselor.

Effective: January 1, 1975.

[SEAL] RICHARD R. ALBRECHT,
General Counsel.

[Supplement to Dept. Circular; Public Debt Series—No. 16-74]

SERIES K-1976 TREASURY NOTES

Rates of Percent Per Annum

The Secretary of the Treasury announced on December 23, 1974, that the interest rate on the notes described in Department Circular—Public Debt Series—No. 16-74, dated December 16, 1974, will be 7¼ percent per annum. Accordingly, the notes are hereby redesignated 7¼ percent Treasury Notes of Series K-1976. Interest on the notes will be payable at the rate of 7¼ percent per annum.

JOHN K. CARLOCK,
Fiscal Assistant Secretary.

DEPARTMENT OF DEFENSE

Office of the Secretary

DEFENSE SCIENCE BOARD TASK FORCE ON SPACE SHUTTLE UTILIZATION

Notice of Advisory Committee Meeting

The Defense Science Board Task Force on Department of Defense Space Shuttle Utilization will meet in closed session on 15 and 16 January 1975, at the Pentagon, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will examine how the Space Shuttle with its new capabilities can lead to more effective military space operations in the future.

In accordance with Public Law 92-463, section 10, Paragraph (d), it has been determined that Defense Science Board meetings concern matters listed in Section 552(b) of Title 5 of the United States code, particularly Subparagraph (1) thereof, and that the public interest requires such meetings to be closed insofar as the requirements of subsections (a)(1) and (a)(3) of section 10, Public Law 92-463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

DECEMBER 24, 1974.

DEPARTMENT OF JUSTICE

FEDERAL ADVISORY COMMITTEE ON FALSE IDENTIFICATION

Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. Appendix I) that the third meeting of the Federal Advisory Committee on False Identification will be held at 10 a.m., Thursday, January 16, 1975, at the Department of Justice Briefing and Conference Center, Department of Justice, 10th and Constitution Avenues NW., Washington, D.C.

The Committee was established by the Attorney General to study the criminal use of false identification at Federal, state and local levels and to recommend measures to prevent the criminal use of false identification and the obtaining of fraudulent identification documents.

At the third meeting Committee Task Forces will continue to examine the false identification problem in the following areas: Government payments; commercial transactions; fugitives; Federal identification documents; and state and local identification documents. The meeting, open to the public, will adjourn at approximately 3:30 p.m.

Further information concerning this meeting may be obtained from David J. Muchow, General Crimes Section, Criminal Division, Department of Justice, Room 402 Federal Triangle Building, 315 9th Street NW., Washington, D.C., 20530, telephone, area code 202-739-2745. Minutes of the meeting will be available for public inspection two weeks after the meeting in Room 402, Federal Triangle Building.

HENRY E. PETERSEN,
Assistant Attorney General.

PUBLIC INSPECTION OF RECORDS

OCS Order No. 12, Pacific Area

Correction

In FR Doc. 74-27833 appearing at 39 FR 41560 in the issue of Friday, November 29, 1974, in the first column on page 41561 the third paragraph is corrected to read "This Order will be effective December 1, 1974.".

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

ADVISORY COMMITTEE ON THE EDUCATION OF BILINGUAL CHILDREN

Notice of Public Meeting

Notice is hereby given pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), that a meeting of the Advisory Committee on the Education of Bilingual Children will be held from 8:30 A.M. to 5:00 P.M. on Wednesday, January 22, and on Thursday, January 23, 1975 from 8:30 A.M. to 5 P.M. The Committee will meet in a conference room at Vacation Village, Mission Bay, San Diego, California.

The meeting shall be opened to the public. The proposed agenda for the Committee meeting is:

1. Committee report on position paper and draft.
2. Committee input on rules and regulations.
3. New Business.

Records shall be kept of all proceedings, and shall be available for public inspection at Room 3600, Regional Office Building #3, 7th and D Streets SW., Washington, D.C. 20202

Signed at Washington, D.C., on December 18, 1974.

JOHN C. MOLINA,
Director, Division of Bilingual Education.

DEPARTMENT OF TRANSPORTATION

Coast Guard

(OGD 74 301)

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Termination of Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and recreational vessels, and on the artificial islands and fixed structures on the outer Continental Shelf be

XUM
V 39 N 251 DEC 30 1974
XUM

of type approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been terminated as herein described. These actions were taken in accordance with the procedures set forth in 46 CFR 2.75–1 to 2.75–50.

2. The statutory authority for equipment, construction and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant; U.S. Coast Guard with respect to these approvals (49 CFR 1.46(b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160. to 164.

3. FEDERAL REGISTER, Vol. 39 No. 50 dated March 13, 1974 contained changes to Title 45 CFR Subpart 160.051 concerning inflation standards for inflatable liferafts. The preamble to that document established effective dates of the changes as they apply to new construction and in-service rafts.

New approvals were required to meet the new standards on and after April 12, 1974; manufacturing under existing approvals was permitted to continue until January 1, 1975; and existing in-service rafts were to be permitted to be carried until January 1, 1980 except for rafts on Great Lakes Vessels which were to be permitted to be carried until January 1, 1975. That document further indicated that tests would be conducted to determine if existing in-service rafts complied with new standards and if not, raft retrofitting would be permitted and the rafts could remain in-service so long as they remain in good and serviceable condition.

The purpose of this document is to terminate approvals of all inflatable rafts now manufactured which do not comply with the new inflation standards and to state the conditions under which inflatable liferafts manufactured under these approvals may continue in-service.

The testing referenced in the document noted above has been completed and none of the existing rafts were found to comply with the new higher standard. It was determined that fitting a new larger inflation system would bring the existing rafts into compliance.

Since the publication of the new standard on March 3, 1974 supply problems, particularly a shortage of steel used in the manufacturing of gas supply cylinders, has caused the Coast Guard to reconsider the January 1, 1975, effective date for completion of the phaseover period of rafts installed on vessels operating in very cold regions for extended periods of time.

In-service rafts which are retro-fitted to meet the new requirements will show compliance with the new regulations by inclusion of the words "MOD TEMP", the inspector's initials and the date of retrofitting on the identification plate. A Navigation and Vessel Inspection Circular will be published for clarification and setting up of procedures to be followed by manufacturers, servicing facilities and Coast Guard Marine Inspectors for marking of identification plates.

4. In consideration of the above and notwithstanding the termination of approvals listed in this document, inflatable rafts affected may be used on vessels operating on the Great Lakes until January 1, 1976 and on all other vessels until January 1, 1980. Inflatable rafts affected by this document which are retro-fitted in accordance with procedures established by the manufacturer and approved by the Commandant and the Coast Guard and marked to show that they have been upgraded are not subject to the dates listed above and may be used as long as they remain in good and serviceable condition.

INFLATABLE LIFE RAFTS

The C. J. Hendry Company, 139 Townsend Street, San Francisco, California 94107, Approval Nos. 160.051/1/1, 160.051/2/3, 160.051/3/3, 160.051/4/3, 160.051/5/3, 160.051/6/3, 160.051/10/3 and 160.051/11/3 are terminated effective January 1, 1975, due to change in specifications.

The Switlik Parachute Company, Inc., 1325 East State Street, Trenton, New Jersey 08607, Approval Nos. 160.051/13/3, 160.051/14/3, 160.051/15/4, 160.051/16/4, 160.051/18/4, 160.051/19/4 and 160.051/20/4 are terminated effective January 1, 1975, due to change in specifications.

The Uniroyal, Inc., Plastic Products Division, Providence, Rhode Island 02901, Approval No. 160.051/28/3 is terminated effective January 1, 1975, due to change in specifications.

The R.F.D., Inc., Richwood, West Virginia 26685, Approval Nos. 160.051/22/0, 160.051/24/0, 160.051/25/0, 160.051/26/0, 160.051/27/0 and 160.051/33/0 are terminated effective January 1, 1975, due to change in specifications.

Dated: December 23, 1974.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50-440 and 50-441]

CLEVELAND ELECTRIC ILLUMINATING CO.

Availability of Partial Initial Decision and Supplemental Partial Initial Decision on Environmental Matters and Site Suitability

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulation in § 50.10(e)(2) and Appendix D, Section A.9 and A.11 of 10 CFR Part 50, notice is hereby given that a Partial Initial Decision on Environmental and Site Suitability dated September 18, 1974, and a Supplemental Partial Initial Decision on Site Suitability and Environmental Matters dated October 20, 1974, by the Atomic Safety and Licensing Board, in the above captioned proceedings involving an application by the Cleveland Electric Illuminating Company for construction permits for the Perry Nuclear Power Plant, Units 1 and 2, to be located in Lake County, Ohio, are available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW, Washington, D.C., and in the Perry Public Library, 3753 Main Street, Perry Township, Ohio 44081.

The Partial Initial Decision and Supplemental Partial Initial Decision are also being made available at the Office of the Governor, State Clearinghouse, 62 East Broad Street—2nd Floor, Columbus, Ohio 43215.

Based on the record developed in the public hearings in the above captioned matter, the Partial Initial Decision and Supplemental Partial Initial Decision on Environmental Matters and Site Suitability of the Atomic Safety and Licensing Board supplement and modify the Final Environmental Statement prepared by the Commission's Directorate of Licensing relating to the construction of the Perry Nuclear Power Plant, Units 1 and 2. A copy of this Final Environmental Statement is also available for public inspection at the above designated locations.

Pursuant to the provisions of 10 CFR Part 50, Appendix D, section A.11, the Final Environmental Statement is deemed modified to include pertinent portions of the hearing record. As required by Section A.11 of Appendix D, copies of the Partial Initial Decision and the Supplemental Partial Initial Decision by the Atomic Safety and Licensing Board and the Final Environmental Statement have been transmitted to the Council on Environmental Quality and made available to the public as noted herein.

The Partial Initial Decision and the Supplemental Partial Initial Decision are subject to review by an Atomic Safety and Licensing Appeal Board prior to becoming final. Any decision or action taken by an Atomic Safety and Licensing Appeal Board in connection with the Partial Initial Decision and Supplemental Partial Initial Decision may be reviewed by the Commission.

Single copies of the Partial Initial Decision on Environmental and Site Suitability and the Supplemental Partial Initial Decision on Site Suitability and Environmental Matters, both by the Atomic Safety and Licensing Board, and the Final Environmental Statement may be obtained by writing the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Rockville, Maryland this 23rd of December, 1974.

For the Atomic Energy Commission.

WM. H. REGAN, JR.,
Chief, Environmental Projects Branch 4, Directorate of Licensing.

[FR Doc.74-30322 Filed 12-27-74;8:45 am]

REGULATORY GUIDE

Issuance and Availability

The Atomic Energy Commission has issued a new guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public methods acceptable to the AEC Regulatory staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Regulatory Guide 3.24, "Guidance on the License Application, Siting, Design, and Plant Protection for an Independent Spent Fuel Storage Installation," (1) identifies the parts of Title 10 of the Code of Federal Regulations applicable to an independent spent fuel storage installation (ISFSI); (2) describes the content of a license application; (3) presents siting considerations; (4) endorses a draft ANSI standard N305, "Design Objectives for Highly Radioactive Solid Material Handling and Storage Facilities in a Reprocessing Plant," and provides additional design recommendations for an ISFSI; and (5) describes plant protection guidelines.

Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in all published guides are encouraged at any time. Public comments on Regulatory Guide 3.24 will, however, be particularly useful in evaluating the need for an early revision if received by March 3, 1975.

Comments should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Docketing and Service Section.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 3 Regulatory Guides currently being developed include the following:

Control of Stainless Steel Welding for Safety-Related Components of Fuel Reprocessing Plants.

Corrosion Testing and Evaluation of Metals for Application in Fuel Reprocessing Plants.

Standard Format and Content of Safety Analysis Reports for Enrichment Facilities.

Nondestructive Examination of Tubular Products for Use in Fuel Reprocessing and Fuel Fabrication Plants.

Control of the Use of Sensitized Stainless Steel for Components of Fuel Reprocessing Plants.

Control of Preheat Temperature for the Welding of Low-Alloy Steel for Use in Fuel Cycle Facilities.

Welder Qualifications for Welding in Areas of Limited Accessibility of Fuel Reprocessing and of Plutonium Processing and Fuel Fabrication Plants.

Nondestructive Examination of Liner Welds in Structures and Components of Fuel Reprocessing Plants.

General Design Guide for Process Building Ventilation Systems for Fuel Reprocessing Plants.

General Fire Protection Guide for Fuel Reprocessing Plants.

Standard Format and Content of License Applications for Fuel Reprocessing Plants.

Standard Format and Content of License Applications for Plutonium Fuel Fabrication and Recovery Plants.

Standard Format and Content of License Applications for Commercial Waste Burial Facilities.

Standard Format and Content of License Applications for UO_2 Fuel Fabrication Plants.

Quality Assurance for the Design, Construction, and Operation of Fuel Reprocessing Facilities.

Guide for Design, Construction, and Operation of Ventilation Systems for Plutonium Fuel Manufacturing Plants.

Criteria for Siting, Design, and Operation of Plants for the Manufacture of Mixed Oxide (U-Pu) Fuels.

Protective Coatings (Paints) for the Nuclear Industry.

Guide to the Preparation of Emergency Plans for Uranium and Plutonium Processing and Fuel Fabrication Plants.

Design Criteria for Spent Fuel Storage Facilities at HTGR Sites.

Guide for Design of Irradiated Fuel Receiving and Storage Facilities.

Assumptions Used for Evaluating the Consequences of a Criticality Accident in an LWR Fuel Fabrication Plant.

Selection, Training, and Qualification of Personnel for Fuel Reprocessing Plants.

Temporary Storage of High-Level Liquid Waste at Fuel Reprocessing Plants.

Assumptions Acceptable for Evaluating the Consequences of Accidental Nuclear Criticality in a Fuel Reprocessing Plant.

Assumptions Acceptable for Evaluating the Consequences of Accidental Nuclear Criticality in a Plutonium Processing or Fuel Fabrication Plant.

Confinement Structures and Systems for Plutonium Processing and Fuel Fabrication Facilities.

Emergency Water Systems for Fuel Reprocessing Plants and Plutonium Processing and Fuel Fabrication Plants.

Protection Systems for Fuel Reprocessing Plants and for Plutonium Processing and Fuel Fabrication Plants.

Design Basis Floods for Fuel Reprocessing Plants.

Criteria for Gaseous Radioactive Effluent Systems at Fuel Reprocessing Plants.

Design Criteria for Decommissioning of Nuclear Fuel Reprocessing Plants.

Definition of Radioactive Waste Categories.

Codes Applicable to Quality Control and Fabrication of Metallic Structures, Systems, and Components for Fuel Reprocessing Plants.

[DOCKET NO. 50-206]

SOUTHERN CALIFORNIA EDISON CO.

Issuance of Amendment To Provisional Operating License

Notice is hereby given that the U.S. Atomic Energy Commission (the Commission) has issued Amendment No. 7 to Provisional Operating License No. DPR-13 issued to Southern California Edison Company which revised Technical Specifications for operations of the San Onofre Nuclear Generating Station, Unit 1, located in San Diego, California. The amendment is effective as of its date of issuance.

This amendment incorporates limiting conditions for operation and surveillance requirements for the new axial offset monitoring system which replace the previously existing hold band requirement for control group movement.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated July 12, 1974, (2) Amendment No. 7 to License No. DPR-13, with any attachments, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the San Clemente Public Library, 233 Granada Street, San Clemente, California.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S., Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 20th day of December 1974.

For the Atomic Energy Commission.

[Docket No. 50-255]

CONSUMERS POWER CO.

Corrected Notice of Receipt of Application of Facility Operating License and Availability of Licensee's Environmental Report

This is a correction to the Notice of Receipt of Application of Facility Operating Licensee and Availability of Licensee's Environmental Report: Notice of Consideration of Conversion of Provisional Operating License to Full-Term Operating License: Notice of Opportunity for Hearing, originally published in the FEDERAL REGISTER on December 18, 1974. The notice, as originally published,

XUM

inadvertently omitted a portion of the description of the required content of petitions for leave to intervene. Accordingly, the date by which timely petitions for leave to intervene must be filed is extended beyond the original date of January 17, 1975, to January 29, 1975, as indicated in this corrected notice.

Notice is hereby given that the Atomic Energy Commission (the Commission) has received an application for a full-term facility operating license from the Consumers Power Company (the licensee) to possess, use, and operate the Palisades Plant (the facility), located in Covert Township on the licensee's site in Van Buren County, Michigan, at an increased power level of up to 2638 megawatts thermal. The currently authorized full-power level is up to 2200 megawatts thermal.

The licensee has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, a special environmental report which discusses environmental considerations related to the proposed operation of the facility.

The Commission will consider the licensee's special environmental report in accordance with the provisions of 10 CFR Part 51.

The Commission will consider the issuance of a full-term facility operating license to the Consumers Power Company which would authorize the licensee to possess, use, and operate the Palisades Plant in accordance with the provisions of the license and the technical specifications appended thereto upon: (1) the completion of a favorable safety evaluation on the application by the Commission's Directorate of Licensing; (2) the completion of the environmental review required by the Commission's regulations in 10 CFR Part 51; (3) the receipt of a report on the licensee's application by the Advisory Committee on Reactor Safeguards; and (4) a finding by the Commission that the application for a full-term facility operating license, as amended, complies with the requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations in 10 CFR Chapter I. Construction of the facility was authorized by Construction Permit No. CPPR–25, issued by the Commission on March 13, 1967. The facility is presently being operated in accordance with Provisional Operating License No. DPR–20, as amended.

The full-term facility operating license will not be issued until the Commission has made the findings, reflecting its review of the application under the Act, which will be set forth in the proposed license and has concluded that the issuance of the license will not be inimical to the common defense and security or to the health and safety of the public. The licensee has satisfied its obligation concerning indemnification as required by section 170 of the Act and 10 CFR Part 140 of the Commission's regulations.

On or before January 29, 1975, the licensee may file a request for a hearing with respect to issuance of the full-term facility operating license and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions for leave to intervene shall be filed in accordance with the Commission's "Rule of Practice" in 10 CFR Part 2. If a request for a hearing or petition for leave to intervene is filed within the time prescribed in this notice, the Commission or an Atomic Safety and Licensing Board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel will rule on the request and/or petition and the Secretary or the designated Atomic Safety and Licensing Board will issue a notice of hearing or an appropriate order.

A petition for leave to intervene must be filed under oath or affirmation in accordance with the provisions of 10 CFR § 2.714. As required in 10 CFR § 2.714, a petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner, including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) the nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Docketing and Service Section or may be delivered to the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., by January 29, 1975.

A copy of the petition and/or request should also be sent to the Chief Hearing Counsel, Office of the General Counsel, Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545 and to Judd L. Bacon, Senior Attorney, Consumers Power Company, 212 West Michigan Avenue, Jackson, Michigan 49201 and R. Rex Renfrow, III, Esquire, Isham, Lincoln & Beale, One First National Plaza, Chicago, Illinois 60670, attorneys for the licensee.

A petition for leave to intervene which is not timely will not be granted unless the Commission, the presiding officer, or the Atomic Safety and Licensing Board designated to rule on the petition determines that the petitioner has made a substantial showing of good cause for failure to file on time and after considering those factors specified in 10 CFR § 2.714(a)(1)–(4) and § 7.14(d).

For further details with respect to the matters under consideration, see the licensee's application dated January 22, 1974, which also contains the licensee's special environmental report (section 7), which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Kalamazoo Public Library, 315 South Rose Street, Kalamazoo, Michigan. The Commission's Final Environmental Statement issued June 1972 is available for public inspection at the above locations, and as they become available, the following documents may be inspected at the above locations: (1) the safety evaluation report prepared by the Directorate of Licensing; (2) the Commission's consideration of the licensee's special environmental report pursuant to 10 CFR Part 51; and (3) the report of the Advisory Committee on Reactor Safeguards on the application for a full-term facility operating license.

Copies of the Commission's Final Environmental Statement issued June 1972 and copies of items (1) through (3), when available, may be obtained upon request addressed to the United States Atomic Energy Commission, Washington, D.C. 20545. Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this December 23, 1974.

[Docket Nos. 50-514, 50-515]

PORTLAND GENERAL ELECTRIC CO.

Receipt of Application for Construction Permits and Facility Licenses and Availability of Applicant's Environmental Report: Time for Submission of Views on Antitrust Matters

Portland General Electric Company (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed August 6, 1974 for authorization to construct and operate two generating units utilizing two pressurized water reactors. The Environmental Report and Site Suitability Report were tendered on June 7, 1974. Following a preliminary review for completeness, the Environmental Report and Site Suitability Report were, on August 6, 1974, found to be acceptable for docketing. The applicant submitted the PSAR August 6, 1974 and it was found to be acceptable on October 18, 1974. Docket Nos. 50–514 and 50–515 have been assigned to the ap-

plication and should be referenced in any correspondence relating to the application.

The proposed nuclear facilities, designated by the applicant as the Pebble Springs Nuclear Plant, Units 1 and 2 are located in Gilliam County, Oregon. Each unit is designed for initial operation at 3600 megawatts (thermal), with a net electrical output of 1260 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before February 7, 1975. The request should be filed in connection with Docket Nos. 50-514-A and 50-515-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and at the Arlington Public School, District 3, P.O. Box 10, Arlington, Oregon 97812.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, an environmental report dated June 7, 1974. The report, which discusses environmental considerations related to the construction and operation of the proposed facility is being made available for public inspection at the aforementioned locations and at the Federal Aid Coordination Section, Local Government Relations Division, Executive Department, 301 Public Service Building, Salem, Oregon 97310 and the East Central Oregon Association of Counties, Umatilla County Court House, Pendleton, Oregon 97801.

After the environmental report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission's Regulatory staff. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER, a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Md., this 22d day of November 1974.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Light Water Reactors, Branch 2-3, Directorate of Licensing.

[Docket Nos. 50-346A, 50-440A, 50-441A]

TOLEDO EDISON CO. ET AL.

Notice of Oral Argument

In the Matter of The Toledo Edison Company and The Cleveland Electric Illuminating Company (Davis-Besse Nuclear Power Station, Unit 1) The Cleveland Electric Illuminating Company, et al. (Perry Nuclear Power Plant, Units 1 and 2).

By motion dated December 20, 1974, the AEC Regulatory Staff requested oral argument on its December 5, "Motion for an Order Compelling Production and Delivery of Documents Requested of Applicants". The request was made following an informal meeting among the parties[1] and the Board Chairman on December 17, 1974, and a subsequent telephone conference call among the parties and the Chairman on December 20, 1974.[2]

The Department of Justice joined in the motion for oral argument.

The matter at issue is whether delivery of the discovery documents produced by the Applicant should be made available in Washington, D.C. rather than the home office of each Applicant. The City of Cleveland has similarly filed a motion seeking to have all Applicants' documents produced through discovery placed in a central depository in Washington, D.C.

At the telephone conference call of December 20, it was agreed that oral argument would be held on January 3, 1975. Briefs or legal memorandums may be filed by any party on or before January 2, 1975. Supplementary briefs or memorandums may be filed on or before January 7, 1975. Oral argument will commence at 9:30 a.m. January 3, at the Postal Rate Commission, 2000 L Street NW., Washington, D.C., Suite 500.

Pending decision by the Board on this matter, depositions by all parties will be held in abeyance. Likewise, the motions to quash subpoenas issued at Applicants' request will be held in abeyance. In addition all "motions to compel" will likewise be held in abeyance, except that as agreed between Applicant and Department of Justice at the December 17th informal meeting with the Chairman, DOJ may submit additional interrogatories and document requests as refined from their initial requests.

It is so ordered.

Issued at Bethesda, Maryland, December 23, 1974.

THE ATOMIC SAFETY AND LICENSING BOARD,
JOHN B. FARMAKIDES,
Chairman.

VIRGINIA ELECTRIC AND POWER CO.

Reconstitution of Board

In the Matter of Virginia Electric and Power Co. (North Anna Power Station, Units 1 and 2).

John B. Farmakides, Esq., was Chairman of the Atomic Safety and Licensing Board established to consider the above applications. Because of a schedule conflict, Mr. Farmakides is unable to continue in his duties as Chairman of this Board.

Accordingly, Frederic J. Coufal, Esq., whose address is Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545, is appointed Chairman of this Board. Reconstitution of the Board in this manner is in accordance with Section 2.721 of the Rules of Practice, as amended.

Dated at Bethesda, Maryland, December 23, 1974.

The Atomic Safety and Licensing Board Panel.

NATHANIEL H. GOODRICH,
Chairman.

[Docket No. 27067; Order 74-12-89]

CIVIL AERONAUTICS BOARD

ALLEGHENY AIRLINES, INC., ET AL.

Order Authorizing Discussions Regarding Pricing Policies and Practices of Fuel Suppliers

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 23rd day of December, 1974.

On October 2, 1974, various U.S. air carriers[1] filed in Docket 27067, an application for permission authorizing them and all other U.S. certificated air carriers to conduct multicarrier discussions concerning the pricing policies and related practices of fuel suppliers for a

[1] The joint applicants are Allegheny Airlines, Inc., Continental Air Lines, Inc., Frontier Airlines, Inc., National Airlines, Inc., North Central Airlines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., Piedmont Airlines, Trans World Airlines, Inc., Western Air Lines, Inc., and World Airlines, Inc.

V 39 N 251 DEC 30 74 XUM

period of 120 days from the date of the Board's authorization.

Answers in support of the application and requests for joining in the discussions have been filed by The Flying Tiger Line Inc. (FTL), Johnson Flying Service, Inc. (JFS) and various foreign air carriers.[2] Also by letter of October 16, 1974, Air New England requests that it be permitted to join in any discussions.[3] No others answers or comments have been received.[4]

In support of their request the applicants state that they, like other certificated carriers, are seriously concerned about the long-term impact of fuel prices on their cost of doing business; that the recent fuel shortage seems to have triggered fundamental and possibly permanent changes in the relationships between airlines and their fuel suppliers; that some suppliers have sought to change existing airline fuel contracts unilaterally or to negotiate changes which unbalance those contracts heavily in their favor; and that indications appear that in negotiating new contracts, airlines are finding fuel suppliers insisting not only on substantially higher prices but also on terms and conditions which are onerous if not totally unreasonable.

The applicants further state their belief that these developments require a reexamination of the traditional means of doing business between airlines and their fuel suppliers, since the strength of individual airlines in fuel negotiations may not in the future be adequate to produce reasonable contracts with reasonable prices and reasonable terms, and individual airlines may find themselves forced to accept contract terms which fuel suppliers could not in conscience demand publicly from the entire industry. Applicants also believe that this situation is serious enough to require that carriers be permitted to explore possible methods of collective action aimed at better preserving a reasonable balance of rights in future fuel contracts, as for example, retaining a joint staff of experts to assist carriers in purchasing fuel, or themselves entering into joint bargaining. Applicants also state that it would be advantageous for all certificated air carriers to enter into discussions to meet the situation, since with every passing month new contracts are being negotiated involving unprecedented terms and conditions, and since the longer this process goes on, the more difficult it will be to restore balance in the bargaining process.

FTL, a certificated all-cargo air carrier, states that the discussions will permit air carriers to engage in a unified effort comparable to that enjoyed by most of their fuel suppliers which have engaged for many years in joint ventures, consortia, etc., providing a potent and substantial means of exchanging information as to the availability of supply, price, etc. JFS, a supplemental air carrier, states that the discussions could be of some benefit in terms of achieving a less unreasonable balance in the fuel supply bargaining process, particularly for the smaller carriers in the industry. The foreign air carriers allege that they deal with the same fuel suppliers as some of the joint applicants and have encountered the same problems in fuel negotiations with their suppliers, and assert their right to join in the discussions pursuant to their respective bilateral air transport agreements with the U.S., or on the basis of comity and reciprocity.

Upon consideration, the Board has decided to grant applicants' request to hold multicarrier discussions concerning pricing policies and related practices of fuel suppliers, subject to various modifications and conditions. The recent precipitous increases in the price of fuel, as well as the shortfall in fuel supplies, have undoubtedly presented serious problems to the carriers, and have also had an impact on the traveling public both through fuel-related fare increases and through fuel-related schedule cutbacks.[5] The Board has also noted the potential threat of further disruption of fuel supplies resulting from increased instability in the fuel-producing areas of the world.[6] Further, the Board notes the recent controversy among the major petroleum exporting countries of the world regarding new fuel pricing policies, and its potential impact upon the pricing policies of the world's major fuel suppliers in their sales to customers in the aviation industry.[7] Based upon the application and answers filed with the Board, it appears that the fuel problem created by the concerted action of the fuel exporting countries is compounded by the pricing policies of major fuel suppliers, which are relatively few in number and, according to FTL, are engaged in some forms of unified action with respect to their fuel pricing policies.

While the Board is not prepared to reach any determination at this time as to whether any agreements arising from the multicarrier discussions and directed toward the resolution of the fuel-pricing problem would be consistent with the public interest, we note that the application is unopposed, and that the allegations therein and the answers thereto are uncontroverted. In our view, the carriers should be given the opportunity to conduct discussions concerning pricing policies of the fuel suppliers and related matters in order to determine for themselves, and to present to the Board, their position as to whether a genuine contribution in this respect can be rendered by any appropriate collective action. We will expect that any agreement submitted to the Board as a result of the discussions will be fully justified, in terms of the necessity therefor, by detailed evidentiary material.

The applicants request that the participants in the discussions include all U.S.-certificated air carriers. However, the answers filed by various foreign air carriers request that the authorization to participate in the discussions be extended to foreign air carriers. We have decided to include foreign air carriers among the participants in the discussions, since they are confronted essentially with the same problem.[8]

The approval herein will be granted, subject to the customary conditions we have recently imposed in discussion authorizations,[9] except that we will require that all meetings be held in Washington, D.C.

Accordingly, it is ordered, that:

1. The application herein for authorization of multicarrier discussions concerning the pricing policies and related practices of fuel suppliers be and it hereby is granted, subject to the following conditions:

(a) All U.S. certificated air carriers and foreign air carriers shall be given an opportunity to participate in all discussions and activities held pursuant to this order, to include such items as the planning of any discussion guidelines, the establishment of objectives for the study, the conduct of technical team work, or the decisions on study proposals;

(b) The discussion meetings and other study activities authorized by this order shall take place in Washington, D.C., at dates and times determined by the participants;

(c) Representatives of the Board, the Departments of Justice, State and Transportation, and the Federal Energy Administration shall be permitted to attend each of these discussion meetings as observers;

(d) Notices, agenda, ground rules for the oral presentation by interested persons of their views, suggestions, and requests to the discussants, as well as an address to which written comments for consideration by the discussants can be sent, pertaining to each noncontinuous meeting[10] authorized herein shall be sent

---

[2] Aeronaves de Mexico s/k/a Aeromexico, (Aeromexico), and British Airways have each filed separate answers. A joint answer has been filed on behalf of Cayman Airways, Ltd. (Cayman), Lineas Aereas Costarricenses, S.A. (LACSA), Compania Mexicana de Aviacion, S.A. (CMA), and Venezolana Internacional de Aviacion, S.A. (VIASA).

[3] By Order 74-10-69, October 11, 1974, the Board postponed the effective date of Air New England's certificate, as requested by the air carrier, until January 1, 1975.

[4] A list of fuel suppliers, who have been served with a copy of the application is attached as an appendix hereto, and is filed as part of the original document.

[5] On this basis the Board has authorized inter-carrier discussions among U.S. flag carriers and foreign air carriers looking toward agreements on capacity limitations and related matters as necessary to meet continuing critical fuel problems. Orders 74-7-33, July 8, 1974; 74-11-132, November 25, 1974.

[6] See Order 74-11-35, November 7, 1974, authorizing inter-carrier discussions concerning extensions of fuel-related capacity limitation agreements.

[7] Washington Post, December 14, 1974.

[8] In addition, we shall authorize the inclusion of Air New England as a participating party to the discussions. (See footnote 3 above.)

[9] Order 74-11-37, November 8, 1974.

[10] By noncontinuous meeting, we mean a meeting beginning 5 or more business days after conclusion of the previous meeting.

to (1) all carriers participating in these discussions, (2) the Board's Docket Section, (3) all persons who filed documents in this docket, and (4) all other persons who so request; such items are to be filed with the Board and sent to the other persons enumerated not later than 5 business days before each meeting; further, the airlines shall provide for the consideration of oral and written presentations by interested persons (i) before the start of, or during each noncontinuous meeting authorized herein,[11] and (ii) after an oral presentation by discussants of the tentative conclusions reached in their executive sessions, if any;

(e) Complete and detailed minutes of these discussions[12] shall be maintained by the participants, including a summary of each item discussed and the opinions expressed by the discussants on each point (but without identification of the airline or airline representative making each point); such minutes shall be filed with the Board's docket section, and sent to all other persons who so request,[13] within 5 business days after the date of each meeting;

(f) Any agreement or agreements reached as a result of the discussions authorized herein shall be filed with the Board, pursuant to the requirements of section 412(a) of the Act (49 U.S.C. 1382) and Part 261 of the Board's Economic Regulations (14 CFR Part 261) and Subpart P of the Board's Rules of Practice (14 CFR 302.1608) and shall not become effective unless and until approved by the Board pursuant to section 412(b) of the Act; the airlines filing the agreement shall accompany their application with a detailed justification for each aspect of it, including the reasons for the denial of material requests or suggestions made at the oral presentation or in writing by interested persons to the airlines; [14]

(g) The authorization granted herein shall expire 120 days from the date of this order;

(h) The authorization granted herein may be extended, modified, clarified, or revoked at any time by the Board or by the Director of its Bureau of Operating Rights (action by the Director of the Bureau of Operating Rights to be subject to the procedures for review of staff action contained in Subpart C of 14 CFR Part 384); and

2. Except to the extent granted herein, all other outstanding requests in this docket be and they hereby are denied.

This order shall be served on all U.S. certificated air carriers, including supplemental air carriers; on all other persons who responded to the application herein; on all persons upon whom the application has been served; on the United States Departments of Justice, State and Transportation; and on the Federal Energy Administration.

This order shall also be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[Docket No. 27289; Order 74-12-86]

DATA AIR DISTRIBUTON SYSTEM CO., INC.

Order of Suspension and Investigation Regarding Certain Shipments and Reduced Time Limit for Reporting Claims

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 23rd day of December, 1974.

By tariff revisions[1] bearing the issue date of November 27 and marked to become effective December 27, 1974, Data Air Distribution System Co., Inc. (Data Air), an air freight forwarder, proposes (1) that a shipment with a declared value in excess of $0.50 per pound or $50.00 (whichever is higher) would not be acceptable for transportation; and (2) that claims involving loss or damage discovered after delivery of the shipment be reported in writing to Data Air within 10 days after delivery.

In support of its proposals, the forwarder asserts, inter alia, that it is placed in a position beyond the normal bounds of common carrier liability because it handles only shipments of computers and electronic machines of very high declared values; that the revised declared value rule does not change the maximum limit of its liability—the carrier would continue to accept shipments up to $25,000 in value, based on $0.50 per pound without advance notice, and over $25,000 with advance notice; and that the 10-day claim time limit is necessary in order to comply with timely reporting of loss in writing to direct carriers within their required 15-day period.

Upon consideration of all relevant matters, the Board finds that the proposed rules may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposals should be suspended pending investigation.

By proposing to limit the acceptance of shipments to those having a declared value not exceeding $0.50 per pound, the forwarder would place limitations on its liability without offering the shipper a choice of higher liability at additional rates. This would be contrary to the common law concept of common carrier responsibility, as pointed out by the Board in previous orders. For example, in Order 72-8-55, the Board suspended a proposal limiting liability by CF Air Freight, Inc., another forwarder, stating, *inter alia* "This is contrary to the common law concept that the validity of a limitation on liability (or a released rate) is dependent upon the shipper having an option for greater liability at greater rates." (See also Orders 70-1-34, 71-2-36, and 74-4-156.)

Although the forwarder will still continue to accept shipments valued below $25,000 based on $0.50 per pound without advance notice and shipments exceeding $25,000 with advance notice, shippers would not be permitted, under the proposal, to declare a value based on an amount in excess of $0.50 per pound.

The proposed provision requiring that concealed loss or damage reporting be submitted in writing within 10 days appears to be unnecessarily stringent, placing an undue burden upon shippers. The 10-day claim time limit is significantly lower than that in effect for other forwarders, based upon a sample survey by our staff, and represents a significant lowering of the claim time limit.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly Sections 204(a), 403, 404, and 1002 thereof.

It is ordered, That: 1. An investigation is instituted to determine whether the provisions proposed in Rule No. 10 on 4th Revised Page 5, Rule No. 60(A) on 7th Revised Page 9, Rule No. 65 and Rule No. 70 on 7th Revised Page 9-A of Data Air Distribution System Co., Inc.'s C.A.B. No. 1 (Data Trans Air Co., Inc. series), and rules, regulations, or practices affecting such provisions are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions and rules, regulations, and practices affecting such provisions;

2. Pending hearing and decision by the Board, the provisions proposed in Rule No. 10 on 4th Revised Page 5, Rule No. 60(A) on 7th Revised Page 9, Rule No. 65 and Rule No. 70 on 7th Revised Page 9-A of Data Air Distribution System Co., Inc.'s C.A.B. No. 1 (Data Trans Air Co., Inc. series), are suspended and their use deferred to and including March 26, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The proceeding herein, designated Docket 27289, be assigned before an Administrative Law Judge of the Board at a time and place hereafter to be designated; and

4. Copies of this order shall be filed with the tariffs and served upon Data

---

[11] The discussants may, if necessary, limit the time available to those requesting an opportunity to make oral presentations, if that is done on a fair and equitable basis.

[12] While technical working subcommittee discussions are relieved from this condition, it is expected that in the conduct of the study, this work of the subcommittee will be periodically reported to a parent group for review and approval. The requirements involving the maintenance of minutes and presentations by interested parties will also be in effect at such meetings.

[13] The discussants are not precluded from setting a nominal charge to be paid for those requesting copies of the minutes; such charge should not exceed the cost of duplicating and sending such copies.

[14] Formal requests or suggestions of a similar nature can be grouped together and answered collectively.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Availability

Environmental impact statements received by the Council on Environmental Quality from December 16 through December 20, 1974. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (February 10, 1975) The thirty (30) day period for each final statement begins on the date that the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available, at cost, from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: Dr. Fred H. Tschirley, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E Administration Building, Washington, D.C. 20250, (202) 447-3965.

FOREST SERVICE

Draft

Grand Mesa—Uncompahgre Timber Management Plan, Colorado, December 16: The statement refers to the revision of the 1961 Timber Management Plan for the Grand Mesa-Uncompahgre N.F. in west central Colorado. The proposed application of silvicultural management on 45,000 acres of forest land will result in the harvest of 211,000 Cunits of wood, including 152 million board feet of sawtimber. Adverse impacts reduction of wilderness character on inventoried roadless areas, and changes in the way the landscape looks. (ELR Order No. 41883.)

Land Exchange, Cibola, Carson N.F. New Mexico, December 16: The statement refers to a proposal by the Sandia Peak Tram Company to exchange land with the Cibola and Carson National Forests. The Tram Company has offered land in Embudo Canyon in the Sandia Mountains, Cibola N.F., and land on the Rio Antonio Creek, northwest of Tres Piedras, Carson N.F. The tract in the Sandia Mountains is about 5 miles northwest of Albuquerque and borders on three other tracts which the company is presently developing. There are 159.89 acres in the tract of National Forest land. Adverse impacts are elimination of recreational activities on land given up, and economic gains from summer homes development that would be lost. (ELR Order No. 41886.)

Rolling Prairie Planning Unit, Custer N.F., North Dakota, December 16: The action is the implementation of a Multiple Use Plan for the Rolling Prairie Planning Unit, Little Missouri River National Grasslands, Custer National Forest. The Planning Unit is located in McKenzie, Golden Valley, Billings, and Slope Counties and contains 882,680 acres of land. The plan provides for oil and gas extraction, beef production, and the protection of historical, archeological, and paleontological sites. Adverse impacts range from low to moderate for most of the 18 activities considered. (ELR Order No. 41891.)

Final

Horseshoe Meadows, Inyo National Forest, Inyo County, California, December 16: The statement refers to a land use plan which would involve the construction of year round recreational facilities near Horseshoe Meadows, within the Cottonwood Basin of the Inyo National Forest. The plan calls for a 100 unit overnight campground, a program interpreting the Golden Trout and its High Sierra environs, trail facilities for the Pacific Crest Trail, a pack station, and limited development for cross-country skiing. Adverse environmental impacts will include the removal of some vegetation and the disturbance of soil during construction activities. Comments made by: USDA, COE, EPA, FPC, HEW, DOI, DOT, state and local agencies, and concerned citizens (ELR Order No. 41877.)

Juniper Unit, Ocala National Forest, Marion and Lake Counties, Florida, December 19: The statement refers to the proposed management of the 20,000 acre Juniper-Hughes and Fat Islands Units Ocala National Forest. Management activities will be directed towards such functions as timber production, recreational uses, wildlife and endangered species protection, and quality control (soil, water, and solid waste). There will be road construction, and adverse impact from timber harvest activities and prescribed burning (192 pages). Comments made by: DOI, EPA, COE, USDA, FPC, AHP, state and local agencies, and concerned citizens. (ELR Order No. 41904.)

Whitewater and Cullasaja River Units, Nantahala N., Transylvania, Jackson, Macon Counties, North Carolina, December 16: Proposed is a ten year management plan for the Cullasaja and Whitewater River Units of the Nantahala National Forest. The two units total 20,000 acres of National Forest lands. Management will be for timber, wildlife habitat, recreation, and water quality values. There will be adverse impact to scenic values, soils, and streams from timber harvesting and road construction (174 pages). Comments made by: DOT, EPA, TVA, COE, HUD, AHP, State and local agencies, and concerned citizens. (ELR Order No. 41885.)

Pisgah National Forest, North Carolina, December 16: The statement refers to a proposed 10 year management plan for the North and West Fork French Broad Unit and the Davidson River Unit of the Pisgah National Forest. The 61,360 acres of National Forest land will be managed for wildlife, timber harvest, and recreational values. There will be impact upon scenic values, soils and water quality, and wildlife habitat. (228 pages) Comments made by: DOC, DOI, EPA, HUD, TVA, COE, State agencies. (ELR Order No. 41882.)

SOIL CONSERVATION SERVICE

Draft

Sand Creek Watershed, Harvey and Marion Counties, Kansas, December 16: The statement refers to a project for watershed protection, flood prevention, and recreation in Harvey and Marion Counties. Floodwater and sedimentation damages will be reduced on 4,619 acres of flood plain land. There will be 1,195 acres for recreation and wildlife management area, including a 195-acre reservoir for water-based recreation and warm-water fishing. Adverse impacts include the use of land for project purposes, displacement of people, and traffic, litter, and noise will increase around the recreation area of the multiple-purpose reservoir (163 pages). (ELR Order No. 41868.)

East Franklin Watershed, Franklin, Catahoula, Richland Counties, Louisiana, December 16: The statement refers to the construction of the East Franklin Watershed Project. The project is for watershed protection, flood prevention, and drainage in Franklin, Catahoula, and Richland Parishes, Louisiana. Approximately 186 miles of channel work with appurtenant measures, construction of 28 structures for water control, and measures to minimize adverse effects to fish and wildlife will be installed. Adverse impacts are loss of wildlife habitat, sedimentation and turbidity during construction, and increased temperatures in ponded areas. (ELR Order No. 41883.)

Final

Leona River Watershed Project, Uvalde County, Texas, December 20: Proposed is a watershed protection and flood protection project on the 39-180 acre Leonas River Watershed Project. Project measures will include the use of land treatment and channel

work on 3.47 miles of stream, and the construction of 4 single purpose floodwater retarding structures. Nineteen hundred and thirty acres, some of it wildlife habitat, will be committed to the project. (37 pages) Comments made by: COE, HEW, DOI, EPA, State agencies. (ELR Order No. 41906.)

Draft

Rock Creek Watershed, Oregon, December 16.

ATOMIC ENERGY COMMISSION

Contact: For Non-Regulatory Matters: Mr. W. Herbert Pennington, Office of Assistant General Manager, E-201, AEC, Washington, D.C. 20545, (301) 973-4241. For Regulatory Matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, F-722, AEC, Washington, D.C. 20545, (301) 973-7373.

Final

Joseph M. Farley Nuclear Plant, Houston County, Alabama, December 16: Proposed is the issuance of operating licenses to the Alabama Power Co. for the two unit Joseph M. Farley Plant. Each unit employs pressurized water reactors to produce up to 2774 MWt, which will be used to provide 844 MWe (net). Cooling will be with a closed-loop cooling tower system, with water drawn from and discharged to the Chattahoochee River, at a consumptive loss of 25,400 gpm. Comments made by: AHP, USDA, COE, DOC, HEW, DOI, DOT, EPA, agencies of Alabama, Florida, and Georgia. (ELR Order No. 41871.)

Shirley Basin Uranium Mill, Carbon County, Wyoming, December 20: Proposed is the construction of Source Material License SUA-442, issued to Utah International Co., for the operation of a uranium mill in the Shirley Basin area. The mill is designed as an acid-leach, resin ion-exchange uranium ore processing plant with a design capacity of 1500-1800 tons/day. Although the licensing action does not extend to mining, the environmental impact of that activity is included in the statement. (85 pages) Comments made by: USDA, AHP, COE, HEW, FPC, DOI, EPA, concerned citizens. (ELR Order No. 41909.)

CANAL ZONE GOVERNMENT

Final

Transmission Lines, Panama Canal Zone, December 19: Proposed is the granting of a license by the Canal Zone Government to the Instituto de Recursos Hidraulicos y Electrificacion, an autonomous agency of the Republic of Panama, for the construction and operation of two 230 kV transmission lines across the Canal Zone. The lines are part of a hydroelectric development which will deliver power from the mountainous western end of the country to the urban and industrial center of Panama City. The action will result in the use of 580 acres for right-of-way, and the loss of some tropical forest (40 pages). Comments made by: FPC, EPA, DOT, STAT. (ELR Order No. 41905.)

DEPARTMENT OF DEFENSE, ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, (202) 693-7168.

Draft

Rend Lake, Operation and Maintenance, Franklin and Jefferson Counties, Illinois, December 16: The statement refers to the operation and maintenance of Rend Lake in Franklin and Jefferson Counties, Illinois. The lake is an 18,900 acre multi-purpose reservoir completed in 1972. This statement describes and reviews the environmental, economic, and social impacts created by the operation; the impacts or effects which will enhance or impair the project purposes; the effects of the reservoir upon the surrounding environment; and, the effects of the changing environment on the lake and its future operations. (ELR Order No. 41864.)

Maintenance Dredging, several counties, Michigan, December 20: proposed is the maintenance dredging of 14 unpolluted harbors in the State of Michigan. There will be some adverse impact to aquatic biota (Detroit District). (ELR Order No. 41907.)

Columbia and Lower Willamette River maintenance, Oregon and Washington, Dec. 16: The statement refers to the maintenance dredging to 40 ft. deep of the Columbia River navigation channel from 2 miles seaward of its mouth to Columbia River mile 106.5 and Willamette River from mouth to Broadway Bridge to provide the depth required for deep-draft vessels. Included is maintenance of designated side channel projects, pile dikes and training dikes and initial rock removal projects. Adverse impacts include: disruption and removal of river bottom habitat and organisms; resuspension of bottom materials; temporary increases in turbidity; smothering of aquatic and terrestrial habitat and organisms during disposal (Portland District). (ELR Order No. 41876.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630 Waterside Mall, Washington, D.C. 20460, (202) 755-0940.

Draft

Sacramento Regional Wastewater Treatment, California, December 16: The statement refers to the Sacramento Regional Wastewater Management Program. The plan provides for a regionwide interceptor system to deliver raw wastes to a single advanced treatment plant located south of the city at the site of the existing plant. A disposal system would transport treated effluent to the Sacramento River for discharge near Freeport via a multipart diffuser system. There will be normal construction disruption from the project. (ELR Order No. 41904.)

Final

Wastewater Facilities, Houston, Texas, December 16: The proposed project involves the construction of a 20 million gallons per day (mgd) activated sludge treatment facility in the existing 1 mgd Alameda-Sims Facility Site. The expanded facility has been designed to treat the waste water in three areas through the year 1990. Adverse impacts are increased noise and odor levels, and construction disruptions. Comments made by: USDA, COE, HEW, DOT, State and local agencies. (ELR Order No. 41890.)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, (202) 343-4161.

Draft

Federal Office Building, Anchorage, Alaska, December 17: The statement refers to the proposed construction of a Federal Office Building, Courthouse, and Parking Facility Complex in Anchorage. The facility would consolidate 23 federal agencies which are presently housed throughout the Greater Anchorage area. The complex will contain 462,000 sq. ft. of net useable space, and parking space for 725 vehicles. Adverse impact includes the displacement of individuals and businesses, and construction disruption (202 pages). (ELR Order No. 41898.)

Denver Federal Center, Lakewood, Jefferson County, Colorado, December 16: The proposed project provides for major repairs and alterations which will be undertaken at the Denver Federal Center, Lakewood, Jefferson County, for its continued use in providing adequate housing for Federal agencies. There will be construction inconveniences (25 pages). (ELR Order No. 41889.)

Final

Federal Youth Center, San Diego, California, December 16: The statement refers to the proposed construction of a 104,000 sq. ft. Federal Youth Center, which will be operated by the Bureau of Prisons. The facility which will be constructed in the Elliott Community of San Diego, will house up to 250 youthful offenders serving short term sentences. The center will have social and economic impacts on the surrounding community; the project is in conflict with the proposed land use of the Elliott Community and San Diego General plans (150 pages). Comments made by: AHP, USDA, COE, HEW, HUD, DOI, DOT, EPA, State and local agencies, and concerned individuals. (ELR Order No. 41899.)

Peace Arch and Pacific Highway Border Stations, Whatcom County, Washington, December 16: Proposed is the construction of two new border stations in order to replace two existing, inadequate facilities. The major environmental impacts will result from heavy vehicular traffic routed through the stations over I 5 and State Highway 543 from Canada. Comments made by: AHP, EPA, HUD, COE, USDA, DOI, TREA, State and local agencies. (ELR Order No. 41893.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Acting Director, Office of Community and Environmental Standards, Room 7206, 451 7th Street SW., Washington, D.C. 20410 (202) 755-5980.

Draft

Urban Renewal, Newburyport, Massachusetts, December 20: The statement refers to waterfront parcels 2, 2a, 3, 3a, 5, 6, and 8 of the Newburyport Urban Renewal Project. (ELR Order No. 41910.)

Final

"The Colony" Denton County, Texas, December 16: The statement refers to the review and acceptance of an application for approval of a housing subdivision. The project encompasses 3698 acres in southeastern Denton County. A total of 8950 units, including 6958 single family detached units, will be constructed. Among project impacts will be the expansion of urban land development into an area where little experienced urban planning has been practiced, and the creation of pressures on the Garza-Little Elm Recreation Reservoir, an under-developed and under-planned recreation resources. Comments made by: USDA, COE, DOC, HEW, DOI, EPA, DOT, State and local agencies. (ELR Order No. 41887.)

INTERSTATE COMMERCE COMMISSION

Draft

Transportation of Waste Products, December 16: The statement refers to the Transportation of "Waste" Products for Reuse and Recycling (General Motor Carrier Licensing). The proposed rules would permit the Commission to issue special certificates of public convenience and necessity for the transportation control program. The new rules are designed to simplify regulatory procedures to enhance the transportation of waste products in order to make a significant contribution to the national recycling program. The project will create additional traffic for backhaul movements. (ELR Order No. 41875.)

DEPARTMENT OF THE INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, (202) 343-3891. Bureau of Sports Fisheries and Wildlife

Final

Proposed Yukon Flats National Wildlife Refuge, Alaska, December 18: The statement refers to the proposal that 3.8 million acres of public lands be designated by Congress as the Yukon Flats National Wildlife Refuge. The Secretary of the Interior would have the authority to acquire lands and interests within the Refuge boundary should they become available. The lands would be withdrawn from all forms of appropriation under the public land laws, including the mining and mineral leasing laws. The Yukon Refuge would be studied for possible inclusion in the National Wilderness Preservation System. Overall impact of the proposal is the protection of the area's fish and wildlife resources (646 pages). Comments made by: USDA, COE, DOC, EPA, DOT, DOI, State agencies. (ELR Order No. 41900.)

Valentine National Wildlife Refuge, Cherry County, Nebraska, December 18: The statement refers to a legislative proposal that 16,317 acres of the Wildlife Refuge be designated as wilderness within the National Wilderness Preservation System. Such designation would commit the area to the forces of nature, and remove some future management options. The refuge provides breeding grounds for migratory birds and other wildlife (52 pages). Comments made by: USDA, COE, DOI, DOT, EPA, state agencies. (ELR Order No. 41901.)

Crescent Lake National Wildlife Refuge, Garden County, Nebraska, December 18: The statement refers to the proposed legislative designation of 24,502 acres of the Refuge as wilderness within the National Wilderness Preservation System. The Refuge is a significant breeding ground and resting area for migratory waterfowl. Wilderness designation would commit the area to the forces of nature and remove options for future development and intensified management (41 pages). Comments made by: USDA, DOI. (ELR Order No. 41902.)

Chase Lake Wilderness Area, Stutsman County, North Dakota, December 19: The statement refers to recommendation that approximately 4,155 acres of the Chase Lake National Wildlife Refuge in Stutsman County, be designated as wilderness within the National Wilderness Preservation System. A wilderness designation will commit the area to the forces of nature and remove some future management options (26 pages). Comments made by: USDA, DOI, EPA. (ELR Order No. 41873.)

NATIONAL PARK SERVICE

Draft

Guadalupe Mountains N.P., Master Plan (2), Culberson and Hudspeth Counties, Texas, December. This revised draft discusses the National Park Service's proposal of a master plan for Guadalupe Mountains National Park in Culberson and Hudspeth Counties, Texas. The master plan is a document to guide the development, public use, and management of this national park for an estimated period of at least 5 years. Adverse impacts are principally some future disturbance of natural vegetation, surface rock and soil around principal development sites, proposed road alignments, and the problems associated with increased use of this park by visitors. (ELR Order No. 41870.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 7th Street SW., Washington, D.C. 20590 (202) 426-4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

Petersburg to Kake Highway, Alaska, December 16: Proposed is the construction of a new gravel roadway connecting Kake and Petersburg, Alaska. Depending upon the route chosen, the Wrangell Narrows will be crossed either by a bridge or by ferry. The project will contribute to the loss of wilderness area through increased tourism as well as through the construction itself (236 pages). (ELR Order No. 41869.)

Moscow Couplet, U.S. 95, Latah County, Idaho, December 16: The proposed highway project is the improvement of congested traffic conditions on U.S. 95 through the city of Moscow in Latah County, Idaho, by the use of one-way couplet system. Total length of the project would be approximately 1 mile, with provision for curbs and gutters and on-street parking where feasible. Adverse impacts vary by alternative. (ELR Order No. 41874.)

North-South Arterial, Jamestown, Chautauqua County, New York, December 16: The statement refers to the proposed construction of a North-South Arterial in Jamestown from the South city line to South Main and Allen Streets. The 4-lane facility will have a total length of 1.3 miles. Adverse impacts are the demolition of 53 residential and 14 commercial buildings and the relocation of the occupants, and construction disruptions (205 pages). (ELR Order No. 41888.)

U.S. 101, Elk River-Port Orford Section, Curry County, Oregon, December 16: The statement refers to the proposed construction of the Elk River-Port Orford Section of U.S. 101 in Curry County, Oregon. The proposed project consists of a two-mile segment of highway on new location. Adverse impacts will result principally from construction activity and will particularly concern aquatic resources. (ELR Order No. 41876.)

F.M. 1765, Galveston County, Texas, December 17: The statement refers to the construction of 2.19 miles of F.M. 1765 from I-45 east to SR-3 adjacent to and representing the common city limits of Texas City and La Marque. The facility will provide a 6-lane roadway with curbs and gutters and a 14 ft. flush median for continuous left-turn lanes. There will be construction inconveniences caused by the project. (ELR Order No. 41894.)

U.S. 59, Fort Bend County, Texas, December 17: The proposed project consists of reconstructing a segment of U.S. 59 as a controlled-access facility along a route adjacent to and including the existing right-of-way. The total project length is 11.7 miles of which approximately 4.9 miles are on entirely new location. There will be the normal construction disruptions caused by the project (107 pages). (ELR Order No. 41897.)

Final

State Highway Route 49, Placer County, California, December 16: Proposed is the widening and improvement of 2.2 miles of SH 49 between the north Auburn underpass and Dry-Creek Road. Construction consists of widening the existing highway from two lanes to four lanes with left-turn channelization and includes the relocation of a railroad underpass. Section 4(f) land from the Auburn Recreation Area and Park District Regional Park may be affected. Two mobile homes and one business may be displaced (two volumes). Comments made by: DOI, EPA, State and local agencies. (ELR Order No. 41879.)

Doolittle Drive (Route 61), Alameda County, California, December 16: The proposed project consists of widening a mile long portion of Route 61, Doolittle Drive from two lanes to four lanes with parking. Increases in the peak noise level will occur. Comments made by: EPA, AHP, DOI, USDA, COE, HEW, HUD, local agencies, and concerned citizens. (ELR Order No. 41881.)

Shoreline Parkway, Escambia County, Florida, December 17: The statement refers to the construction of the proposed Shoreline Parkway from Barrancas Street to Pensacola Bay Bridge on U.S. 98. Project length is 2.9 miles. Four families and one business will be displaced. A section 4(f) determination has been filed to acquire land from the Pensacola Historic District (145 pages). Comments made by: EPA, DOI, HUD, HEW, USDA, DOC, State agencies. (ELR Order No. 41896.)

N-15, and U.S. 6, Saline and Seward Counties, Nebraska, December 16: The project involves the reconstruction of 8.8 miles of U.S. 6 and N-15. The project will require 86 acres of land. Two bridges will be replaced, one over Johnson Creek and one over the west fork of the Big Blue River. A 4(f) review has been filed to obtain land from the Blue River State Wayside Area, for right of way. Adverse impacts are: loss of land and wildlife habitat, and increased water pollution due to the bridge crossings. Comments made by: DOT, COE, USDA, HUD, DOI, EPA, State agencies. (ELR Order No. 41880.)

Interstate 35, Oklahoma County, Oklahoma, December 17: The statement refers to the proposed improvement and reconstruction of Interstate 35 from I-440 in Oklahoma City north to U.S. 66 in Edmond, a distance of 8.8 miles. Adverse impacts are the loss of 280 acres of agricultural land and the displacement of 26 families and 16 businesses (68 pages). Comments made by: EPA, DOI, HUD, USDA, HEW, COE, State and local agencies. (ELR Order No. 41895.)

GARY L. WIDMAN,
General Counsel.

ENVIRONMENTAL PROTECTION AGENCY

AVAILABILITY OF ENVIRONMENTAL PROTECTION

[FRL 310-3]

Environmental Impact Statements and Other Agency Actions

Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969, and section 309 of the Clean Air Act, as amended, the Environmental Protection Agency (EPA) has reviewed and commented in writing on Federal agency actions impacting the environment contained in the following appendices during the period of November 1, 1974 and November 30, 1974.

Appendix I contains a listing of draft environmental impact statements reviewed and commented upon in writing during this review period. The list includes the Federal agency responsible for the statement, the number and title of the statement, the classification of the nature of EPA's comments as defined in Appendix II, and the EPA source for copies of the comments as set forth in Appendix V.

Appendix II contains the definition of the classifications of EPA's comments on the draft environmental impact statements as set forth in Appendix I.

Appendix III contains a listing of final environmental impact statements reviewed and commented upon in writing during this reviewing period. The listing will include the Federal agency responsible for the statement, the number and title of the statement, a summary of the nature of EPA's comments, and the EPA source for copies of the comments as set forth in Appendix V.

Appendix IV contains a listing of proposed Federal agency regulations, legislation proposed by Federal agencies, and any other proposed actions reviewed and commented upon in writing pursuant to section 309(a) of the Clean Air Act, as amended, during the referenced reviewing period. The listing includes the Federal agency responsible for the proposed action, the title of the action, a summary of the nature of EPA's comments, and the source for copies of the comments as set forth in Appendix V.

Appendix V contains a listing of the names and addresses of the sources for copies of EPA comments listed in Appendices I, III, and IV.

Copies of the EPA Manual setting forth the policies and procedures for EPA's review of agency actions may be obtained by writing the Public Inquiries Branch, Office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460. Copies of the draft and final environmental impact statements referenced herein are available from the originating Federal department or agency.

Dated: December 11, 1974.

SHELDON MEYERS,
Director,
Office of Federal Activities.

APPENDIX I—DRAFT ENVIRONMENTAL IMPACT STATEMENTS FOR WHICH COMMENTS WERE ISSUED BETWEEN NOV. 1 AND NOV. 30, 1974

Identifying No.	Title	General nature of comments	Source for copies of comments
Atomic Energy Commission:			
D-AEC-A00107-00	Management of commercial high level and transuranium, contaminated radioactive wastes.	S	A
D-AEC-A00015-00	Use of mixed oxide fuels in light water-cooling reactors, gesmo, recycle plutonium in light water-cooled reactors.	ER-2	A
Department of Agriculture:			
D-AFS-J65004-MT	Multiple use plan for the Ward-Eagle planning unit, Mont.	ER-1	I
D-AFS-K08001-00	Cholla project, power plant expansion, coal mine expansion transmission line, Albuquerque, N. Mex., and Arizona.	ER-2	J
D-AFS-L61007-OR	The Oregon Dunes National Recreation Area, management plan, Oreg.	LO-2	K
D-AFS-L61008-OR	Drift Creek management unit, Siuslaw National Forest, Oreg.	LO-1	K

D-TVA-E05003-TN	Raccoon Mountain pumped storage project, Marion County, Tenn.	ER-1	E

APPENDIX II—DEFINITION OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS.

ENVIRONMENTAL IMPACT OF THE ACTION

LO—Lack of Objection

EPA has no objection to the proposed action as described in the draft impact statement; or suggests only minor changes in the proposed action.

ER—Environmental Reservations

EPA has reservations concerning the environmental effects of certain aspects of the proposed action. EPA believes that further study of suggested alternatives or modifications is required and has asked the originating Federal agency to reassess these impacts.

EU—Environmentally Unsatisfactory

EPA believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the potential safeguards which might be utilized may not adequately protect the environment from hazards arising from this action. The Agency recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

ADEQUACY OF THE IMPACT STATEMENT

Category 1—Adequate

The draft impact statement adequately sets forth the environmental impact of the proposed project or action as well as alternatives reasonably available to the project or action.

Category 2—Insufficient Information

EPA believes that the draft impact statement does not contain sufficient information to assess fully the environmental impact of the proposed project or action. However, from the information submitted, the Agency is able to make a preliminary determination of the impact on the environment. EPA has requested that the originator provide the information that was not included in the draft statement.

Category 3—Inadequate

EPA believes that the draft impact statement does not adequately assess the environmental impact of the proposed project or action, or that the statement inadequately analyzes reasonable available alternatives. The Agency has requested more information and analysis concerning the potential environmental hazards and has asked that substantial revision be made to the impact statement.

APPENDIX III—FINAL ENVIRONMENTAL IMPACT STATEMENTS FOR WHICH COMMENTS WERE ISSUED BETWEEN NOV. 1, AND NOV. 30, 1974

Identifying No.	Title	General nature of comments	Source for copies of comments
Department of Agriculture:			
F-AFS-A08023-FL	Apalachicola National Forest, 230 kV transmission line right-of-way, Fla.	EPA had no objections to the project as proposed.	E
F-AFS-A61285-CA	Silver Basin winter sports development, Amador and El Dorado Counties, Calif.	EPA reserved any final comment on this proposed action until such time as the forest Service's air quality study is completed. The Forest Service estimates that this study will be completed in March 1975.	J
D-REA-A08024-KY	Addition of a new 66 MW combustion turbine to the Sebree generating power plant in Henderson and Webster Counties, Ky.	EPA expressed no objections to the proposed project.	E
F-SCS-A36353-MN	Canby Creek Watershed project, Lincoln and Yellow Medicine Counties, Minn.	EPA generally had no objections to the project as proposed.	F
Corps of Engineers:			
F-COE-A07083-WI	Columbia generating station, Wisconsin Power & Light Co., Columbia County, Wis.	EPA had no objections to the proposed project as long as the proposed mitigating measures are undertaken by the Applicant.	F
F-COE-A36078-KY	Red River Lake project, Kentucky River basin, Ky.	EPA expressed severe environmental reservations about the proposed action based on these principal issues: (1) Violation of dissolved oxygen standards during summer months in the hypolimnion due to temperature stratification; (2) Grave concern for eutrophication problems accelerated by agricultural activities and increased urban runoff from Lake-Inspired development; (3) Elimination of at least three species of cool water fish from the project area; and (4) Violation of the National Technical Advisory Committee drinking water criteria for iron and manganese during Autumn or overturn months.	E
F-COE-A36098-AL	Claiborne lock and dam, Alabama River, Ala.	EPA generally had no objections to the project as proposed.	E
F-COE-A36043-OH	Local protection project, Berwick, Ohio.	....do....	E
Department of Defense:			
F-USAF-A35017-FL	180 military family housing units for fiscal year 1974, Okaloosa County, Eglin Air Force Base, Fla.	....do....	E
Federal Power Commission:			
F-FPC-A36027-WA	Ross development of project No. 553, Skagit River, Wash.	EPA had no objections to the proposed project.	E

XUM V 39 I 251 DEC 30 74 XUM

APPENDIX III—FINAL ENVIRONMENTAL IMPACT STATEMENTS FOR WHICH COMMENTS WERE ISSUED BETWEEN NOV. 1, AND NOV. 30, 1974—Continued

Identifying No.	Title	General nature of comments	Source for copies of comments
Department of Health, Education, and Welfare:			
F-HEW-A81094-IL....	Grant Hospital modernization and expansion, Chicago, Cook County, Ill.	EPA had no objections to the proposed project.	F
Department of Housing and Urban Development:			
F-HUD-A80134-PA...	Lock Haven urban renewal plan, Lock Haven, Pa.	EPA expressed no objections to the project but suggested continued study of flooding characteristics of the West Branch Susquehanna River. This would allow appropriate modifications in Lock Haven's evolving flood management programs to meet any possible changes of flooding conditions related either to increased runoff due to changes in upstream conditions or increased flow velocity and higher river staging due to local landfill activities and levee construction.	D
F-HUD-A85018-MO..	Demolition of Pruitt-Igoe public housing complex, St. Louis, Mo.	EPA expressed environmental reservations with regard to the proposed action. EPA requested that the final EIS (1) Identify solid waste disposal sites for an estimated 270,000 cubic yards of rubble and evaluate the environmental impacts of disposal; (2) Provide information on future use of the project land; (3) Assess the noise impacts of the demolition; (4) Identify and evaluate the impacts of solid waste transport routes; (5) Provide information and evaluate the impacts of the alternatives to the action; and (6) Provide estimates of cost of the proposed action.	H
Department of the Interior:			
F-BLM-K60060-00....	Proposed motorcycle race between Yermo, Calif., and Las Vegas, Nev.	EPA believes that the final statement adequately assesses the environmental impact of the proposed action. However, EPA recognizes that the actual environmental damage that may result from the race depends on the success of mitigating measures. EPA recommends a post-race survey to determine success of mitigation.	K
F-DOI-C64001-NJ....	White-tailed deer hunting program, Great Swamp National Wildlife Refuge, N.J.	EPA had no objections to the project as proposed.	C
Department of Transportation:			
F-CGD-A80061-MI....	Coast Guard icebreaking activity on the Great Lakes, Mich.	EPA generally had no objections to the project as proposed.	F
F-FAA-A51208-AZ....	Phoenix Sky Harbor International Airport, Phoenix, Ariz.	The final environmental statement did not contain sufficient information and analysis on the air quality impact of the proposed improvement program of Sky Harbor to enable EPA to carry out its section 309 responsibilities. EPA requested that further information be provided.	I
F-FAA-A51225-MS....	Union Municipal Airport, construction of new airport, Neshoba County, Union, Miss.	EPA had no objections to the proposed project.	E
F-FAA-A51237-AL....	Thomas C. Russell Field, Alexander City, improvement and enlargement, Ala.	EPA generally had no objections to the project as proposed.	E
F-FAA-A51249-NC....	Johnston County Airport, Smithfield, N. C.	EPA had no objections to the project as proposed.	E
F-FAA-A52057-00....	Proposed noise standards, propeller-driven small airplanes.	EPA reaffirmed the strong environmental reservations previously expressed to the Federal Aviation Administration (FAA) concerning the proposed standard. The reservations expressed in this letter centered primarily on the proposed noise compliance levels and the proposed noise evaluation measure. Also of serious concern were the simplified flight procedures and the proposed aircraft performance correction concept.	A
F-FHW-A41562-CA....	State Highway Route 49, improvement project Placer County, Calif.	EPA had no objections to the proposed project.	E
F-FHW-A41603-MI....	US 131 freeway from MI-46 to 20 Mile Road in Montcalm and Mecosta Counties, Mich.	....do....	F
F-FHW-A41676-MI....	East Boulevard extension, South Blvd. to Woodward Ave., Pontiac, Oakland County, Mich.	....do....	F
F-FHW-A41787-GA....	Cobb County, project S-1385(2), 4-lane urban road, Lee Industrial Blvd. to Oakdale Rd., Ga.	....do....	E
F-FHW-A41867-AL....	Macon and Elmore Counties, project Nos. S-4418 and S-2020, State 1300-E, AL-229, Ala.	EPA had no objections to the project as proposed.	E

APPENDIX III—FINAL ENVIRONMENTAL IMPACT STATEMENTS FOR WHICH COMMENTS WERE ISSUED BETWEEN NOV. 1, AND NOV. 30, 1974—Continued

Identifying No.	Title	General nature of comments	Source for copies of comments
F-FHW-A41780-NY..	Hornell, north-south arterial, north section, Steuben County, N.Y.	EPA requested that FHWA provide additional information to enable a complete review of the impact statement and to facilitate the consideration of an indirect source permit. The follwing deficiencies were noted: (1) Secondary effects such as development were not adequately discussed; (2) Alterations to the Corps of Engineers flood control project were discussed but the extent or effects of the alterations were not indicated; and (3) The air quality diffusion analysis did not include enough information for a complete agency evaluation.	C
F-FHW-A41993-AL...	Tuscaloosa County, project No. APL 1296(002) and SG-6317(102), Holt-Peterson Rd., Ala.	EPA had no objections to the project as proposed.	E
F-FHW-A42341-MI...	Reconstruction of the Scottdale Bridge, US 31, Berrien County, Mich.	....do.....	F
F-FHW-E40016-AL...	Mobile County, project F-277(2), Range Line Rd., Ala.	EPA generally had no objections to the proposed project.	E
F-FHW-E40017-NC...	Rockingham and Caswell Counties, R-39, US 29, Ruffin to Virginia, North Carolina.	EPA generally had no objections to the proposed project. However, EPA recommended that a supplement be prepared to provide: (1) Clarification of the effects of open burning and identification of measures to minimize such effects; (2) Average daily traffic for project 10 years after completion; and (3) Prediction of 8-hour concentrations and comparison with 8-hour standards.	E
F-FHW-E40020-AL...	I-20-1(30), Irondale to relocated Old Leeds Rd., Ala.	EPA generally had no objections to the proposed project.	E

APPENDIX IV—REGULATIONS, LEGISLATION AND OTHER FEDERAL AGENCY ACTIONS FOR WHICH COMMENTS WERE ISSUED BETWEEN NOV. 1, AND NOV. 30, 1974

Identifying No.	Title	General nature of comments	Source for copies of comments
Atomic Energy Commission:			
R-AEC-A09021-00....	10 CFR Part 20, transuranic waste disposal, proposed standards for protection against radiation.	EPA deferred commenting until the draft environmental impact statement relating to this proposed rule is issued.	A
R-AEC-A09022-00....	10 CFR Part 150, transuranic waste disposal, exemptions and continued regulatory authority.	EPA deferred commenting until the draft environmental impact statement relating to this proposed rule is issued.	A
Corps of Engineers:			
R-COE-A24058-00....	33 CFR Part 209, review of NPDES permits, proposed policy, practice, and procedures.	EPA commended the regulations for recognizing that in most cases substantial impairment to navigation and anchorage will cease with installation of necessary treatment facilities and urged that the timetables contained in the regulations for permit review be followed so that substantial delays in permit issuance will be avoided.	A
Department of Commerce			
R-NOA-A99003-00....	15 CFR Part 923, coastal zone management program approval regulations, criteria and procedures.	In EPA's view the regulations are generally adequate; however, modifications to several sections were suggested in an effort to strengthen the regulations from an environmental point of view. The major portion of the comments were in the form of suggested wording to more closely integrate the planning approaches of EPA and NOAA.	A
Federal Energy Administration			
R-FEA-A04013-00....	10 CFR Parts 211 and 212, old oil, proportionate allocation among refiners.	EPA supported FEA's procedure whereby the number of entitlements to importers of residual fuel oil and No. 2 fuel oil would be based on the prevailing differential between each products' low-sulfur domestic and low-sulfur imported prices. Such a procedure appears to remove a major disincentive to the importation of low-sulfur products and we encourage its adoption.	A
Federal Trade Commission			
R-FTC-A86071-00....	16 CFR Chapter 1, automobile fuel economy claims, notice of public hearing and opportunity to submit data, views or arguments concerning rulemaking.	At the request of the FTC, EPA will present testimony at a public hearing scheduled for Dec. 6, 1974.	A

XUM
V 39 NO 251 DEC 30 1974 V
XUM

APPENDIX III—FINAL ENVIRONMENTAL IMPACT STATEMENTS FOR WHICH COMMENTS WERE ISSUED BETWEEN NOV. 1, AND NOV. 30, 1974—Continued

Identifying No.	Title	General nature of comments	Source for copies of comments
Department of Housing and Urban Development:			
R-HUD-A[illegible]-00.....	24 CFR Part 570, community block grants.	EPA expressed significant reservations to the proposed regulations. EPA provided HUD with comments on the five following areas of concern: (1) The number and classes of applicants to whom the NEPA responsibility would be delegated; (2) The determination of an applicant's capacity for discharging the NEPA responsibility; (3) The monitoring and overview of an applicant's performance in discharging the NEPA responsibilities; (4) Critical definitions and assumptions; and (5) Procedural items such as adequate notice and public hearings.	A
R-HUD-A[illegible]-00.....	24 CFR Part 58, environmental review procedures, proposed policies and procedures.		
Department of the Interior:			
R-IOS-A[illegible]-00....	Notice, Atlantic area, intention to develop outer Continental Shelf.	EPA has consistently pointed out the need for consolidating requirements for discreet operations within the appropriately titled order. This concern has focused on orders No. 7 and No. 8, in which are found various pollution control standards. In conformance with prior recommendations for the Alaskan OCS, EPA continues to urge proper organization and clarification of pollution control requirements that will reflect latest legislation, regulation, and prevention engineering, as well as EPA discharge permitting authority. OCS operating orders should be in agreement with EPA effluent limitations for the oil and gas extraction industry.	A
Department of Transportation:			
R-DOT-A[illegible]-00....	49 CFR Part 195, offshore pipeline facilities, proposed standards.	EPA recommended that the proposed regulation address equally the goals of human safety and pollution prevention. As currently written, the regulation is concerned with human safety to a much greater extent than with pollution prevention.	A
R-FAA-A[illegible]-00....	14 CFR Part 36, Noise standards, aircraft type and airworthiness certification.	EPA expressed no objections to the FAA regulation as presently written.	A
R-FHW-A[illegible]-00....	23 CFR Part 470, Urban area boundaries.	In EPA's view the regulations were generally adequate; however, modifications were suggested in an effort to strengthen the regulations from an environmental point of view.	A
R-FHW-A[illegible]-00....	23 CFR Part 750, highway beautification, proposed outdoor advertising controls.	EPA recommended that criteria adopted by States and/or local zoning authorities relative to size, lighting, and/or spacing of signs be no less restrictive than the criteria presently contained in agreements between the State(s) and the Secretary of Transportation. In addition, EPA recommended there be a maximum period of time a "grandfather clause" sign be allowed to remain in use.	A

[FRL 310-2; OPP—32000/162]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before February 28, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division, (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60-day period has expired. If no claims are received within the 60-day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60-day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after February 28, 1975.

APPLICATIONS RECEIVED

EPA File Symbol 8419-RT. The Andersons, PO Box 119, Maumee OH 43537. THE ANDERSONS CRABGRASS PREVENTER WITH BALFIN. Active Ingredients: N-butyl-N-ethyl-a,a,a-trifluoro-2,6-dinitro-p-toluidine 0.58%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 10445-RL. Calgon Corp., PO Box 1346, Pittsburgh PA 15230. H-204A MICROBIOCIDE. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 19.5%; Bis (Tri-n-Butyltin) Oxide 7.5%. Method of Support: Application Proceeds under 2(c) of interim policy.

EPA Reg. No. 239-2358. Chevron Chem. Co., Ortho Div., 940 Hensley St., Richmond CA 94801. ORTHO CRAB GRASS & DANDELION KILLER. Active Ingredients: Dodecylammonium Methanearsonate 8.0%; Octylammonium Methanearsonate 8.0%; Octylammonium Salt of 2,4-Dichlorophenoxyacetic Acid 8.16%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 100-LTE. Ciba-Geigy Corp., Agricultural Div., PO Box 11422, Greensboro NC 27409. CIBA-GEIGY AATREX 90WP. Active Ingredients: Atrazine: 2-chloro-4-ethylamino-6-isopropylamino s-triazine 85.5%; Related compounds 4.5%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 7273-RUL. Crown Chemicals, 4905 N Main St., Rockford IL 61101. CROWN ALL PURPOSE LIVESTOCK AND POULTRY DUST WITH RABON. Active Ingredients: 2-chloro-1-(2,4,5-trichlorophenyl) vinyl dimethyl phosphate 3.00%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 279-EOOT. FMC Corp., 100 Niagara St., Middleport NY 14105. PYRENONE FOOD PLANT FOGGING INSECTICIDE. Active Ingredients: Pyrethrins 0.5%; Piperonyl Butoxide, Technical 5.0%; Petroleum Distillate 94.5%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 35609-R. General Ecology, Inc., General Ecology Bldg., 685 Kromer Ave., Berwyn PA 19312. CARE-FREE! POOLIFIER. Active Ingredients: Silver 0.5%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 869-RLR. Green Light Co., PO Box 16192, San Antonio TX 78246. GREEN LIGHT KELTHANE SPRAY. Active Ingredients: 1,1-bis(chlorophenyl)-2,2,2-trichloroethanol 18.5%; Xylene 73.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 35611-R. Hollis Applied Sciences Co., PO Box 38245, Memphis TN 38138. HASCOCIDE 45. Active Ingredients: Poly[oxyethylene(dimethyliminio)-ethylene(dimethyliminio)ethylene dichloride] 20.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 3837-UG. LuBar Co., 1708 Campbell, Kansas City MO 64108. 123 ALGAECIDE. Active Ingredients: Poly-[oxyethylene(dimethyliminio)ethylene(dimethyliminio)ethylene dichloride] 1.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 3837-UE. LuBar Co., 1708 Campbell, Kansas City MO 64108. SPT. Active Ingredients: Poly[oxyethylene(dimethyliminio)ethylene (dimethyliminio)-ethylene dichloride] 10.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 1706-RUE. Nalco Chemical Co., 6216 W 66th Pl., Chicago IL 60638. NALCO 4WC264 MICROORGANISM CONTROL CHEMICAL. Active Ingredients: Sodium dichloro-s-triazinetrione dihydrate 18.0%. Method of Support. Application proceeds under 2(a) of interim policy.

EPA File Symbol 33576-EO. Olin Water Services, Olin Corp., 120 Long Ridge Rd., Stamford CT 06904. OLIN 3301. Active Ingredients: Methylene Bis Thiocyanate 10%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 7256-1. Mathesod Gas Products, A Div. of Will Ross, Inc., 2727 W Good Hope Rd., PO Box 2012, Milwaukee WI 53201. "ETHYLENE 95%". Active Ingredients: Ethylene 95%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4876-LA. Seedkem, 526 NW 4th, Evansville IN 47708. DOUBLE DUTY GARDEN DUST. Active Ingredients: Carbaryl (1-Naphthyl N-Methylcarbamate) 4.00%; Maneb (Manganese Ethylene Bisdithiocarbamate) 5.00%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 12042-A. Verax Chemical Co., 3753 Brooklyn Ave., NE, Seattle WA 98105. HYCO DISINFECTANT-SANITIZER-DEODORIZER. Active Ingredients: n-Alkyl (60%, C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 5%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 5%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 34810-R. Wexford Labs., Inc., 1635 S Vandeventer Ave., St. Louis MO 63110. WEX-SAN. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 4.5%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 4.5%; Tetrasodium ethylenediamine tetraacetate 2.0%; Sodium Carbonate 4.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 34810-G. Wexford Labs., Inc. WEX-SAN-M. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 2.50%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 2.25%; Sodium Carbonate 3.00%; Tetrasodium ethylenediamine tetraacetate 1.00%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 34810-E. Wexford Labs., Inc. SUPER WEX-SAN. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 6.25%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl amonium chlorides rides 6.25%; Tetrasodium ethylenediamine tetraacetate 3.60%; Sodium Carbonate 3.00%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 662-LO. Wyandotte Chemical Co., J. B. Ford Div., Wyandotte MI 48192. WYANDOTTE STERI-CHLOR C HIGHLY-SOLUBLE CHLORINE SANITIZER. Active Ingredients: Sodium dichloro-s-triazinetrione dihydrate 7.2%. Method of Support: Application proceeds under 2(c) of interim policy.

Dated December 13, 1974.

JOHN B. RITCH, Jr.,
Director,
Registration Division.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 20252, 20253; File Nos. BP19550, 19595]

JULIE P. MINER (KDXU) AND ALBERT L. CRAIN

Order Designating Applications for Consolidated Hearing on Stated Issues

In re Applications of JULIE P. MINER (KDXU) St. George, Utah. Requests: 890 kHz, 10 kW, DA-N, U, Docket No. 20252, File No. BP-19550. ALBERT L. CRAIN St. George, Utah. Requests: 890 kHz, 10 kW, 50 kW-LS, DA-N, U, Docket No. 20253, File No. BP-19595, For Construction Permits.

1. The Commission, by the Chief of the Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned applications, which are mutually exclusive in that they seek the same frequency in St. George, Utah.

2. Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive daytime service from the proposals. Consequently, for the purposes of comparison, the areas and populations which would receive primary daytime service, together with the availability of other primary aural daytime services (1 mV/m or greater in the case of FM) in such areas will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

3. Albert Crain indicates, in an amendment, that a random general public survey was conducted. However, he has failed to identify the person or persons who conducted these interviews. In light of question and answer 11(b) of the Commission's Primer on the Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971), an appropriate issue will be included.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. Accordingly, *it is ordered,* That pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the efforts made by Albert Crain to ascertain the community problems of the area to be served and the means by which the applicant proposes to meet these problems.

2. To determine which of the proposals would, on a comparative basis, better serve the public interest.

3. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

6. *It is further ordered,* That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to section 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

7. *It is further ordered,* That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as rquired by § 1.594(g) of the rules.

Adopted: December 9, 1974.

Released: December 13, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc. 74-30315 Filed 12-27-74; 8:45 a.m.]

XUM V 39 N 251 DEC 30 1974 XUM V

[Docket Nos. 20283, 20284; File Nos. BPH-3433, BPH-9053]

PELLA COMMUNICATIONS, INC. AND TULIP CITY BROADCASTING CO.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re Applications of: PELLA COMMUNCIATIONS, INC., Pella, Iowa, Requests: 103.3 MHz, No. 277; 100 kW (H&V); 451 feet, Docket No. 20283, File No. BPH-3433.

Joseph L. Stone and Earl W. Fessler, d/b as TULIP CITY BROADCASTING CO., Pella, Iowa, Requests: 103.3 MHz, No. 277; 58.77 kW (H&V); 339 feet, Docket No. 20284, File No. BPH-9053, For Construction Permits.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned applications which must be designated for comparative hearing since they seek the same channel in the same community.

2. Data submitted by the applicants indicate that there would be a significant difference in the size of the areas and populations which would receive service from the proposals. Consequently, for the purposes of comparison, the areas and populations which would receive primary service, together with the availability of other primary aural services (1 mV/m or greater in the case of FM) in such areas will be considered under the standard comparative issue, for the purpose of determining whether a comparative preference should accrue to either of the applicants.

3. Tulip City Broadcasting Co. (Tulip), intends to locate its studio 4½ miles northwest of the city of Pella on Highway 163, at its transmitter site. Section 73.210 of the Commission's rules requires that the main studio of a commercial FM station be located in the proposed city of license, or that good cause be shown for locating the main studio outside that community. Tulip states that the proposed studio site is owned by the applicant, and provides better access and better parking facilities for employees and visitors than would be a leased facility within the city limits. In addition, the applicant states that a better quality signal can be generated from the transmitter site by having a direct link between the audio equipment and the transmitter. Finally, the applicant claims that having the same location for the studio and transmitter is more economical, and that suitable facilities within the corporate limits of Pella, which would be available for leasing, are limited. In view of the foregoing, we find that good cause to locate the studio at the proposed site has shown in this instance.

4. Tulip City Broadcasting Co., will require $73,200 to construct and operate the proposed facility for a period of one year, without revenue, itemized as follows:

Equipment	$32,600
Land	2,200
Buildings	1,500
Miscellaneous	10,900
Working capital requirement	20,000
Interest on bank loan	6,000
Total	73,200

To meet this requirement, the applicant relies upon existing capital ($3,500), new capital ($35,450), and a $50,000 bank loan. However, the bank loan fails to state the terms of repayment and collateral as required by section III, page 3, paragraph 4(e) of the application form. As a result, an issue will be specified to determine its availability.

5. Pella Communications' community survey failed to state whether any significant labor unions exist in Pella, and no labor union leaders were included in the list of interviews with community leaders. In addition, the applicant failed to state the specific method by which members of the general public were selected for interview. As a result, no determination can be made as to whether the survey was truly random. Finally, since no statement was made as to precisely who conducted the surveys, it cannot be determined whether the requirements of question and answer 11 of the Primer on the Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971), have been met. As a result, an appropriate issue will be specified.

6. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

7. Accordingly, *It is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. With respect to the application of Tulip City Broadcasting Co., to determine:

(a) The terms of repayment and collateral for the $50,000 bank loan and its availability to the applicant; and

(b) Whether, in light of the evidence adduced pursuant to (a), above, the applicant is financially qualified to construct and operate as proposed.

2. To determine the efforts made by Pella Communications to ascertain the community problems of the area to be served and the means by which the applicant proposes to meet those problems.

3. To determine which of the proposals would, on a comparative basis, better serve the public interest.

4. To determine, in light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

8. *It is further ordered*, That, Tulip City Broadcasting Co., having demonstrated that good cause exists for the location of the main studio outside the city limits of Pella, Iowa, and that the location is consistent with operation of the station in the public interest, permission to so locate the main studio IS GRANTED.

9. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to section 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

10. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and section 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by section 1.594(g) of the rules.

Adopted: December 13, 1974.

Released: December 20, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

RADIO TECHNICAL COMMISSION FOR MARINE SERVICES

Meetings

In accordance with Pub. L. 92-463, "Federal Advisory Committee Act," Radio Technical Commission for Marine Services (RTCM) meetings scheduled for the future are as follows:

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary

Special Committee No. 65

"SHIP RADAR"
Notice of 94th Meeting
Wednesday, January 15, 1975—1:30 p.m.
Conference Room 6010
2025 M Street NW.
Washington, D.C.

AGENDA

1. Call to Order; Chairman's Report.
2. Adoption of Agenda; Appointment of Rapporteur.
3. Acceptance of SC-65 Summary Records.
4. Progress Report of Collision Avoidance Working Group.
5. Small Boat Radar Specifications.
6. Other business.
7. Establishment of next meeting date.

Collision Avoidance Working Group: The Collision Avoidance Working Group

will hold a meeting on Wednesday, January 15, 1975, beginnnig at 9:30 a.m., in Conference Room 8210, 2025 M Street NW., Washington, D.C.

Irvin Hurwitz, Chairman SC-66
Federal Communications Commission
Washington, D.C. 20554
Phone: (202) 632-7197.

Special Committee No. 66

"Receiver Standards for the Maritime Mobile Service"
Notice of 27th Meeting
Wednesday, January 15, 1975—9 a.m. (all-day meeting)
Conference Room A205
1229-20th Street, NW.
Washington, D.C.

AGENDA

1. Call to Order; Chairman's report.
2. Adoption of Agenda.
3. Acceptance of Summary Records.
4. Reports on Work Assignments.
5. Approval of submitted papers.
6. Discussion of problem areas.
7. Solicitation of Work Assignments.
8. Other business.
9. Establishment of next meeting date.

H. R. Smith, Chairman, SC-66
ITT Mackay Marine

Elizabeth, N.J. 07202
Phone: (201) 527-0300.

RTCM Executive Committee

Notice of January meeting
Thursday, January 16, 1975—9:30 a.m.
Conference Room 847
1919 M Street, NW.
Washington, D.C.

AGENDA

1. Call to Order; Chairman's Report.
2. Introduction of Attendees; Adoption of Agenda.
3. Approval of Minutes.
4. Committee Reports.
5. Status report on "Federal Advisory Committee Act".
6. Discussion on draft papers.
7. Assembly Meeting Report.
8. Reports on other meetings.
9. Summary reports and announcements.
10. New business.
11. Establishment of next meeting date.

To comply with the advance meeting notice requirements of Public Law 92-463, a comparatively long interval of time occurs between publication of this notice and the actual meetings. Consequently, there is no absolute certainty that the listed meeting room will be available on the day of the meeting. Those planning to attend any of the preceding listed meetings should report to the room number given in the notice. If a room substitution has been made, the new meeting room location will be posted at the room listed in this notice.

Agendas, working papers, and other appropriate documentation for each committee meeting are available at that meeting. Those desiring more specific information may contact either the designated Committee Chairman or the RTCM Secretariat. (Phone: (202) 632-6490)

The RTCM has acted as a coordinator for maritime telecommunications since its establishment in 1947. Problems are studied by Special Committees and the final reports are approved by the RTCM Executive Committee. All RTCM meetings are open to the public.

[Docket Nos. 20179, 20180, File Nos. BPH-8622, BPH-8782; FCC 74R-450]

TRI-COUNTY STEREO, INC. AND MORISON ENTERPRISES, INC. OF POLK COUNTY

Memorandum Opinion and Order Regarding Construction Permit

1. By Order, 39 FR 34103, published September 23, 1974, the Chief of the Broadcast Bureau, acting pursuant to delegated authority, designated the above-captioned applications for hearing. Presently before the Review Board is a petition to enlarge issues, filed November 1, 1974, by Tri-County Stereo, Inc. (Tri-County), requesting addition of site availability and Rule 1.526 (public inspection file) issues against Morison Enterprises, Inc. of Polk County (Morison).[1]

2. Tri-County concedes that its petition is late filed,[2] but, citing The Edgefield-Saluda Radio Co. (WJES), 5 FCC 2d 148, 8 RR 2d 611 (1966), asserts that it has raised "matters of great significance" which warrant evidentiary inquiry on the merits. Tri-County also asserts that "many of the events only recently occurred and petitioner has proceeded with due diligence to file this petition upon learning of them." The Review Board agrees with the Broadcast Bureau that good cause does not exist because Tri-County has not shown that the information relied upon in support of its petition could not have been obtained earlier. However, the petition does raise serious public interest questions. Thus, consistent with our usual practice, we will consider the petition on its merits.

SITE AVAILABILITY ISSUE

3. In support of its request for a transmitter site availability issue, Tri-County submits a letter and affidavit from the president of Ben Hill Griffin, Inc., the owner of the land Morison has specified as its site, which state that his permission for Morison's utilization of the site has been withdrawn. Petitioner, therefore, asserts that the proposed site is unavailable. The Bureau supports addition of the requested issue. Opposing enlargement, Morison contends that addition of such an issue would be premature because it is presently negotiating for a new site, and it intends to file a petition to amend to reflect this purchase shortly.

4. Morison does not dispute that its originally specified site is apparently unavailable and no petition to amend specifying a new site has been acted upon by the Administrative Law Judge. Accordingly, a site availability issue will be added against Morison. See Community Broadcasting Co., Inc., 43 FCC 2d 489, 31 RR 2d 164 (1974).

PUBLIC INSPECTION FILE ISSUE

5. Petitioner, in support of its request for the addition of a Rule 1.526 issue against Morison, alleges that the Morison public file does not contain two pieces of Commission correspondence and two amendments to the Morison application. In support of its allegations, Tri-County attaches the affidavits of W. Bruce Strenth and Francis J. Matrangola, each of whom states that he reviewed the Morison file, and that the file contained only the unamended Morison application, dated December 26, 1973. Both the Bureau and Morison oppose the requested issue. Morison submits that it is currently "in substantial compliance with the Commission's Rules" because the omitted documents have either been placed in the file or will be added shortly.

6. The Review Board will add the requested issue. Substantial compliance with Rule 1.526, as suggested by Morison, is not the correct criterion—"an applicant has either complied or not complied." Media, Inc., 22 FCC 2d 875, 876, 18 RR 2d 1175, 1178 (1970). It appears that Morison has not complied with the requirements of Rule 1.526, and it has offered no explanation for its failure to do so. However, in the absence of any indication or allegation of intentional misconduct or prejudice to the parties or to the public, we will add the issue on a comparative basis only. Cf. Edward G. Atsinger, III, 29 FCC 2d 443, 21 RR 2d 1039 (1971).

7. Accordingly, *it is ordered*, That the petition to enlarge issues, filed November 1, 1974, by Tri-County Stereo, Inc., is granted to the extent indicated herein, and IS DENIED in all other respects; and

8. *It is further ordered*, That the issues in this proceeding are enlarged by the addition of the following issues:

(a) To determine whether Morison Enterprises, Inc. of Polk County has reasonable assurance of the transmitter site specified in its application;

(b) To determine whether Morison Enterprises, Inc. of Polk County has complied with Section 1.526 of the Commission's Rules, and, if not, the effect thereof on its comparative qualifications to be a Commission licensee.

9. *It is further ordered*, That the burdens of proceeding and proof under issue (a) added herein shall be on Morison Enterprises, Inc. of Polk County.

Adopted: December 16, 1974.

Released: December 20, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

[FR Doc.74-30312 Filed 12-27-74;8:45 am]

[1] Also before the Review Board are: (a) comments, filed November 14, 1974, by the Broadcast Bureau; (b) opposition, filed November 18, 1974, by Morison; and (c) reply, filed November 22, 1974, by Tri-County.

[2] The petition was filed approximately three weeks after the time for filing had expired. See section 1.229 of the rules.

FEDERAL ENERGY ADMINISTRATION

CONSUMER AFFAIRS AND SPECIAL IMPACT ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given

XUM
DEC 30 1974
V

that the Consumer Affairs and Special Impact Advisory Committee will meet from 7 p.m. until 9 p.m., Wednesday, January 15, 1975, and reconvene at 9 a.m., Thursday, January 16, 1975, in Room 3400, 12th & Pennsylvania Avenue NW., Washington, D.C.

This Committee was established to provide the Federal Energy Administration with diversified knowledge and experiences possessed by a wide range of highly qualified individuals who have been extensively involved in planning, development, and implementation of programs to remedy the problems of the consumer, the poor, the elderly, and the handicapped persons in rural and urban America.

The Agenda for the meeting is as follows:

1. Oil Pricing Policy Issues—Impact on Consumers.
2. Oil Pricing Regulations.
3. FEA Allocation Program and FEA Compliance Program.
4. Discussion of Coal Price Increases—Consumer Cost vs. Industrial Cost.
5. Progress Report on Resolutions Regarding Emergency Social Programs for this Winter.

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Office (202) 961-7022 at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on December 24, 1974.

ROBERT E. MONTGOMERY, JR.,
General Counsel.

FEDERAL MARITIME COMMISSION

[INDEPENDENT OCEAN FREIGHT FORWARDER LICENSE NO. 1056]

BEVON INTERNATIONAL, INC.

Order of Revocation

Bevon International, Inc., 196 East Bay Street, Charleston, South Carolina 29402 voluntarily surrendered its Independent Ocean Freight Forwarder License No. 1056 for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(f) (dated 9/15/73);

It is ordered, that Independent Ocean Freight Forwarder License No. 1056 be and is hereby revoked effective December 13, 1974, without prejudice to reapply for a license at a future date.

It is further ordered, that a copy of this Order be published in the Federal Register and served upon Bevon International, Inc.

WM. JARRELL SMITH, JR.,
Deputy Managing Director.

[FR Doc.74-30320 Filed 12-27-74;8:45 am]

[INDEPENDENT OCEAN FREIGHT FORWARDER LICENSE NO. 391]

ERRION COMPANY, INC.

Order of Revocation

Errion Company, Inc., 200 Chestnut Avenue, Bogota, New Jersey 07603 voluntarily surrendered its Independent Ocean Freight Forwarder License No. 391 for revocation.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) § 7.04(f) (dated 9/15/73);

It is Ordered, that Independent Ocean Freight Forwarder License No. 391 be and is hereby revoked effective December 12, 1974, without prejudice to reapply for a license at a later date.

It is Further Ordered, that a copy of this Order be published in the FEDERAL REGISTER and served upon Errion Company, Inc.

WM. JARRELL SMITH, JR.,
Deputy Managing Director.

PORT OF OAKLAND AND MARINE TERMINALS CORP.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before January 19, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

J. Kerwin Rooney, Esquire
Port Attorney
Port of Oakland
66 Jack London Square
P.O. Box 2064
Oakland, California 94607

Agreement No. T-2913-1 between the City of Oakland (City) and Marine Terminals Corporation (MTC) amends the basic agreement which provides for the two-year nonexclusive preferential assignment by City of MTC of certain premises in the Port of Oakland, California, for the purpose of docking, unloading and loading vessels. The purpose of the amendment is to delete Parcel Two from the Agreement without any change in compensation and to make other appropriate changes related thereto.

By Order of the Federal Maritime Commission.

Dated: December 20, 1974.

FRANCIS C. HURNEY,
Secretary.

PUERTO RICO TRADES AGREEMENT NO. DC-8, AS AMENDED

Request for Cancellation

Notice of Request for Cancellation of Agreement Filed By:

John Mason, Esq.
Ragan & Mason
The Farragut Building
900 Seventeenth Street, NW.
Washington, D.C. 20006

Agreement No. DC-8, as amended, between Sea-Land Service, Inc., Seatrain Lines, Inc., Transamerican Trailer Transport, Inc., Trailer Marine Transport, Inc. (TMT), and Gulf Puerto Rico Lines, Inc., permits the parties to exchange information relative to cost of service, rates and rationalization of sailings[1] in the trades between United States Atlantic, Gulf and Pacific ports and ports in Puerto Rico. The basic agreement was approved by the Commission on January 17, 1964.

The parties to Agreement No. DC-8 no longer operate in trades between the United States East and Gulf Coasts and Puerto Rico and, therefore, have requested the Commission to issue an order terminating Agreement No. DC-8, as amended, and the rights and obligations of the parties thereunder.

Interested parties desiring to comment on this matter may file such comments with the Secretary, Federal Maritime Commission, Washington, D.C.

[1] TMT chose not to participate in amendment DC-8-3 which permitted agreement on the rationalization of sailings.

20573, on or before January 9, 1975.

A copy of any such statement should also be forwarded to the party filing the request for cancellation of the agreement and the statement should indicate that this has been done.

By Order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

Dated: December 23, 1974.

FEDERAL POWER COMMISSION

[Docket No. G-18352, *et al.*]

CITIES SERVICE OIL CO. ET AL.

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates[1]

DECEMBER 17, 1974.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before January 6, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI75-76]

EXXON CORP.

Determination on Rate Changes [1]

DECEMBER 18, 1974.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the Regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and section 154.102 of the Regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[1] Does not consolidate for hearing or dispose of the several matters herein.

						11-18-74		11-19-74	[6] 20.625	[8] 46.2	RI75-46

[1] Unless otherwise stated, the pressure base is 15.025 lb/in²a.
[2] Contract agreement dated Oct. 28, 1974.
[3] Onshore gas.
[4] Offshore gas.
[5] Subject to adjustment with respect to supplemental gas.
[6] The weighted average prices inclusive of price adjustment factors is 27.2516 cents (onshore) and 23.0208 cents (offshore).
[7] Flowing gas. Gas from reservoirs discovered prior to Oct. 1, 1968.
[8] New gas. Gas that qualifies under Opinion No. 567, i.e., from reservoirs discovered from Oct. 1, 1968 to Jan. 1, 1973.
[9] Includes 1.0 cent transportation allowance for offshore gas delivered onshore.
[10] Gas qualifying for national rate. Reflects rate prior to issuance of Opinion No. 699-H.
[11] Increase to area rate established in Opinion No. 598 and national rate established in Opinion No. 699.
[12] No increase in annual revenues from the underlying rates reflected in the filing.
[13] Includes documents showing the reservoirs which were discovered between Oct. 1, 1968, and Jan. 1, 1973, and documents prior to Jan. 31, 1954.

The proposed rates do not exceed the applicable ceiling rates established by this Commission. There is a question, however, as to whether Exxon is entitled to amend its basic contract, as it has done in its October 28, 1974, agreement, in light of the permanent certificate issued to it on November 15, 1963, in Docket No. CI64-5, 30 FPC 1297. Since Exxon's proposed increases are based on the subject contract amendment, we shall suspend the use of the proposed increases as well as the contract amendment for one day from the dates they would otherwise become effective, pending resolution of the issue presented here.

Any action herein is expressly subject to the condition that it is without prejudice to the requirements of Section 7 of the Natural Gas Act.

[FR Doc. 74-30236 Filed 12-27-74; 8:45 am]

[Docket No. E-9117]

MONTAUP ELECTRIC CO.

Order Rejecting Proposed Change in Rate, and Setting Matters for Hearing

DECEMBER 18, 1974.

On November 18, 1974, Montaup Electric Company (Montaup) submitted for filing a proposed fuel adjustment clause as a change in rate applicable to sales of capacity and energy to the City of Taunton, Massachusetts (Taunton). The proposed rate schedule [1] would apply to sales pursuant to Section 5.2—*Scheduled Purchase Capacity*—of the July 21, 1970 Interconnection Agreement (FPC No. 15) between Montaup and Taunton. Montaup requests that the new rate be effective December 19, 1974, for a term not to

[1] Supplement No. 2 to FPC No. 15 (Scheduled Purchase Capacity).

extend beyond the date of regular operation of Taunton's Cleary Unit 9 (hereafter referred to as Unit 9).

Notice of the proposed rate increase was issued December 4, 1974 with responses due on or before December 17, 1974. On that later date, December 17, Taunton filed a Protest, Petition to Intervene and Motion to Reject the filing (Petition). Although the letter transmitting Montaup's filing states that a copy thereof was sent to Taunton on November 18, 1974 (as required by § 35.3 (a) of the Commission's regulations under the Federal Power Act), in its Petition Taunton maintains that it had no notice whatever of the filing prior to receipt of the Commission's December 4, 1974 Notice.

Montaup is presently providing service to Taunton under Section 5.1—*Interim Capacity Purchase*—of the July 31, 1970 Interconnection Agreement. *The Interim Capacity Purchase* is provided from Montaup's Somerset Unit No. 6 at the rate $2.10 per kilowatt-month, plus 4.4 mills per kilowatt-hour for the first 300 kilowatt-hours per month per kilowatt of demand and 3.8 mills per kilowatt-hour for additional kilowatt-hours per month, as set forth in Appendix A to the Interconnection Agreement. Under the proposed rate change, service would be billed at the rate for the *Interim Capacity Purchase* set out in Appendix A, with the exception that the following fuel adjustment clause would be added:

> For any month in which the alongside cost of fuel at the Somerset Plant of Montaup Electric Company is greater or less than 42.64c per million British Thermal Units (BTU), the energy charge as set forth in Appendix A will be increased or decreased respectively by 96.875/10,000 mills ($0.00000968) per kilowatt-hours delivered for each mill of excess or deficit from the 42.64c base.

Data submitted by Montaup indicate that under the proposed rate increase, revenues collected during the twelve-month period ending December 31, 1975 would be $1,528,560. That is more than twice the revenues that would be received during the same period if the present rate were applied, $734,160.

In analyzing the proposed filing, it is necessary to consider several provisions in the Interconnection Agreement. In pertinent part Section 7.1 states:

> TAUNTON shall proceed to design, construct and install on its own system (sic), at its own expense and with a target date for regular operation of July 1, 1973, a new unit of approximately 100 megawatts capacity, capable of cycling operation, to be known as UNIT 9.

Section 7.2 obligates Montaup to purchase that portion of Unit 9's capacity not required by Taunton to meet its peak load. As set forth in Sections 2.2 and 5.1—*Interim Capacity Purchase*—during "the period August 1, 1969, through June 30, 1973, or until regular operation of Unit 9, whichever is later" (emphasis added), Montaup will purchase capacity in the amounts and at the rate set forth in Exhibit A to the Interconnection Agreement. The rate remains constant during the period of *Interim Capacity Purchase*, and does not contain a fuel adjustment clause. The quantity sold was initially, as of August 1, 1969, 1600 kw and reached a level of 13,000 kw on November 1, 1972.

After the period of *Interim Capacity Purchase* is at an end, Section 5.2—*Scheduled Purchase Capacity*—becomes operative. In the latter situation Montaup will make available to Taunton such capacity, in excess of Montaup's estimated peak load, which Montaup has or can procure from another electric utility. Unless otherwise agreed, the rate for *Scheduled Purchase Capacity* "shall be at the seller's (Montaup's) costs, including, when applicable, the cost of capital or fair return."

As described below, Montaup asserts that the period for service under Section 5.1—*Interim Capacity Purchase* and the rate applicable thereto, terminates as of December 19, 1974. Montaup proposes to continue service pursuant to Section 5.2—*Scheduled Purchase Capacity*—at 13,000 kw. As indicated on Sheets 2 and 3 of the proposed filing, the rate, terms and conditions applicable to Scheduled Purchase Capacity under Section 5.2 are identical to those for Interim Purchase Capacity under Section 5.1 with the exception of the proposed fuel adjustment clause.

The instant filing is premised upon Montaup's argument that the Interconnection Agreement contemplated that the period for Interim Capacity Purchase would not continue more than a reasonable period of time beyond the July 1, 1973 target date for completion of Taunton's Unit 9. Montaup suggests that the effective date of the proposed rate change, December 19, 1974, marks the end of that "reasonable further period". In support of its position Montaup states that although 16 months have passed since Taunton's Unit 9 was to commence regular operation, "construction of the unit is not complete, and Montaup has not been able to obtain any assurance from Taunton as to when regular operation will commence". Montaup also notes that its fuel costs have been "skyrocketing" and that the monthly "cost for fuel at Unit 6 (Somerset) for energy sold to Taunton exceeds its (Montaup's) energy revenues from the sale by approximately $120,000".[1]

Taunton counters that operation of Unit 9 has been impeded due to labor strikes, late delivery of necessary parts, and regulatory lag due to a variety of environmental matters. Tauton characterizes as "nonsense" Montaup's suggestion that Unit 9 has been delayed because of the favorable rate for Interim Capacity Purchase under Section 5.1 of the Interconnection Agreement. On the contrary, Taunton asserts that this delay is injurious to it due to mounting financing costs and increases in construction costs.

Taunton maintains that Sections 5.1 and 2.2 of the Interconnection Agreement are clear and explicit in stating that the rate for Interim Capacity Purchase as set forth in Appendix A will remain in effect until Taunton's Unit 9 is operational. Taunton also points out that Section 1.1 of the Interconnection Agreement indicates that even if construction of Unit 9 had not begun prior to June 30, 1973, the contract would remain in full force and effect. It is difficult to reconcile Montaup's argument that the parties did not intend that the rate in Appendix A would remain in effect for more than 16 months beyond the July 1, 1973 target date for operation of Unit 9, with the fact that the parties apparently contemplated that construction of the 100 mw unit might not even begin until June 30, 1973.

As previously noted the rate set forth for service under Section 5.1—*Interim Capacity Purchase*—commenced on August 1, 1969 and was to continue through June 30, 1973, or until regular operation of Taunton's Unit 9, whichever was later. The language of the contract is clear: the rate will continue in effect until Taunton's Unit 9 becomes operational, and the contract's term is fixed to that event. While the language of the contract might lead to inequitable results, during the term of the contract Montaup cannot unilaterally file for a change in rate, "F.P.C. v. Sierra Pacific Power Co.", 350 U.S. 348 (1956) and "United Gas Pipe Line Co. vs. Mobile Gas Service Corp.", 350 U.S. 332 (1956).

Montaup's instant submittal, tendered as a change in rate, is rejected as such. However, we will treat it as a complaint or petition for relief pursuant to section 206 of the Federal Power Act, and set for hearing the question of whether the present rate for service to Taunton is inconsistent with the public interest.

The Commission finds

(1) It is necessary and appropriate in carrying out its responsibilities under the Federal Power Act that the Commission reject Montaup's proposed unilateral rate increase to Taunton, and set for hearing the question of whether the presently effective rate is inconsistent with the public interest.

(2) It appears that Taunton's interests, which are not adequately represented by existing parties, may be directly affected by the Commission's action in this proceeding, and accordingly, Taunton's intervention would be in the public interest.

The Commission orders

(A) Montaup Electric Company's proposed change in rate, described herein, for service to the City of Taunton, Massachusetts, is hereby rejected.

(B) The City of Taunton, Massachusetts is hereby permitted to intervene in this proceeding, subject to the Commission's Rules and Regulations. Provided, however, that such intervention shall not be construed as recognition by the Commission that the City of Taunton might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) Pursuant to the authority of the Federal Power Act, particularly sections

[1] See page 2 of the letter transmitting the proposed rate schedule.

DEC 30 1974 V 39 N 251 XUM

206, 308 and 309 thereof, and the Commission's Rules and Regulations, a public hearing shall be held commencing on April 15, 1975, in a hearing room of the Federal Power Commission, Washington, D.C., to determine whether the presently effective rate for electric service from Montaup Electric Company to the City of Taunton, Massachusetts, as described herein, is inconsistent with the public interest.

(D) On or before March 4, 1975, the intervenor, City of Taunton, Massachusetts shall serve its prepared testimony and exhibits in this proceeding. The prepared testimony and exhibits of the Commission Staff shall be served on or before March 13, 1975. Any rebuttal evidence by Montaup Electric Company shall be served on or before April 1, 1975.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-30331 Filed 12-27-74;8:45 am]

PLANNING RESEARCH CORP.

Notice To Show Cause

DECEMBER 23, 1974.

On November 5, 1974, the Associated Press (AP) filed a formal request under the Freedom of Information Act, 5 U.S.C. 552, for disclosure of the contract dated June 29, 1974, between the Federal Power Commission and Planning Research Corporation (PRC) announced by the Commission on July 11, 1974, or in the alternative, if certain portions of the contract are exempted from disclosure by the provisions of the Act, release of those portions which are not so exempted. The AP request of November 5, 1974, was submitted and considered by the Commission on November 6, 1974. In accordance with 28 CFR 50.9, the Commission directed that the matter be reviewed by the U.S. Department of Justice, and by November 22, 1974, all of the materials required for such review had been submitted to the Justice Department.

On December 4, 1974, the Justice Department responded to the Commission's request by recommending as a basis for making a determination as to the material which should be publicly disclosed and that which should be withheld from public disclosure, the following criteria:

(a) From the entire contract, the Commission should extract the "essence of the contract"; that is, all of the provisions which, upon the execution of the contract, create a contract obligation on the part of PRC (failure of performance of which would constitute contract default). These provisions should be made available to the requester (AP).

(b) From the remainder of the contract, delete all material which is exempt from disclosure as constituting trade secrets, and commercial or financial information obtained from a person which is privileged or confidential under Exemption 4 of the Freedom of Information Act, 5 U.S.C. 552(b)(4).[1]

[1] 5 U.S.C. 552(b)(4) exempts from the disclosure requirements of the Act. "Trade secrets and commercial or financial information obtained from a person and privileged or confidential;"

The material extracted under (a) above, and whatever remains following the deletions as described in (b) above should be released to the AP, as well as to any other interested parties upon request.

Employing these standards, the Commission Staff identified that material which it considers to be exempt from disclosure under the provisions of the Act. Because value judgments are involved in making such determination, the Commission requested the Justice Department to review Staff's application of the aforementioned criteria in determining that certain portions of the contract are exempt from public disclosure. The Justice Department has advised that it would not review Staff's determinations.

Accordingly, the Commission has concluded that the fairest method of determining the validity of Staff's determinations relating to the material to be disclosed or to be withheld from public disclosure is to afford PRC and any other interested party an opportunity to show cause why the entire contract should not be released or, in the alternative, why it should not be released except for those portions thereof which are determined ments of the Freedom of Information to be exempt from the disclosure require- Act, unless otherwise required to be kept confidential by Federal procurement regulations, 41 CFR 1-3.103(b).[2]

Attached to this notice as an appendix [3] is a list of the portions of the contract which have been determined by the FPC Staff to be matters which are exempt from the disclosure requirements of the Freedom of Information Act.

We recognize the need for maintaining the delicate balance between the competing interests of the public's right to know and the protection of private interest and property rights. Our regulations (18 CFR 1.36) implementing the provisions of the Freedom of Information Act, in our opinion, achieve a fair balance of these opposing interests. Section 1.36 (b) makes the Commission's public records available for inspection and copying in the public reference room maintained by the Office of Public Information. With relatively few exceptions [18 CFR 1.36(c)(14)], virtually all records of the Commission are available to the public. Exemption 4 of the Freedom of Information Act is implemented by the Commission's regulations [18 CFR 1.36 (c)(14)(iv)] which exclude from public disclosure:

"Trade secrets and commercial or financial information obtained from a person and privileged or confidential;"

On the basis of the foregoing statutory and regulatory requirements and provisions, the FPC Staff has determined that the material identified in the appendix hereto falls within the scope of section 552(b)(4) of the Freedom of Information Act exemption and is otherwise required to be withheld from public disclosure by the Federal procurement regulations, 41 CFR 1-3.103(b).

It is the intent of this Commission to grant all lawful requests for access to its records consistent with the provisions of the Freedom of Information Act, applicable Federal Procurement Regulations, and the terms of the Commission's own rules and regulations, without impairing legitimate proprietary interests. A full and open hearing will afford the opportunity to all parties to present relevant evidence and argument in support of their respective positions so as to enable the Commission to resolve all legitimate areas of conflict between public and private interests compatibly with the overall public interest.

The Commission finds:

It is in the public interest and in accordance with due process to afford PRC, AP and any other interested parties an opportunity to show cause why all or any portion of the contract should not be disclosed to the public.

The Commission orders:

(A) PRC, AP and all other interested parties are invited to show cause why the entire contract should not be released or, in the alternative, why it should not be released except for those portions thereof which are determined to be exempt from the disclosure requirements of the Freedom of Information Act, 5 U.S.C. 552(b)(4), unless otherwise required to be kept confidential by Federal procurement regulations, 41 CFR 1-3.103 (b).

(B) An Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose [See Delegation of Authority, 18 CFR 3.5(d)], shall preside at a hearing under Part 1, Chapter 1 of our rules of practice and procedure, such hearing to commence January 2, 1975, at 10:00 a.m. The Administrative Law Judge shall prescribe relevant procedural matters not herein provided.

(C) Any examination by the Administrative Law Judge of portions of the contract alleged by a party to be exempt from disclosure shall be in camera, and these portions shall not be reproduced in the transcript of the hearing that may be held.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-30332 Filed 12-27-74;8:45 am]

[2] Section 1-3.103(b) of the Federal Procurement Regulations promulgated by the General Services Administration provides: "Promptly after making awards in any procurement in excess of $10,000, the contracting officer normally shall give written notice to the unsuccessful offerors that their proposals were not accepted. Upon request, unsuccessful offerors whose offered prices were lower than those of the contractor which received the award shall be furnished the reasons why their proposals were not accepted; but in no event will an offeror's cost breakdown, profit, overhead rates, trade secrets, or other confidential business information be disclosed to any other offeror."

[3] Appendix filed as part of original document.

NATIONAL GAS SURVEY

Determination and Certification With Respect to Renewal of Certain Committees

DECEMBER 23, 1974.

The Chairman of the Federal Power Commission has determined that renewal of the terms of the National Gas Survey's Executive Advisory Committee, Coordinating Committee, Coordinating Task Force, Technical Advisory Committee—Supply, Technical Advisory Committee—Transmission, and Technical Advisory Committee—Distribution, from and after December 31, 1974, to and including a date not later than December 31, 1975, is necessary in the public interest in connection with the performance of duties imposed by law upon the Commission.

This notice is published pursuant to Commission General Order No. 464, issued December 19, 1972, 38 FR 1083, as amended by Commission General Order No. 464–A, issued August 2, 1974, paragraph 5(e) and authorities referred to therein, 39 FR 28929. See also Office of Management and Budget, Advisory Commitee Management, Circular A–63 Revised, March 27, 1974, 39 FR 12389, as amended July 19, 1974.

The four advisory committees to be renewed were established by Commission orders issued April 6, 1971: Order Establishing National Gas Survey Executive Advisory Committee and Designating Its Membership and Chairmanship, 36 FR 6922; Order Establishing National Gas Survey Technical Advisory Committees and Designating Initial Membership, 36 FR 6922. The Coordinating Committee to be renewed was initially established by Commission order issued May 10, 1971, Order Establishing National Gas Survey Coordinating Committee and Designating Its Membership and Chairmanship, 36 FR 8910. The Coordinating Task Force was initially established by Commission Order issued December 21, 1971, Order Establishing Technical Advisory and Coordinating Committee Task Forces and Designating Membership, 36 FR 25183. The aforementioned orders all referred to an earlier order of the Commission issued February 23, 1971, Order Authorizing the Establishment of National Gas Survey Advisory Committees and Prescribing Procedures, 36 FR 3851.

Each of the foregoing orders have been amended by subsequent Commission orders of April 25, 1972, 37 FR 8578, Order Amending National Gas Survey Orders Issued February 23, 1971, and April 6, 1971; of June 27, 1972, 37 FR 13306, Amending National Gas Survey Orders; and of December 19, 1972, 37 FR 28658, Amending National Gas Survey Orders.

The terms of the four advisory committees were extended by Commission order issued December 28, 1973, Order Renewing National Gas Survey Technical Advisory Committees and Coordinating Committees, 39 FR 1540. The term of the Coordinating Task Force was extended by Commission order issued December 28, 1973, Order Renewing National Gas Survey Technical Advisory and Coordinating Committee Task Forces, 39 FR 1482.

The aforementioned committees are presently scheduled to expire on December 31, 1974. As renewed, the subject committees and task force would function as set forth in the aforementioned orders for the additional period of time set forth above—from and after December 31, 1974, to and including a date not later than December 31, 1975.

It is intended that these committees will provide a framework for a continuing National Gas Survey and that from time to time the Commission shall request the establishment of task forces subordinate to the technical advisory committees. The persistent and critical problems facing the nation's gas industry require continuation of the Survey's work. The purpose of the proposed committees will be to determine in each segment of the gas industry (supply, transmission and distribution) the conservation and energy management options available and to analyze and evaluate the potential costs and benefits of each and to suggest strategies for implementing these options. These committees are also expected to consider the matter of environmental trade-offs.

The Office of Management and Budget, Advisory Committee Management, has ascertained that renewal of the subject committees as set forth above is in accord with the requirements of the Federal Advisory Committee Act, 86 Stat. 770. Renewal of these committees shall be reflected in appropriate Commission orders to be issued after December 26, 1974.

JOHN N. NASSIKAS,
Chairman.

[FR Doc.74-30432 Filed 12-27-74;8:45 am]

[Docket No. RP75-44-1]

ALABAMA TENNESSEE NATURAL GAS CO. AND NORTH ALABAMA GAS DISTRICT GLASSROCK PRODUCTS CORP.

Order Granting Interim Extraordinary Relief and Setting Matter for Formal Hearing and Prescribing Procedures

DECEMBER 26, 1974.

North Alabama Gas District (North Alabama) on behalf of Glassrock Products Corporation (Glassrock) requests emergency relief in order to maintain production and forestall a plant closure. Petitioner, a customer of Alabama-Tennessee Natural Gas Company (Alabama-Tennessee), requires up to 120 Mcf per day in order to supply Glassrock's needs for process use in its manufacture of electrical components. A direct fired small rotary kiln is utilized in the operation. According to the company, fuel oil can not be utilized because of its sulfur content which contaminates the product. An allocation of propane has now been requested, but because of the assurance by Alabama-Tennessee of an adequate gas supply a number one priority for propane had not been pursued previously. The plant is currently shut down with 28 employees laid off.

Alabama-Tennessee is currently being curtailed by its sole supplier, Tennessee Gas Pipeline Company, and North Alabama advises that it has been reduced to only 42 percent of its requirements adequate to serve approximately two-thirds of its Priority 2 service. In view of this North Alabama alleges that it cannot offer any relief unilaterally from within its system.

We shall grant emergency relief for a period of up to 30 days in which time Glassrock may be able to secure an alternate fuel or in the event that relief is required beyond this period Petitioner may supplement the request for additional relief pursuant to the requirements of Order No. 467–C. Such grant shall be subject to payback and upon the condition that such relief will not jeopardize service to residential or small commercial customers served indirectly from the Alabama-Tennessee system. Additionally, we shall set this matter for an expedited formal hearing.

The Commission finds:

That Alabama-Tennessee should be authorized and directed to deliver to North Alabama for the account of Glassrock Products Corporation, 120 Mcf per day for 30 days subject to the conditions herein ordered and that this matter be set for expedited formal hearing as hereinafter ordered.

The Commission orders:

(A) Alabama-Tennessee is hereby authorized and directed subject to payback to deliver to North Alabama for the account of Glassrock Products Corporation, 120 Mcf per day for 30 days, and upon condition that such relief will not jeopardize service to residential and small commercial customers served indirectly from the Alabama-Tennessee system.

(B) Pursuant to sections 4, 15, and 16 of the Natural Gas Act, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act, a public hearing will be held at 10:00 a.m. e.s.t. on December 30, 1974, in a hearing room at the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 concerning the request for extraordinary relief filed by North Alabama.

(C) At the hearing established by Paragraph (B) above, North Alabama shall present evidence in the form of testimony and exhibits showing, inter alia, the requirements set forth in Order No. 467–C, 18 CFR 2.78(a)(ii) particularly subparagraph (k) thereof.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for this purpose [see, Delegation of Authority, 18 CFR 3.5 (d)] shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(E) All parties desiring to intervene shall file their notices and petitions in accordance with the Commission's Rules of Practice and Procedure particularly § 1.18 on or before December 30, 1974, and the Presiding Administrative Law Judge shall allow all such petitioners to

participate conditionally in the hearing herein ordered.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-30467 Filed 12-27-74;10:18 am]

[Docket No. RP75-45]

TENNESSEE GAS PIPELINE CO.

Order Instituting Investigation and Order To Show Cause, Setting Hearing, and Establishing Procedures

DECEMBER 24, 1974.

With the advent of a natural gas supply shortage on interstate pipeline systems, the Commission has requested, among other things, jurisdictional pipelines to file semi-annual projections of curtailment levels anticipated for forthcoming winter heating seasons. In compliance with our requirements, Tennessee Gas Pipeline Company (Tennessee) filed its Form 16 reflecting projected curtailment for the 1974–75 season to be at an approximate level of 6%. Recent submittals in the form of petitions for relief and complaints indicate a system-wide curtailment in excess of twice the amount projected by Tennessee.[1] This sharp and inordinate increase compels us to institute an immediate investigation as to the severity and causes on the Tennessee system inclusive of the allegations set forth in the Knoxville complaint, supra:

> Said curtailment is in addition to an earlier curtailment invoked by Tennessee in October, 1974, which was allegedly based upon losses in production sustained by the hurricane Carmen, a failure to bring production on the line which had earlier been relied upon by Tennessee, and a drop in pressures in wells presently attached. [page 2] • • •.
>
> Such hasty, ill-considered action by Tennessee has led to numerous assertions being made that this action is a "power play" to accomplish a result of (a) increasing the chances of de-regulation of natural gas in Congress, (b) preventing the passage of a depletion allowance restriction by Congress, (c) to aid Tennessee in its rate case now pending before this Commission to prove that its depreciation allowance should be substantially increased, and numerous other similar assertions and charges [page 7].

The Commission finds:

It is necessary and proper to institute a formal investigation and proceeding pursuant to Section 14 of the Natural Gas Act into the matters set forth above and for the procedures hereinafter ordered.

The Commission orders:

(A) Pursuant to sections 14, 15, and 16 of the Natural Gas Act and the Commission Rules and Regulations promulgated thereunder, the Commission institutes an investigation of the circumstances for the increased curtailment, beyond the Form 16 projections, on the system of Tennessee Gas Pipeline Company and a determination as to the current projections of curtailment for said system.

(B) Tennessee Gas Pipeline Company is hereby ordered to appear at a formal hearing to convene on January 7, 1975, at 10:00 a.m. e.s.t. in a hearing room of the Federal Power Commission, 825 North Capitol, NE., Washington, D.C., 20426, and submit testimony and documentary evidence in explanation of the causes for the increased curtailment beyond the levels projected in the Form 16 filing. Such evidence shall include, inter alia, the adequacy of the gas reserves held or controlled by it or dedicated to it, the change, if any, in the level of production from such reserves, the effect on deliverability of gas from reserves affected by adverse weather such as hurricanes, tornadoes, etc., and the actions taken to fully reactivate the production from those reserves. In addition, Tennessee shall show its storage inventories (inclusive of that stored by others), injections and withdrawals, for the immediate past 12-month period on a monthly basis.

(C) Immediately following Tennessee's presentation, the parties, to the extent that they are able, shall commence cross-examination of Tennessee's witnesses. The Presiding Administrative Law Judge may permit, if needed, a short recess to permit the parties to prepare for such cross-examination.

(D) The Presiding Administrative Law Judge designated by the Chief Administrative Law Judge for that purpose [see Delegation of Authority, 18 CFR section 3.5(d)] shall prescribe such further procedures as may be warranted to expedite consideration of the matters involved in this investigation.

(E) Notices of intervention and petitions to intervene in this proceeding may be filed with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C., 20426, on or before January 3, 1975, in accordance with the Commission's Rules of Practice and Procedure.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals; Federal Energy Administration

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on December 23, 1974. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this list in the Federal Register is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FEA form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments must be received on or before January 15, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street, NW., Washington, D.C. 20548.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202–376–5425.

FEDERAL ENERGY ADMINISTRATION

Request for clearance of a single time FEA Form-P308-S-O entitled: Historical Survey of Propane, Distillate Fuel Oil and Residual Fuel Oil Sales to Ultimate Consumers. This form will be sent to the parent organization of all retailers of propane, distillate fuel oil and residual fuel oil, and it will request volume information on a monthly basis over the period January 1972 through December 1974. An annual percentage estimate by end use categories for 1973 is requested as well as quarterly percentage estimates for 1974. There are 15,000 potential respondents; respondent burden is estimated to be 24 man-hours.

NORMAN F. HEYL, *Regulatory Reports Review Officer.*

GENERAL SERVICES ADMINISTRATION

FEDERAL PROPERTY MANAGEMENT REGULATIONS

[TEMPORARY REGULATION E-36]

Supplement to the Supply Activity Report

1. *Purpose.* This regulation requires agencies to submit a supplement to the Supply Activity Report which will enable GSA to more effectively perform its role as a major procurement source for Federal executive agencies.

2. *Effective date.* This regulation is effective December 30, 1974.

3. *Expiration date.* This regulation expires June 30, 1976, unless sooner revised or superseded.

4. *Applicability.* The provisions of this regulation apply to all executive agencies except the Department of Defense.

5. *Background.* Data on the types of items purchased, the source of the items, and the funds expended are required to provide a means for GSA to evaluate the effectiveness of its procurement program in terms of supply responsiveness to Federal agency needs. The data will be screened to determine the extent to which agency requirements are being met and to effect modifications in the supply support program to achieve further improvements.

[1] See for example complaint filed on December 23, 1974, by Knoxville Utilities Board, et al. in Docket No. RP75-45.

6. *General policy.* (a) To achieve the objective stated in paragraph 5, each civil executive agency shall submit procurement activity data to GSA covering the semiannual periods July 1, 1975, through December 31, 1975, and January 1, 1976, through June 30, 1976, in accordance with the instructions contained in attachment A. (The report required by this regulation is in conformance with FPMR 101–11.11, and has been assigned Interagency Reports Control Number 0040–GSA–SA.)

(b) This report shall be submitted within 45 calendar days after the end of each reporting period to the General Services Administration (FF), Washington, D.C. 20406.

7. *Assistance.* Agencies may obtain additional information concerning the provisions of this regulation by contacting the General Services Administration (FFMR), Washington, D.C. 20406, telephone (703) 557–8490.

8. *Effect on other issuances.* This regulation augments the policy in FPMR 101–25.4801 by expanding the procurement reporting requirements specified therein.

9. *Agency comments.* Comments concerning the effect or impact of this regulation on agency operations should be submitted to the General Services Administration (FF), Washington, D.C. 20406, no later than June 30, 1975, for possible incorporation into the permanent regulation.

Dated: December 19, 1974.

ARTHUR F. SAMPSON,
Administrator of General Services.

ATTACHMENT A.—*Supply Activity Report (Procurement Activity)*

Agency:..... Address:..... Prepared by:.....

Activities covered:..... Personnel involved:..... Annual salaries:..... Period:.....

FSC commodity group No.	GSA		Federal supply schedules		Other Government agencies		Agency/local activity contractor (over $10,000)		Open market purchases (under $10,000)		Grand total	
	Number of transactions	Value in thousands of dollars	Number of transactions	Value in thousands of dollars	Number of transactions	Value in thousands of dollars	Number of transactions	Value in thousands of dollars	Number of transactions	Value in thousands of dollars	Number of transactions	Value in thousands of dollars
Total												

A. *General instructions.* The procurement data required is restricted to expendable supplies (object class 26) and nonexpendable equipment (object class 31). Excluded are professional services, construction contracts, grants, research and development contracts, costs for labor and material for all kinds of repair or maintenance services, and rental or lease agreements.

B. *Entries.*

Heading.

Agency.

Insert name of the department or independent executive agency. Procurement data should be submitted for each bureau or agency operating under a department. For example, a departmental report should reflect a consolidation of the individual reports submitted by subordinate agencies, bureaus, regional offices, or other procurement activities which will be appended to the departmental data.

Address. Self explanatory.

Prepared by. Name of official to contact for information on the statistical data provided.

Activities covered. Number of bureaus and/or activities covered by the department, agency, bureau, or activity submitting data.

Personnel involved. Number of procurement and purchasing and contracting personnel, GS–5 and above, but excluding clerical support.

Annual salaries. Annual salary costs of all procurement personnel involved in purchasing activities.

Period. Enter the dates of the semiannual period covered.

Column headings. (1) *FSC Commodity Group No.* Insert the appropriate commodity group number as described in the Cataloging Handbook, H 2–1, Federal Supply Classification, Part I, Groups and Classes, as described in FPMR 101–30.2.

(2) *GSA.* A number of FEDSTRIP requisitions submitted and total dollar volume involved.

(3) *Federal Supply Schedules.* Number of purchase or delivery orders and total dollar volume placed with Federal Supply Schedule contractors.

(4) *Other Government Agencies.* Number of orders or requisitions (not line. items) and total dollar volume placed with other Government supply sources such as the Defense Supply Agency, the Veterans Administration, or the Federal Prison Industries.

(5) *Agency/Local Activity Contracts (over $10,000).* Number of orders and dollar volume placed against your agency and/or local activity contracts issued as a result of formal advertising or negotiated contracts for over $10,000 for each transaction.

(6) *Open market (under $10,000).* Number of orders and total dollar volume of purchases made for under $10,000 per transaction. Exclude purchases against imprest funds.

(7) *Grand Total.* Total number of transactions and dollar volume for each FSC commodity group and a grand total figure for the number of transactions and dollar volume for all commodity groups reported.

REGIONAL PUBLIC ADVISORY PANEL ON ARCHITECTURAL AND ENGINEERING SERVICES

Meeting

DECEMBER 23, 1974.

Pursuant to Pub. L. 92–463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 6, January 13, 1975, from 10 A.M. to 4 P.M., Room 274B, Federal Building, 1500 East Bannister Road, Kansas City, MO. The meeting will be concerned with the review of the conceptual design for the CT–FOB–PF, Topeka, KS. Frank and open critical analysis of the proposed design is essential to insure that the design approach produces the best possible design solution. Accordingly, pursuant to a determination that it will be concerned with a matter listed in 5 U.S.C. 552(b)(5) the meeting will not be open to the public.

DAVID W. PANSING,
Acting Regional Administrator.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on 12/23/74 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202–395–4529), or from the reviewer listed.

New Forms

OFFICE OF TELECOMMUNICATIONS POLICY

FREQUENCY MANAGEMENT ADVISORY COUNCIL AND ELECTROMAGNETIC RADIATION MANAGEMENT ADVISORY COUNCIL

Notice of Renewal

The Office of Telecommunications Policy has two advisory committees, the Frequency Management Advisory Council (FMAC) and the Electromagnetic Radiation Management Advisory Council (ERMAC). Each is scheduled to terminate December 31, 1974.

The Frequency Managament Advisory Council was established July 19, 1965. Its purpose is to advise the Director of the Office of Telecommunications Policy on radio frequency spectrum allocation matters and means by which the effectiveness of Federal Government frequency management may be enhanced. The scope of FMAC's activities are advisory, and include the review, as appropriate, of recommendations of the Interdepartment Radio Advisory Committee (IRAC), the review of the progress of electromagnetic compatibility programs, and the development of proposed United States positions on spectrum matters with respect to International Telecommunication Union (ITU) Conferences.

The Electromagnetic Radiation Management Advisory Council (ERMAC) was established on December 11, 1968, to advise and make recommendations to the Director of Telecommunications Policy on side effects and the adequacy of control of electromagnetic radiation arising from communication activities. It reviews, evaluates and recommends potential measures to investigate and mitigate possible undesirable effects on the environment, biological and physical, including equipment and materials, and develops recommended policy guidance in these areas. Effects in any region of the spectrum are analyzed from electrostatic and constant magnetic fields through the radio frequency spectrum to the optical spectrum, including coherent optical radiation (lasers).

The Council is comprised of experts in various related disciplines, including electronics, engineering, physics, and the biological and medical sciences and has observers from cognizant Government agencies and departments.

I have reviewed the activities and accomplishments of these committees, and find that each has provided needed and useful advice of continuing benefit to the Office of Telecommunications Policy. As a result of my review I determine, pursuant to section 7(a) of OMB Circular No. A–63, Revised, that it is in the public interest for each committee to be renewed for a two-year period, and they are hereby renewed.

JOHN EGER,
Acting Director.

DECEMBER 24, 1974.

SECURITIES AND EXCHANGE COMMISSION

ADVISORY COMMITTEE ON THE IMPLEMENTATION OF A CENTRAL MARKET SYSTEM

Meeting

This is to give notice, pursuant to Section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. I 10(a), that the Securities and Exchange Commission Advisory Committee on the Implementation of a Central Market System will conduct open meetings on January 9 and 10, 1975 at 500 North Capitol Street, Washington, D.C. 20549 in Room 776 beginning at 9:00 a.m. The summarized agenda for the meetings is as follows:

1. Review of written comments received in response to the Committee's Preliminary Statement (Securities Exchange Act Release No. 11131, December 11, 1974).

2. Review of statements presented before hearings of the Securities and Exchange Commission regarding its proposed Rules 19b–3 and 10b–22 under the Securities Exchange Act of 1934.

3. Oral presentations in response to the Committee's Preliminary Statement by those

members of the public having previously requested in writing to the Executive Secretary of the Committee the opportunity to make such presentations.

4. Discussion of plans for future meetings.

Further information may be obtained by writing: Andrew P. Steffan, Executive Secretary of the Committee and Director, Office of Policy Planning, United States Securities and Exchange Commission, Washington, D.C. 20549.

Dated: December 24, 1974.

[SEAL] GEORGE A. FITZSIMMONS,
Advisory Committee Management Officer.

[File No. 81-159]

ACCRUED EQUITIES, INC.

Application and Opportunity for Hearing

DECEMBER 17, 1974.

Notice is hereby given that Accrued Equities, Inc. ("Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act") that Applicant be granted an exemption from the provisions of section 15(d) of the 1934 Act.

Section 15(d) of the 1934 Act provides that each issuer which shall file a registration statement which has become effective pursuant to the Securities Act of 1933, as amended, shall file with the Commission in accordance with such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors, such supplementary and periodic information, documents and reports as may be required pursuant to Section 13 of the 1934 Act in respect of a security registered pursuant to Section 12 of the 1934 Act.

Section 12(h) of the 1934 Act empowers the Commission to exempt, in whole, or in part, any issuer or class of issuers from the provisions of Section 15(d), if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Applicant states, in part:

1. Applicant, a New York corporation formed on September 21, 1954, is a Scotch whiskey broker.

2. During 1971, Applicant issued units in the aggregate amount of $1 million consisting of various ages and gallonages of Scotch whiskey together with certain ancillary services intended for sale to United States investors, pursuant to an effective registration statement (File No. 2-39369).

3. The ancillary services performed by Applicant consist of furnishing market letters, advising the investor about the availability of insurance, advising the investor as to the relative merits in investing in various ages and types of malts and grains, and advising the investor as to the market conditions in resales.

4. Applicant has no obligations or commitments to repurchase the Scotch whiskey.

In the absence of an exemption, Applicant is required to file certain periodic reports with the Commission pursuant to section 15(d) of the 1934 Act.

Applicant argues that the exemption order requested by it is appropriate in view of the fact that the requirements of section 15(d) of the 1934 Act were not intended for a company where no class of person, excepting the principal, has a claim upon the company's assets or income and that there is no knowledge on the part of the Applicant as to whether or not there is any definable class of security holders exceeding 300 persons.

For a more detailed statement of the information presented, all persons are referred to the application which is on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C. 20549.

Notice is further given that any interested person not later than January 13, 1975 may submit to the Commission in writing his views on any substantial facts bearing on the application or the desirability of a hearing thereon. Any such communication or request should be addressed to: Secretary, Securities and Exchange Commission, 500 North Capitol Street, N.W., Washington, D.C. 20549 and should state briefly the nature of the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof. At any time after said date, an order granting the application may be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.74-30800 Filed 12-27-74;8:45 am]

AMERICAN STOCK EXCHANGE, INC. AND CHICAGO BOARD OPTIONS EXCHANGE, INC.

Rules for a Common Clearing Corporation

Notice is hereby given that the American Stock Exchange, Inc. (Amex) and the Chicago Board Options Exchange, Inc. (CBOE) have each filed pursuant to Rule 9b-1 under the Securities Exchange Act of 1934 (17 CFR 240.9b-1) amendments to the proposed charter, by-laws and rules of the Options Clearing Corporation (OCC). The proposed Rules were originally published at 39 FR 39615 on November 8, 1974.

The amendments comprise amendments to OCC's certificate of incorporation, by-laws and rules, and a draft stockholders agreement and participation exchange agreement among the OCC, the CBOE, the Amex and such other options exchanges as may become parties to either thereof.

All interested persons are invited to submit their views and comments on the proposed OCC charter, by-laws and rules either before or after they have become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number 10-54. All amendments that have been made to the Amex's plans have been placed in their respective option files under file number S7-505. The proposed rules are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street NW, Washington, D.C.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 16, 1974.

[FR Doc.74-30898 Filed 12-27-74;8:45 am]

BOSTON STOCK EXCHANGE

Applications for Unlisted Trading Privileges in Certain Securities

December 19, 1974.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following companies, which securities are listed and registered on one or more other national securities exchanges:

	File No.
Auto-Train Corp.	7-4704
Capital Holding Corp.	7-4705
Hammermill Paper Co.	7-4706
Quaker Oats Co.	7-4707
The Southern New England Telephone Co.	7-4708
US Life Corp.	7-4709
Vetco Offshore Industries, Inc.	7-4710
Moore & McCormack Resources, Inc.	7-4711

Upon receipt of a request, on or before January 5, 1975 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C., 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

XUM
V 39 DEC 30 1974 NO 251

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[FR Doc.74-30301 Filed 12-27-74;8:45 am]

CHICAGO BOARD OPTIONS EXCHANGE, INC.

Non-disapproval of Amendments to Option Plan

Notice is hereby given that on December 18, 1974, the Commission considered and did not disapprove proposed amendments to the Option Plan of the Chicago Board Options Exchange, Inc. (CBOE) pursuant to Rule 9b-1 under Securities Exchange Act of 1934 (17 CFR 240.9b-1). The CBOE proposed to amend Rules 12.3(a)(5), 12.3(b), 12.3(c), and 12.5; and delete Rules 12.4 and 12.6 (the "Margin Amendments"). The proposed changes were originally noticed at 39 FR 40203 on November 14, 1974.

CBOE has deemed it appropriate to amend its margin rules at this time to reflect both the initiation of trading on other exchanges and the adoption of uniform rules by the New York Stock Exchange and CBOE.

All interested persons are invited to submit their views and comments on the rules amendments and deletions to CBOE's plan either before or after they have become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number 10-54. The rules amendments and deletions are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street NW., Washington, D.C.

By the Commission.

SEC REPORT COORDINATING GROUP (ADVISORY)

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92-463, 86 Stat. 770, the Securities and Exchange Commission announces a public advisory committee meeting.

The Commission's Report Coordinating Group (Advisory), will hold a meeting on January 10, 1975 at the Securities and Exchange Commission, 500 North Capitol Street, Room 858, Washington, D.C. The meeting will commence at 10 a.m. local time and will be for the purpose of discussing the FOCUS Report of financial and operational information.

The Group's meetings are open to the public. Any interested person may attend and appear before or file statements with the advisory committee. Said statements, if in written form may be filed before or after the meeting. Oral statements shall be made at the time and in the manner permitted by the Report Coordinating Group.

The Report Coordinating Group was formed to assist the Commission in developing a coherent, industry-wide, coordinated reporting system. In carrying out this objective, the Report Coordinating Group is to review all reports, forms and similar materials required of broker-dealers by the Commission, the self-regulatory community and others. The Group is expected to advise the Commission on such matters as eliminating unnecessary duplication in reporting, reducing reporting requirements where feasible, and developing the FOCUS Report of financial and operational information. (Securities Exchange Act Release No. 10612; Securities Exchange Act Release No. 10969).

Information concerning the meeting, including the procedures for submitting statements to the Group, may be obtained by contacting: Mr. Daniel J. Piliero II, Secretary, SEC Report Coordinating Group, Securities and Exchange Commission, Washington, D.C. 20549.

TARIFF COMMISSION

[TEA-W-257]

ANDREW MANUFACTURING CORP., N.Y.

Workers' Petition for a Determination

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the former workers of Andrew Manufacturing Corporation, New York, New York, the United States Tariff Commission, on December 23, 1974, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women (of the type provided for in item 700.45 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioner. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed by January 9, 1975.

The petition filed in this case is available for inspection at the Office of the Secretary, United States Tariff Commission, 8th and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission at 6 World Trade Center.

Issued: December 24, 1974.

By Order of the Commission.

VETERANS ADMINISTRATION

ADVISORY COMMITTEE ON STRUCTURAL SAFETY OF VETERANS ADMINISTRATION FACILITIES

Notice of Meeting

The Veterans Administration gives notice pursuant to Pub. L. 92-463 that a meeting of the Advisory Committee on Structural Safety of Veterans Administration Facilities will be held in Room 442 at the Veterans Administration Central Office, 811 Vermont Avenue, NW., Washington, D.C., on January 17, 1975 at 10 am. The Committee members will review Veterans Administration construction standards and criteria relating to fire, earthquake, and other disaster resistant construction.

The meeting will be open to the public up to the seating capacity of the room. Because of the limited seating capacity, it will be necessary for those wishing to attend to contact Mr. James Lefter, Director, Civil Engineering Service, Office of Construction, Veterans Administration Central Office (phone 202-389-2368), prior to January 15, 1975.

Dated: December 20, 1974.

By direction of the Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice No. 662]

Assignment of Hearings

DECEMBER 24, 1974.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after December 30, 1974.

MC-C-7996, Film Transit, Inc., et al.-v-Cape Air Freight, Inc., now assigned January 20, 1975, at Kansas City, Mo. is postponed to March 10, 1975.

MC 41406 Sub 40, Artim Transportation System, Inc., now assigned January 28, 1975, at Columbus, Ohio, is postponed indefinitely.

MC 107295 Sub 695, Pre-Fab Transit Co., now assigned January 28, 1975, at Washington, D.C., is cancelled and application is dismissed.

MC 1838 Sub 10, Alex Smith, Inc., now assigned February 19, 1975, at Washington, D.C., is cancelled and application is dismissed.

[Notice No. 209]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

DECEMBER 30, 1974.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before January 20, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74886. By supplemental order of 12.13.74 the Motor Carrier Board approved the transfer to Dahlsten Truck Line, Inc., Clay Center, Nebraska, of Certificate No. MC-115669 (Sub-No. 134) issued January 16, 1974, to Howard N. Dahlsten, doing business as Dahlsten Truck Line, Clay Center, Nebraska, which certificate inadvertently was not included in the order entered January 14, 1974, in the subject proceeding, approving the transfer to transferee of all of the outstanding certificates of transferor. The certificate approved for transfer by this supplemental order authorizes the transportation of: Dry feed ingredients from Van Buren, Ark., to points in Arkansas, Colorado, Kansas, Iowa, Minnesota, Missouri (except St. Louis and those points in Missouri which are located in the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone as defined by the Commission), Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming. Mr. Donald L. Stern, Attorney at Law, 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106.

No. MC-FC-75474. By order of December 13, 1974, the Motor Carrier Board approved the transfer to Peter R. Jacobs, doing business as Central Banana Carriers, Ashland, Va., of the operating rights in Certificate No. MC-117743 issued October 17, 1972, to RPM Distributors, Inc., doing business as Central Banana Carriers, Doswell, Va., authorizing the transportation of bananas, from Norfolk, Va., to Boston, Mass., Chicago, Ill., Indianapolis, Ind., Louisville, Ky., Huntington and Wheeling, W. Va., Richmond, Va., and the District of Columbia, and points in Michigan, Ohio, and Pennsylvania; from Baltimore, Md., and Charleston, S.C., to Norfolk and Richmond, Va.; from Philadelphia, Pa., to Norfolk, Va., and from New York, N.Y., to Richmond, Va. Stanley I. Goldman, 1700 K Street NW., Washington, D.C. 20006, attorney for applicants.

No. MC-FC-75480. By order of December 13, 1974, the Motor Carrier Board

approved the transfer to Lee's Towing Service, Inc., Chicago, Ill., of the operating rights in Certificate No. MC–117064 issued September 10, 1974, to Hi-Way Towing Service, Inc., Worth, Ill., authorizing the transportation of tractors and trailers (to be used as replacement vehicles) and disabled tractors, trailers, automobiles, buses, and trailers (except those designed to be drawn by passenger automobiles), in wrecker-type service, between points in Illinois, Iowa, Indiana, Michigan, and Wisconsin (except points in Milwaukee County). William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, Mich. 48080, attorney for applicants.

No. MC–FC–75486. By order of December 16, 1974, the Motor Carrier Board approved the transfer to Tompkinsville Transfer Co., Inc., Tompkinsville, Ky., of the Certificate of Registration in No. MC–98438 (Sub-No. 2) issued March 28, 1972, to Truman Hollinsworth, doing business as Tompkinsville Transfer Company, Tompkinsville, Ky., evidencing the right of the holder to engage in operations as a motor vehicle in interstate or foreign commerce corresponding in scope to the grant of authority in Certificates of Convenience and Necessity No. 358 and No. 465 transferred to transferor June 5, 1962, as issued by the Department of Motor Transportation of Kentucky. Louis J. Amato, P.O. Box E, Bowling Green, Ky. 42101, attorney for applicants.

No. MC–FC–75492. By order of December 16, 1974, the Motor Carrier Board approved the transfer to Calvin P. Boer, doing business as Boer's Transfer and Storage, Holland, Mich., of the operating rights in Certificates Nos. MC–45974 and MC–35974 (Sub-No. 1) issued December 29, 1950, to Amy Boer, doing business as Boer's Transfer, Holland, Mich., authorizing the transportation of household goods as defined by the Commission, between Holland, Mich., and points within 30 miles thereof, on the one hand, and, on the other, points in Illinois, Indiana, Iowa, Wisconsin, Michigan, Ohio, Pennsylvania, and New Jersey. Ronald L. Dalman, 272–274 East 8th Street, Holland, Mich. 49423, attorney for applicants.

No. MC–FC–75494. By order of December 13, 1974, the Motor Carrier Board approved the transfer to Bud's Wrecker Service, Inc., South Bend, Ind., of the operating rights in Certificate No. MC–123247 issued March 29, 1962, to Marilyn J. Odle, doing business as Bud's Wrecker Service, South Bend, Ind., authorizing the transportation of used tractors, in secondary movements, in truckaway service, and used trailers to be used as replacement vehicles for wrecked, damaged or disabled tractors, trailers, or semi-trailers, wrecked or disabled motor vehicles, including wrecked or disabled trailers and semi-trailers, and motor vehicle parts, accessories, supplies, and materials, moving in wrecker equipment, between points in Indiana, Michigan, Ohio, Illinois, Wisconsin, and Kentucky. Harry J. Harman, 2120 South Meridian, Indianapolis, Ind. 46217, attorney for applicants.

[Notice No. 169]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

DECEMBER 19, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a (a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, by January 14, 1975. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D. C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 63417 (Sub-No. 72 TA) (amendment), filed November 4, 1974, published in the FEDERAL REGISTER issue of November 18, 1974, and republished as amended this issue. Applicant: BLUE RIDGE TRANSFER COMPANY, INCORPORATED, 1814 Hollins Road NE., P.O. Box 13447, Roanoke, Va. 24012. Applicant's representative: William E. Bain (same address as applicant).

NOTE.—The purpose of this republication is to add some more supporting shippers. These supporting shippers are: (1) Shector Bros., Hancock & Huntington Street, Philadelphia, Pa. 19133; and (2) Acme Manufacturing Co., 7500 State Road, Philadelphia, Pa. 19136. The rest of the application will remain the same.

No. MC 102567 (Sub-No. 180 TA), filed December 12, 1974. Applicant: MCNAIR TRANSPORT, INC., 4295 Meadow Lane, P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Donald W. English (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid caustic soda*, in bulk, in tank vehicles, from Natchitoches, La., to points in Texas, Mississippi, Oklahoma, and Arkansas, for 180 days. Armstrong, Jr., District Supervisor, Interstate Commerce Commission, Bureau of Operations, T-9038 U.S. Postal Service Bldg., 701 Loyola Avenue, New Orleans, La. 70113.

No. MC 103051 (Sub-No. 331 TA), filed December 10, 1974. Applicant: FLEET TRANSPORT COMPANY, INC., 934–44th Avenue, North, Nashville, Tenn. 37209. Applicant's representative: William G. North (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid sugar*, in bulk, in tank vehicles, from Belle Glade, Fla., to Athens and Savannah, Ga., and Elkin, Greensboro and Winston-Salem, N.C., for 180 days. Supporting shipper: GCC Beverages, Inc., P.O. Box 593577 AMF, Miami, Fla. 33159. Send protests to: Joe J. Tate, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Suite A–422–Federal Building, U.S. Court House, 801 Broadway, Nashville, Tenn. 37203.

No. MC 107002 (Sub-No. 464 TA), filed December 12, 1974. Applicant: MILLER TRANSPORTERS, INC., P.O. Box 1123, U.S. Highway 80 West, Jackson, Miss. 39206. Applicant's representative: John J. Borth (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tung oil*, in bulk, in tank vehicles, from Chason, Fla., to International Falls, Minn. for 180 days. Supporting shipper(s): Alnor Oil Company, Inc. P.O. Box 83, Valley Stream, New York 11582. Send protests to: Alan C. Tarrant, District Supervisor, Interstate Commerce Commission Room 212, 145 East Amite Building, Jackson, Miss. 39201.

No. MC 107515 (Sub-No. 969 TA), filed December 11, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Road NE., Suite 375, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from plantsite of Odom's Sausage Company, Adairville, Ky., to points in the United States (except Alaska, Hawaii, Montana, Idaho, Wyoming and Utah), for 180 days. Supporting shipper: Odom's Sausage Company, 910 Neeley's Bend Road, Madison, Tenn. 37115. Send protests to: William L. Scroggs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1252 W. Peachtree St., N.W., Room 546, Atlanta, Ga. 30309.

No. MC 108207 (Sub-No. 412 TA), filed December 13, 1974. Applicant: FROZEN FOOD EXPRESS, 318 Cadiz Street, P.O. Box 5888, Dallas, Tex. 75222. Applicant's representative: J. B. Ham (same address as applicant). Authority sought to operate as a *common carrier*,

by motor vehicle, over irregular routes, transporting: *Fresh and frozen boned meat products*, from Ames, Iowa, to Wichita, Kans., for 180 days. Supporting shipper: Carriage House Meat & Provision Co., Inc., 1131 Dayton, Ames, Iowa 50010. Send protests to: Gerald T. Holland, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1100 Commerce Street, Room 13C12, Dallas, Tex. 75202.

No. MC 112588 (Sub-No. 21 TA), filed December 13, 1974. Applicant: RUSSELL TRUCKING LINE, INC., 2011 Cleveland Road, Sandusky, Ohio 44870. Applicant's representative: Peter H. Hanley, President (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Portland Cement*, from the plantsite of Medusa Cement Co. at Baybridge, Ohio, to Rochester and Buffalo, New York, Erie, Pittsburgh, Wampum, Indiana, and Josephine, Pennsylvania, for 90 days. Supporting shipper(s): Medusa Cement Co., P.O. Box 5668 Cleveland, Ohio 44101. Send protests to: Keith D. Warner, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 234 Summit Street, Toledo, Ohio 43604.

No. MC 113666 (Sub-No. 89 TA), filed December 16, 1974. Applicant: FREEPORT TRANSPORT, INC., 1200 Butler Road, Freeport, Pa. 16229. Applicant's representative: Leonard A. Jaskiewicz, 1730 M Street NW., Suite 501, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Calcium carbide*, in bulk, in specially designed hopper-type trailers, from Ashtabula, Ohio, to points in Pennsylvania and New Jersey, for 180 days. Supporting shipper: Shawinigan Products Corp., P.O. Box 1156, Englewood Cliffs, N.J. Send protests to: John J. England, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, Pa. 15222.

No. MC 113908 (Sub-No. 330 TA), filed December 12, 1974. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, P.O. Box 3180, Glenstone Station, Springfield, Mo. 65804. Applicant's representative: B. B. Whitehead (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and de-icer* in bags, cartons, drums and in bulk, from Viroqua, Wis., to points in Indiana, Kansas, Nebraska, North Dakota, Ohio, and South Dakota, for 180 days. Supporting shipper: Howard B. Johnson Enterprises, Inc., P.O. Box 67, Viroqua, Wis. 54665. Send protests to: John V. Barry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 600 Federal Office Building, 911 Walnut Street, Kansas City, Mo. 64106.

No. MC 125950 (Sub-No. 8 TA) (Correction) filed December 9, 1974, published in the FEDERAL REGISTER issue of December 18, 1974, and republished as corrected this issue. Applicant: C.B.S. TRANSPORTATION, INC., 1207 Columbus Circle, Wilmington, N.C. 28401. Applicant's representative: Francis J. Ortman, 1100 17th Street NW., Suite 613, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fruit and vegetable containers*, from the plantsite of the Talley-Corbett Box Company at Adel, Ga. and Springfield, S.C., to points in Florida, Georgia, South Carolina, North Carolina, Virginia, Maryland, Delaware, Pennsylvania, New Jersey, and New York, for 180 days. SUPPORTING SHIPPER: Talley-Corbett Box Company, Inc., P.O. Box 89, Adel, Ga. 31620. SEND PROTESTS TO: Archie W. Andrews, District Supervisor, Interstate Commerce Commission, Bureau of Operations, P.O. Box 26896, Raleigh, N.C. 27611. Note: The purpose of this republication is to show that the origin is Springfield, S.C., in lieu of Springfield, N.C., which was published in the Federal Register in error.

No. MC 126458 (Sub-No. 6 TA), filed December 12, 1974. Applicant: ASCENZO & SONS, INC., 535 Brush Avenue, Bronx, New York 10465. Applicant's representative: Bert Collins, 5 World Trade Center, Suite 6193, New York, N.Y. 10048. XUM V 39 N 251 DEC 30 74 XUM

Title 24—Housing and Urban Development

CHAPTER VIII—LOW RENT PUBLIC HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-74-305]

PART 1277—HOUSING ASSISTANCE PAYMENTS PROGRAM—SUBSTANTIAL REHABILITATION

Notice was given on November 22, 1974 at 39 FR 41063 that the Department of Housing and Urban Development (HUD) was proposing to amend Title 24 of the Code of Federal Regulations by adding a new Part 1277 to Chapter VIII.

The purpose of Part 1277 is to set forth the essential elements of the Housing Assistance Payments Program—Substantial Rehabilitation, including among other things, the roles and responsibilities of HUD, public housing agencies (PHAs), rehabilitators, owners, and eligible lower- and very low-income families, the basis for determining the amount of housing assistance payments, and the prescribed forms of contracts.

HUD has received more than 115 responses to the November 22, 1974 publication. All of these comments were seriously considered and many changes have been incorporated in these regulations as a result. The principal changes are set forth below.

1. § 1277.101(b) has been modified so as to provide that projects already being rehabilitated may be eligible for participation under this Part if certain specified conditions are satisfied.

2. Provision is made for the PHA to make the determination with respect to Allowances for Utilities and Other Services, as set forth in §§ 1277.102(b) and 1277.218(l), respectively, in the case of a Private-Owner/PHA Project (as defined in § 1277.102(x)).

3. The definition of "Eligible Family," as set forth in § 1277.102(f), has been modified to clarify that disabled persons are included within this definition.

4. A definition of the term "HUD" has been added in a new § 1277.102(n) to include HUD's designee.

5. The procedures for inviting, ranking and selecting Preliminary Proposals (as defined in 1277.102(w)) as set forth in §§ 1277.103(b), 1277.203, 1277.204(b) and 1273.208 have been clarified.

6. §§ 1277.103(e)(2) and 1277.103(e)(3) have been modified to increase the percent of Contract Rent payable in the event of vacancies from 70 to 80.

7. In § 1277.103(f) the provisions concerning approval of Contract Rents in excess Fair Market Rents have been clarified.

8. § 1277.103(h)(3), the provision authorizing special additional adjustments under limited circumstances, has been clarified.

9. §§ 1277.103(q)(1), 1277.103(q)(2), 1277.204(c)(10), 1277.205(o), 1277.209(a)(13), respectively, have been clarified with respect to situations where the Agreement or Contract is pledged as security for financing.

10. A new § 1277.103(q)(3) has been added to clarify the status of the Housing Assistance Payments Contract in the event of foreclosure, assignment or sale.

11. § 1277.103(r) has been modified to permit the owner to require each Family to make a security deposit in the amount of one month's Gross Family Contribution.

12. The provision precluding a PHA from being the Contract administrator where it is also the lender has been replaced by a provision permitting the PHA to administer the Contract in such cases subject to an express provision in the Contract giving HUD the right to take unilateral action in default situations (see § 1277.103(v)).

13. § 1277.208(a) has been clarified to give the owner opportunity to supply omissions to the proposal.

14. § 1277.210 has been modified to provide for notification to the unit of general local government as to HUD's final action with respect to Final Proposals (as defined in § 1277.102(h)).

15. §§ 1277.211(b)(2) and 1277.216(b)(4)(iv), respecting the certifications (if applicable) of the design architect and the inspecting architect have been clarified; and § 1277.216(c), regarding the scope and nature of the inspection and determination to be made by HUD upon completion of the project, has been clarified.

16. § 1277.216(d), which sets forth the criteria for acceptance of a project, has been modified.

17. § 1277.218(l), which provides for the reduction of Contract units utilized by an owner over a substantial period of time for other than Eligible Families, has been modified to provide for restoration of the withdrawn units under certain circumstances.

In view of the necessity to limit the comment period to fifteen days because of the statutory requirement that these regulations be made effective by January 1, 1975, comments will be received by HUD for a period of 30 days from the date of publication of these regulations, and HUD promptly at the end of the 30 day period will make such modifications in these regulations as it deems appropriate.

In order to comply with the aforementioned statutory requirement, the Assistant Secretary for Housing Production and Mortgage Credit/FHA Commissioner has determined that these regulations be made effective January 1, 1975.

Effective date. These regulations shall become effective January 1, 1975. Accordingly, Title 24 is amended as follows:

A new Part 1277, Section 8 Housing Assistance Payments—Substantial Rehabilitation, is added to Chapter VIII to read as set forth below.

PART 1277—HOUSING ASSISTANCE PAYMENTS PROGRAM—SUBSTANTIAL REHABILITATION

Subpart A—Applicability, Scope and Basic Policies

Sec.
1277.101 Applicability and scope.
1277.102 Definitions.
1277.103 Basic policies.

Subpart B—Project Development and Operation

1277.201 Allocations of contract authority to field offices.
1277.202 Program mix (new construction substantial rehabilitation, existing housing).
1277.203 Invitations for preliminary proposals.
1277.204 Contents of rehabilitation program packet.
1277.205 Contents of preliminary proposal.
1277.206 Submission of preliminary proposals.
1277.207 Proposal involving HUD-FHA mortgage insurance.
1277.208 Screening and evaluation of preliminary proposals.
1277.209 Final proposals.
1277.210 Evaluation of final proposals.
1277.211 Owner's acceptance of notification and submission of architect's certification.
1277.212 Annual contributions contract and agreement (private-owner/PHA projects).
1277.213 Submission of estimates of required annual contributions (private-owner/PHA projects).
1277.214 Preparation and execution of agreement (private-owner and PHA-owner projects).
1277.215 Rehabilitation period.
1277.216 Project completion.
1277.217 Execution of housing assistance payments contract.
1277.218 Project operation.
1277.219 HUD review contract compliance.
1277.220 PHA reporting requirements [Reserved]

Appendices

Note—Various prescribed forms which relate to internal HUD processing procedures are not included herein, but will appear in the HUD Substantial Rehabilitation Handbook.

I. Agreement to enter into housing assistance payments contract—private-owner or PHA-owner project.

II. Housing assistance payments contract—private-owner or PHA-owner project.

III. Annual contributions contract—private-owner/PHA project.

IV. Agreement to enter into housing assistance payments contract—private-owner/PHA project.

V. Housing assistance payments contract—private-owner/PHA project.

Authority: Sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)); sec. 5(b) of the U.S. Housing Act of 1937 (42 U.S.C. 1437c(b); sec. 8 of the U.S. Housing Act of 1937 (42 U.S.C. 1437f).

Subpart A—Applicability, Scope and Basic Policies

§ 1277.101 Applicability and scope.

(a) The policies and procedures contained herein are applicable to the making of housing assistance payments on behalf of Eligible Families leasing substantially rehabilitated housing pursuant to the provisions of Section 8 of the U.S. Housing Act of 1937 ("Act").

(b) For the purpose of this Part, "substantially rehabilitated housing" shall mean housing requiring substantial rehabilitation (See Sec. 1277.102(bb)) for which, prior to the start of rehabilitation, an Agreement to Enter into Housing Assistance Payments Contract is executed between the Owner and the Department of Housing and Urban Development ("HUD") or the Public Housing Agency. However, housing already undergoing

rehabilitation may be eligible for participation if all subsequent actions are in compliance with this Part and if the Owner certifies and demonstrates to the satisfaction of HUD that:

(1) At the date of application to HUD, a substantial amount of rehabilitation (generally at least 25 percent) remains to be completed; and

(2) At the date of application to HUD, the project cannot be completed without a commitment for assistance under this Part; and

(3) At the time rehabilitation was initiated, all of the parties reasonably expected that the project would be completed without assistance under this Part.

(c) Conversions of Section 23 projects to the Section 8 program will be permitted where appropriate, provided that all parties (including HUD) agree to the terms and conditions.

§ 1277.102 Definitions.

(a) *Agreement to Enter into Housing Assistance Payments Contract ("Agreement")*. (1) In the case of a Private-Owner Project or a PHA-Owner Project, a written agreement between the Owner and HUD that, upon satisfactory completion of the rehabilitation in accordance with the HUD-approved Final Proposal, HUD will enter into a Housing Assistance Payments Contract with the Owner. (See Appendix I.)

(2) In the case of a Private-Owner/PHA Project, a written agreement between the private Owner and the PHA, approved by HUD, that, upon satisfactory completion of the rehabilitation in accordance with the HUD-approved Final Proposal, the PHA will enter into a Housing Assistance Payments Contract with the private Owner. (See Appendix IV.)

(b) *Allowance for Utilities and Other Services ("Allowance")*. An amount determined or approved by HUD as an allowance for the cost of utilities (except telephone) and charges for other services payable directly by the Family. In the case of a proposal under which the Families must pay directly for one or more utilities or services, the amount of the Allowance is deducted from the Gross Rent in determining the Contract Rent and is included in the Gross Family Contribution.

(c) *Annual Contributions Contract ("ACC")*. In the case of a Private-Owner/PHA Project, a written agreement between HUD and the PHA to provide annual contributions to the PHA with respect to the project. (See Appendix III.)

(d) *Contract Rent*. The rent payable to the Owner under his Contract including the portion of the rent payable by the Family in the case of a cooperative, the term "Contract Rent" means charges under the occupancy agreements between the members and the cooperative.

(e) *Decent, Safe, and Sanitary*. Housing is Decent, Safe, and Sanitary at completion of rehabilitation if the dwelling units and related facilities are accepted by HUD as meeting the requirements of the Agreement. (See Sec. 1277.216.) Housing continues to be Decent, Safe, and Sanitary if it is being maintained in a condition substantially the same as that on acceptance in all pertinent respects, including the following:

(1) Condition of the exterior (including the grounds) and the interior of the structure and of the housing unit;

(2) Operating condition of sanitary facilities and of solid and liquid waste disposal facilities;

(3) Operating condition of kitchen facilities, including range and refrigerator, sink, and space for storage of food and for storage of utensils and dishes;

(4) Operating condition of heating, lighting and ventilating equipment and/or other facilities; and

(5) Size, number of rooms, and furnishability in relation to the size and type of Family in occupancy in accordance with any applicable State or local codes.

(f) *Eligible Family ("Family")*. A Family which qualifies as a Lower-Income Family and which meets the other requirements of the Act and this Part. The term Family includes an elderly, disabled, handicapped, or displaced person and the remaining member of a tenant family as defined in section 3(2) of the Act. A Family's housing assistance payment may continue until its Gross Family Contribution equals the Gross Rent for the dwelling unit it occupies, but the termination of housing assistance payments at such point shall not affect the family's other rights under its Lease nor shall such termination preclude resumption of payments as a result of subsequent changes in income or other relevant circumstances during the term of the Contract.

(g) *Fair market rent*. (1) The rent which is determined by HUD as the Fair Market Rent for new construction projects under Section 8 of Act. This Fair Market Rent is the rent, including utilities (except telephone), ranges and refrigerators, parking, and all maintenance, management and other services, which, as determined at least annually by HUD, would be required to be paid in order to obtain privately developed and owned, newly constructed rental housing of modest (non-luxury) nature with suitable amenities and sound architectural design meeting the objectives of the HUD Minimum Property Standards.

(2) Separate Fair Market Rents will be established for dwelling units by various sizes (number of bedrooms) and types (e.g., elevator, row, detached; housing designed for the elderly or handicapped shall be a separate type for this purpose).

(3) The Fair Market Rents will be published in the FEDERAL REGISTER, and, in order to allow for the period of rehabilitation, computation of the published Fair Market Rents will include HUD's estimate of anticipated rent increases during an appropriate future period as stated in the publication. Accordingly, for any given project for which the scheduled time for rehabilitation will be less than such future period, an appropriate reduction will be made in determining the approvable Contract Rent.

(4) The Fair Market Rent, minus the amount of any applicable Allowance for Utilities and Other Services payable directly by the Family, shall be the maximum amount that can be approved as the Contract Rent, except that the maximum approvable amount may be lower as stated in paragraph (g)(3) of this Section and may be higher or lower as provided in Sec. 1277.103(f).

(h) *Final proposal*. A proposal to provide substantially rehabilitated housing submitted in response to a HUD notification of section of Preliminary Proposal. (See Secs. 1277.204 and 1277.208-1277.210.)

(i) *Gross family contribution*. The portion of the Gross Rent payable by an Eligible Family, i.e., the difference between the amount of the housing assistance payment payable on behalf of the Family and the Gross Rent.

(j) *Gross rent*. The Contract Rent plus any Allowance for Utilities and Other Services.

(k) *HCD Act*. The Housing and Community Development Act of 1974.

(l) *Housing Assistance Payments Contract ("Contract")*. (1) In the case of a Private-Owner Project or a PHA-Owner Project, a written contract between the Owner and HUD for the purpose of providing housing assistance payments to the Owner on behalf of Eligible Families. (See Appendix II.)

(2) In the case of a Private-Owner/PHA Project, a written contract between the private Owner and the PHA, approved by HUD, for the purpose of providing housing assistance payments to the Owner on behalf of Eligible Families. (See Appendix V.)

(m) *Housing assistance payments on behalf of eligible family*. The amount of housing assistance payment on behalf of an Eligible Family determined in accordance with schedules and criteria established by HUD. (See Sec. 1277.103(t).)

(n) *HUD*. The Department of Housing and Urban Development or its designee.

(o) *Income*. Income from all sources of each member of the household as determined in accordance with criteria established by HUD.

(p) *Invitation for preliminary proposals—substantial rehabilitation* ("Invitation for Preliminary Proposals"). A notice published by HUD inviting the submission of Preliminary Proposals in accordance with this Part. (See Sec. 1277.203.)

(q) *Lease*. A written agreement between an Owner and an Eligible Family for the leasing of a Decent, Safe, and Sanitary dwelling unit in accordance with the applicable Contract, which agreement is in compliance with the provisions of this Part.

(r) *Local Housing Assistance Plan*. A housing assistance plan submitted by a unit of general local government and approved by HUD under section 104 of the HCD Act or, in the case of a unit of general local government not participating under Title I of the HCD Act, a

XUM

housing plan which contains the elements set forth in section 104(a)(4) of the HCD Act and which is approved by the Secretary as meeting the requirements of section 213 of that Act.

(s) *Lower-income family.* A family whose income does not exceed 80 percent of the median income for the area as determined by HUD with adjustments for smaller or larger families, except that HUD may establish income limits higher or lower than 80 percent on the basis of its findings that such variations are necessary because of the prevailing levels of construction costs, unusually high or low incomes, or other factors.

(t) *New communities.* New community developments approved under Title IV of the Housing and Urban Development Act of 1968 and Title VII of the Housing and Urban Development Act of 1970.

(u) *Owner.* Any private person or entity, including a cooperative, or a PHA, having the legal right to lease or sublease substantially rehabilitated dwelling units.

(v) *PHA-Owner Proposal and PHA-Owner Project.* A proposal for a project under this Part (and the resulting project) to be owned by a PHA throughout the term of the Agreement and Contract where such Agreement and Contract are to be entered into between the PHA and HUD.

(w) *Preliminary proposal.* A proposal to provide substantially rehabilitated housing submitted in response to a HUD Invitation for Preliminary Proposals. (See Secs. 1277.203–1277.208.)

(x) *Private-Owner/PHA Proposal and Private-Owner/PHA Project.* A proposal for a project under this Part (and the resulting project) to be owned by a private Owner throughout the term of the Agreement and Contract where such Agreement and Contract are to be entered into between the private Owner and the PHA pursuant to an ACC between the PHA and HUD.

(y) *Private-Owner Proposal and Private-Owner Project.* A proposal for a project under this Part (and the resulting project) to be owned by a private Owner throughout the term of the Agreement and Contract where such Agreement and Contract are to be entered into between the private Owner and HUD.

(z) *Public Housing Agency ("PHA").* Any State, county, municipality, or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of housing for low-income Families.

(aa) *Secretary.* The Secretary of Housing and Urban Development.

(bb) *Substantial Rehabilitation.* (1) The improvement of a property to Decent, Safe, and Sanitary condition and in accord with HUD requirements from a condition requiring more than routine or minor repairs or improvements of such extent as to necessitate execution of an Agreement prior to the performance of the work. Substantial Rehabilitation may vary in degree from gutting and extensive reconstruction to cosmetic improvements coupled with cure of substantial accumulation of deferred maintenance. Cosmetic improvements alone do not qualify as Substantial Rehabilitation under this definition.

(2) Substantial rehabilitation also includes renovation, alteration or remodeling for the conversion or adaptation of structurally sound property to the design and condition required for use under this Part (e.g., conversion of a hotel to housing for the elderly).

(cc) *Very low-income family.* A family whose income does not exceed 50 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families.

§ 1277.103 Basic policies.

(a) *Limitation on Use of Substantially Rehabilitated Housing.* (1) No proposal for housing to be rehabilitated may be approved by HUD unless HUD requirements implementing the provisions of sections 213(a), (b), and (c) of the HCD Act regarding review by the unit of general local government have been satisfied.

(2) Substantial Rehabilitated projects shall be permitted only where: (i) HUD determines that there is not and there is not likely soon to be an adequate supply of, existing housing which, with the aid of housing assistance payments provided under the Section 8 Housing Assistance Payments Program—Existing Housing, can meet the needs of Eligible Families, or (ii) the proposed project is specifically approved by HUD in accordance with priorities established from time to time by the Secretary including priorities for New Communities which involve substantial rehabilitation.

(b) *Preference for Certain Types of Projects.* (1) *20 percent projects.* Assistance payments may be made with respect to up to 100 percent of the dwelling units in any structure or project. However, within the category of projects that are not designed for use primarily by the elderly and the handicapped and which involve the rehabilitation of more than 50 units, a preference will be provided for projects in which housing assistance will be limited to 20 percent or less of the units. (See Sec. 1277.208(e)(1).)

(2) *Three or more bedroom projects.* Where the need for dwelling units of three or more bedroom size ("large dwelling units") is shown, each HUD field office shall be responsible, to the extent feasible, for inviting and selecting proposals which in the aggregate will achieve the goal of providing a number of large dwelling units equal to at least 20 percent of all the assisted units approved under the section 8 Housing Assistance Payments Program, without undue concentration of such large dwelling units in any one location.

(c) *Maximum Total Annual Housing Assistance Payments (Private-Owner or PHA-Owner Projects).* (1) The maximum total annual housing assistance payments that may be committed under the Contract shall be the total of the Gross Rents for all the Contract units in the project.

(2) A project account will be established and maintained, in an amount as determined by the Secretary consistent with his responsibilities under section 8(c)(6) of the Act, out of amounts by which the maximum Contract commitment per year exceeds amounts paid under the Contract for any year. This account will be established and maintained by HUD as a specifically identified and segregated account, and payment shall be made therefrom only for the following purposes:

(i) Increases in housing assistance payments; and

(ii) Other costs specifically authorized or approved by the Secretary.

Any balance in this account after payment of the last housing assistance payment shall be applied by HUD as a receipt under section 10(b) of the Act.

(d) *Annual contributions (private-owner/PHA projects).* (1) The maximum total annual contributions that may be contracted for in the ACC for a project shall be: (i) the total of the Gross Rents for all the Contract Units in the project plus (ii) a fee for the regular costs of PHA administration. HUD-approved preliminary costs for administration (including administrative costs in connection with PHA activities related to relocation of occupants) shall be payable out of this total.

(2) A project account will be established and maintained, in an amount as determined by the Secretary consistent with his responsibilities under section 8(c)(6) of the Act, out of amounts by which the maximum ACC commitment per year exceeds amounts paid under the ACC for any year. This account shall be established and maintained by HUD as a specifically identified and segregated account, and payment shall be made therefrom only for the following purposes:

(i) Increases in housing assistance payments;

(ii) Increases in the amount of the fee for regular PHA costs of administration; and

(iii) Other costs specifically authorized or approved by the Secretary.

Any balance in this account after payment of the last annual contribution for the project shall be applied by HUD in accordance with law.

(e) *Housing assistance payments to owners.*—(1) *General.* Housing assistance payments shall be paid to Owners for units under lease by Eligible Families, in accordance with the Contract and as provided in this paragraph (e). The housing assistance payment will pay the Owner the difference between the Contract Rent and the portion of said rent payable by the Family as determined in accordance with the HUD-established schedules and criteria.

(2) *Vacancies during rent-up.* If a Contract unit is not leased as of the effective date of the Contract, the Owner shall be entitled to housing assistance payments in the amount of 80 percent of the Contract Rent for the unit for a vacancy period not exceeding 60 days from the effective date of the Contract, provided that the Owner (i) commenced

marketing and otherwise complied with Sec. 1277.215, (ii) has taken and continues to take all feasible actions to fill the vacancy, including, but not limited to, contacting applicants on his waiting list, requesting the PHA and other appropriate sources to refer eligible applicants, and advertising the availability of the unit, and (iii) has not rejected any eligible applicant, except for good cause acceptable to HUD or the PHA, as the case may be.

(3) *Vacancies After Rent-up.* (i) If an Eligible Family vacates its unit (other than as a result of action by the Owner which is in violation of the Lease or the Contract or any applicable law), the Owner shall receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days; provided, however, that if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to HUD or as HUD may direct. (See also Sec. 1277.103(a).) The Owner shall not be entitled to any payment under this paragraph (e)(3)(i) unless he: (A) immediately upon learning of the vacancy, has notified HUD or the PHA, as the case may be, of the vacancy or prospective vacancy and the reasons for the vacancy, and (B) has taken and continues to take the actions specified in paragraphs (e)(2)(ii) and (e)(2)(iii) of this section.

(ii) If the Owner evicts an Eligible Family, he shall not be entitled to any payment under paragraph (e)(3)(i) of this section unless the request for such payment is supported by a certification that (A) he gave such Family a written notice of the proposed eviction, stating the grounds and advising the Family that it had 10 days within which to present its objections to the Owner in writing or in person and (B) the proposed eviction was not in violation of the Lease or the Contract or any applicable law.

(4) The Owner shall not be entitled to housing assistance payments with respect to vacant units under this paragraph (e) to the extent he is entitled to payments from other sources (for example, payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the HCD Act or payments under § 1277.103(r).)

(f) *Initial maximum rents to Owners.* (1) The sum of the initial Contract Rents and any Allowances for Utilities and Other Services shall not exceed the Fair Market Rents for newly constructed rental housing, except that such Fair Market Rents may be exceeded (i) by up to 10 percent if the field office director determines that special circumstances warrant such higher rents and the higher rents meet the test of reasonableness in paragraph (f)(2) of this section, or (ii) by up to 20 percent, where the Assistant Secretary for Housing Production and Mortgage Credit determines that special circumstances warrant such higher rents, or that such higher rents are necessary to the implementation of a local Housing Assistance Plan, or that such higher rents meet the test of reasonableness in paragraph (f)(2) of this section.

(2) The Contract Rents as proposed must be determined by HUD to be reasonable in relation to the quality, location, amenities, methods and terms of financing, and management and maintenance services of the project, and proposed rents shall be subject to reduction if they are found to be higher than such reasonable rents.

(3) In addition, for projects financed with HUD-insured mortgages, initial Contract Rents for units assisted under this Contract shall not exceed the rents approved by HUD in connection with the mortgage insurance for such projects.

(g) *Term of housing assistance payments contract.* (1) A Contract may be for an initial term of not more than five years, with an option solely in the Owner to renew for additional terms of not more than five years each, provided that the total Contract term, including renewals, shall not exceed 20 years for any dwelling unit.

(2) In the case of a Contract under which housing assistance payments are made with respect to a project owned by, or financed by a loan or loan guarantee from, a State or local agency, the total Contract term may not exceed 40 years for any dwelling unit.

(3) Notwithstanding the maximum total allowable term per unit stated in paragraph (g)(1) or (g)(2) of this section, a shorter term shall be determined by HUD where appropriate, taking into account the nature and extent of the required rehabilitation, the amount of the capital expenditures reasonably required under the proposal, the reasonable period and rate of amortization for the financing, and the approved rents to the Owner.

(4) If the project is accepted in stages, the dates for the initial and the renewal terms shall be separately related to the units in each stage; provided, however, that the total Contract term for the units in all the stages, counting from the effective date of the Contract with respect to the first stage, may not exceed the overall maximum term allowable for any one unit, plus two years.

(h) *Rent Adjustments.*—(1) *funding of adjustments.* Housing assistance payments will be made in increased amounts commensurate with Contract Rent adjustments under this paragraph, up to the maximum total annual housing assistance payments committed under the Contract. The provisions of the Contract or the ACC, as the case may be, are designed (by providing for maximum total annual commitments in excess of the amounts required at the time of the initial rental of dwelling units and by setting aside such excess amounts in a project reserve) to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract Rents or decreases in Family incomes. In addition, the Contract or the ACC, as the case may be, will provide that HUD will take such additional steps authorized by section 8(c)(6) of the Act as may be necessary to carry out this assurance, including (as provided in that section) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

(2) *Automatic annual adjustments.* (i) Automatic Annual Adjustment Factors will be determined by HUD at least annually; interim revisions may be made as market conditions warrant. Such Factors and the basis for their determination will be published in the FEDERAL REGISTER. These published Factors will be reduced appropriately by HUD where utilities are paid directly by Families.

(ii) On each anniversary date of the Contract, the Contract Rents shall be adjusted by applying the applicable Automatic Annual Adjustment Factor most recently published by HUD. Contract Rents may be adjusted upward or downward, as may be appropriate; however, in no case shall the adjusted rents be less than the Contract Rents on the effective date of the Contract.

(3) *Special additional adjustments.* Special additional adjustments may be granted, when approved by HUD, to reflect increases in the actual and necessary expenses of owning and maintaining the Contract units which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner clearly demonstrates that such general increases have caused increases in the Owner's operating costs which are not adequately compensated for by automatic annual adjustments. The Owner shall submit to HUD financial statements which clearly suport the increase.

(4) *Overall limitation.* Notwithstanding any other provisions of this Part, adjustments as provided in this paragraph (h) shall not result in material differences between the rents charged for assisted and comparable unassisted units, as determined by HUD.

(i) *Types of housing and property standards.* (1) Existing structures of various types may be appropriate for this program including apartment hotels, single-family houses, or multi-family structures. Hotels or office buildings may be suitable for conversion under this program to housing designed for elderly or handicapped families and individuals, including congregate housing. Single room occupant housing planned specifically as a relocation resource for eligible single persons may also be developed. Units in highrise elevator buildings may not be used for Families with children unless HUD determines there is no practical alternative. Mobile homes may not be utilized in this program.

(2) No section 8 assistance may be provided for any unit occupied by an Owner; however, cooperatives are considered rental housing for this purpose.

(3) Participation in this program requires compliance with (i) HUD Mini-

XUM V 39 N 251 DEC 30 1974 XUM

mum Design Standards for Rehabilitation for Residential Properties, (ii) in the case of congregate or single room occupant housing, the appropriate HUD guidelines and standards, (iii) HUD requirements pursuant to section 209 of the HCD Act for projects for the elderly or the handicapped, (iv) HUD requirements pertaining to noise abatement and control, (v) HUD regulations issued pursuant to the Lead Base Paint Poisoning Prevention Act, 42 USC 4801, and (vi) applicable State and local laws, codes, ordinances, and regulations.

(j) *Site and neighborhood standards.* Proposed sites for substantial rehabilitation projects must be approved by HUD as meeting the following standards:

(1) Adequate utilities (water, sewer, gas and electricity) and streets shall be available to service the site.

(2) The site and neighborhood shall be suitable from the standpoint of facilitating and furthering full compliance with the applicable provisions of Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Order 11063, and HUD regulations issued pursuant thereto.

(3) The site shall promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of lower-income persons.

(4) The site shall be free from serious adverse environmental conditions, or there shall be evidence that any such conditions will be corrected by the time the rehabilitation is completed.

(5) The site shall comply with any applicable conditions in the Local Housing Assistance Plan, approved by HUD.

(6) The housing shall be accessible to social, recreational, educational, commercial, and health facilities and services, and other municipal facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unsubsidized, standard housing of similar market rents.

(7) Travel time and cost via public transportation or private automobile, from the neighborhood to places of employment providing a range of jobs for lower-income workers, shall not be excessive. (While it is important that elderly housing not be totally isolated from employment opportunities, this requirement need not be adhered to rigidly for such projects.)

(8) If the housing to be rehabilitated has occupants, the relocation requirements referred to in Sec. 1277.103(k), must be met.

(9) Housing may not be rehabilitated in an area that has been identified by HUD as having special flood hazards and in which the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, unless the project is covered by flood insurance as required by the Flood Disaster Protection Act of 1973, and it meets any relevant HUD standards and local requirements.

(k) *Relocation.* (1) In the evaluation or selection of Preliminary Proposals, consideration shall be given to whether there are occupants who would have to be displaced, whether there is a feasible plan for relocation of such occupants, the degree of hardship which displacement might cause, and the availability of funding for relocation payments. Greater weight shall be given to proposals which do not require displacement, or, where displacement is required, which will involve the least amount of hardship.

(2) In the case of a PHA-Owner Project, no Agreement shall be executed with respect to occupied units which involve substantial rehabilitation requiring that the units be vacated unless the Agreement provides (i) the PHA undertakes liability for and provides the funding of all relocation payments under section 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, or (ii) other commitments, satisfactory to HUD, have been made for the funding of such payments. (In the case of a Private-Owner Project or a Private-Owner/PHA Project, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 is inapplicable.)

(l) *Equal opportunity requirements.* Participation in this program requires compliance with (1) Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Orders 11063 and 11246, and section 3 of the Housing and Urban Development Act of 1968; and (2) all rules, regulations, and requirements issued pursuant thereto.

(m) *National Environmental Policy Act.* Participation in this program requires compliance with the National Environmental Policy Act and all rules, regulations, and requirements issued pursuant thereto.

(n) *Clean Air Act and Federal Water Pollution Control Act.* Participation in this program requires compliance with the Clean Air Act and the Federal Water Pollution Control Act and all rules, regulations, and requirements issued pursuant thereto.

(o) *Davis-Bacon Wage Rates.* Not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act (40 Stat. 1011), shall be paid to all laborers and mechanics employed in the development of any substantial rehabilitation project with nine or more assisted units.

(p) *Types of financing.* Any type of financing may be utilized, including, but not limited to, the types listed below.

(1) Conventional loans from commercial banks, savings banks, savings and loan associations, pension funds, insurance companies or other financial institutions.

(2) Mortgage insurance programs under the National Housing Act (see Sec. 1277.207). (With respect to any obligation secured by a mortgage insured under section 221(d)(3) of the National Housing Act and issued by a public agency as mortgagor in connection with the financing of a project assisted under Section 8, the interest paid on such obligation shall be included in gross income for purposes of Chapter I of the Internal Revenue Code of 1954.)

(3) Home Improvement Loans under Title I of the National Housing Act.

(4) Section 202 of the Housing Act of 1959.

(5) Title V of the Housing Act of 1949.

(6) Financing by tax-exempt bonds or other obligations. Where the financing is by a non-profit corporation which is an agency or instrumentality of a PHA, the project will be considered a PHA-Owner Project.

(q) *Use of contract as security for financing.* (1) An Owner may pledge, or offer as security for any loan or obligation, an Agreement or Contract entered into pursuant to this Part; provided, however, that such security is in connection with a project rehabilitated pursuant to this Part, and the terms of the financing or any refinancing have been approved by HUD. It is the Owner's responsibility to request such approval in sufficient time before he needs the financing to permit review of the method and terms of the financing and the instrument of pledge, offer or other assignment that HUD is requested to approve. Where the methods and terms of financing require, the Contract Rents may be reduced in accordance with Sec. 1277.103(f)(2).

(2) Any pledge of the Agreement, Contract, or ACC, or payments thereunder, shall be limited to the amounts payable under the Contract or ACC in accordance with its terms.

(3) In the event of foreclosure, including foreclosure by HUD, and in the event of assignment or sale agreed to by HUD or made to HUD, housing assistance payments shall continue in accordance with the terms of the Contract.

(r) *Security and utility deposits.* (1) An Owner may require Families to pay a security deposit in an amount equal to one month's Gross Family Contribution. If a Family vacates the unit, the Owner may utilize the deposit as reimbursement for any unpaid rent or damage caused by the Family. If the Family has provided a security deposit, and it is insufficient for such reimbursement, the Owner may claim reimbursement from HUD or the PHA, as appropriate, not to exceed an amount equal to the remainder of one month's Contract Rent. If a Family vacates the unit owing no rent and causing no damage to the unit or if the amount of unpaid rent and/or damage is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance, as the case may be, to the Family.

(2) In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include such interest. All security deposit funds shall be deposited by the Owner in a segregated bank account, and the balance of this account, at all times, shall be equal to the total amount collected from tenants then in occupancy, plus any accrued interest. The Owner must comply with all State and local laws re-

garding interest payments on security deposits.

(3) Families shall be expected to obtain the funds to pay security and utility deposits, if required, from their own resources and/or other private or public sources.

(s) *Establishment of income limit schedules; 30 percent occupancy by very low-income families.* (1) HUD will establish schedules of income limits for defining Lower-Income Families and Very Low-Income Families.

(2) In the initial renting of Contract units, the Owner shall lease at least 30 percent to Very Low-Income Families and shall thereafter exercise his best efforts to maintain at least 30 percent occupancy of Contract units by Very Low-Income Families, provided that if this requirement cannot be met because of Families already residing in the property to be rehabilitated, HUD may adjust the percentage of Very Low-Income Families to the extent that it is compensated for by higher than 30 percent provision for such Families in other projects.

(t) *Establishment of amount of housing assistance payments.* The amount of housing assistance payment on behalf of an Eligible Family, to be determined in accordance with schedules and criteria established by HUD, will equal the difference between (1) not less than 15 percent nor more than 25 percent of the Family's gross income and (2) the Gross Rent, taking into consideration the income of the Family, the number of minor children in the household, and the extent of medical or other unusual expenses incurred by the Family, except that, in the case of a large (6 or more minors) Very Low-Income Family or a very large (8 or more minors) Lower-Income Family or a Family with exceptional medical or other expenses, the amount of the housing assistance payment shall be the difference between 15 percent of the Family's gross income and the Gross Rent.

(u) *Responsibilities of the Owner.* The Owner shall be responsible (subject to post-review or audit by HUD or the PHA, as the case may be) for management and maintenance of the project. These responsibilities shall include but not be limited to:

(1) Payment for utilities and services (unless paid directly by the Family), insurance and taxes;

(2) Performance of all ordinary and extraordinary maintenance;

(3) Performance of all management functions including the taking of applications, selection of Families including verification of income and other pertinent requirements, and determination of eligibility and amount of Family contribution in accordance with HUD-established schedules and criteria;

(4) Collection of Family rents;

(5) Termination of tenancies, including evictions;

(6) Preparation and furnishing of information required under the Contract;

(7) Reexaminations of Family income, composition, and extent of exceptional medical or other unusual expenses, and redeterminations, as appropriate, of the amount of Family contribution and amount of housing assistance payment in accordance with HUD-established schedules and criteria;

(8) Redeterminations of amount of Family contribution and amount of housing assistance payment as a result of an adjustment by HUD of any applicable Allowance for Utilities and Other Services in accordance with HUD-established schedules and criteria; and

(9) Compliance with equal opportunity requirements.

Subject to HUD approval, any private Owner may contract with any private or public entity to perform such services for a prescribed fee, provided that such contract shall not shift any of the Owner's responsibilities or obligations. However, no entity which is responsible for administration of the Contract (for example, a PHA in the case of a Private-Owner/PHA Project) may contract to perform management and maintenance of the project. (See, however, Sec. 1277.103(y) which permits conversion of a Private-Owner/PHA Project to a Private-Owner Project.)

(v) *Responsibility for Administration of Contract.* (1) In the case of a Private-Owner Project or a PHA-Owner Project, HUD is responsible for administration of the Contract. HUD may contract with another entity for the performance of some or all of its Contract administration functions.

(2) In the case of a Private-Owner/PHA Project, the PHA is primarily responsible for administration of the Contract. However, if the PHA is the lender, the following shall apply:

(i) HUD shall have the right to make independent audits, reviews, and determinations as to compliance by the Owner with any or all of his obligations under the Contract; and

(ii) In the event HUD determines that the Owner is in default with respect to any or all of his obligations, HUD shall have the right to take direct action (as if HUD were the party to the Contract primarily responsible for its administration) to enforce any or all available remedies, including, but not limited to, abatement of housing assistance payments, collection of payments previously made in violation of the Contract, and termination of the Contract in whole or in part.

(w) *Separate project requirement.* (1) In the case of a Private-Owner Project or a PHA-Owner Project, each Agreement and Contract shall constitute a separate project.

(2) In the case of a Private-Owner/PHA Project, such project may not include any other type of Section 8 assistance, shall be processed with a separate ACC List and ACC Part I and shall be assigned a separate project number. All substantial rehabilitation units to be placed under a single Contract shall comprise a separate project. However, the field office director may designate as a single project the units to be covered by two or more such Contracts for substantial rehabilitation projects where:

(i) The units are placed under ACC on the same date; and

(ii) Such consolidation is necessary in the interest of administrative efficiency.

(x) *Conversion of Private-Owner Project to Private-Owner/PHA Project.* HUD may request the Owner of a Private-Owner Project and an appropriate PHA to agree, if they are willing, to a conversion of any such project to a Private-Owner/PHA Project if HUD determines that such conversion would promote efficient project administration.

(y) *Conversion of Private-Owner/PHA Project to Private-Owner Project.* The private Owner and the PHA, in the case of a Private-Owner/PHA Project, may request HUD to agree to a conversion of any such project to a Private-Owner Project. HUD shall agree to such conversion if it determines it to be in the best interest of the project.

Subpart B—Project Development and Operation

§ 1277.201 Allocations of contract authority to field offices.

HUD will allocate to field offices contract authority for the section 8 Housing Assistance Payments Program for metropolitan areas and for non-metropolitan areas in conformance with section 213(d) of the HCD Act.

§ 1277.202 Program mix (new construction, substantial rehabilitation existing housing).

Each field office shall, after considering the contents of any Local Housing Assistance Plans and any other pertinent information which it has or which is brought to its attention, in relation to the factors set forth in section 213(d) of the HCD Act, determine the number and types of units to be advertised for new construction and for substantial rehabilitation, and to be made available for existing housing. The field office will also determine an appropriate schedule for advertising for Preliminary Proposals—Substantial Rehabilitation.

§ 1277.203 Invitations for preliminary proposals.

(a) *Publication.* The HUD field office shall initiate implementation of its program with respect to substantial rehabilitation by publishing Invitations for Preliminary Proposals—Substantial Rehabilitation in accordance with the schedule established by the field office. Such publications shall be at least once a week on the same day or days of each of two consecutive weeks in a newspaper(s) of general circulation serving the area(s) for which proposals are desired. As promptly as possible, HUD will also notify minority media, business concerns included in HUD's registry of section 3 businesses for the applicable political jurisdictions, minority organizations involved in housing and community development and fair housing groups. In addition, to the extent feasible, HUD will notify appropriate PHA's, the chief executive officer of the appropriate

unit(s) of general local government, trade journals, and other non-minority media. Copies of each Invitation shall be available in the HUD field office.

(b) *Contents of invitation.* The Invitation shall state the geographic area or areas in which the housing is to be rehabilitated; the number of units in each area; the deadline for receipt of Preliminary Proposals by HUD; such other basic information as the field office may wish to specify; and the fact that detailed information, guidelines, standards and procedures are contained in a Rehabilitation Program Packet which may be obtained by interested parties from the field office. The Invitation shall also state that Preliminary Proposals may be submitted by private Owners or PHA Owners for direct contracting with HUD, or by PHAs on behalf of private Owners with whom the PHA proposes to contract pursuant to an ACC with HUD.

(c) *Deadline for receipt of preliminary proposals.* The deadline (date and time) for receipt of Preliminary Proposals by HUD shall allow a reasonable time but, in any event, no less than 35 calendar days after the date of the first publication in a newspaper of general circulation.

§ 1277.204 Contents of rehabilitation program packet.

The Rehabilitation Program Packet shall:

(a) Include a copy of the applicable regulations, required HUD forms, and HUD standards.

(b) Include the following information for each geographic area specified in the Invitation.

(1) The number of units for elderly and nonelderly occupancy and the number to be specially designed for elderly (including handicapped) occupancy.

(2) The number of units by unit size (bedrooms per unit) and the fact that a proposal may be for any number of units up to that amount.

(3) The type of housing, if any, which is unacceptable (e.g., high-rise elevator structures for Families with children, where HUD has determined that such housing is inappropriate).

(4) Special requirements, if any, as to location and density; and as to New Communities were substantial rehabilitation is involved.

(5) Any special requirements for housing for the elderly (including the handicapped) pursuant to section 209 of the HCD Act, and any special requirements for the handicapped pursuant to the standards established by HUD under Public Law 90–480.

(6) Any special requirements or restrictions that may be necessary for compliance with provisions of the Local Housing Assistance Plan, if any, and the name, address, and title of the official of the unit of general local government to whom inquiries may be made concerning such Plan.

(7) The specific management and maintenance services required to be provided by the Owner. Such services shall include all services typically provided in the area for the type of housing contemplated.

(8) The Fair Market Rents and the fact that rents requested by the Owner must be determined by HUD to be reasonable in accordance with sec. 1277.103(f).

(9) The maximum initial term of the Contract and the fact that the maximum approvable term, including renewals, will be determined in accordance with sec. 1277.103(g).

(c) Include statements as to:

(1) Equal opportunity requirements, which include the submission of an Affirmative Fair Housing Marketing Plan (if the proposal is for five or more units); an assurance of compliance with Title VI of the Civil Rights Act of 1964; compliance with Executive Order 11063 and Title VIII of the Civil Rights Act of 1968, including regulations and guidelines pursuant thereto; and certifications required pursuant to Executive Order 11246.

(2) HUD regulations and other requirements implementing section 3 of the Housing and Urban Development Act of 1968, requiring that, to the greatest extent feasible, opportunities for training and employment be given to lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

(3) HUD relocation requirements.

(4) HUD requirements implementing the National Environmental Policy Act.

(5) Governmental requirements implementing the Clean Air Act and the Federal Water Pollution Control Act.

(6) HUD requirements implementing the Flood Disaster Protection Act of 1973.

(7) The requirement, if a project will contain nine or more Contract units, that all laborers and mechanics employed in the development of the project shall be paid not less than the wages prevailing in the locality as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act.

(8) The prescribed HUD form showing the identity of the Owner, the rehabilitator, the architect (if any), and the managing agent (if any); the qualifications and experience of each; and the names of officials and principal members, shareholders and investors, and other parties having substantial interest.

(9) The requirement that the Owner submit evidence of capability to provide the required management and maintenance services or, if the proposal is for 15 or more units, evidence of management capability and a proposed management plan and a certification by the Owner and the management agent, if any, in a format acceptable to HUD.

(10) The fact that if the Owner intends to pledge, or offer as security for any loan or obligation, an Agreement or Contract, he is responsible for submitting to HUD a request for such approval in sufficient time before he needs the financing to permit review of the method and terms of the financing and the instrument of pledge, offer or other assignment; and that if the request is made after approval of the Final Proposal, the Contract Rents may be reduced where the methods and terms of financing require. (See § 1277.103(q).)

(11) Other requirements which the HUD field Office determines to be necessary.

(12) Where copies of HUD Minimum Design Standards for Rehabilitation for Residential Properties and any other applicable standards, guidelines and criteria may be obtained.

(13) The number of copies of the Preliminary Proposal to be submitted to HUD.

(14) The fact that HUD may determine not to select or approve any or all Preliminary Proposals submitted.

§ 1277.205 Contents of preliminary proposal.

Each Preliminary Proposal shall include or indicate the following:

(a) The address(es) of the housing proposed to be rehabilitated and a neighborhood map showing the location(s) of the housing and the racial composition of the neighborhoods(s).

(b) A copy of the option agreement(s), contract(s) of sale, or other document(s) which evidence(s) the proposer's effective control of the property to be rehabilitated (however, only the proposed price is required for a New Communities project).

(c) A description of the housing as is, including number and type of structures, number of stories, structural system, exterior finish, heating-air conditioning system, number of units by size (number of bedrooms), living area and composition for each size of unit, and special amenities or features, if any; exterior and interior photos; and sketches of the interior showing dimensions.

(d) A description of the proposed rehabilitation covering each basic element (e.g., roof, exterior walls, porches and steps; interior walls, ceilings and floors; kitchen and bathroom facilities and equipment; plumbing, heating and electrical equipment; landscaping; etc.) indicating the nature of the work to be done on each element. If alteration, renovation or remodeling is indicated, a description of such work and sketches showing layout after completion of rehabilitation.

(e) A statement as to whether or not the services of a registered architect will be utilized for preparation of final working drawings and specifications.

(f) The Contract Rent per unit, by size and structure type.

(g) The equipment to be included in the Contract Rent.

(h) The utilities and services to be included in the Contract Rent and those utilities and services not so included. For each utility and service not included in the Contract Rent, an estimate of the average monthly cost (for the first year of occupancy) to the occupants by unit size and structure type.

(i) The proposed term of the Contract (including all renewals) and justification for such term in accordance with Sec. 1277.103(g).

(j) A showing that the proposal meets any special requirements or restrictions necessary for compliance with the provisions of the Local Housing Assistance Plan, if any.

(k) Whether the proposed rehabilitation will displace site occupants. If so, the proposal shall state the number of families, individuals, and business concerns to be displaced (identified by race or minority group status, and whether they are owners or renters), and shall show that there is a feasible plan for relocation and how necessary relocation payments, if any, will be funded.

(l) Equal Employment Opportunity Certification using the prescribed form.

(m) The identity of the Owner, rehabilitator (if known) and architect (if applicable and identity is known; the qualifications and experiences of each; and the names of officials and principal members, shareholders and investors, and other parties having substantial interest, and the prior participation of each in HUD programs, using the prescribed form.

(n) Whether the Owner intends to provide management services or to contract with a managing agent. In the latter case, provide the identity of the managing agent, if known, and the other information as specified in paragraph (m) of this section.

(o) The proposed method of financing and whether the Owner intends to pledge or offer the Agreement and/or Contract as security for any loan or obligation (see Sec. 1277.103(q)). If the Owner proposes to utilize FHA mortgage insurance, the prescribed FHA form should be completed and submitted with the Preliminary Proposal.

(p) Whether the Owner proposes to limit the number of assisted units to 20 percent of the dwelling units in the project.

§ 1277.206 Submission of preliminary proposals.

(a) Preliminary Proposals shall be submitted to HUD on or before the published deadline date and time for opening, in the number of copies specified in the Rehabilitation Program Packet. Proposal documents shall be sealed in an inner envelope marked "Sealed Proposal—Open on (date and time specified in the Invitation)". This sealed proposal shall be submitted in an outer envelope or package which shall show the name of the locality, be addressed to the HUD field office, and be clearly and distinctively marked "Section 8 Housing Assistance Payments Program—Substantial Rehabilitation Preliminary Proposal".

(b) Submission of Preliminary Proposals shall be by hand delivery or certified mail. Any Preliminary Proposal received by HUD after the deadline date and time shall not be accepted but shall be returned unopened. No Preliminary Proposal shall be opened by HUD until the deadline.

§ 1277.207 Proposals involving HUD-FHA mortgage insurance.

(a) *Advance mortgage insurance processing.* This paragraph (a) applies to Owners who apply for HUD–FHA mortgage insurance prior to the submission of a Preliminary Proposal under this Part. Such an Owner may apply for a Feasibility Letter, a Conditional Commitment, or a Firm Commitment for mortgage insurance by submitting an application on the prescribed form with supporting exhibits and the required fee. Such an application will have to meet the marketability test without reliance upon housing assistance payments under this Part, or, in the alternative, approval for mortgage insurance shall be conditioned upon subsequent approval of a section 8 proposal for the same project. If a Feasibility Letter, Conditional Commitment, or Firm Commitment, whichever is applicable, is issued, and if prior to expiration thereof the Owner submits a Preliminary Proposal under this Part which is consistent with the proposal as approved for mortgage insurance, such proposal will nevertheless be subject to review and evaluation in accordance with the procedures under this Part; however, if the Preliminary Proposal is selected in accordance with the procedures under this Part, further processing will be coordinated in accordance with paragraph (b) of this section to the extent applicable, and the rents which were approved for mortgage insurance purposes will be accepted for purposes of such Preliminary Proposal provided that they are otherwise approvable in accordance with this Part.

(b) *Concurrent processing.* The provisions of this paragraph (b) apply where the Preliminary Proposal indicates an intention to finance a project with a HUD–FHA insured mortgage. Such a Preliminary Proposal will not be selected under this Part unless it meets the market and site acceptability criteria of the applicable mortgage insurance program except as modified by this paragraph. The processing of such a proposal for mortgage insurance will be integrated with the section 8 review and evaluation process. Selection by HUD of such a Preliminary Proposal for preparation of a Final Proposal will be made only where HUD has also determined that the proposal will qualify for mortgage insurance subject to a satisfactory demonstration by the Owner of his capability to complete the projects and subject to subsequent determinations of "as is" value, the loan amount and credit approval. A proposed project which qualified as "substantial rehabilitation" under section 8 may fail to qualify as substantial rehabilitation under mortgage insurance programs (because of the different definition of "substantial rehabilitation"); nevertheless, such a proposal would qualify for mortgage insurance as "existing construction," and mortgage insurance commitments will be conditioned upon the satisfactory completion of all rehabilitation work.

(1) A section 8/HUD–FHA mortgage insurance project will be required to meet the marketability test of the applicable mortgage insurance program; provided, however, that the number of units in the proposal for which housing assistance payments are to be made available will be considered as an addition to the effective demand for unassisted rental units. As in the case of any other market analysis for market rate unassisted mortgage insurance programs, the supply of suitable vacant existing units, units under construction, and units in process must be subtracted from the estimate of total effective demand. Consequently, section 8/HUD–FHA insured units could be added to a market in which supply and demand are in equilibrium or in which there is an undersupply of rental units, but could not be added to a market in which there is an oversupply of rental units in the same competitive range of market rents as the proposed section 8/HUD–FHA insured project.

(2) After selection of a Preliminary Proposal which involves HUD–FHA mortgage insurance the Owner will be required to submit, with the Final Proposal, an application for HUD–FHA Conditional Commitment with fee (two dollars per thousand dollars of mortgage requested) under the applicable mortgage insurance program. Such Final Proposals will not be approved under Section 8 unless they also qualify for issuance of a HUD–FHA Conditional Commitment under the applicable mortgage insurance program. The HUD notification of approval of the Final Proposal will be accompanied by a HUD–FHA Conditional Commitment for HUD–FHA mortgage insurance. The Owner's acceptance of HUD's notification of approval of the Final Proposal will constitute concurrent acceptance of the conditions and terms of the HUD–FHA Conditional Commitment for mortgage insurance.

(3) The rents of those units scheduled for assisted occupancy, when projected for purpose of determining a mortgage limitation based on the debt service criterion, shall be the Contract Rents set forth in the approved Final Proposal.

(4) Prior to the execution of the Agreement, the Owner will be required to obtain a Firm Commitment for HUD–FHA mortgage insurance. This will require the submission of an application for a Firm Commitment, with an additional fee (one dollar per thousand dollars of the mortgage requested), upon acceptance of HUD's notification of approval or the submission of the architect's certification accompanying the working drawings and specifications in accord with § 1277.211.

(c) *Delayed Mortgage Insurance Processing.* Where an Owner does not indicate in his Preliminary Proposal that he intends to utilize HUD–FHA mortgage insurance and applies for HUD–FHA mortgage insurance after HUD approval of the Preliminary Proposal under this Part, he risks (1) having his approved proposal rejected for HUD–FHA mortgage insurance and (2) having lower rents approved under the mortgage insurance program than the rents set forth in the approved proposal under this Part.

XUM
DEC 30 1974 V39 N251

§ 1277.208 Screening and evaluation of preliminary proposals.

(a) *Initial Screening.* Promptly after the deadline date for receipt of Preliminary Proposals, HUD will screen all the proposals to determine which are complete and responsive and eligible for further processing. Where a proposal lacks one or more of the required elements (see Sec. 1277.205), or is clearly not responsive to the conditions of the Invitation and the Rehabilitation Program Packet, the HUD field office shall give the Owner the shortest reasonable time (generally not to exceed 10 days) to remedy the deficiency.

(b) *A–95 Clearance: Notice to Unit of General Local Government.* (1) Promptly after the deadline date for receipt of proposals (or after the appropriate later date for proposals completed pursuant to paragraph (a) of this section), the HUD field office will, for each complete and responsive Preliminary Proposal which is subject to A–95 clearance, send a copy of the proposal to the appropriate A–95 Clearinghouse for review, inviting a response within 34 days from the date of the letter of transmittal.

(2) Within 10 working days after the deadline date for receipt of proposals (or after the appropriate later date for proposals completed pursuant to paragraph (a) of this section), the HUD field office will forward, under cover of a letter on the appropriate prescribed form, a copy of each complete and responsive Preliminary Proposal to the chief executive officer (or such designee as such officer may designate in writing to the HUD field office) of the unit of general local government in which the proposed housing is to be located. The cover letter will invite a response within 30 days from the date the letter and copy of the proposal are received.

(c) *Evaluation of preliminary proposals by HUD.* HUD may begin its evaluation promptly after the deadline date, but no selection or ranking may be completed until the response periods referred to in paragraph (b) of this section have ended. Each Preliminary Proposal will be evaluated and ranked by HUD on the basis of all pertinent factors under this Part including, the best combination of rent, site, design and previous experience of the proposed Owner and on the basis of comments, if any, received during the response periods from the appropriate A–95 Clearinghouse and the unit of general local government.

(d) *Selection (where approvable proposals do not exceed number by size) of units advertised.* For each geographic area HUD will determine which Preliminary Proposals, in its judgment, can be developed into Final Proposals meeting the requirements of the Rehabilitation Program Packet. If the units covered by such Preliminary Proposals could all be accommodated in the number of units (by unit size) specified in the Invitation, HUD will request all Owners of acceptable Preliminary Proposals to prepare Final Proposals in accordance with § 1277.209.

(e) *Selection where approvable proposals exceed number (by size) of units advertised.* If the units covered by acceptable Preliminary Proposals cannot all be accommodated by the number of units (by unit size) specified in the Invitation, HUD will proceed as follows:

(1) Proposals consisting of projects to be developed entirely or predominantly for the elderly shall be listed in rank order and a second rank listing shall be established for projects to be developed entirely or predominantly for family housing.

(2) With respect to the listing of proposals for elderly housing, the HUD field office will identify for selection the highest ranking proposals in descending order which will most nearly provide the number of units of elderly housing called for in the Invitation.

(3) With respect to the listing of proposals for family housing, the HUD field office will identify for selection the highest ranking proposals in descending order which collectively will most nearly provide the number and sizes of units of family housing called for in the Invitation; provided however that if there is a Preliminary Proposal for the rehabilitation of more than 50 units of family housing which indicates that assistance will be limited to 20 percent or less of the units to be rehabilitated, this proposal shall be given priority over the lowest ranking proposal(s) identified for selection which is for more than 50 units and which is for generally the same number and sizes of units.

(4) The field office shall determine whether the combined results of the tentative selections from both listings would exceed the number and sizes of units called for in the Invitation. If so, the field office shall make such revisions in the tentative selections as it may determine to be necessary.

(f) *Use of residual units.* For any residual number of units, HUD may publish another Invitation for Proposals, but this shall not delay the further processing of those Preliminary Proposals submitted in response to the prior Invitation that have been selected as a result of the prior Invitation.

(g) *Notification of selection.* (1) With respect to those Preliminary Proposals which have been selected in accordance with this section, HUD will notify the Owners, on a prescribed form, and request them to submit within a reasonable time (to be specified in the notification) a Final Proposal in accordance with the requirements of the provisions of § 1277.209. The notification shall specify:

(i) The Contract Rents that will be acceptable to HUD where these are lower than the Contract Rents proposed by the Owner, and the reason for the reduction;

(ii) The term of the Contract that will be acceptable to HUD where it is shorter than the term proposed by the Owner, and the reason for the shorter term;

(iii) That the services of a registered architect must be utilized where HUD has determined that the nature and extent of the rehabilitation requires the utilization of such services;

(iv) The estimate of the amount of relocation payments, where applicable; and

(v) Other special conditions or requirements, if any.

(2) The notification will request the Owner to return a copy of the notification with an indication of his acceptance thereof by a specified date. If the Owner does not accept the notification by the date specified, HUD may rescind the notification and select another approvable proposal.

(h) *Notification of nonselection.* Owners whose Preliminary Proposals were not selected by HUD shall be sent a letter notifying them of such determination.

§ 1277.209 Final proposals.

(a) *Contents of Final Proposal.* Each Final Proposal shall indicate or include the following:

(1) A copy of the site option agreement(s), contract(s) of sale, or other document(s) which evidence(s) the proposer's effective control of the property to be rehabilitated (however, only the proposed price is required for a New Communities project).

(2) A description of the proposed rehabilitation covering each basic element (e.g., roof, exterior walls, porches and steps; interior walls, ceilings, and floors; kitchen and bathroom facilities and equipment; plumbing, heating and electrical equipment; landscaping; etc.) indicating the nature of the work to be done on each element and the grade and quality of the work, materials and equipment. If alteration, renovation or remodeling are indicated, preliminary drawings and plans and outline specifications on the prescribed form.

(3) The Contract Rent per unit, by size and structure type.

(4) The equipment to be included in the Contract Rent.

(5) The utilities and services to be included in the Contract Rent and those utilities and services not so included. For each utility and service not so included, an estimate of the average monthly cost (for the first year of occupancy) to the occupants by unit size and structure type.

(6) In the case of a PHA-Owner Project, a statement that (i) the PHA will undertake liability for and provide the funding of all relocation payments under sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, or (ii) other commitments, which the Owner believes to be satisfactory to HUD, have been made for the funding of such payments. In the latter case, the PHA shall specify such other commitments. (In the case of a Private-Owner Project or a Private-Owner/PHA Project, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 is inapplicable.)

(7) The proposed term of the Contract (including all renewals) and justification for such term in accordance with § 1277.103(g).

(8) Submission of an Affirmative Fair Housing Marketing Plan (if the proposal is for five or more units), a signed assurance of compliance with Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Order 11063, and certifications required pursuant to Executive Order 11246.

(9) Submissions as required by HUD regulations and other requirements pursuant to section 3 of the Housing and Urban Development Act of 1968.

(10) The identity of the Owner, rehabilitator, architect (if applicable) and managing agent (if known); the qualifications and experience of each; and the names of officials and principal members, shareholders and investors, and other parties having substantial interest, and the prior participation of each in HUD programs, using the prescribed form.

(11) Submission of evidence of management capability and a proposed management plan and a certification by the Owner and the management agent, if any, in a format acceptable to HUD; or, if the proposal is for less than 15 units, evidence of capability of providing the required management and maintenance services. If the Owner proposes to contract with another entity, including a PHA, for management and/or maintenance services for the project, he shall include a copy of the proposed contract(s).

(12) Submission of the form of Lease the Owner proposes to use, which shall be in accordance with § 1277.218(c).

(13) The proposed method of financing and whether the Owner intends to pledge or offer the Agreement and/or Contract as security for any loan or obligation (see Sec. 1277.103(q)). If the Owner intends to utilize FHA mortgage insurance, an application for a Conditional Commitment on the prescribed form shall be completed and submitted with the prescribed fee with the Final Proposal.

(14) Evidence that the proposed rehabilitation is permissible under the applicable zoning, building, housing and other codes, ordinances or regulations; or a statement of the proposed action to make the rehabilitation permissible and that such action will be successfully completed prior to the Owner's acceptance or the architect's certification (if required) pursuant to § 1277.211(b).

(15) The anticipated time required for completion of the rehabilitation after the Agreement is signed (If the project is to be completed in stages, identification of the units comprising each stage and the estimated dates for commencement and completion of each stage).

(b) *Consistency with preliminary proposal.* The Final Proposal shall be consistent with the Preliminary Proposal. Any material deviations from the Preliminary Proposal in the Final Proposal will cause reconsideration by HUD of such Final Proposal and may result in its rejection.

§ 1277.210 Evaluation of final proposals.

(a) *Evaluation of final proposals by HUD.* Each Final Proposal will be evaluated by HUD to determine that the provisions of this Part have been complied with and that such Final Proposal is consistent with the Preliminary Proposal.

(b) *Clarifications or modifications.* HUD may request clarification of individual items, additional information, or modifications of the Final Proposal.

(c) *HUD determination.* HUD shall notify the Owner (and the PHA, if applicable) as to whether the Final Proposal is:

(1) Approved.

(2) Approvable only if specified deficiencies are corrected and that HUD will approve the Final Proposal if it receives within a specified time evidence of such necessary corrections.

(3) Not approved. If a Final Proposal is not approved or if the conditions for approval under paragraph (c)(2) of this section are not met, HUD shall so advise the Owner and may request the preparation of a Final Proposal(s) with respect to the highest ranking Preliminary Proposal(s) not previously selected, or may issue another Invitation for Preliminary Proposals.

(d) *Notification.* The appropriate A–95 Clearinghouses and the unit of general local government shall be notified by HUD of its final action.

§ 1277.211 Owner's acceptance of notification and submission of architect's certification.

(a) *Owner's acceptance.* Upon receipt by the Owner of the notification of approval of the Final Proposal, the Owner shall return to HUD a copy indicating his acceptance within the time prescribed in such notification (copy to the PHA, if applicable). If the Owner does not accept the notification by the date specified, HUD may rescind the notification and proceed in accordance with § 1277.210(c)(3).

(b) *Architect's certification.* (1) If the services of a registered architect are to be used, HUD may not enter into an Agreement (or, where applicable, an ACC and an Agreement) until after the Owner has submitted to HUD the architect's certification on the prescribed form. Such certification shall be made by the architect responsible for the preparation of the working drawings and specifications.

(2) The architect's certification shall state that, to the best of the architect's knowledge, belief, and professional judgment, (i) the working drawings and specifications are consistent with the approved Final Proposal (including any modifications required by HUD in its review of the Final Proposal), and (ii) the proposed rehabilitation in accordance with these plans and specifications is permissible under the applicable zoning, building, housing, and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials. This certification shall also cover compliance with the appropriate HUD Minimum Designed Standards for Rehabilitation for Residential Properties and other standards, guidelines and criteria applicable under this Part.

(3) One copy of the certified working drawings and specifications shall be submitted with the architect's certification to HUD, which shall retain it and any changes approved by HUD for at least three years from the date of acceptance of the project; provided, however, that receipt and retention by HUD of these working drawings and specifications shall not denote or constitute HUD review or approval of such drawings or specifications.

(4) If the Owner fails to submit the certification by the date specified in the notification, HUD shall rescind the notification (and may proceed in accordance with § 1277.210(c)(3)) unless it determines that a reasonable extension of time should be granted.

§ 1277.212 Annual contributions contract and agreement (private-owner/PHA projects).

(a) *Preparation of ACC.* After receipt of the accepted notification (and, where required, the architect's certification with the working drawings and specifications), the HUD field office shall prepare the ACC, shown as Appendix III. The ACC shall be transmitted to the PHA for execution and returned to HUD. This transmittal shall advise the PHA that it must simultaneously submit for HUD approval its Initial Estimate of Required Annual Contributions (Preliminary Costs) and an Estimate of Total Required Annual Contributions (see § 1277.213).

(b) *Preparation of Agreement.* The Agreement shall be prepared by the HUD field office at the time the ACC is prepared (see § 1277.214), and shall conform to the prescribed form shown as Appendix IV. The Agreement shall include all required information and required attachments.

(c) *Execution of ACC and Agreement.* After receipt of the PHA-executed ACC, accompanied by the Estimates of Required Annual Contributions, HUD shall review the Estimates and, if approved, execute the ACC, HUD shall then transmit a fully executed copy of the ACC to the PHA, together with four copies of the unexecuted Agreement. After execution of the Agreement by the PHA and the Owner, all copies shall be returned by the PHA to HUD for approval. HUD shall return three copies to the PHA, retaining one for its records.

§ 1277.213 Submission of estimates of required annual contributions (private-owner/PHA projects).

(a) *Initial submission.* An allowance may be provided for preliminary costs incurred by the PHA prior to the beginning of the first fiscal year. When the ACC is executed by the PHA, it shall sub-

mit an Initial Estimate of Required Annual Contributions (Preliminary Costs) together with an Estimate of Total Required Annual Contributions on the prescribed forms. This submission includes estimates of costs of administration and non-expendable equipment up to the beginning of the first fiscal year.

(b) *First fiscal year submission.* Not earlier than 150 and not later than 90 days prior to the estimated date of the beginning of the first fiscal year, the PHA shall submit an Estimate of Required Annual Contributions (Housing Assistance and Administration) covering the estimated amount required for the first fiscal year for housing assistance payments and for the fee for administration together with an Estimate of Total Required Annual Contributions.

(c) *Subsequent fiscal year submissions.* Not earlier than 150 and not later than 90 days prior to the beginning of each subsequent fiscal year, the PHA shall submit an Estimate of Required Annual Contributions (Housing Assistance and Administration) and an Estimate of Total Required Annual Contributions, with supporting documentation, for any requested changes in the amount of housing assistance payments and the fee for administration.

(d) *Revisions of estimates.* Any of the above Estimates may be revised to reflect changes in circumstances and available data.

(e) *HUD approval.* All Estimates of Required Annual Contributions and any revisions thereto submitted by the PHA shall be subject to HUD approval.

§ 1277.214 Preparation and Execution of agreement (private-owner and PHA-owner projects).

After receipt of a copy of the accepted notification (and, where required, the architect's certification and the working drawings and specifications), the HUD field office shall prepare the Agreement in the prescribed form shown as Appendix I. The Agreement shall include all required information and required attachments. HUD shall transmit to the Owner three copies of the unexecuted Agreement. After the Owner executes all copies of the Agreement, he shall return them to HUD. HUD shall execute the Agreement, returning one copy to the Owner and retaining two for its records.

§ 1277.215 Rehabilitation period.

(a) *Timely performance of work.* After execution of the Agreement, the Owner shall promptly proceed with the rehabilitation work as provided in the Agreement. In the event the work is not so commenced, diligently continued, and/or completed, HUD (or the PHA with HUD approval, as appropriate) reserves the right to rescind the Agreement, or take other appropriate action.

(b) *Delays.* Although extensions of time may be granted for the reasons specified in the Agreement, no increases in Contract Rents may be granted on that account.

(c) *Changes.* The Owner shall submit for HUD approval any changes from the approved Final Proposal which will materially reduce or alter his obligations or any changes which alter the design or materially reduce the quality or amenities of the project. HUD may condition its approval of such changes on a reduction of Contract Rents. If such changes are made without prior HUD approval, HUD may determine that Contract Rents shall be reduced or that the Owner shall remedy the deficiency as a condition for acceptance of the project. Contract Rents may not be increased by reason of any changes or modifications.

(d) *Inspection of HUD–FHA insured projects.* For projects financed with HUD–FHA insured mortgages, required HUD inspection procedures shall be followed including compliance with equal opportunity requirements.

(e) *Equal opportunity review.* Equal opportunity review may be conducted with any scheduled HUD inspection or at any other time deemed advisable by HUD.

(f) *Commencement of marketing.* The Owner shall commence and diligently continue marketing as soon as possible, but in any event no later than 60 days prior to the estimated completion date. The Owner shall notify HUD (or the PHA in the case of a Private-Owner/PHA Project) of the date of the commencement of marketing. The Owner shall also comply with all reporting requirements under the Affirmative Fair Housing Marketing Regulations. Not later than 30 days prior to the estimated completion date and periodically thereafter, the Owner shall notify HUD (or the PHA in the case of a Private-Owner/PHA Project) of any units which he anticipates will be vacant on the effective date of the Contract. At the time the Contract is executed (see § 1277.217), the Owner will be required to submit a list of the dwelling units leased as of the effective date of the Contract and a list of the units not so leased, if any. The Owner will be entitled to housing assistance payments for any unleased units, pursuant to § 1277.103(e)(2), only if he has fully complied with the requirements of that section and of this paragraph.

(g) *Management certification.* Prior to acceptance of the project by HUD, the Owner must certify in writing that there has been no change in the evidence of management capability or in the proposed management program (if one was required) specified in his Final Proposal other than changes approved in writing by HUD in accordance with the Agreement.

(h) *Labor standards certification.* Prior to acceptance by HUD of any project consisting of nine or more Contract units, the Owner must certify in writing that he has complied with the provisions of the Agreement relating to the payment of not less than prevailing wage-rates and that to the best of his knowledge and belief there are no claims of underpayment in alleged violation of said provisions of the Agreement. In the event there are any such pending claims to the knowledge of the Owner, HUD, or the PHA (if applicable), the Owner shall be required to place a sufficient amount in escrow, as determined by HUD, to assure such payments.

§ 1277.216 Project completion.

(a) *Notification of completion.* The Owner shall notify HUD (with a copy to the PHA in the case of a Private-Owner/PHA Project) when the work is completed and shall submit to HUD the evidence of completion described in paragraph (b) of this section.

(b) *Evidence of completion.* Completion of the project shall be evidenced by furnishing HUD with all of the following:

(1) A certification by the Owner that (i) the property was treated and is in compliance with applicable HUD Lead Based Paint regulations 24 CFR 35, (ii) if the property was constructed prior to 1950, the Family upon occupancy will receive the notice required by HUD Lead Based Paint regulations and procedures regarding the hazards of lead based paint poisoning, the symptoms and treatment of lead poisoning and the precautions to be taken against lead poisoning and that records showing receipt of such notice by each tenant will be maintained.

(2) A certificate of occupancy and/or other official approvals necessary for occupancy.

(3) A certification by the Owner, which will be supported by the Owner's warranty in the Contract, that:

(i) All work has been completed in accordance with the requirements of the Agreement;

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified).

(iv) The project has been rehabilitated in accordance with applicable zoning, building, housing and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.

(4) A certification (if working drawings and specifications were prepared and certified to by a registered architect) by the registered architect responsible for inspection of construction that such inspection was performed by him or under his supervision with the frequency and thoroughness required by the generally accepted standards of professional care and judgment, and that to the best of his knowledge, belief, and professional judgment:

(i) All work has been completed in conformance with the certified working drawings and specifications for the project or approved changes thereto (such changes to be listed);

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified by the architect).

(iv) The project has been rehabilitated in accordance with applicable zon-

ing, building, housing and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.

(c) *Inspection.* (1) Within ten working days of the receipt of the Owner's notification of project completion, a HUD representative (accompanied by a PHA representative, if applicable) shall inspect the project and review the evidence of completion listed in paragraph (b) of this section. Such inspection shall be sufficient to enable the HUD inspector to state in his inspection report that he has inspected the observable elements and features of the project in accordance with professional standards of care and judgment and that, in the basis of such inspection, the project has been completed in accordance with the Agreement and, in particular, that there are no observable conditions inconsistent with the certification of the Owner or the design architect or the inspecting architect. As promptly as possible, HUD shall notify the Owner in writing as to whether or not the project has been completed in an acceptable manner.

(2) In the event the Owner disputes HUD's determinations, he may submit the controversy to third-party arbitration, at his expense, provided that the arbitration is advisory only.

(d) *Acceptance of project.* If HUD determines that the project is not acceptable under paragraph (c) (1) of this section, the following shall apply:

(1) If the defects or deficiencies are only punchlist items or incomplete items awaiting seasonal opportunity, the project may be accepted and the Contract executed. If the Owner fails to complete such items within a reasonable time to the satisfaction of HUD, HUD may, upon 30 days notice, terminate or require termination of the Contract or exercise its other rights under the Contract.

(2) If the defects or deficiencies are other than punchlist items or incomplete work awaiting seasonal opportunity, but HUD determines that: (i) a certificate of occupancy and/or other official approvals necessary for occupancy has been issued, (ii) the project is in good and tenantable condition, and (iii) the project has been rehabilitated in accordance with the applicable zoning, building, housing and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials, the project may be accepted after the Owner corrects the defects or deficiencies or the project may be accepted subject to a specified reduction of the Contract Rents as determined by HUD.

(3) If HUD determines that the project is not acceptable under paragraphs (d) (1) or (d) (2) of this section, HUD shall determine: (i) whether the defects or deficiencies can be corrected, and (ii) whether a reduction in Contract Rents will be required as a condition to acceptance of the project. If it is determined that the defects or deficiencies can be corrected, the Owner thereupon shall be notified of HUD's determinations under paragraphs (d) (3) (i) and (d) (3) (ii) of this section, and, if he agrees to comply with the conditions, an agreement shall be entered into pursuant to which the defects or deficiencies will be corrected and the project then accepted. If the Owner is unwilling to enter into such agreement or if he fails to perform the agreement, the project shall not be accepted.

(e) *Completion in stages.* If the project is to be completed in stages, the procedures of this section shall apply to each stage.

§ 1277.217 Execution of Housing Assistance payments contract.

(a) Upon acceptance of the project by the Government pursuant to §§ 1277.215 and 1277.216, the Contract shall be executed first by the Owner and then by HUD, or, in the case of a Private-Owner/PHA Project, executed by the Owner and the PHA and then approved by HUD.

(b) At the time of execution of the Contract, HUD (or the PHA, as appropriate) shall examine the lists of dwelling units leased and not leased, referred to in § 1277.215(f), and shall determine whether or not the Owner has met his obligations under that section with respect to any unleased units. HUD (or the PHA, as appropriate) shall state in writing its determination with respect to the unleased units and for which of those units it will make housing assistance payments. The Owner shall indicate in writing his concurrence with this determination or his disagreement, reserving his rights to claim housing assistance payments for the unleased units pursuant to the Contract, without prejudice by reason of his signing the Contract. Copies of all documents referred to in this paragraph shall be furnished HUD in the case of a Private-Owner/PHA project.

§ 1277.218 Project operation.

(a) *Compliance with Equal Opportunity requirements.* Marketing of units and selection of Families by the Owner shall be in accordance with the Owner's HUD-approved Affirmative Fair Housing Marketing Plan, if required, and with all regulations relating to fair housing advertising including use of the equal opportunity logotype, statement, and slogan in all advertising. Projects shall be managed and operated without regard to race, color, creed, religion, sex, or national origin.

(b) *Eligiblity, selection and admission of families.* (1) The Owner shall be responsible for determination of eligibility of applicants, selection of families from among those determined to be eligible, and computation of the amount of housing assistance payments on behalf of each selected Family, in accordance with schedules and criteria established by HUD.

(2) For every family that wishes to apply for admission, the Owner and the applicant shall complete and sign the form of application prescribed by HUD, except that if there are no vacant units and the Owner's waiting list is such that there would be an unreasonable length of time before the applicant could be admitted, the Owner may advise the applicant that the Owner is not accepting applications for that reason. The Owner shall retain copies of all completed applications together with any related correspondence for three years. For each Family selected for admission, the Owner shall submit one copy of the completed and signed application to the HUD field office (in the case of Private-Owner/PHA Projects, the Owner simultaneously shall send a copy of the form to the PHA). Housing assistance payments will not be made on behalf of an admitted Family until after this copy has been received by the HUD field office.

(3) If the Owner determines that the applicant is eligible on the basis of income and family composition and is otherwise acceptable but the Owner does not have a suitable unit to offer, the Owner shall place such Family on his waiting list and so advise the Family.

(4) If the Owner determines that the applicant is eligible on the basis of income and family composition and is otherwise acceptable and if the Owner has a suitable unit, the Owner and the Family shall enter into a Lease. Such Lease shall be on the form of Lease included in the Owner's approved Final Proposal and shall otherwise be in conformity with the provisions of this Part.

(5) Records on applicant families and approved Families shall be maintained by the Owner so as to provide HUD with racial, ethnic and gender data and shall be retained by the Owner for three years.

(6) In the case of a PHA-Owner project, (i) if the PHA places a Family on its waiting list, it shall notify the Family of the approximate date of availability of a suitable unit insofar as such date can be reasonably determined, and (ii) if the PHA determines that an applicant is ineligible on the basis of income or family composition, or that the PHA is not selecting the applicant for other reasons, the PHA shall send the applicant a letter notifying him of the determination and the reasons and that the applicant has the right within a reasonable time (specified in the letter) to request an informal hearing. If, after conducting such an informal hearing, the PHA determines that the applicant shall not be admitted, the PHA shall so notify the applicant in writing and such notice shall inform the applicant that he has the right to request a review by HUD of the PHA's determination. The procedures of this subparagraph do not preclude the applicant from exercising his other rights if he believes he is being discriminated against on the basis of race, color, creed, religion, sex, or national origin. The PHA shall retain for three years a copy of the application, the letter, the applicant's response if any, the record of any informal hearing, and a statement of final disposition.

(c) *Lease requirements.* The Lease shall contain all required provisions specified in paragraph (c) (2) of this section and none of the prohibited provisions listed in paragraph (c) (3) of this section and shall otherwise conform to

XUM V 39 N 251 DEC 30 1974 XUM

the form of Lease included with the Owner's approved Final Proposal.

(1) *Term of lease.* The term of the Lease shall be generally for not less than one year. The Lease may (or, in the case of a Lease for a term of more than one year, shall) contain a provision permitting termination upon 30 days advance written notice by either party.

(2) *Required provisions.* The Lease between the Owner (Lessor) and the Family (Lessee) shall contain the following provisions:

"[ADDITIONS TO LEASE]

"The following additional Lease provisions are incorporated in full in the Lease between _____ (Lessor) and _____ (Lessee) for the following dwelling unit: _____. In case of any conflict between these and any other provisions of the Lease, these provisions shall prevail.

"a. The total rent shall be $_____ per month.

"b. Of the total rent, $_____ shall be payable by or at the direction of the Department of Housing and Urban Development ("HUD") as housing assistance payments on behalf of the Lessee and $_____ shall be payable by the Lessee. These amounts shall be subject to change by reason of changes in the Lessee's family income, family composition, or extent of exceptional medical or other unusual expenses, or by reason of adjustment by HUD of any applicable Allowance for Utilities and Other Services. Any such change shall be determined in accordance with HUD-established schedules and criteria and shall be effective as of the date stated in a notification to the Lessee.

"c. The Lessor shall not discriminate against the Lessee in the provision of services, or in any other manner, on the grounds of race, color, creed, religion, sex, or national origin.

"d. The Lessor shall provide the following services and maintenance: [Here insert the complete list as contained in the approved Final Proposal.]

"Lessor _____
By _____
Date _____
Lessee _____
Date _____"

(3) *Prohibited provisions.* Lease clauses which fall within the classifications listed below shall not be included in any Lease.

(i) *Confession of judgment.* Prior consent by tenant to any lawsuit the landlord may bring against him in connection with the Lease and to a judgment in favor of the landlord.

(ii) *Distraint for rent or other charges.* Authorization to the landlord to take property of the tenant and hold it as a pledge until the tenant performs any obligation which the landlord has determined the tenant has failed to perform.

(iii) *Exculpatory clause.* Agreement by tenant not to hold the landlord or landlord's agents liable for any acts or omissions whether intentional or negligent on the part of the landlord or the landlord's authorized representative or agents.

(iv) *Waiver of legal notice by tenant prior to actions for eviction or money judgments.* Agreement by tenant that the landlord may institute suit without any notice to the tenant that the suit has been filed.

(v) *Waiver of legal proceedings.* Authorization to the landlord to evict the tenant or hold or sell the tenant's possessions whenever the landlord determines that a breach or default has occurred, without notice to the tenant or any determination by a court of the rights and liabilities of the parties.

(vi) *Waiver of jury trial.* Authorization to the landlord's lawyer to appear in court for the tenant and to waive the tenant's right to a trial by jury.

(vii) *Waiver of right to appeal judicial error in legal proceedings.* Authorization to the landlord's lawyer to waive the tenant's right to appeal on the ground of judicial error in any suit or the tenant's right to file a suit in equity to prevent the execution of a judgment.

(viii) *Tenant chargeable with costs of legal actions regardless of outcome.* Agreement by the tenant to pay attorney's fees or other legal costs whenever the landlord decides to take action against the tenant even though the court finds in favor of the tenant. (Omission of such clause does not mean that the tenant as a party to a lawsuit may not be obligated to pay attorney's fees or other costs if he loses the suit.)

(d) *Termination of tenancy.* The Owner shall be responsible for termination of tenancies, including evictions. However, conditions for payment of housing assistance payments for any resulting vacancies shall be as set forth in § 1277.103 (e) (3) (ii).

(e) *Maintenance, operation and inspections.*—(1) *Maintenance and operation.* The Owner shall maintain and operate the project so as to provide Decent, Safe, and Sanitary housing and he shall provide all the services, maintenance and utilities which he agrees to provide under the Contract, subject to abatement of housing assistance payments or other applicable remedies if he fails to meet these obligations.

(2) *Inspection.* Prior to occupancy of any unit by a Family, the Owner and the Family shall inspect the unit and both shall certify, on the form prescribed by HUD, that they have inspected the unit and have determined it to be Decent, Safe, and Sanitary in accordance with the criteria provided in the prescribed form. HUD (or the PHA, as appropriate) will inspect or cause to be inspected each Contract unit and related facilities at least annually and at such other times (including prior to initial occupancy of any unit) as HUD (or the PHA) may determine to be necessary to assure that the Owner is meeting his obligation to maintain the units in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. HUD (or the PHA) will take into account complaints by occupants and any other information coming to its attention in scheduling inspections.

(f) *Units not decent, safe, and sanitary.* If HUD (or the PHA, as appropriate) notifies the Owner that he has failed to maintain a dwelling unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action within the time prescribed in the notice, HUD (or the PHA) may exercise any of its rights or remedies under the Contract, including abatement of housing assistance payments, even if the Family continues to occupy the unit. If, however, the Family wishes to be rehoused in another dwelling unit with Section 8 assistance and HUD (or the PHA) does not have other Section 8 funds for such purposes, HUD (or the PHA) may use the abated housing assistance payments for the purpose of rehousing the Family in another dwelling unit. Where this is done, the Owner shall be notified that he will be entitled to resumption of housing assistance payments for the vacated dwelling unit if:

(1) The unit is restored to Decent, Safe, and Sanitary condition;

(2) The Family is willing to and does move back to the restored dwelling unit; and

(3) A deduction is made for the expenses incurred by the Family for both moves.

(g) *Reexamination of family income, composition, and extent of exceptional medical or other unusual expenses.* Reexamination of Family income, composition, and the extent of medical or other unusual expenses incurred by the Family shall be made by the Owner at least annually (except that such reviews may be made at intervals no longer than two years in the case of elderly Families), and appropriate redeterminations shall be made by the Owner of the amount of the Family contribution and the amount of the housing assistance payment, all in accordance with schedules and criteria established by HUD.

(h) *Overcrowded and underoccupied units.* If HUD or the PHA, as the case may be, determines that a Contract unit assisted under this Part is not Decent, Safe, and Sanitary by reason of overcrowding, or that a Contract unit is larger than appropriate for the size of the Family in occupancy, housing assistance payments with respect to such unit will not be abated, unless the Owner fails to offer the Family a suitable unit as soon as one becomes vacant and ready for occupancy. In the case of an overcrowded unit, if the Owner does not have any suitable units or if no vacancy of a suitable unit occurs within a reasonable time, HUD (or the PHA) will assist the Family in finding a suitable dwelling unit and require the Family to move to such a unit as soon as possible. The Owner may receive housing assistance payments for the vacated unit if he complies with the requirements of § 1277.103(e)(3)(i).

(i) *Adjustment of allowance for utilities and other services.* HUD or the PHA, as the case may be, shall determine, as part of its annual inspection and at such other times as it deems appropriate, whether an adjustment is required in the Allowance for Utilities and Other Services applicable to the dwelling units in the project, on grounds of changes in utility rates or other change of general applicability to all units in the project. If HUD determines that an adjustment should be made, HUD shall prescribe the amount of the adjustment and direct the Owner to make promptly a correspond-

ing adjustment in the amount of rent to be paid by the affected Families and the amount of housing assistance payment.

(j) *Continued family participation.* A Family must continue to occupy its approved unit to remain eligible for participation in the Housing Assistance Payments Program except that if the Family (1) wishes to vacate its unit at the end of the Lease term (or prior thereto but in accordance with the provisions of the Lease), or (2) is required to move for reasons other than violation of the Lease on the part of the Family, and if the Family wishes to receive the benefit of housing assistance payments in another approvable unit, the Family should give reasonable notice of the circumstances to HUD or to the PHA, as appropriate, so that HUD or the PHA may have the opportunity to consider the Family's request.

(k) *Inapplicability of low-rent public housing model lease and grievance procedures.* Model lease and grievance procedures established by HUD for PHA-owned low-rent public housing are applicable only to PHA-Owner Projects under the section 8 Housing Assistance Payments Program.

(l) *Reduction of number of contract units for failure to lease to eligible families.* (1) If at any time, beginning six months after the effective date of the Contract, the Owner fails for a continuous period of six months to have at least 80 percent of the Contract units leased or available for leasing by Eligible Families, HUD (or the PHA at the direction of HUD, as appropriate) may on 30 days notice reduce the number of Contract units to not less than the number of units under lease or available for leasing by Eligible Families, plus 10 percent of such number, if the number is 10 or more, rounded to the next highest number.

(2) At the end of the initial term of the Contract and of each renewal term, HUD (or the PHA at the direction of HUD, as appropriate) may, by notice to the Owner, reduce the number of Contract units to not less than (i) the number of units under lease or available for leasing by Eligible Families at that time or (ii) the average number of units so leased or available for leasing during the last year, whichever is the greatest number, plus 10 percent of such number, if the number is 10 or more, rounded to the next highest number.

(3) Any reduction pursuant to paragraphs (l)(1) or (l)(2) of this section shall not preclude subsequent restoration of contract units if contract authority is available and if HUD determines that the restoration is justified as a result of changes in demand and in the light of the Owner's record of compliance with his obligations under the contract.

§ 1277.219 HUD review of contract compliance.

HUD will review project operation at such intervals as it deems necessary to ensure that the Owner is in full compliance with the terms and conditions of the Contract. Equal Opportunity review may be conducted with the scheduled HUD review or at any time deemed appropriate by HUD.

§ 1277.220 PHA reporting requirements. [Reserved]

APPENDIX I—AGREEMENT TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT SUBSTANTIAL REHABILITATION PRIVATE-OWNER OR PHA-OWNER PROJECT

Part I

This Agreement to Enter into Housing Assistance Payments Contract ("Agreement") is made and entered into by and between the United States of America acting through the Department of Housing and Urban Development ("Government") and _____ ("Owner").

Whereas, the Owner proposes to complete a housing project consisting of the substantial rehabilitation of certain projects and land as described in the approved Final Proposal; and

Whereas, the Owner and the Government propose to enter into a Housing Assistance Payments Contract ("Contract") upon the completion of said project for the purpose of making housing assistance payments to enable eligible lower-income families ("Families") to occupy units in said project; and

Whereas, the Owner is also the rehabilitator, or, if the rehabilitator is other than the Owner, the rehabilitator's name is _____.

Now Therefore, the parties hereto agree as follows:

1.1 *Significant dates: Contents of Agreement.* a. *Time for Completion of Project.* The time for completion of the project (see Section 1.2a) is _____ calendar days after the effective date of this Agreement.

b. *Date for Commencement of Work.* The date for commencement of work (see Section 1.2b) is _____, 19__.

c. *Contents of Agreement.* This Agreement consists of Part I, Part II, and the following exhibits:

Exhibit A: The approved Final Proposal, including, among other things, evidence of management capability, and, if required, the architect's certification, the Affirmative Fair Housing Marketing Plan, and management program;

Exhibit B: The Housing Assistance Payments Contract ("Contract") to be executed upon acceptable completion of the project;

Exhibit C: The schedule of completion in stages, if applicable;

Exhibit D: The schedule of minimum rates of wages, if applicable; and

Additional exhibits: [Specify additional exhibits, if any. If none, insert "None."]

This Agreement, including said exhibits, comprises the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein. Nothing contained in this Agreement shall create or affect any relationship between the Government and the lender or any contractors or subcontractors employed by the Owner in the completion of the project.

1.2 *Schedule of Completion.* a. *Time for Completion.* The project shall be completed in accordance with Section 1.4 no later than the end of the period stated in Section 1.1a, or in stages as provided for in Exhibit C which identifies the units comprising each stage and the date of commencement and time for completion of each stage. Where completion in stages is provided for, all references to project completion shall be deemed to refer to project completion and/or completion of any stage, as appropriate.

b. *Timely Performance of Work.* The Owner agrees that no later than the date stated in Section 1.1b the work will be commenced and diligently continued. In the event the work is not commenced, diligently continued, and/or completed as aforesaid, the Government reserves the right to rescind this Agreement or take other appropriate action. The Owner shall report to the Government the date work was commenced and shall thereafter furnish the Government with periodic progress reports (quarterly unless more frequent reporting is required by the Government).

c. *Delays.* In the event there is delay in the completion due to strikes, lockouts, labor union disputes, fire, unusual delays in transportation, unavoidable casualties, weather, acts of God, or any other causes beyond the Owner's control, or by delay authorized by the Government, the time for completion shall be extended to the extent that completion is delayed due to one or more of these causes. No increase in the rents set forth in Exhibit B ("Contract Rents") may be granted on account of any such delays.

1.3 *Rehabilitation period.* a. *Changes.* The Owner shall submit for Government approval any changes from Exhibit A which will materially reduce or alter his obligations or any changes which alter the design or materially reduce the quality or amenities of the project. The Government may condition its approval of such changes on a reduction of Contract Rents. If such changes are made without prior Government approval, the Government may determine that Contract Rents shall be reduced or that the Owner shall remedy the defects or deficiencies as a condition for acceptance of the project. Contract Rents may not be increased by reason of any changes or modifications.

b. *Commencement of Marketing.* The Owner shall commence and diligently continue marketing as soon as possible, but in any event no later than 60 days prior to the estimated completion date. The Owner shall notify the Government of the date of commencement of marketing. The Owner shall also comply with all reporting requirements under the Affirmative Fair Housing Marketing Regulations. Not later than 30 days prior to the estimated completion date and periodically thereafter, the Owner shall notify the Government of any units which he anticipates will be vacant on the effective date of the Contract. At the time the Contract is executed, the Owner shall submit a list of the dwelling units leased as of the effective date of the Contract and a list of the units not so leased, if any. The Owner will be entitled to housing assistance payments for any unleased units pursuant to Section 1.6b of the Contract only if he has fully complied with the requirements of this paragraph and the provisions of that Section.

c. *Management Certification.* Prior to acceptance of the project by the Government, the Owner shall certify in writing that there has been no change in the evidence of management capability or in the proposed management program (if one was required) specified in his Final Proposal other than changes approved in writing by the Government in accordance with paragraph a of this Section.

d. *Labor Standards Certification.*[1] Prior to acceptance of the project by the Government, the Owner shall certify in writing that he has complied with the provisions of Sections 2.6 through 2.11 of this Agreement, and that to the best of his knowledge and belief there are no claims of underpayment to laborers or mechanics in alleged violation of said provisions of the Agreement. In the event there are any such pending claims to the knowledge

[1] Strike this paragraph if the project involves fewer than nine Contract units.

XUM V 39 NO 251 DEC 30 1974 XUM

of the Owner or the Government, the Owner shall be required to place a sufficient amount in escrow as determined by the Government to assure payment thereof.

1.4 *Project completion.* a. *Conformance to Final Proposal.* The completed project shall be in accordance with Exhibit A. The Owner shall be solely responsible for completion of the project.

b. *Notification of Completion.* The Owner shall notify the Government when the work is completed and shall submit to the Government the evidence of completion described in paragraph c of this Section.

c. *Evidence of Completion.* Completion of the project shall be evidence by furnishing the Government with all of the following:

(1) A certification by the Owner that:

(i) The property was treated and is in compliance with applicable HUD Lead Based Paint regulations 24 CFR 35,

(ii) If the property was constructed prior to 1950, the Family upon occupancy will receive the notice required by HUD Lead Based Paint regulations and procedures regarding the hazards of lead based paint poisoning, the symptoms and treatment of lead poisoning and the precautions to be taken against lead poisoning and that records showing receipt of such notice by each tenant will be maintained.

(2) A certificate of occupancy and/or other official approvals necessary for occupancy.

(3) A certification by the Owner, which will be supported by the Owner's warranty in the Contract, that:

(i) All work has been completed in accordance with the requirements of this Agreement;

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified).

(iv) The project has been constructed in accordance with applicable zoning, building, housing, and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.

(4) [1] A certification by the registered architect responsible for inspection of the work that such inspection was performed by him or under his supervision with the frequency and thoroughness required by the generally accepted standards of professional care and judgment, and that to the best of his knowledge, belief, and professional judgment:

(i) All work has been completed in conformance with the certified working drawings and specifications for the project or approved changes thereto (such changes to be listed);

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified).

(iv) The project has been constructed in accordance with applicable zoning, building, housing, and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.

d. *Inspection.* (1) Within ten working days of the receipt of the Owner's notification of project completion, the Government representative shall inspect the project and review the evidence of completion listed in paragraph c of this Section. Such inspection shall be sufficient to enable the Government inspector to state in his inspection report that he has inspected the observable elements and features of the project in accordance with professional standards of care and judgment and that, on the basis of such inspection, the project has been completed in accordance with the Agreement and, in particular, that there are no observable conditions inconsistent with the certifications of the Owner or the design architect (if required) or the inspecting architect (if required). As promptly as possible, the Government shall notify the Owner in writing as to whether or not the project has been completed in an acceptable manner.

(2) In the event the Owner disputes the Government's determinations, he may submit the controversy to third-party arbitration, at his expense, provided that the arbitration is advisory only.

e. *Acceptance of Project.* If the Government determines that the project is not acceptable under paragraph d(1) of this Section, the following shall apply:

(1) If the defects or deficiencies are only punchlist items or incomplete items awaiting seasonal opportunity, the project may be accepted and the Contract executed. If the Owner fails to complete such items within a reasonable time to the satisfaction of the Government, the Government may, upon 30 days notice, terminate the Contract or exercise its other rights under the Contract.

(2) If the defects or deficiencies are other than punchlist items or incomplete work awaiting seasonal opportunity, but the Government determines that (i) a certificate of occupancy and/or other official approvals necessary for occupancy has been issued (ii) the project is in good and tenantable condition, and (iii) the project has been rehabilitated in accordance with the applicable zoning, building, housing and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials, the project may be accepted after the Owner corrects the defects or deficiencies or the project may be accepted subject to a specified reduction of the Contract Rents as determined by the Government.

(3) If the Government determines that the project is not acceptable under paragraphs e(1) or e(2) of this Section, the Government shall determine: (i) whether the defects or deficiencies can be corrected and (ii) whether a reduction in Contract Rents will be required as a condition to acceptance of the project. If it is determined that the defects or deficiences can be corrected, the Owner shall be notified of the Government's determination under (i) and (ii) of this subparagraph and, if he agrees to comply with the conditions, an agreement shall be entered into pursuant to which the defects or deficiencies will be corrected and the project then accepted. If the Owner is unwilling to enter into such agreement or if he fails to perform the agreement, the project shall not be accepted. Prior to execution of the Contract, the Government will verify that appropriate corrective action has been taken.

f. *Completion in Stages.* If the project is to be completed in stages, the procedures of this Section shall apply to each stage.

1.5 *Execution of housing assistance payments contract.* a. *Time of Execution.* Upon acceptance of the project by the Government pursuant to Sections 1.3 and 1.4, the Contract shall be executed first by the Owner and then by the Government.

b. *Completion in Stages.* If completion is in stages, the Contract shall be executed upon completion of the first stage, and the number and types of completed units and their Contract Rents shall be shown in Exhibit A–1 of the Contract. Thereafter, upon completion of each successive stage, the signature block provided in the Contract for that stage shall be executed by the Owner and the Government, and Exhibits A–2, A–3, etc., covering the additional units, shall become part of the Contract.

c. *Unleased Units at Time of Execution.* At the time of execution of the Contract, the Government shall examine the lists of dwelling units leased and not leased, referred to in Section 1.3b, and shall determine whether or not the Owner has met his obligations under that Section with respect to any unleased units. The Government shall state in writing its determination with respect to the unleased units and for which of those units it will make housing assistance payments pursuant to the Contract. The Owner shall indicate in writing his concurrence with this determination or his disagreement, reserving his rights to claim housing assistance payments for the unleased units pursuant to the Contract, without prejudice by reason of his signing the Contract.

d. *Contract Rents.* The Contract Rents by unit size, amounts of housing assistance payments, and all other applicable terms and conditions shall be as specified in the proposed Housing Assistance Payments Contract, except that in no case may the initial Contract Rents for units in projects financed with mortgages insured under the National Housing Act exceed the rents approved by the Government in connection with the mortgage insurance for such projects.

e. *No Changes in Contract.* Each party has read or is presumed to have read the proposed Contract. It is expressly agreed that there shall be no change in the terms and conditions of the Contract other than in accordance with Section 1.3a and paragraph d of this Section.

1.6 *Government Assurance To Owner.* The execution of this Agreement by the Government signifies that the faith of the United States is solemnly pledged to the payment of housing assistance payments pursuant to the Contract and that funds have been obligated by the Government for such payments.

1.7 *Relocation requirements.*[2]

[Alternative provisions—incorporate alternative 1 or 2, as applicable.]

Alternative 1—For projects which were without site occupants as of the date indicated in this alternative.

The Owner hereby certifies that the site of the project was without occupants as of the date of the Government notification to the Owner requesting the Owner to submit a Final Proposal.

Alternative 2—For projects which do not qualify for alternative 1.

a. *Owner Compliance with Relocation Act.* The Owner agrees to comply with the provisions of sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and applicable Government regulations and requirements issued pursuant thereto.

b. *Relocation Payments Other than by Owner.* The Government has determined that satisfactory commitments have been made for the funding of relocation payments required by sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as follows:

---

c. *Relocation Payments by Owner.* If paragraph b is inapplicable, the following shall apply:

---

[1] Strike this subparagraph (4) if the work is to be done other than in accordance with working drawings and specifications prepared and certified to by a registered architect.

[2] Strike this Section in the case of a Private-Owner Project.

(1) The maximum potential amount of all relocation payments as estimated by the Government is $_____.

(2) The Owner has deposited this amount in an escrow account under the terms of which payments may be made only upon presentation of written authorization by the Government for the purpose of meeting relocation payments.

(3) The Owner hereby voluntarily undertakes liability for all relocation payments and agrees that if the funds in the escrow account shall prove to be insufficient to meet all such relocation payments he will deposit such additional amounts as the Government determines to be necessary for such purpose.

(4) When the Government determines that there is no longer any potential liability for relocation payments, any balance in the escrow account shall be paid to the Owner.

(5) The Owner agrees to hold harmless and to indemnify the Government for any costs incurred under sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 in connection with the relocation of site occupants, and the Owner further agrees that the Government shall have the right to be reimbursed for any such costs by withholding from housing assistance payments payable to the Owner.

EFFECTIVE DATE. This Agreement shall be effective as of the date of execution by the Government.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement in in four original counterparts.

WARNING: 18 U.S.C. 1001 provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM

AGREEMENT TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT SUBSTANTIAL REHABILITATION PRIVATE-OWNER OR PHA-OWNER PROJECT

PART II

2.1 *Training, employment, and contracting opportunities for businesses and lower-income persons.*[4] a. The project assisted under this Agreement is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

b. Notwithstanding any other provision of this Agreement, the Owner shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135 (published in 38 Federal Register 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this Agreement. The requirements of said regulations include, but are not limited to, development and implementation of an affirmative action plan for utilizing business concerns located within, or owned in substantial part by persons residing in, the area of the project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by section 135.20(b) of the regulations and paragraph d of this Section in all contracts for work in connection with the project. The Owner certifies and agrees that he is under no contractual or other disability which would prevent him from complying with these requirements.

c. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this Agreement, shall be a condition of the Federal financial assistance provided to the project, binding upon the Owner, his successors and assigns. Failures to fulfill these requirements shall subject the Owner, his contractors and subcontractors, his successors, and assigns to the sanction specified by this Agreement, and to such sanctions as are specified by 24 CFR Section 135.135.

d. The Owner shall incorporate or cause to be incorporated into any contract or subcontract for work pursuant to this Agreement in excess of $50,000 cost, the following clause:

"EMPLOYMENT OF PROJECT AREA RESIDENTS AND CONTRACTORS

"A. The work to be performed under this Agreement is on a project assisted under a program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 170lu. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area, and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

"B. The parties to this Agreement will comply with the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this Agreement. The parties to this Agreement certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

"C. The contractor will send to each labor organization or representative of workers with which he has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of his commitments under this section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

"D. The contractor will include this section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the subcontractor is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR, Part 135. The contractor will not subcontract with any subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR, Part 135, and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

"E. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of the Agreement, shall be a condition of the Federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors, and assigns. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors, and assigns to those sanctions specified by the grant or loan agreement or contract through which Federal assistance is provided, and to such sanctions as are specified by 24 CFR Section 135.135."

e. The Owner agrees that he will be bound by the above Employment of Project Area Residents and Contractors clause with respect to his own employment practices when he participates in federally assisted work.

2.2 *Equal employment opportunity.*[5] a. The Owner shall incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR, Chapter 60, which is to be performed pursuant to this Agreement, the following Equal Opportunity clause:

"EQUAL EMPLOYMENT OPPORTUNITY

"During the performance of this contract, the contractor agrees as follows:

"(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, creed, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, creed, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment, or recruitment advertising, layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by or at the direction of the Government setting forth the provisions of this Equal Opportunity clause.

"(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, creed, sex, or national origin.

"(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or

[4] Strike this Section if the Contract Rents under the proposed Housing Assistance Payments Contract, over the maximum term of said Contract, are $500,000 or less.

[5] As used in Section 2.2, "HUD" means the United States of America acting through the Department of Housing and Urban Development.

other contract or understanding, a notice to be provided by or at the direction of the Government advising the said labor union or workers' representative of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

"(4) The contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

"(5) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by HUD and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

"(6) In the event of the contractor's noncompliance with the Equal Opportunity clauses of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor or as otherwise provided by law.

"(7) The contractor will include the portion of the sentence immediately preceding Paragraph (1) and the provisions of Paragraphs (1) through (7) in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Government may direct as a means of enforcing such provisions including sanctions for noncompliance; Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Government, the contractor may request the United States to enter into such litigation to protect the interest of the United States."

b. The Owner agrees that he will be bound by the above Equal Opportunity clause with respect to his own employment practices when he participates in federally assisted construction work.

c. The Owner agrees that he will assist and cooperate actively with HUD and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that he will furnish HUD and the Secretary of Labor such information as they may require for the supervision of such compliance, and that he will otherwise assist HUD in the discharge of HUD's primary responsibility for securing compliance.

d. The Owner further agrees that he will refrain from entering into any contract or contract modification subject to Executive Order No. 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by HUD or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order.

2.3 *Cooperation in equal opportunity compliance reviews.* The Owner shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.4 *Flood insurance.* If the project is located in an area that has been identified by the Secretary of Housing and Urban Development as an area having special flood hazards and if the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, the Owner agrees that the project will be covered, during its anticipated economic or useful life, by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less.

2.5 *Clean Air Act and Federal Water Pollution Control Act.*[8] In compliance with regulations issued by the Environmental Protection Agency ("EPA"), 40 CFR, Part 15, 39 F.R. 11099, pursuant to the Clean Air Act, as amended ("Air Act"), 42 U.S.C. 1857, et seq., the Federal Water Pollution Control Act, as amended ("Water Act"), 33 U.S.C. 1251, et seq., and Executive Order 11738, the Owner agrees that:

a. Any facility to be utilized in the performance of this Agreement or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to section 15.20 of said regulations;

b. He will promptly notify the Department of Housing and Urban Development field office director of the receipt of any communication from the EPA indicating that a facility to be utilized for the Agreement is under consideration to be listed on the EPA List of Violating Facilities;

c. He will comply with all the requirements of section 114 of the Air Act and section 308 of the Water Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and section 308 of the Air Act and the Water Act, respectively, and all regulations and guidelines issued thereunder; and

d. He will include or cause to be included the provisions of this Section in every nonexempt subcontract, and that he will take such action as the Government may direct as a means of enforcing such provisions.

2.6 *Prevailing wage rates.*[9] a. Attached hereto and incorporated herein as Exhibit D is a schedule of minimum rates of wages applicable to this Agreement.

b. All laborers and mechanics employed in the construction of the project shall be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by the regulations issued by the Secretary of Labor under the Copeland Act (29 CFR, Part 3)), the full amounts due at the time of payment computed at wage rates not less than those contained in the wage determination decision of the Secretary of Labor of the United States, which is incorporated herein, regardless of any contractual relationship which may be alleged to exist between the Owner or any subcontractor and such laborers and mechanics; and the wage determination decision and the Department of Labor Wage Rate Information Poster shall be posted by the Owner at the site of the work in a prominent place where it can be easily seen by the workers. For the purpose of this clause, contributions made or costs reasonably anticipated under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics subject to the provisions of paragraph e of this Section. Also for the purpose of this clause, regular contributions made or costs incurred for more than a weekly period under plans, funds, or programs, but covering the particular weekly period, are deemed to be constructively made or incurred during such weekly period.

c. The Owner may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, or any bona fide fringe benefits not expressly listed in section 1(b)(2) of the Davis-Bacon Act or otherwise not listed in the wage determination decision of the Secretary of Labor which is included in this Agreement, only when the Secretary of Labor has found, upon the written request of the Owner, that the applicable standards of the Davis-Bacon Act have been met. Whenever practicable, the Owner should request the Secretary of Labor to make such findings before the making of the Agreement. In the case of unfunded plans and programs, the Secretary of Labor may require the Owner to set aside in a separate account assets for the meeting of obligations under the plan or program.

d. The Owner shall comply with the Copeland (Anti-Kickback) Regulations (29 CFR, Part 3) of the Secretary of Labor which are herein incorporated by reference.

e. Any class of laborers or mechanics (including apprentices and trainees) which is not listed in the wage determination and which is to be employed under the Agreement shall be classified or reclassified conformably to the wage determination. In the event that agreement cannot be reached on the proper classification or reclassification of a particular class of laborers and mechanics (including apprentices and trainees) to be used, the question will be referred by HUD to the Secretary of Labor for final determination.

f. Whenever the minimum wage rate prescribed in the Agreement for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly wage rate and the Owner is obligated to pay a cash equivalent of such fringe benefit, an hourly cash equivalent thereof shall be established. In the event that agreement cannot be reached upon a cash equivalent of the fringe benefit, the question will be referred by HUD to the Secretary of Labor for final determination.

g. (1)(i) Apprentices will be permitted to work as such only when they are registered individually under a bona fide apprenticeship program registered with a State apprenticeship agency which is recognized by the Bureau of Apprenticeship and Training, U.S. Department of Labor; or, if no such recognized agency exists in a State, under a program registered with the Bureau of Apprenticeship and Training, U.S. Department of Labor. The allowable ratio of apprentices to journeymen in any craft classification shall not be greater than the ratio permitted to the Owner as to his entire work force under the registered program. Any employee listed on a payroll at an apprentice wage

---

[8] Strike this Section if the Contract Rents under the proposed Housing Assistance Payments Contract, over the maximum term of said Contract, are $100,000 or less.

[9] As used in Sections 2.6 through 2.11, "HUD" means the United States of America acting through the Department of Housing and Urban Development. Strike Sections 2.6 through 2.11 if the project involves fewer than nine Contract units.

rate, who is not a trainee as defined in subsection (b) immediately following or is not registered as above, shall be paid the wage rate determined by the Secretary of Labor for the classification of work he actually performed. The Owner will be required to furnish to the other party to this Agreement written evidence of the registration of his program and apprentices, as well as of the appropriate ratios and wage rates for the area of construction prior to using any apprentices on the contract work.

(ii) Trainees will be permitted to work as such when they are bona fide trainees employed pursuant to a program approved by the U.S. Department of Labor, Manpower Administration, Bureau of Apprenticeship and Training, and where subsection (c) immediately following is applicable, in accordance with the provisions of paragraph g(2) of this Section.

(iii) On contracts in excess of $10,000 the employment of all laborers and mechanics, including apprentices and trainees, as defined in 29 CFR Section 5.2(c) shall also be subject to the provisions of paragraph g(2) of this Section. Apprentices and trainees shall be hired in accordance with the provisions of paragraph g(2).

(2) The Owner agrees that:

(i) He will make a diligent effort to hire for the performance of the Agreement a number of apprentices or trainees, or both, in each occupation, which bears to the average number of the journeymen in that occupation to be employed in the performance of the Agreement the applicable ratio as determined by the Secretary of Labor;

(ii) He will assure that 25 percent of such apprentices or trainees in such occupation are in their first year of training, where feasible. Feasibility here involves a consideration of (A) the availability of training opportunities for first year apprentices, (B) the hazardous nature of the work for beginning workers, (C) excessive unemployment of apprentices in their second and subsequent years of training;

(iii) During the performance of the Agreement he will, to the greatest extent possible, employ the number of apprentices or trainees necessary to meet currently the requirements of (i) and (ii) immediately preceding;

(iv) He will maintain records of employment by trade of the number of apprentices and trainees, apprentices and trainees by first year of training, and of journeymen, and the wages paid and hours of work of such apprentices, trainees and journeymen; and he will make these records available for inspection upon request of the Department of Labor and HUD;

(v) If he claims compliance based on the criterion stated in 29 CFR Section 5a.4(b), he will maintain records of employment, as described in the immediately preceding paragraph, on non-Federal and nonfederally assisted construction work done during the performance of the contract in the same labor market area; and he will make these records available for inspection upon request of the Department of Labor and HUD;

(vi) He will supply one copy of the written notices required in accordance with 29 CFR Section 5a.4(c) at the request of Government compliance officers, and will supply at three-month intervals during the performance of the Agreement and after completion of Agreement performance a statement describing steps taken toward making a diligent effort and containing a breakdown by craft, of hours worked and wages paid for first year apprentices and trainees, other apprentices and trainees, and journeymen. One copy of the statement will be sent to HUD and one to the Secretary of Labor.

2.7 *Submittal of payrolls and related reports.* a. Payrolls and basic records relating thereto shall be maintained during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics employed in the construction of the project. Such records shall contain the name and address of each such employee, his correct classification, rates of pay (including rates of contributions or costs anticipated of the types described in section 1(b)(2) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid. Whenever the Secretary of Labor has found under Section 2.6c that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Owner shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

b. The Owner shall submit weekly to the other party to this Agreement such copies and summaries of all his payrolls and those of each of his subcontractors as such other party may require. Each payroll and summary shall be accompanied by a statement signed by the employer or his agent indicating that the payrolls are correct and complete, that the wage rates contained therein are not less than those determined by the Secretary of Labor, and that the classifications set forth for each laborer or mechanic conform with the work he performed. A submission of a "Weekly Statement of Compliance," which is required under this Agreement and the Copeland Regulations of the Secretary of Labor (29 CFR, Part 3), and the filing with the initial payroll or any subsequent payroll of a copy of any findings by the Secretary of Labor under Section 2.6c shall satisfy this requirement. The Owner shall make the records required under the labor standards clauses of this Agreement available for inspection by authorized representatives of HUD and the Department of Labor, and will permit such representatives to interview employees during working hours on the job.

c. The Owner shall also furnish to the other parties to this Agreement any other information or certifications relating to employees in such form as such other party may request.

2.8 *Disputes concerning wage rates and classifications of labor.* a. All disputes concerning prevailing wage rates or classifications arising under this Agreement involving (1) significant sums of money, (2) large groups of employees, or (3) novel or unusual situations shall be promptly reported to HUD for decision or, at the option of HUD, referral to the Secretary of Labor of the United States. The decision of HUD or the Secretary of Labor, as the case may be, shall be final.

b. All questions arising under this Agreement relating to the application or interpretation of the Copeland (Anti-Kickback) Act shall be referred to the Secretary of Labor of the United States for rulings or interpretation, and such ruling or interpretation shall be final.

2.9 *Wage claims and adjustments.* In cases of underpayment of salaries or wages to any laborers or mechanics (including apprentices and trainees) by the Owner (or any of his subcontractors), the Owner shall be required to place an amount in escrow, as determined by HUD, sufficient to pay persons employed on the work covered by the Agreement the difference between the salaries or wages actually paid such employees for the total number of hours worked, and the amounts withheld may be disbursed by HUD for and on account of the Owner or the subcontractor to the respective employees to whom they are due.

2.10 *Contract Work Hours and Safety Standards Act—overtime compensation.* a. Neither the Owner nor any subcontractor contracting for any part of the work which may require or involve the employment of laborers or mechanics shall require or permit any laborer or mechanic in any workweek in which he is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in excess of eight hours in any calendar day or in excess of forty hours in any such workweek, as the case may be.

b. In the event of any violation of the clause set forth in paragraph a of this Section, the Owner and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. In addition, such Owner and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed, with respect to each individual laborer or mechanic employed in violation of the clause set forth in paragraph a of this Section, in the sum of $10 for each calendar day on which such employee was required or permitted to work in excess of eight hours or in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph a.

c. The Owner shall deposit in escrow such amounts determined by HUD to be necessary to satisfy and liability of the Owner or any subcontractor for liquidated damages as provided in paragraph b of this Section.

2.11 *Termination; debarment; subcontracts.* a. A breach of the provisions of the foregoing Sections 2.6, 2.7, 2.8, 2.9, and 2.10 may be grounds for termination of this Agreement and for debarment as provided in 29 CFR Section 5.6.

b. The Owner shall insert in any subcontracts Sections 2.6 (and with respect to Section 2.6g(2), copies of 29 CFR Sections 5a.4, 5a.5, 5a.6 and 5a.7 shall be attached), 2.7, 2.8, 2.9, 2.10, and 2.11a, and also a clause requiring the subcontractors to include these Sections in any lower tier subcontract which they may enter into, together with a clause requiring this insertion in any further subcontracts that may in turn be made.

2.12 *Disputes.* a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Agreement which is not disposed of by agreement between the Department of Housing and Urban Development field office and the Owner may be submitted by the Owner to the Secretary of Housing and Urban Development. The decision of the Secretary or his duly authorized representative for the resolution of such disputes shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as

necessarily to imply bad faith, or not supported by substantial evidence. In connection with any proceeding under this Section, the Owner shall be afforded an opportunity to be heard and to offer evidence in support of his position.

b. This Section does not preclude consideration of questions of law in connection with the decision rendered under paragraph a of this Section; Provided, however, that nothing herein shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

2.13 *Interest of members, officers, or employees of Public Housing Agency, members of local governing body, or other public officials.* No member, officer, or employee of the Public Housing Agency ("PHA"), no member of the governing body of the locality (city and county) in which the project is situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Agreement or in any proceeds or benefits arising therefrom.

2.14 *Interest of member of or delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Agreement or to any benefits which may arise therefrom.

2.15 *Nonassignability.* a. The Owner agrees that he has not made and will not make any sale, assignment, or conveyance or transfer in any other form, of this Agreement or the project or any part thereof or any of his interest therein, without the prior consent of the Government; *Provided, however,* That in the case of an assignment as security for the purpose of obtaining financing of the project, the Government shall consent in writing if the terms of the financing have been approved by the Government. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees that he will not change to a different rehabilitator from the one named in the preamble of this Agreement, except with the prior consent of the Government.

c. The Owner agrees that the approved rehabilitator has not made, and will not make, except with the prior consent of the Government, any assignment or transfer in any form of the rehabilitator's contract to construct the project, or of any part thereof, or any of the rehabilitator's interests therein.

d. The Owner agrees to notify the Government promptly of any proposed action covered by paragraph a or b or c of this Section. The Owner further agrees to request the written consent of the Government in regard thereto, except in the case of an assignment as security as provided in paragraph a of this Section.

e. For the purpose of this Section, a transfer of stock in the Owner or rehabilitator in whole or in part, by a party holding ten percent or more of the stock of said Owner or rehabilitator, or a transfer by more than one stockholder or the owner of 10 percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner or rehabilitator or the degree thereof, by any other method or means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Agreement, the project or the rehabilitation contract. With respect to this provision, the Owner, and the party signing this Agreement on behalf of said Owner, represent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect thereto.

APPENDIX II—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—HOUSING ASSISTANCE PAYMENTS CONTRACT—SUBSTANTIAL REHABILITATION—PRIVATE-OWNER OR PHA-OWNER PROJECT

PART I

This Housing Assistance Payments Contract ("Contract") is entered into by and between the United States of America acting through the Department of Housing and Urban Development ("Government"), and ---------- ("Owner"), pursuant to the United States Housing Act of 1937 ("Act"), 42 U.S.C. 1437, et seq., and the Department of Housing and Urban Development Act, 42 U.S.C. 3531, et seq.

The parties hereto agree as follows:

1.1 *Significant dates and other items; contents of contract.* a. *Effective Date of Contract.* The effective date of this Contract is ----------, 19----. [This date shall be no earlier than the date of approval by the Government.]

b. *Initial Term of Contract.* The initial term of this Contract (see Section 1.4a) shall be ---- years [not to exceed five years], beginning with the effective date of this Contract and ending ----------, 19--.

c. *Number and Length of Optional Additional Terms.* The number and length of optional additional terms (see Section 1.4a) shall be ---- terms of -- year each [not to exceed five years each].

d. *Maximum Total Term of Contract.* The maximum total term of this Contract, including renewals (see Section 1.4a) shall be ---- years. [Insert 20 years, or 40 years in the case of a project owned by, or financed by a loan or loan guarantee from, a State or local agency.]

e. *Fiscal Year.* The ending date of each Fiscal Year (see Section 1.4b) shall be ---------- [insert March 31, June 30, September 30, or December 31, as determined by the Government].

f. *Maximum Housing Assistance Commitment.* The maximum amount of the commitment for housing assistance payments under this Contract (see Section 1.5a) is $------ per annum.

g. *Contents of Contract.* This Contract consists of Part I, Part II, and the following exhibits:

Exhibit A: The schedule showing the number of units by size ("Contract Units") and their applicable rents ("Contract Rents");

Exhibit B: The Project Description;

Exhibit C: The statement of services, maintenance and utilities to be provided by Owner;

Exhibit D: The Affirmative Fair Housing Marketing Plan, if applicable; and

Additional exhibits: [Specify additional exhibits, if any. If none, insert "None."]

This Contract, including said exhibits, comprises the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein.

1.2 *Owner's warranties.* a. *Legal Capacity.* The Owner warrants that he has the legal right to execute this Contract and to lease dwelling units covered by this Contract.

b. *Completion of Work.* The Owner warrants that the project as described in Exhibit B is in good and tenantable condition and that all work has been completed in accordance with the terms and conditions of the Agreement to Enter into Housing Assistance Payments Contract ("Agreement") or will be completed in accordance with the terms on which the project was accepted. The Owner further warrants that he will remedy any defects or omissions covered by this warranty if called to his attention within 12 months of the effective date of the Contract.

1.3 *Families to be housed; Government assistance.* a. *Families To Be Housed.* The Contract Units are to be leased by the Owner to eligible lower-income families ("Families") for use and occupancy by such Families solely as private dwellings.

b. *Government Assistance.* (1) The Government hereby agrees to make housing assistance payments on behalf of Families for the Contract Units, to enable such Families to lease Decent, Safe, and Sanitary housing pursuant to section 8 of the Act. Such housing assistance payments shall equal the difference between the Contract Rents for units leased by Families and the portion of such rents payable by Families as determined by the Owner in accordance with schedules and criteria established by the Government.

(2) If there is an Allowance for Utilities and Other Services and if such Allowance exceeds the Gross Family Contribution, the Owner shall pay the Family the amount of such excess on behalf of the Government upon receipt of funds from the Government for that purpose.

1.4 *Term of Contract; fiscal year.* a. *Term of Contract.* The initial term of this Contract shall be as stated in Section 1.1b. This Contract may be renewed, at the sole option of the Owner, for the number and length of additional terms stated in Section 1.1c, provided that the total Contract term for any unit, including renewals, shall not exceed the number of years stated in Section 1.1d. Renewal shall be automatic unless the Owner notifies the Government, no later than 60 days prior to the expiration of the current term, of his intention not to renew. If the project is accepted in stages, the dates for the initial term and renewal terms shall be separately related to the units in each stage; *Provided, however,* that the total Contract term for the units in all the stages, counting from the effective date of the Contract with respect to the first stage, shall not exceed the total Contract term stated in Section 1.1d, plus two years.

b. *Fiscal Year.* The Fiscal Year for the project shall be the 12-month period ending on the date stated in Section 1.1e; *Provided, however,* that the first Fiscal Year for the project shall be the period beginning with the effective date of the Contract and ending on the last day of said established Fiscal Year which is not less than 12 months after such effective date. If the first Fiscal Year exceeds 12 months, the maximum total annual housing assistance payment in Section 1.5a may be adjusted by the addition of the pro rata amount applicable to the period of operation in excess of 12 months.

1.5 *Maximum housing assistance commitment; project reserve.* a. *Maximum Housing Assistance Commitment.* Notwithstanding any other provisions of this Contract (other than paragraph b of this Section) or any provisions of any other contract between the Government and the Owner, the Government shall not be obligated to make and shall not make any housing assistance payments under this Contract in excess of the amount per annum stated in Section 1.1f; *Provided, however,* that this amount shall be reduced commensurate with any reduction in the number of units under this Contract.

b. *Project Reserve.* A project account shall be established and maintained, in an amount as determined by the Government consistent with its responsibilities under section 8(c)

(6) of the Act, out of amounts by which the maximum Contract commitment stated in paragraph a of this Section exceeds amounts paid under this Contract for any Fiscal Year. This account shall be established and maintained by the Government as a specifically identified and segregated account. To the extent funds are available in said account, the maximum total annual housing assistance payments for any Fiscal Year may exceed the maximum amount stated in paragraph a of this Section to cover increases in Contract Rents or decreases in Family incomes (see Section 1.8). Any amount remaining in said account after payment of the last housing assistance payment with respect to the project shall be applied by the Government in accordance with law.

1.6 *Housing assistance payments to owners.* a. *General.* (1) Housing assistance payments shall be paid to the Owner for units under lease by Families in accordance with the Contract. The housing assistance payment will pay the Owner the difference between the Contract Rent and that portion of said rent payable by the Family as determined in accordance with the Government-established schedules and criteria.

(2) The Owner shall be entitled to Contract Rents in accordance with the terms of this Contract. The amount of housing assistance payment payable on behalf of a Family and the amount of rent payable by such Family shall be subject to change by reason of changes in Family income, Family composition, extent of exceptional medical or other unusual expenses, or by reason of adjustment by the Government of any applicable Allowance for Utilities and Other Services. Any such change shall be determined in accordance with the Government-established schedules and criteria, and shall be effective as of the date stated in a notification of such change to the Family.

b. *Vacancies During Rent-up.* If a Contract Unit is not leased as of the effective date of the Contract, the Owner shall be entitled to housing assistance payments in the amount of 80 percent of the Contract Rent for the unit for a vacancy period not exceeding 60 days from the effective date of the Contract, provided that the Owner (1) commenced marketing and otherwise complied with Section 1.3b of the Agreement, (2) has taken and continues to take all feasible actions to fill the vacancy, including, but not limited to, contacting applicants on his waiting list, requesting the Public Housing Agency ("PHA") and other appropriate sources to refer eligible applicants, and advertising the availability of the units, and (3) has not rejected any eligible applicant, except for good cause acceptable to the Government.

c. *Vacancies After Rent-up.* (1) If a Family vacates its unit (other than as a result of action by the Owner which is in violation of the Lease or the Contract or any applicable law), the Owner shall receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days; Provided, however, that if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to the Government or as the Government may direct. (See also Section 1.9b.) The Owner shall not be entitled to any payment under this subparagraph unless he: (i) immediately upon learning of the vacancy, has notified the Government of the vacancy or prospective vacancy and the reasons for the vacancy, and (ii) has taken and continues to take the actions specified in paragraphs b(2) and b(3) of this Section.

(2) If the Owner proposes to evict a Family, he shall not be entitled to any payment under paragraph c(1) of this Section unless the request for such payment is supported by a certification that (i) he has given such Family a written notice of the proposed eviction, stating the grounds and advising the Family that it has 10 days within which to present its objections to the Owner in writing or in person and (ii) the proposed eviction is not in violation of the Lease or the Contract or any applicable law.

d. *Limitation on Payments for Vacant Units.* The Owner shall not be entitled to housing assistance payments with respect to vacant units under this Section to the extent he is entitled to payments from other sources (e.g., payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the Housing and Community Development Act of 1974 or payments under Section 1.9b of this Contract).

e. *Government Not Obligated for Family Rent.* The Government has not assumed any obligation for the amount of rent payable by any Family or the satisfaction of any claim by the Owner against any Family other than in accordance with Section 1.9b of this Contract. The financial obligation of the Government is limited to making housing assistance payments on behalf of Families in accordance with this Contract.

f. *Owner's Monthly Requests for Payments.* (1) The Owner shall submit monthly requests to the Government for housing assistance payments. Each such request shall set forth: (i) the name of each family and the address and/or number of the unit leased by the Family; (ii) the address and/or the number of units, if any, not leased to Families for which the Owner is claiming payments; (iii) the Contract Rent as set forth in Exhibit A for each unit for which the Owner is claiming payments; (iv) the amount of rent payable by the Family leasing the unit; and (v) the total amount of housing assistance payments requested by the Owner.

(2) Each of the Owner's monthly requests shall contain a certification by him that to the best of his knowledge and belief (i) the dwelling unit is in Decent, Safe, and Sanitary condition, (ii) all the other facts and data on which the request for funds is based are true and correct, (iii) the amount requested has been calculated in accordance with the provisions of this Contract and is payable under the Contract, and (iv) none of the amount claimed has been previously claimed or paid.

(3) If the Owner has received an excessive payment, the Government, in addition to any other rights to recovery, may deduct the amount from any subsequent payment or payments.

(4) The Owner's monthly requests for housing assistance payments shall be made subject to penalty under 18 U.S.C. 1001, which provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

1.7 *Maintenance, operation and inspection.* a. *Maintenance and Operation.* The Owner agrees (1) to maintain and operate the Contract Units and related facilities so as to provide Decent, Safe, and Sanitary housing, and (2) to provide all the services, maintenance and utilities set forth in Exhibit C. If the Government determines that the Owner is not meeting any of these obligations, the Government shall have the right, in addition to its other rights and remedies under this Contract, to abate housing assistance payments in whole or in part.

b. *Inspection.* (1) Prior to occupancy of any unit by a Family, the Owner and the Family shall inspect the unit and both shall certify, on the form prescribed by the Government, that they have inspected the unit and have determined it to be Decent, Safe, and Sanitary in accordance with the criteria provided in the prescribed form.

(2) The Government shall inspect or cause to be inspected each Contract Unit and related facilities at least annually and at such other times (including prior to initial occupancy of any unit) as the Government may determine to be necessary to assure that the Owner is meeting his obligation to maintain the units in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. The Government shall take into account complaints by occupants and any other information coming to its attention in scheduling inspections.

c. *Units Not Decent, Safe, and Sanitary.* If the Government notifies the Owner that he has failed to maintain a dwelling unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action within the time prescribed in the notice, the Government may exercise any of its rights or remedies under the Contract, including abatement of housing assistance payments, even if the Family continues to occupy the unit. If, however, the Family wishes to be rehoused in another dwelling unit with Section 8 assistance and the Government does not have other Section 8 funds for such purposes, the Government may use the abated housing assistance payments for the purpose of rehousing the Family in another dwelling unit. Where this is done, the Owner shall be notified that he will be entitled to resumption of housing assistance payments for the vacated dwelling unit if (1) the unit is restored to Decent, Safe, and Sanitary condition, (2) the Family is willing to and does move back into the restored unit, and (3) a deduction is made for the expenses incurred by the Family for both moves.

d. *Notification of Abatement.* Any abatement of housing assistance payments shall be effective as provided in written notification to the Owner. The Government shall promptly notify the Family of any such abatement.

e. *Overcrowded and Underoccupied Units.* If the Government determines that a Contract Unit is not Decent, Safe, and Sanitary by reason of overcrowding, or that a Contract unit is larger than appropriate for the size of the Family in occupancy, housing assistance payments with respect to such unit will not be abated, unless the Owner fails to offer the Family a suitable unit as soon as one becomes vacant and ready for occupancy. In the case of an overcrowded unit, if the Owner does not have any suitable units or if no vacancy of a suitable unit occurs within a reasonable time, the Government will assist the Family in finding a suitable dwelling unit and require the Family to move to such a unit as soon as possible. The Owner may receive housing assistance payments for the vacated unit if he complies with the requirements of Section 1.6c(1).

1.8 *Rent adjustments.* a. *Funding of Adjustments.* Housing assistance payments will be made in increased amounts commensurate with Contract Rent adjustments under this Section up to the maximum total annual housing assistance payments committed under Section 1.5a of this Contract. The provisions of this Contract are designed (by providing for maximum total annual commitments in excess of the amounts required at the time of the initial rental of dwelling units and by setting aside such excess amounts in a project reserve) to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract Rents or decreases in Family incomes. The Government will take such addi-

XUM

XUM

tional steps authorized by section 8(c)(6) of the Act as may be necessary to carry out this assurance, including (as provided in that section) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

b. *Automatic Annual Adjustments.* (1) Automatic Annual Adjustment Factors will be determined by the Government at least annually; interim revisions may be made as market conditions warrant. Such Factors and the basis for their determination will be published in the Federal Register. These published Factors will be reduced appropriately by the Government where utilities are paid directly by the Families.

(2) On each anniversary date of the Contract, the Contract Rents shall be adjusted by applying the applicable Automatic Annual Adjustment Factor most recently published by the Government. Contract Rents may be adjusted upward or downward, as may be appropriate; however, in no case shall the adjusted Contract Rents be less than the Contract Rents on the effective date of the Contract.

c. *Special Additional Adjustments.* Special additional adjustments may be granted, when approved by the Government, to reflect increases in the actual and necessary expenses of owning and maintaining the Contract Units which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner clearly demonstrates that such general increases in the Owner's operating costs demonstrates that such general increase are not adequately compensated for by automatic annual adjustments. The Owner shall submit to the Government financial statements which clearly support the increase.

d. *Overall Limitation.* Notwithstanding any other provisions of this Contract, adjustments as provided in this Section shall not result in material differences between the rents charged for assisted and comparable unassisted units, as determined by the Government.

e. *Incorporation of Rent Adjustment.* Any adjustment in Contract Rents shall be incorporated into Exhibit A by a dated addendum to the exhibit.

1.9 *Marketing and leasing of units.* a. *Compliance with Equal Opportunity.* Marketing of units and selection of Families by the Owner shall be in accordance with the Owner's Government-approved Affirmative Fair Housing Marketing Plan, shown as Exhibit D, and with all regulations relating to fair housing advertising.

b. *Security and Utility Deposits.* (1) The Owner may require Families to pay a security deposit in an amount equal to one month's Gross Family Contribution. If a Family vacates the unit, the Owner may utilize the deposit as reimbursement for any unpaid rent or damage caused by the Family. If the Family has provided a security deposit, and it is insufficient for such reimbursement, the Owner may claim reimbursement from HUD, not to exceed an amount equal to the remainder of one month's Contract Rent. If a Family vacates the unit owing no rent and causing no damage to the unit or if the amount of unpaid rent and/or damage is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance, as the case may be, to the Family.

(2) In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include such interest. All security deposit funds shall be deposited by the Owner in a segregated bank account, and the balance of this account, at all times, shall be equal to the total amount collected from tenants then in occupancy, plus any accrued interest. The Owner must comply with all State and local laws regarding interest payments on security deposits.

(3) Families shall be expected to obtain the funds to pay security and utility deposits, if required, from their own resources and/or other private or public sources.

c. *Eligibility, Selection and Admission of Families.* (1) The Owner shall be responsible for determination of eligibility of applicants, selection of families from among those determined to be eligible, and computation of the amount of housing assistance payments on behalf of each selected Family in accordance with schedules and criteria established by the Government. In the initial renting of the Contract Units, the Owner shall lease at least 90 percent to Very Low-Income Families (determined in accordance with the Government-established schedules and criteria) and shall thereafter exercise his best efforts to maintain at least 90 percent occupancy of the Contract Units by Very Low-Income Families as determined in accordance with such schedules and criteria.

(2) The Lease entered into between the Owner and each selected Family shall be on the form of Lease approved by the Government.

(3) The Owner shall make a reexamination of Family income, composition, and the extent of medical or other unusual expenses incurred by the Family, at least annually (except that such reviews may be made at intervals of no longer than two years in the case of elderly Families), and appropriate redeterminations shall be made by the Owner of the amount of Family contribution and the amount of housing assistance payment, all in accordance with schedules and criteria established by the Government. In connection with the reexamination, the Owner shall determine what percentage of Families in occupancy are Very Low-Income Families. If there are fewer than 90 percent Very Low-Income Families in occupancy, the Owner shall report the fact to the Government and shall adopt changes in his admission policies to achieve, as soon as possible, at least 90 percent occupancy by such Families.

d. *Rent Redetermination after Adjustment in Allowance for Utilities and Other Services.* In the event that the Owner is notified of a Government determination making an adjustment in the Allowance for Utilities and Other Services applicable to any of the Contract Units, the Owner shall promptly make a corresponding adjustment in the amount of rent to be paid by the affected Families and the amount of housing assistance payments.

e. *Processing of Applications and Complaints.* The Owner shall process applications for admission, notifications to applicants, and complaints by applicants in accordance with applicable Government requirements and shall maintain records and furnish such copies or other information as may be required by the Government.

f. *Government Review; Incorrect Payments.* In making housing assistance payments to Owners, the Government will review the Owner's determinations under this Section. If as a result of this review, or other reviews, audits or information received by the Government at any time, it is determined that the Owner has received improper or excessive housing assistance payments, the Government shall have the right to deduct the amount of such overpayments from any amounts otherwise due the Owner, or otherwise effect recovery thereof.

1.10 *TERMINATION OF TENANCY.* The Owner shall be responsible for termination of tenancies, including evictions. However, conditions for payment of housing assistance payments for any resulting vacancies shall be as set forth in Section 1.6c.

1.11 *REDUCTION OF NUMBER OF CONTRACT UNITS FOR FAILURE TO LEASE TO ELIGIBLE FAMILIES.*

a. *Twelve Months after Effective Date of Contract.* If at any time, beginning six months after the effective date of this Contract, the Owner fails for a continuous period of six months to have at least 80 percent of the Contract Units leased or available for leasing by Families, the Government may on 30 days notice reduce the number of Contract Units to not less than the number of units under lease or available for leasing by Families, plus 10 percent of such number, if that number is 10 or more, rounded to the next highest number.

b. *At End of Initial and Each Renewal Term.* At the end of the initial term of the Contract and of each renewal term, the Government may, by notice to the Owner, reduce the number of Contract Units to not less than (1) the number of units under lease or available for leasing by Families at that time or (2) the average number of units so leased or available for leasing during the last year, whichever is the greater number, plus 10 percent of such number, if the number is 10 or more, rounded to the next highest number.

c. *Restoration of Units.* Any reduction pursuant to paragraphs a or b of this Section shall not preclude subsequent restoration of Contract units if contract authority is available and if the Government determines that the restoration is justified as a result of changes in demand and in the light of the Owner's record of compliance with his obligations under the Contract.

WARNING: 18 U.S.C. 1001 provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM

HOUSING ASSISTANCE PAYMENTS CONTRACT

SUBSTANTIAL REHABILITATION

PRIVATE-OWNER OR PHA-OWNER PROJECT

PART II

2.1 *NONDISCRIMINATION IN HOUSING.*

a. The Owner shall not in the selection of Families, in the provision of services, or in any other manner, discriminate against any person on the grounds of race, color, creed, religion, sex, or national origin. No person shall be *automatically* excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program because of membership in a class such as unmarried mothers, recipients of public assistance, etc.

b. The Owner shall comply with all requirements imposed by Title VIII of the Civil Rights Act of 1968, and any rules and regulations pursuant thereto.

c. The Owner shall comply with all requirements imposed by Title VI of the Civil Rights Act of 1964, Public Law 88–352, 78 Stat. 241; the regulations of the Department of Housing and Urban Development issued thereunder, 24 CFR, Subtitle A, Part 1, Section 1.1, *et seq.*; the requirements of said Department pursuant to said regulations; and Executive Order 11063 to the end that, in accordance with that Act, the regulations and requirements of said Department thereunder, and said Executive Order, no person in the United States shall, on the grounds of race, color, creed, religion or national origin, be excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program, or be otherwise subjected to discrimination. This provision is included pursuant to the regulations of the Department of Housing and Urban Development, 24 CFR, Subtitle A, Part 1, Section 1.1, *et seq.*; issued under Title VI of the said Civil Rights Act of 1964, and the requirements of said Department pursuant to said regulations; and the obligation of the Owner to comply therewith inures to the benefit of the Government and the said Department, either of which shall be entitled to invoke any remedies available by law to redress any breach thereof or to compel compliance therewith by the Owner.

2.2 *Training, employment, and contracting opportunities for businesses and lower-income persons.*[1]

a. The project assisted under this Contract is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

b. Notwithstanding any other provision of this Contract, the Owner shall carry out the provisions of said section 3 and the regulation issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135 (published in 38 Federal Register 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this Contract. The requirements of said regulations include, but are not limited to, development and implementation of an affirmative action plan for utilizing business concerns located within, or owned in substantial part by persons residing in, the area of the project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by section 135.20(b) of the regulations and paragraph d of this Section in all contracts for work in connection with the project. The Owner certifies and agrees that he is under no contractual or other disability which would prevent him from complying with these requirements.

c. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this Contract, shall be a condition of the Federal financial assistance provided to the project, binding upon the Owner, his successors and assigns. Failure to fulfill these requirements shall subject the Owner, his contractors and subcontractors, his successors, and assigns to the sanction specified by this Contract, and to such sanctions as are specified by 24 CFR Section 135.135.

d. The Owner shall incorporate or cause to be incorporated into any contract or subcontract for work pursuant to this Contract in excess of $50,000 cost, the following clause:

[1] Strike this Section if the Contract Rents on the effective date of this Contract, over the maximum term of this Contract, are $500,000 or less.

Employment of project area residents and contractors

A. The work to be performed under this Contract is on a project assisted under a program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

B. The parties to this Contract will comply with the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this Contract. The parties to this Contract certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

C. The contractor will send to each labor organization or representative of workers with which he has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of his commitments under this section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

D. The contractor will include this section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the subcontract is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR, Part 135. The contractor will not subcontract with any subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR, Part 135, and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

E. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of the Contract, shall be a condition of the Federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors, and assigns. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors, and assigns to those sanctions specified by the grant or loan agreement or contract through which Federal assistance is provided, and to such sanctions as are specified by 24 CFR Section 135.135.

e. The Owner agrees that he will be bound by the above Employment of Project Area Residents and Contractors clause with respect to his own employment practices when he participates in federally assisted work.

2.3 *COOPERATION IN EQUAL OPPORTUNITY COMPLIANCE REVIEWS.* The Owner shall cooperate with the Government

in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.4 *FLOOD INSURANCE.* If the project is located in an area that has been identified by the Secretary of Housing and Urban Development as an area having special flood hazards and if the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, the Owner agrees that the project will be covered, during its anticipated economic or useful life, by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less.

2.5 *CLEAN AIR ACT AND FEDERAL WATER POLLUTION ACT.*[3] In compliance with regulations issued by the Environmental Protection Agency ("EPA"), 40 CFR, Part 15, 39 F.R. 11099, pursuant to the Clean Air Act, as amended ("Air Act"), 42 U.S.C. 1857, *et seq.*, the Federal Water Pollution Control Act, as amended ("Water Act"), 33 U.S.C. 1251, *et seq.*, and Executive Order 11738, the Owner agrees that:

a. Any facility to be utilized in the performance of this Contract or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to section 15.20 of said regulations;

b. He will promptly notify the Department of Housing and Urban Development field office director of the receipt of any communication from the EPA indicating that a facility to be utilized for the Contract is under consideration to be listed on the EPA List of Violating Facilities;

c. He will comply with all the requirements of section 114 of the Air Act and section 308 of the Water Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and section 308 of the Air Act and the Water Act, respectively, and all regulations and guidelines issued thereunder; and

d. He will include or cause to be included the provisions of this Section in every nonexempt subcontract, and that he will take such action as the Government may direct as a means of enforcing such provisions.

2.6 Reports and access to premises and records.

a. The Owner shall furnish such information and reports pertinent to the Contract as reasonably may be required from time to time by the Government.

b. The Owner shall permit the Government or any of its duly authorized representatives to have access to the premises and, for the purpose of audit and examination, to have access to any books, documents, papers and records of the Owner that are pertinent to compliance with this Contract, including the verification of information pertinent to the monthly requests for housing assistance payments.

2.7 *DEFAULT BY THE OWNER.*

a. A default by the Owner under this Contract shall result if:

(1) The Owner has violated or failed to comply with any provision of, or obligation under, this Contract or of any Lease; or

(2) The Owner has asserted or demonstrated an intention not to perform some or all of his obligations under this Contract or under any Lease.

b. Upon a determination by the Government that a default has occurred, the Government shall notify the Owner of the nature of the default, of the actions required to be taken on account of the default (including the curing of the default by the Owner, the abatement of housing assistance payments in whole or in part, where appropriate, or any combination of actions), and of the time within which the Owner shall respond with a showing that he has taken all the actions required of him. If the Owner fails to respond or take action to the satisfaction of the Government, the Government shall take appropriate actions to achieve compliance or to terminate the Contract in whole or in part.

c. The availability of any remedy under this Contract shall not preclude the exercise of any other remedy available under this Contract or under any provisions of law, nor shall any action taken in the exercise of any remedy be deemed a waiver of any other rights or remedies. Failure to exercise any right or remedy shall not constitute a waiver of the right to exercise that or any other right or remedy at any time.

2.8 *DISPUTES*

a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Contract which is not disposed of by agreement between the Department of Housing and Urban Development field office and the Owner may be submitted by the Owner to the Secretary of Housing and Urban Development. The decision of the Secretary or his duly authorized representative for the resolution of such disputes shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any proceeding under this Section, the Owner shall be afforded an opportunity to be heard and to offer evidence in support of his position.

b. This section does not preclude consideration of questions of law in connection with the decision rendered under paragraph a of this Section; Provided, however, that nothing herein shall be construed as making final the decision of any administrative official, representative, or board, on a question of law.

2.9 *INTEREST OF MEMBERS, OFFICERS, OR EMPLOYEES OF PHA, MEMBERS OF LOCAL GOVERNING BODY OR OTHER PUBLIC OFFICIALS.* No member, officer, or employee of the PHA, no member of the governing body of the locality (city and county) in which the project is situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Contract or in any proceeds or benefits arising therefrom.

2.10 *INTEREST OF MEMBER OF OR DELEGATE TO CONGRESS.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Contract or to any benefits which may arise therefrom.

2.11 *Nonassignability.*

a. The Owner agrees that he has not made and will not make any sale, assignment, or conveyance or transfer in any other form, of this Contract or the project or any part thereof or any of his interest therein, without the prior consent of the Government; Provided, however, That in the case of an assignment as security for the purpose of obtaining financing of the project, the Government shall consent in writing if the terms of the financing have been approved by the Government. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees to notify the Government promptly of any proposed action covered by paragraph a of this Section. The Owner further agrees to request the written consent of the Government in regard thereto, except in the case of an assignment as security as provided in paragraph a of this Section.

c. For the purpose of this Section, a transfer of stock in the Owner in whole or in part, by a party holding ten percent or more of the stock of said Owner, or a transfer by more than one stockholder or the Owner of ten percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner or the degree thereof, by any other method or means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Contract or the project. With respect to this provision, the Owner and the party signing this Contract on behalf of said Owner, represent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect hereto.

APPENDIX III—U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM MASTER SECTION 8 ANNUAL CONTRIBUTIONS CONTRACT

This Annual Contributions Contract (ACC) is entered into on ____ day of _____, 19__ (the date of execution by the Government) by and between the United States of America (herein called the "Government"), pursuant to the United States Housing Act of 1937 (42 U.S.C. 1437, *et seq.*), which Act as amended to the date of this ACC is herein called the "Act" and the Department of Housing and Urban Development Act (42 U.S.C. 3531), and _____ (herein called the "PHA"), which is a "public housing agency" as defined in the Act. In consideration of the mutual covenants hereinafter set forth, the parties hereto agree as follows:

0.1 *Project or Projects.* The PHA is undertaking to provide Decent, Safe, and Sanitary housing for Families (as defined in Section 2.1) pursuant to Section 8 of the Act by means of Housing Assistance Payments Contracts ("Contracts") with Owners (as defined in Section 2.1). Such undertaking may involve an agreement for the use of housing to be constructed ("New Construction"), an agreement for the use of existing housing to be substantially rehabilitated ("Substantial Rehabilitation"), or the use of existing housing without substantial rehabilitation ("Existing Housing"). In each instance, the numbers and sizes of dwelling units with respect to which a certain maximum Annual Contributions commitment is made shall constitute a Project hereunder and shall be identified by a stated Project number.

0.2 *Part I and Part II of this Annual Contributions Contract.*

(a) Certain provisions of this ACC, principally those which are specifically applicable to a designated Project, are contained in Part I. Separate forms of Part I are used for different types of Projects (i.e., New Construction, Substantial Rehabilitation, and Existing Housing). A separate Part I,

[3] Strike this Section if the Contract Rents on the effective date of this Contract, over the maximum total term of this Contract, are $100,000 or less.

on the applicable form thereof, has been executed with respect to each Project hereunder, and each such Part I, so executed, constitutes a part of this ACC.

(b) The remaining provisions of this ACC, which are applicable to all Projects hereunder, are contained in Part II, which, although not separately executed, constitutes a part of this ACC.

0.3 *Fiscal Year.* Except for the first Fiscal Year of each Project, there shall be one Fiscal Year for all Projects hereunder. Each established Fiscal Year shall be the 12-month period ending _____ of each calendar year. The first Fiscal Year for each Project shall be as provided in the Part I applicable to such Project.

0.4 *Schedule of Projects.* Attached to this Master Section 8 ACC, as Attachment A, is a list identifying each ACC Part I and ACC Part I amendment by project number, date, and ACC List number and date.

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM ANNUAL CONTRIBUTIONS CONTRACT

PART I

Substantial Rehabilitation Project No. _____

Effective Date _____

[Date of execution by the Government of this ACC Part I]

ACC List Number and Date _____

1.1 *The Project.* The PHA proposes to enter into a Housing Assistance Payments Contract ("Contract") with respect to substantially rehabilitated dwelling units pursuant to an Agreement to Enter into Housing Assistance Payments Contract ("Agreement") executed prior to the commencement of rehabilitation. The numbers and sizes of units will be as follows:

Size of Unit	*Number of Units*

The PH shall enter into an Agreement and Contract in accordance with the numbers and sizes of units specified above. The PHA shall not enter into any Agreement or Contract or take any other action which will result in a claim for a total Annual Contributions in respect to the Project in excess of the maximum amounts stated in Section 1.4(a).

1.2 *Authorization of Actions by PHA.* In order to carry out the Project, the PHA is authorized to (a) enter into an Agreement, (b) enter into a Contract, (c) make housing assistance payments on behalf of Families, and (d) take all other necessary actions all in accordance with the forms, conditions and requirements prescribed or approved by the Government; Provided, however, that neither the PHA nor the Government shall assume any obligation beyond that provided in the Government-approved Agreement and Contract.

1.3 *Term of ACC and Contract.* (a) This ACC shall remain in effect as long as the Contract is in effect but in no event shall the term of the ACC exceed ____ years from the beginning of the first fiscal year. [Insert number specified in the first sentence of paragraph (b) of this Section plus two years.]

(b) The total Contract term for any unit, including all renewals, shall not exceed ____ years. [Insert number as specifically authorized by the Government, but in no event more than 20 years, or 40 years in the case of a project owned by, or financed by a loan or loan guarantee from, a State or local agency]: *Provided, however,* That if the project is accepted in stages, the total Contract term for the units in all stages counting from the effective date of the Contract with respect to the first stage, shall not exceed the total Contract term specified in the first sentence of this paragraph (b), plus 2 years.

1.4 *Annual Contributions.* (a) Notwithstanding any other provisions of this ACC (other than paragraph (c) of this Section) or any provisions of any other contract between the Government and the PHA, the Government shall not be obligated to make any Annual Contributions or any other payment in excess of:

(1) $_____ for housing assistance payments under the Contract; or

(2) $_____ for other Project Expenditures; or

(3) a total of $_____ for all Project Expenditures in respect to the Project.

Provided, However, That these amounts shall be reduced commensurate with any reduction in the number of units under the Contract or pursuant to any other provision of this ACC.

(b) Subject to the maximum dollar limitations in paragraph (a) of this Section, the Government shall pay Annual Contributions to the PHA in respect to the Project in an amount equal to the sum of the following (subject to reduction by the amount of any Project Receipts other than Annual Contributions, which Receipts shall be available for Project Expenditures):

(1) The amount of housing assistance payments payable during the Fiscal Year (see Section 1.5) by the PHA pursuant to the Contract, as authorized in Section 1.2.

(2) The allowance, in the amount approved by the Government, for preliminary costs of administration.

(3) The allowance, in the amount approved by the Government, for the regular costs of administration.

(c) Subject to the maximum amount stated in paragraph (a)(3) of this Section, the Annual Contribution for any Fiscal Year may include such amount as the Government may determine to be necessary to assure that the lower-income character of the Project will be maintained, which amount shall be credited to an account maintained by the PHA or the Government as determined by the Government. To the extent funds are available in said account, the Annual Contribution for any Fiscal Year may exceed the maximum amounts stated in paragraph (a) of this Section by such amount, if any, as may be required for increases reflected in the estimates of required Annual Contributions applicable to such Fiscal Year as approved by the Government in accordance with Section 2.11 below. Any amount remaining in said account after payment of the last Annual Contribution with respect to the Project shall be applied by the Government in accordance with law.

(d) The Government will make periodic payments on account of the Annual Contributions upon requisition therefor by the PHA in the form prescribed by the Government. Each requisition shall include certifications by the PHA that housing assistance payments have been or will be made only:

(1) In accordance with the provisions of the Contract as such provisions apply respectively to (a) units under lease by Families and (b) units not under lease by Families; and

(2) With respect to units which the PHA has inspected or caused to be inspected, pursuant to Section 2.4 of Part II of this ACC, within one year prior to the making of such housing assistance payments.

(e) Following the end of each Fiscal Year, the PHA shall promptly pay to the Government, unless other disposition is approved by the Government, the amount, if any, by which the total amount of the periodic payments during the Fiscal Year exceeds the total amount of the Annual Contribution payable for such Fiscal Year in accordance with this Section.

1.5 *Fiscal Year.* The Fiscal Year for the Project shall be the Fiscal Year established by Section 0.3 of this ACC; Provided, however, that the first Fiscal Year for the Project shall be the period beginning with the effective date of the Contract and ending on the last day of said established Fiscal Year which is not less than 12 months after such effective date. If the first Fiscal Year exceeds 12 months, the maximum Annual Contribution in Section 1.4(a) may be adjusted by the addition of the pro rata amount applicable to the period of operation in excess of 12 months.

1.6 *Periodic Adjustment of Contract Rents.* (a) The Contract may provide for periodic adjustments in the Contract rents chargeable by the Owner and commensurate increases in amounts of housing assistance payments up to the total annual housing assistance payments committed under Section 1.4(a)(1) of this ACC.

(b) The provisions of Section 1.4(c) of this ACC are designed (by providing for maximum total annual commitments in excess of the amounts required at the time of the initial rental of dwelling units and by setting aside such excess amounts in a project reserve) to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract rents or decreases in Family incomes. The Government shall take such additional steps authorized by Section 8(c)(6) of the Act as may be necessary to carry out this assurance, including (as provided in that section) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

1.7 *Affirmative Fair Housing Marketing Regulation.* The PHA shall require the Owner to comply with the Affirmative Fair Housing Marketing Regulation (subject to any exceptions therein) including the submission for Government approval of an Affirmative Fair Housing Marketing Plan and compliance with such approved Plan, as if the Owner were expressly subject to said Regulation.

1.8 *Expeditious Carrying Out of Project.* The PHA shall proceed expeditiously with the Project. If the PHA fails to proceed expeditiously, and no Agreement with the Owner has yet been entered into, the Government by notice to the PHA, may terminate or reduce its obligation hereunder with respect to the Project. If an Agreement has been entered into, and the PHA or the Owner is not proceeding expeditiously with the Project, the Government will take appropriate action, including the Governmental action provided for in the Agreement.

1.9 *Responsibility for Administration of Contract.* The PHA is primarily responsible for administration of the Contract. However, if the PHA is the lender, the following provisions shall be included in the Contract:

"(1) The Government shall have the right to make independent audits, reviews, and determinations as to compliance by the Owner with any or all of his obligations under the Contract;

"(2) In the event the Government determines that the Owner is in default with respect to any or all of his obligations, the Government shall have the right to take direct action (as if the Government were the party to the Contract primarily responsible for its administration) to enforce any or all

XUM V 39 N 251 DEC 30 74 XUM

available remedies, including, but not limited to, abatement of housing assistance payments, collection of payments previously made in violation of the Contract, and termination of the Contract in whole or in part; and

"(3) The Owner hereby expressly agrees to recognize the rights of the Government in the event it takes any action under this Section in the same manner and to the same extent as if the action were taken by the PHA."

SECTION 2. HOUSING ASSISTANCE PAYMENTS PROGRAM TERMS AND CONDITIONS CONSTITUTING PART II OF AN ANNUAL CONTRIBUTIONS CONTRACT BETWEEN PUBLIC HOUSING AGENCY AND THE UNITED STATES OF AMERICA

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

2.1 *Definitions.* (a) "Families" means "Lower-Income Families (including "Very Low-Income Families") and includes Families consisting of a single person in the case of Elderly Families and Displaced Families and includes the remaining member of a tenant family.

(b) "Elderly Families" means Families whose heads (or their spouses), or whose sole members, are persons who are at least 62 years of age or are under a disability as defined in Section 223 of the Social Security Act or in Section 102(5) of the Developmental Disabilities Services and Facilities Construction Amendments of 1970, or are handicapped. The term Elderly Families includes two or more elderly, disabled, or handicapped individuals living together, or one or more such individuals living together with another person who is determined under regulations of the Secretary to be a person essential to their care or well being.

(c) "Displaced Families" means Families displaced by governmental action, or Families whose dwellings have been extensively damaged or destroyed as a result of a disaster declared or otherwise formally recognized pursuant to Federal disaster relief laws.

(d) "Lower-Income Families" means Families whose incomes do not exceed 80 percent of the median income for the area, as determined by the Secretary with adjustments for smaller and larger families, except that the Secretary may establish income limits higher or lower than 80 percent of the median for the area on the basis of his findings that such variations are necessary because of prevailing levels of construction costs, unusually high or low family incomes, or other factors.

(e) "Very Low-Income Families" means Families whose incomes do not exceed 50 percent of the median income for the area, as determined by the Secretary with adjustments for smaller and larger families.

(f) "Income" means income from all sources of each member of the household, as determined in accordance with criteria prescribed by the Secretary.

(g) "Owner" means the person or entity, including a cooperative, with which the Agreement and Contract are entered into.

(h) "Rent" or "rental" mean, with respect to members of a cooperative, the charges under the occupancy agreements between such members and the cooperative.

(i) "Project Receipts" with respect to each Project means the Annual Contributions payable hereunder and all other receipts, if any, accruing to the PHA from, out of, or in connection with such Project.

(j) "Project Expenditures" with respect to each Project means all costs allowable under Section 1.4(b), Part I of this ACC with respect to such Project.

(k) "Substantial Default" means the occurrence of any of the events listed in Section 2.16.

2.2 *Lower-Income Housing Use; Compliance with Act and Regulations.* The PHA shall use the Annual Contributions solely for the purpose of providing Decent, Safe, and Sanitary dwellings for Families in compliance with all applicable provisions of the Act and all regulations issued pursuant thereto.

2.3 *Eligibility and Amount of Housing Assistance Payments.* (a) The PHA shall comply with the income limits established by the Government and with the requirements of the Government pursuant to section 8(c)(7) of the Act concerning the leasing of at least 20 percent of assisted units to Very Low-Income Families.

(b) The PHA shall comply or assure compliance with the schedules and criteria established by the Government with respect to the amounts of housing assistance payments made on behalf of Families.

(c) The PHA shall make or cause to be made periodic reexaminations of the income, composition, and extent of exceptional medical or other unusual expenses of Families for whom housing assistance payments are being made for the purpose of confirming or adjusting, in accordance with the applicable schedules established by the Government, the amount of rent payable by the Family and the amount of housing assistance payment.

(d) Prior to the approval of eligibility of a Family, and thereafter on the date established for each reexamination of the status of such Family, the PHA shall review or cause to be reviewed a written application, signed by a responsible member of such Family, which application shall set forth all data and information necessary for a determination of the amount, if any, of housing assistance payment which can be made with respect to the Family.

2.4. *Inspections.* (a) The PHA shall require, as a condition for the making of housing assistance payments, that the Owner maintain the assisted dwelling units and related facilities in Decent, Safe, and Sanitary condition.

(b) The PHA shall inspect or cause to be inspected dwelling units and related facilities prior to commencement of occupancy by Families and shall make or cause to be made subsequent inspections at least annually, adequate to assure that Decent, Safe, and Sanitary housing accommodations are being provided and that the agreed-to services are being furnished.

2.5. *Nondiscrimination in Housing.* (a) The PHA shall comply with all requirements imposed by Title VI of the Civil Rights Act of 1964, Public Law 88-352, 78 Stat. 241; the regulations of the Department of Housing and Urban Development issued thereunder, 24 CFR, Subtitle A, Part 1, Section 1.1, et seq.; the requirements of said Department pursuant to said regulations; and Executive Order 11063 to the end that, in accordance with that Act and the regulations and requirements of said Department thereunder, said Executive Order, no person in the United States shall, on the ground of race, color, creed, religion, or national origin, be excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program or be otherwise subjected to discrimination. The PHA shall, by contractual requirement, covenant, or other binding commitment, assure the same compliance on the part of any subgrantee, contractor, subcontractor, transferee, successor in interest, or other participant in the program or activity, such commitment to include the following clause:

"This provision is included pursuant to the regulations of the Department of Housing and Urban Development, 24 CFR, Subtitle A, Part 1, Section 1.1, et seq.; issued under Title VI of the said Civil Rights Act of 1964, and the requirements of said Department pursuant to said regulations; and the obligation of the [contractor or other] to comply therewith inures to the benefit of the United States, the said Department, and the PHA, any of which shall be entitled to invoke any remedies available by law to redress any breach thereof or to compel compliance therewith by the [contractor or other.]"

(b) The PHA shall incorporate or cause to be incorporated into all Housing Assistance Payments Contracts a provision requiring compliance with all requirements imposed by Title VIII of the Civil Rights Act of 1968, and any rules and regulations issued pursuant thereto.

(c) The PHA shall not, on account of creed or sex, discriminate in the sale, leasing, rental, or other disposition of housing or related facilities (including land) included in any Project or in the use of occupancy thereof, nor deny to any Family the opportunity to apply for such housing, nor deny to any eligible applicant the opportunity to lease or rent any dwelling in any such housing suitable to its needs. No person shall automatically be excluded from participation in or be denied the benefits of the Housing Assistance Payments Program because of membership in a class such as unmarried mothers, recipients of public assistance, etc.

2.6. *Equal Employment Opportunity.* (a) The PHA shall not discriminate against any employee or applicant for employment because of race, color, creed, religion, sex, or national origin. The PHA shall take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to race, color, creed, religon, sex or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b)(1) The PHA shall incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR, Chapter 60, which is to be performed pursuant to this contract, the following Equal Opportunity clause:

"EQUAL EMPLOYMENT OPPORTUNITY

During the performance of this contract, the contractor agrees as follows:

(A) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, creed, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, creed, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the PHA setting forth the provisions of this Equal Opportunity clause.

(B) The contractor will in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race,

color, religion, creed, sex, or national origin.

(C) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the PHA advising the said labor union or workers' representative of the contractor's commitments under this Section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(D) The contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(E) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the Government and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(F) In the event of the contractor's noncompliance with the Equal Opportunity clause of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated, or suspended in whole or in part, and the contractor may be declared ineligible for further contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor or as otherwise provided by law.

(G) The contractor will include the portion of the sentence immediately preceding Paragraph (A) and the provisions of Paragraphs (A) through (G) in every subcontractor or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontractor or purchase order as the Government may direct as a means of enforcing such provisions including sanctions for noncompliance; *Provided, however,* that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontactor or vendor as a result of such direction by the Government, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

(2) The PHA agrees that it will assist and cooperate actively with the Government and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the Government and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the Government in the discharge of the Government's primary responsibility for securing compliance.

(3) The PHA further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order No. 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and Federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by the Government or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order.

2.7. *Training, Employment, and Contracting Opportunities for Businesses and Lower Income Persons.*

(a) The project assisted under this ACC is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that to the greatest extent feasible opportunities for training and employment be given lower income residents of the Project area and contracts for work in connection with the Project be awarded to business concerns which are located in or owned in substantial part by persons residing in the area of the Project.

(b) Notwithstanding any other provision of this ACC the PHA shall carry out the provisions of said Section 3 and the regulations issued pursuant thereto by the Secretary set forth in 24 CFR Part 135 (published in 38 Federal Register 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this ACC. The requirements of said regulations include but are not limited to development and implementation of an affirmative action plan for utilizing business concerns located within or owned in substantial part by persons residing in the area of the Project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by Section 3; and incorporation of the "Section 3 clause" specified by Section 135.20(b) of the regulations in all contracts for work in connection with the Project. The PHA certifies and agrees that it is under no contractual or other disability which would prevent it from complying with these requirements.

(c) Compliance with the provisions of Section 3, the regulations set forth in 24 CFR Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to appoval by the Government of the application for this ACC shall be a condition of the Federal financial assistance provided to the Project, binding upon the PHA, its successors and assigns. Failure to fulfill these requirements shall subject the PHA, its contractors and subcontractors, its successors, and assigns to the sanction specified by this ACC and to such sanctions as are specified by 24 CFR Section 135.135.

(d) The PHA shall incorporate or cause to be incorporated into any contract pursuant to this contract such clause or clauses as are required by the Government for compliance with its regulations issued pursuant to the Housing and Urban Development Act, as amended. The PHA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.8. *Cooperation In Equal Opportunity Compliance Reviews.* The PHA shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.9. *Clean Air Act and Federal Water Pollution Control Act.* The PHA shall incorporate or cause to be incorporated into any contract for construction or substantial rehabilitation, such clause or clauses as are required by the Government for compliance with the regulations issued by the Environmental Protection Agency pursuant to the Clean Air Act, as amended, the Federal Water Pollution Control Act, as amended, and Executive Order 11738. The PHA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.10. *Labor Standards.* The PHA shall incorporate or cause to be incorporated into any contract for construction or substantial rehabilitation of nine or more dwelling units, such clause or clauses as are required by the Government for compliance with its regulations issued pursuant to the Copeland Act, the Davis-Bacon Act, and the Contract Work Hours and Safety Standards Act. The PHA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.11. *Estimates of Required Annual Contributions.* The PHA shall from time to time submit to the Government estimates of required annual contributions at such times and in such form as the Government may require. All estimates and any revisions thereof submitted under this Section shall be subject to Government approval.

2.12. *Insurance and Fidelity Bond Coverage.* For purposes of protection against hazards arising out of or in connection with the administrative activities of the PHA in carrying out the Project, the PHA shall carry adequate (1) comprehensive general liability insurance, (2) workmen's compensation coverage (statutory or voluntary), (3) automobile liability insurance against property damage and bodily injury (owned and non-owned), and (4) fidelity bond coverage of its officers, agents, or employees handling cash or authorized to sign checks or certify vouchers.

2.13. *Books of Account and Records; Reports.*

(a) The PHA shall maintain complete and accurate books of account and records, as may be prescribed from time to time by the Government, in connection with the Projects, including records which permit a speedy and effective audit, and will among other things fully disclose the amount and the disposition by the PHA of the Annual Contributions and other Project Receipts, if any.

(b) The books of account and records of the PHA shall be maintained for each Project as separate and distinct from all other Projects and undertakings of the PHA, except as authorized or approved by the Government.

(c) The PHA shall furnish the Government such financial, operating, and statistical reports, statements, and documents at such times, in such form, and accompanied by such supporting data, all as may reasonably be required from time to time by the Government.

(d) The Government and the Comptroller General of the United States, or his duly authorized representatives, shall have full and free access to the Projects and to all the books, documents, papers, and records of the PHA that are pertinent to its operations with respect to financial assistance under the Act, including the right to audit, and to make excerpts and transcripts from such books and records.

(e) The PHA shall incorporate or cause to be incorporated in all Contracts the following clauses:

REPORTS, ACCESS TO PREMISES AND RECORDS

(1) The Owner shall furnish such information and reports pertinent to the Contract as reasonably may be required from time to time by the PHA and the Government.

(2) The Owner shall permit the PHA and the Government or any of their duly authorized representatives, to have access to the premises and, for the purpose of audit and examination, to have access to any books, documents, papers and records of the Owner that are pertinent to compliance with this Contract, including the verification of information pertinent to the monthly requests to the PHA for housing assistance payments.

V 39 N 251 DEC 30 74 XUM

(f) Audits required by the Government will be performed or paid for by the Government.

2.14. *General Depositary Agreement and General Fund.*

(a) The PHA shall maintain one or more agreements, which are herein collectively called the "General Depositary Agreement," in form prescribed by the Government, with one or more banks (each of which shall be, and continue to be, a member of the Federal Deposit Insurance Corporation) selected as depositary by the PHA. Immediately upon the execution of any General Depositary Agreement, the PHA shall furnish to the Government such executed or conformed copies thereof as the Government may require. No such General Depositary Agreement shall be terminated except after 30 days notice to the Government.

(b) All monies received by or held for account of the PHA in connection with the Projects shall constitute the General Fund.

(c) The PHA shall, except as otherwise provided in this ACC, deposit promptly with such bank or banks, under the terms of the General Depositary Agreement, all monies constituting the General Fund.

(d) The PHA may withdraw monies from the General Fund only for (1) the payment of Project Expenditures, and (2) other purposes specifically approved by the Government. No withdrawals shall be made except in accordance with a voucher or vouchers then on file in the office of the PHA stating in proper detail the purpose for which such withdrawal is made.

(e) If the PHA (1) in the determination of the Government is in Substantial Default, or (2) makes or has made any fraudulent or willful misrepresentation of any material fact, in any of the documents or data submitted to the Government pursuant to this ACC or in any document or data submitted to the Government as a basis for this ACC or as an inducement to the Government to enter into this ACC, the Government shall have the right to require any bank or other depositary which holds any monies of the General Fund to refuse to permit any withdrawals of such monies; Provided, however, that upon the curing of such Default the Government shall promptly rescind such requirement.

2.15. *Pooling of Funds under Special Conditions and Revolving Fund.*

(a) The PHA may deposit under the terms of the General Depositary Agreement monies received or held by the PHA in connection with any other housing project developed or operated by the PHA pursuant to the provisions of any contract for annual contributions, administration, or lease between the PHA and the Government.

(b) The PHA may also deposit under the terms of the General Depositary Agreement amounts necessary for current expenditures of any other project or enterprise of the PHA, including any project or enterprise in which the Government has no financial interest; Provided, however, that such deposits shall be lump-sum transfers from the depositaries of such other projects or enterprises, and shall in no event be deposits of the direct revenues or receipts of such other projects or enterprises.

(c) If the PHA operates other projects or enterprises in which the Government has no financial interest it may, from time to time, withdraw such amounts as the Government may approve from monies on deposit under the General Depositary Agreement for deposit in and disbursement from a revolving fund provided for the payment of items chargeable in part to the Projects and in part to other projects or enterprises of the PHA; Provided, however, that all deposits in such revolving fund shall be lump-sum transfers from the depositaries of the related projects or enterprises and shall in no event be deposits of the direct revenues or receipts.

(d) The PHA may establish petty cash or change funds in reasonable amounts, from monies on deposit under the General Depositary Agreement.

(e) In no event shall the PHA withdraw from any of the funds or accounts authorized under this Section 2.15 amounts for the Projects or for any other project or enterprise in excess of the amount then on deposit in respect thereto.

2.16. *Default.* (a) *Failure or Inability of PHA to Comply with Agreement.* In the event the Government determines that the PHA is in default as provided in the Agreement with the Owner, or if such Agreement is held to be void, voidable or ultra vires, or if the power or right of the PHA to enter into such Agreement is drawn into question in any legal proceedings, or if the PHA asserts or claims that such Agreement is not binding upon the PHA for any such reason, the Government may, after reasonable notice to the the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder as to the Project. In such case, the Government will assume the PHA's rights and obligations under the Agreement and carry out the obligations of the PHA under the Agreement, including the obligation to enter into the Contract.

(b) *Failure or Inability of PHA to Comply with Contract.* In the event of failure of the PHA to comply with the Contract with the Owner, or if such Contract is held to be void, voidable or ultra vires, or if the power or right of the PHA to enter into such Contract is drawn into question in any legal proceeding, or if the PHA asserts or claims that such Contract is not binding upon the PHA for any such reason, the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder. In such case, the Government will assume the PHA's rights and obligations under such Contract, and the Government shall, for the duration of such Contract, continue to pay Annual Contributions for the purpose of making housing assistance payments with respect to dwelling units under such Contract, shall perform the obligations and enforce the rights of the PHA, and shall exercise such other powers as the Government may have to cure the Default.

(c) *Other Defaults by the PHA.* If the PHA defaults in the observance or performance of the provisions of Section 2.4; fails to comply with its obligations under any duly issued Certificate of Family Participation in accordance with its terms; fails to comply with the requirements of Sections 2.5, 2.6, 2.7 or 2.8; defaults in the performance or observance of any term, covenant, or condition of this ACC other than the defaults enumerated in this paragraph, and if such defaults have not been remedied within a reasonable time, not to exceed 30 days, after the Government has notified the PHA thereof; or fails to comply with the applicable provisions of the Act and all regulations issued pursuant thereto; the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder as to the Project. Upon the occurrence of a Substantial Default with respect to any Project, the PHA shall, if the Government so requires, assign to the Government all of its rights and interests in and to the project, or such part thereof as the Government may specify, and the Government shall continue to pay Annual Contributions with respect to dwelling units covered by Housing Assistance Payments Contracts in accordance with the terms of this ACC until reassigned to the PHA.

(d) *Return of Rights and Obligations to PHA.* All rights and obligations of the PHA assumed by the Government pursuant to this Section 2.16 will be returned as constituted at the time of such return (i) when the Government is satisfied that all defaults have been cured and that the Project will thereafter be administered in accordance with all applicable requirements or (ii) when the Housing Assistance Payments Contract is at an end, whichever occurs sooner.

(e) *Rights of Owner.* The provisions of this Section 2.16 are made with, and for the benefit of, the Owner or his assignees who will have been specifically approved by the Government prior to such assignment. To enforce the performance of this provision the Owner and such assignees, as well as the PHA, shall have the right to proceed against the Government by suit at law or in equity.

2.17 *Remedies Not Exclusive and Non-Waivers of Remedies.* Any remedy provided for herein shall not be exclusive or preclude the Owner, PHA and/or the Government from exercising any other remedy available under this ACC or under any provisions of law, nor shall any action taken in the exercise of any remedy be deemed a waiver of any other rights or remedies available to such parties. Failure on the part of any such party to exercise any right or remedy shall not constitute a waiver of that or any other right or remedy, nor operate to deprive the party of the right thereafter to make any remedial action for the same or any subsequent default.

2.18. *Interest of Members, Officers, or Employees of PHA, Members of Local Governing Body, or Other Public Officials.*

(a) Neither the PHA nor any of its contractors or their subcontractors shall enter into any contract, subcontract, or arrangement, in connection with any Project, in which any member, officer, or employee of the PHA, or any member of the governing body of the locality in which the Project is situated, or any member of the governing body of the locality in which the PHA was activated, or any other public official of such locality or localities who exercises any responsibilities or functions with respect to the Project during his tenure or for one year thereafter has any interest, direct or indirect. If any such present or former member, officer, or employee of the PHA, or any such governing body member or such other public official of such locality or localities involuntarily acquires or had acquired prior to the beginning of his tenure any such interest, and if such interest is immediately disclosed to the PHA and such disclosure is entered upon the minutes of the PHA, the PHA, with the prior approval of the Government, may waive the prohibition contained in this subsection; Provided, however, that any such present member, officer, or employee of the PHA shall not participate in any action by the PHA relating to such contract, subcontract, or arrangement.

(b) The PHA shall insert in all contracts entered into in connection with any Project or any property included or planned to be included in any Project, and shall require its contractors to insert in each of its subcontracts, the following provisions:

"No member, officer, or employee of the PHA, no member of the governing body of the locality in which the Project is situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the Project, during his tenure or for one year thereafter,

shall have any interest, direct or indirect, in this contract or the proceeds thereof."

(c) The provisions of the foregoing subsections (a) and (b) of this Section 2 shall not be applicable to the General Depositary Agreement, or utility service the rates for which are fixed or controlled by a governmental agency.

2.10. *Interest of Member of or Delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this ACC or to any benefits which may arise therefrom.

APPENDIX IV

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM

AGREEMENT TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT SUBSTANTIAL REHABILITATION

PRIVATE-OWNER/PHA PROJECT

PART I

This Agreement to Enter into Housing Assistance Payments Contract ("Agreement") is made and entered into by and between the ------- ("PHA"), which is a public housing agency as defined in the United States Housing Act of 1937, 42 U.S.C. 1437, *et seq.* ("Act"), at section 1437a(6), and ------- ("Owner").

Whereas, the Owner proposes to complete a housing project consisting of the substantial rehabilitation of certain projects and land as described Final Proposal; and

Whereas, the Owner and the PHA propose to enter into a Housing Assistance Payments Contract ("Contract") upon the completion of said project for the purpose of making housing assistance payments to enable eligible lower-income families ("Families") to occupy units in said project; and

Whereas, the PHA has entered into an Annual Contributions Contract dated -------, 19--, with the United States of America acting through the Department of Housing and Urban Development ("Government") with respect to Project No. ------- ("ACC"), under which the Government will provide financial assistance to the PHA pursuant to section 8 of the Act for the purpose of making housing assistance payments; and

Whereas, the Owner is also the rehabilitator, or, if the rehabilitator is other than the Owner, the rehabilitator's name is -------

Now therefore, the parties hereto agree as follows:

1.1 *SIGNIFICANT DATES; CONTENTS OF AGREEMENT.*

a. *Time for Completion of Project.* The time for completion of the project (see Section 1.2a) is ------ calendar days after the effective date of this Agreement.

b. *Date for Commencement of Work.* The date for commencement of work (see Section 1.2b) is -------, 19--.

c. *Contents of Agreement.* This Agreement consists of Part I, Part II, and the following exhibits:

Exhibit A: The approved Final Proposal including, among other things, evidence of management capability, and, if required, the architect's certification, the Affirmative Fair Housing Marketing Plan, and management program.

Exhibit B: The Housing Assistance Payments Contract ("Contract") to be executed upon acceptable completion of the project;

Exhibit C: The Annual Contributions Contract;

Exhibit D: The schedule of completion in stages, if applicable;

Exhibit E: The schedule of minimum rates of wages, if applicable; and

Additional exhibits: [Specify additional exhibits, if any. If none, insert "None."]

This Agreement, including said exhibits, comprises the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein. Nothing contained in this Agreement shall create or affect any relationship between the PHA and the lender or any contractors or subcontractors employed by the Owner in the completion of the project.

1.2 *Schedule of Completion.*

a. *Time for Completion.* The project shall be completed in accordance with Section 1.4 no later than the end of the period stated in Section 1.1a, or in stages as provided for in Exhibit D which identifies the units comprising each stage and the date of commencement and time for completion of each stage. Where completion in stages is provided for, all references to project completion shall be deemed to refer to project completion and/or completion of any stage, as appropriate.

b. *Timely Performance of Work.* The Owner agrees that no later than the date stated in Section 1.1b the work will be commenced and diligently continued. In the event the work is not commenced, diligently continued, and/or completed as aforesaid, the PHA reserves the right, subject to Government approval, to rescind this Agreement or take other appropriate action. The Owner shall report to the PHA the date work was commenced and shall thereafter furnish the PHA with periodic progress reports (quarterly unless more frequent reporting is required by the PHA).

c. *Delays.* In the event there is delay in the completion due to strikes, lockouts, labor union disputes, fire, unusual delays in transportation, unavoidable casualties, weather, acts of God, or any other causes beyond the Owner's control, or by delay authorized by the PHA, the time for completion shall be extended to the extent that completion is delayed due to one or more of these causes. No increases in the rents set forth in Exhibit B ("Contract Rents") may be granted on account of any such delays.

1.3 *CONSTRUCTION PERIOD.*

a. *Changes.* The Owner shall submit for PHA and Government approval any changes from Exhibit A which will materially reduce or alter his obligations, or any changes which alter the design or materially reduce the quality or amenities of the project. Approval of such changes may be conditioned on a reduction of Contract Rents. If such changes are made without prior approval by the PHA and the Government, the Owner may be required to reduce the Contract Rents or remedy the defects or deficiencies as a condition for acceptance of the project. Contract Rents may not be increased by reason of any changes or modifications.

b. *Commencement of Marketing.* The Owner shall commence and diligently continue marketing as soon as possible, but in any event no later than 60 days prior to the estimated completion date. The Owner shall notify the PHA of the date of commencement of marketing. The Owner shall also comply with all reporting requirements under the Affirmative Fair Housing Marketing Regulations. Not later than 30 days prior to the estimated completion date and periodically thereafter, the Owner shall notify the PHA of any units which he anticipates will be vacant on the effective date of the Contract. At the time the Contract is executed, the Owner shall submit a list of the dwelling units leased as of the effective date of the Contract and a list of the units not so leased, if any. The Owner will be entitled to housing assistance payments for any unleased units pursuant to Section 1.7b of the Contract only if he has fully complied with the requirements of this paragraph and the provisions of that Section.

c. *Management Certification.* Prior to acceptance of the project by the Government, the Owner shall certify in writing that there has been no change in the evidence of management capability or in the proposed management program (if one was required) specified in his Final Proposal other than changes approved in writing by the PHA and the Government in accordance with paragraph a of this Section.

d. *Labor Standards Certification.*[1] Prior to acceptance of the project by the Government, the Owner shall certify in writing that he has complied with the provisions of Sections 2.6 through 2.11 of this Agreement, and that to the best of his knowledge and belief there are no claims of underpayment to laborers or mechanics in alleged violation of said provisions of the Agreement in the event there are any such pending claims to the knowledge of the Owner or the PHA or the Government, the Owner shall be required to place a sufficient amount in escrow as determined by the Government to assure payment thereof.

1.4 *PROJECT COMPLETION.*

a. *Conformance to Final Proposal.* The completed project shall be in accordance with Exhibit A. The Owner shall be solely responsible for completion of the project.

b. *Notification of Completion.* The Owner shall notify the Government, with a copy to the PHA, when the work is completed and shall submit to the Government the evidence of completion described in paragraph c of this Section.

c. *Evidence of Completion.* Completion of the project shall be evidenced by furnishing the Government with all of the following:

(1) A certification by the Owner that:

(i) The property was treated and is in compliance with applicable HUD Lead Based Paint regulations 24 CFR 39,

(ii) If the property was constructed prior to 1950, the Family upon occupancy will receive the notice required by HUD Lead Based Paint regulations and procedures regarding the hazards of lead based paint poisoning, the symptoms and treatment of lead poisoning and the precautions to be taken against lead poisoning and that records showing receipt of such notice by each tenant will be maintained.

(2) A certificate of occupancy and/or other official approvals necessary for occupancy.

(3) A certification by the Owner, which will be supported by the Owner's warranty in the Contract, that:

(i) All work has been completed in accordance with the requirements of this Agreement;

(ii) The project is in good and tenantable condition;

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such expected items to be specified);

(iv) The project has been constructed in accordance with applicable zoning building, housing, and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.

(4)[2] A certification by the registered architect responsible for inspection of construction that such inspection was performed by him or under his supervision with the frequency and thoroughness required by the generally accepted standards of professional care and judgment, and that to the best of his knowledge, belief, and professional judgment:

(i) All work has been completed in conformance with the certified working draw-

---

[1] Strike this paragraph if the project involves fewer than nine Contract units.

[2] Strike this subparagraph (4) if the work is to be done other than in accordance with working drawings and specifications prepared and certified to by a registered architect.

XUM
V 3930 P 0745 DEC 1974

ings and specifications for the project or approved changes thereto (such changes to be listed);

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified).

(iv) The project has been constructed in accordance with applicable zoning, building, housing, and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.

d. *Inspection.*

(1) Within ten working days of the receipt of the Owner's notification of project completion, the Government representative, accompanied by a PHA representative, shall inspect the project and review the evidence of completion listed in paragraph c of this Section. Such inspection shall be sufficient to enable the Government inspector to state in his inspection report that he has inspected the observable elements and features of the project in accordance with professional standards of care and judgment and that, on the basis of such inspection, the project has been completed in accordance with the Agreement and, in particular, that there are no observable conditions inconsistent with the certifications of the Owner or the design architect (if required) or the inspecting architect (if required). As promptly as possible, the Government shall notify the Owner in writing as to whether or not the project has been completed in an acceptable manner.

(2) In the event the Owner disputes the Government's determinations, he may submit the controversy to third-party arbitration, at his expense, provided that the arbitration is advisory only.

e. *Acceptance of Project.* If the Government determines that the project is not acceptable under paragraph d(1) of this Section, the following shall apply:

(1) If the defects or deficiencies are only punchlist items or incomplete items awaiting seasonal opportunity, the project may be accepted and the Contract executed. If the Owner fails to complete such items within a reasonable time to the satisfaction of the PHA and the Government, the PHA may, upon 30 days notice, as directed by the Government, terminate the Contract or exercise the PHA's other rights under the Contract.

(2) If the defects or deficiencies are other than punchlist items or incomplete work awaiting seasonal opportunity, but the Government determines that (i) a certificate of occupancy and/or other official approvals necessary for occupancy has been issued, (ii) the project is in good and tenantable condition, and (iii) the project has been rehabilitated in accordance with the applicable zoning, building, housing and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials, the project may be accepted after the Owner corrects the defects or deficiencies or the project may be accepted subject to a specified reduction of the Contract Rents as determined by the Government.

(3) If the Government determines that the project is not acceptable under paragraphs e(1) or e(2) of this Section, the Government shall determine: (i) whether the defects or deficiencies can be corrected and (ii) whether a reduction in Contract Rents will be required as a condition to acceptance of the project. If it is determined that the defects or deficiencies can be corrected, the Owner shall be notified of the Government's determinations under (i) and (ii) of this subparagraph, and, if he agrees to comply with the conditions, an agreement shall be entered into pursuant to which the defects or deficiencies will be corrected and the project then accepted. If the Owner is unwilling to enter into such agreement or if he fails to perform the agreement, the project shall not be accepted. Prior to authorizing execution of the Contract, the Government will verify that appropriate corrective action has been taken.

f. *Completion in Stages.* If the project is to be completed in stages, the procedures of this Section shall apply to each stage.

1.5 *EXECUTION OF HOUSING ASSISTANCE PAYMENTS CONTRACT.*

a. *Time of Execution.* Upon acceptance of the project by the Government pursuant to Sections 1.3 and 1.4, the Contract shall be executed by the Owner and the PHA and shall then be approved by the Government.

b. *Completion in Stages.* If completion is in stages, the Contract shall be executed upon completion of the first stage, and the number and types of completed units and their Contract Rents shall be shown in Exhibit A-1 of the Contract. Thereafter, upon completion of each successive stage, the signature block provided in the Contract for that stage shall be executed by the Owner and the PHA and approved by the Government, and Exhibits A-2, A-3, etc., covering the additional units, shall become part of the Contract.

c. *Unleased Units at Time of Execution.* At the time of execution of the Contract, the PHA shall examine the lists of dwelling units leased and not leased, referred to in Section 1.2b, and shall determine whether or not the Owner has met his obligations under that Section with respect to any unleased units. The PHA shall state in writing its determination with respect to the unleased units and for which of those units it will make housing assistance payments pursuant to the Contract. The Owner shall indicate in writing his concurrence with this determination or his disagreement, reserving his rights to claim housing assistance payments for the unleased units pursuant to the Contract, without prejudice by reason of his signing the Contract. Copies of all documents referred to in this paragraph shall be furnished to the Government.

d. *Contract Rents.* The Contract Rents by unit size, amounts of housing assistance payments, and all other applicable terms and conditions shall be as specified in the proposed Housing Assistance Payments Contract, except that in no case may the initial Contract Rents for units in projects financed with mortgages insured under the National Housing Act exceed the rents approved by the Government in connection with the mortgage insurance for such projects.

e. *No Changes in Contract.* Each party has read or is presumed to have read the proposed Contract. It is expressly agreed that there shall be no change in the terms and conditions of the Contract other than in accordance with Section 1.3a and paragraph d of this Section.

1.6 *GOVERNMENT ASSURANCE TO OWNER.*

a. The approval of this Agreement by the Government signifies that the Government has executed the ACC and that the ACC has been properly authorized; that the faith of the United States is solemnly pledged to the payment of annual contributions pursuant to said ACC; and that funds have been obligated by the Government for such payments to assist the PHA in the performance of its obligations under the Contract. The Government and the PHA shall not, without the consent of the Owner, amend or modify the ACC in any manner which would reduce the amount of annual contributions payable thereunder for housing assistance payments except as authorized in the ACC and the Contract.

b. The ACC states that the ACC provisions quoted below in this paragraph are made for the benefit of the Owner, or his assignees who will have been specifically approved by the Government prior to such assignment, and that to enforce the performance of these provisions, the Owner and such assignees shall have the right to proceed against the Government by suit at law or in equity. Upon the determination by the Government that a default by the PHA has occurred, the following provisions of the ACC (which are hereby made a part of this Agreement), shall be applicable:

(a) *Failure or Inability of PHA to Comply with Agreement.* In the event the Government determines that the PHA is in default of its obligation under the Agreement with the Owner, or if such Agreement is held to be void, voidable or ultra vires, or if the power or right of the PHA to enter into such Agreement is drawn into question in any legal proceeding, or if the PHA asserts or claims that such Agreement is not binding upon the PHA for any such reason, the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder as to the project. In such case, the Government will assume the PHA's rights and obligations under the Agreement and carry out the obligations of the PHA under the Agreement, including the obligation to enter into the Contract.

* * * * *

(d) *Return of Rights and Obligations to PHA.* All rights and obligations of the PHA assumed by the Government pursuant to this Section 2.17 will be returned as constituted at the time of such return (1) when the Government is satisfied that all defaults have been cured and that the project will thereafter be administered in accordance with all applicable requirements or (2) when the Housing Assistance Payments Contract is at an end, whichever occurs sooner.

1.7 *Authority of the PHA.* The PHA warrants that it is a "public housing agency" as defined in section 3(6) of the Act and that it is in fact and in law authorized to execute this Agreement.

Effective date. This Agreement shall be effective as of the date of execution by the Government.

In witness whereof, the parties hereto have executed this Agreement in four original counterparts.

Warning: 18 U.S.C. 1001 provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—AGREEMENT TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT—SUBSTANTIAL REHABILITATION—PRIVATE-OWNER/PHA PROJECT

PART II

2.1 *Training, Employment, and Contracting opportunities for Businesses and lower-income persons.*[3] a. The project assisted under this Agreement is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

b. Notwithstanding any other provision of this Agreement, the Owner shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135 (published in 38 Federal Register 29220, October 22, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this Agreement. The requirements of said regulations include, but are not limited to, development and implementation of an affirmative action plan for utilizing business concerns located within, or owned in substantial part by persons residing in, the area of the project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by section 135.20(b) of the regulations and paragraph d of this Section in all contracts for work in connection with the project. The Owner certifies and agrees that he is under no contractual or other disability which would prevent him from complying with these requirements.

c. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this Agreement, shall be a condition of the Federal financial assistance provided to the project, binding upon the Owner, his successors and assigns. Failure to fulfill these requirements shall subject the Owner, his contractors and subcontractors, his successors, and assigns to the sanction specified by this Agreement, and to such sanctions as are specified by 24 CFR Section 135.135.

d. The Owner shall incorporate or cause to be incorporated into any contract or subcontract for work pursuant to this Agreement in excess of $50,000 cost, the following clause:

"EMPLOYMENT OF PROJECT AREA RESIDENTS AND CONTRACTORS

"A. The work to be performed under this Agreement is on a project assisted under a program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area, and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

"B. The parties to this Agreement will comply with the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this Agreement. The parties to this Agreement certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

"C. The contractor will send to each labor organization or representative of workers with which he has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of his commitments under this section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

"D. The contractor will include this section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the subcontractor is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR, Part 135. The contractor will not subcontract with any subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR, Part 135, and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

"E. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of the Agreement, shall be a condition of the Federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors, and assigns. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors, and assigns to those sanctions specified by the grant or loan agreement or contract through which Federal assistance is provided, and to such sanctions as are specified by 24 CFR Section 135.135."

e. The Owner agrees that he will be bound by the above Employment of Project Area Residents and Contractors clause with respect to his own employment practices when he participates in federally assisted work.

2.2 *Equal employment opportunity.*[4] a. The Owner shall incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR, Chapter 60, which is to be performed pursuant to this Agreement, the following Equal Opportunity clause:

"EQUAL EMPLOYMENT OPPORTUNITY

"During the performance of this contract, the contractor agrees as follows:

"(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, creed, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, creed, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment, or recruitment advertising, layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by or at the direction of the Government setting forth the provisions of this Equal Opportunity clause.

"(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, creed, sex, or national origin.

"(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by or at the direction of the Government advising the said labor union or workers' representative of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

"(4) The contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

"(5) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by HUD and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

"(6) In the event of the contractor's noncompliance with the Equal Opportunity clauses of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor or as otherwise provided by law.

"(7) The contractor will include the portion of the sectence immediately preceding Paragraph (1) and the provisions of Paragraphs (1) through (7) in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Government may direct as a means of enforcing such provisions including sanctions for noncompliance; Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Government, the contractor may request the United States to enter into such litigation to protect the interest of the United States."

[3] Strike this Section if the Contract Rents under the proposed Housing Assistance Payments Contract, over the maximum term of said Contract, are $500,000 or less.

[4] As used in Section 2.2, "HUD" means the United States of America acting through the Department of Housing and Urban Development.

V 3912 PG 5130 74 XUM

b. The Owner agrees that he will be bound by the above Equal Opportunity clause with respect to his own employment practices when he participates in federally assisted construction work.

c. The Owner agrees that he will assist and cooperate actively with HUD and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that he will furnish HUD and the Secretary of Labor such information as they may require for the supervision of such compliance, and that he will otherwise assist HUD in the discharge of HUD's primary responsibility for securing compliance.

d. The Owner further agrees that he will refrain from entering into any contract or contract modification subject to Executive Order No. 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by HUD or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order.

2.3 *Cooperation in equal opportunity compliance reviews.* The PHA and the Owner shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.4 *Flood insurance.* If the project is located in an area that has been identified by the Secretary of Housing and Urban Development as an area having special flood hazards and if the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, the Owner agrees that the project will be covered, during its anticipated economic or useful life, by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less.

2.5 *Clean Air Act and Federal Water Pollution Control Act.*[5] In compliance with regulations issued by the Environmental Protection Agency ("EPA"), 40 CFR, Part 15, 39 F.R. 11099, pursuant to the Clean Air Act, as amended ("Air Act"), 42 U.S.C. 1857, et seq., the Federal Water Pollution Control Act, as amended ("Water Act"), 33 U.S.C. 1251, et seq., and Executive Order 11738, the Owner agrees that:

a. Any facility to be utilized in the performance of this Agreement or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to section 15.20 of said regulations;

b. He will promptly notify the PHA of the receipt of any communication from the EPA indicating that a facility to be utilized for the Agreement is under consideration to be listed on the EPA List of Violating Facilities;

c. He will comply with all the requirements of section 114 of the Air Act and section 308 of the Water Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and section 308 of the Air Act and the Water Act, respectively, and all regulations and guidelines issued thereunder; and

d. He will include or cause to be included the provisions of this Section in every nonexempt subcontract, and that he will take such action as the Government may direct as a means of enforcing such provisions.

2.6 *Prevailing wage rates.*[6] a. Attached hereto and incorporated herein as Exhibit D is a schedule of minimum rates of wages applicable to this Agreement.

b. All laborers and mechanics employed in the construction of the project shall be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by the regulations issued by the Secretary of Labor under the Copeland Act (29 CFR, Part 3)), the full amounts due at the time of payment computed at wage rates not less than those contained in the wage determination decision of the Secretary of Labor of the United States, which is incorporated herein, regardless of any contractual relationship which may be alleged to exist between the Owner or any subcontractor and such laborers and mechanics; and the wage determination decision and the Department of Labor Wage Rate Information Poster shall be posted by the Owner at the site of the work in a prominent place where it can be easily seen by the workers. For the purpose of this clause, contributions made or costs reasonably anticipated under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics subject to the provisions of paragraph c of this Section. Also for the purpose of this clause, regular contributions made or costs incurred for more than a weekly period under plans, funds, or programs, but covering the particular weekly period, are deemed to be constructively made or incurred during such weekly period.

c. The Owner may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, or any bona fide fringe benefits not expressly listed in section 1(b)(2) of the Davis-Bacon Act or otherwise not listed in the wage determination decision of the Secretary of Labor which is included in this Agreement, only when the Secretary of Labor has found, upon the written request of the Owner, that the applicable standards of the Davis-Bacon Act have been met. Whenever practicable, the Owner should request the Secretary of Labor to make such findings before the making of the Agreement. In the case of unfunded plans and programs, the Secretary of Labor may require the Owner to set aside in a separate account assets for the meeting of obligations under the plan or program.

d. The Owner shall comply with the Copeland (Anti-Kickback) Regulations (29 CFR, Part 3) of the Secretary of Labor which are herein incorporated by reference.

e. Any class of laborers or mechanics (including apprentices and trainees) which is not listed in the wage determination and which is to be employed under the Agreement shall be classified or reclassified conformally to the wage determination. In the event that agreement cannot be reached on the proper classification or reclassification of a particular class of laborers and mechanics (including apprentices and trainees) to be used, the question will be referred by HUD to the Secretary of Labor for final determination.

f. Whenever the minimum wage rate prescribed in the Agreement for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly wage rate and the Owner is obligated to pay a cash equivalent of such a fringe benefit, an hourly cash equivalent thereof shall be established. In the event that agreement cannot be reached upon a cash equivalent of the fringe benefit, the question will be referred by HUD to the Secretary of Labor for final determination.

g. (1) (i) Apprentices will be permitted to work as such only when they are registered individually under a bona fide apprenticeship program registered with a State apprenticeship agency which is recognized by the Bureau of Apprenticeship and Training, U.S. Department of Labor; or, if no such recognized agency exists in a State, under a program registered with the Bureau of Apprenticeship and Training, U.S. Department of Labor. The allowable ratio of apprentices to journeymen in any craft classification shall not be greater than the ratio permitted to the Owner as to his entire work force under the registered program. Any employee listed on a payroll at an apprentice wage rate, who is not a trainee as defined in subsection (b) immediately following or is not registered as above, shall be paid the wage rate determined by the Secretary of Labor for the classification of work he actually performed. The Owner will be required to furnish to the other party to this Agreement written evidence of the registration of his program and apprentices, as well as the appropriate ratios and wage rates for the area of construction prior to using any apprentices on the contract work.

(ii) Trainees will be permitted to work as such when they are bona fide trainees employed pursuant to a program approved by the U.S. Department of Labor, Manpower Administration, Bureau of Apprenticeship and Training, and where subsection (c) immediately following is applicable, in accordance with the provisions of paragraph g(2) of this Section.

(iii) On contracts in excess of $10,000 the employment of all laborers and mechanics, including apprentices and trainees, as defined in 29 CFR Section 5.2(c) shall also be subject to the provisions of paragraph g(2) of this Section. Apprentices and trainees shall be hired in accordance with the provisions of paragraph g(2).

(2) The Owner agrees that:

(i) He will make a diligent effort to hire for the performance of the Agreement a number of apprentices or trainees, or both, in each occupation, which bears to the average number of the journeymen in that occupation to be employed in the performance of the Agreement the applicable ratio as determined by the Secretary of Labor;

(ii) He will assure that 25 percent of such apprentices or trainees in such occupation are in their first year of training, where feasible. Feasibility here involves a consideration of (A) the availability of training opportunities for first year apprentices, (B) the hazardous nature of the work for beginning workers, (C) excessive unemployment of apprentices in their second and subsequent years of training;

(iii) During the performance of the Agreement he will, to the greatest extent possible, employ the number of apprentices or trainees necessary to meet currently the requirements of (i) and (ii) immediately preceding;

(iv) He will maintain records of employment by trade of the number of apprentices and trainees, apprentices and trainees by first year of training, and of journeymen, and the wages paid and hours of work of such apprentices, trainees and journeymen; and he will make these records available for inspec-

[5] Strike this Section if the Contract Rents under the proposed Housing Assistance Payments Contract, over the maximum term of said Contract, are $100,000 or less.

[6] As used in Sections 2.6 through 2.11, "HUD" means the United States of America acting through the Department of Housing and Urban Development. Strike Sections 2.6 through 2.11 if the project involves fewer than nine Contract units.

tion upon request of the Department of Labor and HUD;

(v) If he claims compliance based on the criterion stated in 29 CFR Section 5a.4(b), he will maintain records of employment, as described in the immediately preceding paragraph, on non-Federal and nonfederally assisted construction work done during the performance of the contract in the same labor market area; and he will make these records available for inspection upon request of the Department of Labor and HUD;

(vi) He will supply one copy of the written notices required in accordance with 29 CFR Section 5a.4(c) at the request of Government compliance officers, and will supply at three-month intervals during the performance of the Agreement and after completion of Agreement performance a statement describing steps taken toward making a diligent effort and containing a breakdown by craft, of hours worked and wages paid for first year apprentices and trainees, other apprentices and trainees, and journeymen. One copy of the statement will be sent to HUD and one to the Secretary of Labor.

2.7 *Submittal of payrolls and related reports.* a. Payrolls and basic records relating thereto shall be maintained during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics employed in the construction of the project. Such records shall contain the name and address of each such employee, his correct classification, rates of pay (including rates of contributions or costs anticipated of the types described in section 1(b)(2) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid. Whenever the Secretary of Labor has found under Section 2.6c that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Owner shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

b. The Owner shall submit weekly to the other party to this Agreement such copies and summaries of all his payrolls and those of each of his subcontractors as such other party may require. Each payroll and summary shall be accompanied by a statement signed by the employer or his agent indicating that the payrolls are correct and complete, that the wage rates contained therein are not less than those determined by the Secretary of Labor, and that the classifications set forth for each laborer or mechanic conform with the work he performed. A submission of a "Weekly Statement of Compliance," which is required under this Agreement and the Copeland Regulations of the Secretary of Labor (29 CFR, Part 3), and the filing with the initial payroll or any subsequent payroll of a copy of any findings by the Secretary of Labor under Section 2.6c shall satisfy this requirement. The Owner shall make the records required under the labor standards clauses of this Agreement available for inspection by authorized representatives of HUD and the Department of Labor, and will permit such representatives to interview employees during working hours on the job.

c. The Owner shall also furnish to the other parties to this Agreement any other information or certifications relating to employees in such form as such other party may request.

2.8 *Disputes Concerning Wage Rates and Classifications of Labor.* a. All disputes concerning prevailing wage rates or classifications arising under this Agreement involving (1) significant sums of money, (2) large groups of employees, or (3) novel or unusual situations shall be promptly reported to HUD for decision or, at the option of HUD, referral to the Secretary of Labor of the United States. The decision of HUD or the Secretary of Labor, as the case may be, shall be final.

b. All questions arising under this Agreement relating to the application or interpretation of the Copeland (Anti-Kickback) Act shall be referred to the Secretary of Labor of the United States for ruling or interpretation, and such ruling or interpretation shall be final.

2.9 *Wage claims and adjustments.* In cases of underpayment of salaries or wages to any laborers or mechanics (including apprentices and trainees) by the Owner (or any of his subcontractors), the Owner shall be required to place an amount in escrow, as determined by HUD, sufficient to pay persons employed on the work covered by the Agreement the difference between the salaries or wages actually paid such employees for the total number of hours worked, and the amounts withheld may be disbursed by HUD for and on account of the Owner or the subcontractor to the respective employees to whom they are due.

2.10 *Contract Work Hours and Safety Standards Act—overtime compensation.* a. Neither the Owner nor any subcontractor contracting for any part of the work which may require or involve the employment of laborers or mechanics shall require or permit any laborer or mechanic in any workweek in which he is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in excess of eight hours in any calendar day or in excess of forty hours in any such workweek, as the case may be.

b. In the event of any violation of the clause set forth in paragraph a of this Section, the Owner and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. In addition, such Owner and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed, with respect to each individual laborer or mechanic employed in violation of the clause set forth in paragraph a of this Section, in the sum of $10 for each calendar day on which such employee was required or permitted to work in excess of eight hours or in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph a.

c. The Owner shall deposit in escrow such amounts determined by HUD to be necessary to satisfy any liability of the Owner or any subcontractor for liquidated damages as provided in paragraph b of this Section.

2.11 *Termination; debarment; subcontracts.* a. A breach of the provisions of the foregoing Sections 2.6, 2.7, 2.8, 2.9, and 2.10 may be grounds for termination of this Agreement and for debarment as provided in 29 CFR Section 5.6.

b. The Owner shall insert in any subcontracts Section 2.6 (and with respect to Section 2.6g(3), copies of 29 CFR Sections 5a.4, 5a.5, 5a.6 and 5a.7 shall be attached), 2.7, 2.8, 2.9, 2.10, and 2.11a, and also a clause requiring the subcontractors to include these Sections in any lower tier subcontract which they may enter into, together with a clause requiring this insertion in any further subcontracts that may in turn be made.

2.12 *Disputes.* a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Agreement which is not disposed of by agreement of the PHA and the Owner may be submitted by either party to the Department of Housing and Urban Development field office director who shall make a decision and shall mail or otherwise furnish a written copy thereof to the Owner and the PHA.

b. The decision of the field office director shall be final and conclusive unless, within 30 days from the date of receipt of such copy, either party mails or otherwise furnishes to the Government a written appeal addressed to the Secretary of Housing and Urban Development. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this Section, the appellant shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, both parties shall proceed diligently with the performance of the Agreement and in accordance with the decision of the field office director.

c. This Section does not preclude consideration of questions of law in connection with decisions rendered under paragraphs a and b of this Section; *Provided, however,* That nothing herein shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

2.13 *Interest of members, officers, or employees of PHA, members of local governing body, or other public officials.* No member, officer, or employee of the PHA, no member of the governing body of the locality (city and county) in which the project is situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Agreement or in any proceeds or benefits arising therefrom.

2.14 *Interest of member of or delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Agreement or to any benefits which may arise therefrom.

2.15 *Nonassignability.* a. The Owner agrees that he has not made and will not make any sale, assignment, or conveyance or transfer in any other form, of this Agreement or the project or any part thereof or any of his interest therein, without the prior consent of the PHA and the Government; Provided, however, that in the case of an assignment as security for the purpose of obtaining financing of the project, the PHA and the Government shall consent in writing if the terms of the financing have been approved by the Government. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees that he will not change to a different rehabilitator from the one named in the preamble of this Agreement, except with the prior consent of the PHA and the Government.

c. The Owner agrees that the approved developer has not made, and will not make, except with the prior consent of the PHA and the Government, any assignment or transfer in any form of the rehabilitator's

XUM
V 39 N 251 DEC 30 1974
XUM

contract to construct the project, or of any part thereof, or any of the rehabilitator's interests therein.

d. The Owner agrees to notify the PHA and the Government promptly of any proposed action covered by paragraph a or b or c of this Section. The Owner further agrees to request the written consent of the PHA and the Government in regard thereto, except in the case of an assignment as security as provided in paragraph a of this Section.

e. For the purpose of this Section, a transfer of stock in the Owner or rehabitation in whole or in part, by a party holding rehabitation ten percent or more of the stock of said Owner or developer, or a transfer by more than one stockholder or the owner of 10 percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner or rehabitation of the degree thereof, by any other method or means, whether by increasd capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Agreement, the project or the rehabitation contract. With respect to this provision, the Owner, and the party signing this Agreement on behalf of said Owner, represent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect thereto.

[illegible]

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—HOUSING ASSISTANCE PAYMENTS CONTRACT—SUBSTANTIAL REHABILITATION—PRIVATE-OWNER/PHA PROJECT

[illegible]

This Housing Assistance Payments Contract ("Contract") is entered into by and between the _____-("PHA"), which is a public housing agency as defined in the United States Housing Act of 1937, 42 U.S.C. 1437, et seq. ("Act"), at section 1437a(6), and _____ ("Owner"), and approved by the United States of America acting through the Department of Housing and Urban Development ("Government"), pursuant to the Act and the Department of Housing and Urban Development Act, 42 U.S.C. 3531, et seq.

The parties hereto agree as follows:

1.1 *Significant dates and other items; contents of contract.* a. *Effective Date of Contract.* The effective date of this Contract is _____, 19__. [This date shall be no earlier than the date of approval by the Government.]

b. *Initial Term of Contract.* The initial term of this Contract (see Section 1.4a) shall be ____ years [not to exceed five years], beginning with the effective date of this Contract and ending _____, 19__.

c. *Number and Length of Optional Additional Terms.* The number and length of optional additional terms (see Section 1.4a) shall be ____ terms of __ year each [not to exceed five years each].

d. *Maximum Total Term of Contract.* The maximum total term of this Contract, including renewals (see Section 1.4a) shall be __ years. [Insert 20 years, or 40 years in the case of a project owned by or financed by a loan or loan guarantee from a State or local agency.]

e. *Fiscal Year.* The ending date of each Fiscal Year (see Section 1.4b) shall be _____ [insert March 31, June 30, September 30, or December 31, as determined by the Government].

f. *Annual Contributions Contract.* The Annual Contributions Contract applicable to this Contract ("ACC") (see Section 1.5a) is the ACC dated _____ with respect to Project No. _____.

g. *Maximum Housing Assistance Commitment.* The maximum amount of the commitment for housing assistance payments under this Contract (see Section 1.6a) is $_____ per annum. [Enter amount specified in the ACC for housing assistance payments.]

h. *Contents of Contract.* This Contract consists of Part I, Part II, and the following exhibits:

Exhibit A: The schedule showing the number of units by size ("Contract Units") and their applicable rents ("Contract Rents");

Exhibit B: The Project Description;

Exhibit C: The statement of services, maintenance and utilities to be provided by Owner;

Exhibit D: The Affirmative Fair Housing Marketing Plan, if applicable; and

Additional exhibits: [Specify additional exhibits, if any. If none, insert "None."]

This Contract, including said exhibits, comprises the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein.

1.2 *Owner's warranties.* a. *Legal Capacity.* The Owner warrants that he has the legal right to execute this Contract and to lease dwelling units covered by this Contract.

b. *Completion of Work.* The Owner warrants that the project as described in Exhibit B is in good and tenantable condition and that all work has been completed in accordance with the terms and conditions of the Agreement to Enter into Housing Assistance Payments Contract ("Agreement") or will be completed in accordance with the terms on which the project was accepted. The Owner further warrants that he will remedy any defects or omissions covered by this warranty if called to his attention within 12 months of the effective date of this Contract.

1.3 *Families to be housed; PHA assistance.* a. *Families To Be Housed.* The Contract Units are to be leased by the Owner to eligible lower-income families ("Families") for use and occupancy by such Families solely as private dwellings.

b. *PHA Assistance.* (1) The PHA hereby agrees to make housing assistance payments on behalf of Families for the Contract Units, to enable such Families to lease decent, safe, and sanitary housing pursuant to section 8 of the Act. Such housing assistance payments shall equal the difference between the Contract Rents for units leased by Families and the portion of such rents payable by Families as determined by the Owner in accordance with schedules and criteria established by the Government.

(2) If there is an Allowance for Utilities and Other Services and if such Allowance exceeds the Gross Family Contribution, the Owner shall pay the Family the amount of such excess on behalf of the PHA upon receipt of funds from the PHA for that purpose.

1.4 *Term of contract; fiscal year.* a. *Term of Contract.* The initial term of this Contract shall be stated in Section 1.1b. This Contract may be renewed, at the sole option of the Owner, for the number and length of additional terms stated in Section 1.1c, provided that the total Contract term for any unit, including renewals, shall not exceed the number of years stated in Section 1.1d. Renewal shall be automatic unless the Owner notifies the PHA, no later than 60 days prior to the expiration of the current term, of his intention not to renew. If the project is accepted in stages, the dates for the Initial term and renewal terms shall be separately related to the units in each stage; Provided, however, that the total Contract term for the units in all the stages, counting from the effective date of the Contract with respect to the first stage, shall not exceed the total Contract terms stated in Section 1.1d, plus two years.

b. *Fiscal Year.* The Fiscal Year for the project shall be the 12-month period ending on the date stated in Section 1.1e: Provided, however that the first Fiscal Year for the project shall be the period beginning with the effective date of the Contract and ending on the last day of said established Fiscal Year which is not less than 12 months after such effective date. If the first Fiscal Year exceeds 12 months, the maximum total annual housing assistance payment in Section 1.6a may be adjusted by the addition of the pro rata amount applicable to the period of operation in excess of 12 months.

1.5 *Annual contributions contract.* a. *Identification of Annual Contributions Contract.* The PHA has entered into an Annual Contributions Contract with the Government as identified in Section 1.1f, under which the Government will provide financial assistance to the PHA pursuant to section 8 of the Act, for the purpose of making housing assistance payments. A copy of the ACC shall be provided upon request.

b. *PHA Pledge of Certain ACC Payments.* The PHA hereby pledges to the payment of housing assistance payments pursuant to this Contract the portion of annual contributions payable under the ACC for such housing assistance payments. The PHA shall not, without the consent of the Owner, amend or modify the ACC in any manner which would reduce the amount of such annual contributions, except as authorized in the ACC and this Contract.

c. *Government Approval of Housing Assistance Payments Contract.* The approval of this Contract by the Government signifies that the Government has executed the ACC and that the ACC has been properly authorized; that the faith of the United States is solemnly pledged to the payment of annual contributions pursuant to said ACC; and that funds have been obligated by the Government for such payments to assist the PHA in the performance of its obligations under the Contract.

1.6 *Maximum housing assistance commitment; Project reserve.* a. *Maximum Housing Assistance Commitment.* Notwithstanding any other provisions of this Contract (other than paragraph b of this Section) or any provisions of any other contract between the PHA and the Owner, the PHA shall not be obligated to make and shall not make any housing assistance payments under this Contract in excess of the amount per annum stated in Section 1.1g: Provided, however, that this amount shall be reduced commensurate with any reduction in the number of units under this Contract.

b. *Project Reserve.* As provided in the ACC, a project account shall be established and maintained, in an amount as determined by the Government consistent with its responsibilities under section 8(c)(6) of the Act, out of amounts by which the maximum annual ACC commitment exceeds amounts paid under the ACC for any Fiscal Year. This account shall be established and maintained by the Government as a specifically identified and segregated account. To the extent funds are available in said account, the maximum total annual housing assistance payments for any Fiscal Year may exceed the maximum amount stated in paragraph a of this Section to cover increases in Contract Rents or decreases in Family incomes (see Section 1.9). Any amount remaining in said account after payment of the last housing assistance payment with respect to the project shall be applied by the Government in accordance with law.

1.7 *Housing assistance payments to owners.* a. *General.* (1) Housing assistance payments shall be paid to the Owner for units under lease by Families in accordance with

the Contract. The housing assistance payment will pay the Owner the difference between the Contract Rent and that portion of said rent payable by the Family as determined in accordance with the Government-established schedules and criteria.

(3) The Owner shall be entitled to Contract Rents in accordance with the terms of this Contract. The amount of housing assistance payment payable on behalf of a Family and the amount of rent payable by such Family shall be subject to change by reason of changes in Family income, Family composition, extent of exceptional medical or other unusual expenses, or by reason of adjustment by the Government of any applicable Allowance for Utilities and Other Services. Any such change shall be determined in accordance with the Government-established schedules and criteria, and shall be effective as of the date stated in a notification of such change to the Family.

b. *Vacancies During Rent-up.* If a Contract Unit is not leased as of the effective date of the Contract, the Owner shall be entitled to housing assistance payments in the amount of 80 percent of the Contract Rent for the unit for a vacancy period not exceeding 60 days from the effective date of the Contract, provided that the Owner (1) commenced marketing and otherwise complied with Section 1.2b of the Agreement, (2) has taken and continues to take all feasible actions to fill the vacancy, including, but not limited to, contacting applicants on his waiting list, requesting the PHA and other appropriate sources to refer eligible applicants, and advertising the availability of the unit, and (3) has not rejected any eligible applicant, except for good cause acceptable to the PHA.

c. *Vacancies After Rent-up.* (1) If a Family vacates its unit (other than as a result of action by the Owner which is in violation of the Lease or the Contract or any applicable law), the Owner shall receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days; Provided, however, that if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to the Government or as the Government may direct. (See also Section 1.10b.) The Owner shall not be entitled to any payment under this subparagraph unless he: (i) immediately upon learning of the vacancy, has notified the PHA of the vacancy or prospective vacancy and the reasons for the vacancy, and (ii) has taken and continues to take the actions specified in paragraphs b(2) and b(3) of this Section.

(2) If the Owner proposes to evict a Family, he shall not be entitled to any payment under paragraph c(1) of this Section unless the request for such payment is supported by a certification that (i) he has given such Family a written notice of the proposed eviction, stating the grounds and advising the Family that it has 10 days within which to present its objections to the Owner in writing or in person and (ii) the proposed eviction is not in violation of the Lease or the Contract or any applicable law.

d. *Limitation on Payments for Vacant Units.* The Owner shall not be entitled to housing assistance payments with respect to vacant units under this Section to the extent he is entitled to payments from other sources (e.g., payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the Housing and Community Development Act of 1974 or payments under Section 1.10b of this Contract.

e. *PHA Not Obligated for Family Rent.* The PHA has not assumed any obligation for the amount of rent payable by any Family or the satisfaction on any claim by the Owner against any Family other than in accordance with Section 1.10b of this Contract. The financial obligation of the PHA is limited to making housing assistance payments on behalf of Families in accordance with this contract.

f. *Owner's Monthly Requests for Payments.* (1) The Owner shall submit monthly requests to the PHA or as directed by the PHA for housing assistance payments. Each such request set forth: (i) the name of each Family and the address and/or number of the unit leased by the Family; (ii) the address and/or the number of units, if any, not leased to Families for which the Owner is claiming payments; (iii) the Contract Rent as set forth in Exhibit A for each unit for which the Owner is claiming payments; (iv) the amount of rent payable by the Family leasing the unit; and (v) the total amount of housing assistance payments requested by the Owner.

(2) Each of the Owner's monthly requests shall contain a certification by him that to the best of his knowledge and belief (i) the dwelling unit is in Decent, Safe, and Sanitary condition, (ii) all the other facts and data on which the request for funds is based are true and correct, (iii) the amount requested has been calculated in accordance with the provisions of this Contract and is payable under the Contract, and (iv) none of the amount claimed has been previously claimed or paid.

(3) If the Owner has received an excessive payment, the PHA or the Government, in addition to any other rights to recovery, may deduct the amount from any subsequent payment or payments.

(4) The Owner's monthly requests for housing assistance payments shall be made subject to penalty under 18 U.S.C. 1001, which provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

1.8 *Maintenance, operation and inspection.* a. *Maintenance and Operation.* The Owner agrees (1) to maintain and operate the Contract Units and related facilities so as to provide Decent, Safe, and Sanitary housing, and (2) to provide all the services, maintenance and utilities set forth in Exhibit C. If the PHA determines that the Owner is not meeting any of these obligations, the PHA shall have the right, in

b. *Inspection.* (1) Prior to occupancy of any unit by a Family, the Owner and the Family shall inspect the unit and both shall certify, on the form prescribed by the Government, that they have inspected the unit and have determined it to be Decent, Safe, and Sanitary in accordance with the criteria provided in the prescribed form.

(2) The PHA shall inspect or cause to be inspected each Contract Unit and related facilities at least annually and at such other times (including prior to initial occupancy of any unit) as the PHA may determine to be necessary to assure that the Owner is meeting his obligation to maintain the units in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. The PHA shall take into account complaints by occupants and any other information coming to its attention in scheduling inspections.

c. *Units Not Decent, Safe, and Sanitary.* If the PHA notifies the Owner that he has failed to maintain a dwelling unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action with the time prescribed in the notice, the PHA may exercise any of its rights or remedies under the Contract, including abatement of housing assistance payments, even if the Family continues to occupy the unit. If, however, the Family wishes to be rehoused in another dwelling unit with Section 8 assistance and the PHA does not have other Section 8 funds for such purposes, the PHA may use the abated housing assistance payments for the purpose of rehousing the Family in another dwelling unit. Where this is done, the Owner shall be notified that he will be entitled to resumption of housing assistance payments for the vacated dwelling unit if (1) the unit is restored to Decent, Safe, and Sanitary condition, (2) the Family is willing to and does move back into the restored unit, and (3) a deduction is made for the expenses incurred by the Family for both moves.

d. *Notification of Abatement.* Any abatement of housing assistance payments shall be effective as provided in written notification to the Owner. The PHA shall promptly notify the Family of any such abatement.

e. *Overcrowded and Undercoccupied Units.* If the PHA determines that a Contract Unit is not Decent, Safe, and Sanitary by reason of overcrowding, or that a Contract unit is larger than appropriate for the size of the Family in occupancy, housing assistance payments with respect to such unit will not be abated, unless the Owner fails to offer the Family a suitable unit as soon as one becomes vacant and ready for occupancy. In the case of an overcrowded unit, if the Owner does not have any suitable units or if no vacancy of a suitable unit occurs within a reasonable time, the PHA will assist the Family in finding a suitable dwelling unit and require the Family to move to such a unit as soon as possible. The Owner may receive housing assistance payments for the vacated unit if he complies with the requirements of Section 1.7c(1).

1.9 *Rent adjustments.* a. *Funding of Adjustments.* Housing assistance payments will be made in increased amounts commensurate with Contract Rent adjustments under this Section up to the maximum total annual housing assistance payments committed under Section 1.6a of this Contract. The provisions of the ACC which are referred to in Section 1.6b of this Contract are designed (by providing for maximum total annual commitments in excess of the amounts required at the time of the initial rental of dwelling units and by setting aside such excess amounts in a project reserve) to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract Rents or decreases in Family incomes. The ACC further provides that the Government will take such additional steps authorized by section 8(c)(6) of the Act as may be necessary to carry out this assurance, including (as provided in that section) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

b. *Automatic Annual Adjustments.* (1) Automatic Annual Adjustment Factors will be determined by the Government at least annually; interim revisions may be made as market conditions warrant. Such Factors and the basis for their determination will be published in the Federal Register. These published Factors will be reduced appropriately by the Government where utilities are paid directly by the Families.

(2) On each anniversary date of the Contract, the Contract Rents shall be adjusted

XUM V 39 N 251 DEC 30 1974 XUM

by applying the applicable Automatic Annual Adjustment Factor most recently published by the Government. Contract Rents may be adjusted upward or downward, as may be appropriate; however, in no case shall the adjusted Contract Rents be less than the Contract Rents on the effective date of the Contract.

c. *Special Additional Adjustments.* Special additional adjustments may be granted, when approved by the Government, to reflect increases in the actual and necessary expenses of owning and maintaining the Contract Units which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner clearly demonstrates that such general increases have caused increases in the Owner's operating costs which are not adequately compensated for by automatic annual adjustments. The Owner shall submit to the Government financial statements which clearly support the increase.

d. *Overall Limitation.* Notwithstanding any other provisions of this Contract, adjustments as provided in this Section shall not result in material differences between the rents charged for assisted and comparable unassisted units as determined by the Government.

e. *Incorporation of Rent Adjustment.* Any adjustment in Contract Rents shall be incorporated into Exhibit A by a dated addendum to the exhibit.

1.10 *Marketing and leasing of units; a. Compliance with Equal Opportunity.* Marketing of units and selection of Families by the Owner shall be in accordance with the Owner's Government-approved Affirmative Fair Housing Marketing Plan, shown as Exhibit D, and with all regulations relating to fair housing advertising.

b. *Security and Utility Deposits.* (1) The Owner may require Families to pay a security deposit in an amount equal to one month's Gross Family Contribution. If a Family vacates the unit, the Owner may utilize the deposit as reimbursement for any unpaid rent or damage caused by the Family. If the Family has provided a security deposit, and it is insufficient for such reimbursement, the Owner may claim reimbursement from HUD or the PHA, as appropriate, not to exceed an amount equal to the remainder of one month's Contract Rent. If a Family vacates the unit owing no rent and causing no damage to the unit or if the amount of unpaid rent and/or damage is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance, as the case may be, to the Family.

(2) In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include such interest. All security deposit funds shall be deposited by the Owner in a segregated bank account, and the balance of this account at all times, shall be equal to the total amount collected from tenants then in occupancy, plus any accrued interest. The Owner must comply with all State and local laws regarding interest payments on security deposits.

(3) Families shall be expected to obtain the funds to pay security and utility deposits, if required, from their own resources and/or other private or public sources.

c. *Eligibility, Selection and Admission of Families.* (1) The Owner shall be responsible for determination of eligibility of applicants, selection of families from among those determined to be eligible, and computation of the amount of housing assistance payments on behalf of each selected Family in accordance with schedules and criteria established by the Government. In the initial renting of the Contract Units, the Owner shall lease at least 20 percent to Very Low-Income Families (determined in accordance with the Government-established schedules and criteria) and shall thereafter exercise his best efforts to maintain at least 20 percent occupancy of the Contract Units by Very Low-Income Families as determined in accordance with such schedules and criteria.

(2) The lease entered into between the Owner and each selected Family shall be on the form of Lease approved by the Government.

(3) The Owner shall make a reexamination of Family income, composition, and the extent of medical or other unusual expenses incurred by the Family, at least annually (except that such reviews may be made at intervals of no longer than two years in the case of elderly Families), and appropriate redeterminations shall be made by the Owner of the amount of Family contribution and the amount of housing assistance payment, all in accordance with schedules and criteria established by the Government. In connection with the reexamination, the Owner shall determine what percentage of Families in occupancy are Very Low-Income Families. If there are fewer than 20 percent Very Low-Income Families in occupancy, the Owner shall report the fact to the Government and shall adopt changes in his admission policies to achieve, as soon as possible, at least 20 percent occupancy by such Families.

d. *Rent Redetermination after Adjustment in Allowance for Utilities and Other Services.* In the event that the Owner is notified of a Government determination making an adjustment in the Allowance for Utilities and Other Services applicable to any of the Contract Units, the Owner shall promptly make a corresponding adjustment in the amount of rent to be paid by the affected Families and the amount of housing assistance payments.

e. *Processing of Applications and Complaints.* The Owner shall process applications for admission, notifications to applicants, and complaints by applicants in accordance with applicable Government requirements and shall maintain records and furnish such copies or other information as may be required by the Government.

f. *Review; Incorrect Payments.* In making housing assistance payments to Owners, the PHA or the Government will review the Owner's determinations under this Section. If as a result of this review, or other reviews, audits or information received by the PHA or the Government at any time, it is determined that the Owner has received improper or excessive housing assistance payments, the PHA or the Government shall have the right to deduct the amount of such overpayments from any amounts otherwise due the Owner, or otherwise effect recovery thereof.

1.11 *Termination of tenancy.* The Owner shall be responsible for termination of tenancies, including evictions. However, conditions for payment of housing assistance payments for any resulting vacancies shall be as set forth in Section 1.7c.

1.12 *Reduction of number of contract units for failure to lease to eligible families.* a. *Twelve Months after Effective Date of Contract.* If at any time, beginning six months after the effective date of this Contract, the Owner fails for a continuous period of six months to have at least 80 percent of the Contract Units leased or available for leasing by Families, the PHA, with Government approval, may on 30 days notice reduce the number of Contract Units to not less than the number of units under lease or available for leasing by Families, plus 10 percent of such number, if that number is 10 or more, rounded to the next highest number.

b. *At End of Initial and Each Renewal Term.* At the end of the initial term of the Contract and of each renewal term, the PHA, with Government approval, may, by notice to the Owner, reduce the number of Contract Units to not less than (1) the number of units under lease or available for leasing by Families at that time or (2) the average number of units so leased or available for leasing during the last year, whichever is the greater number, plus 10 percent of such number, if the number is 10 or more, rounded to the next highest number.

(c) *Restoration of Units.* Any reduction pursuant to paragraphs a or b of this Section shall not preclude subsequent restoration of Contract units if contract authority is available and if the Government determines that the restoration is justified as a result of changes in demand and in the light of the Owner's record of compliance with his obligations under the Contract.

1.13. *RESPONSIBILITY FOR ADMINISTRATION OF CONTRACT.* The PHA is primarily responsible for administration of the Contract. However, if the PHA is the lender, the following shall apply:

(a) The Government shall have the right to make independent audits, reviews, and determinations as to compliance by the Owner with any or all of his obligations under the Contract.

(b) In the event the Government determines that the Owner is in default with respect to any or all of his obligations, the Government shall have the right to take direct action (as if the Government were the party to the Contract primarily responsible for its administration) to enforce any or all available remedies, including, but not limited to, abatement of housing assistance payments, collection of payments previously made in violation of the Contract, and termination of the Contract in whole or in part.

(c) The Owner hereby expressly agrees to recognize the rights of the Government in the event it takes any action under this Section in the same manner and to the same extent as if the action were taken by the PHA.

(d) The Owner hereby expressly agrees to recognize the rights of the Government in the event it takes any action under this Section in the same manner and to the same extent as if the action were taken by the PHA.

WARNING: 18 U.S.C. 1001 provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—HOUSING ASSISTANCE PAYMENTS CONTRACT—SUBSTANTIAL REHABILITATION—PRIVATE-OWNER/PHA PROJECT

PART II

2.1 *Nondiscrimination in housing.* a. The Owner shall not in the selection of Families, in the provision of services, or in any other manner, discriminate against any person on the grounds of race, color, creed, religion, sex, or national origin. No person shall be automatically excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program because of membership in a class such as unmarried mothers, recipients of public assistance, etc.

b. The Owner shall comply with all requirements imposed by Title VIII of the Civil Rights Act of 1968, and any rules and regulations pursuant thereto.

c. The Owner shall comply with all requirements imposed by Title VI of the Civil Rights Act of 1964, Public Law 88–352, 78 Stat. 241; the regulations of the Department of Housing and Urban Development issued thereunder, 24 CFR, Subtitle A, Part 1, Section 1.1, *et seq.*; the requirements of said Department pursuant to said regulations; and Executive Order 11063 to the end that, in accordance with that Act, the regulations and requirements of said Department thereunder, and said Executive Order, no person in the United States shall, on the grounds of race, color, creed, religion or national origin, be excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program, or be otherwise subjected to discrimination. This provision is included pursuant to the regulations of the Department of Housing and Urban Development, 24 CFR, Subtitle A, Part 1, Section 1.1, *et seq.*; issued under Title VI of the said Civil Rights Act of 1964, and the requirements of said Department pursuant to said regulations; and the obligation of the Owner to comply therewith inures to the benefit of the Government, of the said Department, and the PHA any of which shall be entitled to invoke any remedies available by law to redress any breach thereof or to compel compliance therewith by the Owner.

2.2 *Training, employment, and contracting opportunities for businesses and lower-income persons.*[1] a. The project assisted under this Contract is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

b. Notwithstanding any other provision of this Contract, the Owner shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135 (published in 38 Federal Register 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this Contract. The requirements of said regulations include, but are not limited to, development and implementation of an affirmative action plan for utilizing business concerns located within, or owned in substantial part by persons residing in, the area of the project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by section 135.20(b) of the regulations and paragraph d of this Section in all contracts for work in connection with the project. The Owner certifies and agrees that he is under no contractual or other disability which would prevent him from complying with these requirements.

c. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this Contract, shall be a condition of the Federal financial assistance provided to the project, binding upon the Owner, his successors and assigns. Failure to fulfill these requirements shall subject the Owner, his contractors and subcontractors, his successors, and assigns to the sanction specified by this Contract, and to such sanctions as are specified by 24 CFR Section 135.135.

d. The Owner shall incorporate or cause to be incorporated into any contract or subcontract for work pursuant to this Contract in excess of $50,000 cost, the following clause:

"EMPLOYMENT OF PROJECT AREA RESIDENTS AND CONTRACTORS

"A. The work to be performed under this Contract is on a project assisted under a program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C., 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

"B. The parties to this Contract will comply with the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this Contract. The parties to this Contract certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

"C. The contractor will send to each labor organization or representative of workers with which he has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of his commitments under this section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

"D. The contractor will include this section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the subcontract is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR, Part 135. The contractor will not subcontract with any subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR, Part 135, and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

"E. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of the Contract, shall be a condition of the Federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors, and assigns. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors, and assigns to those sanctions specified by the grant or loan agreement or contract through which Federal assistance is provided, and to such sanctions as are specified by 24 CFR Section 135.135."

e. The Owner agrees that he will be bound by the above Employment of Project Area Residents and Contractors clause with respect to his own employment practices when he participates in federally assisted work.

2.3 *Cooperation in equal opportunity compliance reviews.* The PHA and the Owner shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

[1] Strike this Section if the Contract Rents on the effective date of this Contract, over the maximum term of this Contract, are $250,000 or less.

2.4 *Flood insurance.* If the project is located in an area that has been identified by the Secretary of Housing and Urban Development as an area having special flood hazards and if the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, the Owner agrees that the project will be covered, during its anticipated economic or useful life, by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less.

2.5 *Clean Air Act and Federal Water Pollution Control Act.*[1] In compliance with regulations issued by the Environmental Protection Agency ("EPA"), 40 CFR, Part 15, 39 F.R. 11099, pursuant to the Clean Air Act, as amended ("Air Act"), 42 U.S.C. 1857, et seq., the Federal Water Pollution Control Act, as amended ("Water Act"), 33 U.S.C. 1251, et seq., and Executive Order 11738, the Owner agrees that:

a. Any facility to be utilized in the performance of this Contract or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to section 15.20 of said regulations;

b. He will promptly notify the PHA of the receipt of any communication from the EPA indicating that a facility to be utilized for the Contract is under consideration to be listed on the EPA List of Violating Facilities;

c. He will comply with all the requirements of section 114 of the Air Act and section 308 of the Water Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and section 308 of the Air Act and the Water Act, respectively, and all regulations and guidelines issued thereunder; and

d. He will include or cause to be included the provisions of this Section in every nonexempt subcontract, and that he will take such action as the Government may direct as a means of enforcing such provisions.

2.6 *Reports and access to premises and records.* a. The Owner shall furnish such information and reports pertinent to the Contract as reasonably may be required from time to time by the PHA or the Government.

b. The Owner shall permit the PHA or the Government or any of their duly authorized representatives to have access to the premises and, for the purpose of audit and examination, to have access to any books, documents, papers and records of the Owner that are pertinent to compliance with this Contract, including the verification of information pertinent to the monthly requests for housing assistance payments.

2.7 *Default by the owner.* a. A default by the Owner under this Contract shall result if:

(1) The Owner has violated or failed to comply with any provision of, or obligation under, this Contract or of any Lease; or

(2) The Owner has asserted or demonstrated an intention not to perform some or all of his obligations under this Contract or under any Lease.

b. Upon a determination by the PHA that a default has occurred, the PHA, with approval of the Government, shall notify the Owner of the nature of the default, of the actions required to be taken on account of the default (including the curing of the default by the Owner, the abatement of housing assistance payments in whole or in part, where appropriate, or any combination of actions), and of the time within which the Owner shall respond with a showing that he has taken all the actions required of him. If the Owner fails to respond or take action to the satisfaction of the PHA and the Government, the PHA shall take appropriate actions as directed or approved by the Government, to achieve compliance or to terminate the Contract in whole or in part.

2.8 *Default by the PHA.* The ACC states that the ACC provisions quoted in this Section are made with, and for the benefit of, the Owner or his assignees who will have been specifically approved by the Government prior to such assignment, and that to enforce the performance of these provisions, the Owner and such assignees shall have the right to proceed against the Government by suit at law or in equity. Upon the determination by the Government that a default by the PHA has occurred, the following provisions of the ACC (which is hereby made a part of this Contract), shall be applicable:

"(b) *Failure or Inability of PHA to Comply with Contract.* In the event of failure of the PHA to comply with the Contract with the Owner, or if such Contract is held to be void, voidable or ultra vires, or if the power or right of the PHA to enter into such Contract is drawn into question in any legal proceeding, or if the PHA asserts or claims that such Contract is not binding upon the PHA for any such reason, the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder. In such case, the Government will assume the PHA's rights and obligations under such Contract, and the Government shall, for the duration of such Contract, continue to pay Annual Contributions for the purpose of making housing assistance payments with respect to dwelling units under such Contract, shall perform the obligations and enforce the rights of the PHA, and shall exercise such other powers as the Government may have to cure the Default.

* * * * *

"(d) *Return of Rights and Obligations to PHA.* All rights and obligations of the PHA assumed by the Government pursuant to this Section 2.17 will be returned as constituted at the time of such return (1) when the Government is satisfied that all defaults have been cured and that the Project will thereafter be administered in accordance with all applicable requirements or (2) when the Housing Assistance Payments Contract is at an end, whichever occurs sooner."

2.9 *Remedies not exclusive and non-waiver of remedies.* The availability of any remedy under this Contract shall not preclude the exercise of any other remedy under this Contract or under any provisions of law, nor shall any action taken in the exercise of any remedy be deemed a waiver of any other rights or remedies. Failure to exercise any right or remedy shall not constitute a waiver of the right to exercise that or any other right or remedy at any time.

2.10 *Disputes.* a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Contract which is not disposed of by agreement of the PHA and the Owner may be submitted by either party to the Department of Housing and Urban Development field office director who shall make a decision and shall mail or otherwise furnish a written copy thereof to the Owner and the PHA.

b. The decision of the field office director shall be final and conclusive unless, within 30 days from the date of receipt of such copy, either party mails or otherwise furnishes to the Government a written appeal addressed to the Secretary of Housing and Urban Development. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this Section, the appellant shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, both parties shall proceed diligently with the performance of the Contract and in accordance with the decision of the field office director.

c. This Section does not preclude consideration of questions of law in connection with the decisions rendered under paragraphs a and b of this Section; Provided, however, that nothing herein shall be construed as making final the decision of any administrative official, representative, or board, on a question of law.

2.11 *Interest of members, officers, or employees of PHA, members of local governing body or other public officials.* No member, officer, or employee of the PHA, no member of the governing body of the locality (city and county) in which the project is situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Contract or in any proceeds or benefits arising therefrom.

2.12 *Interest of member of or delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Contract or to any benefits which may arise therefrom.

21.13 *Nonassignability.* a. The Owner agrees that he has not made and will not make any sale, assignment, or conveyance or transfer in any other form, of this Contract or the project or any part thereof or any of his interest therein, without the prior consent of the PHA and the Government; Provided, however, that in the case of an assignment as security for the purpose of obtaining financing of the project, the PHA and the Government shall consent in writing if the terms of the financing have been approved by the Government. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees to notify the PHA and the Government promptly of any proposed action covered by paragraph a of this Section. The Owner further agrees to request the written consent of the PHA and the Government in regard thereto, except in the case of an assignment as security as provided in paragraph a of this Section.

c. For the purpose of this Section, a transfer of stock in the Owner in whole or in part, by a party holding ten percent or more of the stock of said Owner, or a transfer by more than one stockholder or the Owner of ten percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner or the degree thereof, by any other method or means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Contract on the project. With respect to this provision, the Owner and the party signing this Contract on behalf of said Owner, rep-

[1] Strike this Section if the Contract Funds on the effective date of this Contract, over the maximum total term of this Contract, are $100,000 or less.

resent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect thereto.

DAVID M. DEWILDE,
Acting Assistant Secretary for Housing Production and Mortgage Credit—FHA Commissioner.

[FR Doc. 74-30358 Filed 12-27-74; 8:45 am]

[Docket No. R-74-304]

PART 1273—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—NEW CONSTRUCTION

Notice was given on November 19, 1974 at 39 FR 40667 that the Department of Housing and Urban Development (HUD) was proposing to amend Title 24 of the Code of Federal Regulations by adding a new Part 1273 to Chapter VIII.

The purpose of Part 1273 is to set forth the essential elements of the Housing Assistance Payments Program—New Construction, including, among other things, the roles and responsibilities of HUD, public housing agencies (PHAs), developers, owners, and eligible lower- and very low-income families, the basis for determining the amount of housing assistance payments, and the prescribed forms of contracts.

HUD has received more than 115 responses to the November 19, 1974 publication. All of these comments were seriously considered and many changes have been incorporated in these regulations as a result. The principal changes are set forth below.

1. § 1273.101(b) has been modified so as to provide that housing already under construction may be eligible for participation under this Part if certain specified conditions are satisfied.

2. Provision is made for the PHA to make the determination with respect to Allowances for Utilities and Other Services, as set forth in §§ 1273.102(h) and 1273.218(i), respectively, in the case of a Private-Owner/PHA Project (as defined in § 1273.102(x)).

3. The definition of "Eligible Family" as set forth in § 1273.102(f), has been modified to clarify that disabled persons are included within this definition.

4. A definition of the term "HUD" has been added in a new § 1273.102(m) to include HUD's designee.

5. The procedures for inviting, ranking and selecting Preliminary Proposals (as defined in § 1273.102(w)) as set forth in §§ 1273.103(b), 1273.203, 1273.204(b) and 1273.208 have been clarified.

6. §§ 1273.103(e)(2) and 1273.103(e)(3) have been modified to increase the percent of Contract Rent payable in the event of vacancies from 70 to 80.

7. In § 1273.103(f) the provisions concerning approval of Contract Rights in excess of Fair Market Rents have been clarified.

8. § 1273.103(h)(3), the provision authorizing special additional adjustments under limited circumstances, has been clarified.

9. §§ 1273.103(q)(1), 1273.103(q)(2), 1273.204(c)(10), 1273.205(1) and 1273.209(a)(12), respectively, have been clarified with respect to situations where the Agreement or Contract is pledged as security for financing.

10. A new § 1273.103(q)(3) has been added to clarify the status of the Housing Assistance Payments Contract in the event of foreclosure, assignment or sale.

11. § 1273.103(r) has been modified to permit the owner to require each family to make a security deposit in the amount of one month's Gross Family Contribution.

12. §§ 1273.204(a) and 1273.204(b)(3), respectively, have been modified to permit special requirements and procedures with respect to proposals for mobile homes.

13. The provision precluding a PHA from being the Contract administrator where it is also the lender has been replaced by a provision permitting the PHA to administer the Contract in such cases subject to an express provision in the Contract giving HUD the right to take unilateral action in default situations. (see § 1273.103(v)).

14. § 1273.208(a) has been clarified to give the owner opportunity to supply omissions to the proposals.

15. § 1273.210(d) has been modified to provide for notification to the unit of general local government as to HUD's final action with respect to Final Proposals (as defined in § 1273.102(h)).

16. §§ 1273.211(b)(2) and 1273.216(b)(4)(iv), respecting the certifications of the design architect and the inspecting architect, have been clarified; and § 1273.216(c), regarding the scope and nature of the inspection and determination to be made by HUD upon completion of the project has been clarified.

17. § 1273.216(d), which sets forth the criteria for acceptance of a project, has been modified.

18. § 1273.218(l), which provides for the reduction of Contract units utilized by an owner over a substantial period of time for other than Eligible Families has been modified to provide for restoration of the withdrawn units under certain circumstances.

In view of the necessity to limit the comment period of fifteen days because of the statutory requirement that these regulations be made effective by January 1, 1975, comments will be received by HUD for a period of 30 days from the date of publication of these regulations, and HUD promptly at the end of the 30 day period, will make such modifications in these regulations as it deems appropriate.

In order to comply with the aforementioned statutory requirement, the Assistant Secretary for Housing Production and Mortgage Credit/FHA Commissioner has determined that these regulations be made effective January 1, 1975.

Effective date. These regulations shall become effective January 1, 1975.

Accordingly, Title 24 is amended as follows:

A new Part 1273, section 8 Housing Assistance Payments Program—New Construction, is added to Chapter VIII to read as set forth below.

Subpart A—Applicability, Scope and Basic Policies

Sec.
1273.101 Applicability and scope.
1273.102 Definitions.
1273.103 Basic policies.

Subpart B—Project Development and Operation

1273.201 Allocations of contract authority to field offices.
1273.202 Program mix (new construction, substantial rehabilitation, existing housing).
1273.203 Invitations for preliminary proposals.
1273.204 Contents of developers packet.
1273.205 Contents of preliminary proposal.
1273.206 Submission of preliminary proposals.
1273.207 Proposals involving HUD-FHA mortgage insurance.
1273.208 Screening and evaluation of preliminary proposals.
1273.209 Final proposals.
1273.210 Evaluation of final proposals.
1273.211 Owner's acceptance of notification and submission of architect's certification.
1273.212 Annual contributions contract and agreement (private-owner/PHA projects).
1273.213 Submission of estimates of required annual contributions (private-owner/PHA projects).
1273.214 Preparation and execution of agreement (private-owner and PHA-owner projects).
1273.215 Construction period.
1273.216 Project completion.
1273.217 Execution of housing assistance payments contract.
1273.218 Project operation.
1273.219 HUD review of contract compliance.
1273.220 PHA reporting requirements. [Reserved]

APPENDICES

I. Agreement to enter into housing assistance payments contract—Private-owner or PHA-owner project.

II. Housing assistance payments contract—private-owner or PHA-owner project.

NOTE—Various prescribed forms which relate to internal HUD processing procedures are not included herein, but will appear in the HUD New Construction Handbook.

III. Annual contributions contract—private-owner/PHA project.

IV. Agreement to enter into housing assistance payments contract—private-owner/PHA project.

V. Housing assistance payments contract—private-owner/PHA project.

AUTHORITY: Section 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)); sec. 5(b) of the U.S. Housing Act of 1937 (42 U.S.C. 1437c(b); sec. 8 of the U.S. Housing Act of 1937 (42 U.S.C. 1437f).

Subpart A—Applicability, Scope and Basic Policies

§ 1273.101 Applicability and scope.

(a) The policies and procedures contained herein are applicable to the making of housing assistance payments on

behalf of Eligible Families leasing newly constructed housing pursuant to the provisions of Section 8 of the U.S. Housing Act of 1937 ("Act").

(b) For the purpose of this Part, "new construction" shall mean newly constructed housing for which, prior to the start of construction, an Agreement to Enter into Housing Assistance Payments Contract is executed between the Owner and the Department of Housing and Urban Development ("HUD") or the Public Housing Agency. However, housing already under construction may be eligible for participation if all subsequent actions are in compliance with this Part and if the Owner certifies and demonstrates to the satisfaction of HUD that:

(1) At the date of application to HUD, a substantial amount of construction (generally at least 25 percent) remains to be completed; and

(2) At the date of application to HUD, the project cannot be completed without a commitment for assistance under this Part; and

(3) At the time construction was initiated, all of the parties reasonably expected that the project would be completed without assistance under this Part.

(c) Conversions of section 23 projects to the Section 8 program will be permitted where appropriate, provided that all parties (including HUD) agree to the terms and conditions.

§ 1273.102 Definitions.

(a) *Agreement to enter into housing assistance payments contract ("Agreement").* (1) In the case of a Private-Owner Project or a PHA-Owner Project, a written agreement between the Owner and HUD that, upon satisfactory completion of the housing in accordance with the HUD-approved Final Proposal, HUD will enter into a Housing Assistance Payments Contract with the Owner. (See Appendix I of this part.)

(2) In the case of a Private-Owner/PHA Project, a written agreement between the private Owner and the PHA, approved by HUD, that, upon satisfactory completion of the housing in accordance with the HUD-approved Final Proposal, the PHA will enter into a Housing Assistance Payments Contract with the private Owner. (See Appendix IV of this part.)

(b) *Allowance for utilities and other services ("Allowance").* An amount determined or approved by HUD as an allowance for the cost of utilities (except telephone) and charges for other services payable directly by the Family. In the case of a proposal under which the Families must pay directly for one or more utilities or services, the amount of the Allowance is deducted from the Gross Rent in determining the Contract Rent and is included in the Gross Family Contribution.

(c) *Annual contributions contract ("ACC").* In the case of a Private-Owner/PHA Project, a written agreement between HUD and the PHA to provide annual contributions to the PHA with respect to the project. (See Appendix III of this part.)

(d) *Contract rent.* The rent payable to the Owner under his Contract including the portion of the rent payable by the Family. In the case of a cooperative, the term "Contract Rent" means charges under the occupancy agreements between the members and the cooperative.

(e) *Decent, safe, and sanitary.* Housing is Decent, Safe, and Sanitary at project completion if the dwelling units and related facilities are accepted by HUD as meeting the requirements of the Agreement. (See § 1273.216.) Housing continues to be Decent, Safe, and Sanitary if it is being maintained in a condition substantially the same as that on acceptance, in all pertinent respects, including the following:

(1) Condition of the exterior (including the grounds) and the interior of the structure and of the housing unit;

(2) Operating condition of sanitary facilities and of solid and liquid waste disposal facilities;

(3) Operating condition of kitchen facilities, including range and refrigerator, sink, and space for storage of food and for storage of utensils and dishes;

(4) Operating condition of heating, lighting and ventilating equipment and/or other facilities; and

(5) Size, number of rooms, and furnishability in relation to the size and type of Family in occupancy in accordance with any applicable State or local codes.

(f) *Eligible family ("Family").* A Family which qualifies as a Lower-Income Family and which meets the other requirements of the Act and this Part. The term Family includes an elderly, disabled, handicapped, or displaced person and the remaining member of a tenant family as defined in section 3(2) of the Act. A Family's housing assistance payment may continue until its Gross Family Contribution equals the Gross Rent for the dwelling unit it occupies, but the termination of housing assistance payments at such point shall not affect the family's other rights under its Lease nor shall such termination preclude resumption of payments as a result of subsequent changes in income or other relevant circumstances during the term of the Contract.

(g) *Fair market rent.* (1) The rent, including utilities (except telephone), ranges and refrigerators, parking, and all maintenance, management and other services, which, as determined at least annually by HUD, would be required to be paid in order to obtain privately developed and owned, newly constructed rental housing of modest (non-luxury) nature with suitable amenities and sound architectural design meeting the objectives of the HUD Minimum Property Standards.

(2) Separate Fair Market Rents will be established for dwelling units by various sizes (number of bedrooms) and types (e.g., elevator, row, detached, mobile homes; housing designed for the elderly or handicapped shall be a separate type for this purpose).

(3) The Fair Market Rents will be published in the FEDERAL REGISTER, and, in order to allow for the period of construction, computation of the published Fair Market Rents will include HUD's estimate of anticipated rent increases during an appropriate future period as stated in the publication. Accordingly, for any given project for which the scheduled construction time will be less than such future period, an appropriate reduction will be made in determining the approvable Contract Rent.

(4) The Fair Market Rent, minus the amount of any applicable Allowance for Utilities and Other Services payable directly by the Family, shall be the maximum amount that can be approved as the Contract Rent, except that the maximum approvable amount may be lower as stated in paragraph (g)(3) of this section and may be higher or lower as provided in § 1273.103(f).

(h) *Final proposal.* A proposal to provide newly constructed housing submitted in response to a HUD notification of selection of Preliminary Proposal. (See § 1273.204 and §§ 1273.208–1273.210.)

(i) *Gross family contribution.* The portion of the Gross Rent payable by an Eligible Family, i.e., the difference between the amount of the housing assistance payment payable on behalf of the Family and the Gross Rent.

(j) *Gross rent.* The Contract Rent plus any Allowance for Utilities and Other Services.

(k) *HCD act.* The Housing and Community Development Act of 1974.

(l) *Housing assistance payments contract ("Contract").*

(1) In the case of a Private-Owner Project or a PHA-Owner Project, a written contract between the Owner and HUD for the purpose of providing housing assistance payments to the Owner on behalf of Eligible Families. (See Appendix II of this part.)

(2) In the case of a Private-Owner/PHA Project, a written contract between the private Owner and the PHA, approved by HUD, for the purpose of providing housing assistance payments to the Owner on behalf of Eligible Families. (See Appendix V of this part.)

(m) *Housing assistance payments on behalf of eligible family.* The amount of housing assistance payment on behalf of an Eligible Family determined in accordance with schedules and criteria established by HUD. (See § 1273.103(t).)

(n) *HUD.* The Department of Housing and Urban Development or its designee.

(o) *Income.* Income from all sources of each member of the household as determined in accordance with criteria established by HUD.

(p) *Invitation for preliminary proposals—new construction ("invitation for preliminary proposals").* A notice published by HUD inviting the submission of Preliminary Proposals in accordance with this Part. (See § 1273.203.)

(q) *Lease.* A written agreement between an Owner and an Eligible Family for the leasing of a decent, safe, and sanitary dwelling unit in accordance with the applicable Contract, which agreement is in compliance with the provisions of this Part.

(r) *Local housing assistance plan.* A housing assistance plan submitted by a unit of general local government and approved by HUD under section 104 of the HCD Act or, in the case of a unit of general local government not participating under Title I of the HCD Act, a housing plan which contains the elements set forth in section 104(a)(4) of the HCD Act and which is approved by the Secretary as meeting the requirements of section 213 of that Act.

(s) *Lower-income family.* A family whose income does not exceed 80 percent of the median income for the area as determined by HUD with adjustments for smaller or larger families, except that HUD may establish income limits higher or lower than 80 percent on the basis of its findings that such variations are necessary because of the prevailing levels of construction costs, unusually high or low incomes, or other factors.

(t) *New communities.* New community developments approved under Title IV of the Housing and Urban Development Act of 1968 and Title VII of the Housing and Urban Development Act of 1970.

(u) *Owner.* Any private person or entity, including a cooperative, or a PHA, having the legal right to lease or sublease newly constructed dwelling units.

(v) *PHA-owner proposal and PHA-owner project.* A proposal for a project under this Part (and the resulting project) to be owned by a PHA throughout the term of the Agreement and Contract where such Agreement and Contract are to be entered into between the PHA and HUD.

(w) *Preliminary proposal.* A proposal to provide newly constructed housing submitted in response to a HUD Invitation for Preliminary Proposals. (See §§ 1273.203–1273.208.)

(x) *Private-owner/PHA proposal and private-owner/PHA project.* A proposal for a project under this Part (and the resulting project) to be owned by a private Owner throughout the term of the Agreement and Contract where such Agreement and Contract are to be entered into between the private Owner and the PHA pursuant to an ACC between the PHA and HUD.

(y) *Private-owner proposal and Private-owner project.* A proposal for a project under this Part (and the resulting project) to be owned by a private Owner throughout the term of the Agreement and Contract where such Agreement and Contract are to be entered into between the private Owner and HUD.

(z) *Public housing agency ("PHA").* Any State, county, municipality, or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of housing for low-income Families.

(aa) *Secretary.* The Secretary of Housing and Urban Development.

(bb) *Very low-income family.* A family whose income does not exceed 50 percent of the median income for the area, as determined by HUD, with adjustments for smaller or larger families.

§ 1273.103 Basic policies.

(a) *Limitation on use of newly constructed housing.* (1) No proposal for housing to be constructed may be approved by HUD unless HUD requirements implementing the provisions of sections 213(a), (b), and (c) of the HCD Act regarding review by the unit of general local government have been satisfied.

(2) New construction projects shall be permitted only where: (i) HUD determines that there is not and there is not likely soon to be an adequate supply of existing housing which, with the aid of housing assistance payments provided under the Section 8 Housing Assistance Payments Program—Existing Housing, can meet the needs of Eligible Families, or (ii) the proposed project is specifically approved by HUD in accordance with priorities established from time to time by the Secretary including priorities for New Communities.

(b) *Preference for certain types of projects*—(1) *20 percent projects.* Assistance payments may be made with respect to up to 100 percent of the dwelling units in any structure or project. However, within the category of projects that are not designed for use primarily by the elderly and the handicapped and which involve the construction of more than 50 units, a preference will be provided for projects in which housing assistance will be limited to 20 percent or less of the units. (See § 1273.208(e)(1).)

(2) *Three or more bedroom projects.* Where the need for dwelling units of three or more bedroom size ("large dwelling units") is shown, each HUD field office shall be responsible, to the extent feasible, for inviting and selecting proposals which in the aggregate will achieve the goal of providing a number of large dwelling units equal to at least 20 percent of all the assisted units approved under the Section 8 Housing Assistance Payments Program, without undue concentration of such large dwelling units in any one location.

(c) *Maximum total annual housing assistance payments (private-owner or PHA-owner projects).* (1) The maximum total annual housing assistance payments that may be committed under the Contract shall be the total of the Gross Rents for all the Contract units in the project.

(2) A project account will be established and maintained, in an amount as determined by the Secretary consistent with his responsibilities under section 8(c)(6) of the Act, out of amounts by which the maximum Contract commitment per year exceeds amounts paid under the Contract for any year. This account will be established and maintained by HUD as a specifically identified and segregated account, and payment shall be made therefrom only for the following purposes:

(i) Increases in housing assistance payments; and

(ii) Other costs specifically authorized or approved by the Secretary.

Any balance in this account after payment of the last housing assistance payment shall be applied by HUD in accordance with law.

(d) *Annual contributions (private-owner/PHA projects).*

(1) The maximum total annual contributions that may be contracted for in the ACC for a project shall be: (i) The total of the Gross Rents for all the Contract Units in the project plus (ii) a fee for the regular costs of PHA administration. HUD-approved preliminary costs for administration (including administrative costs in connection with PHA activities related to relocation of occupants) shall be payable out of this total.

(2) A project account will be established and maintained, in an amount as determined by the Secretary consistent with his responsibilities under section 8(c)(6) of the Act, out of amounts by which the maximum ACC commitment per year exceeds amounts paid under the ACC for any year. This account shall be established and maintained by HUD as a specifically identified and segregated account, and payment shall be made therefrom only for the following purposes:

(i) Increases in housing assistance payments;

(ii) Increases in the amount of the fee for regular PHA costs of administration; and

(iii) Other costs specifically authorized or approved by the Secretary.

Any balance in this account after payment of the last annual contribution for the project shall be applied by HUD in accordance with law.

(e) *Housing assistance payments to owners.*—(1) *General.* Housing assistance payments shall be paid to Owners for units under lease by Eligible Families, in accordance with the Contract and as provided in this paragraph (e). The housing assistance payment will pay the Owner the difference between the Contract Rent and the portion of said rent payable by the Family as determined in accordance with the HUD-established schedules and criteria.

(2) *Vacancies during rent-up.* If a Contract unit is not leased as of the effective date of the Contract, the Owner shall be entitled to housing assistance payments in the amount of 80 percent of the Contract Rent for the unit for a vacancy period not exceeding 60 days from the effective date of the Contract, provided that the Owner (i) commenced marketing and otherwise complied with § 1273.215, (ii) has taken and continues to take all feasible actions to fill the vacancy, including, but not limited to, contacting applicants on his waiting list, requesting the PHA and other appropriate sources to refer eligible applicants, and advertising the availability of the unit, and (iii) has not rejected any eligible applicant, except for good cause acceptable to HUD or the PHA, as the case may be.

(3) *Vacancies after rent-up.* (i) If an Eligible Family vacates its unit (other than as a result of action by the Owner which is in violation of the Lease or the Contract or any applicable law), the Owner shall receive housing assistance

XUM
DEC 1974
XUM

payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days; *Provided, however,* That if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to HUD or as HUD may direct. (See also § 1273.103(r).) The Owner shall not be entitled to any payment under paragraph (e)(3)(i) of this section unless he: (A) Immediately upon learning of the vacancy, has notified HUD or the PHA, as the case may be, of the vacancy or prospective vacancy and the reasons for the vacancy, and (B) has taken and continues to take the actions specified in paragraphs (e)(2)(ii) and (e)(2)(iii) of this section.

(ii) If the Owner evicts an Eligible Family, he shall not be entitled to any payment under paragraph (e)(3)(i) of this section unless the request for such payment is supported by a certification that (A) he gave such Family a written notice of the proposed eviction, stating the grounds and advising the Family that it had 10 days within which to present its objections to the Owner in writing or in person and (B) the proposed eviction was not in violation of the Lease or the Contract or any applicable law.

(4) The Owner shall not be entitled to housing assistance payments with respect to vacant units under this paragraph (e) to the extent he is entitled to payments from other sources (for example, payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the HCD Act or payments under § 1273.103(r).)

(f) *Initial maximum rents to owners.* (1) The sum of the initial Contract Rents and any Allowances for Utilities and Other Services shall not exceed the Fair Market Rents for newly constructed rental housing, except that such Fair Market Rents may be exceeded (i) by up to 10 percent if the field office director determines that special circumstances warrant such higher rents and the higher rents meet the test of reasonableness in paragraph (f)(2) of this section, or (ii) by up to 20 percent, where the Assistant Secretary for Housing Production and Mortgage Credit determines that special circumstances warrant such higher rents or determines that such higher rents are necessary to the implementation of a Local Housing Assistance Plan, or that such higher rents meet the test of reasonableness in paragraph (f)(2) of this section.

(2) The Contract Rents as proposed must be determined by HUD to be reasonable in relation to the quality, location, amenities, methods and terms of financing, and management and maintenance services of the project, and proposed rents shall be subject to reduction if they are found to be higher than such reasonable rents.

(3) In addition, for projects financed with HUD-insured mortgages, initial Contract Rents for units assisted under this Contract shall not exceed the rents approved by HUD in connection with the mortgage insurance for such projects.

(g) *Term of housing assistance payments contract.* (1) A Contract may be for an initial term of not more than five years, with an option solely in the Owner to renew for additional terms of not more than five years each, provided that the total Contract term, including renewals, shall not exceed 20 years for any dwelling unit.

(2) In the case of a Contract under which housing assistance payments are made with respect to a project owned by, or financed by a loan or loan guarantee from, a State or local agency, the total Contract term may not exceed 40 years for any dwelling unit.

(3) In the case of mobile homes, the initial Contract term for any mobile home shall be for not more than five years, subject to renewal for additional terms of not more than five years each, as may be mutually agreed upon by the Owner and HUD or, in the case of a Private-Owner/PHA Project, by the Owner and the PHA with the approval of HUD; provided that the total Contract term for any mobile home shall not exceed 20 years. For purposes of paragraph (g)(3) of this section, the term "mobile home" means the original mobile home and any replacement(s), combined.

(4) In the case of any project under paragraph (g)(2) or (g)(3) of this section, notwithstanding the maximum total allowable term per unit stated therein, a shorter term shall be determined by HUD where appropriate, taking into account the amount of the capital expenditures reasonably required for the project, the reasonable period and rate of amortization for the financing, and the approved rents to the Owner.

(5) If the project is accepted in stages, the dates for the initial and the renewal terms shall be separately related to the units in each stage; provided, however, that the total Contract term for the units in all the stages, counting from the effective date of the Contract with respect to the first stage, may not exceed the overall maximum term allowable for any one unit, plus two years.

(h) *Rent adjustments.*—(1) *Funding of adjustments.* Housing assistance payments will be made in increased amounts commensurate with Contract Rent adjustments under this paragraph, up to the maximum total annual housing assistance payments committed under the Contract. The provisions of the Contract or the ACC, as the case may be, are designed (by providing for maximum total annual commitments in excess of the amounts required at the time of the initial rental of dwelling units and by setting aside such excess amounts in a project reserve) to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract Rents or decreases in Family incomes. In addition, the Contract or the ACC, as the case may be, will provide that HUD will take such additional steps authorized by section 8(c)(6) of the Act as may be necessary to carry out this assurance, including as provided in that section) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

(2) *Automatic annual adjustments.* (i) Automatic Annual Adjustment Factors will be determined by HUD at least annually; interim revisions may be made as market conditions warrant. Such Factors and the basis for their determination will be published in the Federal Register. These published Factors will be reduced appropriately by HUD where utilities are paid directly by Families.

(ii) On each anniversary date of the Contract, the Contract Rents shall be adjusted by applying the applicable Automatic Annual Adjustment Factor most recently published by HUD. Contract Rents may be adjusted upward or downward, as may be appropriate; however, in no case shall the adjusted rents be less than the Contract Rents on the effective date of the Contract.

(3) *Special additional adjustments.* Special additional adjustments may be granted, when approved by HUD, to reflect increases in the actual and necessary expenses of owning and maintaining the Contract units which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner clearly demonstrates that such general increases in the Owner's operating costs are not adequately compensated for by automatic annual adjustments. The Owner shall submit to HUD financial statements which clearly support the increase.

(4) *Overall limitation.* Notwithstanding any other provisions of this Part, adjustments as provided in paragraph (h) of this section shall not result in material differences between the rents charged for assisted and comparable unassisted units, as determined by HUD.

(i) *Types of housing and property standards.* (1) Newly constructed single-family houses, mobile homes or multi-family structures may be utilized in this program. Congregate housing may be developed for elderly or handicapped Families and individuals. Single room occupant housing planned specifically as a relocation resource for eligible single persons may also be developed. High-rise elevator projects for Families with children may not be utilized unless HUD determines there is no practical alternative. Generally, housing to be developed for use in this program should correspond to the predominant housing patterns of the locality in terms of structure type and density.

(2) No section 8 assistance may be provided for any unit occupied by an Owner; however, cooperatives are considered rental housing for this purpose.

(3) Participation in this program requires compliance with (i) HUD Minimum Property Standards, (ii) in the case of mobile homes, the American National Standards Institute Standard No. A-119.1, as amended and adopted by HUD

under Title I of the National Housing Act, (iii) in the case of congregate or single room occupant housing, the appropriate HUD guidelines and standards, (iv) HUD requirements pursuant to section 209 of the HCD Act for projects for the elderly or the handicapped, (v) HUD requirements pertaining to noise abatement and control, and (vi) applicable State and local laws, codes, ordinances, and regulations.

(j) *Site and neighborhood standards.* Proposed sites for new construction projects must be approved by HUD as meeting the following standards:

(1) The site shall be adequate in size, exposure and contour to accommodate the number and type of units proposed; and adequate utilities (water, sewer, gas and electricity) and streets shall be available to service the site.

(2) The site and neighborhood shall be suitable from the standpoint of facilitating and furthering full compliance with the applicable provisions of Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Order 11063, and HUD regulations issued pursuant thereto.

(3) The site shall not be located in:

(i) An area of minority concentration unless (A) sufficient, comparable opportunities exist for housing for minority families, in the income range to be served by the proposed project, outside areas of minority concentration, or (B) the project is necessary to meet overriding housing needs which cannot otherwise feasibly be met in that housing market area. (An "overriding need" may not serve as the basis for determining that a site is acceptable if the only reason the need cannot otherwise feasibly be met is that discrimination on the basis of race, color, religion, creed, sex, or national origin renders sites outside areas of minority concentration unavailable.)

(ii) A racially mixed area if the project will cause a significant increase in the proportion of minority to non-minority residents in the area.

(4) The site shall promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of lower-income persons.

(5) The site shall be free from adverse environmental conditions, natural or manmade, such as instability, flooding, septic tank back-ups, sewage hazards, or mudslides; harmful air pollution, smoke or dust; excessive noise, vibration or vehicular traffic; rodent or vermin infestation; or fire hazards. The neighborhood must not be one which is seriously detrimental to family life or in which substandard dwellings or other undesirable elements predominate, unless there is actively in progress a concerted program to remedy the undesirable conditions.

(6) The site shall comply with any applicable conditions in the Local Housing Assistance Plan, approved by HUD.

(7) The housing shall be accessible to social, recreational, educational, commercial, and health facilities and services, and other municipal facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unsubsidized, standard housing of similar market rents.

(8) Travel time and cost via public transportation or private automobile, from the neighborhood to places of employment providing a range of jobs for lower-income workers, shall not be excessive. (While it is important that elderly housing not be totally isolated from employment opportunities, this requirement need not be adhered to rigidly for such projects.)

(9) The project may not be built on a site which has occupants unless the relocation requirements referred to in § 1273.103(k) are met.

(10) The project may not be built in an area that has been identified by HUD as having special flood hazards and in which the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, unless the project is covered by flood insurance as required by the Flood Disaster Protection Act of 1973, and it meets any relevant HUD standards and local requirements.

(k) *Relocation.* (1) In the evaluation or selection of Preliminary Proposals, consideration shall be given to whether there are site occupants who would have to be displaced, whether there is a feasible plan for relocation of site occupants, the degree of hardship which displacement might cause, and the availability of funding for relocation payments. Greater weight shall be given to proposals which do not require displacement, or, where displacement is required, which will involve the least amount of hardship.

(2) In the case of a PHA-Owner Project, no Agreement shall be executed for housing which is to be constructed on a site which has occupants unless the Agreement provides (i) the PHA undertakes liability for and provides the funding of all relocation payments under sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, or (ii) other commitments satisfactory to HUD, have been made for the funding of such payments. (In the case of a Private-Owner Project or a Private-Owner/PHA Project, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 is inapplicable.)

(l) *Equal opportunity requirements.* Participation in this program requires compliance with (1) Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Orders 11063 and 11246, and section 3 of the Housing and Urban Development Act of 1968; and (2) all rules, regulations, and requirements issued pursuant thereto.

(m) *National Environmental Policy Act.* Participation in this program requires compliance with the National Environmental Policy Act and all rules, regulations, and requirements issued pursuant thereto.

(n) *Clean Air Act and Federal Water Pollution Control Act.* Participation in this program requires compliance with the Clean Air Act and the Federal Water Pollution Control Act and all rules, regulations, and requirements issued pursuant thereto.

(o) *Davis-Bacon Wage Rates.* Not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act (49 Stat. 1011), shall be paid to all laborers and mechanics employed in the development of any new construction project with nine or more assisted units.

(p) *Types of financing.* Any type of financing may be utilized, including, but not limited to, the types listed below.

(1) Conventional loans from commercial banks, savings banks, savings and loan associations, pension funds, insurance companies or other financial institutions.

(2) Mortgage insurance programs under the National Housing Act (see § 1273.207). (With respect to any obligation secured by a mortgage insured under section 221(d)(3) of the National Housing Act and issued by a public agency as mortgagor in connection with the financing of a project assisted under section 8, the interest paid on such obligation shall be included in gross income for purposes of Chapter I of the Internal Revenue Code of 1954.)

(3) Section 202 of the Housing Act of 1959.

(4) Title V of the Housing Act of 1949.

(5) Financing by tax-exempt bonds or other obligations. Where the financing is by a non-profit corporation which is an agency or instrumentality of a PHA, the project will be considered a PHA-Owner Project.

(q) *Use of contract as security for financing.* (1) An Owner may pledge, or offer as security for any loan or obligation, an Agreement or Contract entered into pursuant to this Part; provided, however, that such security is in connection with a project constructed pursuant to this Part, and the terms of the financing or any refinancing have been approved by HUD. It is the Owner's responsibility to request such approval in sufficient time before he needs the financing to permit review of the method and terms of the financing and the instrument of pledge, offer or other assignment that HUD is requested to approve. Where the methods and terms of financing require, the Contract Rents may be reduced in accordance with §§ 1273.103 (f)(2).

(2) Any pledge of the Agreement, Contract, or ACC, or payments thereunder, shall be limited to the amounts payable under the Contract or ACC in accordance with its terms.

(3) In the event of foreclosure, including foreclosure by HUD, and in the event of assignment or sale agreed to by HUD or made to HUD, housing assistance payments shall continue in accordance with the terms of the Contract.

(r) *Security and utility deposits.* (1) An Owner may require Families to pay a security deposit in an amount equal to one month's Gross Family Contribution. If a Family vacates the unit, the Owner may utilize the deposit as reimbursement for any unpaid rent or damage caused

XUM
V 39 2516 DEC 30 7401
XUM

by the Family. If the Family has provided a security deposit, and it is insufficient for such reimbursement, the Owner may claim reimbursement from HUD or the PHA, as appropriate, not to exceed an amount equal to the remainder of one month's Contract Rent. If a Family vacates the unit owing no rent and causing no damage to the unit or if the amount of unpaid rent and/or damage is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance, as the case may be, to the Family.

(2) In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include such interest. All security deposit funds shall be deposited by the Owner in a segregated bank account, and the balance of this account, at all times, shall be equal to the total amount collected from tenants then in occupancy, plus any accrued interest. The Owner must comply with all State and local laws regarding interest payments on security deposits.

(3) Families shall be expected to obtain the funds to pay security and utility deposits, if required, from their own resources and/or other private or public sources.

(s) *Establishment of income limit schedules; 30 percent occupancy by very low-income families.* (1) HUD will establish schedules of income limits for defining Lower-Income Families and Very Low-Income Families.

(2) In the initial renting of Contract units, the Owner shall lease at least 30 percent to Very Low-Income Families and shall thereafter exercise his best efforts to maintain at least 30 percent occupancy of Contract units by Very Low-Income Families.

(t) *Establishment of amount of housing assistance payments.* The amount of housing assistance payment on behalf of an Eligible Family, to be determined in accordance with schedules and criteria established by HUD, will equal the difference between (1) not less than 15 percent nor more than 25 percent of the Family's gross income and (2) the Gross Rent, taking into consideration the income of the Family, the number of minor children in the household, and the extent of medical or other unusual expenses incurred by the Family, except that, in the case of a large (6 or more minors) Very Low-Income Family or a very large (8 or more minors) Lower-Income Family or a Family with exceptional medical or other expenses, the amount of the housing assistance payment shall be the difference between 15 percent of the Family's gross income and the Gross Rent.

(u) *Responsibilities of the owner.* The Owner shall be responsible (subject to post-review or audit by HUD or the PHA, as the case may be) for management and maintenance of the project. These responsibilities shall include but not be limited to:

(1) Payment for utilities and services (unless paid directly by the Family), insurance and taxes;

(2) Performance of all ordinary and extraordinary maintenance;

(3) Performance of all management functions including the taking of applications, selection of Families including verification of income and other pertinent requirements, and determination of eligibility and amount of Family contribution in accordance with HUD-established schedules and criteria;

(4) Collection of Family rents;

(5) Termination of tenancies, including evictions;

(6) Preparation and furnishing of information required under the Contract;

(7) Reexaminations of Family income, composition, and extent of exceptional medical or other unusual expenses, and redeterminations, as appropriate, of the amount of Family contribution and amount of housing assistance payment in accordance with HUD-established schedules and criteria;

(8) Redeterminations of amounts of Family contribution and amount of housing assistance payment as a result of an adjustment by HUD of any applicable Allowance for Utilities and Other Services in accordance with HUD-established schedules and criteria; and

(9) Compliance with equal opportunity requirements.

Subject to HUD approval, any private Owner may contract with any private or public entity to perform such services for a prescribed fee, provided that such contract shall not shift any of the Owner's responsibilities or obligations. However, no entity which is responsible for administration of the Contract (for example, a PHA in the case of a Private-Owner PHA Project) may contract to perform management and maintenance of the project. See. 1273.-153(y) with conversion of a Private-Owner Project to a Private-Owner Project.)

(v) *Responsibility for administration of contract.* (1) In the case of a Private-Owner Project or a PHA-Owner Project, HUD is responsible for administration of the Contract. HUD may contract with another entity for the performance of some or all of its Contract administration functions.

(2) In the case of a Private-Owner/PHA Project, the PHA is primarily responsible for administration of the Contract. However, if the PHA is the lender, the following shall apply:

(i) HUD shall have the right to make independent audits, reviews, and determinations as to compliance by the Owner with any or all of his obligations under the Contract; and

(ii) In the event HUD determines that the Owner is in default with respect to any or all of his obligations, HUD shall have the right to take direct action (as if HUD were the party to the Contract primarily responsible for its administration) to enforce any or al available remedies, including, but not limited to, abatement of housing assistance payments, collection of payments previously made in violation of the Contract, and termination of the Contract in whole or in part.

(w) *Separate project requirement.* (1) In the case of a Private-Owner Project or a PHA-Owner Project, each Agreement and Contract shall constitute a separate project.

(2) In the case of a Private-Owner/PHA Project, such project may not include any other type of section 8 assistance, shall be processed with a separate ACC List and ACC Part I and shall be assigned a separate project number. All new construction units to be placed under a single Contract shall comprise a separate project. However, the field office director may designate as a single project the units to be covered by two or more such Contracts for new construction projects where:

(i) The units are placed under ACC on the same date; and

(ii) Such consolidation is necessary in the interest of administrative efficiency.

(x) *Conversion of private-owner project to private-owner/PHA project.* HUD may request the Owner of a Private-Owner Project and an appropriate PHA to agree, if they are willing, to a conversion of any such project to a Private-Owner/PHA Project if HUD determines that such conversion would promote efficient project administration.

(y) *Conversion of private-owner/PHA project to private-owner project.* The private Owner and the PHA, in the case of a Private-Owner/PHA Project, may request HUD to agree to a conversion of any such project to a Private-Owner Project. HUD shall agree to such conversion if it determines it to be in the best interest of the project.

Subpart B—Project Development and Operation

§ 1273.201 Allocations of contract authority to field offices.

HUD will allocate to field offices contract authority for the Section 8 Housing Assistance Payments Program for metropolitan areas and for nonmetropolitan areas in conformance with section 213 (d) of the HCD Act.

§1273.202 Program mix (new construction, substantial rehabilitation, existing housing).

Each field office shall, after considering the contents of any Local Housing Assistance Plans and any other pertinent information which it has or which is brought to its attention, in relation to the factors set forth in section 213(d) of the HCD Act, determine the number and types of units to be advertised for new construction and for substantial rehabilitation, and to be made available for existing housing. The field office will also determine an appropriate schedule for advertising for Preliminary Proposals—New Construction.

§ 1273.203 Invitations for preliminary proposals.

(a) *Publication.* The HUD field office shall initiate implementation of its program with respect to new construction by publishing Invitations for Preliminary Proposals—New Construction in accordance with the schedule established by the field office. Such publications shall be at least once a week on the same day or days of each of two consecutive weeks in a newspaper(s) of general circulation serving the area(s) for which proposals

are desired. As promptly as possible, HUD will also notify minority media, business concerns included in HUD's registry of Section 3 businesses for the applicable political jurisdictions, minority organizations involved in housing and community development, and fair housing groups. In addition, to the extent feasible, HUD may notify appropriate PHAs, the chief executive officer of the appropriate unit(s) of general local government, trade journals, and other nonminority media. Copies of each Invitation shall be available in the HUD field office.

(b) *Contents of invitation.* The Invitation shall state the geographic area or areas in which the housing is to be constructed; the number of units in each area; the deadline for receipt of Preliminary Proposals by HUD; such other basic information as the field office may wish to specify; and the fact that detailed information, guidelines, standards and procedures are contained in a Developer's Packet which may be obtained by interested parties from the field office. The Invitation shall also state that Preliminary Proposals may be submitted by private Owners or PHA Owners for direct contracting with HUD, or by PHAs on behalf of private Owners with whom the PHA proposes to contract pursuant to an ACC with HUD.

(c) *Deadline for receipt of preliminary proposals.* The deadline (date and time) for receipt of Preliminary Proposals by HUD shall allow a reasonable time but, in any event, no less than 35 calendar days after the date of the first publication in a newspaper of general circulation.

§ 1273.204 Contents of developer's packet.

The Developer's Packet shall:

(a) Include a copy of the applicable regulations, required HUD forms, and HUD standards. Where the field office determines that mobile homes are appropriate or that there is an interest on the part of developers to utilize mobile homes, the Developer's Packet shall include the appropriate HUD standards and guidelines and shall indicate any modifications of the HUD requirements and procedures under this Part, including those relating to the site and site improvments, the type or types of units, and the special Fair Market Rents published for the area involved.

(b) Include the following information for each geographic area specified in the Invitation.

(1) The number of units for elderly and nonelderly occupancy and the number to be specially designed for elderly (including handicapped) occupancy.

(2) The number of units by unit size (bedrooms per unit) and the fact that a proposal my be for any number of units up to that amount.

(3) The type of housing, if any, which is unacceptable (e.g., high-rise elevator structures for Families with children, mobile homes where HUD has determined that such housing is inappropriate).

(4) Special requirements, if any, as to location, density, and site planning; in the case of New Communities, identification of the proposed site, including location map, dimensions, unusual site features, if any, zoning, and the minimum price for the site.

(5) Any special requirements for housing for the elderly (including the handicapped) pursuant to section 209 of the HCD Act, and any special requirements for the handicapped pursuant to the standards established by HUD under Pub. L. 90-480.

(6) Any special requirements or restrictions that may be necessary for compliance with provisions of the Local Housing Assistance Plan, if any, and the name, address, and title of the official of the unit of general local government to whom inquiries may be made concerning such Plan.

(7) The specific type(s) of utility and method(s) of distribution (utility combination) required.

(8) The specific management and maintenance services required to be provided by the Owner. Such services shall include all services typically provided in the area for the type of housing contemplated.

(9) The Fair Market Rents for newly constructed rental housing applicable to the structure types and unit sizes requested.

(10) Initial term of the Contract, and number of renewal options, if any.

(c) Include statements as to:

(1) Equal opportunity requirements, which include the submission of an Affirmative Fair Housing Marketing Plan (if the proposal is for five or more units); an assurance of compliance with Title VI of the Civil Rights Act of 1964; compliance with Executive Order 11063 and Title VIII of the Civil Rights Act of 1968, including regulations and guidelines pursuant thereto; and certifications required pursuant to Executive Order 11246.

(2) HUD regulations and other requirements implementing section 3 of the Housing and Urban Development Act of 1968, requiring that, to the greatest extent feasible, opportunities for training and employment be given to lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

(3) HUD relocation requirements.

(4) HUD requirements implementing the National Environmental Policy Act.

(5) Governmental requirements implementing the Clean Air Act and the Federal Water Pollution Control Act.

(6) HUD requirements implementing the Flood Disaster Protection Act of 1973.

(7) The requirement, if a project will contain nine or more Contract units, that all laborers and mechanics employed in the development of the project shall be paid not less than the wages prevailing in the locality as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act.

(8) The prescribed HUD form showing the identity of the Owner, the developer, the builder, the architect, and the managing agent (if any); the qualifications and experience of each; and the names of officials and principal members, shareholders and investors, and other parties having substantial interest.

(9) The requirement that the Owner submit evidence of capability to provide the required management and maintenance services or, if the proposal is for 15 or more units, evidence of management capability and a proposed management plan and a certification by the Owner and the management agent, if any, in a format acceptable to HUD.

(10) The fact that if the Owner intends to pledge, or offer as security for any loan or obligation, an Agreement or Contract, he is responsible for submitting to HUD a request for such approval in sufficient time before he needs the financing to permit review of the method and terms of the financing and the instrument of pledge, offer or other assignment; and that if the request is made after approval of the Final Proposal, the Contract Rents may be reduced where the methods and terms of financing require. (See § 1273.103(q).)

(11) Other requirements which the HUD field office determines to be necessary.

(12) Where copies of HUD Minimum Property Standards and any other applicable standards, guidelines and criteria may be obtained.

(13) The number of copies of the Preliminary Proposal to be submitted to HUD.

(14) The fact that HUD may determine not to select or approve any or all Preliminary Proposals submitted.

§ 1273.205 Contents of preliminary proposal.

Each Preliminary Proposal shall include or indicate the following:

(a) Identification of the proposed site, including a map showing the location of the site and the racial composition of the neighborhood, sketch of site plan, dimensions, unusual site features, if any, and zoning (however, only a sketch of the site plan is required for a New Communities project).

(b) A copy of the site option agreement(s), contract(s) of sale, or other document(s) which evidence(s) the proposer's effective control of the site(s) (however, only the proposed price is required for a New Communities project).

(c) A description of the proposed housing including number and type of structures, number of stories, structural system, exterior finish, heating-air conditioning system, number of units by size (number of bedrooms), living area and composition for each size of unit, and special amenities or features, if any; and sketches of the buildings and unit plans.

(d) The Contract Rent per unit, by size and structure type.

(e) The equipment to be included in the Contract Rent.

(f) The utilities and services to be included in the Contract Rent and those utilities and services not so included. For each utility and service not included in the Contract Rent, an estimate of the average monthly cost (for the first

XUM
V 39 N 251 DEC 30 74
XUM

year of occupancy) to the occupants by unit size and structure type.

(g) A showing that the proposal meets any special requirements or restrictions necessary for compliance with the provisions of the Local Housing Assistance Plan, if any.

(h) Whether the proposed project will displace site occupants. If so the proposal shall state the number of families, individuals, and business concerns to be displaced (identified by race or minority group status, and whether they are owners or renters), and shall show that there is a feasible plan for relocation and how necessary relocation payments, if any, will be funded.

(i) Equal Employment Opportunity Certification, using the prescribed form.

(j) The identity of the Owner, developer, builder (if known), and architect (if known); the qualifications and experience of each; and the names of officials and principal members, shareholders and investors, and other parties having substantial interest, and the prior participation of each in HUD programs, using the prescribed form.

(k) Whether the Owner intends to provide management services or to contract with a managing agent. In the latter case, provide the identity of the managing agent, if known, and the other information as specified in paragraph (j) of this section.

(l) The proposed method of financing and whether the Owner intends to pledge or offer the Agreeemnt and/or Contract as security for any loan or obligation (see § 1273.103(q)). If the Owner proposes to utilize FHA mortgage insurance, the prescribed FHA form should be completed and submitted with the Preliminary Proposal.

(m) Whether the Owner proposes to limit the number of assisted units to 20 percent of the dwelling units in the project.

§ 1273.206 Submission of preliminary proposals.

(a) Preliminary Proposals shall be submitted to HUD on or before the published deadline date and time for opening, in the number of copies specified in the Developer's Packet. Proposal documents shall be sealed in an inner envelope marked "Sealed Proposal—Open on [date and time specified in the Invitation]." This sealed proposal shall be submitted in an outer envelope or package which shall show the name of the locality, be addressed to the HUD field office, and be clearly and distinctively marked "Section 8 Housing Assistance Payments Program—New Construction Preliminary Proposal."

(b) Submission of Preliminary Proposals shall be by hand delivery or certified mail. Any Preliminary Proposal received by HUD after the deadline date and time shall not be accepted but shall be returned unopened. No Preliminary Proposal shall be opened by HUD until the deadline.

§ 1273.207 Proposals involving HUD-FHA mortgage insurance.

(a) *Advance mortgage insurance processing.* This paragraph (a) applies to Owners who apply for HUD-FHA mortgage insurance prior to the submission of a Preliminary Proposal under this Part. Such an Owner may apply for a Site Appraisal and Market Analysis Letter (SAMA Letter), a Conditional Commitment, or a Firm Commitment for mortgage insurance by submitting an application on the prescribed form with supporting exhibits and the required fee. Such an application will have to meet the marketability test without reliance upon housing assistance payments under this Part, or, in the alternative, approval for mortgage insurance shall be conditioned upon subsequent approval of a section 8 proposal for the same project. If a SAMA Letter, Conditional Commitment, or Firm Commitment, whichever is applicable, is issued, and if prior to expiration thereof the Owner submits a Preliminary Proposal under this Part which is consistent with the proposal as approved for mortgage insurance, such proposal will nevertheless be subject to review and evaluation in accordance with the procedures under this Part; however, if the Preliminary Proposal is selected in accordance with the procedures under this Part, further processing will be coordinated in accordance with paragraph (b) of this section to the extent applicable, and the rents which were approved for mortgage insurance purposes will be accepted for purposes of such Preliminary Proposal provided that they are otherwise approvable in accordance with this Part.

(b) *Concurrent processing.* The provisions of this paragraph (b) apply where the Preliminary Proposal indicates an intention to finance a project with a HUD-FHA insured mortgage. Such a Preliminary Proposal will not be selected under this Part unless it meets the market and site acceptability criteria of the applicable mortgage insurance program except as modified by this paragraph. The processing of such a proposal for mortgage insurance will be integrated with the Section 8 review and evaluation process. Selection by HUD of such a Preliminary Proposal for preparation of a Final Proposal will be made only where HUD has also determined that the proposal will qualify for mortgage insurance subject to a satisfactory demonstration by the Owner of his capability to complete the project, and subject to subsequent determinations of site value, the loan amount and credit approval.

(1) A section 8/HUD-FHA mortgage insurance project will be required to meet the marketability test of the applicable mortgage insurance program; provided, however, that the number of units in the proposal for which housing assistance payments are to be made available will be considered as an addition to the effective demand for unassisted rental units. As in the case of any other market analysis for market rate unassisted mortgage insurance programs, the supply of suitable vacant existing units, units under construction, and units in process must be subtracted from the estimate of total effective demand. Consequently, section 8/HUD-FHA insured units could be added to a market in which supply and demand are in equilibrium or in which there is an undersupply of rental units, but could not be added to a market in which there is an oversupply of rental units in the same competitive range of market rents as the proposed section 8/HUD-FHA insured project.

(2) After selection of a Preliminary Proposal which involves HUD-FHA mortgage insurance the Owner will be required to submit, with the Final Proposal, an application for HUD-FHA Conditional Commitment with fee (two dollars per thousand dollars of mortgage requested) under the applicable mortgage insurance program. Such Final Proposals will not be approved under Section 8 unless they also qualify for issuance of a HUD-FHA Conditional Commitment under the applicable mortgage insurance program. The HUD notification of approval of the Final Proposal will be accompanied by a HUD-FHA Conditional Commitment for HUD-FHA mortgage insurance. The Owner's acceptance of HUD's notification of approval of the Final Proposal will constitute concurrent acceptance of the conditions and terms of the HUD-FHA Conditional Commitment for mortgage insurance.

(3) The rents of those units scheduled for assisted occupancy, when projected for purpose of determining a mortgage limitation based on the debt service criterion, shall be the Contract Rents set forth in the approved Final Proposal.

(4) Prior to the execution of the Agreement, the Owner will be required to obtain a Firm Commitment for HUD-FHA mortgage insurance. This will require the submission of an application for a Firm Commitment, with an additional fee (one dollar per thousand dollars of the mortgage requested), upon submission of the architect's certificate accompanying the working drawings and specifications in accord with § 1273.211.

(c) *Delayed mortgage insurance processing.* Where an Owner does not indicate in his Preliminary Proposal that he intends to utilize HUD-FHA mortgage insurance and applies for HUD-FHA mortgage insurance after HUD approval of the Preliminary Proposal under this Part, he risks (1) having his approved proposal rejected for HUD-FHA mortgage insurance and (2) having lower rents approved under the mortgage insurance program than the rents set forth in the approved proposal under this Part.

§ 1273.208 Screening and evaluation of preliminary proposals

(a) *Initial screening.* Promptly after the deadline date for receipt of Preliminary Proposals, HUD will screen all

the proposals to determine which are complete and responsive and eligible for further processing. Where a proposal lacks one or more of the required element (see § 1273.205), or is clearly not responsive to the conditions of the Invitation and the Developers Packet, the HUD field office shall give the Owner the shortest reasonable time (generally not to exceed 10 days) to remedy the deficiency.

(b) *A–95 Clearance; notice to unit of general local government.* (1) Promptly after the deadline date for receipt of proposals (or after the appropriate later date for proposals completed pursuant to paragraph (a) of this section), the HUD field office will, for each complete and responsive Preliminary Proposal which is subject to A–95 clearance, send a copy of the proposal to the appropriate A–95 Clearinghouse for review, inviting a response within 34 days from the date of the letter of transmittal.

(2) Within 10 working days after the deadline date for receipt of proposals (or after the appropriate later date for proposals completed pursuant to paragraph (a) of this section), the HUD field office will forward, under cover of a letter in the appropriate prescribed form, a copy of each complete and responsive Preliminary Proposal to the chief executive officer (or such designee as such officer may designate in writing to the HUD field office) of the unit of general local government in which the proposed housing is to be located. The cover letter will invite a response within 30 days from the date the letter and copy of the proposal are received.

(c) *Evaluation of preliminary proposals by HUD.* HUD may begin its evaluation promptly after the deadline date, but no selection or ranking may be completed until the response periods referred to in paragraph (b) of this section have ended. Each Preliminary Proposal will be evaluated and ranked by HUD on the basis of all pertinent factors under this Part including the best combination of rent, site, design and previous experience of the proposed Owner and on the basis of comments, if any, received during the response periods from the appropriate A–95 Clearinghouse and the unit of general local government.

(d) *Selection where approvable proposals do not exceed number (by size) of units advertised.* For each geographic area HUD will determine which Preliminary Proposals, in its judgment, can be developed into Final Proposals meeting the requirements of the Developer's Packet. If the units covered by such Preliminary Proposals could all be accommodated in the number of units (by unit size) specified in the Invitation, HUD will request all Owners of acceptable Preliminary Proposals to prepare Final Proposals in accordance with § 1273.209.

(e) *Selection where approvable proposals exceed number (by size of units advertised).* If the units covered by acceptable Preliminary Proposals cannot all be accommodated by the number of units (by unit size) specified in the Invitation, HUD will proceed as follows:

(1) Proposals consisting of projects to be developed entirely or predominantly for the elderly shall be listed in rank order and a second rank listing shall be established for projects to be developed entirely or predominantly for family housing.

(2) With respect to the listing of proposals for elderly housing, the HUD field office will identify for selection the highest ranking proposals in descending order which will most nearly provide the number of units of elderly housing called for in the Invitation.

(3) With respect to the listing of proposals for family housing, the HUD field office will identify for selection the highest ranking proposals in descending order which collectively will most nearly provide the number and sizes of units of family housing called for in the Invitation; provided however that if there is a Preliminary Proposal for construction of more than 50 units of family housing which indicates that assistance will be limited to 20 percent or less of the units to be constructed, this proposal shall be given priority over the lowest ranking proposal(s) identified for selection which is for more than 50 units and which is for generally the same number and sizes of units.

(4) The field office shall determine whether the combined results of the tentative selections from both listings would exceed the number and sizes of units called for in the Invitation. If so, the field office shall make such revisions in the tentative selections as it may determine to be necessary.

(f) *Use of residual units.* For any residual number of units, HUD may publish another Invitation for Proposals, but this shall not delay the further processing of those Preliminary Proposals submitted in response to the prior Invitation that have been selected as a result of the prior Invitation.

(g) *Notification of selection.* (1) With respect to those Preliminary Proposals which have been selected in accordance with this section, HUD will notify the Owners, on a prescribed form, and request them to submit within a reasonable time (to be specified in the notification) a Final Proposal in accordance with the requirements of the provisions of § 1273.–209. The notification shall specify:

(i) The Contract Rents that will be acceptable to HUD where these are lower than the Contract Rents proposed by the Owner, and the reason for the reduction;

(ii) The estimate of the amount of relocation payments, where applicable; and

(iii) Other special conditions or requirements, if any.

(2) The notification will request the Owner to return a copy of the notification with an indication of his acceptance thereof by a specified date. If the Owner does not accept the notification by the date specified, HUD may rescind the notification and select another approvable proposal.

(h) *Notification of nonselection.* Owners whose Preliminary Proposals were not selected by HUD shall be sent a letter notifying them of such determination.

§1273.209 Final proposals.

(a) *Contents of final proposal.* Each Final Proposal shall indicate or include the following:

(1) A copy of the site option agreement(s), contract(s) of sale, or other document(s) which evidence(s) the proposer's effective control of the site(s) (however, only the proposed price is required for a New Communities project).

(2) A description of the proposed housing together with preliminary drawings and plans, and the outline specifications on the prescribed form. Preliminary drawings and plans shall include: site layout based on the topographical information available from existing records and the known subsurface soil conditions; landscape plans; general floor plans and unit plans, at the scale of ¼ inch equals one foot; and elevation drawings for each typical building at the same scale.

(3) The Contract Rent per unit, by size and structure type.

(4) The equipment to be included in the Contract Rent.

(5) The utilities and services to be included in the Contract Rent and those utilities and services not so included. For each utility and service not so included, an estimate of the average monthly cost (for the first year of occupancy) to the occupants by unit size and structure type.

(6) In the case of a PHA-Owner Project, a statement that (i) the PHA will undertake liability for and provide the funding of all relocation payments under sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, or (ii) other commitments, which the Owner believes to be satisfactory to HUD, have been made for the funding of such payments. In the latter case, the PHA shall specify such other commitments. (In the case of a Private-Owner Project or a Private-Owner/PHA Project, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 is inapplicable.)

(7) Submission of an Affirmative Fair Housing Marketing Plan (if the proposal is for five or more units), a signed assurance of compliance with Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Order 11063, and certifications required pursuant to Executive Order 11246.

(8) Submissions as required by HUD regulations and other requirements pursuant to section 3 of the Housing and Urban Development Act of 1968.

(9) The identity of the Owner, developer, builder, architect, and managing agent (if known); the qualifications and experience of each; and the names of officials and principal members, shareholders and investors, and other parties having substantial interest, and the prior participation of each in HUD programs, using the prescribed form.

(10) Submission of evidence of management capability and a proposed manner intends to utilize FHA mortgage in-

agreement plus proof a certification by the Owner and the management agent, if any, in a format acceptable to HUD; or, if the proposal is for less than 15 units, evidence of capability of providing the required management and maintenance services. If the Owner proposes to contract with another entity, including a PHA for management and/or maintenance services for the project, he shall include a copy of the proposed contract(s).

(11) Submission of the form of Lease the Owner proposes to use, which shall be in accordance with § 1273.213(c).

(12) The proposed method of financing and whether the Owner intends to pledge or offer the Agreement and/or Contract as security for any loan or obligation (see § 1273.103(q)). If the Owner intends to utilize FHA mortgage insurance, an application for a Conditional Commitment on the prescribed form shall be completed and submitted with the prescribed fee with the Final Proposal.

(13) Evidence that the proposed construction is permissible under the applicable zoning, building, housing and other codes, ordinances or regulations; or a statement of the proposed action to make the construction permissible and that such action will be successfully completed prior to the architect's certification pursuant to § 1273.211(b).

(14) The anticipated time required for completion of the project after the Agreement is signed (if the project is to be completed in stages, identification of the units comprising each stage and the estimated dates for commencement and completion of each stage).

(b) *Consistency with preliminary proposal.* The Final Proposal shall be consistent with the Preliminary Proposal. Any material deviations from the Preliminary Proposal in the Final Proposal will cause reconsideration by HUD of such Final Proposal and may result in its rejection.

§ 1273.210 Evaluation of final proposals.

(a) *Evaluation of final proposals by HUD.* Each Final Proposal will be evaluated by HUD to determine that the provisions of this Part have been complied with and that such Final Proposal is consistent with the Preliminary Proposal.

(b) *Clarifications or modifications.* HUD may request clarification of individual items, additional information, or modifications of the Final Proposal.

(c) *HUD determination.* HUD shall notify the Owner (and the PHA, if applicable) as to whether the Final Proposal is:

(1) Approved.

(2) Approvable only if specified deficiencies are corrected and that HUD will approve the Final Proposal if it receives within a specified time evidence of such necessary corrections.

(3) Not approved. If a Final Proposal is not approved or if the conditions for approval under paragraph (c)(2) of this section are not met, HUD shall so advise the Owner and may request the preparation of a Final Proposal(s) with respect to the highest ranking Preliminary Proposal(s) not previously selected or may issue another Invitation for Preliminary Proposals.

(d) *Notification.* The appropriate A–95 Clearinghouses and the unit of general local government shall be notified by HUD of its final action.

§ 1273.211 Owner's acceptance of notification and submission of architect's certification.

(a) *Owner's Acceptance.* Upon receipt by the Owner of the notification of approval of the Final Proposal, the Owner shall return to HUD a copy indicating his acceptance within the time prescribed in such notification (copy to the PHA, if applicable). If the Owner does not accept the notification by the date specified, HUD may rescind the notification and proceed in accordance with § 1273.210(c)(3).

(b) *Architect's certification.* (1) Before HUD may enter into an Agreement (or, where applicable, an ACC and an Agreement) the Owner shall submit to HUD the architect's certification on the prescribed form. Such certification shall be made by the architect responsible for the preparation of the working drawings and specifications.

(2) The architect's certification shall state that, to the best of the architect's knowledge, belief, and professional judgment, (i) the working drawings and specifications are consistent with the approved Final Proposal (including any modifications required by HUD in its review of the Final Proposal), and (ii) the proposed construction in accordance with these plans and specifications is permissible under the applicable zoning, building, housing, and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials. This certification shall also cover compliance with the appropriate HUD Minimum Property Standards and other standards, guidelines and criteria applicable under this Part, except that in the case of mobile homes the manufacturer shall certify that the mobile homes will comply with the American National Standards Institute Standard No. A–119.1, as amended and adopted by HUD under Title I of the National Housing Act.

(3) One copy of the certified working drawings and specifications shall be submitted with the architect's certification to HUD, which shall retain it and any changes approved by HUD for at least three years from the date of acceptance of the project; provided, however, that receipt and retention by HUD of these working drawings and specifications shall not denote or constitute HUD review or approval of such drawings or specifications.

(4) If the Owner fails to submit the certification by the date specified in the notification, HUD shall rescind the notification (and may proceed in accordance with § 1273.210(c)(3)) unless it determines that a reasonable extension of time should be granted.

§ 1273.212 Annual contributions contract and agreement (private-owner/PHA projects).

(a) *Preparation of ACC.* After receipt of the architect's certification with the working drawings and specifications, the HUD field office shall prepare the ACC, shown as Appendix III. The ACC shall be transmitted to the PHA for execution and returned to HUD. This transmittal shall advise the PHA that it must simultaneously submit for HUD approval its Initial Estimate of Required Annual Contributions (Preliminary Costs) and an Estimate of Total Required Annual Contributions (see § 1273.213).

(b) *Preparation of agreement.* The Agreement shall be prepared by the HUD field office at the time the ACC is prepared (see § 1273.214), and shall conform to the prescribed shell include all required information and required attachments.

(c) *Execution of ACC and agreement.* After receipt of the PHA-executed ACC, accompanied by the Estimates of Required Annual Contributions, HUD shall review the Estimates and, if approved, execute the ACC. HUD shall then transmit a fully executed copy of the ACC to the PHA, together with four copies of the unexecuted Agreement. After execution of the Agreement by the PHA and the Owner, all copies shall be returned by the PHA to HUD for approval. HUD shall return three copies to the PHA, retaining one for its records.

§ 1273.213 Submission of estimates of required annual contributions (private-owner/PHA projects).

(a) *Initial submission.* An allowance may be provided for preliminary costs incurred by the PHA prior to the beginning of the first fiscal year. When the ACC is executed by the PHA, it shall submit an Initial Estimate of Required Annual Contributions (Preliminary Costs) together with an Estimate of Total Required Annual Contributions on the prescribed forms. This submission includes estimates of costs of administration and non-expendable equipment up to the beginning of the first fiscal year.

(b) *First fiscal year submission.* Not earlier than 150 and not later than 90 days prior to the estimated date of the beginning of the first fiscal year, the PHA shall submit an Estimate of Required Annual Contributions (Housing Assistance and Administration) covering the estimated amount required for the first fiscal year for housing assistance payments and for the fee for administration together with an Estimate of Total Required Annual Contributions.

(c) *Subsequent fiscal year submissions.* Not earlier than 150 and not later than 90 days prior to the beginning of each subsequent fiscal year, the PHA shall submit an Estimate of Required Annual Contributions (Housing Assistance and Administration) and an Estimate of Total Required Annual Contributions, with supporting documentation, for any requested changes in the amount of housing assistance payments and the fee for administration.

(d) *Revisions of Estimates.* Any of the above Estimates may be revised to reflect

changes in circumstances and available data.

(e) *HUD Approval.* All Estimates of Required Annual Contributions and any revisions thereto submitted by the PHA shall be subject to HUD approval.

§ 1273.214 Preparation and execution of agreement (private-owner and PHA-owner projects).

After receipt of a copy of the accepted notification, the architect's certification and the working drawings and specifications, the HUD field office shall prepare the Agreement in the prescribed form shown as Appendix 2. The Agreement shall include all required information and required attachments. HUD shall transmit to the Owner three copies of the unexecuted Agreement. After the Owner executes all copies of the Agreement, he shall return them to HUD. HUD shall execute the Agreement, returning one copy to the Owner and retaining two for its records.

§ 1273.215 Construction period.

(a) *Timely performance of work.* After execution of the Agreement, the Owner shall promptly proceed with construction as provided in the Agreement. In the event the work is not so commenced, diligently continued, and/or completed, HUD (or the PHA with HUD approval, as appropriate) reserves the right to rescind the Agreement, or take other appropriate action.

(b) *Delays.* Although extensions of time may be granted for the reasons specified in the Agreement, no increases in Contract Rents may be granted on that account.

(c) *Changes.* The Owner shall submit for HUD approval any changes from the approved Final Proposal which will materially reduce or alter his obligations or any changes which alter the design or materially reduce the quality or amenities of the project. HUD may condition its approval of such changes on a reduction of Contract Rents. If such changes are made without prior HUD approval, HUD may determine that Contract Rents shall be reduced or that the Owner shall remedy the deficiency as a condition for acceptance of the project. Contract Rents may not be increased by reason of any changes or modifications.

(d) *Inspection of HUD-FHA insured projects.* For projects financed with HUD-FHA insured mortgages, required HUD inspection procedures shall be followed including compliance with equal opportunity requirements.

(e) *Equal opportunity review.* Equal opportunity review may be conducted with any scheduled HUD inspection or at any other time deemed advisable by HUD.

(f) *Commencement of marketing.* The Owner shall commence and diligently continue marketing as soon as possible, but in any event no later than 90 days prior to the estimated completion date. The Owner shall notify HUD (or the PHA in the case of a Private-Owner/PHA Project) of the date of commencement of marketing. The Owner shall also comply with all reporting requirements under the Affirmative Fair Housing Marketing Regulations. Not later than 30 days prior to the estimated completion date and periodically thereafter, the Owner shall notify HUD (or the PHA in the case of a Private-Owner/PHA Project) of any units which he anticipates will be vacant on the effective date of the Contract. At the time the Contract is executed (see § 1273.217), the Owner will be required to submit a list of the dwelling units leased as of the effective date of the Contract and a list of the units not so leased, if any. The Owner will be entitled to housing assistance payments for any unleased units, pursuant to § 1273.103(e)(2), only if he has fully complied with the requirements of that section and of this paragraph.

(g) *Management certification.* Prior to acceptance of the project by HUD, the Owner must certify in writing that there has been no change in the evidence of management capability or in the proposed management program (if one was required) specified in his Final Proposal other than changes approved in writing by HUD in accordance with the Agreement.

(h) *Labor standards certification.* Prior to acceptance by HUD of any project consisting of nine or more Contract units, the Owner must certify in writing that he has complied with the provisions of the Agreement relating to the payment of not less than prevailing wage rates and that to the best of his knowledge and belief there are no claims of underpayment in the alleged violation of said provisions of the Agreement. In the event there are any such pending claims to the knowledge of the Owner, HUD, or the PHA (if applicable), the Owner shall be required to place a sufficient amount in escrow, as determined by HUD, to assure such payments.

§ 1273.216 Project completion.

(a) *Notification of completion.* The Owner shall notify HUD (with a copy to the PHA in the case of a Private-Owner/PHA Project) when the work is completed and shall submit to HUD the evidence of completion described in paragraph (b) of this section.

(b) *Evidence of completion.* Completion of the project shall be evidenced by furnishing HUD with all of the following:

(1) A set of as-built drawings.

(2) A certificate of occupancy and/or other official approvals necessary for occupancy.

(3) A certification by the Owner, which will be supported by the Owner's warranty in the Contract, that:

(i) All work has been completed in accordance with the requirements of the Agreement;

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified).

(4) A certification by the registered architect responsible for inspection of construction that such inspection was performed by him or under his supervision with the frequency and thoroughness required by the generally accepted standards of professional care and judgment, and that to the best of his knowledge, belief, and professional judgment:

(i) All work has been completed in conformance with the certified working drawings and specifications for the project or approved changes thereto (such changes to be listed);

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified by the architect).

(iv) The project has been constructed in accordance with applicable zoning, building, housing, and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.

(c) *Inspection.* (1) Within ten working days of the receipt of the Owner's notification of project completion, a HUD representative (accompanied by a PHA representative, if applicable) shall inspect the project and review the evidence of completion listed in paragraph (b) of this section. Such inspection shall be sufficient to enable the HUD inspector to state in his inspection report that he has inspected the observable elements and features of the project in accordance with professional standards of care and judgment and that, on the basis of such inspection, the project has been completed in accordance with the Agreement and, in particular, that there are no observable conditions inconsistent with the certifications of the Owner or the design architect or the inspecting architect. As promptly as possible, HUD shall notify the Owner in writing as to whether or not the project has been completed in an acceptable manner.

(2) In the event the Owner disputes HUD's determinations, he may submit the controversy to third-party arbitration, at his expense, provided that the arbitration is advisory only.

(d) *Acceptance of project.* If HUD determines that the project is not acceptable under paragraph (c)(1) of this section, the following shall apply:

(1) If the defects or deficiencies are only punchlist items or incomplete items awaiting seasonal opportunity, the project may be accepted and the Contract executed. If the Owner fails to complete such items within a reasonable time to the satisfaction of HUD, HUD may, upon 30 days notice, terminate or require termination of the Contract or exercise its other rights under the Contract.

(2) If the defects or deficiencies are other than punchlist items or incomplete work awaiting seasonal opportunity, but HUD determines that: (i) a certificate of occupancy and/or other official approvals necessary for occupancy has been issued, (ii) the project is in good and tenantable condition, and (iii) the project has been constructed in accordance with the applicable zoning, building, housing, and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials, the project may be accepted after the Owner corrects the defects or deficiencies

XUM V 39 N 251 DEC 30 1974 XUM V

or the project may be accepted subject to a specified reduction of the Contract Rents as determined by HUD.

(3) If HUD determines that the project is not acceptable under paragraphs (d)(1) or (d)(2) of this section, HUD shall determine: (i) whether the defects or deficiencies can be corrected, and (ii) whether a reduction in Contract Rents will be required as a condition to acceptance of the project. If it is determined that the defects or deficiencies can be corrected, the Owner thereupon shall be notified of HUD's determinations under paragraph (d)(3)(i) and (d)(3)(ii) of this section, and, if he agrees to comply with the conditions, an agreement shall be entered into pursuant to which the defects or deficiencies will be corrected and the project then accepted. If the Owner is unwilling to enter into such agreement or if he fails to perform the agreement, the project shall not be accepted.

(e) *Completion in stages.* If the project is to be completed in stages, the procedures of this section shall apply to each stage.

§ 1273.217 Execution of housing assistance payments contract.

(a) Upon acceptance of the project by the Government pursuant to §§ 1273.215 and 1273.216, the Contract shall be executed first by the Owner and then by HUD, or, in the case of a Private-Owner/PHA Project, executed by the Owner and the PHA and then approved by HUD.

(b) At the time of execution of the Contract, HUD (or the PHA, as appropriate) shall examine the lists of dwelling units leased and not leased, referred to in § 1273.215(f), and shall determine whether or not the Owner has met his obligations under that section with respect to any unleased units. HUD (or the PHA, as appropriate) shall state in writing its determination with respect to the unleased units and for which of those units it will make housing assistance payments. The Owner shall indicate in writing his concurrence with this determination or his disagreement, reserving his rights to claim housing assistance payments for the unleased units pursuant to the Contract, without prejudice by reason of his signing the Contract. Copies of all documents referred to in this paragraph shall be furnished HUD in the case of a Private-Owner/PHA Project.

§ 1273.218 Project operation.

(a) *Compliance with equal opportunity requirements.* Marketing of units and selection of Families by the Owner shall be in accordance with the Owner's HUD-approved Affirmative Fair Housing Marketing Plan, if required, and with all regulations relating to fair housing advertising including use of the equal opportunity logotype, statement, and slogan in all advertising. Projects shall be managed and operated without regard to race, color, creed, religion, sex, or national origin.

(b) *Eligibility, selection and admission of families.* (1) The Owner shall be responsible for determination of eligibility of applicants, selection of families from among those determined to be eligible, and computation of the amount of housing assistance payments on behalf of each selected Family, in accordance with schedules and criteria established by HUD.

(2) For every family that wishes to apply for admission, the Owner and the applicant shall complete and sign the form of application prescribed by HUD, except that if there are no vacant units and the Owner's waiting list is such that there would be an unreasonable length of time before the applicant could be admitted, the Owner may advise the applicant that the Owner is not accepting applications for that reason. The Owner shall retain copies of all completed applications together with any related correspondence for three years. For each Family selected for admission, the Owner shall submit one copy of the completed and signed application to the HUD field office (in the case of Private-Owner/PHA Projects, the Owner simultaneously shall send a copy of the form to the PHA). Housing assistance payments will not be made on behalf of an admitted Family until after this copy has been received by the HUD field office.

(3) If the Owner determines that the applicant is eligible on the basis of income and family composition and is otherwise acceptable but the Owner does not have a suitable unit to offer, the Owner shall place such Family on his waiting list and so advise the Family.

(4) If the Owner determines that the applicant is eligible on the basis of income and family composition and is otherwise acceptable and if the Owner has a suitable unit, the Owner and the Family shall enter into a Lease. Such Lease shall be on the form of Lease included in the Owner's approved Final Proposal and shall otherwise be in conformity with the provisions of this Part.

(5) Records on application families and approved Families shall be maintained by the Owner so as to provide HUD with racial, ethnic and gender data and shall be retained by the Owner for three years.

(6) In the case of a PHA-Owner project, (i) if the PHA places a Family on its waiting list, it shall notify the Family of the approximate date of availability of a suitable unit insofar as such date can be reasonably determined, and (ii) if the PHA determines that an applicant is ineligible on the basis of income or family composition, or that the PHA is not selecting the applicant for other reasons, the PHA shall send the applicant a letter notifying him of the determination and the reasons and that the applicant has the right within a reasonable time (specified in the letter) to request an informal hearing. If, after conducting such an informal hearing, the PHA determines that the applicant shall not be admitted, the PHA shall so notify the applicant in writing and such notice shall inform the applicant that he has the right to request a review by HUD of the PHA's determination. The procedures of this subparagraph do not preclude the applicant from exercising his other rights if he believes he is being discriminated against on the basis of race, color, creed, religion, sex, or national origin. The PHA shall retain for three years a copy of the application, the letter, the applicant's response if any, the record of any informal hearing, and a statement of final disposition.

(c) *Lease requirements.* The Lease shall contain all required provisions specified in paragraph (c)(2) of this section and none of the prohibited provisions listed in paragraph (c)(3) of this section and shall otherwise conform to the form of Lease included with the Owner's approved Final Proposal.

(1) *Term of lease.* The term of the Lease shall be generally for not less than one year. The Lease may (or, in the case of a Lease for a term of more than one year, shall) contain a provision permitting termination upon 30 days advance written notice by either party.

(2) *Required provisions.* The Lease between the Owner (Lessor) and the Family (Lessee) shall contain the following provisions:

ADDENDUM TO LEASE

The following additional Lease provisions are incorporated in full in the Lease between _____ (Lessor) and _____ (Lessee) for the following dwelling unit: _____. In case of any conflict between these and any other provisions of the Lease, these provisions shall prevail.

a. The total rent shall be $_____ per month.

b. Of the total rent, $_____ shall be payable by or at the direction of the Department of Housing and Urban Development ("HUD") as housing assistance payments on behalf of the Lessee and $_____ shall be payable by the Lessee. These amounts shall be subject to change by reason of changes in the Lessee's family income, family composition, or extent of exceptional medical or other unusual expenses, or by reason of adjustment by HUD of any applicable Allowance for Utilities and Other Services. Any such change shall be determined in accordance with HUD-established schedules and criteria and shall be effective as of the date stated in a notification to the Lessee.

c. The Lessor shall not discriminate against the Lessee in the provision of services, or in any other manner, on the grounds of race, color, creed, religion, sex, or national origin.

d. The Lessor shall provide the following services and maintenance: [Here insert the complete list as contained in the approved Final Proposal.]

Lessor _____
By _____
Date _____
Lessee _____
Date _____

(3) *Prohibited provisions.* Lease clauses which fall within the classifications listed below shall not be included in any Lease.

(i) *Confession of judgment.* Prior consent by tenant to any lawsuit the landlord may bring against him in connection with the Lease and to a judgment in favor of the landlord.

(ii) *Distraint for rent or other charges.* Authorization to the landlord to take property of the tenant and hold it as a pledge until the tenant performs any obligation which the landlord has determined the tenant has failed to perform.

(iii) *Exculpatory clause.* Agreement by tenant not to hold the landlord or land-

lord's agents liable for any acts or omissions whether intentional or negligent on the part of the landlord or the landlord's authorized representative or agents.

(iv) *Waiver of legal notice by tenant prior to actions for eviction or money judgments.* Agreement by tenant that the landlord may institute suit without any notice to the tenant that the suit has been filed.

(v) *Waiver of legal proceedings.* Authorization to the landlord to evict the tenant or hold or sell the tenant's possessions whenever the landlord determines that a breach or default has occurred, without notice to the tenant or any determination by a court of the rights and liabilities of the parties.

(vi) *Waiver of jury trial.* Authorization to the landlord's lawyer to appear in court for the tenant and to waive the tenant's rights to a trial by jury.

(vii) *Waiver of right to appeal judicial error in legal proceedings.* Authorization to the landlord's lawyer to waive the tenant's right to appeal on the ground of judicial error in any suit or the tenant's right to file a suit in equity to prevent the execution of a judgment.

(viii) *Tenant chargeable with costs of legal actions regardless of outcome.* Agreement by the tenant to pay attorney's fees or other legal costs whenever the landlord decides to take action against the tenant even though the court finds in favor of the tenant. (Omission of such clause does not mean that the tenant as a party to a lawsuit may not be obligated to pay attorney's fees or other costs if he loses the suit.)

(d) *Termination of tenancy.* The Owner shall be responsible for termination of tenancies, including evictions. However, conditions for payment of housing assistance payments for any resulting vacancies shall be as set forth in § 1278.103 (g) (3) (ii).

(e) *Maintenance, operation and inspections.* (1) *Maintenance and operation.* The Owner shall maintain and operate the project so as to provide Decent, Safe, and Sanitary housing and he shall provide all the services, maintenance and utilities which he agrees to provide under the Contract, subject to abatement of housing assistance payments or other applicable remedies if he fails to meet these obligations.

(2) *Inspection.* Prior to occupancy of any unit by a Family, the Owner and the Family shall inspect the unit and both shall certify, on the form prescribed by HUD, that they have inspected the unit and have determined it to be Decent, Safe, and Sanitary in accordance with the criteria provided in the prescribed form. HUD (or the PHA, as appropriate) will inspect or cause to be inspected each Contract unit and related facilities at least annually and at such other times (including prior to initial occupancy of any unit) as HUD (or the PHA) may determine to be necessary to assure that the Owner is meeting his obligation to maintain the units in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. HUD (or the PHA) will take into account complaints by occupants and any other information coming to its attention in scheduling inspections.

(f) *Units not decent, safe, and sanitary. If HUD* (or the PHA, as appropriate) notifies the Owner that he has failed to maintain a dwelling unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action within the time prescribed in the notice, HUD (or the PHA) may exercise any of its rights or remedies under the Contract, including abatement of housing assistance payments, even if the Family continues to occupy the unit. If, however, the Family wishes to be rehoused in another dwelling unit with section 8 assistance and HUD (or the PHA) does not have other section 8 funds for such purposes, HUD (or the PHA) may use the abated housing assistance payments for the purpose of rehousing the Family in another dwelling unit. Where this is done, the Owner shall be notified that he will be entitled to resumption of housing assistance payments for the vacated dwelling unit if:

(1) The unit is restored to Decent, Safe, and Sanitary condition;

(2) The Family is willing to and does move back to the restored dwelling unit; and

(3) A deduction is made for the expenses incurred by the Family for both moves.

(g) *Reexamination of family income, composition, and extent of exceptional medical or other unusual expenses.* Reexamination of Family income, composition, and the extent of medical or other unusual expenses incurred by the Family shall be made by the Owner at least annually (except that such reviews may be made at intervals no longer than two years in the case of elderly Families), and appropriate redeterminations shall be made by the Owner of the amount of the Family contribution and the amount of the housing assistance payment, all in accordance with schedules and criteria established by HUD.

(h) *Overcrowded and underoccupied units.* If HUD or the PHA, as the case may be, determines that a Contract unit assisted under this Part is not Decent, Safe, and Sanitary by reason of overcrowding, or that a Contract unit is larger than appropriate for the size of the Family in occupancy, housing assistance payments with respect to such unit will not be abated, unless the Owner fails to offer the Family a suitable unit as soon as one becomes vacant and ready for occupancy. In the case of an overcrowded unit, if the Owner does not have any suitable units or if no vacancy of a suitable unit occurs within a reasonable time, HUD (or the PHA) will assist the Family in finding a suitable dwelling unit and require the Family to move to such a unit as soon as possible. The Owner may receive housing assistance payments for the vacated unit if he complies with the requirements of § 1273.103 (e) (3) (i).

(i) *Adjustment of allowance for utilities and other services.* HUD or the PHA, as the case may be, shall determine, as part of its annual inspection and at such other times as it deems appropriate, whether an adjustment is required in the Allowance for Utilities and Other Services applicable to the dwelling units in the project, on grounds of changes in utility rates or other change of general applicability to all units in the project. If HUD determines that an adjustment should be made, HUD shall prescribe the amount of the adjustment and direct the Owner to make promptly a corresponding adjustment in the amount of rent to be paid by the affected Families and the amount of housing assistance payment.

(j) *Continued family participation.* A Family must continue to occupy its approved unit to remain eligible for participation in the Housing Assistance Payments Program except that if the Family (1) wishes to vacate its unit at the end of the Lease term (or prior thereto but in accordance with the provisions of the Lease), or (2) is required to move for reasons other than violation of the Lease on the part of the Family, and if the Family wishes to receive the benefit of housing assistance payments in another approvable unit, the Family should give reasonable notice of the circumstances to HUD or to the PHA, as appropriate, so that HUD or the PHA may have the opportunity to consider the Family's request.

(k) *Inapplicability of low-rent public housing model lease and grievance procedures.* Model lease and grievance procedures established by HUD for PHA-owned low-rent public housing are applicable only to PHA-Owner Projects under the section 8 Housing Assistance Payments Program.

(l) *Reduction of number of contract units for failure to lease to eligible families.* (1) If at any time, beginning six months after the effective date of the Contract, the Owner fails for a continuous period of six months to have at least 80 percent of the Contract units leased or available for leasing by Eligible Families, HUD (or the PHA at the direction of HUD, as appropriate) may on 30 days notice reduce the number of Contract units to not less than the number of units under lease or available for leasing by Eligible Families, plus 10 percent of such number, if the number is 10 or more, rounded to the next highest number.

(2) At the end of the initial term of the Contract and of each renewal term, HUD (or the PHA at the direction of HUD, as appropriate) may, by notice to the Owner, reduce the number of Contract units to not less than (i) the number of units under lease or available for leasing by Eligible Families at that time or (ii) the average number of units so leased or available for leasing during the last year, whichever is the greatest number, plus 10 percent of such number, if the number is 10 or more, rounded to the next highest number.

(3) Any reduction pursuant to paragraphs (l) (1) or (l) (2) of this section shall not preclude subsequent restoration of Contract units if contract author-

XUM V 393 DEC 30 74 XUM V

ity is available and if HUD determines that the restoration is justified as a result of changes in demand and in the light of the Owner's record of compliance with his obligations under the Contract.

§1273.219 HUD review of contract compliance.

HUD will review project operation at such intervals as it deems necessary to ensure that the Owner is in full compliance with the terms and conditions of the Contract. Equal Opportunity review may be conducted with the scheduled HUD review or at any time deemed appropriate by HUD.

§ 1273.220 PHA reporting requirements. [Reserved]

APPENDIX I—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—AGREEMENT TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT—NEW CONSTRUCTION—PRIVATE-OWNER OR PHA-OWNER PROJECT

PART I

This Agreement to Enter into Housing Assistance Payments Contract ("Agreement") is made and entered into by and between the United States of America acting through the Department of Housing and Urban Development ("Government") and_____ ("Owner").

Whereas, the Owner proposes to complete a housing project consisting of improvements and land as described in the approved Final Proposal; and

Whereas, the Owner and the Government propose to enter into a Housing Assistance Payments Contract ("Contract") upon the completion of said project for the purpose of making housing assistance payments to enable eligible lower-income families ("Families") to occupy units in said project; and

Whereas, the Owner is also the developer, or, if the developer is other than the Owner, the developer's name is_____.

Now therefore, the parties hereto agree as follows:

1.1 *Significant dates: Contents of agreement.*

a. *Time for completion of project.* The time for completion of the project (see Section 1.2a) is_____calendar days after the effective date of this Agreement.

b. *Date for commencement of work.* The date for commencement of work (see Section 1.2b) is_____, 19__.

c. *Contents of agreement.* This agreement consists of Part I, Part II, and the following exhibits:

Exhibit A: The approved Final Proposal including, among other things, the architect's certification, the Affirmative Fair Housing Marketing Plan (if required), evidence of management capability, and management program (if required);

Exhibit B: The Housing Assistance Payments Contract ("Contract") to be executed upon acceptable completion of the project;

Exhibit C: The schedule of completion in stages, if applicable;

Exhibit D: The schedule of minimum rates of wages, if applicable; and

Additional exhibits: [Specify additional exhibits, if any. If none, insert "None."]

This Agreement, including said exhibits, comprises the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein. Nothing contained in this Agreement shall create or affect any relationship between the Government and the lender or any contractors or subcontractors employed by the Owner in the completion of the project.

1.2 *Schedule of completion.*

a. *Time for Completion.* The project shall be completed in accordance with Section 1.4 no later than the end of the period stated in Section 1.1a, or in stages as provided for in Exhibit C which identifies the units comprising each stage and the date of commencement and time for completion of each stage. Where completion in stages is provided for, all references to project completion shall be deemed to refer to project completion and/or completion of any stage, as appropriate.

b. *Timely Performance of Work.* The Owner agrees that no later than the date stated in Section 1.1b the work will be commenced and diligently continued. In the event the work is not commenced, diligently continued, and/or completed as aforesaid, the Government reserves the right to rescind this Agreement or take other appropriate action. The Owner shall report to the Government the date work was commenced and shall thereafter furnish the Government with periodic progress reports (quarterly unless more frequent reporting is required by the Government).

c. *Delays.* In the event there is delay in the completion due to strikes, lockouts, labor union disputes, fire, unusual delays in transportation, unavoidable casualties, weather, acts of God, or any other causes beyond the Owner's control, or by delay authorized by the Government, the time for completion shall be extended to the extent that completion is delayed due to one or more of these causes. No increase in the rents set forth in Exhibit B ("Contract Rents") may be granted on account of any such delays.

1.3 *Construction period.*

a. *Changes.* The Owner shall submit for Government approval any changes from Exhibit A which will materially reduce or alter his obligations or any changes which alter the design or materially reduce the quality or amenities of the project. The Government may condition its approval of such changes on a reduction of Contract Rents. If such changes are made without prior Government approval, the Government may determine that Contract Rents shall be reduced or that the Owner shall remedy the defects or deficiencies as a condition for acceptance of the project. Contract Rents may not be increased by reason of any changes or modifications.

b. *Commencement of Marketing.* The Owner shall commence and diligently continue marketing as soon as possible, but in any event no later than 90 days prior to the estimated completion date. The Owner shall notify the Government of the date of commencement of marketing. The Owner shall also comply with all reporting requirements under the Affirmative Fair Housing Marketing Regulations. Not later than 30 days prior to the estimated completion date and periodically thereafter, the Owner shall notify the Government of any units which he anticipates will be vacant on the effective date of the Contract. At the time the Contract is executed, the Owner shall submit a list of the dwelling units leased as of the effective date of the Contract and a list of the units not so leased, if any. The Owner will be entitled to housing assistance payments for any unleased units pursuant to Section 1.6b of the Contract only if he has fully complied with the requirements of this paragraph and the provisions of that Section.

c. *Management Certification.* Prior to acceptance of the project by the Government, the Owner shall certify in writing that there has been no change in the evidence of management capability or in the proposed management program (if one was required) specified in his Final Proposal other than changes approved in writing by the Government in accordance with paragraph a of this Section.

d. *Labor Standards Certification.*[1] Prior to acceptance of the project by the Government, the Owner shall certify in writing that he has complied with the provisions of Sections 2.6 through 2.11 of this Agreement, and that to the best of his knowledge and belief there are no claims of underpayment to laborers or mechanics in alleged violation of said provisions of the Agreement. In the event there are any such pending claims to the knowledge of the Owner or the Government, the Owner shall be required to place a sufficient amount in escrow as determined by the Government to assure payment thereof.

1.4 *Project completion.*

a. *Conformance to Final Proposal.* The completed project shall be in accordance with Exhibit A. The Owner shall be solely responsible for completion of the project.

b. *Notification of Completion.* The Owner shall notify the Government when the work is completed and shall submit to the Government the evidence of completion described in paragraph c of this Section.

c. *Evidence of Completion.* Completion of the project shall be evidenced by furnishing the Government with all of the following:

(1) A set of as-built drawings.

(2) A certificate for occupancy and/or other official approvals necessary for occupancy.

(3) A certification by the Owner, which will be supported by the Owner's warranty in the Contract, that:

(i) All work has been completed in accordance with the requirements of this Agreement;

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified).

(4) A certification by the registered architect responsible for inspection of construction that such inspection was performed by him or under his supervision with the frequency and thoroughness required by the generally accepted standards of professional care and judgment, and that to the best of his knowledge, belief, and professional judgment:

(i) All work has been completed in conformance with the certified working drawings and specifications for the project or approved changes thereto (such changes to be listed);

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified).

(iv) The project has been constructed in accordance with applicable zoning, building, housing, and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.

d. *Inspection.*

(1) Within ten working days of the receipt of the Owner's notification of project completion, the Government representative shall inspect the project and review the evidence of completion listed in paragraph c of this Section. Such inspection shall be sufficient to enable the Government inspector to state in his inspection report that he has inspected the observable elements and features of the project in accordance with professional standards of care and judgment and that, on the basis of such inspection, the project has

[1] Strike this paragraph if the project involves fewer than nine Contract units.

been completed in accordance with the Agreement and, in particular, that there are no observable conditions inconsistent with the certifications of the Owner or the design architect or the inspecting architect. As promptly as possible, the Government shall notify the Owner in writing as to whether or not the project has been completed in an acceptable manner.

(2) In the event the Owner disputes the Government's determinations, he may submit the controversy to third-party arbitration, at his expense, provided that the arbitration is advisory only.

e. *Acceptance of project.* If the Government determines that the project is not acceptable under paragraph d(1) of this Section, the following shall apply:

(1) If the defects or deficiencies are only punchlist items or incomplete items awaiting seasonal opportunity, the project may be accepted and the Contract executed. If the Owner fails to complete such items within a reasonable time to the satisfaction of the Government, the Government may, upon 30 days notice, terminate the Contract or exercise its other rights under the Contract.

(2) If the defects or deficiencies are other than punchlist items or incomplete work awaiting seasonal opportunity, but the Government determines that (i) a certificate of occupancy and/or other official approvals necessary for occupancy has been issued (ii) the project is in good and tenantable condition, and (iii) the project has been constructed in accordance with the applicable zoning, building, housing and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials, the project may be accepted after the Owner corrects the defects or deficiencies or the project may be accepted subject to a specified reduction of the Contract Rents as determined by the Government.

(3) If the Government determines that the project is not acceptable under paragraphs e(1) or e(2) of this Section, the Government shall determine: (i) whether the defects or deficiencies can be corrected and (ii) whether a reduction in Contract Rents will be required as a condition to acceptance of the project. If it is determined that the defects or deficiencies can be corrected, the Owner shall be notified of the Government's determination under (i) and (ii) of this subparagraph and, if he agrees to comply with the conditions, an agreement shall be entered into pursuant to which the defects or deficiencies will be corrected and the project then accepted. If the Owner is unwilling to enter into such agreement or if he fails to perform the agreement, the project shall not be accepted. Prior to execution of the Contract, the Government will verify that appropriate corrective action has been taken.

f. *Completion in Stages.* If the project is to be completed in stages, the procedures of this Section shall apply to each stage.

1.5 *Execution of housing assistance payments contract.*

a. *Time of Execution.* Upon acceptance of the project by the Government pursuant to Sections 1.3 and 1.4, the Contract shall be executed first by the Owner and then by the Government.

b. *Completion in Stages.* If completion is in stages, the Contract shall be executed upon completion of the first stage, and the number and types of completed units and their Contract Rents shall be shown in Exhibit A–1 of the Contract. Thereafter, upon completion of each successive stage, the signature block provided in the Contract for that stage shall be executed by the Owner and the Government, and Exhibits A–2, A–3, etc., covering the additional units, shall become part of the Contract.

c. *Unleased Units at Time of Execution.* At the time of execution of the Contract, the Government shall examine the lists of dwelling units leased and not leased, referred to in Section 1.3b, and shall determine whether or not the Owner has met his obligations under that Section with respect to any unleased units. The Government shall state in writing its determination with respect to the unleased units and for which of those units it will make housing assistance payments pursuant to the Contract. The Owner shall indicate in writing his concurrence with this determination or his disagreement, reserving his rights to claim housing assistance payments for the unleased units pursuant to the Contract, without prejudice by reason of his signing the Contract.

d. *Contract Rents.* The Contract Rents by unit size, amounts of housing assistance payments, and all other applicable terms and conditions shall be as specified in the proposed Housing Assistance Payments Contract, except that in no case may the initial Contract Rents for units in projects financed with mortgages insured under the National Housing Act exceed the rents approved by the Government in connection with the mortgage insurance for such projects.

e. *No Changes in Contract.* Each party has read or is presumed to have read the proposed Contract. It is expressly agreed that there shall be no change in the terms and conditions of the Contract other than in accordance with Section 1.3a and paragraph d of this Section.

1.6. *Government assurance to owner.* The execution of this Agreement by the Government signifies that the faith of the United States is solemnly pledged to the payment of housing assistance payments pursuant to the Contract and that funds have been obligated by the Government for such payments.

1.7 *Relocation requirements.*[2]

[Alternative provisions—incorporate alternative 1 or 2, as applicable.]

Alternative 1—For projects which were without site occupants as of the date indicated in this alternative.

The Owner hereby certifies that the site of the project was without occupants as of the date of the Government notification to the Owner requesting the Owner to submit a Final Proposal.

Alternative 2—For projects which do not qualify for alternative 1.

a. *Owner Compliance with Relocation Act.* The Owner agrees to comply with the provisions of sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and applicable Government regulations and requirements issued pursuant thereto.

b. *Relocation Payments Other than by Owner.* The Government has determined that satisfactory commitments have been made for the funding of relocation payments required by sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as follows:

---

c. *Relocation Payments by Owner.* If paragraph b is inapplicable, the following shall apply:

(1) The maximum potential amount of all relocation payments as estimated by the Government is $_____.

(2) The Owner has deposited this amount in an escrow account under the terms of which payments may be made only upon presentation of written authorization by the Government for the purpose of meeting relocation payments.

(3) The Owner hereby voluntarily undertakes liability for all relocation payments and agrees that if the funds in the escrow account shall prove to be insufficient to meet all such relocation payments he will deposit such additional amounts as the Government determines to be necessary for such purpose.

(4) When the Government determines that there is no longer any potential liability for relocation payments, any balance in the escrow account shall be paid to the Owner.

(5) The Owner agrees to hold harmless and to indemnify the Government for any costs incurred under sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 in connection with the relocation of site occupants, and the Owner further agrees that the Government shall have the right to be reimbursed for any such costs by withholding from housing assistance payments payable to the Owner.

Effective date. This Agreement shall be effective as of the date of execution by the Government.

In witness whereof, the parties hereto have executed this Agreement in four original counterparts.

Warning: 18 U.S.C. 1001 provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—AGREEMENT TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT—NEW CONSTRUCTION—PRIVATE-OWNER OR PHA-OWNER PROJECT

PART II

2.1 *Training, employment, and contracting opportunities for businesses and lower-income persons.*[3]

a. The project assisted under this Agreement is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

b. Notwithstanding any other provision of this Agreement, the Owner shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135 (published in 38 FR 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this Agreement. The requirements of said regulations include, but are not limited to,

---

[2] Strike this Section in the case of a Private-Owner Project.

[3] Strike this Section if the Contract Rents under the proposed Housing Assistance Payments Contract, over the maximum term of said Contract, are $500,000 or less.

development and implementation of an affirmative action plan for utilizing business concerns located within, or owned in substantial part by persons residing in, the area of the project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by § 135.20(b) of the regulations and paragraph d of this Section in all contracts for work in connection with the project. The Owner certifies and agrees that he is under no contractual or other disability which would prevent him from complying with these requirements.

c. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this Agreement, shall be a condition of the Federal financial assistance provided to the project, binding upon the Owner, his successors and assigns. Failure to fulfill these requirements shall subject the Owner, his contractors and subcontractors, his successors, and assigns to the sanction specified by this Agreement, and to such sanctions as are specified by 24 CFR 135.135.

d. The Owner shall incorporate or cause to be incorporated into any contract or subcontract for work pursuant to this Agreement in excess of $50,000 cost, the following clause:

EMPLOYMENT OF PROJECT AREA RESIDENTS AND CONTRACTORS

A. The work to be performed under this Agreement is on a project assisted under a program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area, and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

B. The parties to this Agreement will comply with the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this Agreement. The parties to this Agreement certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

C. The contractor will send to each labor organization or representative of workers with which he has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of his commitments under this section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

D. The contractor will include this section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the subcontractor is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR, Part 135. The contractor will not subcontract with any subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR, Part 135, and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

E. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of the Agreement, shall be a condition of the Federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors, and assigns. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors, and assigns to those sanctions specified by the grant or loan agreement or contract through which Federal assistance is provided, and to such sanctions as are specified by 24 CFR 135.135.

e. The Owner agrees that he will be bound by the above Employment of Project Area Residents and Contractors clause with respect to his own employment practices when he participates in federally assisted work.

2.2 *Equal employment opportunity.*[1]

a. The Owner shall incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR, Chapter 60, which is to be performed pursuant to this Agreement, the following Equal Opportunity clause:

EQUAL EMPLOYMENT OPPORTUNITY

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, creed, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, creed, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment, or recruitment advertising, lay-off or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by or at the direction of the Government setting forth the provisions of this Equal Opportunity clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, creed, sex, or national origin.

(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by or at the direction of the Government advising the said labor union or workers' representative of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(4) The contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(5) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by HUD and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(6) In the event of the contractor's noncompliance with the Equal Opportunity clauses of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor or as otherwise provided by law.

(7) The contractor will include the portion of the sentence immediately preceding Paragraph (1) and the provisions of Paragraphs (1) through (7) in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Government may direct as a means of enforcing such provisions including sanctions for noncompliance; Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Government, the contractor may request the United States to enter into such litigation to protect the interest of the United States.

b. The Owner agrees that he will be bound by the above Equal Opportunity clause with respect to his own employment practices when he participates in federally assisted construction work.

c. The Owner agrees that he will assist and cooperate actively with HUD and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that he will furnish HUD and the Secretary of Labor such information as they may require for the supervision of such compliance, and that he will otherwise assist HUD in the discharge of HUD's primary responsibility for securing compliance.

d. The Owner further agrees that he will refrain from entering into any contract or contract modification subject to Executive Order No. 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by HUD or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order.

2.3 *Cooperation in equal opportunity compliance reviews.* The Owner shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

[1] As used in Section 2.2, "HUD" means the United States of American acting through the Department of Housing and Urban Development.

2.4 *Flood insurance.* If the project is located in an area that has been identified by the Secretary of Housing and Urban Development as an area having special flood hazards and if the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, the Owner agrees that the project will be covered, during its anticipated economic or useful life, by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less.

2.5 *Clean air act and federal water pollution control act.*[5] In compliance with regulations issued by the Environmental Protection Agency ("EPA"), 40 CFR, Part 15, 39 FR 11099, pursuant to the Clean Air Act, as amended ("Air Act"), 42 U.S.C. 1857, et seq., the Federal Water Pollution Control Act, as amended ("Water Act"), 33 U.S.C. 1251, et seq., and Executive Order 11738, the Owner agrees that:

a. Any facility to be utilized in the performance of this Agreement or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to § 15.20 of said regulations;

b. He will promptly notify the Department of Housing and Urban Development field office director of the receipt of any communication from the EPA indicating that a facility to be utilized for the Agreement is under consideration to be listed on the EPA List of Violating Facilities;

c. He will comply with all the requirements of section 114 of the Air Act and section 308 of the Water Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and section 308 of the Air Act and the Water Act, respectively, and all regulations and guidelines issued thereunder; and

d. He will include or cause to be included the provisions of this Section in every nonexempt subcontract, and that he will take such action as the Government may direct as a means of enforcing such provisions.

2.6 *Prevailing wage rates.*[6]

a. Attached hereto and incorporated herein as Exhibit D is a schedule of minimum rates of wages applicable to this Agreement.

b. All laborers and mechanics employed in the construction of the project shall be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by the regulations issued by the Secretary of Labor under the Copeland Act (29 CFR, Part 3)), the full amounts due at the time of payment computed at wage rates not less than those contained in the wage determination decision of the Secretary of Labor of the United States, which is incorporated herein, regardless of any contractual relationship which may be alleged to exist between the Owner or any subcontractor and such laborers and mechanics; and the wage determination decision and the Department of Labor Wage Rate Information Poster shall be posted by the Owner at the site of the work in a prominent place where it can be easily seen by the workers. For the purpose of this clause, contributions made or costs reasonably anticipated under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics subject to the provisions of paragraph c of this Section. Also for the purpose of this clause, regular contributions made or costs incurred for more than a weekly period under plans, funds, or programs, but covering the particular weekly period, are deemed to be constructively made or incurred during such weekly period.

c. The Owner may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, or any bona fide fringe benefits not expressly listed in section 1(b)(2) of the Davis-Bacon Act or otherwise not listed in the wage determination decision of the Secretary of Labor which is included in this Agreement, only when the Secretary of Labor has found, upon the written request of the Owner, that the applicable standards of the Davis-Bacon Act have been met. Whenever practicable, the Owner should request the Secretary of Labor to make such findings before the making of the Agreement. In the case of unfunded plans and programs, the Secretary of Labor may require the Owner to set aside in a separate account assets for the meeting of obligations under the plan or program.

d. The Owner shall comply with the Copeland (Anti-Kickback) Regulations (29 CFR, Part 3) of the Secretary of Labor which are herein incorporated by reference.

e. Any class of laborers or mechanics (including apprentices and trainees) which is not listed in the wage determination and which is to be employed under the Agreement shall be classified or reclassified conformably to the wage determination. In the event that agreement cannot be reached on the proper classification or reclassification of a particular class of laborers and mechanics (including apprentices and trainees) to be used, the question will be referred by HUD to the Secretary of Labor for final determination.

f. Whenever the minimum wage rate prescribed in the Agreement for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly wage rate and the Owner is obligated to pay a cash equivalent of such a fringe benefit, an hourly cash equivalent thereof shall be established. In the event that agreement cannot be reached upon a cash equivalent of the fringe benefit, the question will be referred by HUD to the Secretary of Labor for final determination.

g. (1)(i) Apprentices will be permitted to work as such only when they are registered individually under a bona fide apprenticeship program registered with a State apprenticeship agency which is recognized by the Bureau of Apprenticeship and Training, U.S. Department of Labor; or, if no such recognized agency exists in a State, under a program registered with the Bureau of Apprenticeship and Training, U.S. Department of Labor. The allowable ratio of apprentices to journeymen in any craft classification shall not be greater than the ratio permitted to the Owner as to his entire work force under the registered program. And employee listed on a payroll at an apprentice wage rate, who is not a trainee as defined in subsection (b) immediately following or is not registered as above, shall be paid the wage rate determined by the Secretary of Labor for the classification of work he actually performed. The Owner will be required to furnish to the other party to this Agreement written evidence of the registration of his program and apprentices, as well as of the appropriate ratios and wage rates for the area of construction prior to using any apprentices on the contract work.

(ii) Trainees will be permitted to work as such when they are bona fide trainees employed pursuant to a program approved by the U.S. Department of Labor, Manpower Administration, Bureau of Apprenticeship and Training, and where subsection (c) immediately following is applicable, in accordance with the provisions of paragraph g(2) of this Section.

(iii) On contracts in excess of $10,000 the employment of all laborers and mechanics, including apprentices and trainees, as defined in 29 CFR Section 5.2(c) shall also be subject to the provisions of paragraph g(2) of this Section. Apprentices and trainees shall be hired in accordance with the provisions of paragraph g(2).

(2) The Owner agrees that:

(i) He will make a diligent effort to hire for the performance of the Agreement a number of apprentices or trainees, or both, in each occupation, which bears to the average number of the journeymen in that occupation to be employed in the performance of the Agreement the applicable ratio as determined by the Secretary of Labor;

(ii) He will assure that 25 percent of such apprentices or trainees in such occupation are in their first year of training, where feasible. Feasibility here involves a consideration of (A) the availability of training opportunities for first year apprentices, (B) the hazardous nature of the work for beginning workers, (C) excessive unemployment of apprentices in their second and subsequent years of training;

(iii) During the performance of the Agreement he will, to the greatest extent possible, employ the number of apprentices or trainees necessary to meet currently the requirements of (i) and (ii) immediately preceding;

(iv) He will maintain records of employment by trade of the number of apprentices and trainees, apprentices and trainees by first year of training, and of journeymen, and the wages paid and hours of work of such apprentices, trainees and journeymen; and he will make these records available for inspection upon request of the Department of Labor and HUD;

(v) If he claims compliance based on the criterion stated in 29 CFR § 5a.4(b), he will maintain records of employment as described in the immediately preceding paragraph, on non-Federal and nonfederally assisted construction work done during the performance of the contract in the same labor market area; and he will make these records available for inspection upon request of the Department of Labor and HUD;

(vi) He will supply one copy of the written notices required in accordance with 29 CFR § 5a.4(c) at the request of Government compliance officers, and will supply at three-month intervals during the performance of the Agreement and after completion of Agreement performance a statement describing steps taken toward making a diligent effort and containing a breakdown by craft, of hours worked and wages paid for first year apprentices and trainees, other apprentices and trainees, and journeymen. One copy of the statement will be sent to HUD and one to the Secretary of Labor.

2.7 *Submittal of payrolls and related reports.*

a. Payrolls and basic records relating thereto shall be maintained during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics employed in the construction of the project. Such records shall contain the name and address of each such employee, his correct classification, rates of pay (including rates of contributions or costs anticipated of the types described in section 1(b)(2) of the

[5] Strike this Section if the Contract Rents under the proposed Housing Assistance Payments Contract, over the maximum term of said Contract, are $100,000 or less.

[6] As used in Sections 2.6 through 2.11, "HUD" means the United States of America acting through the Department of Housing and Urban Development. Strike Sections 2.6 through 2.11 if the project involves fewer than nine Contract units.

XUM
V 39 N 251 DEC 30 74 V
XUM

Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid. Whenever the Secretary of Labor has found under § 2.6c that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Owner shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

b. The Owner shall submit weekly to the other party to this Agreement such copies and summaries of all his payrolls and those of each of his subcontractors as such other party may require. Each payroll and summary shall be accompanied by a statement signed by the employer or his agent indicating that the payrolls are correct and complete, that the wage rates contained therein are not less than those determined by the Secretary of Labor, and that the classifications set forth for each laborer or mechanic conform with the work he performed. A submission of a "Weekly Statement of Compliance," which is required under this Agreement and the Copeland Regulations of the Secretary of Labor (29 CFR, Part 3), and the filing with the initial payroll or any subsequent payroll of a copy of any findings by the Secretary of Labor under § 2.6c shall satisfy this requirement. The Owner shall make the records required under the labor standards clauses of this Agreement available for inspection by authorized representatives of HUD and the Department of Labor, and will permit such representatives to interview employees during working hours on the job.

c. The Owner shall also furnish to the other parties to this Agreement any other information or certifications relating to employees in such form as such other party may request.

2.8 *Disputes concerning wage rates and classifications of labor.*

a. All disputes concerning prevailing wage rates or classifications arising under this Agreement involving (1) significant sums of money, (2) large groups of employees, or (3) novel or unusual situations shall be promptly reported to HUD for decision or, at the option of HUD, referral to the Secretary of Labor of the United States. The decision of HUD or the Secretary of Labor, as the case may be, shall be final.

b. All questions arising under this Agreement relating to the application or interpretation of the Copeland (Anti-Kickback) Act shall be referred to the Secretary of Labor of the United States for ruling or interpretation, and such ruling or interpretation shall be final.

2.9 *Wage claims and adjustments.* In cases of underpayment of salaries or wages to any laborers or mechanics (including apprentices and trainees) by the Owner (or any of his subcontractors), the Owner shall be required to place an amount in escrow, as determined by HUD, sufficient to pay persons employed on the work covered by the Agreement the difference between the salaries or wages actually paid such employees for the total number of hours worked, and the amounts withheld may be disbursed by HUD for and on account of the Owner or the subcontractor to the respective employees to whom they are due.

2.10 *Contract work hours and safety standards act—overtime compensation.*

a. Neither the Owner nor any subcontractor contracting for any part of the work which may require or involve the employment of laborers or mechanics shall require or permit any laborer or mechanic in any workweek in which he is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in excess of eight hours in any calendar day or in excess of forty hours in any such workweek, as the case may be.

b. In the event of any violation of the clause set forth in paragraph a of this Section, the Owner and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. In addition, such Owner and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed, with respect to each individual laborer or mechanic employed in violation of the clause set forth in paragraph a of this Section, in the sum of $10 for each calendar day on which such employee was required or permitted to work in excess of eight hours or in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph a.

c. The Owner shall deposit in escrow such amounts determined by HUD to be necessary to satisfy any liability of the Owner or any subcontractor for liquidated damages as provided in paragraph b of this section.

2.11 *Termination; debarment; subcontracts.*

a. A breach of the provisions of the foregoing §§ 2.6, 2.7, 2.8, 2.9, and 2.10 may be grounds for termination of this Agreement and for debarment as provided in 29 CFR 5.6.

b. The Owner shall insert in any subcontracts Sections 2.6 (and with respect to § 2.6g (2), copies of 29 CFR 5a.4, 5a.5, 5a.6 and 5a.7 shall be attached), 2.7, 2.8, 2.9, 2.10, and 2.11a, and also a clause requiring the subcontractors to include these sections in any lower tier subcontract which they may enter into, together with a clause requiring this insertion in any further subcontracts that may in turn be made.

2.12 *Disputes.*

a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Agreement which is not disposed of by agreement between the Department of Housing and Urban Development field office and the Owner may be submitted by the Owner to the Secretary of Housing and Urban Development. The decision of the Secretary or his duly authorized representative for the resolution of such disputes shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any proceeding under this Section, the Owner shall be afforded an opportunity to be heard and to offer evidence in support of his position.

b. This Section does not preclude consideration of questions of law in connection with the decision rendered under paragraph a of this Section; Provided, however, that nothing herein shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

2.13 *Interest of members, officers, or employees of public housing agency, members of local governing body, or other public officials.* No member, officer, or employee of the Public Housing Agency ("PHA"), no member of the governing body of the locality (city and county) in which the project is situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions of responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Agreement or in any proceeds or benefits arising therefrom.

2.14 *Interest of member of or delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Agreement or to any benefits which may arise therefrom.

2.15 *Nonassignability.*

a. The Owner agrees that he has not made and will not make any sale, assignment, or conveyance or transfer in any other form, of this Agreement or the project or any part thereof or any of his interest therein, without the prior consent of the Government; Provided, however, that in the case of an assignment as security for the purpose of obtaining financing of the project, the Government shall consent in writing if the terms of the financing have been approved by the Government. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees that he will not change to a different developer from the one named in the preamble of this Agreement, except with the prior consent of the Government.

c. The Owner agrees that the approved developer has not made, and will not make, except with the prior consent of the Government, any assignment or transfer in any form of the developer's contract to construct the project, or of any part thereof, or any of the developer's interests therein.

d. The Owner agrees to notify the Government promptly of any proposed action covered by paragraph a or b or c of this Section. The Owner further agrees to request the written consent of the Government in regard thereto, except in the case of an assignment as security as provided in paragraph a of this section.

e. For the purpose of this section, a transfer of stock in the Owner or developer in whole or in part, by a party holding ten percent or more of the stock of said Owner or developer, or a transfer by more than one stockholder or the owner of 10 percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner or developer or the degree thereof, by any other method or means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Agreement, the project or the construction contract. With respect to this provision, the Owner, and the party signing this Agreement on behalf of said Owner, represent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect thereto.

APPENDIX II—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—HOUSING ASSISTANCE PAYMENTS CONTRACT—NEW CONSTRUCTION—PRIVATE-OWNER OR PHA-OWNER PROJECT

PART I

This Housing Assistance Payments Contract ("Contract") is entered into by and between the United States of America acting through the Department of Housing and Urban Development ("Government"), and ---------- ("Owner"), pursuant to the United States Housing Act of 1937 ("Act"),

42 U.S.C. 1437, et seq., and the Department of Housing and Urban Development Act, 42 U.S.C. 3531, et seq.

The parties hereto agree as follows:

1.1 *Significant dates and other items; contents of contract.*

a. *Effective Date of Contract.* The effective date of this Contract is _____, 19__. [This date shall be no earlier than the date of approval by the Government.]

b. *Initial Term of Contract.* The initial term of this Contract (see Section 1.4a) shall be __ years [not to exceed five years], beginning with the effective date of this Contract and ending _____, 19__.

c. *Number and Length of Optional Additional Terms.* The number and length of optional additional terms (see § 1.4a) shall be _____ terms of __ year each [not to exceed five years each].

d. *Maximum Total Term of Contract.* The maximum total term of this Contract, including renewals (see Section 1.4a) shall be __ years. [Insert 20, except in the case of (1) a project owned by, or financed by a loan or loan guarantee from, a State or local agency or (2) a mobile homes project. Under either of these exceptions, insert number as specifically authorized by the Government pursuant to 24 CFR § 1278.103(g), not to exceed 40 in the case of exception (1) or 20 in the case of exception (2).]

e. *Fiscal year.* The ending date of each Fiscal Year (see Section 1.4b) shall be _____ [insert March 31, June 30, September 30, or December 31, as determined by the Government].

f. *Maximum Housing Assistance Commitment.* The maximum amount of the commitment for housing assistance payments under this Contract (see Section 1.5a) is $_____ per annum.

g. *Contents of contract.* This contract consists of Part I, Part II, and the following exhibits:

Exhibit A: The schedule showing the number of units by size ("Contract Units") and their applicable rents ("Contract Rents").

Exhibit B: The Project Description;

Exhibit C: The statement of services, maintenance and utilities to be provided by Owner;

Exhibit D: The Affirmative Fair Housing Marketing Plan, if applicable; and

Additional exhibits: [Specify additional exhibits, if any. If none, insert "None."]

This Contract, including said exhibits, comprises the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein.

1.2 *Owner's warranties.*

a. *Legal capacity.* The Owner warrants that he has the legal right to execute this Contract and to lease dwelling units covered by this Contract.

b. *Completion of work.* The Owner warrants that the project as described in Exhibit B is in good and tenantable condition and that all work has been completed in accordance with the terms and conditions of the Agreement to Enter into Housing Assistance Payments Contract ("Agreement") or will be completed in accordance with the terms on which the project was accepted. The Owner further warrants that he will remedy any defects or omissions covered by this warranty if called to his attention within 12 months of the effective date of the Contract.

1.3 *Families to be housed; government assistance.*

a. *Families to be housed.* The Contract Units are to be leased by the Owner to eligible lower-income families ("Families") for use and occupancy by such Families solely as private dwellings.

b. *Government assistance.*

(1) The Government hereby agrees to make housing assistance payments on behalf of Families for the Contract Units, to enable such Families to lease Decent, Safe, and Sanitary housing pursuant to section 8 of the Act. Such housing assistance payments shall equal the difference between the Contract Rents for units leased by Families and the portion of such rents payable by Families as determined by the Owner in accordance with schedules and criteria established by the Government.

(2) If there is an Allowance for Utilities and Other Services and if such Allowance exceeds the Gross Family Contribution, the Owner shall pay the Family the amount of such excess on behalf of the Government upon receipt of funds from the Government for that purpose.

1.4 *Term of contract: Fiscal year.*

a. *Term of Contract.*

[Alternative provisions—incorporate alternative 1, 2, or 3, as applicable.]

Alternative 1—General:

The initial term of this Contract shall be as stated in section 1.1b. This Contract may be renewed, at the sole option of the Owner, for the number and length of additional terms stated in section 1.1c, provided that the total Contract term for any unit, including renewals, shall not exceed the number of years stated in section 1.1d. Renewal shall be automatic unless the Owner notifies the Government, no later than 60 days prior to the expiration of the current term, of his intention not to renew. If the project is accepted in stages, the dates for the initial term and renewal terms shall be separately related to the units in each stage; *Provided, however,* that the total Contract term for the units in all the stages, counting from the effective date of the Contract with respect to the first stage, shall not exceed the total Contract term stated in section 1.1d, plus two years.

Alternative 2—For mobile homes project:

In the case of mobile homes, the initial term of this Contract for each mobile home shall be as stated in section 1.1b. This Contract shall be renewed, as may be mutually agreed upon by the Owner and the Government, with respect to any mobile home, for the number and length of additional terms as stated in section 1.1c, provided that the total Contract term for any mobile home, including renewals, shall not exceed the number of years stated in section 1.1d. Renewals shall become effective only if either party gives written notice, no later than 60 days prior to the expiration of the current term, of his desire to renew, and the other party concurs or fails to object before the expiration of the current term. If the project is accepted in stages, the dates for the initial term and renewal terms shall be separately related to the mobile homes in each stage; *Provided, however,* that the total Contract term for the mobile homes in all stages, counting from the effective date of the Contract with respect to the first stage, shall not exceed the total Contract term stated in section 1.1d, plus two years. For purposes of this paragraph a, the term "mobile home" means the original mobile home and any replacement(s), combined.

b. *Fiscal Year.* The Fiscal Year for the project shall be the 12-month period ending on the date stated in section 1.1e; Provided, however, that the first Fiscal Year for the project shall be the period beginning with the effective date of the Contract and ending on the last day of said established Fiscal Year which is not less than 12 months after such effective date. If the first Fiscal Year exceeds 12 months, the maximum total annual housing assistance payment in Section 1.5a may be adjusted by the addition of the pro rata amount applicable to the period of operation in excess of 12 months.

1.5 *Maximum housing assistance commitment; project reserve.*

a. *Maximum housing assistance commitment.* Notwithstanding any other provisions of this Contract (other than paragraph b of this Section) or any provisions of any other contract between the Government and the Owner, the Government shall not be obligated to make and shall not make any housing assistance payments under this Contract in excess of the amount per annum stated in Section 1.1f; Provided, however, that this amount shall be reduced commensurate with any reduction in the number of units under this Contract.

b. *Project Reserve.* A project account shall be established and maintained, in an amount as determined by the Government consistent with its responsibilities under section 8(c)(6) of the Act, out of amounts by which the maximum Contract commitment stated in paragraph a of this Section exceeds amounts paid under this Contract for any Fiscal Year. This account shall be established and maintained by the Government as a specifically identified and segregated account. To the extent funds are available in said account, the maximum total annual housing assistance payments for any Fiscal Year may exceed the maximum amount stated in paragraph a of this Section to cover increases in Contract Rents or decreases in Family incomes (see § 1.3). Any amount remaining in said account after payment of the last housing assistance payment with respect to the project shall be applied by the Government as a receipt in accordance with law.

1.6 *Housing assistance payments to owners.*

a. *General.*

(1) Housing assistance payments shall be paid to the Owner for units under lease by Families in accordance with the Contract. The housing assistance payment will pay the Owner the difference between the Contract Rent and that portion of said rent payable by the Family as determined in accordance with the Government-established schedules and criteria.

(2) The Owner shall be entitled to Contract Rents in accordance with the terms of this Contract. The amount of housing assistance payment payable on behalf of a Family and the amount of rent payable by such Family shall be subject to change by reason of changes in Family income, Family composition, extent of exceptional medical or other unusual expenses, or by reason of adjustment by the Government of any applicable Allowance for Utilities and Other Services. Any such change shall be determined in accordance with the Government-established schedules and criteria, and shall be effective as of the date stated in a notification of such change to the Family.

b. *Vacancies During Rent-up.* If a Contract Unit is not leased as of the effective date of the Contract, the Owner shall be entitled to housing assistance payments in the amount of 80 percent of the Contract Rent for the unit for a vacancy period not exceeding 60 days from the effective date of the Contract, provided that the Owner (1) commenced marketing and otherwise complied with section 1.3b of the Agreement, (2) has taken and continues to take all feasible actions to fill the vacancy, including, but not limited to, contacting applicants on his waiting list, requesting the Public Housing Agency ("PHA") and other appropriate sources to refer eligible applicants, and advertising the availability of the units, and (3) has not rejected any eligible applicant, except for good cause acceptable to the Government.

c. *Vacancies After Rent-up.*

(1) If a Family vacates its unit (other than as a result of action by the Owner

XUM
V 39 N 251 DEC 30 1974
XUM

which is in violation of the Lease or the Contract or any applicable law), the Owner shall receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days: Provided, however, that if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to the Government or as the Government may direct. (See also § 1.9b.) The Owner shall not be entitled to any payment under this subparagraph unless he: (i) immediately upon learning of the vacancy, has notified the Government of the vacancy or prospective vacancy and the reasons for the vacancy, and (ii) has taken and continues to take the actions specified in paragraphs b(2) and b(3) of this Section.

(2) If the Owner proposes to evict a Family, he shall not be entitled to any payment under pargaraph c(1) of this Section unless the request for such payment is supported by a certification that (i) he has given such Family a written notice of the proposed eviction, stating the grounds and advising the Family that it has 10 days within which to present its objections to the Owner in writing or in person and (ii) the proposed eviction is not in violation of the Lease or the Contract or any applicable law.

d. *Limitation on Payments for Vacant Units.* The Owner shall not be entitled to housing assistance payments with respect to vacant units under this section to the extent he is entitled to payments from other sources (e.g., payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the Housing and Community Development Act of 1974 or payments under section 1.9b of this Contract).

e. *Government Not Obligated for Family Rent.* The Government has not assumed any obligation for the amount of rent payable by any Family or the satisfaction of any claim by the Owner against any Family other than in accordance with Section 1.9b of this Contract. The financial obligation of the Government is limited to making housing assistance payments on behalf of Families in accordance with this Contract.

f. *Owner's Monthly Requests for Payments.*

(1) The Owner shall submit monthly requests to the Government for housing assistance payments. Each such request shall set forth: (i) the name of each Family and the address and/or number of the unit leased by the Family; (ii) the address and/or the number of units, if any, not leased to Families for which the Owner is claiming payments; (iii) the Contract Rent as set forth in Exhibit A for each unit for which the Owner is claiming payments; (iv) the amount of rent payable by the Family leasing the unit; and (v) the total amount of housing assistance payments requested by the Owner.

(2) Each of the Owner's monthly requests shall contain a certification by him that to the best of his knowledge and belief (i) the dwelling unit is in Decent, Safe, and Sanitary condition, (ii) all the other facts and data on which the request for funds is based are true and correct, (iii) the amount requested has been calculated in accordance with the provisions of this Contract and is payable under the Contract, and (iv) none of the amount claimed had been previously claimed or paid.

(3) If the Owner has received an excessive payment, the Government, in addition to any other rights to recovery, may deduct the amount from any subsequent payment or payments.

(4) The Owner's monthly requests for housing assistance payments shall be made subject to penalty under 18 U.S.C. 1001, which provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

1.7 *Maintenance, operation and inspection.*

a. *Maintenance and Operation.* The Owner agrees (1) to maintain and operate the Contract Units and related facilities so as to provide Decent, Safe, and Sanitary housing, and (2) to provide all the services, maintenance and utilities set forth in Exhibit C. If the Government determines that the Owner is not meeting any of these obligations, the Government shall have the right, in addition to its other rights and remedies under this Contract, to abate housing assistance payments in whole or in part.

b. *Inspection.*

(1) Prior to occupancy of any unit by a Family, the Owner and the Family shall inspect the unit and both shall certify, on the form prescribed by the Government, that they have inspected the unit and have determined it to be Decent, Safe, and Sanitary in accordance with the criteria provided in the prescribed form.

(2) The Government shall inspect or cause to be inspected each Contract Unit and related facilities at least annually and at such other times (including prior to initial occupancy of any unit) as the Government may determine to be necessary to assure that the Owner is meeting his obligation to maintain the units in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. The Government shall take into account complaints by occupants and any other information coming to its attention in scheduling inspections.

c. *Units Not Decent, Safe, and Sanitary.* If the Government notifies the Owner that he has failed to maintain a dwelling unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action within the time prescribed in the notice, the Government may exercise any of its rights or remedies under the Contract, including abatement of housing assistance payments, even if the Family continues to occupy the unit. If, however, the Family wishes to be rehoused in another dwelling unit with Section 8 assistance and the Government does not have other Section 8 funds for such purposes, the Government may use the abated housing assistance payments for the purpose of rehousing the Family in another dwelling unit. Where this is done, the Owner shall be notified that he will be entitled to resumption of housing assistance payments for the vacated dwelling unit if (1) the unit is restored to Decent, Safe, and Sanitary condition, (2) the Family is willing to and does move back into the restored unit, and (3) a deduction is made for the expenses incurred by the Family for both moves.

d. *Notification of Abatement.* Any abatement of housing assistance payments shall be effective as provided in written notification to the Owner. The Government shall promptly notify the Family of any such abatement.

e. *Overcrowded and Undersoccupied Units.* If the Government determines that a Contract Unit is not Decent, Safe, and Sanitary by reason of overcrowding, or that a Contract unit is larger than appropriate for the size of the Family in occupancy, housing assistance payments with respect to such unit will not be abated, unless the Owner fails to offer the Family a suitable unit as soon as one becomes vacant and ready for occupancy. In the case of an overcrowded unit, if the Owner does not have any suitable units or if no vacancy of a suitable unit occurs within a reasonable time, the Government will assist the Family in finding a suitable dwelling unit and require the Family to move to such a unit as soon as possible. The Owner may receive housing assistance payments for the vacated unit if he complies with the requirements of § 1.5c (1).

1.8 *Rent adjustments.*

a. *Funding of Adjustments.* Housing assistance payments will be made in increased amounts commensurate with Contract Rent adjustments under this Section up to the maximum total annual housing assistance payments committed under § 1.5a of this Contract. The provisions of this Contract are designed (by providing for maximum total annual commitments in excess of the amounts required at the time of the initial rental of dwelling units and by setting aside such excess amounts in a project (reserve) to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract Rents or decreases in Family incomes. The Government will take such additional steps authorized by section 8(c)(8) of the Act as may be necessary to carry out this assurance, including (as provided in that section) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

b. *Automatic Annual Adjustments.*

(1) Automatic Annual Adjustment Factors will be determined by the Government at least annually; interim revisions may be made as market conditions warrant. Such Factors and the basis for their determination will be published in the Federal Register. These published Factors will be reduced appropriately by the Government where utilities are paid directly by the Families.

(2) On each anniversary date of the Contract, the Contract Rents shall be adjusted by applying the applicable Automatic Annual Adjustment Factor most recently published by the Government. Contract Rents may be adjusted upward or downward, as may be appropriate; however, in no case shall the adjusted Contract Rents be less than the Contract Rents on the effective date of the Contract.

c. *Special additional adjustments.* Special additional adjustments may be granted, when approved by the Government, to reflect increases in the actual and necessary expenses of owning and maintaining the Contract Units which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner clearly demonstrates that such general increases have caused increases in the Owner's operating costs which are not adequately compensated for by automatic annual adjustments. The Owner shall submit to the Government financial statements which clearly support the increase.

d. *Overall limitation.* Notwithstanding any other provisions of this Contract, adjustments as provided in this Section shall not result in material differences between the rents charged for assisted and comparable unassisted units, as determined by the Government.

e. *Incorporation of rent adjustment.* Any adjustment in Contract Rents shall be incorporated into Exhibit A by a dated addendum to the exhibit.

1.9 *Marketing and leasing of units.*

a. *Compliance with equal opportunity.* Marketing of units and selection of Families by the Owner shall be in accordance with the Owner's Government-approved Affirma-

tive Fair Housing Marketing Plan, shown as Exhibit B, and with all regulations relating to fair housing advertising.

b. *Security and Utility Deposits.*

(1) The Owner may require Families to pay a security deposit in an amount equal to one month's Gross Family Contribution. If a Family vacates the unit, the Owner may utilize the deposit as reimbursement for any unpaid rent or damage caused by the Family. If the Family has provided a security deposit, and it is insufficient for such reimbursement, the Owner may claim reimbursement from HUD, not to exceed an amount equal to the remainder of one month's Contract Rent. If a Family vacates the unit owing no rent and causing no damage to the unit or if the amount of unpaid rent and/or damage is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance, as the case may be, to the Family.

(2) In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include such interest. All security deposit funds shall be deposited by the Owner in a segregated bank account, and the balance of this account, at all times, shall be equal to the total amount collected from tenants than is occupancy, plus any accrued interest. The Owner must comply with all State and local laws regarding interest payments on security deposits.

(3) Families shall be expected to obtain the funds to pay security and utility deposits, if required, from their own resources and/or other private or public sources.

c. *Eligibility, selection and admission of families.*

(1) The Owner shall be responsible for determination of eligibility of applicants, selection of families from among those determined to be eligible, and computation of the amount of housing assistance payments on behalf of each selected Family in accordance with schedules and criteria established by the Government. In the initial renting of the Contract Units, the Owner shall lease at least 30 percent to Very Low-Income Families (determined in accordance with the Government-established schedules and criteria) and shall thereafter exercise his best efforts to maintain at least 30 percent occupancy of the Contract Units by Very Low-Income Families as determined in accordance with such schedules and criteria.

(2) The Lease entered into between the Owner and each selected Family shall be on the form of Lease approved by the Government.

(3) The Owner shall make a reexamination of Family income, composition, and the extent of medical or other unusual expenses incurred by the Family, at least annually (except that such reviews may be made at intervals of no longer than two years in the case of elderly Families), and appropriate redeterminations shall be made by the Owner of the amount of Family contribution and the amount of housing assistance payment, all in accordance with schedules and criteria established by the Government. In connection with the reexamination, the Owner shall determine what percentage of Families in occupancy are Very Low-Income Families. If there are fewer than 30 percent Very Low-Income Families in occupancy, the Owner shall report the fact to the Government and shall adopt changes in his admission policies to achieve, as soon as possible, at least 30 percent occupancy by such Families.

d. *Rent Redetermination after Adjustment in Allowance for Utilities and Other Services.* In the event that the Owner is notified of a Government determination making an adjustment in the Allowance for Utilities and Other Services applicable to any of the Contract Units, the Owner shall promptly make a corresponding adjustment in the amount of housing assistance payments.

e. *Processing of Applications and Complaints.* The Owner shall process applications for admission, notifications to applicants, and complaints by applicants in accordance with applicable Government requirements and shall maintain records and furnish such copies or other information as may be required by the Government.

f. *Government Review; Incorrect Payments.* In making housing assistance payments to Owners, the Government will review the Owner's determinations under this Section. If as a result of this review, or other reviews, audits or information received by the Government at any time, it is determined that the Owner has received improper or excessive housing assistance payments, the Government shall have the right to deduct the amount of such overpayments from any amounts otherwise due the Owner, or otherwise effect recovery thereof.

1.10 *Termination of Tenancy.* The Owner shall be responsible for termination of tenancies, including evictions. However, conditions for payment of housing assistance payments for any resulting vacancies shall be as set forth in section 1.8c.

1.11 *Reduction of number of contract units for failure to lease to eligible families.*

a. *Twelve Months after Effective Date of Contract.* If at any time, beginning six months after the effective date of this Contract, the Owner fails for a continuous period of six months to have at least 80 percent of the Contract Units leased or available for leasing by Families, the Government may on 30 days notice reduce the number of Contract Units to not less than the number of units under lease or available for leasing by Families, plus 10 percent of such number, if that number is 10 or more, rounded to the next highest number.

b. *At End of Initial and Each Renewal Term.* At the end of the initial term of the Contract and of each renewal term, the Government may, by notice to the Owner, reduce the number of Contract Units to not less than (1) the number of units under lease or available for leasing by Families at that time or (2) the average number of units so leased or available for leasing during the last year, whichever is the greatest number, plus 10 percent of such number, if the number is 10 or more, rounded to the next highest number.

c. *Restoration of units.* Any reduction pursuant to paragraphs a or b of this Section shall not preclude subsequent restoration of Contract units if contract authority is available and if the Government determines that the restoration is justified as a result of changes in demand and in the light of the Owner's record of compliance with his obligations under the Contract.

Warning: 18 U.S.C. 1001 provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—HOUSING ASSISTANCE PAYMENTS CONTRACT—NEW CONSTRUCTION—PRIVATE-OWNER OR PHA-OWNER PROJECT

PART II

2.1 *Nondiscrimination in housing.*

a. The Owner shall not in the selection of Families, in the provision of services, or in any other manner, discriminate against any person on the grounds of race, color, creed, religion, sex, or national origin. No person shall be *automatically* excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program because of membership in a class such as unmarried mothers, recipients of public assistance, etc.

V 39 N 251 DEC 30 74 XUM

b. The Owner shall comply with all requirements imposed by Title VIII of the Civil Rights Act of 1968, and any rules and regulations pursuant thereto.

c. The Owner shall comply with all requirements imposed by Title VI of the Civil Rights Act of 1964, Pub. L. 88-352, 78 Stat. 241; the regulations of the Department of Housing and Urban Development issued thereunder, 24 CFR, Subtitle A, Part 1, § 1.1, et seq.; the requirements of said Department pursuant to said regulations; and Executive Order 11063 to the end that, in accordance with that Act, the regulations and requirements of said Department thereunder, and said Executive Order, no person in the United States shall, on the grounds of race, color, creed, religion or national origin, be excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program, or be otherwise subjected to discrimination. This provision is included pursuant to the regulations of the Department of Housing and Urban Development, 24 CFR, Subtitle A, Part 1, § 1.1, et seq.; issued under Title VI of the said Civil Rights Act of 1964, and the requirements of said Department pursuant to said regulations; and the obligation of the Owner to comply therewith inures to the benefit of the Government and the said Department, either of which shall be entitled to invoke any remedies available by law to redress any breach thereof or to compel compliance therewith by the Owner.

2.2 *Training, employment, and contracting opportunities for businesses and lower-income persons.*[1]

a. The project assisted under this Contract is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

b. Notwithstanding any other provision of this Contract, the Owner shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135 (published in 38 FR 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this Contract. The requirements of said regulations include, but are not limited to, development and implementation of an affirmative action plan for utilizing business concerns located within, or owned in substantial part by persons residing in, the area of the project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by § 135.20(b) of the regulations and paragraph d of this section in all contracts for work in connection with the project. The Owner certifies and agrees that he is under no contractual or other disability which would prevent him from complying with these requirements.

c. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this Contract, shall be a condition of the Federal financial assistance provided to the project, binding upon the Owner, his successors and assigns. Failure to fulfill these requirements shall subject the Owner, his contractors and subcontractors, his successors, and assigns to the sanction specified by this Contract, and to such sanctions as are specified by 24 CFR 135.135.

d. The Owner shall incorporate or cause to be incorporated into any contract or subcontract for work pursuant to this Contract in excess of $50,000 cost, the following clause:

EMPLOYMENT OF PROJECT AREA RESIDENTS AND CONTRACTORS

A. The work to be performed under this Contract is on a project assisted under a program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

B. The parties to this Contract will comply with the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this Contract. The parties to this Contract certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

C. The contractor will send to each labor organization or representative of workers with which he has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of his commitments under this section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

D. The contractor will include this section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the subcontract is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR, Part 135. The contractor will not subcontract with any subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR, Part 135, and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

E. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of the Contract, shall be a condition of the Federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors, and assign. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors, and assigns to those sanctions specified by the grant or loan agreement or contract through which Federal assistance is provided, and to such sanctions as are specified by 24 CFR 135.135."

e. The Owner agrees that he will be bound by the above Employment of Project Area Residents and Contractors clause with respect to his own employment practices when he participates in federally assisted work.

2.3 *Cooperation in equal opportunity compliance reviews.* The Owner shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.4 *Flood insurance.* If the project is located in an area that has been identified by the Secretary of Housing and Urban Development as an area having special flood hazards and if the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, the Owner agrees that the project will be covered, during its anticipated economic or useful life, by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less.

2.5 *Clean air act and federal water pollution control act.*[2] In compliance with regulations issued by the Environmental Protection Agency ("EPA"), 40 CFR, Part 15, 39 F.R. 11099, pursuant to the Clean Air Act, as amended ("Air Act"), 42 U.S.C. 1857, et seq., the Federal Water Pollution Control Act, as amended ("Water Act"), 33 U.S.C. 1251, et seq., and Executive Order 11738, the Owner agrees that:

a. Any facility to be utilized in the performance of this Contract or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to § 15.20 of said regulations;

b. He will promptly notify the Department of Housing and Urban Development field office director of the receipt of any communication from the EPA indicating that a facility to be utilized for the Contract is under consideration to be listed on the EPA List of Violating Facilities;

c. He will comply with all the requirements of section 114 of the Air Act and section 308 of the Water Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and section 308 of the Air Act and the Water Act, respectively, and all regulations and guidelines issued thereunder; and

d. He will include or cause to be included the provisions of this Section in every nonexempt subcontract, and that he will take such action as the Government may direct as a means of enforcing such provisions.

2.6 *Reports and access to premises and records.*

a. The Owner shall furnish such information and reports pertinent to the Contract as reasonably may be required from time to time by the Government.

b. The Owner shall permit the Government or any of its duly authorized representatives to have access to the premises and, for the purpose of audit and examination, to have access to any books, documents, papers and records of the Owner that are pertinent to compliance with this Contract, including the verification of information pertinent to the monthly requests for housing assistance payments.

2.7 *Default by the owner.*

a. A default by the Owner under this Contract shall result if:

(1) The Owner has violated or failed to comply with any provision of, or obligation under, this Contract or of any Lease; or

(2) The Owner has asserted or demonstrated an intention not to perform some or all of his obligations under this Contract or under any Lease.

---

[1] Strike this section if the Contract Rents on the effective date of this Contract, over the maximum term of this Contract, are $500,000 or less.

[2] Strike this Section if the Contract Rents on the effective date of this Contract, over the maximum total term of this Contract, are $100,000 or less.

b. Upon a determination by the Government that a default has occurred, the Government shall notify the Owner of the nature of the default, or the actions required to be taken on account of the default (including the curing of the default by the Owner, the abatement of housing assistance payments in whole or in part, where appropriate, or any combination of actions), and of the time within which the Owner shall respond with a showing that he has taken all the actions required of him. If the Owner fails to respond or take action to the satisfaction of the Government, the Government shall take appropriate actions to achieve compliance or to terminate the Contract in whole or in part.

c. The availability of any remedy under this Contract shall not preclude the exercise of any other remedy available under this Contract or under any provisions of law, nor shall any action taken in the exercise of any remedy be deemed a waiver of any other rights or remedies. Failure to exercise any right or remedy shall not constitute a waiver of the right to exercise that or any other right or remedy at any time.

2.8 *DISPUTES.*

a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Contract which is not disposed of by agreement between the Department of Housing and Urban Development field office and the Owner may be submitted by the Owner to the Secretary of Housing and Urban Development. The decision of the Secretary or his duly authorized representative for the resolution of such disputes shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any proceeding under this Section, the Owner shall be afforded an opportunity to be heard and to offer evidence in support of his position.

b. This section does not preclude consideration of questions of law in connection with the decision rendered under paragraph a of this Section; Provided, however, that nothing herein shall be construed as making final the decision of any administrative official, representative, or board, on a question of law.

2.9 *Interest of members, officers, or employees of PHA, members of local governing body or other public officials.* No member, officer, or employee of the PHA, no member of the governing body of the locality (city and county) in which the project is situated, no member of the governing body of the locality in which the PHA was activated and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Contract or in any proceeds or benefits arising therefrom.

2.10 *Interest of member of or delegate to congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Contract or to any benefits which may arise therefrom.

2.11 *Nonassignability.*

a. The Owner agrees that he has not made and will not make any sale, assignment, or conveyance or transfer in any other form, of this Contract or the project or any part thereof or any of his interest therein, without the prior consent of the Government; Provided, however, that in the case of an assignment as security for the purpose of obtaining financing of the project, the Government shall consent in writing if the terms of the financing have been approved by the Government. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees to notify the Government promptly of any proposed action covered by paragraph a of this Section. The Owner further agrees to request the written consent of the Government in regard thereto, except in the case of an assignment as security as provided in paragraph a of this Section.

c. For the purpose of this Section, a transfer of stock in the Owner in whole or in part, by a party holding ten percent or more of the stock of said Owner, or a transfer by more than one stockholder or the Owner of ten percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner or the degree thereof, by any other method or means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Contract or the project. With respect to this provision, the Owner and the party signing this Contract on behalf of said Owner, represent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect thereto.

APPENDIX III

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT, SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM, MASTER SECTION 8 ANNUAL CONTRIBUTIONS CONTRACT NO. ——

This Annual Contributions Contract (ACC) is entered into on ——— day of ———, 19 —— (the date of execution by the Government) by and between the United States of America (herein called the "Government"), pursuant to the United States Housing Act of 1937 (42 U.S.C. 1437, *et seq.*), which Act as amended to the date of this ACC is herein called the "Act" and the Department of Housing and Urban Development Act (42 U.S.C. 3531), and ——— (herein called the "PHA"), which is a "public housing agency" as defined in the Act. In consideration of the mutual covenants hereinafter set forth, the parties hereto agree as follows:

0.1 *Project or Projects.* The PHA is undertaking to provide Decent, Safe, and Sanitary housing for Families (as defined in Section 2.1) pursuant to Section 8 of the Act by means of Housing Assistance Payments Contracts ("Contracts") with Owners (as defined in Section 2.1). Such undertaking may involve an agreement for the use of housing to be constructed ("New Construction"), an agreement for the use of existing housing to be substantially rehabilitated ("Substantial Rehabilitation"), or the use of existing housing without substantial rehabilitation ("Existing Housing"). In each instance, the numbers and sizes of dwelling units with respect to which a certain maximum Annual Contributions commitment is made shall constitute a Project hereunder and shall be identified by a stated Project number.

0.2 *Part I and Part II of this Annual Contributions Contract.*

(a) Certain provisions of this ACC, principally those which are specifically applicable to a designated Project, are contained in Part I. Separate forms of Part I are used for different types of Projects (i.e., New Construction, Substantial Rehabilitation, and Existing Housing). A separate Part I, on the applicable form thereof, has been executed with respect to each Project hereunder, and each such Part I, so executed, constitutes a part of this ACC.

(b) The remaining provisions of this ACC, which are applicable to all Projects hereunder, are contained in Part II, which, although not separately executed, constitutes a part of this ACC.

0.3 *Fiscal Year.* Except for the first Fiscal Year of each Project, there shall be one Fiscal Year for all Projects hereunder. Such established Fiscal Year shall be the 12-month period ending ——— of each calendar year. The first Fiscal Year for each Project shall be as provided in the Part I applicable to such Project.

0.4 *Schedule of Projects.* Attached to this Master Section 8 ACC, as Attachment A, is a list identifying each ACC Part I and ACC Part I amendment by project number, date, and ACC List number and date.

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—ANNUAL CONTRIBUTIONS CONTRACT

PART I

NEW CONSTRUCTION PROJECT NO. ———

Effective Date ———

[Date of execution by the Government of this ACC Part I]

ACC List Number and Date ———

1.1. *The project.* The PHA proposes to enter into a Housing Assistance Payments Contract ("Contract") with respect to newly constructed dwelling units pursuant to an Agreement to Enter into Housing Assistance Payments Contract ("Agreement") executed prior to the commencement of construction. The numbers and sizes of units will be as follows:

Size of Unit	*Number of Units*

The PHA shall enter into an Agreement and Contract in accordance with the numbers and sizes of units specified above. The PHA shall not enter into any Agreement or Contract or take any other action which will result in a claim for a total Annual Contributions in respect to the Project in excess of the maximum amounts stated in § 1.4(a).

1.2. *Authorization of actions by PHA.* In order to carry out the Project, the PHA is authorized to (a) enter into an Agreement, (b) enter into a Contract, (c) make housing assistance payments on behalf of Families, and (d) take all other necessary actions all in accordance with the forms, conditions and requirements prescribed or approved by the Government; Provided, however, that neither the PHA nor the Government shall assume any obligation beyond that provided in the Government-approved Agreement and Contract.

1.3. *Terms of ACC and contract.*

(a) This ACC shall remain in effect so long as the Contract is in effect but in no event shall the term of the ACC exceed ——— years from the beginning of the first Fiscal Year. [Insert number specified in the first sentence of paragraph (b) of this Section plus two years.]

(b) [Alternative provisions—incorporate alternative 1 or 2, as applicable.]

Alternative 1—General

The total Contract term for any unit, including all renewals, shall not exceed ——— years. [Insert 20 unless the project is owned by, or financed by, a loan or loan guarantee from, a State or local agency. In the latter case, insert number as specifically authorized by the Government, but in no event more

XUM
V 39 I 251 DEC 30 1974
XUM

than 40.] If the Project is accepted in stages, the total Contract term for the units in all stages, counting from the effective date of the Contract with respect to the first stage, shall not exceed the total Contract term specified in the first sentence of this paragraph (b), plus 2 years.

Alternative 2—For mobile homes project

The total Contract term for any mobile home unit, including all renewals, shall not exceed ____ years. [Insert number as specifically authorized by the Government, but in no event more than 20.] If the Project is accepted in stages, the total Contract term for the mobile home units in all stages, counting from the effective date of the Contract with respect to the first stage, shall not exceed the total Contract term specified in the first sentence of this paragraph (b), plus 2 years. For purposes of this paragraph (b), the term "mobile home" means the original mobile home and any replacement(s), combined.

1.4. *Annual contributions.*

(a) Notwithstanding any other provisions of this ACC (other than paragraph (c) of this Section) or any provisions of any other contract between the Government and the PHA, the Government shall not be obligated to make any Annual Contributions or any other payment in excess of:

APPENDIX III—U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM MASTER SECTION 8 ANNUAL CONTRIBUTIONS CONTRACT #----------

This Annual Contributions Contract (ACC) is entered into on ____ day of ----------, 19__, (the date of execution by the Government) by and between the United States of America (herein called the "Government"), pursuant to the United States Housing Act of 1937 (42 U.S.C. 1437, et seq.), which Act as amended to the date of this ACC is herein called the "Act" and the Department of Housing and Urban Development Act (42 U.S.C. 3531), and ---------- (herein called the "PHA"), which is a "public housing agency" as defined in the Act. In consideration of the mutual covenants hereinafter set forth, the parties hereto agree as follows:

0.1 *Project or projects.* The PHA is undertaking to provide Decent, Safe, and Sanitary housing for Families (as defined in § 2.1) pursuant to Section 8 of the Act by means of Housing Assistance Payments Contracts ("Contracts") with Owners (as defined in § 2.1). Such undertaking may involve an agreement for the use of housing to be constructed ("New Construction"), an agreement for the use of existing housing to be substantially rehabilitated ("Substantial Rehabilitation"), or the use of existing housing without substantial rehabilitation ("Existing Housing"). In each instance, the numbers and sizes of dwelling units with respect to which a certain maximum Annual Contributions commitment is made shall constitute a Project hereunder and shall be identified by a stated Project number.

0.2 *Part I and Part II of this annual contributions contract.*

(a) Certain provisions of this ACC, principally those which are specifically applicable to a designated Project, are contained in Part I. Separate forms of Part I are used for different types of Projects (i.e., New Construction, Substantial Rehabilitation, and Existing Housing). A separate Part I, on the applicable form thereof, has been executed with respect to each Project hereunder, and each such Part I, so executed, constitutes a part of this ACC.

(1) $_____ for housing assistance payments under the Contract; or

(2) $_____ for other Project Expenditures; or

(3) a total of $_____ for all Project Expenditures in respect to the Project.

Provided, however, that these amounts shall be reduced commensurate with any reduction in the number of units under the Contract or pursuant to any other provision of this ACC.

(b) Subject to the maximum dollar limitations in paragraph (a) of this Section, the Government shall pay Annual Contributions to the PHA in respect to the Project in an amount equal to the sum of the following (subject to reduction by the amount of any Project Receipts other than Annual Contributions, which Receipts shall be available for Project Expenditures):

(1) The amount of housing assistance payments payable during the Fiscal Year (see § 1.5) by the PHA pursuant to the Contract, as authorized in Section 1.2.

(2) The allowance, in the amount approved by the Government, for preliminary costs of administration.

(3) The allowance, in the amount approved by the Government, for the regular costs of administration.

(c) Subject to the maximum amount stated in paragraph (a)(3) of this Section, the Annual Contribution for any Fiscal Year may include such amount as the Government may determine to be necessary to assure that the lower-income character of the Project will be maintained, which amount shall be credited to an account maintained by the PHA or the Government as determined by the Government. To the extent funds are available in said account, the Annual Contribution for any Fiscal Year may exceed the maximum amounts stated in paragraph (a) of this Section by such amount, if any, as may be required for increases reflected in the estimates of required Annual Contributions applicable to such Fiscal Year as approved by the Government in accordance with Section 2.11 below. Any amount remaining in said account after payment of the last Annual Contribution with respect to the Project shall be applied by the Government in accordance with law.

(d) The Government will make periodic payments on account of the Annual Contributions upon requisition therefor by the PHA in the form prescribed by the Government. Each requisition shall include certifications by the PHA that housing assistance payments have been or will be made only:

(1) In accordance with the provisions of the Contract as such provisions apply respectively to (a) units under lease by Families and (b) units not under lease by Families; and

(2) With respect to units which the PHA has inspected or caused to be inspected, pursuant to Section 2.4 of Part II of this ACC, within one year prior to the making of such housing assistance payments.

(e) Following the end of each Fiscal Year, the PHA shall promptly pay to the Government, unless other disposition is approved by the Government, the amount, if any, by which the total amount of the periodic payments during the Fiscal Year exceeds the total amount of the Annual Contribution payable for such Fiscal Year in accordance with this Section.

1.5. *Fiscal Year.* The Fiscal Year for the Project shall be the Fiscal Year established by Section 0.3 of this ACC; Provided, however, that the first Fiscal Year for the Project shall be the period beginning with the effective date of the Contract and ending on the last day of said established Fiscal Year which is not less than 12 months after such effective date. If the first Fiscal Year exceeds 12 months, the maximum Annual Contribution in Section 1.4(a) may be adjusted by the addition of the pro rata amount applicable to the period of operation in excess of 12 months.

1.6. *Periodic adjustment of contract rents.*

(a) The Contract may provide for periodic adjustments in the Contract rents chargeable by the Owner and commensurate increases in amounts of housing assistance payments up to the total annual housing assistance payments committed under Section 1.4(a)(1) of this ACC.

(b) The provisions of Section 1.4(c) of this ACC are designed (by providing for maximum total annual commitments in excess of the amounts required at the time of the initial rental of dwelling units and by setting aside such excess amounts in a project reserve) to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract rents or decreases in Family incomes. The Government shall take such additional steps authorized by Section 8(c)(6) of the Act as may be necessary to carry out this assurance, including (as provided in that section) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

1.7. *Affirmative fair housing marketing regulation.* The PHA shall require the Owner to comply with the Affirmative Fair Housing Marketing Regulation (subject to any exceptions therein) including the submission for Government approval of an Affirmative Fair Housing Marketing Plan and compliance with such approved Plan, as if the Owner were expressly subject to said Regulation.

1.8 *Expeditious carrying out of project.* The PHA shall proceed expeditiously with the Project. If the PHA fails to proceed expeditiously, and no Agreement with the Owner has yet been entered into, the Government by notice to the PHA, may terminate or reduce its obligation hereunder with respect to the Project. If an Agreement has been entered into, and the PHA or the Owner is not proceeding expeditiously with the Project, the Government will take appropriate action, including the Governmental action provided for in the Agreement.

1.9. *Responsibility for administration of contract.* The PHA is primarily responsible for administration of the Contract. However, if the PHA is the lender, the following provisions shall be included in the Contract:

(1) The Government shall have the right to make independent audits, reviews, and determinations as to compliance by the Owner with any or all of his obligations under the Contract;

(2) In the event the Government determines that the Owner is in default with respect to any or all of his obligations, the Government shall have the right to take direct action (as if the Government were the party to the Contract primarily responsible for its administration) to enforce any or all available remedies, including, but not limited to, abatement of housing assistance payments, collection of payments previously made in violation of the Contract, and termination of the Contract in whole or in part; and

(3) The Owner hereby expressly agrees to recognize the rights of the Government in the event it takes any action under this Section in the same manner and to the same extent as if the action were taken by the PHA.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—TERMS AND CONDITIONS CONSTITUTING PART II OF AN ANNUAL CONTRIBUTIONS CONTRACT BETWEEN PUBLIC HOUSING AGENCY AND THE UNITED STATES OF AMERICA

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

2.1. *Definitions.*

(a) "Families" means Lower-Income Families (including "Very Low-Income Families") and includes Families consisting of a single person in the case of Elderly Families and Displaced Families and includes the remaining member of a tenant family.

(b) "Elderly Families" means Families whose heads (or their spouses), or whose sole members, are persons who are at least 62 years of age or are under a disability as defined in section 223 of the Social Security Act or in section 102(5) of the Developmental Disabilities Services and Facilities Construction Amendments of 1970, or are handicapped. The term Elderly Families includes two or more elderly, disabled, or handicapped individuals living together, or one or more such individuals living together with another person who is determined under regulations of the Secretary to be a person essential to their care or well being.

(c) "Displaced Families" means Families displaced by governmental action, or Families whose dwellings have been extensively damaged or destroyed as a result of a disaster declared or otherwise formally recognized pursuant to Federal disaster relief laws.

(d) "Lower-Income Families" means Families whose incomes do not exceed 80 percent of the median income for the area, as determined by the Secretary with adjustments for smaller and larger families, except that the Secretary may establish income limits higher or lower than 80 percent of the median for the area on the basis of his findings that such variations are necessary because of prevailing levels of construction costs, unusually high or low family incomes, or other factors.

(e) "Very Low-Income Families" means Families whose incomes do not exceed 50 percent of the median income for the area, as determined by the Secretary with adjustments for smaller and larger families.

(f) "Income" means income from all sources of each member of the household, as determined in accordance with criteria prescribed by the Secretary.

(g) "Owner" means the person or entity, including a cooperative, with which the Agreement and Contract are entered into.

(h) "Rent" or "rental" mean, with respect to members of a cooperative, the charges under the occupancy agreements between such members and the cooperative.

(i) "Project Receipts" with respect to each Project means the Annual Contributions payable hereunder and all other receipts, if any, accruing to the PHA from, out of, or in connection with such Project.

(j) "Project Expenditures" with respect to each Project means all costs allowable under Section 1.4(b), Part I of this ACC with respect to such Project.

(k) "Substantial Default" means the occurrence of any of the events listed in Section 2.17.

2.2. *Lower-income housing use; compliance with act and regulations.* The PHA shall use the Annual Contributions solely for the purpose of providing Decent, Safe, and Sanitary dwellings for Families in compliance with all applicable provisions of the Act and all regulations issued pursuant thereto.

2.3. *Eligibility and amount of housing assistance payments.*

(a) The PHA, shall comply with the income limits established by the Government and the requirements of the Government pursuant to section 8(c)(7) of the Act concerning the leasing of at least 30 percent of assisted units to Very Low-Income Families.

(b) The PHA, shall comply or assure compliance with the schedules and criteria established by the Government with respect to the amounts of housing assistance payments made on behalf of Families.

(c) The PHA shall make or cause to be made periodic reexaminations of the income, composition, and extent of exceptional medical or other unusual expenses of Families for whom housing assistance payments are being made for the purpose of confirming or adjusting, in accordance with the applicable schedules established by the Government, the amount of rent payable by the Family and the amount of housing assistance payment.

(d) Prior to the approval of eligibility of a Family, and thereafter on the date established for each reexamination of the status of such Family, the PHA shall review or cause to be reviewed a written application, signed by a responsible member of such Family, which application shall set forth all data and information necessary for a determination of the amount, if any, of housing assistance payment which can be made with respect to the Family.

2.4 *Inspections.*

(a) The PHA shall require, as a condition for the making of housing assistance payments, that the Owner maintain the assisted dwelling units and related facilities in Decent, Safe, and Sanitary Condition.

(b) The PHA shall inspect or cause to be inspected dwelling units and related facilities prior to commencement of occupancy by Families and shall make or cause to be made subsequent inspections at least annually, adequate to assure that Decent, Safe, and Sanitary housing accommodations are being provided and that the agreed-to services are being furnished.

2.5. *Nondiscrimination in housing.*

(a) The PHA shall comply with all requirements imposed by Title VI of the Civil Rights Act of 1964, Public Law 88-352, 78 Stat. 241; the regulations of the Department of Housing and Urban Development issued thereunder, 24 CFR, Subtitle A, Part 1, Section 1.1, et seq.; the requirements of said Department pursuant to said regulations; and Executive Order 11063 to the end that, in accordance with that Act and the regulations and requirements of said Department thereunder, and said Executive Order, no person in the United States shall, on the ground of race, color, creed, religion, or national origin, be excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program or be otherwise subjected to discrimination. The PHA shall, by contractual requirement, convenant, or other binding commitment, assure the same compliance on the part of any subgrantee, contractor, subcontractor, transferee, successor in interest, or other participant in the program or activity, such commitment to include the following clause:

This provision is included pursuant to the regulations of the Department of Housing and Urban Development, 24 CFR, Subtitle A, Part 1, Section 1.1, et seq.; issued under Title VI of the said Civil Rights Act of 1964, and the requirements of said Department pursuant to said regulations; and the obligation of the [contractor or other] to comply therewith inures to the benefit of the United States, the said Department, and the PHA, any of which shall be entitled to invoke any remedies available by law to redress any breach thereof or to compel compliance therewith by [contractor or other].

(b) The PHA shall incorporate or cause to be incorporated into all Housing Assistance Payments Contracts a provision requiring compliance with all requirements imposed by Title VIII of the Civil Rights Act of 1968, and any rules and regulations issued pursuant thereto.

(c) The PHA shall not, on account of creed or sex, discriminate in the sale, leasing, rental, or other disposition of housing or related facilities (including land) included in any Project or in the use of occupancy thereof, nor deny to any Family the opportunity to apply for such housing, nor deny to any eligible applicant the opportunity to lease or rent any dwelling in any such housing suitable to its needs. No person shall *automatically* be excluded from participation in or be denied the benefits of the Housing Assistance Payments Program because of membership in a class such as unmarried mothers, recipients of public assistance, etc.

2.6. *Equal employment opportunity.*

(a) The PHA shall not discriminate against any employee or applicant for employment because of race, color, creed, religion, sex, or national origin. The PHA shall take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to race, color, creed, religion, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b)(1) The PHA shall incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR, Chapter 60, which is to be performed pursuant to this contract, the following Equal Opportunity clause:

EQUAL EMPLOYMENT OPPORTUNITY

During the performance of this contract, the contractor agrees as follows:

(A) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, creed, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, creed, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the PHA setting forth the provisions of this Equal Opportunity clause.

(B) The contractor will in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, creed, sex, or national origin.

(C) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the PHA advising the said labor union or workers' representative of the contractor's commitments under this Section, and shall post copies of the notice inconspicuous places available to employees and applicants for employment.

(D) The contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(E) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and

will permit access to his books, records, and accounts by the Government and the Secretary of labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(F) In the event of the contractor's noncompliance with the Equal Opportunity clause of this contract or with any of the said rules, regulations, or orders this contract may be cancelled, terminated, or suspended in whole or in part, and the contractor may be declared ineligible for further contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor or as otherwise provided by law.

(G) The contractor will include the portion of the sentence immediately preceding Paragraph (A) and the provisions of Paragraphs (A) through (G) in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Government may direct as a means of enforcing such provisions including sanctions for noncompliance; Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Government, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

(2) The PHA agrees that it will assist and cooperate actively with the Government and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the Government and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the Government in the discharge of the Government's primary responsibility for securing compliance.

(3) The PHA further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order No. 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and Federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by the Government or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order.

2.7. *Training, employment, and contracting opportunities for businesses and lower income persons.*

(a) The project assisted under this ACC is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that to the greatest extent feasible opportunities for training and employment be given lower income residents of the Project area and contracts for work in connection with the Project be awarded to business concerns which are located in or owned in substantial part by persons residing in the area of the Project.

(b) Notwithstanding any other provisions of this ACC the PHA shall carry out the provisions of said Section 3 and the regulations issued pursuant thereto by the Secretary set forth in 24 CFR Part 135 (published in 38 Federal Register 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this ACC. The requirements of said regulations include but are not limited to development and implementation of an affirmative action plan for utilizing business concerns located within or owned in substantial part by persons residing in the area of the Project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by Section 3; and incorporation of the "Section 3 clause" specified by § 135.20(b) of the regulations in all contracts for work in connection with the Project. The PHA certifies and agrees that it is under no contractual or other disability which would prevent it from complying with these requirements.

(c) Compliance with the provisions of Section 3, the regulations set forth in 24 CFR Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this ACC shall be a condition of the Federal financial assistance provided to the Project, binding upon the PHA, its successors and assigns. Failure to fulfill these requirements shall subject the PHA, its contractors and subcontractors, its successors, and assigns to the sanction specified by this ACC and to such sanctions as are specified by 24 CFR 135.135.

(d) The PHA shall incorporate or cause to be incorporated into any contract pursuant to this contract such clause or clauses as are required by the Government for compliance with its regulations issued pursuant to the Housing and Urban Development Act, as amended. The PHA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.8. *Cooperation in equal opportunity compliance reviews.* The PHA shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.9. *Clean air act and Federal water pollution control act.* The PHA shall incorporate or cause to be incorporated into any contract for construction or substantial rehabilitation, such clause or clauses as are required by the Government for compliance with the regulations issued by the Environmental Protection Agency pursuant to the Clean Air Act, as amended, the Federal Water Pollution Control Act, as amended, and Executive Order 11738. The PHA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.10. *Labor standards.* The PHA shall incorporate or cause to be incorporated into any contract for construction or substantial rehabilitation of nine or more dwelling units, such clause or clauses as are required by the Government for compliance with its regulations issued pursuant to the Copeland Act, the Davis-Bacon Act, and the Contract Work Hours and Safety Standards Act. The PHA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.11. *Estimates of required annual contributions.* The PHA shall from time to time submit to the Government estimates of required annual contributions at such times and in such form as the Government may require. All estimates and any revisions thereof submitted under this Section shall be subject to Government approval.

2.12. *Insurance and fidelity bond coverage.* For purposes of protection against hazards arising out of or in connection with the administrative activities of the PHA in carrying out the Project, the PHA shall carry adequate (1) comprehensive general liability insurance, (2) workmen's compensation coverage (statutory or voluntary), (3) automobile liability insurance against property damage and bodily injury (owned and non-owned), and (4) fidelity bond coverage of its officers, agents, or employees handling cash or authorized to sign checks or certify vouchers.

2.13. *Books of account and records; reports.*

(a) The PHA shall maintain complete and accurate books of account and records, as may be prescribed from time to time by the Government, in connection with the Projects, including records which permit a speedy and effective audit, and will among other things fully disclose the amount and the disposition by the PHA of the Annual Contributions and other Project Receipts, if any.

(b) The books of account and records of the PHA shall be maintained for each Project as separate and distinct from all other Projects and undertakings of the PHA, except as authorized or approved by the Government.

(c) The PHA shall furnish the Government such financial, operating, and statistical reports, records, statements, and documents at such times, in such form, and accompanied by such supporting data, all as may reasonably be required from time to time by the Government.

(d) The Government and the Comptroller General of the United States, or his duly authorized representatives, shall have full and free access to the Projects and to all the books, documents, papers, and records of the PHA that are pertinent to its operations with respect to financial assistance under the Act, including the right to audit, and to make excerpts and transcripts from such books and records.

(e) The PHA shall incorporate or cause to be incorporated in all Contracts the following clauses:

REPORTS, ACCESS TO PREMISES AND RECORDS

(1) The Owner shall furnish such information and reports pertinent to the Contract as reasonably may be required from time to time by the PHA and the Government.

(2) The Owner shall permit the PHA and the Government or any of their duly authorized representatives, to have access to the premises and, for the purpose of audit and examination, to have access to any books, documents, papers and records of the Owner that are pertinent to compliance with this Contract, including the verification of information pertinent to the monthly requests to the PHA for housing assistance payments.

(f) Audits required by the Government will be performed or paid for by the Government.

2.14. *General depositary agreement and general fund.*

(a) The PHA shall maintain one or more agreements, which are herein collectively called the "General Depositary Agreement," in form prescribed by the Government, with one or more banks (each of which shall be, and continue to be, a member of the Federal Deposit Insurance Corporation) selected as depositary by the PHA. Immediately upon the execution of any General Depositary Agreement, the PHA shall furnish to the Government such executed or conformed copies thereof as the Government may require. No such General Depositary Agreement shall be terminated except after 30 days notice to the Government.

(b) All monies received by or held for account of the PHA in connection with the Projects shall constitute the General Fund.

(c) The PHA shall, except as otherwise provided in this ACC, deposit promptly with such bank or banks, under the terms of the General Depositary Agreement, all monies constituting the General Fund.

(d) The PHA may withdraw monies from the General Fund only for (1) the payment of Project Expenditures, and (2) other purposes specifically approved by the Government. No withdrawals shall be made except in accordance with a voucher or vouchers then on file in the office of the PHA

stating in proper detail the purpose for which such withdrawal is made.

(c) If the PHA (1) in the determination of the Government, is in Substantial Default, or (2) makes or has made any fraudulent or willful misrepresentation of any material fact in any of the documents or data submitted to the Government pursuant to this ACC or in any document or data submitted to the Government as a basis for this ACC or as an inducement to the Government to enter into this ACC, the Government shall have the right to require any bank or other depositary which holds any monies of the General Fund, to refuse to permit any withdrawals of such monies; Provided, however, that upon the curing of such Default the Government shall promptly rescind such requirement.

2.15. *Pooling of funds under special conditions and revolving fund.* (a) The PHA may deposit under the terms of the General Depositary Agreement monies received or held by the PHA in connection with any other housing project developed or operated by the PHA pursuant to the provisions of any contract for annual contributions, administration, or lease between the PHA and the Government.

(b) The PHA may also deposit under the terms of the General Depositary Agreement amounts necessary for current expenditures of any other project or enterprise of the PHA, including any project or enterprise in which the Government has no financial interest; Provided, however, that such deposits shall be lump-sum transfers from the depositaries of such other projects or enterprises, and shall in no event be deposits of the direct revenues or receipts of such other projects or enterprises.

(c) If the PHA operates other projects or enterprises in which the Government has no financial interest it may, from time to time, withdraw such amounts as the Government may approve from monies on deposit under the General Depositary Agreement for deposit in and disbursement from a revolving fund provided for the payment of items chargeable in part to the Projects and in part to other projects or enterprises of the PHA; Provided, however, that all deposits in such revolving fund shall be lump-sum transfers from the depositaries of the related projects or enterprises and shall in no event be deposits of the direct revenues or receipts.

(d) The PHA may establish petty cash or change funds in reasonable amounts, from monies on deposit under the General Depositary Agreement.

(e) In no event shall the PHA withdraw from any of the funds or accounts authorized under this Section 2.15 amounts for the Projects or for any other project or enterprise in excess of the amount then on deposit in respect thereto.

2.16. *Default.*

(a) *Failure or Inability of PHA to Comply with Agreement.* In the event the Government determines that the PHA is in default as provided in the Agreement with the Owner, or if such Agreement is held to be void, voidable or ultra vires, or if the power or right of the PHA to enter into such Agreement is drawn into question in any legal proceedings, or if the PHA asserts or claims that such Agreement is not binding upon the PHA for any such reason, the Government, may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder as to the Project. In such case, the Government will assume the PHA's rights and obligations under the Agreement and carry out the obligations of the PHA under the Agreement, including the obligation to enter into the Contract.

(b) *Failure or Inability of PHA to Comply with Contract.* In the event of failure of the PHA to comply with the Contract with the Owner, or if such Contract is held to be void, voidable or ultra vires, or if the power or right of the PHA to enter into such Contract is drawn into question in any legal proceeding, or if the PHA asserts or claims that such Contract is not binding upon the PHA for any such reason, the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder. In such case, the Government will assume the PHA's rights and obligations under such Contract, and the Government shall, for the duration of such Contract, continue to pay Annual Contributions for the purpose of making housing assistance payments with respect to dwelling units under such Contract, shall perform the obligations and enforce the rights of the PHA, and shall exercise such other powers as the Government may have to cure the Default.

(c) *Other Defaults by the PHA.* If the PHA defaults in the observance or performance of the provisions of Section 2.4; fails to comply with its obligations under any duly issued Certificate of Family Participation in accordance with its terms; fails to comply with the requirements of Sections 2.5, 2.6, 2.7 or 2.8; defaults in the performance or observance of any term, covenant, or condition of this ACC other than the defaults enumerated in this paragraph, and if such defaults have not been remedied within a reasonable time, not to exceed 30 days, after the Government has notified the PHA thereof; or fails to comply with the applicable provisions of the Act and all regulations issued pursuant thereto; the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder as to the Project. Upon the occurrence of a Substantial Default with respect to any Project, the PHA shall, if the Government so requires, assign to the Government all of its rights and interests in and to the project, or such part thereof as the Government may specify, and the Government shall continue to pay Annual Contributions with respect to dwelling units covered by Housing Assistance Payments Contracts in accordance with the terms of this ACC until reassigned to the PHA.

(d) *Return of Rights and Obligations to PHA.* All rights and obligations of the PHA assumed by the Government pursuant to this Section 2.16 will be returned as constituted at the time of such return (i) when the Government is satisfied that all defaults have been cured and that the Project will thereafter be administered in accordance with all applicable requirements or (ii) when the Housing Assistance Payments Contract is at an end, whichever occurs sooner.

(e) *Rights of Owner.* The provisions of this Section 2.16 are made with, and for the benefit of, the Owner or his assignees who will have been specifically approved by the Government prior to such assignment. To enforce the performance of this provision the Owner and such assignees, as well as the PHA, shall have the right to proceed against the Government by suit at law or in equity.

2.17. *Remedies Not Exclusive and Non-Waivers of Remedies.* Any remedy provided for herein shall not be exclusive or preclude the Owner, PHA and/or the Government from exercising any other remedy available under this ACC or under any provisions of law, nor shall any action taken in the exercise of any remedy be deemed a waiver of any other rights or remedies available to such parties. Failure on the part of any such party to exercise any right or remedy shall not constitute a waiver of that or any other right or remedy, nor operate to deprive the party of the right thereafter to take any remedial action for the same or any subsequent default.

2.18. *Interest of Members, Officers, or Employees of PHA, Members of Local Governing Body, or Other Public Officials.* (a) Neither the PHA nor any of its contractors or their subcontractors shall enter into any contract, subcontract, or arrangement, in connection with any Project, in which any member, officer, or employee of the PHA, or any member of the governing body of the locality in which the Project is situated, or any member of the governing body of the locality in which the PHA was activated, or any other public official of such locality or localities who exercises any responsibilities or functions with respect to the Project during his tenure or for one year thereafter has any interest, direct or indirect. If any such present or former member, officer, or employee of the PHA, or any such governing body member or such other public official of such locality or localities involuntarily acquires or had acquired prior to the beginning of his tenure any such interest, and if such interest is immediately disclosed to the PHA and such disclosure is entered upon the minutes of the PHA, the PHA, with the prior approval of the Government, may waive the prohibition contained in this subsection; Provided, however, that any such present member, officer, or employee of the PHA shall not participate in any action by the PHA relating to such contract, subcontract, or arrangement.

(b) The PHA shall insert in all contracts entered into in connection with any Project or any property included or planned to be included in any Project, and shall require its contractors to insert in each of its subcontracts, the following provisions:

No member, officer, or employee of the PHA, no member of the governing body of the locality in which the Project is situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the Project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this contract or the proceeds thereof.

(c) The provisions of the foregoing subsections (a) and (b) of this section 2, shall not be applicable to the General Depositary Agreement, or utility service the rates for which are fixed or controlled by a governmental agency.

2.19. *Interest of Member of or Delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this ACC or to any benefits which may arise therefrom.

APPENDIX IV—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—AGREEMENT TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT—NEW CONSTRUCTION—PRIVATE-OWNER/PHA PROJECT

PART I

This Agreement to Enter into Housing Assistance Payments Contract ("Agreement") is made and entered into by and between the _____ ("PHA"), which is a public housing agency as defined in the United States Housing Act of 1937, 42 U.S.C. 1437, *et seq.* ("Act"), at section 1437a(6), and _____("Owner").

Whereas, the Owner proposes to complete a housing project consisting of improvements and land as described in the approved Final Proposal; and

Whereas, the Owner and the PHA propose to enter into a Housing Assistance Payments Contract ("Contract") upon the completion of said project for the purpose of making housing assistance payments to enable eligible lower-income families ("Families") to occupy units in said project; and

Whereas, the PHA has entered into an Annual Contributions Contract dated _____ _____, 19__, with the United States of America acting through the Department of Housing and Urban Development ("Government") with respect to Project No. _____ ("ACC"), under which the Government will provide financial assistance to the PHA pursuant to section 8 of the Act for the purpose of making housing assistance payments; and

Whereas, the Owner is also the developer, or, if the developer is other than the Owner, the developer's name is _____

Now therefore, the parties hereto agree as follows:

1.1 Significant dates: Contents of agreement.

a. *Time for Completion of Project.* The time for completion of the project (see Section 1.2a) is _____ calendar days after the effective date of this Agreement.

b. *Date for Commencement of Work.* The date for commencement of work (see Section 1.2b) is _____, 19__.

c. *Contents of Agreement.* This Agreement consists of Part I, Part II, and the following exhibits:

Exhibit A: The approved Final Proposal including, among other things, the architect's certification, the Affirmative Fair Housing Marketing Plan (if required), evidence of management capability, and management program (if required);

Exhibit B: The Housing Assistance Payments Contract ("Contract") to be executed upon acceptable completion of the project;

Exhibit C: The Annual Contributions Contract;

Exhibit D: The schedule of completion in stages, if applicable;

Exhibit E: The schedule of minimum rates of wages, if applicable; and

Additional exhibits: [Specify additional exhibits, if any. If none, insert "None."]

This Agreement, including said exhibits, comprises the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein. Nothing contained in this Agreement shall create or affect any relationship between the PHA and the lender or any contractors or subcontractors employed by the Owner in the completion of the project.

1.2 *Schedule of completion.*

a. *Time for Completion.* The project shall be completed in accordance with Section 1.4 no later than the end of the period stated in Section 1.1a, or in stages as provided for in Exhibit D which identifies the units comprising each stage and the date of commencement and time for completion of each stage. Where completion in stages is provided for, all references to project completion shall be deemed to refer to project completion and/or completion of any stage, as appropriate.

b. *Timely Performance of Work.* The Owner agrees that no later than the date stated in Section 1.1b the work will be commenced and diligently continued. In the event the work is not commenced, diligently continued, and/or completed as aforesaid, the PHA reserves the right, subject to Government approval, to rescind this Agreement or take other appropriate action. The Owner shall report to the PHA the date work was commenced and shall thereafter furnish the PHA with periodic progress reports (quarterly unless more frequent reporting is required by the PHA).

c. *Delays.* In the event there is delay in the completion due to strikes, lockouts, labor union disputes, fire, unusual delays in transportation, unavoidable casualties, weather, acts of God, or any other causes beyond the Owner's control, or by delay authorized by the PHA, the time for completion shall be extended to the extent that completion is delayed due to one or more of these causes. No increases in the rents set forth in Exhibit B ("Contract Rents") may be granted on account of any such delays.

1.3 *Construction period.*

a. *Changes.* The Owner shall submit for PHA and Government approval any changes from Exhibit A which will materially reduce or alter his obligations or any changes which alter the design or materially reduce the quality or amenities of the project. Approval of such changes may be conditioned on a reduction of Contract Rents. If such changes are made without prior approval by the PHA and the Government, the Owner may be required to reduce the Contract Rents or remedy the defects or deficiencies as a condition for acceptance of the project. Contract Rents may not be increased by reason of any changes or modifications.

b. *Commencement of marketing.* The Owner shall commence and diligently continue marketing as soon as possible, but in any event no later than 90 days prior to the estimated completion date. The Owner shall notify the PHA of the date of commencement of marketing. The Owner shall also comply with all reporting requirements under the Affirmative Fair Housing Marketing Regulations. Not later than 30 days prior to the estimated completion date and periodically thereafter, the Owner shall notify the PHA of any units which he anticipates will be vacant on the effective date of the Contract. At the time the Contract is executed, the Owner shall submit a list of the dwelling units leased as of the effective date of the Contract and a list of the units not so leased, if any. The Owner will be entitled to housing assistance payments for any unleased units pursuant to Section 1.7b of the Contract only if he has fully complied with the requirements of this paragraph and the provisions of that Section.

c. *Management certification.* Prior to acceptance of the project by the Government, the Owner shall certify in writing that there has been on change in the evidence of management capability or in the proposed management program (if one was required) specified in his Final Proposal other than changes approved in writing by the PHA and the Government in accordance with paragraph a of this Section.

d. *Labor Standards Certification.*[1] Prior to acceptance of the project by the Government, the Owner shall certify in writing that he has complied with the provisions of Sections 2.6 through 2.11 of this Agreement, and that to the best of his knowledge and belief there are no claims of underpayment to laborers or mechanics in alleged violation of said provisions of the Agreement. In the event there are any such pending claims to the knowledge of the Owner or the PHA or the Government, the Owner shall be required to place a sufficient amount in escrow as determined by the Government to assure payment thereof.

1.4 *Project completion.*

a. *Conformance to Final Proposal.* The completed project shall be in accordance with Exhibit A. The Owner shall be solely responsible for completion of the project.

b. *Notification of Completion.* The Owner shall notify the Government, with a copy to the PHA, when the work is completed and shall submit to the Government the evidence of completion described in paragraph c of this Section.

c. *Evidence of Completion.* Completion of the project shall be evidenced by furnishing the Government with all of the following:

(1) A set of as-built drawings.

(2) A certificate of occupancy and/or other official approvals necessary for occupancy.

(3) A certification by the Owner, which will be supported by the Owner's warranty in the Contract, that:

(i) All work has been completed in accordance with the requirements of this Agreement;

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified).

(4) A certification by the registered architect responsible for inspection of construction that such inspection was performed by him or under his supervision with the frequency and thoroughness required by the generally accepted standards for professional care and judgment, and that to the best of his knowledge, belief, and professional judgment:

(i) All work has been completed in conformance with the certified working drawings and specifications for the project or approved changes thereto (such changes to be listed);

(ii) The project is in good and tenantable condition; and

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified).

(iv) The project has been constructed in accordance with applicable zoning, building, housing, and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.

d. *Inspection.*

(1) Within ten working days of the receipt of the Owner's notification of project completion, the Government representative, accompanied by a PHA representative, shall inspect the project and review the evidence of completion listed in paragraph c of this Section. Such inspection shall be sufficient to enable the Government inspector to state in his inspection report that he has inspected the observable elements and features of the project in accordance with professional standards of care and judgment and that, on the basis of such inspection, the project has been completed in accordance with the Agreement and, in particular, that there are no observable conditions inconsistent with the certifications of the Owner or the design architect or the inspecting architect. As promptly as possible, the Government shall notify the Owner in writing as to whether or not the project has been completed in an acceptable manner.

(2) In the event the Owner disputes the Government's determinations, he may submit the controversy to third-party arbitration, at his expense, provided that the arbitration is advisory only.

e. *Acceptance of Project.* If the Government determines that the project is not acceptable under paragraph d(1) of this Section, the following shall apply:

(1) If the defects or deficiencies are only punchlist items or incomplete items awaiting seasonal opportunity, the project may be accepted and the Contract executed. If the Owner fails to complete such items within a reasonable time to the satisfaction of the PHA and the Government, the PHA may, upon 30 days notice, as directed by the Government, terminate the Contract or exercise the PHA's other rights under the Contract.

(2) If the defects or deficiencies are other than punchlist items or incomplete work awaiting seasonal opportunity, but the Government determines that (i) a certificate of occupancy and/or other official approvals necessary for occupancy has been issued, (ii) the project is in good and tenantable condition, and (iii) the project has been constructed in accordance with the applicable

[1] Strike this paragraph if the project involves fewer than nine Contract units.

soning, building, housing and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials, the project may be accepted after the Owner corrects the defects or deficiencies or the project may be accepted subject to a specified reduction of the Contract Rents as determined by the Government.

(3) If the Government determines that the project is not acceptable under paragraphs e(1) or e(2) of this Section, the Government shall determine: (i) whether the defects or deficiencies can be corrected and (ii) whether a reduction in Contract Rents will be required as a condition to acceptance of the project. If it is determined that the defects or deficiencies can be corrected, the Owner shall be notified of the Government's determinations under (i) and (ii) of this subparagraph, and, if he agrees to comply with the conditions, an agreement shall be entered into pursuant to which the defects or deficiencies will be corrected and the project then accepted. If the Owner is unwilling to enter into such agreement or if he fails to perform the agreement, the project shall not be accepted. Prior to authorizing execution of the Contract, the Government will verify that appropriate corrective action has been taken.

f. *Completion in Stages.* If the project is to be completed in stages, the procedures of this Section shall apply to each stage.

1.5 *Execution of housing assistance payments contract.*

a. *Time of Execution.* Upon acceptance of the project by the Government pursuant to Sections 1.3 and 1.4, the Contract shall be executed by the Owner and the PHA and shall then be approved by the Government.

b. *Completion in Stages.* If completion is in stages, the Contract shall be executed upon completion of the first stage, and the number and types of completed units and their Contract Rents shall be shown in Exhibit A–1 of the Contract. Thereafter, upon completion of each successive stage, the signature block provided in the Contract for that stage shall be executed by the Owner and the PHA and approved by the Government, and Exhibits A–2, A–3, etc., covering the additional units, shall become part of the Contract.

c. *Unleased Units at Time of Execution.* At the time of execution of the Contract, the PHA shall examine the lists of dwelling units leased and not leased, referred to in Section 1.3b, and shall determine whether or not the Owner has met his obligations under that Section with respect to any unleased units.

The PHA shall state in writing its determination with respect to the unleased units and for which of those units it will make housing assistance payments pursuant to the Contract. The Owner shall indicate in writing his concurrence with this determination or his disagreement, reserving his rights to claim housing assistance payments for the unleased units pursuant to the Contract, without prejudice by reason of his signing the Contract. Copies of all documents referred to in this paragraph shall be furnished to the Government.

d. *Contract Rents.* The Contract Rents by unit size, amounts of housing assistance payments, and all other applicable terms and conditions shall be as specified in the proposed Housing Assistance Payments Contract, except that in no case may the initial Contract Rents for units in projects financed with mortgages insured under the National Housing Act exceed the rents approved by the Government in connection with the mortgage insurance for such projects.

e. *No Changes in Contract.* Each party has read or is presumed to have read the proposed Contract. It is expressly agreed that there shall be no change in the terms and conditions of the Contract other than in accordance with Section 1.3a and paragraph d of this Section.

1.6 *Government assurance to owner.*

a. The approval of this Agreement by the Government signifies that the Government has executed the ACC and that the ACC has been properly authorized; that the faith of the United States is solemnly pledged to the payment of annual contributions pursuant to said ACC; and that funds have been obligated by the Government for such payments to assist the PHA in the performance of its obligations under the Contract. The Government and the PHA shall not, without the consent of the Owner, amend or modify the ACC in any manner which would reduce the amount of annual contributions payable thereunder for housing assistance payments except as authorized in the ACC and the Contract.

b. The ACC states that the ACC provisions quoted below in this paragraph are made for the benefit of the Owner, or his assignees who will have been specifically approved by the Government prior to such assignment, and that to enforce the performance of these provisions, the Owner and such assignees shall have the right to proceed against the Government by suit at law or in equity. Upon the determination by the Government that a default by the PHA has occurred, the following provisions of the ACC (which are hereby made a part of this Agreement), shall be applicable:

"(a) *Failure or inability of PHA to comply with agreement.* In the event the Government determines that the PHA is in default of its obligation under the Agreement with the Owner, or if such Agreement is held to be void, voidable or ultra vires, or if the power or right of the PHA to enter into such Agreement is drawn into question in any legal proceeding, or if the PHA asserts or claims that such Agreement is not binding upon the PHA for any such reason, the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder as to the project. In such case, the Government will assume the PHA's rights and obligations under the Agreement and carry out the obligations of the PHA under the Agreement, including the obligation to enter into the Contract.

* * * * *

"(d) *Return of Rights and Obligations to PHA.* All rights and obligations of the PHA assumed by the Government pursuant to this Section 2.17 will be returned as constituted at the time of such return (1) when the Government is satisfied that all defaults have been cured and that the project will thereafter be administered in accordance with all applicable requirements or (2) when the Housing Assistance Payments Contract is at an end, whichever occurs sooner."

1.7 *Authority of the PHA.* The PHA warrants that it is a "public housing agency" as defined in section 3(6) of the Act and that it is in fact and in law authorized to execute this Agreement.

Effective date. This Agreement shall be effective as of the date of execution by the Government.

In witness whereof, the parties hereto have executed this Agreement in four original counterparts.

Warning: 18 U.S.C. 1001 provides, among other things, that whoever knowingly and willfully make or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—AGREEMENT TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT—NEW CONSTRUCTION—PRIVATE-OWNER/FHA PROJECT

PART II

2.10 *Training, employment, and contracting opportunities for businesses and lower-income persons.*[2]

a. The project assisted under this Agreement is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

b. Notwithstanding any other provision of this Agreement, the Owner shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135 (published in 38 FR 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this Agreement. The requirements of said regulations include, but are not limited to, development and implementation of an affirmative action plan for utilizing business concerns located within, or owned in substantial part by persons residing in, the area of the project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by § 135.20(b) of the regulations and paragraph d of this Section in all contracts for work in connection with the project. The Owner certifies and agrees that he is under no contractual or other disability which would prevent him from complying with these requirements.

c. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this Agreement, shall be a condition of the Federal financial assistance provided to the project, binding upon the Owner, his successors and assigns. Failure to fulfill these requirements shall subject the Owner, his contractors and subcontractors, his successors, and assigns to the sanction specified by this Agreement, and to such sanctions as are specified by 24 CFR 135.135.

d. The Owner shall incorporate or cause to be incorporated into any contract or subcontract for work pursuant to this Agreement in excess of $50,000 cost, the following clause:

EMPLOYMENT OF PROJECT AREA RESIDENTS AND CONTRACTORS

"A. The work to be performed under this Agreement is on a project assisted under a program dividing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of section 3 of the Housing and

[2] Strike this Section if the Contract Rents under the proposed Housing Assistance Payments Contract, over the maximum term of said Contract, are $500,000 or less.

Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area, and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

"B. The parties to this Agreement will comply with the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this Agreement. The parties to this Agreement certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

"C. The contractor will send to each labor organization or representative of workers with which he has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of his commitments under this section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

"D. The contractor will include this section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the subcontractor is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR, Part 135. The contractor will not subcontract with any subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR, Part 135, and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

"E. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of the Agreement, shall be a condition of the Federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors, and assigns. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors, and assigns to those sanctions specified by the grant or loan agreement or contract through which Federal assistance is provided, and to such sanctions as are specified by 24 CFR Section 135.135."

e. The Owner agrees that he will be bound by the above Employment of Project Area Residents and Contractors clause with respect to his own employment practices when he participates in federally assisted work.

2.2 *Equal employment opportunity.*[3]

a. The Owner shall incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR, Chapter 60, which is to be performed pursuant to this Agreement, the following Equal Opportunity clause:

"EQUAL EMPLOYMENT OPPORTUNITY

"During the performance of this contract, the contractor agrees as follows:

"(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, creed, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, creed, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment, or recruitment advertising, lay-off or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by or at the direction of the Government setting forth the provisions of this Equal Opportunity clause.

"(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, creed, sex, or national origin.

"(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by or at the direction of the Government advising the said labor union or workers' representative of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

"(4) The contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

"(5) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by HUD and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

"(6) In the event of the contractor's noncompliance with the Equal Opportunity clauses of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor or as otherwise provided by law.

"(7) The contractor will include the portion of the sentence immediately preceding Paragraph (1) and the provisions of Paragraphs (1) through (7) in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Government may direct as a means of enforcing such provisions including sanctions for noncompliance; Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Government, the contractor may request the United States to enter into such litigation to protect the interest of the United States."

b. The Owner agrees that he will be bound by the above Equal Opportunity clause with respect to his own employment practices when he participates in federally assisted construction work.

c. The Owner agrees that he will assist and cooperate actively with HUD and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that he will furnish HUD and the Secretary of Labor such information as they may require for the supervision of such compliance, and that he will otherwise assist HUD in the discharge of HUD's primary responsibility for securing compliance.

d. The Owner further agrees that he will refrain from entering into any contract or contract modification subject to Executive Order No. 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by HUD or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order.

2.3 *Cooperation in equal opportunity compliance reviews.* The PHA and the Owner shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.4 *Flood insurance.* If the project is located in an area that has been identified by the Secretary of Housing and Urban Development as an area having special flood hazards and if the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, the Owner agrees that the project will be covered, during its anticipated economic or useful life, by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less.

2.5 *Clean air act and federal water pollution control act.*[4] In compliance with regulations issued by the Environmental Protection Agency ("EPA"), 40 CFR, Part 15, 39 FR 11099, pursuant to the Clean Air Act, as amended ("Water Act"), 33 U.S.C. 1251, *et* the Federal Water Pollution Control Act, as amended ("water act"), 33 U.S.C. 1251, *et seq.*, and Executive Order 11738, the Owner agrees that:

a. Any facility to be utilized in the performance of this Agreement or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to § 15.20 of said regulations;

b. He will promptly notify the PHA of the receipt of any communication from the EPA indicating that a facility to be utilized for the Agreement is under consideration to be listed on the EPA List of Violating Facilities;

c. He will comply with all the requirements of section 114 of the Air Act and section 308 of the Water Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and section 308 of the Air Act and the Water Act, respectively, and all regulations and guidelines issued thereunder; and

d. He will include or cause to be included the provisions of this Section in every nonexempt subcontract, and that he will take such action as the Government may direct as a means of enforcing such provisions.

[3] As used in Section 2.2, "HUD" means the United States of America acting through the Department of Housing and Urban Development.

[4] Strike this Section if the Contract Rents under the proposed Housing Assistance Payments Contract, over the maximum term of said Contract, are $100,000 or less.

2.6 *Prevailing wage rates.*[1]

a. Attached hereto and incorporated herein as Exhibit D is a schedule of minimum rates of wages applicable to this Agreement.

b. All laborers and mechanics employed in the construction of the project shall be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by the regulations issued by the Secretary of Labor under the Copeland Act (29 CFR, Part 3)), the full amounts due at the time of payment computed at wage rates not less than those contained in the wage determination decision of the Secretary of Labor of the United States, which is incorporated herein, regardless of any contractual relationship which may be alleged to exist between the Owner or any subcontractor and such laborers and mechanics; and the wage determination decision and the Department of Labor Wage Rate Information Poster shall be posted by the Owner at the site of the work in a prominent place where it can be easily seen by the workers. For the purpose of this clause, contributions made or costs reasonably anticipated under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics subject to the provisions of paragraph e of this Section. Also for the purpose of this clause, regular contributions made or costs incurred for more than a weekly period under plans, funds, or programs, but covering the particular weekly period, are deemed to be constructively made or incurred during such weekly period.

c. The Owner may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, or any bona fide fringe benefits not expressly listed in section 1(b)(2) of the Davis-Bacon Act or otherwise not listed in the wage determination decision of the Secretary of Labor which is included in this Agreement, only when the Secretary of Labor has found, upon the written request of the Owner, that the applicable standards of the Davis-Bacon Act have been met. Whenever practicable, the Owner should request the Secretary of Labor to make such findings before the making of the Agreement. In the case of unfunded plans and programs, the Secretary of Labor may require the Owner to set aside in a separate account assets for the meeting of obligations under the plan or program.

d. The Owner shall comply with the Copeland (Anti-Kickback) Regulations (29 CFR, Part 3) of the Secretary of Labor which are herein incorporated by reference.

e. Any class of laborers or mechanics (including apprentices and trainees) which is not listed in the wage determination and which is to be employed under the Agreement shall be classified or reclassified conformably to the wage determination. In the event that agreement cannot be reached on the proper classification or reclassification of a particular class of laborers and mechanics (including apprentices and trainees) to be used, the question will be referred by HUD to the Secretary of Labor for final determination.

f. Whenever the minimum wage rate prescribed in the Agreement for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly wage rate and the Owner is obligated to pay a cash equivalent of such a fringe benefit, an hourly cash equivalent thereof shall be established. In the event that agreement cannot be reached upon a cash equivalent of the fringe benefit, the question will be referred by HUD to the Secretary of Labor for final determination.

g. (1)(i) Apprentices will be permitted to work as such only when they are registered individually under a bona fide apprenticeship program registered with a State apprenticeship agency which is recognized by the Bureau of Apprenticeship and Training, U.S. Department of Labor; or, if no such recognized agency exists in a State, under a program registered with the Bureau of Apprenticeship and Training, U.S. Department of Labor. The allowable ratio of apprentices to journeymen in any craft classification shall not be greater than the ratio permitted to the Owner as to his entire work force under the registered program. Any employee listed on a payroll at an apprentice wage rate, who is not a trainee as defined in subsection (b) immediately following or is not registered as above, shall be paid the wage rate determined by the Secretary of Labor for the classification of work he actually performed. The Owner will be required to furnish to the other party to this Agreement written evidence of the registration of his program and apprentices, as well as of the appropriate ratios and wage rates for the area of construction prior to using any apprentices on the contract work.

(ii) Trainees will be permitted to work as such when they are bona fide trainees employed pursuant to a program approved by the U.S. Department of Labor, Manpower Administration, Bureau of Apprenticeship and Training, and where subsection (c) immediately following is applicable, in accordance with the provisions of paragraph g(2) of this Section.

(iii) On contracts in excess of $10,000 the employment of all laborers and mechanics, including apprentices and trainees, as defined in 29 CFR Section 5.2(c) shall also be subject to the provisions of paragraph g(2) of this Section. Apprentices and trainees shall be hired in accordance with the provisions of paragraph g(2).

(2) The Owner agrees that:

(i) He will make a diligent effort to hire for the performance of the Agreement a number of apprentices or trainees, or both, in each occupation, which bears to the average number of the journeymen in that occupation to be employed in the performance of the Agreement the applicable ratio as determined by the Secretary of Labor;

(ii) He will assure that 25 percent of such apprentices or trainees in such occupation are in their first year of training, where feasible. Feasibility here involves a consideration of (A) the availability of training opportunities for first year apprentices, (B) the hazardous nature of the work for beginning workers, (C) excessive unemployment of apprentices in their second and subsequent years of training;

(iii) During the performance of the Agreement he will, to the greatest extent possible, employ the number of apprentices or trainees necessary to meet currently the requirements of (i) and (ii) immediately preceding;

(iv) He will maintain records of employment by trade of the number of apprentices and trainees, apprentices and trainees by first year of training, and of journeymen, and the wages paid and hours of work of such apprentices, trainees and journeymen; and he will make these records available for inspection upon request of the Department of Labor and HUD;

(v) If he claims compliance based on the criterion stated in 29 CFR Section 5a.4(b), he will maintain records of employment, as described in the immediately preceding paragraph, on non-Federal and nonfederally assisted construction work done during the performance of the contract in the same labor market area; and he will make these records available for inspection upon request of the Department of Labor and HUD;

(vi) He will supply one copy of the written notices required in accordance with 29 CFR Section 5a.4(c) at the request of Government compliance officers, and will supply at three-month intervals during the performance of the Agreement and after completion of Agreement performance a statement describing steps taken toward making a diligent effort and containing a breakdown by craft, of hours worked and wages paid for first year apprentices and trainees, other apprentices and trainees, and journeymen. One copy of the statement will be sent to HUD and one to the Secretary of Labor.

2.7 *Submittal of payrolls and related reports.*

a. Payrolls and basic records relating thereto shall be maintained during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics employed in the construction of the project. Such records shall contain the name and address of each such employee, his correct classification, rates of pay (including rates of contributions or costs anticipated of the types described in section 1(b)(2) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid. Whenever the Secretary of Labor has found under Section 2.6c that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Owner shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost curred in providing such benefits.

b. The Owner shall submit weekly to the other party to this Agreement such copies and summaries of all his payrolls and those of each of his subcontractors as such other party may require. Each payroll and summary shall be accompanied by a statement signed by the employer or his agent indicating that the payrolls are correct and complete, that the wage rates contained therein are not less than those determined by the Secretary of Labor, and that the classifications set forth for each laborer or mechanic conform with the work he performed. A submission of a "Weekly Statement of Compliance," which is required under this Agreement and the Copeland Regulations of the Secretary of Labor (29 CFR, Part 3), and the filing with the initial payroll or any subsequent payroll of a copy of any findings by the Secretary of Labor under Section 2.6c shall satisfy this requirement. The Owner shall make the records required under the labor standards clauses of this Agreement available for inspection by authorized representatives of HUD and the Department of Labor, and will permit such representatives to interview employees during working hours on the job.

c. The Owner shall also furnish to the other parties to this Agreement any other information or certifications relating to employees in such form as such other party may request.

2.8 *Disputes concerning wage rates and classifications of labor.*

a. All disputes concerning prevailing wage rates or classifications arising under this Agreement involving (1) significant sums of money, (2) large groups of employees, or (3) novel or unusual situations shall be promptly reported to HUD for decision or, at the option of HUD, referral to the Secretary of Labor of the United States. The deci-

[1] As used in Sections 2.6 through 2.11, "HUD" means the United States of America acting through the Department of Housing and Urban Development. Strike Sections 2.6 through 2.11 if the project involves fewer than nine Contract units.

sion of HUD or the Secretary of Labor, as the case may be, shall be final.

b. All questions arising under this Agreement relating to the application or interpretation of the Copeland (Anti-Kickback) Act shall be referred to the Secretary of Labor of the United States for ruling or interpretation, and such ruling or interpretation shall be final.

2.9 *Wage claims and adjustments.* In cases of underpayment of salaries or wages to any laborers or mechanics (including apprentices and trainees) by the Owner (or any of his subcontractors), the Owner shall be required to place an amount in escrow, as determined by HUD, sufficient to pay persons employed on the work covered by the Agreement the difference between the salaries or wages actually paid such employees for the total number of hours worked, and the amounts withheld may be disbursed by HUD for and on account of the Owner or the subcontractor to the respective employees to whom they are due.

2.10 *Contract work hours and safety standards act—overtime compensation.*

a. Neither the Owner nor any subcontractor contracting for any part of the work which may require or involve the employment of laborers or mechanics shall require or permit any laborer or mechanic in any workweek in which he is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in excess of eight hours in any calendar day or in excess of forty hours in any such workweek, as the case may be.

b. In the event of any violation of the clause set forth in paragraph a of this Section, the Owner and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. In addition, such Owner and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed, with respect to each individual laborer or mechanic employed in violation of the clause set forth in paragraph a of this Section, in the sum of $10 for each calendar day on which such employee was required or permitted to work in excess of eight hours or in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph a.

c. The Owner shall deposit in escrow such amounts determined by HUD to be necessary to satisfy any liability of the Owner or any subcontractor for liquidated damages as provided in paragraph b of this Section.

2.11 *Termination; debarment; subcontracts.*

a. A breach of the provisions of the foregoing Sections 2.6, 2.7, 2.8, 2.9, and 2.10 may be grounds for termination of this Agreement and for debarment as provided in 29 CFR Section 5.6.

b. The Owner shall insert in any subcontracts Sections 2.6 (and with respect to Section 2.6g(2), copies of 29 CFR Sections 5a.4, 5a.5, 5a.6 and 5a.7 shall be attached), 2.7, 2.8, 2.9, 2.10, and 2.11a. and also a clause requiring the subcontractors to include these Sections in any lower tier subcontract which they may enter into, together with a clause requiring this insertion in any further subcontracts has may in turn be made.

2.12 *Disputes.*

a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Agreement which is not disposed of by agreement of the PHA and the Owner may be submitted by either party to the Department of Housing and Urban Development field office director who shall make a decision and shall mail or otherwise furnish a written copy thereof to the Owner and the PHA.

b. The decision of the field office director shall be final and conclusive unless, within 30 days from the date of receipt of such copy, either party mails or otherwise furnishes to the Government a written appeal addressed to the Secretary of Housing and Urban Development. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this Section, the appellant shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, both parties shall proceed diligently with the performance of the Agreement and in accordance with the decision of the field office director.

c. This Section does not preclude consideration of questions of law in connection with decisions rendered under paragraphs a and b of this Section: Provided, however, that nothing herein shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

2.13 *Interest of members, officers, or employees of PHA, members of local governing body, or other public officials.* No member, officer or employee of the PHA, no member of the governing body of the locality (city and county) in which the project is situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Agreement or in any proceeds or benefits arising therefrom.

2.14 *Interest of member of or delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Agreement or to any benefits which may arise therefrom.

2.15 *Nonassignability.*

a. The Owner agrees that he has not made and will not make any sale, assignment, or conveyance or transfer in any other form, of this Agreement or the project or any part thereof or any of his interest therein, without the prior consent of the PHA and the Government; Provided, however, that in the case of an assignment as security for the purpose of obtaining financing of the project, the PHA and the Government shall consent in writing if the terms of the financing have been approved by the Government. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees that he will not change to a different developer from the one named in the preamble of this Agreement, except with the prior consent of the PHA and the Government.

c. The Owner agrees that the approved developer has not made, and will not make, except with the prior consent of the PHA and the Government, any assignment or transfer in any form of the developer's contract to construct the project, or of any part thereof, or any of the developer's interests therein.

d. The Owner agrees to notify the PHA and the Government promptly of any proposed action covered by paragraph a or b or c of this Section. The Owner further agrees to request the written consent of the PHA and the Government in regard thereto, except in the case of an assignment as security as provided in paragraph a of this Section.

e. For the purpose of this Section, a transfer of stock in the Owner or developer in whole or in part, by a party holding ten percent or more of the stock of said Owner or developer, or a transfer by more than one stockholder or the owner of 10 percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner or developer or the degree thereof, by any other method or means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Agreement, the project or the construction contract. With respect to this provision, the Owner, and the party signing this Agreement on behalf of said Owner, represent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect thereto.

APPENDIX V—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—HOUSING ASSISTANCE PAYMENTS CONTRACT—NEW CONSTRUCTION—PRIVATE-OWNER/PHA PROJECT

PART I

This Housing Assistance Payments Contract ("Contract") is entered into by and between the _____ ("PHA"), which is a public housing agency as defined in the United States Housing Act of 1937, 42 U.S.C. 1437, et seq. ("Act"), at section 1437a(6), and _____ ("Owner"), and approved by the United States of America acting through the Department of Housing and Urban Development ("Government"), pursuant to the Act and the Department of Housing and Urban Development Act, 42 U.S.C. 3531, et seq.

The parties hereto agree as follows:

1.1 Significant dates and other items; contents of contract. a. *Effective Date of Contract.* The effective date of this Contract is _____, 19___. [This date shall be no earlier than the date of approval by the Government.]

b. *Initial Term of Contract.* The initial term of this Contract (see Section 1.4a) shall be ___ years [not to exceed five years], beginning with the effective date of this Contract and ending _____, 19___.

c. *Number and Length of Optional Additional Terms.* The number and length of optional additional terms (see Section 1.4a) shall be _____ terms of ___ year each [not to exceed five years each].

d. *Maximum Total Term of Contract.* The maximum total term of this Contract, including renewals (see Section 1.4a) shall be ___ years. [Insert 20, except in the case of (1) a project owned by, or financed by a loan or loan guarantee from, a State or local agency or (2) a mobile homes project. Under either of these exceptions, insert number as specifically authorized by the Government pursuant to 24 CFR Section 1273.103(g), not to exceed 40 in the case of exception (1) or 20 in the case of exception (2).]

e. *Fiscal Year.* The ending date of each Fiscal Year (see Section 1.4b) shall be _____ [insert March 31, June 30, September 30, or December 31, as determined by the Government].

f. *Annual Contributions Contract.* The Annual Contributions Contract applicable to this Contract ("ACC") (see Section 1.5a) is the ACC dated _____ with respect to Project No. _____.

g. *Maximum Housing Assistance Commitment.* The maximum amount of the commitment for housing assistance payments under this Contract (see Section 1.6a) is $_____ per annum. [Enter amount specified in the ACC for housing assistance payments.]

h. *Contents of Contract.* This Contract consists of Part I, Part II, and the following exhibits:

Exhibit A: The schedule showing the number of units by size ("Contract Units") and their applicable rents ("Contract Rents");

Exhibit B: The Project Description;

Exhibit C: The statement of services, maintenance and utilities to be provided by Owner;

Exhibit D: The Affirmative Fair Housing Marketing Plan, if applicable; and

Additional exhibits: [Specify additional exhibits, if any. If none, insert "None."]

This Contract, including said exhibits, comprises the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein.

1.2 *Owner's warranties.* a. *Legal Capacity.* The Owner warrants that he has the legal right to execute this Contract and to lease dwelling units covered by this Contract.

b. *Completion of Work.* The Owner warrants that the project as described in Exhibit B is in good and tenantable condition and that all work has been completed in accordance with the terms and conditions of the Agreement to Enter into Housing Assistance Payments Contract ("Agreement") or will be completed in accordance with the terms on which the project was accepted. The Owner further warrants that he will remedy any defects or omissions covered by this warranty if called to his attention within 12 months of the effective date of this Contract.

1.3 *Families to be housed; PHA assistance.* a. *Families To Be Housed.* The Contract Units are to be leased by the Owner to eligible lower-income families ("Families") for use and occupancy by such Families solely as private dwellings.

b. *PHA Assistance.* (1) The PHA hereby agrees to make housing assistance payments on behalf of Families for the Contract Units, to enable such Families to lease Decent, Safe, and Sanitary housing pursuant to section 8 of the Act. Such housing assistance payments shall equal the difference between the Contract Rents for units leased by Families and the portion of such rents payable by Families as determined by the Owner in accordance with schedules and criteria established by the Government.

(2) If there is an Allowance for Utilities and Other Services and if such Allowance exceeds the Gross Family Contribution, the Owner shall pay the Family the amount of such excess on behalf of the PHA upon receipt of funds from the PHA for that purpose.

1.4 *Term of contract; fiscal year.* a. *Term of Contract.*

[Alternative provisions—incorporate alternative 1, 2, or 3, as applicable.]

Alternative 1—General: The initial term of this Contract shall be as stated in Section 1.1b. This Contract may be renewed, at the sole option of the Owner, for the number and length of additional terms stated in Section 1.1c, provided that the total Contract term for any unit, including renewals, shall not exceed the number of years stated in Section 1.1d. Renewal shall be automatic unless the Owner notifies the PHA, no later than 60 days prior to the expiration of the current term, of his intention not to renew. If the project is accepted in stages, the dates for the Initial term and renewal terms shall be separately related to the units in each stage: *Provided, however,* That the total Contract term for the units in all the stages, counting from the effective date of the Contract with respect to the first stage, shall not exceed the total Contract terms stated in Section 1.1d, plus two years.

Alternative 2—For mobile homes project: In the case of mobile homes, the initial term of this Contract for each mobile home shall be as stated in Section 1.1b. This Contract shall be renewed, as may be mutually agreed upon by the Owner and the PHA with the approval of the Government, with respect to any mobile home, for the number and length of additional terms as stated in Section 1.1c, provided that the total Contract term for any mobile home, including renewals, shall not exceed the number of years stated in Section 1.1d. Renewals shall become effective only if either party gives written notice, no later than 60 days prior to the expiration of the current term, of his desire to renew, and the other party concurs or fails to object before the expiration of the current term. If the project is accepted in stages, the dates for the initial term and renewal terms shall be separately related to the mobile homes in each stage; *Provided, however,* That the total Contract term for the mobile homes in all the stages, counting from the effective date of the Contract with respect to the first stage, shall not exceed the total Contract term stated in Section 1.1d, plus two years. For purposes of this paragraph a, the term "mobile home" means the original mobile home and any replacement(s), combined.

b. *Fiscal Year.* The Fiscal Year for the project shall be the 12-month period ending on the date stated in Section 1.1e; Provided, however that the first Fiscal Year for the project shall be the period beginning with the effective date of the Contract and ending on the last day of said established Fiscal Year which is not less than 12 months after such effective date. If the first Fiscal Year exceeds 12 months, the maximum total annual housing assistance payment in Section 1.6a may be adjusted by the addition of the pro rata amount applicable to the period of operation in excess of 12 months.

1.5 *Annual contributions contract.* a. *Identification of Annual Contributions Contract.* The PHA has entered into an Annual Contributions Contract with the Government as identified in Section 1.1f, under which the Government will provide financial assistance to the PHA pursuant to section 8 of the Act, for the purpose of making housing assistance payments. A copy of the ACC shall be provided upon request.

b. *PHA Pledge of Certain ACC Payments.* The PHA hereby pledges to the payment of housing assistance payments pursuant to this Contract the portion of annual contributions payable under the ACC for such housing assistance payments. The PHA shall not, without the consent of the Owner, amend or modify the ACC in any manner which would reduce the amount of such annual contributions, except as authorized in the ACC and this Contract.

c. *Government Approval of Housing Assistance Payments Contract.* The approval of this Contract by the Government signifies that the Government has executed the ACC and that the ACC has been properly authorized; that the faith of the United States is solemnly pledged to the payment of annual contributions pursuant to said ACC; and that funds have been obligated by the Government for such payments to assist the PHA in the performance of its obligations under the Contract.

1.6 *Maximum housing assistance commitment; project reserve.* a. *Maximum Housing Assistance Commitment.* Notwithstanding any other provisions of this Contract (other than paragraph b of this Section) or any provisions of any other contract between the PHA and the Owner, the PHA shall not be obligated to make and shall not make any housing assistance payments under this Contract in excess of the amount per annum stated in Section 1.1g; *Provided, however,* That this amount shall be reduced commensurate with any reduction in the number of units under this Contract.

b. *Project Reserve.* As provided in the ACC, a project account shall be established and maintained, in an amount as determined by the Government consistent with its responsibilities under section 8(c)(6) of the Act, out of amounts by which the maximum annual ACC commitment exceeds amounts paid under the ACC for any Fiscal Year. This account shall be established and maintained by the Government as a specifically identified and segregated account. To the extent funds are available in said account, the maximum total annual housing assistance payments for any Fiscal Year may exceed the maximum amount stated in paragraph a of this Section to cover increases in Contract Rents or decreases in Family incomes (see Section 1.9). Any amount remaining in said account after payment of the last housing assistance payment with respect to the project shall be applied by the Government in accordance with law.

1.7 *Housing assistance payments to owners.* a. *General.* (1) Housing assistance payments shall be paid to the Owner for units under lease by Families in accordance with the Contract. The housing assistance payment will pay the Owner the difference between the Contract Rent and that portion of said rent payable by the Family as determined in accordance with the Government-established schedules and criteria.

(2) The Owner shall be entitled to Contract Rents in accordance with the terms of this Contract. The amount of housing assistance payment payable on behalf of a Family and the amount of rent payable by such Family shall be subject to change by reason of changes in Family income, Family composition, extent of exceptional medical or other unusual expenses, or by reason of adjustment by the Government of any applicable Allowance for Utilities and Other Services. Any such change shall be determined in accordance with the Government-established schedules and criteria, and shall be effective as of the date stated in a notification of such change to the Family.

b. *Vacancies During Rent-up.* If a Contract Unit is not leased as of the effective date of the Contract, the Owner shall be entitled to housing assistance payments in the amount of 80 percent of the Contract Rent for the unit for a vacancy period not exceeding 60 days from the effective date of the Contract, provided that the Owner (1) commenced marketing and otherwise complied with Section 1.3b of the Agreement, (2) has taken and continues to take all feasible actions to fill the vacancy, including, but not limited to, contacting applicants on his waiting list, requesting the PHA and other appropriate sources to refer eligible applicants, and advertising the availability of the unit, and (3) has not rejected any eligible applicant, except for good cause acceptable to the PHA.

c. *Vacancies After Rent-Up.* (1) If a Family vacates its unit (other than as a result of action by the Owner which is in violation of the Lease or the Contract or any applicable law), the Owner shall receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days; *Provided, however,* That if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to the Government or as the Government may direct. (See also Section 1.10b.) The Owner shall not be entitled to any payment under this subparagraph unless he: (i) immediately upon learning of the vacancy, has notified the PHA of the vacancy or prospective vacancy and the reasons for the vacancy, and (ii) has taken and continues to take the actions specified in paragraphs b(2) and b(3) of this Section.

(2) If the Owner proposes to evict a Family, he shall not be entitled to any payment under paragraph c(1) of this Section unless the request for such payment is supported

[If the project is to be completed and ac-

V 39 N 251 DEC 30 1974
XUM
V

by a certification that (1) he has given such Family a written notice of the proposed eviction, stating the grounds and advising the Family that it has 10 days within which to present its objections to the Owner in writing or in person and (ii) the proposed eviction is not in violation of the Lease or the Contract or any applicable law.

d. *Limitation on Payments for Vacant Units.* The Owner shall not be entitled to housing assistance payments with respect to vacant units under this Section to the extent he is entitled to payments from other sources (e.g., payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the Housing and Community Development Act of 1974 or payments under Section 1.10b of this Contract.

(e) *PHA Not Obligated for Family Rent.* The PHA has not assumed any obligation for the amount of rent payable by any Family or the satisfaction of any claim by the Owner against any Family other than in accordance with Section 1.10b of this Contract. The financial obligation of the PHA is limited to making housing assistance payments on behalf of Families in accordance with this Contract.

f. *Owner's Monthly Requests for Payments.* (1) The Owner shall submit monthly requests to the PHA or as directed by the PHA for housing assistance payments. Each such request shall set forth: (i) the name of each Family and the address and/or number of the unit leased by the Family; (ii) the address and/or the number of units, if any, not leased to Families for which the Owner is claiming payments; (iii) the Contract Rent as set forth in Exhibit A for each unit for which the Owner is claiming payments; (iv) the amount of rent payable by the Family leasing the unit; and (v) the total amount of housing assistance payments requested by the Owner.

(2) Each of the Owner's monthly requests shall contain a certification by him that to the best of his knowledge and belief (i) the dwelling unit is in Decent, Safe, and Sanitary condition, (ii) all the other facts and data on which the request for funds is based are true and correct, (iii) the amount requested has been calculated in accordance with the provisions of this Contract and is payable under the Contract, and (iv) none of the amount claimed has been previously claimed or paid.

(3) If the Owner has received an excessive payment, the PHA or the Government, in addition to any other rights to recovery, may deduct the amount from any subsequent payment or payments.

(4) The Owner's monthly requests for housing assistance payments shall be made subject to penalty under 18 U.S.C. 1001, which provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

1.8 *Maintenance, operation and inspection.* a. *Maintenance and Operation.* The Owner agrees (1) to maintain and operate the Contract Units and related facilities so as to provide Decent, Safe, and Sanitary housing, and (2) to provide all the services, maintenance and utilities set forth in Exhibit C. If the PHA determines that the Owner is not meeting any of these obligations, the PHA shall have the right, in addition to its other rights and remedies under this Contract, to abate housing assistance payments in whole or in part.

b. *Inspection.* (1) Prior to occupancy of any unit by a Family, the Owner and the Family shall inspect the unit and both shall certify, on the form prescribed by the Government, that they have inspected the unit and have determined it to be Decent, Safe, and Sanitary in accordance with the criteria provided in the prescribed form.

(2) The PHA shall inspect or cause to be inspected each Contract Unit and related facilities at least annually and at such other times (including prior to initial occupancy of any unit) as the PHA may determine to be necessary to assure that the Owner is meeting his obligation to maintain the units in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. The PHA shall take into account complaints by occupants and any other information coming to its attention in scheduling inspections.

c. *Units Not Decent, Safe, and Sanitary.* If the PHA notifies the Owner that he has failed to maintain a dwelling unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action within the time prescribed in the notice, the PHA may exercise any of its rights or remedies under the Contract, including abatement of housing assistance payments, even if the Family continues to occupy the unit. If, however, the Family wishes to be rehoused in another dwelling unit with Section 8 assistance and the PHA does not have other Section 8 funds for such purposes, the PHA may use the abated housing assistance payments for the purpose of rehousing the Family in another dwelling unit. Where this is done, the Owner shall be notified that he will be entitled to resumption of housing assistance payments for the vacated dwelling unit if (1) the unit is restored to Decent, Safe, and Sanitary condition, (2) the Family is willing to and does move back into the restored unit, and (3) a deduction is made for the expenses incurred by the Family for both moves.

d. *Notification of Abatement.* Any abatement of housing assistance payments shall be effective as provided in written notification to the Owner. The PHA shall promptly notify the Family of any such abatement.

e. *Overcrowded and Underoccupied Units.* If the PHA determines that a Contract Unit is not Decent, Safe, and Sanitary by reason of overcrowding, or that a Contract unit is larger than appropriate for the size of the Family in occupancy, housing assistance payments with respect to such unit will not be abated, unless the Owner fails to offer the Family a suitable unit as soon as one becomes vacant and ready for occupancy. In the case of an overcrowded unit, if the Owner does not have any suitable units or if no vacancy of a suitable unit occurs within a reasonable time, the PHA will assist the Family in finding a suitable dwelling unit and require the Family to move to such a unit as soon as possible. The Owner may receive housing assistance payments for the vacated unit if he complies with the requirements of Section 1.7c(1).

1.9 *Rent adjustments.* a. *Funding of Adjustments.* Housing assistance payments will be made in increased amounts commensurate with Contract Rent adjustments under this Section up to the maximum total annual housing assistance payments committed under Section 1.6a of this Contract. The provisions of the ACC which are referred to in Section 1.6b of this Contract are designed (by providing for maximum total annual commitments in excess of the amounts required at the time of the initial rental of dwelling units and by setting aside such excess amounts in a project reserve) to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract Rents or decreases in Family incomes. The ACC further provides that the Government will take such additional steps authorized by section 8(c)(6) of the Act as may be necessary to carry out this assurance, including (as provided in that section) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

b. *Automatic Annual Adjustments.* (1) Automatic Annual Adjustment Factors will be determined by the Government at least annually; interim revisions may be made as market conditions warrant. Such Factors and the basis for their determination will be published in the FEDERAL REGISTER. These published Factors will be reduced appropriately by the Government where utilities are paid directly by the Families.

(2) On each anniversary date of the Contract, the Contract Rents shall be adjusted by applying the applicable Automatic Annual Adjustment Factor most recently published by the Government. Contract Rents may be adjusted upward or downward, as may be appropriate; however, in no case shall the adjusted Contract Rents be less than the Contract Rents on the effective date of the Contract.

c. *Special Additional Adjustments.* Special additional adjustments may be granted, when approved by the Government, to reflect increases in the actual and necessary expenses of owning and maintaining the Contract Units which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner clearly demonstrates that such general increases have caused increases in the Owner's operating costs which are not adequately compensated for by automatic annual adjustments. The Owner shall submit to the Government financial statements which clearly support the increase.

d. *Overall Limitation.* Notwithstanding any other provisions of this Contract, adjustments as provided in this Section shall not result in material differences between the rents charged for assisted and comparable unassisted units, as determined by the Government.

e. *Incorporation of Rent Adjustment.* Any adjustment in Contract Rents shall be incorporated into Exhibit A by a dated addendum to the exhibit.

1.10. *Marketing and leasing of units.* a. *Compliance with Equal Opportunity.* Marketing of units and selection of Families by the Owner shall be in accordance with the Owner's Government-approved Affirmative Fair Housing Marketing Plan, shown as Exhibit D, and with all regulations relating to fair housing advertising.

b. *Security and Utility Deposits.* (1) The Owner may require Families to pay a security deposit in an amount equal to one month's Gross Family Contribution. If a Family vacates the unit, the Owner may utilize the deposit as reimbursement for any unpaid rent or damage caused by the Family. If the Family has provided a security deposit, and it is insufficient for such reimbursement, the Owner may claim reimbursement from HUD or the PHA, as appropriate, not to exceed an amount equal to the remainder of one month's Contract Rent. If a Family vacates the unit owing no rent and causing no damage to the unit or if the amount of unpaid rent and/or damage is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance, as the case may be, to the Family.

(2) In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include such interest. All security deposit funds shall be deposited by the Owner in a segregated bank account, and the balance of this account, at all times, shall be equal to the total amount collected from tenants then

in occupancy, plus any accrued interest. The Owner must comply with all State and local laws regarding interest payments on security deposits.

(3) Families shall be expected to obtain the funds to pay security and utility deposits, if required, from their own resources and/or other private or public sources.

c. *Eligibility, Selection and Admission of Families.* (1) The Owner shall be responsible for determination of eligibility of applicants, selection of families from among those determined to be eligible, and computation of the amount of housing assistance payments on behalf of each selected Family in accordance with schedules and criteria established by the Government. In the initial renting of the Contract Units, the Owner shall lease at least 30 percent to Very Low-Income Families (determine in accordance with the Government-established schedules and criteria) and shall thereafter exercise his best efforts to maintain at least 30 percent occupancy of the Contract Units by Very Low-Income Families as determined in accordance with such schedules and criteria.

(2) The Lease entered into between the Owner and each selected Family shall be on the form of Lease approved by the Government.

(3) The Owner shall make a reexamination of Family income, composition, and the extent of medical or other unusual expenses incurred by the Family, at least annually (except that such reviews may be made at intervals of no longer than two years in the case of elderly Families), and appropriate redeterminations shall be made by the Owner of the amount of Family contribution and the amount of housing assistance payment, all in accordance with schedules and criteria established by the Government. In connection with the reexamination, the Owner shall determine what percentage of Families in occupancy are Very Low-Income Families. If there are fewer than 30 percent Very Low-Income Families in occupancy, the Owner shall report the fact to the Government and shall adopt changes in his admission policies to achieve, as soon as possible, at least 30 percent occupancy by such Families.

d. *Rent Redetermination after Adjustment in Allowance for Utilities and Other Services.* In the event that the Owner is notified of a Government determination making an adjustment in the Allowance for Utilities and Other Services applicable to any of the Contract Units, the Owner shall promptly make a corresponding adjustment in the amount of rent to be paid by the affected Families and the amount of housing assistance payments.

e. *Processing of Applications and Complaints.* The Owner shall process applications for admission, notifications to applicants, and complaints by applicants in accordance with applicable Government requirements and shall maintain records and furnish such copies or other information as may be required by the Government.

f. *Review; Incorrect Payments.* In making housing assistance payments to Owners, the PHA or the Government will review the Owner's determinations under this Section. If as a result of this review, or other reviews, audits or information received by the PHA or the Government at any time, it is determined that the Owner has received improper or excessive housing assistance payments, the PHA or the Government shall have the right to deduct the amount of such overpayments from any amounts otherwise due the Owner, or otherwise effect recovery thereof.

1.11 *Termination of tenancy.* The Owner shall be responsible for termination of tenancies, including evictions. However, conditions for payment of housing assistance payments for any resulting vacancies shall be as set forth in Section 1.7c.

1.12 *Reduction of number of contract units for failure to lease to eligible families.* a. *Twelve Months after Effective Date of Contract.* If at any time, beginning six months after the effective date of this Contract, the Owner fails for a continuous period of six months to have at least 80 percent of the Contract Units leased or available for leasing by Families, the PHA, with Government approval, may on 30 days notice reduce the number of Contract Units to not less than the number of units under lease or available for leasing by Families, plus 10 percent of such number, if that number is 10 or more, rounded to the next highest number.

b. *At End of Initial and Each Renewal Term.* At the end of the initial term of the Contract and of each renewal term, the PHA, with Government approval, may, by notice to the Owner, reduce the number of Contract Units to not less than (1) the number of units under lease or available for leasing by Families at that time or (2) the average number of units so leased or available for leasing during the last year, whichever is the greater number, plus 10 percent of such number, if the number is 10 or more, rounded to the next highest number.

(c) *Restoration of Units.* Any reduction pursuant to paragraphs a or b of this Section shall not preclude subsequent restoration of Contract units if contract authority is available and if the Government determines that the restoration is justified as a result of changes in demand and in the light of the Owner's record of compliance with his obligations under the Contract.

1.13. *Responsibility for administration of Contract.* The PHA is primarily responsible for administration of the Contract. However, if the PHA is the lender, the following shall apply:

(a) The Government shall have the right to make independent audits, reviews, and determinations as to compliance by the Owner with any or all of his obligations under the Contract.

(b) In the event the Government determines that the Owner is in default with respect to any or all of his obligations, the Government shall have the right to take direct action (as if the Government were the party to the Contract primarily responsible for its administration) to enforce any or all available remedies, including, but not limited to, abatement of housing assistance payments, collection of payments previously made in violation of the contract, and termination of the Contract in whole or in part.

(c) The Owner hereby expressly agrees to recognize the rights of the Government in the event it takes any action under this Section in the same manner and to the same extent as if the action were taken by the PHA.

(c) The Owner hereby expressly agrees to recognize the rights of the Government in the event it takes any action under this Section in the same manner and to the same extent as if the action were taken by the PHA.

WARNING: 18 U.S.C. 1001 provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—HOUSING ASSISTANCE PAYMENTS CONTRACT—NEW CONSTRUCTION—PRIVATE-OWNER PHA PROJECT

PART II

2.1 *Nondiscrimination in housing.* a. The Owner shall not in the selection of Families, in the provision of services, or in any other manner, discriminate against any person on the grounds of race, color, creed, religion, sex, or national origin. No person shall be automatically excluded from participation in, or be denied the benefits of the Housing Assistance Payments Program because of membership in a class such as unmarried mothers, recipients of public assistance, etc.

b. The Owner shall comply with all requirements imposed by Title VIII of the Civil Rights Act of 1968, and any rules and regulations pursuant thereto.

c. The Owner shall comply with all requirements imposed by Title VI of the Civil Rights Act of 1964, Public Law 88-352, 78 Stat. 241; the regulations of the Department of Housing and Urban Development issued thereunder, 24 CFR, Subtitle A, Part 1, Section 1.1, et seq.; the requirements of said Department pursuant to said regulations; and Executive Order 11063 to the end that, in accordance with that Act, the regulations and requirements of said Department thereunder, and said Executive Order, no person in the United States shall, on the ground of race, color, creed, religion or national origin, be excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program, or be otherwise subjected to discrimination. This provision is included pursuant to the regulations of the Department of Housing and Urban Development, 24 CFR, Subtitle A, Part 1, Section 1.1, et seq.; issued under Title VI of the said Civil Rights Act of 1964, and the requirements of said Department pursuant to said regulations; and the obligation of the Owner to comply therewith inures to the benefit of the Government, of the said Department, and the PHA any of which shall be entitled to invoke any remedies available by law to redress any breach thereof or to compel compliance therewith by the Owner.

2.2 *Training, employment, and contracting opportunities for businesses and lower-income persons.*[1] a. The project assisted under this Contract is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

b. Notwithstanding any other provision of this Contract, the Owner shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135 (published in 38 Federal Register 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this Contract. The requirements of said regulations include, but are not limited to, development and implementation of an affirmative action plan for utilizing business concerns located within, or owned in substantial part by persons residing in, the area of the project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by section 135.20(b) of the regulations and paragraph d of this Section in all contracts for work in connnection with the project. The Owner certifies and agrees that he is under no contractual or other disability which would prevent him from complying with these requirements.

c. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this Contract, shall be a condition of the Federal financial assistance provided to the project, binding upon the Owner, his successors and assigns. Failure to fulfill these requirements shall subject the Owner, his contractors and subcontractors, his successors, and assigns to the sanction specified by this Contract, and to such sanctions as are specified by 24 CFR Section 135.135.

d. The Owner shall incorporate or cause to be incorporated into any contract or subcontract for work pursuant to this Contract in excess of $50,000 cost, the following clause:

"EMPLOYMENT OF PROJECT AREA RESIDENTS AND CONTRACTORS

"A. The work to be performed under this Contract is on a project assisted under a program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

"B. The parties to this Contract will comply with the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this Contract. The parties to this Contract certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

"C. The contractor will send to each labor organization or representative of workers with which he has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of his commitments under this section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

"D. The contractor will include this section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the subcontractor is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR, Part 135. The contractor will not subcontract with any subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR, Part 135, and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

"E. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of the Contract, shall be a condition of the Federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors, and assigns. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors, and assigns to those sanctions specified by the grant or loan agreement or contract through which Federal assistance is provided, and to such sanctions as are specified by 24 CFR Section 135.135."

e. The Owner agrees that he will be bound by the above Employment of Project Area Residents and Contractors clause with respect to his own employment practices when he participates in federally assisted work.

2.3 *Cooperation in equal opportunity compliance reviews.* The PHA and the Owner shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.4 *Flood insurance.* If the project is located in an area that has been identified by the Secretary of Housing and Urban Development as an area having special flood hazards and if the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, the Owner agrees that the project will be covered, during its anticipated economic or useful life, by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less.

2.5 *Clean Air Act and Federal Water Pollution Control Act.*[2] In compliance with regulations issued by the Environmental Protection Agency ("EPA"), 40 CFR, Part 15, 39 F.R. 11099, pursuant to the Clean Air Act, as amended ("Air Act"), 42 U.S.C. 1857, et seq., the Federal Water Pollution Control Act, as amended ("Water Act"), 33 U.S.C. 1251, et seq., and Executive Order 11738, the Owner agrees that:

a. Any facility to be utilized in the performance of this Contract or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to section 15.20 of said regulations;

b. He will promptly notify the PHA of the receipt of any communication from the EPA indicating that a facility to be utilized for the Contract is under consideration to be listed on the EPA List of Violating Facilities;

c. He will comply with all the requirements of section 114 of the Air Act and section 308 of the Water Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and section 308 of the Air Act and the Water Act, respectively, and all regulations and guidelines issued thereunder; and

d. He will include or cause to be included the provisions of this Section in every nonexempt subcontract, and that he will take such action as the Government may direct as a means of enforcing such provisions.

2.6 *Reports and access to premises and records.* a. The Owner shall furnish such information and reports pertinent to the Contract as reasonably may be required from time to time by the PHA or the Government.

b. The Owner shall permit the PHA or the Government or any of their duly authorized representatives to have access to the premises and, for the purpose of audit and examination, to have access to any books, documents, papers and records of the Owner that are pertinent to compliance with this Contract, including the verification of information pertinent to the monthly requests for housing assistance payments.

2.7 *Default by the owner.* a. A default by the Owner under this Contract shall result if:

(1) The Owner has violated or failed to comply with any provision of, or obligation under, this Contract or of any Lease; or

(2) The Owner has asserted or demonstrated an intention not to perform some or

[1] Strike this Section if the Contract Rents on the effective date of this Contract, over the maximum term of this Contract, are $500,000 or less.

[2] Strike this Section if the Contract Rents on the effective date of this Contract, over the maximum total term of this Contract, are $100,000 or less.

all of his obligations under this Contract or under any Lease.

b. Upon a determination by the PHA that a default has occurred, the PHA, with approval of the Government, shall notify the Owner of the nature of the default of the actions required to be taken on account of the default (including the curing of the default by the Owner, the abatement of housing assistance payments in whole or in part, where appropriate, or any combination of actions), and of the time within which the Owner shall respond with a showing that he has taken all the actions required of him. If the Owner fails to respond or take action to the satisfaction of the PHA and the Government, the PHA shall take appropriate actions as directed or approved by the Government, to achieve compliance or to terminate the Contract in whole or in part.

2.8 *Default by the PHA.* The ACC states that the ACC provisions quoted in this Section are made with, and for the benefit of, the Owner or his assignees who will have been specifically approved by the Government prior to such assignment, and that to enforce the performance of these provisions, the Owner and such assignees shall have the right to proceed against the Government by suit at law or in equity. Upon the determination by the Government that a default by the PHA has occurred, the following provisions of the ACC (which is hereby made a part of this Contract), shall be applicable:

"(b) *Failure or Inability of PHA to Comply with Contract.* In the event of failure of the PHA to comply with the Contract with the Owner, or if such Contract is held to be void, voidable or ultra vires, or if the power or right of the PHA to enter into such Contract is drawn into question in any legal proceeding, or if the PHA asserts or claims that such Contract is not binding upon the PHA for any such reason, the Government may, after reasonable notice to the PHA, determine that the occurrence of any such event, if the Owner is not in default, constitutes a Substantial Default hereunder. In such case, the Government will assume the PHA's rights and obligations under such Contract, and the Government shall, for the duration of such Contract, continue to pay Annual Contributions for the purpose of making housing assistance payments with respect to dwelling units under such Contract, shall perform the obligations and enforce the rights of the PHA, and shall exercise such other powers as the Government may have to cure the Default.

* * * * *

"(d) *Return of Rights and Obligations to PHA.* All rights and obligations of the PHA assumed by the Government pursuant to this Section 2.17 will be returned as constituted at the time of such return (1) when the Government is satisfied that all defaults have been cured and that the Project will thereafter be administered in accordance with all applicable requirements or (2) when the Housing Assistance Payments Contract is at an end, whichever occurs sooner."

2.9 *Remedies not exclusive and non-waiver of remedies.* The availability of any remedy under this Contract shall not preclude the exercise of any other remedy under this Contract or under any provisions of law, nor shall any action taken in the exercise of any remedy be deemed a waiver of any other rights or remedies. Failure to exercise any right or remedy shall not constitute a waiver of the right to exercise that or any other right or remedy at any time.

2.10 *Disputes.* a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Contract which is not disposed of by agreement of the PHA and the Owner may be submitted by either party to the Department of Housing and Urban Development field office director who shall make a decision and shall mail or otherwise furnish a written copy thereof to the Owner and the PHA.

b. The decision of the field office director shall be final and conclusive unless, within 30 days from the date of receipt of such copy, either party mails or otherwise furnishes to the Government a written appeal addressed to the Secretary of Housing and Urban Development. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this Section, the appellant shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, both parties shall proceed diligently with the performance of the Contract and in accordance with the decision of the field office director.

c. This Section does not preclude consideration of questions of law in connection with the decisions rendered under paragraphs a and b of this Section; *Provided, however,* That nothing herein shall be construed as making final the decision of any administrative official, representative, or board, on a question of law.

2.11 *Interest of members, officers, or employees of PHA, members of local governing body or other public officials.* No member, officer, or employee of the PHA, no member of the governing body of the locality (city and county) in which the project is situated, no member of the governing body of the locality in which the PHA was activated, and no other public official of such locality or localities who exercises any functions or responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Contract or in any proceeds or benefits arising therefrom.

2.12 *Interest of member of or delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Contract or to any benefits which may arise therefrom.

2.13 *Nonassignability.* a. The Owner agrees that he has not made and will not make any sale, assignment, or conveyance or transfer in any other form, of this Contract or the project or any part thereof or any of his interest therein, without the prior consent of the PHA and the Government; *Provided, however,* That in the case of an assignment as security for the purpose of obtaining financing of the project, the PHA and the Government shall consent in writing if the terms of the financing have been approved by the Government. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees to notify the PHA and the Government promptly of any proposed action covered by paragraph a of this Section. The Owner further agrees to request the written consent of the PHA and the Government in regard thereto, except in the case of an assignment as security as provided in paragraph a of this Section.

c. For the purpose of this Section, a transfer of stock in the Owner in whole or in part, by a party holding ten percent or more of the stock of said Owner, or a transfer by more than one stockholder or the Owner of ten percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner or the degree thereof, by any other method or means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Contract on the project. With respect to this provision, the Owner and the party signing this Contract on behalf of said Owner, represent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect thereto.

DAVID M. DEWILDE,
Acting Assistant Secretary for Housing Production and Mortgage Credit—FHA Commissioner.

XUM V 39 I 251 DEC 30 74 XUM

Would you like to know IF ANY CHANGES HAVE BEEN MADE IN CERTAIN TITLES OF THE CODE OF FEDERAL REGULATIONS without reading the Federal Register every day? If so, you may wish to subscribe to the "List of CFR Sections Affected."

?

List of CFR Sections Affected — $10.00 per year

The "List of CFR Sections Affected" is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register, and is issued monthly in cumulative form. Entries indicate the nature of the changes.

Also available on a subscription basis . . .

The Federal Register Index — $8.00 per year

Indexes covering the contents of the daily Federal Register are issued monthly and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are also carried.

A finding aid is included at the end of each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Order from: Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

Note to FR Subscribers: FR Indexes and the "List of CFR Sections Affected" will continue to be mailed free of charge to regular FR subscribers.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

contents

AGRICULTURAL MARKETING SERVICE
Rules
Limitation of handling and shipments:
Oranges (navel) grown in Ariz. and Calif. 45206
Onions grown in South Tex. 45208

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 331—PLANT PEST REGULATIONS GOVERNING INTERSTATE MOVEMENT OF CERTAIN PRODUCTS AND ARTICLES

Oriental Fruit Fly; Extension of Regulated Area in California

This document amends the regulation under the Federal Plant Pest Act (7 U.S.C. 150aa et seq.) restricting the interstate movement because of the oriental fruit fly of certain products and articles from regulated portions of San Diego County, California.

The Plant Protection and Quarantine Programs of the Animal and Plant Health Inspection Service began an intensive eradication program following the discovery of an infestation of the oriental fruit fly in September 1974 in San Diego County. The present oriental fruit fly regulated area was established October 10, 1974, in order to prevent the artificial spread of the pest through interstate movement of host material from the infested area into noninfested areas. In addition to the eradication and regulatory measures, an extensive peripheral trapping program has been maintained. Several oriental fruit flies have been trapped outside the present regulated area in San Diego County. Therefore, it now becomes necessary to extend the regulated area to additional portions of San Diego County.

Therefore, pursuant to the provisions of section 106 of the Federal Plant Pest Act (7 U.S.C. 150ee), paragraph (a) of § 331.4, the notice of existence of hazardous situation and regulations related thereto with respect to the oriental fruit fly (7 CFR 331.4(a), 39 FR 36465, 36466) is hereby amended to extend the regulated area in San Diego County, California, to read as follows:

§ 331.4 Notice of existence of emergency and regulations related thereto.

(a) Infestations of the oriental fruit fly, *Dacus dorsalis* H., a dangerous plant pest not widely prevalent or distributed within and throughout the United States, have been found in a portion of San Diego County, California, and it has been determined that it is necessary to adopt, as an emergency measure, a rule imposing restrictions, as provided for in this section, upon the interstate movement of certain products and articles, from the regulated portion of said county as hereinafter described, in order to prevent the interstate dissemination of said plant pest. Accordingly, the products and articles listed in paragraph (b) of this section shall not be moved interstate from that portion of San Diego County, California, bounded by a line beginning at a point where an imaginary line extended due west from the western end of Torrey Pines Scenic Drive intersects the Pacific Ocean; thence easterly along said imaginary line to where it joins and becomes Torrey Pines Scenic Drive; thence easterly along said drive to its junction with North Torrey Pines Road; thence northerly along said road to its junction with Genessee Avenue; thence southeasterly along said avenue to its intersection with Miramar Road; thence easterly along said road to its intersection with Interstate 805; thence southerly along said highway to where its property line joins the southern boundary line of the Miramar Naval Air Station property; thence easterly along the Miramar Naval Air Station property line to its junction with State Highway 163; thence southwesterly along said highway to its intersection with Clairmont Mesa Boulevard; thence easterly along said boulevard to its junction with Interstate 15; thence southerly on said interstate to its intersection with Friars Road; thence easterly along said road to where it joins and becomes Mission Gorge Road; thence northeasterly along Mission Gorge Road to its junction with Woodside Avenue; thence northeasterly along said avenue to its intersection with State Highway 67; thence northeasterly along said highway to its junction with Maine Avenue; thence southerly along Maine Avenue to its junction with Los Coches Road; thence southerly along said road to its junction with Interstate 8; thence easterly along Interstate 8 to its intersection with the range line between Range 1 E and Range 2 E; thence south on said line to its intersection with State Highway 94; thence northwesterly on said highway to its intersection with Otay Lakes Road; thence westerly along said road to its junction with Bonita Road; thence westerly along said road to its junction with E Street, Chula Vista; thence westerly along said street to its junction with Interstate 5; thence north along Interstate 5 to its intersection with 19th Street, National City; thence westerly along said street to its end; thence westerly along an imaginary line projected from the end of 19th Street to the Point Loma Lighthouse, including all of the peninsula of Coronado north of this imaginary line; thence northerly from Point Loma Lighthouse along the California coastline to the point of beginning; unless;

(1) Such products and articles have been treated to destroy oriental fruit fly infestations in accordance with procedures prescribed by the Deputy Administrator, Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, U.S. Department of Agriculture,[1] under the direction of an inspector authorized by the Deputy Administrator, and the products and articles are accompanied by a certificate issued by such an inspector signifying that they are eligible for interstate movement; or

(2) Such products and articles originate in an area in the said regulated portion of San Diego County, which has been inspected by such an inspector, and he has found that the interstate movement of the products and articles from such area will not involve a risk of disseminating said infestations, and the products and articles are accompanied by a certificate issued by such an inspector signifying that they are eligible for interstate movement; or

(3) Such products and articles are moved under permit issued by such an inspector to an approved destination for consumption, processing, or other handling in accordance with procedures prescribed by said inspector, when upon evaluation of the circumstances involved in each specific case he determines that such movement will not result in the spread of the oriental fruit fly and requirements of other applicable Federal domestic plant quarantines have been met.

(Sec. 105, 71 Stat. 32, sec. 106, 71 Stat. 33, sec. 107, 71 Stat. 34 (7 U.S.C. 150dd, 150ee, 150ff); 37 FR 28464, 28477, as amended; 38 FR 19140)

Under this regulation, specific products and articles may be moved interstate from the described portion of San Diego County, California, only if they have been treated or originate in certain areas of said county, or are moved to an approved destination for consumption, processing or other approved handling. Such measures are necessary because an emergency exists as a result of recently discovered infestations of the oriental fruit fly, a dangerous plant pest which is not widely prevalent in the United States.

Inasmuch as such infestation must be controlled immediately to prevent the spread of the oriental fruit fly, it is found

[1] Instructions are available upon request from the Deputy Administrator, Plant Protection and Quarantine Programs, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Hyattsville, MD 20782, or from an inspector.

V 39 N 252 DEC 31 1974 XUM

upon good cause under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure regarding this regulation are impracticable, and unnecessary, and contrary to the public interest, and good cause is found for making said regulation effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing regulation shall become effective on December 31, 1974.

Done at Washington, D.C., this 26th day of December 1974.

LEO G. K. IVERSON,
Deputy Administrator, Plant Protection and Quarantine Programs.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 331, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period December 20-26, 1974. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 331 (39 FR 43811). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i) and (iii) of § 907.631 (Navel Orange Regulation 331 (39 FR 43811) are hereby amended to read as follows:

§ 907.631 Navel Orange Regulation 331.

* * * * *

(b) * * *

(1) * * *

(i) District 1: 720,000 cartons;

(iii) District 3: 80,000 cartons.

* * * * *

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: December 24, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-30455 Filed 12-30-74;8:45 am]

PART 959—ONIONS GROWN IN SOUTH TEXAS

Handling Regulation

This regulation, designed to promote orderly marketing of South Texas onions, imposes minimum grade and size standards and requires inspection of fresh shipments to keep undesirable onions from being shipped to consumers.

Notice of rule making with respect to a proposed handling regulation, to be effective under Marketing Agreement No. 143 and Marketing Order No. 959, both as amended (7 CFR Part 959), regulating the handling of onions grown in the production area, was published in the November 27, and December 10, 1974, FEDERAL REGISTER (39 FR 41380; 43090). This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The notice afforded interested persons through December 16, 1974, to file written data, views or arguments pertaining to that proposal.

One exception was received from the New York Branch of the United Fresh Fruit and Vegetable Association, regarding the increased tolerance for size proposed for "repacker" and "medium" size onions. They stated that the 10 percent tolerance in effect during the previous marketing season is the maximum acceptable to them when purchasing onions. The South Texas Onion Committee submitted a comment supporting the oversize tolerance. During grading, flattened onions such as the Granex variety tend to pass through the sizing holes sideways rather than flat, resulting in oversized onions in the various size categories. Without the proposed 20 percent tolerance, these onions would have to be rerun, resulting in a less efficient packing operation and higher costs. Therefore, the tolerance set forth in the aforementioned notice is in the best interests of the industry.

Findings. After consideration of all relevant matters, including the proposal set forth in the aforesaid notice which was recommended by the South Texas Onion Committee, established pursuant to said marketing agreement and order, it is hereby found and determined that the handling regulation, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

The recommendations of the committee reflect its appraisal of the expected volume and composition of the 1975 early spring crop of South Texas onions and of the marketing prospects for the shipping season which is expected to begin on or about March 10.

The grade and size requirements are similar to last season's and are designed to prevent onions of poor quality or undesirable sizes from being distributed in fresh market channels.

The container requirement is designed to prevent the use of off-size or deceptive containers which could adversely affect the reputation and returns of South Texas onions. However, it does not preclude the use of containers customarily packed for the retail trade. The prohibition on packaging and loading onions on Sunday is designed to provide more orderly marketing by tailoring shipments from the production area more closely to the ability of receiving markets to accept marketings.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable. Up to 100 pounds of onions may be handled, other than for resale, per day without regard to requirements of this section in order to avoid placing an unreasonable burden on persons handling noncommercial quantities of onions.

The regulation with respect to special purpose shipments are designed to allow the shipment of onions for experimental purposes or the use of containers which have been the subject of test shipments during past seasons, and should encourage exports by allowing the use of containers required for such purposes. Shipments for relief or charity are exempt from inspection and assessment requirements since no useful purpose would be served by regulating such shipments.

The regulation is as follows:

§ 959.315 Handling regulation.

During the period March 10–May 11, 1975, no handler may package or load onions on any Sunday, or handle any lot of onions grown in the production area, except red onions, unless such onions meet the requirements of paragraphs (a), (b), (c) and (d) of this section, or unless such onions are handled in accordance with the provisions of paragraph (e) or (f) of this section.

(a) *Grade requirements.* Not to exceed 20 percent defects of U.S. No. 1 grade. In percentage grade lots, tolerances for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be permitted in individual packages in percentage grade lots. Application of tolerances in U.S. onion standards shall apply to in-grade lots.

(b) *Size requirements.* (1) "Small"—1 to 2¼ inches in diameter, and limited to white onions only;

(2) "Repacker"—1¾ to 3 inches in diameter, with 60 percent or more 2 inches in diameter or larger;

(3) "Medium"—2 to 3½ inches in diameter; or

(4) "Jumbo"—3 inches or larger in diameter.

(5) Application of tolerances in the U.S. onion standards shall apply to in-grade lots except that not more than 20 percent by weight of onions in any lot may be larger than the maximum diameter for "repacker" and "medium" sizes.

(c) *Container requirements.* (1) 25-pound bags, with an average net weight in any lot of not more than 27½ pounds per bag, and with outside dimensions not larger than 29 inches by 31 inches; or

(2) 50-pound bags, with an average net weight in any lot of not more than 55 pounds per bag, and with outside dimensions not larger than 38 inches by 38½ inches.

(3) These container requirements shall not be applicable to onions sold to Federal agencies.

(d) *Inspection.* (1) No handler may handle any onions regulated hereunder, except pursuant to paragraph (e) or (f) (3) of this section, unless an appropriate inspection certificate has been issued with respect thereto and the certificate is valid at the time of shipment.

(2) No handler may transport or cause the transportation by motor vehicle of any shipment of onions for which an inspection certificate is required unless each such shipment is accompanied by a copy of the inspection certificate applicable thereto or by documentary evidence on forms furnished by the committee identifying truck lots to which a valid inspection certificate is applicable and a copy of such inspection certificate or committee document, upon request, is surrendered to authorities designated by the committee.

(3) For purposes of operation under this part each inspection certificate or committee form required as evidence of inspection is hereby determined to be valid for a period not to exceed 72 hours following completion of inspection as shown on the certificate.

(e) *Minimum quantity exemption.* Any handler may handle, other than for resale, up to, but not to exceed 100 pounds of onions per day without regard to the requirements of this section, but this exemption shall not apply to any shipment or any portion thereof of over 100 pounds of onions.

(f) *Special purpose shipments and culls.* (1) Onions may be handled in containers customarily packed for the retail trade and in other designated special purpose containers as follows:

(i) Each handler desiring to make such shipments shall first apply to the committee for and obtain a Certificate of Privilege to make such shipments.

(ii) After obtaining an approved Certificate of Privilege, each handler may handle onions packed in 2, 3 or 5-pound containers customarily packed for the retail trade, 20-kilogram bags, or 50-pound cartons, if they meet the grade, size, and inspection requirements of paragraphs (a), (b) and (d) of this section and if they are handled in accordance with the reporting requirements established in subparagraph (2) of this paragraph on such shipments: *Provided,* That shipments of 2, 3 and 5-pound containers shall not exceed 10 percent of a handler's total weekly onion shipments, and provided further that shipments of 50-pound cartons shall not exceed 10 percent of a handler's total weekly onion shipments of all onions allowed to be marketed under this section.

(iii) The average gross weight per lot of onions packed in master containers shall not exceed 115 percent of the designed net contents.

(iv) The average net weight per lot of 50-pound cartons shall not exceed 55 pounds.

(v) The average net weight per lot of 20-kilogram bags shall not exceed 22 kilograms, and with outside dimensions of such bags not greater than 32 inches by 36 inches.

(vi) 20-kilogram bags shall be conspicuously labeled with the words "FOR EXPORT ONLY" and shipments shall be only to points outside of the 48 contiguous States of the United States, the District of Columbia, Canada, or Mexico.

(2) Reporting requirements for shipments of onions in special purpose containers. Each handler who handles shipments of onions in containers customarily packed for the retail trade and in other designated special purpose containers, shall report thereon to the committee, the inspection certificate numbers, the grade and size of onions packed, and the size of the containers in which such onions were handled. Such reports, in accordance with § 959.80, shall be furnished to the committee in such manner, on such forms and at such times as it may prescribe. Also, each handler of such shipments of onions shall maintain records of such marketings, pursuant to § 959.80(c). Such records shall be subject to review and audit by the committee to verify reports thereon.

(3) Experimental shipments. Upon approval of the committee onions may be shipped for experimental purposes exempt from regulations issued pursuant to §§ 959.42, 959.52 and 959.60 provided they are handled in accordance with safeguard provisions of § 959.54.

(4) Onions failing to meet requirements. Onions failing to meet the grade, size, and container requirements of this section, and not exempted under paragraph (e) of this section, may be handled only pursuant to § 959.126. Culls may be handled pursuant to § 959.126(a)(1). Shipments for relief or charity may be handled without regard to inspection and assessment requirements.

(g) *Definitions.* "U.S. onion standards" mean the United States Standards for Grades of Bermuda-Granex-Grano Type Onions (§§ 51.3195–3209 of this title), or the United States Standards for Grades of Onions (Other Than Bermuda-Granex-Grano-and Creole Types) (§§ 51.2830–51.2854 of this title), whichever is applicable to the particular variety, or variations thereof specified in this section. The term "U.S. No. 1" shall have the same meaning as set forth in these standards.

All other terms used in this section shall have the same meaning as whe. used in Marketing Agreement No. 143, as amended, and this part.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 24, 1974, to become effective March 10, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regulations—1974 Crop Tung Oil Supplement]

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

Subpart—1974 Crop Tung Oil Warehouse-Stored Loan Program

On page 33376 of the FEDERAL REGISTER of September 17, 1974, there was published a notice of proposed rulemaking relating to the support program for 1974 crop of tung nuts. Interested persons were given 30 days in which to submit data, views, or recommendations pertaining to the proposed determinations. No response was received pursuant to the notice of proposed rulemaking. It has been determined that under present circumstances, a support level at 65 percent of parity is appropriate.

The General Regulations Governing Price Support for the 1970 and Subsequent Crops (35 FR 7363) and any amendments thereto and the 1970 and Subsequent Crops Tung Oil Warehouse-Stored Loan Program Regulations (35 FR 19499) and any amendments to

such regulations are further supplemented for the 1974 crop of tung nuts as follows. The material previously appearing in these §§ 1421.450 through 1421.453 shall remain in full force and effect as to the crops to which it is applicable.

Sections 1421.450 through 1421.453 are revised as set forth below:

Sec.
1421.450 Availability.
1421.451 Service fees and delivery charges.
1421.452 Support rate.
1421.453 Maturity of loans.

AUTHORITY: Sec. 4, 62 Stat. 1070, as amended; 14 U.S.C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 201, 401, 63 Stat. 1052, as amended, 1054; 15 U.S.C. 714c; (7 U.S.C. 1446, 1421).

§ 1421.450 Availability.

(a) *Area.* The program will be available in the States of Alabama, Florida, Georgia, Louisiana, Mississippi, and Texas.

(b) *Period.* Loans will be available from November 1, 1974, through September 30, 1975.

§ 1421.451 Service fees and delivery charges.

Producers shall pay a loan service fee as provided in § 1421.11(a) of the general regulations and instead of the delivery charges specified in § 1421.11(b) of the general regulations, a delivery charge of 6 cents per hundredweight for the quantity of tung oil tendered to CCC for loan which is not redeemed by October 31, 1975. Such fee and charge will be deducted from loan proceeds, but the charge applicable to the quantity of oil redeemed will be credited to the producer's account.

§ 1421.452 Support rate.

Loans on eligible tung oil produced from 1974 crop tung nuts shall be made at the rate of 29.5 cents per pound.

§ 1421.453 Maturity of loans.

Loans will mature on demand but not later than October 31, 1975.

Effective date: December 31, 1974.

Signed at Washington, D.C., on December 19, 1974.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

[FR Doc.74-30623 Filed 12-30-74;8:45 am]

CHAPTER XVII—RURAL ELECTRIFICATION ADMINISTRATION

PART 1701—PUBLIC INFORMATION

Appendix A—REA Bulletins

Part 1701, Title 7, is hereby amended to include revisions to the Appendix A listing and summary descriptions of REA Bulletins providing the program policies and requirements of the Rural Electrification Administration. The revisions reflect both new and revised REA Bulletins issued after publication in the FEDERAL REGISTER under proposed rule making procedures to secure public comment and participation.

Comments were received on three of the bulletins as proposed. Two suggested changes were received on the proposed revision of Bulletin 20–19: 320–19, Non-Discrimination Among Beneficiaries of REA Programs. They suggested the elimination from the bulletin when issued in final form of (1) the prohibition of employment practices which tend to cause discrimination in services provided and (2) the requirement to maintain racial and ethnic data on the consumers and subscribers served by REA-financed systems. After careful consideration, it was determined that the Bulletin as issued in final form should contain these provisions since they are considered essential to compliance with §§ 15.3 and 15.5 of Title 7, Part 15, of the rules and regulations of the Department of Agriculture entitled Non-Discrimination in Federally Assisted Programs of the Department of Agriculture.

On the proposed revision to Bulletin 81–9, Preparation of Plans and Specifications for Distribution and Transmission Facilities, it was suggested that REA include a requirement that REA borrowers go underground on the same basis as investor owned utilities where the state public service commission regulations apply only to investor owned utilities. REA did not incorporate this suggested change because it was not considered consistent with the general subject matter coverage of this particular bulletin.

There were four comments concerning proposed Bulletin 345–70, REA Specification for Filled Buried Wire. One suggested that the moisture penetration test sample be increased from three to 10 feet. In response to this suggestion, the bulletin, as issued, was modified to an initial three foot sample, but allow tests on two adjacent 10 foot samples if the three foot sample fails. The second comment proposed that a maximum bond be permitted between the aluminum shield and the jacket. This suggestion was not accepted since with the introduction on the market of shield bonding connectors, the original wording of the Bulletin will permit a maximum bond. The third comment recommended changing the capacitance unbalance requirement for the 3-pair size for pair-to-pair shield. The suggestion was not adopted because it would lower transmission standards for the telephone service provided by REA financing. The fourth comment suggested that the procedure for the water immersion test permit the use of a sample before the application of jackets and shield to eliminate possible damage to the core from removal of sections of the jacket and shield. The proposal was not adopted since the suggested procedure could influence adversely the electrical characteristics of the wire.

The following listings of revised REA Bulletins and the summary descriptions of bulletins are replacements or additions, as specified, of listings in Appendix A to Part 1701 (36 FR 19075).

APPENDIX A—REA BULLETINS

JOINT RURAL ELECTRIFICATION AND TELEPHONE PROGRAM BULLETINS

REA bulletin number and date of last issuance	*Description of Content*
20–19:320–19; June 1974 (replacing July 1973)	The policy and procedure of REA to assure nondiscrimination among beneficiaries of REA programs.
44–5:345–2; July 1974 (replacing Nov. 1970)	Inspection agencies authorized by REA for inspection of timber products and of their preservative treatment concerned with installation in REA borrowers' electric or telephone systems.

RURAL ELECTRIFICATION PROGRAM BULLETINS

43–5; July 1974 (replacing July 1973)	List of materials acceptable to REA for use in the construction of borrowers' electric systems.
81–9; July 1974 (replacing October 1965)	Guidelines for the preparation of plans and specifications for distribution and transmission facilities through the use of REA contract forms 764, 830, or 831.
108–1; October 1974 (replacing Oct. 1972)	The requirements of REA on the preparation and submission by electric distribution borrowers of financial and statistical reports on their operations.

RURAL TELEPHONE PROGRAM BULLETINS

345–26; September 1974 (replacing April 1972)	Specifications of REA for buried plant housings on telephone borrowers' systems.
345–70; August 1974 (new)	Specification of REA for filled buried wire on telephone borrowers' systems.
345–71; August 1974 (new)	Specification of REA for 3-electrode gas tube protectors on telephone borrowers' systems.

Dated: December 23, 1974.

DAVID H. ASKEGAARD,
Acting Administrator.

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Revision I]

PART 114—ADMINISTRATIVE CLAIMS UNDER FEDERAL TORT CLAIMS ACT

Revision of Part

This is Revision I of Part 114 of Chapter I of Title 13 of the Code of Federal Regulations. Revision I of Part 113 rescinds the original version of said Regulations.

The purpose of these Regulations is to set up an administrative apparatus for the administrative review of tort claims involving the Small Business Administration. The purpose of this revision of the aforesaid regulations is to incorporate into the regulations certain changes in the administrative process for the handling of tort claims against the Small Business Administration, and to change the delegation of authority with respect to administrative handling of said claims from the Central Office to the various field offices.

The most significant changes with respect to the administrative apparatus and delegation of authority are as follows:

1. Section 114.100(b) changes the Area Board of Survey to the Regional Board of Survey, consisting of three members, the Regional Counsel sitting as chairman, the Assistant Regional Director for Finance and Investment, and the Assistant Regional Director for Administration.

2. Section 114.100(d) changes the Regional Board of Survey to the District Board of Survey, consisting of three members, the District Counsel serving as chairman, the Assistant District Director for Finance and Investment or the Chief Financing Officer, and the Assistant District Director for Management Assistance or Chief Management Assistance Officer.

3. Sections 114.106 (a) and (b) are substantially the same but have changes in terminology to conform to the new administrative apparatus.

4. Section 114.106–1 is an entirely new section. Its basic purpose is to delegate the complete handling of claims of $5,000 or less to the various regions.

5. Section 114.106–1(e) has been added to spell out the procedures to be followed in the handling of claims, which require consultation with the Department of Justice.

These Regulations involve internal administrative procedures and therefore notice and public participation are not required.

Chapter I of Title 13 of the Code of Federal Regulations is hereby amended by adding a new Part 114 as hereinafter set out.

Sec.

114.100 Definitions.
114.101 Scope of regulations.
114.102 Administrative claim; when presented; appropriate Administration Office.
114.103 Administrative claim; who may file.
114.104 Investigations.
114.105 Administrative claim; evidence and information to be submitted.
114.106 Authority to adjust; determine, compromise, and settle.
114.107 Limitations on authority.
114.108 Referral to Department of Justice.
114.109 Examination.
114.110 Final denial of claim.
114.111 Action on approved claim.

AUTHORITY: The provisions of this Part 114 issued under 28 U.S.C. 2672; 28 C.F.R. 14.11 (31 F.R. 16616).

§ 114.100 Definitions.

As used throughout this Part 114:

(a) "Administration" means the Small Business Administration;

(b) "Regional Board of Survey" means a three-member board composed of the Regional Counsel and the Assistant Regional Director for Finance and Investment; and the Assistant Regional Director for Administration. The Regional Counsel shall be chairman.

(c) "Employee" means an officer or employee of the Administration;

(d) "District Board of Survey" means a three-member board composed of District Council and Assistant District Director for Finance and Investment or Chief Financial Officer and the Assistant District Director for Management Assistant or Chief Management Assistance Officer. The District Counsel shall be chairman.

(e) "Survey Officer" means the officer who reviews the findings and recommendations of the appropriate Board of Survey and approves or disapproves such findings and recommendations;

(f) "Washington Board of Survey" means a board composed of three voting members, namely: A representative of the Security and Investigations Division, Office of Audits and Investigations; a representative of the Accounting Operations Division, Office of Budget and Finance, and a representative of the Office Services Division, Office of Administrative Services Division, Office of Administrative Services; together with one non-voting member representing the Office of General Counsel.

§ 114.101 Scope of regulations.

This part applies only to claims asserted under the Federal Tort Claims Act, as amended, 28 U.S.C. 2671–2680, accruing on or after January 18, 1967, for money damages against the United States for injury to or loss of property or personal injury or death caused by the negligent or wrongful act or omission of an employee of the Administration while acting in the scope of his office or employment.

§ 114.102 Administrative claim; when presented; appropriate Administration office.

For purposes of this Part 114, a claim is deemed to have been presented when the Administration receives, at the district office nearest to the place where the incident occurred, an executed "Claim for Damage or Injury," Standard Form 95, in triplicate, or other written notice of an incident together with a claim for money damages in a sum certain for injury to or loss of property or injury or death alleged to have occurred as a result of the incident. When any such written notice is given, it shall be incumbent upon the district office concerned to furnish to the claimant the requisite copies of Standard Form 95 with instructions for completing it.

§ 114.103 Administrative claim; who may file.

(a) A claim for injury to or loss of property may be presented by the owner of the property, his duly authorized agent, or legal representative.

(b) A claim for personal injury may be presented by the injured person, his duly authorized agent, or legal representative.

(c) A claim based on death may be presented by the executor or administrator of the decedent's estate, or by any other person legally entitled to assert such a claim in accordance with applicable state law.

(d) A claim for loss wholly compensated by an insurer with the rights of a subrogee may be presented by the parties individually as their respective interests appear, or jointly.

(e) A claim presented by an agent or legal representative shall be presented in the name of the claimant, be signed by the agent or legal representative, show the title or legal capacity of the person signing, and be accompanied by evidence of his authority to present a claim on behalf of the claimant as agent, executor, administrator, parent, guardian, or other representative.

§ 114.104 Investigation.

The Administration may investigate, or may request any other Federal agency to investigate, a claim filed under this part.

§ 114.105 Administrative claims; evidence and information to be submitted.

(a) *Death.* In support of a claim based on death, the claimant may be required to submit the following evidence or information:

(1) An authenticated death certificate or other competent evidence showing cause of death, date of death, and age of the decedent.

(2) Decedent's employment or occupation at time of death, including his monthly or yearly salary or earnings (if any), and the duration of his last employment or occupation.

(3) Full names, addresses, birth dates, kinship, and marital status of the decedent's survivors, including identification of those survivors who were dependent for support upon the decedent at the time of his death.

(4) Degree of support afforded by the decedent to each survivor dependent upon him for support at the time of his death.

(5) Decedent's general physical and mental condition before death.

(6) Itemized bills for medical and burial expenses incurred by reason of the incident causing death or itemized receipts of payment for such expenses.

(7) If damages for pain and suffering prior to death are claimed, a physician's detailed statement specifying the injuries suffered, duration of pain and suffering, any drugs administered for pain, and the decedent's physical condition in the interval between injury and death.

(8) Any other evidence or information which may have a bearing on either the responsibility of the United States for the death or the damages claimed.

(b) *Personal injury.* In support of a claim for personal injury, including pain and suffering, the claimant may be required to submit the following evidence or information:

(1) A written report by his attending physician or dentist setting forth the nature and extent of the injury, nature and treatment, any degree of temporary or permanent disability, the prognosis, period of hospitalization, and any diminished earning capacity. In addition, the claimant may be required to submit to a physical or mental examination by a physician employed by the Administration or another Federal agency. A copy of the report of the examining physician shall be made available to the claimant upon the claimant's written request: Provided, that he has, upon request, furnished the report referred to in the first sentence of this subparagraph and has made or agrees to make available to the Administration any other physician's reports previously or thereafter made of the physical or mental condition which is the subject matter of his claim.

(2) Itemized bills for medical, dental, and hospital expenses incurred, or itemized receipts of payment for such expenses.

(3) If the prognosis reveals the necessity for future treatment, a written statement of expected expenses for such treatment.

(4) If a claim is made for loss of time from his employment, a statement from his employer showing actual time lost from employment, whether he is a full or part-time employee, and wages or salary actually lost.

(5) If a claim is made for loss of income and the claimant is self-employed, documentary evidence showing the amount of earnings actually lost.

(6) Any other evidence or information which may have a bearing on either the responsibility of the United States for the personal injury or the damages claimed.

(c) *Property damage.* In support of a claim for damage to or loss of property, real or personal, the claimant may be required to submit the following evidence or information:

(1) Proof of ownership.

(2) A detailed statement of the amount claimed with respect to each item of property.

(3) An itemized receipt of payment for necessary repairs or itemized written estimates of the cost of such repairs.

(4) A statement listing date of purchase, purchase price and salvage value, where repair is not economical.

(5) Any other evidence or information which may have a bearing on either the responsibility of the United States for the damage to or loss of property or the damages claimed.

§ 114.106 Authority to adjust, determine, compromise, and settle claims in excess of $5,000.

(a) Upon presentation of a claim and appropriate investigation thereof, the Board of Survey of the District or Branch office to which the claim was presented shall consider all of the evidence and enter the Board's findings of fact, conclusions, and recommendations. There shall be appended to the Board's findings of fact, conclusions, and recommendations, a legal opinion of the District or Branch Counsel regarding the liability of the United States under the applicable state law governing negligence and other related matters. The District or Branch Board of Survey shall establish a case file containing all documents related to the claim and the incident out of which it arose. The file shall also contain the Board's findings of fact, conclusions, and recommendations, and the legal opinion of the counsel. The file shall be forwarded to the Chairman of the Washington Board of Survey after the District Board of Survey has performed its function.

(b) The Washington Board of Survey shall review the case and submit its recommendations in a report to the Central Office Survey Officer. A representative of the Office of General Counsel, shall review the submitted legal opinion regarding the liability of the United States under applicable state law governing negligence and related matters and, in the event of disagreement, shall render a separate legal opinion to the Washington Board of Survey. The report and legal opinion, if any, shall be prepared in an original and five copies and shall be attached to the case file.

(c) If the Survey Officer approves the recommendation of the Washington Board of Survey to pay the claim, the Chairman of the Washington Board of Survey shall complete an orginal copy of Standard Form 1145 and two memorandum copies of Standard Form 1145A, "Voucher for Payment Under Federal Tort Claims Act." The Chairman shall forward said copies to the claimant for his signature and acceptance.

(d) Upon recciving the Standard Form 1145 and 1145A from the Claimant, the Chairman of the Washington Board of Survey shall attach the forms to the case file and forward the file to the Administrator or his designee for final approval.

(e) If the Survey Officer disapproves the recommendations of the Washington Board of Survey that the claim be paid, the case file shall be forwarded immediately to the Administrator or his designee for final action. If the Administrator or his designee concurs with the Survey Officer, this shall constitute a final agency denial of the claim and appropriate notice shall be given the claimant as provided in § 114.110 of this part. If the Administrator or his designee disagrees with the Survey Officer, Standard Form 1145 and 1145A shall be prepared and forwarded to the claimant as provided for in paragraph (c) of this section. After the claimant has signed and returned them, the Administrator or his designee shall sign them.

(f) If the Washington Board of Survey recommends that the claim not be paid, the claim shall nevertheless be processed to final action by the Administrator or his designee through all the appropirate stages outlined in the preceding paragraphs of this section.

§ 114.106–1 Authority of field offices to adjust, determine, compromise, and settle claims of $5,000 or less.

(a) Upon presentation of a claim in the amount of $5,000 or less and appropriate investigation thereof, the Board of Survey of the District or Branch office to which the claim was presented shall consider all of evidence and enter the Board's findings of fact, conclusions, and recommendations. There shall be appended to the Board's findings of fact, conclusions, and recommendations, a legal opinion of the District or Branch Counsel regarding the liability of the United States under the applicable state law governing negligence and other related matters. The legal opinion shall also frame the issues in such a way as to provide guidance to the Board of Survey in performing its functions. Such opinion shall be submitted to the Board of Survey after investigation of the claim in question but before the Board of Survey has considered the claim. The District or Branch Board of Survey shall establish a case file containing all documents related to the claim and the incident out of which it arose. The file shall also contain the Board's findings of fact, conclusions, and recommendations, and the legal opinion of the District or Branch Counsel. The file shall be forwarded to the Regional Board of Survey, after the District or Branch Board of Survey has performed its function.

(b) The Regional Board of Survey shall review the case and issue its decision thereon. This decision will then be reviewed by the Regional Survey Officer who will then make a recommendation to the Regional Director, who will make the formal decision. The Regional Director shall complete an original copy of Standard Form 1145 and two memorandum copies of Standard Form 1145A, "Voucher for Payment Under Federal Tort Claim Act." The Regional Director shall forward said copies to the claimant and his legal representative if he is so represented, for his signature and acceptance. Upon receiving the Standard Forms 1145 and 1145A from the claimant, the Regional Director shall attach the forms to the case file and direct that payment be made.

(c) If the Regional Director denies the claim, this shall constitute a final agency denial of the claim and appropriate

notice shall be given claimant as provided in § 114.110.

(d) Notwithstanding the foregoing, a claim for $5,000 or less shall be processed in accordance with § 114.106 when the District Board of Survey or Regional Board of Survey have reason to believe that a related claim may be filed in connection with the same incident and the aggregate amount of such claims will probably exceed $5,000. The reason for such belief shall be included in the case file along with the findings, conclusions, and recommendations.

(e) When an administrative claim may be adjusted, determined, compromised, or settled under the Federal Tort Claims Act only after consultation with the Department of Justice as provided in § 114.107(b)(1), (2), (3), and (c), the Regional Board of Survey shall forward the case file to the Office of General Counsel, SBA Central Office, prior to decision. The Regional Board of Survey shall be guided in this respect by the legal opinion of District Counsel. After consultation with the Department of Justice, the case file shall be forwarded by the Office of General Counsel to the Washington Board of Survey for final processing in accordance with § 114.106.

§ 114.107 Limitations on authority.

(a) An award, compromise, or settlement of a claim in excess of $25,000 filed under this part shall not be effected without prior written approval of the U.S. Attorney General or his designee. For purposes of this paragraph, a principal claim and any derivative or subrogated claim shall be treated as a single claim.

(b) An administrative claim may be adjusted, determined, compromised, or settled under the Federal Tort Claims Act only after consultation with the Department of Justice when, in the opinion of the Chairman of the Washington Board of Survey and with the concurrence of the General Counsel:

(1) A new precedent or a new point of law is involved; or

(2) A question of policy is or may be involved; or

(3) The United States is or may be entitled to indemnity or contribution from a third party and the Administration is unable to adjust the third party claim; or

(4) The compromise of a particular claim, as a practical matter, will or may control the disposition of a related claim in which the amount to be paid may exceed $25,000.

(c) An administrative claim may be adjusted, determined, compromised, or settled by the Administration under the Federal Tort Claims Act only after consultation with the Department of Justice when the Administration is informed or is otherwise aware that the United States or an employee, agent, or cost-plus contractor of the United States is involved in litigation based on a claim arising out of the same incident or transaction.

§ 114.108 Referral to Department of Justice.

When Department of Justice approval or consultation is required under § 114.107, or the advice of the Department of Justice is otherwise to be requested, the referral or request shall be sent to the Assistant Attorney General, Civil Division, Department of Justice, in writing and shall contain (a) a short and concise statement of the facts and of the reasons for the referral or request, (b) copies of relevant portions of the Administration's claim file, and (c) a statement of the recommendations or views of the Administration. Such referral may be made any time after the presentment of a claim to the Administration, and shall be transmitted by the General Counsel or his designee.

§ 114.109 Examination.

The Administration may request any other Federal agency to conduct a physical examination of a claimant and provide a report of the physical examination. Where reimbursement for such services is authorized or required by statute or regulation, the Administration may reimburse any Federal agency which conditions its compliance with the Administration's request upon such reimbursement.

§ 114.110 Final denial of claim.

Final denial of an administrative claim shall be in writing and sent to the claimant, his attorney, or legal representative by certified or registered mail. The notification of final denial may include a statement that, if the claimant is dissatisfied with the agency action, he may file a suit in an appropriate U.S. District Court not later than 6 months after the date of mailing of the notification.

§ 114.111 Action on approved claim.

(a) Payment of a claim approved under this part is contingent upon the claimant's or his duly authorized agent's or legal representative, of any award, compromise, or settlement made pursuant to the Federal Tort Claims Act shall be final and conclusive on the claimant, his agent or legal representative and any other person on whose behalf or for whose benefit the claim has been presented, and shall constitute a complete release of any claim against the United States and against any employee of the Government whose act or omission gave rise to the claim, by reason of the same subject matter.

Effective date: December 31, 1974.

THOMAS S. KLEPPE,
Administrator.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74-EA-79]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Control Zone

The Federal Aviation Administration is amending section 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Johnstown, Pa., Control Zone (39 FR 394; 34513).

The hours of operation of the Johnstown Flight Service Station will be changed from 0700 to 2400 hours, local time, to 0630 to 2330 hours, local time. This in turn will require a change in the hours of duration of the control zone to conform to those of the station.

Since this is a minor revision in that the total duration of the control is not being changed, notice and public procedure hereon are unnecessary.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 G.m.t. February 27, 1975, as follows:

Amend § 71.171 of Part 71 of the Federal Aviation Regulations by deleting in the description of the Johnstown, Pa. Control Zone, "This control zone is effective from 0700 to 2400 hours, local time, daily." and by substituting the following in lieu thereof; "This control zone is effective from 0630 to 2330 hours, local time, daily."

(Sec. 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348), and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on December 16, 1974.

JAMES BISPO,
Acting Director,
Eastern Region.

Title 15—Commerce and Foreign Trade

CHAPTER IX—NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 921—ESTUARINE SANCTUARY GUIDELINES

Amendment to Grant Regulations

Section 312 of the Coastal Zone Management Act (Pub. L. 92-583, 86 Stat. 1280) authorizes the Secretary of Commerce to make available to coastal states grants of up to 50 percent of the cost of acquisition, development and operation of natural areas for use as estuarine sanctuaries in order that scientists and students may be provided the opportunity to examine over a period of time ecological relationships within the area.

Final guidelines for implementation of the Estuarine Sanctuary Program were published on June 4, 1974 (15 CFR Part 921, FR 39 (108): 19922-19927). The guidelines indicate that the intent of the estuarine sanctuary program is to preserve representative estuarine areas so that they may provide long-term scientific and educational use. These sanctuaries are to be selected on a rational basis which would reflect regional differentiation and a variety of estuarine ecosystems. In order to ensure that the sanctuary program adequately represents regional and ecological differences, the guidelines establish a biogeographic classification scheme which reflects geographic, hydrographic and biologic characteristics (§ 921.4). Eleven different biogeographic categories are established and defined in the guidelines; sub-categories of this basic system will be utilized

XUM V 39 DEC 252 31 74 XUM V

as appropriate. While the exact number of sanctuaries that will eventually be established under this program is uncertain, after preliminary consideration of potential subcategories, it is apparent that about eighteen sanctuaries will be necessary for minimal representation of the broad variety of natural systems found in the estuaries of the United States. This number may change with more sophisticated knowledge and understanding of coastal ecosystems, and if circumstances permit, might be expanded to include a greater level of refinement and distinction among major types. It is clear, however, that the program was not intended to be a new, large-scale, Federally assisted land acquisition program.

Under the minimum program, as now proposed, the number of coastal states and territories eligible for such grants exceeds the limited number of estuarine sanctuaries that will be established; to a certain extent, there will be competition for sanctuary grants among states, especially among these states within the same biogeographic category.

The Office of Coastal Zone Management (OCZM) has determined that it is necessary to establish certain procedures for processing state estuarine sanctuary applications. In addition to the requirements established in the guidelines, the OCZM feels it is necessary to increase coordination among states in order to (1) provide for fair consideration of other potential sites within the same biogeographic region; (2) ensure that the sanctuary fulfills regional and national needs by being a part of a representative national sanctuary program, and (3) provide for effective use of the sanctuary by all qualified agencies or persons if the sanctuary were established. In addition, time constraints, such as those imposed by the National Environmental Policy Act, impart minimum requirements necessary to process and approve sanctuary applications, and it is necessary to establish deadlines for submission of sanctuary proposals in order to provide sufficient time for an adequate review and processing of the application. The Office of Coastal Zone Management is establishing the following procedures in order to ensure a rational and orderly basis for the review and selection of state estuarine sanctuary applications so that the most desirable candidates will be selected, and so that a representative series of estuarine sanctuaries will ultimately be established. A new section has been created under Subpart B—Application for Grants and shall be designated as § 921.14.

This section shall read as follows:

§ 921.14 Application time schedule and procedure.

(a) Effective January 1, 1975, the review and selection of estuarine sanctuary applications will be conducted on a twice yearly basis. All applications received between January 1 and June 30 of any year will be considered together beginning July 1 of that year; applications received between July 1 and December 31 will be considered together beginning January 1 of the following year.

(b) All applications received during any application period will be subject to simultaneous review and consideration. At the end of each application period, a suitable number of applications, based on the level of funding available, will be selected for further review and processing. Unless sufficiently distinguished as major sub-categories, no more than one application from each biogeographic category will be selected for final processing during each review period. Normally, the applications selected will be processed and the grants awarded within 6 months from the end of the application period, that is before the next review period begins. Applications which are not selected for processing may be resubmitted for consideration during the next review period.

(c) At least ninety (90) days prior to submission of an application under this section, an applicant state must notify in writing the OCZM, appropriate state and regional A–95 clearinghouses, and other states within the same biogeographic category (see Table 1) of its intention to file an application for an estuarine sanctuary grant. Such notification should include at least the identification of the state agency applying for the grant; the geographic location of the proposed sanctuary and its boundaries; proposed objectives of the sanctuary, including intended research uses; estimated cost of sanctuary; and estimated date for submission of application. Copies of the A–95 notifications to the state and regional clearinghouse would be considered sufficient and desirable notification to OCZM and to the other states.

TABLE 1—LIST OF STATES BY BIOGEOGRAPHIC CLASSIFICATION

1. Acadian—Maine, New Hampshire, Massachusetts.
2. Virginian—Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina.
3. Carolinian—North Carolina, South Carolina, Georgia, Florida.
4. West Indian—Florida, Puerto Rico, Virgin Islands.
5. Louisianian—Florida, Mississippi, Alabama.
6. Californian—California.
7. Columbian—California, Oregon, Washington.
8. Fiord—Alaska.
9. Sub-Arctic—Alaska.
10. Insular—Hawaii, Guam, American Samoa.
11. Great Lakes—Minnesota, Wisconsin, Michigan, Illinois, Indiana, Ohio, Pennsylvania, New York.

(d) The Director of OCZM may, upon the finding of extenuating circumstances relating to applications for assistance, waive appropriate administrative requirements contained herein.

Insofar as these regulations address internal processes to be used by the Office of Coastal Zone Management in processing Estuarine Sanctuary applications, they will become effective December 31, 1974.

R. L. CARNAHAN,
Acting Assistant Administrator for Administration.

Title 20—Employees' Benefits

CHAPTER V—MANPOWER ADMINISTRATION

PART 616—INTERSTATE ARRANGEMENT FOR COMBINING EMPLOYMENT AND WAGES

Paying State, Revised Definition

Pursuant to section 3304(a)(9)(A) and (B) of the Federal Unemployment Tax Act (26 U.S.C. 3304(a)(9)(A) and (B)), as amended by section 121 of the Employment Security Amendments of 1970, Public Law 91-373, 84 Stat. 702, and pursuant to 20 CFR 616.11, title 20, chapter V, part 616, of the Code of Federal Regulations is hereby amended by revising paragraph (e) of section 616.6, which defines the term "Paying State" for the purposes of the Interstate Arrangement for Combining Employment and Wages (Arrangement).

The Arrangement is effective in all States participating in the Federal-State Unemployment Compensation Program. An individual who has worked and earned wages in two or more States may, in accordance with the Arrangement, combine all credits in a single claim for unemployment benefits. Under the Arrangement the unemployment compensation law of the "Paying State" governs in determining the benefit rights of claimants who file combined-wage claims.

The revision of the definition of "Paying State" in 20 CFR 616.6(e) was first proposed by the Interstate Conference of Employment Security Agencies (ICESA), as authorized by 20 CFR 616.11. A study was conducted jointly by the Manpower Administration and the ICESA of the effects of the amendment proposed by the ICESA, to determine whether unemployment benefits payable on combined-wage claims and the processing of the claims would be improved by changing the definition of "Paying State" as proposed. The results of the study indicate that most claimants who file combined-wage claims would receive the same or higher amounts of unemployment benefits under the definition of "Paying State" as as revised below and that the revised definition will be easier to apply, will lead to improved promptness in the payment of benefits to claimants and improved personnel productivity in the processing of new claims, and will result in cost savings because of these efficiencies.

Paragraph (e) of 20 CFR 616.6 is further revised to correct an oversight in the present Arrangement. Prior to this revision, the Arrangement did not expressly provide for the filing of combined-wage claims in Canada or in

the Virgin Islands, although both jurisdictions participate as agent States under the Interstate Benefit Payment Plan. While neither of these jurisdictions could serve as a "Paying State", because they are not included in the Federal-State Unemployment Compensation Program, both can serve as claim filing "States" under the Arrangement as they now serve as agent "States" under the Interstate Benefit Payment Plan. In addition, recognition of the limited participation of Canada and the Virgin Islands in the Arrangement is necessary to assure conformity with the requirement of section 3304(a)(9)(A) of the Federal Unemployment Tax Act (26 U.S.C. 3304(a)(9)(A), which provides that unemployment benefits may not be denied to a claimant "because he files a claim in another State (or a contiguous country with which the United States has an agreement with respect to unemployment compensation [that is, Canada]) or because he resides in another State (or such a continguous country) at the time he files a claim for unemployment compensation." This further revision also is accomplished by a change in the wording of the definition of the term "Paying State" and will carry out the purpose of the law.

The revisions below have been developed in consultation with the duly designated representatives of the ICESA, which, pursuant to 20 CFR 616.2, are recognized by the Secretary of Labor as agents of the State unemployment compensation agencies for the purposes of the consultation required by section 3304(a)(9)(B) of the Federal Unemployment Tax Act.

The revisions to paragraph (e) of 20 CFR 616.6 set out below will be effective and apply to all new combined-wage claims establishing a benefit year which are filed after December 31, 1974.

The relevant provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date are inapplicable. As these revisions relate to public benefits they are excepted from the application of the notice and comments provisions of the Administrative Procedure Act (5 U.S.C. 553(a)(2)). The policy of the Secretary of Labor, as stated in 29 CFR 2.7, is not to use this exception as a basis for not giving notice and opportunity for comment. In this instance, in order to effectuate as promptly as possible the new definition of "Paying State" and the resulting same or higher benefits for most combined-wage claimants, improved promptness in the payment of benefits to claimants, improved personnel productivity in processing new claims, and cost savings, I, as Secretary of Labor, find that it is contrary to the public interest to delay the issuance of these revisions to the extent necessary for the preparation, receipt, and evaluation of comments. Accordingly, they are not issued for comments prior to publication in final form. For the same reasons, these revisions are not published for the 30-day period specified in the Administrative Procedure Act (5 U.S.C. 553(d)) and shall become effective as set forth above.

Nevertheless, although these revisions are being published in final form and are made effective as stated above, it is the policy of the Department of Labor to solicit and consider comments on its regulations. Therefore, comments will be received just as though these revisions were proposals until January 31, 1975, after which the comments received will be evaluated and, if warranted, the revisions will be appropriately revised. Meanwhile, in the interest of making the new definition effective as soon as possible, these revisions shall remain in force until further revised.

Interested persons are invited to submit written data, views, or arguments as to the revisions contained herein to the U.S. Department of Labor, Manpower Administration, Room 7000, Patrick Henry Building, 601 "D" Street, N.W., Washington, D.C. 20213, on or before January 31, 1975. All material received in response to this invitation will be available for public inspection during normal business hours at that address.

In 20 CFR Part 616, § 616.6(e) is revised to read as follows:

§ 616.6 Definitions.

* * * * *

(e) *Paying State.* (1) The State in which a Combined-Wage Claimant files a Combined-Wage Claim, if the claimant qualifies for unemployment benefits in that State on the basis of combined employment and wages.

(2) If the State in which a Combined-Wage Claimant files a Combined-Wage Claim is not the Paying State under the criterion set forth in subparagraph (1) of this paragraph, or if the Combined-Wage Claim is filed in Canada or the Virgin Islands, then the Paying State shall be that State where the Combined-Wage Claimant was last employed in covered employment among the States in which the claimant qualifies for unemployment benefits on the basis of combined employment and wages.

* * * * *

(Sec. 121, Pub. Law 91-373, 84 Stat. 702 (26 U.S.C. 3304(a)(9)(A) and (B)))

Effective date. These revisions shall apply to all new combined-wage claims establishing a benefit year which are filed after December 31, 1974.

Signed at Washington, D.C., this 26th day of December, 1974.

PETER J. BRENNAN,
Secretary of Labor.

PART 314—NEW DRUG APPLICATIONS

Correction

In FR Doc. 74-28688 appearing at page 44602 in the issue for Tuesday, December 24, 1974 make the following changes:

1. In § 314.14 (d), change the word approval, which appears in the third line to approvable.

2. Insert an effective date of January 23, 1975.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER G—ENGINEERING AND TRAFFIC OPERATIONS

PART 655—TRAFFIC OPERATIONS

Subpart A—Urban Traffic Operations Program To Increase Capacity and Safety (Topics)

Correction

The document adding Part 655 to Chapter I of Title 23 of the Code of Federal Regulations, published in the FEDERAL REGISTER on July 19, 1974, at 39 FR 26414, is corrected as follows: the fourth word in the title of Subpart A is changed to read "Program"; the number of the section immediately following § 655.101 is changed to read "§ 655.102"; the numbers of the two sections immediately following § 655.103 are changed to read "§ 655.104" and "§ 655.105" respectively; the fifth word in § 655.104(b) is changed to read "implemented"; the subdivisions of § 655.105(b)(9) are changed to read "(i)", "(ii)" and "(iii)" respectively; and the last complete word in the eighth line of § 655.105(b)(9) is changed to read "prime".

NORBERT T. TIEMANN,
Federal Highway Administrator.

SUBCHAPTER H—RIGHT-OF-WAY AND ENVIRONMENT

PART 710—RIGHT-OF-WAY—GENERAL

Correction

The document adding Part 710 to Chapter I of Title 23 of the Code of Federal Regulations, published in the FEDERAL REGISTER on July 19, 1974, at 39 FR 26416, is corrected by making the following changes:

In Subpart A, the second word in the title of paragraph (g) of § 710.104 should be "Remnant".

In Subpart C, section 710.304, the reference in paragraph (c) should be to "paragraphs (b)(4) and (d)(1)"; the reference in paragraph (d)(2) should be to "paragraph (m)(1)"; the reference in paragraph (d)(3) should be to "paragraph (m)(2)"; the second word in the eleventh line of paragraph (j)(5) should be "been"; the reference in paragraph (j)(5) should be to "paragraph (j)(4)"; the word in paragraph (m) immediately preceding subdivision (1) should be "remnants"; the last complete word in the seventh line of paragraph (m)(2)(ii) should be "improvements"; the reference in paragraph (m)(2)(iii) should be to "paragraph (m)(2)(ii) of this section"; and the references in paragraph (m)(2)(v) should be to "paragraph (m)(2)(iii) of this section"

and "paragraph (m)(2)(ii) of this section" respectively.

In Subpart C, § 710.305(a), the subdivision of paragraph (a)(1)(ii) should be "(A)", "(B)", "(C)", "(D)", "(E)" and "(F)"; the term referred to in paragraph (a)(1)(ii)(F) should be "right-of-way"; the reference in paragraph (a)(2) should be to "paragraph (a)(1)(i) of this section"; and the reference in paragraph (a)(3) should be to "paragraph (a)(1)(ii) of this section".

NORBERT T. TIEMANN,
Federal Highway Administrator.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas; Correction

On August 31, 1972, in 37 FR 17704, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the City of Winston-Salem, North Carolina, as an eligible community and included Map No. H 37 067 5120 12 which indicates that Lot No. 46 of Club Haven subdivision, Section 2, of Winston-Salem, North Carolina, as recorded in Volume 23, at Page 100 in the Office of the Register of Deeds of Forsyth County, North Carolina, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in view of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective March 24, 1971, Map No. H 37 067 5120 12 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (secs. 408-410, Public Law 91-152, December 24, 1969), 42 U.S.C. 4001-4127; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: December 11, 1974.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.74-30405 Filed 12-30-74;8:45 am]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas; Correction

On October 13, 1971, in 36 FR 19909, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the Township of Springfield, New Jersey, as an eligible community and included Map No. H 34 039 3207 04 which indicates that 3 Leslie Court, Springfield, New Jersey, as recorded on Map No. 501-C in the records of the Register's Office of Union County, New Jersey, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in view of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective August 12, 1970, Map No. H 34 039 3207 04 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (secs. 408-410, Public Law 91-152, December 24, 1969), 42 U.S.C. 4001-4127; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: December 11, 1974.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas; Correction

On January 8, 1972, in 37 FR 281, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included Fairfax County, Virginia, as an eligible community and included map No. H 51 059 0000 13 which indicates that Covington subdivision, Section I as recorded in Deed Book 3784, page 459 of the land records of Fairfax County, Virginia, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective June 17, 1970, map No. H 51 059 0000 13 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (secs. 408-410, Public Law 91-152, December 24, 1969), 42 U.S.C. 4001-4127; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.

Issued: December 11, 1974.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 7333]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Rates and Earnings Base of Certain Self-Employment Tax

Correction

In FR Doc. 74-29748, appearing at page 44444 in the issue for Tuesday, December 24, 1974, make the following changes:

1. In the last sentence of the fourth paragraph of the preamble, the date "February 18, 1975" should be changed to read "February 28, 1975".

2. In § 1.1402(e)-2A, in the last sentence of paragraph (b) on page 44449 the date now reading "February 18, 1975" should be changed to read "February 28, 1975".

Title 27—Alcohol, Tobacco Products and Firearms

CHAPTER I—BUREAU OF ALCOHOL, TOBACCO AND FIREARMS

[T.D. ATF-12; Reference Notice No. 259]

PART 4—LABELING AND ADVERTISING OF WINE

Metric Standards of Fill

Background. The Wine Institute, a trade association representing a number of wine producers in California, has petitioned the Bureau of Alcohol, Tobacco and Firearms for amendment of 27 CFR Part 4, Labeling and Advertising of Wine, to require use of metric standards of fill for wine, and to impose standard wine bottle regulations, including design, headspace and standard of fill requirements, on wine imported in bottles, as well as on wine domestically produced.

A Notice of Hearing concerning metric standards of fill was published in the FEDERAL REGISTER on May 10, 1974. This Notice, containing proposed amendatory language for 27 CFR Part 4, invited comment on the proposed regulations and scheduled a public hearing on June 11, 1974, to more fully discuss the issues. Several speakers representing industry members, trade associations, and foreign governments testified during the hearing. Subsequent to the hearing, the Director, Bureau of Alcohol, Tobacco and Firearms extended the comment period by 60 days to permit the filing of relevant briefs and comments; more than 40 such briefs were filed.

THE METRIC PROPOSALS

The Notice of Hearing contained five specific proposals to establish metric standards of fill for wine and to impose

standard wine bottle requirements on all wine imported as well as domestic. These five proposals were as follows:

Proposal 1. Metric standards of fill. This proposal would strike the regulations setting forth standards of fill for wine contained in 27 CFR 4.72(a) and substitute in their place the following sizes based on the metric system:

3 liters	3 liters.
1.5 liters	1½ liters.
1 liter	1 liter.
0.75 liter	¾ liter.
0.375 liter	⅜ liter.
0.187 liter	187 ml.

Proposal 2. Container units per shipping case. This proposal would add a subsection to 27 CFR 4.72 to specify the number of container (bottle) units that must be packed in a shipping case or shipping container. It is proposed that the following container units per shipping case be adopted on a mandatory basis.

Container size:	Units per case
3 liters	4
1.5 liters	6
1 liter	12
0.75 liter	12
0.375 liter	24
0.187 liter	48

Proposal 3. Standards of Fill for Imported Wines. This proposal would extend the standard wine bottle regulations set forth in 27 CFR 4.71, including design, headspace and standard of fill requirements, to all wines imported into the United States. This proposal would eliminate the standard wine bottle exemption at 27 CFR 4.70(b) now applying to wines in original containers imported into customs custody.

Proposal 4. Applicability of Current Standards of Fill. This proposal would permit wine to be bottled or packed in the metric sizes set forth in proposal 1 as well as the standards of fill presently contained in 27 CFR 4.72(a) for a period of two years after the adoption of the proposed regulations. Bottling in the metric sizes would become mandatory after the expiration of the two-year period.

Proposal 5. Exemption for Previously Bottled Wine. This would permit wine bottled under the present standards of fill, and all imported wines, bottled prior to the expiration of the two-year period, to be sold and shipped at any time after that date. It was further proposed that after the two-year period, wine imported in original containers which do not conform to the new metric standards of fill, be accompanied by a certificate signed by the bottler or packer stating that such wine was bottled prior to the expiration of the two-year period.

Summary of Public Hearing

All persons testifying during the public hearing in June either openly endorsed metrication in the United States wine industry, or did not oppose the imposition of metric standards of fill. Most speakers testified either for or against specific proposals except representatives of the Wine Institute who supported all proposals.

No testimony was offered on either proposal 2, container units per case, or proposal 5, exemption for previously bottled wine.

Nearly all speakers testified on proposal 3, standards of fill for imported wines, by requesting additional sizes be added to the propsed metric standards in order to accommodate the wine of various nations. Two speakers testifying on behalf of the Government of Mexico, and PepsiCo through its subisidiary, Monsieur added to the proposed metric standards Henri Wines, Ltd., opposed removal of the exemption from standards of fill for imported wines, if their requests for additional bottle sizes were not approved.

The Mexican representative requested the addition of a 720 ml bottle to the metric standards of fill to accommodate the size bottle in widespread use throughout Mexico. The speaker for PepsiCo requested that the bottle used for sparkling wine in the Soviet Union, which has a capacity of 800 ml, be accepted as a 750 ml bottle for importation into the United States.

Two speakers asked for the inclusion of a 700 ml bottle in the standards of fill. A representative of the United Kingdom Food and Drink Industrial Council, a British trade organization, and a representative of the German wine industry requested this size to permit importation into the United States of wine bottled in those countries in 700 ml bottles.

A miniature bottle size, not included in the proposed metric standards of fill, was requested by two speakers. The representative of the United Kingdom Food and Drink Industrial Council requested a miniature size while a representative of Showerings Vine Products and Whiteways, Ltd., Somerset, England, requested a 100 ml size to accommodate the sparkling perry which that company exports to the United States in 100 ml bottles.

The representatives of PepsiCo and the German wine industry both requested that the proposed phase-in period of two years be extended by three additional years to enable foreign wine producers to comply with the metric standards of fill.

A representative testifying on behalf of the American National Metric Council requested that, to avoid confusion, the Bureau should adopt the milliliter as the only measurement for liquid quantities of less than one liter.

The Wine Institute, initiators of the original metric proposals, presented four alternative proposals during the hearing for consideration. These four proposals were: (1) That the Bureau require the net contents statement on wine to reflect the minimum net content rather than the average content; (2) That the certificate of bottling date to be signed by the foreign bottler or packer also be signed by the importer to "guarantee" the bottler's statement; (3) That, once a proprietor begins to bottle in a metric standard of fill, he would be prohibited from again bottling the corresponding non-metric size which was replaced (The Wine and Spirits Wholesalers of America also testified in favor of this proposal); and (4) That the equivalent volume to be stated in U.S. measure be stated in ounces only rather than in gallons, quarts, pints and ounces.

Summary of Written Comments

More than 40 briefs were received both before the hearing and in the 60-day period provided for the filing of additional comments relative to the proposed regulations and the hearing. A general summary of the positions taken follows.

Metric standards of fill. Thirteen briefs actively supported or encouraged the proposal to adopt metric standards of fill for wine. Briefs filed by two industry members, a trade association, and one private citizen opposed wine metrication. Industry members cited the high costs involved in producing new bottle molds as well as the physical difficulties encountered in obtaining molds, bottles and cartons, as the reason they opposed the proposal. They also stressed that the small proprietor might experience disproportionately higher costs than large proprietors with little apparent benefit to be gained.

Nearly all other briefs did not deal with the general issue of wine metrication but commented on specific proposals. The Bureau must, therefore, conclude that the majority of those commenting are not opposed to metrication in the wine industry.

Container units per case. Only two briefs dealt with this proposal in general terms. The U.S. Customs Service strongly supported this proposal since, together with imposition of metric standards of fill on imported wines, it would greatly reduce the number of different size wine cases with which Customs must deal.

The Italian Federation of Wine Producers opposed this proposal in their brief and requested that the bottler determine the number of bottles per case. As an alternative, they proposed that a provision be made for half cases for sale at retail.

Several briefs suggested that their proposed 700 ml or 720 ml bottles be packed 12 per case but did not comment on this proposal in more general terms.

Standards of fill for imported wines. (A) *General discussion.* Six briefs specifically supported proposal 3 to impose the metric standards of fill on wine imported in bottles. The National Association of Alcoholic Beverage Importers (NAABI) stated "adoption of international standards of fill for wine, from a long range point of view, will affirmatively serve the best interests of all concerned nations, their vintners, producers and consumers". NAABI also supported the specific proposed metric standards of fill assuming that these sizes would gain worldwide use in wine trade. Others favoring this proposal, in general, were the U.S. Customs Service, Italian Federation of Wine

XUM
V 39 N 252 DEC 31 1974
XUM
V

Producers, Inflight Food Services Association, Wine Institute and the U.S. Department of State.

Three importers and one foreign wine producer flatly rejected this proposal. Most cited testimony raised during a previous public hearing that the ATF Division of the Internal Revenue Service held in October 1971. Extreme opposition was raised at that time to imposing standards of fill on imports. Three main reasons were cited: (1) Each wine producing nation bottles wine in a size traditional to that country; (2) most nations use the metric system of measurement to which the United States does not conform; and (3) bottling according to United States standards of fill would force foreign producers to bottle exclusively for the United States market which would either raise their wine prices or force their withdrawal from the U.S. market. However, comments filed by the Wine Institute, International Federation of Wines, Spirits, Brandies and Liquors Industries and Wholeselling, and NAABI countered these objections by pointing out that adoption by major wine producing nations of international standards of fill will standardize bottle sizes worldwide.

The majority of written comments neither supported nor opposed imposition of standards of fill on imported wines. Instead, most comments on this proposal dealt with addition of specific sizes to the proposed metric sizes; a discussion of requested sizes follows.

(B) *The 700 ml bottle.* Seventeen briefs and written comments from importers, wine producing firms and various foreign nations sought the inclusion of a 700 milliliter size in the standards of fill or sought the continued acceptance by the United States of imported wine in this bottle. Among foreign governments making such a request were Germany, Bulgaria, Chile, Yugoslavia, Switzerland, Austria, Greece Denmark, Mexico and the European Economic Commission (EEC). Most of these briefs pointed out that wine is traditionally bottled in 700 ml bottles in many nations and that use of a 750 ml bottle would be impractical due to cost or availability. Although the European Economic Community is moving to standardize bottle sizes to be used for wine trade throughout European member nations, they requested use of both 700 ml and 750 ml bottles at least until 1980 since the EEC currently permits use of either size bottle. By 1980, however, the EEC expects to phase out one or the other size. Some nations currently using the 700 ml bottle stated 750 ml bottles are not available or that their exclusive use for the United States market would make such wine much more costly. Germany stated that their 700 ml wine bottles were returnables and their phase-out would be costly and require at least five years. German law requires production of table wine in 700 ml bottles so that a statutory change, which would probably take two years, would be necessary before their wine industry could possibly conform.

(C) *The miniature wine bottle.* The proposed metric sizes did not include a size comparable to the present wine miniatures of 2, 3, or 4 ounces. Eleven briefs requested adoption of various miniature wine sizes including 50, 75, 93 and 100 ml. Foreign wine producers, importers and airlines requested this size bottle to permit importation of many sherries which are commonly sold in 2 oz. or one-person servings. Airlines pointed out that miniatures are essential for wine and liquor service on aircraft due to their compactness, speed and ease of service, and accountability. One other brief mentioned that service of wine from miniature containers protects the consumer since the bottle cannot be refilled or the glass shortfilled.

(D) *Additional sizes.* Several briefs requested inclusion of various other sizes to the metric standards of fill including sizes of 180 ml, 350 ml, 360 ml, 470 ml, 500 ml, 550 ml, 720 ml, 800 ml, 1.8 liters, 2.0 liters, 3.75 liters, 5.0 liters, 10.0 liters, and 20.0 liters. Foreign wine firms and some foreign governments requested sizes including 180 ml, 350 ml, 360 ml, 500 ml, 550 ml, 720 ml, 800 ml, 1.8 and 2.0 liters to accommodate bottles used in those nations. The National Association of Wine Producers and Bottlers requested inclusion of 470 ml and 3.75 liter sizes to more closely replace pint and gallon sizes, and a private citizen sought inclusion of 5, 10 and 20 liter sizes to provide large economy sizes and to lower unit cost of wine.

Applicability of current standards of fill. The Wine Institute's proposal made during the hearing, to prohibit a proprietor from reverting back to a current standard of fill after he began bottling in the corresponding metric size, was supported in the brief filed by the National Association of Alcoholic Beverages Importers. NAABI stated that a needless multiplicity of problems relating to conversion could be thus avoided. No other briefs were received on this proposal.

Length of conversion period. The proposed transition period was two years after which metric bottling would be mandatory. Twelve briefs including those filed by the glass industry, the Departments of State and Agriculture, foreign governments, the EEC, wine bottlers, importers and various trade associations favored extension of this period by as much as four years. Several briefs sought a longer transition period as an alternative to adoption of the 700 ml bottle.

It was pointed out that, although most nations of the world use the metric system, few actually utilize the proposed metric sizes; therefore, compliance will require as much time in many nations as is needed domestically. Many nations, in fact, may require more time to convert than the United States since their 700 ml bottle molds cannot be easily retooled to produce the larger 750 ml bottles; in the United States, the "fifth" bottle containing 757 ml may be more easily converted to the 750 ml size. The German government requested at least five years for compliance due to their exclusive use of 700 ml bottles, many of which are recyclable.

In their brief, the Glass Containers Manufacturers Institute, which represents most companies producing wine bottles (and other glassware), stated that conversion was not possible in two years without disrupting the glass industry, causing high conversion costs, and fostering excessive waste of obsolete bottle molds and bottles. They requested a minimum three-year conversion period, or four years if metrication in the distilled spirits industry were contemplated.

Exemption for previously bottled wine. Comments pertaining to the proposal were directed toward the issue of who should be required to certify the bottling date of wine imported in nonstandard containers. The Wine Institute proposed during the hearing that, in addition to the bottler's certification, the importer of the wine should "guarantee" this statement. The U.S. Customs Service also recommended that an additional party execute the certificate since the bottler of the wine might no longer be in business or have any economic interest in the wine to be imported.

The National Association of Alcoholic Beverage Importers favored execution of this certification by the bottler. They contended that the importer enters into a contractual agreement with his foreign supplier, and since the importer is not present during bottling, he cannot "guarantee" the exact bottling date of such wine.

The U.S. Customs Service recommended that proposed section 4.46 be amended to permit withdrawal of wine in nonstandard containers from customs bonded warehouses at any time if the wine entered the warehouse prior to the mandatory effective date, since the wine would have been bottled before metric bottling became mandatory. Customs requested also that the certification of bottling date be made part of the customs invoice rather than a separate document.

Other issues. As indicated previously, the Wine Institute proposed during the public hearing that the Bureau require the net contents statement on wine labels represent the minimum content of the bottle rather than the average fill. This proposal was opposed by the Glass Containers Manufacturers Institute which stated it would be impossible for the glass container industry to lower the existing capacity tolerances of wine containers.

The U.S. Customs Service suggested that the requirement to state the equivalent volume in U.S. fluid ounces to the nearest one-hundreth of an ounce (e.g., 25.36 oz.) was misleading since wine cannot be measured this accurately during bottling. Customs recommended the equivalent volume be stated to the nearest one-tenth ounce instead.

CHANGES SUBSEQUENT TO NOTICE

After full consideration and evaluation of the information presented at the Public Hearing and in written comment and briefs filed prior to the hearing and

during the 60-day period following the hearing, the Bureau has changed its regulations in the following respects.

The Miniature wine bottle. The regulations prescribe a "miniature" bottle containing 100 milliliters. This size will replace current sizes of 2, 3 and 4 ounces while providing consumers a single-serving portion of wine which is now available.

The miniature affords consumers protection not available in larger bottles since the bottle itself cannot easily be refilled nor is a customer likely to receive a shortfilled glass.

Miniatures play a vital role in aircraft wine and liquor service. Space limitations and the necessity for fast, convenient service almost prohibit use of larger bottles on aircraft and the abolition of the miniature might cause discontinuation of some or all wine or liquor service. Miniatures have also met with unqualified acceptance with the traveling public.

The 100 ml miniature does not present any deception to the consumer since it is very distinct from the closest size of 187 ml. Since the European Economic Commission has proposed the 100 ml size for use in trade among EEC nations, it is likely to gain worldwide acceptance as the miniature wine size. The Bureau, therefore, adopts 100 ml as one of the metric standards of fill.

Section 4.73 is further amended to include a standard of fill of 100 milliliters. Section 4.74 is further amended to provide for the packing of 100 ml bottles in cases each containing 120 bottles.

Extension of the conversion period. The regulations provide that the phase-in period for metric bottling shall last a total of four years for all wines both domestic and imported rather than two years as proposed.

Several reasons dictate extension of the conversion period. The glass manufacturing industry has stated its inability to effect total conversion within two years without disrupting the industry and causing unnecessary waste and expense. The industry has also cited the possible metric conversion of distilled spirits containers as yet another problem with a two or three-year conversion period.

Two additional years for conversion will promote a more orderly metric transition. Current bottle molds may be phased-out as they wear out and may be then replaced by metric molds without prematurely discarding obsolete but serviceable molds. Individual companies will also have two additional years over which to spread the costs of conversion; hopefully, the gradual introduction of metric bottle sizes and the length of time permitted will actually lower somewhat the actual costs of conversion.

A second major reason to extend the conversion period is to ease the burden on foreign wine producers who previously have been exempted from the standard of fill requirements. On the basis of all evidence presented, it seems improbable that most foreign bottlers could convert their production to the proposed sizes within the two-year period. Several European nations have indicated that their conversion to the metric standards of fill might require five years or more; however, the Bureau believes that the vast majority of nations, including those which utilize the 700 ml bottle, will be able to comply with the metric bottle sizes in four years.

Consumers will benefit from the lengthened transition period since it will provide more time to become acquainted with the metric system and the specific bottle sizes. The additional time will also allow the consumer a better choice of imported wines since, under the original two-year proposal, many imported wines might have been denied access to the U.S. market, because bottlers could not have complied with the standards of fill in two years.

An additional consideration in extending the conversion period is to accommodate those nations of the world which use the 700 milliliter bottle for their "standard" wine bottle. The Bureau feels that the replacement of this bottle by the 750 ml bottle is a problem of major proportions which could not be accomplished in two years. By extending the conversion period, the Bureau feels all foreign bottlers will have ample time to convert to the 750 ml bottle. This four-year period also more closely parallels the transition period prescribed by the European Economic Community for adherence to standard bottle sizes for free trade among EEC members. The Bureau expects that the EEC will, at the end of their six-year transition period, phase-out the 700 ml bottle as a vehicle of international wine trade in favor of the 750 ml size.

In order to accommodate domestic vintners, importers, the glass industry, foreign governments and foreign wine producers, the mandatory effective date for metric bottling is delayed by slightly more than two years, from November 1, 1976, until January 1, 1979. The regulations in sections 4.37, 4.46, 4.70, 4.72, 4.73 and 4.74 are further amended to reflect this change.

Applicability of current standards of fill. The proposal to permit proprietors to utilize either current or metric standards of fill during the conversion period has been changed by requiring that conversion to a given metric standard of fill be irrevocable for any particular bottler with respect to each type or style of wine bottle. For example, once a bottler begins to use a one liter champagne bottle, he may no longer bottle quart champagne bottles. However, he will not be prohibited from bottling in other current U.S. sizes not yet replaced, or in quarts of other bottle types or styles (e.g. quart claret bottles) not replaced.

This requirement will reduce the time that dual sizes, metric and non-metric, are on a retailer's shelves. For example, it should largely prevent the side-by-side sale of wine in 750 ml and ⅘ quart bottles of a particular type or style, for wines bottled by the same bottler. It should also alleviate confusion for retailers and wholesalers by reducing somewhat the variety of packages they must handle at one time. At the same time, it will allow the bottler a considerable degree of flexibility (in terms of using up existing bottle stocks, etc.) in phasing in the new metric bottle sizes.

Section 4.73 is further amended to adopt the irrevocability of conversion requirement.

Exemption for previously bottled wines. The regulations in § 4.46, concerning a certificate of nonstandard fill, are being revised to require that a duly appointed official of the appropriate foreign country certify the bottling date of wine in nonstandard containers rather than requiring the bottler of the wine to make the certification as proposed.

The U.S. Customs Service pointed out that in some instances the foreign bottler could not verify this statement. Also, the importer of the wine is seldom in a position to "guarantee" its exact bottling date since the importer must rely on the bottler or owner of the wine for this information.

This requirement, therefore, is changed to require that an appropriate foreign official certify the bottling date. The Bureau expects that the foreign official will require reasonable assurances from the bottler or owner of the wine as to the validity of any bottling statements made.

Section 4.46 is also being revised to allow for the free withdrawal from a customs bonded warehouse, of imported wine in nonstandard containers after the mandatory effective date of the regulations, if such wine was entered into the warehouse prior to that date. A certificate of nonstandard fill is not required since all such wine must have been bottled prior to the date for mandatory metric bottling.

Labeling requirements. Several clarifying changes are being adopted to simplify labeling requirements for metric bottles of both standard and nonstandard net contents.

Sections 4.37 and 4.73 are being further amended to require metric net contents be expressed in liters and decimal portions thereof for quantities larger than one liter, and in milliliters for quantities of less than one liter. Statement of net content in liters or milliliters will standardize the manner by which metric net contents are to be stated while also reflecting the degree of accuracy necessary to measure the content of wine bottles.

Section 4.37 is being further amended to require a statement of equivalent net contents in U.S. measure for bottles having a nonstandard content but labeled in metric measure. Although the proposed regulations required an equivalent content statement for the metric standards of fill, they inadvertantly omitted this requirement for bottles of nonstandard content. The equivalent volume in U.S. measure is further required to be stated in fluid ounces only and be accurate to the nearest one-tenth ounce. As proposed, this equivalent volume statement would have been in terms of gallons, quarts, pints and ounces. However, sole use of ounces will permit simpler comparisons with milliliters and

XUM
V 39 NO 252 DEC 31 1974
XUM
V

should encourage and facilitate unit pricing and volume comparison. The requirement that the fluid ounce equivalent be accurate to the nearest one-tenth ounce reflects the maximum degree of accuracy deemed necessary or possible for measuring net content of wine bottles. As proposed, the fluid ounce equivalent would have been accurate to the nearest one-hundredth ounce.

An exception to the statement of equivalent volume in fluid ounces is being provided in the case of wine labels or bottles which show metric measure and which are in use on or before December 31, 1974. The regulations in section 4.37(c) provide that when the U.S. net content is shown on these bottles in terms of gallons, quarts, pints, and ounces (e.g. one pint, eight fluid ounces), or is not shown at all in the case of bottles having a stated content of ½ liter, 1 liter, or 1½ liters, existing stocks of such labels and bottles may be utilized. Once existing stocks are exhausted, the U.S. net contents or U.S. equivalent content statement must be shown, and stated in terms of fluid ounces only. This exception is intended to allow time to implement the new requirement and prevent the waste of resources that would occur if existing stocks of labels and bottles were declared obsolete immediately.

Other changes. The definition of a liter is being further changed in § 4.10(o) to define it in terms of one of the basic metric units, the meter, and to reflect the common spelling throughout much of the world of "litre". Therefore, the definition of a liter is changed to 1000 cubic centimeters and the equivalent volume in U.S. measure is stated. Due to utilization of a more accurate conversion factor, the equivalent measure is now specified as 33.814 U.S. fluid ounces rather than 33.82 ounces.

Sections 4.37 (b) and (c) are further amended to substitute "United States" or "U.S." for "English" when referring to a fluid measurement system. Although both systems utilize the terms gallon, quart, pint, and fluid ounce, the actual volumes of similar units do not correspond, because the United States and English ounces represent dissimilar quantities. Therefore, this section is changed to avoid any possible confusion regarding the stated content.

Substantive Proposals Not Adopted

Additional sizes. The Bureau received numerous written requests for the inclusion of additional sizes to the metric standards of fill. One of these, the 100 ml miniature, is being adopted as a standard size. No other sizes are being added to the metric standards of fill.

The seven sizes being adopted by these regulations are entirely adequate for domestic production and they afford the consumer a wide selection of sizes. Addition of other sizes would yield marginal benefits since most do not provide a uniquely different size from the adopted ones. Some of the proposed sizes would promote consumer deception since sizes of 700 ml, 720 ml and 750 ml are virtually the same and would be easily confused. Also, most adopted sizes are multiples of the basic 750 ml bottle and are thus subject to simple size and price comparison while the suggested additional sizes cannot be so compared. Finally, the volume of international trade in nearly all of the suggested sizes, except for the 700 ml size, does not appear great enough to warrant inclusion of these sizes in the metric standards of fill. Therefore, the Bureau is not adopting any other metric standards of fill for wine.

Minimum fill. The Bureau is not adopting the Wine Institute's proposal to require that the net contents statement reflect the minimum content of the bottle. Adoption of this proposal would constitute a Bureau policy change not contemplated by the Notice of Hearing and would cause some loss of tax revenue.

Regulatory Changes

On the basis of the foregoing comments, briefs, and testimony, the regulations relating to the labeling and advertising of wine (27 CFR Part 4) are amended as follows:

Paragraph 1. Amend § 4.10 by (1) amending the definition of "Gallon", paragraph (j), to make it clear that units of liquid measure need not be of the United States system of measure; and (2) redesignating present paragraph (o) as paragraph (p) and inserting a new paragraph (o) which provides the definition of a "Liter". As amended, § 4.10 reads as follows:

§ 4.10 Meaning of terms.

• • • • •

(j) *Gallon.* Means a United States gallon of 231 cubic inches of alcoholic beverage at 60° F.

• • • • •

(o) *Liter or litre.* Means a metric unit of capacity equal to 1000 cubic centimeters at 4° C., and equivalent to 33.814 U.S. fluid ounces. For purposes of this part, a liter is subdivided into 1000 equal milliliters (ml).

(p) *Use of other terms.* Any other term defined in the Federal Alcohol Administration Act and used in this part shall have the same meaning assigned to it by such act.

Par. 2. Amend § 4.37 by (1) amending paragraph (a) to specify the manner by which net content must be stated for bottles filled according to the metric standards of fill as well as for bottles filled to nonstandard volumes; (2) deleting paragraph (b) and adding a new paragraph (b) requiring that whenever bottles are filled and labeled according to metric measure prior to January 1, 1979, the equivalent volume in U.S. measure must also be shown in fluid ounces; and (3) deleting existing paragraph (c) and adding a new paragraph (c) which permits temporary use of bottles or labels showing the U.S. net content in terminology superseded by this regulation. As amended, § 4.37 reads as follows:

§ 4.37 Net contents.

(a) The net contents of wine for which a standard of fill is prescribed in § 4.72 shall be stated in the same manner and form in which such standard of fill is set forth therein. If bottles are filled according to the metric standards of fill prescribed in § 4.73, net contents shall be stated in the same manner and form in which such standard of fill is set forth in § 4.73. The net content of wine for which no standard of fill is prescribed in §§ 4.72–4.73 shall be stated in the metric system of measure as follows:

(1) If more than one liter, net contents shall be stated in liters and in decimal portions of a liter accurate to the nearest one-hundredth of a liter.

(2) If less than one liter, net contents shall be stated in milliliters (ml).

Provided, That the net contents of wine for which no standard of fill is prescribed in §§ 4.72–4.73 may be stated in United States fluid measure if such wine is bottled on or before December 31, 1978.

(b) Except as provided in paragraph (c) of this section, when net contents of wine are stated in metric measure, the equivalent volume in United States measure shall also be shown on all wine bottled prior to January 1, 1979, as follows:

(1) For the metric standards of fill:

	Fluid ounces
3 liters	101
1.5 liters	50.7
1 liter	33.8
750 milliliters	25.4
375 milliliters	12.7
187 milliliters	6.3
100 milliliters	3.4

(2) For all other volumes, equivalent volume shall be stated in fluid ounces only, accurate to the nearest one-tenth of a fluid ounce such as: 700 ml (23.7 fl. oz.).

(c) When metric measure is shown on wine labels or on bottles permanently marked as provided in paragraph (d) in use on or before December 31, 1974, and the U.S. net content is shown in terms of gallons, quarts, pints and fluid ounces (*e.g.* 1 pint, 8 fluid ounces), or labeled ½ liter, 1 liter, or 1½ liters, existing stocks of such labels or bottles may be used. When existing stocks of such labels or bottles are exhausted, the U.S. net content or the U.S. equivalent volume shall in all instances (including ½ liter, 1 liter, and 1½ liter bottles) be stated in terms of fluid ounces only.

• • • • •

Par. 3. Add a new section to provide that a certificate executed by a duly authorized official of the appropriate foreign country, be furnished to U.S. Customs stating that such wine was bottled or packed prior to January 1, 1979, if such wine is to be released from customs custody on or after those dates in containers not conforming to the metric standards of fill and standard case requirements prescribed by §§ 4.73–4.74. As added, § 4.46 reads as follows:

§ 4.46 Certificate of nonstandard fill.

Wine imported in original containers not conforming to the metric standards of fill and standard case requirements

prescribed by §§ 4.73–4.74 shall not be released from customs custody after December 31, 1978, unless (1) such wine is accompanied by a statement signed by a duly authorized official of the appropriate foreign country, stating that the wine was bottled or packed prior to January 1, 1979; or (2) unless the wine is being withdrawn from a customs bonded warehouse into which it was entered on or before December 31, 1978.

Par. 4. Amend § 4.70 to remove the exemption from the standard wine container requirements currently granted to imported wine, and to grant certain exemptions from the metric standards of fill to wines bottled before the effective date of the amendments to the regulations. As amended, § 4.70 reads as follows:

§ 4.70 Application.

* * * * *

(b) Sections 4.70–4.74 shall not apply (1) to sake; (2) to wine packed in containers of five gallons or more; (3) to imported wine in the original containers in which entered in customs custody if such wine was bottled or packed on or before December 31, 1978; or (4) to wine domestically bottled or packed, either in or out of customs custody, prior to October 24, 1943, if the container, or the label on the container, bears a conspicuous statement of the net contents thereof, and if the actual capacity of the container is not substantially less than the apparent capacity upon visual examination under ordinary conditions of purchase or use.

(c) Sections 4.73–4.74 shall not apply to wine domestically bottled or packed, either in or out of customs custody, prior to January 1, 1979, if such wine was bottled or packed according to the standards of fill prescribed in § 4.72.

Par. 5. Amend § 4.71 to update the reference in paragraph (2) to the standards of fill, and in paragraph (3) to the headspace requirements. As amended, § 4.71 reads as follows:

§ 4.71 Standard wine containers.

* * * * *

(2) *Fill.* It shall be so filled as to contain the quantity of wine specified in one of the standards of fill prescribed in § 4.72 or 4.73; and

(3) *Headspace.* It shall be made and filled as to have a headspace not in excess of 6 percent of its total capacity after closure if the net content of the container is 187 milliliters or more, and a headspace not in excess of 10 percent of such capacity in the case of all other containers.

Par. 6. Amend § 4.72 by adding a new paragraph (c) which states that the present standards of fill will no longer be applicable on or after January 1, 1979. As amended, § 4.72 reads as follows:

§ 4.72 Standards of fill.

* * * * *

(c) This section shall not apply on or after January 1, 1979. The metric standards of fill prescribed in § 4.73 may be substituted for the standards of fill in this section on or after January 1, 1975, but must be applied on or after January 1, 1979.

Par. 7. A new section, § 4.73, is added to (1) prescribe metric standards of fill for the bottling of wine, (2) to provide for irrevocability of conversion from a given metric standard of fill after its use has begun, and (3) to provide that the metric standards of fill may be used optionally on and after January 1, 1975, but must be used on and after January 1, 1979. As added, § 4.73 reads as follows:

§ 4.73 Metric standards of fill.

(a) The standards of fill for wine shall be the following, subject to the tolerances hereinafter allowed:

3 liters
1.5 liters
1 liter
750 milliliters
375 milliliters
187 milliliters
100 milliliters

(b) The tolerances in fill shall be the same as are allowed by § 4.37 in respect to statement of net contents upon labels.

(c) Once a bottler has discontinued bottling in a given type or style of bottle (e.g. burgundy bottle or champagne bottle) corresponding to a standard of fill prescribed by § 4.72, and has begun bottling in a replacement standard of fill prescribed by this section, he may not revert back for that particular type or style of bottle, to the standards of fill prescribed by § 4.72.

(d) The effective date of paragraphs (a) and (b) of this section shall be January 1, 1979, except that, the standards of fill prescribed in this section may be applied in lieu of those listed at § 4.72 on or after January 1, 1975. When the metric standards of fill are applied prior to January 1, 1979, the equivalent volume in U.S. measure shall also be stated as specified in § 4.37(b).

Par. 8. Add a new section prescribing the number of bottles which shall be packed per shipping case or shipping container when metric standards of fill are applicable. As added, § 4.74 reads as follows:

§ 4.74 Bottles per shipping case.

Wines bottled subject to the standards of fill prescribed by § 4.73 shall be packed with the following number of bottles per shipping case or shipping container:

Bottle sizes:	*Bottles per case*
3 liters	4
1.5 liters	6
1 liter	12
750 milliliters	12
375 milliliters	24
187 milliliters	48
100 milliliters	120

Because the substantive requirements of this Treasury decision will not become mandatory until January 1, 1979, it is found that it is unnecessary to issue this Treasury decision subject to the effective date limitation of 5 U.S.C. 553(d). Accordingly, this Treasury decision shall become effective on January 1, 1975.

This Treasury decision is issued under the authority contained in 49 Stat. 981, as amended; 27 U.S.C. 205.

Dated: December 26, 1974.

WILLIAM R. THOMPSON,
Deputy Director, Bureau of Alcohol, Tobacco and Firearms.

Dated: December 26, 1974.

Approved:
PETER O. SUCHMAN,
Acting Assistant Secretary, Enforcement, Operations and Tariff Affairs.

§ 4.10 Meaning of terms.

As used in this part, unless the context otherwise requires, terms shall have the meaning ascribed in this part.

(a) *Act.* "Act" means the Federal Alcohol Administration Act.

(b) *Assistant Regional Commissioner.* "Assistant Regional Commissioner" shall mean the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to, and functions under the direction and supervision of the Regional Commissioner.

(c) *Director.* "Director" shall mean the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington, D.C.

(d) *Permittee.* "Permittee" means any person holding a basic permit under the Federal Alcohol Administration Act.

(e) *Wine.* "Wine" means: (1) wine as defined in section 610 and section 617 of the Revenue Act of 1918 (26 U.S.C. 3036, 3044, 3045) and (2) other alcoholic beverages not so defined, but made in the manner of wine, including sparkling and carbonated wine, wine made from condensed grape must, wine made from other agricultural products than the juice of sound, ripe grapes, imitation wine, compounds sold as wine, vermouth, cider, perry, and sake; in each instance only if containing not less than 7 percent, and not more than 24 percent of alcohol by volume, and if for nonindustrial use.

(f) *Pure condensed must.* "Pure condensed must" means the dehydrated juice or must of sound, ripe grapes, or other fruit or agricultural products, concentrated to not more than 80° (Balling), the composition thereof remaining unaltered except for removal of water; the term "restored pure condensed must" means pure condensed must to which has been added an amount of water not exceeding the amount removed in the dehydration process; and the term "sugar" means pure cane, beet, or dextrose sugar in dry form containing, respectively, not less than 95 percent of actual sugar calculated on a dry basis.

(g) *Added brandy or alcohol.* As used in the phrase "added brandy or alcohol" the term "brandy" means brandy or wine spirits for use in the fortification of wine as permitted by internal revenue law. The term "alcohol" means ethyl alcohol distilled at or above 190° proof.

(h) *Vintage wine.* "Vintage wine" means a wine made in accordance with the standards prescribed in Classes 1, 2, and 3 of § 4.21, deriving not less than 95

XUM
V 39 N 252 DEC 31 1974 V
XUM

percent of its volume from grapes gathered in the same calendar year, grown in the same viticultural area, and fermented in the State in which this viticultural area is located.

(i) *Container.* "Container" means any bottle, barrel, cask or other closed receptacle irrespective of size or of the material from which made for use for the sale of wine at retail. The term "bottler" means any person who places wine in containers of a capacity of 1 gallon or less; and the term "packer" means any person who places wine in containers of a capacity in excess of 1 gallon.

(j) *Gallon.* Means a United States gallon of 231 cubic inches of alcoholic beverage at 60° F.

(k) *Brand label.* "Brand label" means the label carrying, in the usual distinctive design, the brand name of the wine.

(l) *United States.* "United States" means the several States and Territories and the District of Columbia; the term "State" includes a Territory and the District of Columbia; and the term "Territory" means Puerto Rico.

(m) *Interstate commerce.* "Interstate or foreign commerce" means commerce between any State and any place outside thereof, or commerce within any Territory or the District of Columbia, or between points within the same State but through any place outside thereof.

(n) *Person.* "Person" means any individual, partnership, joint-stock company, business trust, association, corporation, or other form of business enterprise, including a receiver, trustee, or liquidating agent, and including an officer or employee of any agency of a State or political subdivision thereof; and the term "trade buyer" means any person who is a wholesaler or retailer.

(o) *Liter or litre.* Means a metric unit of capacity equal to 1000 cubic centimeters at 4° C., and equivalent to 33.814 U.S. fluid ounces. For purposes of this part, a liter is subdivided into 1000 equal milliliters (ml).

(p) *Use of other terms.* Any other term defined in the Federal Alcohol Administration Act and used in this part shall have the same meaning assigned to it by such act.

§ 4.37 Net contents.

(a) The net contents of wine for which a standard of fill is prescribed in § 4.72 shall be stated in the same manner and form in which such standard of fill is set forth therein. If bottles are filled according to the metric standards of fill prescribed in § 4.73, net contents shall be stated in the same manner and form in which such standard of fill is set forth in § 4.73. The net content of wine for which no standard of fill is prescribed in §§ 4.72–4.73 shall be stated in the metric system of measure as follows:

(1) If more than one liter, net contents shall be stated in liters and in decimal portions of a liter accurate to the nearest one-hundredth of a liter.

(2) If less than one liter, net contents shall be stated in milliliters (ml). *Provided,* That the net contents of wine for which no standard of fill is prescribed in §§ 4.72–4.73 may be stated in United States fluid measure if such wine is bottled on or before December 31, 1978.

(b) Except as provided in paragraph (c) of this section, when net contents of wine are stated in metric measure, the equivalent volume in United States measure shall also be shown on all wine bottled prior to January 1, 1979, as follows:

(1) For the metric standards of fill:

	Fluid ounces
3 liters	101
1.5 liters	50.7
1 liter	33.8
750 milliliters	25.4
375 milliliters	12.7
187 milliliters	6.3
100 milliliters	3.4

(2) For all other volumes, equivalent volume shall be stated in fluid ounces only, accurate to the nearest one-tenth of a fluid ounce such as: 700 ml (23.7 fl. oz.).

(c) When metric measure is shown on wine labels or on bottles permanently marked as provided in paragraph (d) in use on or before December 31, 1974, and the U.S. net content is shown in terms of gallons, quarts, pints and fluid ounces (e.g., 1 pint, 8 fluid ounces), or is not shown at all in the case of bottles labeled ½ liter, 1 liter, or 1½ liters, existing stocks of such labels or bottles may be used. When existing stocks of such labels or bottles are exhausted, the U.S. net content or the U.S. equivalent volume shall in all instances (including ½ liter, 1 liter, and 1½ liter bottles) be stated in terms of fluid ounces only.

(d) The net contents need not be stated on any label if the net contents are displayed by having the same blown, etched, sand-blasted, marked by underglaze coloring, or otherwise permanently marked by any method approved by the Director, in the sides, front, or back of the bottle, in letters and figures in such manner as to be plainly legible under ordinary circumstances, and such statement is not obscured in any manner in whole or in part.

(e) Statement of net contents shall indicate exactly the volume of wine within the container, except that the following tolerances shall be allowed:

(1) Discrepancies due exclusively to errors in measuring which occur in filling conducted in compliance with good commercial practice.

(2) Discrepancies due exclusively to differences in the capacity of containers, resulting solely from unavoidable difficulties in manufacturing such containers so as to be of uniform capacity: *Provided,* That no greater tolerance shall be allowed in case of containers which, because of their design, cannot be made of approximately uniform capacity than is allowed in case of containers which can be manufactured so as to be of approximately uniform capacity.

(3) Discrepancies in measure due to differences in atmospheric conditions in various places and which unavoidably result from the ordinary and customary exposure of alcoholic beverages in containers to evaporation. The reasonableness to discrepancies under this paragraph shall be determined on the facts in each case.

(f) Unreasonable shortages in certain of the containers in any shipment shall not be compensated by overages in other containers in the same shipment.

§ 4.46 Certificate of nonstandard fill.

Wine imported in original containers not conforming to the metric standards of fill and standard case requirements prescribed by §§ 4.73–4.74 shall not be released from customs custody after December 31, 1978 unless (1) such wine is accompanied by a statement signed by a duly authorized official of the appropriate foreign country, stating that the wine was bottled or packed prior to January 1, 1979; or (2) unless the wine is being withdrawn from a customs bonded warehouse into which it was entered on or before December 31, 1978.

Subpart H—Standards of Fill for Wine

§ 4.70 Application.

(a) Except as provided in paragraph (b) of this section, no person engaged in business as a producer, rectifier, blender, importer, or wholesaler of wine, directly or indirectly or through an affiliate, shall sell or ship or deliver for sale or shipment, or otherwise introduce in interstate or foreign commerce, or receive therein, or remove from customs custody, any wine unless such wine is bottled or packed in the standard wine containers herein prescribed.

(b) Sections 4.70–4.74 shall not apply (1) to sake; (2) to wine packed in containers of 5 gallons or more; (3) to imported wine in the original containers in which entered in customs custody if such wine was bottled or packed on or before December 31, 1978; or (4) to wine domestically bottled or packed, either in or out of customs custody, prior to October 24, 1943, if the container, or the label on the container, bears a conspicuous statement of the net contents thereof, and if the actual capacity of the container is not substantially less than the apparent capacity upon visual examination under ordinary conditions of purchase or use.

(c) Sections 4.73–4.74 shall not apply to wine domestically bottled or packed, either in or out of customs custody, prior to January 1, 1979, if such wine was bottled or packed according to the standards of fill prescribed in § 4.72.

§ 4.71 Standard wine containers.

(a) A standard wine container shall be made, formed and filled to meet the following specifications:

(1) *Design.* It shall be so made and formed as not to mislead the purchaser. Wine containers shall be held (irrespective of the correctness of the net contents specified on the label) to be so made and formed as to mislead the purchaser if the actual capacity is substantially less than the apparent capacity upon visual

examination under ordinary conditions of purchase or use; and

(2) *Fill.* It shall be so filled as to contain the quantity of wine specified in one of the standards of fill prescribed in §§ 4.72 or 4.73; and

(3) *Headspace.* It shall be made and filled as to have a headspace not in excess of 6 percent of its total capacity after closure if the net content of the container is 187 milliliters or more, and a headspace not in excess of 10 percent of such capacity in the case of all other containers.

§ 4.72 Standards of fill.

(a) The standards of fill for wine shall be the following, subject to the tolerances hereinafter allowed:

(1) For all wines:

4.9 gallons.	1 pint.
3 gallons.	⅘ pint.
1 gallon.	½ pint.
⅘ gallon.	⅖ pint.
½ gallon.	4 ounces.
⅖ gallon.	3 ounces.
1 quart.	2 ounces.
⅘ quart.	

(2) In addition, for aperitif wines only: 15/16 quart:

(b) The tolerances in fill shall be the same as are allowed by § 4.37 in respect to statement of net contents upon labels.

(c) This section shall not apply on or after January 1, 1979. The metric standards of fill prescribed in § 4.73 may be substituted for the standards of fill in this section on or after January 1, 1975, but must be applied on or after January 1, 1979.

§ 4.73 Metric standards of fill.

(a) The standards of fill for wine shall be the following subject to the tolerances hereinafter allowed:

3 liters
1.5 liters
1 liter
750 milliliters
375 milliliters
187 milliliters
100 milliliters

(b) The tolerances in fill shall be the same as are allowed by § 4.37 in respect to statement of net content upon labels.

(c) Once a bottler has discontinued bottling in a given type or style of bottle (e.g. burgundy bottle or champagne bottle) corresponding to a standard of fill prescribed by § 4.72, and has begun bottling in a replacement standard of fill prescribed by this section, he may not revert back for that particular type or style of bottle, to the standard of fill prescribed by § 4.72.

(d) The effective date of paragraphs (a) and (b) of this section shall be January 1, 1979, except that, the standards of fill prescribed in this section may be applied in lieu of those listed at § 4.72 on or after January 1, 1975. When the metric standards of fill are applied prior to January 1, 1979, the equivalent volume in U.S. measure shall also be stated as specified in § 4.37(b).

§ 4.74 Bottles per shipping case.

Wines bottled subject to the standards of fill prescribed by § 4.73 shall be packed with the following number of bottles per shipping case or shipping container:

Bottle sizes:	Bottles per case
3 liters	4
1.5 liters	6
1 liter	12
750 milliliters	12
375 milliliters	24
187 milliliters	48
100 milliliters	120

[FR Doc.74-30426 Filed 12-30-74;8:45 am]

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

PART 2—PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS, AND JUVENILE DELINQUENTS

By order of the United States Court of Appeals for the District of Columbia Circuit in *Richard Pickus, et al. v. United States Board of Parole*, D.C. No. Civil 112-73 (October 11, 1974), certain regulations of the United States Board of Parole were held to be invalidly promulgated. Although the Board does not acquiesce in the Court's holding that the Board is an "agency" as defined by 5 U.S.C. 551(1), the Board has decided to reissue its rules as required by that order. In order to provide working rules for the Board's operations until such time as the Board can repromulgate its regulations in accordance with 5 U.S.C. 553(b), the Board adopts the following rules as emergency regulations, effective December 31, 1974. A notice of proposed rulemaking is published at 39 FR _____. The Board finds under 5 U.S.C. 553(b)(3)(B) that notice and public procedure are impracticable for these emergency regulations.

These rules are essentially the same as those published at 39 FR 20028 (June 5, 1974) and codified in the 1974 Code of Federal Regulations. The changes are as follows:

Section 2.6 is amended to conform with 18 U.S.C. 4254 by specifying that a report by the Attorney General or his designated representative is mandatory before the release on parole of a prisoner sentenced under the Narcotic Addict Rehabilitation Act.

The last sentence of the prior version of § 2.11(c) is deleted as unnecessary.

The former § 2.11(a) which provided for record review for cases with short term continuances is replaced by a provision for record review for all cases and the elimination of scheduled review hearings in cases where the record review results in an order to parole. This change is made because institutional review hearings are felt to be an unnecessary expenditure of resources in cases where parole is clearly warranted on the basis of the written record.

Section 2.14(b) is amended to eliminate interim progress reports in cases of short sentences under 18 U.S.C. 4208(a)(2) or section 924 where there would be an insubstantial interval between the initial parole hearing and the interim progress report at the one-third point in the sentence. Section 2.14(b) is further amended to make the time for interim progress reports for juvenile delinquents and youth offenders conform to the time set for such interim progress reports in the cases of adults sentenced under 18 U.S.C. 4208(a)(2). The former § 2.14(c) had set out a different and more complicated method for determining the time for such interim progress reports for juvenile delinquents and youth offenders. The new § 2.14(c) replaces the former § 2.14(d) and rectifies an editorial mistake in the old section, which stated that notification of review decisions would be made in accordance with § 2.13(c), rather than § 2.13(d) as was intended.

Section 2.16(c) is changed by stating that a federal prisoner in a state institution may be transferred to a federal institution for a parole hearing. The former version of this section stated that such a prisoner shall be transferred to a federal institution. This change was made to clarify the Board's option to conduct hearings at state institutions when it is feasible.

An editorial change is made in § 2.24, replacing references to the "National Appellate Board" with references to the "National Directors". The latter terminology is explained in 28 CFR 0.128. The change is made to clarify the fact that a decision under § 2.24 is not considered to be an appellate decision by the National Appellate Board.

Several changes are made in the descriptions of offense behavior in the paroling policy guideline tables in § 2.20. These changes were adopted by the Board following review of the guidelines under § 2.20(f). No changes have been made in the time ranges for any of the three guideline tables.

Section 2.50 is changed to reflect the regionalized operation of the Board by specifying that it is the responsible Regional Director who issues a parole violator warrant for a youth offender, rather than the Youth Corrections Division of the Board as the section previously stated.

In addition to the amendments described above, several editorial changes have been made in these regulations which are designed to improve the language of the rules without changing their content.

Under the authority of 28 CFR, Chapter 1, Part O, Subpart V and 18 U.S.C. 4201-4210 and 5010-5037, 28 CFR, Chapter 1, Part 2 is revised to read as follows:

Dated: December 23, 1974.

MAURICE H. SIGLER,
Chairman, United States Board of Parole.

Sec.
2.1 Definitions.
2.2 Eligibility for parole, regular adult sentences.
2.3 Same; adult indeterminate sentences.
2.4 Same; juvenile delinquents.
2.5 Same; committed youth offenders.
2.6 Same; sentences under the Narcotic Addict Rehabilitation Act.
2.7 Same; sentences under the gun control statute.
2.8 Same; sentences of six months or less followed by probation.
2.9 Study prior to sentencing.
2.10 Date service of sentence commences.
2.11 Application for parole.
2.12 Hearing procedure.

2.56 Revocation hearing procedure.
2.57 Confidentiality of parole records.

AUTHORITY: 18 U.S.C. 4210-4210, 5001-5037; 28 CFR Part O, Subpart V.

§ 2.1 Definitions.

(a) For the purpose of this part, the term "Board" means the United States Board of Parole; and the terms "Youth Correction Division" and "Division" each mean the Youth Correction Division of the Board.

(b) As used in this part, the term "National Appellate Board" means the Chairman, Vice Chairman, and at least one member of the Board, all of whom also serve as National Appellate Board members in the headquarters office, i.e., Washington, D.C.

(c) All other terms used in this part shall be deemed to have the same meaning as identical or comparable terms have when those terms are used in Chapter 311 of Part IV of Title 18 of the United States Code or Chapter I, Part O, Subpart V of Title 28 of the Code of Federal Regulations.

§ 2.2 Eligibility for parole, regular adult sentences.

Except as set out in the following sections, a federal prisoner wherever confined and serving a definite term or terms of over one hundred and eighty days may, in accordance with the regulations prescribed in this part, be released on parole after serving one-third of such term or terms or after fifteen years of a life sentence or a sentence of over forty-five years (18 U.S.C. 4202).

§ 2.3 Same; adult indeterminate sentences.

A Federal prisoner, other than a juvenile delinquent or a committed youth offender, who has been sentenced to a maximum term of imprisonment in excess of one year may, if the court has designated a minimum term to be served, which term may be less than, but not more than, one-third of the maximum sentence imposed, be released on parole after serving the minimum term. In cases in which a court imposes a maximum sentence of imprisonment upon a prisoner and specifies that the prisoner may become eligible for parole at such times as the Board may determine, the prisoner may be released on parole at any time in the discretion of the Board (18 U.S.C. 4208(a)).

§ 2.4 Same; juvenile delinquents.

A juvenile delinquent who has been committed and who, by his conduct, has given satisfactory evidence that he has reformed, may be released on parole at any time under such terms and conditions as the Board deems proper if it shall appear to the satisfaction of the Board that there is a reasonable probability that the juvenile will remain at liberty without violating the law (18 U.S.C. 5037).

§ 2.5 Same; committed youth offenders.

The Youth Correction Division may at any time, after reasonable notice to the Director of the Bureau of Prisons, release conditionally under supervision a committed youth offender. A youth offender committed under section 5010(b) of title 18 of the United States Code to a maximum six year term shall be released conditionally under supervision on or before the expiration of four years from the date of his conviction. A youth offender committed under section 5010 (c) of title 18 of the United States Code to a maximum term which is more than six years shall be released conditionally under supervision not later than two years before the expiration of the term imposed by the court (18 U.S.C. 5017).

§ 2.6 Same; sentences under the Narcotic Addict Rehabilitation Act.

The Narcotic Addict Rehabilitation Act provides for sentence to a maximum term for treatment as a narcotic addict. Parole may be ordered by the Board after at least six months in treatment, not including any period of time for "study" prior to final judgment of the court. Before parole is ordered by the Board, the Surgeon General or his designated representative must certify that the prisoner has made sufficient progress to warrant his release and the Attorney General or his designated representative must also report to the Board whether the prisoner should be released. Recertification by the Surgeon General prior to reparole consideration is not required (18 U.S.C. 4254).

§ 2.7 Same; sentences under the gun control statute.

A Federal prisoner sentenced under 18 U.S.C. 924 for violation of Federal gun control laws is considered eligible for parole at such time as the Board may determine. Prisoners sentenced under this provision are considered for parole in the same manner as if they had been sentenced under 18 U.S.C. 4208(a)(2).

§ 2.8 Same; sentences of six months or less followed by probation.

A Federal prisoner sentenced under 18 U.S.C. 3651 to serve a period of six months or less in a jail-type or treatment institution, with a period of probation to follow, is not eligible for parole.

§ 2.9 Study prior to sentencing.

(a) When an adult Federal offender has been committed to an institution by the sentencing court for observation and study prior to sentencing under the provisions of 18 U.S.C. 4208(b), the report to the sentencing court is prepared and submitted directly by the United States Bureau of Prisons.

(b) The court may order a youth to be committed to the custody of the Attorney General for observation and study at an appropriate classification center or agency. Within sixty days from the date of the order, or such additional period as the court may grant, the Youth Correction Division shall report its findings to the court (18 U.S.C. 5010(e)).

§ 2.10 Date service of sentence commences.

(a) Service of a sentence of imprisonment commences to run on the date on which the person is received at the penitentiary, reformatory, or jail for service of the sentence: *Provided, however*, That any such person shall be allowed credit toward the service of his sentence for any days spent in custody in connection with the offense or acts for which sentence was imposed.

(b) Service of the sentence of any person who is committed to a jail or other place of detention to await transportation to the place at which his sentence is to be served shall commence to run from the date on which he is received at such jail or other place of detention.

(c) Service of the sentence of a committed youth offender or a person committed under the Narcotic Addict Rehabilitation Act commences to run and continues to run uninterruptedly from the date of conviction, except when such

offender is on bail pending appeal or is in escape status.

§ 2.11 Application for parole.

(a) A prisoner, other than a juvenile delinquent, a committed youth offender, or an offender committed under the Narcotic Addict Rehabilitation Act, desiring to apply for parole shall execute such application forms as may be prescribed by the Board. Such forms shall be available at each Federal institution and shall be provided to prisoners eligible for parole. Such prisoners may waive parole consideration on a form provided for that purpose. If such a prisoner waives parole consideration, he may later apply for parole and may be heard during the next visit of the Board to the institution where he is confined, provided he has applied prior to 45 days from the first scheduled date of this visit. A prisoner who receives an initial hearing may not waive any subsequent review hearing scheduled by the Board except as provided in § 2.16(c). New parole applications are not necessary for such review hearings.

(b) A prisoner who is required to apply before receiving a parole hearing but who fails to submit either an application or a waiver form shall be referred to the Board's representatives by the chief executive officer of the institution. The prisoner shall then receive an explanation of his right to apply for parole at a later date.

(c) Juvenile delinquents, youthful offenders, and those committed under the Narcotic Addict Rehabilitation Act shall not apply for parole. Instead, such prisoners shall be scheduled for initial hearings at the first visit to the institution by representatives of the Board after they have been classified by the institution.

§ 2.12 Hearing procedure.

(a) Prisoners shall be given written notice of the time and place of the hearing described in §§ 2.13 and 2.14. Prisoners may be represented at hearings by a person of their choice. The function of the prisoner's representative shall be to offer a statement at the conclusion of the interview of the prisoner by the examiner panel, and to provide such additional information as the examiner panel shall request. Interested parties who oppose parole may select a representative to appear and offer a statement. The presiding hearing examiner shall limit or exclude any irrelevant or repetitious statement.

(b) No interviews with the Board, or any representative thereof, shall be granted to a prisoner unless his name is docketed for a hearing in accordance with Board procedures. Hearings shall not be open to the public, and the records of all such hearings shall be treated as confidential and shall not be open to inspection by the prisoner concerned, his representative or any other unauthorized person.

§ 2.13 Initial hearing.

(a) An initial hearing shall be conducted by a panel of two hearing examiners designated by the Board. The examiner panel shall inform the prisoner of the decision and, if parole is denied, of the reasons therefor. The decision of the examiner panel, subject to provisions of § 2.23 (b) and (c) shall be final unless action is initiated by the Regional Director pursuant to § 2.24.

(b) In accordance with § 2.18 the reasons for parole denial may include, but are not limited to, the following reasons, with further specification where appropriate:

(1) Release at this time would depreciate the seriousness of the offense committed and would thus be incompatible with the welfare of society.

(2) There does not appear to be a reasonable probability at this time that the prisoner would live and remain at liberty without violating the law.

(3) The prisoner has (a serious) (repeated) disciplinary infraction(s) in the institution.

(4) Additional institutional treatment is required to enhance the prisoner's capacity to lead a law-abiding life.

(c) In lieu of or in combination with the reasons in paragraph (b) (1) and (2) of this section the prisoner after initial hearings shall be furnished a guideline evaluation statement which includes the prisoner's salient factor score and offense severity rating as described in § 2.20, as well as the reasons for a decision to continue the prisoner for a period outside the range indicated by the guidelines.

(d) Written notification of the decision or referral under § 2.17 or § 2.24 shall be mailed or transmitted to the prisoner within fifteen working days of the date of the hearing. If parole is denied, the prisoner shall also receive in writing as a part of the decision, the reasons therefor.

§ 2.14 Review hearings.

All hearings subsequent to the initial hearing shall be considered as review hearings. Review hearings by examiners designated by the Board shall be scheduled for each Federal institution, and prisoners shall appear for such hearings in person, except for the following cases:

(a) During the month preceding a regularly scheduled review hearing, a case may be reviewed on the record by an examiner panel (including a current institutional progress report). If the decision is to grant parole, no hearing shall be conducted.

(b) A prisoner sentenced under the Youth Corrections Act or Federal Juvenile Delinquency Act or a prisoner sentenced to a maximum term of more than 18 months under 18 U.S.C. 4208(a)(2) or 924 who receives a continuance to a date past one-third of his maximum sentence at an initial hearing shall upon completion of one-third of his sentence receive a review by an examiner panel on the record (including a current institutional progress report).

(c) Notification of review decisions shall be given as set forth in § 2.13(d). No prisoner shall be continued for more than three years from the time of last hearing without further review.

§ 2.5 Petition for consideration of parole prior to date set at hearing.

When a prisoner has met the minimum time of imprisonment required by law, the Bureau of Prisons may petition the responsible Regional Director for reopening the case under § 2.28 and consideration of parole prior to the date set by the Board at the initial or review hearing. The petition must show cause why it should be granted, i.e., an emergency, hardship, or the existence of other extraordinary circumstances that would warrant consideration of early parole.

§ 2.16 Parole of prisoner in state or territorial institution.

(a) Any person who has been convicted of any offense against the United States which is punishable by imprisonment but who is confined therefor in a state reformatory or other state or territorial institution, shall be eligible for parole by the Board on the same terms and conditions by the same authority, and subject to recommital for the violation of such parole, as though he were confined in a Federal penitentiary, reformatory, or other correctional institution.

(b) Federal prisoners serving concurrent state and Federal sentences in state, local, or territorial institutions shall be furnished upon request parole application forms. Upon receipt of the application and any supplementary classification material submitted by the institution, the parole decision shall be made by an examiner panel of the appropriate region on the record only.

(c) Prisoners who are serving federal sentences exclusively but who are being boarded in state, local or territorial institutions may be considered for parole on the record only, provided they sign a waiver of their right to a personal hearing. If such a prisoner does not waive a personal hearing, he may be transferred by the Bureau of Prisons to a Federal institution where he will be considered for parole at the next visit by an examiner panel of the Board.

§ 2.17 Original jurisdiction cases.

(a) A Regional Director may designate certain cases to be within the original jurisdiction of the Regional Directors. All original jurisdiction cases shall be heard by a panel of hearing examiners who shall follow the procedures provided in § 2.12. A summary of this hearing and any additional comments that the hearing examiners may deem germane shall be submitted to the five Regional Directors. The Regional Directors shall make the original decision by a majority vote.

(b) The following criteria will be used in designating cases for the original jurisdiction of the Regional Directors:

(1) *National security.* Prisoners who have committed serious crimes against the security of the nation, e.g., espionage or aggravated subversive activity.

(2) *Organized crime.* Persons who the Regional Director has reason to believe may have been professional criminals or may have played a significant role in an organized criminal activity.

(3) *National or unusual interest.* Prisoners who have received national or unusual attention because of the nature of the crime, arrest, trial or prisoner status, or because of the community status of the offender or his victim.

(4) *Long-term sentences.* Prisoners sentenced to a maximum term of forty-five years (or more) or prisoners serving life sentences.

§ 2.18 Granting of parole.

The granting of parole rests in the discretion of the Board of Parole. The Board may parole a prisoner who is otherwise eligible if (a) in the opinion of the Board such release is not incompatible with the welfare of society; (b) he has observed substantially the rules of the institution in which he is confined; and (c) there is a reasonable probability that he will live and remain at liberty without violating the laws (18 U.S.C. 4203(a)).

§ 2.19 Consideration by the Board.

In the exercise of its discretion, the Board generally considers some or all of the following factors and such others as it may deem appropriate:

(a) Sentence data:
(1) Type of sentence;
(2) Length of sentence;
(3) Recommendations of judge, U.S. Attorney, and other responsible officials.
(b) Present offense:
(1) Facts and circumstances of the offense;
(2) Mitigating and aggravating factors;
(3) Activities following arrest and prior to confinement, including adjustment on bond or probation, if any.
(c) Prior criminal record:
(1) Nature and pattern of offenses;
(2) Adjustment to previous probation, parole, and confinement;
(3) Detainers.
(d) Changes in motivation and behavior:
(1) Changes in attitude toward self and others;
(2) Reasons underlying changes;
(3) Personal goals and description of personal strength or resources available to maintain motivation for law abiding behavior.
(e) Personal and social history:
(1) Family and marital history;
(2) Intelligence and education;
(3) Employment and military experience;
(4) Physical and emotional health.
(f) Institutional experience:
(1) Program goals and accomplishments;
(i) Academic;
(ii) Vocational education, training or work assignments;
(iii) Therapy.
(2) General adjustment:
(i) Inter-personal relationships with staff and inmates;
(ii) Behavior, including misconduct.
(g) Community resources, including release plans:
(1) Residence; live alone, with family or others;
(2) Employment, training, or academic education;
(3) Special needs and resources to meet them.
(h) Results of scientific data and tools:
(1) Psychological tests and evaluations;
(2) Statistical parole experience tables (salient factor score).
(i) Paroling policy guidelines as set forth in § 2.20;
(j) Comments by hearing examiners; evaluative comments supporting a decision, including impressions gained from the hearing.

§ 2.20 Paroling policy guidelines; statement of general policy.

(a) To establish a national paroling policy, promote a more consistent exercise of discretion, and enable fairer and more equitable decision-making without removing individual case consideration, the United States Board of Parole has adopted guidelines for parole release consideration.

(b) These guidelines indicate the customary range of time to be served before release for various combinations of offense (severity) and offender (parole prognosis) characteristics. The time ranges specified by the guidelines are established specifically for the cases with good institutional adjustment and program progress.

(c) These time ranges are merely guidelines. Where the circumstances warrant, decisions outside of the guidelines (either above or below) may be rendered. For example, cases with exceptionally good institutional program achievement may be considered for earlier release.

(d) The guidelines contain examples of offense behaviors for each severity level. However, especially mitigating or aggravating circumstances in a particular case may justify a decision or a severity rating different from that listed.

(e) An evaluation sheet containing a "salient factor score" serves as an aid in determining the parole prognosis (potential risk of parole violation). However, where circumstances warrant, clinical evaluation of risk may override this predictive aid.

(f) These guidelines do not apply to parole revocation or reparole considerations. The Board shall review the guidelines periodically and may revise or modify them at any time as deemed appropriate.

ADULT

[Guidelines for decisionmaking, average total time served before release (including jail time)]

Offense characteristic: severity of offense behavior (examples)	Offender characteristic: parole prognosis (salient factor score)			
	Very good (11 to 9)	Good (8 to 6)	Fair (5 to 4)	Poor (3 to 0)
LOW				
Immigration law violations. Minor theft (includes larceny and simple possession of stolen property less than $1,000). Walkaway.	6 to 10 mo.	8 to 12 mo.	10 to 14 mo.	12 to 16 mo.
LOW MODERATE				
Alcohol law violations. Counterfeit currency (passing/possession less than $1,000). Drugs: marihuana, simple possession (less than $500). Firearms Act, possession/purchase/sale (single weapon—not altered or machinegun). Forgery/fraud (less than $1,000). Income tax evasion (less than $10,000). Selective Service Act violations. Theft from mail (less than $1,000).	8 to 12 mo.	12 to 16 mo.	16 to 20 mo.	20 to 25 mo.
MODERATE				
Bribery of public officials. Counterfeit currency (passing/possession $1,000 to $19,999). Drugs: "Hard drugs", possession by drug user (less than $500). Marihuana, possession with intent to distribute/sale (less than $5,000). "Soft drugs", possession (less than $5,000). "Soft drugs", sale (less than $500). Embezzlement (less than $20,000). Explosives, possession/transportation. Firearms Act, possession/purchase/sale (altered weapon(s), machinegun(s), or multiple weapons). Income tax evasion ($10,000 to $50,000). Interstate transportation of stolen/forged securities (less than $20,000). Mailing threatening communications. Misprision of felony. Receiving stolen property with intent to resell (less than $20,000). Smuggler of aliens. Theft/forgery/fraud ($1,000 to $19,999). Theft of motor vehicle (not multiple theft or for resale).	12 to 16 mo.	16 to 20 mo.	20 to 24 mo.	24 to 30 mo.
HIGH				
Burglary or larceny (other than embezzlement) from bank or post office. Counterfeit currency (passing/possession $20,000 or more). Counterfeiting (manufacturing). Drugs: "Hard drugs" (possession with intent to distribute/sale) by drug user to support own habit only. Marihuana, possession with intent to distribute/sale ($5,000 or more). "Soft drugs", possession ($5,000 or more). "Soft drugs", sale ($500 to $5,000). Embezzlement ($20,000 to $100,000). Interstate transportation of stolen/forged securities ($20,000 to $100,000). Mann Act (no force—commercial purposes). Organized vehicle theft. Receiving stolen property ($20,000 to $100,000). Theft/forgery/fraud ($20,000 to $100,000).	16 to 20 mo.	20 to 26 mo.	26 to 32 mo.	32 to 38 mo.
VERY HIGH				
Robbery (weapon or threat). Drugs: "Hard drugs" (possession with intent to distribute/sale) for profit [no prior conviction for sale of "hard drugs"]. "Soft drugs", sale (more than $5,000). Extortion. Mann Act (force). Sexual act (force).	26 to 36 mo.	36 to 46 mo.	46 to 58 mo.	58 to 78 mo.
GREATEST				
Aggravated felony (e.g. robbery, sexual act, aggravated assault)—weapon fired or personal injury. Aircraft hijacking. Drugs: "Hard drugs" (possession with intent to distribute/sale) for profit [prior conviction(s) for sale of "hard drugs"]. Espionage. Explosives (detonation). Kidnapping. Willful homicide.	(Greater than above—however, specific ranges are not given due to the limited number of cases and the extreme variations in severity possible within the category.)			

NOTES

[1] These guidelines are predicated upon good institutions' conduct and program performance.
[2] If an offense behavior is not listed above, the proper category may be obtained by comparing the severity of the offense behavior with those of similar offense behaviors listed.
[3] If an offense behavior can be classified under more than one category, the most serious applicable category is to be used.
[4] If an offense behavior involved multiple separate offenses, the severity level may be increased.
[5] If a continuance is to be given, allow 30 d (1 mo) for release program provision.
[6] "Hard drugs" include heroin, cocaine, morphine, or opiate derivatives, and synthetic opiate substitutes.

§ 2.21 Reports considered.

Decisions as to whether a parole shall be granted or denied shall be determined on the basis of the application, if any, submitted by the prisoner, together with the classification study and all reports assembled by all the services which shall have been active in the development of the case. These reports may include the reports by the prosecution officers, reports by or for the sentencing court, records from the Federal Bureau of Investigation, reports from the officials in each institution in which the applicant shall have been confined, all records of social agency contacts, and all correspondence and such other records as are necessary or appropriate for complete presentation of the case. Before making a decision as to whether a parole should be granted or denied in any particular case, the Board will consider all available relevant and pertinent information concerning the case. The Board encourages the submission of such information by interested persons.

§ 2.22 Communication with the Board.

Attorneys, relatives, or interested parties wishing a personal interview to discuss a specific case with a representative of the Board of Parole must submit a written request to the appropriate regional office setting forth the nature of the information to be discussed. Such personal interview may be conducted by staff personnel in the regional offices. Personal interviews, however, shall not be held by an examiner or member of the Board, except under the Board's appeals procedures.

§ 2.23 Delegation to hearing examiners.

(a) There is hereby delegated to hearing examiners the authority to make decisions relative to the granting or denial of parole, or reparole and revocation or reinstatement of parole or mandatory release and to fix conditions of parole.

(b) Hearing examiners shall function as two-man panels and the concurrence of both examiners shall be required for their decision. In the event of a split decision by the panel, the appropriate regional Administrative Hearing Examiner shall cast the deciding vote.

(c) When a hearing examiner panel proposes to make a decision which falls outside of explicit guidelines for parole decision-making promulgated by the Board, the case shall be reviewed by the appropriate regional Administrative Hearing Examiner. When an Administrative Hearing Examiner does not concur in a decision of an examiner panel to set a parole effective date or continuance outside the Board's guidelines he may with the concurrence of the Regional Director modify the date to the nearest limit of the guidelines.

(d) In the event the Administrative Hearing Examiner is serving as a member of a hearing examiner panel or is otherwise unavailable, cases requiring his action under paragraphs (b) and (c) of this section will be referred to another hearing examiner.

§ 2.24 Review of panel decision by the Regional Director and the National Directors.

A Regional Director may review the decision of any examiner panel and refer this decision, prior to written notification to the prisoner, with his recommendation and vote to the National Directors for reconsideration and any action deemed appropriate. Written notice of this reconsideration action shall be mailed or transmitted to the prisoner within fifteen working days of the date of the hearing. The Regional Director and each National Director shall have one vote and decisions shall be based upon the concurrence of two votes.

§ 2.25 Appeal of hearing panel decision.

(a) A prisoner may file with the responsible Regional Director a written appeal of a decision of a hearing examiner panel or a decision under § 2.24 to grant, deny or revoke parole or to revoke mandatory release. This appeal must be filed on a form provided for that purpose within thirty days from the date of entry of such decision. The appeal shall be considered by the Regional Director who may affirm the decision, order a new institutional hearing, order a regional appellate hearing, reverse the decision, or modify a continuance or the effective date of parole. Reversal of a decision or the modification of such a decision by more than one hundred eighty days, whether based upon the record or following a regional appellate hearing, shall require the concurrence of two out of three Regional Directors. Appellate decisions requiring a second or additional vote shall be referred to other Regional Directors on a rotating basis as established by the Chairman.

(b) Regional appellate hearings shall be held at the regional office before the Regional Director. Attorneys, relatives and other interested parties who wish to appear must submit a written request to the Regional Director stating their relationship to the prisoner and the general nature of the information they wish to present. The Regional Director shall determine if the requested appearances will be permitted. The prisoner shall not appear personally.

(c) If no appeal is filed within thirty days of entry of the original decision, this decision shall stand as the final decision of the Board.

(d) Appeals under this section may be based only upon the following grounds:

(1) The reasons given for a denial or continuance do not support the decision; or

(2) There was significant information in existence but not known at the time of the hearing.

§ 2.26 Appeal to National Appellate Board.

(a) A prisoner may file a written appeal of the Regional Director's decision under § 2.25 to the National Appellate Board on a form provided for that purpose within thirty days after the entry of the Regional Director's written decision. The National Appellate Board may, upon the concurrence of two members, affirm, modify, or reverse the decision, or order a rehearing at the institutional or regional level.

(b) The bases for such appeal shall be the same as for a regional appeal as set forth in § 2.25(d). However, any matter not raised on a regional level appeal may not be raised on appeal to the National Appellate Board.

(c) Decisions of the National Appellate Board shall be final.

§ 2.27 Appeal of original jurisdiction cases.

(a) Cases decided under the procedure specified in § 2.17 may be appealed within thirty days of the entry of the decision to the National Appellate Board. The National Appellate Board, upon the concurrence of two members, may affirm the decision or schedule the case for a review by the entire Board at its next quarterly meeting. A quorum of five members shall be required and all decisions shall be by a majority vote. The Chairman shall vote on the decision only in the absence of a member. This appellate decision shall be final.

(b) If an appellate hearing is scheduled, attorneys, relatives, or other interested parties who wish to speak for or against parole at such hearing must submit a written request to the Chairman of the Board stating their relationship to the prisoner and the general nature of the material they wish to present. The Chairman shall determine if the requested appearances will be permitted.

(c) If no appeal is filed within thirty days of the entry of the Regional Director's decision, this decision shall stand as the final decision of the Board.

(d) The bases for this appeal shall be the same as for a regional appeal as set forth in § 2.25(d).

§ 2.28 Reopening of cases.

Notwithstanding the appeal procedure of § 2.25 and § 2.26, the appropriate Regional Director may on his own motion reopen a case at any time upon the receipt of new information of substantial significance and may then schedule an institutional hearing or take any other action authorized under the provisions of § 2.25. Original jurisdiction cases may be reopened under the procedure of this section on the motion of two out of three Regional Directors and may be scheduled for an institutional hearing or for review by the Regional Directors on the record.

§ 2.29 Withheld and forfeited good time.

(a) Section 4202 of title 18 of the United States Code permits Federal prisoners to be paroled if they have observed the rules of the institution in which they are confined and if they are otherwise eligible for parole. Any forfeiture of statutory good time shall be deemed to indicate that the prisoner has violated the rules of the institution to a serious degree, and a parole will not be granted in any such case in which such a forfeiture remains effective against the prisoner concerned. Any withholding of statutory good time shall be deemed to indicate that the prisoner has engaged in some less serious breach of the rules of the institution. Nevetheless, parole will not usually be granted unless and until such good time has been restored.

(b) Neither a forfeiture of good time nor a withholding of good time shall bar a prisoner from applying for and receiving a parole hearing.

(c) The above restrictions shall not apply, however, to the forfeiture or withholding of *extra good time* which is granted because of meritorious behavior. Parole may be ordered without regard to a prisoner's status insofar as *extra good time* is concerned, although the reasons for any forfeiture or withholding will be included among the other factors used in making the parole decision.

§ 2.30 Release; modification of release date.

(a) When an effective date has been set by the Board, release on that date shall be conditioned upon continued good conduct by the prisoner and the completion of a satisfactory plan for his supervision. The appropriate Regional Director may, on his own motion, reconsider any case prior to release and may reopen and advance or retard a parole date. If such previously granted parole date is retarded for more than sixty days because of institutional misconduct, the prisoner will be given a new hearing in accordance with § 2.12. The purpose of the hearing is to determine if the prisoner's parole grant should be rescinded or a new parole date established. Such hearings will be held on the next hearing docket at a Federal institution. If such a prisoner's misconduct occurred in a Federal Community Treatment Center or a state or local Halfway House, he shall be placed on the first hearing docket after return to a Federal institution.

(b) In any case of a prisoner who has been notified of parole and who has subsequently engaged in conduct in violation of the rules of his custody or confinement sufficient to become a matter of record, the Regional Director shall be advised promptly of such violation. The prisoner shall not be released until the institution has been advised that no change has been made in the Board's order to parole.

§ 2.31 False or withheld information.

All paroles are ordered on the assumption that information from the prisoner has not been fraudulently given or withheld from the Board. If evidence comes to the attention of the Board that a prisoner willfully concealed or misrepresented information deemed significant, the Board, acting under the procedures of § 2.17 may act to rescind or revoke the parole.

§ 2.32 Committed fines.

In any case in which a prisoner shall have had a fine imposed upon him by the committing court for which he is to stand committed until it is paid or until he is otherwise discharged according to law, such prisoner shall not be released on parole or mandatory release until payment of the fine, or until the fine commitment order is discharged according to law as follows:

(a) An indigent prisoner may make application to a U.S. Magistrate in the District wherein he is incarcerated or to the chief executive officer of the institution setting forth, under institutional regulations, his inability to pay such fine; if the magistrate or chief executive officer shall find that the prisoner, having no assets exceeding $20 in value except such as are by law exempt from being taken on execution for debt, is unable to pay the fine, and if the prisoner takes a prescribed oath of indigency, he shall be discharged from the commitment obligation of the committed fine sentence.

(b) If the prisoner is found to possess assets in excess of the exemption in paragraph (a) of this section nevertheless if the Board shall find that retention of all of such assets if reasonably necessary for his support or that of his family, upon taking of the prescribed oath concerning his assets the prisoner shall be discharged from the commitment obligation of the committed fine sentence. If the Board shall find that retention by the prisoner of any part of his assets is reasonably necessary for his support or that of his family, the prisoner upon taking of the prescribed oath concerning his assets, shall be discharged from the commitment obligation of the committed fine sentence upon payment on account on his fine of that portion of his assets in excess of the amount found to be reasonably necessary for his support or that of his family.

(c) Discharge from the commitment obligation of any committed fine sentence does not discharge the prisoner's obligation to pay the fine as a debt due the United States.

§ 2.33 Parole to detainers; statement of policy.

The policy of the Board with regard to parole to detainers is in general accord with the principles recommended by the Association of Administrators of the Interstate Compact for the Supervision of Parolees and Probationers:

(a) The status of detainers held against prisoners in Federal institutions will be investigated, so far as is reasonably possible, prior to parole hearings.

(b) In appropriate cases summary information regarding such prisoner will be provided to state or local authorities. The Board urges institution officials to provide such information.

(c) Where the detainer is not lifted, the Board may grant parole to such detainer if a prisoner is considered in other respects to be a good parole risk. Ordinarily, however, the Board will grant parole to such detainer only if the status of that detainer has been investigated.

(d) The Board will cooperate in working out arrangements for concurrent supervision with other jurisdictions where it is feasible and where release on parole appears to be justified.

(e) The presence of a detainer is not of itself a valid reason for the denial of parole. It is recognized that where the prisoner appears to be a good parole risk, there may be distinct advantage in granting parole despite a detainer.

§ 2.34 Parole to local or immigration detainers.

(a) When a state or local detainer is outstanding against a prisoner whom

XUM V 39 NO 252 DEC 31 1974 XUM V

the Board wishes to parole, the Board may order either of the following:

(1) "Parole to the actual physical custody of the detaining authorities only." In this event, release is not to be effected except to the detainer. When such a detainer is withdrawn, the prisoner is not to be released unless and until the Board makes a new order of parole.

(2) "Parole to the actual physical custody of the detaining authorities or an approved plan." In this event, release is to be effected even though the detainer might be withdrawn, providing there is an acceptable plan for community supervision.

(b) When the Board wishes to parole a prisoner subject to a detainer filed by Federal immigration officials, the Board may order one of the following:

(1) "Parole for deportation only." In this event, release is not to be effected unless immigration officials make full arrangements for deportation immediately upon release.

(2) "Parole to the actual physical custody of the immigration authorities only." In this event, release is not to be effected unless immigration officials take the prisoner into custody—regardless of whether or not deportation follows.

(3) "Parole to the actual physical custody of the immigration authorities or an approved plan." In this event, release is to be effected regardless of whether or not immigration officials take the prisoner into custody, providing there is an acceptable plan for community supervision.

(c) As used in this section "parole to a detainer" means release to the "physical custody" of the authorities who have lodged the detainer. Temporary detention in a jail in the county where the institution of confinement is located does not constitute release on parole. If the authorities who lodged the detainer do not take the prisoner into custody for any reason, he shall be returned to the institution to await further order from the Board.

§ 2.35 Mental competency proceedings.

(a) Whenever a prisoner or parolee is scheduled for a hearing in accordance with the provisions of this part and reasonable doubt exists as to his mental competency, i.e., his ability to understand the nature of and participate in scheduled proceedings, a preliminary hearing to determine his mental competency shall be conducted by a panel of hearing examiners or other official(s) (including a U.S. Probation Officer) designated by the Board of Parole.

(b) At the competency hearing, the hearing examiners or designated official(s) shall receive oral or written psychiatric testimony and other evidence that may be available. A preliminary determination of the prisoner's mental competency shall be made upon the testimony, evidence, and personal observations of the prisoner. If the examiner panel or designated official(s) determines that the prisoner is mentally competent, the previously scheduled hearing shall be held. If they determine that the prisoner is not mentally competent, the previously scheduled hearing shall be temporarily postponed.

(c) Whenever the hearing examiners or designated official(s) determine that a person is incompetent and postpone the previously scheduled hearing, they shall forward the record of the preliminary hearing with their findings to the Regional Director for review. If the Regional Director concurs with their findings, he shall order the temporarily postponed hearing to be postponed indefinitely until such time as it is determined that the prisoner or parolee has recovered sufficiently to understand the nature of and participate in the proceedings and, in the case of a parolee, may order such parolee committed to a Bureau of Prison's facility for further examination. In any such case, the Regional Director shall require a progress report at least every six months on the mental health of the prisoner. When the Regional Director determines that the prisoner has recovered sufficiently, he shall reschedule the hearing for the earliest possible date.

(d) If the Regional Director disagrees with the findings of the hearing examiners or designated official(s) as to the mental competency of the prisoner, he shall take such action as he deems appropriate.

§ 2.36 Release plans.

(a) A grant of parole is conditioned upon the approval of release plans by the Regional Director. In general, the following factors should be present before a prisoner is released after parole has been granted:

(1) The probation officer to whom the releasee is assigned may, in his discretion, require that there be available to the releasee an adviser who is a responsible, reputable, and law-abiding citizen living in or near the community in which the releasee will reside. The adviser should act as a source of advice for the releasee relative to community adjustment. The adviser may provide special services such as vocational placement, personal counsel, or referral to community agencies. The adviser is expected to report to the probation officer any law violation or serious misconduct on the part of the releasee. The adviser may be required by the probation officer to countersign the parolee's monthly supervision report to indicate actual contact with the parolee.

(2) There should be satisfactory evidence that the prospective parolee will be legitimately employed following his release; and

(3) There should be satisfactory assurance that necessary aftercare will be available to a parolee who is ill or who has some other problem which requires special care.

(b) Generally, parolees will be released only to the place of their legal residence unless the Board is satisfied that another place of residence will serve the public interest more effectively or will improve the probabilities of the applicant's readjustment.

(c) Insofar as it is practicable, the details of each plan for release shall be verified by a field investigation by the United States Probation Officer of the District into which release will be made.

(d) Any of the requirements described in this section may be waived by the Regional Director whenever circumstances warrant.

§ 2.37 Release on parole; statement of policy.

Parole release dates generally will not be set more than six months from the date of the parole hearing. Exceptions may be made in extraordinary situations or when necessary to permit an adequate period of residence in a Community Treatment Center. Such residence in a Community Treatment Center shall not generally exceed one hundred twenty days. An effective date of parole shall not be set for a Saturday, Sunday or a legal holiday. A parole grant may be retarded by the Regional Director for up to one hundred twenty days without a hearing for development and approval of release plans.

§ 2.38 Sponsorship of parolees; statement of policy.

It is the policy of the Youth Corrections Division to cooperate with groups desiring to serve as sponsors of parolees. In all cases, sponsors shall serve under the direction of and in cooperation with the probation officers to whom the parolees are assigned.

§ 2.39 Mandatory release in the absence of parole.

A prisoner shall be mandatorily released by operation of law at the end of the sentence imposed by the court less such good time deductions and extra good time deductions as he may have earned through his behavior and efforts at the institution of confinement. He shall be released as if on parole, under supervision until the expiration of the maximum term or terms for which he was sentenced less one hundred eighty days. Insofar as possible, release plans shall be completed before the release of any such prisoner.

§ 2.40 Same; youth offenders.

A prisoner committed under the Youth Corrections Act must be initially released conditionally under supervision not later than two years before the expiration of the term imposed by the court.

§ 2.41 Reports to police departments of names of parolees; statement of policy.

Names of parolees under supervision will not routinely be furnished to a police department of a community, except as required by law. All such notifications are to be regarded as confidential.

§ 2.42 Community supervision by United States Probation Officers.

(a) Pursuant to section 3655 of title 18 of the United States Code, United States Probation Officers are required to provide such parole services as the Attorney General may request. The Attorney General has delegated his authority in this

regard to the Board (28 CFR 0.126[b]). In conformity with the foregoing, probation officers function as parole officers and provide supervision to parolees and mandatory releasees under the Board's jurisdiction.

(b) A parolee or mandatory releasee may be transferred to a new district of supervision with the permission of the probation officers of both the transferring and receiving district, provided such transfer is not contrary to instructions from the Board.

§ 2.43 Duration of period of community supervision.

(a) Any prisoner, with the exception of those sentenced prior to June 29, 1932, who is released under the provisions of laws relating to parole, shall continue until the expiration of the maximum term or terms specified in his sentence without deductions of allowance for good time. Prisoners sentenced prior to June 29, 1932, shall receive reductions in their maximum term or terms of imprisonment for such good time allowances as may be authorized by law.

(b) The Regional Director may discharge from supervision prior to the normal expiration date as provided in § 2.46(b), but the sentence is not thus commuted and such a parolee may be reinstated to supervision or retaken on the basis of a violator warrant.

(c) For certain narcotic offenses a prisoner will have a "special parole term" imposed by the court at the time of sentencing. The period of supervision under the basic sentence is served separately and must be completed prior to the beginning of any "special parole term." The "special parole term" will not be aggregated with the basic sentence for any purpose, including computation of time to serve following parole revocation, if any.

§ 2.44 Conditions of release.

The conditions of release are printed on the release certificate and are binding regardless of whether the releasee signs the certificate. The Board, or a member thereof, may add special conditions or modify the conditions of release at any time.

§ 2.45 Travel by parolees and mandatory releasees.

(a) The probation officer may approve travel outside the district without approval of the Regional Director in the following situations:

(1) Vacation trips not to exceed thirty days,

(2) Trips, not to exceed thirty days, to investigate reasonably certain employment possibilities,

(3) Recurring travel across a district boundary, not to exceed fifty miles outside the district, for purposes of employment, shopping, or recreation.

(b) Specific advance approval by the Regional Director is required for other travel, including travel outside the continental limits of the United States, employment more than fifty miles outside the district, and vacations exceeding thirty days. A special condition imposed by the Regional Director prohibiting certain travel shall supersede any general rules relating to travel as set forth above.

§ 2.46 Supervision reports, modification and discharge from supervision.

(a) All parolees and mandatory releasees shall make such reports to the United States Probation Officers to whom they have been assigned as may be required by the Board or Probation Officers. Probation Officers shall submit summary reviews of the progress of parolees and mandatory releasees according to Board policy. On the basis of summary reviews of the progress of parolees, the Regional Director may modify the reporting requirement of parolees or releasees.

(b) After the parolee or mandatory releasee has been under supervision for at least one year, the Regional Director may, in his discretion, permit the parolee to submit a written report to his probation officer on a less frequent basis than once a month. After a period of such reduced reporting the Regional Director may further order that the parolee be discharged from all supervision by the Probation Officer. In the latter instances, a parolee may be reinstated to supervision or a warrant may be issued for him as a violator at any time prior to the expiration of the sentence or sentences imposed by the court. Other modification in the reporting requirements may be made by the Regional Director at any time during the parolee's term.

§ 2.47 Modification and discharge from supervision; youth offenders.

A committed youth offender may remain under supervision until the expiration of his sentence or he may be released from supervision or unconditionally discharged at any time after one year of continuous supervision on parole.

§ 2.48 Setting aside conviction.

When an unconditional discharge has been granted to a youth offender prior to the expiration of his maximum term of sentence, his conviction shall be automatically set aside and the Regional Director shall issue to the youth offender a certificate to that effect.

§ 2.49 Revocation of parole or mandatory release.

(a) If a parolee or mandatory releasee violates any of the conditions of his release, and satisfactory evidence thereof is presented to the Board, or a member thereof, a warrant may be issued and the offender returned to an institution. Warrants shall be issued or withdrawn only by the Board, or a member thereof.

(b) A warrant for the apprehension of any parolee shall be issued only within the maximum term or terms for which the prisoner was sentenced.

(c) A warrant for the apprehension of any mandatory releasee shall be issued only within the maximum term or terms for which the prisoner was sentenced, less one hundred eighty days.

§ 2.50 Same, youth offenders.

In addition to issuance of a warrant on the basis of violation of any of the conditions of release, the responsible Regional Director may, when he is of the opinion that such youth offender would benefit by further treatement direct his return to custody or issue a warrant for his apprehension and return to custody. Upon his return to custody, such youth offender shall be given a revocation hearing under the same provisions as adult offenders as specified in § 2.54 to § 2.56. Following the revocation hearing parole may be reinstated, revoked or the terms and conditions thereof may be modified.

§ 2.51 Unexpired term of imprisonment.

The time a prisoner was on parole or mandatory release is not credited to the service of his sentence if revocation occurs. When a warrant is issued the sentence ceases to run, but begins to run again when the releasee is taken into Federal custody by the execution of the Board's violation warrant. However, the sentences of prisoners committed under the Narcotic Addict Rehabilitation Act or the Youth Corrections Act run uninterruptedly from the date of conviction without regard to any revocation, except as provided in § 2.10(c). In no case may the commitment of a person under the Federal Juvenile Delinquency Act extend past his twenty-first birthday.

§ 2.52 Execution of warrant; notice of alleged violations.

(a) Any officer of any Federal correctional institution, or any Federal officer authorized to serve criminal process within the United States, to whom a warrant shall be delivered shall execute such warrant by taking such prisoner and returning him to the custody of the Attorney General. The warrant shall be considered delivered to a Federal officer when the warrant is signed and placed in the mail at the Board headquarters or regional office before the expiration of the maximum term of sentence.

(b) On arrest of the prisoner the officer executing the warrant shall deliver to him a copy of the Warrant Application listing the alleged violations of parole or mandatory release upon which the warrant was issued.

(c) If execution of the warrant is delayed pending disposition of local charges, for further investigation, or for some other purpose, the parolee or mandatory releasee is to be continued under supervision by the probation officer until the normal expiration of the sentence, or until the warrant is executed, whichever comes first. Monthly supervision reports are to be submitted, and the releasee must continue to abide by all the conditions of release.

§ 2.53 Warrant placed as a detainer and dispositional interview.

(a) In those instances where the prisoner is serving a new sentence in an institution, the warrant may be placed there as a detainer. Such prisoner shall

XUM

be advised that he may communicate with the Board relative to disposition of the warrant, and may request that it be withdrawn or executed so his violator term will run concurrently with the new sentence. Should further information be deemed necessary, the Regional Director may designate a hearing examiner panel to conduct a dispositional interview at the institution where the prisoner is confined. At such dispositional interview the prisoner may be represented by counsel of his own choice and may call witnesses in his own behalf, provided he bears their expenses. He shall be given timely notice of the dispositional interview and its procedure.

(b) Following the dispositional review the Regional Director may:

(1) Let the detainer stand

(2) Withdraw the detainer and close the case if the expiration date has passed;

(3) Withdraw the detainer and reinstate to supervision; thus permitting the federal sentence time to run uninterruptedly from the time of his original release on parole or mandatory release.

(4) Execute warrant, thus permitting the sentence to run from that point in time. If the warrant is executed, a previously conducted dispositional interview may be construed as a revocation hearing.

(c) In all cases, including those where a dispositional interview is not conducted, the Board shall conduct annual reviews relative to the disposition of the warrant. These decisions will be made by the Regional Director. The Board shall request periodic reports from institution officials for its consideration.

§ 2.54 Revocation by the Board, preliminary interview.

(a) A prisoner who is retaken on a warrant issued by a Board Member shall be given a preliminary interview by an official designated by the Regional Director to determine if there is probable cause to hold the prisoner for a revocation hearing and, if so, whether such revocation hearing should be conducted in the locality of the charged violation(s) or in a Federal institution. The official designated to conduct the preliminary interview may be a United States Probation Officer in the district where the prisoner is confined, provided he is not the officer who recommended that the warrant be issued.

(b) At the beginning of the preliminary interview, the hearing officer shall explain the Board's revocation procedure to the prisoner and shall advise the prisoner that he may have the preliminary interview postponed so that he may obtain representation by an attorney or may arrange for the attendance of witnesses. The prisoner shall also be advised that if he cannot afford to retain an attorney he may apply to a United States District Court for appointment of counsel to represent him at the preliminary interview and the revocation hearing. The prisoner may also request the presence of persons who have given information upon which revocation may be based. Such adverse witnesses shall be requested to attend the preliminary interview unless the prisoner admits a violation or has been convicted of a new offense committed while on supervision or unless the hearing officer finds good cause for their non-attendance. At the preliminary interview the hearing officer shall review the violation charges with the prisoner, receive the statements of witnesses and documentary evidence on behalf of the prisoner, and allow cross-examination of those adverse witnesses in attendance.

(c) At the conclusion of the preliminary interview, the hearing officer shall prepare and submit to the Regional Director a summary of the interview, which shall include recommended findings of whether there is probable cause to hold the prisoner for a revocation hearing. Upon receipt of the summary of the preliminary interview, the Regional Director shall either order the prisoner reinstated to supervision, order that a revocation hearing be conducted in the locality of the charged violation(s), or direct that the prisoner be transferred to a Federal institution for a revocation hearing.

(d) The prisoner shall be retained in local custody pending completion of the preliminary interview, submission of the summary of the hearing officer, and notification by the Regional Director relative to further action.

(e) A postponed preliminary interview may be conducted as a local revocation hearing, by an examiner panel or other hearing officer designated by the Regional Director provided that the prisoner has been advised that the postponed preliminary interview will constitute his final revocation hearing.

§ 2.55 Local revocation hearing.

(a) If the prisoner requests a local revocation hearing prior to his return to a Federal institution, he shall be given a revocation hearing reasonably near the place of an alleged violation if the following conditions are met:

(1) The local hearing would facilitate the production of witnesses or the retention of counsel;

(2) The prisoner has not been convicted of a crime committed while under supervision; and

(3) The prisoner denies that he has violated any condition of his release. Otherwise, he shall be given a revocation hearing after he is returned to a Federal institution. However, the Regional Director may, on his own motion, designate a case for a local revocation hearing.

(b) If there are two or more alleged violations, the hearing shall be conducted near the place of the violation chiefly relied upon as a basis for the issuance of the warrant, as determined by the Regional Director.

(c) Following the hearing the prisoner shall be retained in custody until final action is taken relative to revocation or reinstatement, or until other instructions are issued by the Regional Director.

§ 2.56 Revocation hearing procedure.

(a) A revocation hearing shall be conducted by a hearing examiner panel or, in a local revocation hearing only, by another official designated by the Regional Director. In the latter case, the decision relative to revocation shall be made by an examiner panel on the basis of the hearing summary pursuant to the provisions of § 2.23. A revocation decision may be appealed under the provisions of § 2.25, § 2.26, or § 2.27 as applicable.

(b) The purpose of the revocation hearing shall be to determine whether the prisoner has violated the conditions of his release and, if so, whether his parole or mandatory release should be revoked or reinstated.

(c) The alleged violator may present voluntary witnesses and documentary evidence in his behalf. However, the presiding hearing officer or examiner panel may limit or exclude any irrelevant or repetitious statement or documentary evidence.

(d) If the alleged violator has not been convicted of a new criminal offense while under supervision and does not admit violation of any of the conditions of his release, the Board shall, on the request of the alleged violator or on its own motion, request the attendance of persons who have given statements upon which revocations may be based. Those adverse witnesses who are present shall be made available for questioning and cross-examination in the presence of the alleged violator unless the presiding hearing officer or examiner panel finds good cause for their non-attendance.

(e) All evidence upon which the finding of violation may be based shall be disclosed to the alleged violator at the revocation hearing. The hearing officer or examiner panel may disclose documentary evidence by reading or summarizing the appropriate document for the alleged violator.

§ 2.57 Confidentiality of parole records.

To the end that the objectives and procedures of professionalized parole may be advanced and, more specifically so that the channels of information vital to sound parole actions may be kept open and that offenders released on parole may be protected against publicity deleterious to their adjustment, the following principles relating to the confidentiality of parole records shall be followed by the Board:

(a) Dates of sentence and commitment, parole eligibility dates, mandatory release dates, dates of termination of sentence and whether an inmate is being considered for parole, has been granted or denied parole, and if granted parole, the effective date set by the Board will be disclosed in individual cases upon proper inquiry by a party in interest.

(b) Who, if any one, has supported or opposed an application for parole may be revealed at the Board's discretion only in the most exceptional circumstances, with the express approval of such person(s) and after a decision relative to parole has been made.

(c) Other matters contained in parole records, including how a member votes

relative to parole, will be held strictly confidential and will not be disclosed to unauthorized persons.

Title 29—Labor

CHAPTER XIV—EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

PART 1601—PROCEDURAL REGULATIONS

Deferral of Employment Discrimination Charges

By virtue of the authority vested in it by section 713(a) of Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000e-12(a), 78 Stat. 265, the Equal Employment Opportunity Commission (hereinafter referred to as the Commission) hereby amends Title 29, Chapter XIV, Part 1601 of the Code of Federal Regulations.

The amendments set forth changes necessary to implement section 706 of the Act, which requires the deferral of charges of employment discrimination to appropriate State or local authorities (706(c)) and the according by the Commission of "substantial weight" to final findings and orders made by State and local authorities (706(b)).

Before a State or local authority can be designated a "706 Agency" (as that term is employed in § 1601.12(d)), it must comply with the procedures outlined and meet the criteria established by the Commission as enunciated in § 1601.12 (e) and (f). Those prospective "706 Agencies" which have not as yet been "designated" are categorized by the Commission as "provisional 706 agencies" (§ 1601.12(d)(1)). The Commission defers charges to "provisional 706 agencies" but does not accord "substantial weight" to their findings. In the case of "provisional notice agencies" (§ 1601.12 (d)(2)), the Commission merely notifies said agencies of the receipt of charges filed within their jurisdiction.

These categories, when originally contemplated, were to remain in effect only until July 1, 1973, by which time it was hoped that those State and local agencies desirous of becoming 706 agencies would have met the necessary criteria and been so designated. The original time period and subsequent extensions since July 1, 1973, have not proven sufficient to satisfy the substantive and procedural prerequisites to designation. Therefore, the time period during which State and local agencies may function as "provisional 706 agencies" has been extended until March 1, 1975. The time period, however, during which State and local agencies may function as "provisional notice agencies" has not been extended.

1. Section 1601.12(d)(1) and (d)(2) is amended to read as follows:

§ 1601.12 Referrals to State and local authorities.

* * * * * * *

(d) * * *

(1) *Provisional 706 agencies.* Until March 1, 1975, the Commission will defer charges alleging employment discrimination on the grounds of race, color, religion, sex or national origin against covered public or private employers, unless otherwise indicated by public notice, arising in the jurisdiction of provisional 706 agencies. Agencies may be added as provisional 706 agencies by subsequent public notices issued by the Commission.

(2) *Provisional notice agencies.* Effective December 31, 1974, the jurisdictions of provisional notice agencies will expire.

* * * * * * *

(Sec. 713(a), 78 Stat. 265, (42 U.S.C.); section 2000e-12(a))

This amendment is effective December 27, 1974.

Signed at Washington, D.C., this 27th day of December 1974.

JOHN H. POWELL, JR.,
Chairman.

[FR Doc.74-30526 Filed 12-30-74;8:45 am]

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

Independent Study Programs; Contracting Out of Training

On page 39058 of the FEDERAL REGISTER of November 5, 1974, there was published a notice of proposed regulatory development to amend §§ 21.201, 21.4233, 21.4270 and 21.4280 to clarify existing rules for approval of benefits for students in independent study programs and for approval of courses wherein all or part of the training is provided by another institution or entity under a contract. In addition minor editorial changes have been made to reflect agency policy of using precise terms denoting gender. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

Approximately 409 comments were received. Some of these were received after the expiration of the 30-day period for comments, but because of the volume of comments no attempt is made to determine which were properly received during the appropriate period.

Three hundred comments were from veterans and other interested persons who sought a delay in the implementation of the regulatory changes as they relate to independent study. The writers state, mostly by TWX or telegram, that their educational effort and future will be impaired by the changes. However, it appears that these comments are from students who have already entered into training agreements which were valid when signed. Under the provisions for implementation of the changes on the date of approval of the changes, agreements such as these which are already in force will not be affected so long as the student remains in training. Therefore these persons who seek a delay do not require it since they should not be adversely affected by the changes.

One comment expresses general concern regarding education benefits, but is not specifically directed at one of the proposed changes.

One comment believes the Veterans Administration is discouraging nontraditional training. It also erroneously discusses the Veterans Representative on Campus program which is unaffected by these changes.

Although no changes are made in § 21.4233(c), one comment states the need for a change as to measurement of courses utilizing televised training. This comment is not appropriate inasmuch as these changes do not deal with that issue, but it will be considered if changes are determined to be needed.

One comment deals with the impact of the changes on associate degree programs. No person presently enrolled in such a course shall be affected except as to courses yet to be enrolled in.

One comment erroneously assumes that the changes will abolish external degree programs. Such is not the intent of the amendments.

Two comments from servicemen assume the external degree program will no longer be available. The training should be available as indicated by the amended regulations.

One letter confuses the changes in independent study with correspondence training. Service personnel may continue to receive training exclusively by correspondence without change. External degree programs or independent study programs while conducted by mail, in part, are not correspondence courses. The measurement and payment of benefits is entirely different.

One comment asks if vocational training via independent study is barred. It is and has always been so that these changes do not alter that situation.

One comment merely requests copies of the regulations being changed. As soon as they have become final copies will be disseminated by the various VA Regional Offices to institutions and other interested persons.

No extension of the comment period is necessary as requested by one comment received.

Twenty-two comments deal with various aspects of a reduction in benefits. These comments are apparently from persons currently enrolled in independent study programs which may be affected by the measurement of courses changes in these amendments. However, the writers apparently did not understand that all students currently enrolled will be allowed to continue under existing regulations so long as they remain enrolled in the independent study program. No reduction in the measurement of courses effected by these changes should affect them.

The balance of the comments received deal with questions of philosophy and policy raised for the most part by institutions affected by the changes. Of these four deal primarily with concern over the requirement that courses of in-

dependent study be offered by schools accredited by one of the six regional accrediting agencies. The writers feel this is unfair to other qualified institutions.

The intent of these changes is not to pass upon the qualifications of schools since that is a function of the respective State approving agencies as a matter of law. The regulations previously in effect required that an independent study program could be approved by the State approving agency if given by an accredited college or university. The amendment is to specifically state the appropriate national accrediting agencies that accredit institutions.

Twenty-eight of these comments also state that the changes will prevent or restrict eligible veterans from enrollment in independent study programs, will restrict the payment of benefits and, in effect, will invade the prerogatives of the institutions in selecting curriculum. Some decry the loss of funding to such programs which will result.

Section 1788, title 38, United States Code prescribes for the measurement of the course. Full-time benefits are authorized only when attendance plus outside preparation requires essentially the full time of the student. The law provides lesser rates when training is not on a full-time basis and in the case of correspondence training the rate of payment is 90 percent of the cost of the course. The law prohibits payment if the course is given by open circuit television unless a major portion of the course requires conventional classroom or laboratory attendance. The law authorizes the Administrator to prescribe the measurement for courses not specifically covered in the law. These changes in Veterans Administration regulations are intended to bring the payment for independent study courses more nearly in line with benefits paid as specifically stated in the law. There were no letters which presented convincing evidence that independent study students attend at greater than half time rates.

Forty-four comments from both students and institutions state that the changes unduly restrict the freedom of the student to choose nontraditional training. However, no such restriction exists. Correspondence training for which the student receives 90 percent of the cost of the course is available as an acceptable alternative. The individual is not barred from independent study programs. He or she may still take them and be paid appropriate benefits. The Veterans Administration does not have the right to control the credit assigned or the charges made by a school for such training. If the school certifies credit and charges acceptable to the State approving agencies payment of benefits is made accordingly.

One comment was received from a serviceman who had been solicited by a state external degree program director to comment adversely on these changes. Instead the serviceman disagrees and states that he believes the particular external degree program is not educationally sound but designed to aid financially depressed schools.

Therefore, the proposed regulations are hereby adopted without change and are set forth below.

Effective date. Sections 21.201 (j) and (k), 21.4233 Introduction and (e), 21.4270 (c) and (d) and 21.4280 are effective December 24, 1974.

Approved: December 24, 1974.

By direction of the Administrator.

[SEAL] ODELL W. VAUGHN,
Deputy Administrator.

1. In § 21.201, paragraphs (i) (4) (ii)[1] and (j) are revised and paragraph (k) is added so that the revised and added material reads as follows:

§ 21.201 Types of courses.

* * * * *

(i) *Institutional on-farm course.* * * *

(4) Where the course is designed to train the veteran to manage a farm as the employee of another, the plan for training developed by the Veterans Administration in collaboration with the instructor will satisfy the following requirements: * * *

(ii) The employer-trainer shall have agreed to employ the veteran as manager of the farm on which he or she is being trained if his or her conduct and progress remain satisfactory, or there shall be definite assurance that the veteran will be employed as manager of a specified comparable farm.

* * * * *

(j) *Independent study course leading to a degree.* A course pursued by independent study under the following conditions:

(1) The course is offered by a college or university which is fully accredited by one of the six regional accrediting agencies.

(2) The course leads to or is fully creditable toward a standard college degree which may include external degree programs given by accredited colleges and universities.

(3) The course consists of a prescribed program of study with provision for interaction either by mail, telephone, personally or by class attendance between student and the regularly employed faculty of the university or college.

(4) The college or university evaluates the course in semester or quarter hours, or the equivalent, and prescribes a period for completion.

(5) Subsistence allowance is payable at the institutional rates prescribed in § 21.133. Measurement of the course will be in accordance with provision of § 21.4270, footnote 7, except that seriously disabled veterans whose disability or circumstances preclude regular attendance at an institution of higher learning and for whom an independent study course is a sound method of restoring employability may be paid for such training even though the major portion of the course is not in a classroom or laboratory, if the Veterans Administration determines that the student is pursuing the course at a rate equivalent to one-half time or greater in accordance with school criteria for determining full- and part-time training. If independent study subjects and subjects requiring class attendance are pursued concurrently and both are measured on a credit hour basis, the allowable rate shall be determined on the basis of the combined training load.

(k) *Contract.* All or part of the program of education of a school may be furnished by another school or entity under a contract. The school or entity actually providing the training must be approved by the Veterans Administration. Measurement of the course and payment of an allowance will be appropriate for the course as offered by the school or entity actually providing the training.

2. In § 21.202, paragraph (b) (1), (2) and (3) (i) and (ii) is revised to read as follows:

§ 21.202 Full-time vocational rehabilitation training.

* * * * *

(b) Full-time training for a disabled veteran who is determined by appropriate medical authority to have less than a normal work tolerance will be that amount which his or her work tolerance will permit. A veteran with a reduced work tolerance will be provided training when:

(1) His or her vocational rehabilitation is medically feasible; and

(2) His or her program can be planned for completion within his or her statutory limits or there is a plan which offers reasonable assurance of the program being completed by some other agency or responsible individual; and

(3) The amount of time which can be devoted to training by a veteran with a permanent reduced work tolerance is as great as his or her disability will permit; or the veteran has a temporary reduced work tolerance and there is reasonable promise that during training his or her work tolerance will increase. In each case of temporary reduced work tolerance the following are for application:

(i) The veteran will not be entered into training until it is determined that he or she is able to devote to his or her training at least 4 hours a day, exclusive of any time required to travel to and from his or her place of training.

(ii) At the end of each 90-day period proper medical authority will determine the maximum amount of time the veteran can devote to his or her training and his or her individual training program will be developed accordingly.

* * * * *

3. In § 21.4230, paragraph (e) is revised to read as follows:

§ 21.4230 Requirements.

* * * * *

(e) *Selection; chapter 35; wife, husband, widow, widower.* A program of educational assistance under chapter 35

[1] NOTE: In a previous revision to 38 CFR 21.201(i) subparagraphs (1)–(4) were inadvertently omitted. These subparagraphs are being reinstated in a correcting document which appears elsewhere in this issue.

selected by an eligible wife, husband, widow or widower will be approved if it meets the requirements of paragraphs (a) or (b) of this section and the individual is not already qualified for the objective for which the program of education is offered.

4. In § 21.4232, paragraph (a) is revised to read as follows:

§ 21.4232 Specialized vocational training; 38 U.S.C. ch. 35.

(a) A program consisting of a specialized course of vocational training may be provided to an eligible person who is not in need of special restorative training and who requires such a program because of a mental or physical handicap. (38 U.S.C. 1736) The Vocational Rehabilitation Board will determine whether such a course is in the best interest of the eligible person. If the determination is in the affirmative the board will assist in developing the program and a suitable educational plan. If it is determined that such a program is not in the best interest of the eligible person the application for the program will be denied. Specialized vocational training may be authorized for an eligible child only if the child has passed his or her 14th birthday.

* * * * *

5. In § 21.4233, the introductory portion preceding paragraph (a), the introductory portion of paragraph (b) preceding subparagraph (1), and paragraph (c)(1) are revised and paragraph (e) is added so that the revised and added material reads as follows:

§ 21.4233 Combination.

An approved program may consist of a combination of courses with instruction offered by a school alternating with instruction in a business or industrial establishment (a cooperative course); courses offered by two schools concurrently; or courses offered through class attendance and by television concurrently. A farm cooperative program may be approved, for chapter 34 purposes only, which consists of a combination of institutional agricultural courses and concurrent agricultural employment (see § 21.4264). A school may contract the actual training to another school or entity, provided the course is approved by the State approving agency having approval jurisdiction of the school or entity which actually provides the training.

* * * * *

(b) *Concurrent enrollment.* Where a veteran or eligible person cannot successfully schedule his or her complete program at one school, a program of concurrent enrollment may be approved. When requesting such a program the veteran or eligible person must show that his or her complete program of education or training is not available at the school in which he or she will pursue the major portion of his or her program (the primary school), or that it cannot be scheduled successfully within the period in which he or she plans to complete his or her program.

* * * * *

(c) *Television.*—(1) *Open circuit telecast.* An undergraduate program may be pursued in part by open circuit telecast when:

(i) The veteran or eligible person is enrolled as a resident student in a program leading to a standard college degree.

(ii) The subjects taken by television are integral parts of his or her degree program.

(iii) A major portion of the credit hours for which the veteran or eligible person is enrolled during any semester or quarter is offered through conventional classroom and/or laboratory sessions. In no instance may a veteran or eligible person include in his or her program during any one semester or quarter more than 6 credit hours of open circuit telecast instruction for the purpose of computing the rate of educational assistance allowance. Under these circumstances, a veteran or eligible person may pursue 8 or more credit hours during any one term through regular classroom and/or laboratory instruction and 6 credit hours by open circuit telecast for a full-time resident training load.

* * * * *

(e) *Contract.* All or part of the program of education of a school may be furnished by another school or entity under contract. Such school or entity actually providing the training must obtain approval of the course from the State approving agency in the State having jurisdiction of that school or entity. Measurement of the course and payment of an allowance will be appropriate for the course as offered by the school or entity actually providing the training.

6. In § 21.4234, the introductory portion preceding paragraph (a) and paragraph (b) are revised to read as follows:

§ 21.4234 Change of program.

A request for a change of program may be made by a veteran or eligible person by any form of communication, however, if sufficient information is not furnished to process the request, the prescribed form for a change of program may be furnished him or her for completion. An eligible child needs the concurrence of his or her parent or guardian and appropriate counseling by the Veterans Administration before a change of program is approved. More than two changes of program may be approved if it is found that such additional changes are necessitated by circumstances beyond the control of the veteran or eligible person. (38 U.S.C. 1791)

* * * * *

(b) *Chapter 34.* The veteran may make one optional change of program if his or her previous course was not interrupted or discontinued due to his or her own misconduct, neglect or lack of application. The veteran may make a second change or an initial change after interruption or discontinuance due to his or her own misconduct, neglect or lack of application if it is found that:

(1) The program of education which the veteran proposes to pursue is suitable to his or her aptitudes, interests, and abilities, and

(2) In any instance where the veteran has interrupted, or failed to progress in, his or her program due to his or her own misconduct, neglect or lack of application, there exists a reasonable likelihood with respect to the program which the veteran proposes to pursue that there will not be a recurrence of such an interruption or failure to progress. (38 U.S.C. 1791)

* * * * *

§ 21.4270 [Amended]

7. In § 21.4270 *Measurement of courses*, a new footnote 7 is added to the table therein. It should read as follows:

[7] Independent study programs will be measured as less than ½ time unless a major portion of the credit hours are by classroom/laboratory attendance. (§ 21.4280.)

References to this footnote are added to paragraphs (c) and (d) following the last word in the entries under the column headed "Kind of course".

8. In § 21.4271, paragraph (c) is revised to read as follows:

§ 21.4271 Trade or technical; high schools.

* * * * *

(c) *High schools.* Courses offered at the secondary school level which lead to a high school diploma or the equivalent will be measured on the basis of clock hours of instruction per week, or on the number of units required per year. Enrollment in courses at a secondary school level leading to a high school diploma or the equivalent will not be approved for eligible children under chapter 35. Eligible wives, husbands, widows and widowers under chapter 35 may pursue such courses under the Special Assistance for the Educationally Disadvantaged program.

9. In § 21.4279, paragraph (a) (2) is revised to read as follows:

§ 21.4279 Combination correspondence-residence program.

(a) A program of education may be pursued partly in residence and partly by correspondence for the attainment of a predetermined and identified objective under the following conditions: * * *

(2) It is the practice of the institution to permit a student to pursue a part of his or her course by correspondence in partial fulfillment of the requirements for the attainment of the specified objective.

* * * * *

10. Section 21.4280 is revised to read as follows:

§ 21.4280 Independent study leading to a standard college degree.

(a) An eligible veteran or person may receive an educational assistance allow-

V 39 N 252 DEC 31 1974 XUM

ance for pursuit of an independent study course under the following conditions:

(1) The course is offered by a college or university which is fully accredited by one of the six regional accrediting agencies;

(2) The course leads to or is fully creditable toward a standard college degree which may include external degree programs given by accredited colleges and universities;

(3) The course consists of a prescribed program of study with provision for interaction either by mail, telephone, personally or by class attendance between student and the regularly employed faculty of the university or college; and

(4) The course is approved by the State approving agency.

(b) The independent study program shall be measured as follows:

(1) If the college or university evaluates the course in semester or quarter-hours of credit and prescribes a period for completion, the course shall be measured in credit hours under § 21.4270 (c) or (d) with equivalency computed under § 21.4272(d) as appropriate, provided a major portion of the credit-hours for which the veteran or eligible person is enrolled during any term is offered through conventional classroom and/or laboratory sessions; or

(2) If the college or university does not evaluate the independent study program in standard semester or quarter-hours or the equivalent, or if one half or a greater portion of the credit-hours are independent study, the independent study program shall be measured as less than ½-time training.

(c) An eligible veteran or person who is pursuing an independent study program shall be paid an educational assistance allowance at the institutional rate prescribed in § 21.4136(a). If independent study subjects and subjects requiring class attendance are pursued concurrently and both are measured on a credit hour basis, the allowable rate shall be determined on the basis of the combined training load provided a major portion of the hours are by class attendance. When measurement is different (i.e., class attendance on credit hour basis and independent study under paragraph (b)(2) of this section), the appropriate rate for each part shall be determined and the combined rates paid, but not to exceed the full time institutional allowance rate.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 221—SERVICES PROGRAMS FOR FAMILIES AND CHILDREN AND FOR AGED, BLIND OR DISABLED INDIVIDUALS; TITLES I, IV (PARTS A AND B), VI, X, XIV, AND XVI OF THE SOCIAL SECURITY ACT

Postponement of Effective Date

Final regulations for the social services programs under the public assistance titles of the Social Security Act were published on October 31, 1973 (38 FR 30072) to be effective November 1, 1973. The effective date of these regulations was postponed until January 1, 1975 by P.L. 93-233, signed by the President on December 31, 1973. The postponement was published in the FEDERAL REGISTER on January 9, 1974 (39 FR 1443). The effective date of these regulations is being further postponed until October 1, 1975.

Accordingly, the regulations in Parts 220, 222, and 226 of this title currently in effect will continue in effect until September 30, 1975.

Dated: December 20, 1974.

JOHN A. SVAHN,
Acting Administrator, Social and Rehabilitation Service.

Approved: December 23, 1974.

CASPAR W. WEINBERGER,
Secretary.

[FR Doc.74-30486 Filed 12-30-74;8:45 am]

Title 49—Transportation

CHAPTER I—DEPARTMENT OF TRANSPORTATION

SUBCHAPTER A—HAZARDOUS MATERIALS REGULATIONS BOARD

[Docket No. HM-111; Amdt. Nos. 171-36, 173-90, 174-25, 175-12, 177-32, 178-35]

RADIOACTIVE MATERIALS

Miscellaneous Amendments

On October 25, 1973, the Hazardous Materials Regulations Board ("the Board") published extensive proposals to amend the Department's Hazardous Materials regulations relating to radioactive materials (38 FR 29463). The reasons for the various miscellaneous proposals were explained in detail in the preamble to that notice. Interested persons were invited to participate in this rule-making proceeding and all comments received have been given full consideration by the Board before it decided on the amendments made herein.

As was pointed out in the notice, the Board wishes to reiterate that the substantial matters covered by these amendments are not based on the 1973 revisions by the International Atomic Energy Agency (IAEA) to its Safety Series No. 6, "Regulations for the Safe Transport of Radioactive Materials." The Board intends to propose such changes in the very near future as the subject of a separate rule making action.

Comments were received by the Board on this notice from many organizations including government agencies, members of the Nuclear Industry, and the Air Transport Association of America. The U.S. Atomic Energy Commission submitted several comments. On the basis of the information submitted by these commenters, a number of modifications to the regulations proposed in the notice were made which are reflected in these amendments. These changes are explained as follows:

1. *Section 173.206(a) (10) and (11)* A commenter suggested that the 25-pound material limit that was proposed to be specified in § 173.206(a)(11) was not necessary in view of the technical evaluation which is performed on each individual Type B package. He further questioned the reason for the limited applicability of § 173.206(a)(10) as proposed to combinations of such alkali materials with radioactive materials, in view of the authority included in § 173.206(a)(11) for such materials. The Board agrees with these comments and has modified these two paragraphs accordingly.

2. *Section 173.389(o).* One commenter stated that the proposed "full load" definition was contrary to the present meaning of that term as it is used in transportation practice in the United States. It was suggested that the term "exclusive use" be used for the definition, in place of "full load," since "exclusive use" of a vehicle as it is presently defined in several carrier freight tariffs means in part "A service offered to shippers who require segregation of their freight from the freight of other shippers for protection against scrutiny, pilferage, or any other reason." The Board agrees with this comment and has adopted the term "exclusive use." However, a parenthetical reference has been added to the definition to clarify that "exclusive use" is also referred to as "sole use" and may be identified with the term "full load" as it is used in the IAEA regulations.

Section 173.389 (p). One commenter suggested that a definition of the term "radioactive device" be included in the regulations, since it is one of the proper shipping names listed in § 172.5. The Board agrees with this suggestion and has therefore included a new definition as an editorial addition based on the existing requirements of § 173.391(b).

4. *Section 173.392.* Several comments were received on this paragraph covering low specific activity material. An editorial change has been made to clarify the relationship of the various changes which were proposed in this paragraph, as well as to correct an inadvertency in the notice which would have permitted low specific activity materials in less than exclusive use shipments to be in nonspecification containers.

5. *Section 173.393 (g).* A number of comments were received on the proposal to strengthen the requirements for packaging of radioactive liquids. Several of the commenters suggested that the specific requirements not be applicable to Type B and fissile material packages, in view of the fact that such packages, including their containment systems, are subject to individual governmental review and approval. The Board agrees with this comment and has modified the regulation accordingly, since the original intent of the proposal was that it be applicable only to Type A packages and not to Type B and fissile packages. Several commenters stated that, although they supported the basic proposal to strengthen the liquid packaging requirements, the proposal should be modified to provide another option to the absorbent material provision. They requested

that use of a secondary containment vessel be permitted, enclosing the primary inner liquid-containing vessel so as to provide overall containment of the liquid, assuming the failure of the innermost vessel. The Board also agrees with these suggestions and has added § 173.393 (g) (3) permitting this additional option.

6. *Section 173.393(k)*. Several commenters suggestde certain changes in the wording of the proposed requirement for closure of certain inner containment systems by positive fastening devices independent of the other packaging. In view of the fact that this proposed regulation is contained, with other related provisions, in the 1973 Revised IAEA regulations, the proposal to add this requirement is deleted from this docket. It will be included in another notice of proposed rule making to be published in the near future that will propose revisions specifically based on the 1973 Revised IAEA regulations.

7. *Section 173.393(o)*. One commenter suggested that each shipper, prior to the first use of a package, be required to subject the package to an appropriate thermal test to demonstrate the thermal performance of the package under normal conditions of transport with its design decay heat load. Although this comment has merit, it is only one of several acceptable methods of confirming compliance with the performance criteria specified in the amendment. For this reason the Board believes that the regulations should not specify one method to be used.

8. *Sections 173.394 and 173.395*. The proposals to eliminate the various "hardware oriented" DOT specifications for Type A packages received several comments. Several of the commenters questioned whether a need for such a proposal is justified on the basis of adverse shipping experience. The Board continues to believe that the proposal is justified, particularly on the basis of observations of packaging compliance in field surveillance activities, and the reasons stated in the preamble to the notice. The Board recognizes that the elimination of listed packaging specifications will require that some existing packages be modified and that some be tested against the performance standards. In view of the manpower and effort that may be involved and in order to not cause any unreasonable hardship, a transition period of one year has been provided before compliance with this requirement becomes mandatory. Further, the U.S. Atomic Energy Commission who supported the proposal, has informed this Department that it intends to provide a consolidated testing program in support of AEC contractor operations to develop and certify packaging designs against the DOT 7A Specification. This program is expected to yield data and results which, when appropriate, will be useful to others in establishing their supporting package safety evaluation and certification. It is expected to reduce the duplicative effort that might otherwise be required by persons in the nuclear industry who use the same or similar packaging. Further questions on this program should be directed to the USAEC, Division of Waste Management and Transportation, Washington, D.C. 20545.

The Board emphasizes that this amendment is not intended to preclude the use of certain existing DOT specification packagings as a component of the Specification 7A package.

In response to several comments, the introductory headings of §§ 173.394 (a) and 173.395 (a) have been editorially revised to call the attention of the shipper to the need for proper consideration of the other applicable general packaging requirements.

9. *Section 137.396*. In response to technical recommendations from the USAEC, a number of substantive revisions have been made to this section, as follows:

a. *Section 173.396(b) (6)*. A note has been added to the table specifying that the maximum H/U ratio of 0.088 applies only to 30-inch cylinders and not to the other sizes of cylinders.

b. *Section 173.396(b) (7)*. This paragraph has been changed to specify clearly that the inner package must meet the Type A, Spec. 7A package requirements, including the liquid packaging provisions.

c. *Section 173.396(c) (1)*. Requirements have been added to specify a 5-watt limit on decay energy of contents and also to specify that large quantity radioactive material in normal form in the DOT–6L must be packaged in one or more sealed and leak tight cans or polyethylene bottles within the Spec. 2R containment vessel, a requirement which is consistent with a similar requirement of the DOT–6M (§ 178.104). In addition, the proposal to add fissile Class I authorized loadings in the Spec. 6L has been deleted because the USAEC has not completed its detailed nuclear safety analysis of the proposed loadings. An appropriate proposal will be the subject of future rule making. In the table of authorized contents, a footnote has been added specifying that plutonium solutions are not authorized in the Spec. 6L.

d. *Section 173.396(c) (2)*. The footnote limiting the maximum U–235 enrichment for contents in the Spec. 6M has been retained. The available data indicates that removal of the 93 weight percent limitation would increase the reactivity by about two percent. Persons shipping enriched uranium exceeding 93 weight percent will be required to petition the USAEC for specific approvals of such shipments with lowered material quantities.

e. *Section 173.396(c) (2) (iii)*. An inadvertency has been corrected to specify that each Fissile Class III rather than Class II shipment is subject to § 173.396 (g). Also in the table of authorized contents the column headings "H/X equals 3" have been changed to read "H/X≥3".

f. *Section 173.396(f) (1) and (2)*. The requirements in these two paragraphs have been modified to reflect more appropriately the nuclear safety philosophy and criteria used in limiting Fissile Class II and III shipments. Upon the effective date of these amendments, DOT Special Permit 5908 presently authorizing shipments under similar provisions will be canceled with individual notification of the cancellation to be sent to each permit registrant.

10. *Section 173.397*. Several editorial changes have been made to clarify the requirements of this paragraph. One commenter noted that the allowable contamination levels of § 173.397(a) are significantly higher than those which would be recommended in a forthcoming ANSI standard which is being prepared for contamination on equipment and facilities to be released for uncontrolled use. The Board emphasizes that the allowable contamination levels in § 173.397(a) are not being changed in this rule making, only those applicable to "exclusive use" shipments pursuant to § 173.397(a), which have been raised by a factor of 10. In § 173.397(a) (1), the discussion on methodology for assessment of removable surface contamination has been modified to incorporate one commenter's suggestion that other measurement methods of equal or greater efficiency than the cited "wipe test" method may be utilized.

11. *Section 173.398(a) (4)*. A statement delaying the effective date of this paragraph for one year from the publication of these amendments has been added to Note 1 in the paragraph. This is necessary to permit a reasonable transition period for compliance with the new requirement for the certification and supporting safety analysis to be maintained on file by shippers of special form radioactive material.

12. *Section 173.416*. In § 173.416(d) (1), a change has been made to clarify that when symbols are used on label entries, such symbols must conform to established radiation protection terminology which utilizes a superscript designating the atomic mass on the left side of the chemical symbol for the radionuclide.

In § 173.416(d) (2), a clarification has been added to provide that for fissile radioactive materials, the insertion of the weight in grams or kilograms of the fissile radioisotope in the "number of curies" entry on the label is optional.

13. *Sections 174.586(h) (2), 175.655(j) (2), and 177.842(b)*. In each of these paragraphs a clarification has been added to the effect that when groups of packages are stored in a single location, the required separation of 20 feet between adjacent groups is measured from edge to edge between the groups. One commenter noted that the provisions being added to these paragraphs would have the effect of allowing an increase in radiation dose rate to transport workers, and that such an increase is not justified under the recent concepts of limiting radiation to "as low as practicable" levels. The Board wishes to emphasize that these amendments are not intended to increase radiation levels to transport workers. The required segregation distances of packages from areas occupied by persons are not being changed. The provision for situations where there are more than one group of packages with

XUM V 39 N 252 DEC 31 1974 XUM V

50 transport indexes is intended solely to cover an inadvertent gap in the surface regulations (Highway and Rail) for carriers, which does not exist in either vessel (46 CFR Part 146) regulations or the IAEA standards. The Board also wishes to point out that the broad area of radiation exposure to transport workers as a result of handling radioactive packages is currently under study by this Department, in cooperation with the USAEC and several States. It is possible that changes to the carrier requirements for handling and stowing radioactive packages may be proposed later as a result of the findings in these studies.

14. *Section 178.34.* A change in the required temperature rating of the luting compounds from 250°F. to 300°F. has been made to make this requirement compatible with the limitation on decomposition characteristics of the authorized contents of the Spec. DOT 6L (§ 173.396 (c)(1)), as well as to achieve compatibility with the operational requirements of the DOT–6L (§ 178.103) and DOT–6M (§ 178.104) specifications.

15. *Section 178.103.* In § 178.103–4, a clause has been added to specify that the requirement for increased fire resistance of welded joints applies only to the added spacer rods as prescribed for compliance with § 178.103–3(c)(1). Further, a statement has been added to § 178.103–3(c)(1) providing that compliance with the new requirement for four additional welded spacer rods is not mandatory for existing packagings until one year after the date of publication of these amendments.

16. *Section 178.104.* Section 178.104–3 (a) has been changed to provide for the welding together of different capacity drums. Also, in § 178.104–3(a)(2), provision has been made for the optional utilization of a layer of porous refractory fiber beneath the pressure-relief vent holes. Several comments suggested that such an option be added to the specification. The intended purpose of the refractory layer is to preclude smoldering of the insulation media after exposure to the accidental fire test condition. Since the presence of the refractory fiber layer has not been demonstrated to be necessary for the package to meet the accident damage test sequence, its utilization has been made optional. In § 178.104–3(b), limitations on the material of construction of the Spec. 2R have been added. An editorial reorganization of § 178.104–3(c) has also been made.

17. *Section 178.195.* An illustrative sketch showing typical assembly detail for this specification has been added, as well as several editorial clarifications.

18. *Metric/English Units.* Throughout these amendments, units have been stated in metric units with equivalent English units in parentheses.

In accordance with section 102 of the National Environmental Policy Act (Pub. L. 91–90, (42 U.S.C. 4231 et seq.)) the Board has considered the environmental impact of these amendments. It has determined that the changes made in these amendments would not have a significant impact on the environment. Accordingly, it considers that an Environmental Impact Statement is not necessary and has not issued such a statement with respect to these amendments.

In consideration of the foregoing, 49 CFR Parts 171, 173, 174, 175, 177 and 178, are amended as follows:

PART 171—GENERAL INFORMATION AND REGULATIONS

1. In § 171.7, paragraphs (c)(20), (21), and (22), (d)(5)(iii), (d)(14), (15), and (16) are added; paragraph (d)(4) is revised to read as follows:

§ 171.7 Matter incorporated by reference.

PART 173—SHIPPERS

2. In Part 173 Table of Contents, § 173.393 is revised to read as follows:

Sec.

173.393 General packaging and shipment requirements.

§ 173.23 [Amended]

3. In § 173.23, paragraph (c) is deleted.

4. In § 173.69, Note 1 following paragraph (a) is revised to read as follows:

§ 173.69 Detonating fuzes, class A, with or without radioactive components, detonating fuze parts containing an explosive, boosters, bursters, or supplementary charges.

(a) * * *

NOTE 1: A fuze with any radioactive component is also subject to the applicable provisions of §§ 173.389 through 173.399 for the radioactive material.

* * * * *

5. In § 173.202, paragraph (b) is added to read as follows:

§ 173.202 Sodium and potassium, metallic liquid alloy.

* * * * *

(b) Packaging of metallic liquid alloys of sodium or potassium in combination with fissile or large quantities of radioactive material, is authorized as provided in § 173.206(a)(10) and (11).

6. In § 173.206, paragraph (a)(10) is revised, paragraph (a)(12) is added to read as follows:

§ 173.206 Sodium or potassium, metallic, sodium amide, sodium potassium alloys, sodium aluminum hydride, lithium metal, lithium silicon, lithium ferro silicon, lithium hydride, and lithium aluminum hydride.

(a) * * *

(10) Tubes of stainless steel, or other metals of equipment strength and nonreactivity, having sealed, welded end caps, and containing not more than 50 grams of metal. Authorized only for metallic sodium, metallic lithium, metallic potassium, and sodium potassium alloy. Each tube must be enclosed within a secondary sealed metallic tube and further enclosed within strong tight outer packaging.

* * * * *

(12) Any packaging as prescribed in §§ 173.394(b) or (c), 173.395(b) or (c), or 173.396(b) or (c).

* * * * *

7. In § 173.226, a note is added following the heading and preceding paragraph (a) to read as follows:

§ 173.226 Thorium metal, powdered.

NOTE: Thorium metal, a low specific activity radioactive material, is also subject to the applicable provisions of §§ 173.389 through 173.399.

* * * * *

In § 173.389, paragraphs (o), (p), and (q) are added to read as follows:

§ 173.389 Radioactive materials; definitions.

* * * * *

(o) "Exclusive Use" (also referred to as "sole use" or "Full Load" as used in IAEA regulations) means any shipment:

(1) From a single consignor having the exclusive use of a transport vehicle or of an aircraft, or of a hold or compartment of an inland watercraft, or of a hold, compartment, or defined deck area of a seagoing vessel; and

(2) For which all initial, intermediate, and final loading and unloading is carried out by or under the direction of the consignor, consignee, or his designated agent.

(p) "Radioactive Device" means any manufactured article such as an instrument, clock, electronic tube or apparatus, or similar device having radioactive material (other than liquid) in a nondispersible form as a component part.

(q) "Closed transport vehicle" means a vehicle equipped with a securely attached exterior enclosure, which during normal transport, restricts the access of unauthorized persons to the cargo space containing the radioactive materials. The enclosure may be either temporary or permanent, may be of the "see-through" type, and must limit access from top, sides, and ends.

9. In § 173.391, the introductory text of paragraph (c), paragraphs (b)(3), (c)(2), and (c)(4) are revised to read as follows:

§ 173.391 Small quantities of radioactive materials and radioactive devices.

* * * * *

(b) * * *

(3) The radiation dose rate at any point on the external surface of the outside of the package may not exceed 0.5 millirem per hour. However, for exclusive use shipments only, the radiation at the external surface of the package or the item may exceed 0.5 millirem per hour, but must not exceed 2 millirem per hour.

* * * * *

(c) A manufactured article, other than reactor fuel elements, in which the only radioactive material is metallic natural or depleted uranium or natural thorium or alloys thereof, is exempt from specification packaging, marking, and labeling, and is exempt from the provisions of § 173.393, if the following conditions are met:

* * * * *

(2) There must be no significant radioactive surface contamination on the exterior of the package. To determine whether "significant," the standard in § 173.397 must be used.

* * * * *

(4) The outer surface of the uranium or thorium is enclosed in a non-radioactive, sealed, metallic sheath.

* * * * *

10. In § 173.392, paragraphs (a) and (b) are revised; paragraphs (c)(9) and (d)(7) are added to read as follows:

§ 173.392 Low specific activity radioactive material.

(a) Low specific activity (LSA) radioactive materials, other than materials consigned as exclusive use, are exempt from the provisions of § 173.393(a) through (e) and (g). However, they must be packaged in accordance with the requirements of § 173.395 and must be marked and labeled as required in §§ 173.401 and 173.402.

(b) LSA radioactive materials which are transported in a transport vehicle (except aircraft) and consigned as exclusive use are exempt from specification packaging, marking, and labeling, provided the shipment meets the requirements of paragraph (c) or (d) of this section.

(c) * * *

(9) Specific instructions for maintenance of exclusive use (sole use) shipment controls must be provided by the shipper to the carrier. Such instructions must be included with the shipping paper information.

(d) * * *

(7) Specific instructions for maintenance of exclusive use (sole use) shipment controls must be provided by the shipper to the carrier. Such instructions must be included with the shipping paper information.

11. In § 173.393, the heading and the introductory texts of paragraphs (d), (e), and (j) are revised; paragraphs (g), (j)(3), and (l) are revised; paragraph (o) is added to read as follows:

§ 173.393 General packaging and shipment requirements.

* * * * *

(d) Each radioactive material must be packaged in a packaging which has been designed to maintain shielding efficiency and leak tightness, so that, under conditions normally incident to transportation, there will be no release of radioactive material. If necessary, additional suitable inside packaging must be used. Each package must be capable of meeting the standards in §§ 173.398(b) and 173.24.

* * * * *

(e) The packaging must be designed, constructed, and loaded so that during transport:

* * * * *

(g) Liquid radioactive material in Type A quantities must be packaged in or within a leak-resistant and corrosion-resistant inner containment vessel. In addition:

(1) The packaging must be adequate to prevent loss or dispersal of the radioactive contents from the inner containment vessel if the package were subjected to the 9 meter (30-foot) drop test prescribed in § 173.398(c)(2)(i); and either

(2) Enough absorbent material must be provided to absorb at least twice the volume of radioactive liquid contents. The absorbent material may be located outside the radiation shield only if it can be shown that if the radioactive liquid contents were taken up by the absorbent material the resultant dose rate at the surface of the package would not exceed 1,000 millirem per hour; or

(3) A secondary leak-resistant and corrosion-resistant containment vessel must be provided to retain the radioactive contents under the normal conditions of transport as prescribed in § 173.398(b), assuming the failure of the inner primary containment vessel.

* * * * *

(j) Packages for which the radiation dose rate exceeds the limits specified in paragraph (i) of this section, but does not exceed at any time during transportation any of the limits specified in paragraphs (j)(1) through (4) of this section may be transported in a transport vehicle which has been consigned as exclusive use (except aircraft). Specific instructions for maintenance of the exclusive use (sole use) shipment controls must be provided by the shipper to the carrier. Such instructions must be included with the shipping paper information:

* * * * *

(3) Ten millirem per hour at any point 2 meters (six feet) from the vertical planes projected by the outer lateral surface of the car or vehicle; or if the load is transported in an open transport vehicle, at any point 2 meters (six feet) from the vertical planes projected from the outer edges of the vehicle.

* * * * *

(l) Packages consigned for export are also subject to the regulations of the foreign governments involved in the shipment. See §§ 173.8, 173.9, and 173.393b. (The regulations of the International Atomic Energy Agency (IAEA) are used by most foreign governments.)

* * * * *

(o) No person may offer for transportation a package of radioactive materials until the temperature of the packaging system has reached equilibrium (see also paragraph (e) of this section) unless, for the specific contents, he has ascertained that the maximum applicable surface temperature limits cannot be exceeded.

12. In § 173.394, paragraphs (a), (b)(1), and (b)(2) are revised, paragraphs (b)(5), (b)(6), and (c)(4) are added to read as follows:

§ 173.394 Radioactive material in special form.

(a) In addition to the applicable requirements of §§ 173.24 and 173.393, a Type A quantity of special form radioactive material must be packaged as follows:

(1) Specification 7A (§ 178.350 of this subchapter) Type A general packaging. Each shipper of a Specification 7A packaging must maintain on file for at least one year after the latest shipment, and be prepared to provide the Department, a complete certification and supporting safety analysis demonstrating that the construction methods, packaging design, and materials of construction are in compliance with the specification. This requirement is effective (insert date which is one year after date of publication of these amendments).

(2) Specification 55 (§ 178.250 of this subchapter) metal encased shielded container. Use of existing container authorized; construction not authorized after March 31, 1975.

XUM V 39 N 252 DEC 31 1974 XUM

(3) Any Type B packaging pursuant to paragraph (b) of this section.

(4) Foreign-made packagings which bear the marking "TYPE A."

(b) • • •

(1) Specification 55 metal encased shielded container. Authorized only for domestic shipments of not more than 300 curies per package. Use of existing container authorized; construction not authorized after March 31, 1975.

(2) Specification 6M (§ 178.104 of this subchapter) metal packaging.

• • • • •

(5) Specification 20WC (§ 178.194 of this subchapter) wooden outer protective jacket, with a single snug-fitting inner Type A packaging which has a metal outer wall and conforms to § 178.350 of this subchapter or Specification 55. Only use of existing specification 55 container authorized; construction not authorized after March 31, 1975.

(6) Specification 21WC (§ 178.196 of this subchapter) wooden-steel protective overpack, with a single inner specification 2R (§ 178.34 of this subchapter) or specification 55, inner packaging. Only use of existing specification 55 container authorized; construction not authorized after March 31, 1975. Contents must be loaded within the inner packaging to preclude loose movement during transportation. The inner packaging must be securely positioned and centered within the overpack by solid cushioning materials so that there would be no significant displacement of the inner packaging if the packaging were subjected to the 9 meter (30-foot) drop test described in § 173.398(c)(1).

(c) • • •

(4) Specifications 20WC (§ 178.194 of this subchapter) wooden outer protective jacket, with a single, snug-fitting specification 55 inner packaging. Only use of existing specification 55 container authorized; construction not authorized after March 31, 1975. Radioactive thermal decay energy must not exceed 100 watts.

13. In § 173.395, the introductory text of paragraph (a) and paragraphs (a) (1) through (4) are revised; paragraphs (a) (5) through (8) are deleted; paragraph (b) (4) is added to read as follows:

§ 173.395 Radioactive material in normal form.

(a) In addition to the applicable requirements of §§ 173.24 and 173.393, a Type A quantity of normal form radioactive material must be packaged as follows:

(1) Specification 7A (§ 178.350 of this subchapter) Type A general packaging. Each shipper of a specification 7A packaging must maintain on file for at least one year after the latest shipment, and be prepared to provide the Department, a complete certification and supporting safety analysis demonstrating that the construction methods, packaging design, and materials of construction are in compliance with the specification. This requirement is effective (insert date which is one year after date of publication of these amendments.)

(2) Specification 55 metal encased shielded container. Use of existing container authorized; construction not authorized after March 31, 1975. For liquid contents the provisions of § 173.393(g) must also be met.

(3) Any Type B packaging pursuant to paragraph (b) of this section.

(4) Foreign-made packagings which bear the marking "TYPE A."

(b) • • •

(4) Specification 20WC (§ 178.194 of this subchapter) wooden outer protective jacket, when used with a single, snug-fitting inner specification 2R (§ 178.34 of this subchapter) or specification 55 inner packaging. Only use of existing specification 55 container authorized; construction not authorized after March 31, 1975. For liquid contents the provisions of § 173.393(g) must also be met, with respect to the inner packaging.

• • • • •

14. In § 173.396, paragraphs (b) (1), (c) (1), and (c) (2) (ii) are revised; paragraphs (b) (6), (b) (7), (b) (8), (c) (5), (f) (1), and (f) (2), are added to read as follows:

§ 173.396 Fissile radioactive material.

• • • • •

(b) • • •

(1) Specification 6L (§ 178.103 of this subchapter) metal packaging. See paragraph (c) (1) of this section for authorized contents.

• • • • •

(6) Specification 20PF–1, 20PF–2, or 20PF–3 (§ 178.120 of this subchapter) or specification 21PF–1 or 2 (§ 178.121 of this subchapter) phenolic-foam insulated protective overpacks, with snug-fitting inner metal cylinders meeting all of the applicable requirements of §§ 173.24, 173.393, and 173.398(b). Handling procedures and packaging criteria must be in accordance with USAEC Report No. ORO–651 or ANSI Standard N–14.1–1971. Quantities of uranium hexafluoride are authorized as follows, with each package to be shipped as fissile Class II, and assigned a minimum transport index as indicated:

Protective overpack specification No.	Maximum inner cylinder diameter		Maximum weight of UF_6 contents		Maximum U^{235} enrichment (w/o)	Fissile class II transport index
	Inches	Centimeters	Pounds	Kilograms		
20PF–1	[illegible]	[illegible]	55	[illegible]	100	0.1
20PF–2	[illegible]	[illegible]	255	116	12.5	.4
20PF–3	12	[illegible]	460	209	5.0	1.1
21PF–1 [1]	[illegible]	[illegible]	4,960	2,247	5.0	5.0
21PF–2 [1]	[illegible]	[illegible]	5,030	2,279	5.0	5.0

[1] For 30-in cylinders, the maximum H/U atomic ratio is 0.000.

(7) A DOT Specification 6J (§ 178.100 of this subchapter) or 17H (§ 178.118 of this subchapter) 55-gallon steel drum, for transport of not more than 350 grams of uranium-235 in any non-pyrophoric form, enriched to any degree in the U–235 isotope. Each drum must have a minimum 18-gauge body and bottom head and 16-gauge removable top head, with one or more corrugations in the cover near the periphery. Closure must conform to § 178.103–5(a) of this subchapter. At least four 1.2 centimeter (0.5 inch) diameter vent holes must be provided, equally spaced on the sides of the drum near the top, each covered with weatherproof tape, or equivalent device. Appropriate primary inner containment of the contents and any necessary packing material must be provided, such as plastic or metal jars or cans or plastic wrapping, such that Spec. 7A (§ 178.350 of this subchapter) provisions are satisfied. Each inner containment vessel must be capable of venting in the event the package was exposed to the thermal test described in (§ 173.398(c)(2)(iii)). Additionally, liquid contents must be packaged in accordance with § 173.393(g). The maximum weight of contents, including internal packing must not exceed 91 kilograms (200 pounds) with fissile material content limited as follows:

Maximum U^{235} per package (grams)	Minimum transport index per package as fissile class II	Maximum packages per transport vehicle as fissile class II
[illegible]	[illegible]	72
[illegible]	1.0	[illegible]
[illegible]	[illegible]	[illegible]
[illegible]	[illegible]	[illegible]
150	0.1	[illegible]
100	0.1	[illegible]
50	(1)	(1)

[1] Fissile class I.

(8) Any metal cylinder which meets the performance requirements for a specification 7A Type A packaging (see §§ 173.395(a)(1) and 178.350 of this subchapter) for the transport of residual "heels" of enriched solid uranium hexafluoride without a protective overpack, are authorized as Fissile Class I packages, in accordance with the following:

Maximum cylinder diameter		Cylinder volume		Maximum U^{235} enrichment (weight percent)	Maximum "heel" weight per cylinder (U^{235})		
Inches	Centimeters	Cubic feet	Liters		Pounds UF_6	Kilograms	Kilograms
[illegible]	12.7	[illegible]	[illegible]	[illegible]	0.1	0.045	0.031
8	[illegible]	[illegible]	[illegible]	12.5	.5	.227	.019
12	[illegible]	[illegible]	68	5.0	1.0	.454	.015
[illegible]	76	[illegible]	726	5.0	[illegible]	11.35	.363

(c) • • •

(1) Specification 6L (§ 178.103 of this subchapter) metal packaging. Authorized only for uranium-233, uranium-235, plutonium-239 or 241, as metal, oxide, or compounds which will not decompose at temperatures up to 149°C (300° F.) Radioactive thermal decay energy output shall not exceed 5 watts. Large quantity radioactive materials in normal form must be packaged in one or more sealed and leak tight metal cans or polyethylene bottles within the Spec. 2R containment vessel.

(i) *Fissile Class II and III packages.* The following quantities of fissile radioactive materials are authorized under the Fissile Class II and III conditions listed:

TABLE OF AUTHORIZED CONTENTS [1]

Uranium-235 [1]		Plutonium [1] [4]		Fissile class II transport index	Fissile class III maximum number of packages per transport vehicle
H/X≤1	1<H/X≤20	H/X≤10	10≤H/X≤20		
14	[3] 3.6			1.1	20
		5.5	9.4	1.4	55

[1] Quantity in kilograms.
[2] All sources of hydrogen within the inner containment vessel must be considered in determining the H/X ratio of inner containment vessel.
[3] Volume not to exceed 3.6 l.
[4] Plutonium solutions are not authorized.

(2) • • •

(ii) *Fissile Class II and III packages.* Quantities of fissile radioactive material as shown in the following table are authorized for a Fissile Class II and Fissile Class III package. Where a maximum ratio of hydrogen to fissile material is specified in the table, only the hydrogen interspersed with the fissile material need be considered. For a Fissile Class II package, the minimum transport index to be assigned is shown in the following table. For a Fissile Class III package, the maximum number of similar packages per transport vehicle is shown. Each Fissile Class III shipment is also subject to paragraph (g) of this section. For a uranium-233 shipment, the maximum inside diameter of the inner containment vessel must not exceed 12 centimeters (4.75 inches). Where necessary, a tight fitting steel insert must be used to reduce a larger diameter inner containment vessel specified in § 178.104–3(b) of this subchapter to the 12 centimeters (4.75 inches) limit.

Table of authorized contents [1]

Uranium-233 [1] [7]			Uranium-235 [1]			Plutonium [1] [3] [4]			Fissile class II transport index	Fissile class III maximum number of packages per transport vehicle
Metal or alloy H/X=0	Compounds		Metal or alloy H/X=0	Compounds		Metal or alloy H/X=0	Compounds			
	H/X=0	H/X≤3		H/X=0	H/X≤3		H/X=0	H/X≤3		
3.6	4.4	2.9	7.2	7.6	5.3	3.1	4.1	2.4	0.1	1,250
[5] 4.3	5.2	3.5	8.7	9.6	6.4	3.4	4.5	4.1	.2	625
[5] 5.2	6.3	4.5	11.2	13.9	8.3	4.3		4.5	.5	250
			18.5	16.0	10.1	4.5			1.0	125
				20.0	16.1				5.0	25
				23.0	19.6				10.0	13

[1] Quantity in kilograms.
[2] Minimum percentage of plutonium-240 is 5 weight percent.
[3] 4.5 kg limitation of plutonium due to 10 w decay heat limitation.
[4] For a mixture of uranium-235 and plutonium an equal amount of uranium-235 may be substituted for any portion of plutonium authorized.
[5] Maximum inside diameter not to exceed 12 cm (4.75 in) (see par. (c)(2)(ii) of this section).
[6] Granulated or powdered metal with any particle less than 8 mm (0.25-in) in the smallest dimension is not authorized.
[7] Maximum uranium-235 enrichment is 93 percent.

• • • • •

(5) Specification 20PF–1 through 3 (§ 178.120 of this subchapter) or Specification 21PF–1 or 2 (§ 178.121 of this subchapter) phenolic-foam insulated protective overpacks. (See paragraph (b)(6) of this section for authorized use.)

• • • • •

(f) • • •

(1) Fissile Class II packages may be shipped with a transport index greater than 10, and combined with other packages of the same or different designs in a Fissile Class III shipment, under the conditions prescribed in paragraph (g) of this section, *Provided:*

(i) The transport index which has been assigned in the package approval for nuclear criticality control purposes does not exceed 10 for any single package;

(ii) The total transport index for nuclear criticality control purposes for all packages in the shipment does not exceed 100;

(iii) The shipment satisfies the provisions of § 173.393(j) if any package has radiation dose rates exceeding 10 millirem per hour at 1 meter (three feet) from any accessible external surface of the package; and

(iv) The shipment will not be transported by water.

(2) Fissile Class II packages, which have been assigned a transport index for nuclear criticality control purposes in accordance with Fissile Class II criteria, may be combined with Class II criteria, may be combined with other Fissile Class III packages of the same or different design for which a transport index has been so assigned for nuclear criticality control purposes, and may be combined with Fissile Class II packages, in a Fissile Class III shipment under the conditions prescribed in paragraph (g) of this section, *Provided:*

(i) The transport index which has been assigned in the package approval for nuclear criticality control purposes does not exceed 50 for any single package;

(ii) The total transport index for nuclear criticality control purposes for all packages in the shipment does not exceed 100;

(iii) The shipment satisfies the provisions of § 173.393(j) if any package has radiation dose rates exceeding 10 millirem per hour at 1 meter (three feet) from any accessible external surface of the package; and

(iv) The shipment will not be transported by water.

• • • • •

15. § 173.397 is revised to read as follows:

§ 173.397 Contamination control.

(a) Removable (non-fixed) radioactive contamination is considered significant if the level of contamination, when averaged over any area of 300 square centimeters of any part of the package surface, exceeds any of the following:

Contaminant	Maximum permissible level	
	μCi/Cm²	dis/min/Cm²
Natural or depleted uranium and natural thorium:		
Beta-gamma	10^{-6}	2200
Alpha	10^{-4}	220
All other beta-gamma emitting radionuclides	10^{-4}	220
All other alpha emitting radionuclides	10^{-6}	22

(1) In assessing the surface contamination of a package, a sufficient number of measurements must be taken in the most appropriate locations so as to yield a representative assessment of the contamination situation. The average amount of removable (non-fixed) radioactive contamination may be determined by wiping the external surface of the package with an absorbent material, using moderate pressure, and then measuring the activity on the wiping material. If the measured activity per square centimeter does not exceed 10 percent of the levels prescribed above, it may be assumed that those levels have not been exceeded. Other measurement methods of equal or greater efficiency may also be utilized.

(b) When radioactive materials packages are consigned as exclusive use, as defined in § 173.389(o), removable non-fixed) radioactive contamination may not exceed 10 times that as specified in paragraph (a)(1) of this section.

(c) Each transport vehicle used for transporting radioactive materials as exclusive use, as defined in § 173.389(o),

XUM
V 39 N 252 DEC 31 1974
XUM

must be surveyed with appropriate radiation detection instruments after each use. A vehicle may not be returned to service until the radiation dose rate at any accessible surface is 0.5 millirem per hour or less, and there is no significant removable radioactive surface contamination, as defined in paragraph (a) of this section.

16. In § 173.398, Notes 1 and 2 are added following paragraph (a)(4) to read as follows:

§ 173.398 Special tests.

(a) • • •
(4) • • •

NOTE 1: Each shipper of special form radioactive material shall maintain on file for at least one year after the last shipment, and be prepared to provide the Department, a complete certification and supporting safety analysis (see Note 2) demonstrating that the special form material meets the requirements of paragraph (a) of this section. This requirement is effective (insert date one year after date of publication).

NOTE 2: Prior to the first shipment of a special form radioactive material outside of the United States, each shipper shall obtain a Certificate of Competent Authority for the specific material. Each petition must be submitted in accordance with § 173.393b (b) and (c), and must additionally include the following information:

1. A detailed description of the material, or if a capsule, the contents. Particular reference must be made to both physical and chemical states;

2. A detailed statement of the design of any capsule to be used, including complete engineering drawings and schedules of material, and methods of construction;

3. A statement of the tests which have been done and their results, or evidence based on calculative methods to show that the material is capable of meeting the tests, or other evidence that the special form radioactive material meets the requirements of paragraphs (a)(1) thru (4) of this section.

• • • • •

17. In § 173.399, paragraph (a)(3)(ii) is revised; paragraph (a)(3)(iii) is deleted as follows:

§ 173.399 Labeling of packages of radioactive materials.

(a) • • •
(3) • • •

(ii) Each package containing a large quantity of radioactive material as defined in § 173.389(b).

• • • • •

18. In § 173.401, paragraph (f) is added to read as follows:

§ 173.401 Hazardous materials.

• • • • •

(f) Additional markings on packages containing radioactive materials are required as follows:

(1) Each package of radioactive materials in excess of 50 kilograms (110 pounds) must have its gross weight plainly and durably marked on the outside of the package.

(2) Each package of radioactive materials which conforms to the requirements for Type A or Type B packaging (§§ 173.389 (j) and (k) and 173.398 (b) and (c)) must be plainly and durably marked on the outside of the package in letters at least 13 millimeters (½-inch) high, with the words "TYPE A" or "TYPE B" as appropriate. A packaging which is not in compliance with these requirements must not be so marked. Each package of hazardous materials destined for export shipment must also be marked "USA" in conjunction with the specification marking, special permit, or other package certificate identification. (See §§ 173.393a and 173.393b.)

19. In § 173.404, paragraph (a) is revised to read as follows:

§ 173.404 Labels.

(a) A person who offers for transportation a package containing hazardous material shall conspicuously label it in compliance with the requirements of this Part. The applicable information as required in any blank spaces on the label must be inserted by legible printing, using a durable, waterproof means of marking. Labels should be applied to that part of the package bearing the consignee's name and address.

• • • • •

20. In § 173.416, paragraph (d) is added to read as follows:

§ 173.416 Radioactive materials labels.

• • • • •

(d) The following requirements apply to completion of the items of information in the blank spaces of the labels specified in this section:

(1) "Contents". The name of the radionuclide, as taken from the listing of radionuclides in § 173.390 (symbols which conform to established radiation protection terminology are authorized, i.e., ^{99}Mo, ^{60}Co, etc.). For mixtures of radionuclides, the most restrictive radionuclides on the basis of radiotoxicity must be listed as space on the label allows.

(2) "Number of curies". Units shall be expressed in appropriate curie units, i.e., curies (Ci), millicuries (mCi) or microcuries (μCi) (abbreviations are authorized). For a fissile material, the weight in grams or kilograms of the fissile radioisotope may also be inserted.

(3) "Transport index". (See § 173.389 (i).)

PART 174—CARRIERS BY RAIL FREIGHT

21. In § 174.584, paragraph (i) is added to read as follows:

§ 174.584 Waybills, switching orders, or other billing.

• • • • •

(i) For shipments of radioactive materials, the waybill, manifest, or other billing, as prepared from the shipper's papers, must additionally contain all the information provided pursuant to § 173.427(a)(5) of this subchapter.

22. In § 174.586, paragraph (h)(1) is revised; Note 2 is added following paragraph (h)(2) Note 1 to read as follows:

§ 174.586 Handling hazardous materials.

• • • • •

(h) • • •

(1) The number of packages of radioactive materials authorized in any rail car or storage location must be limited so that the total transport index number, as defined in § 173.389(i) of this subchapter and determined by adding together the transport index numbers on the labels of the individual packages, does not exceed 50. This provision does not apply to exclusive use shipments described in § 173.393(j), 173.396(f), or 173.392 of this subchapter.

(2) • • •

NOTE 2: Where more than one group of packages is present in any storage location, a single group may not have a total transport index greater than 50. Each group of packages must be handled and stowed not closer than 6 meters (20 feet) (measured edge to edge) to any other group.

• • • • •

PART 175—CARRIERS BY RAIL EXPRESS

23. In § 175.652a, paragraph (c) is revised to read as follows:

§ 175.652a Shipping papers.

• • • • •

(c) Waybills or delivery sheets used as waybills, or other billing issued in place thereof, prepared from the shipping papers, and the transfer sheet or interchange record used for transferring such shipments to a connecting carrier, must contain the information required in paragraphs (a) and (b) of this section. Additionally, in the case of radioactive materials, each such waybill, delivery sheet, or other billing and such transfer sheet or interchange record must also contain all the information provided pursuant to § 173.427(a)(5) of this subchapter.

24. In § 175.655, paragraph (j)(1) is revised; Note 2 is added following paragraph (j)(2) Note 1 to read as follows:

§ 175.655 Protection of packages.

• • • • •

(j) • • •

(1) The number of packages of radioactive materials in any rail car or storage location must be limited so that the total transport index number, as defined in § 173.389(i) of this subchapter and determined by adding together the transport index numbers on the labels of the individual packages, does not exceed 50. This provision does not apply to exclusive use shipments described in § 173.393 (j), 173.396(f), or 173.392 of this subchapter.

(2) • • •

NOTE 2: Where more than one group of packages is present in any storage location, a single group may not have a total transport index greater than 50. Each group of packages must be handled and stowed not closer than 6 meters (20 feet) (measured edge to edge) to any other group.

• • • • •

PART 177—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

25. In § 177.817, the introductory text of paragraph (a) is revised to read as follows:

§ 177.817 Shipping papers.

(a) A carrier may not accept for transportation nor transport any hazardous material subject to the regulations in this subchapter unless that material is described on the shipping paper by the shipping name prescribed in § 172.5 of this subchapter and by the classification prescribed in § 172.4 of this subchapter. A further description consistent therewith may be included. Abbreviations may not be used. The total quantity by weight, volume, or as otherwise appropriate, must be shown. Additionally, in the case of a radioactive material shipment, each shipping paper must include all the information provided pursuant to § 173.427(a)(5) of this subchapter.

• • • • •

26. In § 177.834, paragraph (a) is amended to read as follows:

§ 177.834 General requirements.

(a) *Packages secured in a vehicle.* Any tank, barrel, drum, cylinder, or other packaging, not permanently attached to a motor vehicle, which contains any flammable liquid, compressed gas, corrosive material, poisonous material, or radioactive material must be secured against movement within the vehicle on which it is being transported, under conditions normally incident to transportation.

• • • • •

27. In § 177.842, paragraphs (a) and (b) are revised to read as follows:

§ 177.842 Radioactive material.

(a) The number of packages of radioactive materials in any motor vehicle, trailer, or storage location must be limited so that the total transport index number, as defined in § 173.389(i) of this subchapter and determined by adding together the transport index numbers on the labels of the individual packages, does not exceed 50. This provision does not apply to exclusive use shipments described in § 173.393(j), 173.396(f), or 173.392 of this subchapter.

(b) Packages of radioactive material bearing "radioactive yellow-II" or "radioactive yellow-III" labels must not be placed in a motor vehicle or in any other place closer than the distances shown in the following table to any area which may be continuously occupied by passengers, employees, or shipments of animals, nor closer than the distances shown in the table below to any package containing undeveloped film (if so marked). If more than one of these packages is present, the distance shall be computed from the following table on the basis of the total transport index number (determined by adding together the transport index numbers on the labels of the individual packages) or packages in the vehicle or storeroom. Where more than one group of packages is present in any single storage location, a single group may not have a total transport index greater than 50. Each group of packages must be handled and stowed not closer than 6 meters (20 feet) (measured edge to edge) to any other group.

• • • • •

PART 178—SHIPPING CONTAINER SPECIFICATIONS

28. In Part 178 Table of Contents, § 178.250 is deleted; § 178.34 is revised; §§ 178.120, 178.121, 178.194, and 178.195 are added to read as follows:

Sec.
178.34 Specification 2R; inside containment vessel.

• • • • •

178.120 Specification 20PF phenolic-foam insulated, metal overpack.
178.121 Specification 21PF fire and shock resistant, phenolic-foam insulated, metal overpack.
178.194 Specification 20WC wooden protective jacket.
178.195 Specification 21WC wooden-steel protective overpack.

29. § 178.34 is amended to read as follows:

§ 178.34 Specification 2R; inside containment vessel.

§ 178.34–1 General requirements.

(a) Each vessel must be made of stainless steel, malleable iron, or brass, or other material having equivalent physical strength and fire resistance.

(b) Each vessel must meet all of the applicable requirements of § 173.24 (c) and (d) of this subchapter. Letters and numerals at least 6 millimeters (¼-inch) in height are authorized for the marking of a vessel not exceeding 5 centimeters (2 inches) inside diameter.

§ 178.34–2 Manufacture.

The ends of the vessel must be fitted with screw-type closures or flanges (see § 178.34–4), except that one or both ends of the vessel may be permanently closed by a welded or brazed plate. Welded or brazed side seams are authorized.

§ 178.34–3 Dimensions.

(a) The inside diameter of the vessel may not exceed 30 centimeters (12 inches) exclusive of flanges for handling or fastening devices and must have wall thickness and length in accordance with the following:

Inside diameter maximum		Wall thickness minimum			Length maximum	
		Threaded closure		Flanged closure		
Inches	Centimeters	Inches	Millimeters		Inches	Centimeters
2	5	¼	2.5	Not less than that prescribed for schedule 40 pipe.	16	41
6	15	⅛	3.2		72	183
12	30	¼	6.5		72	183

§ 178.34–4 Closure devices.

(a) Each closure device must be as follows:

(1) Screw-type cap or plug; number of threads per inch must not be less than United States standard pipe threads and must have sufficient length of thread to engage at least 5 threads when securely tightened. Pipe threads must be luted with an appropriate non-hardening compound which must be capable of withstanding up to 149°C. (300°F.) without loss of efficiency. Tightening torque must be adequate to maintain leak tightness with the specific luting compound.

(2) An opening may be closed by a securely bolted flange and leak-tight gasket. Each flange must be welded or brazed to the body of the 2R vessel per (ANSI) Standard B16.5 or (AWWA) Standard C207–55, section 10. A torque wrench must be used in securing the flange with a corresponding torque of no more than twice the force necessary to seal the selected gasket. Gasket material must be capable of withstanding up to 149°C (300°F) without loss of efficiency. The flange, whether of ferrous or nonferrous metal, must be constructed from the same metal as the vessel and must meet the dimensional and fabrication specifications for welded construction as follows:

(i) Pipe flanges described in Tables 13, 14, 16, 17, 19, 20, 22, 23, 25, and 26 of ANSI B16.5.

(ii) For nominal pipe sizes 6, 8, 10, and 12 inches, AWWA Standard C207–55 Table 1, class B, may be used in place of the tables prescribed by paragraph (a)(2)(i) of this section.

(iii) Sizes under 6 inches, nominal pipe size, the following table with the same configuration as illustrated in AWWA C207–55, Table 1, class B, may be used in place of paragraph (a)(2)(i) of this section.

Nominal pipe size		Flange O.D.		Number of bolts	Bolt circle diameter		Diameter of bolts		Flange thickness	
Inches	Centimeters	bolts	Inches		Inches	Centimeters	Inches	Centimeters	Inches	Centimeters
1	5	4	4⅞	4	4¼	11.8	⅝	1.2	⅝	1.6
2½	6.7	7	17.5	4	5½	13.9	⅝	----------	⅝	----------
3	7.5	7¼	18.8	4	5⅞	15	⅝	----------	⅝	----------
5½	8.4	8½	21.3	8	7	17.5	⅝	----------	⅝	----------
4	10	9	22.6	8	7½	18.8	⅝	----------	⅝	----------
5	12.6	10	25.4	8	8½	21.3	¾	----------	⅝	----------

(iv) Cast iron flanges prohibited.

30. In § 178.103, §§ 178.103–1, and 178.103–3 are amended; paragraph (a) in §§ 178.103–4, and 178.103–5 is revised; in § 178.103–2 paragraph (b) is added to read as follows:

§ 178.103 Specification 6L; metal packaging.

§ 178.103–1 General requirements.

Each packaging must meet the applicable requirements of § 173.24 of this subchapter.

§ 178.103–2 Rated capacity.

* * * * *

(b) The authorized maximum gross weight of the package is 160 kilograms (350 pounds) for sizes not over 210L (55 gallons) or 220 kilograms (480 pounds) for sizes over 210L (55 gallons) but not over 420L (110 gallons).

§ 178.103–3 General construction requirements.

(a) The outer shell must be of straight sided steel, with welded body seams and at least 18-gauge body and bottom head sheets, and 14-gauge removable head sheets (unless there are one or more corrugations in the cover near the periphery, in which case 16-gauge is authorized). The shell may be either a single sheet of steel or may be fabricated by welding together two appropriate lengths of 210L (55-gallon) drums, such as a DOT Specification 6J or 17H, with rolled or swedged in hoops as prescribed for either of those specifications. The head must be convex (crowned), not extending beyond the level of the chime, with a minimum convexity of 1 centimeter (⅜-inch). The inside diameter of the shell must be at least 57 centimeters (22.5 inches).

(b) Inner containment vessel must conform to specification 2R (except that cast iron is not authorized), with a maximum usable inside dimension of 13.3 centimeters (5.25 inches) maximum height of 127 centimeters (50 inches) (with caps in place) and minimum wall thickness of 6 millimeters (0.25 inch).

(c) Inner containment vessel must be fixed within the outer shell by one of the following types of centering devices:

(1) At least 8 steel rod spacers, of at least 6 millimeters (0.25-inch) diameter (for packages of 210 liters (55-gallon) capacity) or 1 centimeter (0.375-inch) diameter (for packages with greater than 210 liters (55-gallon) capacity) cold rolled steel, welded to the vessel at each end by minimum 5 centimeter (2-inch) continuous weld. Each rod must be welded to the vessel at radial positions not exceeding 45 degrees as not to interfere with closure of the inner vessel. Each spacer rod must extend at least 5.6 centimeters (2.25 inches) beyond the inner vessel at each end, then radially to the wall of the outer drum (to provide a springlike snug fit) and along the entire length of the wall of the outer drum. For a packaging of more than 210 liters (55-gallon) capacity, each spacer rod must be braced by welding a 6 millimeter (0.25-inch) by 5 centimeter (2-inch) steel plate to the spacer rod and the pipe with a continuous weld at each joint, the joints being located approximately half way along the length of the drum. For containers manufactured prior to March 31, 1975, this requirement is effective (insert date one year after publication).

(2) * * *

(i) 2.5 centimeters (1 inch) by 2.5 centimeters (1 inch) by 6 millimeters (¼-inch) steel angle iron.

(ii) 3 centimeters (1¼) inches by 3 centimeters (1¼ inches) by 5 millimeters (⅜-inch) steel angle iron.

(iii) 2.5 centimeters (1 inch) schedule 40 steel pipe.

* * * * *

(3) There must not be less than 2 spacer mechanisms for a packaging of 210 liters (55-gallon) capacity nor less than 3 spacer mechanisms for a packaging greater than 210 liters (55-gallon) capacity. Each spacer mechanism must consist of not less than 6 steel angles, pipe, or rod radial supports of at least 27 square centimeters (0.42 square inch) cross-section. Each radial support must be welded at one end to the containment vessel by a continuous weld or to an inner steel band of at least 6 millimeters (¼-inch) by 2.5 centimeters (1 inch) by a continuous weld at radial positions not exceeding 60 degrees from the center of the package. The inner band, when used, must be welded to the inner containment vessel by at least 6 equally spaced 5 centimeter (2-inch) welds on each edge of the band. The opposite end of the radial support must be welded by a continuous weld to an outer steel band of at least 6 millimeters (¼-inch) by 2.5 centimeters (1 inch). The outer steel band must be welded to the outer shell by at least 6 equally spaced welds on each edge of the top band, such that the inner vessel is fixed at least 5.7 centimeters (2.25 inches) from the top and bottom of the drum. The spacer mechanism must be welded as specified near each end of the containment vessel so as not to interfere with the vessel closure. For a packaging greater than 210L (55-gallon) capacity, the additional spacer mechanism must be located at approximately midpoint along the length of the inner vessel.

(d) The void between the inner containment vessel and the outer shell must be completely filled with bagged or tamped vermiculite (expanded mica), with a density of at least 0.072 g/cc (4.5 pounds per cubic foot). Loose, untamped vermiculite is not authorized.

§ 178.103–4 Welding.

Welding must be of material having a melting point in excess of 800° C (1475° F.) (except that for packages constructed prior to March 31, 1975, this temperature may be 540° C. (1000° F)), with a joint efficiency of at least 0.85. This requirement applies to welding used in adding spacer rods to comply with 178.103(3)(c)(1).

§ 178.103–5 Closure.

(a) The outer drum closure must be at least a 12-gauge bolted ring with drop forged lugs, one of which is threaded, and having at least a 1.6 centimeter (⅝-inch) diameter steel bolt and a lock nut, or equivalent device.

* * * * *

31. In § 178.104–3, paragraphs (a), (b), and (c) are revised; paragraph (e) would be added to read as follows:

§ 178.104–3 General construction requirements.

(a) The outer shell must be of straight-sided steel, with welded body seams, and may be either a single sheet of steel, or may be fabricated by welding together two appropriate lengths of drums, such as a DOT Specification 6C or 17C, with each length to contain 3 swedged or rolled rolling hoops as prescribed for either of these specifications. A removable head for a packaging of 210 liters (55 gallons) or larger volume must have one or more corrugations in the cover near the periphery. For a packaging exceeding 51 liters (15 gallons) volume, the head must be crowned (convexed), not extending beyond the level of the chime, with a minimum convexity of 1 centimeter (⅜-inch).

(1) The maximum authorized gross weight, metal thickness, and minimum end insulation thickness for the marked volume is as follows:

Marked capacity		Maximum authorized gross weight		Minimum thickness of uncoated sheets and heads (gage)	Minimum thickness of end insulation	
Gallons not over	Liters	Pounds	Kilograms		Inches	Centimeters
15	57	160	73	20	1.65	4.7
30	114	480	219	18	3.75	9.5
55	210	640	292	16	3.75	9.5
110	420	640	292	16	3.75	9.5

(2) Each drum must have at least four 1.2 centimeter (0.5-inch) diameter vent holes, located on the sides of the drum, near the top, each covered with a weatherproof tape, fusible plug, or equivalent device. A layer of porous refractory fiber may be placed behind the pressure-relief vent holes.

(b) Inner containment vessel must conform to specification 2R or equivalent (except that only carbon steel or stainless steel is authorized), with maximum usable inside diameter of 13.3 centimeters (5.25 inches), minimum usable inside diameter of 10 centimeters (4 inches), and minimum height of 15 centimeters (6 inches).

(c) Inner containment vessel must be fixed within the outer shell by one of the following types of solid centering media,

with the sides of the inner vessel protected by at least 9.5 centimeters (3.75 inches) of insulation media, and the ends with at least the thickness as prescribed in § 178.104–3(a)(1).

(1) Machined discs and rings made of solid industrial cane fiberboard having a density of at least 00.24 g/c¢ (15 pounds per cubic foot) fitted such that the radial clearances between the fiberboard, inner vessel, and shell do not exceed 6 millimeters (¼-inch); or

(2) Hardwood or plywood at least 1.2 centimeter (½-inch) thick, having a density of at least 0.45 g/c¢ (28 pounds per cubic foot). There must be no gap or direct heat path from the shell to the inner vessel.

* * * * *

(e) For a packaging having an authorized gross weight in excess of 219kg (480 pounds), a steel bearing plate, at least 6 millimeters (0.25-inch) thick or a plywood disc, at least 2.5 centimeters (1 inch) thick, and at least 25 centimeters (10 inches) in diameter must be provided at both ends and adjacent to the specification 2R inner containment vessel, to provide additional load-bearing surface against the insulation-centering medium.

32. § 178.120 is added to read as follows:

§ 178.120 Specification 20PF phenolic-foam insulated, metal overpack.

§ 178.120–1 General requirements.

(a) Each overpack must meet all of the applicable requirements of § 173.24 of this subchapter.

(b) The maximum gross weight of the package, including the inner cylinder and its contents, must not exceed the following:

(1) Specification 20PF–1—138 kilograms (300 pounds).

(2) Specification 20PF–2—320 kilograms (700 pounds).

(3) Specification 20PF–3—455 kilograms (1000 pounds).

(c) The general configuration of the overpack must be a right cylinder, consisting of an insulated base section, a steel liner lid, and an insulated top section. The inner liner and outer shell must be at least 16-gauge and 18-gauge steel, respectively, with the intervening cavity filled with a molded-in-place, fire-resistant, phenolic-foam insulation interspersed with wooden members for bracing and support. Wood pieces must be securely attached to both the liner and shell. No hole is permitted in the liner. Each joint between sections must be stepped a minimum of 5 centimeters (2 inches) and gaps between mating surfaces must not exceed 5 millimeters (0.2-inch). Gaps between foam surface of top section and liner lid must not exceed 1 centimeter (0.4-inch) or 5 centimeters (2 inches) where taper is required for mold stripping. For the specification 20PF–1, the top section may consist of a plug of foam insulation and a steel cover. The liner and shell closures must each be gasketed against moisture penetration. The liner must have a bolted flange closure. Shell closure must conform to § 178.118–8(b).

(d) Drawings in CAPE–1662, which include bills of material are a part of this specification.

§ 178.120–2 Materials of construction and other requirements.

(a) Phenolic foam—Insulation must be fire-resistant, phenolic foam which has been fabricated in accordance with USAEC Material and Equipment Specification SP–9, which is a part of this specification. A 13.7 centimeter (5-inch) minimum thickness of foam must be provided over the entire liner except:

(1) Where wood spacers replace the foam; or

(2) At protrusions of liner or shell, such as flanges, baffles, etc., where minimum insulation thickness is 9 centimeters (3.5 inches); or

(3) Where alternate top section (specification 20PF–1) is used. Foam must not interfere with proper seating of screws in inner liner flange assembly. Average density of insulation must be 0.13 g/cc (8 pounds per cubic foot (pcf)) minimum for bottom section and 0.16 g/cc (10 pcf) minimum for top section, except 0.1 g/cc (6.5 pcf) for the specification 20PF–1 top section.

(b) Gaskets must be as follows:

(1) Inner liner flange—Neoprene rubber of 30 to 60 type A durometer hardness or other equivalent gasket material which is compatible with the specific contents.

(2) Outer shell—Synthetic rubber conforming to MIL–R–6855 (available from the Naval Publications Forms Center, 5801 Tabor Avenue, Philadelphia, Pennsylvania 19120) class 2, grade 60.

(3) Support and pressure pads for inner liner top and bottom must be sponge rubber or equivalent.

(c) Alternate top section (specification 20PF–1 only). Average insulation density must be 0.16 g/cc (10 pcf minimum). Thickness of plug must be 11 centimeters (4.3 inches) minimum, except thickness may be reduced to 10 centimeters (4 inches) to clear bolt heads. A flush mounted top lifting device must be securely fastened to a wood block encapsulated by the foam.

(d) Vent holes 5 millimeters (0.2-inch) diameter must be drilled in the outer shell to provide pressure relief during the insulation foaming and in the event of a fire. These holes, which must be drilled in all areas of the shell which mate with the foam insulation, must be spaced in accordance with CAPE–1662.

(e) Welding must be by a fusion welding process in accordance with American Welding Society Codes B–3.0 and D–1.0. Body seams and joints for the liner or shell must be continuous welds.

(f) *Waterproofing*—Each screw hole in the outer shell must be sealed with appropriate resin-type or equivalent sealing material during installation of the screw. All exposed foam surfaces, including any vent hole, must be sealed with water-proofing material as prescribed in USAEC Specification SP–9, Rev. 1, or equivalent.

§ 178.120–3 Tests.

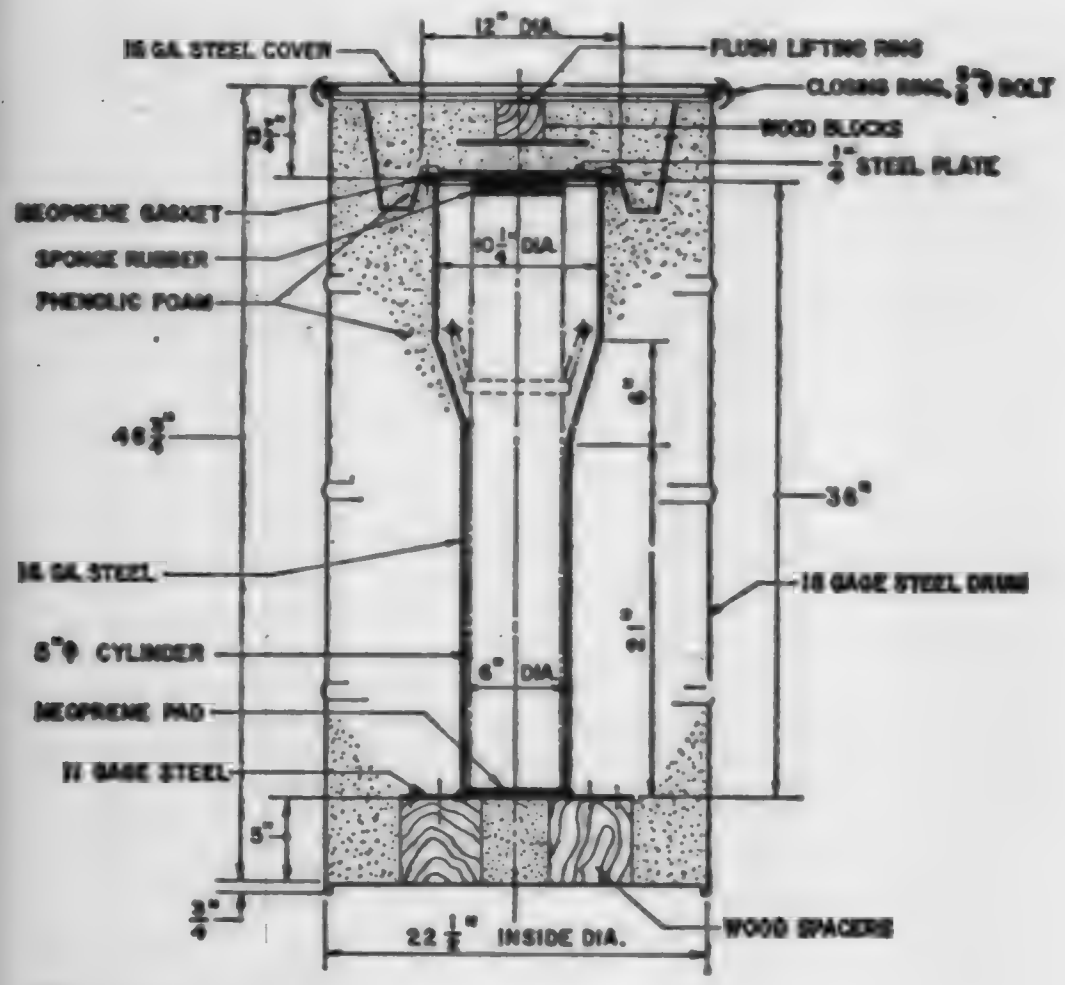
(a) Leakage test—Each inner liner assembly must be tested for leakage prior to installation. Seam welds of the liner must be covered for a distance of at least 15 centimeters (6 inches) on either side of the seam with soapsuds, heavy oil, or equivalent material, and interior air pressure applied to at least 776mm Hg (15 p.s.i.g.) above atmospheric pressure must be held for at least 30 seconds. Liners failing to pass this test may not be used until repairs are made, and retests successfully passed.

§ 178.120–4 Required markings.

(a) Marking must be as prescribed in § 173.24 of this subchapter.

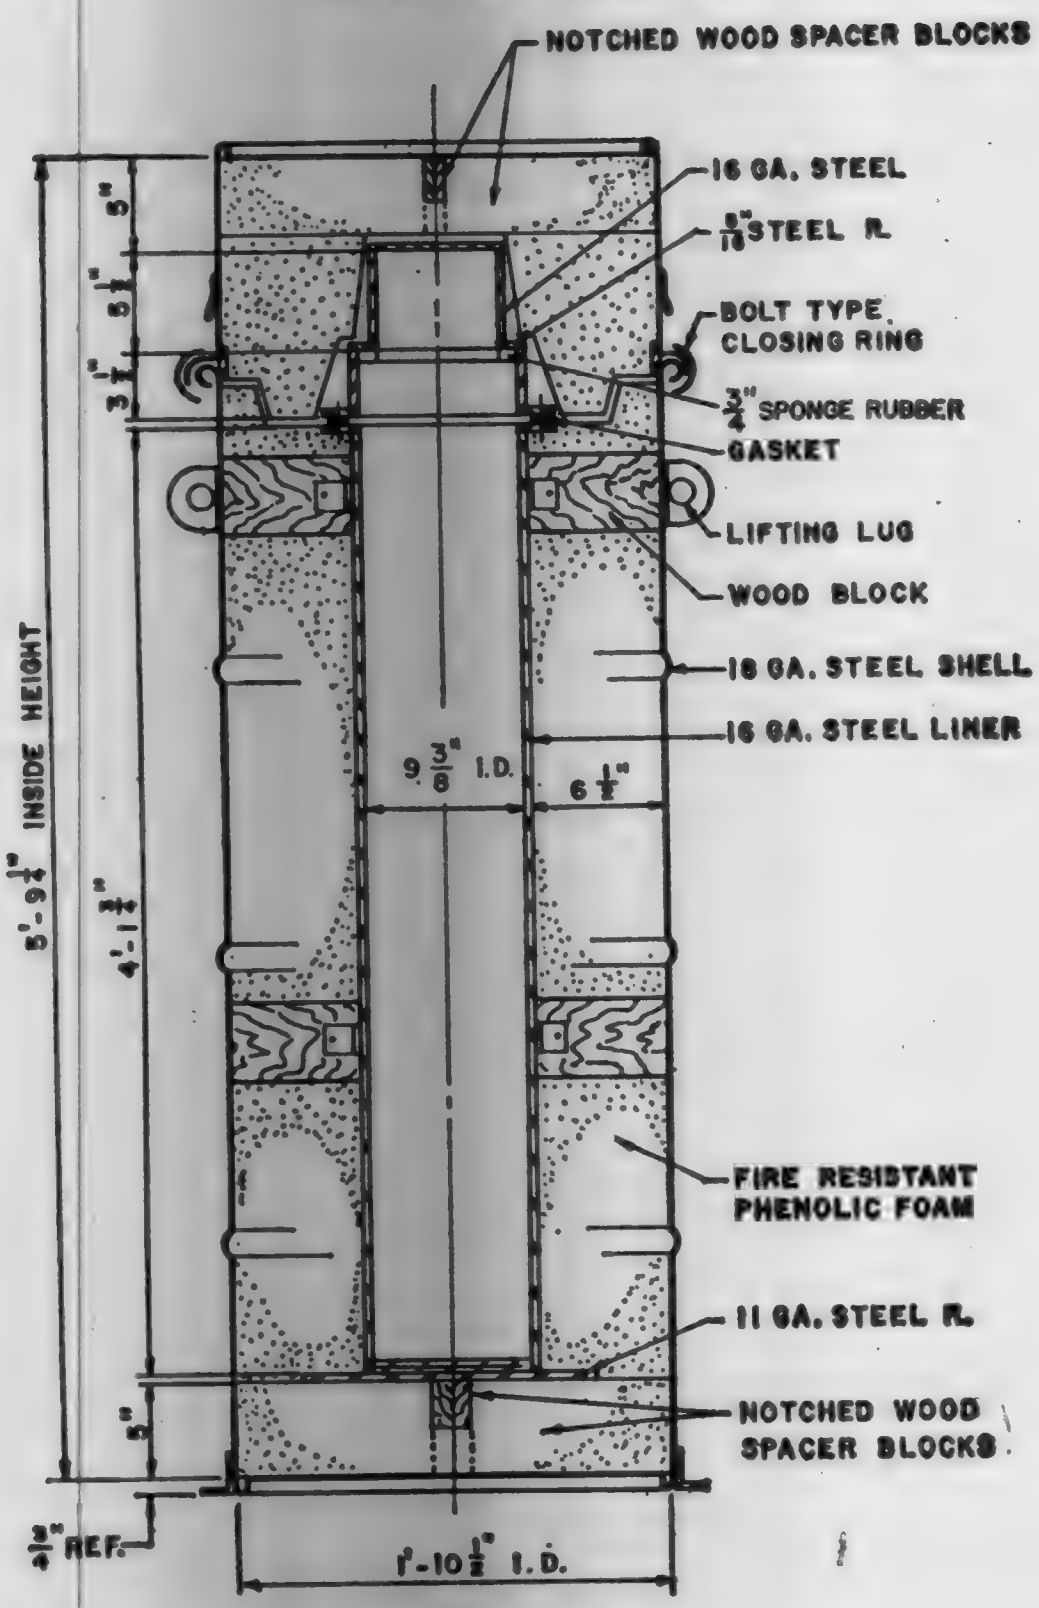
(b) Marking on the outside of each overpack must be as follows:

(1) "USA–DOT–20PF–1" or "–2," as appropriate, and if the entire liner is made of stainless steel, additional marking such as "3041–SS" to indicate the type of stainless steel used.



(2) "TARE WT: xxx lbs." where xxx is the tare weight of the assembled overpack without the inner container.

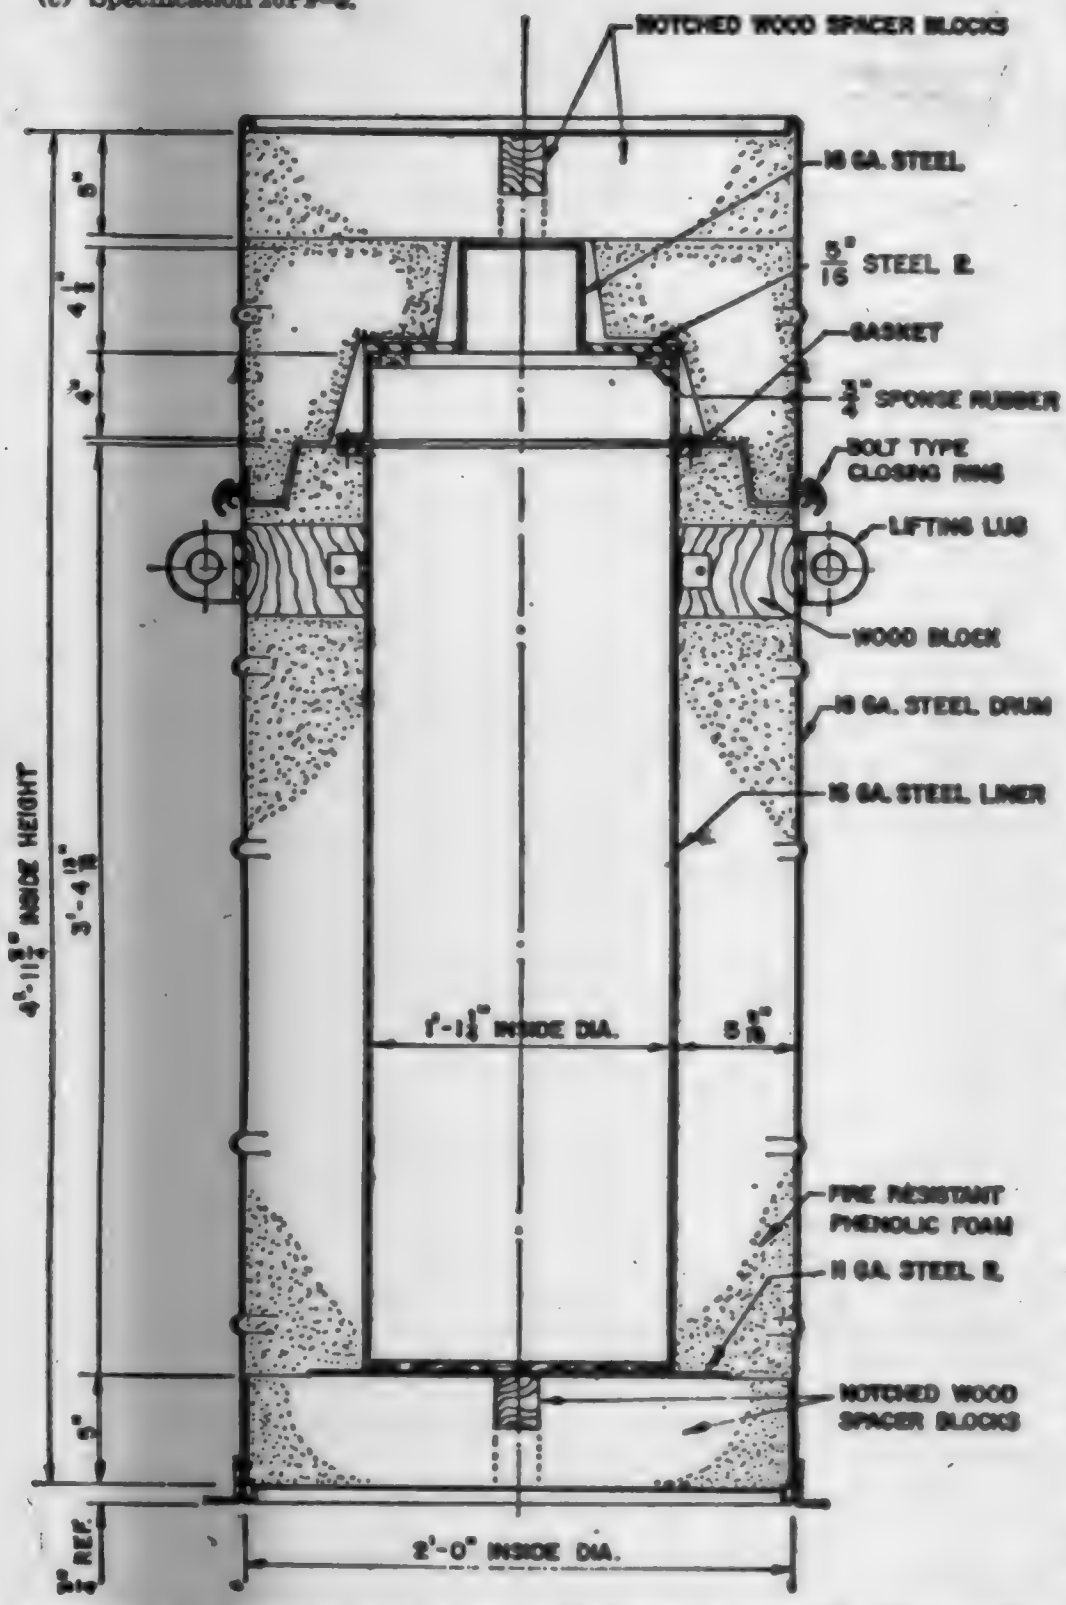
(3) Year of manufacture.



§ 178.120–5 Typical assembly detail.

(a) Specification 20PF–1.

XUM 1974 DEC 31 V39 N252



(b) Specification 20PP-2.

XUM V 39 NO 252 DEC 31 1974 XUM V

(c) Specification 20PF–2.

33. § 178.121 is added to read as follows:

§ 178.121 Specification 21PF fire and shock resistant, phenolic-foam insulated, metal overpack.

§ 178.121–1 General requirements.

(a) Each overpack must meet all of the applicable requirements of § 173.24 of this subchapter.

(b) Each overpack is authorized for use in applications where the maximum gross weight of the package, including the inner container and contents does not exceed 3725 kilograms (8200 pounds) (horizontally-loaded specification 21PF–1 unit), or 3900 kilograms (8600 pounds) (end-loaded specification 21PF–2 unit).

(c) The general configuration of the overpack must be a right cylinder, consisting of a steel inner liner (at least 16-gauge) and steel outer shell (at least 14-gauge) with the intervening cavity filled with a molded-in-place, fire-resistant, phenolic foam insulation and interspersed wooden members for bracing and support. Two specific configurations are authorized; a horizontal loading unit (specification 21PF–1) consisting of insulated base and top sections jointed in a longitudinal peripheral closure joint; or an end-loading unit (specification 21PF–2), consisting of an insulated main section, a steel plate liner lid, and an insulated end cap. For either type each joint between sections must be stepped at least 1.8 centimeters (0.75-inch) and gaps between mating surfaces may not exceed 5 millimeters (0.1-inch). Bolted closures, which must each be gasketed against moisture penetration, must be in accordance with CAPE–1662. Each bolt must be equipped with a locking device to prevent loosening from vibration. Outer steel bracing and support framework must be attached to the shell to facilitate normal handling.

(d) Drawings in CAPE-1662, which include bills of materials, are a part of this specification.

§ 178.121–2 Materials of construction and other requirements.

(a) *Phenolic foam.* Insulation must be fire resistant, phenolic foam which has been fabricated in accordance with USAEC material specification SP–9, Rev. 1, which is a part of this specification. A 14 centimeters (5.5-inch) minimum thickness of foam must be provided over the entire liner, except where:

(1) Wood spacers replace the foam material; or

(2) At protrusions of liner or shell, such as flanges, baffles, etc., where the minimum thickness of foam, wood, or a combination of these is 10 centimeters (4 inches).

(3) Solid wood or laminated wood solidly glued may be used to replace the foam between liner and shell (i.e., in ends of overpack). In this case, minimum wood thickness is 10 centimeters (4 inches). Average density of insulation must be 0.1g/cc (6.75 pounds per cubic foot (pcf)) minimum, except that 0.13 g/cc (8 pcf) is required in the removable end cap of the specification 21PF–2, which must have a minimum foam thickness of 12.7 centimeters (5 inches).

(b) Gaskets for inner liner, outer shell, or where otherwise specified in CAPE–1662, must be of vinyl foam tape, single coated, or 6 millimeters (¼-inch) thick expanded rubber, per ASTM D1056, type R or S, grades 41 to 43, with adhesive backing, or equivalent.

(c) Support and pressure pads for the inner liner must be of neoprene, sponge rubber, or equivalent.

(d) Fire retardant (intumescent) paint must be applied to any wood blocking which is located at any joint in the shell.

(e) Vent holes 5 millimeters (0.2-inch) diameter must be drilled in the outer shell to provide pressure relief during the insulation foaming and in the event of a fire. These holes, which must be drilled in all areas of the shell which mate with the foam insulation, must be spaced in accordance with CAPE–1662.

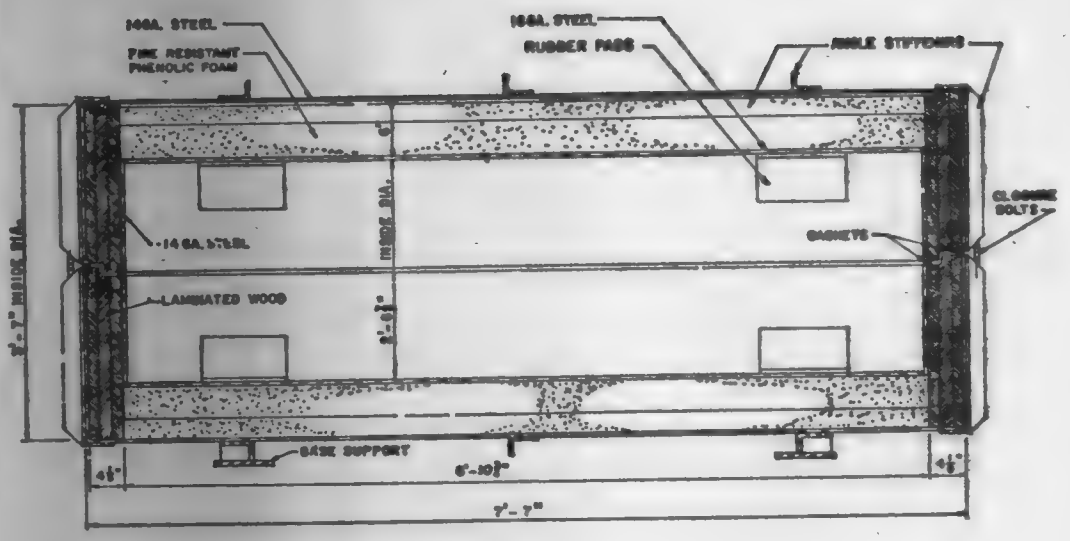
(f) Welding must be by a fusion process in accordance with the American Welding Society Code. Body seams and joints for the liner and shell must be continuous welds.

(g) Waterproofing. Each screw hole in the outer shell must be sealed with appropriate resin-type or equivalent sealing material during installation of the screw. All exposed foam surfaces including any vent hole, must be sealed with waterproofing material as prescribed in USAEC Material and Equipment Specification SP-9, or equivalent.

§ 178.121-3 Required markings.

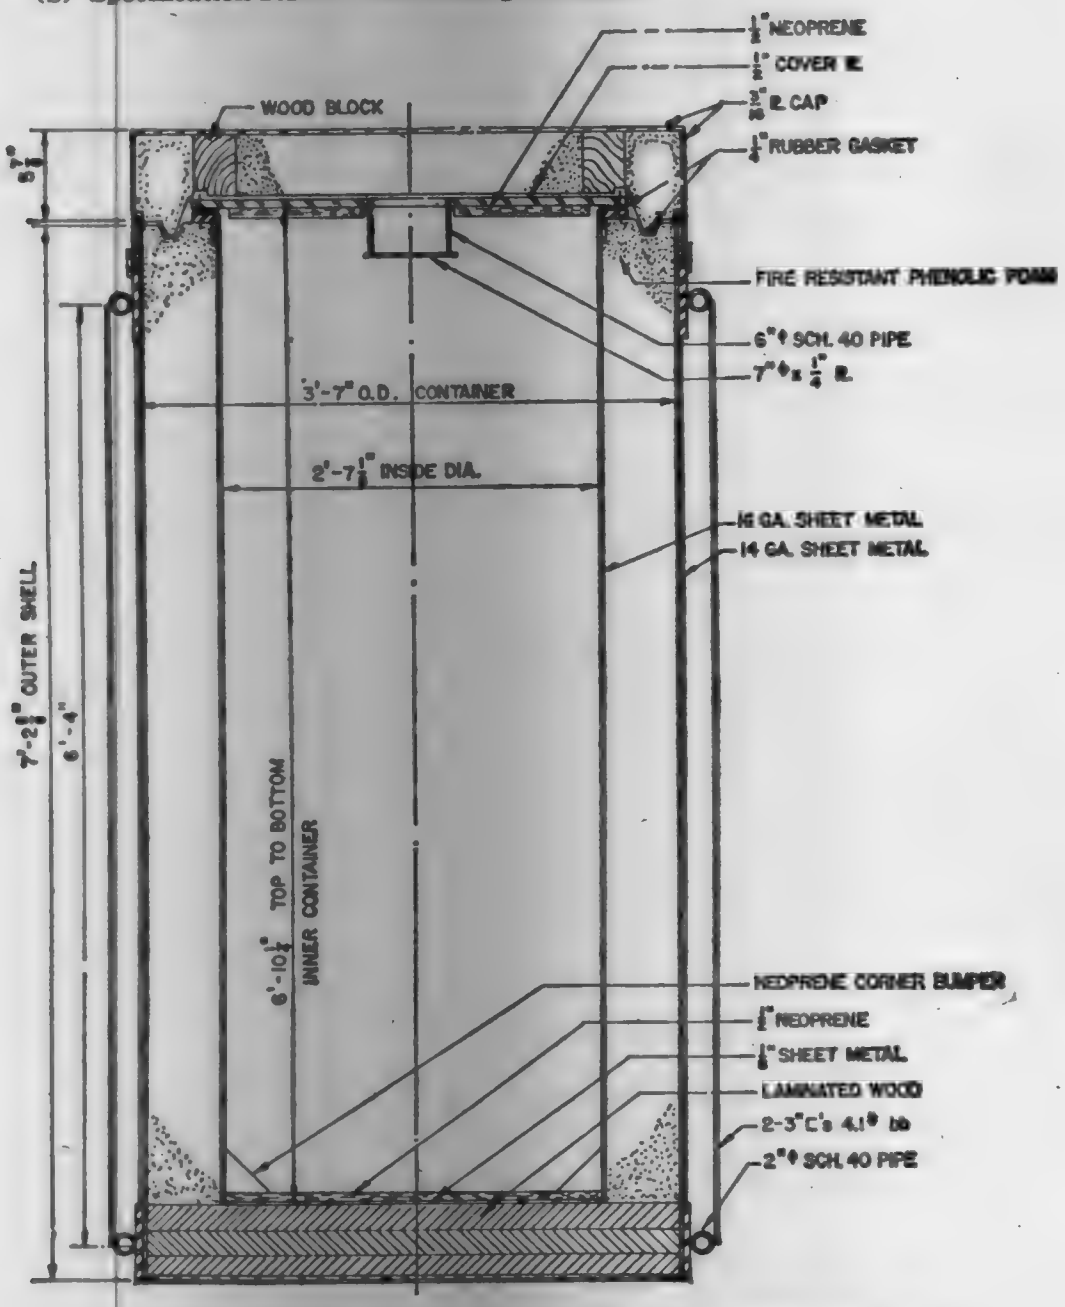
(a) Markings must be as prescribed in § 173.24 of this subchapter.

(b) Marking on the outside of each overpack must be as follows:



(1) "USA-DOT-21PF-1" or "2", as appropriate, and, if the inner shell is of stainless steel, additional marking such as "304L-SS" to indicate the type of stainless steel used.

(2) "TARE WT: xxx lbs. (or kg.)" where xxx is the tare weight of the assembled overpack without the inner container.



(3) Year of manufacture.

§ 178.121-4 Typical assembly detail.

(a) Specification 21PF-1 (horizontal loading overpack).

(b) Specification 21PF-2 (end loading overpack).

V 39 2519 DEC 31 74 XUM

34. § 178.194 is added to read as follows:

§ 178.194 Specification 20WC wooden protective jacket.

§ 178.194–1 General requirements.

(a) Each jacket must meet the applicable requirements of § 173.24 of this subchapter.

(b) Maximum gross weight of the jacket plus the contents may not exceed the following:

(1) Specification 20WC–1: 225 kilograms (500 pounds).

(2) Specification 20WC–2: 225 kilograms (500 pounds).

(3) Specification 20WC–3: 455 kilograms (1000 pounds).

(4) Specification 20WC–4: 910 kilograms (2000 pounds).

(5) Specification 20WC–5: 1820 kilograms (4000 pounds).

(6) Specification 20WC–6: 2230 kilograms (6000 pounds).

§ 178.194–2 Materials of construction.

(a) The general configuration of the wooden protective jacket must be a hollow cylindrical shell constructed of one-piece discs and rings of plywood or solid hardwood reinforced with steel rods.

(1) The specification 20WC–2 must be additionally completely encased, snugly fit, within an 18-gauge steel shell. The steel shell must be provided with at least four 6 millimeter (0.25-inch) diameter vent holes. Each hole must be covered with durable weatherproof tape, or equivalent device.

(2) The specification 20WC–6 jacket must be additionally completely encased, snugly-fit, within a 12-gauge steel shell. The steel shell must be provided with at least twelve 1.2 centimeters (0.5-inch) diameter vent holes, located in 3 rows of 4 holes each, spaced at 90 degree intervals near the top, middle, and bottom of the drum. Each hole must be covered with durable weatherproof tape, or equivalent device.

(b) Plywood must be exterior-grade, void-free, Douglas fir (or equivalent) not more than 2.5 centimeters (1 inch) thick. Solid hardwood is authorized for specification 20WC–2 only.

(c) Discs and rings must be glued together with a strong, shock-resistant adhesive, such as either of the following:

(1) A resorcinol-formaldehyde adhesive, which has been bonded under both heat and pressure; or

(2) A polyvinyl-acetate emulsion, which has been reinforced with cement-coated nails. The nails must be randomly spaced and must be at least 2.5 times as long as the minimum thickness of the plywood discs or rings.

(d) Full-length steel rods are required for reinforcement and lid closure.

(1) The minimum number of rods and the minimum rod diameter are as shown in the following table:

Specification	Minimum number of rods	Minimum rod diameter	
		Inches	Millimeters
20WC–1	6	0.25	6.0
20WC–2	6	.25	6.0
20WC–3	12	.375	9.5
20WC–4	16	.375	9.5
20WC–5	16	.50	12.0
20WC–6	16	.50	12.0

(2) For specifications 20WC–1 and 20WC–2, steel rods must be equally spaced around the circumference to the rings and discs, midway between the O.D. and I.D. of the rings. For specifications 20WC–3 and 20WC–4, bolts may be staggered alternately in two rows, at ±1.2 centimeters (0.5-inch) from the line midway between the O.D. and I.D. of the rings. For specifications 20WC–5 and 20WC–6, bolts may be staggered alternately in two rows at ±2.5 centimeters (1 inch) from the line midway between the O.D. and I.D. of the rings.

(3) Rod ends must be threaded and secured with lock nuts and steel washers, or equivalent device, to provide at least a 2.5 centimeters (1 inch) diameter bearing surface on each end. Ends of the rods must terminate 1.4 centimeters (0.75-inch) below the surface of the plywood for specifications 20WC–1 and 20WC–2. For specifications 20WC–3, 20WC–4, 20WC–5 and 20WC–6, the ends of the rods must terminate 3.7 centimeters (1.5 inches) below the surface of the plywood, and that portion of each end disc which extends beyond the rod ends must be further held in place with lag screws at least 10 centimeters (4 inches) long.

(e) Thickness of wooden shell:

(1) Specification 20WC–1: At least 10 centimeters (4 inches) thick.

(2) Specification 20WC–2: At least 7.5 centimeters (3 inches) thick.

(3) Specification 20WC–3: At least 13 centimeters (5 inches) thick for the jacket wall, and at least 15 centimeters (6 inches) thick for the end discs. In addition, at least 3 plywood chines, 5 centimeters (2 inches) wide and protruding 5 centimeters (2 inches) beyond the outer surfaces, must be located at each end and midway along the length of the jacket.

(4) Specification 20WC–4: At least 15 centimeters (6 inches) thick for the jacket wall, and at least 15 centimeters (6 inches) thick for the end discs. In addition, at least 3 plywood chines, 5 centimeters (2 inches) wide and protruding 5 centimeters (2 inches) beyond the outer surfaces, must be located at each end and midway along the length of the jacket.

(5) Specifications 20WC–5 and 20WC–6: At least 15 centimeters (6 inches) thick for the jacket wall, and at least 20 centimeters (8 inches) thick for the end discs. In addition, at least 5 plywood chines, 5 centimeters (2 inches) wide and protruding 5 centimeters (2 inches) beyond the outer surfaces, must be located at each end and equally spaced along the length of the jacket.

§ 178.194–3 Closure.

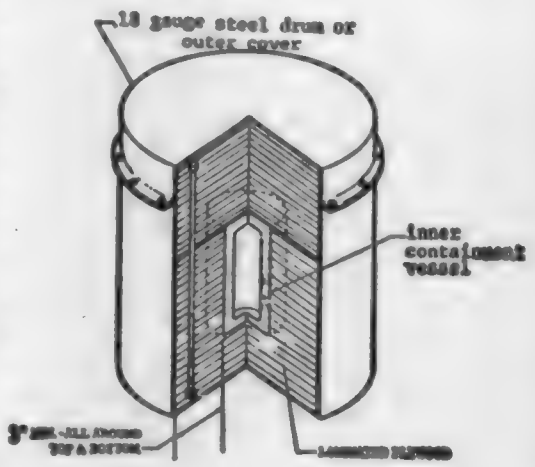
(a) Closure for the wooden protective jacket is provided by the steel reinforcing rods. The end cap (lid) must fit tightly to the body of the jacket to prevent a heat path to the inside of the jacket. The lid joint for specifications 20WC–3, 20WC–4, 20WC–5, and 20WC–6, may not be coplanar with the end of the inner containment vessel.

(b) Specifications 20WC–2 and 20WC–6. Locking ring closure, if used, must conform to § 178.104–4. Flanged closure, if used, must have at least 8 steel bolts (at least 6 millimeters (0.25-inch) diameter for 20WC–2 or 1.2 centimeters (0.50-inch) diameter for 20WC–6) and lock nuts (or equivalent device), spaced not more than 13 centimeters (5 inches) between centers.

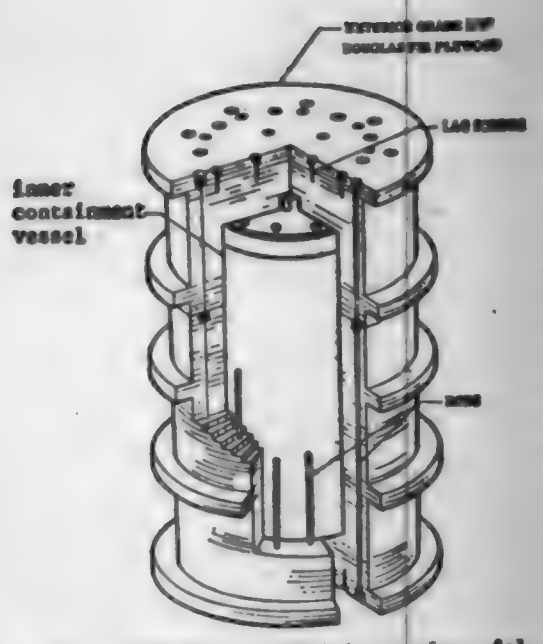
§ 178.194–4 Tests.

Prior to each use, each jacket must be visually inspected for defects such as improper bonding, cracking, corrosion of steel rods, and improperly fitting closure lid, or other manufacturing defects. Particular attention must be given to any separation of the plywood discs and rings which would provide a heat path to the inside of the jacket.

§ 178.194–5 Painting.



Each jacket (other than 20WC–2 and 20WC–6) must be completely painted with a high quality exterior weather resistant paint.



§ 178.194–6 Marking.

Each jacket must be marked on the external surface as follows: "USA–DOT 20WC–( ) TYPE B." The appropriate numeral must be inserted in the marking to indicate the appropriate specification 20WC category: e.g., "20WC–2."

§ 178.194–7 Typical assembly sketches.

(a) Spec. 20WC–2.

35. § 178.195 is added to read as follows:

§ 178.195 Specification 21WC wooden-steel protective overpack.

§ 178.195–1 General requirements.

(a) Each jacket must meet all the applicable requirements of § 173.24 of this subchapter.

(b) The maximum authorized gross weight of the overpack, including its inner container and contents may not exceed 1360 kilograms (3000 pounds).

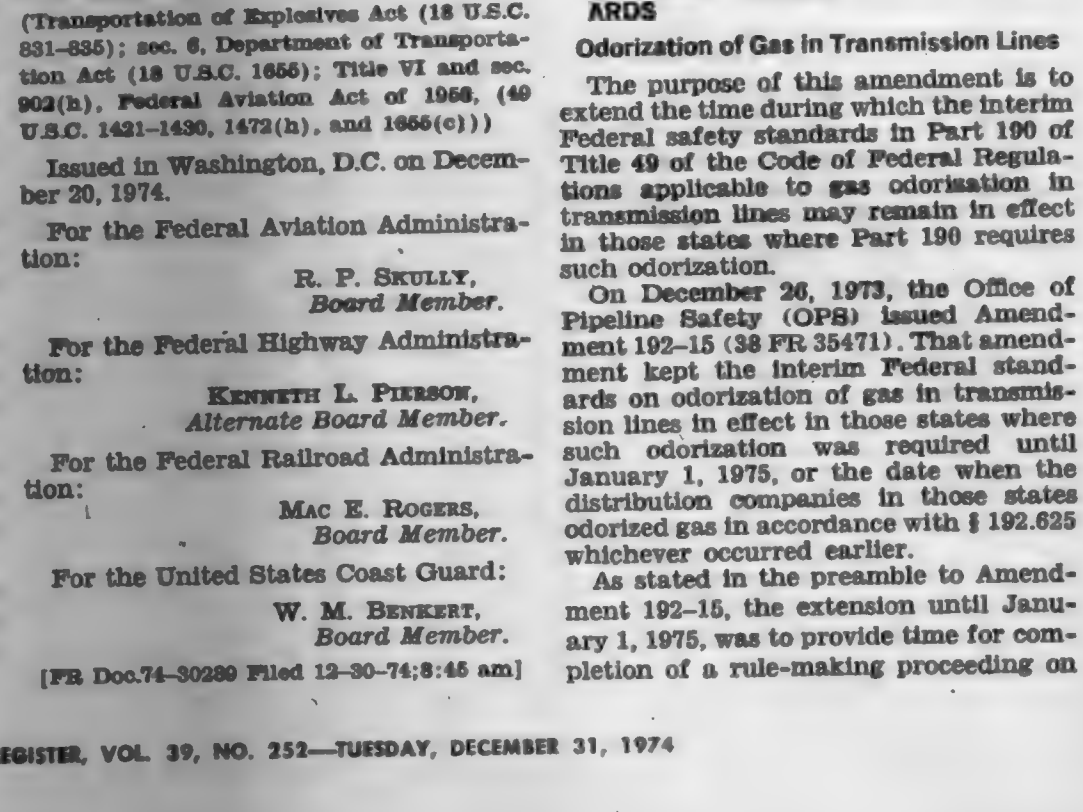
§ 178.195–2 Materials of construction and other requirements.

(a) The general configuration of the protective overpack must be a combination of two nested plywood boxes, each 2.5 centimeters (1 inch) thick, nested within a third wooden box of nominal 5 centimeters (2-inch) thickness solid hardwood. The three nested boxes must be enclosed within a welded framework constructed of mild steel strap, nominally 1 centimeter (⅜-inch) thick by 8–10 centimeters (3–4 inches) wide. All outer surfaces of each box must be coated with intumescent paint.

(b) Plywood must be exterior-grade, void-free, Douglas fir, or equivalent, at least 2.5 centimeters (1-inch) thick. Solid hardwood must be maple, or equivalent.

(c) All box joints and interior surfaces must be glued with a strong, shock-resistant adhesive such as polyvinyl-acetate emulsion, or equivalent.

(d) All hardwood joints must be mitered, or equivalent, reinforced with No. 10 cement-coated nails spaced on nominal 15 centimeters (6-inch) centers.



(e) All plywood joints must be butt-type, or equivalent, reinforced with No. 10 cement-coated nails spaced on nominal 15 centimeters (6-inch) centers.

(f) The angles and strapping of the metal frame must be spaced such that separation distances do not exceed 15 centimeters (6 inches).

(g) The lid must be of the same material as the box and fabricated in such a manner that closure forms a mitered joint with the hardwood box and 2 stepped-joints with the plywood boxes.

§ 178.195–3 Closure.

Closure for the protective overpack must be provided by at least 4 mild steel hinges formed from minimum 2.5-centimeter (1-inch) x 5-millimeter (3/16-inch) bar stock. Hinge pins must be minimum 6-millimeter (1/4-inch) diameter by 1 5.3 centimeters (5-1/4 inches) long mild steel rod drilled at both ends for cotter pins.

RADIOISOTOPE SHIPPING CASK FIRE AND IMPACT SHIELD.

§ 178.195–4 Tests.

Prior to each use, each overpack must be visually inspected for defects such as wood checking or splintering, weld cracking, corrosion of steel parts, improper joint bonding, or improperly fitting closure lid.

§ 178.195–5 Required marking.

(a) Marking must be as prescribed in § 173.24 of this subchapter.

(b) Marking on the outside of each overpack must include the following:

(1) "USA–DOT 21WC" and "TYPE B" as appropriate. **§ 178.195–6 Typical assembly detail.**

36. § 178.250 is deleted.

This amendment is effective March 31, 1975. However, immediate compliance with the regulations, as amended herein, is authorized.

(Transportation of Explosives Act (18 U.S.C. 831–835); sec. 6, Department of Transportation Act (18 U.S.C. 1655); Title VI and sec. 902(h), Federal Aviation Act of 1958, (49 U.S.C. 1421–1430, 1472(h), and 1655(c)))

SUBCHAPTER B—OFFICE OF PIPELINE SAFETY

[Amdt. 192–16; Docket No. OPS–3E]

PART 192—TRANSPORTATION OF NATURAL AND OTHER GAS BY PIPELINE: MINIMUM FEDERAL SAFETY STANDARDS

Odorization of Gas in Transmission Lines

The purpose of this amendment is to extend the time during which the interim Federal safety standards in Part 190 of Title 49 of the Code of Federal Regulations applicable to gas odorization in transmission lines may remain in effect in those states where Part 190 requires such odorization.

On December 26, 1973, the Office of Pipeline Safety (OPS) issued Amendment 192–15 (38 FR 35471). That amendment kept the interim Federal standards on odorization of gas in transmission lines in effect in those states where such odorization was required until January 1, 1975, or the date when the distribution companies in those states odorized gas in accordance with § 192.625 whichever occurred earlier.

As stated in the preamble to Amendment 192–15, the extension until January 1, 1975, was to provide time for completion of a rule-making proceeding on

V 39 N 252 DEC 31 1974 XUM

odorization of gas in transmission lines. This proceeding began on August 15, 1973, when OPS published a notice of proposed rule making in the Federal Register (Notice No. 73–2, Docket No. OPS–24, 38 FR 22044). The comments received as a result of that notice have been evaluated, and upon publication of a final rule pending the report of the Technical Pipeline Safety Standards Committee, the interim standards will be allowed to lapse. Meanwhile, the interim standards are again being extended as set forth below. The cutoff date of January 1, 1977, is established to coincide with the anticipated effective date of the proposed new odorization requirements.

Since the regulatory provisions that are affected by this amendment are presently in effect, and since this amendment will impose no additional burden on any person, I find that notice and public procedure thereon are impractical and unnecessary and that good cause exists for making it effective on less than 30 days notice.

In consideration of the foregoing, § 192.625(g)(1) of Title 49 of the Code of Federal Regulations is amended effective January 1, 1975, to read as follows:

§ 192.625 Odorization of gas.

* * * * *

(g) * * *

(1) January 1, 1977; or

* * * * *

This amendment is issued under the authority of section 3 of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. 1672) § 1.58(d) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.58(d)), and the redelegation of authority to the Director, Office of Pipeline Safety, set forth in Appendix A of Part 1 of the regulations of the Office of the Secretary of Transportation (49 CFR Part 1).

Issued in Washington, D.C., on December 24, 1974.

JOSEPH C. CALDWELL,
Director, Office of Pipeline Safety.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

[Reg. D]

PART 250—MISCELLANEOUS INTERPRETATIONS

Repeal of Ban on Ownership of Gold

§ 250.260 Miscellaneous interpretations; gold coin and bullion.

The Board has received numerous inquiries from member banks relating to the repeal of the ban on ownership of gold by United States citizens. Listed below are questions and answers which affect member banks and relate to the responsibilities of the Federal Reserve System.

(a) May gold in the form of coins or bullion be counted as vault cash in order to satisfy reserve requirements? No. Section 19(c) of the Federal Reserve Act requires that reserve balances be satisfied either by a balance maintained at the Federal Reserve Bank or by vault cash, consisting of United States currency and coin. Gold in bullion form is not United States currency. Since the bullion value of United States gold coins far exceeds their face value, member banks would not in practice distribute them over the counter at face value to satisfy customer demands.

(b) Will the Federal Reserve Banks perform services for member banks with respect to gold, such as safekeeping or assaying? No.

(c) Will a Federal Reserve Bank accept gold as collateral for an advance to a member bank under § 10(b) of the Federal Reserve Act? No.

By Order of the Board of Governors, effective December 17, 1974.

THEODORE E. ALLISON,
Secretary of the Board.

PART 545—OPERATIONS

Amendments Relating to Security for Public Deposits

DECEMBER 11, 1974.

The following summary of the amendments adopted by this resolution is provided for the reader's convenience and is subject to the full provisions of this resolution, including the provisions in the preamble thereof and in the amended regulations set forth below.

I. *Existing regulations.* There are no existing regulations authorizing Federal savings and loans associations to give security for public deposits.

II. *Amended regulations.* Federal savings and loan associations will be authorized to give security or bond for public deposits and to be surety for such deposits.

III. *Reason for amending the regulations.* To increase the ability of Federal savings and loan associations to attract deposits.

The Federal Home Loan Bank Board considers it desirable to amend Part 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Part 545) by adding new §§ 545.24–2 and 545.24–3 for the purpose of authorizing Federal savings and loan associations to provide bond or security for public deposits and to be surety for or with respect to one or more other public deposits or investments. By a companion

resolution (Resolution No. 74–1295; dated December 11, 1974), the Board also amended Part 563 of the Rules and Regulations for Insurance of Accounts (12 CFR Part 563) by adding a new paragraph (b) to § 563.31 in order to provide that action which is in conformity with new § 545.24–2 (or would be if the institution were a deposit Federal association) shall not be deemed to violate the provision of said § 563.31 that an insured institution shall not acquire insurance or guaranty of its accounts other than insurance provided by title IV of the National Housing Act.

Statutory authority of Federal savings and loan associations to be surety is supplied by subsection (e) of section 101 of Pub. L. 93–495, approved October 28, 1974. That subsection, the effective date of which was November 27, 1974, amended paragraph (2) of subsection (b) of section 5 of the Home Owners' Loan Act of 1933 to provide that "To such extent as the Board may authorize by regulation or advice in writing, an association * * * may be surety as defined by the Board * * *."

New § 545.24–2 provides in paragraph (b) that a Federal association which is a deposit association may give bond or security where the giving of such is, by statute of a State (defined to include the District of Columbia, Puerto Rico, and the territories and possessions, including any trust territory), an alternative or other requirement or condition of deposit or investment in such association of public moneys or by a governmental unit. Paragraph (c) of new § 545.24–2 provides that if, in the case of any such deposit or investment, there is a requirement or condition that the association or its bond or security, or both, be surety for or with respect to one or more other deposits or investments of that association or any other institution then insured by the Federal Savings and Loan Insurance Corporation, the association shall, to the extent that the requirement or condition is self-executing, be such surety, and may, to the extent the same is not self-executing, become such surety.

Although the authority to give bond or security under the new § 545.24–2 will be limited to situations where the giving of bond or security is such a requirement or condition, the amount of the bond or security will not be so limited.

New § 545.24–3 defines the term "surety" and provides that a Federal association may be surety (1) to the same extent that it would have authority to be surety if the amendment which was made by Public Law 93–495 had not been enacted, (2) to such extent as is in conformity with the new § 545.24–2, or (3) to such extent as is otherwise authorized by the Board by advice in writing or by regulation.

Section 545.24–3(b)(1) makes clear that the authority of Federal associations to be surety in such situations as endorsement or guaranty on the sale of securities, salvage operations, and other situations in which the association would have had authority to be surety if Pub. L. 93–495 had not been enacted remain in effect after the effective date of the amendment made by that public law.

Accordingly, the Federal Home Loan Bank Board hereby amends said Part 545 by adding new §§ 545.24–2 and 545.24–3 thereto to read as set forth below, effective December 31, 1974.

Since the above amendments relieve restrictions, the Board hereby finds that notice and public procedure with respect to said amendments are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b), and since publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendments would, in the opinion of the Board, likewise be unnecessary for the same reason, the Board hereby provides that said amendments shall become effective as hereinbefore set forth.

§ 545.24–2 Public deposits or investments.

(a) *Definitions.* As used in this section, (1) "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States, including any trust territory; (2) "statute of a State" and "statute of the State" include action by a governmental body which has a charter adopted under the constitution of the State and having provisions respecting the deposit of public moneys of such body; (3) "surety" means surety under suretyship which is personal suretyship or real suretyship or both, and includes guarantor; and (4) terms used in paragraphs (b)(1) and (b)(2) of this section, and "public moneys" as used in this paragraph (a), have the meanings which they respectively have where occurring in pertinent context in statutes of the State. The word "moneys" as used in this paragraph (a) and in paragraph (b) of this section includes the word "monies".

(b) *General.* A Federal association which is a deposit association within the meaning of that term as used in § 545.1–2 may, without being limited to the amount of bond or security which is such a requirement or condition, give bond or security where the giving of such bond or security is, by statute of a State, an alternative or other requirement or condition of deposit or investment in such association by or of any of the following:

(1) A governmental unit;

(2) Public moneys.

(c) *Suretyship.* If, in the case of any such deposit or investment, it is by statute of the State a requirement or condition of the deposit or investment that the association or its bond or security, or any combination of any or all thereof, be surety for or with respect to one or more other deposits or investments, whether of that depositor or investor or of any other or others, and whether in that association or in any other institution or institutions having, at the time of the making of such investments or deposits, insurance by the Federal Savings and Loan Insurance Corporation, the same shall, to the extent that the statutory requirement or condition is self-executing, be such surety, and may, to the extent that such requirement or condition is not self-executing, become such surety.

(d) *Ancillary provisions.* (1) Any bond or security may be given and any substitution or increase thereof may be made under this section before, at, or after the making of deposits or investments, or when no deposit or investment is outstanding.

(2) The provisions of this section shall be applicable notwithstanding and without regard to the prohibition on security in the last sentence of § 545.24 and the extension of that prohibition in § 545.1–2(c) and in § 545.1–5(1)(1).

§ 545.24–3 Suretyship.

(a) *Definitions.* As used in this section "surety" means surety under suretyship which is personal suretyship or real suretyship, or both, and includes guarantor.

(b) *General.* A Federal association may be surety (1) to the same extent that it would have authority to be surety if the amendment to section 5(b) of the Home Owners' Loan Act of 1933 which was made by section 101(e) of Pub. L. 93–495 had not been enacted, (2) to such extent as is in conformity with § 545.24–2, or (3) to such extent as is otherwise authorized by the Board by advice in writing or by regulation.

(Sec. 5, 48 Stat. 132, as amended; (12 U.S.C. 1464). Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp, p. 1071)

By the Federal Home Loan Bank Board.

GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

[No. 74–1295]

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

PART 563—OPERATIONS

Amendment Relating to Insurance for Public Deposits

DECEMBER 11, 1974.

The following summary of the amendment adopted by this resolution is provided for the reader's convenience and is

subject to the full provisions of this resolution, including the provisions in the preamble thereof and in the amended regulation set forth below.

I. *Existing regulations.* Insured institutions are not authorized to acquire any insurance or guaranty of its accounts in addition to the insurance provided by title IV of the National Housing Act.

II. *Amended regulations.* The amended regulations make it clear that in cases of deposit or investment of public moneys or by a governmental unit, where there is a requirement or condition that the association or its bond or security, or both, be surety for or with respect to one or more other deposits or investments, the association may become such surety and not violate the prohibition against acquisition of insurance other than under title IV of the National Housing Act.

III. *Reason for amending the regulations.* To clarify the Board's position.

The Federal Home Loan Bank Board considers it desirable to amend Part 563 of the Rules and Regulations for Insurance of Accounts (12 CFR Part 563) by adding a new paragraph (b) to § 563.31 to make it clear that in cases of deposit or investment of public moneys or by a governmental unit, where there is a requirement or condition that the association or its bond or security, or both, be surety for or with respect to one or more other deposits or investments, the association may become such surety and not violate the prohibition against acquisition of insurance other than under title IV of the National Housing Act. By a companion resolution (Resolution No. 74-1294; dated December 11, 1974), the Board also amended Part 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Part 545) by adding new §§ 545.24-2 and 545.24-3 for the purpose of authorizing Federal savings and loan associations to provide bond or security for public deposits and to act as surety for or with respect to one or more other public deposits or investments.

Statutory authority of Federal savings and loan associations to be surety is supplied by subsection (e) of section 101 of Pub. L. 93-495, approved October 26, 1974. That subsection, the effective date of which was November 27, 1974, amended paragraph (2) of subsection (b) of section 5 of the Home Owners' Loan Act of 1933 to provide that "To such extent as the Board may authorize by regulation or advice in writing, an association • • • may be surety as defined by the Board • • •."

Existing § 563.31 provides that an insured institution shall not acquire any insurance or guaranty of its accounts in addition to the insurance provided by title IV of the National Housing Act. Section 563.31 is revised by the addition of a new paragraph (b) which provides that the foregoing provisions of the section shall not be deemed to be violated by any action by a Federal savings and loan association under the new § 545.24-2 or similar action by insured institutions which are not Federal savings and loan associations.

Accordingly, the Federal Home Loan Bank Board hereby amends said Part 563 by revising § 563.31 thereof, to read as set forth below, effective December 31, 1974.

Since the above amendment relieves restriction, the Board hereby finds that notice and public procedure with respect to said amendment are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b), and since publication of said amendment for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendment would, in the opinion of the Board, likewise be unnecessary for the same reason, the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

§ 563.31 Other insurance or guaranty.

(a) An insured institution shall not acquire any insurance or guaranty of all or any part of the accounts of such insured institution in addition to the insurance provided by Title IV of the National Housing Act. As used in this section the term "accounts" shall have the same meaning as the term "withdrawable or repurchasable shares, investment certificates, or deposits" where used in subsection (a) of section 405 of the National Housing Act.

(b) The foregoing provisions of this section shall not be deemed to be violated by any action by a Federal savings and loan association that is in conformity with § 545.24-2 of this chapter or by any action by an insured institution which is not a Federal savings and loan association that would be in conformity with said § 545.24-2 if such institution were a Federal savings and loan association which was a "deposit association" within the meaning of that term as used in § 545.1-2 of this chapter.

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; (12 U.S.C. 1725, 1726). Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

GRENVILLE L. MILLARD, Jr.,
Assistant Secretary.

CHAPTER VII—NATIONAL CREDIT UNION ADMINISTRATION

PART 700—DEFINITIONS

Risk Asset Category, Exclusion of Share-Secured Loans

On page 36352 of the October 9, 1974, edition of the FEDERAL REGISTER there was published a proposed amendment to Part 700 (12 CFR 700) which would add § 700.1(j)(13) to the rules and regulations of the National Credit Union Administration.

The stated purpose of the amendment in the proposal is to exclude share-secured loans from the risk asset category. As a result of comments received, the word "borrower" is omitted from the amendment adopted as set forth below.

Effective date: December 31, 1974.

HERMAN NICKERSON, Jr.,
Administrator.

DECEMBER 23, 1974.

Section 700.1(j) is amended by adding paragraph (13) as follows:

§ 700.1 Definitions.

• • • • • •

(j) • • •

(13) Loans fully secured by a pledge of shares in the lending Federal credit union, equal to and maintained to at least the amount of the loan outstanding.

• • • • • •

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER A—GENERAL

[No. 74-1296]

PART 500—ORGANIZATION AND CHANNELLING OF FUNCTIONS

PART 501—OPERATIONS

Amendments Relating to Board Organization and Operation

DECEMBER 19, 1974.

The following summary of the amendments adopted by this resolution is provided for the readers convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulations.

I. *Present regulations.* A. Part 500 of the general regulations describes the organization of the Board and the channelling of functions.

B. Part 501 of the general regulations describes the operations of the Board.

II. *Final regulations.* A. Part 500 is updated to reflect changes in Board organization and channelling of functions made during the past year.

B. Part 501 is amended in conformity with the changes to Part 500.

III. *Reason for amendments.* A. The Board is required to update these regulations periodically (5 U.S.C. § 552(a)).

The Federal Home Loan Bank Board considers it advisable to amend §§ 500.2, 500.10, 500.11, 500.13, 500.16, 500.17, 500.18, 500.19, 500.21, 500.22, 500.31 and 500.32 of Part 500 (12 CFR Part 500) and §§ 501.1, 501.10 and 501.11 of Part 501 (12 CFR Part 501) of the general regulations so as to reflect the present organization, channelling of functions and operation of the Board. The Board is required to periodically publish a description of the general course and method by which its functions are channelled and determined in the FEDERAL REGISTER and to keep this description current (see 5 U.S.C. 552(a)).

Section 500.2, which describes the Federal Home Loan Bank System, is amended to make clear that the Federal Home Loan Banks may use consolidated notes which are the joint and several obligations of each Federal Home Loan

Bank in addition to consolidated bonds and debentures.

Section 500.10, which describes the Board, is amended to state that the Board is assisted by a staff which includes ten—rather than eleven—offices. The Office of Audits has been eliminated and its functions transferred to other Board Offices, as discussed below.

Section 500.11, which describes the office of the Secretary, is amended to officially designate the Secretary to the Board as the custodian of the records of the Board and of the Federal Savings and Loan Insurance Corporation, as well as making clear that the Secretary is responsible for certifications.

Section 500.13, which describes the office of Management Systems and Administration (OMSA), is amended by changing the name of the Comptroller's Division within OMSA to the Financial Management Division and by adding a description of the fifth Division of that office. The new Management Systems Division is responsible for financial, operational and management audits, and for other organizational and management development systems as directed by the Chairman. This Division is also responsible for the continuing audit of the operations of the Federal Home Loan Bank System and the Fedral Savings and Loan Insurance Corporation; both of these functions were the responsibility of the former Office of Audits.

Section 500.13 is also amended to make clear that the Personnel Management Division of OMSA is responsible for health insurance, life insurance and retirement benefits.

Section 500.15, which described the Office of Audits, is revoked. This Office was responsible for the continuing audit of the operations of the Board and of the Federal Savings and Loan Insurance Corporation and for an annual examination of each Federal Home Loan Bank. As mentioned above, the continuing audit functions have been transferred to the Management Systems Division of OMSA. Annual examinations of each Federal Home Loan Bank are now conducted by the Director of the Office of Federal Home Loan Banks.

Section 500.16, which describes the Office of Communications, is amended to transfer responsibility for the Management Information Center to this Office.

Section 500.17, which describes the responsibilities of the Board's General Counsel, is amended by adding a description of the organization of the Office of General Counsel.

Section 500.18, which describges the Office of Examinations and Supervision, is amended by adding the Currency and Foreign Transactions Reporting Act (31 U.S.C. 1051 et seq.) to the list of statutes enforced by this Office.

Section 500.19, which describes the Office of Industry Development, is amended by adding remote service unit applications to the list of applications for which this Office is responsible.

Section 500.21, which describes the responsibilities of the Office of Federal Home Loan Banks, is amended by transferring responsibility for annual examinations of each Federal Home Loan Bank from the former Office of Audits to the Office of Federal Home Loan Banks.

Section 500.22, which describes the Office of Housing and Urban Affairs, is amended to state that this Office is responsible for the oversight of the Urban Reinvestment Task Force—an interagency task force established by the Board in conjunction with the Department of Housing and Urban Development for the purpose of preserving and restoring urban residential neighborhoods.

Section 500.31, which lists the forms currently in use, is amended by adding five new forms: (1) No. 999 concerning information with respect to specific types of investment, borrowing and commitments, (2) No. PA: Application for Preliminary Approval for Conversion from Mutual to Stock Form, (3) No. PS: Proxy Statement in connection with Conversion from Mutual to Stock Form, (4) No. OC: Offering Circular in connection with Conversion from Mutual to Stock Form, and (5) No. H–(c)1 concerning notice filings pursuant to § 584.2–1 of the holding company regulations (12 CFR 584.2–1).

Section 500.32, which lists the Board's Offices and describes the manner in which submittals should be made to the Board, is amended to correct the addresses of three of the Federal Home Loan Banks. Section 500.32 is also amended by changing the title of the Chief Examiner in charge of field examiners and other personnel in each of the Federal Home Loan Bank districts to "District Director-Examinations" and by adding the addresses of these District Directors.

The Board also adopted conforming amendments to §§ 501.1, 501.10 and 501.11 of Part 501 in conjunction with the above-described amendments to Part 500.

Accordingly, the Federal Home Loan Bank Board hereby amends §§ 500.2, 500.10, 500.11, 500.13, 500.16, 500.17, 500.18, 500.19, 500.21, 500.22, 500.31 and 500.32 of Part 500 and §§ 501.1, 501.10 and 501.11 of Part 501 of the general regulations to read as set forth below, effective January 2, 1975.

Since the above-described amendments relate to rules of Board organization, procedure or practice, the Board hereby finds that notice and public procedure with respect to said amendments are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendments would in the opinion of the Board be unnecessary for the same reason, the Board hereby provides that said amendments shall become effective as hereinbefore set forth.

1. Section 500.2 is revised as follows:

§ 500.2 The Federal Home Loan Bank System.

The Board supervises the Federal Home Loan Banks created by the Federal Home Loan Bank Act and issues regulations and orders for carrying out the purposes of the provisions of that Act. Savings and loan associations and other institutions specified in section 4 of the Federal Home Loan Bank Act that make long-term home mortgage loans are eligible to become members of a Federal Home Loan Bank. The functions of the Board with respect to the Banks and their members include, but are not limited to, the following: prescribing the conditions upon which a Federal Home Loan Bank is authorized to make advances to its members and to nonmembers borrowers; prescribing rules governing the payment and advertisement of interest or dividends on deposits, shares, or withdrawable accounts that may be paid by Bank members, other than those members the deposits of which are insured in accordance with the provisions of the Federal Deposit Insurance Act; prescribing rules and conditions upon which a Federal Home Loan Bank shall be authorized to borrow, to pay interest upon its borrowings, and to issue obligations; issuing upon such conditions as the Board may prescribe consolidated Federal Home Loan Bank bonds, notes, or debentures which are the joint and several obligations of all Federal Home Loan Bank; requiring examination of each Federal Home Loan Bank at least annually; appointing four directors to the board of directors of each Bank and conducting the election of the remaining directors by the members; approving dividends paid by each Federal Home Loan Bank; and acting on applications for Bank membership.

2. Section 500.10 is revised as follows:

§ 500.10 The Board.

The Board is composed of three members, not more than two of whom are members of the same political party. The members are appointed by the President with the advice and consent of the Senate for four year terms. The Chairman is designated by the President and is the chief executive officer of the Board. Executive and administrative functions of the Board were transferred to the Chairman by Reorganization Plan No. 6 of 1963. The Board is assisted by a staff that includes ten Offices.

§ 500.11 Secretary to the Board.

The Secretary to the Board is responsible for the secretarial functions of the Federal Home Loan Bank Board and the Federal Savings and Loan Insurance Corporation and has custody of the records of the Board of the Corporation. The Secretary to the Board is responsible for the preparation and maintenance of the Minute Record of all official actions of the Board, for the authentication of documents and for certifications. The Office of the Secretary provides general record services for the Board through the Files and Docket Section, which is under the direction and supervision of the Secretary to the Board. The Secretary to the Board is liaison Officer to the Federal Register. The same person may be the Secretary to the Board and

V 39 I 252 DEC 31 1974 XUM

the Director of an Office at the same time.

4. In § 500.13, the introductory paragraph and paragraphs (a), (b), and (c) are revised and paragraph (e) is added as follows:

§ 500.13 Director of the Office of Management Systems and Administration.

The Director of the Office of Management Systems and Administration is the Executive Assistant to the Chairman. The Director is responsible for the supervision and administration of the Office, which is divided into five divisions: The Financial Management Division, the Administration and Methods Division, the Personnel Management Division, the Information Systems Division, and the Management Systems Division.

(a) The Financial Management Division is responsible for the administration and management of the internal financial operations of the Board and the Federal Savings and Loan Insurance Corporation, including budgeting, accounting, the receipt and disbursement of funds, the control, processing, and payment of expenses, and the maintenance of pay and leave records. This Division is also responsible for the preparation of the Board's annual budget submissions to the Office of Management and Budget and to the Congress.

(b) The Administration and Methods Division is responsible for internal management reports and studies, records and forms control, and the maintenance of a manual of procedures. The Board's emergency planning program for the continuity of operations and relocation of the agency in the event of an emergency is also a function of this Division. The Division is responsible for conducting purchase and supply operations, sorting, receiving, and distributing mail, maintenance, transportation, acquiring and allocating space, contract administration and other housekeeping functions for the Board. A printing and reproduction plant is operated by this Division, as authorized by the Congressional Joint Committee on Printing.

(c) The Personnel Management Division is responsible for the development and execution of the personnel management program of the Board. The program includes recruitment, placement and staffing; position classification and wage administration; employee development and training; employee-management relations; health insurance, life insurance, and retirement benefits; and incentive awards. The Director of the Personnel Management Division is also responsible for carrying out the purposes of Executive Order No. 10450, as amended, as Personnel Security Officer of the Board.

* * * * *

(e) The Management Systems Division is responsible for financial, operational and management audits, and for other organizational and management development systems as directed by the Chairman. This Division includes the former Office of Audits which was responsible, inter alia, for the continuing audit of the operations of the Federal Home Loan Bank Board and the Federal Savings and Loan Insurance Corporation.

§ 500.15 [Revoked]

5. Section 500.15 is revoked effective January 2, 1975.

6. Sections 500.16–500.19 are revised as follows:

§ 500.16 Director of the Office of Communications.

The Director of the Office of Communications is responsible for the communication of Board actions and policy to the public and news media and for the preparation of responses to inquiries of a general nature respecting such actions and policy. The Management Information Center is maintained as a part of this Office.

§ 500.17 The General Counsel.

The General Counsel is the chief legal officer of the Board and has, among other functions, those set forth below. He is responsible for the representation of the Board and the Federal Savings and Loan Insurance Corporation in judicial proceedings in which the Board or the Corporation is involved as a party or as amicus curiae and in administrative proceedings under the Federal Home Loan Bank Act, the Home Owners' Loan Act of 1933, and Title IV of the National Housing Act. He is responsible for advising the Board with respect to interpretations involving questions of law, for the preparation of legislation submitted by the Board to Congress, for the preparation of Board comments to Congress upon pending legislation, and for the preparation of regulations. He is also responsible for dealing with general problems arising under the Administrative Procedure Act and for dealing with legal problems arising under applications to the Board and the Federal Savings and Loan Insurance Corporation. The Office of the General Counsel has two Deputy General Counsels and seven Divisions, as follows: The Compliance Division, the General Division, the Legislation Division, the Litigation Division, the Opinions Division, the Regulations Division and the Securities Division.

§ 500.18 Director of the Office of Examinations and Supervision.

The Director of the Office of Examinations and Supervision is responsible for the performance of the responsibilities of the Board and the Federal Savings and Loan Insurance Corporation with respect to the examination and supervision of Federal savings and loan associations under the Home Owners' Loan Act of 1933 and of State-chartered insured institutions, savings and loan holding companies, and subsidiaries of savings and loan holding companies under Title IV of the National Housing Act. The Director is also responsible for advising the Board with respect to matters of policy decision, legislation, and regulation to which his functions of supervision and examination are related. The Director is responsible for the management of the examination process and the development and improvement of examination techniques and for the direction of supervisory and enforcement activities of the staff and agents of the Board and the Federal Savings and Loan Insurance Corporation. This Office supervises the security programs of insured institutions required by the Bank Protection Act of 1968 and the enforcement of the Truth in Lending Act, the Fair Credit Reporting Act and the Currency and Foreign Transactions Reporting Act.

§ 500.19 Director of the Office of Industry Development.

The Director of the Office of Industry Development is responsible for the processing, review, and evaluation of certain applications to the Board and the Federal Savings and Loan Insurance Corporation, except for those instances in which such applications are approved by an agent or officer of the Board pursuant to delegated authority. Applications for which the Director is responsible concern the following matters: permission to organize a Federal savings and loan association; a branch office, limited facility branch office, satellite office, or mobile facility of an existing Federal savings and loan association; insurance of accounts; conversion from Federal to State or from State to Federal charter; membership in the Federal Home Loan Bank System; a merger involving a Federal savings and loan association; voluntary dissolution of a Federal savings and loan association; an increase in accounts of an insurable type through merger, consolidation, or purchase of bulk assets; investment in a service corporation by a Federal savings and loan association; a change in office location; investment in an office building; waiver or modification of a condition for insurance of accounts or issuance of a Federal charter; release of pledged savings accounts or escrowed stock; extension of a lending area; approval of designation of a reserve account as part of the Federal insurance reserve; approval of amendments to charter, bylaws, or security forms; permission to issue subordinated debt securities; remote service unit applications; and other applications for which the Director of this Office may be assigned responsibility. The Director of this Office is also responsible for planning and coordinating new programs to stimulate the development of the savings and loan industry by encouraging financially sound restructuring.

7. Sections 500.21 and 500.22 are revised as follows.

§ 500.21 Director of the Office of the Federal Home Loan Banks.

The Director of the Office of the Federal Home Loan Banks is responsible for reviewing the activities of the Banks and for directing and co-ordinating their operating procedures to ensure conformity with the goals and objectives of the Board. The Director is responsible for establishing standards of accounting, reporting, and financial analysis for the Banks and for providing advice and assistance to the Banks in their operations.

including but not limited to, data processing, planning, and community activity. He is also responsible for advising the Board with respect to policy decisions respecting the Banks and making recommendations concerning such matters as budgets, the elections of officers and counsel, salaries, dividends, and by-law amendments. The Director is also responsible for annual examinations of each Federal Home Loan Bank.

§ 500.22 Director of the Office of Housing and Urban Affairs.

The Director of the Office of Housing and Urban Affairs is responsible for advising the Board on the subject of housing, urban problems, and minority affairs and for recommending policies pertaining thereto. The Office develops and implements programs in low- and moderate-income housing, inner-city housing investment and rehabilitation, preventing discrimination in lending and employment by the savings and loan industry, and assisting minority groups who apply for Federal charters or insurance of accounts. The Office is also responsible for administrative oversight of the Urban Reinvestment Task Force, an interagency task force established by the Board in conjunction with the Department of Housing and Urban Development.

8. In § 500.31, paragraphs (a)(1) and (2) are amended as follows:

§ 500.31 Forms.

(a) The following forms, which are available at the offices of agents of the Board and the Federal Savings and Loan Insurance Corporation at the Federal Home Loan Banks, shall be used for the purposes indicated.

(1) Forms with permanent numbers, excepting Savings and Loan Holding Company forms in the H and HC series:

* * * * *

Form	
999	Call report relative to information concerning specific types of investment, borrowing and commitments.
* * * * *	
PA	Application for preliminary approval for conversion from mutual to stock form (insured institution).
PS	Proxy statement in connection with conversion from mutual to stock form (insured institution).
OC	Offering circular in connection with conversion from mutual to stock form (insured institutions).

(2) Savings and Loan Holding Company forms (described more fully in § 584.10 of this chapter):

Form	
* * * * *	
H-(c)1	Notice filing (pursuant to § 584.2-1).
* * * * *	

9. In § 500.32, paragraphs (a) and (c) are revised and paragraph (b) is amended as follows:

§ 500.32 Offices of the Board; information and submittals.

(a) The headquarters of the Federal Home Loan Bank Board is located at 320 First Street, NW., Washington, D.C. 20552. General information concerning the Federal Home Loan Bank Board, the Federal Home Loan Bank system, the Federal savings and loan system, or the Federal Savings and Loan Insurance Corporation may be obtained in person at that location or by written request addressed to the Secretary to the Federal Home Loan Bank Board, 320 First Street, NW., Washington, D.C. 20552.

(b) Sections 501.10 and 501.11 of the general regulations of the Federal Home Loan Bank Board set forth the purposes for which the President of a Federal Home Loan Bank or officer or employee of a Federal Home Loan Bank when designated by the Board may be agents of the Board and the Federal Savings and Loan Insurance Corporation. General information concerning the Board, the Federal Home Loan Bank System, the Federal savings and loan system, or the Federal Savings and Loan Insurance Corporation may be obtained from agents of the Board and the Federal Savings and Loan Insurance Corporation at the offices of the Federal Home Loan Banks. Submittals to the Board or the Federal Savings and Loan Insurance Corporation should be made to the President of the Federal Home Loan Bank of the district in which the submitting person or institution resides or is located. The Federal Home Loan Banks and their districts are as follows:

* * * * *

(2) Federal Home Loan Bank of New York, 1 World Trade Center, Floor 103, New York, New York 10048. District 2: New Jersey, New York, Puerto Rico, Virgin Islands.

* * * * *

(9) Federal Home Loan Bank of Little Rock, 1350 Tower Building, Little Rock, Arkansas 72201. District 9: Arkansas, Louisiana, Mississippi, New Mexico, Texas.

* * * * *

(11) Federal Home Loan Bank of San Francisco, 600 California Street, San Francisco, California 94120. Los Angeles Branch Office, 615 South Flower Street, Los Angeles, California 90017. District 11: Arizona, California, Nevada.

* * * * *

(c) A District Director—Examinations in charge of a staff of field examiners and office personnel is stationed in each of the Federal Home Loan Bank districts. Under the direction of the Director of the Office of Examinations and Supervision, each District Director-Examinations is responsible for examinations conducted in his district. The addresses of the District Directors-Examinations are as follows:

DISTRICT 1

One Union Street
Boston, Massachusetts 02108

DISTRICT 2

One World Trade Center, Floor 103
New York, New York 10048

DISTRICT 3

11 Stanwix Street, Room 809
Gateway Center
Pittsburgh, Pennsylvania 15222
Area office. Three Parkway, Philadelphia, Pennsylvania 19103.

DISTRICT 4

260 Peachtree Street, NW., 10th Floor
Atlanta, Georgia 30303
Area offices. 1525 South Andrews Avenue, Room 223, Fort Lauderdale, Florida 33316; 8701 Georgia Avenue, Room 400 Silver Spring, Maryland 20910; 4915 Albemarle Road, Charlotte, North Carolina 28205.

DISTRICT 5

2400 Dubois Tower
511 Walnut Street
Cincinnati, Ohio 45202
Area offices. 229 Wells Avenue, NW., Canton, Ohio 44703; 2209 Crestmoor Road, C-2 East Nashville, Tennessee 37215.

DISTRICT 6

2950 Indiana Tower
One Indiana Square
Indianapolis, Indiana 46204

DISTRICT 7

111 East Wacker Drive, Room 700
Chicago, Illinois 60601
Area offices. 527 East Capitol Avenue, Room 410, Springfield, Illinois 62701; 4914 West North Avenue, Room 234, Milwaukee, Wisconsin 53208.

DISTRICT 8

714 Second Avenue, Room 300
Des Moines, Iowa 50309
Area office. 320 Brooks Drive, Suite 240, Hazelwood, Missouri 63042.

DISTRICT 9

1350 Tower Building
Little Rock, Arkansas 72201
Area offices. 1100 Commerce Street, Room 8-B-21, Dallas, Texas 75202; 201 Fannin Street, Room 321, Houston, Texas 77002.

DISTRICT 10

634 Harrison Street
P.O. Box 629
Topeka, Kansas 66601
Area office. Post Office Building, Room 379, 18th and Stout Streets, Denver, Colorado 80202.

DISTRICT 11

600 California Street, Room 310
San Francisco, California 94108
Area office. 615 South Flower Street, Room 700, Los Angeles, California 90017.

DISTRICT 12

600 Stewart Street, Suite 610
Seattle, Washington 98101

* * * * *

10. In § 501.1, paragraphs (d) (1) and (4) are revised as follows:

§ 501.1 Claims of the Board and the Federal Savings and Loan Insurance Corporation.

* * * * *

(d) *Delegation of authority; referred to Board.* (1) The Director of the Financial Management Division is delegated the authority to collect all claims of the Board, and claims of the Federal Savings and Loan Insurance Corporation for insurance premiums and for the cost of examinations and audits, and as to the uncollected balance of any such

claim not in excess of $5,000, exclusive of interest, said Director is delegated the authority to compromise, suspend or terminate collection action, or refer the claim to the General Accounting Office, except that:

(i) The advice of the General Counsel shall be obtained before any action, other than collection action, is taken by the Director under this section, and

(ii) The concurrence of the Director or Deputy Director of the Office of Examinations and Supervision shall be obtained before any action, other than collection action, is taken by the Director under this section concerning claims for the cost of examinations and audits.

* * * * *

(4) Claims of the Board and the Federal Savings and Loan Insurance Corporation, other than claims arising out of, pursuant to or in connection with action taken by said Corporation under section 406(f) of the National Housing Act, as amended (12 U.S.C. 1729(f)), which exceed $5,000, exclusive of interest, and which are determined by the Director, Office of the Federal Savings and Loan Insurance Corporation, the Director of the Financial Management Division, or the General Counsel to be uncollectible in full, shall be referred to the Board with a recommendation as to whether the claim should be compromised, collection action suspended or terminated, or other action taken thereon.

11. Sections 501.10 and 501.11 are revised as follows:

§ 501.10 Officers as agents.

For the following purposes, officers and employees of a Federal Home Loan Bank, when designated by the Board, shall be the agents of the Board and the Federal Savings and Loan Insurance Corporation and the counsel of the Bank shall render to said agents such legal services as may be necessary to enable them properly to carry out such duties:

(a) It shall be the specific duty of said agents to give consideration to applications pertaining to organization of Federal savings and loan associations, conversions and insurance of accounts by the Federal Savings and Loan Insurance Corporation, and holding companies together with such supplemental information as may be available to them, and promptly to make comments and recommendations upon such applications. Said agents shall transmit such applications to the Board, together with their comments and recommendations thereon. Such comments and recommendations shall be signed by the agents favoring same, and any agent disagreeing therewith shall make a separate report which shall be forwarded at the same time. An agent shall forward to applicants advises of actions taken by the Board and the Federal Savings and Loan Insurance Corporation upon applications, and instructions and other communications from the Board and the Federal Savings and Loan Insurance Corporation.

§ 501.11 President as agent.

For the following purposes, the President of each Federal Home Loan Bank shall be the agent of the Board and the Federal Savings and Loan Insurance Corporation and the counsel of the Bank shall render to said agent such legal services as may be necessary to enable him properly to carry out such duties: *Provided, however,* That when designated by the Board, some officer or employee of the Bank other than, or in addition to, the President, may act as agent of the Board and the Federal Savings and Loan Insurance Corporation. Said agent shall represent the Board and the Federal Savings and Loan Insurance Corporation in supervising Federal savings and loan associations and other institutions in the Bank's district which are insured by the Federal Savings and Loan Insurance Corporation. When, in his opinion, such action should be taken, he shall advise and endeavor to assist Federal savings and loan associations and other insured institutions in his Bank district to conduct their operations in conformity with the statutes and the rules and regulations governing them. He shall confer and negotiate, pursuant to instructions from the Board and the Federal Savings and Loan Insurance Corporation, with applicants and with officers, directors, members or creditors of applicant institutions, individually or in group meetings, and otherwise as the Board and the Federal Savings and Loan Insurance Corporation may request in writing. He shall see that all Federal savings and loan associations and other insured institutions in his Bank district submit to him for his consideration such matters as applications for Board approval of amendments to charters or bylaws, petitions for Board permission to establish branch offices, applications for Board approval of the purchase of assets or of consolidations, dissolutions, or mergers, and such other similar matters as are required to be approved by the Board or the Federal Savings and Loan Insurance Corporation under the statutes and rules and regulations. When these matters come to the attention of said agent he shall, after giving them due consideration, submit them, together with such supplemental information as may be available to him, to the Board with his recommendations thereon. After the issuance by the Board of a charter for a Federal savings and loan association, said agent shall follow up the corporate actions taken by the association in the completion of its organization, and shall require the association to comply with the laws, the rules and regulations made thereunder, and such other requirements as may be applicable thereto. Upon receiving from the District Director—Examinations two copies of a report of a supervisory examination of a Federal savings and loan association or other insured institution, together with the District Director's analysis thereof, said agent shall make a careful study of such report and analysis, and shall transmit to the institution examined its copy of the report of the examination, and, if necessary, a supervisory letter on stationery provided by the Board and the Federal Savings and Loan Insurance Corporation for such purposes. Said agent shall forward promptly to the Board copies of all transmittal and other supervisory letters, and reports of supervisory conferences or meetings with officers or directors of Federal savings and loan associations and other insured institutions. The Board will consider the documents so forwarded and will advise the said agent concerning such matters as may appear to be appropriate. Any instructions or recommendations from the Board to the said agent with respect to his duties as agent of the Board and the Federal Savings and Loan Insurance Corporation shall be acted upon promptly.

(Sec. 17, 47 Stat. 736, as amended; (12 U.S.C. 1437); Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

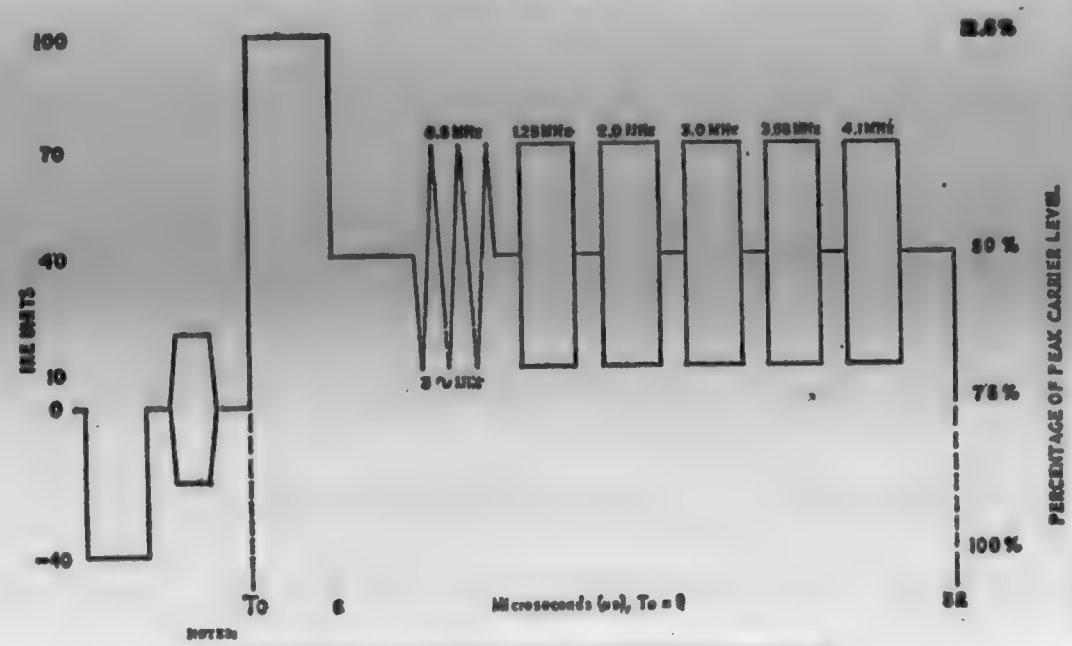
Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19907 RM-2193]

PART 73—RADIO BROADCAST SERVICES

Airdrome Control Stations; Correction

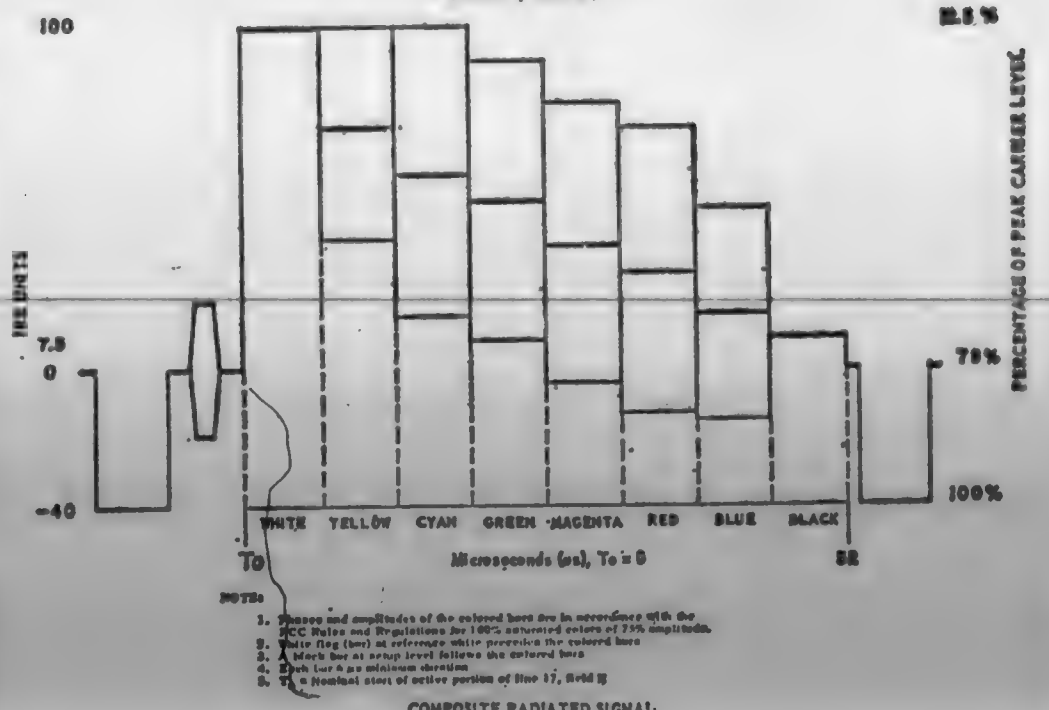


In the Matter of amendment of §§ 73.682(a)(21), 73.676(f)(1) and 73.699 of Part 73 of the Commission's Rules and regulations regarding special signals within the vertical blanking interval of the video television broadcast signal.

In the Appendix to the above-entitled Report and Order, FCC 74-1234, released November 12, 1974, and published at 39 FR 40954, Figures 13, 14, and 15 to § 73.699 *Engineering Charts* were inadvertently omitted and are herewith set forth as follows:

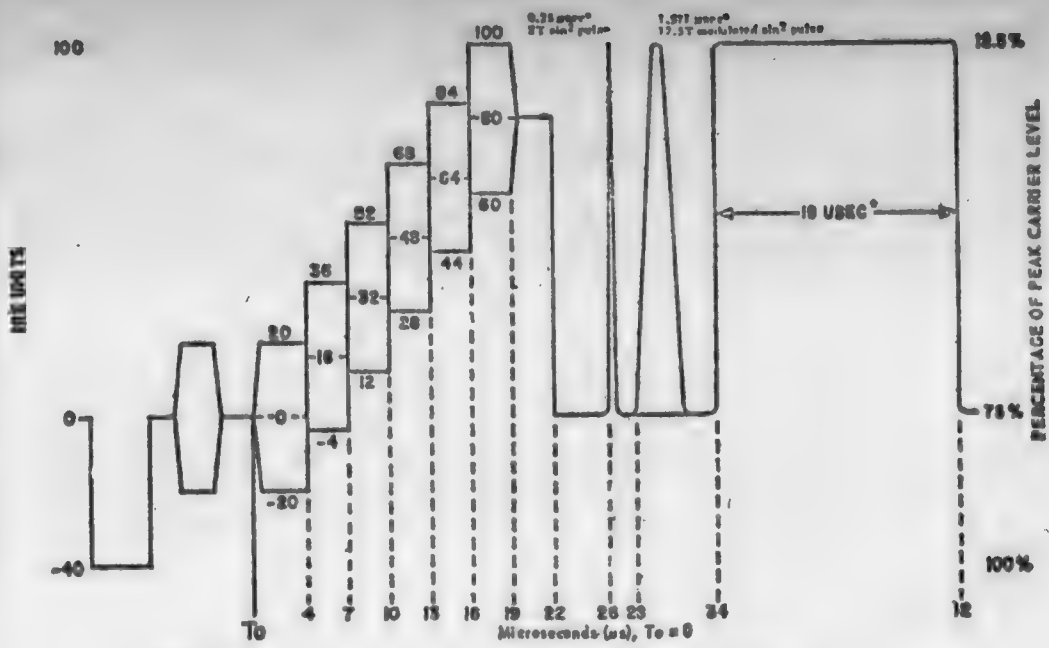
Released: December 18, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.



MULTIBURST TEST SIGNAL
(FIELD 1, LINE 17)

NOTES:
1. A breezeway, as shown between bursts, is recommended. Each burst = 50 IRE units, peak to peak
2. To = Nominal start of active portion of line 17, field 1
3. Rise and fall of white bar shall have duration of not less than 0.2 μs



Section 73.699 Figure 13

COLOR BAR TEST SIGNAL
(FIELD 2, LINE 17)

NOTES:
1. Phases and amplitudes of the colored bars are in accordance with the FCC Rules and Regulations for 100% saturated colors of 75% amplitude.
2. White flag (bar) at reference white precedes the colored bars
3. A black bar at setup level follows the colored bars
4. Each bar is for a minimum duration
5. To = Nominal start of active portion of line 17, field 2

COMPOSITE RADIATED SIGNAL
(FIELD 1, LINE 18)

NOTES:
1. Sub-carrier of staircase in phase with burst
2. Rise and decay of all luminance signals not less than 0.2 usec. Rise and decay of envelope of sub-carrier component of staircase signal shall be approx. sin² shaped and duration .375 μsec.
3. To = Nominal start of active portion of line 18

*half amplitude duration

Section 73.699 Figure 15

[Docket No. 19997; FCC 74-1402]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations, Table of Assignments

1. The Commission here considers the Notice of Proposed Rule Making in this proceeding, adopted March 28, 1974 (FCC 74-310; 39 F.R. 13007) concerning the assignment and use of noncommercial educational FM channels in portions of Arizona, California, New Mexico, Texas, and adjacent areas. Comments were filed by the New Mexico Governor's Advisory Committee on Educational Broadcasting (New Mexico); the Intercollegiate Broadcasting System (Intercollegiate) on behalf of approximately 450 radio stations; Association of Public Radio Stations (APRS) representing 107 educational radio stations; and Corporation for Public Broadcasting (CPB).[1]

2. In order to eliminate harmful interference between the FM broadcasting stations of the respective countries, the United Mexican States and the United States entered into the United States-Mexico FM Broadcasting Agreement, effective August 9, 1973, concerning the allotment and use of FM broadcast channels along the common border (Agreement). The Agreement provides a scheme of mileage separations as between classes of channels.[2] Inasmuch as Mexico makes full use of the FM spectrum (88 to 108 MHz) for commercial use, it was necessary to include within the Allotment Plan (Annex II of the Agreement) channels which in the United States are reserved for noncommercial educational use (Channels 201-220).

3. We instituted this rule making in order to assure that educational channels in the 199-mile (320 kilometers) border area covered by the Agreement would be fully protected and there would be the same flexibility of use as permitted for commercial FM channels. Except for Channels 218, 219, and 220 which are variously adjacent to commercial Channels 221, 222, and 223, interference for educational channels is determined on a contour basis under § 1.573 of our rules and regulations. To accomplish our objectives, we proposed further amendment of § 73.507[3] and, when this was accomplished, to also make appropriate editorial changes in §§ 1.573, 73.207, and 73.504.

4. The comments of APRS, CPB, and Intercollegiate are primarily directed at the proposed paragraph (c) of § 73.507. Preliminarily, we wish to make it clear this proceeding was and is not intended as taking up the general question of mileage separations for educational FM which was raised by the notice of inquiry in Docket No. 14185 (5 F.C.C. 2d 587 (1966)) or the issues posed by CPB's petition (RM-1974). Insofar as we indicated a concern about mileage separations outside the border area, our purpose here was limited solely to conforming to the agreement.

5. We now turn to the comments. CPB recognizes that under the agreement mileage separation within the border area is required. However, because it feels that interference criteria is superior there should be a clarification of the extent to which the mileage separation would apply "outside the border area". Thus, it asks for a clearer definition of the extent to which the mileage separations are to apply outside the border area. The remainder of the CPB's comments to a large extent reviews its petition for rule making (RM-1974).

6. Intercollegiate would rewrite paragraph (c) of § 73.507. Firstly, it would delete the reference to mileage separation outside the border area. Additionally, as concerns the dismissal of any application which does not conform to the mileage separations it would add a proviso so that an application short-spaced to a Mexican allocation might be accepted if there is an engineering showing that on a contour basis interference to a Mexican allocation would be no greater than under the mileage separation. It additionally proposes editorial changes in that paragraph and some rewording in paragraph (b).

7. APRS says that the agreement is a welcome and positive step and has the potential of being helpful to noncommercial educational stations in the entire country. As concerns paragraph (c) of § 73.507, APRS feels that it is highly desirable to deal on a mileage separation basis both with respect to educational FM radio stations within and without the border area. Thus, APRS strongly supports the Commission's effort to grant mileage separation to all noncommercial stations throughout the country.[4] New Mexico's is merely a resolution by the Governor's Advisory Committee approving the rules proposed by our notice which it feels would provide flexibility to maximize the number of educational FM assignments in the State of New Mexico.

8. Intercollegiate also requests that § 73.507 include reference to the Mexican Table of Allocations to ease an applicant's task and to prevent an unnecessary burden on the Commission staff in the form of defective applications. We see no point to this suggestion. With the changes to the Rules and Regulations made here and earlier as concerns the Agreement, there are sufficient references to put a prospective applicant for an educational noncommercial station in the border area on notice of the applicability of the Agreement. To the extent that additional data is necessary a simple inquiry by an interested party to the Commission will elicit the desired information as to allotments and allocations in Mexico so that one may fully determine whether a prospective application is in conflict with the agreement. This accords with the general practice followed by the Commission as to international agreements.

9. As CPB surmises, there is no intention in this proceeding to use the agreement as a means to impose fixed mileage separations for noncommercial FM broadcast stations in the entire United States. What we contemplated was that the mileage separations would equally apply to stations located in the United States adjacent to the border area with respect to protection for channel assignments and stations within the border area. The objections to this appear to proceed on the assumption that contour interference limitation allows greater spacing between stations than mileage separation. As concerns spacing between D to D stations, the spacing under the mileage separation method is less for co-channel, first adjacent, and second adjacent interference. As compared to mileage separation under the Agreement, the estimated mileages on an interference contour basis (at full heights and powers) for D to D is as follows:

	Contour	Mileage
Cochannel	11.5	11
1st adjacent	9.5	6
2d adjacent	4	3
3d adjacent	2.4	3

Similarly, for second and third adjacent channel separations the mileage separation is lesser than a contour interference separation as concerns A to A, A to C, B to C, and C to C stations. Also as concerns B to B separations, the mileage separation for second adjacent channel is lesser. There is little variance—less than five percent—in many other instances.[5] However, it would be simpler to rely on the fixed mileage separation method rather than be subject to the vagaries of the contour interference method. Consequently, for the area adjacent to the border area, we are adopting the mileage separations of the Agreement to protect channel assignments and stations in the border area.

10. Intercollegiate's suggested proviso must be rejected as in conflict with the general terms of the agreement. In other respects, we have no objection to the language change recommendations suggested by Intercollegiate and, in fact, are amending Paragraphs (b) and (c) of § 73.507 to conform to that party's

[1] CPB is a private non-profit corporation established in 1968 to implement the objective of the Public Broadcasting Act of 1967 (47 U.S.C. 396 et seq.).

[2] To the extent that the same classes are involved, the mileage separations are identical with those set forth in Part 78, Subpart B, of our Rules and Regulations as concerns the assignment and use of commercial channels (221-300) in the United States. As to Class D to D separations, see para. 9 of the text.

[3] This section had been added to our rules to list the Class A, B, and C noncommercial channels in the border area under the Agreement.

[4] Somewhat inconsistently APRS says: "Mileage separation will not, of course, make the most efficient use of the spectrum and we would urge that the Commission immediately consider the use of interference criteria with protection as it develops a noncommercial table of assignments."

[5] Co-channel—A to A, A to B, A to C, and C to C; first adjacent channel—A to B, A to C, and C to C; second adjacent—A to B and C to D; and third adjacent—C to D.

views. The parenthetical clause in paragraph (c) is modelled on language in § 73.504(e).

11. Accordingly, under the authority found in §§ 4(i), and 303(g) and (r) of the Communications Act of 1934, as amended, §§ 1.573, 73.207(a), 73.504(g), and 73.507, the Commission's Rules and Regulations are amended as set forth below effective January 31, 1975.* It is further ordered, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1068, 1082; (47 U.S.C. 154, 303))

Adopted: December 17, 1974.

Released: December 23, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

1. In § 1.573, Note 1 is amended to read as follows:

§ 1.573 Processing of FM and noncommercial educational FM broadcast applications.

• • • • • •

NOTE 1: *Noncommercial educational stations.* Except where § 73.507(c) of this chapter is applicable, and pending further consideration of issues in Docket No. 14185 (dealing with the revision of the FM Broadcast Rules and Regulations), an application for a noncommercial educational FM broadcast authorization will be subject to the following, notwithstanding any other provision of the FM Broadcast Rules or this section:

• • • • •

3. • • •

(c) *Additional requirements for noncommercial educational stations under the United States-Mexico FM Broadcasting Agreement.* For the area within 199 miles of the common border between the United Mexican States and the United States, one may only apply for Class A, B, and C channels listed in and subject to the conditions set out in § 73.507 of this chapter or a Class D channel. Additionally, an application for a noncommercial educational channel will not be accepted if there is a failure to meet the minimum mileage separations to Mexican assignments or authorizations set forth in the Notes to §§ 73.207(a) and 73.504(g) of this chapter.

2. In § 73.207(a), the following is added at the end of the Note:

§ 73.207 Minimum mileage separations between co-channel and adjacent channel stations on commercial channels.

(a) • • •

NOTE: • • •

These mileage separations also apply to noncommercial educational authorizations in the border area and in the United States adjacent to the border area in order to afford protection to allotments and authorizations in the border area.

3. In § 73.504(g), the Note is amended by adding the following at the end.

§ 73.504 Zones, classes of stations, use of channels, facilities, and minimum mileage separations between stations.

• • • • • •

(g) • • •

NOTE: • • •

This Note applies to noncommercial educational assignments and authorizations in the border area and for stations in the United States adjacent to assignments and stations in the border area.

4. Amend § 73.507 by adding (b), (c), and (d) to read as follows:

§ 73.507 Noncommercial educational channel assignments under the United States-Mexico FM Broadcasting Agreement.

• • • • • •

(b) Anyone applying for other than a Class D noncommercial educational FM station in the border area of Arizona, California, New Mexico, or Texas must apply for a channel set forth in the table in Paragraph (a) for use either at the listed community or an unlisted community under the same conditions set forth in § 73.203(b) of this chapter.

(c) The minimum mileage separations set forth in § 73.207 of this chapter and the Note thereto shall apply to (i) a petition for rule making to amend the table set forth in Paragraph (a) and (ii) an application for any class of noncommercial educational FM channel (new station, or change in channel or transmitter site or increase in facilities of an existing station) within the border area referred to in Paragraph (a). Any petition to amend which so conflicts will be dismissed. Any application which does not so conform will not be accepted for filing. No authorization for a noncommercial educational station will be granted for a station in the United States in the area adjacent to the border area which does not meet the minimum mileage separations set forth in § 73.207 to any noncommercial educational allotment or authorization in the border area.

(d) § 73.208 of this chapter will be complied with as to the determination of reference points and distance computations in considering petitions to amend the table set forth in Paragraph (a) and for applications for new or changed facilities. However, if it is necessary to consider a Mexican channel assignment or authorization, the computation of distance will be determined as follows: if a transmitter site has been established, on the basis of the coordinates of the site; if a transmitter site has not been established, on the basis of the reference coordinates of the community, town, or city.

[FR Doc.74-30419 Filed 12-30-74;8:45 am]

[Docket No. 20121 FCC 74-1401]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations, Table of Assignments

In the Matter of Amendment of § 73.202(b), table of assignments, FM Broadcast Stations. (Fairfield, La.; Mayville, N.D.; Eldon, Mo.; Crete, Nebr.; Hurricane, W. Va.; Patterson, N.Y.; Sauk Centre, Minn.; Appomattox, Va.; Warren, Ark.; Gatesville, Tex.; Batesville, Ind.; and Otsego, Michigan). RM-2252, RM-2339, RM-2301, RM-2352, RM-2309, RM-2355, RM-2310, RM-2366, RM-2311, RM-2367, RM-2321, RM-2373, RM-2445.

1. The Commission has before it the Notice of Proposed Rule Making adopted July 24, 1974 (39 FR 28444), inviting comments on a number of changes in the FM Table of Assignments (§ 73.202(b) of the Rules). The communities, channel assignments, and petitioning parties are as follows:

RM-2252. Channel 240A to Fairfield, Iowa (Carousel Broadcasting Corporation).
RM-2301. Channel 269A to Mayville, North Dakota (KMAV, Inc.).
RM-2309. Channel 224A to Eldon, Missouri (Dalton C. Wright).
RM-2310. Channel 280A to Crete, Nebraska (Airwaves Broadcast Service, Inc.).
RM-2311. Channel 292A to Hurricane, West Virginia (Putnam Broadcasting Company, Inc.).
RM-2321. Channel 288A to Patterson, New York (Carmel Broadcasting, Inc.).
RM-2339. Channel 232A to Sauk Centre, Minnesota (Dairyland Broadcasters, Inc.).
RM-2352. Channel 296A to Appomattox, Virginia (Theodore J. Gray, Jr.).
RM-2355. Channel 288A to Warren, Arkansas (Pines Broadcasting Company).
RM-2366. Channel 252A to Gatesville, Texas[1] (George W. McClarin).
RM-2367. Channel 276A to Batesville, Indiana (Batesville Broadcasting Company).
RM-2373. Channel 265A to Otsego, Michigan[1] (Robert V. and Dorothy K. Doll).

2. In each of the above cases, the petitioner seeks the assignment of a first Class A FM channel without requiring any changes in the FM Table of Assignments. The petitioning party for each of the proposed assignments filed supporting statements or comments and reiterated its intent to apply for the channel, if assigned, and to build a station if authorized. All populations are taken from the 1970 U.S. Census. All proposals were unopposed except that concerning Batesville, Indiana (RM-2367) to which a counterproposal was filed by Mid-America Radio (Mid-America), licensee of FM broadcast station WXTZ, Indianapolis, Indiana (RM-2455), and that concerning Patterson, New York (RM-2321) to which comments were filed which appear to be in opposition to the proposed assignment to Patterson, New York. In view of the problems raised by the counterproposal, the Batesville proposal will be considered in another document to be issued at a later date. The Patterson proposal is discussed below.

*To the extent that the amendment to §§ 1.573, 73.207, and 73.504, concern procedure or are editorial in nature, there was no need to give notice of such changes under the Administrative Procedure Act (5 U.S.C. 553(b)(A) and (B)); the Notice, in any event, indicated that such changes were contemplated.

[1] In order to meet the minimum spacing requirements of our rules, a site at least 4 miles southeast of Gatesville, Texas, would be required; and a site at least 5 miles northwest of Otsego, Michigan, would be required.

3. Patterson (population 4,124) is situated in Putnam County (population 56,896) in the southeastern part of New York State. It has no local broadcast facilities. The only radio service originating in Putnam County is that of a daytime-only AM station (WPUT), licensed to the village of Brewster, eight miles to the south of Patterson. The petitioner, Carmel Broadcasting, Inc., supports the proposed assignment of Channel 288A to Patterson, New York. The channel could be assigned there in conformance with the Commission's minimum mileage separation rule.

4. Supporting comments were also filed by Putnam Broadcasting Corporation, licensee of daytime-only Station WPUT, Brewster, New York, who states that it will apply for the channel if assigned to Patterson. In its comments, WBEC, Incorporated (WBEC), licensee of FM Station WQRB, operating on Channel 288A at Pittsfield, Massachusetts, states that, by letter dated May 21, 1974, the Commission was advised of its intention to file an application to improve the facilities of its FM station. The improvement would involve a move to a new transmitter site and operation with maximum allowable facilities. This would result in a slight short-spacing problem with the Patterson assignment. In our Notice we stated that, although WBEC indicated its intention to improve its service coverage, we did not believe it would be in the public interest to withhold action pending receipt of an application. The WBEC application (BPH-9163) was filed on September 9, 1974.

5. It appears that WBEC's new transmitter site would be located some two miles south of its present site. Although the distance separation from Station WQRB is one of the limiting factors in the proposed assignment to Patterson, the proposed change in the WBEC site would not eliminate the area in which the station would have to be located. There is an area located approximately one mile south of Patterson where it could be utilized, complying with the technical requirements of the rules. Thus, there is no reason to withhold the proposed channel assignment to Patterson, New York.

6. In arriving at our decision herein, we have given consideration to all comments, supporting statements, and other pleadings. In the Notice we set out economic and other information pertaining to the need for a first FM assignment in each of the communities. That information is accepted as being substantially correct except for Hurricane, West Virginia (RM-2311). In our Notice we stated that Hurricane is not located in or near any large urbanized area and is located directly between the Charleston and the Huntington-Ashland Standard Metropolitan Statistical Areas. Although not in opposition, Steere Broadcasting Corporation, licensee of AM Station WXIT, Charleston, West Virginia, in its comments, claims that in 1973 the U.S. Office of Management and Budget changed the Charleston SMSA to add Putnam County in which Hurricane is located. It asserts that, as a result of this, both Arbitron and Pulse now define the Charleston SMSA to include all of Putnam County, and it is currently incorrect to state that Hurricane is not located in or near any large urbanized community or that it is located beyond the Charleston SMSA. All of these communities range in size from 1,400 population for Appomattox, Virginia, to 8,715, Fairfield, Iowa (1970 Census), that daytime-only stations operate at Fairfield, Iowa; Mayville, North Dakota; Hurricane, West Virginia; Appomattox, Virginia; Warren, Arkansas; and Otsego, Michigan; and that there are no local broadcast facilities at Eldon, Missouri; Crete, Nebraska; Patterson, New York; Sauk Centre, Minnesota; and Gatesville, Texas. Each of the communities appears to warrant the proposed assignment. We are of the view that adoption of each proposal would serve the public interest.

7. The Canadian Government has given its concurrence to the assignment of Channel 269A to Mayville, North Dakota; Channel 288A to Patterson, New York; Channel 265A to Otsego, Michigan; Channel 292A to Hurricane, West Virginia; and Channel 232A to Sauk Centre, Minnesota.

8. Authority for the adoption of the amendment contained herein appears in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

9. In view of the foregoing, *it is ordered*, That effective January 31, 1975, § 73.202(b) of the Commission's Rules and Regulations, the FM Table of Assignments is amended to read as follows:

City and State:	Channel No.
Warren, Ark	288A
Fairfield, Iowa	240A
Otsego, Mich	265A
Sauk Centre, Minn	232A
Eldon, Mo	224A
Crete, Nebr	280A
Patterson, N.Y	288A
Mayville, N. Dak	269A
Gatesville, Tex	252A
Appomattox, Va	296A
Hurricane, W. Va	292A

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: December 17, 1974.

Released: December 23, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-30420 Filed 12-30-74;8:45 am]

[Docket No. 19523; RM-487; FCC 74-1368]

PART 89—PUBLIC SAFETY RADIO SERVICES

Relaxation of Frequency Assignments

In the matter of Amendment of §§ 89.525(f) (15) and (16) of the Commission's rules to relax frequency assignment limitations applicable to certain 45 and 155 MHz frequencies in the special emergency radio service.

1. On June 16, 1972, the Commission released a notice of proposed rule making for relaxation or modification of geographic separation and inter-service coordination requirements on certain frequencies assignable in the Special Emergency Radio Service (SERS). The notice was published in the FEDERAL REGISTER on June 23, 1972, (37 FR 12408).

2. Comments were filed by Mountain Rescue Association; Colorado Search and Rescue Board; National Ski Patrol; California State Communications Division; Associated Public Safety Communication Officers, Inc., (APCO); Northern California Chapter of Associated Public Safety Communications Officers, Inc., (NCAPCO), Contra Costa County Police Chiefs Associates; International Municipal Signal Association (IMSA); State of Utah; State of California; Governors Advisory Committee for Emergency Medical Care; and Motorola. Reply comments were filed by APCO.

3. Each of the comments has been carefully considered. However, a number concern issues which are beyond the scope of this proceeding. These include requests for designation of exclusive frequencies for rescue operations, a proposal that the SERS be divided into separate emergency and public service divisions, and proposals that paging operations be removed from voice channels. Most of these issues were addressed in other rule making proceedings.[1]

4. Changes proposed in this proceeding include amendment of § 89.525(f)(15)[2] which provides that the assignments of certain SERS frequencies in the 45 and 155 MHz bands[3] must be coordinated with licensees within 75 miles of the proposed operations who are authorized to use frequencies removed by 30 kHz or less from the frequencies requested. Presently applicants for these frequencies are required to obtain concurrence from all affected licensees, other than SERS licensees, or obtain an engineering report which shows that harmful interference

[1] The report and order in Docket 19680 adopted July 3, 1974 (39 FR 137) deals with such issues as frequency allocations for emergency medical operations, the removal of paging operations from voice channels and the establishment of a medical service category in the Special Emergency Radio Service.

[2] This is commonly referred to as "Limitation 15."

[3] These frequencies are 45.92, 45.96, 46.00, 46.04, 155.160, 155.220, 155.280, 155.940, and 155.400 MHz.

to the existing stations will not result. We proposed in the Notice that these coordination requirements be deleted.[4]

5. The proposal to eliminate Limitation 15 was generally accepted by those commenting. We feel the protection provided by this limitation is no longer justified in view of the fact that conversion to narrow band equipment, which allows simultaneous operations within a close geographical area on frequencies separated by 20 or 30 kHz, has long been accomplished. Therefore, Limitation 15 will be deleted as proposed.

6. The other changes proposed in this proceeding are modifications of § 89.525 (f) (16)[5], which now provides that eight SERS frequencies in the 155 MHz band[6] are available on a developmental basis only and must be coordinated with licensees in the public safety services within 75 miles of the proposed operation who are authorized to use frequencies removed by 15 kHz from the frequencies requested. Presently, applicants for these frequencies must obtain concurrence from all affected licensees, other than SERS licensees, or obtain an engineering report which shows that harmful interference to the existing stations will not result. In any event, these eight frequencies cannot at present be assigned within 40 miles of a police base station operating on a frequency 15 kHz removed. We proposed in the Notice to delete the developmental restriction, to reduce the area within which coordination is required from 75 to 35 miles, and to lower the minimum distance between the SERS station and a police base station from 40 to 10 miles. Additionally, we proposed that coordination be accomplished through licensee notification and an engineering report based on a field study of probable interference. Concurrence from affected licensees would no longer be required.

7. Our proposal to reduce the area in which coordination is required was opposed by a number of parties on the basis that there would be little or no protection from adjacent channel interference. However, these proposed mileage limits have been applied in the other radio services for some time and we see no reason why they cannot be applied in this instance. Other objections focused on the proposed methods of coordination, i.e., licensee notification and a field study. Several parties requested coordination by committee. In the Notice, however, we considered the problems of coordinating committees in this service and denied requests of this nature. While we recognize the possible expense and inconvenience to applicants involved in field studies and licensee notification, in our view there are no feasible alternatives to these requirements until such time as the Commission has the resources to perform frequency assignment tasks.

8. Accordingly, SERS applicants for the specified frequencies will be required to submit a report based on a field study indicating the degree of probable interference to licensees in Police and Local Government Radio Services operating on frequencies 15 kHz removed and located from 10 to 35 miles from the proposed SERS base station. Also, the applicant must certify that he has notified all such affected licensees of the filing of his application. Under the new rule it will not be necessary for the applicant to obtain concurrence from the affected licensees. Objections will be considered for a reasonable time during the processing of the application—in any event, for at least 30 days. If necessary, the Commission may require the applicant to submit additional data before determining whether a license should be granted.

9. Applicants may obtain the names and addresses of licensees required to be notified from our frequency assignment lists maintained in the Field Offices of the Commission and in the Commission's main office in Washington, D.C., or from the local police coordinating committee (APCO).

10. In view of the foregoing it appears that the public interest will be served by adopting the rule amendments set forth in the Appendix. Accordingly, *It is ordered*, That, pursuant to authority contained in Sections 4(i) and 303(r) and (f) of the Communications Act of 1934, as amended, Part 89 of the Commission's Rules and Regulations is amended effective January 31, 1975. It is further ordered, That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; (47 U.S.C. 154, 303).

Adopted: December 17, 1974.

Released: December 23, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

1. In § 89.525, paragraph (e), the table is amended; paragraph (f) (15) is reserved, and paragraph (f) (16) is amended to read as follows:

§ 89.525 Frequencies available to the Special Emergency Radio Services.

* * * * * * *

(e) * * *

Frequency or band (megahertz)	Class of station(s)	Limitations
45.02	Base and mobile

(f) * * *

* * * * * * *

(15) [Reserved]

(16) Any application for use of this frequency shall be accompanied by a signed statement that all licensees in other radio services who operate on a frequency 15 kHz removed and are located 10 to 35 miles from the proposed base station have been notified of the applicant's intent to file, together with an acceptable engineering report indicating that harmful interference to the operation of existing stations will not be caused. In no instance will an application be granted where the distance between the proposed station and existing base stations is less than 10 miles.

[FCC 74-1407; Docket 19853; RM-2217]

PART 91—INDUSTRIAL RADIO SERVICES

Microwave Common Carrier Eligibility

In the matter of amendment of § 91.751 of the Commission's rules to make microwave common carriers eligible in the telephone maintenance radio service.

1. On October 29, 1973, the Commission released a notice of proposed rule making for modification of eligibility requirements in the Telephone Maintenance Radio Service (TMRS) in response to a petition for rule making filed by Data Transmission Company (Datran). The notice was published in the FEDERAL REGISTER on November 2, 1973. (38 FR 30282).

2. Comments were filed by N-Triple-C, Inc.; American Telephone and Telegraph Company (AT&T); Microwave Communications, Inc., and MCI Telecommunications Corporation (MCI); National Association of Radio-telephone Systems (NARS); Western Tele-Communications, Inc. (WTCI); Eastern Microwave, Inc.; Tel-Illinois; Michigan Telephone Industry Radio Frequency Coordinating

[4] Since SERS frequencies 155.160 and 155.400 MHz are only 15 kHz removed from police and local government channels and therefore interference protection is still necessary, the Notice proposed that they be subject to the coordination requirements in Rule Section 89.525(f) (16).

[5] This is commonly referred to as "Limitation 16."

[6] These frequencies are 155.175, 155.205, 155.235, 155.265, 155.295, 155.325, 155.355 and 155.385.

XUM V 39 NO 252 DEC 31 1974 XUM V

Committee; United Video, Inc.; Oklahoma Telephone Association; Data Transmission Company (Datran); U.S. Independent Telephone Association (USITA); and GTE Service Corporation (GTE). Reply comments were filed by the National Association of Business and Educational Radio, Inc. (NABER); NARS; Datran; and AT&T.

3. This proceeding concerns the proposed broadening of eligibility for licensing in the Telephone Maintenance Radio Service (TMRS). Under § 91.751, eligibility in the TMRS presently is limited to:

> Communications Common Carriers primarily engaged in rendering a wire-line or wire-line and radio communications service to the public for hire.

This eligibility provision excludes, among others, radiocommunications common carriers authorized in the Point-to-Point Microwave Radio Service under Part 21 of this Chapter (hereinafter "microwave common carriers"). In the Notice it was proposed that microwave common carriers be permitted to use the Telephone Maintenance channels.

4. Comments as to the proposed amendment filed by Datran, MCI, WTCI, Eastern Microwave, Inc., United Video, and NABER urged full eligibility for the microwave communications common carriers. AT&T, GTE, the Oklahoma Telephone Association, and Michigan Telephone Industry Radio Frequency Coordinating Committee, on the other hand, totally opposed permitting the specialized carriers to use TMRS frequencies. The United States Independent Telephone Association suggested a number of alternatives to outright broadening of TMRS eligibility—granting waivers to the microwave carriers on a case-by-case basis, permitting use of the frequencies by the specialized carriers on a secondary basis, or permitting the microwave common carriers to use TMRS frequencies only in connection with their microwave operations. NARS and Tel-Illinois supported expanded eligibility in the TMRS and urged that it be extended to include radiocommunications common carriers authorized in the Domestic Public Land Mobile Radio Service under Part 21 of this Chapter (hereinafter land mobile radio common carriers".

5. However, in this latter respect, as we stated in the Notice, the purpose of this action is to "explore possible amendment of the rules to include the specialized common carriers," and eligibility of land mobile radio common carriers to use TMRS frequencies is beyond the scope of the proceeding. Moreover, land mobile radio common carriers systems by their nature do not have the same maintenance requirements of point-to-point microwave carriers whose systems are much more extensive. Also, land mobile radio common carriers employing two-way radio can use their own systems for maintenance purposes. See § 21.511 of the Commission's rules. In any event, we are dealing with a very limited number of frequencies in the TMRS and their usefulness in maintenance operations of common carrier facilities would be greatly diminished were too many additional users to gain access to the service. Therefore, we believe that a choice has to be made and we have concluded that the addition of any users other than the microwave carriers would be detrimental to the overall usefulness of the service. Accordingly, we are denying the request of the land mobile radio common carriers that they be made eligible in TMRS.

6. There seems little question that the microwave communications common carriers need radio frequencies with which to conduct their maintenance operations. Datran's contention is that to provide for effective maintenance and repair of its microwave radio facilities, use of two-way radio is essential but can no longer be satisfied on Business Radio Service frequencies because of congestion. Even some parties opposed to expanded eligibility in the TMRS recognized that there is a need for additional base-mobile/mobile frequencies for reliable maintenance of microwave communications facilities. Essentially, however, those opposed to use of TMRS frequencies maintain that the needs of the existing wire-line carrier users cannot continue to be met if eligibility is broadened in the service, particularly if the eligibility is extended to the frequencies that are exclusively allocated for base-mobile telephone maintenance communications activities.[1]

7. The argument that undue congestion would occur on the exclusive TMRS frequencies should eligibility be broadened has been examined. The Commission's files disclose that these frequencies are indeed heavily used, especially around major metropolitan areas. Further, the past pattern of growth in demand for these frequencies indicates that the present users would have an expanding need for these frequencies. Use of the other TMRS frequencies, on the other hand, is relatively light.

8. In view of the extensive utilization of the exclusive TMRS frequencies, it does not appear feasible to add an eligibility category that likely would promote additional congestion. We do, however, recognize the need of the microwave communications common carriers for high-reliability land-mobile communications services. Therefore, we have determined that revision of the eligibility provisions of the Telephone Maintenance Radio Service to permit microwave communications common carriers to use the non-exclusive TMRS frequencies is appro-

[1] TMRS has numerous frequencies; however, only a pair of frequencies in the 30–50, one in the 150–160 MHz, and six pairs in the 450 MHz band are reserved exclusively for base and mobile operations in this service. These exclusive frequencies are 35.16, 43.16, 151.985, 153.34, 451.300, 451.325, 451.350, 451.400, 451.450, 451.500, 456.300, 456.325, 456.350, 456.400, 456.450, 456.500, MHz. Other frequencies are subject to such limitations as sharing with other users, coordination with users in other services, developmental restrictions, limitation to operational-fixed use, etc.

priate.[1] We realize that the microwave carriers requested access to all the TMRS frequencies. Based on its hopes for access to exclusive TMRS frequencies, Datran, in its comments, envisioned utilizing a "universal frequency" for its maintenance operations. Such a "universal frequency" is not now available and would not be even were the microwave carriers allowed access to the exclusive TMRS frequencies because present usage precludes it. However, even taking into consideration the limitations on the availability and use of a number of the frequencies for which the microwave common carriers will be eligible, we feel that these frequencies should be adequate to serve their immediate requirements.

9. In consideration of the foregoing, amendments proposed in the Notice are adopted, as shown in the attached appendix, to expand microwave in the TMRS to include the microwave communications common carriers, but limiting that eligibility to all non-exclusive frequencies. Modification of the assignment provisions on available frequencies are included to reflect this new eligibility and applicable limitations.

10. Accordingly, *It is ordered*, that pursuant to authority contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, Part 91 of the Commission's rules and regulations is amended effective January 31, 1975. *It is further ordered*, That this proceeding is hereby terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: December 18, 1974.

Released: December 23, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Part 91 of the Commission's rules is amended as follows:

1. Paragraph (a) of § 19.751 is amended as follows:

§ 91.751 Eligibility.

* * * * *

(a) Communications common carriers primarily engaged in rendering a wire-line, wire-line and radiocommunications service, to the public for hire, and radiocommunications common carriers authorized in the Point-to-Point Microwave Radio Service under Part 21 of this Chapter.

* * * * * *

2. In § 91.754, the table in paragraph (a) and (b)(11) is amended, and (b)(19) is added to read as follows:

§ 91.754 Frequencies available.

(a) * * *

35.16	Base or mobile	19
43.16	Mobile	4, 19
151.985	Base or mobile	19
152.24	Mobile	4, 19
451.300	do	13, 19
451.325	do	13, 19
451.350	do	13, 19
451.400	do	13, 19
451.450	do	13, 19
451.500	do	13, 19
456.300	do	4, 14, 15, 19
456.325	do	4, 14, 15, 19
456.350	do	4, 14, 15, 19
456.400	do	4, 14, 15, 19
456.450	do	4, 14, 15, 19
456.500	do	4, 14, 15, 19

* * * * * *

(b) * * *

(11) This frequency is available on a shared basis in the Power, Petroleum, Forest Products, Manufacturers, and Telephone Maintenance Radio Services. Except for assignments made to non-wire-line radiocommunications common carriers authorized in the Point-to-Point Microwave Radio Service under Part 21, it may be assigned only when all of the base and mobile frequencies in the 450-470 MHz band for which the applicant is primarily eligible are assigned within 35 miles of the proposed base station. Applications for this frequency must be coordinated with all five services.

* * * * * *

(19) This frequency may be assigned only to a communications common carrier primarily engaged in rendering a wire-line or wire-line and radio communications service to the public for hire.

[FR Doc.74-30423 Filed 12-30-74;8:45 am]

[1] Non-exclusive TMRS frequencies, i.e., those shared with other land-mobile radio services, for land mobile use are in the 27 MHz, 451/456 MHz, and 460/465 MHz, and 470/512 MHz bands.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

ESTABLISHMENT OF NEW PARTS AFFECTING OIL IMPORTS

The Federal Energy Administration (FEA) hereby revises and redesignates its regulations affecting oil imports in order to conform to certain changes in the delegation of the President's authority under the Mandatory Oil Import Program.

Under the authority of the Federal Energy Administration Act of 1974, Pub. L. 93–275, and Executive Order 11790, 39 FR 23185, the functions of the Secretary of the Interior, with respect to the Oil Import Regulations promulgated pursuant to Proclamation No. 3279, as amended, were transferred to the Administrator of the Federal Energy Administration. Accordingly, Oil Import Regulations 1 (Rev. 5) and 2, and the Oil Import Appeals Board Rules and Procedures authorized by the Secretary, are hereby revised to eliminate references to the Secretary and the Department of the Interior, and to substitute therefor references reflecting the transfer of functions. In addition, in order to consolidate the regulations in the same title with others administered by FEA, the Oil Import Regulations and the Oil Import Appeals Board Rules and Procedures as respectively from Chapters X and XI of Title 32A of the Code of Federal Regulations, are hereby redesignated as Chapter II of Title 10. Chapters X and XI are hereby revoked.

This revision and redesignation includes all amendments made to Oil Import Regulation 1 (Rev. 5) through Amendment 60.

A new Part 213, "Oil Import Regulations," is hereby established for the purpose of transferring the revised former Oil Import Regulation 1. In addition, a new Part 206, "Administrative Procedures for Oil Imports," is hereby established and the revised Oil Import Regulation 2 and Oil Import Appeals Board Rules and Procedures are hereby redesignated as subparts A and B, respectively. However, FEA intends to extend its existing procedures in Part 205 to cover all matters before it, and in the near future will publish a proposed rule integrating the procedures of subpart A of Part 206 into the procedures of Part 205. In addition, FEA is considering changes in subpart B of Part 206 that would have the same effect.

Executive Order 11790 abolished the Oil Policy Committee and transferred the functions of its Chairman to the Administrator of FEA. The Oil Import Appeals Board, pursuant to Proclamation No. 3279, as amended, was subject to the "general direction" of the Chairman. Accordingly, the Oil Import Appeals Board Guidelines promulgated by the Chairman, are hereby revised and redesignated as an Appendix to Part 206. Chapter XII is hereby revoked.

EPO Regulation 1, 32A CFR Ch. XIII, except for sections 2 and 5, was revoked in 39 FR 2605. In view of the expiration of the Economic Stabilization Act, these two remaining sections are now revoked.

Finally § 205.1 of Chapter II of Title 10 is amended to clarify the relationship of Parts 205 and 206 with respect to FEA administrative procedures.

The following table shows the designations of these regulations prior to this revision, and their redesignations reflected in Title 10.

Old chapter number in title 32A	*New parts in title 10*
Ch. X, O. I. Reg. 1 (Rev. 5)	Part 213.
Ch. X, O. I. Reg. 2	Subpart A of Pt. 206.
Ch. XI	Subpart B of Pt. 206.
Ch. XII	Appendix, Pt. 206.
Ch. XIII	Revoked.

Since this revision and redesignation does not make any substantive change in the existing regulations apart from implementing changes in delegation, it is not necessary to provide notice of proposed rulemaking, opportunity for public participation, or any delay in effective date under either section 7(1) of the Federal Energy Administration Act of 1974 or 5 U.S.C. 553. In any event, because there are no changes other than those required by Congressional and Presidential action, good cause exists for making this revision and redesignation effective immediately.

[Federal Energy Administration Act of 1974, Pub. L. 93–275; E.O. 11790, 39 FR 23185; Trade Expansion Act of 1962, Pub. L. 87–794; Proc. No. 3279, 24 FR 1781, as amended, 38 FR 9645, 38 FR 16196, 39 FR 35103; Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159]

In consideration of the foregoing, Part 205 of Chapter II of Title 10 of the Code of Federal Regulations is amended; Parts 206 and 213 of Chapter II of Title 10 of the Code of Federal Regulations are hereby established; and Chapters X–XIII of Title 32A of the Code of Federal Regulations is revoked, as set forth below, effective immediately.

Issued in Washington, D.C., December 30, 1974.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

1. Chapters X, XI, XII, and XIII of Title 32A are revoked.

2. Section 205.1 is amended in paragraph (a) to read as follows:

§ 205.1 Purpose and scope.

(a) This part establishes the procedures to be utilized and identifies the sanctions that are available in proceedings before the Federal Energy Administration and State Offices, in accordance with Parts 210, 211, 212, and 215 of this chapter. Proceedings in accordance with Part 213 are excluded.

* * * * *

3. Part 206 is established to read as follows:

PART 206—ADMINISTRATIVE PROCEDURES FOR OIL IMPORTS

Subpart A—Procedures for the Suspension or Revocation of Any Import Allocation or License

Sec.
206.1 Purpose.

PROCEEDINGS PRIOR TO HEARING

206.2 Notice of hearing or opportunity for hearing.
206.3 Answer to notice.
206.4 Request for hearing.

Appendix—Oil Import Appeals Board Guidelines

AUTHORITY: Federal Energy Administration Act of 1974, Pub. L. 93–275; E. O. 11790, 39 FR 23185; Trade Expansion Act of 1962, Pub. L. 87–794; Proc. No. 3279, 24 FR 1781, 10133, 38 FR 16195; O. I. Reg. 1 (Rev. 5), 38 FR [illegible].

Subpart A—Administrative Procedures for Oil Imports

§ 206.1 Purpose.

Section 213.25 of this Part 213 provides for a formal proceeding looking to the suspension or revocation of any allocation or license to import crude oil, unfinished oils, or finished products issued under that regulation on grounds relating to the national security, or for violation of the terms of Proclamation 3279, Part 213, or allocations and licenses issued pursuant thereto. This Part 206 comprises rules of procedure for such proceedings. The definitions set forth in § 213.27 of Part 213 apply also to this Part 206.

PROCEEDINGS PRIOR TO HEARING

§ 206.2 Notice of hearing or opportunity for hearing.

A proceeding is initiated by mailing to an allocation holder a notice of hearing fixing a date therefor or a notice of an opportunity for a hearing. Such a notice advises him of the action proposed to be taken, the specific provision of Part 213 under which the proposed action is to be taken, and the matters of fact or law asserted as the basis of the action.

§ 206.3 Answer to notice

The allocation holder may file an answer to the notice within 20 days after service thereof. The answer shall admit or deny specifically and in detail each allegation of the notice, unless the allocation holder is without knowledge, in which case his answer should so state, and the statement will be deemed a denial. Allegations of fact in the notice not denied or controverted by answer shall be deemed admitted. Matters alleged as affirmative defenses shall be separately stated and numbered. Failure of the allocation holder to file an answer within the 20-day period following service of the notice may be deemed a confession of all matters of fact recited in the notice.

§ 206.4 Request for hearing.

Within 20 days after service of a notice of opportunity for hearing which does not fix a date for hearing, the respondent, either in his answer or in a separate document, may request a hearing.

§ 206.5 Failure to request a hearing; failure both to request a hearing and to answer.

The failure of the allocation holder to request a hearing shall be deemed a waiver of hearing and consent to submission of the case to the presiding officer for decision on the written record. The failure of an allocation holder to file an answer and to request a hearing shall be deemed a waiver of all right to participate in the proceeding and to constitute his consent to the making of a decision on the basis of such information as is available.

PRESIDING OFFICER

§ 206.6 Who presides.

Either a hearing examiner or the Director will be the presiding officer in each proceeding.

§ 206.7 Authority of presiding officer.

The presiding officer may:

(a) Arrange and issue notice of the date, time, and place of hearings, or, upon due notice to the parties, change the date, time, or place of hearings previously set;

(b) Hold conferences to settle, simplify, or fix the issues in a proceeding or to consider other matters that may aid in the expeditious disposition of the proceeding;

(c) Require parties to state their position with respect to the various issues in the proceeding;

(d) Administer oaths and affirmations;

(e) Rule on motions, including motions to intervene, and other procedural matters;

(f) Regulate the course of the hearing and the conduct of persons therein;

(g) Examine witnesses and direct witnesses to testify;

(h) Receive, rule on, exclude or limit evidence;

(i) Fix the time for filing motions, briefs, or other matters; and

(j) Take any action authorized by this regulation.

HEARING PROCEDURES

§ 206.8 Testimony and cross-examination.

Testimony at a hearing shall be given under oath or affirmation. The presiding officer may require or permit that the direct testimony of any witness be prepared in writing and be submitted in advance of the hearing. Such testimony may be adopted by the witness at the hearing and filed as part of the record thereof. Unless authorized by the presiding officer, a witness will not be permitted to read prepared testimony into the record. A witness may be cross-examined on any matter material to the proceeding without regard to the scope of his direct examination.

§ 206.9 Exhibits.

Each exhibit should have a brief title endorsed upon it or attached to it stating what it purports to show. Exhibits comprising statistical compilations and calculations should show the sources of the information used and the statistical methods employed.

§ 206.10 Affidavits.

An affidavit is not inadmissable as such. Unless the presiding officer fixes another time, affidavits shall be filed not later than 15 days prior to the hearing.

§ 206.11 Depositions.

The presiding officer may authorize the testimony of any witness to be taken by deposition.

§ 206.12 Admissions as to facts and documents.

Not later than 15 days prior to the scheduled date of the hearing, any party may serve upon an opposing party a written request for the admission of the genuineness and authenticity of any relevant documents described in and exhibited with the request, or for the admission of the truth of any relevant matters of fact stated in the request. Each of the matters in respect of which an admission is requested shall be deemed admitted, unless, within a period designated in the request (not less than 10 days after service thereof) or within such further time as the presiding officer may allow upon motion and notice, the party to whom the request is directed serves upon the requesting party a sworn statement either denying specifically the matters in respect of which an admission is requested or setting forth in detail the reasons why he cannot truthfully either admit or deny such matters. Copies of requests for admission and answers thereto shall be served on all parties. Any admission made by a party to such request is only for the purposes of the pending proceeding or any proceeding or action instituted for the enforcement of any order entered in the pending proceeding and shall not constitute an admission by him for any other purpose or be used against him in any other proceeding or action.

§ 206.13 Evidence.

Technical rules of evidence shall not apply to a hearing, but the presiding officer shall seek to obtain the production of the most credible evidence available and may exclude irrelevant, immaterial, or repetitious evidence. Objections to evidence shall be timely and briefly state the ground relied upon.

§ 206.14 Offer of proof.

If the presiding officer sustains an objection to the admission of evidence, the party affected may submit for the record as an offer of proof a summary written statement of the substance of the excluded evidence, and the objecting party may make an offer of proof in rebuttal.

§ 206.15 Briefs; proposed findings and conclusions.

At the conclusion of a hearing, the presiding officer shall fix the time for filing briefs, which may contain proposed findings of fact and conclusions of law, and if reply briefs are permitted, he shall fix the time for filing such briefs.

THE RECORD

§ 206.16 Official transcript.

A transcript shall be made of the oral evidence given in a hearing. Transcripts of testimony in hearings will be supplied by the official reporter to the parties and to the public at rates not to exceed the maximum rates fixed by contract between the Federal Energy Administration and the reporter. Upon notice to all parties, the presiding officer may authorize corrections to the transcript which involve matters of substance.

§ 206.17 Record for decision; record to be public.

The transcript of testimony, exhibits, and all papers and requests filed in the proceedings, shall constitute the exclusive record for decision and may be inspected and copied.

DECISIONS

§ 206.18 Decisions by the Director.

(a) The Director, having afforded the parties a reasonable time to submit briefs or other written statements of their contentions, shall make a decision in each proceeding in which he is the presiding officer or in which a recommended decision is made by a hearing examiner.

(b) In an instance in which a hearing examiner has made an initial decision, the Director may, within 30 days after the issuance of the initial decision, require that the record be certified to him for review. Upon such review, the Director, having afforded the parties a reasonable time to submit briefs or other written statements of their contentions, may affirm, modify, or set aside the decision of the hearing examiner.

(c) A decision of the Director may be appealed to the Oil Import Appeals Board in accordance with the rules and procedures of that Board (subpart B of this Part).

§ 206.19 Decisions by hearing examiner.

In an instance in which a hearing examiner is the presiding officer, the examiner, having afforded the parties a reasonable time to submit briefs or other written statements of their contentions, shall make either an initial decision or a recommended decision, as directed by the Director. Unless the Director requires that the record be certified to him for review pursuant to paragraph (b) of section 206.17, an initial decision of the hearing examiner shall constitute the final decision of the Director and may be appealed to the Oil Import Appeals Board.

GENERAL PROVISIONS

§ 206.20 Service—how made.

Service shall be made by personal delivery of one copy to each person to be served or by mailing by first-class mail, properly addressed with postage prepaid. When a party has appeared by attorney or other representative, service upon such attorney or representative will be deemed service upon the party.

§ 206.21 Date of service.

The date of service shall be the day when the matter is deposited in the U.S. mail or is delivered in person.

§ 206.22 Certificate of service.

The original of every document filed and required to be served upon parties to a proceeding shall be endorsed with a certificate of service signed by the party making service or by his attorney or representatives, stating that such service has been made, the date of service, and the manner of service, whether by mail or personal delivery.

§ 206.23 Service on all parties.

A hearing examiner and the Director shall file and serve on all parties copies of any notices that he may issue and copies of any correspondence that he may have with a party. Each party shall serve on all other parties copies of all documents (such as pleadings, motions, briefs) which the party files with the hearing examiner or the Director.

§ 206.24 Extension of time or postponement.

A request for extension of time should be made to a hearing examiner or the Director with respect to matters pending before him. Such a request shall be served on all parties and set forth the reasons for the request. Extensions may be granted upon a showing of good cause by the applicant. From the designation of a hearing examiner as presiding officer until the issuance of his decision, such requests should be addressed to him.

§ 206.25 Computation of time.

In computing any period of time under the rules in this part, the period begins with the day following the act or event and includes the last day of the period unless it is a Saturday, Sunday, or Federal legal holiday, in which event the period runs until the end of the next day which is not a Saturday, Sunday, or Federal legal holiday. When the period of time prescribed or allowed is less than 7 days, intermediate Saturdays, Sundays, and Federal legal holidays shall be excluded from the computation.

§ 206.26 Parties.

An allocation holder to whom a notice of hearing or a notice of an opportunity for hearing has been mailed shall be a party to the proceeding, as shall the Director, Oil Imports. A party may appear in person or by counsel in any proceeding. Individuals may appear in a representative capacity as provided in the regulations on Administrative Procedures and Sanctions of the Federal Energy Administration in 10 CFR Part 205.

§ 206.27 Suspension of rules.

Upon notice to all parties, the Director or a hearing examiner may, with respect to matters pending before him, modify or waive any provision of this regulation if he determines that no party will be unduly prejudiced and the ends of justice will thereby be served.

Subpart B—Oil Import Appeals Board Rules and Procedures

§ 206.31 Purpose.

These rules govern the procedures on petitions to the Oil Import Appeals Board, hereinafter referred to as the "Board." They shall be construed to secure the just, speedy, and inexpensive determination of every proceeding.

§ 206.32 Establishment of Board.

Pursuant to section 4 of Presidential Proclamation 3279, dated March 10, 1959 (24 FR 1781), as amended, hereinafter referred to as the "Proclamation," the Board was established by section 21 of former Oil Import Regulation 1 (24 FR 1907), as revised and amended, now § 213.26 of this Chapter. Oil Import Regulation 1 is hereinafter referred to as the "Regulation." The Board is comprised of a representative each from the Federal Energy Administration, and the Departments of Justice and Commerce, designated respectively by the heads of such agencies. The Federal Energy Administration member serves as chairman.

§ 206.33 Authority of the Board.

(a) The Board, subject to the general direction of the Administrator of the Federal Energy Administration, shall consider petitions by persons affected by Part 213 that fall within the limits of the jurisdiction specified in this paragraph and without regard to the limits of the maximum levels of imports established in section 2 of Proclamation 3279, as amended, may:

(1) Reverse or modify on grounds of error actions taken by the Director, Oil Imports, on applications for allocations of imports under Part 213 of this Chapter;

(2) Modify, on the grounds of exceptional hardship, any allocation made to any person under Part 213 of this Chapter;

(3) Grant allocations of imports of crude oil and unfinished oils in special circumstances to persons with importing histories who do not qualify for allocations under Part 213 of this Chapter;

(4) Grant allocations of imports of finished products on grounds of exceptional hardship;

(5) Grant allocations of imports of crude oil, unfinished oils and finished products to independent refiners or established independent marketers who are experiencing exceptional hardship, or in emergencies in order to assure, insofar as practicable, that adequate supplies are available;

(6) Review the revocation or suspension of any allocation or license;

(7) Review the denial by the Director, Oil Imports, of refunds of license fees, whether in whole or in part, theretofore paid by a person; and

(8) Grant refunds, in whole or in part, of license fees paid by persons to whom licenses were issued for imports which they subsequently became entitled to make under allocations made by the Board.

(b) Only petitions relating to matters covered by paragraph (a) of this section may be considered by the Board. Petitions requesting a change or disregard of the proclamation or Part 213 of this Chapter may not be considered.

(c) Except with respect to its function to review applications for allocations of imports to which license fees are applicable, licenses issued pursuant to Board allocations shall be fee exempt.

(d) The Board may adopt, promulgate, and publish such rules and procedures as it deems appropriate for the conduct of its business.

(e) The Board may take such actions on petitions as it deems appropriate and its decisions shall constitute final action.

§ 206.34 Representation before the Board.

Subject to the provisions contained in Part 205 of Title 10, Code of Federal

Regulations, a petitioner may appear in person, by counsel or other qualified representative, and participate fully in any proceeding before the Board held pursuant to these rules.

Petitioner's representative must file his full name, address, and telephone number with the Board. Should petitioner change his representative, it is petitioner's duty to so inform the Board.

§ 206.35 Types of petitions; time and place to file.

(a) Several types of petitions may be filed with the Board requesting it to take action within its jurisdiction as set out in § 206.33 or other related provision of these regulations or in Part 213 of this Chapter.

(b) Petitions and related documents shall be addressed to the Oil Import Appeals Board and filed with the Board (address: Oil Import Appeals Board, Federal Energy Administration, 4015 Wilson Boulevard, Arlington, Va. 22203 (telephone number 703 557-9220)).

(c) A petition requesting review of any action taken by the Director, Oil Imports, must be filed with the Board not later than 30 calendar days after the action has taken place. The Board, at its discretion, may extend the time limit in which to file upon a showing of good cause.

§ 206.36 Content of petition.

(a) A petition must be in writing, signed by the petitioner or his duly authorized representative or attorney, clearly marked as "petition," and filed in six copies. Each petition shall be organized under six headings, as follows:

(1) The relief sought by the petitioner, expressed in barrels per day (b/d) and in total barrels (bbls.) during the applicable allocation period;

(2) The pertinent provisions of Part 213 of this chapter under which the Board has authority to grant such relief;

(3) The decision of the Director, Office of Oil Imports involved in the petition, if any;

(4) The relevant facts in support of the petition;

(5) The arguments in support of the petition;

(6) Responses to the guidelines published by the Administrator of the Federal Energy Administration as an Appendix to this Part for the Board's use in evaluating petitions. The responses must be under the heading of each of the published guidelines and provide sufficient information to enable the Board to evaluate the petition under each.

(b) Each petition shall be accompanied by the pertinent data—finished product or crude and unfinished oils—with the information sought set out under the headings of the pertinent format as set forth in either § 206.37(a) or § 206.37(b).

§ 206.37 Data required by the Board to accompany petitions.

(a) In order to process petitions for finished product import allocations the Board requires the data and information as set forth below. Submit six completed copies of this material, identifying each item by the number and precise heading appearing herein. Make attachments, if necessary. Quantity figures should be stated in terms of gallons and in terms of barrels, unless questions herein are specified otherwise.

(1) Full name of petitioner, address of principal office and name and telephone number of company official responsible for the petition.

(2) Company ownership. If petitioner is not a sole proprietorship, list all companies, individuals or stockholders possessing 10 percent or more of company ownership or stock.

(3) The relief requested (expressed in barrels per day and total barrels), the particular commodity requested, and the specific period for which relief is requested.

(4) All domestic subsidiaries and affiliates, if any, in which petitioner holds an interest of 15 percent or more.

(5) Market area, specifying Districts, in which petitioner, its subsidiaries or affiliates operate.

(6) All brand names which petitioner, its subsidiaries or affiliates use in marketing products.

(7) State whether petitioner, its subsidiaries or affiliates sell products to (a) motorists, (b) home owners, (c) industrial and other commercial accounts, (d) governmental agencies, (e) farmers, and (f) to independent marketers for resale without brand names or under brand names different from the brand name(s) used by petitioner, its subsidiaries or affiliates.

(8) State for each of the last 3 years petitioner's gross sales separately by product for the particular product(s) which are the subject of the petition, and, where such sales are made, specify figures for: (a) gasoline, (b) No. 2 fuel oil, (c) residual fuel oil, (d) other products or services (Estimate where appropriate). Also state your gross sales to date and estimates for the balance of the current allocation period.

Calendar year	Quantity			Dollars
	Gallons	Barrels	Barrels per day (average)	

With respect to (a) gasoline and (b) No. 2 fuel oil, state the approximate percentages of those gross sales which were made to the various types of customers described in item 7 above.

(9) List your actual and/or prospective suppliers for the current allocation period of the product(s) for which you seek an import allocation. Indicate the quantities already obtained as well as offered or expected during the allocation period and the delivered price:

Supplier	Quantity			Delivered price per gallon
	Gallons	Barrels	Barrels per day (average)	

State which of the above supplies are subject to (a) long-term contracts (6 months or longer), (b) short-term or ever-green contracts, and (c) spot purchases.

(10) List your past suppliers of the product(s) for which you seek import allocations in each of the last 3 years, the quantity supplied, and delivered price:

Calendar year	Supplier	Quantity supplied			Delivered price per gallon
		Gallons	Barrels	Barrels per day	

State which of the above supplies were subject to (a) long-term contracts (6 months or longer), (b) short-term or ever-green contracts, and (c) spot purchases. If past suppliers terminated any supply contracts or allocated deliveries for the current year, state the name(s) of such supplier(s), the circumstances of contract termination, and the actual amount by which deliveries were or will be reduced.

(11) State, showing docket number, all previous filings by the petitioner with the Board in the present and 3 preceding years, all Board awards received as a result of these filings, and the amounts imported, exchanged, or otherwise obtained by the authority of such awards. Unused awards should be explained.

(12) List all suppliers contacted for the product(s) for which you seek import allocations for the current allocation period who did not offer any product or offered it at noncompetitive prices:

Supplier	Quantity offered		Delivered price per gallon
	Gallons	Barrels	

Provide the Board with any adequate responses from your suppliers which are or may be in violation of any government sponsored allocation program.

(13) State your average selling price for the product(s) for which you seek import allocations, in each of the last 3 years and in the current year:

Calendar year	Product(s)	Average price per gallon

(14) State your operating costs (per gallon) for the product(s) for which you seek import allocations, in each of the last 3 years, and an estimate of such costs for the current year. Give a detailed breakdown of such costs:

Calendar year	Product(s)	Operating costs

(15) State your inventory of the product(s) for which you seek import allo-

XUM V 39 N 252 DEC 31 1974 XUM V

cations, on the last day of December of each of the last 3 years:

Calendar year	Product(s)	Inventory	
		Gallons	Barrels

(16) List and describe storage facilities, transportation equipment, and any other equipment or installations relevant to the petroleum industry owned or controlled by your company, its subsidiaries or affiliates. State whether products are supplied to you by tanker, barge, pipeline, railroad, or motorized equipment.

(17) If your company, its subsidiaries or affiliates supply retail outlets or service stations which they own or lease, or which sell products under a trade name owned or controlled by your company, its subsidiaries or affiliates, state the average number of such retail outlets and service stations supplied during each of the last 3 years and in the current year.

(18) State, in dollars, for each of the last 3 years, the after-tax profit or loss record of your company, its subsidiaries and affiliates, and an estimate of such profit or loss for the current year. Indicate whether these figures cover calendar of business years. Separate, if possible, profits or losses on product(s) for which you seek import allocations and profits or losses on other products and services. (Estimate, if necessary). With respect to total profits or losses, state what percentages of total sales and service revenues they represent:

Year	Profit or loss on product(s) for which you seek import allocations	Profit or loss on other products and services	Total profit or loss	Percent of total revenues from sales and services

(19) State for each of the last 3 years on the basis of the respective balance sheets or profit-and-loss statements of your company, its subsidiaries and affiliates:

(i) Net worth or stockholders equity;

(ii) The amount of retained earnings;

(iii) Ratio of current assets to current liabilities;

(iv) Long-term debts;

(v) State the cost of petitioner's investment, if any, during the current and last allocation periods, in new or substantially improved petroleum related facilities, together with a brief description of such facilities;

(vi) If petitioner is a corporation, the amounts paid out in dividends.

(20) Name the principal competitors of your company, its subsidiaries and affiliates, in the business of marketing petroleum products. (Depending on size of petitioner's operations, not more than five to ten competitors should be named.)

(21) The undersigned certifies that the above data and information are true and complete to the best of his knowledge and belief _____ (signature).

(b) In order to process petitions for *crude and unfinished oils* import allocations the Board requires the data and information as set forth below. Submit six completed copies of this material, identifying each item by number and precise heading appearing herein. Make attachments if necessary. Quantity figures should be stated in terms of barrels per day and in terms of total barrels per year, unless questions herein are specified otherwise.

(1) Full name of petitioner, address of principal office and name and telephone number of company official responsible for petition.

(2) Company ownership. If petitioner is not a sole proprietorship, list all companies, individuals or stockholders possessing 10 percent or more of company ownership or stock.

(3) The relief requested (expressed in barrels per day and total barrels), and whether the request is for offshore or Canadian crude oil, or for unfinished oils, or both, and the specific period for which relief is requested.

(4) All domestic subsidiaries and affiliates, if any, in which petitioner holds an interest of 15 percent or more.

(5) Location and rated capacity of each domestic refinery owned or controlled by petitioner.

(6) Average daily inputs of each refinery listed in item 5 above: (a) of crude oil and (b) of other raw materials, in each month of the last 3 calendar years, and in each elapsed month of the current allocation period.

(7) From data given in response to item 6 above, calculate and set out the combined daily average inputs of all refineries listed (a) of crude oil and (b) of other raw materials, during each of the last 3 calendar years.

(8) The volumes of (a) crude oil import allocations and (b) finished products import allocations received by the petitioner in the current year and in each of the 3 preceding years from the Office of Oil and Gas, the Oil Import Administration, or the Director, Oil Imports, as the case may be, and the amounts imported, exchanged or otherwise obtained by the authority of such awards. Unused awards should be explained.

(9) State, showing docket number, all previous filings by petitioner with the Board in the present and 3 preceding years, all Board awards received as a result of these filings, and the amounts imported, exchanged or otherwise obtained by the authority of such awards. Unused awards should be explained.

(10) The approximate product yields (as percentage of total production) at each refinery listed in item 5 above during the current allocation period and the two preceding years.

(11) The number of retail outlets which distributed products under a trade name owned or controlled by your company and the total quantity of gasoline you supplied to them during each elapsed quarter of (a) the current allocation period and (b) last year.

(12) The percentages of your total production of (a) gasoline, (b) No. 2 fuel oil, and (c) residual fuel oil which you sold to independent marketers during each quarter of the last calendar year. With respect to each of said product categories indicate what portions of such sales involved exchanges for finished product import licenses that had been issued to independent marketers.

(13) The quantities of (a) gasoline, (b) No. 2 fuel oil, (c) residual fuel oil, and (d) other products which you sold to, or exchanged for crude oil with, any other petroleum refining company during the last calendar year.

(14) Specify the domestic and foreign sources (indicating company names) of crude oil supplies and other refinery feedstocks obtained by the petitioner and the quantities received from each, in each of the last 3 years, separated into quantities received pursuant to: (a) Long-term contracts (6 months or longer); (b) Short-term or evergreen contracts; or (c) Spot purchases. Indicate which of these quantities involved the utilization of import licenses issued to the petitioner.

Year	Source of supply	Quantity		Type of [illegible]
		Barrels	Barrels per calendar day	

(15) For each quarter of the last calendar year, list the average effective cost per barrel of petitioner's crude oil or other raw material supplies delivered to the refinery.

(16) List your actual and/or prospective suppliers for the current allocation period of crude oil and other refinery feedstocks. Indicate the quantities already obtained as well as offered or expected during the current allocation period:

Supplier	Quantity		Delivered price per barrel
	Barrels	Barrels per calendar day	

State which of the above supplies are subject to (a) Long-term contracts (6 months or longer); (b) Short-term or evergreen contracts (c) Spot purchases. To the extent that purchases already have been consummated or contract prices have been fixed, indicate the average effective cost per barrel of such crude oil supplies delivered to the refinery. Indicate also which of the supplies listed in response to this question involve the utilization of import licenses issued to petitioner.

(17) State whether petitioner is a participant in the government royalty oil program and what quantities have been or are expected to be received during the current allocation period.

(18) List all suppliers contacted for the product(s) for which you seek import allocations for the current allocation period who did not offer any product or offered it at noncompetitive prices.

Supplier	Quantity		Offered delivered price per barrel
	Barrels	Barrels per calendar day	

Provide the Board with any inadequate responses from your suppliers which are or may be in violation of any government sponsored allocation program.

(19) A brief description of ownership participation of petitioner in crude pipelines (including gathering systems), in finished product pipelines, and in inland water transportation equipment.

(20) Type and capacity of crude oil storage facilities at each refinery listed in item 5 above at the time of filing of the petition, and a brief description of mode of crude oil delivery to such facilities (pipeline, tanker, barge, railroad, etc.).

(21) Crude oil inventory at each refinery listed in item 5 above at the time of filing of the petition.

(22) Submit the following financial information. State whether the data cover calendar or business years, and whether figures are calculated before or after Federal Income Tax. Publicly held corporations should submit copies of the latest annual stockholders' report.

(i) What proportion, in terms of dollars, of petitioner's total income is derived from its petroleum business, specifying the amount of income from:

(a) Refining crude oil.

(b) Production of crude oil.

(c) Domestic distribution of finished product, i.e., gasoline, fuel oil, etc.

(ii) State petitioner's total net profits or losses as well as its net profits or losses from its petroleum business for each of the last 3 years.

(iii) State the percentage which such total profits represent:

(a) Measured on net worth.

(b) Measured on sales.

(iv) State the amount of petitioner's retained earnings.

(v) State petitioner's ratio of current assets to current liabilities.

(vi) State the cost of petitioner's investment, if any, during the current and last allocation periods, in new or substantially improved petroleum related facilities, together with a brief description of such facilities.

(23) The undersigned certifies that the above data and information are true and complete to the best of his knowledge and belief _____ (signature).

§ 206.38 Hearings on petitions.

A petitioner may request a hearing before the Board on his petition by submitting an unqualified request therefor, in writing, with the filing of his petition. The Board in its discretion may grant a hearing. Where a hearing has not been requested by the petitioner, the Board may, in its discretion, schedule a hearing on the petition. Hearings will be scheduled in the discretion of the Board with due consideration to the regular order of filing of petitions and other pertinent factors. On request and for good cause shown, the Board may in its discretion advance or postpone a hearing. A party failing to request a hearing as provided in this section may be deemed to have submitted his case upon the Board record.

§ 206.39 Notice of hearing.

The petitioner shall be given at least 14 calendar days' notice of the time and place set for hearings, unless otherwise agreed. Such notice will apprise the petitioner of the requirements of § 206.13 for submission of briefs, memoranda of law, documentary evidence or other necessary information. In scheduling hearings the Board will give due regard to the desires of the petitioners and to the requirement for just and prompt disposition of petitions. Public notice of the scheduling of a hearing will also be posted in the office of the Board.

§ 206.40 Unexcused absence of a petitioner.

The unexcused absence of a petitioner at the time and place set for hearing will not be occasion for delay. In the event of such absence the hearing will proceed and the case will be regarded as submitted by the absent petitioner on the record before the Board. The Board shall advise the absent petitioner of the content of the proceedings and that he has 5 days from the receipt of such notice within which to show cause why the petition should not be decided on the record made.

§ 206.41 Conduct of hearing.

(a) Any member of the Board may conduct a hearing.

(b) Hearings shall be as informal as may be reasonable and appropriate in the circumstances and shall be public. Petitioner may offer at a hearing such relevant evidence as he deems appropriate, subject to the sound discretion of the presiding member in supervising the extent and manner of presentation of such evidence and subject to the requirements of § 206.43(b) of this regulation. In general, admissibility will hinge on relevancy and materiality. Arguments bearing on the policy embodied in the proclamation or in the regulation shall not be received. Letters or copies thereof, affidavits, or other evidence not ordinarily admissible under the generally accepted rules of evidence, may be admitted in the discretion of the presiding member. The weight to be attached to evidence presented in any particular form will be within the discretion of the Board, taking into consideration all the circumstances of the particular case. Stipulations of fact agreed upon by a petitioner and the Director, Oil Imports, or his representative, may be regarded and used as evidence at the hearing. The petitioner and the Director may stipulate the testimony that would be given by a witness if the witness were present. The Board may in any case require evidence in addition to that offered by a petitioner.

(c) Witnesses before the Board will be examined orally under oath or affirmation, unless the facts are stipulated, or the Board shall otherwise order. If the testimony of a witness is not given under oath, the Board shall call to the attention of the witness the provisions of Title 18, United States Code, sections 287 and 1001, prescribing penalties for knowingly making false representations in connection with claims against the United States or in any matter within the jurisdiction of any department or agency thereof. The Board may, in its discretion, permit Government officials participating in the hearing to examine any witness.

(d) Hearings will be recorded verbatim and transcripts thereof shall be made, costs of transcripts to be borne by the requesting parties.

§ 206.42 Consolidation.

Upon good cause shown, or upon its own initiative, the Board may at the same time hear or decide two or more petitions, if it determines that such action is appropriate.

§ 206.43 Briefs, memoranda of law, documentary evidence, and other information.

(a) The Board may on its own initiative require the filing, either before or after hearing, of briefs, memoranda of law, documentary evidence, or any other information it considers necessary for the disposition of a petition.

(b) Any briefs, memoranda, documents, statistics, and other data and statements, but not including witnesses' testimony, to be presented or used at a hearing, shall be filed in six copies with the Board not later than 6 days, exclusive of Saturdays, Sundays, Federal legal holidays and other nonbusiness days, prior to the date of hearing.

§ 206.44 Statements by interested persons other than petitioner.

(a) Persons interested in opposing or supporting a petition, other than petitioner, may file in six copies with the Board written statements on issues raised by the petition at any time prior to 7 calendar days before the scheduled date of the hearing on the petition. At the same time such statement is filed with the Board, a copy shall be sent to the petitioner or his representative by the interested person. The petitioner may file in six copies with the Board a written reply within 7 calendar days after receiving such statements.

(b) Persons interested in opposing or supporting a petition other than petitioner, may file in six copies with the Board written statements on issues raised by the hearing within 7 calendar days following said hearing, unless extension is granted by the Board for good cause. At the same time such a statement is filed with the Board, a copy shall be

XUM
V 39 N 252 DEC 31 1974
XUM
V

sent to the petitioner or his representative by the interested person. The petitioner may file in six copies with the Board a written reply within 7 calendar days after receiving such statements, unless extension is granted by the Board for good cause.

(c) The Board will not consider statements made pursuant to paragraph (a) or (b) of this section or § 206.16 unless copies have been furnished to petitioners or their representatives in a timely fashion by the interested persons.

§ 206.45 Private communications prohibited.

Oral or written communications by petitioners, interested private parties, or their agents, concerning the facts or law of a petition, or policy of the Board, will not be considered by individual members of the Board, unless such communications are made part of the record before the Board.

§ 206.46 Participation by the Office of Oil and Gas.

A copy of each petition filed with the Board and a copy of each written statement on issues raised by a petition filed pursuant to § 206.44 will be forwarded promptly to the Director, Oil Imports, for purposes of information and for any comment which the Director may deem appropriate and wish to submit to the Board. Any comment submitted to the Board by the Director must be filed with the Board and sent to the petitioner or his representative. The Board, when possible, will advise the Director, at least 1 week in advance, of the time and place of any hearing which may be scheduled upon a petition and will request that the Director or his representative appear at the hearing and present information and arguments on behalf of the Director, Oil Imports.

§ 206.47 In camera orders.

(a) Upon request by the petitioner the Board may order that oral testimony or written evidence which discloses trade secrets or privileged commercial or financial information be placed in camera. However, in camera treatment will be granted on a limited basis for specific portions of petitioner's presentation. Granting of in camera treatment requires a clear showing by petitioner that publication of the material in question would have an adverse competitive or other detrimental effect upon petitioner's business. The order shall include: (1) A description of the specific data assembled from the petition and questionnaire or other specific document or testimony for in camera treatment, and (2) a concise statement of the reasons for granting in camera treatment.

(b) Documents and transcripts of testimony subject to in camera orders shall be segregated from the public record and filed separately under the in camera order. Subject to the provisions of paragraph (c) of this section, documents and transcripts subject to an in camera order will be made accessible only to the petitioner, his counsel, authorized Board personnel, members of the Board, and court personnel concerned with judicial review. The right of the Board and of reviewing courts to disclose in camera data to the extent necessary for the proper disposition of the proceeding is specifically reserved.

(c) Documents and transcripts of testimony subject to an in camera order shall be released to third parties only if required by law.

§ 206.48 Decisions of the Board.

(a) In its evaluation of a petitioner's request the Board will consider the guidelines published by the Administrator of the Federal Energy Administration as an Appendix to this Part and the responses to those guidelines filed with the Board by said petitioner.

(b) Concurrence of any two Board members shall be sufficient to constitute a decision of the Board. Decisions of the Board shall be in writing and are final and not subject to administrative review.

(c) Each decision upon a petition to the Board will contain a concise statement of the reasons for the Board's action.

(d) A copy of the decision shall be furnished promptly to the petitioner or his representative. All decisions of the Board shall be available for inspection by the public.

§ 206.49 Reconsideration of decisions.

Not later than 30 calendar days after issuance of a decision of the Board, a petitioner may file with the Board a petition for reconsideration of such decision, setting forth the relief desired and the grounds which justify reconsideration. Such petitions must be clearly labeled as "petition for reconsideration." The Board, within its discretion, may decide the matter on the petition, or it may schedule a public hearing thereon in accordance with § 206.38 of this regulation. The Board may specify any issues on which it desires to hear arguments. The Board, within its discretion and upon showing of good cause, may extend the time limit in which to file a petition for reconsideration.

§ 206.50 Reopening of proceedings.

(a) *Reopening prior to decision.* At any time prior to its decision, on its own motion or at the request of an interested party, the Board may reopen the proceeding for the reception of further evidence.

(b) *Reopening after decision.* Whenever, during the applicable allocation period, a petitioner subject to a decision of the Board is of the opinion that material changes of fact or of law, which occurred after issuance of the decision, warrant that such decision be altered, modified, or set aside, such petitioner may file with the Board a petition requesting a reopening of the proceeding for that purpose. Such petition shall state the relief desired, the specific changes of fact or of law warranting a reopening of the proceeding, and shall include such evidence and arguments as will provide the basis for a Board decision on the petition. The Board, in its discretion, may decide the matter on the petition, or it may serve upon the petitioner a notice for a public hearing thereon. Said notice shall indicate the time and place of hearing, and it may specify any issues on which the Board desires to receive further evidence or hear arguments.

§ 206.51 Clerical mistakes.

The Board may at any time, without advance notice to the petitioner and without hearing, make such changes in a Board decision as are required to correct clerical or other errors arising from oversight or omission which have no adverse effect on petitioner.

§ 206.52 Duty to inform the Board.

The petitioner shall promptly notify the Board of any change in circumstances subsequent to the filing of the petition which would affect petitioner's merit to receive or retain a Board allocation.

§ 206.53 Record open to the public.

The petition, transcript of hearing, exhibits, written statements filed by interested parties, all papers filed with the Board, and matters of official notice or record, shall constitute the record for decision and shall be open to the public, subject to the provisions of § 206.47.

Appendix—Oil Import Appeals Board Guidelines

Sec. 1 General policy.

The Oil Import Appeals Board has a major responsibility for appropriate alleviation of the supply problem of the established independent elements of the petroleum industry, including refiners, marketers, and jobbers, under the General direction of the Administrator of the Federal Energy Administration.

Sec. 2 Implementation.

(a) Persons affected by Part 213 of Chapter II of Title 10 of the Code of Federal Regulations may petition the Oil Import Appeals Board for such relief as is within its jurisdiction as set out in § 213.26. In its evaluation of petitioners' requests the Board will consider the following guidelines as may be appropriate. A petitioner:

(1) Must be established and in operation;

(2) Must demonstrate that its total oil operations are not producing a reasonable profit but did so in the past;

(3) Must be unable to obtain sufficient supply at economic prices to meet its normal requirements;

(4) Must demonstrate that it has made diligent efforts to obtain needed supplies;

(5) Must demonstrate that payment of the license fee will cause it an exceptional hardship;

(6) If possessing an import capability, must demonstrate to the satisfaction of the Board that it is not feasible for it to alleviate its hardship by means of exchange agreements involving the use of

licenses already granted to others who do not have an import capability;

(7) Must demonstrate to the satisfaction of the Board its ability to utilize import allocations to obtain supplies through license exchange or direct import;

(8) If in control or possession of domestic crude oil production, must agree to make supplies of crude oil available in reasonable quantities and at economic prices, to established independent customers;

(9) If in the business of wholesaling products to resellers, must agree to make supplies of products available in reasonable quantities and at economic prices, to established independent customers;

(10) Must demonstrate that it is taking, or planning to take, effective action to establish an economically feasible supply to maintain its operations.

(b) In making determinations on exceptional hardships, the Board will consider, among other things, the situation of the petitioner's customers and of the community concerned as well as the public interest in preserving the independent segment of the petroleum industry.

4. Part 213 is established to read as follows:

PART 213—OIL IMPORT REGULATIONS

Sec.
213.1 Purpose.
213.2 Administration of program.
213.3 Allocation periods.
213.4 Eligibility for allocations not subject to license fees.
213.5 Applications for allocations and licenses.
213.6 Records and inspections.
213.7 Licenses.
213.8 Small quantities.
213.9 Allocations; petrochemical plants; District I–IV and District V.
213.10 Allocations based on exports.
213.11 Allocations of imports of crude oil and unfinished oils for conversion of heavy liquid feedstocks to petrochemicals—Districts I–IV and District V.
213.12 Allocations; refiners; Districts I–IV.
213.13 Allocations; refiners; District V.
213.14 Allocations of crude oil—District V—based upon production of low sulphur residual fuel oil to be used as fuel in District V.
213.15 Allocations of residual fuel oil—District I.
213.16 Finished products.
213.17 Emergency finished products allocations (Virgin Islands)
213.18 Emergency finished products allocations.
213.19 Maximum levels of imports—Puerto Rico.
213.20 Allocations of crude oil and unfinished oil—Puerto Rico.
213.21 Allocations of finished products—Puerto Rico.
213.22 Use of imported crude oil and unfinished oils.
213.23 Reports.
213.24 False statements.
213.25 Revocation or suspension of allocations or licenses.
213.26 Oil Import Appeals Board.
213.27 Definitions.
213.28 Canadian imports—Districts I–IV.
213.29 Allocations of crude oil, unfinished oils and finished products—Districts I–IV, District V, Puerto Rico, the Virgin Islands, Guam, American Samoa, and Foreign Trade Zones—new, expanded or reactivated refinery capacity based upon estimated and actual inputs.
213.30 Allocations of crude oil and unfinished oils—District I–IV, District V, and Puerto Rico—new, expanded or reactivated "petrochemical capacity" based upon estimated and actual inputs.
213.31 Allocations of unfinished oils—Districts I–IV based on production of low sulphur residual fuel oil in Districts I–IV.
213.32 Allocations of low sulphur residual fuel oil—District V.
213.33 Canadian imports—Districts I–IV.
213.34 Allocations of No. 2 fuel oil—District I.
213.35 Allocations and fee-paid licenses for imports of crude oil, unfinished oils and finished products—Districts I–IV, District V, and Puerto Rico.
213.36 Canadian imports, District V.
213.37 Mexican imports, Districts I–IV and District V.
213.38 Imports of Canadian natural gas products—Districts I–IV.

AUTHORITY: Federal Energy Administration Act of 1974, Pub. L. 93–275; Trade Expansion Act of 1962, Pub. L. 87–794; E. O. 11790, 39 FR 23185; Proclamation No. 3279, as amended, 38 FR 9645, 38 FR 16195, 39 FR [illegible].

§ 213.1 Purpose.

These regulations implement Presidential Proclamation 3279, "Adjusting Imports of Petroleum and Petroleum Products into the United States," dated March 10, 1959, as amended, by providing for the discharge of the responsibilities imposed upon the Administrator of the Federal Energy Administration (FEA).

§ 213.2 Administration of program.

The Director, Oil Imports, has been empowered to exercise the authority conferred upon the Administrator by Proclamation No. 3279, as amended.

§ 213.3 Allocation periods.

(a) Except for allocations made pursuant to § 213.10 all allocation periods beginning on or after January 1, 1973, but before December 31, 1973 shall be extended to expire April 30, 1974.

(b) Supplemental allocations not subject to license fees will be made by the Director for the extended portion of the allocation period for which an allocation has not been made. Such supplemental allocations shall be computed so as to provide allocations for the extended portion of the allocation period at the same daily average as the base allocations.

(c) Effective May 1, 1974, the allocation periods for all allocations except allocations issued pursuant to § 213.10 will be made for periods of twelve months beginning May 1 of each year.

(d) Allocation periods for allocations made pursuant to § 213.10 will be as provided for in that section.

(e) Notwithstanding the provisions of paragraph (1) of § 213.11 the initial allocation period pursuant to § 213.11 will be for a period of twelve months beginning May 1, 1974. Subsequent allocations will be made for periods of twelve months beginning May 1 of each year.

(f) Notwithstanding the provisions of paragraphs (a) and (c) of this section entries for consumption of Canadian imports by pipeline may be made until midnight of May 15 following expiration of the allocation period in which a license authorizing such imports from Canada was issued.

§ 213.4 Eligibility for allocations not subject to license fees.

(a) To be eligible for an allocation not subject to license fees of imports into Districts I–IV, into District V, Puerto Rico, Guam, American Samoa, the Virgin Islands, or a foreign trade zone of crude oil and unfinished oils, a person must (1) have either refinery capacity or a petrochemical plant in the respective districts, Puerto Rico, territories or foreign trade zone and (2) have had refinery inputs or petrochemical plant inputs in the respective districts, Puerto Rico, territories, or foreign trade zone for the year ending three months prior to the beginning of the allocation period for which the allocation is requested.

(b) To be eligible for an allocation not subject to license fees of imports into Puerto Rico of crude oil and unfinished oils pursuant to section 213.20 a person must have had refinery capacity in Puerto Rico during calendar year 1964.

(c) To be eligible for an allocation not subject to license fees of imports into Puerto Rico of finished products, other than residual fuel oil to be used as fuel, a person must have imported such products into Puerto Rico during the last half of the calendar year 1958.

(d) To be eligible for an allocation not subject to license fees of imports into Puerto Rico of residual fuel oil to be used as fuel, a person must have imported residual fuel oil used as fuel into Puerto Rico during the last half of the calendar year 1958.

(e) A person is not eligible individually for an allocation not subject to license fees of imports of crude oil and unfinished oils or finished products if the person is a subsidiary or affiliate owned or controlled, by reason of stock ownership or otherwise, by any other individual, corporation, firm, or other business organization or legal entity. The controlling person and the subsidiary or affiliate owned or controlled will be regarded as one. Allocations will be made to the controlling person on behalf of itself and its subsidiary or affiliate but, upon request, licenses will be issued to the subsidiary or affiliate.

§ 213.5 Applications for allocations and licenses.

(a) Applications for all allocations not subject to license fee of imports of crude oil, unfinished oils, or finished products for the allocation period May 1, 1974 through April 30, 1975, except for applications made pursuant to section 9A must be filed with the Director in such form

as he may prescribe, not later than March 31, 1974.

(b) Applications for allocation pursuant to § 213.10 must be filed as provided for in paragraph (c) of § 213.10.

§ 213.6 Records and inspections.

All persons receiving allocations pursuant to these regulations shall maintain complete records of imports, refinery inputs, petrochemical plant inputs and the outputs of such plants. These records shall be maintained on a current basis so that they will be available for inspection by a representative of FEA. All records required to be maintained pursuant to this section shall be retained for a period of three (3) years. In order to assure full compliance with these regulations and Proclamation 3279, as amended, FEA representatives shall be permitted to enter a person's office, property, plants and facilities to examine such records, and, if deemed necessary in order to verify such records, to inspect the refinery, petrochemical plant, or terminal and all operations being performed within the facilities which include, but are not necessarily limited to refining, receiving, shipping, testing and storage. If requested by the FEA representatives, the person shall be required to assign an employee to accompany the representatives of FEA in all inspections, record evaluations, and verification operations. The FEA representatives shall not be required to sign any releases prior to entering upon a person's property or installation.

§ 213.7 Licenses.

(a) When an allocation has been made to a person under this regulation, the Director shall issue a license or licenses based on the allocation; specifying the amount of crude oil and unfinished oils or finished products which may be imported, the period of time such license shall be in effect, and the districts (District I, Districts I–IV, Districts II–IV, District V or Puerto Rico) into which the importation may be made. The director may amend such licenses.

(b) No license issued pursuant to this section may be sold, assigned, or otherwise transferred.

§ 213.8 Small quantities.

(a) District Directors of Customs are authorized to permit without a license an entry for consumption of not to exceed 550 U.S. gallons of crude oil, unfinished oils, or finished products which are certified as samples for testing or analysis or which are included in shipments of machinery or equipment and are certified as intended for use in connection therewith, and baggage entries. Unless notified by the Director to the contrary, District Directors of Customs are authorized to permit without a license the entry for consumption of bonded fuel aboard an aircraft diverted from an international flight.

(b) A person desiring to import small quantities of crude oil, unfinished oils, or finished products in circumstances not covered by paragraph (a) of this section shall file with the Director a written request for authorization for entry without a license for each shipment, describing the oil and the quantity thereof proposed to be imported and the circumstances which would justify an entry without a license, the date when the shipment is scheduled to arrive or upon which it has arrived, and the port of entry. If the Director determines that the entry without a license is consonant with the purposes of Proclamation 3279, as amended, he may authorize such an entry.

§ 213.9 Allocations; petrochemical plants; District I–IV and District V.

(a) For the allocation period May 1, 1974, through April 30, 1975, each eligible person with a petrochemical plant in Districts I–IV shall receive an allocation not subject to license fee of imports of crude oil and unfinished oils equal to the average barrels per day of petrochemical plant inputs to his petrochemical plants in these districts during the calendar year 1973 or the year ending September 30, 1972, whichever is greater, multiplied by 11.2 percent × .90.

(b) For the allocation period May 1, 1974, through April 30, 1975, each eligible person with a petrochemical plant in District V shall receive an allocation not subject to license fee of imports of crude oil and unfinished oils equal to the average barrels per day of petrochemical plant inputs to his petrochemical plants in this district during the calendar year 1973 or the year ending September 30, 1972, whichever is greater, multiplied by 11.9 percent × .90.

(c) No allocation for Districts I–IV made pursuant to this section shall entitle a person to a license which will allow the importation of unfinished oils in excess of 15 percent of the allocation, and no allocation for District V made pursuant to this section shall entitle a person to a license which will allow the importation of unfinished oils in excess of 25 percent of the allocation. However, a person obtaining an allocation of imports of crude oil and unfinished oils pursuant to this section may petition the Director to adjust the percentage of imports of unfinished oils upward to 100 percent of such person's allocation if the petitioner certifies that the additional imported unfinished oils will not be exchanged, that the additional unfinished oils will be processed entirely in the petitioner's own petrochemical plant, and that more than 50 percent of the yields (by weight) from the unfinished oils will be petrochemicals or that more than 75 percent (by weight) of recovered product output will consist of petrochemicals.

(d) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

(e) Applications for allocations pursuant to this section must be filed in accordance with provisions of § 213.5.

(f) Pursuant to section 3A of Presidential Proclamation 3279, as amended by Proclamation 4175, interim allocations were made for the allocation period January 1, 1973 through December 31, 1973 to all persons who had received an allocation under former section 9 of Oil Import Regulation 1 (now § 213.9) for the allocation period January 1, 1972 through December 31, 1972. To the extent that such interim allocations were not charged against and deducted from the regular allocation made to a person pursuant to former section 9 for the allocation period starting January 1, 1973 and extending through April 30, 1974, such interim allocation will be charged against and deducted from the allocation made under this section for the period May 1, 1974 through April 30, 1975.

§ 213.10 Allocations based on exports.

(a) For the purposes of this section:

(1) "Eligible petrochemicals" means the following materials produced in the person's facilities in Districts I–IV or District V and falling into the following Trade Classification of Schedule B of the current Department of Commerce Statistical Classifications of Domestic and Foreign Commodities Exported from the United States.

Trade Classification Schedule B Number	Description
231.2	Synthetic rubber and rubber substitutes except compounded, semiprocessed, and manufactures; e.g., SBR type rubber, butyl rubber.
266.2–266.3	Manmade fibers suitable for spinning except glasses, e.g., nylon staple, polyester staple.
	CHEMICAL ELEMENTS AND COMPOUNDS
512	Organic chemicals; e.g., ethylene glycol, acetic acid.
513.27	Carbon black.
521.4024	Ortho-Xylene.
521.4025	Para-Xylene.
521.4027	Mixed Xylenes.
554.2022–554.2026	Detergents, synthetic organic bulk; e.g., alkyl aryl sulfonate, sodium toluene sulfonated.
554.2032–554.2036	Surface-active agents, except detergents, acid type cleaners, and textile and leather-finishing agents.
581.1005–581.1055 581.2002–581.2058	Plastic materials and artificial resins; e.g., polyamide, phenolic, polyethylene.
581.3230	Cellulose ester molding and extrusion compositions; e.g., cellulose acetate.
581.3242	Cellulose esters (except molding and extrusion compositions) in unfinished forms; e.g., granules, powder.
581.3260	Chemical derivatives of cellulose unplasticized e.g., cellulose acetate-butyrate (flake, powder, waste or scrap).
599.7100	Artificial waxes e.g., solidified polyethylene glycol, glyceryl tri-(12 Hydroxy stearate).
599.7505–599.7507	Antiknock mixtures.
599.7515–599.7530	Additives for lubricating oils, fuel oils, liquid gum inhibitors.
599.9960	Reagents for ore recovery.
621.0105	Carbon black masterbatch.
629.1010–629.1050	Rubber tires for vehicles and aircraft.
651.6–651.7	Yarn (including monofil and strip), thread, tire cord, and tire cord fabric of noncellulosic and cellulosic manmade fibers.

(2) "Broker" and "Export Agent" mean a person whose occupation includes the transaction of business relating to the exportation of goods.

(3) Each six months of a calendar year (e.g. January to June) shall constitute a base period.

(b) Subject to provisions of this section a person who holds an allocation of imports into Districts I–IV or into District V under § 213.9 or § 213.30 during all or part of the base period to which the application for an allocation under this § 213.10 relates shall also be entitled to receive under this § 213.10 an allocation of imports of crude oil into Districts I–IV or into District V (as the case may be) based on his exports during the base period of eligible petrochemicals produced by him.

(c) An application for an allocation under this section must be filed with the Director no later than 60 days after the last day of the base period to which the application relates. Amendments to applications resulting in upward adjustments of allocations under this section must be filed with the Director no later than the last day of the base period following the base period to which the allocation applies. An application shall be in such form as the Director may prescribe.

(d) Licenses issued under an allocation made pursuant to this section shall expire 12 months after the respective base period ends.

(e)(1) The Director shall determine the weight (in pounds) of eligible petrochemicals (i) which were produced in the person's facilities in Districts I–IV or in District V, and (ii) which were exported from the Customs territory of the United States during the base period whether by the person, another person, a broker or an export agent or a domestic or a foreign purchaser thereof in the form produced by and without value added and without further processing. The producer shall furnish such evidence as the Director may require to establish that the export was, in fact, made including a letter from the exporter that his records may be inspected by the Director or his agents for the purpose of verifying that the export was made.

(2) The Director shall ascertain the hydrogen and carbon content (in pounds) of that part of the weight of the eligible petrochemicals determined pursuant to paragraph (e)(1) of this section, which was (i) produced by chemical reaction in the person's facilities and (ii) derived from crude oil or unfinished oils produced or manufactured in Districts I–IV or in District V or imported into Districts I–IV or District V pursuant to an allocation. The weight thus ascertained shall be divided by 200; and the applicant shall receive an allocation of barrels of imports of crude and unfinished oils equal to the resulting quotient. Where a person produced an eligible petrochemical from a combination of inputs which qualify under clause (ii) of this subparagraph (2) and inputs which do not so qualify, and a portion of such eligible petrochemical was exported, the hydrogen and carbon content of the exported portion shall be deemed to have been derived entirely from the qualified inputs to the full extent of such qualified inputs except that such hydrogen and carbon shall not be deemed to have been derived from a qualified input from which the hydrogen and carbon could not actually have been derived.

(f) A shipment of eligible petrochemicals from Districts I–IV or from District V to a foreign country or to the Virgin Islands, Guam, American Samoa, or the Trust Territory of the Pacific Islands constitutes an export for the purposes of this section. A shipment of eligible petrochemicals from Districts I–IV or from District V to Puerto Rico or to a foreign trade zone shall not constitute an export for the purposes of this section. If eligible petrochemicals are returned after having been exported, the total weight of such eligible petrochemicals so returned, whatever the form of the import, shall either be excluded or deducted as appropriate from the applicant's base in computing an allocation under paragraph (e) of this section.

(g) An allocation made pursuant to this section shall entitle a person to a license or licenses which will allow the importation of unfinished oils in an amount not exceeding, in the aggregate, 15 percent of the person's allocation. However, the Director shall permit a person holding such an allocation to import unfinished oils in an amount up to 100 percent of such person's allocation upon certification by him to the Director that such imported unfinished oils will not be exchanged, that such unfinished oils will be processed entirely in the person's petrochemical plant, and that more than 50 percent by weight of the yields from such unfinished oils will be converted into petrochemicals of which petrochemicals methane is not more than 50 percent by weight or that more than 75 percent by weight of recovered product output will consist of petrochemicals but of which output not more than 50 percent by weight is methane.

(h) A person who imports crude oil or unfinished oils under an allocation made under this section may, except as provided in paragraph (g) of this section, exchange his imported crude oil either for domestic crude oil or for domestic unfinished oils or exchange his imported unfinished oils for domestic unfinished oils or for domestic crude oil. All such exchanges shall be governed by the provisions of paragraph (b) (2), (3), (5), and (6) of § 213.22 of this regulation.

(i) No allocation made pursuant to this section may be sold, assigned or otherwise transferred.

§ 213.11 Allocations of imports of crude oil and unfinished oils for conversion of heavy liquid feedstocks to petrochemicals—Districts I–IV and District V.

(a) For the purpose of this section:

(1) The term "heavy liquid feedstock" means (i) a stream of crude oil or (ii) a stream of hydrocarbons which was derived from crude oil or natural gas products, 90 percent (by weight) of which

consisted of hydrocarbon compounds having a carbon content of C_5 or greater, and in which the weight of paraffins (including cycloparaffins) exceeded that of the olefins and that of the aromatics, respectively.

(2) The term "petrochemicals" means any of those items listed in column 1 of the schedule set forth in paragraph (k) of this § 213.11 insofar as they conform to the notations contained in columns 2 and 3 of such schedule.

(3) The term "hydrocarbon intermediates" means any or all of the following items which were produced from feedstocks to a heavy liquid plant or from heavy liquid feedstocks: Methane, ethane, propane, butanes, olefins C_2–C_{12}, diolefins C_4–C_{12} (and C_3–C_5 in the event their purity falls below 90 percent by weight), acetylenes C_2–C_{12} (or C_2–C_5 in the event their purity falls below 90 percent by weight), benzene, toluene, and xylene, or combinations thereof, and heavy aromatic gas oil with a correlation index (CI) greater than 100 computed on the basis of the following formula:

$$100\left(\frac{876}{460+\text{MBP}}+\frac{670}{131.5+\text{API Gravity}}-4.568\right)$$

and extender oil as described in ASTM Designation D 2226–70.

(4) The term "heavy liquid plant" means a facility or plant complex (including associated downstream product recovery and processing units except petrochemical units and petrochemical plants) which is located in Districts I–IV or District V, which is not comprised within or a part of a person's refinery capacity as that term is defined in § 213.27 to which at least one heavy liquid feedstock stream was charged during the base period, and in which more than 30 percent by weight of each of its hydrocarbon feedstock streams during the base period were converted by chemical reaction (i) directly into petrochemicals, or (ii) indirectly into petrochemicals by the chemical conversion of hydrocarbon intermediates or by the chemical conversion of heavy liquid feedstocks which were subsequently fed to a heavy liquid plant and converted to petrochemicals or to hydrocarbon intermediates which were subsequently converted to petrochemicals, or, (iii) into petrochemical plant inputs as defined in § 213.27.

(5) The term "petrochemical unit" refers to equipment located in Districts I–IV or District V, in which 30 percent by weight of hydrocarbon intermediates in each separate feedstock stream are processed into petrochemicals.

(6) The term "base period" means the period of 12 months ending on December 31 preceding the allocation period for which an application for an allocation under this § 213.11 is filed.

(b) Except as provided in paragraph (1) allocations under this section shall be made for periods of twelve months beginning May 1.

(c) (1) Applications for allocations under paragraphs (e), (f), and (g) of this section must be filed within the time prescribed by § 213.5.

(2) An application shall be in such form as the Director may prescribe, and an applicant shall furnish such additional information as the Director shall require. All information supplied by an applicant shall be subject to such verification as the Director may deem appropriate, including inspection of the applicant's heavy liquid plant or plants, the applicant's petrochemical unit or units, and the petrochemical unit or units of persons to whom hydrocarbon intermediates have been sold or transferred by the applicant. In the case of an application for an allocation based, in whole or in part, upon the sale or transfer by the applicant of hydrocarbon intermediates to be processed into petrochemicals, the application shall be accompanied by certificates from the buyers or transferees as to the weight of such hydrocarbon intermediates and as to such buyers' or transferees' disposition thereof. Such verification may include examination of the records of all plants participating in the production of petrochemicals which are claimed by an applicant as a basis for an allocation.

(3) Except as provided in this subparagraph, information furnished by an applicant on or in connection with an application under § 213.11 shall be available for public inspection. Material balances respecting a plant or unit and detailed technical information descriptive of a particular process fall within the category of trade secrets and privileged commercial information and shall not be available for public inspection.

(d) A person who receives an allocation under this section § 213.11 may not receive an allocation pursuant to § 213.9 based on any feedstock stream processed in the person's heavy liquid plant or plants. The hydrocarbon content of materials upon which an allocation under 213.9 § 213.10, or § 213.30 is based will not qualify as a basis for an allocation under this § 213.11. Hydrocarbon materials upon which an allocation under this § 213.11 is based will not qualify as a basis for an allocation under § 213.9, § 213.10, or § 213.30. No hydrocarbon material upon which an allocation under this § 213.11 is based may serve as a basis for another allocation under this § 213.11.

(e) To be eligible under this paragraph for an allocation of imports of crude oil and unfinished oils into Districts I–IV or into District V, a person must have operated a heavy liquid plant in the respective districts during the base period. For a particular allocation period, each such eligible applicant shall be entitled to receive an allocation of imports of crude oil and unfinished oils into Districts I–IV or into District V, as appropriate, computed as follows:

(1) The Director shall determine the weight of hydrocarbon intermediates which were produced by each of the applicant's heavy liquid plants and which were processed in a petrochemical unit or units by the applicant during the base period. The Director shall deduct from the weight so determined the weight of the hydrocarbon content of any organic compounds that were not petrochemicals and that were produced by processing from the hydrocarbon intermediates and recovered for commercial disposition or use, including use as fuel.

(2) The Director shall determine the weight of hydrocarbon intermediates (i) which were produced by each of the applicant's heavy liquid plants, and (ii) which the applicant certifies were sold or transferred by him to a second person, or by such second person to a third person to be processed into petrochemicals, and (iii) respecting which the applicant has furnished certificates from the buyers or transferees as to the weight and disposition of the hydrocarbon intermediates purchased or transferred and processed in a petrochemical unit during the base period. The Director shall deduct from the weight so determined the weight of the hydrocarbon content of any organic compounds that were not petrochemicals and that were produced by the buyers or transferees from the hydrocarbon intermediates and recovered for commercial disposition or use, including use as fuel.

(3) (i) The Director shall determine the total weight of hydrocarbon feedstocks charged to each of the applicant's heavy liquid plants during the base period. The Director shall deduct from the weight so determined the weight of all hydrocarbon intermediates produced from such feedstocks and the hydrocarbon content of any other organic compounds that were not petrochemicals and that were produced by the applicant from total feedstocks and recovered for commercial disposition or use, including use as fuel. In connection with a determination under this subdivision, an applicant must satisfactorily identify the cause or causes of the difference between the weight of hydrocarbon feedstocks charged and the weight of hydrocarbon intermediates and organic compounds produced, and the Director shall make no determination under this subdivision if such difference is attributable principally to inaccuracy of meters.

(ii) In lieu of the net weight determined under subdivision (i) of this subparagraph, an applicant may elect to have the Director determine the weight of the hydrocarbon content of petrochemicals and hydrogen produced at the applicant's heavy liquid plant during the base period plus one percent (1 percent) of the weight of total hydrocarbon feedstocks charged.

(4) The Director shall divide the net weight of hydrocarbon materials determined for each of the applicant's heavy liquid plants pursuant to subparagraphs (1) through (3) of this paragraph, by the weight of the total hydrocarbon feedstocks charged to each such plant during the base period and multiply the quotient thus obtained by the quantity (expressed in barrels per day) of heavy liquid feedstocks charged to each such plant. The applicant shall, with respect to each such plant, receive an allocation of imports of crude oil and unfinished oils in a quantity equal to the product of such multiplication.

(f) (1) Subject to the provisions of paragraph (d) of this section, a person who produces hydrocarbon intermediates from heavy liquid feedstocks in a plant in Districts I–IV or in District V, other than a heavy liquid plant and who manufactures petrochemicals by processing such hydrocarbon intermediates during a base period shall be entitled, with respect to such plant, to an allocation of imports of crude oil and unfinished oils into Districts I–IV or into District V, as appropriate, computed as follows: The Director shall determine the weight (in pounds) of such hydrocarbon intermediates and shall deduct therefrom the weight of the hydrocarbon content of any organic compounds that were not petrochemicals and that were recovered for commercial disposition or use, including use as fuel. The net weight (in pounds) so determined shall be divided by 300, and the person shall receive an allocation of imports of crude oil and unfinished oils equal to the resulting quotient.

(2) Subject to the provisions of paragraph (d) of this section, a person who produces hydrocarbon intermediates from heavy liquid feedstocks in a plant other than a heavy liquid plant and sells or transfers such hydrocarbon intermediates to another who manufacturers petrochemicals therefrom by processing during a base period shall, with respect to such plant, be entitled to an allocation of imports of crude oil and unfinished oils into Districts I–IV or into District V, as appropriate, computed as follows: The Director shall determine the weight (in pounds) of the hydrocarbon intermediates (i) which were so produced, (ii) which the applicant certifies were sold or transferred by him to a second person, or by such second person to a third person, to be processed into petrochemicals, and (iii) respecting which the applicant has furnished certificates from the buyers or transferees as to the weight and disposition of the hydrocarbon intermediates purchased or transferred and processed during the base period. The Director shall deduct from the weight so determined the weight of the hydrocarbon content of any organic compounds that were not petrochemicals and that were recovered by the buyers or transferees for commercial disposition or use, including use as fuel. The net weight (in pounds) so determined shall be divided by 300, and the person shall receive an allocation of imports of crude oil and unfinished oils equal to the resulting quotient.

(g) (1) With respect to a heavy liquid plant which is scheduled to come on stream during a particular allocation period, an applicant who has filed an application within the time prescribed in section 213.5 shall be entitled to an allocation for that plant for that allocation period. The allocation shall be computed as provided in paragraph (e) of this section, except that estimated data on the operations of that plant by the applicant during the allocation period shall be substituted for data on actual operations during the base period.

(2) With respect to a heavy liquid plant which has come on stream during the allocation period immediately preceding a particular allocation period, an applicant who has filed an application within the time prescribed in § 213.5 shall be entitled to an allocation for that plant for the particular allocation period. The allocation shall be computed as provided in paragraph (e) of this section, except that actual and estimated data on the operations of that plant by the applicant during a period of 12 months shall be substituted for data on actual operations during the base period. The period of 12 months shall run from the day on which the plant began operations.

(3) If an allocation based in whole or in part on estimated data on operations is made under this section, allocations made to the applicant under this section in succeeding allocation periods will be adjusted upward or downward to compensate for the difference between the allocation based in whole or in part on estimates and the allocation which the applicant would have received if the allocation had been based on actual data.

(4) If an allocation based in whole or in part on estimates exceeds by more than 10 percent the allocation which the applicant would have received if the allocation had been based on actual data, the reduction of the applicant's allocations in succeeding allocation periods required by subparagraph (3) of this paragraph shall be doubled. However, to the extent that an applicant demonstrates to the satisfaction of the Director that all or a part of the excess of estimated inputs over actual inputs was attributable to acts of God, fires or explosions, the Director may reduce the number of barrels of excess for which the penalty will be imposed.

(5) The Director shall make an allocation pursuant to this paragraph (g) only if he is satisfied that the applicant's heavy liquid plant constitutes a bona fide business venture. The Director shall not issue a license under an allocation made pursuant to this paragraph until the heavy liquid plant has been on stream for not less than 60 days and until an on-the-spot evaluation of the plant has been conducted by authorized representatives of FEA and a determination has been made that the facility has the actual operational capacity which the applicant has certified in his application. Licenses issued under allocations made pursuant to this paragraph shall expire on the last day of the allocation period.

(h) An allocation made pursuant to this section shall entitle a person to a license or licenses which will allow the importation of unfinished oils in an amount not exceeding, in the aggregate, 15 percent of the person's allocation. However, the Director shall permit a person holding such an allocation to import unfinished oils in an amount up to 100 percent of the allocation upon certification by him to the Director that such imported unfinished oils will not be exchanged, that such unfinished oils will be processed entirely in the petitioner's heavy liquid plants, that the person will not charge to any of his plants a quantity of such unfinished oils in excess of the allocation made with respect to each such plant, and that more than 30 percent by weight of the yields from such unfinished oils will be converted directly or indirectly into petrochemicals or petrochemical plant inputs. The Director may, in special circumstances, permit a person holding such an allocation to import up to 100 percent of his allocation in the form of unfinished oils and to exchange such imports for like domestic material to be run entirely in the petitioner's heavy liquid plants in amount not in excess of the allocation made with respect to each such plant.

(i) A person who imports crude oil or unfinished oils under an allocation made under this section may, except as provided in paragraph (h) of this section, exchange his imported crude oil either for domestic crude oil or for domestic unfinished oils or exchange his imported unfinished oils for domestic unfinished oil or for domestic crude oil. All such exchanges shall be governed by the provisions of subparagraphs (2), (3), (5), and (6) of paragraph (b) of § 213.22.

(j) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

(k) Each item listed in column 1 of the following schedule is a petrochemical if, and only if, it conforms to any notation opposite the item in column 2 and to the condition specified opposite the item in column 3. The conditions specified are as follows:

A—petrochemical must be recovered in a state of 90 percent purity by weight on an anhydrous basis.

B—petrochemical must be recovered in a state of 96 percent purity by weight on an anhydrous basis.

C—carbon atoms per average molecule must be greater than 30.

(l) (1) The Director shall determine, in writing, whether or not as of June 1, 1973, substantial construction work has been done, and construction work is being diligently prosecuted, on a new heavy liquid plant of reasonable commercial size, the construction of which was begun on or after August 12, 1971. The Director shall send to the FEDERAL REGISTER, in sufficient time to insure publication before July 1, 1973, a document describing the determination which he has made.

(2) If the Director determines that the situation described in the first sentence of subparagraph (1) of this paragraph exists, allocations shall be made under this section 213.11, both in Districts I–IV and in District V, for the period July 1 through December 31, 1974.

(3) If the Director determines that the situation described in the first sentence of subparagraph (1) of this paragraph does not exist, allocations shall not be made under this section unless the Director subsequently determines, in writing, that substantial construction work has been done, and construction work is being diligently prosecuted, on a new heavy liquid plant, the construction of which was begun on or after August 12, 1971. Allocations under this section shall be made for the calendar year or the period July 1 through December 31 (as the case may be) which follows the expiration of a period of a year from the date of publication in the FEDERAL REGISTER of a document describing the Director's determination.

§ 213.12 Allocations; refiners; Districts I–IV.

(a) For the allocation period May 1, 1974 through April 30, 1975, the Director shall make allocations not subject to license fee as provided in paragraph (b) of this section and within the quantities available under applicable levels established in Proclamation 3279, as amended, of imports into Districts I–IV among eligible persons having refinery capacity in these districts or the Virgin Islands. With respect to the Virgin Islands qualified refinery inputs shall be limited to crude oil charged to the refinery.

(b) Each eligible applicant shall receive an allocation not subject to license fee of imports of crude oil based on refinery inputs for the calendar year ending December 31, 1973, or the 12 month period ending September 30, 1972, whichever is greater. The allocation shall be computed according to the following schedule:

Average barrels per day input	Percent of inputs		Number of days
0 to 10,000	21.7	×	365
10 to 30,000	13.0		
30 to 100,000	7.6		
100,000 plus	2.8		

In addition, any imports of crude oil available for allocation pursuant to this section but not allocated pursuant to the above schedule shall be allocated to each eligible applicant in the same proportion that each eligible applicant's allocation as determined pursuant to the above schedule bears to the total of imports of crude oil allocated pursuant to the above schedule; however, no person shall receive an allocation in excess of 100 percent of such person's refinery inputs.

(c) Except as provided for allocations based on inputs to refineries located in the Virgin Islands, under an allocation made pursuant to paragraph (b) of this section, unfinished oil may be imported, but imports of such oils shall not exceed 15 percent of the allocation. Within such 15 percent, a maximum quantity of imports not exceeding one percent of the total allocation may be imported in the form of finished products, provided that prior written notification is given to the Director of each entry proposed to be made. Finished products imported pursuant to this paragraph may not be exchanged.

(d) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred, and except as this Part may provide otherwise no license issued under such an allocation shall permit the importation of Canadian imports as defined in section 15(j) of Proclamation 3279, as amended.

(e) Pursuant to section 3A of Presidential Proclamation 3279, as amended by Proclamation 4175, interim allocations were made for the allocation period January 1, 1973 through December 31, 1973 to all persons who had received an allocation under section 213.12 for the allocation period January 1, 1972 through December 31, 1972. To the extent that such interim allocations were not charged against and deducted from the regular allocation made to a person pursuant to section 213.12 for the allocation period starting January 1, 1973 and extending through April 30, 1974, such interim allocation will be charged against and deducted from the allocation made under this section for the period May 1, 1974 through April 30, 1975.

(f) (1) For the purpose of allocating imports of unfinished oils and unfinished products produced by refineries in the Virgin Islands, allocations claimed on account of such refineries shall be computed in accordance with the sliding scale set out in paragraph (b) of this section but inputs to such refineries shall be treated as the last increment of the aggregate of inputs at the highest applicable level in the sliding scale.

(2) Allocations made pursuant to this section to persons for refinery capacity located in the Virgin Islands shall be for import into Districts I–IV or Puerto Rico of unfinished oils or finished products manufactured in the facility earning the allocation. Unfinished oils imported from the Virgin Islands pursuant to an allocation granted under this section cannot be counted as qualified refinery inputs in Districts I–IV or District V.

(g) Applications for allocations pursuant to this section must be filed in accordance with provisions of section 213.5.

§ 213.13 Allocations; refiners; District V.

(a) For the allocation period May 1, 1974, through April 30, 1975, the Director shall allocate, as provided in paragraph (b) of this section and within the quantities available under applicable levels established in Proclamation 3279, as amended, imports into District V among eligible persons having refinery capacity in that district, Guam or American Samoa. With respect to Guam or American Samoa qualified refinery inputs shall be limited to crude oil charged to the refinery.

(b) Each eligible applicant shall receive an allocation not subject to license fee of imports of crude oil based on refinery inputs for the calendar year ending December 31, 1973, or the 12 month period ending September 30, 1972, whichever is greater. The allocation shall be computed according to the following schedule:

Average barrels per day input		Percent of input		Number of days
0 to 10,000 10 to 30,000 30,000 plus	×	67.5 18.9 5.6	×	▬

In addition, any imports of crude oil available for allocation pursuant to this section but not allocated pursuant to the above schedule shall be allocated to each eligible applicant in the same proportion that each eligible applicant's allocation as determined pursuant to the above schedule bears to the total of imports of crude oil allocated pursuant to the above schedule; however, no person shall receive an allocation in excess of 100 percent of such person's refinery inputs.

(c) Except as provided for, allocations based on inputs to refiners located in Guam or American Samoa, under an allocation made pursuant to paragraph (b) of this section, unfinished oils may be imported, but imports of such oils shall not exceed 25 percent of the allocation. Within such 25 percent, a maximum quantity of imports not exceeding one percent of the total allocation may be imported in the form of finished product, provided that prior written notification is given to the Director of each entry proposed to be made. Finished products imported pursuant to this paragraph may not be exchanged.

(d) No allocations made pursuant to this section may be sold, assigned, or otherwise transferred.

(e) Pursuant to section 3A of Presidential Proclamation 3279, as amended by Proclamation 4175 interim allocations were made for the allocation period January 1, 1973 through December 31, 1973 to all persons who had received an allocation under section 213.13 for the allocation period January 1, 1972 through December 31, 1972. To the extent that such interim allocations were not charged against and deducted from the regular allocation made to a person pursuant to section 213.13 for the allocation period starting January 1, 1973 and extending through April 30, 1974, such interim allocation will be charged against and deducted from the allocation made under this section for the period May 1, 1974 through April 30, 1975.

(f) (1) For the purpose of allocating imports of unfinished oils and finished products produced by refineries in Guam or American Samoa, allocations claimed on account of such refineries shall be computed in accordance with sliding scale set out in paragraph (b) of this section, but inputs to such refineries shall be treated as the last increment of the aggregate of inputs at the highest applicable level in the sliding scale.

(2) Allocations made pursuant to this section 213.13 to persons for refinery capacity located in Guam or American Samoa shall be for import into District V of unfinished oils or finished products manufactured in the facility earning the allocation. Unfinished oils imported from Guam or American Samoa pursuant to an allocation granted under section 213.13 cannot be counted as qualified inputs in Districts I–IV or District V.

(g) Applications for an allocation pursuant to this section must be filed in accordance with the provisions of 213.5.

§ 213.14 Allocations of crude oil—District V—based upon production of low sulphur residual fuel oil to be used as fuel in District V.

(a) This section provides for the making of allocations of imports into District V of crude oil based upon the production of low sulphur residual fuel oil. To the extent that the provisions of this section are inconsistent with the provisions of other sections of this regulation, the provisions of this section shall be controlling.

(b) In addition to the allocations of imports of crude oil made under section 213.13 of this regulation, each eligible applicant with refinery capacity in District V who produces in District V low sulphur residual fuel oil to be used as fuel which contains not more than five-tenths of one percent (0.5%) sulphur by weight and which is delivered to consumers for use as fuel, in order to comply with governmental requirements respecting air pollution shall receive an allocation of imports of crude oil equal to the amount in barrels of such low sulphur residual fuel oil to which the applicant certifies both as to production and delivery.

(c) For the purpose of computing import allocations under section 213.13, crude oil imported pursuant to an allocation under this section 213.14 or domestic oil received in exchange pursuant to the provisions of section 213.22 and processed will not qualify as refinery inputs. However, the person receiving the foreign crude oil under an exchange agreement pursuant to section 213.22 may count such oil as a refinery input.

(d) An application for an allocation of imports of crude oil under this section must be filed with the Director no later than 20 days after the last day of the calendar month during which the low sulphur residual fuel oil upon which the application is based was delivered to consumers. An application must be in such form as the Director may prescribe.

(e) No license issued under an allocation made pursuant to this section shall be valid for a period longer than 6 months following the day on which the license is issued.

(f) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

(g) The provisions of section 213.14 as amended by Amendment 18 (35 F.R. 13) of former Oil Import Regulation 1 (now this Part 213) will be applicable with respect to allocations made on the basis of low sulphur residual fuel oil to be used as fuel which is produced and delivered before April 1, 1971, and with respect to licenses issued under such allocations.

§ 213.15 Allocations of residual fuel oil—District I.

(a) This section provides for the making of import allocations not subject to license fee for the allocation period beginning May 1, of each year, of imports into District I of residual fuel oil to be used as fuel in District I.

(b) To be eligible for an import allocation not subject to license fee of residual fuel oil pursuant to this section a person must:

(1) Be in the business in District I of selling residual fuel oil to be used as fuel and have under his management and operational control a deepwater terminal located in District I into which there has been delivered residual fuel oil to be used as fuel which he owned at the time of delivery, or

(2) Be in the business in District I of selling residual fuel oil to be used as fuel and have a throughput agreement (warehouse agreement) with a deepwater terminal operator under which agreement the person has delivered to the terminal residual fuel oil to be used as fuel which he owned when it was so delivered. For the purpose of this section, "throughput agreement" means an agreement which provides for the delivery to a deepwater terminal by a person of residual fuel oil which he owns and for a right in such person to withdraw on call an identical quantity of such oil from the terminal. A bona fide throughput agreement will be deemed to exist only if the person operating under the agreement owns the oil at the time it is delivered to the terminal.

(c) A person seeking an import allocation not subject to license fee pursuant to this section must file an application with the Director on such form as he may prescribe. The application shall disclose such information as the Director may

XUM

deem necessary in such detail as he may require: Applications must be filed in accordance with the provisions of § 213.5.

(d) For the allocation period May 1, 1974, through April 30, 1975, each eligible applicant under this section shall receive an allocation not subject to license fee to import residual fuel oil into District I to be used as fuel in District I computed according to the following formula:

Applicant's average B/D allocation made pursuant to section 213.15 for the allocation period April 1, 1973 through April 30, 1974.
÷ Average B/D allocations made pursuant to section 213.15 to all applicants for the allocation period April 1, 1973 through April 30, 1974. × 2,610,000 B/D

(e) No allocation made pursuant to this section may be sold, assigned or otherwise transferred. Licenses issued under allocations made pursuant to this section shall permit the importation only of residual fuel oil into District I for use as fuel oil in District I.

§ 213.16 Finished products.

(a) For the allocation period May 1, 1974 through April 30, 1975 there is allocated to the Department of Defense 18,000 average barrels per day of imports of finished products not subject to license fee into Districts I–IV and 6,750 average barrels per day of imports of finished products not subject to license fee into District V. For the same allocation period there is allocated 15,000 average barrels per day of imports of finished products not subject to license fee into Districts I–IV pursuant to paragraph (b) of section 12 of Presidential Proclamation 3279, as amended.

(b) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

§ 213.17 Emergency finished products allocation (Virgin Islands).

(a) For the purpose of this section, (1) the term "No. 2 fuel oil" means a finished product which has the physical and chemical characteristics as set forth in subparagraph (1), paragraph (a) of section 213.34. (2) The term "eligible applicant" means any person in the business of selling No. 2 fuel oil in Districts I–IV.

(b) (1) For the period January 1, 1973 through April 30, 1973, hereafter referred to as the "period" within the allocation period which begins January 1, 1973, No. 2 fuel oil which has been or is to be manufactured in the Virgin Islands may be imported by eligible applicants who comply with the provisions of this section.

(2) For the "period," the Director shall make an allocation of imports of No. 2 fuel oil into Districts I–IV to any eligible applicant who certifies that such imports are required to meet obligations under contracts with, or purchase orders from, customers in Districts I–IV, and that such eligible applicant, through contract of purchase or otherwise, has the right to take delivery of such No. 2 fuel oil in the Virgin Islands or elsewhere.

(3) An application for allocations under this section may be filed in letter or telegraphic form during the "period."

(c) (1) The Director shall process applications in the sequence in which they are received and make allocations in the quantity which the applicant has certified in accordance with paragraph (b) (2) of this section. Any person making application based upon the certification in this section is cautioned against making false statements in, or in connection with application filed with the Director or in connection with any stated contractual commitment with his buyers, and is guilty of a crime, and upon conviction may be punished by fine or imprisonment or both.

(2) When an allocation has been made to a person under this section, the Director shall issue a license or licenses based on the allocation specifying the amount of No. 2 fuel oil which may be imported from the Virgin Islands into Districts I–IV. All licenses issued under allocations made pursuant to this section shall be valid only during the period January 1, 1973 through May 15, 1973. No licenses issued pursuant to this section may be sold, assigned, or otherwise transferred. No. 2 fuel oil imported pursuant to an allocation and license issued under this section must not be further processed in any manner, including blending or mixing with other petroleum products, by mechanical means. It is intended that No. 2 burner fuel oil which is imported pursuant to an allocation and license under this section be for use in fuel oil burning equipment for the generation of heat in furnaces for heating buildings or the generation of steam. Importers are urged to verify its ultimate use to the best of their ability.

(d) Shipments of No. 2 fuel oil made pursuant to this section 213.17 will not be credited as shipments of product to meet any other written or exising contractual or allocation agreements made with the Federal Energy Administration.

§ 213.18 Emergency finished products allocation.

(a) For the purpose of this section, (1) the term "No. 2 fuel oil" means a finished product which has the physical and chemical characteristics as set forth in subparagraph (1), paragraph (a) of section 213.34; and (2) the term "eligible applicant" means any person in the business of selling No. 2 fuel oil in Districts I–IV.

(b) (1) For the period January 1, 1973, through April 30, 1973, hereafter referred to as the "period" within the allocation period which begins January 1, 1973, No. 2 fuel oil may be imported by eligible applicants who comply with the provisions of this section.

(2) For the "period," the Director shall make available a license for imports of No. 2 fuel oil into Districts I–IV to any eligible applicant who certifies that such imports are required to meet obligations under contracts with, or purchase orders from, customers in Districts I–IV.

(3) An application for a license under this section may be filed in letter or telegraphic form at any time during the "period."

(c) (1) The Director shall process applications in the sequence in which they are received and make available licenses in the quantity which the applicant has certified in accordance with paragraph (b) (2) of this section.

(2) The Director shall issue a license or licenses to eligible applicants specifying the amount of No. 2 fuel oil which may be imported into Districts I–IV. All licenses issued pursuant to this section shall be valid only during the period January 1, 1973, through April 30, 1973. No licenses issued pursuant to this section may be sold, assigned, or otherwise transferred. No. 2 fuel oil imported pursuant to a license issued under this section must not be further processed in any manner, including blending or mixing with other petroleum products, by mechanical means.

§ 213.19 Maximum levels of imports—Puerto Rico.

The levels are those established in Proclamation 3279, as amended.

§ 213.20 Allocations of crude oil and unfinished oils—Puerto Rico.

(a) (1) This paragraph provides for the making of import allocations not subject to license fees other than those described as "long-term allocations" in paragraphs (k) (1), (2), (3), and (4) of Section 15 of Proclamation 3279, as amended, for the allocation period beginning May 1, of each year, of imports into Puerto Rico of crude oil and unfinished oils.

(2) For the allocation period May 1, 1974, through April 30, 1975, each eligible applicant under this paragraph shall receive an allocation not subject to license fees to import crude and unfinished oils into Puerto Rico computed according to the following formula:

Applicant's Allocation pursuant to Section 213.20(a) Not Subject To License Fees of Imports of Crude and Unfinished Oils Into Puerto Rico for the Allocation Period April 1, 1973, to April 30, 1974, Expressed in B/D
÷ Total Allocations pursuant to Section 213.20(a) Not Subject to License Fees of Imports of Crude and Unfinished Oils into Puerto Rico for the Allocation Period April 1, 1973, to April 30, 1974, Expressed in B/D × 294,489 B/D

(b) No allocation made pursuant to this section may be sold, assigned or otherwise transferred.

§ 213.21 Allocations of finished products—Puerto Rico.

(a)(1) This paragraph provides for the making of import allocation not subject to license fees for the allocation period beginning May 1, of each year, of imports into Puerto Rico of finished products (other than residual fuel oil to be used as fuel in Puerto Rico).

(2) For the allocation period May 1, 1974, through April 30, 1975, each eligible applicant under this paragraph shall receive an allocation not subject to license fees to import finished products, other than residual fuel oil to be used as fuel in Puerto Rico, into Puerto Rico, computed according to the following formula:

Applicant's Allocation pursuant to Section 213.21(a) Not Subject To License Fees of Imports Into Puerto Rico of Finished Products (Other Than Residual Fuel Oil To Be Used As Fuel in Puerto Rico) During the Calendar Year 1973, Expressed in B/D

× 1,293 B/D

Total Allocations pursuant to Section 213.21(a) Not Subject To License Fees of Imports Into Puerto Rico of Finished Products (Other Than Residual Fuel Oil To Be Used As Fuel in Puerto Rico) During the Calendar Year 1973, Expressed in B/D

(b)(1) This paragraph provides for the making of import allocations not subject to license fees for the allocation period beginning May 1, of each year, into Puerto Rico of residual fuel oil to be used as fuel in Puerto Rico.

(2) For the allocation period May 1, 1974, through April 30, 1975, each eligible applicant under this paragraph shall receive an allocation not subject to license fees to import residual fuel oil to be used as fuel in Puerto Rico, into Puerto Rico, computed according to the following formula:

Applicant's Allocation pursuant to Section 213.21(b) Not Subject to License Fees of Imports Into Puerto Rico of Residual Fuel Oil to be Used as Fuel in Puerto Rico During the Calendar Year 1973, Expressed in B/D

× 1,484 B/D

Total Allocations pursuant to Section 213.21(b) Not Subject to License Fees of Imports Into Puerto Rico of Residual Fuel Oil to be Used As Fuel in Puerto Rico During the Calendar Year 1973, Expressed in B/D.

(c) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred.

§ 213.22 Use of imported crude oil and unfinished oils.

(a) Except as provided in paragraphs (b) and (c) of this section, each person who imports crude oil or unfinished oils under a license issued pursuant to an allocation made under section 213.9, 213.12, 213.13, 213.20, 213.29, or 213.30 must process the oils so imported in his own refinery, petrochemical plant, or petrochemical capacity.

(b)(1) Subject to the provisions of this paragraph (b), a person who imports crude oil or unfinished oils under an allocation made under section 213.9, 213.12, 213.13, 213.29, 213.30, or paragraph (a) of section 213.20, may exchange his imported crude oil either for domestic crude oil for domestic unfinished oils or exchange his imported unfinished oils either for domestic unfinished oils or for domestic crude oil. However, a person receiving an allocation under section 213.9 or 213.30 may be restricted in the exchange of imported unfinished oils, as provided in paragraph (c) of section 213.9 and paragraph (j) of section 213.30.

(2) A proposed agreement for each such exchange must be reported to the Director before any action involved in the exchange is taken.

(3) Each such exchange must be effected on a ratio of not less than 1 barrel of domestic oil for each barrel of imported oil unless a different exchange ratio is approved by the Director.

(4) In any such exchange, the person who is exchanging oil imported pursuant to an allocation under section 213.9, 213.12, 213.13, 213.20, 213.29, or 213.30 for domestic oil must take delivery of the domestic oil and process it in his own refinery or petrochemical plant, located in the same district for which the allocation is granted, not later than 150 days after the end of the allocation period in which the exchange is made. If requested the Director may extend this period if it is shown that the person receiving the domestic oil cannot process the oil in the allotted time.

(5) Each such exchange must be on an oil-for-oil basis; however, settlements, credits, monetary, or accounting adjustments reflecting the relative values of the oils involved in the exchange are permissible.

(6) Any such exchange must not be otherwise unlawful.

(c) Imported crude oil or unfinished oils which are sold to meet the requirements of other Regulations published by the Federal Energy Office shall not be subject to the provisions of paragraph (a) of this section.

§ 213.23 Reports.

(a) Each person who imports crude oil, unfinished oils, or finished products under a license issued under this regulation shall report to the Director the quantities in barrels corrected to 60° Fahrenheit of crude oil, unfinished oils, and finished products so imported. Each report shall state through which port of entry the importation was made and shall specify the kinds of unfinished oils and finished products imported. Each report shall be filed with the Director within fifteen (15) days of the end of a particular month.

(b) Each person who exchanges oil pursuant to section 213.22 of this regulation shall report the exchange to the Director on such forms as he shall prescribe. In addition, any changes occurring during an allocation period in the types of oils or the exchange ratio shall be reported.

(c) Effective January 7, 1974, each importer, or his agent, must submit to the customs officer at the time any crude oil, unfinished oil or finished product is entered for consumption or withdrawn from warehouse for consumption a completed form in three copies giving the indicated information and in the following format:

FEDERAL ENERGY ADMINISTRATION

XUM
V 39 N 252 DEC 31 1974
XUM

This form and any valid oil import license as required pursuant to Presidential Proclamation 3279, as amended, and Part 213 of Chapter II of Title 10 of the Code of Federal Regulations, as revised and amended, must be presented to the customs officer before any petroleum product subject to the provisions of Presidential Proclamation 3279, as amended, may be entered or withdrawn from warehouse for consumption. It is the complete responsibility of the importer to prepare and provide the reporting form with original and two copies and to have obtained any necessary oil import license from FEA prior to the time the imported materials are to be entered or withdrawn from warehouse for consumption. Failure to do so will result in delay in the release of the imported merchandise from customs custody.

The customs officer will sign the tripartite form to acknowledge receipt returning one copy to the importer, immediately mailing a copy to the Director, and retaining one copy.

(d) In those cases where crude oil, unfinished oil, or finished product is entered for consumption or withdrawn from warehouse for consumption pursuant to a fee paid license issued against a bond the importer must upon payment of the license fee against a bond submit a copy of the entry form reflecting the actual amount of crude, unfinished oil or finished product entered as determined by the customs officer.

§ 213.24 False statements.

Persons concealing material facts or making false statements in or in connection with any applications or reports filed with the Director or in connection with any license presented to or statements made to a Collector of Customs with respect to imports of crude oil, unfinished oils, or finished products, are guilty of a crime and upon conviction may be punished by fine or imprisonment or both.

§ 213.25 Revocation or suspension of allocations or licenses.

The Director may, after a hearing, revoke or suspend any allocation or license issued under this regulation, on grounds relating to the national security, or the violation of the terms of Proclamation 3279, this Part, or licenses issued pursuant thereto.

§ 213.26 Oil Import Appeals Board.

(a) There is in the Federal Energy Administration, an Oil Import Appeals Board comprised of a representative each from the Federal Energy Administration and the Departments of Justice and Commerce to be designated by the heads of such departments. The representative of the Federal Energy Administration shall be the Board's Chairman.

(b) The Board, subject to the general direction of the Administrator of the Federal Energy Administration, shall consider petitions by persons affected by this Part 213 that fall within the limits of the jurisdiction specified in this paragraph and without regard to the limits of the maximum levels of imports established in section 2 of Proclamation 3279, as amended, may:

(1) Reverse or modify on grounds of error actions taken by the Director on applications for allocations of imports under this Part;

(2) Modify, on the grounds of exceptional hardship, any allocation made to any person under this Part;

(3) Grant allocations of imports of crude oil and unfinished oils in special circumstances to persons with importing histories who do not qualify for allocations under this Part;

(4) Grant allocations of imports of finished products on grounds of exceptional hardship;

(5) Grant allocations of imports of crude oil, unfinished oils, and finished products to independent refiners or established independent marketers who are experiencing exceptional hardship, or in emergencies in order to assure, insofar as practicable, that adequate supplies are available;

(6) Review the revocation or suspension of any allocation or license;

(7) Review the denial by the Director of refunds of license fees, whether in whole or in part, theretofore paid by a person; and

(8) Grant refunds, in whole or in part, of license fees paid by persons to whom licenses were issued for imports which they subsequently became entitled to make under allocations made by the Board.

(c) Except with respect to its function to review applications for allocations of imports to which license fees are applicable, licenses issued pursuant to the Board allocations shall be fee exempt.

(d) The Board may take such actions on petitions as it deems appropriate and its decisions shall constitute final action.

(e) The Board may adopt, promulgate, and publish such rules and procedures as it deems appropriate for the conduct of its business.

§ 213.27 Definitions.

As used in Parts 206 and 213:

(a) "Person" includes an individual, a corporation, firm, or other business organization or legal entity, and an agency of a State, territorial, or local government, but does not include a department, establishment, or agency of the United States.

(b) "District I" means the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Maryland, Delaware, West Virginia, Virginia, North Carolina, South Carolina, Georgia, Florida, and the District of Columbia.

(c) "Districts II–IV" means all of the States of the United States except those States within district I and district V.

(d) "Districts I–IV" means the District of Columbia and all of the States of the United States except those States within district V.

(e) "District V" means the States of Arizona, Nevada, California, Oregon, Washington, Alaska, and Hawaii.

(f) "Crude oil" means a mixture of hydrocarbons that existed in natural underground reservoirs and which is liquid at atmospheric pressure after passing through surface separating processes and does not include natural gas products. It includes the initial liquid hydrocarbons produced from tar sands, gilsonite, and oil shale.

(g) "Finished products" means any one or more of the following petroleum oils, or a mixture or combination of such oils, or any component or components of such oils which are to be used without further processing by any one or more of the processes described in subparagraphs (1) through (3) of paragraph (h) of this section, and which, as of January 1, 1973, under the "Tariff Schedules of the United States," were not subject to a duty of more than $0.01 per pound of the hydrocarbons therein contained:

(1) The term "liquefied gases" means the following liquefied or liquefiable gases, namely, ethane, propane, butanes, ethylene, propylene, and butylenes which are derived by refining or other processing of natural gas, crude oil, or unfinished oils.

(2) 'Gasoline' means a refined petroleum distillate, including naphtha, jet fuel or other petroleum oils (but not benzene which meets the ASTM distillation standards for nitration grade or cumene, ethylbenzene, isoprene, meta-xylene, ortho-xylene, or para-xylene having a purity of 95 percent or more by weight) derived by refining or processing crude oil or unfinished oils, in whatever type of plant such refining or processing may occur, and having a boiling range at atmospheric pressure which falls completely or in part between 80° and 400° F.

(3) "Kerosene" means any jet fuel, diesel fuel, fuel oil, or other petroleum oils derived by refining or processing crude oil or unfinished oils, in whatever type of plant such refining or processing may occur, which has a boiling range at atmospheric pressure which falls completely or in part between 400° and 550° F.

(4) 'Distillate fuel oil' means any fuel oil, gas oil, topped crude oil, or other petroleum oils (except refined petroleum wax) derived by refining or processing crude oil or unfinished oils, in whatever type of plant such refining or processing may occur, which has a boiling range at atmospheric pressure which falls completely or in part between 550° and 1200° F.

(5) "Residual fuel oil" means a petroleum oil, which is (i) any topped crude or viscous residuum of crude or unfinished oils or one or more of the petroleum oils defined in subparagraphs (2) through (4) of this paragraph (g), which has a viscosity of not less than 45 seconds Saybolt Universal at 100° F. to be used as fuel without further processing other than by mechanical blending or (ii) crude oil to be used as fuel without further processing other than by blending by mechanical means.

(6) "Asphalt" means a solid or semi-solid cementitious crude oil or derivative

of crude oil, 50 percent or more of the constituents of which are bitumins, which is not to be used as fuel and which is to be used without further processing except air blowing or blending by mechanical means.

(7) "Lubricating oils" means any lubricant containing more than 50 percent by volume of refined petroleum distillates or specially treated petroleum residuum.

(8) "Natural gas products" means liquids (under atmospheric conditions), including natural gasoline, which are recovered by process of absorption, adsorption, compression, refrigeration, cycling, or a combination of such processes, from mixtures of hydrocarbons that existed in a reservoir and which, when recovered and without processing in a refinery or other plant, fall within any of the definitions of products contained in subparagraphs (2) through (4) of this paragraph (g).

(9) "Motor gasoline" means:

(i) Automotive gasoline with the following characteristics:

	Gasoline All Grades
Gravity, °API, ASTM D287	56.3–67.7
Distillation, ASTM D–86	
°F at 10% D+L	103–135
°F at 50%	185–238
°F at 90%	301–358
Reid Vapor Pressure, psi ASTM D–23.	7.5–13.5
Octane (Research) ASTM D–908.	93.1–103.3
Octane (Motor) ASTM D–357.	79.5–99.6
Appearance	Clear and Bright

(ii) Aviation gasoline with the following characteristics:

	Gasoline All Grades
Gravity, °API, ASTM D–287	64.0–76.2
Distillation, ASTM D–86	
°F at 10% D+L	138–165
°F at 50%	174–220
°F at 90%	213–260
Reid Vapor Pressure, psi ASTM D–323.	5.8–7.0
Octane (Research) ASTM D–908.	81–105
Octane (Motor) ASTM D–357.	81–105
Appearance	Clear and Bright; dyed

(iii) Fuel (but not diesel fuel) shown to be derived primarily from petroleum, shale or gilsonite and chiefly used as fuel in piston type internal combustion engines.

(h) "Unfinished oils" means one or more of the petroleum oils listed in subparagraphs (1) through (4) and subparagraph (8) of paragraph (g) of this section or a mixture or combination of such oils, or any component or components of such oils, which are to be further processed in one or more of the following ways:

(1) By distillation with a resulting yield of at least two distinct finished products or unfinished oils, two of which must be equal to not less than 10 percent of the total charge of such unfinished oils to a distillation unit. Different grades or specifications of finished products or unfinished oils will not constitute district finished products or unfinished oils for purposes of this subparagraph. Distillation of petroleum oils which have been reconstituted by blending of two or more finished products or unfinished oils does not constitute processing for the purposes of this subparagraph.

(2) By catalytic or thermal conversion in process units such as alkylation, coking, cracking, hydrofining, hydrodesulfurization, polymerization, isomerization, dehydrogenation, or reforming.

(3) By physical separation established by means of solvent dewaxing, solvent deasphalting, solvent extraction, or extractive distillation.

(i) As used in paragraphs (g) and (h) of this section, the term "petroleum oil" includes only hydrocarbons derived from crude oil or natural gas.

(j) The words "importation", "importing", "import", "imports", and "imported" include both entry for consumption and withdrawal from warehouse for consumption; but do not include crude oil, unfinished oils, or finished products which were produced in the United States and are tranported by a pipeline carrying foreign oil in bond within the United States or which are transported by pipeline through a foreign country into the Customs territory of the United States or in the event of commingling with foreign oils of like kind and qualities incidental to such transportation of quantities equivalent to the quantities produced in and withdrawn from foreign oil moving in bond within the United States and shipped from such customs territory.

(k) "Director" means Director, Oil Imports, Federal Energy Administration, or his duly authorized representative.

(l) (1) Except as provided in subparagraph (2) of this paragraph, "refinery inputs" means feedstocks charged to refinery capacity and include only:

(i) Crude oil,

(ii) Unfinished natural gas products, and

(iii) Unfinished oils imported pursuant to

an allocation if, and only if, (*a*) such imported unfinished oils are processed in a distillation unit with a resulting yield of at least two distinct finished products or unfinished oils, two of which must be equal to not less than 10 percent of the total charge of such imported unfinished oils to the distillation unit, or (*b*) such imported unfinished oils are subjected in catalytic or thermal conversion units to such processes as alkylation, coking, cracking, hydrofining, hydrodesulfurization, polymerization, isomerization, reforming, or (*c*) such imported unfinished oils are processed by solvent dewaxing or solvent deasphalting or extractive distillation. Different grades or specifications of finished products or unfinished oils will not constitute distinct finished products or unfinished oils for the purposes of subdivision (iii) (*a*) of this subparagraph.

(2) "Refinery inputs" do not include inputs of unfinished oils imported pursuant to paragraph (b) of section 2 of Proclamation 3279, as amended.

(m) "Refinery capacity" means a plant which:

(1) Includes equipment for separating or converting hydrocarbons to finished products or unfinished oils;

(2) Uses crude oil as the predominant feedstock; and

(3) Converts for plant use in heating or generating power or for sale, not less than 70 percent by weight of total refinery inputs into at least two separate and distinct finished products other than liquefied gases, each of which falls in a different one of the categories specified in subparagraphs (2) through (8) of paragraph (g) of this section—that is, gasoline, jet fuel, naphtha, fuel oil, lubricating oil, residual fuel oil or asphalt—and each of which must be equal to not less than 4 percent by weight of total refinery inputs. Different grades or specifications of a finished product will not constitute separate and distinct finished products for the purpose of this definition.

(n) "Deepwater terminal" means a permanent land installation which:

(1) Consists of bulk storage tanks having not less than 100,000 barrels of operational capacity, pumps, and pipelines used for storage, transfer, and handling of residual fuel oil;

(2) Is adjacent to waterways that permit the safe passage to the installation of a tanker rated 15,000 cargo deadweight tons; and

(3) Has a berth that will permit the delivery of residual fuel oil to be used as fuel into the installation by direct connection from a tanker rated at 15,000 cargo deadweight tons, drawing not less than 25 feet of water, and moored in the berth. Cargo deadweight tons represents the carrying capacity of a tanker, in tons of 2,240 pounds, less the weight of fuel, water, stores, and other items necessary for use on a voyage.

(o) "Petrochemical plant" means a facility or plant complex:

(1) Which includes equipment for converting hydrocarbons to petrochemicals by chemical reaction;

(2) Which manufactures for plant use or sale one or more separate and distinct petrochemicals by chemical conversion of each separate petrochemical plant input feedstock stream which is claimed by an applicant as a basis for obtaining an allocation; and

(3) In which more than 50 percent by weight of each separate feedstock stream is converted by chemical reaction into petrochemicals of which petrochemicals methane is not more than 50 percent by weight, or in which over 75 percent by weight of recovered product output of each separate feedstock stream consists of petrochemicals which were converted by chemical reaction from such inputs but of which output not more than 50 percent by weight is methane.

(p) "Petrochemical plant inputs" means feedstocks charged to a petrochemical plant,

XUM
V 3 9 1 2 5 2 DEC 3 1 7 4 XUM

(1) And include only:

(i) Crude oil,

(ii) Unfinished oils (except those unfinished oils specifically excluded in subparagraph (2) of this paragraph) produced in districts I–IV and district V, and unfinished oils imported pursuant to an allocation;

(2) But do not include:

(i) Unfinished oils which are produced in a petrochemical plant in the manufacture of petrochemicals and subsequently charged to a unit which is a part of the same petrochemical plant in which they were produced or to any other petrochemical plant which is owned or controlled by the same person who claims the initial petrochemical plant inputs from which the unfinished oils are derived.

(ii) Unfinished oils which are obtained by transactions such as sales, purchases, or exchanges which are designed to avoid the exclusion specified in subdivision (i) of this subparagraph (2), and

(iii) Benzene which met the ASTM distillation standards for nitration grade or cumene, ethylbenzene, isoprene, metaxylene, ortho-xylene or para-xylene which had a purity of 95 percent or more by weight but which subsequently has been recycled and mixed with other hydrocarbons, commingled, or purposely debased.

(q) "Petrochemicals" means carbon or organic compounds (other than finished products or unfinished oils) which are produced from petrochemical plant inputs by chemical reaction in a petrochemical plant.

(r) As used in paragraph (g) and paragraph (h) of this section, the term "petroleum oils" includes liquid hydrocarbons derived from crude oil.

§ 213.28 Canadian Imports—Districts I–IV.

(a) As used in this section, the term "Canadian imports" means imports from Canada of crude oil which has been produced in Canada and unfinished oils which have been derived from crude oil or natural gas produced in Canada and which have been transported into the United States by overland means or over waterways other than ocean waterways.

(b) To be eligible for an allocation of imports under this section, a person must have in Districts I–IV a facility capable of processing Canadian imports.

(c) The Director shall, in accordance with the terms of paragraph (d) of this section, make allocations for the allocation period January 1, 1973, through December 31, 1973, of not to exceed 650,000 average barrels daily of Canadian imports into Districts I–IV.

(d) The Director shall make allocations of Canadian imports to eligible applicants who received allocations of such imports for the period January 1, 1972, through December 31, 1972, either under paragraphs (d) or (e) of section 213.28 or from the Oil Import Appeals Board under section 213.25, or from both. Each such applicant shall be entitled to an allocation of Canadian imports calculated in accordance with the following formula:

$$\text{Sum of each eligible applicant's allocations under section 213.25 and section 213.26} \times 1.1187$$

(e) An allocation made under this section shall supersede any interim or partial allocations made to that person pursuant to section 3A of Presidential Proclamation 3279, as amended, and Amendment 46 (37 FR 184) of former Oil Import Regulation 1 (now this Part). Licenses issued to a person under such an interim or partial allocation shall be charged against the allocation made to that person under this section.

(f) A person receiving an allocation under paragraph (d) of this section must process in his facilities a quantity of Canadian imports equal to at least 50 percent of that allocation. For the purposes of this paragraph, blending by mechanical means does not constitute processing.

(g) If a person who receives an allocation of Canadian imports under this section fails to import the total quantity of imports specified in the allocation, or if he fails to process all such imports (and domestic oil received in exchange for such imports) in his facilities before March 1, 1974, or if he fails to meet the requirement of paragraph (f) of this section, then any allocation of Canadian imports, or any allocation for Districts I–IV to which such person may otherwise be entitled under section 213.9, 213.12, or 213.29, for the first allocation period beginning after Decembe. 31, 1973, shall be reduced by the Director by the amount of Canadian imports which such person has failed to import, or by the amount of Canadian imports and exchanged oil which such person has failed to process in his facilities before March 1, 1974, or by the amount of Canadian imports by which he failed to meet the requirements of paragraph (f), except that the Director need not make such a reduction to the extent that (1) such person demonstrates to the satisfaction of the Director that such failures were without such person's fault and were beyond his control, or (2) such person on or before May 1, 1973, in writing, relinquishes all or part of an allocation made under this section and returns to the Director licenses issued thereunder.

(h) A person to whom an allocation is made by the Director under this section shall report and certify in writing to the Director, Oil Imports, P.O. Box 7414, Washington, D.C. 20044, not later than March 15, 1973, (1) the total quantity of Canadian imports which that person imported during the period January 1, 1972, through December 31, 1972, pursuant to an allocation made under section 29 of former Oil Import Regulation 1 (now § 213.33), and (2) the quantity of such imports that were processed in his facilities before March 1, 1973. The amount so reported and certified shall be subject to verification by the Director. If a person to whom an allocation is made under this section fails to file by March 15, 1973, the written report and certification required by this paragraph, the Director shall suspend all licenses issued under an allocation made under this section until the written report and certification are received.

(i) An allocation made pursuant to this section shall not be sold, assigned or otherwise transferred. Each person who imports Canadian imports under an allocation made pursuant to this section shall process such imports (or oil received in an exchange) only in the facilities set forth in his application.

(j) A person who imports Canadian imports under an allocation made pursuant to this section may exchange not to exceed 50 percent of such imports for domestic crude oil or domestic unfinished oils. A proposed agreement for each such exchange must be reported to the Director before any action involved in the exchange is taken. Each such exchange must be effected on a ratio of not less than one barrel of domestic oil for each barrel of Canadian imports.

(k) If a person holds an allocation of imports under §§ 213.9, 213.12, or 213.29 for the allocation period January 1, 1973, through December 31, 1973, he may obtain from the Director a license which will permit him to import Canadian imports in a quantity not exceeding the total amount of his allocation made under these sections. Such a license shall be charged against, and imports under such a license shall be deemed to have been made pursuant to, the allocation made under §§ 213.9, 213.12, or 213.29.

(l) Under the provisions of section 1A of Proclamation 3279, as amended, entries for consumption of crude oil or unfinished oils transported by pipeline may be made until midnight January 15, 1974, under any license authorizing such imports from Canada into Districts I–IV for the period January 1, 1973, through December 31, 1973.

(m) An application for an allocation under this section shall be made by letter or telegram to the Director, Oil Imports, P.O. Box 7414, Washington, D.C. 20044. Applications must be received by the Director on or before February 19, 1973. An application must contain the following information, which shall be certified by an officer of the applicant:

(1) The nature of each of the applicant's facilities in which Canadian imports will be processed.

(2) The location of each such facility.

(3) The total barrels of qualified inputs (as defined in paragraph (d)(1) of this section) for each such facility during the year ending September 30, 1972.

An officer of an applicant shall also certify in his application that, if an allocation of Canadian imports is made to the applicant under this section, the applicant will process all such imports (and all oil exchanged for such imports) in such facilities before March 1, 1974.

(n) Licenses issued pursuant to this section shall permit the entry or with-

drawal from warehouse for consumption of Canadian imports only.

§ 213.29 Allocations of crude oil, unfinished oils and finished products—Districts I–IV, District V, Puerto Rico, the Virgin Islands, Guam, American Samoa, and Foreign Trade Zones—new, expanded or reactivated refinery capacity based upon estimated and actual inputs.

(a) (1) The Director may make allocations not subject to license fees of imports of crude oil, unfinished oils, and finished products with respect to new, expanded or reactivated refinery capacity as provided in this section.

The plant additions and modifications which have resulted in the new, expanded, or reactivated refinery capacity need not when taken independently meet the definition of refinery capacity as defined in § 213.27: *Provided*, That such additions and modifications are an integral part of a facility that does qualify as refinery capacity.

(2) A person seeking such an allocation must file an application in the form prescribed by the Director. The application shall disclose in detail such information as the Director may require, including—

(i) The nature of the facility,

(ii) The location of the facility,

(iii) The products and the quantity of each product to be produced,

(iv) The capital outlay involved,

(v) The expected average barrels per day of qualified feedstocks inputs of such facility,

(vi) The identification of the feedstocks, and the source thereof,

(vii) The date that the facility went on-stream, or is scheduled to go on-stream,

(viii) Whether the application is for a new facility, an expansion or reactivation,

(ix) Whether this facility will replace an existing facility which is to be or has been shut down,

(x) In the case of an expansion, the certified inputs for the last three years to the particular refinery or identifiable crude processing facility for which the expansion is claimed.

(b) (1) Each increment of new, expanded or reactivated refinery capacity will be treated as a separate entity under this paragraph (b) for a total of sixty months.

(2) If the new, expanded or reactivated refinery capacity is scheduled to come on-stream during the allocation period for which the allocation is requested, the allocation shall be computed on the basis of inputs (divided by 365), which it is estimated will be made to such capacity during that allocation period. In the event the new, expanded or reactivated refinery capacity comes on-stream after January 31 of the allocation period for which the allocation is requested, the Director may, if requested by the applicant, extend the expiration date of the license or licenses to 120 days after the start-up date. An applicant who receives an allocation for a particular allocation period pursuant to this subparagraph (2) may be eligible for an allocation pursuant to paragraph (b) (3), (4), or (5) of this section for the succeeding allocation periods.

(3) If the new, expanded or reactivated refinery capacity has come on-stream during the allocation period immediately preceding the allocation period for which the allocation is requested, the allocation shall be computed on the basis of the sum (divided by 365) of (i) the refinery inputs actually made to the new, expanded or reactivated refinery capacity during the first eight months of the allocation period immediately preceding the allocation period for which the allocation is requested and (ii) the inputs which it is estimated will be made to such capacity during the next number of months which, when combined with the months in clause (i), will constitute a period of twelve months.

(4) If the new, expanded or reactivated refinery capacity has been on-stream for at least one year as of December 31, of the allocation period immediately preceding the allocation period for which the allocation is requested, the allocation shall be based on actual inputs (divided by 365) to the facility during the preceding twelve months ending December 31: *Provided*, That the facility will not have been on-stream in excess of sixty months during the allocation period for which the allocation is requested.

(5) If the new, expanded or reactivated refinery capacity has not been on-stream for a period of sixty months after earning an allocation under paragraph (b) (4) of this section, an allocation will be made for the next allocation year based on actual inputs (divided by 365) for the year ending December 31 of the previous allocation year. In computing the allocation, the Director will determine the number of days which, when added to the actual operating period in the previous allocation years, will constitute a period of sixty months. The facility will, for this number of days, earn an allocation under this § 213.29.

(c) Allocation with respect to new, expanded or reactivated refinery capacity shall be computed at seventy-five percent of estimated or actual qualified inputs to such facility as determined in paragraph (b) (2), (3), (4), or (5) of this § 213.29.

(d) With regard to the Virgin Islands, Guam, American Samoa, and foreign trade zones "qualified inputs" shall be limited to crude oil charged to the refinery.

(e) (1) If an allocation based in whole or in part on estimated inputs is made to an applicant pursuant to this section, the actual inputs submitted by the applicant as a basis for allocations in the next succeeding allocation period or periods for which the applicant applies for an allocation or allocations under this regulation shall be adjusted upward or downward to compensate for the difference between the estimated inputs and the actual inputs made during the period for which inputs were estimated.

(2) If the estimated inputs upon which an allocation is based exceed the actual inputs made by more than five percent of the estimated inputs, then, in addition to the adjustment downward provided by paragraph (e) (1) of this secton, the applicant shall be penalized for the overestimate as provided in this subparagraph (2). As a penalty, the actual inputs submitted by the applicant as a basis for allocation for the next succeeding period or periods for which the applicant applies for an allocation or allocations under this regulation shall be further reduced by the number of barrels by which the estimated inputs exceed the actual inputs by more than five percent. However, to the extent that an applicant demonstrates to the satisfaction of the Director that the excess of estimated inputs over actual inputs was attributable to acts of God, fire, government action, explosion, labor disputes, or other similar circumstances beyond the applicant's control, the Director may waive the penalty or reduce the number of barrels of excess for which the penalty will be imposed. Persons applying for and receiving allocations under this section whose new, expanded or reactivated refinery fails to come on-stream within the allocation period may be denied any allocation for the next succeeding period. The Director may elect not to apply this penalty in those cases where the applicant demonstrates to the satisfaction of the Director that a substantial effort was made to complete and to start-up such a facility and that the person's failure was attributable to acts of God, fire, government action, explosion, labor disputes, or other similar circumstances beyond the applicant's control.

(3) (i) Any person who has been granted an allocation for a new, expanded or reactivated refinery in Districts I–IV may avoid the penalty prescribed in paragraph (e) (2) of this section by returning on or before January 31 of the period for which the allocation was granted such a license or licenses, for a downward adjustment, or, in lieu of returning such license or licenses, returning for downward adjustment a license issued to the person under § 213.12.

(ii) Any person who has been granted an allocation for a new, expanded, or reactivated refinery in District V may avoid the penalty prescribed in paragraph (e) (2) of this section by returning on or before January 31 of the allocation period for which the allocation and license were granted such a license for a downward adjustment, or, in lieu of returning such license, returning for downward adjustment a license issued in District V to the person under section 213.13.

(iii) Any person who has been granted an allocation for a new, expanded, or reactivated refinery in Puerto Rico, the Virgin Islands, Guam, American Samoa or a foreign trade zone may avoid the penalty prescribed in subparagraph (2) by returning on or before January 31 of the allocation period for which the allocation and license were granted such a license for a downward adjustment.

(iv) A request by an applicant who has received an allocation and license under

XUM
V 39 N 252 DEC 31 1974
XUM

this section for a downward adjustment shall be made in writing to the Director on or before January 31 of the allocation period for which the allocation and license were granted.

(4) The Director shall not issue a license under an allocation made pursuant to this section until (i) an on-the-spot evaluation of the new, expanded or reactivated refinery capacity has been conducted by the compliance representatives of FEA and (ii) a written determination has been made by the Director that the facility is a bona fide refinery capacity as certified in the application, and that construction or reactivation has so far progressed that, in the Director's judgment, the plant will within the calendar quarter following the date of such determination be ready for start-up and trials.

(f) No license issued for allocations made under this section may be sold, assigned, or otherwise transferred.

(g)(1) As used in this section, "expanded refinery capacity" includes expansion of existing facilities by the addition of equipment, such as, but not limited to, stills, towers, pumps, and conversion units, or such additions to or modification of an existing refinery or identifiable crude processing capacity within an existing refinery as have resulted in an increased processing capability of not less than fifteen percent above the base capacity established for the particular refinery capacity under consideration. This base capacity will be the average certified inputs to the particular refinery or identifiable crude processing facility being expanded for the highest two of the last three input years.

(2) As used in this § 213.29, "reactivated refinery capacity" means restoration to operation of refinery capacity which had been shut down for not less than twelve months immediately preceding its reactivation.

(h) An applicant to whom an allocation is made under this section shall not receive an allocation for the same refinery capacity under §§ 213.12 or 213.13.

(i)(1) Except as provided in subparagraph (2) of this paragraph, an allocation made pursuant to this § 213.29 will be for crude oil only.

(2) Allocations made pursuant to this § 213.29 to persons for new, expanded or reactivated refinery capacity located in American Samoa, Guam, the Virgin Islands or foreign trade zones shall be for import into Districts I–V or Puerto Rico of unfinished oils or finished products. Such unfinished oils or finished products must have been manufactured in the facility earning the allocation. Unfinished oils imported pursuant to an allocation covered by this subparagraph cannot be counted as qualified refinery inputs in Districts I–IV, District V, or Puerto Rico.

(j) An applicant may not receive an allocation under this § 213.29 for new, expanded, or reactivated refinery capacity for which inputs were included in applications filed pursuant to §§ 213.12 or 213.13 for allocation periods beginning on or before January 1, 1973.

(k) An applicant may not receive an allocation under this § 213.29 for new, expanded or reactivated refinery capacity if the same refinery capacity is subject to a long term allocation as defined in Presidential Proclamation 3279, as amended.

(l) Persons wishing to qualify for an allocation under this § 213.29 must file an application in accordance with the provisions of § 213.5.

§ 213.30 Allocations of crude oil and unfinished oils—Districts I–IV, District V, and Puerto Rico—new, expanded or reactivated "petrochemical capacity" based upon estimated and actual inputs.

(a)(1) The Director may make allocations not subject to license fees of imports of crude oil and unfinished oils with respect to new, expanded or reactivated "petrochemical capacity" as provided in this section. The plant additions and modifications which have resulted in the new, expanded, or reactivated "petrochemical capacity" need not when taken independently meet the definition of "petrochemical capacity" as defined in paragraph (b) of this section: *Provided*, That such additions and modifications are an integral part of the facility that does qualify as "petrochemical capacity."

(2) A person seeking such an allocation must file an application in the form prescribed by the Director. The application shall disclose in detail such information as the Director may require, including—

(i) The nature of the facility.

(ii) The location of the facility.

(iii) The petrochemicals and the pounds of each petrochemical produced or to be produced.

(iv) The pounds of carbon and hydrogen in the petrochemicals produced from qualified "petrochemical capacity" inputs.

(v) The capital outlay involved.

(vi) The identification of each feedstock and the source thereof.

(vii) The date that the facility went onstream or is scheduled to go onstream.

(viii) Whether the application is for a new facility, an expansion, or reactivation.

(ix) Whether this facility will replace an existing facility which is to be or has been shut down.

(x) In the case of an expansion, the certified pounds of each petrochemical produced for the last three years in the particular "petrochemical capacity" for which the expansion is claimed.

(3) Applications for allocations under paragraph (a) of this section must be filed in accordance with the provisions of § 213.5.

(b) For purposes of this section "petrochemical capacity" means a facility or plant complex:

(1) Which includes equipment for converting hydrocarbons to petrochemicals.

(2) Which manufactures for plant use or sale one or more separate and distinct petrochemicals by conversion of each separate "petrochemical capacity input" feedstock stream which is claimed by an applicant as a basis for obtaining an allocation.

(c) For purposes of this section "petrochemical capacity inputs" means feedstocks charged to a "petrochemical capacity."

(1) And include only:

(i) Crude oil,

(ii) Unfinished oils (except those unfinished oils specifically excluded in paragraph (e)(2) of this section) produced in Districts I–IV and District V and Puerto Rico and unfinished oils imported pursuant to an allocation.

(2) But do not include:

(i) Unfinished oils which are produced in a "petrochemical capacity" or petrochemical plant in the manufacture of petrochemicals and subsequently charged to a unit which is part of the same "petrochemical capacity" or petrochemical plant in which they were produced or to any other "petrochemical capacity" or petrochemical plant which is owned or controlled by the same person who claims the initial "petrochemical capacity inputs" or petrochemical plant inputs from which the unfinished oils are derived.

(ii) Unfinished oils which are obtained by transactions such as sales, purchases, or exchanges which are designed to avoid the exclusion specified in paragraph (c)(2)(i) of this section, and

(iii) Benzene which met the ASTM standards for nitration grade or cumene, ethylbenzene, isoprene, meta-xylene, ortho-xylene or para-xylene which had a purity of 95 percent or more by weight but which subsequently has been recycled and mixed with other hydrocarbons, commingled, or purposely debased.

(d) For purposes of this section each item on the schedule in paragraph (k) of § 213.11 with the exception of changes in the "condition" of several items listed and additions made, as noted below, is a petrochemical if and only if, it conforms to any notation opposite the item in colume 2 and to the condition specified opposite the item in column 3. The "conditions" amended and additions made to the schedule in paragraph (k) of § 213.11 are as follows:

D—ASTM nitration grade.
E—Petrochemical must be recovered in a state of 95 percent purity or more.

Petrochemical	Limitations	Conditions
Benzene		D
Cumene		E
Ethylbenzene		E
Isoprene		E
Meta-xylene		E
Ortho-xylene		E
Para-xylene		E

(e)(1) Each increment of new, expanded or reactivated "petrochemical capacity" which has come onstream on or after January 1, 1972, will be treated as a separate entity under this paragraph (e) for a total of sixty months.

(2) If the new, expanded or reactivated "petrochemical capacity" is sched-

uled to come onstream during the allocation period for which the allocation is requested, the allocation shall be computed on the basis of inputs (divided by 365), calculated as in paragraph (f)(1) of this section, which it is estimated will be made to such capacity during the allocation period. In the event the new, expanded or reactivated "petrochemical capacity" comes onstream after January 31, of the allocation period for which the allocation is requested, the Director may, if requested by the applicant, extend the expiration date of the license or licenses to 120 days after the start-up date. An applicant who receives an allocation for a particular allocation period pursuant to this subparagraph (2) may be eligible for an allocation pursuant to paragraph (e)(3), (4), or (5) of this section for the succeeding allocation periods.

(3) If the new, expanded or reactivated "petrochemical capacity" has come onstream during the allocation period immediately preceding the allocation period for which the allocation is requested, the allocation shall be computed on the basis of the sum (divided by 365) of (i) the "petrochemical capacity inputs" calculated as in paragraph (f)(1) of this section, actually made to the new, expanded or reactivated "petrochemical capacity" during the first eight months of the allocation period immediately preceding the allocation period for which the allocation is requested and (ii) the inputs, calculated as in paragraph (f)(1) of this section which it is estimated will be made to such capacity during the next number of months which, when combined with the months in paragraph (e)(3)(i) of this section, will constitute a period of twelve months.

(4) If the new, expanded or reactivated "petrochemical capacity" has been onstream for at least one year as of December 31, of the allocation period immediately preceding the allocation period for which the allocation is requested, the allocation shall be based on actual inputs to the facility (divided by 365), calculated as in paragraph (f)(1) of this section, to the facility during the preceding twelve months ending December 31: *Provided*, That the facility will not have been onstream in excess of sixty months during the allocation period for which the allocation is requested.

(5) If the new, expanded or reactivated "petrochemical capacity" has not been onstream for a period of sixty months after earning an allocation under subparagraph (4) of this paragraph (e), an allocation will be made for the next allocation year based on actual inputs (divided by 365), calculated as in paragraph (f)(1) of this section, for the year ending December 31 of the previous allocation year. In computing the allocation, the Director will determine the number of days which, when added to the actual operating period in the previous allocation years, will constitute a period of sixty months. The facility will for this number of days, earn an allocation under this § 213.30.

(f)(1) The Director shall issue allocations with respect to new, expanded or reactivated "petrochemical capacity" based on inputs which will be calculated in the following manner:

$$\frac{\text{Total weight in pounds of actual and estimated carbon and hydrogen from qualified "petrochemical capacity inputs" contained in petrochemicals produced during any applicable allocation period}}{200} = \text{Qualified inputs for the allocation period in barrels}$$

(2) The allocation shall be equal to the qualified inputs, calculated as in paragraph (f)(1) of this section, to such facilities as determined in paragraph (e)(2), (3), (4) or (5) of this § 213.30, whichever is applicable.

(3) For purposes of this section, where a person produced a petrochemical from a combination of inputs which qualify, under paragraph (c) of this section and inputs which do not so qualify, the hydrogen and carbon content of the produced petrochemical shall be deemed to have been derived entirely from the qualified inputs to the full extent of such qualified inputs except that such hydrogen and carbon shall not be deemed to have been derived from a qualified input from which the carbon and hydrogen could not actually have been derived.

(g)(1) If an allocation based in whole or in part on estimated inputs, calculated as in paragraph (f)(1) of this section, is made to an applicant pursuant to this section, the actual inputs calculated as a basis for allocations in the next succeeding allocation period or periods for which the applicant applies for an allocation or allocations under this regulation shall be adjusted upward or downward to compensate for the difference between the calculated estimated inputs and actual inputs made during the period for which inputs were estimated.

(2) If the calculated estimated inputs upon which an allocation is based exceed the calculated actual inputs made by more than ten percent of the calculated estimated inputs, then, in addition to the adjustment downward provided by paragraph (g)(1) of this section, the applicant shall be penalized for the overestimate as provided in this subparagraph (2). As a penalty, the calculated actual inputs submitted by the applicant as a basis for allocation for the next succeeding period or periods for which the applicant applies for an allocation or allocations under this regulation shall be further reduced by the number of barrels by which the calculated estimated inputs exceeded the calculated inputs by more than ten percent. However, to the extent that an applicant demonstrates to the satisfaction of the Director that the excess of calculated estimated inputs over calculated actual inputs was attributable to acts of God, fire, government action, explosion, labor disputes, or other similar circumstance beyond the applicant's control, the Director may waive the penalty or reduce the number of barrels of excess for which the penalty will be imposed. Persons applying for and receiving allocations under this section whose new, expanded or reactivated "petrochemical capacity" fails to come on stream within the allocation period may be denied any allocation for the next succeeding period. The Director may elect not to apply this penalty in those cases where the applicant demonstrates to the satisfaction of the Director that a substantial effort was made to complete and to start up such facility and that the person's failure was attributable to acts of God, fire, government action, explosion, labor disputes or other similar circumstance beyond the applicant's control.

(3)(i) Any person who has been granted an allocation for a new expanded or reactivated "petrochemical capacity" in Districts I–IV, District V or Puerto Rico may avoid the penalty prescribed in paragraph (g)(2) of this section by returning on or before January 31 of the period for which the allocation was granted such a license or licenses for a downward adjustment, or, in lieu of returning such license or licenses, returning for downward adjustment a license issued to the person under section 213.9.

(ii) A request by an applicant who has received an allocation and license under this section for a downward adjustment shall be made in writing to the Director on or before January 31 of the allocation period for which the allocation and license were granted.

(4) The Director shall not issue a license under an allocation made pursuant to this section until (i) an on-the-spot evaluation of the new, expanded or reactivated "petrochemical capacity" has been conducted by compliance representatives of FEA and (ii) a written determination has been made by the Director that the facility is a bona fide "petrochemical capacity" as certified in the application, and that construction or reactivation has so far progressed that, in the Director's judgment, the plant will within the calendar quarter following the date of such determination be ready for start-up and trials.

(h) No license issued for allocation made under this section may be sold, assigned, or otherwise transferred.

(i)(1) As used in this § 213.30 "expanded petrochemical capacity" includes expansion of existing facilities by the addition of equipment, such as, but not limited to, stills, towers, pumps, and conversion units, or such additions to or modification of existing "petrochemical capacity" or petrochemical plant or identifiable "petrochemical capacity" or petrochemical plant capacity within an existing "petrochemical capacity" or petrochemical plant as have resulted in an increased petrochemical production capability of not less than fifteen percent

above the base capacity established for the particular "petrochemical capacity" or petrochemical plant under consideration. The base capacity will be the average of the sums of the certified production of each petrochemical produced in the particular "petrochemical capacity" or petrochemical plant or identifiable "petrochemical capacity" or petrochemical plant capacity being expanded for the highest two of the last three input years.

(2) As used in this § 213.30, "reactivated petrochemical capacity" means restoration to operation of "petrochemical capacity" which had been shut down for not less than twelve months immediately preceding its reactivation.

(j) An allocation made pursuant to this section shall entitle a person to a license or licenses which will allow the importation of unfinished oils in an amount not exceeding, in the aggregate, 15% of the person's allocation. However, the Director shall permit a person holding such an allocation to import unfinished oils in an amount up to 100% of the allocation upon certification by him to the Director that such imported unfinished oils will not be exchanged, that such unfinished oils will be processed entirely in the petitioner's "petrochemical facilities," that the person will not charge to anyone of his plants a quantity of such unfinished oils in excess of the allocation made with respect to each such plant. The Director may, in special circumstances, permit a person holding such an allocation to import up to 100% of his allocation in the form of unfinished oils and to exchange such imports for like domestic material to be run entirely in the petitioner's "petrochemical facilities" in an amount not in excess of the allocation made with respect to each such plant. Annually beginning May 1, 1974, the maximum amount of the person's allocation which may be imported under this section as unfinished oil will be reduced by the following percentage.

For Year Commencing	*Percent Reduction of Person's Allocation of Unfinished Oils Imported Under This Section*
May 1, 1974	10
May 1, 1975	20
May 1, 1976	35
May 1, 1977	50
May 1, 1978	65
May 1, 1979	80
May 1, 1980	100

(k) A person who imports crude oil or unfinished oils under an allocation made under this section, except as provided in paragraph (j) of this section, may exchange his imported crude oil either for domestic crude oil or for domestic unfinished oils or exchange his imported unfinished oils either for domestic unfinished oils or for domestic crude oil. All such exchanges shall be governed by the provisions of § 213.22.

(l) The hydrocarbon content of materials upon which an allocation under § 213.9 or § 213.11 of this regulation is based will not qualify as a basis for an allocation under this section.

(m) An applicant may not receive an allocation under this § 213.30 for new, expanded or reactivated "petrochemical capacity" for which inputs have been included in applications filed pursuant to § 213.9.

§ 213.31 Allocations of unfinished oils—Districts I–IV based on production of low sulphur residual fuel oil in Districts I–IV.

(a) As used in this section:

(1) "Low sulphur residual fuel oil" means residual fuel oil:

(i) Which is manufactured in Districts I–IV, and

(ii) Which contains not more than 1 percent of sulphur by weight, and

(iii) Which is delivered (either directly by the manufacturer or by others following its sale by him) to customers in Districts I–IV who must burn such fuel in order to comply with Federal, State, or local requirements;

(2) "Western Hemisphere" means North America, Central America, South America, and the West Indies;

(3) "Desulphurization facility" means a facility which includes equipment for removing sulphur or sulphur compounds from residual fuel oil and which produces low sulphur residual fuel oil.

(b) This section provides for the making of allocations of imports into Districts I–IV of residual fuel oil or fuel oil based upon the production or estimated production of low sulphur residual fuel oil. Allocations made by the Director under this § 213.31 shall be in addition to allocations made under other sections of this Part, and the Director shall make allocations under this section without respect to the quantity of imports available for allocation in Districts I–IV for a particular allocation period under other sections of this Part. To the extent that the provisions of this section are inconsistent with the provisions of other sections of this Part, the provisions of this section shall be controlling.

(c) (1) A person who manufactures low sulphur residual fuel oil in a desulphurization facility by desulphurization of residual fuel oil containing at least 2 percent sulphur by weight which was derived from crude oil produced in the Western Hemisphere shall receive an allocation of imports of residual fuel oil equal to the amount in barrels of low sulphur residual fuel oil so manufactured. Residual fuel oil imported under such an allocation must be derived from crude oil produced in the Western Hemisphere and must be processed other than by blending by mechanical means either by the person to whom the allocation is made or by the person receiving the residual fuel oil under an exchange agreement.

(2) Upon a showing satisfactory to the Director that the construction of a desulphurization facility has been or is about to be completed, the person owning the facility shall be entitled to an initial specific allocation of imports of residual fuel oil on the basis of the quantity of low sulphur fuel oil which he estimates will be produced by the facility during a period of 90 days following the day the facility goes on stream. No license shall be issued under such an allocation earlier than 45 days prior to the date that the newly constructed desulphurization facility is scheduled to go on stream, except in such amounts as may be required for starting and testing the new desulphurization facility, and in no event shall a license be issued under such an allocation until an on-the-spot inspection of the new facility has been conducted by authorized representatives of FEA and a determination has been made that the newly constructed facility will have the operational potential which the applicant has certified to in his application, and that it appears that construction will be completed. The Director may make further specific allocations based on the production estimated for succeeding periods of 90 days each. Residual fuel oil imported under such an allocation must be derived from crude oil produced in the Western Hemisphere and must be processed other than by blending by mechanical means either by the person to whom the allocation is made or by the person receiving the residual fuel oil under an exchange agreement.

(3) In order to encourage the construction of new desulphurization facilities in Districts I–IV the Administrator of the Federal Energy Administration may make a general allocation to an applicant if the Administrator is satisfied that an applicant's proposal to construct a desulphurization facility in Districts I–IV constitutes a bona fide business venture and that the construction of such facility will be carried to completion within a reasonable time. Such a general allocation may provide that the applicant shall be entitled, for such a period of time as the Administrator may determine, to specific allocations of imports of residual fuel oil as provided in subparagraph (1) of this paragraph and to initial allocations as provided in subparagraph (2) of this paragraph and to specific allocations as provided in paragraph (d) of this section.

(d) A person who produces low sulphur residual fuel oil by mechanically blending residual fuel oil to be used as fuel which has a viscosity not greater than 275 Saybolt Furol seconds at 122° F., which contains over 1.5 percent sulphur by weight, and which is derived from crude oil produced in the Western Hemisphere with distillate fuel oil which has a viscosity in the range of 22–40 Saybolt Universal seconds at 100° F. and which is manufactured in his refinery capacity or desulphurization facility in Districts I–IV shall receive an allocation of imports of fuel oil equal to the amount in barrels of the fuel oil which had a viscosity in the range of 22–40 Saybolt Universal seconds at 100° F. which was manufactured in his refinery capacity or desulphurization unit, and which was mechanically blended to produce low sulphur residual fuel oil. Fuel oil imported under such an allocation must have a viscosity within 2.0 Saybolt Universal seconds at 100° F., plus or minus,

of the viscosity of the distillate fuel oil used for blending, must be derived from crude oil produced in the Western Hemisphere, and must be processed other than by blending by mechanical means either by the person to whom the allocation is made or by the person receiving the residual fuel oil or fuel oil under an exchange agreement.

(e) For the purpose of computing import allocations under sections 213.9, 213.12, and 213.29, neither residual fuel oil or fuel oil imported pursuant to an allocation made under this § 213.31 nor domestic oil received in exchange pursuant to the provisions of § 213.22 will qualify as either refinery inputs or petrochemical plant inputs. However, the person receiving the imported residual fuel oil or fuel oil under an exchange agreement pursuant to § 213.22 may count such oils as such inputs.

(f) The Director shall make an allocation under subparagraph (1) of paragraph (c) or paragraph (d) of this section only upon receipt from an applicant of a certification satisfactory to the Director with respect to the following matters pertaining to the production and delivery of the low sulphur residual fuel oil forming the basis of the application:

(1) Location of plant in which produced,

(2) Amount and sulphur content,

(3) Source of crude oil from which unfinished oils were produced,

(4) Source and disposition of unfinished oils,

(5) Delivery, either directly by applicant or by others following sale by applicant, to customers in Districts I–IV who are required to burn such fuel oil in order to comply with Federal, State or local requirements.

A similar certification as to prospective operations shall be made by an applicant for an allocation under subparagraphs (2) and (3) of paragraph (c). The Director may prescribe the form of certifications. An application for an allocation may be filed at any time. To apply for an allocation of imports under this section, an application must be filed with the Director in such form as he may prescribe. The Director may fix a period of time (not less than 180 days) for the expiration of licenses issued pursuant to specific allocations made under this section.

(g) No allocation made under this section shall be sold, assigned, or otherwise transferred.

[Note: Indefinitely suspended. 38 FR 7535]

§ 213.32 Allocations of low sulphur residual fuel oil—District V.

(a) This section provides for the making of allocations of imports, not subject to license fee, into District V of low sulphur residual fuel oil to be used as fuel in District V. As used in this § 213.32, "low sulphur residual fuel oil" means (1) residual fuel oil to be used as fuel which is manfactured or produced in a foreign area and which contains not more than five-tenths of one percent (0.5%) sulphur by weight, or (2) residual fuel oil to be used as fuel which is manufactured by facilities in a foreign trade zone located in District V and which has a sulphur content not exceeding the percent by weight required by local government requirements.

(b) To be eligible for an allocation not subject to license fee of low sulphur residual fuel oil under this section a person must:

(1) Be in the business in District V of selling residual fuel oil to be used as fuel and have under his management and operational control a deepwater terminal located in District V into which there has been delivered low sulphur residual fuel oil to be used as fuel which he owned at the time of delivery, such delivery being the first delivery of that oil into a deepwater terminal in District V; or

(2) Be in the business in District V of selling residual fuel oil to be used as fuel and have a throughput agreement (warehouse agreement) with a deepwater terminal operator under which agreement the person has delivered to the terminal low sulphur residual fuel oil to be used as fuel which he owned when it was so delivered, such delivery being the first delivery of that oil into a deepwater terminal in District V. For the purposes of this section, "throughput agreement" means an agreement which provides for the delivery to a deepwater terminal by a person of residual fuel oil which he owns and for a right in such person to withdraw on call an identical quantity of such oil from the terminal. A bona fide throughput agreement will be deemed to exist only if the person operating under the agreement owns the oil at the time it is delivered to the terminal and only if that delivery is the first delivery of that oil into a deepwater terminal in District V.

(c) A person seeking an import allocation not subject to license fee pursuant to this section must file an application with the Director on such form as he may prescribe. The application shall disclose such information as the Director may deem necessary in such detail as he may require. Applications must be filed in accordance with the provisions of section 213.5.

(d) For the allocation period May 1, 1974, through April 30, 1975, each eligible applicant under this section shall receive an allocation not subject to license fee to import low sulphur residual fuel oil into District V to be used as fuel in District V computed according to the following formula:

$$\frac{\text{Applicant's average B/D allocation made pursuant to § 213.32 for the allocation period January 1, 1973 through April 30, 1974}}{\text{Average B/D allocations made pursuant to § 213.32 to all applicants for the allocation period January 1, 1973 through April 30, 1974}} \times 68{,}040 \text{ B/D}$$

(e) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred. Licenses issued under allocations made pursuant to this section shall permit the importation only of residual fuel oil into District V for use as fuel oil in District V.

§ 213.33 Canadian Imports—Districts I–IV.

(a) As used in this section, the term "Canadian imports" means imports from Canada of crude oil which has been produced in Canada and unfinished oils which have been derived from crude oil or natural gas produced in Canada and which have been transported into the United States by overland means or over waterways other than ocean waterways.

(b) To be eligible for an allocation of imports under this section, a person must have in Districts I–IV a facility capable of processing Canadian imports.

(c) The Director shall, in accordance with the terms of paragraph (d)(1) of this section, make allocations for the allocation period May 1, 1974 through April 30, 1975 of not to exceed 762,000 average barrels daily of Canadian imports into Districts I–IV.

(d)(1) The Director shall make allocations not subject to license fees of Canadian imports to eligible applicants who received allocations of such imports for the period January 1, 1973 through December 31, 1973, pursuant to § 213.28 or from the Oil Import Appeals Board under § 213.26, or from both. Each such applicant shall be entitled to an allocation of Canadian imports calculated in accordance with the following formula:

$$\frac{\text{Sum of each eligible applicant's allocation of Canadian imports in 1973 pursuant to §§ 213.28 and 213.26 expressed in barrels per day}}{\text{Sum of all allocations of Canadian imports in 1973 pursuant to §§ 213.28 and 213.26 expressed in barrels per day}} \times 762{,}000 \text{ barrels/day}$$

(2) The Director shall issue before May 1, 1974 to each eligible applicant a license equal to one half of the allocation calculated pursuant to subparagraph (1) of this paragraph. Such licenses shall expire on October 31, 1974 unless extended by the Director. The Director shall issue before November 1, 1974 a second license to each eligible applicant equal to the remainder of the allocation calculated pursuant to subparagraph (1) of this paragraph. Such licenses shall expire on April 30, 1975.

(e)(1) Except as provided for in subparagraph (2) of this paragraph a person who imports Canadian imports must process all such imports in his own facility. For the purpose of this paragraph,

XUM

blending by mechanical means does not constitute processing.

(2) (i) Canadian imports may be exchanged on a barrel for barrel basis for other Canadian imports but each person receiving crude oil or unfinished oils in the exchange must process the crude oil or unfinished oil received in his own facilities. Settlements, credits, monetary, or accounting adjustments reflecting the relative values of the oils involved in the exchange are permissible .

(ii) Canadian imports which are sold to meet the requirements of regulations published by the Federal Energy Administration shall not be subject to the provisions of paragraph (e) of this section.

(f) If a person who receives an allocation of Canadian imports under this section fails to import the total quantity of imports specified in the allocation, or if he fails to process all such imports (or Canadian imports received in exchange for such imports) in his facilities before July 1, 1975, or if he fails to meet the requirement of paragraph (e) of this section, then any allocation of Canadian imports for Districts I–IV to which such person may otherwise be entitled for the first allocation period beginning after April 30, 1975 shall be reduced by the Director by the amount of Canadian imports which such person has failed to import, or by the amount of Canadian imports and exchanged oil which such person has failed to process in his facilities before July 1, 1975 or by the amount of Canadian imports by which he failed to meet the requirements of paragraph (e) of this section, except that the Director need not make such a reduction to the extent that (1) such person demonstrates to the satisfaction of the Director that such failures were without such person's fault and were beyond his control, or (2) such person on or before September 1, 1974, in writing, relinquishes all or part of an allocation made under this section and returns to the Director licenses issued thereunder.

(g) Any allocation relinquished by a person pursuant to paragraph (f) of this section shall be reallocated to all eligible applicants in the same proportion that each received an allocation under paragraph (d)(1) of this section.

(h) A person to whom an allocation is made by the Director under this section shall report and certify in writing to the Director, not later than July 15, 1974, (1) the total quantity of Canadian imports which that person imported during the period January 1, 1973 through April 30, 1974, pursuant to an allocation made under § 213.28, and (2) the quantity of such imports that were processed in his facilities before July 1, 1974. The amount so reported and certified shall be subject to verification by the Director. If a person to whom an allocation is made under this section fails to file by July 15, 1974 the written report and certification required by this paragraph, the Director shall suspend all licenses issued under an allocation made under this section until the written report and certification are received.

(i) An allocation made pursuant to this section shall not be sold, assigned or otherwise transferred.

(j) An application for an allocation under this section shall be made by letter or telegram to the Director, Oil Imports, P.O. Box 7414, Washington, D.C. 20044, unless an application has been previously filed. Applications must have been received by April 15, 1974. An application must contain the following information, which shall be certified by an officer of the applicant:

(1) The nature of each of the applicant's facilities in which Canadian imports will be processed.

(2) The location of each such facility.

(3) The total barrels of Canadian imports and other qualified inputs processed in each such facility during the calendar year ending December 31, 1973.

§ 213.34 Allocations of No. 2 fuel oil—District I.

(a) For the purposes of this section:

(1) The term "No. 2 fuel oil" means a finished product which has the following physical and chemical characteristics:

Closed cup flashpoint, degrees Fahrenheit.	Minimum 100.
Pour point, degrees Fahrenheit.	Maximum 20.
Water and sediment, percent.	Maximum 0.10.
Carbon residue on 10 percent residuum percent.	Maximum 0.35.
Distillation temperature degrees Fahrenheit, 90 percent point.	Maximum 675, Minimum 540.
Viscosity, Saybolt Universal seconds at 100° F.	Maximum 40.0, Minimum 33.0.
Gravity API	Minimum 30.0.

(2) The term "Western Hemisphere" means North America, Central America, South America, and the West Indies.

(3) The term "deepwater terminal" means a permanent land installation which:

(i) Consists of bulk storage tanks having not less than 100,000 barrels of operational capacity, pumps and pipelines used for storage, transfer and handling of No. 2 fuel oil;

(ii) Is on waterways that permit the safe passage to the installation of a tanker rated 15,000 cargo deadweight tons, drawing not less than 25 feet of water; and

(iii) Has a berth that will permit the delivery of No. 2 fuel oil into the installation by direct connection from a tanker rated at 15,000 cargo deadweight tons, drawing not less than 25 feet of water, and moored in berth. Cargo deadweight tons represent the carrying capacity of a tanker, in tons of 2,240 pounds, less the weight of fuel, water, stores and other items necessary for use on a voyage.

(4) The term "throughput agreement" means a written agreement which provides for the delivery to a deepwater terminal by a person of No. 2 fuel oil which he owns at the time of delivery to the terminal and for a right in such person to withdraw on call an identical quantity of such oil from the terminal. Any transaction between persons involving sales, purchases, or exchanges of No. 2 fuel oil which were designed to gain allocation benefits for a person who would not otherwise be eligible shall not be deemed to constitute a throughput agreement.

(b) For the allocation period May 1, 1974, through April 30, 1975, 45,000 barrels per day of imports of No. 2 fuel oil, which is manufactured in the Western Hemisphere from crude oil produced in the Western Hemisphere,[1] will be available for allocations in District I to eligible persons having qualified terminal inputs of No. 2 fuel oil in this district.

(c) (1) Except as provided in paragraph (c)(2) of this section, a person shall be eligible for an allocation of imports into District I of No. 2 fuel oil under paragraph (e) of this section:

(i) If he is in the business in District I of selling No. 2 fuel oil, has under his management and operational control a deepwater terminal which is located in District I and in which No. 2 fuel oil is handled, does not have a crude oil import allocation into Districts I–V or Puerto Rico under §§ 213.9, 213.12, 213.13, 213.20, 213.29 or 213.30 and who, in the allocation period beginning prior to January 1, 1973, had received from the Secretary of the Interior an allocation of imports into District I of No. 2 fuel oil.

(ii) If he is in the business in District I of selling No. 2 fuel oil and has a throughput agreement with a deepwater terminal operator in District I who does not have a crude oil import allocation into Districts I–V or Puerto Rico under §§ 213.9, 213.12, 213.13, 213.20, 213.29 or 213.30 and who in the allocation period beginning prior to January 1, 1973, had received from the Secretary of the Interior an allocation of imports into District I of No. 2 fuel oil.

(2) No person who has an allocation of imports into Districts I–V or Puerto Rico of crude oil under §§ 213.9, 213.12, 213.13, 213.20, 213.29, or 213.30 shall be

[1] The Chairman of the Oil Policy Committee (now the Administrator of the Federal Energy Administration) has advised that, because of supply, price, and other considerations, he finds that the requirement, contained in section 2(a)(1) of Proclamation 3279, as amended, that No. 2 fuel oil be manufactured in the Western Hemisphere from crude oil produced in the Western Hemisphere, is unduly restricting the availability of such oil for importation into District I and is not required for the national security. Accordingly, such requirement is hereby suspended. On September 1 of each year that this suspension continues, the Deputy Secretary of the Treasury, in accordance with his surveillance responsibilities, shall examine the imports by deepwater terminal operators to determine whether Western Hemisphere imports have equalled 16,425,000 total barrels or exceeded the equivalent of 45,000 barrels per day on an annual basis, and, if not, whether supply, price, and other considerations warrant reimposition of the Western Hemisphere preference requirements. He shall so advise the Administrator who shall then take such steps as are necessary to insure that, to the extent available, license fee-exempt imports of No. 2 fuel oil from Western Hemisphere sources shall equal the annual equivalent of this amount.

eligible for an allocation under paragraph (e) of this section.

(d) Persons seeking an allocation under this section must file an application with the Director on such form as he may prescribe. Applications must be filed in accordance with the provision of § 213.5.

(e) For the allocation period May 1, 1974 through April 30, 1975, each eligible applicant under this section shall receive an allocation of imports into District I of No. 2 fuel oil equal to 90 percent of the quantity allocated to him during the allocation period beginning January 1, 1973. Any volume of No. 2 fuel oil available for allocation but not allocated pursuant to the first sentence of this subparagraph shall be allocated among eligible applicants in the proportion each eligible applicant's allocation bears to the total allocated pursuant to the first sentence of this subparagraph.

(f) (1) An eligible applicant may count as qualified terminal inputs quantities of No. 2 fuel oil:

(i) Which were delivered during the period into a deepwater terminal in District I which was under his management and operational control or into a deepwater terminal with which the eligible applicant had a throughput agreement before the oil was delivered if he owned the oil when it was placed in the terminal and if the delivery constituted the first delivery of that oil to a deepwater terminal in District I, or;

(ii) Which the applicant owned, sold to a Federal agency or to an agency of a State or a political subdivision of a State, and delivered during the base period to a deepwater terminal in District I for the account of such agency, providing such delivery constituted the first delivery of that oil to a deepwater terminal in District I; or

(iii) Which was delivered to applicant's deepwater terminal in District I as a first delivery into a deepwater terminal in District I under a written agreement to purchase such oil and to which, pursuant to such agreement, the applicant took title, during the base period upon its withdrawal by him from the terminal.

(2) For the purpose of this paragraph (f), storage of No. 2 fuel oil at a refinery in which the oil was produced or delivery of No. 2 fuel oil into a deepwater terminal under the management and operational control of a person who has an allocation of imports of crude oil into Districts I–IV, District V or Puerto Rico under §§ 213.9, 213.12, 213.13, 213.20, 213.29, or 213.30 shall not be deemed to be a first delivery to a deepwater terminal in District I.

(g) No allocation made pursuant to this section may be sold, assigned, or otherwise transferred. Except as provided in paragraph (h) of this section, licenses issued under allocations made pursuant to this section shall permit the importation only of No. 2 fuel oil. No. 2 fuel oil imported under an allocation made pursuant to this section shall be sold for use as fuel in District I.

(h) A person holding an allocation under this section may obtain from the Director a license which will permit him to import crude oil into Districts I–IV in quantity not exceeding the amount of such allocation, upon a certification to the Director, in such form as he may prescribe, that the allocation holder has entered into an agreement with a refiner in Districts I–IV under which the allocation holder will receive No. 2 fuel oil (in a ratio of not less than 1 barrel of No. 2 fuel oil for each barrel of crude oil) in exchange for such crude oil so that an amount of No. 2 fuel oil at least equal to that covered by the license will be used in District I. Any license so issued shall be charged against the allocation made under this section. No such crude oil license may be sold, assigned, or otherwise transferred. However, settlements, credits, and accounting adjustments reflecting the relative values of No. 2 fuel oil and the crude oil involved in the exchange are permissible.

§ 213.35 Allocations and fee-paid licenses for imports of crude oil, unfinished oils and finished products—Districts I–IV, District V, and Puerto Rico.

(a) Effective May 1, 1973, any person wishing to import crude oil, unfinished oils, or finished products into Districts I–IV, District V, or Puerto Rico may do so by filing an application with the Director in such form as the Director may prescribe.

(b) Allocations and licenses under this section will, to the fullest practicable extent, be made and issued by the Director within (10) days after his receipt of applications therefor. In no event will allocations be made and licenses issued by the Director within less than five (5) days after his receipt of applications therefor.

(c) (1) Except as provided in paragraph (c) (2) of this section applications for allocations and licenses under this section, to be issued at the rates prescribed in this section for a particular period and postmarked not later than midnight of the date in which such period expires, will qualify for issuance at the rate for the period in effect at the time the application was mailed. Any application for an allocation under this section postmarked later than midnight of the date upon which such period expires may at the option of the applicant be subject to the license fee applicable during the following license fee period or withdrawn. If the date upon which the period expires is a Saturday, Sunday, or holiday, the application will nevertheless qualify if it is postmarked not later than midnight of the next succeeding business day.

(2) With respect to imports from Canada of finished products made from Canadian crude or natural gas produced in Canada no import license is required and no license will be issued for the period prior to May 1, 1974. Persons wishing to import such finished products from Canada in the period beginning May 1, 1974 may file applications with the Director at any time beginning April 1, 1974. The effective date of licenses issued pursuant to such applications filed in April shall be May 1, 1974 or the actual date of issue, whichever is later, and the applicable license fees will be as shown in paragraph (i) (1) (ii) of this section for the period beginning May 1, 1974.

(d) Applications for allocations under this section shall be accompanied by the applicant's certified check, or a cashier's check, payable to the order of the Treasurer of the United States in the amount chargeable pursuant to paragraph (i) of this section or by a bond with a surety on the list of acceptable sureties on Federal bonds maintained by the Bureau of Accounts, Department of the Treasury, in the sum not less than the amount chargeable pursuant to paragraph (i) of this section, conditioned upon payment to the order of the Treasurer of the United States, within thirty (30) calendar days from the date of entry or withdrawal from warehouse for consumption of the commodities for the importation of which a license or licenses have issued, in the amount chargeable pursuant to paragraph (i) of this section. In the event that such bond is terminated or the face value of the bond is reduced below the outstanding liability of licenses issued pursuant to the bond, the Director shall immediately revoke all licenses issued pursuant to the bond. Applications not accompanied by a certified check, cashier's check, or bond in the amount required shall not be considered. Applications by or for the account of a department, establishment, or agency of the United States need not be accompanied by a certified check or cashier's check or a bond as required by this paragraph.

(e) Separate licenses will be issued for crude oil, motor gasoline, and for all other finished products and unfinished oils.

(f) Allocations and licenses for imports of crude oil, unfinished oils and finished products made under this section shall be valid for six (6) months following the date of their issuance.

(g) Refund of license fees paid for the importation of crude, unfinished oils or finished products shall be made by the Director, wholly or in part:

(1) where the licensee has failed to use, wholly or in part, the license issued to him. Applications for such refunds must be filed in such form as the Director may prescribe not later than ninety (90) days after expiration of said license for which the refund is requested.

(2) where refund of license fees, in whole or in part, is ordered by the Oil Import Appeals Board.

(3) to the extent that such crude oils or unfinished oils have been incorporated into petrochemicals as defined in § 213.10 which are subsequently exported, or finished products subsequently exported or that asphalt as defined in § 213.27 was produced from the imported feedstocks. Applications for refunds must be filed in such form as the Director may prescribe

not later than ninety (90) days after exportation of the petrochemical or finished product or manufacture of the asphalt to which such application pertains; and shall be accompanied by all information necessary in the judgment of the Director to enable him to determine the sum, if any, which should be refunded.

(4) to the extent that they reflect volume adjustments made subsequent to entries made against the license at the time of importation, such as corrections made by Customs of contained basic sediment and water, corrections of mistakes made in calculating tank volumes, or corrections of mistakes made in calculating volumes to standard temperature. Applications for such refunds must be filed in such form as the Director may prescribe, not later than ninety (90) days after the date of the last entry of imports made against the license.

(5) in the event it is determined after entry that a particular shipment of crude oil, unfinished oils, or finished products imported pursuant to a license for which a license fee has been paid should in fact have been assessed a license fee at a lower rate. In such cases the Director will make refunds for the overpayment of license fees as soon as practicable after notification by the District Director of Customs that a lower license fee is applicable.

(h)(1) In the event the volume of a particular shipment of crude oil, unfinished oils, or finished products being imported pursuant to a license to which a license fee is applicable exceeds the volume stated on the license against which the material is being imported by five (5) percent or less the District Director of Customs may permit the entry of the excess without license. The importer, however, must within ten (10) days of such entry remit payment to the Director by certified check or a cashier's check payable to the order of the Treasurer of the United States for the fee on the excess entered without license at the same rate such fee was paid for the license.

(2) In the event it is determined after entry that a particular shipment of crude oil, unfinished oils, or finished products imported pursuant to a license for which a license fee has been paid should in fact have been assessed a higher license fee the importer must within thirty (30) days after notification by the District Director of Customs that a higher license fee is applicable remit payment to the Director by certified chreck or a cashier's check payable to the Treasurer of the United States for the sum of the additional license fee due.

(3) In the event an importer fails to comply with the terms set forth in paragraph (h) (1) and (2) of this section, a penalty shall be assessed equal to the additional license fee due. The Director shall collect both the additional license fee due and the penalty due before entertaining any further applications from said importer for additional fee paid licenses.

(i) (1) Fees payable for licenses issued under allocations of imports of unfinished oils and finished products shall be in accordance with the following schedule:

(i) with respect to imports, other than imports from Canada of motor gasoline and finished products, such fees shall be:

FEE SCHEDULE

[Cents Per Barrel]

	May 1, 1973	Nov. 1, 1973	May 1, 1974	Nov. 1, 1974	May 1, 1975	Nov. 1, 1975
Crude	10.5	11.0	11.5	12.0	13.5	14.0

Motor Gasoline	31.5	31.5	41.0	41.0	80.4	80.4	96.0	96.0
Other finished products (but not including ethane, propane, butanes, or asphalt)	31.5	31.5	41.0	41.0	80.4	80.4	96.0	96.0

(2) License fees payable for imports of motor gasoline or other finished products or unfinished oils, manufactured in American Samoa, Guam, or the Virgin Islands or in a foreign trade zone and transported to the Customs territory of the United States by overland means or by vessel or vessels under United States registry, shall be at the rate applicable to the feedstock from which such motor gasoline or other finished product or unfinished oil was manufactured: *Provided*, That, such rate shall apply also in cases where the holder of the license establishes to the satisfaction of the Director that he made a good faith attempt to arrange shipment by vessel under United States registry and that no such vessel was available for the purpose at the time this shipment was made."

(j) Persons seeking to import natural gas products under a duly issued natural gas products license shall certify the country of origin to the appropriate Customs Office at the port of entry. Such natural gas products may be commingled with crude oil or other unfinished oils for purposes of transportation and may be reseparated prior to importation or imported as a mixture: *Provided*, That the importer certifies as to the volume of natural gas products contained.

§ 213.36 Canadian imports, District V.

(a) For the allocation period May 1, 1974, through April 30, 1975, the Director shall allocate, as provided in paragraph (c) of this section, approximately 252,000 average barrels daily of Canadian imports into District V among eligible persons having refinery capacity in this district.

(b) As used in this section, the term "Canadian imports" means imports from Canada of crude oil which has been produced in Canada and unfinished oils except ethane, propane, and butanes which have been derived from crude oil or natural gas liquids produced in Canada and which have been transported into the United States by overland means or over waterways other than ocean waterways.

(c)(1) The Director shall make allocations not subject to license fee to each eligible applicant for the allocation period beginning May 1 of each year on the basis of the pro rata share of the allocation of Canadian imports into District V made to each applicant for the calendar year 1973, relative to the total of all allocations of Canadian imports made to all applicants for the calendar year 1973.

(2) The Director shall issue before May 1, 1974 to each eligible applicant a license equal to one half of the allocation calculated pursuant to subparagraph (1) of this paragraph. Such licenses shall expire on October 31, 1974 unless extended by the Director. The Director shall issue before November 1, 1974 a second license to each eligible applicant equal to the remainder of the allocation calculated pursuant to subparagraph (1) of this paragraph. Such licenses shall expire on April 30, 1975.

(d) Each eligible applicant desiring an allocation under this section shall make application by letter to the Director, by April 15, 1974.

Such applications shall include the location of the facility in which the Canadian imports will be processed and shall be signed by an officer of the company.

(e) No allocation made pursuant to this section shall be sold, assigned, or otherwise transferred.

(f) Licenses issued pursuant to this section shall permit the entry or withdrawal from warehouse for consumption of Canadian imports only into District V. Except for licenses issued pursuant to §§ 213.36, 213.35, and 213.26 when Canadian imports into District V are specifically granted by the Oil Import Appeals Board no other licenses pursuant to this regulation shall permit the importation of Canadian imports into District V.

§ 213.37 Mexican imports, Districts I–IV and District V.

(a) For the allocation period May 1, 1974 through April 30, 1975, the Director shall allocate, as provided in paragraph (c) of this section, approximately 29,250 average barrels daily of Mexican imports into Districts I–IV and District V.

(b) As used in this section, the term "Mexican imports" means imports from Mexico of crude oil which has been produced in Mexico and unfinished oils except ethane, propane, and butanes which have been derived from crude oil or natural gas liquids produced in Mexico.

(c) The Director shall make allocations to each eligible applicant for the allocation period May 1, 1974 through April 30, 1975 and subsequent allocation periods on the basis of the pro rata share of Mexican imports made by each applicant during the calendar year 1972, relative to the total of all Mexican imports made by all applicants during the calendar year 1972.

(d) Each eligible applicant shall make applications for an allocation under this section by letter only signed by an officer of the company. Applications will be in accordance with the provisions of § 213.5

(e) No allocation made pursuant to this section shall be sold, assigned, or otherwise transferred.

§ 213.38 Imports of Canadian natural gas products—Districts I–IV.

(a) For each twelve month allocation period beginning May 1, of each year the Director shall in accordance with paragraph (c) of this section make allocations for the importation into Districts I–IV of natural gas products derived from Canadian natural gas.

(b) To be eligible for an allocation of imports under paragraph (c) of this section, a person must have imported Canadian natural gas products into Districts I–IV during the calendar year 1973.

(c) For the allocation period May 1, 1974, through April 30, 1975, the Director shall make allocations not subject to license fees to eligible applicants in accordance with the following formula:

$$\frac{\text{Eligible applicant's imports of Canadian natural gas products imported in 1973}}{\text{Total of Canadian natural gas products imported by all eligible applicants in 1973}} \times 101{,}700 \text{ B/D}$$

(d) Applications for an allocation under this section must be filed in accordance with § 213.5.

XUM V 39 N 252 DEC 31 1974 XUM V

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Board of Parole

[28 CFR Part 2]

PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS AND JUVENILE DELINQUENTS

Proposed Rulemaking

Pursuant to the authority of 28 CFR, Chapter 1, Part O, Subpart V and 18 U.S.C. 4201–4210 and 5010–5037, notice is hereby given that the Board of Parole intends to adopt regulations governing parole, release, supervision and recommitment of prisoners, youth offenders and juvenile delinquents.

The Board does not acquiesce in the decision of the United States Court of Appeals for the District of Columbia Circuit in *Richard Pickus et al* v. *U.S. Board of Parole*. No. 73–1987 (October 12, 1974), holding that the Board is an "agency" within the meaning of 5 U.S.C. 551(1).

All interested persons who wish to make comments or suggestions in connection with the following proposed rules should send written statements to the United States Board of Parole, Federal Home Loan Bank Board Building, 320 First Street NW., Washington, D.C. 20537, Attention: Rulemaking Committee. All comments and suggestions should be submitted by March 3, 1975.

Dated: December 20, 1974.

MAURICE H. SIGLER,
Chairman,
United States Board of Parole.

EDITORIAL NOTE.—The text of the proposed regulation corresponds exactly to the text of the emergency regulations adopted by the Parole Board and published in the Rules and Regulations section of this issue. For the text and a detailed explanation of the changes see FR Doc. 74–30096 on p. 45223.

Agricultural Stabilization and Conservation Service

[7 CFR Part 724]

TOBACCO

Determinations on Marketing Quotas for the 1975–76, 1976–77, and 1977–78 Marketing Years

Pursuant to the Agricultural Adjustment Act of 1938, as amended (7 U.S.C. 1281 et seq., hereinafter referred to as the "Act"), the Secretary is preparing to proclaim national marketing quotas for cigar-binder (types 51 & 52) and cigar-filler and binder (types 42–44, 53–55) tobacco for the 1975–76, 1976–77, and 1977–78 marketing years. Within 30 days after the proclamation separate referendums will be conducted of farmers engaged in the 1974 production of cigar-binder (types 51 & 52), and cigar-filler and binder (types 42–44, 53–55) tobacco to determine whether they favor or oppose marketing quotas for such years. For fire-cured (type 21), fire cured (types 22–24), dark air-cured, Virginia sun-cured, cigar-binder (type 51 & 52), and cigar-filler and binder (types 42–44, 53–55) tobacco, each national marketing quota, each national acreage allotment, each national factor for apportioning the national allotment (less reserves) to old farms, and the amount of each national reserve and parts thereof available for (a) new farms and (b) making corrections and adjusting inequities in old farm allotments will be determined and announced for the 1975–76 marketing year.

The Act (7 U.S.C. 1312(a)) requires marketing quotas to be proclaimed not later than February 1, 1975, for cigar-binder (type 51 & 52) and cigar-filler and binder (types 42–44, and 53–55) tobacco for the three marketing years beginning October 1, 1975, because the 1974–75 marketing year is the last year of the three consecutive years for which marketing quotas previously proclaimed will be in effect.

Quotas were previously proclaimed and referenda conducted for the various kinds of tobacco with results as follows: fire-cured for the 1973–74, 1974–75, and 1975–76 marketing years, approved by growers (38 FR 9219); dark air-cured for the 1973–74, 1974–75, and 1975–76 marketing years, approved by growers (38 FR 9219); Virginia sun-cured for the 1974–75, 1975–76, and 1976–77 marketing years, approved by growers (39 FR 23985); cigar binder (types 51 & 52) for the 1972–73, 1973–74, and 1974–75 marketing years, approved by growers (37 FR 3422); and cigar-filler and binder (type 42–44, 53–55) for the 1972–73, 1973–74 and 1974–75 marketing years, approved by growers (37 FR 3422).

Section 301(b)(15) of the Act (7 U.S.C. 1301(b)(15)) defines "tobacco" as each one of the kinds of tobacco listed below comprising the types specified as classified in Service and Regulatory Announcement Numbered 118 (Part 30 of this title) of the former Bureau of Agricultural Economics of the Department:

Flue-cured tobacco, comprising types 11, 12, 13 & 14.
Fire-cured tobacco, comprising type 21.
Fire-cured tobacco, comprising types 22, 23, & 24.
Dark air-cured tobacco, comprising types 35 & 36.
Virginia sun-cured tobacco, comprising type 37.
Burley tobacco, comprising type 31.
Maryland tobacco, comprising type 32.
Cigar-filler and cigar binder tobacco, comprising types 42, 43, 44, 45, 46, 51, 52, 53, 54, & 55; and cigar filler tobacco, comprising type 41.

Section 301(b)(15) also provides that any one or more of the types comprising any such kind of tobacco shall be treated as a "kind of tobacco" for the purposes of the Act if the Secretary finds that there is a difference in supply and demand conditions as among such types of tobacco which results in a difference in the adjustments needed in the marketings thereof in order to maintain supplies in line with demand. Pursuant to this authority, the Secretary has determined (15 FR 8214) that type 46 tobacco shall be treated as a separate kind of tobacco for purposes of marketing quotas and price supports. Pursuant to such authority, the Secretary has also determined (22 FR 367) that cigar-binder (types 51 and 52) tobacco, beginning with the 1957–58 marketing year, shall be treated as a separate kind of tobacco for purposes of marketing quotas and price supports. Type 45 tobacco is no longer grown. No further action under this section is contemplated at this time.

Section 312(b) of the Act (7 U.S.C. 1312(b)) provides that the Secretary shall determine and announce, not later than the first day of February 1975 with respect to kinds other than flue-cured tobacco, the amount of the national marketing quota which will be in effect for the 1975–76 marketing year in terms of the total quantity of tobacco which may be marketed which will make available during such marketing year a supply of each kind of tobacco equal to the reserve supply level. Section 312(b) provides further that the amount of the 1975–76 national marketing quota (determined pursuant to such section) may, not later than March 1, 1975, be increased by not more than 20 per centum if the Secretary determines that such increase is necessary in order to meet market demands or to avoid undue restrictions of marketings in adjusting the total supply to the reserve supply level.

The Act (7 U.S.C. 1301(b)) defines the "total supply" of tobacco for any marketing year as the carry-over at the beginning of the marketing year (on January 1 of such marketing year in the case of Maryland tobacco) plus the estimated production in the United States during the calendar year in which such marketing year begins. "Reserve supply level" is defined as the normal supply plus 5 per centum thereof. "Normal supply" is

defined as a normal year's domestic consumption and exports, plus 175 per centum of a normal year's domestic consumption and 65 per centum of a normal year's exports. A "normal year's domestic consumption" is defined as the yearly average quantity produced in the United States and consumed in the United States during the 10 marketing years immediately preceding the marketing year in which such consumption is determined, adjusted for current trends in such consumption. A "normal year's exports" is defined as the yearly average quantity produced in the United States which was exported from the United States during the 10 marketing years immediately preceding the marketing year in which such exports are determined, adjusted for current trends in such exports.

The Act (7 U.S.C. 1312(c)) requires that within 30 days after national marketing quotas are proclaimed under section 312(a) of the Act for a kind of tobacco, a referendum shall be conducted of farmers engaged in the production of the crop of such kind of tobacco harvested immediately prior to the holding of the referendum to determine whether such farmers are in favor of or opposed to quotas for the next three succeeding marketing years. If more than one-third of the farmers voting in a referendum for a kind of tobacco oppose the quotas, such results shall be proclaimed by the Secretary and the national marketing quotas so proclaimed shall not be in effect but such results shall in no way affect or limit the subsequent submission to a referendum, as otherwise provided in § 312 of the Act (7 U.S.C. 1312), of national marketing quotas.

The Act (7 U.S.C. 1313(g)) authorizes the national marketing quota to be converted into a national acreage allotment on the basis of the national average yield for the five years immediately preceding the year in which the national marketing quota is proclaimed, and the national acreage allotment (less a reserve of not to exceed 1 per centum thereof for new farms and for making corrections and adjusting inequities in old farm allotments) to be apportioned among old farms.

The subjects and issues involved in making the determinations described in this notice are:

(1) The amount of the reserve supply level for fire-cured (type 21), fire-cured (types 22–24), dark air-cured, sun-cured, cigar binder (types 51 & 52) and cigar filler and binder (types 42–44, 53–55) tobacco.

(2) The amount of the national marketing quota for each of these kinds of tobacco for the 1975–76 marketing year.

(3) The national factor for apportioning national acreage allotments to old farms.

(4) The amounts of the national acreage allotments to be reserved for new farms, and for making corrections and adjusting inequities in old farm allotments.

(5) The date or period of the referendum on quotas for the 1975–76, 1976–77, and 1977–78 marketing years for cigar filler (types 51 & 52) and cigar filler and binder (types 42–44, 53–55), and whether the referendum should be conducted at polling places rather than by mail ballot.

Consideration will be given to data, views and recommendations pertaining to the proposed determinations covered by this notice which are submitted in writing to the Director, Tobacco and Peanut Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington D.C. 20250. All written submissions made pursuant to the notice will be made available for public inspection from 8:15 a.m. to 4:45 p.m., Monday through Friday, in Room 6741-South Building, 14th and Independence Avenue, SW., Washington, D.C. All submissions must, in order to be sure of consideration, be postmarked not later than January 14, 1975.

Signed at Washington, D.C. on: December 27, 1974.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Parts 100a, 184]

ETHNIC HERITAGE STUDIES PROGRAM

Notice of Proposed Rule Making

Pursuant to the authority contained in title IX of the Elementary and Secondary Education Act of 1965, as added by section 504 of the Education Amendments of 1972, Pub. L. 92-318 (20 U.S.C. 900a to 900a-5), and section 111 of the Education Amendments of 1974 (P. L. 93-380), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to add a new Part 184 to Title 45 of the Code of Federal Regulations setting forth regulations for the Ethnic Heritage Studies Program, and by amending § 100a.10 of Title 45 of the Code of Federal Regulations to include this program in the coverage of the Office of Education General Provisions Regulations (45 CFR 100a).

The Ethnic Heritage Studies Program is a discretionary grant program which will provide Federal financial assistance to eligible applicants for the development of curriculum materials, or for dissemination of curriculum materials or for training. Cooperation between grantees and persons and organizations which have a special interest in the ethnic group or groups with which the program is concerned is required. The advisory council provisions are designed to achieve effective participation of the ethnic and community group or groups. Cooperation with such groups is considered in the evaluation of applications.

The following proposed regulations are similar to the standards and funding criteria published at 39 FR 13297 on April 12, 1974 with revisions resulting from the changes in title IX of the ESEA made by section 111 of the Education Amendments of 1974 as well as changes made as a consequence of experience gained from the administration of the program in the preceeding year.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed regulations to the Ethnic Heritage Studies Program, U.S. Office of Education, Seventh and D Streets SW., Room 3907, ROB-3, Washington, D.C. 20202. Comments received in response to this Notice will be available for public inspection at the above office on Mondays through Fridays between 8:30 a.m. and 4 p.m.

All relevant material must be received not later than January 30, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.549, Ethnic Heritage Studies)

Dated: December 2, 1974.

T. H. BELL,
Commissioner of Education.

Approved: December 24, 1974.

FRANK CARLUCCI,
Acting Secretary of Health, Education, and Welfare.

Title 45 of the Code of Federal Regulations is amended as follows:

PART 100a—DIRECT PROJECT GRANT AND CONTRACT PROGRAMS

1. § 100a.10 is amended by adding a new paragraph (a)(33) to read as follows:

§ 100a.10 Scope.

(a) * * *

(33) Financial assistance for carrying out Ethnic Heritage Studies Programs under Title IX of the Elementary and Secondary Education Act.

(20 U.S.C. 900)

2. A new Part 184 is added, to read as follows:

PART 184—ETHNIC HERITAGE STUDIES PROGRAM

Subpart A—Purpose; Scope; Definition; General Provisions

Sec.
184.1 Purpose.
184.2 Definition.
184.3 Applicability and general provisions.

Subpart B—Authorized Activities and Program Advisory Councils

184.11 Authorized activities.
184.12 Advisory councils.

Subpart C—Eligibility and Applications for Assistance

184.21 Eligibility for financial assistance.
184.22 Application for assistance.
184.23 Costs.
184.24 Coordination of efforts.

Subpart D—Criteria

184.31 Criteria for assistance.

AUTHORITY: Title IX of ESEA as added by sections 901-902 of P.L. 92-318 (1972) (20 U.S.C. 900a-900a-5) and as amended by Section 111 of P.L. 93-380 (1974).

Subpart A—Purpose, Scope; Definition; General Provisions

§ 184.1 Purpose.

The purpose of the Act is to provide assistance designed to afford students opportunities to learn about the nature of their own cultural heritage and to study the contributions of the cultural heritages of the other ethnic groups of the Nation.

(20 U.S.C. 900)

§ 184.2 Definition.

As used in this notice, "Act" means title IX of the Elementary and Secondary Education Act of 1965, as added by section 504 of the Education Amendments of 1972 (P.L. 92-318), and amended by section 111 of the Education Amendments of 1974 (P.L. 93-380).

(20 U.S.C. 900 to 900a-5)

§ 184.3 Applicability and general provisions.

The regulations in this part apply to assistance provided under the Act. Such assistance is also subject to the provisions of Part 100a of the Office of Education General Provisions Regulations. (45 CFR Part 100a).

(20 U.S.C. 900)

Subpart B—Authorized Activities and Program Advisory Councils

§ 184.11 Authorized activities.

(a) Any ethnic heritage studies program assisted under the Act, in accordance with section 903 of the Act (1)

(i) Shall develop curriculum materials for use in elementary or secondary schools or institutions of higher education, relating to the culture of the ethnic group or groups with which the program is concerned, and the contributions of that group or groups to the American heritage in such areas as history, geography, society, economy, literature, arts, music, drama, language or general culture; or

(ii) Shall disseminate such curriculum materials to permit their use in elementary or secondary schools or institutions of higher education throughout the Nation; or

(iii) Shall provide training for persons using, or preparing to use, ethnic heritage curriculum materials developed under the Act whether or not such material were developed by the applicant; and

(2) Shall cooperate with persons and organizations which have a special interest in the ethnic group or groups with which the program is concerned to assist them in promoting, encouraging, developing, or producing programs or other activities which relate to the history, culture, or traditions of that group or groups.

(b) An application which does not make adequate provision for the carrying out by the applicant of one or more of the activities in paragraph (a)(1) of this section and the activities described in paragraph (a)(2) of this section will not be approved.

(20 U.S.C. 900a-1; 900a-2(a)(2))

§ 184.12 Advisory councils.

(a) The Act requires that an ethnic heritage studies program assisted under the Act must be planned and carried out in consultation with an advisory council which is representative of the ethnic group or groups with which the program is concerned.

(20 U.S.C. 900a-2)

(b) The appointment of council members shall be made with the participation of appropriate ethnic and community groups and shall meet the following requirements:

(1) Each of the ethnic groups with which the program is concerned is represented on the council;

(2) More than one-half of the membership of the council consists of community representatives of the ethnic group or groups with which the program is concerned;

(3) The council is broadly representative of educational and professional backgrounds relevant to the program, and at least one member of the council is affiliated with an educational organization or institution and has expertise and experience in curriculum development, training of personnel, and/or dissemination of curriculum materials.

(4) The members of the council are not employed by, or otherwise associated with, the applicant.

(c)(1) An applicant for assistance under the Act shall consult with an advisory council (as described above) regarding the planning of the program for which assistance is requested and the preparation and submission of the application.

(2) In carrying out a program assisted under the Act, a recipient shall:

(i) Consult periodically (and in no event less frequently than once a month) with such council regarding such program;

(ii) Provide such council in a timely fashion with advance copies of all reports required by the Commissioner with respect to the program and all materials prepared or distributed pursuant to it;

(iii) Request semi-annual assessment of the program and its effect by the council; and

(iv) Otherwise involve the council in its advisory capacity in the planning, implementation, and evaluation of the program.

(20 U.S.C. 900a-2(a)(3))

Subpart C—Eligibility and Applications for Assistance

§ 184.21 Eligibility for financial assistance.

The Commissioner will make grants to public and private nonprofit educational agencies, institutions, and organizations to assist them in developing and implementing ethnic heritage studies programs pursuant to the Act and this part. Eligible organizations include ethnic, community, and professional associations and local educational agencies, State educational agencies, and institutions of higher education as defined in section 801 of the Elementary and Secondary Education Act of 1965.

(20 U.S.C. 881; 20 U.S.C. 900a)

§ 184.22 Application for assistance.

(a) An applicant other than a local educational agency, State educational agency, or institution of higher education shall furnish a copy of its charter or other documentary evidence (such as notarized articles of incorporation, bylaws, or other appropriate organic documents) which demonstrates that it is a nonprofit organization and that it has an educational purpose. (See 45 CFR § 100.1 for definition of nonprofit organization.)

(20 U.S.C. 900a; 900a-2(a))

(b) An application for assistance under the Act shall contain information indicating the manner in which the requirements of § 184.12 have been and will be implemented.

(20 U.S.C. 900a-2(a)(3))

§ 184.23 Costs.

(a) Funds will be made available to cover all or part of the cost of establishing and implementing ethnic heritage studies programs, including such items as the cost of research materials and resources, ethnic group and academic consultants, and related training of educational and community resource personnel.

(b) Funds are not available under the Act for construction or remodeling of facilities.

(c) Funds requested under this Act for nonexpendable items such as printing equipment, copying machines, typewriters and audiovisual machines will be allowable only in exceptional circumstances.

(20 U.S.C. 900a; 900a-3)

(d) The Commissioner is prohibited from making any payment under the Act for religious worship or instruction. (20 U.S.C. 885)

§ 184.24 Coordination of efforts.

In approving applications under the Act, the Commissioner will require that adequate provision is made for cooperation and coordination of efforts among the programs assisted under the Act, including exchange of materials and information. An applicant for assistance under this part will provide an affirmative assurance that it will cooperate and coordinate efforts with other programs assisted under the Act.

(20 U.S.C. 900a-2(b))

Subpart D—Criteria

§ 184.31 Criteria for assistance.

(a) *General criteria.* Applications for assistance under the Act which qualify for consideration will be evaluated in accordance with the following general criteria:

(1) General criteria set forth in § 100a.26(b) of Part 100a of the Office of Education General Provisions Regulations (45 CFR 100a.26(b); and

(2) The overall quality of the program, with respect to the activities described in section 903 of the Act, and § 184.11 in helping students learn about their own cultural heritage and about the cultural heritages of other ethnic groups.

(b) *Specific criteria.* Applications for assistance under the Act will also be evaluated on the extent to which:

(1) There is evidence of commitment by the applicant and other interested groups to the program and to its continuation upon the expiration of Federal assistance;

(2) There is a clear demonstration of a specific contribution which the proposed program will make toward meeting the purpose of the Act;

(3) Approval of the application would promote an appropriate distribution of ethnic heritage studies programs throughout the Nation;

(4) The impact of the program is multi-ethnic;

(5) The program materials are designed for widespread use in schools or institutions of higher education and not exclusively for the applicants or the ethnic group(s) with which the program is concerned; and

(6) Provision is made for cooperation:

(i) With persons and organization having a special interest in the program, as provided in section 903(4) of the Act;

(ii) With other programs assisted under this Act, including such joint activities as exchange of materials, personnel development models and cooperative dissemination efforts; and

(iii) Between ethnic or community groups and educational institutions or other agencies in order to implement the goals of the program.

(c) *Additional criteria.* (1) Programs described in § 184.11(a)(1)(i) (relating to development of curriculum materials) shall also be evaluated on the extent to which provision is made for:

(i) Obtaining data from resources within the community;

(ii) Field-testing curriculum materials to determine their effectiveness prior to use; and

(iii) Incorporating tested materials within the regular curriculum of schools or colleges;

(2) Programs described in § 184.11(a)(1)(ii) (relating to dissemination) shall also be evaluated on the extent to which provision is made for:

(i) Analysis of the materials to be disseminated;

(ii) Dissemination of materials on a nationwide basis; and

(iii) Facilitating exchange of materials among programs assisted under the Act.

(3) Programs described in § 184.11(a)(1)(iii) (relating to training) shall also be evaluated on the extent to which provision is made for:

(i) Maximum involvement of such leadership personnel as community leaders, teachers, teacher trainers, educational administrators, and/or curriculum development specialists and supervisors; and

(ii) Evaluation of the training program.

(20 U.S.C. 906-906a-5)

Notice of Proposed Rule Making

Correction

FR Doc. 74-28407 appearing in the issue of Friday, December 6, 1974 (39 FR 42743) is corrected as follows:

1. On page 42743, 3rd column, 7th line, the date in the citation is corrected to read, "*United States* v. *Lexington Mill & Elevator Co.*, 232 U.S. 399 (1914)."

2. On page 42750, 1st column, 4th paragraph, the 1st sentence should read, "There were indications that the processing of peanuts could result in a reduction of aflatoxin level to a trace or nondetectable level."

3. On page 42751, the 2nd column, the 1st word in entry no. 1 should be set in quotes as follows: "Aflatoxin".

4. On page 42751, the 3rd column, the last line, the word "composition" should be corrected to read "composite".

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 14231]

BRITISH AIRCRAFT CORPORATION VISCOUNT MODEL 744, 745D, AND 810 SERIES AIRPLANES

Proposed Airworthiness Directives

Amendment 39-129 (30 FR 11169), AD-65-20-4, in pertinent part, requires a modification to the rear pressure bulkhead of British Aircraft Corporation Model Viscount 700 Series airplanes, together with a 6-month periodic inspection of the pressure panel for cracks or corrosion introduced by the modification, and repair as necessary. After issuing Amendment 39-129, there were reported cases of cracks developing in the bend radius of the rear pressure bulkhead boundary members of several British Aircraft Corporation Viscount Model 700 Series Airplanes. Amendments 39-1286 and 39-1297 (AD's 71-19-4 and 71-20-8, 36 FR 17848 and 36 FR 18785) required a one time inspection and repair as necessary of the rear pressure bulkhead boundary members. Subsequently, BAC amended the PTL's cited in Amendment 39-129 to provide for repetitive inspections and repair of the boundary members in both Series 700 and Series 800 airplanes. The FAA is, therefore, considering amending Amendment 39-129 to additionally require a repetitive 2500 flight inspection of the rear pressure bulkhead boundary members for cracks, and repair as necessary, of British Aircraft Corporation Viscount Models 744, 745D, and 810 Series airplanes.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue S.W., Washington, D.C. 20591. All communications received on or before January 30, 1975, will be considered by the Administrator before taking action upon the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

This amendment is proposed under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-129 (30 FR 11169), AD 65-20-4, by revising paragraph (b)(2) to read as follows:

§ 39.13 Airworthiness directives.

* * * * *

(b) Pressure Bulkheads—Section 3.

* * * * *

(2) Rear Pressure Bulkhead—Stn. 761 (Models 744 and 745D airplanes) and Stn. 871.71 (Model 810 airplanes). Compliance required as indicated in BAC PTL 221 Issue 6 or BAC PTL 94 Issue 6, as applicable, or an FAA approved equivalent, except that with respect to circumferential boundary members compliance is required before the accumulation of 2500 flights since the inspection required by AD 71-19-4 and AD 71-20-8, as applicable, or within the next 10 flights after the effective date of this amendment, whichever occurs later, and thereafter at intervals not to exceed 2500 flights since the last inspection.

Issued in Washington, D.C. on December 23, 1974.

C.R. MELUGIN, JR.,
Acting Director,
Flight Standards Service.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 15]

[Docket No. 20309 RM-2286, FCC 74-1405]

AUDITORY TRAINING SYSTEMS

Equipment Authorization

In the matter of amendment of the Commission's Rules and Regulations to provide for the equipment authorization of Auditory Training Systems.

XUM
V 39 N 252 DEC 31 1974 XUM

1. Notice is hereby given of proposed rulemaking in the above entitled matter.

2. The Commission has before it a petition for rulemaking submitted by HC Electronics, Inc. (HC)[1] requesting that Part 15 of the rules and regulations be amended "to provide that no auditory training transmitter may be type approved unless a corresponding receiver is available for use with that transmitter, and no auditory training receiver may be certificated unless a corresponding transmitter is available for use with that receiver."

3. HC is a manufacturer of auditory training systems and has filed complaints against its competitors alleging that they have offered for sale auditory training transmitters for which no corresponding certificated receivers are available. HC notes that under §§ 2.803, 15.335(a), 15.345, and 15.347(a) of the Commission's Rules and Regulations auditory training transmitters must be type approved and auditory training receivers must be certificated, prior to offering for sale, marketing and use. HC states that offers for sale of an approved transmitter or receiver without having the necessary equipment authorization of the corresponding transmitter or receiver is unfair to the public and requests, that the Commission insure that if an equipment authorization is presented to the public, the entire transmitter-receiver system should first be authorized for use.

4. Having reviewed HC's petition and the Commission's Report and Order[2] which provided additional channels in the bands 72–73 MHz and 75.4–76 MHz for the operation of this equipment, the Commission is convinced of the need for equipment authorization of auditory training systems operating in these bands.

5. Accordingly, we are herewith issuing a Notice of Proposed Rule Making which would require a systems approval of devices used in auditory training systems.

6. Authority for the adoption of rules herein proposed is contained in sections 4(i), 302, 303(g) and 303(r) of the Communications Act of 1934, as amended.

7. Pursuant to applicable procedures set forth in Section 1.415 of the Commission's rules, interested persons may file comments on or before February 11, 1975 and reply comments on or before February 21, 1975. All relevant and timely comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision on the rules which are proposed herein, the Commission also may take into account other relevant information before it, in addition to specific comments invited by this Notice.

8. In accordance with the provisions of Section 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments shall be furnished to the Commission. Responses will be available, for public inspection during regular business hours in the Commission's Docket Reference Room at its Headquarters in Washington, D.C.

Adopted: December 18, 1974.

Released: December 23, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS;
Secretary.

1. Section 15.333 is amended to read as follows:

§ 15.333 Operation in the band 72–76 MHz.

An auditory training system may be operated on the frequencies listed in § 15.351 provided the transmitter meets the technical specifications in §§ 15.353–15.359 inclusive and is type approved pursuant to § 15.347 and the receiver meets the technical specifications in §§ 15.361–15.367 inclusive and is certificated pursuant to § 15.345.

2. Section 15.345 is amended to read as follows:

§ 15.345 Certification of receiver.

A receiver operating in the range 30–890 MHz as part of an auditory training system shall be certificated pursuant to Subpart B of this part to show compliance with the technical specifications of this subpart. The grant of certification of an auditory training receiver will not be made unless the receiver is compatible with an auditory training transmitter type approved pursuant to Subpart B of this part.

3. Section 15.347 and headnote are amended to read as follows:

§ 15.347 Equipment authorization for transmitter.

(a) A transmitter operating the band 72–76 MHz or the 88–108 MHz as part of an auditory training system shall be type approved pursuant to Subpart B of this part. The grant of type approval of an auditory training transmitter will not be made unless the transmitter is compatible with an auditory training receiver certificated pursuant to Subpart B of this part.

[47 CFR Part 76]

[Docket No. 19417, FCC 74-1416]

CABLE TELEVISION SYSTEMS

Carriage of Sports Programs

In the matter of amendment of Part 76 of the Commission's Rules and Regulations relative to cable television systems and the carriage of sports programs on Cable television systems.

1. Notice is hereby given of further proposed rule making in the above-entitled matter.

2. On February 3, 1972, the Commission released its Notice of Proposed Rule Making in Docket 19417, FCC 72-109, 36 FCC 2d 641 1972). By this notice, interested parties were invited to file comments on a proposed new rule which would prohibit cable television systems, under certain circumstances, from carrying live professional sports events on a distant television signal. The rule as proposed reads as follows:

> When a professional baseball, basketball, football, or hockey team is playing at home, no cable television system located within the predicted Grade B contour of a station located within the home city of the team shall, without the consent of the home team and its league, carry the television broadcast of a professional game of the same sport if such event is not available on a television station that:
>
> (a) Is located within 35 miles of the reference point of the community of the system or
>
> (b) Has an audience in the county or community of the system meeting the significant viewing test set forth in Section 76.54 of the Commission's Rules and Regulations.

Our concern in this area was prompted by comments received in connection with the rule making proceedings in Dockets 18397, FCC 68-1176, 15 FCC 2d 417 (1968) and 18397-A, FCC 70-676, 24 FCC 2d 580 (1970) which suggested that cable carriage of broadcast sports events should be treated differently from other programming presented on commercial television. In our August 5, 1971, letter to Congress,[1] the Commission expressed its intention to follow the spirit and letter of Public Law 87-331, as amended, 15 USC §§ 1291-5, since it represented the only Congressional policy in this area. The proposed rule was drafted in accordance with that intent.

3. The deadline for filing comments in this proceeding was in March, 1972; the deadline for reply comments was in April, 1972. In response, 49 parties filed comments. These pleadings reflect widely divergent views, ranging from those which would have the Commission ban the cable carriage of professional sports events not broadcast by local market stations to those which would permit carriage of whatever sports events appear on stations that cable systems are permitted to carry under our rules. In order to define the issues raised in the Notice and in the comments, the Commission heard oral argument in July, 1972. Appearances were made by 45 representatives of sports, broadcast, and cable television interests, members of Congress, and officials of local governments, and almost 400 pages of transcript were taken during this phase.

4. Notwithstanding the vast amount of information which has already been presented to the Commission, we are of the opinion that additional comments

[1] Cable Television Proposals, FCC 71-787, 31 FCC 2d 115 (1971).

are required to update the data previously filed and to provide interested parties with an opportunity to respond to specific issues which we feel deserve further attention. Our decision is predicated on the fact that significant developments have occurred since the record was last open for comments. Among the developments are the investigation by Congress of the entire sports-blackout question culminating in September 1973, with the passage of Public Law 93–107 which amended the Communications Act to prohibit league blackouts of home games sold out three days in advance. In addition, during this period, the United States Senate moved forward with the Copyright Revision Bill (S. 1361) which made reference to the sports carriage question in various draft forms.[1]

5. In view of the foregoing, the Commission invites all interested parties to submit comments on or related to the following questions:

(1) Does Public Law 93–107 necessitate any modifications to the rule proposed in the original Notice in this proceeding?

(2) What effect does Public Law 93–107 have on the necessity for a sports blackout rule?

(3) What effect does the Senate deletion of Section 111(c)(2)(C) [sports carriage provision] of the Copyright Revision Bill have on the instant proceeding?

In addition, the Commission requests further comments on the following questions:

(4) Should the proposed rule be modified to include sports other than those contemplated in Section 1 of Public Law 87–331?

(5) Should any rule adopted include protection for minor league sports?

(6) Should the Grade B area of protection as contained in the proposed rule be modified?

(7) Should the proposed prohibition against the importation of games of the same sport be modified to prohibit:

(a) The importation of games of the same league, or

(b) The importation of only the same game?

(8) What impact, if any, will adoption of a sports blackout rule have on cable television systems when taken in connection with the Commission's other carriage and program exclusivity regulations?

Comments should be concise and contain empirical data where available.

6. Authority for the rule making proposed herein is contained in section 4(i), 303 and 403 of the Communications Act of 1934, as amended. All interested parties are invited to file written comments on or before January 31, 1975, and reply comments on or before February 10, 1975. In reaching a decision on this matter, the Commission may take into account any other relevant information before it, in addition to the comments invited by this Notice.

7. In accordance with the provisions of Section 1.419 of the Commission's Rules and Regulations, an original and 14 copies of all comments, replies, pleadings, briefs, or other documents filed in this proceeding shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission Public Reference Room at its Headquarters in Washington, D.C.

Adopted: December 18, 1974.

Released: December 23, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[1] The Senate passed the Bill on September 9, 1974, without reference to the cable carriage of sports events.

FEDERAL RESERVE SYSTEM

[12 CFR 217]

[Reg. Q]

INTEREST ON DEPOSITS

Reconsideration of NOW Accounts for Governmental Units

The Board of Governors has determined to reconsider whether member banks in the States of Massachusetts and New Hampshire should continue to be permitted to offer to governmental units interest-bearing accounts subject to transfers of funds by negotiable order of withdrawal (NOW's). In conjunction with Pub. L. 93–495, which provides Federal deposit insurance up to $100,000 for time and savings deposits by governmental units, the Board, effective November 27, 1974, amended Regulation Q (12 CFR 217) to include deposits of governmental units in the definition of savings deposit (39 FR 43056). Because NOW accounts are permitted to be offered on an experimental basis only in Massachusetts and New Hampshire (Pub. L. 93–100) and are included in the definition of savings deposits in Regulation Q, the Board's amendment of November 27, 1974, also had the effect of authorizing governmental unit NOW accounts in those two States.

The Board has received several requests that it review its action amending Regulation Q to authorize member banks to accept governmental unit NOW accounts. The Board's decision to review this action and to solicit written data, views, or arguments from interested persons is taken as a result of these requests which assert, in part, that potentially disruptive shifts of funds may occur in the NOW experiment area as a result of this action. If it determines to rescind the authorization to member banks to maintain governmental unit NOW accounts, the Board expects to amend § 217.1(e)(3) of Regulation Q to modify the definition of savings deposit to bar member banks from maintaining NOW accounts for governmental units as set forth below. That action would be taken pursuant to the Board's authority under § 19 of the Federal Reserve Act (12 U.S.C. 461) to define the terms used in that section. No comments or requests have been received and no consideration is being given with respect to modifying or rescinding that part of the Board's November 27, 1974, action which authorized member banks to maintain "nontransfer order" savings deposits for governmental units.

Since the possibility exists that the Board will decide to prohibit member banks from maintaining NOW accounts for governmental units, it is recommended that member banks refrain from offering NOW accounts to governmental units pending a determination of this matter by the Board.

Interested persons are invited to submit written data, views, or arguments with respect to whether member banks should continue to be permitted to maintain NOW accounts for governmental units in Massachusetts and New Hampshire. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than January 20, 1975. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's Rules Regarding Availability of Information. This notice is published pursuant to § 553(b) of Title 5, United States Code, and § 262.2 of the Board's Rules of Procedure, 12 CFR § 262.2.

§ 217.1 Definitions.

* * * * *

(e) *Savings Deposits*

* * * * *

(3) * * *

Member banks are not permitted to accept deposits subject to negotiable orders of withdrawal from governmental units.

By order of the Board of Governors, effective December 23, 1974.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

DEPARTMENT OF STATE

[CM-5/3]

STUDY GROUP 6 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

Meeting

The Department of State announces that Study Group 6 of the U.S. National Committee for the International Radio Consultative Committee (CCIR) will meet on January 23, 1975 at 9:30 a.m. to 12:00 noon at the ComSat Laboratories, Clarksburg, Maryland.

Study Group 6 deals with matters relating to the propagation of radio waves by and through the ionosphere. The agenda for the meeting on January 23 is:

1. Review of status.
2. Discussion of documentation required for the forthcoming interim meeting.
3. Organization of work.

Members of the general public who desire to attend the meeting on January 23, 1975 will be admitted up to the limits of the capacity of the meeting room, but are requested to notify the Chairman, Dr. Ernest K. Smith, Institute for Telecommunication Sciences, Office of Telecommunications, Boulder, Colorado 80302 (Area Code 303 499-1000, extension 3177) prior to January 22, 1975.

Dated: December 20, 1974.

GORDON L. HUFFCUTT,
Chairman,
U.S. National Committee.

DEPARTMENT OF THE TREASURY

[T.D. Order No. 233, Rev. No. 1]

ASSISTANT SECRETARY FOR ADMINISTRATION

Delegation of Authority

The orderly termination of the Economic Stabilization Program has been substantially completed by the Office of Economic Stabilization, which was established by Treasury Department Order No. 233, June 28, 1974 (39 FR 24522), and, pursuant to that order, ceases to exist on December 31, 1974. Nevertheless, it is necessary to provide for a number of continuing activities, including the appropriate disposition of certain reports and records of the Economic Stabilization Program; the servicing of requests from the public for access to documents filed under the Economic Stabilization Program; and the continuation of compliance and enforcement efforts, pursuant to section 218 of the Economic Stabilization Act of 1970, as amended, with respect to action or pending proceedings, civil or criminal, not finally determined on April 30, 1974, or any action or proceeding based upon any act committed prior to May 1, 1974.

Therefore, by virtue of the authority vested in me as Secretary of the Treasury, including that in Reorganization Plan No. 26 of 1950, and that delegated to me by Executive Order 11788, June 18, 1974 (39 FR 22113), it is hereby ordered as follows:

1. All powers and duties delegated to the Secretary by Executive Order 11788, June 18, 1974 (39 FR 22113), are delegated to the Assistant Secretary for Administration except for (a) the authority contained in subsections 5(a) (2) and (3) of that order, and (b) the authority contained in subsection 5(b)(1) of that order.

2. All regulations, rules, instructions and forms issued or adopted by the Office of Economic Stabilization for the administration of the Economic Stabilization Program pursuant to the Economic Stabilization Act of 1970, as amended, are hereby continued in effect as regulations, rules, instructions and forms of the Department of the Treasury, until superseded or revised. All references in Chapters I through VI of Title 6 of the Code of Federal Regulations to the Office of Economic Stabilization or its Director, the Cost of Living Council or the Director or Chairman of the Council, the Construction Industry Stabilization Committee, or any other official or agency which exercised authority delegated by the Council shall for procedural purposes be deemed to refer to the Assistant Secretary for Administration.

3. The authorities delegated by this order may be further redelegated by the Assistant Secretary for Administration.

4. Any delegations of authority heretofore made by the Assistant Secretary for Administration pursuant to Treasury Department Order No. 233 are hereby ratified and continued.

5. This order supersedes Treasury Department Order No. 233 issued June 28, 1974.

6. This order is effective January 1, 1975.

Dated: December 26, 1974.

WILLIAM E. SIMON,
Secretary of the Treasury.

Office of Hearings and Appeals

[Docket No. M 75-73]

ALABAMA BY-PRODUCTS CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), Alabama By-Products Corporation has filed a petition to modify the application of 30 CFR 75.514 to the following mines located in Jefferson and Walker Counties in Alabama: Chetopa Mine, Maxine Mine, Mary Lee #1 Mine, Gorgas # 7 Mine, Mary Lee #2 Mine, and SEGCO #1 Mine.

30 CFR 75.514 provides:

All electrical connections or splices in conductors shall be mechanically and electrically efficient, and suitable connectors shall be used. All electrical connections or splices in insulated wire shall be reinsulated at least to the same degree of protection as the remainder of the wire.

In support of its petition, Petitioner states:

(1) For a number of years, Petitioner has been using rubber tape, plastic tape and friction tape on temporary splices in trailing cables. Recently MESA has required the use of only one tape—Plytuff—in making splices in trailing cables.

(2) 30 CFR 75.514 provides in part:

All electrical connections or splices in insulated wire shall be reinsulated at least to the same degree of protection as the remainder of the wire.

(3) It is Petitioner's understanding that MESA interprets this part of the above section to mean that where you have a temporary splice in a trailing cable you must use a "fireproof" tape to perfect the splice and provide the "same degree of protection." In the opinion of Petitioner, 30 CFR 75.514 does not apply to temporary splices at all. It is our position that 30 CFR 75.603 applies specifically to temporary splices in trailing cables. 30 CFR 75.603 requires that temporary splices in trailing cables be made in a workmanlike manner and be mechanically strong and well insulated. There is no requirement in that section requiring the use of a fireproof tape.

(4) Only recently has any tape acquired the approval of MESA and this was Plytuff. However, this tape was not approved individually, but was approved as a part of a kit used for making permanent splices. Petitioner finds that the Plytuff tape is not sufficient for effecting temporary splices that are "mechanically strong and well insulated." This tape simply will not stand the abuse given trailing cables even under subnormal conditions. Petitioner's experience with this Plytuff tape is that within an eight hour period after being applied, it will scuff off and admit moisture into the conductors. Plytuff tape simply does not provide the protection needed to produce a temporary splice made in a "workmanlike manner."

(5) Alternate method. Petitioner requests that in lieu of the mandatory standard required by MESA interpretation of 30 CFR 75.514, Petitioner be allowed to continue using the tapes it now uses (rubber tape, plastic tape, and friction tape) to perfect temporary splices in trailing cables which splices are made in a workmanlike manner and are mechanically strong and well insulated.

(6) In Petitioner's opinion this alternate method will at all times guarantee no less than the same measure of protection afforded the miners at the affected mines by the application of the mandatory standard. In fact, Petitioner emphatically stresses that the application of the mandatory standard (requiring the use of Plytuff tape) will result in diminution of safety to miners in the affected mines. If the Plytuff tape is continued to be required to be used in making temporary splices, it will continue to scuff off and someone is going to be seriously injured or killed in handling a trailing cable where the tape has come off a temporary splice exposing naked conductors.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 30, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

DECEMBER 20, 1974.

[FR Doc.74-30386 Filed 12-30-74;8:45 am]

[Docket No. M 75-72]

CF&I STEEL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), CF&I Steel Corporation has filed a petition to modify the application of 30 CFR 75.1101-1(b) to its Allen Mine, Pueblo, Colorado.

30 CFR 75.1101-1(b) provides:

Nozzles attached to the branch lines shall be full cone, corrosion resistant and provided with blow-off dust covers. The spray application rate shall not be less that 0.25 gallon per minute per square foot of the top surface of the top belt and the discharge shall be directed to both the upper and bottom surfaces of the top belt and to the upper surface of the bottom belt.

1. On November 30, 1971, an Order was entered in Docket No. M-71-28, in which Petitioner sought a modification of Section 75.1101-10 of the Regulations. A copy of said Order is attached hereto and marked as Exhibit "A".[1]

2. Pursuant to paragraph D(3) of said Order, CF&I must perform and does perform tests of the water sprays at each belt conveyor drive unit on all main and secondary belt drives in the Allen Mine at the start of each shift.

3. The blow-off dust covers, required by § 75.1101-1(b) of the regulations, have become a safety hazard in that a man has to reach in between the belts and in between the drive pulleys to replace the dust covers after each test at the start of each shift.

4. Because the tests are being made prior to the starting of the belts at the beginning of each shift pursuant to said Order, there is no possibility of an accumulation of dust around the sprays that could harden and cause the sprays to become inoperative.

5. Petitioner requests that § 75.1101-1 (b) of the regulations be modified as it applies to the Allen Mine so that dust covers not be required on the deluge type water sprays installed along all main and secondary belt drives in the Allen Mine.

---

[1] Exhibit A will be available for inspection at the address noted in the last paragraph of the notice.

XUM V 39 N 252 DEC 31 1974 XUM V

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 30, 1975. Such requests or comments must be filed with the Departmental Hearings Branch-OHA, U.S. Department of the Interior, 6432 Federal Building, Salt Lake City, Utah 84138. Copies of the petition are available for inspection at that address.

DECEMBER 18, 1974.

Director,
Office of Hearings and Appeals.

[FR Doc.74-30387 Filed 12-30-74;8:45 am]

[Docket No. M 75-73]

PEABODY COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), Peabody Coal Company has filed a petition to modify the application of 30 CFR 77.803 to its Alston Centertown Preparation Plant.

30 CFR 77.803 provides:

On and after September 30, 1971, all high-voltage, resistance grounded systems shall include a fail safe ground check circuit or other no less effective device approved by the Secretary to monitor continuously the grounding circuit to assure continuity. The fail safe ground check circuit shall cause the circuit breaker to open when either the ground or ground check wire is broken.

Petitioner asks that a modification be applied to its Alston Centertown Preparation Plan on the following grounds:

(1) Standard 30 CFR 77.803 is presently being applied by the Mining Enforcement and Safety Administration erroneously and without factual or legal basis to high voltage circuits supplying stationary equipment when it was intended and should apply only to high voltage circuits supplying portable or mobile equipment.

(2) The alternative proposal hereinafter cited by Petitioner provides at least equal protection to the miners and in fact more protection.

(3) The application of 30 CFR 77.803 to high voltage equipment supplying stationary equipment at Petitioner's mine in fact diminishes the safety of the miners as compared to Petitioner's proposed alternative.

(4) 30 CFR 77.800 should apply to high voltage circuits that supply power to stationary equipment. 30 CFR 77.800 provides:

High-voltage circuits supplying power to portable or mobile equipment shall be protected by suitable circuit breakers of adequate interrupting capacity which are properly tested and maintained and equipped with devices to provide protection against under voltage, grounded phase, short circuit and overcurrent. High-voltage circuits supplying power to stationary equipment shall be protected against overloads by either a circuit breaker or fuses of the correct type and capacity.

PETITIONER'S ALTERNATIVE

Petitioner proposes to meet the safety standards of 30 CFR 77.800 applicable to stationary equipment by including protection by circuit breaker or fuses of the correct type and capacity. In addition, Petitioner will:

(1) use grounding resistor of proper rating to limit the voltage drop in the grounding circuit external to the resistor to less than 100 volts under fault conditions.

(2) use instantaneous tripping to protect against short circuits.

(3) use grounded phase relaying to cause the circuit breaker to trip on ground faults of less than 15 amperes.

(4) apply potential transformer connected across the grounding resistor to open circuit breaker if ground resistor fails.

Petitioner contends that by using the above components in the high voltage distribution system, it will guarantee the miners no less than the same protection and in fact more protection than the use of a ground check circuit. Petitioner further asserts that the application of 30 CFR 77.303 diminishes the degree of safety afforded the miners when applied to stationary equipment.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 30, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

DECEMBER 18, 1974.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

[FR Doc. 74-30388 Filed 12-30-74;8:45 am]

[Docket No. M 75-63]

REPUBLIC STEEL CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. § 861(c) (1970), Republic Steel Corporation has filed a petition to modify the application of 30 CFR 77.803 to its North River No. 1 Mine, Berry, Alabama.

30 CFR 77.803 provides:

On and after September 30, 1971, all high-voltage, resistance grounded systems shall include a fail safe ground check circuit or other no less effective device approved by the Secretary to monitor continuously the grounding circuit to assure continuity. The fail safe ground check circuit shall cause the circuit breaker to open when either the ground or ground check wire is broken.

In support of its petition, Petitioner states:

(1) The Alabama Power Company furnishes electric power at 161,000 volts which is stepped down to 12,470 volts, grounded wire in the power company's 10,000 KVA O.A. 14,000 KMFOA and supplied on one metered circuit to the adjoining North River breaker station. At the station, five outgoing circuits are metered.

(2) The neutral is grounded through an outdoor 15 K.V.B.I.L. 288 ohm resistor with a 15 K.V. 500 MCM insulated copper cable extending fifty-five feet to an eight-inch diameter, fifty feet deep bore hole treated with carbon dust.

(3) Five outgoing neutrals are connected to the ground side of the resistor.

(4) The circuits may be described as follows:

(a) The preparation circuit, which is approximately 3,000 feet in length, contains three 4/0 AAAC conductors with one 2/0 AAAC neutral which is connected to each of five 1,000 KVA transformer tanks.

(b) The hoist circuit runs from the substation to the mine hoist and transfer building, a total of 2,900 feet. It contains three 2/0 AAAC conductors and one 1/0 AAAC neutral while energizing one 500 KVA 12,470 primary 480 secondary wye. The neutral is connected to the tank of the transformer. This circuit furnishes energy for construction from the substation and remains available for an emergency source of power.

(c) There are two underground circuits with 1,200 ampere 15 KV 500 MVA interrupting capacity. One circuit furnishes power to the north side of the mine; the other circuit serves the south side. Each circuit contains three single conductors with 500 MCM 15 AVCU insulated cables. A tie breaker is situated between the two power bore holes. One 250 MCM-15 SVCU insulated neutral, or ground wire the size of the neutral, is kept to one-half the size of the conductors and is monitored throughout the system.

(5) Lightning arrestors with surge capacitors are mounted on each of the steel cable supports, and in each underground circuit breaker and transformer power center.

(6) The main circuit breaker is equipped with the following relays: 3-1AC for 3-phase overload protection, 1-AV relay for over voltage connected to a 7,200 volt potential transformer connected across the ground resistor, 1-1AV relay for over amperage from the 50/5 ratio current transformer connected in series with the transformers neutral and the ground resistor. If a ground fault should occur on any circuit and the GTR failed to operate, the 1 AV or the 1 AC, after a time delay, will open the main breaker clearing all outgoing circuits.

All breaker settings were checked by the local Bureau of Mines personnel.

Petitioner feels that by having the above-described backup ground protection on all circuits, the permanent surface neutrals, unlike the underground circuits which are constantly changing, will be protected without having the

monitoring system. The petition is supported by schematic diagrams detailing the alternate method.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before January 30, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

DECEMBER 18, 1974.

DEPARTMENT OF AGRICULTURE

Forest Service

RUBY MOUNTAINS-EAST HUMBOLDT PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for Ruby Mountains-East Humboldt Planning Unit, Humboldt National Forest, Nevada. The Forest Service report number is USDA-FS-DES (Adm) R4-75-9.

The environmental statement identifies and evaluates the probable effects of the land use plan for the Ruby Mountains-East Humboldt Planning Unit on the Humboldt National Forest, Nevada. The purpose of the plan is to allocate National Forest lands within the unit to specific resource uses and activities; establish management objectives; document management direction, management decisions, and necessary coordination between resource uses and activities; and provide for the protection, use, and development of the various resources within the planning unit. The plan provides for minimization of adverse effects and maximization of desirable effects. The mix of uses provided for includes moderate levels of consumptive resource uses. Significant areas will remain undeveloped with options for future management remaining open.

This draft environmental statement was transmitted to CEQ on December 20, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. and Independence Ave. SW.
Washington, D.C. 20250

Regional Planning Office
USDA, Forest Service
Federal Building, Room 4403
324-25th Street
Ogden, Utah 84401

Forest Supervisor
Humboldt National Forest
976 Mountain City Highway
Elko, Nevada 89801

District Forest Ranger
Lamoille Ranger District
P.O. Box 651
Lamoille, Nevada 89828

District Forest Ranger
Wells Ranger District
P.O. Box 248
Wells, Nevada 89835

A limited number of single copies are available upon request to Forest Supervisor Vern L. Thompson, Humboldt National Forest, 976 Mountain City Highway, Elko, Nevada 89801.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Comments are invited from the public, and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor Vern L. Thompson, Humboldt National Forest, 976 Mountain City Highway, Elko, Nevada 89801. Comments must be received by February 18, 1975, in order to be considered in the preparation of the final environmental statement.

Dated: December 20, 1974.

JEFF M. SIRMON,
Acting Regional Forester.

[FR Doc.74-30433 Filed 12-30-74;8:45 am]

WARREN PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Warren Planning Unit, Payette National Forest, Idaho. The Forest Service report number is USDA-FS-DES (Adm) R4-75-10.

The environmental statement identifies and evaluates the probable effects of the land use plan for the Warren Planning Unit on the Payette National Forest in south-central Idaho. The purpose of the plan is to allocate National Forest lands within the unit to specific resource uses and activities; resolve the future status of several inventoried roadless areas; resolve conflicts between competing uses, provide protection for sensitive enviromental factors, and to maintain desirable social-economic relationships by providing for use of the resources within the planning unit. The plan provides for minimization of adverse effects. Minor adverse effects from some development activities will be temporary stream sedimentation, displacement of wildlife populations, and short periods of air pollution. All resource activities will be monitored so that tolerable levels of sedimentation will not be exceeded in the South Fork Salmon River.

Recreation opportunities will be slightly increased. A total of 35,500 acres has been designated as new wilderness study areas and an additional 126,000 acres will remain unroaded. About 132,000 acres presently undeveloped may be developed. The plan provides for a low to high level of consumption resource uses with significant areas remaining undeveloped with options for future management remaining open.

This draft environmental statement was transmitted to CEQ on December 23, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. and Independence Ave., S.W.
Washington, D.C. 20250

Regional Planning Office
USDA, Forest Service
Federal Building, Room 4403
Ogden, Utah 84401

Forest Supervisor
Payette National Forest
Forest Service Building
P.O. Box 1026
McCall, Idaho 83638

A limited number of single copies are available upon request to Forest Supervisor William B. Sendt, Payette National Forest, Forest Service Building, P.O. Box 1026, McCall, Idaho 83638.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor William B. Sendt, Payette National Forest, Forest Service Building, P.O. Box 1026, McCall, Idaho 83638. Comments must be received by February 21, 1975, in order to be considered in the preparation of the final environmental statement.

Dated: December 23, 1974.

CHARLES P. TEAGUE,
Acting Regional Forester.

Soil Conservation Service

LOWER WAKARUSA WATERSHED PROJECT, KANSAS

Notice of Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and § 650.8(b)(3) of the Soil Conservation Service Guidelines (39 FR 19651, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental statement is not being prepared for the Lower Wakarusa Watershed Project, Douglas County, Kansas.

The environmental assessment of this Federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Robert K. Griffin, State Conservationist, Soil Conservation Service, USDA, 760 S. Broadway, Salina, Kansas 67401, has determined that the preparation and review of an environmental statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The planned works of improvement remaining to be built include conservation land treatment supplemented by four floodwater retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, 760 S. Broadway, Salina, Kansas 67401.

No administrative action on implementation of the proposal will be taken until 15 days after the date of this notice.

(Catalog of Federal Domestic Assistance Program 10.904, National Archives Reference Services.)

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

DECEMBER 26, 1974.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

ADVISORY COMMITTEES

Notice of Renewals

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92–463, 86 Stat. 770–776), the Alcohol, Drug Abuse, and Mental Health Administration announces the renewal by the Secretary, Department of Health, Education, and Welfare, on December 20, 1974, with the concurrence of the Office of Management and Budget Committee Management Secretariat of the following advisory committees:

Designation. Alcohol Research Review Committee (formerly, Alcoholism and Alcohol-Problems Review Committee).

Authority for this committee will expire October 31, 1976, unless the Secretary formally determines that continuance is in the public interest.

Designation. Drug Abuse Research Review Committee (formerly, Narcotic Addiction and Drug Abuse Review Committee).

Authority for this committee will expire October 31, 1976, unless the Secretary formally determines that continuance is in the public interest.

Designation. Mental Health Services Research Review Committee.

Authority for this committee will expire June 30, 1976, unless the Secretary formally determines that continuance is in the public interest.

Dated: December 26, 1974.

JAMES D. ISBISTER,
Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration.

Office of Education

ETHNIC HERITAGE STUDIES PROGRAM

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in Title IX of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 900a to 900a–5), applications are being accepted from public and private nonprofit educational agencies, institutions, and organizations for grants under the Ethnic Heritage Studies Program. Processing of these applications will be subject to the availability of funds.

Applications must be received by the U.S. Office of Education, Applications Control Center, on or before March 21, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue, SW., Washington, D.C. 20202, Attention: 13.549. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education).

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education, Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, S.W., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8:00 a.m. and 4:00 p.m. Washington, D.C., time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4:00 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the Ethnic Heritage Studies Branch, Division of International Education, Bureau of Postsecondary Education, Office of Education, Room 3907, 7th and D Streets, SW, Washington, D.C. 20202.

D. *Applicable regulations.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR Part 100a) published in the FEDERAL REGISTER on November 6, 1973 at 38 FR 30654 and the notice of proposed rulemaking for the Ethnic Heritage Studies Program published in this issue of the FEDERAL REGISTER (20 U.S.C. 900a to 900a–5).

(Catalog of Federal Domestic Assistance Number 13.549; Ethnic Heritage Studies Program)

Dated: December 23, 1974.

T. H. BELL,
U.S. Commissioner of Education.

[FR Doc.74–30484 Filed 12–30–74;8:45 am]

SPECIAL EDUCATION PROGRAMS AND PROJECTS FOR INDIANS

Closing Date for Receipt of Applications

A. The Commissioner of Education hereby gives notice that applications for assistance are being accepted under the following two programs:

(1) Assistance to State and local educational agencies, federally supported elementary and secondary schools for Indian children, Indian tribes, organizations, and institutions, institutions of higher education, and public agencies and institutions for programs specially designed to improve educational opportunities for Indian children, pursuant to section 810 of the Elementary and Secondary Education Act (20 U.S.C. 887c), as added by Title IV, Part B, of P.L. 92–318, Title VI, Part C, section 632(a) of P.L. 93–380; and

(2) Assistance to State and local educational agencies, Indian tribes, institutions, and organizations, and public agencies and institutions for planning, pilot and demonstration projects designed to plan for, test, and demonstrate

the effectiveness of programs for providing adult education for Indians pursuant to section 314 of the Adult Education Act (20 U.S.C. 1211a), as added by Title IV, Part C, of P.L. 92–318. Awards under these programs will be subject to the provisions of the governing acts as well as to the regulations published in 45 CFR Parts 187 and 188, respectively. Assistance under these programs is subject to applicable provisions of Subchapter A of Chapter 1 of Title 45 Code of Federal Regulations (45 CFR Part 100a, published at 38 FR 30661–30665, November 6, 1973).

Criteria for the selection of applications under these programs are contained in 45 CFR section 100a. 26(b), 38 FR 30664, November 6, 1973, and in 45 CFR sections 187.21–187.25, and 45 CFR sections 188.15 and 188.16, respectively.

B. Applicants are being informed that the Office of Indian Education is particularly interested in receiving proposals in the following categories. However, proposals in these categories will be evaluated on the same basis and under the same criteria as other proposals and no priority or special consideration will be given to proposals in these categories.

(1) *Part B, Special programs and projects to improve educational opportunities for Indian children.* (a) Early childhood education projects which train and involve parents in the education process. The following models are of particular interest:

(i) Home-based preschool models,

(ii) School-based preschool model,

(iii) Preschool through first grade model, and

(iv) Kindergarten through third grade model.

(b) Models for improving the delivery of educational services, particularly covering grades four through eight.

(c) Transfer models.

(i) Model projects which demonstrate how to transfer into the everyday activities of a regular school program a successful education program which has been operated as an appendage within the school or operated outside of the school.

(ii) A transfer model as stated in (c) (i) above based upon a analysis and transfer of Part B projects funded in 1973 and 1974.

(2) *Part C, special programs relating to adult education for Indians.* (a) Adult Basic Education (ABE) projects aimed at providing or improving reading, writing, computation, and oral communication skills of illiterate and/or undereducated adult Indians. The following models are of particular interest:

(i) System Reform Model. This should be a revision and improvement of the current local ABE activities;

(ii) Consumer Education Model for ABE; and

(iii) Cultural Education Model for ABE.

(b) General Education Development (GED) projects aimed at improving the reading, writing, computation, and other skills of adult Indians who do not have a high school diploma or equivalent education so that they are prepared to pass the GED test. The following models are of particular interest:

(i) System Reform Model. This should be a revision of the current local GED activities;

(ii) Consumer Education Model for GED; and

(iii) Cultural Education Model for GED.

Applicants may, if they wish, submit applications for projects which will require more than one year for completion. Consideration will be given to providing support for such projects for more than one year on a case by case basis. Where assistance is provided for multiple year projects, grant awards will be made for grant periods of a single year's duration with continuation awards subject to satisfactory performance and the availability of funds in future fiscal years and application of other relevant criteria.

C. Grant applicants are notified that section 810 of the Elementary and Secondary Education Act (as added by Part B, the Indian Education Act) has been amended by section 632 of P.L. 93–380 to include the following statutory provisions:

> The Commissioner shall not approve an application for a grant under subsection (b), (c), or (d) (of section 810) unless he is satisfied that such an application, to the extent consistent with the number of eligible children in the area to be served who are enrolled in private nonprofit elementary and secondary schools whose needs are of the type which the program is intended to meet, makes provisions for the participation of such children on an equitable basis.

This provision requires recipients of grants under section 810 (Part B of the Act) to provide for the participation of eligible Indian children who are enrolled in private, nonprofit schools in project activities and services.

The Office of Education is presently developing regulations under this statutory provision. Applicants are advised, however, that the receipt of funds under section 810 is currently governed by the new amendment. Applications under section 810 should contain a statement describing what provisions have been made for the participation of eligible school children attending private nonprofit schools in the project services and activities.

D. Interested parties may obtain information and application forms regarding each of the programs from the Office of Indian Education, U.S. Office of Education, Room 3514, Regional Office Building Three, 7th & D Streets SW., Washington, D.C. 20202.

E. Applications must be received by the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th & D Streets SW., Washington, D.C. 20202 (mailing address: U.S. Office of Education Application Control Center, 400 Maryland Avenue, SW., Washington, D.C. 20202), on or before January 31, 1975.

An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare or the U.S. Office of Education.)

F. Hand delivered applications. An application to be hand delivered must be taken to the U.S. Office of Education Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

(20 U.S.C. 887c; 1211a)

Dated: December 23, 1974.

T. H. BELL,
U.S. Commissioner of Education.

STRENGTHENING DEVELOPING INSTITUTIONS PROGRAM

Extended Closing Date for Receipt of Applications

Notice is hereby given that, pursuant to the authority contained in section 304 of Title III of the Higher Education Act of 1965, as amended (20 U.S.C. 1054), applications are being accepted from institutions of higher education for grants under both the Basic and Advanced Institutional Development Programs (Title III, HEA, 20 U.S.C. 1051 et seq.). In order to be assured of consideration for funding from appropriations for Fiscal Year 1975, applications must be received by the U.S. Office of Education Application Control Center by January 15, 1975.

Background. On June 17, 1974 a Notice of Closing Date was published in the FEDERAL REGISTER stating that, in order to receive consideration for this program, applications must be received by the U.S. Office of Education Application Control Center on or before October 31, 1974. Because of certain changes in application procedures this year which were

XUM
V 39 N 252 DEC 31 1974
XUM

not uniformly understood by the prospective applicants, a number of applications failed to reach the Application Control Center on or before the closing date. During this year of transition to new procedures, it is believed to be in the best interests of prospective applicants to afford additional time for the submission of proposals. Therefore the Closing Date for Receipt of Applications has been extended from October 31 to January 15, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW, Washington, D.C. 20202. Attention: 13.454. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the Developing Institutions Program, U.S. Office of Education, Room 4060, 7th and D Streets SW., Washington, D.C. 20202.

(20 U.S.C. 1054)

Dated: December 23, 1974.

T. H. BELL,
U.S. Commissioner of Education.

ADVISORY COMMITTEE ON ACCREDITATION AND INSTITUTIONAL ELIGIBILITY

Notice of Public Meeting

Notice is hereby given, pursuant to Pub. L. 92-463, that the next meeting of the Advisory Committee on Accreditation and Institutional Eligibility will be held from 9 a.m. to 5:30 p.m., local time, January 22, 1975, and from 9 a.m. to 9 p.m., local time, January 23, 1975, in the auditorium of the HEW-North Building, 330 Independence Avenue, SW., Washington, D.C., and from 11 a.m. to 2 p.m., January 24, 1975, in Room 3000, Federal Office Building 6, 400 Maryland Avenue SW., Washington, D.C.

The Advisory Committee on Accreditation and Institutional Eligibility is established pursuant to section 253 of the Veterans' Readjustment Assistance Act (Chapter 33, Title 38, U.S. Code). The Committee is established to advise the Commissioner of Education in fulfilling his statutory obligations to publish a list of nationally recognized accrediting agencies and associations which he determines to be reliable authorities concerning the quality of training offered by educational institutions and programs. It also serves to advise the Commissioner in fulfilling his statutory obligation to publish a list of State agencies which he has determined to be reliable authorities concerning the quality of public postsecondary vocational education in their respective State, pursuant to section 438(b) of the Higher Education Act of 1965, as amended by Pub. L. 92-318.

The meeting shall be open to the public from 9-10 a.m. and from 3-5:30 p.m. on January 22, from 9 a.m. to 5 p.m. on January 23, and from 11-11:30 a.m. on January 24, for presentations by representatives of nationally recognized and State agencies which have petitions for recognition pending before the Committee, and for review of a variety of policy items.

Under the authority of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and clauses (4) and (6) of subsection (b) of section 552 of Title 5 of the United States Code, the meeting will be closed to the public from 10 a.m. to 3 p.m. on January 22, from 7 to 9 p.m. on January 23 and from 11:30 a.m. to 2 p.m. on January 24. Closure of the meeting is to allow a free and frank discussion of the pending petitions for recognition, for renewal of recognition, and for a determination of satisfactory assurance that institutions will meet accrediting standards within a reasonable time. These petitions typically contain financial information about institutions that has been given in confidence and the Committee, in order to evaluate the performance of the petitioning agencies, may wish to discuss such information. In addition, the petitions may occasionally contain information about the activities of individuals which the Committee believes should be discussed, as they relate to the performance of petitioning agencies, and which, in the judgment of the Committee and the Commissioner, would, if publicly disclosed, result in a clearly unwarranted invasion of the personal privacy of such individuals. These portions of the petitions are exempt from disclosure under 5 U.S.C. 552(b) (4) and (6). A discussion of the petitioner and the working papers necessarily ranges back and forth from exempt and nonexempt materials, and the exempt portion cannot be separated out during the Committee's deliberation. Records shall be kept of all Committee proceedings, and these will be available in the offices of the Accreditation and Institutional Eligibility Staff, Rooms 4068 and 4069, Regional Office Building 3, 7th and D Streets SW., Washington, D.C.

Signed at Washington, D.C. on December 17, 1974.

JOHN R. PROFFITT,
Director, Accreditation and Institutional Eligibility Staff, Office of Education.

Food and Drug Administration

[FAP MF 3591V]

CELANESE CHEMICAL CO.

Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP MF 3591V) has been filed by the Celanese Chemical Co., a Division of Celanese Corp., New York, NY 10036, proposing that the food additive regulations (21 CFR Part 121) be amended to provide for the safe use of 1,3-butanediol (1,3-butylene glycol) in intermediate moisture pet food.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report may be seen in the office of the Assistant Commissioner for Public Affairs, Rm. 15B-42 or the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, during working hours, Monday through Friday.

Dated: December 23, 1974.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

PANEL ON REVIEW OF BACTERIAL VACCINES AND BACTERIAL ANTIGENS

Notice of Renewal

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776; 5 U.S.C. App.), the Food and Drug Administration announces the renewal by the Secretary, Department of Health, Education, and Welfare, of the Panel on Review of Bacterial Vaccines and Bacterial Antigens for an additional period of 2 years beyond December 22, 1974.

Authority for this committee will expire December 22, 1976, unless the Secretary formally determines that continuance is in the public interest.

Dated: December 23, 1974.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

[FR Doc.74-30402 Filed 12-30-74;8:45 am]

PANEL ON REVIEW OF INTERNAL ANALGESIC INCLUDING ANTIRHEUMATIC DRUGS

Notice of Rescheduling

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776; 5 U.S.C. App.), the Food and Drug Administration announced in a notice published in the FEDERAL REGISTER of December 17, 1974 (39 FR 43649), public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the act.

Notice is given that the meeting of the Panel on Review of Internal Analgesic Including Antirheumatic Drugs scheduled for January 31, February 1, and February 2, 1974 is rescheduled for February 5, 6, and 7, 1974. The open session will be on February 5, 9 a.m. to 10 a.m., in conference room I.

Dated: December 23, 1974.

WILLIAM F. RANDOLPH,
Acting Associate Commissioner for Compliance.

Office of the Secretary

HOSPITAL INSURANCE MONTHLY PREMIUM

Premium Rate for the Uninsured Aged

Pursuant to authority contained in section 1818(d) (2) of the Social Security Act (42 U.S.C. 1395i-2(d) (2)), I hereby determine and promulgate that the hospital insurance premium, applicable for the 12-month period commencing July 1, 1975, is $40.

Section 1818 of the Social Security Act, added by section 202 of the Social Security Amendments of 1972 (Public Law 92-603), provides for voluntary enrollment in the hospital insurance program (Part A of Medicare) by certain uninsured persons 65 and older who are otherwise ineligible. Section 1818(d) (2) of the Act requires the Secretary to determine and promulgate, during the final quarter of 1974, the dollar amount which will be the monthly Part A premium for voluntary enrollment, for months occurring in the 12-month period beginning July 1, 1975. As required by statute, this amount must be $33 times the ratio of (1) the 1975 inpatient hospital deductible to (2) the 1973 inpatient hospital deductible, rounded to the nearest multiple of $1, or if midway between multiples of $1, to the next higher multiple of $1.

Under section 1813(b) (2) of the Act, the 1975 inpatient hospital deductible was determined to be $92. The 1973 deductible was actuarially determined to be $76, but to comply with a ruling by the Cost of Living Council, it was promulgated at $72. Thus, the change in the 1973 inpatient hospital deductible required by the Cost of Living Council ruling has caused an ambiguity in the use of the formula for calculating the hospital insurance premium. Using the $72 figure in the calculation of the hospital insurance premium would result in the following computation: $33×(92/72)=$42.17 which must be rounded to $42. If, however, the actuarially determined amount of the 1973 deductible, $76, is used, the computation becomes $33×(92/76)=$39.95 which is rounded to $40. The following table provides a comparison of the premium calculations to date on the two bases:

Monthly hospital insurance premium, as calculated

Fiscal year	With 1973 deductible=$72	With 1973 deductible=$76
1974	$33	$33
1975	39	36
1976	42	40

The purpose of the premium formula is to adjust the original $33 premium for changes in the cost of providing hospital care. The ratio of the inpatient hospital deductibles does this approximately, since the deductible as calculated under section 1813(b) (2), is based on the average daily cost of providing hospital care under the hospital insurance program. To use an amount for the deductible which is not at all related to the experience of the program, as in the case of the $72 deductible for 1973, is therefore inappropriate in a formula of this type. More importantly, it was the intent of the provision that the costs of providing Part A coverage to the uninsured enrollees be covered by the enrollees themselves. As explained by the Senate Finance Committee.

> The intent is that the cost of such coverage would be fully financed through payment of a monthly premium by those who elect to enroll for this protection.
>
> (S. Rep. No. 92-1230, 92 Cong., 2nd Sess. 179 (1972)).

Assuming that the average incurred per premium paying enrollee is the same as the average incurred cost per insured aged enrollee, the following comparison can be made:

Comparison of promulgated premium rate with the actuarially adjusted rate

Fiscal year (1)	Promulgated premium rate (2)	Estimated cost per enrollee in in the year (3)	Premium less cost (4)	Accumulated value of col. (4) for prior years [1] (5)	Actuarially adjusted rate cols. (3) to (5) (6)
1974	$33.00	$30.90	$+2.10		$30.9
1975	36.00	36.10	−.10	$+2.20	33.9
1976	40.00	41.80	−1.80	+2.20	39.4

[1] For a given year, this value is the sum of the differences shown in col. (4) for all preceding years, accumulated with interest and changes in size of enrollment.

Thus, the premium of $40, derived by using $76 for the 1973 inpatient hospital deductible, is adequate to cover the projected costs of the uninsured enrollees. The actuarially determined $76 amount for the 1973 inpatient hospital deductible was used in determining the hospital insurance premium rate for the 12-month period commencing July 1, 1974.

In view of the foregoing, it is appropriate that the Part A premium be calculated using the amount that was actuarially determined for the 1973 inpatient hospital deductible. It is the use of this amount which was originally foreseen by the Congress in enacting section 1818; the results of its use are more consistent with the remedial purposes of the Social Security Act; and, perhaps most importantly, it is consistent with the legislative intent that the program of hospital insurance under section 1818 be self-supporting. Accordingly, the hospital insurance monthly premium for fiscal year 1976 is $40.

Dated: December 23, 1974.

CASPAR W. WEINBERGER,
Secretary.

Social and Rehabilitation Service

WORK INCENTIVE PROGRAM

Social and Supportive Services

On December 2, 1974, this Department published in the FEDERAL REGISTER (39 FR 41757) a proposed formula for distribution of funds under section 403(d) of the Social Security Act for States' program costs for the Work Incentive (WIN) program under section 402(a) (19) (G) of the Act during Fiscal Year 1975 and a proposed formula for FY 1976. This action was necessary to assure that States operate their programs within the amount available under this Department's appropriation. The proposed formula for FY 1975 was published with a shortened comment period to allow publication of the final formula prior to January 1 in order to permit its use in calculating the third quarter grant awards. The formula for FY 1976 will be published following the normal comment period.

Seven comments, all from State agencies, were received during the comment period prescribed for the proposed FY 1975 allocation formula. Although most

of the comments failed to distinguish between the proposed formula for FY 1975 and the proposal for FY 1976, all the comments have been considered since they were received during the prescribed time period. Essentially all of the comments were based upon the fact that the States will receive less funds in FY 1975 than they believe is necessary. Furthermore, the comments proposed conflicting alternatives depending on the conditions in a particular State. For example, one State with an active job search program recommends basing the distribution entirely on the Department of Labor formula. However, another State objects to the Labor aspect of the proposed formula because it feels that its high unemployment rate will place the State at a disadvantage in achieving job placements.

Given the fact that there are less funds available than the States would prefer, there is no allocation formula that will satisfy every State. The Department feels the proposal is the most equitable than can be developed under the circumstances in that the majority of the funds will be based on past State expenditures. Furthermore, by basing 25 percent of the allocation on performance, the States will have an incentive to improve their programs. Therefore, after considering all the comments, no changes are being made in the proposed FY 1975 allocation formula. Annual limits of entitlement for Fiscal Year 1975 for State expenditures for support services under the Work Incentive (WIN) program under sections 402(a)(19)(G) and 403(d) of the Social Security Act will be calculated on the basis of the following formula:

1. 75 percent of the total limit of entitlement for all the States will be distributed on the basis of the ratio of each State's total program costs under section 402(a)(19)(G) for Fiscal Year 1974 to the total of such program costs for all States during Fiscal Year 1974. (Such program costs shall be based on information available at the time of promulgation of the limits.)

2. 25 percent of the total limit of entitlement for all the States will be distributed on the basis of the ratio of the amount of funds allocated by the Secretary of Labor in support of the WIN manpower agency for each State in Fiscal Year 1975 to the total amount of funds allocated by the Secretary of Labor in support of the WIN manpower agencies for all States for Fiscal Year 1975. (Such allocations of the Secretary of Labor shall be those available at the time of promulgation of the limits.)

This formula will be applied to the Department's appropriation for Fiscal Year 1975 in order to determine annual limits of entitlement for each State. When these annual limits are promulgated, requests for Federal financial participation in expenditures incurred pursuant to section 402(a)(19)(G) during Fiscal Year 1975 will not be honored to the extent they exceed promulgated limits.

On May 1, 1975, the Department will reallocate on the basis of the same formula established for Fiscal Year 1975 any funds which a survey of all States indicates will not be expended during Fiscal Year 1975. Such funds will be reallocated to those States which indicate a necessity for additional funds to operate their program under 402(a)(19)(G) for the remainder of Fiscal Year 1975.

Dated: December 20, 1974.

JOHN A. SVAHN,
Acting Administrator,
Social and Rehabilitation Service.

Approved: December 24, 1974.

CASPAR W. WEINBERGER,
Secretary.

[FR Doc.74-30413 Filed 12-30-74;8:45 am]

WORK INCENTIVE PROGRAM

Social and Supportive Services

Notice is hereby given of annual limits of entitlement for States for Federal financial participation in expenditures under the Work Incentive (WIN) Program pursuant to sections 402(a)(19)(G) and 403(d) of the Social Security Act, 42 U.S.C. § 602(a)(19)(G) and 603(d), for the period from July 1, 1974 to June 30, 1975. These annual limits replace and supersede the semiannual limits of entitlement published in the FEDERAL REGISTER on September 24, 1974 (39 FR 34319). Requests for Federal financial participation in expenditures incurred pursuant to section 402(a)(19)(G) of the Act during Fiscal Year 1975 will not be honored to the extent they exceed the limits of entitlement promulgated herein.

The limits of entitlement have been calculated on the basis of the allocation formula published in the FEDERAL REGISTER on December 31, 1974 (39 FR).

The limits of entitlement for each State for child care, other supportive services and administration under section 402(a)(19)(G) of the Social Security Act, 42 U.S.C. § 602(a)(19)(G), for the period from July 1, 1974 to June 30, 1975, are as follows:

July 1, 1974, to June 30, 1975

State:	*Limit of entitlement*
Alabama	$1,215,332
Alaska	431,096
Arizona	1,039,171
Arkansas	676,151
California	6,479,045
Colorado	1,202,995

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[FDAA-3005-DR; Docket No. NFD-243]

NEW JERSEY

Notice of Emergency Declaration and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on December 24, 1974, the President declared an emergency as follows:

I have determined that the impact of severe storms, high winds, and abnormally high tides on the State of New Jersey, beginning about December 1, 1974, is of sufficient severity and magnitude to warrant a declaration of an emergency under Public Law 93-288. I therefore declare that such an emergency exists in the State of New Jersey.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285, I hereby appoint Mr. Thomas R. Casey, HUD Region II, to act as the Federal Coordinating Officer for this declared emergency.

I do hereby determine the following area in the State of New Jersey to have been adversely affected by this declared emergency:

The County of:
Cape May

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance)

Dated: December 24, 1974.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

[FR Doc.74-30431 Filed 12-30-74;8:45 am]

DEPARTMENT OF TRANSPORTATION

Office of Pipeline Safety

[OPS Docket No. Pet. 74-12]

TRANS-ALASKA PIPELINE VALVING PLAN

Approval of Valving Plan

The Office of Pipeline Safety (OPS) hereby gives notice of its approval of the revised valving plan proposed by the Alyeska Pipeline Service Company (Alyeska) for the 48-inch diameter Trans-Alaska crude oil pipeline. The pipeline will be constructed between Prudhoe Bay and Valdez for a distance of approximately 800 miles. The valving plan proposed by Alyeska will be used to comply with 49 CFR 195.260 governing the location of valves. In approving the safety of the valving plan for the entire pipeline, OPS has found, in accordance with section 195.260(e), that the plan provides for an adequate level of safety and the requirement for the installation of valves at certain water crossings is not justified in particular cases. Under that section, valves must be placed in a pipeline on each side of a water crossing that is more than 100 feet wide from high-water mark to high-water mark unless the Secretary of Transportation finds in a particular case that the requirement for valves is not justified. The authority to make these findings has been delegated to the Director, Office of Pipeline Safety.

By letter dated October 30, 1972, Alyeska requested that OPS approve their proposed valving plan. The placement of valves in this plan is based on the criterion of limiting the static spillage from a pipeline failure to 50,000 barrels of crude oil. This spillage limit was established in the environmental impact statement for the pipeline issued by the Department of the Interior on March 20, 1972. Static spillage is the amount of commodity which drains from a failed pipeline section after the system is shut down and all valves are closed. In its October 30, 1972, letter, Alyeska provided a spillage profile indicating the amount of static spillage at all points along the pipeline. This profile shows that less than one-half of 1 percent of the length of the pipeline would be exposed to a potential static spill of 50,000 barrels, and over 50 percent of the length would be exposed to a potential static spill of 15,000 barrels or less.

On October 12, 1973, after an initial review of the valving plan, OPS asked Alyeska for additional information, including an environmental assessment of each water crossing subject to section 195.260(e) and data to show the total amount of potential spillage from a failure at the crossing. In addition to static spillage, total spillage includes the amount of spillage from a pipeline between the time of a failure to the time the pipeline is shut down and all valves are closed.

Alyeska responded to this request by letters dated November 5, 1973, December 21, 1973, and May 4, 1974, and by issuing Revision A to Appendix A-3.1087 of the pipeline design titled "Summary Report, Valve Location Design for the Trans-Alaska Pipeline System." The Summary Report included a study of the fish, wildlife, recreational, cultural, geological, and aesthetic resources along the pipeline. In this study, a numerical value was assigned to each resource in order to quantify the total resources at all points along the pipeline right-of-way.

The Summary Report also included a risk assessment for the pipeline. Eighteen failure categories, including slope stability, flood, avalanche, pressure surge, weld defect, fire, corrosion, and lightning, were assigned numerical values. These numbers were distributed along the pipeline and the total of all categories was shown for each mile. The study by Alyeska provided a comparative risk of failure from one mile to another, not the absolute risk for any one mile.

The Summary Report also contained data indicating at all locations along the pipeline the total potential spillage from a failure. These figures indicated that total spillage would not exceed 64,000 barrels at any point along the pipeline. (Less than one-tenth of 1 percent of the pipeline length would be exposed to 64,000 barrels and over 50 percent of the line length would be exposed to 25,000 barrels or less.)

Based on a thorough review of the proposed valving plan, OPS has concluded that, under section 195.260(e), installation of valves on both sides of water crossings more than 100 feet wide would not be necessary for the Trans-Alaska pipeline in some instances. The pipeline alignment follows the floodplain of a number of rivers for substantial distances. Because of the meandering nature of these rivers, a large number of valves would have to be installed to meet the requirement in section 195.260(e) for valves at certain crossings. The installation of numerous valves for this reason could add risk and be of little benefit. Also, the valves would be installed in floodplain areas, an undesirable location for the placement of valves. Instead, in floodplain areas the proposed valving plan provides for bracketing of the crossings with valves placed on each side of the floodplain area. Similarly, in areas where the pipeline crosses a number of water courses within relatively short distances, the safety standard is alleged to be inappropriate, and the proposed valving plan provides for bracketing these crossings with valves.

The installation of valves as required by section 195.260(e) is also alleged to be inappropriate at water crossings where, in case of a failure of the pipeline in the water, drainage from the pipeline would backflow away from the stream crossing due to the slope of the pipeline right-of-way.

Protection by valves against spillage is the most appropriate course of action at certain other water crossings, however, and Alyeska's valving plan recognizes this by locating valves on each side of the streams involved either at each bank or a short distance away.

After extensive review, the OPS finds that Alyeska's proposed valving plan, as revised, will provide an adequate level of safety to the public. In the course of this review, OPS considered the risk of damage to adjacent resources, relative risk of a failure, and the amount of potential spillage along the pipeline. Since Alyeska requested approval of the valving plan for the entire pipeline, the review was not confined to water crossings subject to section 195.260(e).

One ground for approving the proposed valving plan is that all valves will be either the check valve type, which automatically prevents backflow in case of shut down, or remotely controlled block valves. The safety regulations in 49 CFR Part 195 do not require that block valves be remotely controlled. The installation of such block valves increases safety considerably since a remotely controlled valve can be closed in minutes after a pipeline failure rather than a much longer period of time where a pipeline company's employee must travel to a valve to manually close it.

Numerical values were assigned to three variable factors present in the safety assessment of the pipeline, viz., the adjacent resources, the relative risk of a failure, and the amount of the potential spillage. OPS analyzed these three variables for each mile of the 800-mile pipeline, including each water crossing subject to section 195.260(e). Based on this numerical analysis, valving was found adequate if there were few adjacent natural resources and the risk of failure was low, although the amount of the potential spillage was large. At other locations, the valving was considered adequate if the amount of potential spillage was small but there were numerous natural resources adjacent to the pipeline.

There were six areas along the pipeline where OPS requested Alyeska to revise its valving plan to provide additional protection because of the existence of a high potential for spillage and the presence of numerous resources adjacent to the pipeline. Alyeska agreed to revise their proposed valving plan to provide this protection by the addition of eight valves, the relocation of four others, and the changing of one valve from a remotely operated one to a check valve.

XUM
V 39 N 252 DEC 31 1974
XUM

With the addition of the eight valves, the total number of main line valves between pumping stations proposed in Alyeska's valving plan for safety and environmental protection is 142, significantly more than normally would be used on an 800-mile crude oil pipeline. In addition, the valving system designed for this pipeline is one of the most advanced for a major pipeline to date. The large number of valves and the provision for remote control of block valves provide a high degree of control of potential spillage, both at water crossings and elsewhere along the pipeline.

The final environmental statement issued by the Department of the Interior on March 20, 1972, for the Trans-Alaska Pipeline covers the action embodied in this notice. In accordance with section 203(d) of the Trans-Alaska Pipeline Authorization Act (Pub. L. 93-153), this action may be taken without further regard for section 1092(2)(c) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(c)).

This notice is issued under the authority of sections 831-835 of Title 18, United States Code, section 6(e)(4) of the Department of Transportation Act (49 U.S.C. 1655(e)(4)), § 1.58(d) of the regulations of the Office of the Secretary of Transportation (49 CFR 1.58(d)), and the redelegation of authority to the Director, Office of Pipeline Safety, set forth in Appendix A to Part 1 of the regulations of the Office of the Secretary of Transportation (49 CFR Part 1).

Issued in Washington, D.C., on December 24, 1974.

JOSEPH C. CALDWELL,
Director, Office of Pipeline Safety.

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS ENVIRONMENTAL SUBCOMMITTEE

Notice of Meeting

DECEMBER 24, 1974.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Environmental Subcommittee will hold a meeting on January 17, 1975 in Room 1046, 1717 H Street NW., Washington, D.C.

The subcommittee and its consultants will meet in Executive Session to discuss and to formulate appropriate recommendations to the full ACRS regarding a variety of subjects and programs pertaining to protection of the environment.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the meeting will consist of an exchange of opinions, as part of the process of formulating recommendations to the full committee, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). Any non-exempt material that may be discussed during this meeting will be inextricably intertwined with discussion of exempt material and no separation is practical. It is essential to close this meeting to protect the free interchange of internal views and to avoid undue interference with committee operation.

JOHN C. RYAN,
Advisory Committee Management Officer.

[FR Doc.74-30372 Filed 12-30-74;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS GENERAL ELECTRIC COMPANY SUBCOMMITTEE

Notice of Meeting

DECEMBER 24, 1974.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' General Electric Company Subcommittee will hold a meeting on January 18, 1975 in Room 1046, 1717 H Street NW., Washington, D.C.

The purpose of the meeting will be to discuss General Electric's Standard Safety Analysis Report (GESSAR). This is the fourth meeting on this subject.

The following constitutes that portion of the subcommittee's agenda for the above meeting which will be open to the public:

Saturday, January 18, 1975, 9 a.m.-5 p.m. Discussions with the General Electric Company and the AEC Regulatory Staff.

Representatives of the General Electric Co. will make presentations on General Electric's Standard Safety Analysis Report (GESSAR).

In connection with the above agenda, the Subcommittee will hold executive sessions prior to; and at the close of, the day's public session, which will involve a discussion of its preliminary views, and an exchange of opinions of the subcommittee members and internal deliberations and formulation of recommendations to the ACRS. In addition, the subcommittee may hold a closed session with the regulatory staff and representatives of the General Electric Co. to discuss privileged information relating to the proposed standard design features.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the executive sessions at the beginning and end of the day will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any nonexempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with agency or committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The chairman of the subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than January 10, 1975, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C., 20545. Such comments shall be based upon documents which are on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the chairman of the subcommittee, between the hours of 1:30 p.m. and 3:30 p.m. on January 18, 1975.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on January 16, 1975 to the Advisory Committee on Reactor Safeguards (telephone 202-634-1371) between 8:30 a.m. and 5:15 p.m., Eastern Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by

providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street NW., Washington, D.C. 20545, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portions of the meeting will be available for inspection on or after January 21, 1975 at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street NE., Washington, D.C. 20002 (telephone 202–547–6222) upon payment of appropriate charges.

(j) On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545 after April 18, 1975. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

ARIZONA PUBLIC SERVICE CO., ET AL. (PALO VERDE NUCLEAR GENERATING STATION, UNITS 1, 2, AND 3)

Notice and Order Resetting Special Prehearing Conference

The special prehearing conference in the above-captioned proceeding which is scheduled for Thursday, January 9, 1975, in Phoenix, Arizona, must be continued because of a conflict in the Atomic Safety and Licensing Board schedule.

Please take notice that the Special Prehearing Conference in the above-captioned case is hereby continued from January 9, 1975 until January 23, 1975 at 10 a.m., local time, in the Old Courthouse, 3rd Floor Courtroom, 125 West Washington Street, Phoenix, Arizona 85003.

Issued at Bethesda, Maryland, this 24th day of December 1974.

By order of the Atomic Safety and Licensing Board.

DANIEL M. HEAD,
Chairman.

[Docket No. 50–317]

BALTIMORE GAS AND ELECTRIC CO.

Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Atomic Energy Commission (the Commission) has issued Amendment No. 7 to Facility Operating License No. DPR–53 issued to Baltimore Gas and Electric Company which revised Technical Specifications for operation of the Calvert Cliffs Nuclear Power Plant, Unit 1, located in Calvert County, Maryland. The amendment is effective as of its date of issuance.

The amendment modifies the Specifications to delete the requirement that the continuous main vent monitor be capable of measuring release rates of noble gases and particulates of 10 μCi/sec and 10^{-5} μCi/sec respectively.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated December 21, 1974, (2) Amendment No. 7 to License No. DPR–53, with any attachments, and (3) the related safety evaluation contained in the Commission's letter to Baltimore Gas and Electric Company. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Calvert County Library, Prince Frederick, Maryland 20678.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 23d day of December 1974.

For the Atomic Energy Commission.

OLAN D. PARR,
Chief, Light Water Reactors, Project Branch 1–3, Directorate of Licensing.

[Docket No. 50–315]

INDIANA AND MICHIGAN ELECTRIC CO. AND INDIANA AND MICHIGAN POWER CO. (DONALD C. COOK NUCLEAR PLANT, UNIT 1)

Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Atomic Energy Commission (the Commission) has issued Amendment No. 1 to Facility Operating License No. DPR–58 issued to Indiana and Michigan Electric Company and Indiana and Michigan Power Company. The amendment is effective as of its date of issuance.

The amendment permits operation of the facility at steady state reactor core power levels not to exceed 2632.5 megawatts (81 percent of the rated thermal power) in accordance with the provisions of the license and the Technical Specifications. The Commission had determined, as discussed in the staff's Safety Evaluation dated September 10, 1973, that reactor operation at power levels exceeding 81 percent should not be undertaken until operating experience demonstrates to the staff's satisfaction that the maximum linear power density will not exceed that for which the accident analyses had been made.

The amendment also revises the Technical Specifications contained in Appendix B to the license to permit operation of the facility before certain alarms are installed on the instrumentation that monitors condenser cooling water temperatures. The alarms, not presently available, are to be installed not later than November 1, 1975.

The amendment also revises the Technical Specifications contained in Appendix A to the license to permit only subcritical operation of the reactor until installation of certain piping restraints and impingement barriers is complete.

For further details with respect to this action, see Amendment No. 1 to License DPR–58. Amendment No. 1 is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the St. Joseph Public Library, 500 Market Street, St. Joseph, Michigan 49085. A copy of Amendment No. 1 may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 20th day of December 1974.

For the Atomic Energy Commission.

KARL KNIEL,
Chief, Light Water Reactors Branch 2–2, Directorate of Licensing.

[Docket Nos. 50–438 and 50–439]

TENNESSEE VALLEY AUTHORITY, (BELLEFONTE NUCLEAR PLANT, UNITS 1 AND 2)

Notice of Issuance of Construction Permits

Notice is hereby given that, pursuant to the Initial Decision of the Atomic Safety and Licensing Board, dated December 23, 1974, the Atomic Energy Commission (the Commission) has issued Construction Permits Nos. CPPR–122 and CPPR–123 to the Tennessee Valley Authority for construction of two pressurized water nuclear reactors at the applicant's site in Jackson County, Alabama. The proposed reactors, known as the Bellefonte Nuclear Plant, Units 1 and 2, are each designed for a rated power of 3600 megawatts thermal with a gross electrical output of approximately 1329 megawatts.

The initial decision is subject to review by an Atomic Safety and Licensing Appeal Board prior to its becoming final. Any decision or action taken by an Atomic Safety and Licensing Appeal Board in connection with the initial decision may be reviewed by the Commission.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the construction permits. The application for the construction permits complies with the standards and requirements of the Act and the Commission's rules and regulations.

The construction permits are effective as of their date of issuance. The earliest date for the completion of Unit 1 is June 1, 1979, and the latest date for completion is December 1, 1979. The earliest date for the completion of Unit 2 is March 1, 1980, and the latest date for completion is September 1, 1980. Each permit shall expire on the latest date for completion of the facility.

A copy of (1) the initial decision, dated December 23, 1974; (2) construction permits nos. CPPR–122 and CPPR–123; (3) the report of the Advisory Committee on Reactor Safeguards, dated July 16, 1974; (4) the Directorate of Licensing's safety evaluation, dated May 24, 1974 and the supplement thereto; (5) the preliminary safety analysis report and amendments thereto; (6) the applicant's draft environmental statement, dated March 6, 1973 and supplements thereto; (7) the applicant's final environmental statement, dated May 24, 1974; (8) the AEC's draft environmental statement, dated February 1974; and (9) the AEC's final environmental statement, dated June 1974, are available for public inspection at the Commission's public document room at 1717 H Street NW., Washington, D.C. and the Scottsboro Public Library, 1002 South Broad Street, Scottsboro, Alabama 35768. Copies of the construction permits and the Safety Evaluation may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 24th day of December 1974.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Light Water Reactors Branch 2–3, Directorate of Licensing.

[Docket No. 50–367]

NORTHERN INDIANA PUBLIC SERVICE CO.

Notice and Order Setting Location of Evidentiary Hearing

In the matter of the Bailly Generating Station, Nuclear–1.

By Order issued December 10, 1974 the Atomic Safety and Licensing Board (the Board) set a further Evidentiary Hearing in the above-captioned case to begin on Friday, January 3, 1975 in the vicinity of Chicago, Illinois, or in the vicinity of the Bailly site. The location of the hearing was not established in that Order. The purpose of this Order is to establish the location of that further hearing, which will involve the issue of the environmental impact, if any, of slurry wall construction.

Please take notice that the further evidentiary proceedings will commence at 10 a.m. on Friday, January 3, 1975 at the Pavilion Room, Portage Holiday Inn, 6200 Melton Road, Portage, Indiana 46368.

Members of the public are invited to attend this further Evidentiary Hearing.

Issued at Bethesda, Maryland, this 24th day of December 1974.

By order of the Atomic Safety and Licensing Board.

DANIEL M. HEAD,
Chairman.

[Order 74–12–98; Docket 26280; Agreement C.A.B. 24597 R–4 and R–5]

PAN AMERICAN WORLD AIRWAYS, INC., ET AL.

Order

Agreements adopted by the Traffic Conferences of the International Air Transport Association relating to increased fuel costs.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 26th day of December, 1974.

By Order 74–10–88 of October 17, 1974 the Board, inter alia, disapproved proposed five percent fuel-related increases for North and Mid-Atlantic cargo rates on the grounds that carrier justification did not support an increase of this magnitude based on cost increases actually experienced from September 1973 to the date of the then most recent available data (August 1974). In reaching its conclusion, the Board adjusted the various carrier submissions to exclude any increases in fuel cost price before September 1973 since this was the last full month before the October 1973 fuel crisis.

Pan American World Airways, Inc. (Pan American), Trans World Airlines, Inc. (TWA) and Seaboard World Airlines, Inc. (Seaboard) have filed petitions urging the Board to reconsider its disapproval. In general, all three carriers regard as unjustified the Board's use of single-month September 1973 fuel prices as a benchmark against which to measure the impact of subsequent fuel-related cost increases and maintain that such use ignores sharp increases in the price of fuel to the carriers occurring throughout the third quarter of 1973 and therefore precludes carrier recovery of increased fuel costs occurring prior to September 1973. Instead, the carriers urge the Board to review IATA fuel pass-through agreements in the context of a representative historical base average such as the year ended September 1973.

TWA and Seaboard maintain that the general rate increases incorporated in the 1974 North Atlantic cargo rates package negotiated by IATA in August 1973 and approved by the Board in April 1974 did not provide for any fuel cost increases after June 30, 1973.[1] Additionally, both maintain that the regulatory lag between experience of increased costs and implementation of rate increases results in non-recoverable costs running into millions of dollars to the carriers.

Seaboard further contends that the Board's adjustment of carrier data to the month of September 1973 is inconsistent with treatment in the first two Board orders on this subject which allowed average fuel costs based on the

[1] TWA states the package did not take into account post-March 1973 fuel price increases.

year ended September 30, 1973 for the IATA carriers and year ended June 30, 1973 for Seaboard;[2] and that the first instance of Board use of single-month September 1973 costs as a base was in a May 1974 order which was unchallenged since the increases were approved. The carrier now maintains that the Board should review the disapproved agreement in the context of September 1974 unit costs for fuel, rather than those for August 1974, as these are now the latest figures available, and in that light, its revenue need is $536,605 greater than shown in August 1974. Finally, Seaboard contends that the revenue impact of fuel-related increases is overstated as the carriers do not take into account the increased commissions expense resulting from any rate increase.[3]

Pan American asserts that Board disallowance of all projected future cost increases, especially during an inflationary era, results in a situation where the regulated carriers' tariffs will never cover current costs and thus must always be in a shortfall position, and that in Pan American's case forecast fuel prices were based on current contracts containing escalation clauses. Moreover, the carrier maintains that the Board was in error in refusing to consider non-fuel cost increases inasmuch as the subject rate agreement was intended to cover non-fuel as well as fuel cost increases, all of which were itemized in Pan American's justification. Finally the carrier contends that disapproval disrupted carrier attempts to realign the rate structure between Detroit and Windsor, Ontario to conform with the Board's established principles in its decision in Agreements Adopted by IATA Relating to North Atlantic Rates.

No answers to the carriers' petitions have been received. After due and careful review and consideration of the pleadings before us, the Board does not find error in its disapproval in Order 74–10–88 and the petitions for reconsideration will be denied.

The crux of each petitioner's argument is that use of single-month September 1973 fuel prices as a benchmark against which to judge the impact of price increases in fuel and consequent fuel-related increases in fares and rates on carrier costs and revenues is inappropriate.[4]

The fuel-related increase agreements were reached by the carriers as a response to a crisis situation marked by unexpected and rapid increases in fuel prices brought about by the October 1973 oil embargo. To illustrate, while composite prices paid by North Atlantic carriers only increased at an average rate of 1.8 percent a month during the third quarter of 1973, this rate of increase suddenly soared to an average 6.8 percent per month during the fourth quarter of 1973. Moreover, the rate of increase during the first quarter of 1974 slowed only slightly to 7.3 percent. Even more noteworthy, while September 1973 fuel prices averaged only 3.7 percent higher than those in August, October 1973 fuel prices averaged 8.3 percent higher than September 1973 prices. Thus, after September 1973, the carriers were faced with a crisis situation brought about by abrupt and staggering fuel price increases.[5]

In view of this crisis the Board departed from its established policy of considering rate increases in the light of all elements or factors of the carriers' cost/revenue relationship[6] and took notice of a single factor—the precipitous fuel price escalation—in order to act as expeditiously as possible and thus avoid the adverse financial losses which might otherwise result. Under no circumstances would the Board have considered the fuel cost trend prior to the October 1973 events as a basis for approving increases to be passed on to the general public in the form of specific fuel-related surcharges.

It is true that when the first of the many IATA fuel-related increase agreements was filed in November 1973, the Board looked to the earlier fuel costs experienced by the carriers for the 12-month period ending September 30, 1973 as a base. These data, however, were the latest available to the Board in the Form 41 reports to serve as a base and were accepted in order to permit Board action within a short time frame. This did not mean that general Form 41 data as reported for year ended September 1973 was to become the benchmark against which all future fuel-related increases were to be measured. Later, in April 1974, in response to the Board's specific requests, fuel cost data on a monthly basis for the carriers' international operations were available and utilized by the Board in reviewing each fuel-related rate increase. In these circumstances the Board will not depart from its use of the single-month September 1973 fuel costs as a base for evaluating the carriers' proposed fuel cost increase.[7]

Finally, we would note that Order 74–10–88 did not reach the question of whether further adjustments in Atlantic cargo rate levels were or were not warranted; instead, it merely concluded that the proposed five percent general increases should not be approved. We note that agreements establishing fares and rates in major IATA conference areas (including the North Atlantic) are shortly due to expire and in the carriers' negotiations to reestablish international fares and rates, all cost/revenue factors should be considered.

Accordingly, *it is ordered*, That: The petitions for reconsideration of Order 74–10–88 filed by Pan American World Airways, Inc., Trans World Airlines, Inc., and Seaboard World Airlines, Inc. in Docket 25280 be and hereby are denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-30440 Filed 12-30-74;8:45 am]

[2] Seaboard cites Orders 73–12–77, December 19, 1973 and 74–2–126, February 28, 1974. The December order approved six percent fuel-related increases in worldwide passenger fares and cargo rates. Insofar as air transportation is concerned, the February order approved seven percent fuel-related increases in Mid-Atlantic passenger fares and Western Hemisphere and transatlantic cargo rates.

[3] We note that only Pan American adjusted its revenue estimates downwards for increased commissions expense. The other two carriers did not make any explicit adjustments for such costs. The Board accepted Pan American's adjusted revenue figures in its analysis of data set forth in Order 74–10–88.

[4] We cannot accept TWA's contention that justification which was submitted in November 1973 for an agreement concluded in August 1973 projects costs for calendar 1974 operations at March 1973 levels.

[5] On October 12, 1973, the Energy Policy Office adopted regulations pursuant to the Economic Stabilization Act of 1970 as amended by P.L. 93–28, April 20, 1973, establishing a mandatory fuel allocation program that imposes controls on "middle distillate fuels," including airline turbine fuel. (EPO Reg. 1, 38 FR 28660). On the same day, the Board issued Order 73–10–50, which authorized discussions among domestic carriers to consider adjustment of schedules to the extent necessary to deal with the developing fuel emergency.

[6] *E.g.*, as late as September 1973, in an order suspending proposed fare increases of domestic carriers, the Board stated: "Equally important, most submissions are deficient in that they reflect cost increases without regard to productivity. Typically, the carriers' cost presentations have merely adjusted operating expenses to account for actual cost increases on a this year-last year basis. Increases in raw costs alone, however, are not a valid basis for fare increases. A cost inflation factor net of productivity must be derived and the carriers' failure to do this, with appropriate supporting data, is a serious weakness in their justification." Domestic passenger-fare increases proposed by various carriers. Order 73–9–108, dated September 28, 1973, pg. 5 mimeo.

[7] This is consistent with the Board's approach in considering numerous other fuel-related rate increases. See Orders 74–4–97, April 18, 1974; 74–5–146, May 31, 1974; 74–6–131, June 28, 1974; and 74–7–14, July 2, 1974. Additionally, certain IATA documents available to the Board tend to support this approach. IATA Agreement C.A.B. 24086, proposing the first of these fuel-related increases, states that the proposed action will only cover, in part, known fuel increases for the period October 1973 through March 1974.

COMMISSION ON CIVIL RIGHTS

STATE ADVISORY COMMITTEES

Notice of Determination To Continue and Recharter

Pursuant to the provisions and requirements of the Federal Advisory Committee Act (Public Law 92–463), the United States Commission on Civil Rights and the Office of Management and Budget have determined that the 51 state advisory committees listed below will be continued upon expiration of their current charters, January 5, 1975, and will be rechartered for another two-year period commencing January 5, 1975:

DEC 31 1974 V 39 N 252 XUM

DEFENSE MANPOWER COMMISSION

NOTICE OF MEETING

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that the Commissioners of the Defense Manpower Commission will meet on January 17, 1975 at 1 p.m. in the New Executive Office Building, Room 2008, 726 Jackson Place NW., Washington, D.C. 20036.

The purpose of the meeting will be to review staff progress on program items and such other business as may be presented by the members.

The meeting will be open to the public. Since meeting space is limited, interested persons wishing to attend should telephone (202) 254-7803 before close of business January 10, 1975.

Dated: December 20, 1974.

BRUCE PALMER, Jr.,
General, USA (Ret),
Executive Director.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-32000/163; FRL 310-5]

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington, D.C. 20460.

On or before March 3, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after March 3, 1975.

APPLICATIONS RECEIVED

EPA File Symbol 9419-RI. The Andersons, PO Box 119, Maumee OH 43537. THE ANDERSONS TRIPLE THREAT PRE-EMERGENCE CRABGRASS KILLER PLUS 10-6-4 FERTILIZER WITH G-E-N-T-L-E "N" AND LAWN INSECTICIDE. Active Ingredients: N-butyl-N-ethyl-a,a,a-trifluoro-2,6-dinitro-p-toluidine 0.46%; Technical Chlordane (Equivalent to Octachloro-4,7-methanotetrahydroindane) 0.72%; Related Compounds 0.46%. FEDERAL COMMUNICATIONS COMMISSION

[FCC 74–1370, F–C–8490; Docket No. 20288; F–C–8734]

AMERICAN TELEPHONE AND TELEGRAPH CO.

Microwave Radio Channels, Hearing & Investigation

In the matter of the application of American Telephone and Telegraph Company (AT&T) for authority under section 214(a) of the Communications Act of 1934, as amended, to supplement existing facilities between Boston, Mass.; Chicago, Ill.; New York, N.Y.; Philadelphia, Pa.; and the District of Columbia by establishing digital channel groups between the above cities on the Existing Microwave Radio Channels. In the matter of American Telephone and Telegraph Company (AT&T) proposed tariff F.C.C. No. 267, offering a dataphone digital service between Five Cities. In the matter of the application of American Telephone and Telegraph Company (AT&T) for authority under section 214(a) to supplement existing facilities by establishing digital channel groups between various cities.

1. On July 2, 1973, the Commission released a Memorandum Opinion and Order, 41 F.C.C. 2d 586, granting AT&T authority to construct the above-captioned five city facilities (No. P–C–8490). The Order specifically withheld operating authority pending submission by AT&T of "definitive data showing the existing or proposed services for which the facilities are to be used, the specific rate and tariff provisions to be applicable to such services, including all regulations regarding shared use and re-sale of such services and interconnection with such services. In addition the showing should include all cost and supporting data."[1] We now have before us a petition from AT&T to commence commercial operation of its digital facilities, a proposed AT&T Tariff F.C.C. No. 267 offering Dataphone Digital Service (DDS), scheduled to become effective December 15, 1974, data supporting this tariff filed pursuant to § 61.38 of the Commission's Rules, and the above-captioned application to expand construction and operating authority to an additional nineteen cities (Appl. No. P–C–8734).[2] Numerous petitions have been filed by carriers whose services would have to compete with the proposed new service, alleging technical and economic deficiencies in the AT&T filing, and in particular that the rates are set at an unjustifiably

[1] 41 F.C.C. 2d at 587.

[2] Atlanta, Ga.; Baltimore, Md.; Cleveland, Ohio; Dallas, Texas; Denver, Colorado; Detroit, Mich.; Hartford, Conn.; Houston, Texas; Kansas City, Mo.; Los Angeles, Calif.; Miami, Fla.; Milwaukee, Wisc.; Minneapolis, Minn.; New Haven, Conn.; Newark, N.J.; Pittsburgh, Pa.; Portland, Ore.; St. Louis, Mo.; and San Francisco, Calif.

XUM
DEC 31 1974
XUM

low point. AT&T now urges grant of operating authority, alleging that the service is technically sound and economically fully justified. The Department of Defense (DOD) and a number of potential corporate users have urged that we grant the authorizations and allow the tariff to become effective. The Office of Telecommunications Policy (OTP) asks us to authorize only the requested five-city operation and hold a hearing on the tariff filing herein. The parties filing pleadings herein are listed in the Appendix.

2. Dataphone Digital Service is AT&T's term for what it characterizes as a new private line service for interstate digital data communications within and between major metropolitan areas within the continental United States. The offering provides for full duplex operation, either on a two station or a multi-station basis. DDS provides two way transmission of digital signals at synchronous speeds of 2.4, 4.8, 9.6 or 56 Kilobits per second (Kb/s). AT&T intends also to make available, although not immediately upon initiation of DDS, off-net extension to stations located in territories where DDS is not available. Stations located in such territories will be connected to DDS at a principal telephone company central office, via standard analog private line facilities. In its tariff filing, AT&T claims that DDS offers high reliability and rapid trouble isolation. It has designed the digital transmission system with centralized testing capability so that a service can be tested from end-to-end by a single technician, usually without a visit to the customer's premises.

3. AT&T proposes to offer digital services using a new technique called data under voice (DUV). By this technique, a digital bitstream is transmitted in an otherwise unused portion of the microwave baseband on 4 and 6 GHz radio channels. The DUV facilities will be functionally discrete from but physically integrated with, existing AT&T facilities. The company claims that this technique will provide improved and more reliable data transmission than existing techniques, and sizeable savings to the customer over comparable private line analog data services (which are presently offered in AT&T Tariff F.C.C. No. 260).

4. DUV as a technique has proved itself in operation by AT&T[3] to be technically feasible and efficient. The technique provides for a typical mix of 169 data channels (2.4, 4.8, 9.6, and 56 Kb/s) or 460 2.4 Kb/s channels, whereas placing voice services in this spectrum would yield only 120 voice channels. Since the bulk of users require 2.4 Kb/s channels, each of which would occupy one voice channel, the increased efficiency of data under voice usage of the microwave baseband is significant. Further, AT&T claims considerably improved error rate over that of the analog telephone network (a minimum of 99.5 percent error free seconds using DUV). At the present state of the art, reliability of digital solid state facilities is generally higher and provides more uniform standards of service than the equipment used for analog transmission. Finally, detection of service problems is eased, the need for special telephone engineering is reduced, and the cost of terminal devices is reduced for all-digital transmission. For this reason, the cost to the telephone company of DUV is said to be substantially less than for existing analog data transmission.

5. AT&T has expressed to the Commission[4] its intention to ultimately install and operate a nationwide end-to-end digital data system serving ninety-six cities. Construction and initiation of this system will, it is contemplated, proceed in several stages, applications for the first two of which are presently before us. When the system is completed, AT&T will be able to provide end-to-end digital data service to most of the major cities of the country and, through analog extensions, offer service to almost any point within the continental United States.

6. The Commission has received comments from a large number of companies, trade organizations, and congressmen regarding both the Section 214 applications and the proposed tariff. Of these, the strongest opposition to our grant of operating authority has come from other common carriers, particularly Data Transmission Company (Datran), the MCI Carriers (MCI),[5] and Western Union Telegraph Company (Western Union), as well as the Independent Data Communications Manufacturers Association (IDCMA), an association of equipment manufacturers which produce, among other items, modems used in the analog transmission of data. These modems would not be required in DDS. MCI operates, or has applied to operate, microwave data and voice facilities in many of the cities to be served by DDS. Western Union offers nationwide private line analog data services.

7. It is Datran, however, which has filed the strongest opposition comments to AT&T's proposed service. Datran provides, and is presently expanding, a digital point-to-point data network with comparable technical parameters to those proposed by AT&T and which Datran anticipates will ultimately be a nationwide service.[6] Datran was organized in July, 1968 as a subsidiary of Wyly Corporation. On November 25, 1969, it applied to the Commission for authority to construct and operate the first part of a Data Transmission Network. Action upon this application was deferred until we resolved basic policies in the specialized common carrier field, through our investigation in Docket No. 18920. Following our decision in that proceeding (29 F.C.C. 2d 870), released June 3, 1971, we granted in 1972 and early 1973 construction permits and operating authority between several points. Presently, Datran has constructed and is operating private line digital facilities serving Dallas and Houston, Texas; Oklahoma City and Tulsa, Oklahoma and Kansas City and St. Louis, Missouri (Datran offers the service pursuant to its Tariff F.C.C. No. 1).[7] The company is presently constructing facilities to serve Chicago, Illinois, and has recently been authorized to serve San Francisco and Los Angeles, California via channels leased from Southern Pacific Communications Company (SPCC).[8]

8. The principal support for grant of operating authority for this system has come from potential users of the system. They see DUV as a system which will provide more reliable data communications services[9] between cities at a lower cost than existing AT&T data services. The Department of Defense (DOD) and the Office of Telecommunications Policy (OTP) have also favored our grant of at least the five-city operating authority but requested an investigation into the rates and conditions of the AT&T tariff offering this service. DOD believes that the rates as filed may be excessive but feels we should not delay initiation of DDS pending the requested investigation. OTP, in its initial letter in this matter, dated May 18, 1973, raised questions regarding cross-subsidization of DDS by other services, the effect of pricing of this service upon competition and technical innovation within the industry and interconnection and resale. Subsequently, in a letter dated June 12, 1974, the Office commented that AT&T's materials appeared to satisfy its principal concerns. The letter suggested that we grant the five-city application for operating authority. Finally in a letter to the IDCMA,[10] OTP clarified its position that approval should be limited to five cities pending conclusion of our inquiry into shared used and resale of communications services (Docket No. 20097).

---

[3] AT&T has thus far operated DUV facilities only between New York and Chicago, pursuant to Commission authorization (File P–C–8449).

[4] Application, File No. P–C–8490.

[5] MCI New York West, MCI New England, Inc., and Interdata Communications, Inc.

[6] Datran presently offers a private line digital data service and shortly intends to offer a switched-network service as well. AT&T's current offering is confined to private line service.

[7] We take no position regarding the appropriateness of the rates which Datran has established in its tariff (F.C.C. No. 1).

[8] On August 9, 1974, Datran and SPCC, a subsidiary of Southern Pacific Company, announced an agreement in principle to share joint communications facilities. Pursuant to this agreement, SPCC would purchase and lease back certain assets of Datran. The two companies would also co-locate and jointly build microwave networks linking St. Louis, Chicago and East Coast points on facilities owned by SPCC and leased to Datran. We approved this agreement on December 11, 1974 (FCC 74–1369).

[9] For example, Telenet Communications Corporation and the Ad Hoc Telecommunications Committee (representing several large American Corporations) note that end-to-end digital transmission avoids much of the degradation inherent in digital-analog-digital conversions.

[10] IDCMA filed this letter with us, accompanied by a request to supplement its reply pleading, since the filing was untimely. We are granting this request herein.

9. In opposing our grant of the section 214 applications, Datran raises a number of technical issues. In particular, it suggests that a more efficient use of the baseband frequencies in question (60–564 KHz) would be to provide voice channels rather than digital data channels, in part because of the large costs necessary to convert AT&T's multiplexing from L–600 to U–600.[11] AT&T points out that it had begun this conversion some time ago and that 70 percent of its multiplex facilities have now been converted from L–600 to U–600. In a related suggestion, which it includes in its technical comments, Datran states that we should deny operating authority because AT&T would derive greater revenues and earnings from devoting these frequencies to message telephone (voice) services than by using them for data. It supports this by submitting an extensive opportunity cost analysis showing the potential contribution to monopoly services of several alternative data and voice uses of the 60–564 KHz spectrum. AT&T, in a lengthy refutation; concludes generally that the use of DUV will in fact provide a greater contribution than the placing of voice channels on the microwave baseband. It also contends that much of the data employed by Datran in its study is conjectural.

10. A final technical issue, which was raised both by the American Satellite Corporation and by IDCMA, relates to the need for four-wire local loops, rather than existing two-wire plant, for local distribution of digital data. They point out that at least one AT&T operating company has stated it will not install any new four-wire loops in the future, and that this could seriously limit AT&T's ability to provide Dataphone Digital Service in the future. AT&T does not respond to this claim.

11. Several of the parties raise legal issues, to wit: whether we should reject the tariff filing as unauthorized, since we have not yet granted operating authority for the five-city network; whether the rates are predatory and anticompetitive; and whether AT&T's offering satisfies the requirement of our Specialized Common Carrier Services ruling, that all carriers "shall have an opportunity to compete fairly and fully in the sale of specialized services." 29 F.C.C. 2d 870, 915 (1971). Datran, in contending that AT&T's pricing is predatory, quotes AT&T's language in its cost justification (material filed pursuant to Section 61.38 of the Commission's Rules, hereinafter referred to as "61.38 material") that its objective is to "price competitive services to yield as large a contribution as practicable, taking into account market conditions and other ratemaking factors." The company believes that AT&T has priced its services 26 percent below the level necessary to meet this objective, and that this is evidence of a predatory pricing policy.[12] AT&T answers that it studied a number of possible rates for DDS and selected that which yielded the largest contribution, thus benefitting users of other AT&T services, particularly message telephone [illegible].

12. There are certain non-cost tariff issues which have been raised, particularly by the IDCMA. It believes the AT&T tariff unreasonably restricts the use of customer provided equipment for this service. One example cited is the provision by AT&T as part of its service of a connecting arrangement called a Channel Service Unit. The Association believes that this device should be separately tariffed, in order that the customer may provide the device himself. AT&T states it has not tariffed the unit because it is an integral part of the provision of the service to the customer, and that it believes it should supply the facilities necessary to bring the service into the customer's premises. A second example is IDCMA's interpretation of a provision in AT&T's existing private line tariff, F.C.C. No. 260, which prohibits the mixing of AT&T-provided and customer-provided data sets on the same line. IDCMA suggests that, since the telephone company uses its own data sets in its central offices, local extensions onto the customer's premises are covered by this "no-mix" rule, and the customer therefore cannot use his own equipment. AT&T refutes this interpretation of the tariff provision, stating that the installation of AT&T data sets on telephone company premises does not preclude the customer from providing his own equipment on his own premises.

13. IDCMA also challenges the tariff provision whereby extensions within the same state of DDS lines are tariffed at intrastate rates if the customer provides his own terminal equipment (data sets) and at interstate rates (which are generally lower than intrastate rates) if AT&T provides the terminal equipment. AT&T does not respond to this allegation. The Association also joins Western Union, Datran and American Satellite Corporation in contending that AT&T unlawfully fails to tariff local digital distribution facilities provided to other common carriers. AT&T answers that it intends to provide these services but that filing the necessary tariffs was not a condition precedent to Commission authorization of service.

14. The question of shared use and resale of DDS services is raised in pleadings by Telenet Communications Company, Western Union, and others. The proposed tariff permits a customer, except a communications common carrier, to share DDS services, and it generally prohibits resale of such digital services by another common carrier. The tariff specifically permits, however, the resale of services by a customer offering "composite data services", as defined therein.[13] The question raised is whether this unlawfully discriminates against other common carriers, particularly those not offering composite data services.

15. The remaining issues deal with the 61.38 material and the rates as listed in the subject tariff. This material, submitted by AT&T, consists of approximately 2300 pages of cost justification of the proposed Dataphone Digital Service. Briefly, AT&T employed long run incremental cost (LRIC) and burden analysis procedures to determine the net effect on the company of providing DDS. In addition, AT&T conducted a study to determine the fully distributed costs (FDC) for providing the service. These studies concluded that:

(1) On the basis of the LRIC approach and burden analysis study, the service would contribute $18.0 million to the company at the midpoint of the five year test period (based upon a ninety-six city operation);

(2) On a fully distributed cost basis determined in accordance with either method 1 or method 7 of the alternative cost approaches considered in pending Docket No. 18128, DDS will have an earnings ratio (return) of about 21.4 percent.

16. Of the remaining economic issues which Datran and others have raised, the following appear to be the key contentions:

(1) AT&T, Datran believes, has made erroneous assumptions regarding the rates of the specialized common carriers, the geographical penetration of the carriers, and the behavioral functions of the market. They cite figures showing that AT&T, in its market study, understates Datran's rates by a wide margin (for example, AT&T cites Datran's rate per airline mile for a 2.4 Kb/s channel at $.35, while Datran states its rate to be $.75. This is the widest deviation noted). If this is so, Datran believes it may render erroneous much of AT&T's market analysis, especially the cross-elasticity of demand, taking into account the impact of competitive carriers, and the determination of which rate will yield the greatest contribution to the company's overall revenue. The same is true, Datran believes, with regard to AT&T's alleged misstatement of the other carriers' geographic penetration and market behavior. AT&T responds that it based its 61.38 material upon the best information available at the time, and that the new data will not appreciably alter its analysis;

---

[11] Both the L–600 and U–600 multiplex have approximately the same amount of unused baseband spectrum. In the older L–600 system, this spectrum is non-contiguous but rather is scattered in various portions of the microwave band, while in the newer U–600 system, developed in connection with higher capacity cable systems, this unused portion is a continguous 60–564 KHz band below the voice channels. This is the band proposed to be used for DUV.

[12] Datran believes this underpricing is due in part to AT&T's understatement of Datran rates. See infra, par. 16.

[13] "The term 'Composite Data Service' denotes an offering which combines the use of computers and terminal equipment with the use of communication services of the Telephone Company to provide a single integrated data service for data processing and data message switching, or for data message switching only." Proposed Tariff F.C.C. No. 267, Regulation 2.1.

XUM
V 39 DEC 252 1974 XUM V

(2) Datran further contends that repricing DDS at a higher level will result in a substantially increased contribution with no attendant loss in market share, and that the rate structure as filed will capture 100 percent of the market. This, it claims, is anticompetitive and predatory, as discussed above. AT&T states it has priced its service to obtain the maximum contribution, consistent with good business practices;

(3) The cost presentations, Datran states, are deficient in that both the LRIC and FDC analyses understate investment and are otherwise deficient, and the burden test is deficient in several respects. This, it feels, renders meaningless the AT&T determinations of contribution and return referred to in paragraph 15 above. AT&T believes, however, that these presentations are consistent with the approaches which the Commission has approved, and that no changes should be made until a resolution of Docket No. 18128 is released.

Discussion

17. In Specialized Common Carrier Services, 29 F.C.C. 2d 870 (1971), we examined the entire question of competition between existing carriers and new entrants in providing point-to-point services over microwave facilities. At that time, we stressed "our objective to promote and maintain an environment within which existing and any new carriers shall have an opportunity to compete fairly and fully in the sale of specialized services." We further endorsed the views of our staff "that there should not be any 'protective umbrella' for new entrants or 'any artificial bolstering of operations that cannot succeed on their own merits.'" 29 F.C.C. 2d at 915. The interpretation of this language is the principal issue squarely presented to us here. We have previously considered rate adjustments instituted by existing carriers as a response to new competition, but we have before us here institution of an allegedly new service inaugurated by an established carrier, at rates far below its existing private line data services, which affects the competitive environment referred to above. As discussed above, Datran believes this will lead to AT&T's monopolization of the interstate digital data market.

18. In authorizing the construction of the five-city network (41 FCC 2d 587) we briefly noted the technical objections raised by Datran. However, we concluded that the DUV technology was sound and warranted that initial construction, but that we would further review the matter upon its completion. In view of this and the expanded nature of the network now under consideration, we believe it is appropriate to discuss these and other questions which have subsequently been raised. We note that AT&T has already successfully operated DUV facilities for over a year in conjunction with 50 Kb/s wideband data channels, pursuant to Commission authorization (File No. P-C-8449), and that Western Union currently utilizes a hybrid (analog-digital) technique somewhat similar to DUV in certain of its radio routes. In both of these instances the feasibility and advantages of this transmission method have been demonstrated.

19. A key technical allegation raised is the comparison of DUV with Datran's proposed Voice under Voice system (VUV) with regard to efficiency in the utilization of baseband spectrum. Paragraph 4 herein discusses the use of VUV for 120 voice channels versus the use of DUV for up to 460 2.4 Kb/s data channels. While it is possible to conjecture about the possibilities of using each VUV voice channel for up to 9.6 Kb/s of multiplexed or nonmultiplexed data, it is our view that such use would require costly modems which cannot be made to operate at nearly as low error rates as indicated for the proposed end to end digital system. (AT&T reports error performance of 90 percent error free seconds for 9.6 Kb/s data transmitted on its analog private line facilities versus 99.5 percent error free seconds with the same bit rate on the end to end digital system.) Datran also questions the feasibility and cost of converting the L-600 to U-600 multiplex format. AT&T points out that this conversion began some time ago, that 70 percent of its multiplex facilities have now been converted, and that the remaining conversions required have been included in the system cost figures submitted with the application. We believe AT&T has adequately addressed allegations regarding the technical effect of DUV on other voice services and the vulnerability of the DUV baseband spectrum to noise.[*] While AT&T has not responded to the question concerning local loops, we are of the opinion that the availability or lack thereof of four-wire facilities should not constitute any significant technical problem. However, the lack of such facilities may create a need for special equipment. Such questions essentially concern cost rather than technical feasibility and can be adequately dealt with in connection with the investigation concerning the tariff discussed below.

20. Based upon our analysis of the technical aspects of DUV prior to issuing our 1973 Order, and upon our reexamination as outlined above, we conclude that the public will benefit from the new DUV method of transmission and that we should reaffirm our approval thereof. The new technology is more efficient in that it will enable the transfer and consolidation of existing digital services on analog channels to functionally discrete digital facilities. This will result in lower error rates at considerable advantage to customers. The analog channels vacated by this transfer would be free for the provision of other services. DUV will also significantly increase the capacity of each radio channel at 4 and 6 GHz, thereby yielding improved spectrum utilization in two very congested radio bands. We therefore reiterate our view that "the basic DUV technology is sound and should be introduced into the plant and operations of the AT&T network." 41 F.C.C. 2d 586, 588 (1973).

21. As to the broader issues, we have examined all of the pleadings and have devoted particular attention to the cost and market studies supplied by AT&T in support of its proposed Tariff 267. We cannot conclude that these data are adequate to satisfy the many concerns which have been expressed. There are substantial questions raised about the propriety of the rate base developed for the FDC study, e.g., whether the allocation of common costs to DUV is too low. The market study submitted as part of the 61.38 material is also of questionable validity, in view of AT&T's apparent understatement of Datran's rates and geographical penetration and the lack of comprehensive material backing up the simulation model and its assumed market distribution of data speeds. Indeed, numerous unsupported assumptions underlie the market study on which the proposed rates are predicated. We also have questions as to whether the rate base principles established in Docket 16258 (9 F.C.C. 2d 30 (1967), 9 F.C.C. 2d 960 (1967)) should apply to private line services under the present factual situation. We take no position at this time regarding the validity of FDC or LRIC in developing rate levels for discrete classes of service. Rather, we believe that question and related issues should be resolved in other proceedings such as pending Dockets 18128 and 19919. Until a decision is rendered therein, however, we shall require all studies submitted in this proceeding to use the FDC approach as employed by AT&T as an alternative pricing method in its 61.38 material. We are also unclear whether AT&T's costing procedures are entirely proper but believe this should be explored in the hearing instituted herein. Finally, we are concerned that the sharing and resale provisions filed in the subject tariff may be discriminatory.

22. At the same time, we cannot conclude, on the basis of the materials now before us, that the DDS tariff proposals are predatory, anti-competitive or otherwise unlawful because of their competitive impact. Rather, we conclude that a substantial question exists as to the appropriateness of the proposed rates, and as to their potential anti-competitive impact. While we have no intention of creating a protective umbrella over the newly emerging competitive carriers,

[*] In the Bell Labs Record of May 1974, an article entitled "1A Radio Digital Terminals Put 'Data Under Voice'" by Richard R. Grady and Joseph Knapp explains that a scrambler is used before encoding the bit stream into a 7 level signal for insertion onto the baseband of DUV. This scrambling eliminates strong discrete tones in the output spectrum which could cause interference with other channels associated in the same radio baseband. In addition, preemphasis of the radio baseband is used before insertion onto the FM modulator to evenly distribute the effects of noise and interference over the entire baseband, as the higher baseband frequencies are generally more affected by noise. Addition of the data under voice load in the baseband, while using the same FM deviation, results in only slightly higher signal to noise ratio in the voice bands of less than 0.3 dB which is minimized using preemphasis.

neither can we ignore the enormous market power and influence of AT&T. Particularly because of its unique position in the provision of communications services, we have a responsibility to assure ourselves that its competitve efforts are legitimate ones, free of predatory or anti-competitive aspects. When, as here, we have presented to us substantial allegations of anti-competitive pricing and are unable to conclude, on the basis of the 61.38 data proffered by AT&T, that those allegations are lacking in merit, we believe it the better policy for us to permit AT&T to operate DUV facilities among only five cities at the rates filed, for an interim trial period, and among the additional nineteen cities at existing private line rates, as provided in paragraph 26 below, while we conduct an immediate hearing into the lawfulness of the filed DDS rates.

23. As a general principle, a carrier cannot engage in price discrimination for like communications services unless certain special circumstances exist, Telpak, 37 F.C.C. 1111 (1964), 48 KHz 29 F.C.C. 2d 493 (1971). The special circumstances considered in these two cases, pricing to meet competition in the Telpak case, differential in cost in 48 KHz, are issues presented by the material before us. Another legitimate ground for price discrimination is that the service offerings as to which a price differential exists are not like communications services. See section 201(b) of the Act. This issue is also presented by the material before us. Specifically, the title page of the proffered tariff 267 states, "DATAPHONE Digital Service is furnished by means of wire, radio or any combination thereof." Nothing in the proposed tariff tells the customer that he will receive digital data service which uses DUV facilities in whole or in part or assures any error rate or quality of service different from that offered under present tariffs or, in general, indicates that the service will be functionally different from that presently available under AT&T's existing private line tariff, F.C.C. No. 260, which offers digital data service without specifying whether or to what extent digital, analog or any other type of intercity facilities are used to provide the presently tariffed service.

24. Since we are not satisfied at this stage that AT&T has demonstrated that DDS as proposed is a just and reasonable separate class of service, warranting different charges, or that the proposed rate levels and rate structures are otherwise justified, we believe AT&T should not be permitted to operate among more than five cities at the rates filed, and then only on an interim basis, pending hearing. At the same time, we do not wish to deny to the public any improvements in service quality which may accrue from the introduction of an end-to-end digital transmission system.

25. If AT&T proposed to and were capable of offering DDS at the proposed rates on existing facilities for which section 214 authorization were not required, we would be limited to suspending the tariff for a maximum of three months and designating it for hearing. However, section 214 authorization is required prior to putting the present DDS proposal into effect, and the Commission clearly has authority to condition grants of authorization under section 214. The statute itself contains language empowering the Commission to "attach to the issuance of the certificate such terms and conditions as in its judgment the public convenience and necessity may require." See *Capital Telephone Co.* v. *FCC*, 498 F2d 734 (D.C. Cir., 1974). *Cf. United Gas Improvement Co.* v. *Callery*, 382 U.S. 223 (1965); *Federal Power Commission* v. *Hunt*, 376 U.S. 515 (1964). Indeed, the Supreme Court has indicated that regulatory agencies may have a duty to determine whether rate proposals are in the public interest before granting certificates of public convenience and necessity. *Atlantic Refining Co.* v. *Public Service Commission of New York*, 360 U.S. 378 (1959).[15] In deciding whether the public interest requires certification, moreover, the Commission should consider the effects of its actions on competition. *General Telephone Co. of the Southwest* v. *U.S. and FCC*, 449 F. 2d 846 (5th Cir. 1971); *Carter Mountain Transmission Corp.* v. *FCC*, 116 U.S. App. D.C. 93 321 F. 2d 359 (1963), *cert. denied*, 375 U.S. 951 (1963). *Cf. McLean Trucking Co.* v. *U.S.*, 321 U.S. 62 (1944). Thus, it is well within our authority to condition the grants to AT&T as provided herein pending hearings to determine whether the proposed rates are predatory, anticompetitive or otherwise unlawful.

26. Pending the outcome of the hearings we are designating in this Order, we consider it imperative and in the public interest that effective competition for data communication services not be eliminated through the institution by AT&T of rates and conditions which may be predatory, anticompetitive or otherwise unlawful. According to the filings of both AT&T and DATRAN, as well as our own staff analysis, this would be the likely result if AT&T were allowed to offer its allegedly new Dataphone Digital Service over an extensive network at the rates specified in its proposed Tariff F.C.C. No. 267. Therefore, we will not authorize AT&T to offer the DDS classification at proposed Tariff 267 rates over the full 24 city DUV network for which 214 applications have been filed. However, we do wish to learn more of the market demand for the DDS class of service at the proposed Tariff 267 rates, and to make available to as many users as possible as promptly as possible the improved service quality expected from end-to-end digital transmission technology. Accordingly, without in any way prejudging whether AT&T's DDS proposal is just, reasonable, and in the public interest, or whether the offering is in fact a new and discrete class of service, we shall authorize operation of the initial five-city DUV network at the rates filed, for an interim trial period, pending the outcome of a hearing or further Commission order. We shall further authorize AT&T to construct and operate DUV facilities among the additional 19 cities currently applied for in order that users in those cities may realize the improved service quality which such facilities may offer. However, for a period of twelve months from the release of this Order or pending the results of the hearing herein instituted, whichever occurs first, we shall require a condition of their authorization that services utilizing the DUV facilities established among the nineteen additional cities be offered at overall rates no lower than those under which AT&T's existing private line data services are offered pursuant to its Tariff F.C.C. No. 260 (with the exception of Series 5000 channels). These facilities may be used in connection with existing private line services, or for end-to-end digital data services, or both, at the option of AT&T. In the event they are used for end-to-end digital data services, appropriate amendments to Tariff 260 will be required, and the terms and conditions set forth in paragraph 28 below for the 5-city DDS network, with the exception of rate levels, shall apply. Rate calculations for data services between points for which facilities are authorized pursuant to the five-city grant (File No. P–C–8490) and points for which facilities are authorized pursuant to the nineteen-city grant (File No. P–C–8734) shall be at the rate specified for services among the nineteen cities. A customer must have a continuing requirement for origination or termination of communications at each city for which he orders service.

27. We shall further require AT&T to file tariffs providing interconnection of DDS with other carriers' systems, so that all competitors will have the prerogative of constructing their own facilities, or if less costly, leasing Bell facilities on any given link either now or at any time during the interim period. We believe this action will (1) convey to the using public the maximum benefits of any inherent economies of scale in the AT&T network as well as the benefits of innovations developed either by the Bell Laboratories or by a competitor in that specialized carriers may construct separate facilities incorporating either technical or service innovations if they feel it is advantageous, (2) mitigate the adverse effects of possible anti-competitive action by enabling the emerging competitors rapidly to extend their service nationwide with a minimum capital investment by using leased rather than purchased facilities, and (3) provide

[15] The Court ordered a remand to the FCC in Atlantic Refining Co., where the Commission had granted an unconditional certificate to a producer even though the Commission had been unable to find that the proposed rates were in the public interest. The clear implication of the Court's holding was that the grant should have been conditioned on the producer's agreeing to maintain certain rates pending hearing. 360 U.S. at 391. In Callery, the Court upheld the FPC's grant of certificates to gas producers conditioned on the producers maintaining a rate ceiling pending a hearing to determine appropriate rates.

valuable inputs to our further deliberations on shared use and resale of communications services in Docket 20097. Accordingly, we find that it is in the public interest to require AT&T to furnish both intercity and local distribution facilities to other carriers for interconnection and use during the interim period. We, also, feel that the economic and technical aspects of more widespread resale and shared use for direct digital data services should be made a matter of investigation during the hearing into the rates and tariffs which will be effective after the interim period.

28. We shall therefore condition the grant of 214 authority for five cities (P-C-8490) upon AT&T's amending its Tariff 267, which shall be effective for an interim trial period, pending the outcome of the hearing designated herein, within thirty days of the adoption of this order, effective upon not less than one day's notice, to:

(1) Specify that Dataphone Digital Service shall be an all digital service employing only direct digital transmission facilities such as the Data Under Voice facilities as authorized under our order herein;

(2) Specify the minimum error rate performance and other quality of service standards that the customer is entitled to receive under the tariff; *

(3) Make intercity Dataphone Digital Service channels and digital local distribution facilities available to other common carriers and composite data service customers for interconnection and use with the other carriers' data systems. (These tariffs shall be filed on not less than thirty days notice).

We shall further condition the grant of the additional nineteen city construction and operating authority (P-C-8734) upon the facilities being used to offer data services at rates no lower than those under which existing private line data services are offered in AT&T Tariff F.C.C. No. 260 (with the exception of Series 5000 channels), and upon such services being incorporated within that tariff, as provided in paragraph 26 above. All such filings shall be upon not less than thirty days notice, and shall remain in effect for a period of twelve months from the date of the release of this Order, or until a final Commission decision is issued in the hearing ordered herein, whichever occurs first. If such a decision has not been issued, AT&T may file a new tariff offering services using the nineteen city facilities upon not less than thirty days notice, to be effective upon expiration of the twelve month period referred to above.

29. We anticipate that this hearing will commence promptly and will be conducted on an expedited basis. We believe the "paper" procedures recently employed in other rate investigations will be appropriate here too. *See* AT&T (Hi-Lo), 44 FCC 2d 88, 90–91 (1974); AT&T (WATS), 46 FCC 2d 81, 87–8 (1974). An appropriate schedule and list of procedures is included herein. Although our rules allow the carrier to supplement material filed pursuant to § 61.38 of our rules within 45 days, in view of the nature of this filing we find that the public interest requires that we allow AT&T 20 days to supplement such material and to complete its filing of evidence upon which it intends to rely. Also, we are providing for the submission of interrogatories and requests for information, which process merges cross-examination and the informal gathering of information traditionally undertaken during the prehearing and hearing stages of rulemaking proceedings. We shall further allow the Judge to provide for oral evidentiary hearings, as specified below. Should it develop that the procedures which we are establishing prove inadequate or result in substantial unfairness to any party, appropriate modifications will be considered.

30. Several requests for relief remain before us. Petitions to deny the five and nineteen-city applications for construction and operating authority were filed by Datran, MCI, Western Union, and CML Satellite Corporation. For the reasons expressed herein, we are granting the 214 authorizations conditioned upon AT&T amending its DDS tariff as provided herein. For that reason, we are denying these petitions. Datran and IDCMA seeks a declaratory ruling that we shall consider the proposed DDS tariff when determining whether or not to grant the 214 applications. These petitions followed a May 1974 meeting at the Commission wherein AT&T limited itself, in its presentations regarding DDS/DUV, to technical aspects of the proposed system. In view of the fact that our 1973 Order required AT&T to file such data and since the tariff is before us, we are considering it and the 214 applications together. Further, all interested parties have had an opportunity to comment on the tariff, pursuant to our rules. Therefore, the requested declaratory ruling is unnecessary and is dismissed herein as moot.

31. We also have requests by Datran and MCI to reject AT&T's DDS tariff on the ground that we have not yet granted operating authority for the DUV facilities which AT&T intends to use. In support they cite *Press Wireless, Inc.*, v. *F.C.C.*, 264 F. 2d 372 (D.C. Cir., 1959) and *Associated Press* v. *F.C.C.*, 448 F. 2d 1095 (D.C. Cir., 1971) as recognizing the Commission's authority, and in some cases its duty, to reject a tariff which requires the use of unauthorized facilities. As we have decided to grant herein the operating authority requested, conditioned upon the tariff filings described above, these requests are rendered moot. DOD also addressed itself to the tariff, believing the rates to be too high. Its pleading, however, requests us to allow the tariff to go into effect while instituting an inquiry into its lawfulness. As discussed above, we are instituting the requested proceeding and allowing the tariff to become effective as amended.

32. Datran has further asked us to reconsider our 1973 Order on the grounds (1) we did not have the tariff data before us at the time of the Order, and (2) important technical issues remain unresolved which should lead to denial of section 214 authorization. We believe that there is no merit in these suggestions. As we stated in the above Order, we believe the public interest would best be served by conditionally granting the construction and operating authorizations requested. None of the technical material now before us would warrant reconsideration of our original grant. See paragraphs 18–20 supra.

33. Finally, AT&T has expressed its intention to make digital local distribution facilities available to other common carriers for use with the other carriers' digital data systems. It has not, however, filed tariffs with us offering such facilities to others. As a condition to the grants of authority herein, we require AT&T to file such tariffs upon not less than thirty days' notice.

34. *Accordingly, it is ordered*, pursuant to the provisions of Sections 4(i), 4(j), 201, 202, 203, 204, 205, and 403 of the Communications Act of 1934, as amended, an investigation and hearing is instituted into the lawfulness of AT&T Transmittal No. 11990, Tariff F.C.C. No. 267, at the offices of the Commission in Washington, D.C., subject to the schedules and procedures specified herein.

35. *It is further ordered*, without in any way limiting the scope of the investigation, it shall include consideration of the following:

(1) Whether the charges, classifications, practices, and regulations published in the aforesaid tariffs are or will be unjust and unreasonable within the meaning of section 201(b) of the Act;

(2) Whether such charges, classifications, practices, and regulations will, or could be applied to, subject any person or class of persons to unjust or unreasonable discrimination or give any undue or unreasonable preference or prejudice to any person, class of persons, or locality, within the meaning of Section 202(a) of the Act;

(3) Whether the tariff schedules conform to the requirements of section 203 of the Act and Part 61 (47 CFR Part 61) of our rules implementing that section;

(4) If any of such charges, classifications, practices, or regulations are found to be unlawful, whether the Commission, pursuant to section 205 of the Act, should prescribe charges, classifications, practices and regulations for the service governed by the tariffs, and if so, what should be prescribed;

(5) Whether Dataphone Digital Service, as reflected in the tariff filing described herein, involves rates or practices which may be anti-competitive or otherwise unlawful.

* During the interim trial period we anticipate action in the pending quality and reliability of service issue in Docket No. 18920 (see Issue D, 29 FCC 2d 870), which will generally specify standards in this regard.

(4) Whether Dataphone Digital Service, as reflected in the tariff filing described herein, represents a just and reasonable discrete classification of service within the meaning of section 201(b) of the Act.

(7) Whether the rate making principles, including allocations of costs, used by AT&T in deriving its proposed rates for Dataphone Digital Service, are appropriate to the types of competitive services proposed in the tariff filing described herein, and whether the costs derived therefrom justify the charges for the proposed service.

(8) Whether the terms and conditions for resale and shared use, as reflected in the tariff filing described herein, are just and reasonable.

36. *It is further ordered*, That the following procedures will apply in this proceeding: [1]

(a) The record for decision will consist of all matters submitted for the record by respondents, interested persons and the Common Carrier Bureau trial staff. Interrogatories and information requests and responses thereto shall be part of the record. Such submittals together with supporting documentation and workpapers will be available for public inspection as they are received.

(b) All matters submitted for the record, including answers to interrogatories and responses to information requests, must be identified as to sponsoring party, numbered consecutively and identified with the name of a person by whom or under whose supervision the submittal was prepared.

(c) The source of all data must be clearly and specifically noted. Supporting documents which are not readily available and working papers must be presented with the submittals to which they apply. Statistical studies will be submitted and supported in the form prescribed in § 1.363 of the Commission's rules.

(d) Original and five copies of all matters submitted for the record as well as of supporting documentation and workpapers must be filed with the Commission. Part 1 of our Rules governs as to the number of copies for other submissions, such as briefs, pleadings and proposed findings. Matters submitted for the record shall be served on all interested persons filing a notice of intent to participate ("participants") and upon the presiding Administrative Law Judge.

(e) Interrogatories and requests for information must be filed with the Commission and served on the participants to this proceeding. Objections to interrogatories and information requests should be resolved, if possible, by immediate informal conferences between the persons involved and the Trial Staff. If such persons are unable to resolve their differences, the Administrative Law Judge should be notified, and on notification should convene an immediate oral conference of the persons involved. After oral presentations by such persons and the Trial Staff the Judge shall forthwith issue a ruling. Appeals from such rulings shall be governed by 47 CFR §1.301 except that the Judge shall set an expedited procedure.

(f) At any time after having received answers to interrogatories, upon a showing that such answers did not provide the information requested, the presiding Administrative Law Judge may order, upon motion of any party or upon his own motion, such evidentiary-type oral proceedings as may be necessary to elicit on the record such relevant, material and competent information as required for resolution of the issues herein.

37. *It is further ordered*, That the following schedule will be adhered to:

(a) Within 20 days of the release of this order AT&T may supplement the materials submitted pursuant to § 61.38 of our rules. Any such supplementation, together with the material originally filed will form the evidence upon which it intends to rely. At the same time AT&T should place materials already filed into proper form as described in paragraph 36 at "b" above.

(b) Participants may file responsive material within 70 days following the filing of the material filed pursuant to subparagraph (a) above. This period will not be tolled pending resolution of conflicts with regard to answers which are not forthcoming but contested, or pending any oral proceedings ordered pursuant to paragraph 36 above.

(c) AT&T may file material in reply to that submitted by other participants within 70 days following the filing of material submitted pursuant to subparagraph (b) above. This period will not be tolled pending resolution of conflicts with regard to answers which are not forthcoming but contested, or pending any oral proceedings ordered pursuant to paragraph 36 above.

(d) Any participant may serve interrogatories and requests for information on other participants filing material in this proceeding at any time prior to 40 days before the date set for filing of proposed findings and conclusions, specified in subparagraph (e) below. Answers to such interrogatories and requests for information shall be filed within 20 days of the filing thereof.

(e) Proposed findings of fact and conclusions of law may be filed by any participant within 50 days of the filing of material submitted pursuant to subparagraph (c) above.

(f) Replies to the proposed findings of fact and conclusions of law may be filed by any participant within 15 days of the filing of such findings and conclusions.

(g) The presiding Administrative Law Judge shall issue an initial decision within 45 days of the filing of replies to the proposed findings of fact and conclusions of law.

(h) Exceptions to the initial decision may be filed by any participant within 30 days of the issuance of the initial decision, as provided in § 1.276(a) of the Rules, 47 CFR, § 1.276(a).

(i) Replies to the exceptions may be filed within 15 days of the filing of such exceptions.

38. It is further ordered, That the Commission will rule on requests for oral argument following the submission of replies to the proposed findings of fact and conclusions of law. All other procedural requests should be addressed to the Administrative Law Judge who shall rule thereon unless a significant modification of the procedures herein established is required, in which case the request should be certified to the Commission.

39. *It is further ordered*, That all computations of time herein shall be made in accordance with § 1.4 of our rules.

40. *It is further ordered*, That all participants who file direct or reply cases in accordance with paragraphs 37(b) and 37(c) above shall submit concurrently therewith all underlying and supportive studies and workpapers.

41. *It is further ordered*, pursuant to the provisions of sections 214(a) and 214(c) of the Act, that the Applications of AT&T (File Nos. P-C-8490 and P-C-8734) are granted, subject to the conditions in paragraphs 26 and 28 above, and the following additional conditions:

(1) AT&T, or its operating companies, shall file, within thirty days of the release of this Order, upon not less than thirty days notice, a tariff or tariffs offering intercity digital data channels and local distribution facilities furnished to other common carriers at reasonable rates and conditions for the initial five cities to be served pursuant to this Order, and shall file similar tariffs for the additional cities at the time of filing of tariffs offering service therein;

(2) None of the facilities authorized herein shall be operated until the amendments to Tariff 267 referred to in paragraph 28, paragraphs 1 and 2 above have been filed with this Commission and have become effective;

(3) AT&T shall provide the Commission at regular intervals mutually agreed-to reports regarding costs, revenues and operating experience associated with the provision of Dataphone Digital Service.

42. *It is further ordered*, That AT&T is made a party respondent to this proceeding and that all other interested persons wishing to participate may do so by filing a notice of intent to participate within ten days of the release of this Order.

43. *It is further ordered*, That, for purposes of offering services utilizing the facilities authorized herein the provisions of § 61.38 of our rules, 47 CFR, § 61.38 and such other sections of Part 61 of our rules, 47 CFR, Part 61, as may be necessary to carry out the provisions of this Order, are waived.

44. *It is further ordered*, That the Petition of the Secretary of Defense for Investigation filed April 15, 1974 is granted in part and denied in part as provided herein.

45. *It is further ordered*, That the Request to Supplement Pleading filed July 17, 1974 by IDCMA is granted.

[1] We are continuing to experiment with procedures under which to conduct a "paper" proceeding. Therefore, those listed here will vary somewhat from those under which we have conducted earlier "paper" hearings.

46. *It is further ordered*, That the Petition to Deny or Dismiss filed December 26, 1972, and Petition to Deny Application filed June 12, 1974 by MCI; the Petition for Reconsideration filed August 1, 1973, Petition to Deny Application and for Moratorium filed October 18, 1973, and Petition to Deny Operating Authority filed June 12, 1974 by Datran; Petition to Deny or Set for Hearing filed June 12, 1974 by Western Union; and Petition to Deny filed June 12, 1974 by CML Satellite Corporation are denied.

47. *It is further ordered*, That the Petition for Declaratory Ruling filed May 29, 1974 and the Petition for Rejection of Tariffs filed June 12, 1974 by Datran; the Petition to Reject Tariff filed June 12, 1974 by MCI; and the Petition for Declaratory Ruling filed June 4, 1974 by the IDCMA are dismissed.

48. *It is further ordered*, That pursuant to § 1.1209(d) of the Commission's rules, a separated trial staff will participate in this proceeding. As provided therein, the Chief, Hearing and Legal Division and his staff will be separated from the Commission, the presiding Administrative Law Judge, the Office of the General Counsel, and the Chief, Deputy Chief and all Division Chiefs of the Common Carrier Bureau, but are unrestricted in their access to all other commission personnel.

Adpoted: December 11, 1974.

Released: December 16, 1974.

FEDERAL COMMUNICATIONS COMMISSION,[1]

FEDERAL POWER COMMISSION

[Docket No. RP74-60 and RP73-107]

CONSOLIDATED GAS SUPPLY CORP.

Extension of Procedural Dates

DECEMBER 20, 1974.

On December 9, 1974, Staff Counsel filed a motion to extend the procedural dates fixed by order issued September 16, 1974, in the above-designated matter.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of staff's testimony, February 28, 1975.
Service of intervenor's testimony, March 14, 1975.
Service of company rebuttal, March 28, 1975.
Hearing, April 15, 1975 (10 a.m. EDT).

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-30441 Filed 12-30-74;8:45 am]

[Docket Nos. CP75-40, CP75-84]

LOWELL GAS CO. AND TENNESSEE GAS PIPELINE CO.

Order Consolidating Proceedings, Permitting Interventions, Scheduling Formal Hearing, and Establishing Procedures

DECEMBER 20, 1974.

On August 13, 1974, Lowell Gas Company (Lowell) filed an application in Docket No. CP75-40 pursuant to section 3 of the Natural Gas Act requesting authorization to export to Canada up to 1,500,000 Mcf of natural gas, during the summer months for a fourteen year period, and to import the same quantities of gas during the winter months. The imported volumes would then be utilized in Lowell's system in Massachusetts during the peak winter months.

Under the terms of an agreement Lowell has entered into with Union Gas Ltd (Union) of Chatham, Ontario, Canada, Union will receive and store up to 1,500,000 Mcf of gas per year in its storage facilities in Oakville, Ontario, Canada, and redeliver equivalent volumes for Lowell's account. Lowell will pay charges equal to a unit charge of 38.5 cents per Mcf based on full utilization of the service. Lowell will deliver up to the contract demand quantity of 12,500 Mcf per day for storage purposes between April 1, and September 16, and 80 percent of this amount between September 16 and October 31 of each contract year. Return deliveries will be made between November and March of each year. The Lowell-Union agreements contemplates a fourteen year period from April 1, 1975 to April 1, 1989, but is terminable after the fifth or any succeeding year if Union determines the storage space is required to assure Canadian gas supply requirements.

The gas would be transported 75 miles to Union's facilities from a point of interconnection on the International Boundary near Niagara Falls, New York by TransCanada Pipelines LTD (TransCanada) pursuant to a July 5, 1974 agreement between Lowell and TransCanada. TransCanada would take delivery of the gas tendered by Lowell for storage at a point of interconnection between its facilities and those of Tennessee Gas Pipeline Company a Division of Tenneco, Inc. (Tennessee) between April 1 and November 1 of each year, and redeliver the volumes between November 1 and April 1. It is estimated that Lowell will pay a unit charge of approximately 14.3 cents per Mcf for the transportation service provided by TransCanada.

In addition, Lowell will furnish Union fuel volumes of natural gas amounting to 2.7 percent of the quantities tendered for storage, and will furnish TransCanada 1.3 percent of the same quantity.

Control and dominion over all natural gas delivered by Tennessee will be exercised by Canadian Lowell Gas LTD (CLG), an affiliate of Lowell's, until redelivery by Tennessee, for a charge of $500 plus actual costs and expenses.

The gas which Lowell proposes to deliver to TransCanada for storage by Union is gas which Lowell will purchase from Tennessee at Tewksbury, Massachusetts under Tennessee's CD-6 Rate Schedule as authorized in Docket No. CP70-185 and CP74-303.

Tennessee, in its application filed September 17, 1974 in Docket No. CP75-84, requests certification pursuant to Section 7 of the Natural Gas Act to construct and operate two sections of natural gas pipeline looping facilities, and to transport for Lowell up to 12,500 Mcf per day of natural gas from Tewksbury to Niagra Falls for delivery to TransCanada during the summer period and to transport like volumes from Niagra Falls to Tewksbury during each winter period. The pipeline facilities would consist of one section of 3.9 miles of 30-inch pipe in Massachusetts and one section of 6.3 miles in central New York. The estimated construction cost of the facilities, which are said to be necessary to implement the proposed transportation service for Lowell, is $5,199,000. For the transportation, Tennessee would charge Lowell a unit rate equivalent of approximately 85.9 cents per Mcf.

The Commission notes that there exists an interrelationship between the two above-described filings and concludes that their ultimate disposition would best be accomplished in a consolidated proceeding. We therefore shall

consolidate Docket No. CP75–40 and Docket No. CP75–84 for hearing, which we shall scheduled below, and disposition.

Petitions to intervene have been filed in Docket No. CP75–40 by TransCanada and Tennessee, and in Docket No. CP75–84 by TransCanada. Having reviewed the petitions to intervene, we are convinced that the petitioners have all sufficient interest in these proceedings to warrant intervention. We also believe that the significant and novel questions presented by these application require a public hearing at which time all issues bearing upon the public interest can be fully developed on the evidentiary record.

We shall therefore grant intervention to those who have so filed, and schedule a formal hearing to be convened in those consolidated proceedings. Among the issues proper for resolution at such hearing are the necessity for the proposed service, the propriety of the rates to be charged for the various services, the need for and possible environmental impact of the facilities proposed by Tennessee, the allocation and use of the gas which Lowell proposes to store and withdraw during the winter, the reliability of the storage service, and any other issues which may bear upon the public interest. As part of their direct case, Applicants shall be directed to comply with all outstanding Staff requests for data and information which may be necessary to Staff's analysis of the proposals.

The Commission finds. (1) It is necessary and appropriate that the proceedings in the above-named applications be consolidated for hearing and decision.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene in these consolidated proceedings in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined and show what further action may be appropriate under the circumstances in the administration of the Natural Gas Act.

(3) It is necessary and appropriate that the consolidated proceedings involving the above-named applications be set for hearing.

The Commission orders. (A) Docket No. CP75–40 and Docket No. CP75–84 are consolidated for purpose of hearing and disposition.

(B) The above-named petitioners are permitted to intervene in this consolidated proceeding subject to the rules and regulations of the Commission: *Provided,* however, That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and *Provided,* further, That the admission of such intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(C) The direct case of the Applicants and all intervenors in support thereof shall be filed and served on all parties on or before January 20, 1975. As part of their direct case, Applicants shall respond fully to all outstanding requests for information. At the conclusion of cross-examination of the direct case, the Presiding officer shall set dates for the filing of answering testimony.

(D) A formal hearing shall be convened in these proceedings in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 on February 11, 1975 at 10 a.m. The Chief Administrative Law Judge shall designate an appropriate officer of the Commission to preside at the formal hearing of these matters, pursuant to the Commission's rules of practice and procedure.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.74–30442 Filed 12–30–74;8:45 am]

[Docket No. RP74–41]

TEXAS EASTERN TRANSMISSION CORP.

Further Extension of Procedural Dates

DECEMBER 19, 1974.

On December 12, 1974, Rhode Island Consumers' Council and the Division of Public Utilities and Carriers of the State of Rhode Island filed a motion to extend the procedural dates fixed by order issued January 14, 1974, as most recently modified by notice issued November 13, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of intervenor's testimony, January 20, 1975.
Service of company rebuttal, February 28, 1975.
Prehearing conference, March 11, 1975 (10 a.m. EDT).
Hearing, following completion of prehearing conference.

By Direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–30443 Filed 12–30–74;8:45 am]

[Docket No. RP74–25]

TEXAS GAS TRANSMISSION CORP.

Order Approving Settlement Agreement

DECEMBER 20, 1974.

On October 1, 1973, Texas Gas Transmission Corporation (Texas Gas) tendered for filing in the above-captioned docket proposed tariff sheets which would increase the charges for service under all of the rate schedules in Texas Gas' FPC Gas Tariff Third Revised Volume No. 1 and would increase the charges for transportation service to Texaco, Inc. and Gulf Oil Corporation under Rate Schedule Nos. X–32 and X–29, respectively, which are contained in Texas Gas' Tariff, Original Volume No. 2. The proposed increase in jurisdictional revenues would amount to $30,976,052 annually based upon the adjusted volumes for the twelve months ended June 30, 1973. By order of October 31, 1973, the Commission suspended the proposed increase for the full statutory period until April 1, 1974. A number of petitioners have been permitted intervention. A prehearing conference was held before the presiding administrative law judge on July 23, 1974, at which time the Applicants' case-in-chief and the Commission staff's testimony and exhibits were copied and identified into the record.

On September 17, 1974, after a series of discussions in which Commission Staff was a participant, Texas Gas filed a motion for approval of settlement agreement. The September 17, 1974, motion states that the proposed stipulation and agreement resolves all issues in the proceeding except two:

(1) The issue of book depreciation which involves a proposed increase in the composite depreciation rate applicable to all of Texas Gas' depreciable gas plant, other than general plant, to a composite rate of 5.25 percent.

(2) The issue of the propriety of the inclusion in Texas Gas' cost of service amounts associated with the acquisition and retention by Texas Gas of coal supplies to be used for gasification purposes. The motion states that all parties to the proceeding have agreed to reserve these two issues for hearing.[1] The September 17, 1974, motion was noticed on October 7, 1974, with comments and protests due on or before October 17, 1974. No comments or protests have been received by this Commission.

With regard to the issues resolved by the settlement, the agreed upon rates would effect a reduction in the proposed rate increase of approximately $8.1 million. The settlement cost of service, $334,700,707 (See Appendix A), provides for the inclusion of $1,182,386 associated with the acquisition of coal reserves for gasification purposes and an approximate $4.8 million excess over Staff's evidence as to current depreciation expense. Details of the settlement agreement may be summarized as follows:

Article I sets forth the settlement rates which will be used for calculation of refunds and provides that the settlement rates will become effective the first day of the month following the month in which the Commission order approving the settlement becomes final and nonappealable. Article I further provides that all refunded amounts will include interest computed at 7 percent per annum.

Article II states that all settlement tariff sheets, both for refunds and prospective rates are based upon a cost of service reflecting Applicant's claimed depreciation rate. Furthermore, the article provides that repayment of any disallowed excess depreciation pursuant to final and nonappealable Commission decision and order will be made through the

[1] The hearing is presently scheduled for February 10, 1974.

commodity component of the jurisdictional rates at a 7 percent per annum interest rate.

Article III provides for the inclusion of $1,182,396 in the settlement cost of service relative to the acquisition of coal reserves for gasification purposes. The article contains provisions for refunds in the event the Commission does not approve such inclusion after a hearing and decision.

Article IV provides for the filing of increased or decreased rates to track net changes in Texas Gas' rate base for outstanding advance payments consistent with Commission Order No. 499.

Article V provides for adjustments to effective rates to track changes in the cost of service resulting from any alteration in the Federal income tax rate of 48 percent or surcharge thereon.

Article VI provides for tracking changes in cost of transportation of gas by others from offshore production areas to Texas Gas' transmission system.

Article VII provides additional details for filing tracking rate changes in Articles IV, V, and VI above. The article provides that revised tariff sheets reflecting these trackers are to be filed effective February 1, and August 1, concurrently with Texas Gas' PGA filing and that only the prospective rates relating to the settlement Appendices A–4 and D will be affected. Furthermore, no rate change will be made unless the aggregate change in the cost of service for all the trackers is $350,000 or more annually and rate changes will affect only commodity rates except for adjustments related to any "as billed" demand charges.

Article VIII provides that Texas Gas' obligations under its prior settlement in Docket No. RP72–45 are unchanged for the period prior to April 1, 1974.

Article IX provides that the settlement and its provisions will be ineffective unless (1) the Commission issues a final and nonappealable order approving the settlement and (2) the final Commission order waives its general rules and regulations so that rate increases or reductions made pursuant to the settlement may become effective as to the dates specified without suspension or condition except as specifically provided therein.

Article X provides that the settlement becomes effective on April 1, 1974, and shall terminate on the effective date of any rates resulting from a section 4 application by Texas Gas or resulting from a rate proceeding instituted by the Commission.

Article XI provides that the settlement, if approved, represents a dollar settlement and no party shall be deemed to have approved, accepted, agreed, or consented to any ratemaking principle method of cost of service determination, or cost allocation and rate design methods.

Based upon review of the record in this proceeding, including the filing by Texas Gas and the proposed settlement, we find that the proposed settlement is reasonable and in the public interest and accordingly should be approved subject to the terms and conditions of this order. However, to the extent that the provisions of paragraph (2) of Article IX are intended to prevent our placing into effect, subject to refund, those filings made pursuant to the tracking provisions of Article IV, we do not believe this provision to be in the public interest and will not accept it as part of the agreement.

In our review of the settlement cost of service, we note that it is based upon an over-all return of 9.11 percent which reflects a 11.60 percent return on common equity. Texas Gas' capitalization as of June 30, 1974, was utilized as a basis for this calculation (see Appendix C). We believe that the settlement resolves this issue in a manner consistent with the public interest.

Further review of the settlement reveals that the interim rates for the period April 1, 1974, until the effective date of the final settlement rates is based upon unmodified Seaboard classification, Texas Gas' zone gate allocation and the settlement cost of service. Beginning with the effective date of final settlement rates, costs ate to allocated on a respective two-to-one weighting of Texas Gas' historical zone gate method and Staff's Mcf-mile allocation method with a subsequent tilt within each of Texas Gas' four rate zones to reflect fixed costs as 37½ percent demand and 62½ percent commodity. We also note that in Texas Gas' most recent section 4 filing,[2] the Company purported to utilize the Mcf-mile cost allocation method and a rate design which reflected 75 percent of fixed costs as commodity. By order issued October 30, 1974, in that docket, we set the issues of cost classification, allocation and rate design for hearing so that we may have the opportunity to determine what method of cost classification, allocation, and rate design, when applied to the Texas Gas system would best implement the Commission's objectives of establishing rates for resale or industrial use more in line with the costs of available competitive fuels. We believe that the settlement resolution of the cost classification, allocation and rate design issues in the instant docket is in the public interest and should be approved.

The Commission finds. The settlement of this proceeding on the basis of the settlement as presented in Texas Gas' motion of September 17, 1974, is reasonable and proper and in the public interest in carrying out the provisions of the National Gas Act, and such settlement should be approved as hereinafter ordered.

The Commission orders. (A) The settlement as presented to this Commission in Texas Gas' motion of September 17, 1974, is incorporated herein by reference, approved and made effective as of April 1, 1974, subject to the terms of this order.

(B) The tracking provisions of Article IV of the proposed settlement are accepted with the condition that this Commission reserves the right to establish hearing procedures regarding filings pursuant to these provisions and to order refunds after such hearings.

(C) Within 10 days from the date of this order, Texas Gas shall file with the Commission revised tariff sheets in conformity with the terms of the settlement as herein approved.

(D) This order is without prejudice to any findings or orders which have been made or which may hereafter be made by the Commission and is without prejudice to any claims or contentions which may be made by the Commission, its Staff, Texas Gas, or any other party or person affected by this order in any proceedings now pending or hereafter instituted by or against Texas Gas or any other person or party.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.[3]

[SEAL] KENNETH F. PLUMB, *Secretary.*

[2] Docket No. RP75–10, filed September 30, 1974.

[3] Dissenting statement of Commissioner Brooke filed as part of the original document.

APPENDIX A—SETTLEMENT COST OF SERVICE

Description	*Settlement basis final agreement*
Operating and maintenance expenses; production expenses:	
Cost of gas sold	$201,830,960
Other	3,471,061
Total production expenses	205,302,021
Underground storage expenses	1,787,729
Transmission expenses	27,365,600
Customer accounts expenses	130,316
Sales expenses	343,152
Administrative and general expenses [1]	11,380,338
Total operating and maintenance, expenses	246,309,156
Depreciation, depletion, and amortization	31,341,021
Taxes other than income	6,306,361
Federal income tax	17,106,182
State income taxes	1,524,160
Return (C. exhibit—9.35%; staff exhibit—8.95%; settlement—9.11%) [2]	33,811,405
Subtotal	336,990,785
Revenues deducted:	
Nonjurisdictional sales	274,308
Other operating revenue	2,006,710
Total revenues deducted	2,281,078
Total cost of service	334,709,707

[1] Each amount includes donations, civic and political expenditures of $138,846.
[2] Rate base amounts, $371,146,045.

[Docket Nos. RP75-20 and RP70-13, et al.]

UNITED GAS PIPE LINE CO.

Proposed Rate Increase; Order for Filing and Suspending, Establishing Procedures, Interventions and Severing Issue

DECEMBER 19, 1974.

On November 4, 1974, United Gas Pipe Line Company (United) tendered for filing proposed tariff sheets[1] designed to effect an annual increase in jurisdictional revenues of $102,366,402 based on the twelve months ending August 31, 1974, as adjusted to May 31, 1975. United states that of this amount, $14 million represents non-gas costs, while $88 million reflects gas costs which, absent its filing, would be recovered through United's purchased gas cost adjustment provision. The $102 million increase represents the difference in annual revenue resulting from the rates proposed by this filing and the rates in Docket No. RP74-83 which became effective subject to refund on November 1, 1974. United indicates that this increase is primarily based upon: (1) An increase in rate of return to an overall level of 11 percent, such being necessary to maintain the company's financial stability and continuing ability to finance its pipeline operations; (2) an increase in interest expense for advance payments; (3) an increase in transportation charges and costs; (4) increases in various operating costs; (5) increases in royalty payments; and (6) a decrease in annual sales volumes. United proposes an effective date of December 20, 1974, for its tariff changes.

United further indicates that the demand and commodity components of the rates proposed in its filing have been designed to recover directly the costs allocated to each component. In this regard, United states that fixed transmission costs have been classified 75 percent as commodity cost and 25 percent as demand cost, underground storage costs have been allocated on heating season volumes, and the cost of transportation of gas by others directly applicable to industrial customers has been assigned to non-jurisdictional sales in accordance with Opinion Nos. 671 and 671-A. According to United, all variable costs have been allocated on an annual volume basis.

While United has indicated its compliance with the rate design principles approved in Opinion No. 671, we nevertheless shall continue our review and evaluation of commodity rate levels to determine that level most appropriate in light of present day supply and market conditions. In Opinion No. 671 we expressed our concern over the worsening gas supply situation, and in view thereof we found, inter alia, that low priority usage should be discouraged and the price gap between natural gas and alternative fuels in the interruptible industrial market should, at the minimum, be narrowed. As we indicated in Opinion No. 671, in continuing our review and analysis of pipeline cost allocation and rate design structures we shall, where necessary, establish pipeline rates for resale or industrial use which are more in line with the costs of available competitive fuels. Accordingly, in the preparation of evidence all parties to this proceeding should direct their attention toward cost classification, allocation and rate design alternatives which would best implement our stated objectives of establishing rates for resale and industrial use which more closely approximate the costs of available competitive fuels.

United's filing was noticed on November 8, 1974, with protests, notices of intervention and petitions to intervene due on or before November 25, 1974. In response to this notice, twenty timely interventions and four untimely interventions were filed.[2]

Our review of United's filing indicates that it raises certain issues which may require development in an evidentiary hearing. In addition, the proposed increases in rates and charges have not been shown to be just and reasonable, and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. We shall therefore suspend the proposed rate increase for the full statutory period and direct that a hearing be held on the justness and reasonableness of the rates proposed therein.

We note that in Opinion No. 682 (issued January 11, 1974, in Docket No. RP70-13, et al., we determined that gas received by United from leases acquired by Pennzoil Producing Company prior to October 7, 1960, should be priced on a cost—rather than on an area rate—basis for the purpose of calculating United's cost of service. Thus, we remanded that proceeding for the purpose of determining the cost of such gas.[3] Subsequently, by order issued May 16, 1974, we severed the issue of the cost of gas delivered by Pennzoil to United from the rate proceeding pending in Docket Nos. RP74-20 and RP74-33 and consolidated the issue

[1] Nineteenth Revised Sheet No. 4 to First Revised Volume No. 1, and Third Revised Sheet Nos. 187 and 269-A to Original Volume No. 2.

[2] See Appendix.

[3] As this identical cost issue arose in Docket Nos. RP71-41 and RP72-75, Opinion No. 682 consolidated the issue in those proceedings with the remanded proceeding in Docket No. RP70-13.

XUM
V 39 N 252 DEC 31 1974 V
XUM

for hearing and disposition with the similar issues pending in Docket No. RP70–13, et al. In view of the fact that this identical cost issue arises in the instant proceeding (RP75–30) and in the interest of avoiding relitigation of the issue, we shall sever this issue from the instant proceeding and consolidate it with Docket No. RP70–13, et al. for hearing and disposition.

As previously noted, United's request for increased rates is based in part upon the fact that its deliverability of gas from connected sources is declining. The present gas shortage in this country, to which this Commission has often called attention, is a problem which is shared by most if not all major interstate transmission pipelines in varying degrees of magnitude. The effect upon the risk of capital invested in gas pipeline operations resulting from inadequate and declining gas supplies as well as the uncertainties and contingencies inherent in possible supplemental sources of supply are of direct and primary concern to us. Accordingly, we request that the evidence in this proceeding, including that to be filed by our Staff, give full and careful consideration to these factors in the development of recommendations on the issue of rate of return so as to enable this Commission to formulate sound regulatory policies in this area.

The Commission finds. (1) It is necessary and proper in the public interest in carrying out the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges proposed in this docket by United, and that United's proposed tariff sheets should be accepted for filing, suspended and the use thereof deferred as hereinafter ordered.

(2) Good cause exists to permit the timely and untimely interventions of the parties listed in the attached Appendix.

(3) Good cause exists to sever the issue of the cost of gas delivered to United by Pennzoil during the test year from the proceedings in Docket No. RP75–30 and to consolidate that issue with Docket No. RP70–13, et al. for hearing and disposition.

The Commission orders. (A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 8 and 15 thereof, and the Commission's rules and regulations, a public hearing shall be held on May 13, 1975, in a hearing room of the Federal Power Commission, Washington, D.C. 20426, concerning the justness and reasonableness of the rates proposed in this proceeding by United.

(B) Pending such hearing and a decision thereon, United's proposed tariff sheets to First Revised Volume No. 1 and Original Volume No. 2 of United's FPC Gas Tariff are accepted for filing, and permitted to become effective thereafter on May 20, 1975, in the manner prescribed by the Natural Gas Act and subject to refund.

(C) On or before March 31, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Any prepared testimony and exhibits of intervenors shall be served on or before April 18, 1975. Company rebuttal shall be served on or before May 2, 1975.

(D) A presiding administrative law judge to be designated by the Chief Administrative Law Judge for that purpose (See delegation of authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe necessary procedures not provided for by this order, and shall otherwise conduct the hearing in accordance with the terms of this order and the Commission's rules and regulations.

(E) The parties listed in the attached Appendix are hereby permitted to intervene in this proceeding, subject to the Commission's rules and regulations; *Provided,* however, That the admission of such intervenor shall not be construed as recognition by the Commission that they or any of them might be aggrieved by any order or orders issued in this proceeding, and *Provided,* further, That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petitions to intervene.

(F) The issue of the cost of gas received by United from Pennzoil Producing Company is hereby severed from the rate proceeding in Docket No. RP75–30 and consolidated with Docket No. RP70–13, et al. for hearing and disposition.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

APPENDIX

Timely interventions were filed by: Public Service Electric and Gas Company, Southern Natural Gas Company, Mississippi River Transmission Corporation, Arkansas Louisiana Gas Company, Columbia Gas Transmission Corporation, Memphis Light, Gas and Water Division, City of Memphis, Tennessee, Philadelphia Gas Works, Texas Eastern Transmission Corporation, Natural Gas Pipeline Company of America, The State of Louisiana, Bay State Gas Company, *et al.*, Laclede Gas Company, Entex, Inc., Philadelphia Electric Company, Texas Gas Transmission Corporation, Florida Gas Transmission Company, New Orleans Public Service, Inc., Consolidated Gas Supply Corporation, Algonquin Gas Transmission Company, Mississippi Valley Gas Company and Mobile Gas Service Corporation (joint petition).

Untimely Interventions were filed by: Willmut Gas and Oil Company, The Public Service Commission of the State of New York, Illinois Power Company, and Alabama Gas Corporation.

[Docket No. E–8006]

FLORIDA POWER AND LIGHT CO.

Extension of Time

DECEMBER 20, 1974.

On December 18, 1974, Florida Power and Light Company filed a motion for extension of time in which to file briefs on exceptions to the initial decision of the presiding Administrative Law Judge issued November 26, 1974, in the above-designated matter. The Motion states that Staff Counsel and the Cooperative intervenors and New Smyrna Beach have been notified and have no objection.

Upon consideration, notice is hereby given that the date for filing briefs on exceptions is extended to and including January 24, 1975, and the date for filing briefs opposing exceptions is extended to and including February 13, 1975.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74–30470 Filed 12–30–74;8:45 am]

[Docket No. E–8005]

INTERSTATE POWER CO.

Changes in Rate Schedule

DECEMBER 23, 1974.

Take notice that Interstate Power Company (Interstate) on November 15, 1974, tendered for filing an amendment, dated November 5, 1974, to its Electric Service Agreement with the Municipal Electric Utility of the City of Independence, Iowa, (Independence), dated August 16, 1973, designated as Interstate's FPC Rate Schedule No. 110. The purpose of the filing is to both establish the effective date of the Agreement, as of October 25, 1974, and to notify the Commission that service under Agreement designated as FPC Rate Schedule No. 109 is cancelled and superseded.

Interstate also states that the amendment to the agreement also establishes the transformer capacity, pursuant to Section 3.2 of the Agreement, as 12/16/20 MVA. Pending delivery of the transformer scheduled for January 1975, and completion of the 69 KV interconnection facilities, the 12.5 KV connection will be used for limited emergency service.

Any person desiring to be heard or to protest said application, not already an intervenor herein, should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 6, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. E-9068]

KANSAS CITY POWER & LIGHT CO.

Cancellation of Rate Schedule

DECEMBER 23, 1974.

Take notice that Kansas City Power & Light Company (KCP&L), on October 29, 1974, tendered for filing a notice of cancellation of its Rate Schedule FPC No. 28 to be effective on December 31, 1974. The rate schedule is applicable to KCP&L's service to St. Joseph Light & Power Company (St. Joseph).

KCP&L states that the 161 kv interconnection with St. Joseph, covered by Rate Schedule No. 28, is no longer adequate for interconnection operations and has been displaced by the 345 kv transmission line between KCP&L and St. Joseph. KCP&L also states that interconnection operations between the two companies will continue under the Twin Cities-Iowa-Omaha-Kansas City 345 kv Interconnection Coordinating Agreement (KCP&L Rate Schedule FPC No. 67) to which St. Joseph is a party.

KCP&L states that a copy of the notice of cancellation was served upon St. Joseph.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 6, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8878]

POTOMAC EDISON CO.

Extension of Time

DECEMBER 24, 1974.

On December 17, 1974, Counsel for Front Royal, Virginia filed a motion to extend the date for filing testimony fixed by order issued August 26, 1974 in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Intervenor's Testimony, December 31, 1974.

All other dates remain unchanged.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-604]

CITIES SERVICE GAS CO.

Extension of Time

DECEMBER 20, 1974.

Secretary of the Army Applicant vs Cities Service Gas Co. Respondent.

On December 17, 1974, Cities Service Gas Company filed a motion to extend the date for service of testimony fixed by order issued September 4, 1974, as most recently modified by notice issued December 9, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the date for service of testimony is extended to and including December 27, 1974. The hearing will remain as scheduled, January 20, 1975, at 10:00 a.m. (EST).

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP74-63, and RP74-64]

TRUNKLINE GAS CO.

Changes in Rates and Charges

DECEMBER 23, 1974.

Trunkline Gas Company (Trunkline) on November 7, 1974, tendered for filing Fifth Revised Sheet No. 37 and Fifth Revised Sheet No. 104 to its FPC Gas Tariff, Original Volume No. 2. Trunkline states that these revised tariff sheets, respectively, are submitted pursuant to the provisions of the Commission's acceptance of its Sixth Revised Sheet No. 37 and Sixth Revised Sheet No. 104, in the above captioned dockets.

Trunkline states that these revised tariff sheets reflect a redetermination of the price to be paid under its Rate Schedule F-2 and Rate Schedule 104, respectively, solely to reflect the appropriate reimbursement of the increase in the Louisiana severance tax effective January 1, 1974.

Trunkline states that a copy of each of the respective filings was being furnished to Tennessee Gas Transmission Company and United Fuel Gas Company. (No copy of the form of notice for publication in the Federal Register was included in the filing, as required by Section 154.28 of the Commission's Regulations Under the Natural Gas Act).

Any person desiring to be heard or to protest said application or who has not already been permitted to intervene herein should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 6, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

INDUSTRIAL BANCSHARES, INC.

Formation of Bank Holding Company

Industrial Bancshares, Inc., Kansas City, Kansas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 percent or more of the voting shares of Industrial State Bank, Kansas City, Kansas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Industrial Bancshares, Inc., Kansas City, Kansas, has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(2) of the Board's Regulation Y, for permission to retain its insurance agency business presently being conducted at the offices of Industrial State Bank, Kansas City, Kansas. Notice of the application was published on October 22, 1974 in The Kansas City Star, a newspaper circulated in Kansas City, Missouri.

Applicant states that it would continue to engage in the activity of acting as an insurance agent for the sale of credit-related insurance issued in connection with extensions of credit by Industrial State Bank. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of section 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than January 21, 1975.

Board of Governors of the Federal Reserve System, December 20, 1974.

Assistant Secretary of the Board.

[FR Doc.74-30447 Filed 12-30-74;8:45 am]

I&B, INC.

Order Approving Acquisition of Bank

I&B, Inc., Cherryvale, Kansas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire an additional 33 percent of the voting shares of The Peoples State Bank, Cherryvale, Kansas ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a one-bank holding company, presently owns directly 48 percent of the shares of Bank, while Applicant's principal shareholder and members of his family own the majority of the remaining outstanding voting shares in their individual capacities. This proposal represents a reorganization of the family's interests in Bank by means of a transfer to corporate ownership of a portion of this individual ownership of shares. Thus, Applicant's acquisition of the additional shares of Bank would not affect the concentration of banking resources in the State. Applicant also conducts an insurance agency business, which was commenced by Applicant in 1964.

Bank ($9.7 million of deposits[1]), the only bank in the town of Cherryvale, is the fifth largest of eight banks in the relevant banking market, which is approximated by Montgomery County, and controls 8.5 per cent of the total deposits in commercial banks in the market. Due to the nature of the proposed transaction, involving a reorganization of family interests in Bank, Applicant's acquisition of the additional shares of Bank

[1] All banking data are as of December 31, 1973.

will not involve a change in the control of Bank nor would it have any effect on existing or potential competition. Thus, competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant and Bank are regarded as satisfactory and consistent with approval of the application. It appears that Applicant can satisfactorily service the acquisition debt connected with this proposal without unduly burdening the financial resources of either Applicant or Bank. Applicant proposes no immediate changes in banking services or facilities, but consummation of the proposal would permit a greater retention of Bank's capital and would permit Bank to maintain its rate of growth. Considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the proposed transaction would be consistent with the public interest, and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarised above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[1] effective December 23, 1974.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on December 23, 1974. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FPC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments must be received on or before January 17, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street, NW., Washington, D.C. 20548.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202-376-5425, Federal Power Commission.

Request for review and clearance of a revision to FPC Form No. 16, entitled Report of Supply and Requirements. The proposed revision is to add new Schedule 1A which will provide information on deliveries, curtailments, and requirements, customer-by-customer, by states, of natural gas pipeline companies engaged in interstate commerce of natural gas for resale. 80 natural gas pipeline companies will file Schedule 1A along with Form No. 16 twice annually. The burden for Schedule 1A is estimated to range from 4 to 24 man-hours per report depending on the size of the company.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.74-30409 Filed 12-30-74;8:45 am]

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on December 20, 1974. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202-376-5425, Federal Communications Commission.

Request for review and clearance of an extension without change of FCC Form 129, entitled Notice of Frequency to be Received by Radio Astronomy Station. Receiving radio astronomy stations must file this form so as to report, via FCC, to the International Telecommunication Union in Geneva. Twenty-five radio astronomy stations are required to submit the form annually. Estimated respondent burden is one-half hour per respondent per response.

Request for review and clearance of an extension without change of FCC Form 316, entitled Application for Consent to Assignment of Radio Broadcast Station Construction Permit or License or Transfer of Control of Corporation Holding Radio B/C Station CP or License. Radio station (B/C) licensees must file this application when applying for authority. An average of 375 applications are filed annually. The estimated average burden per respondent is 1.5 man-hours per response.

Request for clearance of an extension without change to FCC Form 321, entitled Application for Construction Permit to Replace Expired Permit; frequency is on occasion; potential respondents are 120 radio station licensees; average respondent burden is estimated at 1 hour per respondent per response.

Request for clearance of an extension without change of FCC Form 323—Ownership Report. Frequency of this reporting requirement is annual; potential respondents are B/C licensees; estimated average annual respondent burden is 8 hours per respondent.

Request for review and clearance of an extension without change of FCC Form 330-L, entitled Application for Instructional TV Fixed Station License. The purpose for the instant Form 330-L is to provide a means for construction permit holders to make an application for license as is required for all broadcast auxiliary applications by section 308 (a) of the Act and §§ 1.511(a) and 74.11 of the Commission's rules. Frequency is on occasion; potential respondents are applicants for an Instructional TV Fixed Station License; average respondent burden is estimated at 4 man-hours for each respondent per response.

Request for review and clearance of an extension without change of FCC Form 336, entitled Report of Overseas Telecommunications Traffic. Common carriers engaged in furnishing telecommunications service between the U.S. and overseas points must file this form twice annually. There are 11 respondents; burden is estimated to be 120 man-hours per respondent per response.

Request for review and clearance of an extension without change of FCC Form 701, entitled Application for Additional Time to Construct Radio Station. This form is to be filed by holders of construction permits when applying for additional time to construct a station to be operated under the following parts of the Commission's rules:

Broadcast—Parts 73 and 74.
Common Carrier—Parts 21, 23, and 25.
Experimental—Part 5.

The frequency of filing is on occasion. An average of 600 applications are filed annually. The estimated respondent burden is one-half man-hour per application.

Request for review and clearance of an extension without change of the recordkeeping requirement under Part 73 of FCC Rules, entitled Standard Broadcast and FM Station Program Logging Rules. 6,196 AM and FM licensees must maintain program logs. The man-hour burden for maintaining the log cannot be estimated by the Commission since each licensee devised his own form and since the information is used for other purposes in addition to complying with the FCC.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.74-30624 Filed 12-30-74;8:45 am]

[1] Voting for this action: Chairman Burns and Governors Sheehan, Bucher, Holland, and Wallich. Absent and not voting Governors Mitchell and Coldwell.

REGULATORY REPORTS REVIEW

Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on December 20, 1974. See 44 U.S.C. 3512 (c) & (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202–376–5425, Federal Communications Commission.

Request for review and clearance of a new application/report entitled Common Carrier Radio Licensee Qualification Report, FCC Form 430. Form 430 will be filed at least annually or when there is a significant change in the carrier's position or when applying for modification. The form will be submitted by microwave applicants and supercedes Form 401. Approximately 1,100 respondents will be required to file at least annually with an estimated burden of 2 man-hours per response.

Request for review and clearance of a new annual report to be filed by applicants for microwave stations. FCC Form 435, entitled Application for New or Modified Common Carrier Microwave Radio Station Construction Permit Under Part 21, will be filed by approximately 5,000 respondents. Estimated burden per response is 25 man-hours.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on 12/26/74 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202–395–4529), or from the reviewer listed.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

FEDERAL-STATE PARTNERSHIP ADVISORY PANEL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92–463), notice is hereby given that a closed meeting of the Federal-State Partnership Advisory Panel to the National Council on the Arts will be held on January 16 and 17, 1975 from 9:00 a.m. to 5:30 p.m. at Big Sky, Montana.

This meeting is for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, this meeting, which involves matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b)(4), (5)), will not be open to the public.

Further information with reference to this meeting can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634–6110.

EDWARD M. WOLFE,
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

RAILROAD RETIREMENT BOARD

ACTUARIAL ADVISORY COMMITTEE

Public Meeting

Notice is hereby given in accordance with Pub. L. 92–463 that the Actuarial Advisory Committee will hold a meeting on January 29, 1975, at the offices of the Director of Research of the U.S. Railroad Retirement Board, 844 North Rush Street, Chicago, Illinois, on the conduct of the 13th Actuarial Valuation of the Railroad Retirement Account. The agenda for this meeting will include the proposed methodology and the assumptions to be used for the 13th Valuation ar well as a brief review of the 1974 Railroad Retirement Act Amendments.

The meeting will be open to the public. Persons wishing to submit written statements or make oral presentations should address their communications or notices to the RRB Actuarial Advisory Committee, c/o Director of Research, U.S. Railroad Retirement Board, 844 North Rush Street, Chicago, Illinois 60611.

Dated: December 24, 1974.

[SEAL] R. F. BUTLER,
Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

AMERICAN STOCK EXCHANGE, INC. AND CHICAGO BOARD OPTIONS EXCHANGE, INC.

Non-disapproval of Options Clearing Corp.

Notice is hereby given that on December 18, 1974 the Commission considered and did not disapprove the proposed charter, by-laws and rules of the Options Clearing Corporation (OCC) filed by the American Stock Exchange, Inc. (Amex) and the Chicago Board Options Exchange, Inc. (CBOE) pursuant to Rule 9b–1 under the Securities Exchange Act of 1934 (17 CFR 240.9b–1). The proposed charter, by-laws and rules of the OCC were originally published at 39 FR 39615 on November 8, 1974.

The amendments comprise amendments to OCC's certificate of incorporation, by-laws and rules and a draft stockholders agreement and a draft participant exchange agreement among the OCC, the CBOE, the Amex and such other options exchanges as may become parties to either thereof. The Commission has concluded that the establishment and operation of OCC as a common clearing entity is necessary and appropriate for the clearing and settlement of exchange-traded options and for the protection of investors involved in the trading of such options.

All interested persons are invited to submit their views and comments on the OCC charter, by-laws and rules. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number 10–54. All amendments that have been made to the Amex's plans have been placed in their respective option files under file number S7–505. The rules are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW., Washington, D.C.

By the Commission.

DECEMBER 20, 1974.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel No. 18729; 70–5593]

MIDDLE SOUTH UTILITIES, INC.

Proposed Issue and Sale of Common Stock by Holding Company

DECEMBER 23, 1974.

Notice is hereby given that Middle South Utilities, Inc. (280 Park Avenue, New York, New York 10017) ("Middle South"), a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Middle South proposes to issue and sell additional authorized but unissued shares of its common stock, $5 par value, through a direct negotiated sale to a group of underwriters, managed by Kidder, Peabody & Co. Incorporated, Merrill Lynch, Pierce, Fenner & Smith Incorporated, and Goldman, Sachs & Co., who will agree to make a prompt public offering thereof. The number of shares of common stock to be sold will be determined in the light of market conditions at the time of the sale and set forth in an amendment, to be filed prior to entry of the Commission's order. Middle South is planning to raise approximately $75,000,000 in net proceeds from said sale of common stock. On December 18, 1974, the closing price of Middle South's common stock on the New York Stock Exchange was $12.50 per share. The competitive bidding requirements of Rule 50 are not applicable because of the temporary suspension thereof by the Commission with respect to common stock issues of registered holding companies (HCAR No. 18646 (November 7, 1974)).

The net proceeds to be derived from the sale of the common stock will be applied to a reduction in the amount of bank loans made to Middle South and outstanding at that time, presently estimated to be $143,700,000.

The fees and expenses incurred or to be incurred in connection with the proposed transaction are estimated at $285,000, including legal fees of $45,000 and auditors' fees of $20,000. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than January 20, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

NATIONAL ADVISORY COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH

Notice of Meeting

Notice is hereby given of a meeting of the National Advisory Committee on Occupational Safety and Health, established under section 7(a) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656).

The meeting will be held in the Ocotillo Room of the Holiday Inn, 2247 East Van Buren Street, Phoenix, Arizona 85036. The meeting will begin at 9:00 a.m. on January 24 and 25, 1975, and will be open to the public.

The agenda will include presentations and discussions on the role of the states in the standards development process, a review of the activities of both the Occupational Safety and Health Administration and the National Institute for Occupational Safety and Health, a discussion of voluntary compliance programs, a presentation on statistics, and a report by NIOSH on its recently completed summary of training facilities.

Any written data or views concerning the subjects to be considered which are received by the Committee's Executive Secretary by January 12, 1975, together with 25 duplicate copies, will be presented to the Committee and included in the official record of the meeting. Those persons desiring to make presentations at the meeting must also notify the Executive Secretary by January 12, 1975 of their desire to appear, stating the amount of time requested and the capacity in which they will appear as well as a brief outline of the content of their presentation. Oral presentations will be scheduled at the discretion of the Committee Chairman depending on the extent to which time permits.

Communications to the Executive Secretary should be addressed as follows:

Ms. J. Goodell, Executive Secretary
National Advisory Committee on Occupational Safety and Health
U.S. Department of Labor
1726 M Street, N.W., Room 200
Washington, D.C. 20210

Signed at Washington, D.C. this 19th day of December, 1974.

J. GOODELL, *Executive Secretary.*

DEPARTMENT OF COMMERCE

Office of the Secretary

REFRIGERATORS, REFRIGERATOR-FREEZERS AND FREEZERS

Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation

Notice is hereby given that the Department of Commerce proposes to issue separate Voluntary Energy Conservation Specifications for refrigerators, combination refrigerator-freezers, and freezers in accordance with section 9.4 of the Procedures for a Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation, 15 CFR Part 9. The proposed specifications describe procedures for testing and labeling these products in compliance with the above mentioned procedures, and contain instructions for participation by manufacturers in the voluntary labeling program with regard to these products.

For each of the following three specifications it is intended that Appendix A to that specification shall contain values for the ranges of energy consumption and cost of operation for all models of the subject appliance now on the market. Such information is being obtained but is not yet available. Therefore, the energy consumption and cost of operation range values contained in the Appendices of these proposed specifications are hypothetical and are used for the purpose of example only. The final versions of these specifications will not be issued until actual energy consumption and cost of operation range values have been obtained and published for public comment.

Interested persons are invited to participate in development of final specifications covering refrigerators, combination refrigerator-freezers, and freezers by submitting written comments or suggestions in four copies to the Assistant Secretary for Science and Technology, U.S. Department of Commerce, Room 3862, Washington, D.C. 20230, on or before February 14, 1975. Interested persons desiring to express their views in an informal hearing may do so if, on or before January 15, 1975, they submit a request to the Assistant Secretary for Science and Technology that such a hearing be held.

A public docket of correspondence and transcripts of hearings will be available for examination by interested persons at the Central Reference and Records Inspection Facility of the Department of Commerce, Room 7043, Main Commerce Building, 14th Street between E Street and Constitution Avenue NW., Washington, D.C. 20230.

DECEMBER 24, 1973.

BETSY ANCKER-JOHNSON, *Assistant Secretary for Science and Technology.*

The following are the proposed specifications under consideration for refrigerators, combination refrigerator-freezers, and freezers.

VOLUNTARY ENERGY CONSERVATION SPECIFICATION NO. 2-75, FOR REFRIGERATORS

Sec.

1.0 Purpose.
2.0 Scope.
3.0 Definitions.
4.0 Product testing and rating.
5.0 Product labeling.
6.0 Use of program information by manufacturers in retail sales catalogs or in advertising.
7.0 Participation in program.
8.0 Termination of participation.
9.0 Use of program information by other than manufacturers.
10.0 Amendment.
Figures 1 and 2—Refrigerator label.
Appendix A—Total refrigerated volume, energy consumption, and cost of operation ranges.

1.0 Purpose. The purpose of this Voluntary Energy Conservation Specification, hereinafter referred to as "Specification," is to establish procedures for testing and labeling refrigerators in compliance with the Procedures for a Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation (15 CFR Part 9) and to define requirements for participation by manufacturers in the Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation with regard to that product class.

2.0 Scope. 2.1. This Specification shall apply to the product class consisting of all refrigerators as defined in 3.4.

2.2. Refrigerators covered by this Specification shall be rated with respect to the following characteristics:

2.2.1 Total refrigerated volume as described in 4.3.1.

2.2.2 Energy consumption as described in 4.3.2.

2.2.3 Cost of operation as described in 4.3.3.

2.3. Values for energy consumption and cost of operation ranges for all refrigerators for which data are available are contained in Appendix A to this Specification. This appendix shall be updated and published in the Federal Register on an annual basis starting in February 1976. Copies of this appendix or updated versions thereof shall be provided by the Secretary to any interested party upon request.

3.0 Definitions. 3.1. The term "Secretary" means the Secretary of Commerce.

3.2. The term "manufacturer" means any person engaged in the manufacturing or assembling of refrigerators in the United States, or in the importing of such products for sale or resale, or any person whose brand or trademark appears on such products who owns such brand or trademark and has authorized its use on such product, if the brand or trademark of the person actually manufacturing or assembling the product does not appear on the product.

3.3. The term "Procedures" means Procedures for a Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation (15 CFR Part 9).

3.4. The term "refrigerator" means a cabinet designed for the refrigerated storage of food at temperatures above 32°F, and having a source of refrigeration driven by an electric motor. It may include a compartment for the freezing and storage of ice and for short term storage of food at temperatures below 32°F, but does not provide a separate low temperature compartment designed for the freezing of and the long term storage of food at temperatures below 8°F. It has only one exterior door, but it may have interior doors on compartments.

3.5. The term "basic model group" means all refrigerators actually manufactured or assembled by one manufacturer having the same rated total refrigerated volume and rated energy consumption. A basic model group may contain one or more members. Members of a basic model group may differ in details that do not affect total refrigerated volume or energy consumption as determined by the methods described in 4.1. Acceptable differences include, but are not limited to, variations in trim, color, sales model number, or brand name.

3.6. The term "defrost system" means the components and/or procedures by which frost is removed from refrigerated surfaces.

3.7. The term "manual defrost" means a defrost system in which the defrosting action for all refrigerated surfaces is initiated manually.

3.8. The term "total refrigerated volume" means the total volume of all refrigerated compartments as measured and calculated in accordance with 4.1.1 and referred to in the standard referenced in 4.1.1 as "net refrigerated volume."

3.9. The term "cost of operation" means the approximate cost of the electric energy used in a month and is as determined in 4.3.3. It does not include such costs as repairs and depreciation.

3.10. The term "retail sales catalog" means a catalog that contains a description of one or more models of refrigerators, states the price of the model or models described, and from which consumers may make purchases by placing orders.

4.0. Product testing and rating. 4.1. Samples of refrigerators shall be tested by manufacturers or their agents in accordance with the following standards:

4.1.1. American National Standard B38.1–1970, Section 3.2, for computation of total refrigerated volume.

4.1.2. Association of Home Appliance Manufacturers Standard HRF–2–ECFT–1974 for measurement of energy consumption.

4.2. Samples of refrigerators shall be tested by manufacturers or their agents in accordance with the following requirements:

4.2.1. Unless otherwise required by the Secretary under 4.2.4, test results obtained in the testing of one member of a basic model group may be accepted as applicable to all members of that basic model group.

4.2.2. Sufficient units from each basic model group, that are representative of units to be produced, shall be tested according to the methods and procedures specified in 4.1 to provide a valid basis for determining ratings. Results of tests and calculations shall be retained as required under 7.4.

4.2.3. Manufacturers shall maintain such quality control programs, to include testing, as are necessary to insure that the performance of manufactured units is within the tolerances specified in 4.5. The use of national certification programs that are open to all manufacturers and that pertain to the performance characteristics listed on the label as a means for verifying the performance level is acceptable. Results of tests and calculations shall be retained as required under 7.4.

4.2.4. In addition to the testing required under 4.2.2 and 4.2.3, the Secretary may upon acquisition of adequate evidence of possible mislabeling request that one or more units of any specified model selected at random from among recent production units, be tested by the manufacturer or his agent according to the methods and conditions specified in 4.1. Such testing shall be performed at the manufacturer's expense and the resulting test data and calculations shall be provided to the Secretary within 60 days of receipt by the manufacturer of such a request. This requirement does not preclude the Department of Commerce from testing or having tested at its own expense any refrigerator.

4.3. Ratings of refrigerators shall be as follows:

4.3.1. Total refrigerated volume shall be expressed in cubic feet and shall be based on the result of the measurement and computation called for in 4.1.1.

4.3.2. Energy consumption shall be expressed in Kilowatt-hours per month and shall be based on the result of the energy consumption test called for in 4.1.2, which provides a rating expressed in Kilowatt-hours per 24 hours, multiplied by 30 days per month and rounded to the nearest Kilowatt-hour per month.

4.3.3. Cost of operation shall be expressed in dollars per month and shall equal the rated energy consumption in Kilowatt-hours per month multiplied by electric rates of 1, 3, 4, 5, 7, and 9 cents per Kilowatt-hour, these costs each rounded to the nearest one-tenth dollar per month.

4.4. Ranges of total refrigerated volume, energy consumption, and cost of operation for use on labels shall be as follows:

4.4.1. Ranges shall be taken from the version of Appendix A in effect at the time the labels are applied, except that labels applied within a 90-day period following a revision of Appendix A need not be replaced with labels showing the new ranges.

4.4.2. The total refrigerated volume range shown on a label shall be taken from the appropriate line of Appendix A as determined by the rated total refrigerated volume of the model to be labeled. For example, if the model to be labeled has a rated total refrigerated volume of 12 cubic feet, the total refrigerated volume range used on the label for that model shall be 10 to 13 cubic feet.

4.4.3. The energy consumption and cost of operation ranges shown on a label shall be taken from the appropriate line of Appendix A as determined by the total refrigerated volume of the model to be labeled.

4.5. All members of a basic model group shall be held to be improperly rated and labeled if two units of that group are tested under 4.2.3 or 4.2.4 and the results of such tests on both units fall outside the following limits:

4.5.1. The value for total refrigerated volume shall not be less than 98.5 percent of the value shown on the label.

4.5.2. The value for energy consumption shall not be greater than 110 percent of the value shown on the label.

4.5.3. The values for cost of operation shall be accurate to the nearest one-tenth dollar per month.

5.0. Product labeling. 5.1. The design of labels shall be as follows:

5.1.1. The design of labels shall be as shown in Figures 1 and 2 at the end of this Specification. Except as provided in 5.1.2 and 5.1.3, no marks or information other than that indicated in Figures 1

XUM

and 2 shall be placed within the border of the label and the size of labels and sizes of type shall be as shown in Figures 1 and 2 or a proportional enlargement of the sizes indicated.

5.1.2. Minor variations in the appearance of labels, that may be required for computerized printing techniques, may be requested by application to the Assistant Secretary for Science and Technology, U.S. Department of Commerce, Room 3862, Washington, D.C. 20230. Such variations shall be limited to changes in the type style or type size used to indicate values of ratings or ranges, model numbers, or other label elements that change from model to model. Applications for change shall include an example of the proposed change.

5.1.3. When two or more models having the same brand name have identical ratings, more than one model number may be shown on the label. The size of the label may be increased to accommodate such additional model number listings.

5.1.4. Labels shall be printed on both sides of white stock. The areas so indicated in Figures 1 and 2 shall be printed in *Pantone Super Warm Red*. The seal or logotype of the certifying agency shall be printed in any legible color or colors. All other printing shall be in black.

5.1.5. Camera-ready art suitable for printing the labels, but not including numercial ratings, model numbers, or the seal, logo, or other designation of the certifying agency, shall be provided by the Secretary to any manufacturer upon request. Actual labels shall be accurate reproductions of this art.

5.2. Refrigerators shall be labeled as follows:

5.2.1. Labels shall be folded as indicated in Figure 1 and hung as a tag on the front of a shelf in the refrigerator compartment or from the inside of the refrigerator compartment door at a height from the floor of four feet or as close to four feet as is practicable.

5.2.2. Labels shall appear clearly distinct from any other information supplied or displayed by the manufacturer so that the Department of Commerce Energy Conservation Mark on the label cannot reasonably be associated with such other information.

5.2.3. If any model of a given brand of refrigerator is labeled, then every model of that brand shall be labeled. However, these requirements shall not apply to units intended for export or units manufactured prior to the manufacturer's entry into the program.

5.2.4. For individual units manufactured and packaged prior to a manufacturer's entry into this program, manufacturers are encouraged to hang appropriate labels, distribute appropriate labels to retailers to be attached to floor display models or other models, or provide point-of-purchase displays as described in 6.4. The manufacturer need not assume responsibility for assuring individual label attachment or use of point-of-purchase displays at retail outlets under the provisions of this subsection.

6.0 Use of program information by manufacturers in retail sales catalogs or in advertising. 6.1. For each labeled model listed in a retail sales catalog, the listing shall be in the form of a reproduction of the label shown in Figure 1 or in any other format or arrangement that shall present all of the information shown in that Figure. The required information for one or more models may be presented in a table or tables.

6.2. For each labeled model listed in a retail sales catalog, the total refrigerated volume, energy consumption, and cost of operation ranges shown in the catalog shall be determined as follows:

6.2.1. The ranges shall be taken from the version of Appendix A in effect 90 days before the press date of the catalog or from a later version of Appendix A if it can be utilized before the press date of such catalog.

6.2.2. The ranges shall be taken from the appropriate version of Appendix A using the procedures described in 4.4.2 and 4.4.3.

6.3. When labeled models are listed in retail sales catalogs, the catalog section in which the models are listed shall contain an explanation of how cost of operation can be calculated and a reproduction of the Department of Commerce Energy Conservation Mark.

6.4. Legible reproductions of that portion of the label shown in Figure 1, in any size, may be used on the product, on packaging, in point-of-purchase displays, or in other advertising applications, but such use shall not be a substitute for required labeling.

6.5. For a given model, when the energy consumption rating as determined in 4.3.2 and cost of operation rating at 4¢ per Kilowatt-hour as determined in 4.3.3 are less than the lower limit of the appropriate energy consumption and cost of operation ranges as determined in 4.4.3 for labels or 6.2 for use in retail sales catalogs, manufacturers are encouraged to utilize this fact in their advertising of that model. This condition could result from introduction of a new or improved model, and in such case would persist until new energy consumption and cost of operation ranges had been issued.

7.0 Participation in Program. 7.1. Manufacturers wishing to participate in the Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation with regard to refrigerators shall notify the Department of Commerce of intended participation. Such notification should be addressed to the Assistant Secretary for Science and Technology, U.S. Department of Commerce, Room 3862, Washington, D.C. 20230. Approval for participation by any manufacturer is automatically granted upon this notification to the Department, provided that the conditions for participation as set forth in the Procedures and in this Specification are observed. Receipt of such notification will be acknowledged.

7.2. A manufacturer's notice of participation shall include the following information:

7.2.1. A statement that the tests and calculations called for under 4.0 will be completed as required and that the manufacturer certifies the accuracy, within the tolerances prescribed under 4.5, of ratings as shown on labels.

7.2.2. A listing of all models to be labeled including an indication of the grouping of sales models into basic model groups. All appropriate models as defined in 5.2.3 shall be included.

7.2.3. A statement that the manufacturer will desist from using the labels and the Department of Commerce Energy Conservation Mark if the manufacturer's participation in the program is terminated by the Department of Commerce under the provisions of 8.2.

7.2.4. The effective date of the manufacturer's entry into the program.

7.2.5. A statement that a listing of total refrigerated volume, energy consumption, and cost of operation at 4¢ per Kilowatt-hour ratings for all models to be labeled will be provided to the Secretary within 90 days after the date of the manufacturer's notice of participation. Such listing may be made in whole or in part by reference to readily available listings of certified refrigerators.

7.3. When a manufacturer's listing of refrigerator models to be labeled as required under 7.2.2 or his listing of total refrigerated volume, energy consumption, or cost of operation ratings as required under 7.2.5 is changed by the addition or deletion of models or changes in model designations or ratings, or if the manufacturer terminates his participation in the program with respect to refrigerators of a given brand name, the manufacturer or his agent shall notify the Secretary within 30 days.

7.4. Manufacturers or their agents shall maintain files of test results and calculations on which ratings are based and files of test results and calculations used to verify that the performance of manufactured units is within the tolerances specified in 4.5. Data relating to a given model shall be preserved for a period of two years after production of that model has been terminated, and if requested shall be provided to the Secretary within 30 days of such request.

7.5. Manufacturers or their agents shall transmit required information to the Secretary in concise and readily understandable form. For this purpose copies of appropriate lists and reports used for other purposes, as for example, reports submitted by a manufacturer to the sponsor of a nationally recognized certification program, or reports submitted by an independent testing laboratory to such a sponsor or a manufacturer, shall be acceptable.

7.6. Should any labeled refrigerator be tested and found to be improperly rated and labeled as described in 4.5, the manufacturer shall within 30 days give notice of non-compliance and a statement of revised ratings in writing to the Secretary and to all distributors or others in

the line of distribution who are responsible for sales to dealers or other retail outlets. He shall also arrange to have corrected labels available for substitution on models currently on display at retail outlets and for those placed on display at a later date, and shall see that such outlets are notified through his normal channels of distribution.

8.0 Termination of participation. 8.1. A manufacturer may at any time terminate his participation and responsibilities under the program with respect to refrigerators of a given brand name by giving written notice to the Secretary that he will discontinue or has discontinued use of the labels on all refrigerators of that brand name. Such notice shall state the effective date of the manufacturer's termination of participation.

8.2. The Department of Commerce upon finding that a manufacturer is not complying with the conditions for participation set forth in this Specification and in the Procedures may terminate upon 30 days notice the manufacturer's participation in the program: *Provided*, That the manufacturer shall first be given an opportunity to show cause why the participation should not be terminated.

8.3. Upon receipt of a notice of termination a manufacturer may within 30 days request a hearing under the provisions of 5 U.S.C. 558.

9.0 Use of program information by other than manufacturers. 9.1. Retail sales organizations that are not manufacturers as defined in 3.2, that sell refrigerators labeled under this program, and have received appropriate and accurate program information from manufacturers or the Secretary, are specifically encouraged to utilize program information in their sales efforts in the manner prescribed in 9.2.

9.2. Appropriate activities for nonmanufacturers include the following:

9.2.1. Use of total refrigerated volume ratings and ranges, energy consumption ratings and ranges, cost of operation at 4¢ per Kilowatt-hour ratings and ranges, explanations of how cost of operation can be calculated, and reproduction of the Department of Commerce Energy Conservation Mark, under the guidelines described in 6.1, 6.2, and 6.3, in retail sales catalogs.

9.2.2. Affixing of labels or appropriate use of point-of-purchase displays, provided by manufacturers under 5.2.4, in sales areas.

9.2.3. Use of reproductions of labels, in the manner described in 6.4, in advertising.

9.2.4. Advertising of instances where the energy consumption and cost of operation ratings of a given model are less than the lower limit of the appropriate energy consumption and cost of operation ranges, as described under 6.5.

9.2.5. Distribution of program information provided by the Department of Commerce. Program information may be obtained from the National Bureau of Standards, 411.00, Washington, D.C. 20234.

10.0 Amendment. This Specification is subject to amendment as provided in Section 9.8 of the Procedures, except that Appendix A of this Specification may be updated and published in the FEDERAL REGISTER annually as described in 2.3 of this Specification without first publishing notice of the proposed change in the FEDERAL REGISTER.

VOLUNTARY ENERGY CONSERVATION SPECIFICATION 2-75, FOR REFRIGERATORS

APPENDIX A: TOTAL REFRIGERATED VOLUME, ENERGY CONSUMPTION, AND COST OF OPERATION RANGES

RATED TOTAL REFRIGERATED VOLUME IN CUBIC FEET	RANGES OF TOTAL REFRIGERATED VOLUME IN CUBIC FEET	RANGES OF ENERGY CONSUMPTION IN KILOWATT-HOURS PER MONTH FOR MODELS WITH MANUAL DEFROST	RANGES OF COST OF OPERATION IN DOLLARS PER MONTH AT A RATE OF 4¢ PER KILOWATT-HOUR FOR MODELS WITH MANUAL DEFROST
Less than 8.5	Less than 9.0	(To be determined)	(To be determined)
8.5 to less than 10.5	8.0 to 11.0		
10.5 to less than 12.5	10.0 to 13.0	62† to 135†	2.50† to 5.40†
12.5 to less than 14.5	12.0 to 15.0		
14.5 to less than 16.5	14.0 to 17.0		
16.5 and above	16.0 and above		

†These values are hypothetical and are used for the purpose of example only.

VOLUNTARY ENERGY CONSERVATION SPECIFICATION No. 3–75, FOR COMBINATION REFRIGERATOR-FREEZERS

Sec.
1.0 Purpose.
2.0 Scope.
3.0 Definitions.
4.0 Product testing and rating.
5.0 Product labeling.
6.0 Use of program information by manufacturers in retail sales catalogs or in advertising.
7.0 Participation in program.
8.0 Termination of participation.
9.0 Use of program information by other than manufacturers.
10.0 Amendment.

Figures 1 and 2—Combination Refrigerator-Freezer Label.

Appendix A—Total refrigerated volume, energy consumption, and cost of operation ranges.

1.0 *Purpose.* The purpose of this Voluntary Energy Conservation Specification, hereinafter referred to as "Specification," is to establish procedures for testing and labeling combination refrigerator-freezers in compliance with the Procedures for a Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation (15 CFR Part 9) and to define requirements for participation by manufacturers in the Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation with regard to that product class.

2.0 *Scope. 2.1.* This Specification shall apply to the product class consisting of all combination refrigerator-freezers as defined in 3.4.

2.2. Combination refrigerator-freezers covered by this Specification shall be rated with respect to the following characteristics:

2.2.1 Total refrigerated volume as described in 4.3.1.

2.2.2 Energy consumption as described in 4.3.2.

2.2.3 Cost of operation as described in 4.3.3.

2.3. Values for energy consumption and cost of operation ranges for all combination refrigerator-freezers for which data are available are contained in Appendix A to this Specification. This appendix shall be updated and published in the FEDERAL REGISTER on an annual basis starting in February 1976. Copies of this appendix or updated versions thereof shall be provided by the Secretary to any interested party upon request.

3.0 *Definitions. 3.1.* The term "Secretary" means the Secretary of Commerce.

3.2. The term "manufacturer" means any person engaged in the manufacturing or assembling of combination refrigerator-freezers in the United States, or in the importing of such products for sale or resale, or any person whose brand or trademark appears on such products who owns such brand or trademark and has authorized its use on such product, if the brand or trademark of the person actually manufacturing or assembling the product does not appear on the product.

3.3. The term "Procedures" means Procedures for a Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation (15 CFR Part 9).

3.4. The term "combination refrigerator-freezer" means a cabinet which consists of two or more compartments, with at least one of the compartments designed for the refrigerated storage of foods at temperatures above 32°F and with at least one of the compartments designed for the freezing of and the storage of frozen foods at temperatures of 8°F or below. The source of refrigeration is driven by an electric motor.

3.5. The term "basic model group" means all combination refrigerator-freezers actually manufactured or assembled by one manufacturer and having the same rated total refrigerated volume and rated energy consumption. A basic model group may contain one or more members. Members of a basic model group may differ in details that do not affect total refrigerated volume or energy consumption as determined by the methods described in 4.1. Acceptable differences include, but are not limited to, variations in trim, color, sales model number, or brand name, or the presence of some special features such as ice makers and dispensers.

3.6. The term "defrost system" means the components and/or procedures by which frost is removed from refrigerated surfaces.

3.6.1. The term "partial automatic defrost" means a defrost system in which the defrosting action for the refrigerated surfaces in the refrigerator compartment is initiated and terminated automatically and the defrosting action for the refrigerated surfaces in the freezer compartment is initiated manually.

3.6.2. The term "automatic defrost" means a defrost system in which the defrosting action for all refrigerated surfaces is initiated and terminated automatically.

3.7. The term "anti-sweat heaters" means devices incorporated into the design of a combination refrigerator-freezer to prevent the accumulation of moisture on exterior surfaces of the cabinet under conditions of high ambient humidity.

3.8. The term "total refrigerated volume" means the total volume of all refrigerated compartments as measured and calculated in accordance with 4.1.1 and referred to in the standard referenced in 4.1.1. as "net refrigerated volume."

3.9. The term "cost of operation" means the approximate cost of the electric energy used in a month and is as determined in 4.3.3. It does not include such costs as repairs and depreciation.

3.10. The term "retail sales catalog" means a catalog that contains a description of one or more models of combination refrigerator-freezers, states the price of the model or models described, and from which consumers may make purchases by placing orders.

4.0 Product testing and rating. 4.1. Samples of combination refrigerator-freezers shall be tested by manufacturers or their agents in accordance with the following standards:

4.1.1. American National Standard B38.1–1970, Section 3.2, for computation of total refrigerated volume.

4.1.2. Association of Home Appliance Manufacturers Standard HRF–ECFT–1974 for measurement of energy consumption.

4.2. Samples of combination refrigerator-freezers shall be tested by manufacturers or their agents in accordance with the following requirements:

4.2.1. Unless otherwise required by the Secretary under 4.2.4, test results obtained in the testing of one member of a basic model group may be accepted as applicable to all members of that basic model group.

4.2.2. Sufficient units from each basic model group, that are representative of units to be produced, shall be tested according to the methods and procedures specified in 4.1 to provide a valid basis for determining ratings. Results of tests and calculations shall be retained as required under 7.4.

4.2.3. Manufacturers shall maintain such quality control programs, to include testing, as are necessary to insure that the performance of manufactured units is within the tolerances specified in 4.5. The use of national certification programs that are open to all manufacturers and that pertain to the performance characteristics listed on the label as a means of verifying the performance level is acceptable. Results of tests and calculations shall be retained as required under 7.4.

4.2.4. In addition to the testing required under 4.2.2 and 4.2.3, the Secretary may upon acquisition of adequate evidence of possible mislabeling request that one or more units of any specified model, selected at random from among recent production units, be tested by the manufacturer or his agent according to the methods and conditions specified in 4.1. Such testing shall be performed at the manufacturer's expense and the resulting test data and calculations shall be provided to the Secretary within 60 days of receipt by the manufacturer of such a request. This requirement does not preclude the Department of Commerce from testing or having tested at its own expense any combination refrigerator-freezer.

4.3. Ratings of combination refrigerator-freezers shall be as follows:

4.3.1. Total refrigerated volume shall be expressed in cubic feet and shall be based on the result of the measurement and computation called for in 4.1.1.

4.3.2. Energy consumption shall be expressed in Kilowatt-hours per month and shall be based on the result of energy consumption test or tests called for in 4.1.2, which provides a rating expressed in Kilowatt-hours per 24 hours, multiplied by 30 days per month and rounded to the nearest Kilowatt-hour per month.

4.3.3. Cost of operation shall be expressed in dollars per month and shall equal the rated energy consumption in

XUM
V 39 N 252 DEC 31 1974
XUM

Kilowatt-hours per month multiplied by electric rates of 1, 3, 4, 5, 7, and 9 cents per Kilowatt-hour, these costs each rounded to the nearest one-tenth dollar per month.

4.4. Ranges of total refrigerated volume, energy consumption, and cost of operation for use on labels shall be as follows:

4.4.1. Ranges shall be taken from the version of Appendix A in effect at the time the labels are applied, except that labels applied within a 90 day period following a revision of Appendix A need not be replaced with labels showing the new ranges.

4.4.2. The total refrigerated volume range shown on a label shall be taken from the appropriate line of Appendix A as determined by the rated total refrigerated volume of the model to be labeled. For example, if the model to be labeled has a rated total refrigerated volume of 16.0 cubic feet, the total refrigerated volume range used on the label for that model shall be 14.0 to 17.0 cubic feet.

4.4.3. The energy consumption and cost of operation ranges shown on a label shall be taken from the appropriate line of Appendix A as determined by the total refrigerated volume of the model to be labeled. The energy consumption and cost of operation ranges for combination refrigerator-freezers with all defrost systems available in this volume range shall be shown on each label.

4.5. All members of a basic model group shall be held to be improperly rated and labeled if two units of that group are tested under 4.2.3 or 4.2.4 and the results of such tests on both units fall outside the following limits:

4.5.1. The value for total refrigerated volume shall not be less than 98.5 percent of the value shown on the label.

4.5.2. The value for energy consumption shall not be greater than 110 percent of the value shown on the label.

4.5.3. The values for cost of operation shall be accurate to the nearest one-tenth dollar per month.

5.0 Product labeling. 5.1. The design of labels shall be as shown in Figures 1 and 2 at the end of this Specification. Except as provided in 5.1.2 through 5.1.7, no marks or information other than that indicated in Figures 1 and 2 shall be placed within the border of the label and the size of labels and sizes of type shall be as shown in Figures 1 and 2 or a proportional enlargement of the sizes indicated.

5.1.2. For models having a switch allowing user control of the anti-sweat heaters, energy consumption and cost of operation ratings for both the "anti-sweat heaters off" and "anti-sweat heaters on" conditions shall be shown. Values for the "anti-sweat heaters off" condition shall be positioned first and shall be marked with an asterisk as follows: 123* to 138 Kilowatt-hours per month, $5.00* to $5.50 per month. Two columns of cost of operation values for electric rates of 1, 3, 5, 7, and 9 cents per kWh shall also be shown, with the values for the "anti-sweat heaters off" condition positioned first and marked with an asterisk. The following note shall be placed as indicated in Figure 1: *Values of energy consumption and cost of operation when anti-sweat heaters are switched off are identified by an asterisk, other values are with anti-sweat heaters switched on.

5.1.3. When the labeled refrigerator-freezer is equipped with an anti-sweat heater switch, the following should be added to the definitions shown in Figure 2 in the same style of lettering:

ANTI-SWEAT HEATERS

These are heaters built into the cabinet to prevent accumulation of moisture on the outer surface under humid conditions.

5.1.4. The type of defrost system, energy consumption range, and cost of operation range as determined under 4.4.1 and 4.4.3 and as specified in Appendix A for refrigerator-freezers in the volume range relating to the labeled unit shall be shown as indicated in Figure 1.

5.1.5. The definition of each type of defrost system as specified in 5.1.4. shall be given on the label as indicated in Figure 2 and shall be as stated below:

AUTOMATIC DEFROST

This is a system that automatically removes all frost as it forms. You never have to defrost. Some manufacturers use other names for this system.

PARTIAL AUTOMATIC DEFROST

With refrigerator-freezers of this type you must manually defrost your freezer but your refrigerator is automatically defrosted. Some manufacturers use other names for this system.

5.1.6. Minor variations in the appearance of labels, that may be required for computerized printing techniques, may be requested by application to the Assistant Secretary for Science and Technology, U.S. Department of Commerce, Room 3862, Washington, D.C. 20230. Such variations shall be limited to changes in the type style or type size used to indicate values of ratings or ranges, model numbers, or other label elements that change from model to model. Applications for change shall include an example of the proposed change.

5.1.7. When two or more models having the same brand name have identical ratings, more than one model number may be shown on the label. The size of the label may be increased to accommodate such additional model number listings.

5.1.8. Labels shall be printed on both sides of white stock. The areas so indicated in Figures 1 and 2 shall be printed in *Pantone Super Warm Red*. The seal or logotype of the certifying agency shall be printed in any legible color or colors. All other printing shall be in black.

5.1.9. Camera-ready art suitable for printing the labels, but not including numerical ratings, model numbers, or the seal, logo, or other designation of the certifying agency, shall be provided by the Secretary to any manufacturer upon request. Actual labels shall be accurate reproductions of this art.

5.2. Combination refrigerator-freezers shall be labeled as follows:

5.2.1. Labels shall be folded as indicated in Figure 1 and hung as a tag on the front of a shelf in the refrigerator compartment or from the inside of the refrigerator compartment door at a height from the floor of four feet or as close to four feet as is practicable.

5.2.2. Labels shall appear clearly distinct from any other information supplied or displayed by the manufacturer so that the Department of Commerce Energy Conservation Mark on the label cannot reasonably be associated with such other information.

5.2.3. If any model of a given brand of combination refrigerator-freezer is labeled, then every model of that brand shall be labeled. However, these requirements shall not apply to units intended for export or units manufactured prior to the manufacturer's entry into the program.

5.2.4. For individual units manufactured and packaged prior to a manufacturer's entry into this program, manufacturers are encouraged to hang appropriate labels, distribute appropriate labels to retailers to be attached to floor display models or other models, or provide point-of-purchase displays as described in 6.4. The manufacturer need not assume responsibility for assuring individual label attachment or use of point-of-purchase displays at retail outlets under the provisions of this subsection.

6.0 Use of program information by manufacturers in retail sales catalogs or in advertising. 6.1. For each labeled model listed in a retail sales catalog, the listing shall be in the form of a reproduction of the label shown in Figure 1 or in any other format or arrangement that shall present all of the information shown in that Figure. The required information for one or more models may be presented in a table or tables.

6.2. For each labeled model listed in a retail sales catalog, the total refrigerated volume, energy consumption, and cost of operation ranges shown in the catalog shall be determined as follows:

6.2.1. The ranges shall be taken from the version of Appendix A in effect 90 days before the press date of the catalog or from a later version of Appendix A if it can be utilized before the press date of such catalog.

6.2.2. The ranges shall be taken from the appropriate version of Appendix A using the procedures described in 4.4.2 and 4.4.3.

6.3. When labeled models are listed in retail sales catalogs, the catalog section in which the models are listed shall contain an explanation of how cost of operation can be calculated and a reproduction of the Department of Commerce Energy Conservation Mark.

6.4. Legible reproductions of that portion of the label shown in Figure 1, in any size, may be used on the product, on packaging, in point-of-purchase displays, or in other advertising applications, but such use shall not be a substitute for required labeling.

6.5. For a given model, when the energy consumption rating as determined in 4.3.2 and the cost of operation rating at 4 cents per Kilowatt-hour as determined in 4.3.3 are less than the lower limit of the appropriate energy consumption and cost of operation ranges as determined in 4.4.3 for labels or 6.2 for use in retail sales catalogs, manufacturers are encouraged to utilize this fact in their advertising of that model. This condition could result from introduction of a new or improved model, and in such case would persist until new energy consumption and cost of operation ranges had been issued.

7.0 Participation in program. *7.1.* Manufacturers wishing to participate in the Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation with regard to combination refrigerator-freezers shall notify the Department of Commerce of intended participation. Such notification should be addressed to the Assistant Secretary for Science and Technology, U.S. Department of Commerce, Room 3862, Washington, D.C. 20230. Approval for participation by any manufacturer is automatically granted upon this notification to the Department, provided that the conditions for participation as set forth in the Procedures and in this Specification are observed. Receipt of such notification will be acknowledged.

7.2. A manufacturer's notice of participation shall include the following information:

7.2.1. A statement that the tests and calculations called for under 4.0 will be completed as required and that the manufacturer certifies the accuracy, within the tolerances prescribed under 4.5, of ratings as shown on labels.

7.2.2. A listing of all models to be labeled including an indication of the grouping of sales models into basic model groups. All appropriate models as defined in 5.2.3 shall be included.

7.2.3. A statement that the manufacturer will desist from using the labels and the Department of Commerce Energy Conservation Mark if the manufacturer's participation in the program is terminated by the Department of Commerce under the provisions of 8.2.

7.2.4. The effective date of the manufacturer's entry into the program.

7.2.5. A statement that a listing of total refrigerated volume, energy consumption, and cost of operation at 4¢ per Kilowatt-hour ratings for all models to be labeled will be provided to the Secretary within 90 days after the date of the manufacturer's notice of participation. Such listing may be made in whole or in part by reference to readily available listings of certified combination refrigerator-freezers.

7.3. When a manufacturer's listing of combination refrigerator-freezer models to be labeled as required under 7.2.2 or his listing of total refrigerated volume, energy consumption, or cost of operation ratings as required under 7.2.5 is changed by the addition or deletion of models or changes in model designations or ratings, or if the manufacturer terminates his participation in the program with respect to combination refrigerator-freezers of a given brand name, the manufacturer or his agent shall notify the Secretary within 30 days.

7.4. Manufacturers or their agents shall maintain files of test results and calculations on which ratings are based and files of test results and calculations used to verify that the performance of manufactured units is within the tolerances specified in 4.5. Data relating to a given model shall be preserved for a period of two years after production of that model has been terminated, and if requested shall be provided to the Secretary within 30 days of such request.

7.5. Manufacturers or their agents shall transmit required information to the Secretary in concise and readily understandable form. For this purpose copies of appropriate lists and reports used for other purposes, as for example, reports submitted by a manufacturer to the sponsor of a nationally recognized certification program, or reports submitted by an independent testing laboratory to such a sponsor or a manufacturer, shall be acceptable.

7.6. Should any labeled combination refrigerator-freezer be tested and found to be improperly rated and labeled as described in 4.5, the manufacturer shall within 30 days give notice of non-compliance and a statement of revised ratings in writing to the Secretary and to all distributors or others in the line of distribution who are responsible for sales to dealers or other retail outlets. He shall also arrange to have corrected labels available for substitution on models currently on display at retail outlets and for those placed on display at a later date, and shall see that such outlets are notified through his normal channels of distribution.

8.0 Termination of participation. *8.1.* A manufacturer may at any time terminate his participation and responsibilities under the program with respect to combination refrigerator-freezers of a given brand name by giving written notice to the Secretary that he will discontinue or has discontinued use of the labels on all combination refrigerator-freezers of that brand name. Such notice shall state the effective date of the manufacturer's termination of participation.

8.2. The Department of Commerce upon finding that a manufacturer is not complying with the conditions for participation set forth in this Specification and in the Procedures may terminate upon 30 days notice the manufacturer's participation in the program: *Provided,* That the manufacturer shall first be given an opportunity to show cause why the participation should not be terminated.

8.3. Upon receipt of a notice of termination a manufacturer may within 30 days request a hearing under the provisions of 5 U.S.C. 558.

9.0 Use of program information by other than manufacturers. *9.1.* Retail sales organizations that are not manufacturers as defined in 3.2, that sell combination refrigerator-freezers labeled under this program, and have received appropriate and accurate program information from manufacturers or the Secretary, are specifically encouraged to utilize program information in their sales efforts in the manner prescribed in 9.2.

9.2. Appropriate activities for non-manufacturers include the following:

9.2.1. Use of total refrigerated volume ratings and ranges, energy consumption ratings and ranges, cost of operation at 4¢ per kilowatt-hour ratings and ranges, explanations of how cost of operation can be calculated, and reproduction of the Department of Commerce Energy Conservation Mark, under the guidelines described in 6.1, 6.2, and 6.3, in retail sales catalogs.

9.2.2. Affixing of labels or appropriate use of point-of-purchase displays, provided by manufacturers under 5.2.4, in sales areas.

9.2.3. Use of reproductions of labels, in the manner described in 6.4, in advertising.

9.2.4. Advertising of instances where the energy consumption and cost of operation ratings of a given model are less than the lower limit of the appropriate energy consumption and cost of operation ranges, as described under 6.5.

9.2.5. Distribution of program information provided by the Department of Commerce. Program information may be obtained from the National Bureau of Standards, 411.00, Washington, D.C. 20234.

10.0 Amendment. This specification is subject to amendment as provided in section 9.8 of the Procedures, except that Appendix A of this Specification may be updated and published in the FEDERAL REGISTER annually as described in 2.3 of this Specification without first publishing notice of the proposed change in the FEDERAL REGISTER.

VOLUNTARY ENERGY CONSERVATION SPECIFICATION 5-75, FOR COMBINATION REFRIGERATOR-FREEZERS

APPENDIX A: TOTAL REFRIGERATED VOLUME, ENERGY CONSUMPTION, AND COST OF OPERATION RANGES

RATED TOTAL REFRIGERATED VOLUME IN CUBIC FEET	RANGES OF TOTAL REFRIGERATED VOLUME IN CUBIC FEET	RANGES OF ENERGY CONSUMPTION IN KILOWATT-HOURS PER MONTH FOR MODELS WITH		RANGES OF COST OF OPERATIONS IN DOLLARS PER MONTH AT A RATE OF 4¢ PER KILOWATT-HOUR FOR MODELS WITH	
		PARTIAL AUTOMATIC DEFROST	AUTOMATIC DEFROST	PARTIAL AUTOMATIC DEFROST	AUTOMATIC DEFROST
Less than 10.5	Less than 11.0				
10.5 to less than 12.5	10.0 to 13.0	(To be determined)	(To be determined)	(To be determined)	(To be determined)
12.5 to less than 14.5	12.0 to 15.0				
14.5 to less than 16.5	14.0 to 17.0	103† to 147†	129† to 180†	4.20† to 5.90†	5.20† to 7.20†
16.5 to less than 18.5	16.0 to 19.0				
18.5 to less than 20.5	18.0 to 21.0				
20.5 to less than 22.5	20.0 to 23.0				
22.5 to less than 24.5	22.0 to 25.0				
24.5 and above	24.0 and above				

Values of energy consumption and cost of operation are determined with anti-sweat heaters fully energized.

†These values are hypothetical and are used for the purpose of example only.

VOLUNTARY ENERGY CONSERVATION SPECIFICATION No. 4-75, FOR FREEZERS

Sec.
1.0 Purpose.
2.0 Scope.
3.0 Definitions.
4.0 Product testing and rating.
5.0 Product labeling.
6.0 Use of program information by manufacturers in retail sales catalogs or in advertising.
7.0 Participation in program.
8.0 Termination of participation.
9.0 Use of program information by other than manufacturers.
10.0 Amendment.

Figures 1 and 2—Freezer label.
Appendix A—Total refrigerated volume, energy consumption, and cost of operation ranges.

1.0 Purpose. The purpose of this Voluntary Energy Conservation Specification, hereinafter referred to as "Specification," is to establish procedures for testing and labeling freezers in compliance with the Procedures for a Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation (15 CFR Part 9) and to define requirements for participation by manufacturers in the Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation with regard to that product class.

2.0 Scope. 2.1. This Specification shall apply to the product class consisting of all freezers as defined in 3.4.

2.2. Freezers covered by this Specification shall be rated with respect to the following characteristics:

2.2.1 Total refrigerated volume as described in 4.3.1.

2.2.2 Energy consumption as described in 4.3.2.

2.2.3 Cost of operation as described in 4.3.3.

2.3. Values for energy consumption and cost of operation ranges for all freezers for which data are available are contained in Appendix A to this Specification. This appendix shall be updated and published in the FEDERAL REGISTER on an annual basis starting in February 1976. Copies of this appendix or updated versions thereof shall be provided by the Secretary to any interested party upon request.

3.0 Definitions. 3.1. The term "Secretary" means the Secretary of Commerce.

3.2. The term "manufacturer" means any person engaged in the manufacturing or assembling of freezers in the United States, or in the importing of such products for sale or resale, or any person whose brand or trademark appears on such products who owns such brand or trademark and has authorized its use on such product, if the brand or trademark of the person actually manufacturing or assembling the product does not appear on the product.

3.3. The term "Procedures" means Procedures for a Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation (15 CFR Part 9).

3.4. The term "freezer" means a cabinet designed as a unit for the storage of food at temperatures of about 0° F, having the ability to freeze food, and having a source of refrigeration driven by an electric motor.

3.5. The term "basic model group" means all freezers actually manufactured or assembled by one manufacturer and having the same rated total refrigerated volume and rated energy consumption. A basic model group may contain one or more members. Members of a basic model group may differ in details that do not affect total refrigerated volume or energy consumption as determined by the methods described in 4.1. Acceptable differences include, but are not limited to, variations in trim, color, sales model number, or brand name, or the presence of some special features such as ice makers and dispensers.

3.6. The term "defrost system" means the components and/or procedures by which frost is removed from refrigerated surfaces.

3.6.1. The term "manual defrost" means a defrost system in which the defrosting action for all refrigerated surfaces is initiated manually.

3.6.2. The term "automatic defrost" means a defrost system in which the defrosting action for all refrigerated surfaces is initiated and terminated automatically.

3.7. The term "anti-sweat heaters" means devices incorporated into the design of a freezer to prevent the accumulation of moisture on exterior surfaces of the cabinet under conditions of high ambient humidity.

3.8. The term "total refrigerated volume" means the total volume of all refrigerated compartments as measured

XUM
V 39 N 252 DEC 31 1974
XUM

and calculated in accordance with 4.1.1 and referred to in the standard referenced in 4.1.1 as "net refrigerated volume."

3.9. The term "cost of operation" means the approximate cost of the electric energy used in a month and is as determined in 4.3.3. It does not include such costs as repairs and depreciation.

3.10. The term "retail sales catalog" means a catalog that contains a description of one or more models of freezers, states the price of the model or models described, and from which consumers may make purchases by placing orders.

4.0 Product testing and rating. 4.1. Samples of freezers shall be tested by manufacturers or their agents in accordance with the following standards:

4.1.1. American National Standard B38.1–1970, Section 4.2, for computation of total refrigerated volume.

4.1.2. Association of Home Appliance Manufacturers Standard HRF-2-ECFT-1974 for measurement of energy consumption.

4.2. Samples of freezers shall be tested by manufacturers or their agents in accordance with the following requirements:

4.2.1. Unless otherwise required by the Secretary under 4.2.4, test results obtained in the testing of one member of a basic model group, may be accepted as applicable to all members of that basic model group.

4.2.2. Sufficient units from each basic model group, that are representative of units to be produced, shall be tested according to the methods and procedures specified in 4.1 to provide a valid basis for determining ratings. Results of tests and calculations shall be retained as required under 7.4.

4.2.3. Manufacturers shall maintain such quality control programs, to include testing, as are necessary to insure that the performance of manufactured units is within the tolerances specified in 4.5. The use of national certification programs that are open to all manufacturers and that pertain to the performance characteristics listed on the label as a means for verifying the performance level is acceptable. Results of tests and calculations shall be retained as required under 7.4.

4.2.4. In addition to the testing required under 4.2.2 and 4.2.3, the Secretary may upon acquisition of adequate evidence of possible mislabeling request that one or more units of any specified model, selected at random from among recent production units, be tested by the manufacturer or his agent according to the methods and conditions specified in 4.1. Such testing shall be performed at the manufacturer's expense and the resulting test data and calculations shall be provided to the Secretary within 60 days of receipt by the manufacturer of such a request. This requirement does not preclude the Department of Commerce from testing or having tested at its own expense any freezer.

4.3. Ratings of freezers shall be as follows:

4.3.1. Total refrigerated volume shall be expressed in cubic feet and shall be based on the result of the measurement and computation called for in 4.1.1.

4.3.2. Energy consumption shall be expressed in Kilowatt-hours per month and shall be based on the result of the energy consumption test called for in 4.1.2, multiplied by 0.9, which provides a rating expressed in Kilowatt-hours per 24 hours, multiplied by 30 days per month and rounded to the nearest Kilowatt-hour per month.

4.3.3. Cost of operation shall be expressed in dollars per month and shall equal the rated energy consumption in Kilowatt-hours per month multiplied by electric rates of 1, 3, 4, 5, 7, and 9 cents per Kilowatt-hour, these costs each rounded to the nearest one-tenth dollar per month.

4.4. Ranges of total refrigerated volume, energy consumption, and cost of operation for use on labels shall be as follows:

4.4.1. Ranges shall be taken from the version of Appendix A in effect at the time the labels are applied, except that labels applied within a 90 day period following a revision of Appendix A need not be replaced with labels showing the new ranges.

4.4.2. The total refrigerated volume range shown on a label shall be taken from the appropriate line of Appendix A as determined by the rated total refrigerated volume of the model to be labeled. For example, if the model to be labeled has a rated total refrigerated volume of 15.3 cubic feet, the total refrigerated volume range used on the label for that model shall be 13.0 to 18.0 cubic feet.

4.4.3 The energy consumption and cost of operation ranges shown on a label shall be taken from the appropriate line of Appendix A as determined by the total refrigerated volume of the model to be labeled. The energy consumption and cost of operation ranges for freezers with all defrost systems available in this volume range shall be shown on each label.

4.5. All members of a basic model group shall be held to be improperly rated and labeled if two units of that group are tested under 4.2.3 or 4.2.4 and the results of such tests on both units fall outside the following limits:

4.5.1. The value for total refrigerated volume shall not be less than 98.5 percent of the value shown on the label.

4.5.2. The value for energy consumption shall not be greater than 110 percent of the value shown on the label.

4.5.3. The values for cost of operation shall be accurate to the nearest one-tenth dollar per month.

5.0 Product labeling 5.1. The design of labels shall be as follows:

5.1.1. The design of labels shall be as shown in Figures 1 and 2 at the end of this Specification. Except as provided in 5.1.2 through 5.1.7, and in 5.2.1, no marks or information other than that indicated in Figures 1 and 2 shall be placed within the border of the label and the size of labels and sizes of type shall be as shown in Figures 1 and 2 or a proportional enlargement of the sizes indicated.

5.1.2. For models having a switch allowing user control of the anti-sweat heaters, energy consumption and cost of operation ratings for both the "anti-sweat heaters off" and "anti-sweat heaters on" conditions shall be shown. Values for the "anti-sweat heaters off" condition shall be positioned first and shall be marked with an asterisk as follows: 157* to 177 Kilowatt-hours per month, $6.30* to $7.10 per month. Two columns of cost of operation values for electric rates of 1, 3, 5, 7, and 9 cents per kWh shall also be shown, with the values for the "anti-sweat heaters off" condition positioned first and marked with an asterisk. The following note shall be placed as indicated in Figure 1: * Values of energy consumption and cost of operation when anti-sweat heaters are switched off are identified by an asterisk, other values are with anti-sweat heaters switched on.

5.1.3. When the labeled freezer is equipped with an anti-sweat heater switch, the following should be added to the definitions shown in Figure 2 in the same style of lettering:

ANTI-SWEAT HEATERS

These are heaters built into the cabinet to prevent accumulation of moisture on the outer surface under humid conditions.

5.1.4. The type of defrost system, energy consumption range, and cost of operation range as determined under 4.4.1 and 4.4.3 and as specified in Appendix A for freezers in the volume range relating to the labeled unit shall be shown as indicated in Figure 1.

5.1.5. The definition of each type of defrost system as specified in 5.1.4 shall be given on the label as indicated in Figure 2 and shall be as stated below:

AUTOMATIC DEFROST

This is a system that automatically removes all frost as it forms. You never have to defrost. Some manufacturers use other names for this system.

MANUAL DEFROST

This type of freezer has no provision for automatic defrosting. You must remove the frost.

5.1.6. Minor variations in the appearance of labels, that may be required for computerized printing techniques, may be requested by application to the Assistant Secretary for Science and Technology, U.S. Department of Commerce, Room 3862, Washington, D.C. 20230. Such variations shall be limited to changes in the type style or type size used to indicate values of ratings or ranges, model numbers, or other label elements that change from model to model. Applications for change shall include an example of the proposed change.

5.1.7. When two or more models having the same brand name have identical ratings, more than one model number may be shown on the label. The size of the label may be increased to accommodate such additional model number listings.

5.1.8. Labels shall be printed on both sides of white stock. The areas so indicated on Figures 1 and 2 shall be printed

in *Pantone Super Warm Red*. The seal or logotype of the certifying agency shall be printed in any legible color or colors. All other printing shall be in black.

5.1.9. Camera-ready art suitable for printing the labels, but not including numerical ratings, model numbers, or the seal, logo, or other designation of the certifying agency, shall be provided by the Secretary to any manufacturer upon request. Actual labels shall be accurate reproductions of this art.

5.2 Freezers shall be labeled as follows:

5.2.1. Labels for upright freezers shall be folded as indicated in Figure 1 and hung as a tag on the front of a shelf in the freezer compartment or from the inside of the freezer compartment door at a height from the floor of four feet or as close to four feet as is practicable. Labels for chest type freezers shall be folded as indicated in Figure 1 and hung as a tag to the inside of the lid in such a manner as to be easily read without detaching. For chest type freezers on which the door opens 75° or more, the label may consist only of that portion shown in Figure 1 and may be attached to the inside of the lid with adhesive.

5.2.2. Labels shall appear clearly distinct from any other information supplied or displayed by the manufacturer so that the Department of Commerce Energy Conservation Mark on the label cannot reasonably be associated with such other information.

5.2.3. If any model of a given brand of freezer is labeled, then every model of that brand shall be labeled. However, these requirements shall not apply to units intended for export or units manufactured prior to the manufacturer's entry into the program.

5.2.4. For individual units manufactured and packaged prior to a manufacturer's entry into this program, manufacturers are encouraged to hang appropriate labels, distribute appropriate labels to retailers to be attached to floor display models or other models, or provide point-of-purchase displays as described in 6.4. The manufacturer need not assume responsibility for assuring individual label attachment or use of point-of-purchase displays at retail outlets under the provisions of this subsection.

6.0 Use of program information by by manufacturers in retail sales catalogs or in advertising. 6.1. For each labeled model listed in a retail sales catalog, the listing shall be in the form of a reproduction of the label shown in Figure 1 or in any other format or arrangement that shall present all of the information shown in that figure. The required information for one or more models may be presented in a table or tables.

6.2. For each labeled model listed in a retail sales catalog, the total refrigerated volume, energy consumption, and cost of operation ranges shown in the catalog shall be determined as follows:

6.2.1. The ranges shall be taken from the version of Appendix A in effect 90 days before the press date of the catalog or from a later version of Appendix A if it can be utilized before the press date of such catalog.

6.2.2. The ranges shall be taken from the appropriate version of Appendix A using the procedures described in 4.4.2 and 4.4.3.

6.3. When labeled models are listed in retail sales catalogs, the catalog section in which the models are listed shall contain an explanation of how cost of operation can be calculated and a reproduction of the Department of Commerce Energy Conservation Mark.

6.4. Legible reproductions of that portion of the label shown in Figure 1, in any size, may be used on the product, on packaging, in point-of-purchase displays, or in other advertising applications, but such use shall not be a substitute for required labeling.

6.5. For a given model, when the energy consumption rating as determined in 4.3.2 and the cost of operation rating at 4¢ per Kilowatt-hour as determined in 4.3.3 are less than the lower limit of the appropriate energy consumption and cost of operation ranges as determined in 4.4.3 for labels or 6.2 for use in retail sales catalogs, manufacturers are encouraged to utilize this fact in their advertising of that model. This condition could result from introduction of a new or improved model, and in such case would persist until new energy consumption and cost of operation ranges had been issued.

7.0 Participation in program. 7.1. Manufacturers wishing to participate in the Voluntary Labeling Program for Household Appliances and Equipment to Effect Energy Conservation with regard to freezers shall notify the Department of Commerce of intended participation. Such notification should be addressed to the Assistant Secretary for Science and Technology, U.S. Department of Commerce, Room 3862, Washington, D.C. 20230. Approval for participation by any manufacturer is automatically granted upon this notification of the Department, provided that the conditions for participation as set forth in the Procedures and in this Specification are observed. Receipt of such notification will be acknowledged.

7.2. A manufacturer's notice of participation shall include the following information:

7.2.1. A statement that the tests and calculations called for under 4.0 will be completed as required and that the manufacturer certifies the accuracy, within the tolerances prescribed under 4.5, of ratings as shown on labels.

7.2.2. A listing of all models to be labeled including an indication of the grouping of sales models into basic model groups. All appropriate models as defined in 5.2.3 shall be included.

7.2.3. A statement that the manufacturer will desist from using the labels and the Department of Commerce Energy Conservation Mark if the manufacturer's participation in the program is terminated by the Department of Commerce under the provisions of 8.2.

7.2.4. The effective date of the manufacturer's entry into the program.

7.2.5. A statement that a listing of total refrigerated volume, energy consumption, and cost of operation at 4¢ per Kilowatt-hour ratings for all models to be labeled will be provided to the Secretary within 90 days after the date of the manufacturer's notice of participation. Such listing may be made in whole or in part by reference to readily available listings of certified freezers.

7.3. When a manufacturer's listing of freezer models to be labeled as required under 7.2.2 or his listing of total refrigerated volume, energy consumption, or cost of operation ratings as required under 7.2.5 is changed by the addition or deletion of models or changes in model designations or ratings, or if the manufacturer terminates his participation in the program with respect to freezers of a given brand name, the manufacturer or his agent shall notify the Secretary within 30 days.

7.4. Manufacturers or their agents shall maintain files of test results and calculations on which ratings are based and files of test results and calculations used to verify that the performance of manufactured units is within the tolerances specified in 4.5. Data relating to a given model shall be preserved for a period of two years after production of that model has been terminated, and if requested shall be provided to the Secretary within 30 days of such request.

7.5. Manufacturers or their agents shall transmit required information to the Secretary in concise and readily understandable form. For this purpose copies of appropriate lists and reports used for other purposes, as for example, reports submitted by a manufacturer to the sponsor of a nationally recognized certification program, or reports submitted by an independent testing laboratory to such a sponsor or a manufacturer, shall be acceptable.

7.6. Should any labeled freezer be tested and found to be improperly rated and labeled as described in 4.5, the manufacturer shall within 30 days give notice of non-compliance and a statement of revised ratings in writing to the Secretary and to all distributors or others in the line of distribution who are responsible for sales to dealers or other retail outlets. He shall also arrange to have corrected labels available for substitution on models currently on display at retail outlets and for those placed on display at a later date, and shall see that such outlets are notified through his normal channels of distribution.

8.0 Termination of participation. 8.1. A manufacturer may at any time terminate his participation and responsibilities under the program with respect to freezers of a given brand name by giving written notice to the Secretary that he will discontinue or has discontinued use of the labels on all freezers of that brand name. Such notice shall state the effective date of the manufacturer's termination of participation.

8.2. The Department of Commerce upon finding that a manufacturer is not complying with the conditions for participation set forth in this Specification

XUM
V 39 N 252 DEC 31 1974 V
XUM

and in the Procedures may terminate upon 30 days notice the manufacturer's participation in the program: *Provided*, that the manufacturer shall first be given an opportunity to show cause why the participation should not be terminated.

8.3. Upon receipt of a notice of termination a manufacturer may within 30 days request a hearing under the provisions of 5 U.S.C. 558.

9.0 Use of program information by other than manufacturers. 9.1. Retail sales organizations that are not manufacturers as defined in 3.2, that sell freezers labeled under this program, and have received appropriate and accurate program information from manufacturers or the Secretary, are specifically encouraged to utilize program information in their sales efforts in the manner prescribed in 9.2.

9.2. Appropriate activities for non-manufacturers include the following:

9.2.1. Use of total refrigerated volume ratings and ranges, energy consumption ratings and ranges, cost of operation at 4¢ per Kilowatt-hour ratings and ranges, explanations of how cost of operation can be calculated, and reproduction of the Department of Commerce Energy Conservation Mark, under the guidelines described in 6.1, 6.2, and 6.3, in retail sales catalogs.

9.2.2. Affixing of labels or appropriate use of point-of-purchase displays, provided by manufacturers under 5.2.4, in sales areas.

9.2.3. Use of reproductions of labels, in the manner described in 6.4, in advertising.

9.2.4. Advertising of instances where the energy consumption and cost of operation ratings of a given model are less than the lower limit of the appropriate energy consumption and cost of operation ranges, as described under 6.5.

9.2.5. Distribution of program information provided by the Department of Commerce. Program information may be obtained from the National Bureau of Standards, 411.00, Washington, D.C. 20234.

10.0 Amendment. This Specification is subject to amendment as provided in Section 9.8 of the Procedures, except that Appendix A of this Specification may be updated and published in the FEDERAL REGISTER annually as described in 2.3 of this Specification without first publishing notice of the proposed change in the FEDERAL REGISTER.

NATIONAL INDUSTRIAL ENERGY

Public Meeting

CONSERVATION COUNCIL

A meeting of the National Industrial Energy Conservation Council will be held on Wednesday, January 29, 1975, from 10 a.m. to 12 noon in Room 4830, Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

The Council will advise the Secretary of Commerce on programs and problems within the industrial and commercial sectors relating to energy conservation.

The public will be permitted to attend and a limited number of seats will be available fo rthat purpose. To the extent that time permits, members of the public may present oral statements to the Council. Interested persons are also invited to file written statements with the Council before or after the meeting.

Questions should be directed to Ed Blecksmith at the Office of Energy Programs, Room 2204, U.S. Department of Commerce. 14th and Constitution Ave., NW., Washington, D.C. 20230. (202) 967–2757.

HERBERT K. SCHMITZ,
Executive Director,
National Energy Conservation Council.

HERBERT K. SCHMITZ,
Executive Director, National Energy Conservation Council.

National Oceanic and Atmospheric Administration

GROUNDFISH FISHERIES

Closure of Season

Notice is hereby given pursuant to § 240.23a, Title 50 CFR as follows:

On December 23, 1974, the Director, National Marine Fisheries Service, determined that United States vessels operating in regulatory area—Subarea 5, West of 69°00 W longitude, defined in § 240.1(b)(5) and referred to in § 240.21(b)(3) will soon reach the annual catch limit for yellowtail flounder of 9,000 metric tons for the period January 1, 1974, through December 31, 1974, as described in § 240.21(b)(3), published in the FEDERAL REGISTER (39 FR 2022).

I hereby announce that the season for taking yellowtail flounder without restriction as to quantity by persons and vessels subject to the jurisdiction of the United States will terminate in the area affected at 2400 hours local time, December 31, 1974. The restriction will remain in effect until 0001 hours local time, January 1, 1975.

Issued at Washington, D.C., and dated December 27, 1974.

JACK W. GEHRINGER,
Acting Director.

INTERSTATE COMMERCE COMMISSION

[Notice No. 663]

ASSIGNMENT OF HEARINGS

DECEMBER 26, 1974.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 105045 Sub 48, B. L. Jeffries Trucking Co., Inc., application dismissed.

No. 35967, Household Goods, Increased Rates Nationwide, continued to January 6, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. 35788, Feed Grains to New England, now being assigned for continued hearing on May 6, 1975, in Room 501, 150 Causeway St., Boston, Mass.

MC 125996 Sub 49, Road Runner Trucking Inc., application dismissed.

No. MC 135007 Sub 41, American Transport, Inc., continued to January 28, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 134908 Sub 1, Kentucky Motor Freight, Inc., now assigned January 27, 1975, at Frankfort, Ky., is transferred to January 27, 1975, at the Holiday Inn West, 925 Newton Pike, Lexington, Ky.

[SEAL] ROBERT L. OSWALD,
Secretary.

HOUSEHOLD GOODS

Modification of Receipt on Estimate Form, Correction [1]

DECEMBER 26, 1974.

Notice to all regulated interstate motor common carriers of household goods.

It has come to the Commission's attention that the form for acknowledgment of receipt of the BOp 103 booklet on the estimating form does not include space for acknowledgement of receipt of Public Advisory No. 4 and the carrier's performance report, the latter being required on and after February 14, 1975. Without a modification, this might require the carrier to also tear out and use the receipt set forth in the BOp 103 booklet where the shipper received the booklets from a prior carrier, thereby wasting each BOp 103 booklet so utilized. Accordingly, effective immediately, all regulated interstate motor common carriers of household goods are permitted to modify the receipt block of the estimating form, set forth in the upper right hand corner, to read as follows:

I hereby acknowledge that I have received from (check one):
- ☐ the carrier supplying this estimate
- ☐ a carrier supplying another estimate
- ☐ other source

Summary of Information for Shippers of Household Goods, Form BOp 103; and I.C.C. Public Advisory No. 4

ALSO (check):
- ☐ The performance report of the carrier supplying this estimate (effective February 14, 1975).

Signature of Shipper or his Representative

For carrier convenience a similar modification may be made on the Order for Service form.

[SEAL] ROBERT L. OSWALD,
Secretary.

CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLE ENGINES

Proposed Selective Enforcement Auditing Procedures

XUM V39 N252 DEC 31 1974 XUM

ENVIRONMENTAL PROTECTION AGENCY

[FRL 314-1]

[40 CFR Part 85]

CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Proposed Selective Enforcement Auditing Procedures

Notice is hereby given that Part 85 of Title 40 of the Code of Federal Regulations is proposed to be revised by the addition of a new subpart and amendments to existing subparts as set forth below.

I. *Explanatory statement.* The major purpose intended to be served by the proposed subpart and amendments is to verify on a selective basis that new gasoline-fueled and diesel light duty vehicles and new gasoline-fueled and diesel light duty trucks conform at the assembly line with the regulations with respect to which the certificate of conformity was issued.

Certification is the principal tool used for enforcement of standards for emission of air pollutants from new motor vehicles that EPA has employed since the passage of the Clean Air Act and is based on the emission performance of a limited number of prototype vehicles. The purpose of certification is to require manufacturers to demonstrate that they possess the capability of designing vehicles which meet the applicable emission standards for 50,000 miles. However, the fact that a prototype vehicle meets the standards does not guarantee that the manufacturers' production vehicles will also meet the standards. Evidence which indicates that a significant portion of production vehicles are not meeting the standards is available from the results of the California Air Resources Board (CARB) assembly line test program and the U.S. E.P.A.'s in-use testing programs. One of the CARB procedures requires quality audit testing of at least two percent of each manufacturer's quarterly production of vehicles sold in California for that year using the official Federal Test Procedure less the evaporative emission portion. In some cases over fifty percent of the vehicles of certain engine families have failed the CARB quality audit test.

A logical means of ensuring the compliance of production vehicles at the time of manufacture is to test them on the assembly line at the completion of assembly. Section 206(b) of the Clean Air Act authorizes the Administrator to test vehicles in order to determine whether new motor vehicles being manufactured by a manufacturer do in fact conform with the regulations with respect to which the certificate of conformity was issued.

The regulations proposed herein will prevent future nonconformity, however, EPA does not believe it is possible to quantify the air quality benefits for a program designed to enforce compliance with emission standards without first finding (1) that there are, in fact, vehicles being produced which exceed the standards and (2) that the program will stop that production. These findings can be made only for those vehicles which are produced, do not conform, and are detected. On the other hand, the program envisioned in these regulations is intended to provide a deterrent to the production of noncomplying vehicles. That is, it is a program to prevent pollution above established standards rather than a program to cure excessive pollution after it occurs. Thus, proposed herein is a Federal program to test production vehicles in order to establish a deterrent to the production of concomplying vehicles.

II. *General description of regulations.*[1] Selective Enforcement Auditing (SEA) is the term used in this regulation to describe the testing pursuant to an Administrative Order, in accordance with the Federal Test Procedure, of a random sample of production vehicles from a particular specified vehicle configuration selected from a particular assembly plant in order to: (1) determine whether the production vehicles conform with the regulations with respect to which the certificate of conformity was issued, and (2) provide the basis for certificate suspension or revocation in the case of nonconformity.

Testing is initiated by a test order which will be issued by the Assistant Administrator for Enforcement and General Counsel or his designee to the manufacturer. This test order will require the manufacturer to test vehicles from a specified configuration produced at a specified plant.

Initial testing on any selected manufacturer's vehicles may be limited to one specific vehicle configuration, but other vehicle configurations may be selected for testing pursuant to subsequent test orders. The term configuration includes vehicles of the same make and model possessing the same type engine, emission control system, transmission, and belonging to the same inertia weight class. Upon receipt of the test order, the manufacturer will randomly select one or two batch samples, depending on the specified size of the batches, from consecutive batches of vehicles of the specified configuration. A batch is a collection of vehicles designated in the test order from which a sample is to be drawn to determine conformance with the acceptability criteria.

The SEA strategy incorporates a multiple sampling plan by attributes in the style of Military Standard 105D. Military Standard 105D is a collection of sampling plans designed to be used in determining the acceptability of a batch of items for which one or more inspection criteria have been established. As applied to motor vehicle emissions, the items being inspected are vehicles and the inspection criteria are the emission standards. In order to minimize or preclude the potential effects of "green engine" on emission test results, a manufacturer will be allowed to accumulate whatever mileage he deems necessary, up to 4000 miles, prior to vehicle testing.

The emission measurements on an assembly line vehicle obtained by use of the Federal Test Procedure represent the emission levels of that vehicle at the time of the test and do not necessarily represent the emissions from that vehicle while in use. The Clean Air Act requires that vehicles meet the applicable emission standards throughout their useful life. When these proposed regulations and amendments become effective, both noncatalyst and catalyst equipped vehicles will be produced, although it is anticipated that the majority of new light duty vehicles will be equipped with catalysts. Present data on the change in emissions with increasing mileage for catalyst equipped vehicles generally indicates a trend of a more rapid increase in emissions during early mileage accumulation and then a less rapid increase in emissions with higher mileage. In order to account for the first period of emission deterioration (or amelioration),[2] manufacturers may apply a 0–4000 mile deterioration factor calculated from the test results of their certification fleets, develop their own deterioration (or amelioration) factor at a mileage between 0–4000 from production vehicles, or accumulate 4000 miles on the vehicles prior to emission testing. The second period of deterioration will be accounted for by application of the usual 4000–50,000 mile deterioration factor calculated from certification fleet test results. Manufacturers will be required to apply these factors (where applicable) by comparing the measured emissions of a production vehicle with a low-mileage emissions target calculated by dividing the certification standards by the appropriate factors to determine conformity.

Although emissions from vehicles not equipped with catalysts generally deteriorate less rapidly than catalyst equipped vehicles, some deterioration is generally noticed. Accordingly, both the customary 4000 to 50,000 mile deterioration factor, calculated using the test results of their certification fleet, in addition to a 0 to 4000 deterioration (or amelioration) factor will be used in calculating the low-mileage emissions target which will then be compared to the measured emissions of the assembly line vehicles to determine compliance. As in the case with catalyst equipped vehicles, in order to account for the first period of degradation (or amelioration), manufacturers may use a 0–4000 mile deterioration (or amelioration) factor calculated from the test results of their certification fleets, develop their own deterioration (or amelioration) factor at

[1] A more detailed description follows at section IV.

[2] Generally, the change in vehicle emission after a certain period of use is characterized by deterioration (i.e., emission increase). However, there may be circumstances where emissions actually get better (i.e., emission decrease) with use. If this is the case as demonstrated by available data, then an amelioration factor will be permitted.

a mileage between 0–4000 from production vehicles, or accumulate 4000 miles on vehicles prior to emission testing.

The sampling plans in the proposed regulation are arranged according to the size of the batch from which a batch sample is to be drawn. Each plan specifies the batch sample size and acceptance and rejection numbers for each sample. As applied to vehicle emissions, the AQL is the maximum percentage of failing vehicles for an individual pollutant, that for purposes of sampling inspection, can be considered satisfactory as a process average, where a vehicle is considered a failure if it exceeds the emission standards after application of appropriate factors for the particular pollutant under inspection. The number of failing vehicles in the sample is compared to the acceptance and rejection numbers for the appropriate sampling plan. If the number of failures is less than or equal to the acceptance number, then there is a high probability that the percentage of noncomplying vehicles in the batch is less than the AQL. On the other hand, if the number of failing vehicles in the batch sample is greater than or equal to the rejection number, then there is a high probability that the percentage of noncomplying vehicles in the batch is greater than the AQL. In the first case, the batch is labeled accepted; while in the second case it is labeled rejected.

If the first batch or first two batches, depending on the number required, inspected in response to a test order are accepted, the manufacturer will not be required, at that time, to do any further sampling and testing of vehicles of that configuration pursuant to the test order. Rejection of the batch if only one is required to be inspected, or rejection of either the first or second batch if two are required to be inspected, would result in a number of subsequent actions. First, the certificate is suspended with respect to the vehicles in the rejected batch which are still in the manufacturer's hands until he is able to make the necessary repairs and/or adjustments to bring them into compliance. Second, the manufacturer must begin to inspect consecutive batches of the affected configuration to determine whether each batch can be accepted. If a sufficient number of consecutive batches are accepted, then the manufacturer can discontinue testing pursuant to the test order. However, if batches continue to be rejected, the certificate of conformity may be suspended or revoked in whole or in part with respect to vehicles of that configuration produced at that plant. The certificate of conformity is suspended with respect to any vehicle failing the audit test and any failing vehicles must be fixed and pass a retest before they can be offered for sale regardless of whether the batch was labeled accepted or rejected. If any particular configuration is found not to conform, the Administrator may issue additional test orders for testing of vehicles of that configuration produced at other plants and also for other configurations of that same engine family produced by the manufacturer at that plant or other plants.

Once a certificate is suspended or revoked for a configuration, it will remain suspended until a manufacturer has taken corrective action to bring the vehicles into compliance. He must demonstrate that the vehicles are meeting the standards by reinstating batch inspection in accordance with the second sequence test requirements of a test order and the regulations. If batches continue to be rejected despite the corrective action taken by the manufacturer on a configuration, for which the certificate has been suspended, the Administrator may consider revoking the certificate for that configuration. Once revocation has occurred and the manufacturer wishes to continue sales of the tested configuration, he will be required to notify the Administrator and request approval for the proposed remedy on that configuration in addition to reinstituting batch inspection in accordance with the second sequence test requirements of a test order and the regulations when the proposed remedy is approved.

The decision whether to suspend or revoke a certificate of conformity in whole or in part will be made by the Administrator based on whether the proposed remedy for the nonconformity is one requiring notification and approval under the appropriate addition of vehicles or change provisions of the regulations (40 CFR 85 et seq.). If the remedy does require notification and approval, the certificate may be revoked; otherwise the certificate will be suspended.

III. *SEA benefits.* SEA will complement both the present certification program and the evolving recall surveillance program. Because certification involves testing of prototype vehicles and SEA involves testing of certified production vehicles, SEA will bridge the gap between the emission performance of certification prototype vehicles and production vehicles. The in-use testing program is used to determine whether vehicles in use, which have been properly maintained and used, do, in fact, conform to applicable standards throughout their useful lives. In the event substantial numbers of such vehicles do not conform, the class may be recalled. SEA will be used to determine whether production vehicles, although covered by valid certificates of conformity, do, in fact, conform to the standards prior to introduction into commerce.

Selective enforcement auditing will also serve as an important source of data for the in-use testing program which can result in recall of vehicles already in commerce by identifying classes which contain a substantial number of noncomplying vehicles at the time of manufacture.

SEA differs from the traditional concept of assembly line testing (ALT) in that while ALT contemplates testing all or some representative sample of vehicles coming off the production line in a continuous fashion, SEA would be limited to testing representative samples of particular vehicle configurations on a selective basis. Testing of new production vehicles on a limited basis allows the use of the Federal Test Procedure (FTP) and thus avoids the problem of short test correlation with the FTP.

The traditional concept of ALT imposes a full time continuous testing burden on the manufacturer which does not depend on the degree of compliance of the production vehicles with applicable emission standards. SEA, however, would impose a testing burden which is related to the percentage of vehicles found to be in noncompliance. If, based on test results, a manufacturer's vehicles are found to be substantially in compliance, he will be required to perform a minimal amount of testing. But if a manufacturer's production vehicles are found to be in noncompliance, then the amount of required testing will increase depending upon the extent of such noncompliance.

The very fact that certification vehicles are prototypes means that special techniques, which are not used in the manufacture of production vehicles, were used in their construction. The mass production techniques may result in the vehicles having emission characteristics different from the prototypes even though the designs are identical. SEA will verify that any prototype-to-production slippage has not caused production vehicles to fail to comply at the time of manufacture.

SEA is desirable from the standpoint of assuring that a manufacturer will improve or maintain high standards of quality control to preclude production vehicles from failing SEA testing because of poor construction techniques or an assembly process which adversely affects emission performance.

IV. *Detailed description of regulations.* A. *Test order.* Test orders are confined to a single vehicle configuration so that noncompliance can be associated with a particular vehicle type, and initial testing may be kept to a minimum. An alternative configuration may be designated in the test order in the event vehicles of the first configuration are not available. If problems are found with a particular configuration, this may serve as an indication of potential problems with other similar configurations and may trigger the issuance of additional test orders.

B. *Selection of vehicles for testing.* The production vehicles identified in the test order will be of the subclassification of an engine family known as a configuration. Samples of production vehicles of the configuration selected for testing will be randomly drawn from batches of vehicles. A batch is the collection of vehicles designated in the test order from which a sample is to be drawn to determine conformance with the acceptability criteria. The purpose of the random selection is to ensure that a representative sample is drawn. As a guideline, the Administrator will normally select as a batch the collection of successively produced vehicles of a configuration produced during a shift.

A batch defined in this manner will allow the Administrator to select batch

sizes small enough to keep the number of vehicles to be tested at a reasonable number and yet be large enough to enable EPA to draw statistically valid conclusions about the emission performance of all vehicles of that configuration manufactured by the manufacturer at that plant at that time.

One important factor which will influence the decision of the Administrator to issue a test order to a manufacturer is whether the manufacturer is conducting emission testing of production vehicles on his own cognizance using a sampling scheme which is more powerful, similar to, or identical to the one proposed in these regulations. If a manufacturer can provide evidence that his vehicles are meeting standards based on tests and sampling methods acceptable to EPA, issuance of a test order may not be necessary.

C. *Test procedures and compliance with standards.* The prescribed test is the official Federal Test Procedure, less the evaporative emission portion, with the manufacturer allowed to accumulate sufficient mileage to stabilize exhaust emissions. Amendments to those portions of the regulations which prescribe the test procedures for certification have been made to separate evaporative emissions testing from exhaust emissions testing. The evaporative portion of the test will not normally be required by SEA because of the added test burden and the fact that most evaporative control systems are extremely reliable, and the mere presence of the system offers substantial assurance that the vehicle will conform to the evaporative emission standards. Nevertheless, if there exists good cause to suspect the adequacy of a specific evaporative control system, the test order may require appropriate testing.

D. *Mileage accumulation.* Some manufacturers may be concerned that vehicle emissions at zero or very low mileage on some vehicle configurations might be unstable or erratic and not representative of true emission performance. This may be attributed to the newness of the engine-system combination and may be overcome at some point when the engine has "worn-in" (i.e., the pistons have sealed, excess lubricant has been burned out of the combustion chambers and exhaust system, etc.). Because of this concern, these regulations provide that prior to testing production vehicles, manufacturers may accumulate whatever mileage they deem necessary, up to 4000 miles, to minimize this effect on both catalyst and noncatalyst vehicles.

E. *Deterioration.* Testing of production vehicles under section 206 of the Clean Air Act is conducted in order to determine whether such vehicles do, in fact, conform to the regulations with respect to which the certificate of conformity was issued. Because the certification regulations include the requirement that prototype vehicles demonstrate compliance with the section 202 standards for 50,000 miles, it is not sufficient to simply test vehicles at low mileage in order to effectively demonstrate probable compliance at higher mileage because of the phenomenon known as deterioration. As vehicles accumulate miles and parts wear, the emission performance generally deteriorates (i.e., the emissions increase). Although this deterioration (or amelioration, in the event emissions actually improve with mileage) phenomenon exists on both noncatalyst equipped and catalyst equipped vehicles, the deterioration phenomenon is especially critical with catalyst equipped vehicles. A fresh catalyst may demonstrate very efficient emission control; however, as miles are accumulated, the conversion efficiency decreases and emissions increase. Data on catalyst equipped vehicles indicates that emissions from such vehicles deteriorate more rapidly from zero to 4000 miles than from 4000 to 50,000 miles (or 25,000 miles, whichever is the useful life of the catalyst). Generally, early rapid catalyst deterioration takes place somewhere in the accumulation of the first few thousand miles; that is, virgin catalyst efficiency deteriorates only very gradually throughout the remaining life of the catalyst. Testing of production line cars with virgin catalysts at zero miles could therefore lead to false conclusions about in-use vehicle emission performance if only the 4000–50,000 mile deterioration factor were used to determine conformity. Therefore, a factor may be derived which relates low mileage (i.e., that mileage at which production vehicles are tested) to 4000 miles.

The inverse of deterioration, or amelioration, is also possible with certain emission control systems.

Thus, known emission deterioration or amelioration must be accounted for in making the determinations of compliance of new production vehicles. One method of accounting for deterioration or amelioration requires that appropriate factors be applied to the new vehicle emission values on both noncatalyst and catalyst equipped vehicles. (The actual technique, using a low mileage target, will be discussed later.) These factors may be those derived as described below.

1. *4000–50,000 Mile Deterioration factor.* The applicable 4000–50,000 mile deterioration factor derived for each engine family during certification and for each pollutant will be used to determine compliance with applicable emission standards.

2. *0–4000 mile deterioration factors.* The regulations provide optional methods of developing the low mileage (0–4000 mile) deterioration (amelioration) factor. The first requires use of factors for each pollutant derived by using the measured emissions at zero and 4000 miles for the certification emission data vehicles for each engine family. This method requires that each production vehicle to be tested be driven to the average number of miles accumulated during certification prior to the "zero" mile test on the emission data cars from that family.

All applicable test results for emission data vehicles for each engine family will be plotted as a function of mileage on the system and the best fit straight line drawn through the data points. The 0–4000 mile factor will be calculated by dividing interpolated 4000 mile emissions by interpolated average "zero mile" emissions.

The second method permits the manufacturer to derive his own low mileage factors and associated mileage accumulation requirements up to 4000 miles, on the basis of production vehicle test data rather than the certification data. In order to use this alternative the manufacturer must submit a request for approval to the Administrator accompanied by supporting data, and the request must be approved by the Administrator. This alternative allows the manufacturer, where he is concerned with the stability of emissions from his production vehicles, to accumulate mileage, up to 4000 miles, before applying the low mileage factors. Where the manufacturer does elect to accumulate 4000 miles, no 0–4000 mileage factor is applicable to the test results, only a 4000–50,000 mile factor.

EPA requests that manufacturers provide constructive comments on these alternatives for accounting for 0–4000 mile deterioration (or amelioration) and submit viable variations or other alternatives, supported by appropriate data and rationale. Comments are also requested on other alternatives for accounting for the 4000–50,000 mile deterioration.

3. *Low mileage target.* The determination of conformity of an assembly line vehicle with the applicable emission standard for purposes of the sampling audit will be made by comparing the measured emissions of the assembly line vehicle with a low mileage target. The low mileage target is derived for a configuration by dividing the applicable section 202 standard for that pollutant by the product of the applicable engine family deterioration factors for 0–4000 miles and for 4000–50,000 miles.

F. *Sampling plans and decision criteria.* The sampling plans in the proposed regulations are similar to those in Military Standard 105D, Sampling Procedures and Tables for Inspection by Attributes. Sampling inspection programs have been widely and successfully used in government and industry for many years. One of the most widely used and best developed guides to sampling plans and procedures for inspection by attributes is Military Standard 105D, developed by the Department of Defense. The SEA strategy includes the use of a multiple sampling plan by attributes in the style of Mil–Std–105D. Under inspection by attributes, items are inspected or tested to determine whether they meet the prescribed specification (the prescribed specification is the attribute). The basic decision criterion is the number of products whose parameters of interest meet specification.

The particular type of inspection plan which has been adopted for SEA is known as multiple sampling. Multiple sampling differs from single sampling in that small consecutive test samples are concurrently drawn from a batch sample and tested rather than one large sample

being drawn and tested. In most cases acceptance or rejection of a batch can take place after one or a few test samples have been tested. As a result significantly fewer vehicles than the entire large batch sample will need to be tested. Multiple sampling offers the advantage of keeping the number of vehicles requiring testing to a minimum when an acceptable majority of vehicles are meeting the standards.

The regulations proposed here contain an Acceptable Quality Level (AQL) of 10 percent applicable to measured vehicle emissions when compared to the "low-mileage targets" calculated by dividing the applicable standards under Section 202 by the associated deterioration factors derived from certification testing. The regulations, thus, would require virtually every vehicle to meet applicable standards after adjustment for deterioration, with only 10 percent of the vehicles allowed to exceed the low-mileage target to provide for test variability and isolated instances of nonconformity. That is the goal of the SEA program.

However, given that the program proposed here is new, it may be desirable to initiate the program with a higher AQL, to be reduced to the goal of 10 percent in future years after some experience with the program is gained. It may also be desirable to repeat the process of moving from a higher to a lower AQL whenever standards are made more stringent to provide time for learning to control vehicle quality at the new standards levels. Comment is specifically solicited on the level of the initial AQL and the schedule for meeting the ultimate goal of 10 percent. It is contemplated that while a higher AQL is in effect and applicable to the "low mileage targets", an AQL of 10 percent may be made applicable to measured vehicle emissions when compared to the section 202 standards, so that virtually every vehicle will still meet the section 202 standards before adjustment for deterioration.

G. *Inspection criteria and number of batches required to be inspected.* Associated with any sampling plan is the producer's risk and the consumer's risk. Producer's risk is commonly understood to be the probability that a batch will be rejected when the true percentage defective is less than or equal to the AQL. Consumer's risk is the probability that a batch will be accepted when the true percentage defective is greater than the AQL. The only type of sampling plan which has no producer's or consumer's risk is one in which every item in the batch is inspected. If the sample size is smaller than the batch size, then the sampling plan is characterized by what is called the operating characteristic curve, which is the variation of the probability of acceptance of a batch with the true percentage defective.

The proposed regulations require that a sequence of batches be inspected. This is necessary to ensure that a sufficient number of vehicles is inspected so that EPA's decision to suspend or revoke a certificate of conformity or to take no further enforcement action has statistical validity. The proposed regulations establish a separate sampling plan and sequence for inspection of batches for various ranges of batch size. This was done so that the overall operating characteristic (OC) curve for different batch sizes could be matched as closely as possible. In determining the sampling plans that will be used, the number of batches that will be inspected and the number of batches that must be accepted in order to preclude suspension or revocation of certificates of conformity, overall operating characteristic curves were developed for various combinations of the above. The overall operating characteristic curve is the variation of the probability of not suspending a certificate with the true percentage defective. Only those combinations which had a producer's risk of five percent or smaller were considered.

The inspection sequence for each batch size consists of a first sequence and a second sequence. The purpose of this two phase inspection sequence is to minimize the amount of testing in those cases where manufacturers are producing complying vehicles. In the majority of cases, manufacturers who are producing complying vehicles will only have to complete the first sequence, while manufacturers who are producing noncomplying vehicles will have to complete both sequences. For some batch sizes, the initial inspection criteria are normal and switch to tightened when the second inspection sequence begins; for other batch sizes, the initial inspection criteria are tightened and no switch occurs. These differences in inspection criteria are necessary in order to make the overall OC curves for different batch sizes as nearly the same as possible while minimizing the expected number of vehicles to be tested.

The acceptable quality level is applicable to each pollutant. Therefore, the sampling plans will be applied for each individual pollutant. Once the required number of batches for a particular pollutant has been accepted, no further testing with regard to that test order for that particular pollutant is necessary. However, as long as continued sampling is required for any pollutant, testing must continue pursuant to that test order until the required number of batches is accepted (or the point of certificate suspension is reached) for that particular pollutant.

H. *Time limitations.* Since the number of vehicles tested in response to a test order may vary considerably, a fixed time limit cannot be placed on completing all testing. The proposed approach is to establish the time limit on a per vehicle basis, taking mileage accumulation and transportation requirements, if any into consideration. If the manufacturer elects to use the average mileage accumulation on the certification emission data vehicles at the time of the zero mile test, then it is expected he would complete mileage accumulation and testing on four vehicles per day per test cell. If the manufacturer elects to use a different mileage accumulation, then he would be allowed an additional day per vehicle for each 500 miles of accumulation. The manufacturer would also be allowed a reasonable amount of time for transport of vehicles to a test facility if one were not available at the assembly plant. He is still required to test a minimum of four vehicles per day per test cell.

I. *Suspension and revocation of a certificate of conformity.* 1. *Noncompliance with a test order.* The regulations provide that when a manufacturer refuses upon request to test vehicles in compliance with a test order in a timely manner or refuses to provide the Administrator with vehicles to test, the Administrator may suspend the certificate with regard to that configuration. In contrast, when a manufacturer is merely unable to comply with the test order due to conditions and circumstances beyond his control, no suspension will occur. In any case in which a suspension does result because of such refusal to test, the manufacturer will be provided a hearing to establish that he refused due to an inability.

2. *Noncomplying vehicles.* If the production vehicle testing program contemplated in these regulations is to effectively implement section 206(b) of the Clean Air Act, the program must provide for the suspension or revocation of a manufacturer's certificate of conformity by the Administrator if vehicles fail to comply with the regulations with respect to which the certificates were issued. For any particular batch of vehicles, a certificate would be suspended with regard to the vehicles still in the hands of the manufacturer when the number of failing vehicles for any pollutant exceeds the maximum number of failures provided for by the established acceptable quality level; i.e., the batch is labeled rejected. The certificate is suspended only with regard to those tested vehicles whose measured emission(s) exceed the low mileage targets. Once a manufacturer begins testing vehicles from consecutive batches of the same configuration and he is unable to demonstrate compliance after inspecting the appropriate number of consecutive batches, the Administrator may suspend or revoke the certificate of conformity for vehicles of that configuration produced at that plant.

The decision whether to suspend or revoke a certificate of conformity depends on whether the remedy for the nonconformity proposed by the manufacturer is one requiring notification and approval under the applicable addition of vehicle or change provisions of the regulation (40 CFR 85 et seq.). Certificates will be suspended, except that where notification and approval of a remedy are required, under the addition of vehicle or change provisions of 40 CFR 85, et seq., the certificate will be revoked. When a certificate has been suspended with regard to a particular configuration, the suspension is lifted with regard to those vehicles actually

XUM V 39 N 252 DEC 31 1974 XUM V

tested and determined to conform to the regulations. Vehicles of a suspended configuration which fail the emissions test may have their certificate reinstated if their nonconformity is remedied and they pass a retest, provided the remedy is not one requiring notification and approval under the applicable addition of vehicle or change provisions of the regulation (40 CFR 85 et seq.).

When a certificate has been revoked with respect to a nonconforming configuration, the certificate will not be reinstated either for individual vehicles or the configuration as a whole until the necessary notification is made and approvals are obtained pursuant to the applicable addition of vehicle or change provision of 40 CFR 85, et seq., and additional testing is reinstituted in accordance with the conditions of the test order and regulations. It is important to note that the certificate would be suspended or revoked only for vehicle configurations which fail to comply.

Once a certificate of conformity has been suspended, the manufacturer is required to report to EPA the corrective action he will take and demonstrate compliance by appropriate testing in order to have certificate coverage reinstated. If further SEA testing revealed that the suspended configuration was still in noncompliance, this may be grounds for revocation of the certificate since the remedy can be considered to have been ineffective and a different or more extensive remedy is required. The revocation is required to prevent the distribution of any vehicles until a suitable remedy is available, implemented and continued testing demonstrates vehicle conformity.

J. *Example.* A manufacturer receives a test order to select and test samples of vehicles from a particular configuration manufactured at a particular plant on a particular day. The configuration is specified in terms of a particular make of car, model, engine, and transmission. The batch size is specified in the test order as 200 vehicles and approximates the number of vehicles of that configuration produced on the average per shift at that plant.

From Appendix VIII, Table I, the manufacturer determines that the code letter corresponding to the number of vehicles in the batch is G. From Appendix VIII, Table II, he determines that the testing sequence is one batch on normal inspection criteria, followed by four on tightened, if the first batch is rejected. He then enters Appendix VIII, Table III, at code letter G and notes that the maximum cumulative sample size is 56. Since the batch sample must be ten percent larger than the maximum cumulative sample size, he must randomly select 62 vehicles from each batch of 200 vehicles. (The requirement to select the 10 percent additional vehicles is to assure that replacement vehicles are available in the event a selected vehicle is damaged or otherwise unsuitable for testing.)

Table III indicates that test samples of eight cars will be randomly selected and tested from the batch sample of 62 vehicles until the batch can be labeled accepted or rejected. The first test sample of eight vehicles is selected and the vehicles are tested. The acceptance and rejection numbers listed under inspection criteria in Table III and Table IV are used to determine whether the batch is accepted or rejected for each individual pollutant. Suppose that three vehicles fail the test for CO but none fail for HC or NO_x. Since the number of failures for CO is less than the rejection number of four, and no acceptance for CO or NO_x is allowed at this level, he must select and test a second test sample of eight vehicles. Suppose this time that one vehicle fails for CO, one for HC and none for NO_x. The total number of failures is now four for CO, one for HC, and zero for NO_x. Since the batch can now be accepted for HC and NO_x, they no longer need to be considered. The number of failures for CO is still between the acceptance and rejection number of one and five respectively for the second test sample so a third test sample must be selected. In the third test sample, two vehicles fail for CO so that the total number of failures is six for CO. This is equal to the rejection number of six for CO for the third test sample. The batch must then be rejected for CO. Since the batch was qualified earlier with respect to HC and NO_x, it is no longer necessary to be concerned with the one HC failure, other than for the requirement that this nonconformity must be remedied before the vehicle can be introduced into commerce. Any replacement vehicles (for test vehicles which malfunction or are damaged) will be selected randomly from the remaining untested vehicles in the batch sample.

Assuming the manufacturer has shipped the vehicles remaining in the batch of 200 to the dealers, he now has 62 vehicles from the batch in his hands. The certificate of conformity is suspended for the batch with respect to all vehicles in his hands except those that have been tested and found to conform. Of these 62, 24 have been tested, 17 passing and 7 failing. He may ship the 17 passing vehicles, but the 7 failing vehicles must each pass a retest after having necessary adjustments and/or repairs made which are reported to EPA, before they can be shipped. The thirty-eight vehicles from the batch which have not been tested may not be shipped until the manufacturer has identified the reason for the high failure rate, is able to take corrective action on the 38 vehicles, makes the necessary repair and/or adjustments on the 38 vehicles, and files a report with EPA which includes test data on a percentage of these vehicles which would depend on the nature of the non-conformity and the nature of the remanufacturer.

Since the first batch was rejected for CO, the manufacturer must immediately begin inspection of consecutive batches of the same configuration for CO. Although data will be available on HC and NO_x it will not be used to determine acceptance or rejection of a batch. However, any vehicles whose measured emissions exceed the applicable low mileage target must have their nonconformity remedied before they can be introduced into commerce. Had the first batch been accepted no further testing would be required. Even when a batch is accepted, the certificate of conformity is suspended with respect to all tested vehicles whose measured emissions exceed the applicable low mileage targets. Such vehicles must be brought into conformity with such target and retested prior to being shipped. Where the first batch is rejected, the manufacturer will follow the specified inspection procedure for each subsequent batch, testing enough vehicles from the batch sample until it can be accepted or rejected. The manufacturer continues to inspect batches until two consecutive batches are accepted at which time conformity is confirmed and testing discontinued. If acceptance of two consecutive batches does not occur before he has inspected a total of four batches, or where the testing of additional batches could not result in the acceptance of two consecutive batches out of a total of four inspected batches once the second inspection sequence has been instituted, testing of the configuration is discontinued. At this point the Administrator may suspend or revoke the certificate of conformity with respect to that configuration depending on the nature of the nonconformity and the required remedy. Generally, the certificate will be revoked if the remedy of the nonconformity involves a design change and suspended if the remedy involves a change in the manufacturing or assembly process or quality control measures. The certificate is reinstated only after the remedy is identified and approved and appropriate testing in accordance with the test order and regulations demonstrate compliance.

K. *Hearing procedure.* The hearing procedure proposed reflects the statutory requirement that a manufacturer must be afforded the opportunity for a formal administrative hearing if the Administrator determines, based on testing of production vehicles, that a certificate of conformity should be suspended or revoked. The proposed procedure conforms to the requirements of the Administrative Procedures Act. In addition, these regulations propose that this same hearing procedure be used in all instances where the certification regulations provide for an administrative determination that a suspension or revocation is warranted. This will result in the consistent handling of cases where the ultimate issue is the same, i.e., the suspension or revocation of a certificate of conformity.

The hearing procedure provided by § 85.316 of these regulations has embodied in it the well established principle that before a party will be granted a hearing to challenge the actions of a government agency, he must be able to initially establish at least a prima facia showing that there exists a genuine and substantial question of fact which must be resolved in his favor in order for such

a challenge to succeed. Recent court decisions have made it clear that this principle applies even in circumstances where the statutory language expressly grants the right to such a hearing. The principle is implemented by § 85.316(d), which gives the Administrator the power to deny a request for a hearing if the application does not contain any data or information which tends to show that there does exist a genuine and substantial question of fact.

In addition, this hearing procedure includes special provisions which apply only when a certificate of conformity has been suspended or revoked as a result of SEA testing. These provisions serve to expedite the hearing process and are desirable in view of the special circumstances under which SEA-triggered hearings will be held. Section 206(b)(2)(B)(i) of the Clean Air Act requires that any "suspension or revocation [based on tests or production vehicles] shall not be stayed by reason of such hearing." In contrast, in all other instances where this hearing procedure will apply, the proposed suspension or revocation will not occur until after the hearing is held. Thus, in the case of an SEA-based suspension or revocation, it is possible that a manufacturer might suffer economic hardship unless he has an opportunity to avail himself of an expedited hearing procedure.

These special provisions include a reduction in the period of public notice from thirty (30) days to fifteen (15) days, and the addition of an expedited appeal procedure for use only when an SEA-initiated hearing is involved. In addition § 85.613(m) provides that a manufacturer may request a hearing any time after the first vehicle failure occurs during testing carried out in compliance with a test order. Since the testing scheme requires a substantial amount of testing to be carried out subsequent to such an initial vehicle failure before the decision to suspend or revoke the certificate for the entire configuration can be made, this provision allows the manufacturer an additional time period in which to set in motion the hearing procedure. These provisions serve to minimize the potential for economic hardships to the manufacturer while ensuring that the hearing procedures comply with the formal requirements of the Administrative Procedures Act. Thus, the interests of both the industry and the public are served by these provisions, for the public as well as the manufacturers have an interest in assuring that all possible measures are taken to avoid unnecessary economic burdens.

The Agency also believes that the fifteen day notice period and expedited procedure are in the public interest in view of the limited subject matter of the hearings. Section 206(b)(2)(B)(i) of the Clean Air Act restricts the issues of an SEA hearing to "whether the tests have been properly conducted or any sampling methods have been properly applied." These limited issues present no general policy questions of the type normally associated with hearings in which members of the public choose to actively participate in the process. The Agency believes that fifteen days provides sufficient notice to allow any member of the public who feels he has an interest in the resolution of these two issues to prepare his intervenor petition. These narrow factual issues also lend themselves to a relatively straightforward presentation of evidence, and thus allow the actual hearing and prehearing procedures to be somewhat streamlined.

L. *Right of entry and recordkeeping.* The portion of these regulations detailing the right of entry and inspection and recordkeeping requirements are in large part an adaptation of the amendments to the Motor Vehicle Certification regulations at 40 CFR 85 promulgated on February 27, 1974 (30 FR 7545). Many of the comments made by the Administrator in the preamble regarding those regulations are applicable here. Although those regulations are equally applicable to SEA, they have been restated here for convenience.

The proposed regulations spell out exactly what records and other documents concerning testing of production vehicles must be retained and for how long. The regulations also spell out the facilities subject to the right of inspection and the time during which the right may be exercised.

Many of the vehicles to which these regulations apply will be manufactured and tested in facilities located outside the United States. These regulations make clear that all testing and production facilities, wherever located, are subject to the same recordkeeping and inspection requirements. Since these requirements are necessary to ensure the integrity of the testing process and the conformity of production vehicles to the regulations, tests which are not subject to them cannot be considered reliable, nor can there be assurance that production facilities not subject to them are producing vehicles that conform to the regulations. In addition, to fail to apply these requirements to facilities located overseas would discriminate unjustly against domestic manufacturers in favor of their foreign competition.

These regulations will apply even to facilities located in jurisdictions where local foreign law forbids the kind of summary inspections they allow. Though it is well established that American courts will not order a person to disclose documents or other information located in a foreign jurisdiction that forbids such disclosure, the reason behind that rule is to avoid a conflict of laws, and is not applicable here. EPA will not attempt to make any inspections which it has been informed that local law forbids. It is the responsibility of the manufacturer to locate his testing and production facilities in jurisdictions where this situation will not arise.

V. *Cost of implementation.* A continuous testing program involving 2 percent of production would require testing of approximately 240,000 vehicles a year. SEA contemplates the testing of a small fraction of the vehicles that would be required using such a continuous percentage testing scheme. The total number of vehicles required to be tested will be nominal when few failures are encountered. It is contemplated that testing samples of vehicles from a few configurations will establish an effective deterrent.

The cost to the manufacturer will be the costs associated with performing the standard FTP, less the evaporative emission portion. Mileage accumulation costs and transportation costs will vary from manufacturer to manufacturer depending upon where his plants and test facilities are located.

In many instances, the cost of the program to a manufacturer will be nominal if he has in-house quality control testing programs which use procedures and equipment similar to or identical to those proposed in these regulations.

VI. *Environmental impact.* This program is designed to have a beneficial impact on the environment by providing a deterrent to the introduction into commerce of nonconforming vehicles. Current programs for achieving air quality goals are based on the assumption that conforming products are being manufactured. This program will help assure the achievement of these goals and possibly negate the need for ancillary plans and strategies.

No adverse environmental impacts are anticipated by these regulations. The number of vehicles which will be required to be tested by the Administrator is a small fraction of the total number of vehicles used by manufacturers in their nonemission related test programs. Every year manufacturers conduct extensive performance testing on thousands of vehicles. The additional fuel consumed as a result of mileage accumulation on test vehicles and transport to test site will be minimal when compared to consumption by manufacturers' in their own testing programs. Further, manufacturers may wish to use the vehicles selected for SEA testing to satisfy their testing requirements normally conducted using production vehicles, which will result in no net increase in their production test fleet.

VII. *Comments.* Interested persons may participate in this rulemaking proceeding by submitting written comments (ten copies) to: Director, Mobile Source Enforcement Division (EG–340), Room 3220 (WSM), Environmental Protection Agency, 401 "M" Street, SW, Washington, D.C. 20460.

All comments received on or before March 3, 1975 be considered. All comments will be available for public inspection during normal working hours at the Freedom of Information Office, Room 232 (WSMW), 401 "M" Street, SW, Washington, D.C. 20460.

Final regulations, modified as the Administrator deems appropriate after consideration of comments, will be promulgated as soon as practicable after such consideration and will be appli-

cable to model year 1976 vehicles and later.

This notice of rulemaking is issued under authority of the following sections of the Clean Air Act, as amended: 206 [sec. 206, 70 Stat. 994, as amended by section 3(a), 84 Stat. 1694, 42 U.S.C. 1857f–5]; 208 [sec. 208, 79 Stat. 994, 42 U.S.C. 1857f–6]; and 301(a) [sec. 301(a), 81 Stat. 504, as amended by sec. 15(c), 84 Stat. 1713, 42 U.S.C. 1857g(a)]. The proposed regulations would implement section 206(b) and 208 of the Clean Air Act of 1970.

Dated: December 24, 1974.

RUSSELL E. TRAIN,
Administrator.

1. Paragraph (c)(3)(i) of § 85.006 is revised as follows:

§ 85.006 Maintenance of records; submittal of information; right of entry.

* * * * *

(c) * * *

(3) * * *

(i) Any facility where any document, design, or procedure relating to the translation of the design of engines and emission related components described in the application for certification or used for certification testing into production vehicles is located or carried on; and

* * * * *

2. In § 85.076–30 paragraph (a)(2) is amended by changing the last sentence to read as follows, paragraph (c)(5)(i) is amended by adding the following, and paragraph (d) is added as follows:

§ 85.076–30 Certification.

(a)(1) * * *

(2) * * * It is also a term of this certificate that this certificate may be revoked or suspended for the other reasons stated in paragraph (c) or (d) of this section.

* * * * *

(c) * * *

(5) * * *

(i) Be made only after the manufacturer concerned has been offered an opportunity for a hearing conducted in accordance with § 85.614.

* * * * *

(d)(1) Notwithstanding the fact that any vehicle configuration or engine family may be covered by valid outstanding certificate of conformity, the Administrator may suspend such outstanding certificate of conformity in whole or in part with respect to such vehicle configuration or engine family if:

(i) The manufacturer refuses to comply with the provisions of a test order issued by the Administrator pursuant to § 85.604; or

(ii) The manufacturer refuses to comply with any of the requirements of § 85.604; or

(iii) The manufacturer submits false or incomplete information in any report or information provided pursuant to the requirement of § 85.610; or

(iv) The manufacturer renders inaccurate or invalid any test data which he submits pursuant to § 85.610 or otherwise circumvents the intent of the Act or this subpart with respect to such vehicle configuration or engine family; or

(v) Any EPA Enforcement Officer is denied access on the terms specified in § 85.607 to any facility or portion thereof which contains any of the following:

(A) Any vehicle of the vehicle configuration or engine family which will undergo or is undergoing testing pursuant to § 85.604,

(B) Equipment used to perform any of the tests required by this part,

(C) Any vehicle which is or will be considered by the manufacturer to be covered by the certificate of conformity,

(D) Any step in the manufacture or assembly of a vehicle described in (C) of this subdivision, or

(E) Any records, documents, reports or histories required by this part to be kept concerning any of the above, or

(vi) Any EPA Enforcement Officer is denied the opportunity on the terms specified in § 85.607 to:

(A) Monitor vehicle selection pursuant to § 85.608,

(B) Select vehicles for testing pursuant to § 85.608, or

(C) Monitor vehicle testing performed to satisfy any of the requirements of this part; or

(vii) Any EPA Enforcement Officer is denied "reasonable assistance" (as defined in § 85.607) in examining any of the items listed in paragraph (d)(1)(iv) or (d)(1)(v) of this section.

(2) The sanction of suspending a certificate may not be imposed for the reasons in paragraphs (d)(1)(i) and (ii) of this section where such refusal is caused by conditions and circumstances outside the control of the manufacturer which renders it impossible to comply with the provisions of a test order or any other requirements of § 85.604. Such conditions and circumstances shall include, but are not limited to, any uncontrollable factors which result in the temporary unavailability of equipment and personnel needed to conduct the required tests, such as equipment breakdown or failure or illness of personnel, but shall not include failure of the manufacturer to adequately plan for and provide the equipment and personnel needed to conduct the tests. The manufacturer will bear the burden of establishing the presence of the conditions and circumstances required by this paragraph.

(3) The sanctions of suspending a certificate may be imposed for the reasons in paragraphs (d)(1)(iii), (iv) (v), (vi), (vii) of this section only when the infraction is substantial.

(4) In any case in which a manufacturer knowingly submits false or inaccurate information or knowingly renders inaccurate or invalid any test data or commits any other fraudulent acts, and such acts contribute substantially to the Administrator's decision not to suspend or revoke a certificate of conformity in whole or in part, the Administrator may deem such certificate void from the date of such fraudulent act.

(5) In any case in which certification of a vehicle is proposed to be suspended under paragraph (d)(1)(v), (d)(1)(vi), or (d)(1)(vii) of this section, and in which the Administrator has presented to the manufacturer involved reasonable evidence that a violation of § 85.607 in fact occurred, the manufacturer, if he wishes to contend that, even though the violation occurred, the vehicle configuration or engine family in question was not involved in the violation to a degree that would warrant suspension of certification under either paragraph (d)(1)(v), (d)(1)(vi), or (d)(1)(vii) of this section, shall have the burden of establishing that contention to the satisfaction of the Administrator.

(6) Any suspension of certification under paragraph (d)(1) of this section shall:

(i) Be made only after the manufacturer concerned has been offered an opportunity for a hearing conducted in accordance with § 85.614 hereof.

(ii) Extend no further than to forbid the introduction into commerce of vehicles previously covered by the certification which are still in the hands of the manufacturer.

3. In § 85.176–30 paragraph (a)(2) is amended by changing the last sentence to read as follows: paragraph (c)(5)(i) is amended by adding the following, and paragraph (d) is added as follows:

§ 85.176–30 Certification.

(a)(1) * * *

(2) * * * It is also a term of this certificate that this certificate may be revoked or suspended for the other reasons stated in paragraphs (c) or (d) of this section.

* * * * *

(c) * * *

(5) * * *

(i) Be made only after the manufacturer concerned has been offered an opportunity for a hearing conducted in accordance with § 85.614.

* * * * *

(d)(1) Notwithstanding the fact that any vehicle configuration or engine family may be covered by a valid outstanding certificate of conformity, the Administrator may suspend such outstanding certificate of conformity in whole or in part with respect to such vehicle configuration or engine family if:

(i) The manufacturer refuses to comply with the provisions of a test order issued by the Administrator pursuant to § 85.604; or

(ii) The manufacturer refuses to comply with any of the requirements of § 85.604; or

(iii) The manufacturer submits false or incomplete information in any report or information provided pursuant to the requirement of § 85.610; or

(iv) The manufacturer renders inaccurate or invalid any test data which he submits pursuant to § 85.610 or otherwise circumvents the intent of the Act or this subpart with respect to such vehicle configuration or engine family; or

(v) Any EPA Enforcement Officer is denied access on the terms specified in § 85.607 to any facility or portion thereof which contains any of the following:

(A) Any vehicle of the vehicle configuration or engine family which will undergo or is undergoing testing pursuant to § 85.604,

(B) Equipment used to perform any of the tests required by this part,

(C) Any vehicle which is or will be considered by the manufacturer to be covered by the certificate of conformity,

(D) Any step in the manufacture or assembly of a vehicle described in (C) of this subdivision, or

(E) Any records, documents, reports or histories required by this part to be kept concerning any of the above, or

(vi) Any EPA Enforcement Officer is denied the opportunity on the terms specified in § 85.607 to:

(A) Monitor vehicle selection pursuant to § 85.608,

(B) Select vehicles for testing pursuant to § 85.608, or

(C) Monitor vehicle testing performed to satisfy any of the requirements of this part; or

(vii) Any EPA Enforcement Officer is denied "reasonable assistance" (as defined in § 85.607) in examining any of the items listed in paragraph (d) (1) (iv) or (d) (1) (v) of this section.

(2) The sanction of suspending of a certificate may not be imposed for the reasons in paragraphs (d) (1) (i) and (ii) of this section where such refusal is caused by conditions and circumstances outside the control of the manufacturer which renders it impossible to comply with the provisions of a test order or any other requirements of § 85.604. Such conditions and circumstances shall include, but are not limited to, any uncontrollable factors which result in the temporary unavailability of equipment and personnel needed to conduct the required tests, such as equipment breakdown or failure or illness of personnel, but shall not include failure of the manufacturer to adequately plan for and provide the equipment and personnel needed to conduct the tests. The manufacturer will bear the burden of establishing the presence of the conditions and circumstances required by this paragraph.

(3) The sanctions of suspending a certificate may be imposed for the reasons in paragraphs (d) (1) (iii), (iv), (v), (vi), (vii) of this section only when the infraction is substantial.

(4) In any case in which a manufacturer knowingly submits false or inaccurate information or knowingly renders inaccurate or invalid any test data or commits any other fraudulent acts, and such acts contribute substantially to the Administrator's decision not to suspend or revoke a certificate of conformity in whole or in part, the Administrator may deem such certificate void from the date of such fraudulent act.

(5) In any case in which certification of a vehicle is proposed to be suspended under paragraph (d) (1) (v), (d) (1) (vi), or (d) (1) (vii) of this section, and in which the Administrator has presented to the manufacturer involved reasonable evidence that a violation of § 85.607 in fact occurred, the manufacturer, if he wishes to contend that, even though the violation occurred, the vehicle configuration or engine family in question was not involved in the violation to a degree that would warrant suspension of certification under either paragraph (d) (1) (v), (d) (1) (vi), or (d) (1) (vii) of this section, shall have the burden of establishing that contention to the satisfaction of the Administrator.

(6) Any suspension of certification under paragraph (d) (1) of this section shall:

(i) Be made only after the manufacturer concerned has been offered an opportunity for a hearing conducted in accordance with § 85.614 hereof.

(ii) Extend no further than to forbid the introduction into commerce of vehicles previously covered by the certification which are still in the hands of the manufacturer.

In § 85.276–30 paragraph (a) (2) is amended by changing the last sentence to read as follows; paragraph (c) (5) (i) is amended by adding the following, and paragraph (d) is added as follows:

§ 85.276–30 Certification.

(a) (1) * * *

(2) * * * It is also a term of this certificate that this certificate may be revoked or suspended for the other reasons stated in paragraphs (c) or (d) of this section.

* * * * *

(c) * * *

(5) * * *

(i) Be made only after the manufacturer concerned has been offered an opportunity for a hearing conducted in accordance with § 85.614.

* * * * *

(d) (1) Notwithstanding the fact that any vehicle configuration or engine family may be covered by a valid outstanding certificate of conformity, the Administrator may suspend such outstanding certificate of conformity in whole or in part with respect to such vehicle configuration or engine family if:

(i) The manufacturer refuses to comply with the provisions of a test order issued by the Administrator pursuant to § 85.604; or

(ii) The manufacturer refuses to comply with any of the requirements of § 85.604; or

(iii) The manufacturer submits false or incomplete information in any report or information provided pursuant to the requirement of § 85.610; or

(iv) The manufacturer renders inaccurate or invalid any test data which he submits pursuant to § 85.610 or otherwise circumvents the intent of the Act or this subpart with respect to such vehicle configuration or engine family; or

(v) Any EPA Enforcement Officer is denied access on the terms specified in § 85.607 to any facility or portion thereof which contains any of the following:

(A) Any vehicle of the vehicle configuration or engine family which will undergo or is undergoing testing pursuant to § 85.604,

(B) Equipment used to perform any of the tests required by this part,

(C) Any vehicle which is or will be considered by the manufacturer to be covered by the certificate of conformity,

(D) Any step in the manufacture or assembly of a vehicle described in (C) of this subdivision, or

(E) Any records, documents, reports or histories required by this part to be kept concerning any of the above; or

(vi) Any EPA Enforcement Officer is denied the opportunity on the terms specified in § 85.607 to:

(A) Monitor vehicle selection pursuant to § 85.608,

(B) Select vehicles for testing pursuant to § 85.608, or

(C) Monitor vehicle testing performed to satisfy any of the requirements of this part; or

(vii) Any EPA Enforcement Officer is denied "reasonable assistance" (as defined in § 85.607) in examining any of the items listed in paragraph (d) (1) (iv) or (d) (1) (v) of this section.

(2) The sanction of suspending of a certificate may not be imposed for the reasons in paragraphs (d) (1) (i) and (ii) of this section where such refusal is caused by conditions and circumstances outside the control of the manufacturer which renders it impossible to comply with the provisions of a test order or any other requirements of § 85.604. Such conditions and circumstances shall include, but are not limited to, any uncontrollable factors which result in the temporary unavailability of equipment and personnel needed to conduct the required tests, such as equipment breakdown or failure or illness of personnel, but shall not include failure of the manufacturer to adequately plan for and provide the equipment and personnel needed to conduct the tests. The manufacturer will bear the burden of establishing the presence of the conditions and circumstances required by this paragraph.

(3) The sanctions of suspending a certificate may be imposed for the reasons in paragraphs (d) (1) (iii), (iv), (v), (vi), (vii) of this section only when the infraction is substantial.

(4) In any case in which a manufacturer knowingly submits false or inaccurate information or knowingly renders inaccurate or invalid any test data or commits any other fraudulent acts, and such acts contribute substantially to the Administrator's decision not to suspend or revoke a certificate of conformity in whole or in part, the Administrator may deem such certificate void from the date of such fraudulent act.

(5) In any case in which certification of a vehicle is proposed to be suspended under paragraph (d) (1) (v), (d) (1) (vi), or (d) (1) (vii) of this section, and in which the Administrator has presented to the manufacturer involved reasonable evidence that a violation of § 85.607 in fact occurred, the manufacturer, if he

wishes to contend that, even though the violation occurred, the vehicle configuration or engine family in question was not involved in the violation to a degree that would warrant suspension of certification under either paragraph (d)(1)(v), (d)(1)(vi), or (d)(1)(vii) of this section, shall have the burden of establishing that contention to the satisfaction of the Administrator.

(6) Any suspension of certification under paragraph (d)(1) of this section shall:

(i) Be made only after the manufacturer concerned has been offered an opportunity for a hearing conducted in accordance with § 85.614 hereof.

(ii) Extend no further than to forbid the introduction into commerce of vehicles previously covered by the certification which are still in the hands of the manufacturer.

5. In § 85.376–30 paragraph (a)(2) is amended by changing the last sentence to read as follows; paragraph (c)(5)(i) is amended by adding the following, and paragraph (d) is added as follows:

§ 85.376–30 Certification.

(a)(1) * * *

(2) * * * It is also a term of this certificate that this certificate may be revoked or suspended for the other reasons stated in paragraphs (c) or (d) of this section.

* * * * *

(c) * * *

(5) * * *

(i) Be made only after the manufacturer concerned has been offered an opportunity for a hearing conducted in accordance with § 85.614.

* * * * *

(d)(1) Notwithstanding the fact that any vehicle configuration or engine family may be covered by a valid outstanding certificate of conformity, the Administrator may suspend such outstanding certificate of conformity in whole or in part with respect to such vehicle configuration or engine family if:

(i) The manufacturer refuses to comply with the provisions of a test order issued by the Administrator pursuant to § 85.604; or

(ii) The manufacturer refuses to comply with any of the requirements of § 85.604; or

(iii) The manufacturer submits false or incomplete information in any report or information provided pursuant to the requirement of § 85.610; or

(iv) The manufacturer renders inaccurate or invalid any test data which he submits pursuant to § 85.610 or otherwise circumvents the intent of the Act or this subpart with respect to such vehicle configuration or engine family; or

(v) Any EPA Enforcement Officer is denied access on the terms specified in § 85.607 to any facility or portion thereof which contains any of the following:

(A) Any vehicle of the vehicle configuration or engine family which will undergo or is undergoing testing pursuant to § 85.604,

(B) Equipment used to perform any of the tests required by this part,

(C) Any vehicle which is or will be considered by the manufacturer to be covered by the certificate of conformity,

(D) Any step in the manufacture or assembly of a vehicle described in (C) of this subdivision, or

(E) Any records, documents, reports or histories required by this part to be kept concerning any of the above; or

(vi) Any EPA Enforcement Officer is denied the opportunity on the terms specified in § 85.607 to:

(A) Monitor vehicle selection pursuant to § 85.608,

(B) Select vehicles for testing pursuant to § 85.608.

(C) Monitor vehicle testing performed to satisfy any of the requirements of this part; or

(vii) Any EPA Enforcement Officer is denied "reasonable assistance" (as defined in § 85.607) in examining any of the items listed in paragraph (d)(1)(iv) or (d)(1)(v) of this section.

(2) The sanction of suspending of a certificate may not be imposed for the reasons in paragraphs (d)(1)(i) and (ii) where such refusal is caused by conditions and circumstances outside the control of the manufacturer which renders it impossible to comply with the provisions of a test order or any other requirements of § 85.604. Such conditions and circumstances shall include, but are not limited to, any uncontrollable factors which result in the temporary unavailability of equipment and personnel needed to conduct the required tests, such as equipment breakdown or failure or illness of personnel, but shall not include failure of the manufacturer to adequately plan for and provide the equipment and personnel needed to conduct the tests. The manufacturer will bear the burden of establishing the presence of the conditions and circumstances required by this paragraph.

(3) The sanctions of suspending a certificate may be imposed for the reasons in paragraph (d)(1)(iii), (iv), (v), (vi), (vii) of this section only when the infraction is substantial.

(4) In any case in which a manufacturer knowingly submits false or inaccurate information or knowingly renders inaccurate or invalid any test data or commits any other fraudulent acts, and such acts contribute substantially to the Administrator's decision not to suspend or revoke a certificate of conformity in whole or in part, the Administrator may deem such certificate void from the date of such fraudulent act.

(5) In any case in which certification of a vehicle is proposed to be suspended under paragraph (d)(1)(v), (d)(1)(vi), or (d)(1)(vii) of this section, and in which the Administrator has presented to the manufacturer involved reasonable evidence that a violation of § 85.607 in fact occurred, the manufacturer, if he wishes to contend that, even though the violation occurred, the vehicle configuration or engine family in question was not involved in the violation to a degree that would warrant suspension of certification under either paragraph (d)(1)(v), (d)(1)(vi), or (d)(1)(vii) of this section, shall have the burden of establishing that contention to the satisfaction of the Administrator.

(6) Any suspension of certification under paragraph (d)(1) of this section shall:

(i) Be made only after the manufacturer concerned has been offered an opportunity for a hearing conducted in accordance with § 85.614 hereof.

(ii) Extend no further than to forbid the introduction into commerce of vehicles previously covered by the certification which are still in the hands of the manufacturer.

6. Subpart G is added as set forth below:

Subpart G—Selective Enforcement Auditing of New Gasoline—Fueled and Diesel Light Duty Vehicles and New Gasoline—Fueled and Diesel Light Duty Trucks

Sec.

85.601 Applicability.
85.602 Use of number and gender.
85.603 Definitions.
85.604 Test orders.
85.605 Testing by the Administrator.
85.606 Maintenance of records; submittal of information.
85.607 Entry and access.
85.608 Sample selection.
85.609 Test procedures.
85.610 Calculation and reporting of test results and low-mileage emissions targets.
85.611 Acceptance and rejection of batches.
85.612 Additional testing.
85.613 Suspension and revocation of certificates of conformity.
85.614 Hearings on suspension and revocation of certificates on conformity.

AUTHORITY: Sec. 206, 208, 301(a) of the Clean Air Act, as amended (42 USC 1857(f)–5, 1857(f)–6, and 1857(g)).

Subpart G—Selective Enforcement Auditing of New Gasoline-Fueled and Diesel Light Duty Vehicles and New Gasoline-Fueled and Diesel Light Duty Trucks

§ 85.601 Applicability.

For 1976 and later model years, the provisions of this subpart are applicable to new gasoline-fueled light duty motor vehicles, new diesel light duty vehicles, new gasoline-fueled light duty trucks, and new diesel light duty trucks.

§ 85.602 Use of number and gender.

As used in these rules of practice, words in the singular shall be deemed to import the plural and words in the masculine gender shall be deemed to import the feminine and vice versa, as the case may require.

§ 85.603 Definitions.

(a) As used in this subpart, all terms not defined herein or in Subpart A, B, C and D of this Part shall have the meaning given them in the Act:

(1) "Act" means Part A of Title II of the Clean Air Act, 42 USC 1857(f)–1 through (f)–7, as amended by Public Law 91–604 and 93–319.

(2) "Vehicle Configuration" means a subclassification of an engine-system combination on the basis of inertia weight class, transmission type and gear ratios, rear axle ratio and other parameters which may be designated by the Administrator.

(3) "Acceptable Quality Level" (AQL) means the maximum percentage of failing vehicles that, for purposes of sampling inspection, can be considered satisfactory as a process average.

(4) "Batch" means the collection of vehicles of the same configuration, as designated by the Administrator in a test order, from which a batch sample is to be randomly drawn and inspected to determine conformance with the acceptability criteria.

(5) "Batch Size" means the number, as designated by the Administrator in the test order, of vehicles of the same configuration in a batch.

(6) "Batch Sample" means the collection of vehicles of the same configuration which are randomly drawn from a batch from which test samples are randomly drawn.

(7) "Batch Sample Size" means the number of vehicles of the same configuration in a batch sample.

(8) "Test Sample" means the collection of vehicles from the same configuration which are randomly drawn from the batch sample and which will receive exhaust emissions tests.

(9) "Test Sample Size" means the number of vehicles of the same configuration in a test sample.

(10) "Inspection Criteria" means the acceptance and rejection numbers associated with a particular sampling plan.

(11) "Normal Inspection" means using normal inspection criteria (Appendix VIII Table III).

(12) "Tightened Inspection" means using tightened inspection criteria (Appendix VIII, Table IV).

(13) "Acceptance of a Batch" means that the number of noncomplying vehicles in the batch sample is less than or equal to the acceptance number as determined by the appropriate sampling plan.

(14) "Rejection of a Batch" means that the number of noncomplying vehicles in the batch sample is greater than or equal to the rejection number as determined by the appropriate sampling plan.

(15) "Shift" means the regular production work period for one group of workers.

(16) "Vehicle" means any new production light duty motor vehicle as defined in subpart A and B, or any new production light duty truck as defined in Subpart C and D of this Part.

(17) "Test Vehicle" means a vehicle in a test sample.

(18) "Low-Mileage Emissions Target" means the maximum value of emissions that a vehicle can have as measured at the assembly line in order to provide reasonable assurance that it will still comply with the emission standards at 50,000 miles.

§ 85.604 Test orders.

(a) The Administrator will request any testing under this subpart by means of a test order addressed to the manufacturer.

(b) The test order will be signed by the Assistant Administrator for Enforcement and General Counsel or his designee. The test order will be delivered by an EPA Enforcement Officer or sent by registered mail, return receipt requested, to the plant manager or other responsible official at the vehicle assembly plant from which vehicles will be selected and tested, and a copy of the test order may be delivered to or sent by regular mail to the authorized company representative of the manufacturer who signs the Application for Certification submitted by the manufacturer pursuant to the requirements of the applicable sections of Subparts A, B, C, and D of this Part.

(c) The test order will specify the vehicle configuration selected for testing, the manufacturer's plant or storage facility from which the vehicles must be selected, the time at which vehicles must be selected and the batch size. The test order may include an alternative configuration selected for testing in the event that vehicles of the first specified configuration are not available for testing because such vehicles are not being manufactured at the specified plant, not being manufactured during the specified time or not being stored at the specified plant or storage facility.

(d) A manufacturer shall upon receipt of a test order select and test batch samples of vehicle from consecutively produced batches of the vehicle configuration specified in the test order in accordance with these regulations and the conditions specified in the test order, except as otherwise provided in these regulations.

§ 85.605 Testing by the Administrator.

(a) The Administrator may require by test order that vehicles of a specified configuration be selected in a manner designated by him and submitted to him at such place as he may designate for the purpose of conducting emission tests in accordance with § 85.609 of these regulations to determine whether vehicles manufactured by the manufacturer conform with the regulations with respect to which the certificate of conformity was issued.

(b)(1) Whenever the Administrator conducts a test on a test vehicle, the results of that test shall comprise the official data for that vehicle.

(2) Whenever the Administrator does not conduct a test on a test vehicle at a test point, the manufacturer's test data will be accepted as the official data: Provided, That if the Administrator makes a determination based on testing under paragraph (a) of this section that there is a lack of correlation between the manufacturer's test equipment and the test equipment used by the Administrator, no manufacturer's test data from that test facility will be accepted for purposes of determining conformity with the regulations with respect to which the certificate of conformity was issued and the Administrator may suspend, in whole or in part, a certificate of conformity with respect to the vehicle configuration in question until the reasons for the lack of correlation are determined and the validity of the data is established by the manufacturer.

(c) In the event that testing conducted under paragraph (a) demonstrates a lack of correlation under (b)(2), the Administrator may pursue, but is not limited to, the following courses of action:

(1) He will notify the manufacturer in writing of his determination that test facility is inappropriate for conducting the tests required by this part and the reasons therefor.

(2) He may test or require that the manufacturer test such numbers of vehicles of the same configuration or such other configuration as he may direct pursuant to this subpart for the purpose of determining correlation.

(3) He may reinstate any manufacturer's data upon a showing by the manufacturer that the data acquired under paragraph (a) of this section was erroneous and the manufacturer's data was correct.

(d) The manufacturer may request in writing that the Administrator reconsider his determination in (b)(2) of this section based on data or information which indicates that changes have been made to the test facility and such changes have resolved the reasons for disqualification.

(e) The Administrator will notify the manufacturer of his determination with regard to the requalification of the test facility within 10 days of the request pursuant to paragraph (d) of this section.

(f) Any suspension of certification under paragraph (b)(2) of this section shall:

(i) Be made only after the manufacturer concerned has been offered an opportunity for a hearing conducted in accordance with § 85.614 hereof on the issues of (A) whether there exists an actual lack of correlation between the data acquired with the manufacturer's test equipment and that acquired with the test equipment used by the Administrator, and (B) whether the data acquired by the Administrator under paragraph (a) of this section was erroneous and the manufacturer's data was correct.

(ii) Extend no further than to forbid the introduction into commerce of vehicles previously covered by the certification which are still in the hands of the manufacturer.

§ 85.606 Maintenance of records; submittal of information.

(a) The manufacturer of any new motor vehicle subject to any of the standards or procedures prescribed in this part shall establish, maintain and retain the

following adequately organized and indexed records:

(1) General records. (i) (A) Identification and description of all vehicles for which testing is required under this part. (B) A description of all emission control systems which are installed on or incorporated in each test vehicle. (C) A description of all procedures used to test each of such vehicles.

(ii) A properly filed application for certification, following the format prescribed by the EPA for the appropriate model year, fulfills each of the requirements of paragraph (a) (1) (i) of this section.

(2) Individual records. (i) A complete record of all emission tests performed pursuant to this subpart (except tests performed by EPA directly), including all individual worksheets and/or other documentation relating to each such test, or exact certified copies thereof; the date, time, purpose, and location of each test; the number of miles accumulated on the vehicle when the test began and ended; and the names of supervisory personnel responsible for the conduct of the test.

(ii) The date and time of each mileage accumulation run, listing both the mileage accumulated and the name of each driver or each operator of the automatic mileage accumulation device.

(iii) If used, the record of any devices employed to record the speed and/or mileage in relationship to time of the test vehicle.

(iv) A record and description of any repairs performed prior to and/or subsequent to approval by the Administrator, giving the date and time of the repair, the reason for it, the person authorizing it, and the name of supervisory personnel responsible for the conduct of the repair.

(v) The dates and times that the vehicle was idle in storage, transit, or transport.

(vi) A brief description of any significant events affecting the vehicle during any time in the period covered by the history but not described by an entry under one of the previous headings, including such extraordinary events as vehicle accident or driver speeding citation or warning.

(b) All records required to be maintained under this subpart shall be retained by the manufacturer for a period of three (3) years after completion of all testing in response to a test order. Records may be retained as hard copy or reduced to microfilm, punch cards, etc., depending upon the record retention procedures of the manufacturer: *Provided*, That in every case all the information contained in the hard copy shall be retained.

(c) The manufacturer shall, pursuant to a request made by the Administrator, submit to the Administrator the following information with regard to vehicle production:

(1) number of vehicles, by configuration, scheduled for production for the time period designated in the request.

(2) number of vehicles, by configuration, produced during the time period designated in the request which are complete for introduction into commerce.

(d) Nothing in this section shall limit the Administrator's discretion to require the manufacturer to retain records or submit information not specifically required by this section.

(e) All reports, submissions and requests for approvals made under this part shall be addressed to:

Director
Mobile Source Enforcement Division
Environmental Protection Agency
401 M Street SW
Washington, D.C. 20460

Except, That, any notification pursuant to § 85.076–32, 33, 34; § 85.176–32, 33, 34; § 85.276–32, 33, 34; § 85.376, 32, 34, 44 should be made to:

MSAPC
Division of Certification and Surveillance
Mobile Source Air Pollution Control
Environmental Protection Agency
2565 Plymouth Road
Ann Arbor, Michigan 48105

and a duplicate copy forwarded at the same time to the Director, Mobile Source Enforcement Division, Environmental Protection Agency, 401 M Street, SW, Washington, D.C. 20460.

§ 85.607 Entry and access.

(a) In order to allow the Administrator to determine whether a manufacturer is complying with the provisions of a test order and the provisions of this subpart, a manufacturer shall admit any EPA Enforcement Officer during operating hours upon demand and upon presentation of credentials to any of the following:

(1) Any facility where any vehicle to be introduced into commerce is manufactured, assembled, or stored;

(2) Any facility where any tests conducted pursuant to a test order or any procedures or activities connected with such tests are or were performed;

(3) Any facility where any vehicle which is being, was, or is to be tested is present; and

(4) Any facility where any record or other document relating to any of the above is located.

(b) Upon admission to any facility referred to in paragraph (a) of this section, any EPA Enforcement Officer shall be allowed:

(1) To inspect and monitor any part or aspect of such procedures, activities, manufacturing, assembly, storage and testing facilities, including, but not limited to, monitoring vehicle selection preparation, preconditioning, mileage accumulation, emission tests, maintenance, and vehicle soak and storage procedures; and to verify correlation or calibration of test equipment;

(2) To inspect and monitor any aspects of vehicle manufacture, assembly or storage and other procedures;

(3) To inspect and make copies of any records or documents related to the selection and testing of a vehicle in compliance with a test order;

(4) To inspect and photograph any part or aspect of any such vehicle and any component used in the assembly thereof that is reasonably related to the purpose of his entry.

(c) Any EPA Enforcement Officer shall be furnished by those in charge of a facility being inspected with such reasonable assistance as he may request to help him discharge any function listed in this subpart. A recipient of a test order is required to cause those in charge of a facility operated for his benefit to furnish such reasonable assistance without charge to EPA whether or not the recipient controls the facility.

(d) The duty to admit or cause to be admitted any EPA Enforcement Officer applies whether or not the recipient owns or controls the facility in question and applies both to domestic and to foreign manufacturers and facilities. EPA will not attempt to make any inspections which it has been informed that local foreign law forbids. However, if local foreign law makes it impossible to do what is necessary to ensure the accuracy of data generated at a facility, no informed judgment can be made that the new motor vehicles being manufactured by the manufacturer do, in fact, conform to the regulations with respect to which the certificate of conformity was issued. It is the responsibility of the manufacturer to locate its testing and manufacturing facilities in jurisdictions where this situation will not arise.

(e) For purposes of this section:

(1) "Presentation of Credentials" shall mean display of the document designating a person as an EPA Enforcement Officer.

(2) Where vehicle storage areas or facilities are concerned, "operating hours" shall mean all times during which personnel other than custodial personnel are at work in the vicinity of the area or facility and have access to it.

(3) Where facilities or areas other than those covered by paragraph (e) (2) of this section are concerned, "operating hours" shall mean all times during which an assembly line is in operation, or vehicle assembly is taking place, or all times during which testing, repair, mileage accumulation, production or compilation of records, or any other procedure or activity related to testing, or to vehicle manufacture or assembly is being carried out in a facility.

(4) "Reasonable assistance" includes, but is not limited to, clerical, copying, interpreting and translating services, the making available on request of personnel of the facility being inspected during their working hours to inform the EPA Enforcement Officer of how the facility operates and to answer his questions, and the performing upon request of emission tests on any vehicle which is being, has been, or will be used for testing under this regulation. Such tests shall be nondestructive but may require appropriate mileage accumulation. A manufacturer may be compelled to cause the personal appearance of any employee at such a facility before an EPA Enforcement Officer by written request for his appearance, signed by the Assist-

ant Administrator for Enforcement and General Counsel, served on the manufacturer. Any such employee who has been instructed by the manufacturer to appear will be entitled to be accompanied, represented, and advised by counsel. No counsel who accompanies, represents, or advises an employee compelled to appear may accompany, represent, or advise any other person in the investigation.

(5) Any entry without 24 hour prior written or oral notification to the affected manufacturer shall be authorized in writing by the Assistant Administrator for Enforcement and General Counsel.

§ 85.608 Sample selection.

(a) Vehicles comprising a batch sample which are required to be tested, pursuant to a test order in accordance with this subpart, will be randomly selected from a batch of vehicles of the configuration specified in the test order. The random sampling will be obtained by sequentially numbering all of the vehicles in the batch and then using a table of random numbers to select the number of vehicles as specified in paragraph (c) of this section based on the batch size designated by the Administrator in the test order. An alternative random sampling plan may be employed: *Provided*, That the manufacturer requests approval of such a plan in advance of receipt by a manufacturer of a test order and if the Administrator approves such a plan. A random sampling plan will be used regardless of whether the vehicles of the configuration selected for testing are scheduled for production, undergoing production or completed and stored in a manufacturer's storage facility.

(b) For 1976 and later model years the designated Acceptable Quality Level is 10 percent. The appropriate sequence for inspecting batches associated with the designated AQL are contained in Appendix VIII, Table II. The appropriate sampling plans associated with the designated AQL are contained in Appendix VIII, Table III for normal inspection and Appendix VIII, Table IV for tightened inspection.

(c) The appropriate batch sample size will be determined by reference to Appendix VIII, Tables I and III or IV. A batch code letter is obtained from Appendix VIII, Table I based on the batch size designated by the Administrator in a test order. Batches will be inspected using normal or tightened inspection in accordance with paragraph (e) of this section. The batch sample size will be obtained from Appendix VIII, Table III when normal inspection is in effect and from Appendix VIII, Table IV when tightened inspection is in effect. The batch sample size will be equal to the maximum cumulative sample size obtained from Appendix VIII, Table III or Table IV, as appropriate, for the proper sampling plan for the appropriate code letter obtained from Appendix VIII, Table I, plus an additional ten percent, rounded off to the next highest number.

(d) Individual vehicles comprising the test sample will be randomly selected from the batch sample using the same random sampling plan as in paragraph (a) of this section. Test sample size will be determined by entering Appendix VIII, Table III or Table IV, depending on whether normal or tightened inspection is in effect, at the appropriate code letter.

(e) The number of batches required to be inspected and whether normal or tightened inspection is an effect and the number of consecutive batches required to be accepted shall be determined by reference to Appendix VIII, Table II, Sequence for Inspection of Batches. The manufacturer will inspect the number of batches indicated in the first sequence using the designated inspection criteria for the appropriate batch code letter as determined in paragraph (c) of this section.

(f) The test vehicles of the configuration selected for testing shall have been assembled by the manufacturer for distribution in commerce using his normal mass production processes.

(g) No quality control, testing, assembly or selection procedures shall be used on the completed vehicle or any portion thereof, including parts and subassemblies, that will not be used during the production and assembly of all other vehicles of that configuration which will be distributed in commerce.

(h) Unless otherwise indicated in the test order, the manufacturer will select the batch sample from the production batch, next scheduled after receipt of the test order, of the configuration specified in the test order.

(i) Unless otherwise indicated in the test order, the manufacturer shall select the vehicles designated in the test order for testing.

(j) At their discretion, EPA Enforcement Officers, rather than the manufacturer, may select the vehicles designated in the test order for testing according to the method described in paragraph (a) of this section.

(k) The manufacturer will keep on hand all vehicles in the batch sample until such time as the batch is accepted or rejected in accordance with § 85.611.

§ 85.609 Test procedures.

(a) The prescribed test procedure is the Federal Test Procedure less the evaporative emission portion (§ 85.076–11,12,13 and § 85.276–11, 12–13), as described in subpart A, § 85.076–8 through § 85.076–25, subpart B, § 85.176–8 through § 85.176–22, subpart C, § 85.276–8 through § 85.276–25 and Subpart D, § 85.376–8 through § 85.376–22 of this part.

(b) The manufacturer shall not adjust, repair, prepare or modify the vehicles selected for testing and will not perform any emission tests on vehicles selected for testing pursuant to the test order unless such adjustment, repair, preparation, modification and/or tests are part of the manufacturer's prescribed end-of-line inspection procedures and are documented in the manufacturer's vehicle assembly and inspection procedures or unless such adjustments and/or tests are required or permitted under this subpart or are approved in advance by the Administrator. The manufacturer may perform adjustment, repair, preparation, modification and/or tests normally performed by his dealer to prepare the vehicle for delivery to a customer or the adjustment, repair, preparation, modification and/or tests normally performed at the port-of-entry by the manufacturer to prepare the vehicle for delivery to a dealer or customer: *Provided*, That such adjustment, repair, preparation, modification and/or tests are documented and approved by the Administrator in advance of their performance.

(c) (1) On a non-catalyst or catalyst equipped vehicle, the manufacturer shall (i) accumulate on each selected vehicle prior to performing exhaust emission testing, a mileage equal to the average of the mileage accumulation on the certification emission data vehicles belonging to the same engine family as the selected configuration at the time of the performance of the "zero-mile" test performed pursuant to § 85.076–4, § 85.176–4, § 85.276–4, or § 85.376–4 or (ii) accumulate on each selected vehicle prior to performing exhaust emission testing an alternative mileage up to 4,000 miles; *Provided*, That such alternative mileage accumulation is requested of and approved by the Administrator prior to the time of the receipt of the test order. The manufacturer shall not perform emission testing on a selected vehicle unless the established mileage accumulation has been completed on that vehicle within a range of ±10 miles.

(2) The procedure for mileage accumulation will be the Durability Driving Schedule as specified in Appendix IV to Part 85: Except, That a modified procedure may be used if approved in advance by the Administrator.

(d) No maintenance or emission testing will be performed on test vehicles after a batch sample is selected for testing nor will any test vehicle substitution or replacement be allowed, unless requested of the Administrator by the manufacturer and approved by the Administrator in advance of the performance of any maintenance, emission testing or vehicle substitution.

(e) In the event a vehicle is incapable of completing the mileage accumulation or completing the emission tests because of a substantial vehicle malfunction or problem, the manufacturer may request that the Administrator authorize him to repair the vehicle or the manufacturer may request that the Administrator authorize him to replace the vehicle when the malfunction or problem is not readily repairable within a reasonable period of time, or the Administrator may order the manufacturer to repair or replace the vehicle. Any replacement vehicles will be randomly selected from the batch sample.

(f) (1) The manufacturer will be allowed 24 hours to accumulate 500 miles of mileage accumulation on each vehicle

in a test sample, unless otherwise provided by the Administrator.

(2) The manufacturer shall complete emission testing on a minimum of four vehicles per day for each test cell at his testing facility: Except, That the Administrator may approve a longer period based upon a request by the manufacturer accompanied by satisfactory justification.

(3) The manufacturer will be allowed 24 hours to ship vehicles from a batch sample from their assembly plant, or storage facility to the test facility if the test facility is not located at the plant or storage facility or in close proximity to the plant or storage facility; Except, That the Administrator may approve more time based upon a request by the manufacturer accompanied by a satisfactory justification.

§ 85.610 Calculation and reporting of test results and low-mileage emissions target.

(a) Test results will be calculated and reported following the method prescribed in § 85.076–26, § 85.176–23, § 85.276, or § 85.376–23 as applicable.

(b) Before any final test result is compared to the applicable low-mileage emissions target as calculated in accordance with § 85.611, it shall be rounded, in accordance with ASTME 29–67, to two significant figures.

(c) For vehicles on which the manufacturer elected to accumulate the average "zero mileage" in accordance with § 85.609(c)(1)(i), a low-mileage emissions target for each pollutant shall be computed by applying a zero to 4000 mile exhaust emission deterioration and a 4000 to 50,000 mile exhaust emission deterioration factor to the applicable exhaust emission standard for each pollutant.

(1) Separate zero to 4000 mile exhaust emission deterioration factors shall be determined from the emission results of the certification emission data vehicles for each engine family. A separate factor shall be established for exhaust HC, exhaust CO, and exhaust NO_x.

(i) The data to be used in determining the zero to 4000 mile deterioration factors for each engine family shall be all valid emission data from the tests required under § 85.076–7(a), § 85.176–7(a), § 85.276–7(a) and § 85.376–7(a) as applicable. This shall include the official test results, as determined in § 85.076–28, § 85.176–28, § 85.276–28, and § 85.376–28 for all tests conducted on all emission data vehicles of the family selected under § 85.076–5(b), § 85.176–5(b), § 85.276–5(b), and § 85.376–5(b) (including all vehicles selected by the Administrator under § 85.076–5(b)(3), § 85.176(b)(3), § 85.276(b)(3), and § 85.376(b)(3)).

(ii) All applicable results shall be plotted as a function of the mileage on the system, rounded to the nearest mile, and the best fit straight lines, fitted by the method of least squares, shall be drawn through all these data points.

(iii) A zero to 4000 mile exhaust emission deterioration factor shall be calculated for each engine family as follows:

$$\text{factor} = \frac{\text{Exhaust emissions interpolated to 4000 miles}}{\text{Exhaust emissions interpolated to average "0 mile" miles}}$$

These interpolated values shall be carried out to a minimum of four places to the right of the decimal point before dividing one by the other to determine the deterioration factor. The results shall be rounded to three places to the right of the decimal point in accordance with ASTME 29–67.

(2) The 4000 to 50,000 mile deterioration factor shall be derived in accordance with § 85.076–28, § 85.176–28, § 85.276–28, or § 85.376–28, as applicable.

(3) The low-mileage emissions target for each pollutant shall be computed by dividing the appropriate emission standard by the product of the appropriate zero to 4000 mile and 4000 to 50,000 mile deterioration factors. The result shall be rounded, in accordance with ASTM E29–67, to one significant figure.

(d)(1) The manufacturer may apply alternative zero to 4000 mile emission deterioration factors in calculating the low-mileage emissions targets: *Provided*, That such factors and mileage accumulation are supported by appropriate data and that use of such factors are requested and approved prior to the time of receipt of the test order for that configuration. The manufacturer shall indicate the mileage accumulation that will be applicable to all test vehicles of that configuration at the time of the request to apply such an alternative zero to 4000 mile exhaust emission deterioration factor. The manufacturer shall also submit a justification for the use of such factors where they are applicable to the average zero mileage (±10 miles) that would have been required had the manufacturer tested the vehicles in accordance with § 85.609(c)(1)(i). The Administrator will approve or disapprove the manufacturer's request to apply alternative zero to 4000 mile exhaust emission deterioration factors prior to issuance of a test order to test vehicles of a configuration in an engine family to which the manufacturer request applies.

(2) Where the manufacturer elects to accumulate 4000 miles on the test vehicle as provided for in § 85.609(c)(1)(ii), low-mileage emission targets shall be calculated in accordance with paragraph (a) of this section without the application of any 0–4000 mile deterioration factor.

(e) The manufacturer shall report by telephone the final test results by vehicle identification number of all testing performed in any twenty-four hour period at the opening of the first normal working day following this test period: Except, That any manufacturer whose testing facility is not located in the continental United States need only send the report required in paragraph (b) of this section.

(f) In addition the manufacturer shall send a copy of the test report by registered airmail for such period at the conclusion of any testing done during each twenty-four hour period. The report shall contain the final test results by vehicle identification number for all vehicles tested in any twenty-four hour period. The first test report for each batch sample will contain a listing of all VIN's in that batch.

(g) In the case where an EPA Enforcement Officer is present during testing required by this subpart, the written reports requested in paragraph (f) of this section may be given directly to the Enforcement Officer in lieu of an airmail and telephone report.

(h) Within five days after completion of testing of all vehicles in a batch sample, the manufacturer shall submit to the Administrator a final report which will include the information required by the test order in the format stipulated in the test order in addition to the following:

(1) The location and description of the manufacturer's exhaust emission test facilities which meet the specifications of Subpart A, B, C, or D as applicable, and were utilized to conduct testing reported pursuant to this section.

(2) A description of the random vehicle selection method used, referencing any tables of random numbers that were used, name of the person in charge of the random number selection.

(3) For each test conducted,

(i) Test vehicle description including:

(A) Configuration and engine family identification.

(B) Year, make, build date, and model of vehicle.

(C) Vehicle Identification Number.

(D) Miles accumulated on vehicle.

(ii) Location where mileage accumulation was conducted and description of accommodation schedule.

(iii) Test number and measured emissions, deterioration (amelioration) factors and low-mileage emissions targets of all exhaust emission tests for each valid test, and for each invalid test, and the reason for invalidation and the date of such tests.

(iv) A complete description of any modification, repair, preparation, maintenance and/or testing which was performed on the test vehicle and (A) has not been reported pursuant to any other paragraph of this subpart and (B) will not be performed on all other production vehicles.

(v) Where a replacement vehicle was authorized by the Administrator, the reason for the replacement and, if any, the final test results for replaced vehicle.

(vi) Any other information the Administrator may request relevant to the determination as to whether the new motor vehicles being manufactured by the manufacturer do in fact conform with the regulations with respect to which the certificate of conformity was issued.

(vii) The following statement and endorsement:

This report is submitted pursuant to section 206 and section 208 of the Clean Air Act. All testing for which data is reported herein was conducted in strict conformance with applicable regulations under 40 CFR

85 et seq. All the data reported herein is a true and accurate representation of such testing. All other information reported herein is, to the best of _____ (company name) knowledge, true and accurate. I am aware of the penalties associated with violations of the Clean Air Act Amendments of 1970 and the regulations thereunder.

_____
(Vice President Company Signature)

§ 85.611 Acceptance and rejection of batches.

(a) A failed vehicle is one whose final test results, for one or more of the three exhaust pollutants, when compared to the applicable low-mileage emissions target for that pollutant, exceeds that target.

(b) The batch from which a batch sample is selected will be accepted or rejected for each pollutant based upon the number of test vehicles in the batch sample with measured emissions exceeding the applicable low-mileage emissions targets as calculated in § 85.610. A sufficient number of test samples will be drawn from the batch sample and the test vehicles tested until the cumulative number of vehicles exceeding the low-mileage emissions target for each pollutant is less than or equal to the acceptance number or greater than or equal to the rejection number appropriate for the cumulative number of vehicles tested. The acceptance and rejection numbers at the appropriate code letter will be used in determining whether the acceptance or rejection of a batch has occurred. Once a batch is accepted or rejected for a particular pollutant, the number of vehicles exceeding the low-mileage emissions target for that pollutant shall not be considered any further.

(C) Test samples from the batch sample shall continue to be drawn until a decision of acceptance or rejection can be made with regard to each pollutant.

(d) If the number of consecutive batches required to be accepted during the first sequence for inspection of batches as determined from Appendix VIII, Table II, are accepted for all three pollutants, the manufacturer shall not be required to perform any additional testing on vehicles from subsequent batches pursuant to the initiating test order.

§ 85.612 Additional testing.

(a) If the number of consecutive batches accepted for one or more pollutants during the first sequence for inspection of batches is less than the number of consecutive batches required to be accepted as determined from Appendix VIII, Table II, then the manufacturer shall continue to inspect consecutive batches of the configuration specified in the test order.

(b) The number of consecutive batches the manufacturer shall continue to inspect if so required according to paragraph (a) of this section shall be determined from Appendix VIII, Table II. The number of consecutive batches and inspection criteria are listed under the heading Second Sequence, and the table is entered at the appropriate batch code letter. If the first sequence of inspection requires that one batch be inspected and that batch is rejected for one or more pollutants, then the manufacturer will begin the second sequence of inspection starting with the first batch produced after rejection of the batch in the first sequence. If the first sequence of inspection requires that two batches be inspected, then the manufacturer will begin the second sequence of inspection starting with the first batch produced after rejection of the first batch or after rejection of the second batch where the first batch has been accepted.

(c) The manufacturer shall continue to inspect consecutive batches during the second sequence for inspection until such time as the required number of consecutive batches have been accepted or until the manufacturer has inspected the required number of consecutive batches and been unable to accept the required number of batches or until the testing of further consecutive batches could not result in the acceptance of the required number of batches.

(d) The Administrator may (i) terminate testing earlier than required in paragraph (b) based on his judgment that further testing will not influence his judgment that the manufacturer's vehicles are being manufactured in compliance with the regulations under which the certificates of conformity were issued, (ii) terminate testing earlier than required in paragraph (b) based on a request by the manufacturer accompanied by voluntary cessation of production of vehicles from the configuration in question at all plants; *Provided*, That once production is reinitiated the manufacturer must take the actions described in § 85.613(k) with regard to vehicles of the vehicle configuration in question prior to introduction into commerce of any vehicles produced by the manufacturer from any plant of the vehicle configuration in question.

§ 85.613 Suspension and revocation of certificates of conformity.

(a) The certificate of conformity is suspended with respect to any failing vehicle pursuant to § 85.611(a), effective from the time the testing is completed. The suspension remains in effect until such time as any necessary adjustments or repairs are made so that the vehicle does in fact conform to the applicable low-mileage emissions target, and the vehicle passes a retest.

(b) The certificate of conformity is suspended with respect to those vehicles which belong to a rejected batch and are still in the hands of the manufacturer except for those vehicles that have been tested and do in fact conform with the applicable low-mileage emissions target. The suspension will remain in effect until such time as the manufacturer has made any necessary adjustments or repairs and has demonstrated to the satisfaction of the Administrator that the vehicles belonging to the batch sample do in fact conform to the applicable low mileage emission target.

(c) If a manufacturer is unable to accept the required number of batches as indicated in Appendix VIII, Table II during the second sequence for inspection of batches after inspecting the required number of batches or some other number as may be allowed pursuant to § 85.612, batch sample selection and testing will no longer be required and the Administrator will suspend or revoke the certificate of conformity with respect to that vehicle configuration for those vehicles produced at that plant.

(d) If the results of vehicle testing pursuant to these regulations indicate that vehicles of a particular configuration do not conform to the regulations, the Administrator may require testing pursuant to a test order for vehicles of that configuration at other plants or other configurations in the same engine family manufactured by the manufacturer in the plant specified in the initial test order or any other plants.

(e) If the results of vehicle testing pursuant to these regulations indicate that vehicles of a particular configuration produced at more than one plant do not conform to the regulations with respect to which the certificate of conformity was issued, the Administrator may suspend or revoke the certificate of conformity with respect to that configuration for vehicles manufactured by the manufacturer in other plants of the manufacturer.

(f) If the Administrator determines that vehicles in two or more vehicle configurations belonging to the same engine family, based on tests performed pursuant to these regulations, do not conform to the regulations with respect to which the certificate of conformity was issued, the Administrator may suspend or revoke the certificate of conformity with respect to that engine family produced at one or more plants if the facts indicate that there is a substantial likelihood that other vehicle configurations of that engine family do not conform with the regulations with respect to which the certificate of conformity was issued.

(g) The Administrator will notify the manufacturer in writing of any suspension or revocation of a certificate of conformity in whole or in part: Except, That the certificate of conformity is immediately suspended with respect to any failing vehicle pursuant to § 85.611(a) and as provided for in paragraph (a) of this section and with respect to those vehicles which are part of a rejected batch and are still in the hands of the manufacturer, as provided for in paragraph (b) of this section.

(h) The decision whether to suspend or revoke a certificate of conformity, in whole or in part, will be made by the Administrator based on whether the proposed remedy for the nonconformity is one requiring notification pursuant to § 85.076–32, 33, 34; § 85.176–32, 33, 34; § 85.276–32, 33, 34; § 85.376–32, 33, 34, prior to implementation; Except, That the Administrator's decision to suspend provided for in § 85.076–30, § 85.176–30,

or § 85.276–30 or § 85.376–30 need not be based on such criteria.

(i) Once a certificate has been suspended for a failed vehicle in an accepted batch as provided for in paragraph (a) of this section, the manufacturer must take the following actions before the certificate is reinstated for that failed vehicle:

(1) Remedy the nonconformity, and

(2) Demonstrate that the vehicle conforms to the applicable low-mileage emissions target by retesting the vehicle in accordance with the applicable test procedures, and

(3) Submit a written report to the Administrator which contains a description of the remedy and test results, for each vehicle, in addition to other information that may be required by this regulation; Except, That the suspended certificate is reinstated for a vehicle upon the completion of (1) and (2) above. The written report required shall be in lieu of any notification required pursuant to § 85.076–32, 33, 34; § 5.176–32, 33, 34; § 85.276–32, 33, 34, § 85.376–32, 33, 34.

(j) Once a certificate has been suspended for failed vehicles and all untested vehicles in the manufacturers hands belonging to a rejected batch as provided for in paragraph (b) of this section, the manufacturer must take the following action before the certificate is reinstated for those vehicles:

(1) Remedy the nonconformity and demonstrate that all failed vehicles which have had their certificate suspended conform to the applicable low-mileage emission target by retesting the vehicle in accordance with applicable regulation, and

(2) Implement necessary remedies on untested vehicles in the batch and demonstrate by testing an appropriate number of such vehicles that the remedy does in fact result in vehicles conforming to the low-mileage emissions target, and

(3) Submit a written report to the Administrator which contains the description of the remedy and any test results for each vehicle in addition to other information required by these regulations; Except, that the suspended certificate is reinstated for any vehicle determined to conform through testing upon the completion of (1) above and the suspended certificate is reinstated for untested vehicles upon the completion of (2) and (3) above. The written report required shall be in lieu of any notification required pursuant to § 85.076–32, 33, 34; § 85.176–32, 33, 34; § 85.276–32, 33, 34; § 85.376–32, 33, 34.

(k) Once a certificate has been suspended in whole or in part, pursuant to paragraph (c), (e), and (f) of this section, the manufacturer must take the following actions before the Administrator will consider reinstating such certificate:

(1) Submit a written report to the Administrator which identifies the reason for the noncompliance of the vehicles, describes the proposed remedy, including a description of the proposed quality control and/or quality assurance measures to be taken by the manufacturers to correct the future occurrence of the problem, and states that the remedies are being or have been implemented, and

(2) Demonstrates that the vehicle configuration for which the certificate of conformity has been suspended does in fact comply with the regulations with respect to which the certificate of conformity was issued by testing vehicles from consecutively produced batches of that vehicle configuration in accordance with § 85.612 and the conditions specified in the initial test order: Except, That if the manufacturer elects to continue testing individual vehicles after suspension of a certificate, the certificate is reinstated for any vehicle actually determined to be in conformance with the applicable low-mileage emissions target through testing in accordance with the applicable test procedures: *Provided*, That any remedy implemented to § 85.076–32, 33, 34; § 85.176–32, 33, 34; § 85.276–32, 33, 34; § 85.376–32, 33, 34.

(l) Once a certificate has been revoked for a configuration and the manufacturer desires to continue introduction into commerce of such configuration, the manufacturer must take the following action before the Administrator will consider re-issuing such certificate:

(1) Proceed in accordance with the applicable notification provisions of § 85.076–32, 33, 34; § 85.176–32, 33, 34; § 85.276–32, 33, 34; § 85.376–32, 33, 34, and

(2) Demonstrate that the vehicle configuration for which the certificate of conformity was revoked does in fact comply with the regulations with respect to which the certificate of conformity was issued by testing vehicles from consecutively produced batches of that vehicle configuration in accordance with § 85.612 and the conditions specified in the initial test order.

(m) A manufacturer may at any time subsequent to an initial suspension of a certificate of conformity with respect to a test vehicle pursuant to paragraph (a) of this section, but not later than thirty (30) days or such other period as may be allowed by the Administrator after notification of the Administrator's decision to suspend or revoke a certificate of conformity in whole or in part pursuant to paragraph (g) of this section, request that the Administrator grant such manufacturer a hearing as to whether the tests have been properly conducted or any sampling methods have been properly applied and make a determination in the record with respect to any suspension or revocation. Hearings conducted under this paragraph shall be held in accordance with § 85.614.

§ 85.614 Hearings on suspensions and revocations of certificates of conformity.

(a) *Applicability.* The procedures prescribed by this section shall apply whenever a manufacturer requests a hearing pursuant to any of the following sections: § 85.076–30(c)(5)(i), § 85.176–30(c)(5)(i), § 85.276–30(c)(5)(i), § 85.376–30(c)(5)(i); § 85.076(d)(6)(i), § 85–176–30(d)(6)(i), § 85.276–30(d)(6)(i), § 85.376–30(d)(6)(i); § 85.613(m); or § 85.605(f)(1).

(b) *Definitions.* The following definitions shall be applicable to this section:

(1) "Hearing Clerk" shall mean the Hearing Clerk of the Environmental Protection Agency.

(2) "Intervener" shall mean a person who files a petition to be made an Intervener pursuant to paragraph (i) of this section whose petition is approved.

(3) "Manufacturer" refers to a manufacturer contesting a suspension or revocation order directed at that manufacturer.

(4) "Party" shall include the Agency, the manufacturer, and any interveners.

(5) "Presiding Officer" shall mean an Administrative Law Judge appointed pursuant 5 U.S.C. 3105 (See also 5 CFR 930 as amended);

(6) "Judicial Officer" shall mean an officer or employee of the Agency appointed as a Judicial Officer by the Administrator pursuant to this section who shall meet the qualifications and perform functions as follows:

(i) Officer—there may be designated for the purposes of this section one or more Judicial Officers. As work requires, there may be a Judicial Officer designated to act for the purposes of a particular case.

(ii) Qualifications—a Judicial Officer may be a permanent or temporary employee of the Agency who performs other duties for the Agency. Such Judicial Officer shall not be employed by the Office of Enforcement and General Counsel or the Mobile Source Enforcement Division or have any connection with the preparation or presentation of evidence for a hearing held pursuant to this Subpart.

(iii) Functions—the Administrator may consult with a Judicial Officer or delegate all or part of his authority to act in a given case under this Section to a Judicial Officer: *Provided*, That this delegation shall not preclude the Judicial Officer from referring any motion or case to the Administrator when the Judicial Officer determines such referral to be appropriate.

(c) *Request for public hearing.* (1) If the manufacturer disagrees with the Administrator's decision to suspend or revoke a certificate, he may request a public hearing as described in this section. Requests for such a hearing shall be filed with the Administrator not later than 45 days after the Administrator's notification of decision to suspend or revoke unless otherwise specified by the Administrator. Two copies of such request shall simultaneously be served upon the Director of the Mobile Source Enforcement Division and two copies filed with the Hearing Clerk. Failure of the Manufacturer to request a hearing within the time provided shall constitute a waiver of his right to such a hearing. Subsequent to the expiration of the period for request-

ing a hearing as of right, the Administrator may, in his discretion and for good cause shown, grant the manufacturer a hearing to contest the suspension or revocation.

(2) The request for a public hearing shall contain:

(i) A statement as to which vehicle configurations or engine families are to be the subject of the hearing;

(ii) A concise statement of the issues to be raised by the manufacturer at the hearing for each vehicle configuration or engine family or vehicle for which the manufacturer has requested the hearing, *Provided, however*, That in the case of a hearing requested under § 85.613(m), the hearing shall be restricted to the following issues:

(A) Whether tests were properly conducted, and

(B) Whether sampling methods have been properly applied;

(iii) A statement as to reasons the manufacturer believes he will prevail on the merits on each of the issues so raised.

(IV) A summary of the evidence which supports the manufacturer's position on each of the issues so raised.

(3) A copy of all requests for public hearings shall be kept on file in the Office of the Hearing Clerk and shall be made available to the public during Agency business hours.

(d) *Summary decision.* (1) In the case of a hearing requested under § 85.613(m), when it clearly appears from the data and other information contained in the request for a hearing that there is no genuine and substantial question of fact with respect to the issues of (i) whether tests were properly conducted and (ii) whether sampling methods have been properly applied, the Administrator will enter an order on this data and information denying the request for a hearing, and reaffirming the original decision to suspend or revoke a certificate of conformity, if such decision has been made pursuant to § 85.613(g) at any time prior to the decision to deny the request for a hearing.

(2) In the case of a hearing requested under § 85.076–30(d)(6)(i), § 85.176–30(d)(6)(i), § 85.276–30(d)(6)(i), § 85.376–30(d)(6)(i) to challenge a proposed suspension of a certificate of conformity under § 85.076–30(d)(1)(i), § 85.176–30(d)(1)(i), § 85.276–30(d)(1)(i), § 85.376(d)(1)(i), or under § 85.076(d)(1)(ii), § 85.176–30(d)(1)(ii), § 85.276–30(d)(1)(ii), § 85.376–30(d)(1)(ii), when it clearly appears from the data and other information contained in the request for a hearing that there is no genuine and substantial question of fact with respect to the issue of whether the refusal to comply with the provisions of a test order or any other requirement of § 85.604 was caused by conditions and circumstances outside the control of the manufacturer, the Administrator will enter an order on this data and information denying the request for a hearing, and suspending the certificate of conformity.

(3) In the case of a hearing requested under § 85.605(f)(1), when it clearly appears from the data and other information contained in the request for a hearing that there is no genuine and substantial question of fact with respect to the issues of (i) whether there exists an actual lack of correlation between the data acquired with the manufacturer's test equipment used by the Administrator, and (ii) whether the data acquired by the Administrator under § 85.605(a) was erroneous and the manufacturer's data was correct, the Administrator will enter an order on this data and information denying the request for a hearing, and suspending the certificate of conformity.

(4) Any order issued under paragraphs (d)(1), (2), and (3) of this section shall have the force and effect of a final decision of the Administrator, as issued pursuant to paragraph (Z)(4) of this section.

(5) If the Administrator determines that a genuine and substantial question of fact does exist with respect to any of the issues referred to in paragraphs (d)(1), (2), and (3) of this section, he shall grant the request for a hearing and instruct the Hearing Clerk to publish a notice of public hearing in accordance with paragraph (h) of this section.

(e) *Filing and service.* (1) An original and two copies of all documents or papers required or permitted to be filed pursuant to this section shall be filed with the Hearing Clerk. Filing shall be deemed timely if mailed, as determined by the postmark, to the Hearing Clerk within the time allowed by this section. If filing is to be accomplished by mailing, the documents shall be sent to the address set forth in the notice of public hearing as described in paragraph (h) of this section.

(2) Except for requests to commence a hearing, at the same time a party files with the Hearing Clerk any additional issues for consideration at the hearing or any written testimony, documents, papers, exhibits, or materials, proposed to be introduced into evidence or papers filed in connection with any appeal, it shall serve upon all other parties copies thereof. A certificate of service shall be provided on or accompany each document or paper filed with the Hearing Clerk. Documents to be served upon the Director of the Mobile Source Enforcement Division shall be mailed to: Director, Mobile Source Enforcement Division, U.S. Environmental Protection Agency (EG–340), 401 M Street SW., WSM, Washington, D.C. 20460. Service by mail is complete upon mailing.

(f) *Time.* (1) In computing any period of time prescribed or allowed by this section, except as otherwise provided, the day of the act or event from which the designated period of time begins to run shall not be included. Saturdays, Sundays, and Federal legal holidays shall be included in computing any such period allowed for the filing of any document or paper, except that when such period expires on a Saturday, Sunday, or Federal legal holiday, such period shall be extended to include the next following business day.

(2) A prescribed period of time within which a party is required or permitted to do an act shall be computed from the time of service, except that when service is accomplished by mail, three days shall be added to the prescribed period.

(g) *Consolidation.* The Administrator or the Presiding Officer in his discretion may consolidate two or more proceedings to be held under this section for the purpose of resolving one or more issues whenever it appears that such consolidation will expedite or simplify consideration of such issues. Consolidation shall not affect the right of any party to raise issues that could have been raised if consolidation had not occurred.

(h) *Notice of public hearings.* (1) Notice of a public hearing under this section shall be given by publication in the Federal Register. Notice will be given at least 30 days prior to the commencement of such hearings; Except, that when a public hearing is requested under § 85.613(m), notice will be given at least 15 days prior to the commencement of such hearing.

(2) The notice of a public hearing shall include the following information:

(i) The purpose of the hearing and the legal authority under which the hearing is to be held.

(ii) A brief summary of the Administrator's determination of conconformity;

(iii) A brief summary of the manufacturer's basis for contesting the Administrator's determination of nonconformity;

(iv) Information regarding the time and location of the hearing and the address to which all documents required or permitted to be filed should be sent;

(v) The address of the Hearing Clerk to whom all inquiries should be directed and with whom documents are required to be filed;

(vi) A statement that all petitions to be made an intervener must be filed with the Hearing Clerk within 25 days from the date of the notice of public hearing (or within 10 days in the case of a hearing requested under § 85.613(m)) and must conform to the requirements of paragraph (i) of this section.

(3) The notice of public hearing shall be issued by the Assistant Administrator for Enforcement and General Counsel.

(i) *Interveners.* (1) Any person desiring to intervene in a hearing to be held under section 206 of the Act shall file a petition setting forth the facts and reasons why he thinks he should be permitted to intervene.

(2) In passing upon a petition to intervene, the following factors, among other things, shall be considered by the presiding officer:

(i) The nature of the petitioner's interest including the nature and the extent of the property, financial, environmental protection, or other interest of the petitioner;

(ii) The effect of the order which may be entered in the proceeding on petitioner's interest;

(iii) The extent to which the petitioner's interest will be represented by

existing parties or may be protected by other means;

(iv) The extent to which petitioner's participation may reasonably be expected to assist materially in the development of a complete record;

(v) The effect of the intervention on the Agency's statutory mandate.

(3) A petition to intervene must be filed within 25 days (or within 10 days in the case of a hearing requested under § 85.613(m)) following the notice of public hearing under section 206 of the Act and shall be served on all parties. Any opposition to such petition must be filed within five days of such service.

(4) All petitions to be made an intervener shall be reviewed by the presiding officer using the criteria set forth in paragraph (i)(2) of this section and considering any oppositions to such petition. Where the petition demonstrates that the petitioner's interest is limited to particular issues, the presiding officer may, in granting such petition, limit petitioner's participation to those particular issues only.

(5) If the Presiding Officer grants the petition with respect to any or all issues, he shall so notify, or direct the Hearing Clerk to notify, the petitioner and all parties. If the Presiding Officer denies the petition he shall so notify, or direct the Hearing Clerk to notify, the petitioner and all parties and shall briefly state the reasons why the petition was denied.

(6) All petitions to be made an intervener shall include an agreement by the petitioner, and any person represented by the petitioner, to be subject to examination and cross-examination and to make any supporting and relevant records available at its own expense upon the request of the Presiding Officer, on his own motion or the motion of any party or other intervener. If the intervener fails to comply with any such request, the Presiding Officer may in his discretion, terminate his status as an intervener.

(j) *Intervention by motion.* Following the expiration of the time prescribed in paragraph (i) of this section for the submission of petitions to intervene in a hearing, any person may file a motion with the Presiding Officer to intervene in a hearing. Such a motion must contain the information and commitments required by paragraphs (i)(2) and (6) of this section, and, in addition, must show that there is good cause for granting the motion and must contain a statement that the intervener shall be bound by agreements, arrangements, and other determinations which may have been made in the proceeding.

(k) *Amicus curiae.* Persons not parties to the proceedings wishing to file briefs may do so by leave of the Presiding Officer granted on motion. A motion for leave shall identify the interest of the applicant and shall state the reasons why the proposed amicus brief is desirable.

(l) *Presiding officer.* The presiding officer shall have the duty to conduct a fair and impartial hearing in accordance with 5 U.S.C. sections 554, 556, and 557, to take all necessary action to avoid delay in the disposition of the proceedings and to maintain order. He shall have all power consistent with Agency rule and with the Administrative Procedure Act necessary to this end, including the following:

(1) To administer oaths and affirmations;

(2) To rule upon offers of proof and receive relevant evidence.

(3) To regulate the course of the hearings and the conduct of the parties and their counsel therein;

(4) To hold conferences for simplification of the issues or any other proper purpose;

(5) To consider and rule upon all procedural and other motions appropriate in such proceedings;

(6) To require the submission of direct testimony in written form with or without affidavit whenever, in the opinion of the Presiding Officer, oral testimony is not necessary for full and true disclosure of the facts. Testimony concerning the conduct and results of tests and inspections may be submitted in written form.

(7) To enforce agreements and orders requiring access as authorized by law;

(8) To require the filing of briefs on any matter on which he is required to rule;

(9) To require any party or any witness, during the course of the hearing, to state his position on any issue;

(10) To take or cause depositions to be taken whenever the ends of justice would be served thereby;

(11) To make decisions or recommend decisions to resolve the disputed issues on the record of the hearing.

(12) To issue, upon good cause shown, protective orders as described in paragraph (p) of this section.

(m) *Conferences.* (1) At the discretion of the Presiding Officer, conferences may be held prior to or during any hearing. The Presiding Officer shall direct the Hearing Clerk to notify all parties and interveners of the time and location of any such conference. At the discretion of the Presiding Officer, persons other than parties may attend. At a conference the Presiding Officer may:

(i) Obtain stipulations and admissions, receive requests and order depositions to be taken, identify disputed issues of fact and law, and require or allow the submission of written testimony from any witness or party;

(ii) Set a hearing schedule for as many of the following as are deemed necessary by the presiding officer;

(A) Oral and written statements;

(B) Submission of written direct testimony as required or authorized by the presiding officer;

(C) Oral direct and cross-examination of a witness where necessary as prescribed in paragraph (r) of this section;

(D) Oral argument, if appropriate.

(iii) Identify matters of which official notice may be taken;

(iv) Consider limitation of the number of expert and other witnesses;

(v) Consider the procedure to be followed at the hearing; and

(vi) Consider any other matter that may expedite the hearing or aid in the disposition of the issue.

(2) The results of any conference including all stipulations shall, if not transcribed, be summarized in writing by the presiding officer and made part of the record.

(n) *Primary discovery (exchange of witness lists and documents).* (1) At a prehearing conference or within some reasonable time set by the presiding officer prior to the hearing, each party shall make available to the other parties the names of the expert and other witnesses the party expects to call, together with a brief summary of their expected testimony and a list of all documents and exhibits which the party expects to introduce into evidence. Thereafter, witnesses, documents, or exhibits may be added and summaries of expected testimony amended upon motion by a party.

(2) The presiding officer, may, upon motion by a party or other person, and for good cause shown, by order (i) restrict or defer disclosure by a party of the name of a witness or a narrative summary of the expected testimony of a witness, and (ii) prescribe other appropriate measures to protect a witness. Any party affected by any such action shall have an adequate opportunity, once he learns the name of a witness and obtains the narrative summary of his expected testimony, to prepare for the presentation of his case.

(o) *Other discovery.* (1) Except as so provided by paragraph (1) of this section, further discovery, under this paragraph, shall be permitted only upon determination by the Presiding Officer:

(i) That such discovery will not in any way unreasonably delay the proceeding;

(ii) That the information to be obtained is not obtainable voluntarily; and

(iii) That such information has significant probative value. The presiding officer shall be guided by the procedures set forth in the Federal Rules of Civil Procedure, where practicable, and the precedents thereunder, except that no discovery shall be undertaken except upon order of the Presiding Officer or upon agreement of the parties.

(2) The presiding officer shall order depositions upon oral questions only upon a showing of good cause and upon a finding that:

(i) The information sought cannot be obtained by alternative methods; or

(ii) There is a substantial reason to believe that relevant and probative evidence may otherwise not be preserved for presentation by a witness at the hearing.

(3) Any party to the proceeding desiring an order of discovery shall make a motion or motions therefor. Such a motion shall set forth:

(i) The circumstances warranting the taking of the discovery;

(ii) The nature of the information expected to be discovered; and

(iii) The proposed time and place where it will be taken. If the Presiding Officer determines the motion should be granted, he shall issue an order for the

taking of such discovery together with the conditions and terms thereof.

(4) Failure to comply with an order issued pursuant to this paragraph may lead to the inference that the information to be discovered would be adverse to the person or party from whom the information was sought.

(p) *Protective orders, in camera proceedings.* (1) Upon motion by a party or by the person from whom discovery is sought, and upon a showing by the movant that the disclosure of the information to be discovered, or a particular part thereof, (other than emission data) would result in methods or processes entitled to protection as trade secrets of such person being divulged, the Presiding Officer may enter a protective order with respect to such material. Any protective order shall contain such terms governing the treatment of the information as may be appropriate under the circumstances to prevent disclosure outside the hearing: *Provided*, That the order shall state that the material shall be filed separately from other evidence and exhibits in the hearing. Disclosure shall be limited to parties to the hearing, their counsel and relevant technical consultants, and authorized representatives of the United States concerned with carrying out the Act. Except in the case of the government, disclosure may be limited to counsel to parties who shall not disclose such information to the parties themselves. Except in the case of the government, disclosure to a party or his counsel shall be conditioned on execution of a sworn statement that no disclosure of the information will be made to persons not entitled to receive it under the terms of the protective order. (No such provision is necessary where government employees are concerned because disclosure by them is subject to the terms of 18 U.S.C. 1905.)

(2) (i) A party or person seeking a protective order may be permitted to make all or part of the required showing in camera. A record shall be made of such in camera proceedings. If the presiding officer enters a protective order following a showing in camera, the record of such showing shall be sealed and preserved and made available to the agency or court in the event of appeal. (ii) Attendance at any in camera proceeding may be limited to the presiding officer, the agency, and the person or party seeking the protective order.

(3) Any party, subject to the terms and conditions of any protective order issued pursuant to subparagraph (1) of this paragraph, desiring for the presentation of his case to make use of any in camera documents or testimony shall make application to the presiding officer by motion setting forth the justification therefor. The presiding officer, in granting any such motion, shall enter an order protecting the rights of the affected persons and parties and preventing unnecessary disclosure of such information, including the presentation of such information and oral testimony and cross-examination concerning it in executive session, as in his discretion is necessary and practicable.

(4) In the submittal of proposed findings, briefs, or other papers, counsel for all parties shall make a good faith attempt to refrain from disclosing the specific details of in camera documents and testimony. This shall not preclude references in such proposed findings, briefs, or other papers to such documents or testimony including generalized statements based on their contents. To the extent that counsel consider it necessary to include specific details in their presentations, such data shall be incorporated in separate proposed findings, briefs, or other papers marked "confidential", which shall become part of the in camera record.

(8) *Motions.* (1) All motions, except those made orally during the course of the hearing, shall be in writing and shall state with particularity the grounds therefor, shall set forth the relief or order sought, and shall be filed with the Hearing Clerk and served upon all parties.

(2) Within ten days after service of any motion filed pursuant to this section, or within such other time as may be fixed by the Administrator, the judicial officer, or the presiding officer, as appropriate, any party may serve and file an answer to the motion. The movant shall, if requested by the Administrator, the judicial officer, or the presiding officer, as appropriate, serve and file reply papers within the time set by the request.

(3) The presiding officer shall rule upon all motions filed or made prior to the filing of his decision or accelerated decision, as appropriate. The Administrator or the judicial officer, as appropriate, shall rule upon all motions filed prior to the appointment of a presiding officer and all motions filed after the filing of the decision of the Presiding Officer or accelerated decision. Oral argument of motions will be permitted only if the Presiding Officer, the Administrator, or the judicial officer, as appropriate, deems it necessary.

(r) *Evidence.* (1) The official transcripts and exhibits, together with all papers and requests filed in the proceeding, shall constitute the record. Immaterial or irrelevant parts of an admissible document shall be segregated and excuded so far as practicable. Documents or parts thereof subject to a protective order under paragraph (p) of this section shall be segregated. Evidence may be received at the hearing even though inadmissible under the rules of evidence applicable to judicial proceedings. The weight to be given evidence shall be determined by its reliability and probative value.

(2) The presiding officer shall allow the parties to examine and to cross-examine a witness to the extent that such examination and cross-examination is necessary for a full and true disclosure of the facts.

(3) Rulings of the presiding officer on the admissibility of evidence, the propriety of examination and cross-examination and other procedural matters shall appear in the record.

(4) Parties shall automatically be presumed to have taken exception to an adverse ruling.

(s) *Interlocutory appeal.* (1) An interlocutory appeal may be taken to the Administrator either (i) with the consent of the presiding officer and where he certifies on the record or in writing that the allowance of an interlocutory appeal is clearly necessary to prevent exceptional delay, expense or prejudice to any party or substantial detriment to the public interest, or (ii) absent the consent of the presiding officer, by permission of the Administrator.

(2) Applications for interlocutory appeal of any ruling or order of the presiding officer may be filed with the presiding officer within 5 days of the issuance of the ruling or order being appealed. Answers thereto by other parties may be filed within 5 days of the service of such applications.

(3) The presiding officer shall rule on such applications within 5 days of the filing of such application or answers thereto.

(4) Applications to file such appeals absent consent of the presiding officer shall be filed with the Administrator within 5 days of the denial of any appeal by the presiding officer.

(5) The Administrator will consider the merits of the appeal on the application and any answers thereto. No oral argument will be heard nor other briefs filed unless the Administrator directs otherwise.

(6) Except under extraordinary circumstances as determined by the presiding officer, the taking of an interlocutory appeal will not stay the hearing.

(t) *Record.* (1) Hearings shall be stenographically reported and transcribed, and the original transcript shall be part of the record and the sole official transcript. Copies of the record shall be filed with the Hearing Clerk and made available during Agency business hours for public inspection. Any person desiring a copy of the record of the hearing or any part thereof shall be entitled to the same upon payment of the cost thereof.

(2) The official transcripts and exhibits, together with all papers and requests filed in the proceeding, shall constitute the record.

(u) *Proposed findings, conclusions.* (1) Within 20 days of the close of the reception of evidence, or within such longer time as may be fixed by the presiding officer, any party may submit for the consideration of the presiding officer proposed findings of fact, conclusions of law, and a proposed rule or order, together with reasons therefor and briefs in support thereof. Such proposals shall be in writing, shall be served upon all parties, and shall contain adequate references to the record and authorities relied on.

(2) The record shall show the presiding officer's ruling on the proposed findings and conclusions except when his order disposing of the proceeding otherwise informs the parties of the action taken by him thereon.

(v) *Decision of the presiding officer.* (1) Unless extended by the Administrator, the Presiding Officer shall issue and file with the Hearing Clerk his decision within 30 days (or within 10 days in the case of a hearing requested under § 85.-613(m)) after the period for filing proposed findings as provided for in paragraph (u) of this section has expired.

(2) The presiding officer's decision shall become the decision of the Administrator (i), when no notice of intention to appeal as described in paragraphs (w) and (x) of this section is filed, 30 days after the issuance thereof (or 10 days in the case of a hearing requested under § 85.316(m)), unless in the interim the Administrator shall have taken action to review or stay the effective date of the decision; or (ii), when a notice of intention to appeal is filed but the appeal is not perfected as required by paragraph (w) of this section, 5 days after the period allowed for perfection of an appeal has expired unless within that 5 day period, the Administrator shall have taken action to review or stay the effective date of the decision.

(3) The presiding officer's decision shall include a statement of findings and conclusions, as well as the reasons or basis therefore, upon all the material issues of fact of law presented on the record and an appropriate rule or order. Such decision shall be supported by substantial evidence and based upon a consideration of the whole record.

(4) At any time prior to the issuance of his decision, the Presiding Officer may reopen the proceeding for the reception of further evidence. Except for the correction of clerical errors, the jurisdiction of the presiding officer is terminated upon the issuance of his decision.

(w) *Appeal from the decision of the presiding officer.* (1) Any party to a proceeding may appeal the Presiding Officer's decision to the Administrator; *provided*, That within 10 days after issuance of the Presiding Officer's decision such party files a notice of intention to appeal and an appeal brief within 30 days of such decision.

(2) When an appeal is taken from the decision of the Presiding Officer, any party may file a brief with respect to such appeal. The brief shall be filed within 20 days of the date of the filing of the appellant's brief.

(3) Any brief filed pursuant to this paragraph shall contain in the order indicated, the following:

(i) A subject index of the matter in the brief, with page references, and a table of cases (alphabetically arranged) textbooks, statutes, and other material cited, with page references thereto;

(ii) A specification of the issues intended to be urged; *provided, however*, That in the case of a hearing requested under § 85.613(m), the brief shall be restricted to the following issues;

(A) Whether tests were properly conducted, and

(B) Whether sampling methods have been properly applied.

(iii) The argument presenting clearly the points of fact and law relied upon in support of the position taken on each issue, with specific page references to the record and the legal or other material relied upon; and

(iv) A proposed form of rule or order for the Administrator's consideration if different from the rule or order contained in the presiding officer's decision.

(4) No brief in excess of 40 pages shall be filed without leave of the Administrator.

(5) Oral argument will be allowed in the discretion of the Administrator.

(x) *Summary appeal.* (1) In the case of a hearing requested under § 85.613 (m), the Administrator shall require that any appeal taken from the decision of the Presiding Officer be conducted under this paragraph.

(2) Any party to the proceeding may appeal the Presiding Officer's decision to the Administrator by filing a notice of appeal within 10 days.

(3) The notice of appeal shall be in the form of a brief, and shall conform to the requirements of paragraph (w)(3) of the section.

(4) Within 10 days after a notice of appeal from the decision of the Presiding Officer is filed under this paragraph, any party may file a brief with respect to such appeal.

(5) No brief in excess of 15 pages shall be filed without leave of the Administrator.

(6) Oral argument will not be allowed.

(y) *Review of the presiding officer's decision in absence of appeal.* (1) If, after the expiration of the period for taking an appeal as provided for by paragraphs (w) or (x) of this section, no notice of intention to appeal the decision of the presiding officer has been filed, or if filed, not perfected, the Hearing Clerk shall so notify the Administrator.

(2) The Administrator, upon receipt of notice from the Hearing Clerk that no notice of intention to appeal has been filed, or if filed, not perfected pursuant to paragraphs (w) or (x) of this section, may, on his own motion, within the time limits specified in paragraph (v)(2) of this section, review the decision of the Presiding Officer. Notice of the intention of the Administrator to review the decision of the Presiding Officer shall be given to all parties and shall set forth the scope of such review and the issues which shall be considered and shall make provision for filing of briefs.

(z) *Decision on appeal or review.* (1) Upon appeal from or review of the Presiding Officer's decision, the Administrator shall consider such parts of the record as are cited or as may be necessary to resolve the issues presented and in addition shall, to the extent necessary or desirable, exercise all the powers which he could have exercised if he had presided at the hearing.

(2) In rendering his decision, the Administrator shall adopt, modify or set aside the findings, conclusions, and rule or order contained in the decision of the Presiding Officer and shall set forth in his decision a statement of the reasons or bases for his action.

(3) In those cases where the Administrator believes that he should have further information or additional views of the parties as to the form and content of the rule or order to be issued, the Administrator, in his discretion, may withhold final action pending the receipt of such additional information or views, or may remand the case to the Presiding Officer.

(4) Any decision rendered under this paragraph which completes disposition of a case shall be a final decision of the Administrator.

(aa) *Reconsideration.* Within twenty (20) days after issuance of the Administrator's decision, any party may file with the Administrator a petition for reconsideration of such decision, setting forth the relief desired and the grounds in support thereof. Any petition filed under this subsection must be confined to new questions raised by the decision or final order and upon which the petitioner had not opportunity to argue before the Presiding Officer or the Administrator. *Provided, however*, That in the case of a hearing requested under § 85.613(m), such new questions shall be limited to the issues of (1) whether tests were properly conducted, and (2) whether sampling methods have been properly applied.

Any party desiring to oppose such a petition shall file and answer thereto within ten (10) days after the filing of the petition. The filing of a petition for reconsideration shall not operate to stay the effective date of the decision or order or to toll the running of any statutory time period affecting such decision or order unless specifically so ordered by the Administrator.

(bb) *Accelerated decision; dismissal.* (1) The Presiding Officer, upon motion of any party or sua sponte, may at any time render an accelerated decision in favor of the Agency or the manufacturer as to all or any part of the proceeding, without further hearing or upon such limited additional evidence such as affidavits as he may require, or dismiss any party with prejudice, under any of the following conditions:

(i) Failure to state a claim upon which relief can be granted, or direct or collateral estoppel;

(ii) There is no genuine issue of material fact and a party is entitled to judgment as a matter of law; or

(iii) Such other and further reasons as are just, including specifically failure to obey a procedural order of the presiding officer.

(2) If under this paragraph an accelerated decision is issued as to all the issues and claims joined in the proceeding, the decision shall be treated for the purposes of these procedures as the decision of the presiding officer as provided in paragraph (p) of this section.

(3) If under this paragraph, judgment is rendered on less than all issues or claims in the proceeding, the presiding officer shall determine what material facts exist without substantial controversy and what material facts are actually and in good faith controverted.

He shall thereupon issue an order specifying the facts which appear without substantial controversy, and the issues and claims upon which the hearing will proceed.

(cc) *Conclusion of hearing.* (1) If, after the expiration of the period for taking an appeal as provided for by paragraphs (w) and (x) of this section, no appeal has been taken from the presiding officer's decision, and after the expiration of the period for review by the Administrator on his own motion as provided for by paragraph (y) of this section, the Administrator does not move to review such decision, the hearing will be deemed to have ended at the expiration of all periods allowed for such appeal and review.

(2) If an appeal of presiding officer's decision is taken pursuant to paragraph (w), and (x) of this section, or if, in the absence of such appeal the Administrator moves to review the decision of the presiding officer pursuant to paragraph (y) of this section, the hearing will be deemed to have ended upon the rendering of a final decision by Administrator.

(dd) *Judicial review.* (1) The Administrator hereby designates the Deputy General Counsel, Environmental Protection Agency as the officer upon whom copy of any petition for judicial review shall be served. Such officer shall be responsible for filing in the court the record on which the order of the Administrator is based.

(2) Before forwarding the record to the court, the Agency shall advise the petitioner of costs of preparing it and as soon as payment to cover fees is made, shall forward the record to the court.

SECURITIES AND EXCHANGE COMMISSION

■

BROKER-DEALERS AND ASSOCIATED PERSONS

Proposal to Adopt Uniform Forms

V 39 I 252 DEC 31 74 XUM

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release No. 34-11135; File No. S7-541]

UNIFORM FORMS FOR BROKER-DEALERS AND ASSOCIATED PERSONS

Notice of Proposed Rulemaking

The Securities and Exchange Commission has under consideration a proposal under the Securities Exchange Act of 1934 (the "Act") to adopt Form U-3, a uniform application for registration as a broker-dealer under section 15(b) [17 CFR 240.15b] of the Act and for the amendment of such registration. Form U-3 would replace present Form BD.[1] The Commission also has under consideration a proposal to adopt Form U-4, a uniform application for registration of associated persons. Form U-4 would replace Form SECO-2.[2] In addition, Rule 15b3-1 [17 CFR 240.15b3-1] would be amended to provide that each registered broker or dealer would be required to file new Form U-3 furnishing all information required therein at such time as the broker's or dealer's registration presently on file required amendment. In any case a new Form U-3 would have to be filed within 120 days of the effective date of the amendments. Paragraph (a)(3) of Rule 15b8-1 [17 CFR 240.15b8-1] would be amended to provide that each nonmember broker or dealer would be required to file a Form U-4 when the information contained in any Form SECO-2 filed on behalf of any associated person became inaccurate for any reason. Form U-4 would not have to be filed for all associated persons within a specific time frame. Finally, in view of the proposal to adopt Form U-3, the Commission has withdrawn the proposal to amend Form BD announced in Securities Exchange Act Release No. 10262 (Securities Investor Protection Act Release No. 4) July 3, 1973 [38 FR 20106].

INTRODUCTION

The securities industry has recognized the need for uniform forms for a number of years. Efforts to develop a uniform application for registration as a broker-dealer began as early as 1967 when, in Securities Exchange Act Release No. 8125 (July 18, 1967), the Commission announced major revisions of Form BD.[3]

The current impetus for development of uniform forms came in September 1972 when the Commission appointed three advisory committees to undertake a comprehensive review of the reports and other paperwork requirements incident to rules of the Commission and those of the self-regulatory bodies in the securities industry. One of these committees, the SEC Advisory Committee on Broker-Dealer Reports and Registration Requirements, was asked to direct its attention to the reporting requirements of registered brokers and dealers.

In December 1973 the Committee presented its Study to the Commission ("Advisory Committee Study"). The Advisory Committee Study concluded that,

> The present regulatory reports submitted by broker-dealers require duplication of efforts by firms and regulators. This is wasteful without necessarily serving the public interest.

More specifically, the Study recommended,

> the adoption of uniform laws, rules, and forms to be used by the Commission, the registered national securities exchanges, the registered national securities association and the various states, etc., in the registration of broker-dealers and their agents.

In 1972, after the Advisory Committee Study was presented, a Committee of the North American Securities Administrators ("NASA," the organization of state securities administrators) renewed active development of Form U-3 and invited Commission and industry participation.

Form U-4 developed from a concurrent effort directed principally by the New York Stock Exchange, the National Association of Securities Dealers, Inc., and other self-regulatory organizations. A number of organizations, including the NASA and the Commission, also contributed to the development of the Form.

In addition to contributing the time of its staff, the Commission has publicly expressed its support for the development of such uniform forms. In January 1974 the Commission announced a program of implementation regarding the Advisory Committee Study. The release setting forth the program stated,

> The Commission wishes to take note of efforts currently underway to prepare a uniform state, Federal, and industry form for the registration of broker-dealers and a uniform form for the registration of principals and agents * * *. The Commission believes that the development and implementation of such uniform forms on a wide scale would be significant in enhancing the flow within the securities industry of information needed for regulatory purposes while at the same time alleviating a substantial and particularly duplicative paperwork burden imposed on broker-dealers registered with more than one organization or state.

As development of Form U-3 by the NASA Committee progressed, Chairman Garrett again noted the Commission's deep interest in a letter to Ms. Thyra Thompson, then President of the NASA. Chairman Garrett stated:

> The Commission reiterates its support of the principle of uniform registration of broker-dealers and, upon reviewing the proposed Form U-3 and the recommendation of the Report Coordinating Group[4] and the Commission's staff, has determined to endorse in principle the use of the proposed Form U-3 by all regulating authorities. Upon receipt of a recommendation from the North American Securities Administrators and other interested groups, the Commission expects to release the proposed form for public comment promptly.

The NASA advised the Commission that on September 26, 1974 the membership of the NASA considered Form U-3 and that 33 states expressed approval of the Form. Since then, a number of additional states have expressed approval.

Subsequently, on October 9, 1974, the Report Coordinating Group met. After reviewing a report presented by its Registration Forms Subcommittee, the Group adopted the following resolution:

> Resolved that the SEC Report Coordinating Group recommends that the Securities and Exchange Commission publish for comment as proposed forms the Form U-3 to replace the Form BD and the Form U-4 to replace the SECO-2 Form, and that the Commission urge the states and self-regulatory organizations to adopt said Form U-3 and Form U-4.

Accordingly, the Commission now seeks public comment on Forms U-3 and U-4.

FORM U-3

Proposed Form U-3 is the product of a significant joint effort over the past 18 months on the part of the NASA, representatives of the securities industry and the self-regulatory organizations, and members of the Commission's staff. The general structure of Form U-3 is patterned after Form BD. The scope of the questions has been expanded. While the Commission believes that the Form will provide a more comprehensive picture of the applicant or registrant, the Form is not significantly longer than Form BD.

Form U-3 is divided into two parts. The first part consists of 16 multi-part questions requesting general information about the applicant, including a list of all organizations or states with which the applicant is registered or has applications pending. The second part of Form U-3 consists of six schedules designed to elicit supplementary information in certain specified areas. One of these, Schedule F, seeks information required by the individual states. It is anticipated that, by using Schedule F to obtain any unique information required by a state's laws or regulations which is not otherwise included in Form U-3, the states will be able to adopt the body of Form U-3 without modification. Each state will prepare a separate instruction sheet for Schedule F. It is also possible that the self-regulatory organizations may

---

[1] It should be noted that the designation "U-3" is used here for convenience. It is probable that the designation "Form BD" would be retained if the new Form is adopted.

[2] Similarly, the designation "U-4" is used for convenience, and the designation "Form SECO-2" would probably be retained.

[3] It was hoped that revised form BD would be adopted by the states and the self-regulatory organizations as well as the Commission but, unfortunately, Form BD did not achieve wide acceptance. Since that time, despite periodic efforts, uniformity has not been achieved. Forms U-3 and U-4, however, have been reviewed by a substantial number of organizations and states. To this time the comment has been very favorable.

[4] This is the SEC Report Coordinating Group (Advisory) established under the Federal Advisory Committee Act as a part of the Commission's program of implementation of the Advisory Committee Study. One of the purposes for which this Group is chartered is to review forms and reports and to provide expert advice to the Commission on such matters as uniformity, streamlining of the reporting system, and elimination of unnecessary or duplicative reports.

require a brief schedule to obtain certain specific information.

FORM U–4

Form U–4, as noted, would replace Form SECO–2. Form SECO–2 was adopted in September 1965 pursuant to Rule 15b8–1. (Securities Exchange Act Release No. 34–7697).

Like Form SECO–2, Form U–4 is in two parts. The first is to be completed by the broker-dealer with which the applicant will be associated. It contains general information regarding the organizations and states with which the associated person is to be registered and the identity of the prospective employer. It also contains a certification that the prospective employer has made a due and diligent inquiry into the background of the applicant.

The second part, to be completed by the applicant, contains information concerning the person's educational background and business associations; a series of questions concerning any disciplinary proceedings or court actions brought against him; and certain information about criminal convictions. Form U–4 also requests information as to whether the applicant has taken and passed qualifying examinations.

While the Commission proposes to adopt Form U–4 for the registration of persons associated with SECO broker-dealers, it is apparent that the Form will be most heavily employed by the self-regulatory organizations. There are only 20,000 persons registered as associated persons of SECO broker-dealers, whereas approximately 200,000 persons are registered with the self-regulatory organizations. Accordingly, the Commission would afford substantial weight to the comments of the self-regulators and their members.

While Form U–4 is somewhat longer than Form SECO–2, the Commission believes the additional information is both necessary and appropriate to assure that persons who have not displayed the high standards of conduct required of persons in a fiduciary position are excluded from the industry.

STATUTORY AUTHORITY

Form U–3 would be adopted pursuant to Sections 15(b), 17(a), and 23(a) of the Act. The Commission invites public comment from all interested persons. The Commission, however, particularly urges brokers and dealers to comment on Form U–3, drawing upon their own experience and expertise.

Form U–4 would be adopted pursuant to Sections 15(b), 17(a), and 23(a) of the Act.

It should be noted that the Forms are presented here solely for review of the substantive text. It is anticipated that after a final text is developed the Forms will undergo some design changes in order to present them in the most effective format. Any suggestions regarding format will, of course, be welcomed.

WITHDRAWAL OF PROPOSED AMENDMENTS TO FORM BD

On July 3, 1973, the Commission, in Securities Exchange Act Release No. 10262 (Securities Investor Protection Act Release No. 4), proposed certain amendments to Form BD. Because the substance of those amendments has been incorporated into Form U–3, the Commission has withdrawn the proposal to amend Form BD.

The comments of interested persons submitted in regard to the proposal to amend Form BD will be considered in connection with the proposed adoption of Form U–3.

PROPOSED AMENDMENT OF RULE 15b3–1

The principal reason for amending Rule 15b3–1 is to require every broker or dealer whose registration is effective, or who has an application for registration pending on the date on which the amendments to Rule 15b3–1 become effective, to file a complete new Form U–3 the first time an amendment otherwise is required, but in no event later than 120 days after the effective date. This procedure was followed in 1967 during the last major revision of Form BD. The amendment to Rule 15b3–1 would be adopted pursuant to sections 15(b), 17(a), and 23(a) of the Act.

It is proposed to revise § 240.15b3–1 to read as follows:

§ 240.15b3–1 Amendments to applications.

(a) Every broker or dealer whose registration is effective, or whose application for registration is pending, on (the effective date) shall file as an amendment to the application a complete Form U–3 as adopted. This shall be filed the first time an amendment is required to be filed under paragraph (b) of this rule, but in no event later than 120 days after (the effective date).

(b) If the information contained in any application for registration as a broker or dealer, or in any amendment thereto, becomes inaccurate for any reason, the broker or dealer shall promptly file an amendment on Form U–3 correcting such information.

(c) Every amendment filed pursuant to this rule shall constitute a "report" within the meaning of sections 15(b), 17(a), and 32(a) of the Act.

PROPOSED AMENDMENT OF PARAGRAPH (a)(3) OF RULE 15b8–1

Paragraph (a)(3) of Rule 15b8–1 would be revised in a manner comparable to Rule 15b3–1 to provide that when any information in a Form SECO–2 becomes inaccurate for any reason, the nonmember broker or dealer would be required to file a complete Form U–4 to replace the Form SECO–2. Form U–4 would not have to be refiled for all associated persons within a specific time period, however. The amendment to Rule 15b8–1 would be adopted pursuant to Sections 15(b), 17(a), and 23(a) of the Act.

It is proposed to revise § 240.15b8–1 (a)(3) as follows:

§ 240.15b8–1 Qualifications and fees relating to brokers or dealers who are not members of a national securities association.

(a) • • •

(3) Such nonmember broker or dealer shall file promptly a complete Form U–4 on behalf of any associated person if the information contained in Form SECO–2, filed on behalf of such associated person, is or becomes inaccurate or incomplete for any reason.

• • • • • •

CONCLUSION

Interested persons may submit their comments on proposed Form U–3 and Form U–4 and on the related amendments to Rules 15b3–1 and 15b8–1 in writing within 45 days of the date hereof to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, 500 North Capitol Street, NW., Washington, D.C. 20549. All such communications should bear File No. S7–541 and will be available for public inspection.

(Secs. 15(b), 17(a), 23(a), 48 Stat. 895, 897, 901; secs. 3, 4, 8, 49 Stat. 1377, 1379; sec. 5, 52 Stat. 1076, Sec. 6, 78 Stat. 570–574, (15 U.S.C. 78o(b), 78q(a), 78w))

By the Commission.

GEORGE A. FITZSIMMONS,
Secretary.

DECEMBER 13, 1974.

FORM U–3

UNIFORM APPLICATION FOR REGISTRATION, MEMBERSHIP OR LICENSE AS A BROKER-DEALER OR TO AMEND SUCH APPLICATION UNDER THE SECURITIES EXCHANGE ACT OF 1934, OR UNDER THE LAWS OF CERTAIN JURISDICTIONS (NOTED ON PAGE __ OF PART 1) OR UNDER THE CONSTITUTIONS OR RULES OF THE SELF-REGULATORY ORGANIZATIONS (NOTED ON PAGE __ OF PART 1)

(NOTED ON PAGE __ OF PART 1)

I. GENERAL INSTRUCTIONS FOR PREPARING AND FILING FORM U–3

1. This Form is to be used to apply for registration, license or membership with a number of agencies, jurisdictions, or organizations. A list of these agencies, jurisdictions, or organizations with the respective addresses for filing is included on page __ of these instructions. Special Instruction Sheets for each agency, jurisdiction, or organization are also required. They may be obtained from the agency, jurisdiction, or organization to which you are applying and must be read in conjunction with these instructions for each agency, jurisdiction, or organization to which you are applying.

2. All pages requiring signatures must be executed with a manual signature of the appropriate duly authorized individual as described in these instructions. All information required by Form U–3 and any Schedule thereunder must be submitted on the prescribed form, or mechanical reproductions thereof. A separate page must be manually signed for each agency, jurisdiction, or organization. All other pages containing correct information may be mechanically reproduced by any method producing clear, legible copies of identical type size. Retain one exact copy for your records.

Additional copies of Form U–3 are available at each of the agencies, jurisdictions, or organizations listed on page ... of these instructions.

3. If Form U–3 is filed by a sole proprietor, it shall be signed by the proprietor; if it is filed by a partnership, it shall be signed in the name of the partnership by a general partner; if filed by an unincorporated organization or association, it shall be signed by the managing agent—i.e., a duly authorized person who directs or manages or who participates in directing or managing its affairs; if it is filed by a corporation, it shall be signed in the name of the corporation by a principal officer duly authorized.

4. If the space provided for any answer on the Form is insufficient, the complete answer shall be prepared on a separate Schedule E, which shall be attached to the Form. If the space provided for any answer on the Schedules is insufficient, attach a separate sheet in duplicate.

5. Individuals' names, except for executing signatures, shall be given in full wherever required (last name, first name, middle name).

6. A Form U–3 which is not prepared and executed in compliance with applicable requirements may be returned as not acceptable for filing. However, acceptance of this Form shall not constitute any finding that it has been filed as required or that the information submitted is true, current, or complete.

7. Definitions:

a. Unless the context or the Special Instruction Sheets for the individual agencies, jurisdictions, or organizations clearly indicate otherwise, all terms used in the Form have the same meaning as in the Securities Exchange Act of 1934 and in the General Rules and Regulations of the Securities and Exchange Commission thereunder.

b. Jurisdiction—Unless the context otherwise requires, "jurisdiction" means a state, a territory, the District of Columbia, the Commonwealth of Puerto Rico, or a province of the Dominion of Canada.

c. Applicant—Unless the context otherwise requires, "applicant" means the person filing the Form U–3 whether as an initial application or amendment to a previously filed Form U–3 for registration, membership, or license. "Person" in this context is the broker-dealer or person which will be the broker-dealer and not the individual completing the Form unless they are identical.

d. Self-Regulatory Organization—Unless the context otherwise requires, "self-regulatory organization" means any national securities exchange or national securities association registered under the Securities Exchange Act of 1934.

8. The information contained in Form U–3 is of a continuing nature and must be updated or amended periodically upon the happening of certain events. Consult the Special Instruction Sheets for the agencies, jurisdictions, or organizations with which it is to be filed.

9. Although the purpose of Form U–3 is to bring as much uniformity and resultant simplicity to the registration of broker-dealers as possible, some jurisdictions or organizations require information in addition to that required in Part I of U–3 and may have supplementary requirements for the completion of Part I. Therefore, consult the Special Instruction Sheets for each agency, jurisdiction, or organization with which this Form is to be filed.

II. SPECIAL INSTRUCTIONS FOR FILING FORM U–3 AS AN APPLICATION

10. If Form U–3 is being filed as an application for registration, all applicable items must be answered in full and all supplemental information for each agency, jurisdiction, or organization with which the Form is to be filed must be supplied for that agency, jurisdiction, or organization. If any item is not applicable, indicate by "none" or "N/A" as appropriate.

III. SPECIAL INSTRUCTIONS FOR AMENDING FORM U–3

11. If the information contained in Form U–3 after it is filed as an application, or in any supplement or amendment thereto, is or becomes inaccurate for any reason, an amendment must be promptly filed at specified times for each agency, jurisdiction, or organization with which the Form has been filed. Consult the Special Instruction Sheets for those agencies, jurisdictions, or organizations.

12. Where an item is being amended only the pages being amended need be filed, except that a completed page, manually signed, must be filed with each amendment. When any item on a page is amended, it is necessary to answer all other items on the page being amended.

IV. INSTRUCTIONS AS TO SPECIFIC ITEMS ON FORM U–3

13. Item 1—If this Form is filed as an amendment, only items 1, 2, 3, 4, and 5 and those items which are being amended or which have changed since the previous filing need to be answered. Remember to complete all items on the page being amended.

14. Item 2(a)—Check all agencies, jurisdictions, or organizations with which you are going to file the Form. If you are registering with more than one agency, jurisdiction, or organization, or are already registered with any of the agencies, jurisdictions, or organizations, or have an application pending, indicate each agency, jurisdiction, or organization with the appropriate code number in the space provided. CODE NUMBERS: If currently applying, insert number 1; If already registered, insert number 2; If application is pending, insert number 3. NOTE.—This item is to be periodically updated only when page is otherwise filed. Do not update this item alone.

15. Item 2(b)—Include a street address; post office box numbers alone are not acceptable.

16. Item 2(d)—State your current legal address. If you expect to move within three months from the date on which the application or amendment is submitted and know the new address, give the new address on a separate Schedule E. If you do not know the new address, notify the agencies, jurisdictions, or organizations with which the application has been filed immediately after the new address is known.

17. Item 5—Item 5 must include a manual signature.

18. Item 6—If this Form is filed as an application by a predecessor broker-dealer on behalf of a successor not yet formed or organized, the information furnished shall relate to the successor to be formed. The Form shall be executed by the predecessor. Section 15(b) of the Securities Exchange Act of 1934 and Rule 15b2–1 provide that registration shall terminate on the forty-fifth day after the effective date unless prior thereto the successor shall adopt the application as its own. This procedure cannot be used where the successor is a sole proprietor.

19. Item 7—If a registered partnership is dissolved and a new one is created to continue the business of the old one, the new partnership must file a new or successor application as a broker-dealer.

20. Item 10—Check your answers to items 2(b), 6, 7, 8, 9, and the related Schedules for the names of all persons who are covered by any of the subsection of item 10. Likewise list any persons who directly or indirectly control or are controlled by the applicant. List each of these persons on a Schedule D and give full details of any of these incidents, including, for example, the parties involved, time and place, subject matter, and the outcome of the proceedings.

21. Item 11—Refer to Schedule D and Instruction 23.

22. Schedule C is to be completed only by organizations or associations which are not sole proprietors, corporations, or partnerships.

23. Schedule D—Schedule D is to be filed for two classes of persons described in Note (a) and Note (b) at the top of Schedule D. "Person" in Note (a) of Schedule D includes only natural persons. "Person" in Note (b) of Schedule D includes corporations, partnerships, and other organizations. Schedule D is to be completed for each natural person named in Items 2(b), 6, 7, 8, and 9 or any Schedules thereunder and for all other persons listed in Schedule A or subject to any action reported under item 10. If the "person" listed on Schedule A or subject to any action reported under item 10 is other than a natural person, complete only Parts I, II, and VII of Schedule D.

24. Schedule E may be used (1) where the space provided for any answer on Form U–3 is insufficient; or (2) in response to all items in the Form which require the submission of a Schedule E.

25. Schedule F is to be completed only if and to the extent required by the Special Instruction Sheet of the jurisdiction(s) to which you are applying. The Special Instruction Sheets will indicate what items are to be completed for each jurisdiction.

26. Key to State Abbreviations and List of Mailing Addresses

AL—Alabama.	MT—Montana.
AK—Alaska.	NE—Nebraska.
AZ—Arizona.	NV—Nevada.
AR—Arkansas.	NH—New Hampshire
CA—California.	NJ—New Jersey.
CO—Colorado.	NM—New Mexico.
CT—Connecticut.	NY—New York.
DE—Delaware.	NC—North Carolina.
DC—District of Columbia.	ND—North Dakota.
	OH—Ohio.
FL—Florida.	OK—Oklahoma.
GA—Georgia.	OR—Oregon.
HI—Hawaii.	PA—Pennsylvania.
ID—Idaho.	RI—Rhode Island.
IL—Illinois.	SC—South Carolina.
IN—Indiana.	SD—South Dakota.
IA—Iowa.	TN—Tennessee.
KS—Kansas.	TX—Texas.
KY—Kentucky.	UT—Utah.
LA—Louisiana.	VT—Vermont.
ME—Maine	VA—Virginia.
MD—Maryland.	WA—Washington.
MA—Massachusetts.	WV—West Virginia.
MI—Michigan.	WI—Wisconsin.
MN—Minnesota.	WY—Wyoming.
MS—Mississippi.	PR—Puerto Rico.
MO—Missouri.	

There would be inserted at this point a list of each of the agencies, jurisdictions, and organizations with which this Form may be filed and the correct mailing address for each.

END OF INSTRUCTIONS

FORM U-3

UNIFORM APPLICATION FOR REGISTRATION, MEMBERSHIP, OR LICENSE AS A BROKER-DEALER OR TO AMEND SUCH AN APPLICATION UNDER THE SECURITIES EXCHANGE ACT OF 1934, OR UNDER THE LAWS OF THE JURISDICTIONS LISTED BELOW OR UNDER THE CONSTITUTIONS AND RULES OF THE SELF-REGULATORY ORGANIZATIONS LISTED BELOW.

General: Read the instruction sheet before preparing the Form. Read the Special Instruction Sheets for each agency, jurisdiction, or self-regulatory organization with which this Form is to be filed. Please print or type all responses.

If this application is filed as an amendment, only items 1, 2, 3, 4, and 5 and those items which are being amended or which have changed since the previous filing need to be answered.

Address

Form U-3

As part of this application complete the following questions and attach the applicable schedules:

6. If applicant is a corporation, complete Schedule A.

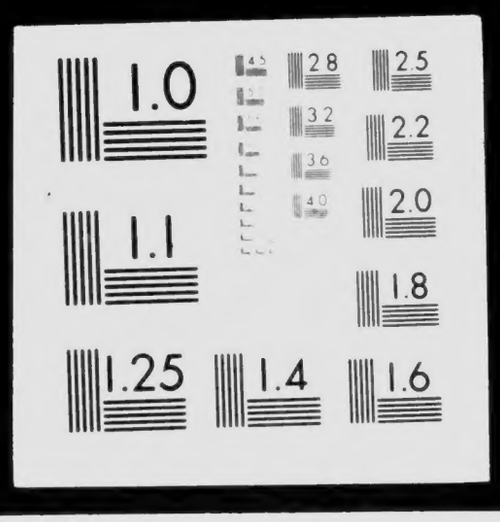
7. If applicant is a partnership, complete Schedule B.

8. If applicant is other than a sole propreitor, partnership, or corporation, complete Schedule C.

9. (a) Does any person not named in items 2(b), 6, 7, 8, or any Schedule thereunder, directly or indirectly, through agreement or otherwise, exercise or have the power to exercise a controlling influence over the management or policies of applicant?

Yes___ No___

If "yes", state on Schedule E the exact name (if individual, state last, first, and middle names of each person) and describe the agreement or other basis through which such person exercises a controlling influence.



(b) Is the business of applicant wholly or partially financed, directly or indirectly, by any person not named in items 2(b), 6, 7, 8, or any Schedule thereunder in any manner other than by: (1) a public offering of securities made pursuant to the Securities Act of 1933; (2) credit extended in the ordinary course of business by suppliers, banks and others; or (3) a satisfactory subordination agreement, as defined in Rule 15c3-1 under the Securities Exchange Act of 1934?

Yes___ No___

If "yes", state on Schedule E the exact name (last, first, middle) of each person and describe the agreement or arrangement through which such financing is made available including amount thereof.

If any item on this page is amended, you must answer in full all other items on this page and file with a completed and signed page one. No Schedule required by any item on this page need be filed with an amended item unless the Schedule itself is amended.

RESOLUTION CHART

100 MILLIMETERS

INSTRUCTIONS Resolution is expressed in terms of the lines per millimeter recorded by a particular film under specified conditions. Numerals in chart indicate the number of lines per millimeter in adjacent "T-shaped" groupings.

In microfilming, it is necessary to determine the reduction ratio and multiply the number of lines in the chart by this value to find the number of lines recorded by the film. As an aid in determining the reduction ratio, the line above is 100 millimeters in length. Measuring this line in the film image and dividing the length into 100 gives the reduction ratio. Example: the line is 20 mm. long in the film image, and $100/20 = 5$.

Examine "T-shaped" line groupings in the film with microscope, and note the number adjacent to finest lines recorded sharply and distinctly. Multiply this number by the reduction factor to obtain resolving power in lines per millimeter. Example: 7.9 group of lines is clearly recorded while lines in the 10.0 group are not distinctly separated. Reduction ratio is 5, and $7.9 \times 5 = 39.5$ lines per millimeter recorded satisfactorily. $10.0 \times 5 = 50$ lines per millimeter which are not recorded satisfactorily. Under the particular conditions, maximum resolution is between 39.5 and 50 lines per millimeter.

Resolution, as measured on the film, is a test of the entire photographic system, including lens, exposure, processing, and other factors. These rarely utilize maximum resolution of the film. Vibrations during exposure, lack of critical focus, and exposures yielding very dense negatives are to be avoided.

THE END
